## Local and Other Items.

**INCENDIARISM.**—On Saturday last the steam grist mill, owned by Mr. Wm. Hill, Alisa Craig, was destroyed by fire. Loss \$5,000, insured for \$3,200.

Mr. Andrew Little, Deputy-Receiver of Wallace, has been appointed station master at Listowel. The appointment is a popular one.

On Thursday last, the eldest son of Mr. Robert Green, who resides on the Town line near Buckhorn, was killed by a falling tree.

The bill to restrain the Treasurer of Ontario from handing over the bonus debt of Bruce to the T., G. & B. Railway, was dismissed, with costs, by J. C. Strong, on Friday afternoon.

Fredrick George, the driver of the engine which caused the death of Wm. Temple at the depot in Hamilton, last week, has been sent to jail to await the verdict of the jury.

The Toronto, Grey & Bruce Railway have in contemplation the erection of an elevator, which will thus obviate the necessity of handling over our business to outside parties. It will be about the dimension of the Northern Railway elevator.

The Dominion Government have succeeded in forming a junction of the opposing Pacific Railway Companies. The various gentlemen interested will meet Tuesday for the purpose of taking preliminary steps for the organization of a new Joint Company.

Senator Sumner for two weeks has slept only by the use of opiate injections under the skin. It is feared that he must soon retire from the Senate never to come back, and he has himself asked Mr. Wilson to state that his health will keep him out of his seat for some time.

The Hamilton papers record the sudden death of Mr. Henry J. Lawry, from apoplexy, on the afternoon of Friday last. Deceased carried on the butcher business in Hamilton for the past twenty-nine years, and was well-known in this town. He died in the 60th year of his age.

PRESENTATION.—The trustees and a few of the members of the Canada Presbyterian Church, Thamesville, on the last day of the old year presented the pastor, Rev. B. McDonald, with a purse containing \$130, accompanied by a very flattering address, to which the recipient made a suitable reply.

Mr. Abraham Lander says that the Ontario Government has followed in the footsteps of Mr. Sanfield Macdonald in every measure it has adopted. If so, why then does Mr. Abraham Lander, who professes to be a disciple of Mr. Sanfield Macdonald, oppose the present Government.

The early conclusion of the debate on the speech is due to two facts—one, that the number of Opposition speakers is very scarce; and the other, that Tom Ferguson made no speech. This is the first remarkable fact of the session, for it has become a saying among reporters that the debate upon any subject will not be allowed to close without "sore toes" having a blow off.

SMALL POX.—The Bothwell Advance makes the rather startling announcement that small pox is prevalent in the Township of Euphemia, distant only some thirty miles from Chatham. One young man died last week, and the disease has manifested itself in two neighboring families. Great difficulty was experienced in getting the body of the young man interred, the Council having to send to Newbury before they could find anybody willing to undertake the job.

ODD FELLOWS' OFFICERS.—The following Officers have been installed in Fergus Lodge No. 73 for the current term:—Brothers Jas. Dlyth, P. G.; Geo. Anderson, N. G.; R. H. Perry, V. G.; J. Craig, R. S.; A. B. Perry, P. S.; Alex. Gerrie, T.; Robert Wilson, O. G.; Wm. Parker, L. G.; Thomas Crowe, W. S.; Charles L. Smith, L. S. S.; Wm. Foote, R. S. N. G.; Johnston Richardson, L. S. N. G.; A. G. Booth, R. S. V. G.; W. D. W. Reife, L. S. V. G. The membership is increasing, and the Lodge is in all respects in a most prosperous and satisfactory condition.

DEATH OF A CENTENARIAN.—Wm. Hyl, an old man who has lived by himself for many years, near Streetsville, was visited as usual on Saturday morning by his neighbor, Mr. Edward, who, finding the door locked, and hearing groans, went for another neighbor, Mr. Bond. They together broke open the door, and found the old man lying on the floor in a dying condition. Upon examination his feet, legs and hands were found to be frozen, and all efforts to revive him proved unavailing, and he died at 11 o'clock to-day. He was a centenarian, being just 100 years of age, and it is supposed that rising to make a fire he was smothered with the intense cold and perished.

We quote from the St. Catharine Times:—About ten o'clock yesterday morning our attention was attracted to a little girl, some 12 years of age, running through the streets with a stream of blood issuing from her head. On inquiring we found that she was one of Mrs. Hyl's children, and that her mistress had struck her with a rolling-pin. She succeeded in getting away, but no one was at home to attend to her. Her audience of her father's. Humanity demands that this should not be smothered up. The police should see that it is sifted thoroughly and justice speedily meted out to such barbarities. We learn that some of these children are badly abused, some of them having been turned into the streets in the worst weather without a cent of money, and left to seek their way the best they can.

OXEN are vulgar, senseless, offensive, impious, like obscene words, they leave a noxious trail upon the lips and a taint of odium upon the soul. They are the vilest of creatures, they gratify no sense, while they outrage taste and dignity.

## THIS MORNING'S DESPATCHES

**Prince Napoleon's Guardians.**

**Severe Weather Out West.**

**Six Men and Four Boys Frozen to Death.**

**Weather Moderating.**

**Snow Drifts Twenty Feet in Depth.**

**Horses Frozen.**

**Strict Retirement of the Prince and Princess of Wales.**

New York, Jan. 13.—A World's special from London, of the 12th inst., says the will of Napoleon appoints the Empress, Cardinal Bonaparte and M. Rouper guardians of the Prince, now Napoleon IV.

London, Jan. 11.—The Prince and Princess of Wales will remain in strict retirement at their country seat at Sandringham for a week, as a mark of respect to the memory of the ex-Emperor Napoleon. Prince Napoleon, his wife, the Princess Clotilde, Princess Mathilde, M. Paul Cassagne, and a number of other Bonapartists have arrived at Chislehurst where an important conference on the course to be pursued is expected to take place.

Napoleon left two wills, one of which is in London and the other in Paris.

Milwaukee, Jan. 12.—A St. Paul's despatch says the recent storms in Minnesota are unprecedented in severity. Three brothers, Charles, John and Stephen O'Neil, and Thomas and Michael Holden, each with a two horse team started for Wilmer with wheat, on Tuesday last, and were found to-day about ten miles from home. Two of the O'Neils and one of the Holdens were in their sleighs, frozen to death. The others were alive, but will scarcely survive. Five ox teams in the same vicinity were found frozen to death. The drivers are supposed to have abandoned them, and shared the same fate.

At Herman station, on the St. Paul and Pacific Railway, a man was frozen to death while going from the depot to the water tank.

At New Ulm a little boy, while endeavoring to reach his home, wandered eight miles and perished. A man was also found frozen near St. Peters.

Chicago, Jan. 13.—Despatches from the north and south state that the weather is rapidly moderating, and a thaw has set in.

Dubuque, Jan. 13.—The Cedar Falls and Minnesota branch of the Illinois Central Rail Road is badly blocked, snow drifts being from 200 to 2,000 feet in length, and from five to twenty feet deep. Men are working day and night, and will probably succeed in opening the road in a week.

The body of an unknown man was found frozen to death at Nicolet, Iowa, on Saturday night, and two teams of horses were frozen near Warthington, Minnesota. One of the drivers is missing, and the other so badly frozen that he cannot live.

The stages between Sibley and Rock Rapids lost one passenger, by being frozen to death, named A. O. Jenkins.

Two small boys were found frozen to death near Humboldt, Iowa, owing to the highways being badly blocked by the recent storms. Strong fears are entertained of a fuel famine at many of the interior towns.

## Guelph Single Plate Carriage Spring

**Manufacture.**

Last week we had the pleasure of visiting the single plate carriage spring manufactory of Messrs. J. B. Armstrong & Co., in this town. We found the proprietors at home, courteous and obliging, and ready to conduct us through the establishment, and answer all our interrogations. The works are situated on McDonnell Street, and immediately in rear of the well known carriage factory of J. B. Armstrong & Co. The building is 75 feet long by 25 feet wide, and is built more for convenience than for architectural beauty. Upon entering the spacious premises our attention was first directed to the motive power. The engine, which was manufactured by Messrs. Ingles & Hunter, Guelph, is thirty horse power, and works noiselessly and beautifully, and gives good satisfaction. We threw our eye over the busy and expert mechanics employed, and concluded that there were no idlers there. Having the interests of our readers at heart, and being of an inquisitive turn, we determined to take notes and print them. With ready consent upon our mind we commenced a series of questions, the information derived from which we hasten to lay before our readers.

The steel used in the manufacture of these single plate carriage springs is imported from the United States, and specially manufactured for the purpose, and is possessed of more than ordinary toughness and elasticity. The bars are cut into proper lengths by a powerful shears, and handed over to the rolling machine (which weighs upwards of five tons) and undergo an annealing process; they are then heated in a furnace, rolled and shaped, and given to the man who is engaged in putting on the heads—this operation being performed by an ingenious machine, which does its work so well that you are led to exclaim, how wonderful. The ponderous steam hammer is called into requisition in this part of the process, and can be driven forward or slowly at the will of the operator. The heads are then finished on the emery wheels and grinding stones. Next, the solid and squarely-turned ears are drilled with matchless celerity, and handed over to the man in charge of the tempering, who again places them in a furnace where they are evenly heated; they are then taken out, made into the proper shape on the curving machine, and dipped in a bath specially prepared for giving them the proper temper. A constant stream of cold water is kept running, by which means the liquid is kept at the desired temperature. After the springs are tempered they are bolted together, and subjected to the most severe test, by being placed under a powerful machine, which causes them to meet together several times in rapid succession. If a spring is faulty, it is once rejected, but this rarely occurs, as none but the best material is used. The springs are now ready for use and are placed in the store room, which is 20 by 40 feet, preparatory to their shipment to the various markets in the town and cities in the Dominion. Every spring is warranted, and the more widely they are known the more ready the sale. The manufacturers claim the following advantages over the old style: one-third less weight, a hundred per cent easier to ride upon, and less liable to breakage.

The manufacturers contemplate some improvements in their factory at an early date, after which they will be enabled to turn out two hundred sets per week, and give employment to about twenty-five men. The machinery, dies, &c., now in use, cost something in the neighborhood of \$10,000. About seventy-five tons of cast steel will be used annually by this firm, and springs to the amount of \$50,000 manufactured therefrom. All the tools used in the shop are made on the premises. These springs have already attained more than a Provincial reputation, and the day is evidently not far distant when these single-plate springs will wholly take the place of those which have done such good service for so many decades.

We wish the company a continuance of that success which their enterprise so richly merits.

## Guelph General Hospital.

**THE SITE FIXED.**

The Directors of Guelph General Hospital met on Saturday evening to consider the various offers of land made to them for a site for the Hospital building. The following sites were submitted, and were visited by the Directors:—

Robert Thompson, 3 acres, \$1,200.

Capt. Gordon, 10 acres and house, \$6,000.

Denis Coffey, York Road, 3 (no price stated). Mrs. Freeman, 2 or 3 acres, next Arthur Wells' garden (no price stated). Robert Richardson's property, \$1,200. J. T. Cunningham, 4 acres with offer of quarry, &c., \$2,000.

Dr. Clarke, 4 acres on Delhi Street, \$1,000.

Powell Estate, 5 acres on Paisley Road, \$1,000.

The Board unanimously decided to accept the offer of Dr. Clarke as being in all respects the most suitable. In making their selection the Directors do not confine their attention to the offers made, but inspected other properties.

They will in the course of a few days visit the various Wards of the Town to solicit subscriptions for the erection of the requisite buildings.

The above site on Delhi Street is one of the best, if not the best that could be selected, and the Directors deserve credit for their discretion and judgment in choosing it. The plot is situated on what is known as Mitchell's hill, a little to the left of the Eramosa Road, on the north side of Delhi Street, and about half way between the Eramosa Road and the rear of Dr. Clarke's grounds. The land stands high and dry, and slopes to the north, affording every opportunity for perfect drainage. The building will be erected fronting on Delhi street, and will be a conspicuous object from almost all parts of the Town. The site is a sanitary point of view is one of the best that could have been selected, and Dr. Clarke has acted in the most generous manner in selling the land at a much lower rate than he could have obtained for it from private individuals. We have no doubt, now that the site is fixed, and arrangements made for the building, that the Guelph General Hospital will be built by the Guelph people.

## Town and County News.

The new organ is now being put up in St. George's Church here.

A WELCOME VISITOR.—The January thaw has commenced in good earnest, and the hearts of the people rejoice.

The Masonic fraternity of Elora intend giving a grand ball and drawing room entertainment, on Wednesday, the 22nd inst.

MECHANICS' INSTITUTE.—The annual meeting of this Institute will be held in the Town Hall, on Tuesday evening, the 14th, at half-past 7 p.m.

IN A FIT.—An unfortunate farmer upset a load of hay on Saturday afternoon, opposite the Golden Lion. If the lion didn't roar he did.

BURN & SKINNER advertise for a number of men and boys to work in their cabinet factory in this place. They are very busy.

We are glad to learn that Mr. Wm. Mutrie, who underwent the surgical operation referred to in Saturday's issue, is progressing as well as could be expected.

The long-pending law suit between Messrs. Robertson and Wilson, of Fergus, has been finally settled, the former paying the latter the sum of \$2,000 damages and costs.

CERTIFICATE LOST.—Lost on Saturday between Guelph and Rev. Mr. Torrance's residence a first class teacher's certificate in favour of Simon McLennan. As it is no use to any one but the holder, he will be obliged if the finder leaves it at THE MERCURY OFFICE.

BAD FALL.—We learn that this (Monday) morning, as Mrs. Wm. Middleton was stepping out of her own door she fell and broke one of the bones of the wrist. Dr. Worsfold was called in and set the bone. Her arm is very badly swelled.

DEATH OF MRS. MACKENZIE.—Mrs. Mackenzie, relict of the late Wm. Lyon Mackenzie, died in Toronto on Sunday last, in the 71st year of her age. The funeral will take place on Wednesday afternoon, from her late residence, 50 Wellington Place.

"Get out of my way! What are you good for?" said a crack-brained old man to a bright-eyed urchin who happened to be standing in his way the other day. The little fellow, as he stepped one side, replied very gently, "They make me of such things as we are."

CAPTAIN NAPOLÉON.—On the evening of Saturday last, the editor of the Elora Times laid his head gently on a table in his sanctum and fell asleep, evidently feeling much in need of a short nap after the labours of the week. All was quiet—excepting the usual somnolent sounds emitted through the nasal organ with unfeeling regularity—and the lamp burned brightly, shedding its light rays upon the scene. The picture of an editor asleep! was complete, and no one having the least regard for the comfort of a fellow creature could have dared to disturb him. Although the body was in a state of repose, the mind was evidently active, and visions of deliquant subscribers paying up their dues flitted across his mental vision. Or he may have been dreaming that he was engaged in the delivery of the celebrated Ethiopian address of the carrier-boy, for he brought his arms with tremendous force upon the table, throwing the lamp on the floor and breaking it to pieces. In a moment the room was in a blaze, the glass through the window attracted the attention of the merchants, who rushed into the office to find the gentleman asleep, and under the influence of his terrible danger. Fortunately the flames had gained but little headway, and were easily extinguished. Had it been otherwise Wellington would have had to mourn the loss of one of her sons. As we can not afford to lose a services of our friend just yet, we trust that it will be some time ere he is again caught napping.

I am the Balaam, stopped by an angel. I had a dream in my sleep, a pretty little dream, in which I saw an angel. I was told that I am accursed by an ass.

### Guelph Evening Mercury

MONDAY EVENING, JAN. 13, 1873

#### The Late ex-Emperor.

The death of the ex-Emperor of the French has caused unusual commotion in the old world, and no little excitement in the new. Queen Victoria has sent an autograph letter to Chiselhurst, and a telegram of condolence has been received from the Pope. The Italian Government learned of the death of the ex-Emperor with the deepest regret, as it was impossible to forget that Napoleon had contributed greatly to secure the unity of Italy.

The Prince and Princess of Wales remain in strict retirement at their country seat at Sandringham for one week, as a mark of respect to the memory of the ex-Emperor. The British Court will go into mourning from the 14th to the 24th of January. The Municipal Council of Rome has adopted resolutions of condolence; and letters of condolence from the Emperor of Russia and the King of Italy have also been received.

Mr. Benedetti arrived at Chiselhurst, and was received by the Empress, M. Olivier and Marshall McMahon are expected to-day. Princess Murat and suite arrived on Saturday afternoon.

The remains of Napoleon III. will probably be buried on Tuesday, under the seal of the family, in the Chapel of the Roman Catholic Chapel at Chiselhurst. It is said that the French Government will permit the final interment of Napoleon's remains in France if the funeral is made strictly private, and deceased is buried as ex-Emperor not as Emperor. The ceremonies must be simply of a religious character. The President is understood to have conferred with the Minister of the Interior and the Prefect of Police with the object of preventing the funeral, if it takes place in France, being made the opportunity of a political manifestation.

Great numbers of people from France are expected at the funeral. The south-eastern and Northern railways of France have reduced the rates of fare for the benefit of the poorer classes desirous of attending the ceremony.

An impression is gaining ground that the Emperor died from the effects of chloroform, administered to assuage pain.

The first subscription list for a monument to the Emperor Napoleon, which opened by the *Presse-gazette* of Milan, already exceeds \$5,000, and that paper reports that subscriptions are pouring in from all quarters.

National subscriptions for the same object have been opened at Venice. A despatch to the agent of the Associated Press from a friend of the Imperial Family of Chiselhurst, gives the following description of the scene:—The remains of the late Emperor have been placed in a coffin. The corpse is dressed in the uniform of a marshal. The upper lip is bare, the moustache having been cut off to facilitate the taking of a plaster cast. The beard, which remains, is brown and bushy. The features look stern and care-worn, and have an expression of pain. The grand coronet of the Legion of Honor lies across his breast. The hands, which are ingloved, are disposed in an easy and natural manner, the right clasping the left. On the fourth finger of the left hand is a ring with several diamonds, which was placed there by the Empress. A small silver cross of exquisite workmanship lies on the breast, and on the corpse are placed three sprigs of holly. Over the head a crown of violets is suspended. At the foot of the coffin is the brass camp bedstead in which the Emperor died. The furniture of the room, as well as of the whole mansion, is simple and unostentatious. The body will lie in state on Tuesday in the entrance hall of the chapel. The general public will not be admitted to view the remains. No change has been made in the time and place of the funeral and burial as last announced. The ceremonies will probably begin about noon on Wednesday. The Empress is overwhelmed with sorrow, and her prostration is so great as to alarm her attendants. The Prince Imperial does all in his power to comfort her. Although none but relatives and intimate friends of the deceased are admitted, Chiselhurst is crowded with visitors.

The number of emigrants who embarked at Liverpool for America during the past year was 164,000.

The trial of the Tichborne claimant, for alleged perjury, will commence on the 13th of April.

The bill of exceptions to the conviction of Edward S. Stokes is to be brought successively before every one of the thirty-one judges of the Supreme Court, in the hope that some judge may be found to favor the condemned murderer, and grant him a new trial.

Evidence is now being taken at Ottawa for the Mixed Commission respecting the responsibility or otherwise of the Canadian Government for the Alban's raid. Sir John Macdonald and Hon. H. L. Langevin are the Canadian witnesses. Sir George

PROSPECTUS FOR 1873, SIXTH YEAR.

## THE ALDINE

An illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A representative and champion of American Taste.

#### Not for Sale in Book or News Stores

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Also each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price and character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos besides!

#### Art Department.

Notwithstanding the increase in the price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year, proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers are anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve their plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists in America.

In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have become familiar, through photographs or copies of any kind.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' inimitable etchings, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The peculiar feature of a conspicuously illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world at a cost so trifling, will compare the subscriptions of thousands in every part of the country; but, as the usefulness and attractions of THE ALDINE are so advanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance double sure," by introducing unparalleled offer of

#### PREMIUM CHROMOS FOR 1873

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The picture, entitled "The Village Belle," and "Crossing the Moor," are 14x20 inches—also printed from 25 different plates, requiring 25 impressions and eight to perfect each picture. The same chromos are sold for \$30 per pair in the art stores. As it is the determination of its conductors to keep THE ALDINE out of the reach of its competitors in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art, and, considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. For illustrations of these chromos, see November issue of THE ALDINE.

THE LITERARY DEPARTMENT will continue under the care of Mr. Richard Henry Stoddard, assisted by the best writers and poets of the day, who will endeavor to have the Literature of THE ALDINE always in keeping with its artistic attractions.

TERMS—\$5 per annum, in advance, with Oil Chromos free.

THE ALDINE will, therefore, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers, and not handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac-simile signature of James Sutton & Co.

AGENTS WANTED. Any person, wishing to act permanently as a local agent, will receive full and prompt information by applying to JAMES SUTTON & Co., Publishers, 58 Maiden Lane, New York.

GEORGE JEFFREY.

Guelph Evening Mercury

MONDAY EVENING, JAN. 13, 1873

The Foster Brother;  
The Orphan of the Wreck.

This took place within a week of the snow storm and the memorable scene at the Red Ship. Such promptitude was necessary, because nothing had been done till then was gone. Until then it could not be publicly declared that George was the rightful owner of Ardgowan, and that was a declaration which could not be delayed.

It was a raw, bleak February day, very like the February day on which they had passed at Ardgowan twenty years before. Nathan and Rangan were carried away from Glenfask in a postchaise, and disappeared for ever from the scene of their successful imposture, their arrogance and tyranny. They went forth like the patriarch of old, not knowing whither they went; but, unlike him, their affection was not mollified by a trust in One who would guide and direct them. They may justly be said that they ultimately ended in the United States, and went to the South, where Garrett resumed his occupation of slave-driving, and might well have been the original of Mrs. Stowe's "Maggie." Let us leave the miserably poor in that region of slavery, and seek not to know how after that they lived, or how they died—whether remorse and repentance came to them, or whether they descended to the grave unchanged in heart and life.

Secret being gone, the fact was proclaimed that Captain Gibson was not the rightful owner of Ardgowan, but that the child whom Kenneth Bruce had saved at the wreck of the Eglantine was the son of George Morrar, and therefore heir to his father's property. An immense sensation was of course produced when this became known, and the news was hailed with joy by all the tenants on the estate, who were now emancipating from the galling bondage in which Garrett had kept them, and restored once more to the gentle and generous administration of Matthew Gregison, who had been induced anew into his former office of factor, and went about a prouder and happier man than he could well express.

The general joy was intensified when it became known that the youthful George Morrar was to wed Lillias Gibson; and yet again when it was given out that Harry was a married man, and that his wife was no other than the daughter of Kenneth Bruce and Lucy Morrar. In these facts people recognised a pleasant and happy fitness of things; and when Harry brought Caroline to Glenfask, as he very speedily did, and refurnished and decorated Moss-grove for her reception, her arrival was hailed with joyous and heartfelt welcome. On the high road the tenantry of Ardgowan met the carriage in which she and Harry came, and unyoking the horses, abating a strong rope to the shaft, they drew him in triumph to the house. And here Caroline and Lillias met for the first time. But did they meet as strangers? Far, very far from it. They rushed into each other's arms as dear and well-known friends. For many months Harry had been a closely connecting link between them, through whom they knew each other as intimately as if living personal intercourse had united them. And now when they came bodily together it was with the happy eagerness of strong affection which longed to manifest itself in a fond companionship, which their full knowledge of each other, invested with joyous and delightful anticipations.

CRUSHED TO DEATH.—On Friday afternoon another man was killed at the G. W. R. yards in Hamilton; this time a fireman upon an engine engaged in shunting a car which had been injured in an accident that occurred a short time since on the line west. It was the intention to shunt the car upon a switch, over which it would be taken to the repair shop. The coupling being gone, a rope had to be used to attach the car to the engine, and in order to do this the latter was backed up within a yard of the former, and stood while the deceased, William Temple, a fireman on the engine, and two yardmen named John Ireland and Andrew Cameron, proceeded to tie the rope in its place for controlling the car. While so engaged the engine driver suddenly backed up his engine, and the head of deceased being caught between it and the car, it was so badly crushed in that he fell a corpse; it had so severely jammed about the body that he is seriously, if not fatally injured, and is now under Dr. Ballen's treatment. Cameron escaped, as he was too low to be caught.

PUBLIC NOTICE.—Notice is hereby given that a petition will be made at the next session of the Legislature of the Province of Ontario, for an Act to authorize John Peter MacMillan, of the Town of Guelph, in the County of Wellington, and Province aforesaid, Barrister-at-Law, to practice as an Attorney in Her Majesty's Courts of Queen's Bench, and Common Pleas, and as Solicitor in the Court of Chancery, in said Province.

**BUFFALO POLICE REPORT.**—The Post furnishes the following particulars:—Supt. Byrne submitted his annual report to the Board of Police Commissioners, from it we learn that the total number of persons arrested during the past year was 10,534, an excess of 2,059 over 1871, the number reported being 8,475. The nativity of those taken into custody during 1872 was 4,744 white Americans and 148 coloured Americans, 2,541 were Irish, 1,410 Germans, and 727 Canadians. The others were foreigners from different nations. Of the total number of arrests, 3 were charged with murder, 4 with arson, 43 with burglary, 50 with burglary and larceny, 3 with rape, 5 with bigamy, 32 with assault with intent to kill, 62 with assault with a deadly weapon, 131 with grand larceny, 658 with petit larceny, 1767 with assault and battery, 11 with gambling and the balance with offenses of a minor character. Of these 3,870 were married, and 6,664 single; 940 could read and write and 1,220 could not; 74 could not read only. The total number of lost children found and restored to their parents was 151. The total of persons furnished with lodgings at the different station houses was 3,675.

**BREAKFAST—EPPE'S COCOA.**—GRATEFUL and COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition and by a careful application of the fine properties of well-selected cocoa, Mr. Eppe has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills.—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled "James Eppe & Co., Homoeopathic Chemists, London." Also, makers of Eppe's Milky Cocoa (Cocoa and Condensed Milk).

**A STARTLING TRUTH!**—Thousands die annually from neglected coughs and colds, which soon ripen into consumption, or other equally fatal diseases of the lungs; when by the timely use of a single bottle of Dr. Wistar's Balsam of Wild Cherry their lives have been preserved to a green old age.

Consumption, Bronchitis, General Debility.—Caution.—Fellows' Compound Syrup of Hypophosphites is entirely different in its combination and effects from all other remedies called Hypophosphites. The public are cautioned that the genuine has the name of Fellows & Co. blown on the bottle. The signature of the inventor, James I. Fellows, is written with red ink across each label, and the price is \$1.50 per bottle. Fellows' Compound Syrup of Hypophosphites is prescribed by the first physicians in every city and town where introduced, and is a thoroughly orthodox preparation.

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

PREPARED BY SETH W. FOWLE & SONS, Boston, Mass., And sold by Druggists and Dealers generally.
