Some 225,000 people witnessed it, over 40,000 Masons marching in line. The apron, trowel and working tools, used in the ceremony, were used by Bro. George Washington in laying the corner stone of the Capital at Washington, 129 years ago. Every word of the ceremony could be heard with marvellous distinctness in Watford and the privilege of hearing it by radio was greatly enjoyed. Last Sunday evening an outdoor concert was listened to by Mr. Fitzgerald's neighbors.

## AN AFRICAN PRINCE COMING TO WATFORD

On Thursday, Oct. 12th, a real live African Prince will speak in the Congregational Church, Watford. He is a living product of Christian missions.

Born in heathenism, he and his people were brought into the Light through the Wesleyan Mission. His father was king over a territory in the Gold Coast, so that Dr. Aggrey himself is a prince. His mother is still living at eighty-six years of age, and is able to walk twenty miles to church. Dr. Aggrey tells us that his father, just before his death, told him as a lad that he wanted him to go to the mission school, and afterwards journey across the sea to learn still more in Christian lands, and finally go back to his own people "and do."

As the father said, "what I have tried to do with my little sense." This king's great desire was to have his son used of God to lift his people up. And so young Aggrey crossed the sea to England, and afterwards to America.

This was twenty years ago. He is now an ordained minister, a Master of Arts, a Doctor of Divinity, and is almost through his course in Philosophy at Columbia. One of his colleagues comes from Cambridge. For some time he has been a Professor in Livingstone College, North Carolina, training his own African people.

Dr. Aggrey is gifted with a fund of native humor. His stories and illustrations are exceedingly apt. He speaks not only with his mouth, but his restatements add great force to what he is saying.

It is the chance of a life time to hear him speak in the Congregational Church, Oct. 12th at 8 p.m. An offering will be taken to defray expenses.

At noon, a delegation invaded their home without warning, and on behalf of Watford friends presented them with a congratulatory address, the doctor with a diamond scarf pin set in platinum and a pair of gold cuff links, and Mrs. Newell with an amethyst brooch, as a slight token of the high regard and esteem in which they are held by their numerous friends. The doctor in a few words thanked the deputation for the presents and the kindly feeling expressed in the address.

Mrs. Newell's Sunday School class sent congratulations and a remembrance, as did also many old friends and relatives.

During the evening a number of Mrs. Newell's lady friends called on her in a body and spent a couple of hours socially and in reminiscence. Refreshments were served.

What did Jesus say about passing judgment on others. —Matt. 7:1-5

NOTE AND COMMENT

The provincial fuel controller says he will not allow profiteering in coal. It is to be hoped that he will be able to enforce his order.

As we look back over the years, we are astonished that so many infants survived without being deprived of their tonsils.

The near Eastern trouble will afford Ireland an admirable opportunity to demonstrate her loyalty to the Empire.—Toronto Mail and Empire.

All but about one per cent. of Canada's 1922 loan has been converted into the new loan. There will be practically no cash payment. This will be a great relief to the Treasury.

A Detroit man is seeking an injunction restraining his wife putting muriatic acid in his whisky. Some of the bootleg stuff is rank enough without adding any bitters.

"What benefit is there in excluding Canadian wheat from the American market," asks the Chicago Daily News, "if the same wheat appears in foreign markets in competition with wheat grown in the United States?"

Blood pressure is one of the popular ailments just now. It may help the afflicted to know that Drs. Orr and Innis, two London, Eng., physicians have made experiments which demonstrate that blood pressure can easily be relieved by copious draughts of water.

Canada is standing on the eve of a period of development in population in the next quarter of a century which will dazzle the world, according to Sir John Willison, president of the Western Canada Colonization Association, who gave a general outline of the aims of the association at a combined meeting of the men's and women's Canadian clubs and Board of Trade at Calgary.

New York Tribune: The ending of the coal strike should not mean the forgetting of its lessons. The public is paying, and will continue to pay, its cost. And, paying the cost, the public may well demand that measures be taken for lessening its dependence upon the products of the mines. That can be done, beyond question, by substituting what has been called the "white coal" of our rivers for a considerable proportion of the black coal.

Age counts for much less than it did a generation ago. People do not submit as readily to the growing-old process. They are realizing more and more that youth is not a physical affair at all. The new psychology, which is quietly, but deeply affecting human thought in many directions, is teaching man that healthy labor, cheerful thinking and useful interests in life go a long way to-

wards preserving fitness and freshness of body and mind.—Cape Argus South Africa.

CANADA'S MONEY AT A PREMIUM ALL OVER THE WORLD

Windsor, Sept. 29.—For the first time since the American Civil War United States money is at a discount today in local banks.

G.J. Lackner, Manager of the branch of the Imperial Bank of Canada here stated that Canadian money is now commanding a premium of 1-16 of 1 per cent in New York.

For five years Canadian money has been at a discount in Detroit. At the close of the great war it was discounted as high as 22 per cent. Since then the discount rate has gradually dropped until two months ago it was on a par with United States currency. Fluctuations since then have been small, Canadian money really being quoted at more than 1 per cent. discount.

During the American Civil War, when the Republic was making heavy borrowings, Yankee money was discounted as high as 55 per cent. here and was unacceptable almost at any rate to Canadians. The exchange gradually righted itself until par was reached again.

Canadian money is the first to reach par value with American money. With American funds at a discount here, Canadian money now has a premium in all countries of the world.

Ten Years from Now It May be Useful to Decide an Argument

Sarnia, Sept. 28.—Justice Lennox this morning sentenced Edward McMullen, self-confessed Wyoming bank robber, to 14 years penal servitude, and George Anderson, found guilty of complicity, to 10 years. A penalty of two years for attempting to break jail was also imposed upon McMullen, to run concurrently.

Both men took their sentences calmly. This writes finis to a somewhat notorious case. William Ayres was found guilty and imprisoned for twelve years at the last assizes, and John Yohn, the fourth and last member of the quartet held, was last night acquitted.

The sentencing of Anderson and McMullen at Sarnia brings to a close for the time being the interest in the famous Wyoming bank robbery cases. The branch of the Bank of Toronto at Wyoming was robbed of \$14,000 on October 12, 1921. In May of this year, following information given the police by Mrs. Koehler, "the mystery woman," four men were arrested in London and charged with the crime. They were taken to Sarnia for trial and the first of the quartet, William Ayres, was given 12 years in prison. Ed. McMullen, alleged leader of the gang, was then tried, but the jury disagreed, and further trial in the case was postponed till this fall. In the interval McMullen made a sensational attempt to escape, using a wooden revolver, but was beaten into submission by Warden Dodd. This time McMullen pleaded guilty and was sentenced to 14 years for robbery and to two years for attempted escape. George Anderson was also found guilty and was given 10 years. J. G. Yohn, the fourth alleged member of the gang, was acquitted.

INTERESTING NEWS OF THE DISTRICT

ALVINSTON

Fire, which originated in the engine room, totally destroyed the local flax mill, with the season's crops and all machinery. A fire had been kindled Monday for the first time this season in preparation to start operating with full force Tuesday morning. A near-by resident noticed the fire, which was confined to the engine room, and immediately gave the alarm but owing to lack of water-works in that part of the town the structure was soon enveloped in flames and was razed to the ground in a few minutes. It is not known definitely whether it will be rebuilt again or not, but it is not thought likely, as this is the third time it has been burned, being totally destroyed in 1918, and was partially destroyed a few years before. As a result of the fire between 15 and 20 men will be thrown out of employment. The mill owned by McColl & Company, of Yale, was a two-storey building, valued at \$7,000. Machinery in the building was valued at \$5,000 making the total loss \$12,000. The flames did not reach an adjacent warehouse in which was stored 10 loads of flax.

Besides her sorrowing husband, she leaves to mourn her loss, two daughters Mrs. Fred Debear of Brooke, Mrs. Leitch of Inwood, and one son Gordon on the homestead also two sisters Mrs. Edward Abbott of Aylmer and Mrs. James Finley of Blenheim and three brothers, John Eaton of Niagara Falls; Wesley of Aylmer, and Albert of North Dorchester. A MOTHER'S DUTY TO HER DAUGHTER Health Must be Guarded as She Comes to Womanhood Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need health and strength during the years between early school days and womanhood. It is then that growing girls droop and become bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs and a dislike for proper food. These signs mean that the blood is weak and watery. The watchful mother takes prompt steps to give her girl the new, rich blood her system calls for by giving her Dr. Williams' Pink Pills. No other medicine has ever succeeded like them and thousands of mothers have proved their worth. Mrs. W.H. McIntyre, Gananogue, Ont., tells what these pills have done for both herself and her daughter. She says: "I have used Dr. Williams' Pink Pills for many years, especially in times of weakness and general debility, and have found them a most satisfactory medicine. After a severe attack of influenza I found myself in a nervous condition and resorted to my old tonic—Pink Pills—and they did not fail me. I also gave them to my eldest daughter, who was in a serious condition due to ailments of girls of her age. She complained of headaches and backaches, and would often grow hysterical. She began taking the pills and was soon on the road to health again. She never complains now of headaches or backaches, and I give the credit to Dr. Williams' Pink Pills. When ever I see any of my children ailing or in need of a blood tonic, I give them these pills and always with the best results." You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% of Disease

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Ezema and other skin troubles—the Headaches and Backaches. Why is this? As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste. "Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation. "Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known. 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

HALL'S CATARRH MEDICINE

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Secret Skin Troubles

MEAN NIGHTS & DAYS OF ITCHING TORTURE. A well-known physician says that he comes across many terrible cases of secret skin disease. Because there is a natural disinclination to seek advice, the sufferer either neglects the trouble in its early stages, or else aggravates it by use of some poisonous mineral ointment. Whilst this may hide up surface trouble, it also drives disease further into the skin. You cannot thoroughly and permanently banish diseases like eczema, tetter, psoriasis, ringworm, etc., unless you first destroy all disease germs. Zam-Buk does this quickly and thoroughly. Zam-Buk is unique in its germicidal and healing strength. Its soothing herbal essences penetrate into the skin right into the weakened and diseased inner tissues, killing the germs and uprooting disease at its very source. The first dressing of Zam-Buk ends the dreadful itching and when all sore inflamed tissues have been thoroughly soothed and purified by Zam-Buk, every trace of disease is made to disappear, and there is a splendid new growth of clear healthy skin.

A MOTHER'S DUTY TO HER DAUGHTER

Health Must be Guarded as She Comes to Womanhood Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need health and strength during the years between early school days and womanhood. It is then that growing girls droop and become bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks weak and aching backs and a dislike for proper food. These signs mean that the blood is weak and watery. The watchful mother takes prompt steps to give her girl the new, rich blood her system calls for by giving her Dr. Williams' Pink Pills. No other medicine has ever succeeded like them and thousands of mothers have proved their worth. Mrs. W. H. McIntyre, Gananoque, Ont., tells what these pills have done for both herself and her daughter. She says: "I have used Dr. Williams' Pink Pills for many years, especially in times of weakness and general debility, and have found them a most satisfactory medicine. After a severe attack of influenza I found myself in a nervous condition and resorted to my old tonic—Pink Pills—and they did not fail me. I also gave them to my eldest daughter, who was in a serious condition due to ailments of girls of her age. She complained of headaches and backaches, and would often grow hysterical. She began taking the pills and was soon on the road to health again. She never complains now of headaches or backaches, and I give the credit to Dr. Williams' Pink Pills. When ever I see any of my children ailing or in need of a blood tonic, I give them these pills and always with the best results." You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% of Disease "FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches. Why is this? As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation. "Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known. 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

HALL'S CATARRH MEDICINE

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

A well-known physician says that he comes across many terrible cases of secret skin disease. Because there's a natural disinclination to seek advice, the sufferer either neglects the trouble in its early stages, or else aggravates it by use of some poisonous mineral ointment. Whilst this may hide up surface trouble, it also drives disease further into the skin. You cannot thoroughly and permanently banish diseases like eczema, tetter, psoriasis, ringworm, etc., unless you first destroy all disease germs. Zam-Buk does this quickly and thoroughly. Zam-Buk is unique in its germicidal and healing strength. Its soothing herbal essences penetrate into the skin right into the weakened and diseased inner tissues, killing the germs and uprooting disease at its very source. The first dressing of Zam-Buk ends the dreadful itching and when all sore inflamed tissues have been thoroughly soothed and purified by Zam-Buk, every trace of disease is made to disappear, and there is a splendid new growth of clear healthy skin.

A well known county official vouches for the following incident: "I was standing on the corner of Main street, of our town the other evening when I saw a young fellow throw down on the sidewalk a burning cigarette stub. He had not gone ten feet before a sparrow had flown to and picked it up in its bill. Where do you think it went? It rose and flew to a knot hole in the side of a frame store building, where it had its nest. May not some of the mysterious fires one reads about have been caused by that curiosity-filled scavenger, the sparrow?"  
Anthracite is being sold at St. Mary's at \$22 a ton.

**An Ideal Realized**

"I will build a motor car for the multitude. It shall be large enough for the family, but small enough for the unskilled individual to easily operate and care for—and it shall be light in weight that it may be economical in maintenance. It will be built of honest materials—by the best workmen that money can hire—after the simplest designs that modern engineering can devise. But it shall be so low in price that the man of moderate means may own one—and enjoy with his family the blessings of happy hours spent in God's great open spaces."

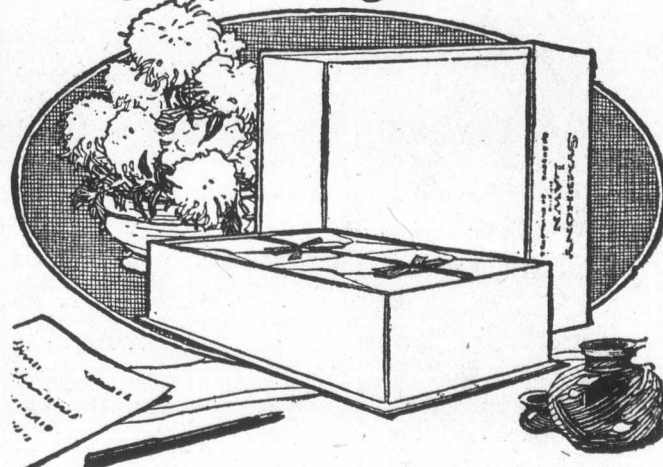

Behind every great undertaking is a great ideal, born of great and sincere aspirations. At the time when the Ford Motor Company was organized, Henry Ford expressed his aspirations in this statement. The degree in which this ideal has been realized is measured in the world-wide popularity of the Ford Motor Car—the latest price reduction on which has just been put into effect—thus fulfilling Mr. Ford's ideal of building a car for the multitude.
