St. Mary's Congregation Make Proposition Re New School To Board of School Trustees

Newcastle, N. B., Feb. 9, 1924
To the Trustees of the Newcastle School Board.

Ladies and Gentlemen—
We, the undersigned committee appointed by St. Mary's Congregation to submit a proposition to the School Trustees of the Town of Newcastle, re the leasing of St. Mary's new school, beg to submit the following statement of actual cost and maintenance:—

Cost of School Building (Capital) \$72,000
Annual interest on loan 4,320
5% depreciation and maintenance 3,600
Teachers' salaries (6) approximately 3,600
Fuel, approximately 800
Janitor's salary 600
Insurance on \$60,000 260
Light, approximately 100
Total annual cost \$13,280

In consideration of the above we ask the Newcastle School Board to lease the class rooms of the said school building and conduct same under the Rules and Regulations as laid down by the Board of Education for the Province of New Brunswick.

We beg to submit the following proposition for your consideration:
1—That St. Mary's congregation to lease to the Newcastle School Board six class rooms, fully equipped for teaching, and the use of the Assembly Hall at any time required for school purposes, at an annual rental of Five (5) per cent of the cost of the construction and maintenance of said building.

2—That the said School Board shall furnish water, light and fuel for the said School building, and shall pay to St. Mary's congregation \$400 annually towards the janitor's salary.

3—That the teaching staff shall consist of six teachers from St. Mary's Convent to be engaged by the Trustees; and their rate of pay to be determined by the Board of Trustees.

4—The School Departments shall be under the jurisdiction of the Newcastle School Board; and the Public School Educational Laws of New Brunswick.

5—St. Mary's Congregation will assume the payment of the principal \$72,000 being actual cost of construction, and will pay the interest; insurance, do all repair work; and employ an efficient janitor to keep the several departments well heated and in a sanitary condition, to the satisfaction of the Newcastle School Board.

6—St. Mary's congregation further agrees to make any changes should any be required, to comply with the New Brunswick Educational Act, or that may be reasonably requested by the Trustees of the Newcastle School Board.

Anticipating your favorable and early consideration of this proposal to be effective on the 1st September 1924.

A. L. BARRY, Secretary.
J. D. CREAGHAN

W. M. MALONEY
Committee.

Famous Chatham Case Dismissed

The celebrated prohibition case, in which Inspector Daniel Cripps was the defendant, was heard in the Chatham police court Tuesday after several adjournments. The informant G. P. Stewart, was not in court and Magistrate Gaynor, dismissed the case. J. A. Creaghan, counsel for the defendant, intimated that the matter would not be allowed to drop. He intended, to make further investigation, he said.

Smelt Fishing Industry Good

The smelt fishing industry has been satisfactory so far. The price is about eight cents per pound. Thousands of dollars are being put into circulation.

Canada Not Only Country "Knocked"

Canada is not the only country from which dramatic stories are being sent back to Great Britain by some immigrants, which stories conduce to advertising of an unpardonable nature for the Dominion. Stories in regard to immigration in Australia somewhat along the same lines as the stories from Canada are being circulated.

AMHERST WON McLELLAN CUP

Amherst won the McLellan cup Wednesday night by 27 points from the Carleton curlers. The Amherst curlers outplayed them at every turn. Carleton lifted the cup from Chatham.

Tid-bits on the Tip of Everybodys Tongue
Vol. 1 No 26 NEWCASTLE, N. B. FEB. 12, 1924 FREE

Crowe Bros. Truro.

Until a year ago this popular English Street drug store carried seven brands of chocolates. Gradually their customers narrowed their choice to Moir's until today it is

only necessary to carry two brands, and the second is not selling half as well as a year ago.

That's the trend-towards Moir's, exclusively.

Sister: now Eddie, nice people always chose the smaller of two chocolates so take your choice. "Eddie: "thanks, Ss, but ladies always have first choice."

CURLER'S CARNIVAL TOMORROW NIGHT

The Newcastle Curling Club is famous for its successful and interesting ice Carnivals. Last year, their carnival at which "Miss Miramichi," was selected was a huge success. This year they intend holding a Carnival at which "Miss Newcastle" will be selected and the evening chosen for this event is to-morrow.

It is expected that skaters in costume will far exceed the number on the ice last year and arrangements are being made with this fact in view.

To the lady who is selected as "Miss Newcastle" \$20.00 in gold will be awarded and to the best lady's and best man's valentine costume will be awarded \$10.00 each.

During the fourth band a tableau of all valentine costume skaters will be taken and this will be one of the most interesting features of the evening. Every effort will be made to have the ice in ideal condition for skating and good music will be provided for a delightful program.

LOCAL COMPANY'S GOOD REPORT FOR THE PAST YEAR

The Annual Meeting of The Lounsbury Co., Limited was held on the 6th of February, at its Head Office Newcastle, N. B.; at which practically all the shareholders were present.

The President, Mr. W. G. Clark; who occupied the chair, read the report which was received enthusiastically. The dividend on Preferred Stock was paid as usual during the year as well as 6% on the Common stock. After reading the report the directors for the coming year were appointed as follows:

Mr. W. G. Clark—President
Mr. C. C. Hayward—Gen. Mgr.
Mr. Edward Hannay, Mr. J. H. Dunlop, Mr. H. H. Warman.
Mr. F. E. Locke was again appointed Secretary.

In reviewing this year's operations which showed an improvement, Mr. Clark expressed confidence in the future and forecasted that the year 1924 would, without doubt show even better results.

Representatives from the different branches held a conference during the evening, when encouraging reports were heard and a general feeling of confidence in the future expressed.

This Company carries extensive lines of Farm Equipment; complete line of House Furnishings; Musical Instruments; Furs; as well as three of the leading makes of automobiles—Studebaker; Chevrolet and Oldsmobile, the latter line being added during the year.

Branches are operated at the following points:
Newcastle, N. B.; Moncton, N. B.; Campbellton, N. B.; Bathurst, N. B.; Chatham, N. B.; Tracadie, N. B.; Rexton, N. B.; Doaktown, N. B.; Plackville, N. B.

will be between Amherst and the Thistle of St. John. Two rinks will be played at Amherst on Feb. 13. The winners of this match will play two rinks from Sackville on February 29.

Advocate Dec. 1923. Jan. February 1924

Local Fish Dealers Object To Increase In Express Rates.

Before the Dominion Railway Commissioners in the City building, Moncton on Tuesday; arguments were heard in the matter of application of the Express Companies for adjustment of Express rates. Most of the evidence heard was from Provincial Shippers or representatives of shippers and tended to oppose any increase in existing rates for shipping. President Raymond Leger of the local Board of Trade and Ex-President F. E. Dennison disapproved any rate increase. As did also a deputation of North Shore Shippers of fish.

Hon. F. B. Carvell, Chairman of the Commission; presided and with him were Commissioners, C. Lawrence and Hon. Frank Oliver and R. Richardson, of Ottawa; secretary Mr. John Betts of Millerton, a shipper of fish, was emphatic in his opposition to any increase. Mr. Betts spoke of difficulties that are now encountered by North Shore shippers in sending salmon to the New York market in competition with salmon from the Pacific coast. They had also to face a two cent duty. "It will annihilate our business, if there is an increase," said Mr. Betts. "We are handicapped now. We don't want to be crushed out."

Mr. R. W. Crocker, of Newcastle; was heard next in behalf of North Shore shippers of fish. "To increase the rates will simply mean that we will be put out of business," he said. "We will certainly kick against any increase. We had to meet the competition from the Pacific coast. Shippers out there get a rate of \$4.28 on carload lots. Shipments are made from the Miramichi via Montreal. The Eastern salmon is of a high grade; but the western shippers have adopted the method of dressing up their product with the result that it sells well in the New York market."

Hon. Mr. Oliver suggested considering changes in methods. The question as to price was mentioned and Mr. Betts said that from 10 to 12 cents was being paid. Mr. Carvell pointed out that transcontinental rates were below others rates in proportion to mileage. The Board had no power over international rates but it had power over Canadian rates. He didn't see that they were finding much fault with the Canadian rate. Mr. Crocker said the shippers were charged the same rate to Boston as to Bangor. Mr. Carvell asked about smelts. Mr. Crocker said there was a

large catch and the price good.

The fishermen had been paid ten cents and as high as fifteen. He contended there wasn't much in it for the buyer.

John McColm of North Esk a shipper of bass, claimed the rates were so high their business was almost crippled. "If there is an increase in express rates, we will have to consider some other means of shipment," he said.

Mr. Doggett a shipper from the Gaspe coast supported the Miramichi delegation in opposition to any increase in express rates. "The rates are high and we hope you won't increase them any more" he said. He was interested in the shipment of live lobsters. Some said the product was a luxury, it was no luxury for the fishermen who are depending on the industry.

Mr. Carvell and Mr. Phippen questioned Mr. Doggett closely regarding prices. He said lobster tins were retailing at about 50 cts. and the wholesale price was around 25 cts.

Mr. Phippen—"About a hundred per cent spread between the whole sale and retail price."

Mr. Doggett said that the shipper paying 12 for lobsters has to get about 25 cents to break even. Shippers in this country were affected by rum running on the American coast. These men, he claimed

MRS. DAVIS NERVOUS WRECK

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before I took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial."—Mrs. EMILY DAVIS, 721 McGee Street, Winnipeg, Man.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information.

DECORATED AT NEW YORK

Upon the arrival of the Canadian Pacific S.S. Empress of Canada at New York, following her cruise Round America, Captain S. Robinson, R.N.R., who now commands this vessel on world cruise, was created a Commander of the Order of the British Empire in recognition of his heroic work at Yokohama when Japan was rocked by earthquake and when the Empress of Australia, which he then commanded, was the headquarters for the rescue parties and relief workers. The investiture was made by Sir Harry Armstrong, British Consul General at New York in the presence of a large gathering of important figures in Canadian and American political and commercial life. This photograph was taken at the time of the investiture and shows, from left to right, Sir Harry Armstrong, Captain S. Robinson, D.B.E., R.N.R., and Mr. E. W. Beatty, K.C., president of the Canadian Pacific Railway, who visited the blue ribbon vessel of the Canadian Pacific fleet after the ceremony.

IMPOSSIBLE TO GET RELIEF

Until She Started To Take "Fruit-a-tives"

The Medicine Made From Fruit

R.R. No. 1, Everett, Ont. "I had been troubled for years with Dyspepsia, Liver and Kidney Trouble, and could not get relief until I started taking "Fruit-a-tives". Thanks to their beneficial action, I am in normal health again."

Mrs. THOMAS EVANS "Fruit-a-tives" alone can give such happy and successful results because "Fruit-a-tives" is the famous medicine made from fruit juices and tonics. "Fruit-a-tives" is pleasant to take and will always restore the health when taken regularly as directed. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

were in the lobster business as a camouflage for rum running.

Here and There

Over a thousand million fish eggs of various species were collected by the hatcheries branch of the Department of Marine and Fisheries during 1921.

Inbound ships from the United Kingdom are averaging 4,500 tons of freight for discharge at Vancouver. Outbound they take about 4,000 tons per vessel. Last year the average outward tonnage was practically the same while the inbound was only about one tenth of what it now is.

Announcement has been made that a Government wireless station is to be erected on St. Paul's Island, which stands in the entrance to the Gulf of St. Lawrence, off the most north-easterly point of Nova Scotia. Two Government wireless engineers have arrived there and are making arrangements for the erection of the station.

One hundred and forty thousand Canadian school boys have been banded into an army of guards to watch for and prevent forest fires in the Dominion this year, according to an announcement made by the Canadian Forestry Association. The new organization, which is known as the Young Canadians' Forest League, will, it is expected, save several million dollars' worth of timber from fire ravages.

That "prospects for increased immigration into Canada are excellent" was one of the most important statements made by E. W. Beatty, K.C., upon his return from an extended tour of England and European capitals. The president of the Canadian Pacific Railway believes Canada is progressing in the matter of immigration, but intensified efforts are essential, he considers, to offset erroneous impressions abroad that Canada does not require new settlers.

A record run between Winnipeg and Quebec was recently made by a special Canadian Pacific train when passengers from the Orient were, through delay caused by landslide, in danger of missing their connection with the P.S.S. "Empress of Scotland" at the eastern port. The train covered the 1,579 miles in a little over 36 hours, whereas the schedule time for trains between these two cities is 53 hours. The passengers had crossed the Pacific on the C.P.S.S. "Empress of Russia" and were taking advantage of the 21 day Orient-to-Europe service of the Company.

The United States has invested in Canada \$2,500,000,000, according to the Bankers' Trust Company of New York, which has just completed a survey of Canadian industry and the amount of United States capital invested. Of the total sum invested, \$1,200,000,000 is in bonds, and the remainder in farms, mortgages, small businesses, industrial enterprises, banking and private loans. It is computed that more than 200 branch factories were opened in Canada by United States concerns in 1919, and a great number in 1920 and 1921, and that late in 1922 the number of these came to 700.

A collie dog is reported to have saved the life of a London West girl, while accompanying the child to a nearby store. On the way she stopped on the C. P. R. railroad tracks in the path of a westbound flier. Realizing the child's peril, the dog threw himself against her with sufficient impact to knock her clear of danger, and was cut to pieces by the train before he could regain safety.

The girl's mother tried to discourage the dog from going when the daughter started for the store, but he went, and was the means of saving the child's life, and died heroically as a result.

For the Kidneys

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate their irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Estmet of Roots, such as Mother Sledge's Cassia Syrup, and your kidney disorder will promptly disappear. Get the genuine.

CONTRACT HAS THREE YEARS TO RUN

New York Yankees Pay Babe \$52,000 Annually.

Babe Ruth's contract with the New York Yankees has three years more to run at an annual figure of \$52,000. This, it was said is the result of the club's decision to exercise the two-year option it received when the home run king signed a three year contract in 1922. In round figures Babe's salary will be a quarter of a million for the five year period, but from a variety of sources, including barn storming, his earnings may nearly double that amount.

One clause of the contract is designed to keep Ruth on the straight and narrow path of good conduct. Under it the Yankees hold back the salary of every month until the end of the season, when the slugger is handed a check for \$26,000.

FOOD BETTER THAN MEDICINE

It is one thing to cure ill health and another to nourish and supply good health. The former is an artificial and temporary expedient to straighten the crooked and to right the wrong; the latter is the natural way to keep straight and to live right. It is a poor kind of religion or morals that permits one to yield himself to selfish gratifications with the expectation ultimately righting the wrong. The best way is to live a healthy life and not depend on cure. It is better to use our religion as daily food than to wait until we find ourselves in an extremity and then take it as medicine.

Hourly Test makes Quaker Best

The superior baking quality of Quaker Flour is due to the selection of the wheat and the scientific manner in which it is milled. Even more important is its uniformity. Flour must maintain an unvarying quality to produce the best baking results. Quaker Flour is subjected to severe tests every hour during the milling process. That is why Quaker Flour never varies in quality. Every sack is milled the same. That is why it always bakes the same.

Quaker Flour

Always the Same—Always the Best

Every sack of Quaker Flour is guaranteed to give absolute satisfaction.

Panama Bathing Beauties

Twenty of these twenty-two children are girls whose ages range from seven to fourteen years, and they are not mere bathing beauties. From their infancy they have played in and around the water at Panama, and they now give regular exhibitions of their aquatic skill. The girl on the left of the rear row is a back-stroke and crawl champion of the Panama Canal Zone and she is to take part in the Olympic Competitions. The photograph was taken after an exhibition before the passengers of the Canadian Pacific S.S. Empress of Canada, now on World Cruise.

First Impressions Are Important

In a world where appearances are valued as indexes to character, *Your Stationery* should represent you worthily—always and everywhere.

That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

Pneumonia A Disease That Has Many Victims At This Season Of The Year

(Canadian Red Cross)

In Canada' January, February and March are active months for the disease known to doctors as 'pneumonia.' As far as the layman that is, one who is not scientifically trained to understand the disease in all its aspects is concerned the first duty should be to acquire sufficient knowledge to enable him to do all he can to prevent himself from catching the disease. In this one only needs to remember the epigrammatic saying of the great Pasteur, 'Disease springs from disease.' For those whose position and duty require them to come in contact with people suffering from disease the greatest precaution should be taken. But if, after all precautions have been taken some member of the family has been so unfortunate as to contract pneumonia then a knowledge of how to care for the patient will be found of great value. The following notes upon this subject are recommended to our readers:

Pneumonia is an Infectious Disease—

It is caught from another person who has the disease.

It is spread by means of the sputum and discharge from the nose

What to do when Pneumonia is prevalent.

Avoid crowded and ill-ventilated rooms.

Avoid fatigue; chills and unnecessary exposure.

Keep fit.

Gargling and nose-washing night and morning are useful measures. A suitable solution is made by mixing one teaspoonful of common salt with

a pint of warm water and adding sufficient crystals of permanganate of potash to give it a pink color.

What to do when Nursing a Case of pneumonia.

The patient should have a separate room; if possible see that it has a sunny aspect. Remove unnecessary furniture and keep the room well ventilated and clean.

Remember that the sputum and discharges from the nose are highly

infectious, either directly by the soiling of linen, handkerchiefs, saps, spoons, or the hands of the attendant nurse. Therefore to destroy the germs of infection, it is necessary to collect and destroy the sputum. A cup containing a strong solution of chloride of lime or a ten per cent solution of lysol can be used for the patient to spit into.

Handkerchiefs should be put into a five per cent solution of lysol for 24 hours before washing and boiling (N.B.—Two tablespoonfuls of lysol to a pint of water make a five per cent solution.)

Old clean rags or paper handkerchiefs are useful because they can be promptly burnt.

The patient should be kept clean; face and hands should be frequently washed, as these soon get contaminated. Cups; spoons and other eating utensils, should be disinfected at least twice daily by means of boiling water. Toothbrush and thermometer should be kept in weak lysol (two per cent)

Precautions to be Taken by the Nurse—

Avoid standing in front of the patient or "taking his breath while attending to him. Throat gargling and nose douching are recommended. Face masks should be used as much as possible by those attending the sick. These can be made of four layers of butter muslin, 8 in. by 5 in., provided at the corners with tape for fastening behind the head. Several of these are desirable so that they can be frequently changed and washed (boiled)

The nurse must wash her own hands after attending to the sick and after touching soiled handkerchiefs, etc. Plain soap and water are sufficient for this, avoid soaps which roughen the skin.

As the infection is personal there is no need for disinfection of the room. The above precautions are valuable in the majority of acute respiratory diseases and such diseases as influenza, measles; whooping cough and the ordinary cold in the head—R.G.

Special Menus For Children On Canadian National Diners

A special menu for children will be introduced on dining cars of the Canadian National Railways this week. The menu, the first of its kind ever used on a railway in Canada, was conceived by Mr. Walter Pratt, General Manager of the Sleeping, Dining Car and Hotel Department of the National System, and it is designed to add to the dining car service of the System that every juvenile passenger will be catered to in the most satisfying manner.

In the compilation of the menu, Mr. Pratt sought and obtained the collaboration of one of Canada's foremost dietitians specializing in selecting food for children. The result is a menu that will not only provide a correct guide to the proper food for children of all ages up to 10 years, but it is also so attractively decorated and written that it will be a source of entertainment to the children during the journey.

The children's menu has been developed as the result of close personal investigation by officers of the Dining Car Department of the Canadian National Railways into ways and means of further improving the service. It was found that many parents traveling on all railways were feeding their children food bought prior to the journey, rather than make use of the dining car service, there being a more or less general feeling that it was a difficult task to choose from the regular menu, proper food for the child. In

some cases there was also a feeling that prices charged in the dining cars were disproportionate to the amount of food a child requires. These objections are overcome by the children's menu. For each meal, breakfast, dinner and tea, there are four combinations of fare; breakfast ranging in price from 40 to 60 cents; dinner from 50 to 85 cents, and tea from 35 to 65 cents. As the dining car steward passes through the cars, announcing the calls for meals, he distributes a menu to each passenger travelling with a child so that the parent or companion has time to decide upon the choice of food and knows the sum it will cost before going into the dining car. It is felt that this menu will accordingly prove a real boon to passengers, accompanied by children.

The artistic features of the menu, which contains eight pages, are most attractive. In addition to the menu proper, there are pictures printed in blue and brown and verses that are certain to appeal to the childish fancy. The verses tell a story and the pictures illustrate it. The menu, itself, occupying the two centre pages, the reading matter being bordered by a series of children's blocks, each block bearing a letter which spell out "Menu for little boys and little girls." The new children's menus go into service immediately on all dining and parlor-cars over the entire system of the Canadian National Railways.

CUT DOWN COAL BILL

How would you like to cut down your coal bill a half this winter?

Take 100 pounds coarse sawdust (you can buy it cheaply) and to each

100 pounds of sawdust add 200 pounds of common clay. Moisten

both the clay and sawdust and mix thoroughly. When well mixed, place

in large trays about 2 inches deep. The trays should have cross divisions

so that when the mixture is dried or baked it will be in bricks

about 2x3x6 inches. When bricks are

baked they will be porous and should then be immersed in cheap crude oil

Two of these small bricks will cook a meal or heat up a room. They

will hold heat longer than the best hard coal, and can be made at less

than half the cost of coal, as they are

mostly made from clay and cheap (sometimes free) sawdust. The

cost of baking will be almost nothing

as two bricks will furnish heat to

bake 40 or 50 bricks, and these will

bake 700 to 800 more, and so on. Try

this and save the coal bill this winter."

The Toronto Presbytery nominated Principal Clarence McKinnon of Pine Hill Theological College Halifax, for Moderator of the Presbyterian General Assembly.

Experts Unable To Size Up Germany

The second commission of experts investigating Germany's capacity to pay is meeting insurmountable difficulties and will leave Berlin without having accomplished its mission.

"I'm as sick as a

is a common expression that makes up in force what it lacks in elegance. When or where or why it originated excites no interest in the victim. Head aches—eyes water—throat smart—sneeze—cough—sore all over.

Johnson's Liniment

taken internally soon works a wonderful change. For more than 100 years the internal use of this doctor's prescription has quickly mastered Grippy Colds, Bronchial Colds, Sore Throat, Chills, Cramps, etc., while for external use on Cuts, Burns, Bruises, Sprains, Strains, etc., it has no superior. For more than a century it has been praised and respected by the general public and the medical profession as well. Sold and commended by good dealers everywhere. 25 and 50c.

To "Union Advocate"

I see Dr. Durcan has written again, and still failed to answer the question at issue. He, however says of me, "he has not been able to deny one of the statements I made." As to this I will willingly let the people judge; but I would remind Dr. Durcan that I am not the accused, and that, therefore, I have not necessarily to explain anything. But Dr. Durcan has. He is the accused in this controversy; accused of being willing to accept the ordination service of another church, and by so doing, as a Presbyterian will reflect on his past Ordination. Now is the third time he is asked to explain how that acceptance of the Ordination service of another church harmonizes; for a Presbyterian, with "it being clearly understood that herein there is no repudiation or reflection on past ministry" and he has made no attempt to answer that question. To say that "Mr. MacLean does not understand what was clearly stated in the Montreal official conference" etc. is no answer. What does anyone care what the Montreal Conference may have in its mind, we have in the form of a memorial, I suppose, what it thought it had in its mind and that is what I have been asking Dr. Durcan to explain as above stated, and he has not yet done it. Yet it is the question, and the answer cannot be evaded by a reference to me or my predecessors. Neither is it answered by saying, "The trouble with Mr. MacLean is that he confuses the "theory" of Ordination with the "act" whatever that means; and then goes on to tell an old and stale joke, which has been, in different forms, attributed to almost everybody. If he had any sense of real humor, he would not have repeated that chestnut. It would be more instructive had he explained the meaning of the statement just made, if it has any vital meaning in this connection. This is all on the real question, and I await Dr. Durcan's reply to it.

I am, however surprised that a man who would lead us to believe in the importance of argument to

BUCKLEY'S
BRONCHITIS
MIXTURE
"SAVED My Life"

Read this true statement:
"I, Mrs. Clayton, have suffered from Bronchitis for years and found relief only in Buckley's Bronchitis Mixture. I consider this to be a wonderful remedy and wouldn't be without it in the house, and I am firmly convinced that it saved my life."
Mrs. W. Clayton, 90 Uzbridge Ave., Toronto.
Buckley's is guaranteed to relieve with the very first dose, coughs, colds and bronchitis. Get a bottle at your druggist's today.

E. J. MORRIS

take things so readily for granted. He writes, "It pains me to think of any Christian man or woman nursing such ill-tempered thoughts through weeks obviously devoted to the concoction of such an 'epistle.' Do not judge minds. Wrong again. There is nothing in the whole matter to make any one who is a man, ill-tempered. I can assure him that there is not the slightest feeling of ill-temper on this end of the line. And, moreover let me tell him that the "epistle" was finished in the exact form in which he read it, on the 12th of January and was brought to the Editor on Monday, the 14th, but he could not publish it in that issue, and had the paper been out the previous week on time, it would have been in the issue of Jan. 8th. It would be better that he deal with the question at issue than indulge in vain imaginations.

Again he says, "Mr. MacLean is welcome to any theory of ordination which he may prefer. But he cannot deny that any act of initiation to a wider exercise of one's present, NON-REPUDIATED ORDAINED MINISTRY, rendering that acceptable in a sister communion of the Christian Church would be a practical step forward in the interests of the Christian Unity." Note in this statement (1) That he begs the question at issue in using the words "non-repudiated ordained ministry." It is around these words the whole contention practically lies. How is it possible for a Presbyterian to receive the ordination service of another Church and not to some degree reflect on his past ordination? This is the question I again repeat. (2) One wonders as to the value to put upon the words "in the interests of the Christian Unity", coming from a man, who, when a Union with Churches equally worthy is open to him to enter without even raising the question of either "faith", "theory" or "act" in connection with ordination or past Ministry, refuses to have anything to do with it, even as a first step toward a wider Union. On the contrary does all he can to make it impossible.

His last paragraph which is supposed to be the "illuminating" is quite beside the question before us, and I am surprised that Dr. Durcan would try thus to side-track the issue. It should have any bearing on this matter it would be to confirm some what my position in reference to the Assembly's attitude toward the Memorial, inasmuch as the Union Committee has the absolute confidence of about four to one of the members of the Assembly. It would be interesting to know what the Union Committee has to say on this matter.

L. H. MACLEAN
Newcastle, N.B.; Feb. 8th 1924.

Ed. Note—No further correspondence on this controversy will be published in these columns.

If we want ice for next summer's use it will soon be time to reap the harvest.

If you pull down all the blinds in your house every night, you will find your house more comfortable when you get up in the morning.

LOCAL CURLERS
HOLD BONSPIEL

The local Curlers held their annual Bonspiel on Thursday, Feb. 8. This Bonspiel, was, without a doubt, the best that has yet been held and all the curlers took so much interest in the playing that they have practically decided to put on another before the season closes. The prizes for the winning rinks were four bags of flour donated by Mr. John Russell for first prize and four pipes donated by Mr. P. N. Brown for second prize. The playing in most cases was fairly even, no one skip getting a very great lead on his opponent. The general opinion was that skip Crocker and his rink had clinched the flour bags when they ran up a score of 18 in the morning, and, in fact, they were sure of their feed of hot scones. Disappointments come to everybody, however, and they had to be contented with smoking their pipes. When C.M. Dickison turned his two crack skips loose after supper—one against the other—with orders that either one had to bring home the bacon, every curler sat tight to watch the fight. This was a case of the bigger giving way to the smaller and Roy came out victorious with a score of 21 points. It seems that Albert overheard Roy whining out his flour barrel being empty so that may have had something to do with the outcome. However, nobody had any complaints about the day's play and they all joined in a good feed at John Harris' restaurant. Following is the list of skips and scores:

- Crocker 18 Clark 6
- Gifford 7 Linton 12
- Sargeant 13 Morrissey 9
- Demers 14 Creaghan 10
- Bayles 12 A Ritchie 6
- A DICKISON 2 R DICKISON 21
- Jeffrey 11 Cassidy 15

Intention And Effect

The effect of an action must always be taken into account as well as the intention behind it. Not to make a decision sometimes has the effect of a most positive decision. We remember once of hearing the famous evangelist, D.L. Moody; illustrate this point by saying to the audience that if fire broke out in the building where the meetings were being held that those who did not leave the building would be just as dead as if they had decided to remain and commit suicide in that way.

A parent may not desire his child to grow up in ignorance but if the child is not sent to school or other wise taught the result will be just the same as if it were predetermined that the child should be unlettered. Likewise not to vote in favour of a desirable course of action or for a worthy candidate is in effect at least a half vote for the opposite. This explains the election of many an unworthy and undesirable candidate to office and has justly occasioned discussion of the withdrawal of the franchise from those who will not exercise it. Scarcely half of the people in the United States who have the vote go to the polls regularly to cast their ballots. Doubling the number of voters by the enfranchisement of women has emphasized the menace of the stay at home voter. The vicious are generally on hand; the virtuous are too often negligent. Those who are selfishly animated see that those whom they use get to the polls; the unselfish are often indifferent and unfortunately often regard their indifference as a sign of superiority. The intelligent, faithful, patriotic, unselfish voter should give sufficient attention to civic affairs to qualify him to express his judgment through the ballot box. That is the only record of which the government, local, state or national takes cognizance. The motive; the intention the desire may all be worthy but unless these are expressed in the ballot booth the government knows nothing about them. Because we count votes and not prayers or intentions it is the duty of every one to exercise their franchise at the ballot boxes.

LEGISLATURE TO
MEET MARCH 6

Up-River Farmers Ask Government For Financial Relief.

Fredericton, Feb. 5—Thursday March 6 has been named as the date for the opening of the Provincial Legislature.

Premier Veniot made the announcement when the cabinet adjourned this evening. The date is that which was forecast some time ago and is about the same as that on which the sessions have been opening in recent years.

The Government this afternoon heard a delegation consisting of Thomas W. Caldwell, M.P. for Carleton-Victoria; Messrs. D.W. Pickett and George Warnock, M.L.A.'s for Victoria county, and Rev. Fr. C.J. McLaughlin of McAdam advocating appointment of a commission to bring debtor farmers in New Brunswick's potato belt in Carleton and Victoria counties and the creditors together. It was urged that only by some such method as suggested could large numbers of farmers who had specialized in potato growing during lean years be prevented from becoming insolvent. Consideration was promised the suggestion.

Hon. Dr. J.E. Hetherington, Provincial Secretary-Treasurer, who has been absent for some time at Chicago arrived here this afternoon and took his seat at the afternoon session of the cabinet.

Lieut. Gov. Todd is also here for the meeting having arrived last night from St. Stephen accompanied by Mrs. Todd.

This morning's session was taken up largely with the routine of the schedule and hearing of a matter connected with classification under the bill establishing the New Brunswick Society of Professional Engineers. There seems to be some doubt as to the status of architects and whether they may be registered as engineers.

SUNNY CORNER

Sunny Corner, Feb. 8—1924.

Mrs. Ross Mullin and daughter, Avis, are visiting relatives in Exmoor.

Miss Mary Nolan is in Nelson, the guest of her sister Mrs. E. Masterson.

Mrs. (Rev.) Wm. Girdwood was called to Fredericton last week owing to the illness of her father.

Misses Annie Mullin, J. Tozer and G. McAllister spent the 4th in Sillikers.

Mrs. Sofia Nolan's many friends will be glad to hear that she is improving in health.

Messrs. I. McDonald and A. Leach spent a few days in town last week.

Master Billie Leach is on the sick list these days.

Quite a snowstorm visited the Corner on Wednesday spoiling the skating and good sleighing.

Here and There

An addition to the Canadian Pacific Montreal-Toronto train service is a nightly train each way, making six trains every night between the two cities. The increase was found necessary on account of the heavy tourist traffic to Montreal from the West.

The opinion of Hon. T. D. Pattullo, Minister of Lands of British Columbia, is that "Canada can absorb at least 300,000 people annually, and this number can come on indefinitely. There is no limit to the requirements of the country. As many as we can get are wanted.

Nova Scotia is endeavoring to arrange an "old home" month during July or August of 1923, and it is expected that many from distant parts of Canada and the United States will visit the towns of their origin during the festival period set apart.

Incomparable Lake Louise has achieved new fame. The makers of the Gray-Dort car have put out a model in a new color which they term "Lake Louise Blue." It is of a lovely green-blue, and if it has caught anything of the glorious gleam of Canada's most beautiful mountain lake it should be a popular color for other than motor cars.

Big Bill, the last surviving buffalo at the Pinafore Park Zoo, St. Thomas, was recently shot. The animal had been suffering for some time from the same malady which carried off his mate a few months ago. Big Bill was said to have been the finest specimen of Buffalo east of the Government Park at Wainwright, Saskatchewan.

Albert Steedwell, Canadian Pacific Railway engineer at Fort William, has an airedale dog that is a wolf killer. Mr. Steedwell has a farm at Upsala, and while visiting the farm the dog routed out a brush wolf and chased it. During the subsequent battle one could hardly tell which was dog and which was wolf. Mr. Steedwell went to the assistance of his pet and together they finished the wolf.

T. W. McKenzie, Canadian Pacific Railway agent at Rosemary, Alberta, has received letters patent on a device for the purpose of locking automobiles. It is so constructed that when the switch is thrown off the car is automatically locked, thereby eliminating the possible chance of an owner leaving his car unprotected. The device cannot be operated nor the car started by an unauthorized person without causing an alarm.

The number of persons killed or injured while trespassing on railroad tracks were 50 per cent. less in 1922 than the average of the preceding fifteen years. The figures are 5,306 for nine months of 1922 compared with 10,736, the average for the previous year, according to an announcement made by the Safety Section of the American Railroad Association. This reduction in casualties is claimed to be due to the improved policing by the roads and to success of the Safety First movement.

From September 1 to March 31 inclusive, the Canadian Pacific Railway has transported to Vancouver 7,884 cars of grain, representing 11,668,328 bushels. Last year during the same period the movement amounted to 2,802 cars or 3,967,632 bushels. From the beginning of the crop season 13,571,320 bushels had been exported from Vancouver, of which 11,128,620 went to the United Kingdom, 2,242,800 to the Orient and 200,000 to South America. Last year during the same period export amounted to 5,000,000 bushels.

Here and There

St. John, N.B.—J. M. Woodman, general superintendent of the C. P. R., New Brunswick district, announced that the only large expenditure in his district during the year will be for ballasting and bridges. Mr. Woodman returned from Montreal, where he was on a business trip.

Edmonton.—The northern railway extensions, which under the recently announced agreement with the Union Bank will be proceeded with next spring, are to be built by the Canadian Pacific Railway Construction Department. One of the conditions of the agreement between the provincial government and the bank interests is that the C. P. R. do the construction work, it is stated by Premier Greenfield, and the conditions will be complied with by the government, which had originally intended building the roads under its own railway department.

Port Arthur.—Additional trackage accommodation will be constructed by the Canadian Pacific Railway in its Port Arthur yards this coming summer, especially at Current River, to take care of the increasing grain trade to be created by the elevators there. Other work will also be done locally and at Fort William considerable will be undertaken, including the replacement of the two large freight sheds destroyed recently by fire, with buildings of an improved and fireproof type.

Carleton Place, Ont.—On the occasion of the retirement of roadmaster Jelly and section foreman J. Millikin from the C. P. R. Company's service, the fellow employees and their wives gathered at the town hall, Saturday, and a social evening was spent. The tables were laden with the very best that a caterer from Ottawa could provide, and about 150 people were present from all classes of the company's service.

St. John, N.B.—C. E. McPherson, Assistant Passenger Traffic Manager of the Canadian Pacific Railway, with headquarters at Winnipeg, was in St. John recently, the guest of his brother-in-law, Dr. W. W. White. Mr. McPherson is always a welcome visitor to St. John where he was for many years as the representative of the C. P. R. up to 1897 when he went to Toronto, and later in 1899 to Winnipeg, his headquarters since. He has watched this Western metropolis grow from a town of 40,000 to a city of 200,000.

Yorkton.—Another milestone in the history of railway development in Yorkton and district was marked when the members of the clerical staff of the C. P. R. freight department took up their quarters in the offices of the new freight shed. This building is 240 feet long and 40 feet wide, and provides accommodation for eighteen cars of freight. The building and track alterations involved an expenditure of nearly \$70,000.

Winnipeg.—Great interest in the increasing of facilities for the storing and handling of grain at the head of the lakes was reported by Charles Murphy, general manager of the Canadian Pacific Railway, who returned from Fort William. Mr. Murphy stated there would be an enlargement of at least 4,000,000 bushels in the storage capacity during the coming summer, and it was hoped the new equipment would be in working order in time to take care of the next crop. Two privately owned elevators were to be erected and the buildings of the Saskatchewan co-operative company to be enlarged he stated. One construction outfit was already on the ground and construction would be rushed as soon as weather conditions permitted.

WOULD LOOK FOOLISH EITHER WAY
A commercial traveller says that he was in a small town the other day when he came across an automobile agent trying to sell a car to a well to do farmer. "Nothing doing son" said the farmer. "A car's alright for those who can afford it but I could buy tea cows with the money." The agent was struck and said "But you'd look funny riding around on a cow wouldn't you?" "Maybe son, but I'd look like mischief trying to milk a flivver too" said the farmer.

The printer only left out an r from couple of words but the correspondent was so unreasonable as to be mad when he read "Dear Friend and Bother."

OBITUARY

MISS F. CRAWFORD
At River Glade Sanatorium on Sunday February 3rd Miss Frances Crawford died, aged eighteen years. She was formerly on the staff of the Miramichi Hospital here but developed consumption and she was sent to River Glade with the hope of recovery but without avail. Body was taken to Blackville for interment.
PETER EAGAN
Death came with startling suddenness to Peter Eagan Wednesday afternoon at his home in Chaplin Island Road. Deceased had gone out to saw some wood and later when his sister called him and received no answer she went to see what was the matter she found him lying across the wood dead.
Dr. McGrath and Father Brideau were hastily summoned but the man was beyond all human aid having been dead about two hours.
The late Mr. Eagan was 52 yrs. old and was a son of the late Bernard Eagan. He is survived by his mother and two sisters Barbara at home and Mrs. John McCarthy of Lower Newcastle.
The funeral was held Friday afternoon. Interment in St. Mary's Cemetery.

Many Norwegians For The Dominion

Canada will obtain between 8,000 and 10,000 Norwegian immigrants during the coming season of navigation if the reports of five prominent Norwegian shipping men who arrived in Quebec from Scandinavia are received with favor in that country.
Such was the statement issued jointly by agents for the Cunard and Anchor-Donaldson lines.

N.R. Plans For Rush From States

Handling of thousands of United States farmer settlers expected to move to Canadian prairie lands this spring was the subject discussed by the officials of the Canadian National Railways from Winnipeg west to the Pacific Coast held in Winnipeg. Indications are; it was declared; that the movement across the border into Canada this year will be greater than it has been for some time.

Nothing to Say On Liquor Law

Frederickton, Feb. 7.—Consideration of the subject matter of the speech from the throne at the opening of the legislature is being taken up by the provincial government and was continued today. Premier Veniot was asked if the speech would contain an intimation of provision for a referendum on the province's liquor law and replied that he had no statement to make on the subject at the present time.

TO END ALL WARS

Earl Grey of Follooden has brought forward a plan to end further wars. It is that Great Britain make known that she will throw in her weight against any nation which the aggressor in any war to come. Thus if France provokes war with Germany, Britain will oppose France while if Germany is the aggressor, Britain will throw in her weight against Germany. Thus any nation with ambitions to make war will be faced with the fact that all the resources of Britain will be in the scales against her.
What is expected of the Board of Trade?—to foster a spirit of goodwill and cooperation among the Newcastle citizens?

Treat Head Colds May Report Again With Vicks

"Never Had anything Better," Says Ontario Man
At the first sign of a cold in the head, melt a little Vicks VapoRub in a spoon. Inhale the vapors. Then insert some in the nostrils, snuffing well back. You will be delighted to see how quickly it helps to break up a cold.
Another way is to heat a tin cup, melt a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength throw out the melted Vicks and add fresh.
Vicks VapoRub, the discovery of a Southern druggist, is a combination in salve form of Camphor, Menthol, Eucalyptus, Thyme; Turpentine etc. It is the modern, direct treatment for all cold troubles, the successor to goose grease, camphorated oil; liniments; poultices and plasters.
Mr. Thomas Bokewell of 83 Lincoln Street; Welland, Ont. says: "I tried Vicks VapoRub and found it satisfactory in every way. As a remedy for a cold in the head I have never had anything better. I melted a spoonful and inhaled it and got immediate relief and was able to go to my work the following morning. I always recommend it to anyone I know who is suffering from a cold the way I did."
Vicks is the ideal treatment for colds—both for grown-ups and for children—because it avoids so much internal dosing. Just as good, too for cuts, burns, bruises, sores; stings and skin itchings.

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own tablets should be kept in the house and an occasional dose given the baby to keep its stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along.
The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Can't Fool Diamond Dealer

For the reason that the traffic in imitation precious stones is growing, diamond merchants now a days are obliged to devote more time than formerly to the detection of fakes. The experienced dealer can often tell a faked stone at a glance.
Once suspicion falls on a stone it is subject to various tests. For example the gem may be placed in water, and watched to see if it loses its brilliance.
If this happens the stone is discarded at once as being false.
Another water test consists in placing a drop of water on the stone. The water globule is then touched lightly with the point of a pencil. If the globule breaks the stone is a fake.
Sometimes a black dot is made on a piece of white paper, and the diamond held in front of it. If the stone is an imitation the dot appears blurred.
The hardness of a stone is another deciding factor. A real diamond can be filed with the hardest instrument without being scratched. A faked stone will crack and probably break-up under the process.

Here and There

Navigation of the St. Lawrence river is expected to open early in the month of April. According to preliminary schedules used by the various steamship companies operating between Canadian Atlantic ports and Europe, 192 ships will visit the port of Quebec in 1924.

The Canadian Pacific Railway has inaugurated as a special feature the serving of afternoon tea regularly on all dining, cafe and buffet cars throughout the system. The tasteful lunch menu which the company provides includes tea, coffee, chocolate, toast, muffins, cake, ice cream and preserves at reasonable prices.

The Spiller Company, a great British concern with \$150,000,000 capital, has completed arrangements for the establishment of facilities in Canada which will entail an outlay of \$5,000,000 to finish the plant of the Alberta Flour Mills in Calgary, with another \$2,000,000 to build an elevator at Vancouver.

The second of the two large paper machines recently installed by the Beigo-Canadian Paper Company at Shawinigan Falls, Que., has commenced operations. The machine, which is the product of the Dominion Engineering Company, is now producing newsprint. It will be tuned up and is expected to produce a commercial grade of newsprint at or above its daily capacity of 75 tons in the near future.

Speaking at Toronto recently, E. W. Beatty, President of the Canadian Pacific Railway, declared that "what Canada is suffering from is lack of men, lack of capital and lack of those forward policies which will enable the country to realize within a reasonable time its own manifest destiny." He added that he did not believe in "exaggerated whisperings or in any statements which are calculated to destroy the belief of Canadians in their own country."

Captain S. Robinson, C.B.E., R.N.R., commanding the Canadian Pacific liner "Empress of Canada," was invested with the C.B.E. by Sir Harry Armstrong, British Consul-General at New York, when his ship arrived there on January 25th, prior to setting out on her great world cruise. Captain Robinson also received the freedom of the city of New York. These honors were in recognition of his gallant work when commanding the Canadian Pacific liner "Empress of Australia" at Yokohama, at the time of the Japanese disaster.

According to Canadian Pacific officials, immigrants from Europe on their way west are re-discovering America—or rather Canada—at a great rate. Some days ago there were eighty Scandinavians drumming their heels in the big waiting-rooms at Windsor Station, bored to tears. Then one of them suddenly discovered that the Province of Quebec, unlike Sweden, is not "dry." The rush of the Danes on Alfred's England was as nothing compared to that with which the delighted Scandinavian gentlemen emptied that waiting-room. So excellent did they find the beer that they did not show up again till train-time, when they announced unanimously, though with slight difficulty, that "Canada bore one fine country."

To be stranded in a strange city with no worldly assets but a suit of dress-clothes and yet to come out of the adventure victorious is to achieve something. Joe and Bill arrived in Montreal a few nights ago, their baggage consisting of the clothes they wore, two dress suits, an adequate quantity of the needful and an enthusiastic determination to see life with a capital L. When they woke on the morning after, they found that someone had relieved them of everything they possessed except the dress suits they had slept in, and which they had worn for the previous night's affray.

In this predicament they appealed to the authorities at the Canadian Pacific Windsor Station, for work whereby to earn enough to take them out of the wicked city. Sympathetic officials put them on the snow-shovelling gang. And here these two stout fellows, in their dress suits, Joe with his feet wrapped in socks to keep them warm, labored heartily for four days, earning the price of their tickets back to the little old home town. So once more Joe and Bill were on their way home.

HUMAN ASHES TO BUILD BIG BUDDHA

The remains of 32,000 Buddhist victims of the Japanese earthquake, at present forming a mountain of ashes in Tokio, will be mixed with cement and incorporated in the building of a large statue of Buddha, as a solution to the problem of consoling the souls of the departed, if plans formulated at a recent conference of the councillors of the Buddhist Federated Association formed by 58 different bodies of the religious order in Japan and China, are brought to maturity.

The ghastly scheme provides for a monument 75 feet high and measuring 95 feet at the base, including the plinth, which will make it the greatest "daibutsu" in the world, according to advices brought from the Orient by passengers arriving by the Canadian Pacific Empress of Asia, which docked at Vancouver over the week end.

The gruesome edifice will be erected on the site formerly occupied by the Military Clothing St. re. Honjo if the contest of the Tokio municipality and the capital reconstruction board can be secured.

After the meeting priests explained that the new "daibutsu," with its cement and human content, is designed to impress posterity with the high state of culture reached when the titanic forces of the earthquake hurled the former bronze statue of Buddha from its base, in the Japanese capital. It will also dispose of the little mountain of remains, as yet untouched.

Besides the statue, a huge temple for all sects in common will be established. Chinese delegates to the meeting offered to contribute a huge bell to be installed in the building, to be tolled night and day by a Chinese priest, while endless prayers are chanted for the future happiness of the victims of the great catastrophe.

To Take Census Of Civil Servants

With the arrival in Ottawa of R. Gouthier, the new Auditor-General of Canada, to take up his duties, the audit board's review of civil service expenditures will nominally commence. It is thought, however, that the census of civil servants throughout the country, which is a necessary preliminary to any action, will take up a few weeks.

This famous household cleaner and disinfectant is now made in Crystal Flakes instead of powder. It is the best household lye on the market. Use it for cleaning and disinfecting sinks, closets, drains, etc.; destroying vermin; softening water; making soap; cleaning floors, greasy pots and pans, etc.; removing paint, etc.

Avoid inferior and dangerous substitutes. Get the genuine article in cans as reproduced below.

HOW HALIFAX LOST BIG CARGO OF TEA

OTTAWA, Feb. 4.—The Department has received a communication from Vancouver through H. S. Stevens, M. P., from the Shanghai office of the Robert Dollar Steamship Company, giving a concrete instance of how the discriminatory insurance clauses insisted on by British Underwriters militates against Canadian ports. It is to the effect that the steamer Virginia Dollar one of the round the world liners of this house, had been offered an attractive cargo of tea for Halifax, which they were not able to take because the underwriters refused permission to the ship to call at Halifax to discharge cargo without an additional premium.

They add that this will tend to bar them from accepting Halifax cargo for their round the world freighters. The department has suggested to Mr. Finlayson, Superintendent of the Government Insurance Department, that he prepare for the coming session of Parliament such amendments to the insurance act as will enable Canada to go into the marine insurance business if this handicap on Canadian ports is not removed by the underwriters.

Jack Pine A Coming Wood

Jack pine, formerly despised, is now recognized as a most useful wood. It is used in immense quantities for railway ties, being in fact, the leading tie timber of Eastern Canada. It is also being used in increasing quantities for lumber. Jack pine is frequently attacked by a fungal disease, which, in the earlier stages of its development, causes a reddish discoloration often referred to as "red stain." The Forest Products Laboratories of the Forestry Branch of the Department of the Interior recently made a series of experiments to determine the effect of "red stain" on the strength of the timber. The results of these tests show that no diminution of the strength results from this condition and where the appearance of the wood is not important there should be no hesitation in employing it.

Gold Mark Plan In Berlin Fails

The plan for a gold mark as drawn up by President Schacht of the Reichsbank has been rejected. The reparation experts under General Dawes have found it too vague and they point out that it does not provide for solid backing within Germany.

Coolidge Favors Higher Tariff

President Coolidge, responding to representations of agricultural members of the northwestern farm and bank conference, declared he hoped justification for an increase in the tariff on wheat would result from the present investigation of the wheat duty by the U. S. tariff commission.

To Abolish Capital Punishment

The Mail and Empire publishes the following cable from London. "The abolition of capital punishment, which has figured prominently in Laborite manifestos for several years, probably will be among the first reforms attempted by the Labor Government. One of the first official acts of the Home Secretary, Arthur Henderson, was commutation of the death sentence in the case of a wife murderer."

The Healthful Walk

WHAT is more pleasant and exhilarating than a brisk walk in the crisp, fresh air. You breathe deeply. The blood is purified. The circulation is quickened. The bloom comes to the cheeks and you feel fine. The vital organs are put in fine condition by walking and many ailments can be relieved mainly because the liver action is aroused. And yet we do not walk. It is so much easier to ride in an auto or street car that walking is becoming a lost art. Since we do not take the necessary exercise to keep the liver active and the bowels regular it becomes necessary to resort to other means. The most popular family regulator is Dr. Chase's Kidney-Liver Pills, for by use of this medicine once or twice a week you can be sure of the healthful action of liver, kidneys and bowels. Our greatest danger in this age of sedentary habits is from overeating and neglecting to pay attention to the regularity of these eliminating organs. Most of our ills come from this condition. For proof of this statement you need only enquire at the hospitals where there is always a rush of appendicitis and liver and kidney cases after the holiday season and during the winter months when we use so much artificial food and live cooped up in houses from which fresh air is carefully excluded. You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly. Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co., Ltd., Toronto.

ASPIRIN

Beware of Imitations!

Unless you can see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for:

| | |
|-----------|------------|
| Colds | Lumbago |
| Toothache | Stomach |
| Neuritis | Rheumatism |
| Neuralgia | Pain; Pain |

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacid-ester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture; to assist the public against imitations; the Tablets of Bayer Company will be stamped with their general trade mark: the "Bayer Cross."

Gives \$2,000 For New Church Fund

A sewing circle has been formed by the ladies of the Roman Catholic church in Dalhousie to prepare for a bazaar which will be held some time in the summer to assist the building fund committee. A new and much larger church

Canadian National Dog Team IN MONTREAL CARNIVAL DERBY.

The Canadian National Railways have entered a team in the Montreal Winter Carnival's Senior Dog Derby, which is to be run in Montreal on Saturday, February 9th. The team is composed of three Danes and two Mastiffs and they will be driven by Jack Dooley, a former resident of Labrador and now a clerk in the Canadian National Railways Shops at St. Malo, Quebec. The dogs are the property of Patrick Nolan, foreman of the Blacksmith Shop of the Canadian National Railways at St. Malo. In a trial run this dog team has covered 35 miles in three and one-half hours. The course of the Montreal Derby covers 30 miles. The photo at the top shows the team ready to start in a trial run. In the oval is seen Jack Dooley with "Jack," the leader of the team. At the bottom Mr. Joseph Samson, who has been Mayor of Quebec City for two terms and who is running for his third term this year, is seen standing beside two of the dogs in the team.

is a necessity to the constantly increasing congregation. One member of the congregation has donated \$2,000 towards the new building. The first meeting of the sewing circle was held at the home of Mrs. Thomas Nadeau.

To Soothe & Heal Those CHILBLAINS

Apply ZAM-BUK at night and the pain goes.

Whether your chilblains be on the toes, fingers, nose or ears, nothing else will soothe and heal the itching, inflamed or broken places so quickly as Zam-Buk. Owing to its refined, natural character Zam-Buk soaks through the tiny pores, deep into the tissues. By stimulating healthy activity of the skin Zam-Buk enables it to throw off poisonous secretions that are impeding the functions.

Mrs. A. J. Underhill, of Rutledge, Minn., writes:—"For many winters my chilblains were so bad that I could not wear shoes for days together."

Zam-Buk

"To my great delight Zam-Buk gave the lasting relief which I had previously sought in vain. Whenever my feet feel in the least sore a little Zam-Buk soon puts them right. I have also found it a soothing remedy for chapped hands, cold-cracks, etc." Get a box to-day!

THE ADVOCATE

DON'T SCRAP

Don't be a namby-pamby, or one of those soft-shelled chaps, afraid of being hit by his own shadow.

Don't be of the opposite genus, the scrapper,—the fellow with a self-placed chip on his shoulder daring small men to knock it off.

The manly men, the truly brave those of real courage, fight, and don't scrap.

The world admires the fighter if he fights for right; but despises the scrapper, who is but a mere semblance of the brave, an imbecile imitation of that which he thinks he is copying.

The scrapper belongs to the scrapheap of business, and there you will find him sooner or later for he is unfit to represent regular goods. He is not a good salesman, a good clerk, or good for much of anything. Nobody wants him as an office boy, or a porter or as a teamster. He is unpopular, even among his fellows, and he never amounts to any thing anywhere.

There are scrappers, however, who don't scrap with their fists or kick with their feet. They are scrappers by mouth only, and they are even more despicable than the hand-fighters, for the latter may have the semblance of courage, while the mouth-warriors have neither bravery, brawn, nor brain.

I have no respect for the fellow afraid to express an opinion,—provided he had one and knows where he got it,—or for the coward of any kind; but I believe that the most despicable man on earth is he who is always hunting for the wrong side of the argument, and firing it piecemeal at those who are unfortunate enough to get in range. He is continually looking for something to talk against or to talk at, and he usually finds it. His words are no more effective than bread crumb bullets. The real powder and fire back of them are not strong enough or hot enough to drive them far enough to hit anything so that what is hit knows it.

Don't be a scrapper. Don't scrap with your mouth, and don't scrap with your hands. Don't kick if you know a thing is right, fight for it with all your might; and if you know that it is wrong, fight against it for all you are worth; but don't make a specialty of manufacturing or dealing in trouble, and don't seek for it, for, if you do, you will injure yourself and those about you, and you will lose all the friends worthy of the name.

There is unavoidable trouble in the world to overcome sufficient to keep you busy.
Don't take on useless work.

Proven best Since 1887

Be cheerful, even when it's cloudy and there is rain in sight, and you have forgotten your umbrella. Scrapping with the weather won't keep you from getting wet.

Scrapping never accomplished anything. It is a sort of guerrilla warfare, without a flag and without a country.

Nobody likes a scrapper. He's a general "no good"

Mysterious Bird-Bands

Strange bird-bands, without any marks of identification, are being received by officers of the Canadian National Parks Branch, Department of the Interior, in charge of the Bird-Banding Records. Sportsmen and others interested in the investigations being carried on by the branch concerning the migrations of wild fowl frequently send in these odd bands. Recently a plaid band, without discernible inscription, was taken from a Junco killed at Gannet Rock lighthouse and forwarded to the branch. A swan of an unknown species was shot one hundred miles northeast of Good Hope, on the Mackenzie river N. W. T., and a band made of fourteen gauge copper wire removed from its leg. It is hoped that any person having information concerning these birds or any others marked anonymously and bird-bands in general will communicate with this branch. The use of bands of a character which cannot be traced is deprecated as liable to cause confusion in recording migrations. Official bands are available to those who wish to engage in this work and may be had on application to the Commissioner, Canadian National Parks, Ottawa.

PURITY FLOUR

Mountain-Climbing on Vancouver Island

Cameron Lake showing Mount Arrowsmith in the distance.

Vancouver Island is becoming famous for many things. Among the chief of these is its climate, among the more utilitarian its strawberries; and among the tourist attractions its marvelous scenery, and magnificent drives, its many fascinating trips both by boat and by rail. But, while tens of thousands of visitors holiday in the Island every summer, very few of them are aware of the fact that within less than a day's journey of Victoria there are mountain peaks covered with perpetual snow, and massive glaciers, which defy the warmest of the summer sunshine, where those who enjoy that most exhilarating sport, mountain-climbing, may put all of their skill to the test.

The most popular mountain from an Alpinist's point of view is Arrowsmith. It is about six thousand feet high, and to reach it one travels by one of the most magnificent scenic railways on the continent. There is a diversity of country all along the hundred miles from Victoria to Parkesville. Parkesville is on the east coast of the Island, and Victoria, situated at the extreme south of the Island is the starting point for the journey. One of the first summits to be crossed is that of the splendid Malahat, about fifteen hundred feet above the sea. Here, from the "Lookout," one looks down on a wonderful panorama of green-embowered hills, narrow winding waterways, the wide stretch of the sea itself and the Olympian mountains on the Mainland in their dazzling dress of ice and snow. After crossing the Malahat there are miles along the shores of the salt water, quick passages through picturesque villages and towns, journeyings among sweet-scented woods which are always gay with flowers.

At Parkesville the road divides one branch swinging toward the west. And there begins the first trek in the journey which leads to the everlasting hills. As one nears Cameron Lake, whether one travels by rail or highway, one sees the beginning of the vast forest of Douglas fir, than which there is no finer stretch of timber in America.

Just across the lake from the Chalet one begins the ascent of Mount Arrowsmith. The particular day when we made the journey was in early June. It was sweet and cool near the water, the bracken thrusting up branchy and tall, maiden-hair ferns just unfolding, all of the trees and shrubs wearing their new dresses of fresh, young green.

We started at noon, and from the very outset, found the trail fairly steep. With only occasional stops for breath, we pushed on for five hours before we made the Hut, a distance of about 3000 feet up. It was rather early in the year for mountaineering and the trail had not been cleared since the winter storms, which made our going rather more difficult than it would otherwise have been. But every step of the way displayed some

magnificence of scene that called forth exclamations of delight.

The Hut was practically buried, for the snow lay deep on the upper reaches. It took us an hour or more to tunnel into it, for although our packer had gone ahead with the blankets, he could not accomplish much alone. But we finally dug our way in, cleared the snow from the windows, made a fire, and before very long the aroma of boiling coffee and fried ham filled the little cabin, and we sat down to eat with ravenous appetites.

The sleep that comes to one on these high, snowy altitudes, far above the slightest sound of life, is deep, dreamless and infinitely refreshing. We awoke at eight the next morning, full of eagerness to continue the climb, which from there on is a real test of strength and endurance.

The final five hundred feet were very steep, and not without danger for the unwary. We had a few tumbles, and slides, which only added to the enjoyment, and when we had pursued our journey to the end our satisfaction was very great. For it was an objective worth striving for.

The view was grand beyond conception, snow-peaks all about us, dazzlingly splendid in the sunshine, clouds of mist lifting from the valleys, and rolling away to give a glimpse of lakes blue as periwinkle, of bare cliff-sides coloured with the tints of the rainbow, and bright, green valleys, and forests of sturdy little jack-pine, while now and then when the clouds would roll up and melt into the blue of the sky, we could glimpse a farther view, and we said it was the sea and the mountains beyond the sea, but the distance made it almost as vague as a half-forgotten dream.

It is a journey that one can easily make within the day, providing there is no miscalculation, and it is a most joyfully exhilarating climb, while the picture which the summit discloses must always stand out conspicuously in the gallery of one's memories.

Montreal Honors First Skipper in Port

1. C.P.S.S. Montrose bringing first passengers to Montreal, 1923 Season. 2. Captain Edmund Aikman, Commander of the Bolingbroke.

TWENTY years ago Montreal was but a "mere calling place for ships." It had practically no modern cargo-handling devices or equipment, its wharf sheds were just wooden shacks which were actually taken down in winter to prevent them being blown away, and much of the merchandise was stored in the open air at the mercy of the wind and weather. Now Montreal is the greatest port of Canada and it is the best located. From a mere riverside stopping place for ships, it has stepped into the front rank of ocean ports, and has become equipped with facilities for the accommodation of ships and for the handling and storing of freight that are unrivalled on the continent. Despite the fact that Canada has less than 10,000,000 population and that the United States has more than 110,000,000, Montreal now handles a greater volume of business than any port on the American continent with the solitary exception of New York.

The principal reasons for Montreal's supremacy are the facts that it is nearly one thousand miles inland from the ocean, at the head of deep water navigation with direct access to the Atlantic, and that behind it is

a through route right up to the head of the Lakes at the Twin Cities, a thousand miles further inland. Were it an all year port, Montreal would be the chief one of the continent, but for some months winter chokes the beautiful St. Lawrence route, and the vessels fretting at the mouth of the great river must wait until the ice goes out in the spring before they can make their way westward.

About fifty years ago, the Harbor Master originated the idea of presenting a tall silk hat to the captain of the first vessel to arrive in the spring with a transatlantic ship. This custom was observed for about thirty-five years, then, as the top hats lost their popularity, a gold headed cane was presented instead by the Harbor Commission.

This year the cane was presented to Captain Edmund Aikman, of the Canadian Pacific S.S. Bolingbroke who had just completed his first voyage in command. The Bolingbroke left London for Montreal on April 9th, calling at Antwerp en-route, arriving three hours ahead of her nearest competitor on May 3rd. The liner "Montrose" of the same line, the first passenger vessel to reach the port in 1923, arrived two days after.

HIGHLAND SOCIETY CUP MATCH
Newcastle Curling Skips; Charles Sargeant; Chas. J. Morrissey; D. S. Creaghan; P. N. Brown; William Gifford; A. J. Ritchie; K. W. Crocker; and John Kussell are battling today with eight skips of the Chatham Curling Club for the possession of the Highland Society Cup. Games are being played in each town after noon and evening and great interest is being displayed in the match. Newcastle won the cup last year and are putting forth every effort to retain it this year.

KINDLY REMEMBERED
On Thursday evening, Jan. 31st, the members of the B.Y.P.U. and the Cladsome Service Chapter of the W.W.G. of the Baptist Church came in a body to the home of Miss Gladys Scribner and presented her with a fountain pen and an ever-sharp pencil. The evening was spent in games and music. She was also thoughtfully remembered by the teachers and officers of the Baptist Sunday School who called at her home Saturday evening Feb. 2nd, and presented her with a beautiful pearl ring. The many friends of Miss Scribner wish her every success in her new work.

ST. VITUS DANCE

Shows Through a Twitching of the Muscles of Face & Limbs

Chorea, or as it is more generally known St. Vitus dance, is a trouble that usually attacks young children, though older people may be afflicted with it. Its most common symptoms are a twitching of the muscles of the face and limbs. As the disease progresses the twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. Frequently the patient is unable to hold anything in the hands or to walk steadily. In severe cases the speech is often affected. The disease is due to debility of the nerves and relief comes through an enriched blood supply, which feeds and strengthens the nerves. Dr. Williams' Pink Pills have been most successful in reaching this trouble through their specific action on the blood, which it enriches and purifies. The following instance will show what Dr. Williams' Pink Pills can do in this trouble. Mrs. S. E. Makins, Parry Harbour, Ont., says:

"As a young girl I was badly stricken with St. Vitus dance. My parents tried several medicines but without avail. I was steadily growing worse and could scarcely walk without falling. I had to quit school and had no control of my nerves or actions. Finally a neighbor advised the use of Dr. Williams' Pink Pills, and the use of these for a couple of months restored me, and I have had no attack of the trouble since. I have, however, taken the pills at different times since, when I felt out of sorts, and find them all you claim for them if given a fair trial."

If your dealer does not keep these pills you can get them by mail at 60 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ECZEMA
You are not a professional doctor, but you can cure eczema. It is a skin disease, and you can cure it with Dr. Williams' Pink Pills. It is a skin disease, and you can cure it with Dr. Williams' Pink Pills. It is a skin disease, and you can cure it with Dr. Williams' Pink Pills.

SCHOOL INSPECTION
School Inspector P. G. McFarlane has recently been engaged in his usual inspection of Harkins' Academy.

BIG RECEPTION AWAITS PRINCE
The Prince of Wales will be given a great reception in South Africa and his visit on which he will start from England on May 2; will be a memorable one.

HOTEL MAN DEAD
Henry White a well known and popular hotel man, died at Bathurst on Saturday aged 73 years. He was prominent in town affairs and was known as a keen curler.

AN EXPENSIVE TEMPER
Sympathy is costly; aid of every sort is costly. But, as Dr. Johnson said, so are spite and illnature among the most expensive luxuries in life. It costs us immensely to be rude, ill-mannered or mean; if costs much to give way to unrighteous anger; to harbor spite and ill nature. If we must spend so much of our life forces upon others, were it not better to spend it in kindness than in unkindness?

HOCKEY
Last Wednesday evening the Newcastle Intermediate Hockey Team defeated the Campbellton Sextette in the local rink by a 3-2 score. Each period proved fast and exciting, the first period ending 1-1 and the second period 2-2. In the third period the locals made a splendid rush and Ryan scored the winning goal for the locals. L. J. Jeffrey refereed in a most satisfactory manner and the Intermediates are now making arrangements for a trip to Bathurst and Campbellton to play return games.

LOYABLE CARD PARTY
A very successful card party was held in St. Mary's new school last Friday evening under the auspices of the Newcastle sub-division Catholic Women's League of Canada the proceeds of which will go toward paying off the debt on the new building. Refreshments were served during the evening and a most enjoyable time spent by all those present. The prize winners are as follows:
Plain Whist—Ladies prize—Mrs. Mary Lawlor.
Gent's Prize—Mr. D. P. Doyle.
Auction Bridge—Ladies Prize—Mrs. R. H. Armstrong.
Gent's Prize—Mr. Sydney Codner.
When the absent members of the family come home, what is the first thing to do for them? Why, put on the teapot and brew them a nice cup of MORSE'S SELECTED ORANGE PEKOE Tea. If that isn't a royal welcome, then there isn't any such thing.

No Agricultural Grant

After a pretty difficult fight the Conservative Government finally got through parliament a vote of \$20,000,000 to assist the provinces in the construction of good roads. The money was divided according to population. Last year Ontario's share had been exhausted. That of some of the other provinces was steadily disappearing. A large deputation representing all the provinces waited upon Premier King and asked that the grant be continued. Mr. King refused. The \$10,000,000 voted by the Conservative Government and distributed amongst the different provinces for agriculture education. This too has been exhausted and the provincial premier desired a renewal of the grant. Premier King last week refused.

WONDERFUL FOR BREAD

Backache—Rheumatism
For over 50 years Minard's Liniment has been a household word in thousands of homes all over Canada. It quickly relieves rheumatism, backache, neuralgia, sciatica, sprains or bruises and pain of any kind. None give better satisfaction. Minard's is the best sort of liniment, rheumatism, and sore throat.

Advertising!

ADVERTISING means directing the attention of others to that for which attention is desired. If you have a stock of which you are proud, or a service which you believe to be superior, direct attention to the fact every week in the columns of the UNION ADVOCATE.

Stretch out the hand of good-will, wear the smile of welcome, and command the business of the buyers of this community. Do these things and your business will expand and the profits from your business will be greatly increased.

A WORD TO THE PUBLIC.
Do you not feel a certain reluctance about going into shops that have not invited you to enter their doors? At the shop which advertises—which invites your customer—you know that you are welcome.
