ROGERSVILLE MAN KILLED IN MILL AT DOUGLASTOWN

Ozle Baill died in the Miramichi Hospital Friday night at eleven o'clock from injuries received during the afternoon while at his work in J. D. Buckley's mill at Douglastown. He was working in a canter's position when a log upended striking him and throwing him against the middle stanchion of the carriage. The unfortunate man was at once conveyed to the hospital but his skull was badly fractured and he lived only a few hours. He was a resident of Rogersville.

Foster Government Will "Carry On" With Small Majority

Government Again Receives Endorsement With 24 Out 48 Seats, Opposition 13, United Farmers 9 and Labor 2.

With some doubt still existing regarding at least one seat, the best figures available for the provincial general elections held on Saturday give the Government 24 of the 48 seats, the Opposition 13, the United Farmers 10 and Labor 2. The Government claims one additional seat from the Opposition in Kings County. Even with the extra seat the Government will find it necessary to depend on the support of some Farmer or Labor members in order to carry on but in his speech on Saturday night after the results had been made known, Premier Foster announced that assurances of support he had received made him perfectly confident that he would be able to carry on. Two of his ministers, Hon. Robert Murray, Northumberland, Provincial Secretary, and Hon. J. F. Tweedale, Victoria, Minister of Agriculture, were defeated.

The success of Premier Foster and his three colleagues in St. John City where formerly he had held only one seat, was one of the interesting features of the contest.

The candidates elected were as follows:

Madawaska—By acclamation, Michaud and Daigle, Government.
St. John City—Premier Foster, Hon. W. F. Roberts, Ministers of Health, W. E. Scully, R. T. Hayes, Government.

St. John County—J. B. M. Baxter, leader of the Opposition, Dr. L. M. Curren, Government.
Moncton City—Hon. C. W. Roblin; son, Government.

Westmorland—Hon. Fred Magee, F. E. Bourgeois, F. L. Estabrooks, Reid McManus, Government.

Kings—O. W. Wetmore, Government; H. V. Dickson, G. B. Jones, Opposition.

Queens—Hon. Dr. J. E. Hetherington, G. H. King, Government.
Northumberland—F. Fowle, J. W. Vanderbeek, Farmers; J. S. Martin and C. J. Morrissy, Labor.

Of the forty-eight members elected, twenty-four were members of the last legislature.

The result in the different counties as sent out from St. John gives Westmorland four Government, while the figures so far as we could gather them, show three Government and one Farmer elected.

Better Off Than Before Election, Says Premier Foster

St. John, Oct. 10—Premier Foster tonight issued the following message to the people of New Brunswick:

"I desire to express sincere thanks to the electors of St. John and the other constituencies which gave the Government such splendid support on Saturday. The administration is in a much better position than it was before the election, for while it is true that we have three seats or perhaps two, or even one less than we had in the last House, the Opposition has seven less.

"The Government will continue to carry on and will give the fullest possible effect to its progressive policies.

(Signed) **W. E. FOSTER**

Provincial Employee Lost on Miramichi

A cruiser, by the name of Kinney, in the service of the Forestry Dept. of the Provincial Government with a survey on the headwaters of the Miramichi, has been reported missing by a dispatch from the party's base at Glasville, Carleton County. Kinney it appears is well acquainted with the section of the woods in which they are operating and is also an experienced hunter and guide and this makes his disappearance probably the result of mishap.

The missing man left his party on a short hunting expedition. It is quite probable that no uneasiness was felt at first since the party without doubt had great confidence in the

cruiser's knowledge of the ways of the woods. However, a search was at length made and the only clue found was an overturned canoe in a lake.

Thirty Wives From Settlement

The party was at the time camping at a distance of about thirty miles from the settlement and village of Glasville so it would seem altogether impossible that the men would have left for either any other point without first indicating the same to his camp.

The news was brought out yesterday and an investigation is already being made which will it is believed, disclose the details of the incident in the course of a few days. A man was seen to enter the party.

BOOTS AND SHOES AT THE

Wilson Is Able To Eat Anything Now

Ten Years Trouble Ended And He Feels Fine Since Taking Tanlac

"I can hardly believe I am the same person I was before I started taking Tanlac, as for the first time in ten years I can eat a hearty meal without being in misery afterwards," said Harry Wilson, of Sunny Brae, a suburb of Monoton, N. B.

"All these years I suffered about as bad as anybody ever did from indigestion," said Mr. Wilson, "and if I ever ate a single thing and did not suffer from it afterwards I don't know when it was. I had no appetite and at times the very sight of food would make me sick. After every meal I had a heavy feeling in my stomach like there was a lump or lead inside of me. I would often bloat up terribly with gas and could get but little sleep, as I would just lie awake for hours hardly able to get my breath.

"I had been reading so much in the newspapers about the good Tanlac was doing others that I decided to try it myself. Well, sir, I began to get better almost at once after I started taking Tanlac. My appetite commenced to improve and today I can eat anything I want without a sign of indigestion. I am never troubled with gas, bloating or shortness of breath or any other bad after-effects. I am a great deal stronger and have gained several pounds in weight and in fact, I am in the best of health in every way, thanks to Tanlac. I hope this statement will encourage someone else who is suffering from indigestion to take Tanlac for after ten years of suffering I know how bad it is, and I also know that Tanlac will end it."

Tanlac is sold in Newcastle by M. J. Morris, in Redbank by W. M. Sullivan and in Doaktown by O. Hildebrand.

LIKE A MAGNET

THE manner in which Zam-Buk draws disease and poison out of the skin has been aptly described as "magnetic." Sores and wounds are cleansed and soothed, new healthy skin grown, in a way which is a positive revelation in the art of skin-healing.

Even obstinate and long-standing sores yield in an astonishing way, for Zam-Buk has antiseptic and germicidal properties that cannot be found in any other preparation. Zam-Buk

Draws Disease out of the Skin.

The marvellous success of Zam-Buk is due to its rare herbal origin and the scientific methods employed in its blending, refinement and concentration. Then Zam-Buk is entirely free from the animal fats and mineral impurities which make common ointments and salves harmful and even dangerous to some skins.

Dr. Vernon Shibley of 1103 Wyoming Avenue, Washington, D.C. writes: "For sixteen years I have used Zam-Buk in my practice and know nothing to compare with it in skin trouble, from roughness and irritation to chronic skin disease. Zam-Buk, without doubt, has wonderful curative properties, and I always recommend it in preference to other remedies."

Of all druggists and stores 50c per box, or from Zam-Buk Co., Toronto FREE Trial sample on request if 1c stamp is sent (for return postage).

Only Tablets with "Bayer Cross" are Genuine Aspirin

"If you don't see the 'Bayer Cross' on the tablets, you are not getting Aspirin—only an acid imitation. The 'Bayer Cross' is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over sixteen years and proved safe by millions for Headache, Neuralgia, Cold, Rheumatism, Lumbago, Neuritis, and for Pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized 'Bayer' packages can be had at drug stores. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monzonstedt, Germany.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their 'Bayer' trade mark, the 'Bayer Cross.'

New Brunswick Boy Makes Progress

New Brunswickers may well feel proud of the record that one of their sons, Thomas J. Gallivan, of Chatham, Canada's famous law school, Toronto, has made at Osgoode Hall, Toronto. Mr. Gallivan set his goal, the completion of what usually is a three years' course in the law in twelve months. How well he accomplished the task may be judged from the fact that he will in all probability receive a call from the Ontario Bar this month.

Mr. Gallivan, who is a son of E. J. Gallivan, a prominent merchant of Chatham, graduated with honors in Arts from the University of Toronto in 1916. Immediately after he returned home he enlisted in a Halifax unit and proceeded overseas in October of the same year. After completing the necessary course of training he was sent to the R. C. R.'s as a signaller. He saw considerable service with this famous battalion and was so seriously wounded in the left leg at the crossing of the Canal du Nord that he will be lame for life. After a long sojourn in hospitals in this country as well as in England he was given his discharge late in the summer of 1919.

Following his discharge from the army, he applied for admission to Osgoode Hall. On account of his war record Mr. Gallivan was allowed to write the first year papers immediately. These he passed with high honors and entered on his second year work in October, passing the exams in June of this year with honors in all subjects. The ordinary student would consider this a proud enough record for one year, but Mr. Gallivan was determined, if possible, to complete his course in one year. Accordingly he took the mid-summer course of study and passed his final third year papers in September.

Mr. Gallivan's record is an exceptional one, and it is an admirable object lesson of what ability combined with concentrated effort can accomplish.

Want Government To Control Wheat Crop Price Again

Regina, Sask., Oct. 7.—A deputation representing farmers of Saskatchewan waited on Hon. J. A. Calder today for the purpose of presenting a resolution demanding the immediate restoration of the Wheat Control Board.

Mr. Calder said just so long as the United States, Argentina, Australia, Egypt and India continue to sell in the open market, the wheat importing countries will buy in that market. While he was not prepared to express a definite opinion, he was inclined to express the view that control by Canada alone would do more harm than good.

Preparing for Winter

Get the pullets into winter quarters before they begin to lay so that they will not receive a set back, but do not bring them in early in the fall unless they are well developed, as young stock on range will develop during the bright, cool fall weather.

Before bringing the pullets in, see that the houses have been put in order, thoroughly cleaned, disinfected, and all cracks in walls or roofs carefully stopped so as to avoid drafts or dampness. All broken glass should be renewed and the cottons either mended or renewed so that they will be ready to use when required. This, however, does not mean that when the pullets are put in that the windows should be closed, far from it.

When the birds are put into winter quarters the conditions should be made as nearly as possible similar to range conditions. Keep the front of the house wide open so as to allow all the fresh air possible, and keep it that way as long as weather conditions will permit.

When the stock was on range it was supplied with grains, both whole and ground, besides which they consumed large quantities of green feed, grass and other tender vegetation, animal feed, grasshoppers, bugs and insects, and mineral matter, small stones and, possibly, small shells. See to it that, when the stock is confined, all these feeds are liberally supplied. Scatter grain in the litter morning and evening. Keep hoppers of dry mash constantly before them, also hoppers of beef scrap to replace the bugs and insects which they formerly picked upon range. To replace the green feed which they were able to gather, supply rape, mangolds, cabbage, sprouted oats, clover and any similar feed that is tender and appetizing. This green feed is of especial importance at this time of the year and if not liberally supplied the sudden change to a heavy diet is liable to result in liver derangement.

Use judgment in feeding and handling. See that the stock never wants for clean water. Feed sparingly with scratch feed in the morning so that the stock will continue active throughout the day. Look carefully after the stock, supplying dry weight, well-ventilated quarters, with feed as previously suggested and your poultry will prove one of the most paying branches of your farm work.

Rock-a-by, Baby

(From the Montreal Gazette.) There are few girls in this country who have not heard the nursery rhyme sung by mother: "Rock-a-by, baby on the tree top, When the wind blows, the cradle will rock; When the bough breaks the cradle will fall, And down will come cradle, baby and all."

But how many know the origin of these lines? Shortly after the Pilgrim Fathers landed at Plymouth, Mass., a party were out in a field, where the Indian women were picking strawberries. Several of these women, or squaws, as they are called, had "papposes"—that is, babies— and, having no cradles, they had them tied up in Indian fashion hung from the limbs of surrounding trees. When the wind blew these cradles would rock. A young man of the party observing this, peeled off a piece of bark, and wrote the above lines, which it is believed, was the first poetry ever written in America.

THIS WOMAN'S MISERY

Ended by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with falling of my organs, pains around my heart and in bowels and down my legs, neuralgia in my face and head, and that terrible sinking feeling. I felt that I could not live and would fix my house in order every night so there would be no trouble if I dropped off in the night. My husband went to the druggist to get the best remedy he had and he gave him Lydia E. Pinkham's Vegetable Compound. I took six bottles and felt a lot better. I will always recommend the Vegetable Compound, and you can use these facts as a testimonial."—Mrs. J. O. CURRICH, Box 845, Smiths Falls, Ont.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from nervous prostration, displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion and dizziness. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills. If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Serious Accident At Chatham

Chatham, Oct. 6.—Aid. R. D. Walsh of W. & R. Walsh, planing mill and sash and door factory proprietors, met with a most painful and distressing accident this morning, while superintending work on a concrete mixer in the mill yard. A concrete foundation is being placed at one end of the factory wall, and in bending over the machine to make some adjustment Mr. Walsh's left sleeve became caught in a set of cogs and his arm was drawn into the machinery, breaking the bones of the forearm and flesh. As soon as the machinery could be stopped and reversed to release the arm, Mr. Walsh was rushed to the hospital, where an operation was performed and the tendons were drawn together and every effort made to save the arm, but as yet the doctors are not sure if its retention is possible.

Bed-Ridden Girl Healed by Faith of J.M. Dickson

Ottawa, Oct. 7.—Five and a half years bed-ridden, her body and limbs below waist being paralyzed, Miss Lafontaine, for almost six years an inmate of St. Luke's Hospital, has recovered and now walks with the ease and grace of any other girl of her age. The restoration of the power of her limbs, according to Miss Lafontaine, is the direct result of the ministrations of James Moore Hickson, the Church of England lay healer, who conducted a mission in St. Albans' Church at the end of June last. She is emphatic in her declaration that the physicians attending her were powerless to effect a recovery, and that her healing is due to the laying on of hands and prayer of Mr. Hickson.

Hold-Up In New York End of the Ball Inquiry

New York, Oct. 7.—The inquiry being conducted here into the local phases of the world's series gambling scandal of last year has come to a standstill, so Assistant District Attorney James E. Smith admitted today.

He said his detectives failed to locate three alleged gamblers, one of them Abe Attell, former feather-weight champion, in a three day hunt throughout the city. Grand jury subpoenas were carried by the detectives. "There is no hurry, as the crime was a year ago," declared Mr. Smith adding that he was going to "sit tight and wait, confident that 'sooner or later' the trio would show up at their customary haunts.

Employment Service Of Canada

The Employment Service of the Department of Labour reports that returns from the Dominion and Provincial offices of the Employment Service of Canada for week ending September 11, show a decrease in placements as compared with the returns for the preceding week. The offices reported that they had made 9,412 references to regular positions and that 8,523 placements were effected. This is a decrease of 1,076 when compared with the returns for the previous week, when 9,599 placements were reported. On the other hand, an increase of 363 is shown when compared with the returns for the corresponding week of last year when 8,160 placements were reported. In addition, 1,651 casual jobs were supplied as compared with 1,795 during the week ended September 4.

During the week, 9,579 applicants were registered, of whom 8,673 were men and 906 were women. This represents a decrease of 1,425 in registration when compared with the returns for the preceding week when 11,004 applicants were registered. The number of vacancies notified by employers to the Service during the week totalled 15,126, of which 14,000 were for men and 1,126 were for women. When compared with the 13,314 vacancies of the preceding week, this is an increase of 1,812. Of the placements in regular employment, 7,879 were of men and 644 were of women.

Of the placements in regular employment, 72 were reported by New Brunswick offices, as compared with 83 the preceding week. Quebec offices reported 258 placements, 140 within the province and 118 in other provinces as compared with a total of 27 during the preceding week. Placements reported by Ontario offices totalled 2,214 of which 2,174 were within the province and 40 in other provinces, as compared with a total of 2,471 during the previous week. The Prairie Provinces reported placements as follows:—1,567 by Manitoba offices, of which 1,435 were within the province and 122 in other provinces, as compared with a total of 2,047 during the previous week; 1,604 by Saskatchewan offices, 1,598 within the province and 6 in other provinces, as compared with a total of 1,525 during the preceding week; 1,804 by Alberta offices, 15 of which were in other provinces, as compared with a total of 1,992 during the week previous. British Columbia offices reported 1,004 placements, 924 within the Province and 80 in other provinces, as compared with a total of 1,201 during the week ended September 4.

Winter Calf Rearing

To many, winter seems an off season in which to raise calves, but nevertheless it is a fact that most successful calf raisers find it to be the best season. In the first place the farmer has more time to give the proper attention to the details so important in calf feeding; secondly there is usually a greater supply of skim-milk owing to the smaller number of pigs raised in the winter than in summer; lastly the calf has not got the summer heat and flies to contend with and is just at a nice age to turn to pasture the following spring.

When the calf is dropped it should be allowed to remain with its dam until she has licked it clean and dry or else be removed to a separate stall and rubbed dry with wisps of straw or a piece of bagging. If at all possible the winter raised calf should have the brightest, driest and sunniest place in the stable for its winter quarters and they should be kept clean at all times for comfortable quarters mean almost as much as good feeding. The calf should receive within twelve hours, a feed of the colostrum or first milk from its dam. It is important the calf gets a feed of this milk as it has a beneficial effect on the bowels and ensures the calf getting the proper start. For the first few days the cow should be milked and the calf fed three times daily, the milk being fed while still at blood heat. Eight to ten pounds per day should be sufficient for the average calf. Feed the calf whole milk for the first two to four weeks depending on its strength, a weak or puny calf being carried on whole milk for the longest period. Gradually change from milk to skim-milk making the period in which the change is made extend over about ten days as abrupt changes are apt to bring on digestive troubles. At this time the calf should be consuming about twelve pounds of skim-milk daily in two feeds. As the change is made from whole to skim-milk the fat removed from the milk should be replaced by adding a tablespoonful of finely ground scalded flaxseed jelly. The proportion of the flaxseed jelly and skim-milk can be increased gradually and at about three months of age add to the flaxseed jelly other constituents to make a calf meal composed of ground flax, 1 part, fine ground oats 2 parts, and ground corn 2 parts. This mixture to be fed in the milk similarly to the flaxseed jelly, at the rate of ½ pound per day at four to five months. At this time the skim-milk ration may be cut off and the dry grain ration mentioned be-

low increased proportionately. It is well to start the calf eating a little dry and bulky food as early as possible. With this end in view a small quantity of fine clover hay and whole oats should be kept before the calf after it is a month old. As the calf grows older the whole oats may be replaced by a mixture of bran, rolled oats, and ground corn. This mixture should be fed at noon at the rate of ½ pound per day at start up to 1½ pounds per day at time of reducing skim-milk and calf meal mixture at which time the dry grain mixture may well be increased to 3 pounds per day and be fed in two feeds, morning and evening. Roots are a valuable feed for growing calves and may be introduced into the ration in small quantities when the calves are from two to three months of age. Silage should not be fed to very young calves and as it usually gets strong towards the latter part of the winter, only very small quantities should be fed if used at all. Feed salt in limited quantities regularly. Provide fresh water but do not let the calves gorge themselves with it.

Strict attention should be paid to the cleanliness of the utensils and mangers in which calves are fed as well as to the box stalls in which they are quartered. The latter should be cleaned out at least once a week and preferably oftener.

The above ration may seem heavy and the feeding of it a matter of some detail, but it is attention to these points that ensures well grown calves capable of developing into profitable mature animals.

Liberal Support of Lloyd George

LONDON, Oct. 7.—The first number of the new Lloyd George Liberal magazine which is to be issued monthly with the object of supporting the government policy, appears today. It contains a special interview with the Premier devoted to the defence of the coalition government. Incidentally, Lloyd George expresses the belief that the United States will formally join the League of Nations after the presidential election and asserts that when Germany also enters, which will be as soon as she gives proof of her good faith, the League will become an effective instrument instead of, as now, a mere league of the Allies. Discussing Ireland, the Premier refuses to believe that the supporters of

Mr. Asquith have the smallest assurance that they could carry dominion home rule, even if they had a majority in the House of Commons. He argues that quite apart from the difficulty concerning the army and navy, the British people did not like to consent to a measure giving Ireland control of her own taxation, because that would almost certainly result in Ireland evading the taxation necessary to provide for obligations of the national war debt.

The Premier, however, admits that if some one entitled to speak for Ireland and whose word could be trusted would undertake the necessary guarantees in this respect it would be a different matter.

KING COLE TEA

Ten Years After

Ten years ago the first packages of KING COLE TEA were packed and put on the market. The time that has elapsed since then has been filled with hard work and with many difficult situations to be met and overcome. But withal, it has been a period of unquestionable, steady and persistent progress. KING COLE TEA has never looked back. Every year has brought its increase. Today its sale is ten times greater than the first year's business. This is the public's remarkable tribute to the worth of KING COLE TEA. It speaks for unusual service.

MATTER OF PRINCIPLE
In justice to our readers, we wish to state that "The Union Advocate" did not take any stand in the Provincial Election, which was held last Saturday, Oct. 9th, except from a purely Liberal-Conservative viewpoint. As is well known "The Union Advocate" is Liberal-Conservative in its politics and stands for Liberal-Conservative principles. In the recent Provincial Election, Liberal-Conservative principles were not involved, as one of the tickets was LIBERAL and the other INDEPENDENT. We refused both parties our columns for advertising purposes, and by so doing forfeited business on which we would have made a profit, but it is not a matter of dollars and cents with us, but one of principle. We think our readers will appreciate our attitude in this matter, whether they be Liberal or Liberal-Conservative.

CHATAQUA THIS WEEK
Chataqua opens tomorrow in St. James' Hall, and continues until Friday evening. The performances this year are in a class by themselves and are much superior to those of last year. This is an opportunity for Newcastle folks to hear some of the highest class educational music and lectures ever given in the town. To give this class of entertainment to our people, means the guarantee of a large amount of money and the spending of a lot of time on the part of the guarantors. The guarantors are prepared to devote their time, but they should not be compelled to put their hands in their pockets to meet a deficit in its connection. It is up to the people of the town to show their appreciation of the guarantors efforts in this matter and they should purchase their tickets before the opening performance, as the money taken in after the opening performance does not go to the credit of the guarantors. Today is the last day for you to purchase your season tickets and advantage of same should be taken by the citizens to secure them at once, and by so doing ensure themselves of a repetition of this high class entertainment in future years.

Rheumatic People

Can Only Find Relief by Enriching the Blood

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but is not the cause. The cause is in the blood and the blood only. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood which will shortly leave the victim painstricken and helpless. There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health. You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Newcastle, N. B.
Oct. 12th, 1920

To the Editor of the Union Advocate
Newcastle, N. B.

Dear Sir:
Would you kindly allow me space in your columns for the following observations.

The Electors having cast their ballots on Oct. 9th, and the supporters of honest government having been defeated at the polls in Northumberland County, a mass meeting of the intelligent electors of Newcastle was held in the town square,--Orators of all classes responding. The leading orator addressing the public ridiculed the Foster government from every point of view and every department. He found great fault with this government for not having brought Mr. Fleming before the courts and having him punished for his misdeeds. Would the Honorable Speaker be anxious to give evidence, should Mr. Fleming be brought to trial, and would his evidence show what Mr. Fleming did with the money obtained from the lumbermen and the people of this province?

Would his evidence show whether Fleming threw his stocks and bonds into the waste basket or the fire; or whether these assets have been submerged in barrels of paint? In fact, would his evidence be FOREIGN to the name of the speaker? In 1917, the people of New Brunswick, not excluding Northumberland County,--anxious to purify the political atmosphere,--appealed to honest men, and appealed even to Doctors,--FOREIGN in some cases,--to disinfect the political field.

Are they satisfied today with soft soap and washer women to keep the field of New Brunswick politics clean? This Honorable Orator referring to his having been thrown out of the Clarke government states that he did

not know why he was thrown out. Why did he not ask Mr. Baxter, with whom he has been recently associated?

Yours very truly
F. C. McGRATH, M. D.

Ottawa Is Only Mildly Surprised At the Results

Ottawa, Oct. 10--New Brunswick election results were received with mild surprise at the capital tonight. While the general expectation had been that the Foster Government would have at least a small working majority over all opponents, predictions as to the probable outcome of the voting have usually been qualified with the observation that elections are harder to forecast than they were in the days when contests were confined to two parties.

Shows More Groups

Montreal, Oct. 10--Referring to the election the Gazette says: "The election of a legislature for the Province of New Brunswick on Saturday showed that the development of political groups had been greater than observers generally anticipated. On the face of the situation, it cannot be said what the outcome will be, but unless full returns change the representation of parties somewhat the government, like that of Manitoba, which faces a similar situation will have the advantage."

Today is your last to buy Chataqua Season tickets.

"Rube" Marquard Is In Trouble

Cleveland, Oct. 11--Richard (Rube) Marquard, Brooklyn pitcher, will not receive his share of the world's series gate receipts until after the ticket scalping charges made against him here have been settled. John Huyler, president of the National League announced at today's game. Marquard was arranged in court this morning and his case continued until October 15.

"The National League will hold his share of the receipts until the case has been settled," said Mr. Huyler. "If he is found guilty the league itself will take action." Asked what action the league might take, Mr. Heydler said it would "be plenty stiff enough to make Mr. Marquard wish he'd never seen a world's series ticket."

Importance of Nitrogen

Importance of nitrogen--Nitrogen is one of the three main elements absolutely required for the production of good crops and its importance is everywhere acknowledged. Usually it exists in soils in connection with humus or vegetable matter and, through excessive cultivation in grain or in timothy, also by surface washing, its loss has been going on for a long time in the older settled parts of Eastern Canada. This is why, at many places, it is the limiting factor to profitable farming. Forms of nitrogen--Nitrogen bearing fertilizers are either organic, when they are derived from animal and vegetable by-products such as tankage and cottonseed meal, or non-organic when derived from salts such as nitrate of soda and sulphate of ammonia. It is easy for the man producing crops of a high commercial value, like fruits, vegetable or flowers, to use large quantities at a profit, but the question demands more careful consideration from the farmer who raises staple crops of a much lower value per acre.

Experiment at Cap Rouge--In 1915, an experiment was started at the Cap Rouge Experimental Station to compare nitrate of soda with sulphate of ammonia on a three year rotation of potatoes, oats and hay. There were six plots and the respective quantities of seed were 90 pounds potatoes, 85 pounds oats, 12 pounds red clover, 8 pounds timothy, 2 pounds alsike per acre. Fertilizers applied--The six plots were of one fortieth of an acre each; three received nitrate of soda at the respective rates of 133 100, 66 pounds per acre, whilst the three others received sulphate of ammonia at the respective rates of 100, 75, 50, pounds per acre, the quantity of clover thus applied being equal in both cases. With each of the different forms of nitrogen there was an application of phosphorus and potassium at the respective rates of 25 and 60 pounds per acre, so that these two elements were possibly in sufficient quantity for optimum production.

Results of experiment--For the crop immediately following the application of fertilizers which was potatoes in this case, the results are strongly in favour of nitrate of soda, as it gave a yield 38% larger than the one obtained with sulphate of ammonia. The crops of the two following years, however, oats and hay, were about the same with each of the two fertilizers, which would tend to show that their residual

Their Glory Shall Not Fade

In the special order issued to the Canadian troops on March 27, 1919, General Sir Arthur Currie wrote: "To those who will fall I say, 'You will not die but step into immortality--your names will be revered forever and ever by your grateful country, and God will take you unto Himself.'"

The pledge thus given is being faithfully fulfilled in relation to employees of the Canadian Pacific Railway Company by the placing of bronze memorial tablets at over a score of its principal offices and stations. Furthermore two imposing bronze statuary groups have been designed for the great C.P.R. Stations at Montreal and Winnipeg to stand forever as tribute to the heroism and self-sacrifice of C.P.R. men who died in the cause of freedom. Far-flung and scattered are their graves, but single was their spirit and their ideal, the service of their country.

Out of 11,602 employees who were reported as joining the Forces, 1,096, or nearly ten per cent paid the supreme sacrifice. These came from every rank of the company, from every department, and they served by air, land and sea--faithful unto death.

The bronze tablet, replicas of which will be placed at the principal railway centres in each province of Canada, and also in London, Liverpool and the Orient, has been designed by Mr. Archibald Pearce, of the Chief Engineer's Department of the company, and is being engraved at Worcester, England, by the Bromsgrove Guild and Applied Arts. The tablet depicts an advancing army of infantry, cavalry, artillery, supplies, munitions, tanks and railway transport flanked on either side by a warship and a C.P.O.S. liner with aeroplanes flying overhead. Britannia casts wide outstretched hands to the Overseas Dominions and points out the road to death and glory while underneath is a scroll with the list of the chief battles in which the C.P.R. men fell. The inscription commemorates:

"Those in the Service of the Canadian Pacific Railway Company who at the call of King and Country, left all that was dear to them, endured hardship, faced danger, and finally passed out of sight of men by the path of duty and self-sacrifice, giving up their own lives that others might live in freedom. 'Let those who come after see to it that their names be not forgotten.'"

The large bronze statuary group which will be duplicated for the C.P.R. Stations at Windsor, Montreal and at Winnipeg, is the work of Coeur de Lion MacCarthy, the well known Montreal sculptor. In majestic and impressive allegory, it represents the uplifting of the soul of a hero from the battle lines to that home from which no traveller returns. The armed figure of a soldier clad in khaki, battle-stained, yet tranquil in death, is borne heavenwards by a winged and laurel wreathed Angel of Victory. The figures in the group, are of heroic proportions, over seven feet high, supported upon a marble pedestal. Thus shall the memory of the gallant dead remain in inspiration to their comrades and to the world at large. By their sacrifice for the Empire, they kept clear and open the

Imperial Highway, and on the stations of that Highway their glory shall forever be recorded.

HATS WILL BE ON SALE AT THE RUMMAGE SALE ON OCTOBER 16TH.

A Clinical Congress At Montreal

Montreal, Oct. 11--The formal opening of the clinical congress of the American Congress of Surgeons, took place tonight in St. James' Methodist church, this city. The feature of the opening was the presentation by the consultant surgeons of Great Britain of a ponderous silver vase to the American College of Surgeons, the presentation being made by Sir Berkeley Monahan, of Leeds, England, supported by Sir William Taylor, of Dublin, Ireland, and Albert Caries, of London, England. Dr. W. J. May, of Rochester (Minn.), the retiring president, introduced his successor, Dr. George E. Armstrong, of Montreal, and installed him in office for the coming year. Sir Arthur Currie, principal of McGill University, extended a welcome to the delegates. He stressed the necessity of preserving unimpaired harmonious relations between Canada and the States, which he claimed had been cemented in the past war. Sir Arthur introduced the British surgeons by whom the vase was presented with appropriate addresses.

Guard The Children From Autumn Colds

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet.

An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Had Wrong Kind of Eggs

Corpus, Christi, Tex., Oct. 9—A hen owned by Dr. W. E. Willis of this city is suffering from something akin to nervous prostration, according to the physician.

Dr. Willis found a nest filled with alligator eggs while on a hunting expedition recently. He brought six of the eggs home with him.

A sedate hen in the doctors barnyard was determined to set, and although the sun would have hatched the alligator eggs, Dr. Willis decided to hunt the fowl and put the eggs under her. Biddy waited for but four eggs to hatch, according to the doctor and then left the nest on the dead run, cackling wildly.

Mrs. J. W. Brankley was at home to a large number of her Chatham and Newcastle friends Friday afternoon, 4 to 6 o'clock, and entertained them hospitably. The ladies who served refreshments and gentlemen who called in the evening enjoyed a game of bridge.

WEDDINGS

ANDERSON—WOOD

On September 28th, at the Manse, Douglastown, Miss Roberta N. Wood, was united in marriage to Mr. John Norman Anderson, of Newcastle. The ceremony was performed by Rev. Mr. Firth, in the presence of a number of the friends of the contracting parties. They were unattended. Mr. and Mrs. Anderson will reside in Newcastle.

LAYTON—McCLOSKEY

A wedding of interest took place Wednesday morning Sept. 29th, at 6.30 o'clock in St. Joachim's Church, Boiestown, N. B. which was artistically decorated for the occasion with potted plants, when Miss May Vada McCloskey, only daughter of Mrs. Catherine McCloskey was united in marriage to Joseph Aloysius Layton son of Jacob Layton of Blackville, N. B. by Rev. Father Chas. O'Connell with nuptial mass.

The bride who was given away by her brother, Hedleigh, entered the church to the strains of the wedding march played by Miss Lillian Dunn of Blackville, N. B., she looked charming in her travelling suit of navy blue Tropicene with hand embroidered Duvetyn Vest over a Cream Silk Georgette Blouse with chenille trimmings and wore a large black picture hat, her only ornament being a Sunburst of Pearls with diamond centre the gift of the groom.

She was attended by her cousin Miss Mary McCloskey who wore a dress of navy blue tulle with large black hat. The groom was supported by his brother Benedict.

The groom is a returned soldier having gone overseas with the 65th Battery.

Following the ceremony a dainty wedding breakfast was served at the home of the brides Mother after which Mr. and Mrs. Layton left amid showers of confetti for St. John, Halifax and other points in the Maritime Provinces.

On their return they will reside at Nelson, N. B. where the groom holds a responsible position with William M. Sullivan.

The grooms present to the bride-maid was a string of pearls, to the Groomsman a stick pin and to the Organist a gold piece.

Many beautiful gifts were received including cut glass, silver and several cheques.

Both bride and groom have a host of friends who will extend best wishes for much happiness.

Among the out of town guests were Mr. and Mrs. Spencer and Mrs. Hovey, Ladlow, Mr. and Mrs. Jacob Layton, Misses Helen and Caroline Layton, Blackville, Mr. Thomas Belmonte, Fredericton, Mr. and Mrs. William M. Sullivan, M.E.s Ring, Red Bank.

Wool Yarn Cut To Half Price

Montreal, Oct. 11—The retail price of Canadian woolen yarn made a sensational drop this week when the price of the cheapest grade came down from \$3.25 a pound to \$1.85. This is the first manufactured article to reflect the very low values of raw wool, although it is thought by woolen manufacturers here, that goods by the yard will soon be brought down also by the action of the American manufacturers. Drugs are also following the downward trend and camphor, which during the war cost \$5 a pound, can now be bought for \$1.25. Turpentine has dropped \$1.25 a gallon wholesale, while cocaine is now only \$5 an ounce.

BILL SHARON WON THE FREE-FOR-ALL AT WOODSTOCK

Woodstock, Oct. 8—Nearly six thousand people attended the closing races of the "Overcoat" meet today. Every event was full of thrills but the free-for-all was, of course, the premier number on the card. It was all Bill Sharon from the start of the first heat with Lady Grattan in second place. The old reliable, Fern Hal, made some desperate efforts to come up in front but Cameron, her driver, was clearly outplanned. It was announced that the meeting to be held at Houlton next week was called off.

The horse Onward, Wilkes, 2.14, was lotteried at the close of the races and Stanley Dewitt held the lucky ticket.

Tells of Origin of "Stump Speech"

A correspondent of the Nomad, Mrs. Grace Le Baron Parker, of Tallapoosa, Ga., enlightens us as to the origin of the expression "stump speech," concerning which she recently indulged in some speculations. It originated, she says, with one of the correspondent's ancestors, the Rev. John Wilson, pastor of the First Church, who was of Gov. Winthrop's party when Elder Brewster met and welcomed them. The story is that when political excitement ran high in March, 1887, on the election for Governor of the colony (Winthrop being a candidate), "amid great tumult, the revered pastor of the First Church climbed on the bough of a tree and made an eloquent speech that turned the scale and Winthrop was re-elected." Thus the Rev. John Wilson made the first "stump speech" ever delivered in America, the result of which greatly advanced the new colony. The story is undoubtedly authentic—but was "the bough of a tree" really a stump?

OXO GENERATES HEAT

Concentrated Beef Cubes Fortify Body Against Chills.

An Oxo cube dissolved in a cup of hot water is a splendid thing to take before going out in the cold or damp, or on coming in, if one feels the slightest ill effects. Besides its nourishing and invigorating properties, Oxo acts as a fuel in the body, generating heat that the system requires.

Oxo cubes—in tins of four and ten cubes—have endless possibilities. For soups, sauces, gravies, savory dishes and meat jellies, they do all that meat could do, and do it quicker and with less trouble. Use Oxo cubes with "left-overs" and oddments for new, delicious dishes. There is nothing better than Oxo for building sturdy boys and girls.

USE "DIAMOND DYES"

Do right! Don't risk your material. Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich color into old garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods. Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has "Diamond Dyes Color Card"—16 rich colors.

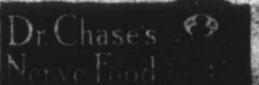

"I Wonder Would It Help Me?"

THIS question has been answered by many thousands of women who have found health and happiness in the use of Dr. Chase's Nerve Food.

Sleeplessness, irritability, nervousness, gloomy forebodings of the future, depression and discouragement—these are some of the symptoms which tell of exhausted nerves.

In order to avoid nervous prostration or some form of paralysis it is well to get the building up process established at once by use of Dr. Chase's Nerve Food.

It costs a box, 3 for \$2.50, all dealers, or Edmunds, Bates & Co., Ltd., Toronto.

Returned Soldier's Insurance Act

All returned soldiers and their families will be interested in the Returned Soldiers' Insurance Act, under which they are provided with an opportunity of obtaining Life Insurance at most favourable rates. The Act became effective on September 1st, 1920, and will remain in force for two years.

Under the provisions of the Act any honorably discharged soldier, sailor, or nurse, of the Canadian Forces domiciled and resident in Canada may insure with the Government to an amount of from \$500.00 to \$5,000.00. Under certain conditions the "law of a returned soldier, who died subsequent to discharge, may also obtain insurance.

In addition to former members of the C. E. F., the privileges of the Act are available to anyone, male or female, who served during the late War in the Imperial Army or with the Forces of any of the allied or associated powers, providing they were domiciled and resident in Canada before the War and hold an honourable discharge.

Many of those who served overseas, while not suffering from a severe disability, find that their physical condition is such that they are unable to obtain life insurance at all or only at much higher rates than are normally demanded. They, therefore, find themselves severely handicapped in providing protection for their dependents. Under the Returned Soldiers' Insurance Act all returned men are placed on an equal basis as no medical examination is required.

The premium rates are low. They vary with the age of the insured and the plan of insurance chosen. At the age of twenty-five a straight life policy for \$1000.00, costs \$1.24 per month. At the age of thirty-five the rate is \$1.70 per month. Beneficiaries are limited in the case of a married man to his wife and children. An unmarried man or a widower without children is required to name his future wife and children as beneficiaries. Should the insured die unmarried the insurance money may be paid to one or more of his immediate relatives according to his will.

An exceptional advantage of this insurance is the provision made for a disability benefit. Under this section should the policy holder become totally and permanently disabled he is relieved from paying further premiums and the insurance money is paid to him direct in annual instalments equal to one-twentieth of the total amount of the policy.

Booklets explaining the Act, and application forms may be obtained from all branches of the Great War Veterans' Association; The Soldiers' Aid Commission; Imperial Veterans' of Canada; Grand Army of United Veterans; Department of Soldiers' Civil Re-establishment; Military District Headquarters and District Offices of the Board of Pension Commissioners; or direct from the Commissioners, Returned Soldiers' Insurance, Transportation Building, Ottawa.

Three Organs Proposed In the Maritime Synod

Pictou, Oct. 7.—The Maritime Presbyterian Synod today adopted a majority report of the committee considering the future of the Presbyterian Witness recommending that the Synod decline to assume the responsibility of advising the directors of the Witness as to their action at the present juncture. A minority report was presented opposing the transference of the Witness to Toronto. After a warm discussion the majority report was finally adopted, on a vote of 26 to 8 and a committee was appointed to bring in a finding that will express the Synod's mind on the situation created by this vote. Rev. D. G. S. Carson, editor of the Witness, was recommended by the Synod as editor in chief of the new Witness. The Rev. Charles MacKinnon and other speakers advocated the establishment of at least three church papers, one in Halifax, one in Toronto and one in Winnipeg.

PEPS

the real breathable tablets, make the throat, chest, and lungs cold-resisting. When a nasty cold or a coughing bout foretells the revival of your old bronchial trouble, the best thing to do is to take Peps at once to strengthen and

PROTECT

the chest. When a Peps tablet is taken from its preserving silver wrapper and allowed to dissolve in the mouth, it gives off powerful medicinal and germicidal fumes that immediately circulate with the breath through all the air-passages, and destroy any germs that have got into

YOUR

nostrils and throat. At the same time the sore, inflamed membrane is soothed, healed, and protected, phlegm is released from the bronchials, breathing is made easy, and that distressing cough and throat soreness disappear.

By this direct treatment Peps keep trouble off the

and lungs, and the worst weather can be faced without fear of evil consequences. It is the safest plan to always have a few Peps handy to arrest a cold, and prevent it reaching the lungs or starting bronchitis and chest weakness.

Don't Prod Your Liver to Action

Get Overcome Bilio-ness, Constipation, Sick Headache, Quality, No Crisping or Pain, Guaranteed.

The organs of digestion, assimilation and elimination—the stomach, liver and bowels—must be kept in the proper action of any of these organs is largely dependent upon the correct functioning of all the others. "Whipping" your liver into action with irritating laxatives or strong cathartics is a great mistake. A better, safer plan is strengthening and toning the whole digestive and eliminative system with Nature's Remedy (N.R. Tablets), which not only brings immediate relief, but genuine and lasting benefit. It acts on the stomach, liver, bowels and kidneys, improves digestion and assimilation, overcomes bilio-ness, corrects constipation and quickly relieves sick headache.

Get your system thoroughly cleaned and purified for once! Stomach, liver and bowels working together in vigorous harmony, and you will not have to take medicine every day—just take one N.R. Tablet occasionally to keep your system in good condition and always feel your best. Remember it is easier and cheaper to keep well than it is to get well.

Get a 50c box and try it with the understanding that it must give you greater relief and benefit than any bowel or liver medicine you ever used or do pay. Nature's Remedy (N.R. Tablets) is guaranteed and recommended by your druggist.

Prince Boom Ends. Bank Review Finds

The National City Bank finds in its monthly survey of business, to be issued that events in September strengthened the general conviction that "the boom period in prices is over and the country is settling down" to conditions more normal than those which prevailed in the last half of 1919 and the early months of 1920. The assertion is made however that business as a whole is moving along in a reasonably satisfactory manner, and any thing like a prolonged period of depression is not looked for.
 "There is good buying power in the country yet," the October letter says. "but the keen edge is off; the feeling is that from now on there will be enough of everything to go around and that most things will be cheaper rather than dearer—all of which is good reasoning. War conditions do not last always."
 The bank finds reason to believe that price reductions have gone about as far as they will in the near future in the industries that have been most disturbed.
 "October industries must expect to contribute their share" says the review, "in the general readjustment, and the more readily they do so the better all around. These price reductions have not been reflected in retail prices everywhere, but that, too, is a development on the way and which the enterprising, public spirited merchant will want to hasten."
 "There is always difficulty in managing a downward movement. Once confidence in prices is unsettled suspicion is alert. Buyers are wary at any price. It is a mistake however, to think that prices—at least the average of prices—may slump back to anything like pre-war figures. They have almost done so in some lines, but these prices will probably recover a part of the lost ground. There are too many factors in the situation to permit of complete readjustment at once. It will be a time process. The business community does not like the idea of doing business on a declining market, but that is the prospect for some years to come, and business must plan for it."

Strike in Dublin Makes Trouble

Dublin, Oct. 7.—A grave situation is threatened at the port of Dublin. The unofficial strike of firemen and seamen employed by different shipping concerns has resulted in the complete cessation of cattle and goods traffic between Dublin and England. Members of the Irish Transport Union employed by principal firms have received a week's notice, which expires on Saturday. Unless, therefore, the dispute ends by Monday, all sections of ship and quay workers will be involved. There is great congestion of foodstuffs and merchandise and the port may have to be closed.
 At first the trouble, which is purely a wage dispute, was confined to the British and Irish Steam Packet Company, but has now extended to others and to-day practically are the Glasgow steamers. Only one boat on the regular cross channel services left the Liffey last night. Two thousand cattle, ten thousand sheep and vast quantities of food and merchandise lie at the north and south walls and the shipping companies have warned exporters to send no further consignments for the present. Ten thousand men were idle on Monday, and nobody can prophesy where the dispute will end.

Catch of Sea-Fish During August Takes a Tumble

(Canadian Press Despatch)
 Ottawa, Oct. 5.—The catch of sea-fish of all kinds for the month of August on both the Atlantic and Pacific coasts amounted to 1,006,884 cwts as compared with 1,145,290 cwts. for the same period last year. The total of the August catch was \$3,647,137 against \$4,506,143 last year.
 The smaller catch this year is due to a large drop in the aggregate landings of cod, haddock, hark and pollock on the Atlantic coast. The catch of these fish in August amounted to 260,000 cwts. against 498,754 cwts. in August, 1919. A shortage of bait and a less active demand with lower prices contributed and resulted in the curtailment of fishing operations.
 Compared with the same month last year the herring catch was greater by 24,000 cwts., and there was a slight increase in the mackerel catch. While the catch of sardines in the Bay of Fundy district was not more than half of August last year, the quantity packed in Canada during the month of August was fourteen thousand cases against 2,000 cases.
 The lobster catch in Northumberland Strait amounted to 12,260 cwts. as against 7,450 in August, 1919. The taking of lobster commenced on August 16th. From the beginning of the packing season in March to the end of August there have been packed 149,044 cases against 150,023 during the corresponding period in 1919.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. PRESENTATION

The choir of St. James' Presbyterian Church spent a very pleasant social evening at the Manse, Monday Oct. 11th. During the evening, Rev. L. H. MacLean, on behalf of the choir, presented Mrs. William Gifford, (nee Miss Ida MacMurray), with a gift of silverware as a token of their appreciation of her services as a member of the choir.

THE JAMOKA JAZZ

The Jamoka Jazz orchestra drew a large crowd at the Town Hall Tuesday night, who enjoyed the music furnished. During the evening Mr. Murphy, the sweet-voiced tenor, sang two solos which were loudly applauded. An excellent programme of dances were carried out, although it had to be cut short, and the orchestra is assured of a warm welcome when they return on Oct. 26.

ELECTION DAY IN NEWCASTLE

Saturday, Election Day was quietly observed in Newcastle, and the weather was ideal for the polling of votes. From 8 o'clock a. m. until 4 o'clock p. m. a steady stream of electors wended their way to the polls which were held in the County Court House. The Independent Ticket supporters worked hard all day for the election of their candidates, while the Government supporters did not show nearly as much energy. Everything passed off good naturedly, and a large vote was polled. In the afternoon the women voters arrived in large numbers which helped to make the vote cast so large. The Labor supporters were successful in getting the majority of their friends to the polls and this accounts for the large vote polled in favor of the independent candidates. In the evening the Newcastle Band, headed by a few members of the local I. L. A. paraded the streets with their independent banner, and were followed by a large crowd of youngsters beating tin pans etc.

The band then occupied the Band Stand, and gave several selections. Some of the elected candidates who were in Blackville were expected to arrive in time to address the electors who had assembled at the Band Stand, but they failed to appear. However addresses were made by Hon. John Morrisey and Joseph Manderson of Newcastle, Thos. Barnett and Elmer Wood of Douglastown and George M. McEwen of Chatham.

The speeches delivered by these gentlemen were all along the same lines and at 10.30 p. m. the gathering dispersed.

TO SUBSCRIBERS

It is our intention to draw eight drafts on all subscribers who are in arrears to the Union Advocate. Before doing so, we would respectfully request those in arrears, to kindly send in the amount due by them at once. By so doing the necessity of drawing drafts will be eliminated. We have a large amount due us by subscribers, and have repeatedly asked for their remittances. Some have responded, others have not, and we are compelled to take the above measure. It costs money to run a newspaper, and since newsprint has advanced to such a high figure, we must collect our subscriptions which are in arrears.

When remitting kindly notice the date of the tag on your paper and not paid up to 1920, compute from date of tag to corresponding month in 1920, at \$1.50 per year, and thus be sure that your remittance is correct.

North Shore Fire Insurance Loss Totals \$365,000

Adjustment of the insurance losses on the plan of the Continental Lumber Company, at Charlo, destroyed by fire on September 21, discloses the fact that the fire was the most costly from an insurance standpoint in the province in recent years. The total amount of insurance carried was just about \$424,000, and in the adjustment which has just been completed the insurance loss was placed at approximately \$365,000, or nearly eighty-six per cent of the amount carried.

The approximate individual losses are as follows: Continental Lumber Company, on the plant and contents, other buildings and contents and lumber on the premises, \$230,000 or about ninety-four per cent. Goodday & Co. Ltd. Quebec, on lumber, \$49,000, or about seventy-five per cent. Montreal Lumber Co. Ltd., Montreal, on lumber, \$17,350, or about seventy-six per cent. Brownlee & Co. Ltd., Glasgow, Scotland, on lumber, \$8,500; or about fifty-five per cent.

The insurance companies were represented in the adjustment by E. Percy Howard, of St. John, E. L. Phillips, of Halifax, and D. D. Street, of Toronto.

The mill destroyed was one of the most up to date in the province having been constructed in 1914 to replace one which was destroyed after having been struck by lightning. The owners have decided to rebuild immediately and already the foundations are being laid for a new mill.

'Janie Canuck' Travels 'The National Way'

Toronto, Oct. 1st.—When the Canadian National Train from the West pulled in at the Union Station yesterday afternoon Judge Murphy, of Edmonton, known through the Dominion as "Janie Canuck," the authoress smiling stepped from the train.

She was on her way to the Canadian Women's Press Club, where she will preside as President. Along with her was Miss Evelyn Murphy, President of the Edmonton Women's Press Club, and Mrs. Price, of the Calgary Club, all of whom stated they had never had a better trip from the West. "Oh, we are quite converted to the 'National Way' we are certainly going to return via it," said Mrs. Murphy. "I've never made such good time and with decidedly comfortable steel coaches and courteous officials the trip was altogether ideal." Mrs. Murphy stated that the entire delegation of the Winnipeg Women's Press Club would travel via the Canadian National to Montreal where the Conference is to be held.
