

WEEKLY MONITOR.

The Weekly Monitor.

WEDNESDAY, SEPT. 26th, 1894.

OUR READERS will be pleased to learn that the Monitor is still rapidly working into the good-will of the inhabitants of Annapolis county, and that the proprietor is sincerely grateful for the universal support and sympathy so generously bestowed. Having, as it does, religious correspondents in nearly every section of the field of labor in which it is our privilege to be located, the Monitor is fast becoming the most welcome visitor to the house and family, and the interesting contributions furnished by them from week to week are having the effect of adding many names of those living abroad, as well as at home, to our subscription list.

As has been our custom for the past three years, we once more offer our paper to all new subscribers from the 1st of January, 1895, for its yearly subscription price, viz., \$1.50, thus enabling any who may wish to have its welcome visits from now till the expiration of the year 1895 for the very small sum of two cents per week.

When we assert that the total weekly issue of this journal has reached the number of 10,000 we are within the limits and our advertising columns demonstrate another convincing proof—that as an advertising medium it has no rival.

—Railway matters in Shelburne county are fast approaching a crisis. Work on the Hervey line, from Sand Point to New Germany, has been going on for some time, with a number of Italian as employees. Mr. Hervey has been absent for several months, in England and the United States, trying to raise the needed. One of the two parties who took the contract to grade a section of the road, recently left for parts unknown; while the other, as at last reports, was in jail in Shelburne, kept there by the sheriff for safe keeping, to prevent the Italians from "crucifying" him, as they threatened to do unless paid the wages due them. This certainly is a glorious state of affairs.

No less interesting is the condition of things connected with the line from Shelburne to Yarmouth. Work on the narrow-gauge road has been going on for some time with a considerable force of men. Now the broad-gauge people propose to begin active operations at once. They have completed all their financial arrangements, and claim to be in a position to proceed at once with a standard-gauge road. As they are bringing a large quantity of material and outfit from New York, there is no doubt that the people behind the standard-gauge road are in earnest, and the construction of the second line over the same ground will at once be undertaken. This seems the quietness of affairs. Just who will be the winner of the struggle is a disputed question and probably is not worth discussing at present. The important point to consider just now is what is to be done about it? Both companies are promised subsidies as well as the one from the local, and the other from the Dominion government. It would be well therefore for these governments to make an effort to arrive at some understanding in the matter, in order that the people's money may not be frittered away upon any such wild enterprises as the construction of two lines of railway where there is scarcely enough business for one.

—ALBION FRANCE is just now a republic, there is no scarcity of French princes and royal families. The head of one of these royal families, the Count of Paris, died recently, an exile in England. Had the last descendant of France been an established monarch and unchangeable as those of Great Britain, he would undoubtedly have been King of France, as he was the direct descendant of the royal family which has reigned in that country before Napoleon Bonaparte, the great disturber of Europe, played havoc with his Kings and thrones. His grandfather was King of France from 1830 to 1848 when he was driven from the country by the storm of the second French revolution. Since that time France has been once an Empire and twice a Republic, and through all these varying changes the noble old Bourbon line has always had many adherents who expected and desired its restoration to the throne. The same might also be said of the Bonaparte family. So great was the fear of this restoration that in 1850 a law was passed expelling from the soil of France the direct heirs of families who had reigned there. Since that time the late prince has resided in England.

Just at present the republic seems firmly established in France, yet so facile are the French people, and so amiable their instincts, that it would not be safe to predict its continuance, and it may be that the next century will witness as many kaleidoscopic changes as the last one has. Far such be the case it would not be surprising if some descendant of the late Count of Paris, should once more sit upon the throne of his ancestors.

—The unfortunate Li Hung Chang has lost his "yellow jacket" and his "throned" position. His management of the Chinese Empire has been so successful that he has become a household name in the West. He has been so successful that he has become a household name in the West. He has been so successful that he has become a household name in the West.

—A sad accident occurred at Clifton, near Truro, yesterday, when Robert, a five year old son of W. D. McCurdy, fell from a load of lumber being carried by his father. One of the wheels passed over his head. The injuries received proved fatal within a few hours. —The survey of the boundary between Canada and Alaska has led to the discovery that Mount St. Elias, so long regarded as the highest peak of the continent, is in Canada, not the United States territory. The height of the mountain was found to be 18,000 feet.

—J. W. Beckwith & Son's Fall Goods have been arriving for the past six weeks, and will be completed in every department in a few days. His second and choicest importation of Mantles arrived yesterday, which completes his fall stock in that line, and are now on hand in his Mantle Department for the inspection of his numerous customers. —The new steamer about to be constructed in Maine for the International S. S. Co., will be of wood and will be propelled by a single screw. She will be 202 feet long, and will register about 2000 tons. Work will be completed in October, and the steamer will be ready for service next season.

A public reception was tendered him on market square by an assemblage of four or five thousand people. His subsequent meetings have been largely attended and have aroused a deep interest in the movement. —J. W. Beckwith has just received a special order for a specified quantity of strictly fresh Eggs each week, which enables him to make the greatest advance in price for the week at one time. This price is only for strictly fresh Eggs, brought by his customers each week, and not for those which are being held for the advance in price. 25 ct

—REBATE.—Mrs. A. Elliott wishes us to correct a statement made in the report of the tea-meeting at Port George. In our last issue, to the effect that the meat table was furnished by her, Capt. J. A. Parks also assisted in furnishing the table, but the cooking and superintending devolved upon Mr. S. Dunlop, with the assistance of two other friends. —The residence of the Rev. G. Osborne, Troop No. 478 St. Urban street, Montreal, was burglarized the other night sometime between midnight and morning. Mr. Osborne's desk in the study was rifled and \$23 taken. The tools of the midnight marauders, consisting of a file and chisel were left behind. —Mr. Miller, Miss Smith, has just returned from attending the opening of Fall millinery at St. John. Miss Marshall is now in Boston attending the Springing in that city. Our stock of millinery, when complete, will be the largest and most comprehensive ever exhibited in Middleton, and customers may depend upon obtaining the very latest styles. CALHOUN & GROSS.

—A cow on the track created a tremendous smash-up on the Canadian Pacific on Monday morning. A special stock train composed of 25 cars filled with over 200 head of cattle from the northwest, was derailed. Several animals were killed and four had to be slaughtered. It took twelve hours to clear the track. —CHAFFRON BICYCLES.—Mr. Frank Hills, a native of our town, and a member of the respected townsmen, Mr. James Hills, now of Richmond, has the honor of holding the title of the fastest bicycle rider. He also won for a half mile, flying start, unpaid record for the previous year. He has ridden on the grounds, covering the distance in 1 min. 10 3/4 seconds. His best time for a mile was the M.P.A.A. for a record for the half mile. —EXTENDING THE TEAM.—The general manager of the Maritime Railway, Mr. J. H. Chute, has started the entering wedge for the extension of the pastoral train, which has been limited to three years. The rule adopted permits the train to be extended to five years, when the necessity of the extension is made. It is a great relief to the public, and the circumstances in which it is made, it is probable that in actual operation such circuit will be permitted to judge of its own necessity, subject to the approval of the stationing committee.

—The entire crop of 150 barrels will be sent by carload to Montreal where a market is already assured for them at prices in the neighborhood of ten dollars per barrel. —Halifax had three tragic deaths last week. Thursday afternoon a British merchant named Rufus F. Page had been cheerfully discussing with his wife the plan for a new house to be intended erecting at Bedford, and early in the afternoon he was down to Richardson's planing mill, a short distance below the station, to order some lumber. He was returning along the railway track, a little after 8 o'clock, when the train freight train came up behind, struck him, and life was almost instantly gone. —Serenity to body or spirit, promptly relieved by Johnson's Anodyne.

NEW ADVERTISEMENTS.

THE BRIDGETOWN IMPORTING HOUSE!

September days inevitably suggest the purchase of Autumn and Winter supplies both for dress purposes and household use. You buy and use Dry Goods; we buy and sell them. You buy the good kinds for as little as you can to use; we buy the best for as little as we can to sell, and we can do so by buying, because there is scarcely a limit to quantity, and we always buy from headquarters, thus saving the customer the middle profit to a great extent. So much for argument. Now to prove it. We have just opened and placed on sale the choicest and best lot of

Fine Imported Dress Woollens

We also have a large collection of the best production of Canadian looms, and would call special attention to the Columbian Cloths, of which we have control. These goods are the greatest novelty in Ladies' Fall Suitings, are 64 inches wide, and include a number of beautiful designs, and are the correct thing for autumn wear.

We have a perfect system, and send goods all over the country.

TAILOR-MADE JACKETS, DIRECT FROM GERMANY.

In our Mantle Department will be found the largest assortment, in the most correct styles and newest materials, ranging in price from \$2.50 to \$22.00, all of which are perfect styles and fits. Having only one of each style in the best quality those who call early will get first choice.

English Flannelettes!

Ladies are already exclaiming about the superior quality, softness of finish, and fast color of these goods, which are taking the place, to a great extent, of the wool flannel.

FURS. FURS. FURS.

We can confidently state that our stock of Furs (the first instalment of which arrived this week, balance to follow next week) will be the choicest and best value ever shown here. Ladies' Dog Skin Jackets from \$25.00 to \$40.00. Greenland Seal Capes, all lengths. Men's Fur Coats, \$22.00 to \$40.00.

Carpets! Carpets!

our stock of Carpets in order to clear them out before placing our order with the English manufacturers for spring stock. A Dollar Carpet can be bought for 75 cents, and all other lines in proportion.

LADIES' FALL AND WINTER UNDERWEAR AND HOSIERY.

Having had grand success in the past in our efforts to supply the trade with the best UNDERWEAR procurable, we have been encouraged to buy very largely this season of a class and variety that we feel confident the Ladies will appreciate, especially as the prices do not exceed those of ordinary Goods. To this end we will be pleased to show the merits of the different makes and qualities.

Meeting of District Lodge I. O. G. T. at Centerville. The District Lodge I. O. G. T., met with Morning Dawn Lodge at Centerville with a fair number of delegates from the various lodges.

The District C. T. being absent the District Counselor occupied the chair. The delegates present reported most of the Lodge as being in good working order. It was regretted that some of the lodges in the eastern part of the district were not represented.

The afternoon session was very interesting, a greater part of the time being occupied in discussing the work of the Lodge and the juvenile temple, and the best methods to be applied. A resolution was passed that this Lodge aid the Grand Lodge, financially, in keeping an act permanently in the field.

A public meeting was held in the evening, which was interesting, as the good attention maintained during the lengthy programme amply testified. One of the most attractive features of the evening was the songs and recitations by the members of the Juvenile Temple.

The delegates can testify to the cordiality with which they were welcomed, and the kindness with which they were entertained by the members of Morning Dawn Lodge. The meeting adjourned until general expressions of pleasure to meet again at Melvern Square, in December.

Miss Spurr's father had been working in Lynn for a year or two, and sent for his little family from Nova Scotia last May. Miss Spurr is reported as going to marry another descendant and going back to Nova Scotia, this fall.

Railway Riot at Shelburne.

CONTRACTOR MORALI THREATENED WITH HIS LIFE AND SENDS THE NIGHT IN JAIL, ON A CHARGE OF OBSCENITIES.

A strike occurred among the Italian railway laborers Tuesday, Sept. 19th. This was owing to some back pay not being paid. Tuesday passed off uneventful, but not so Wednesday. All day long the men dogged Mr. Morali, the contractor, not for a moment letting him out of their sight.

The Sheriff promptly arrested him, and he was held in the jail until the next morning. It was then decided that Mr. Morali would spend the night in jail under the protection of a armed guard.

The facts of the case, as gleaned from Mr. Morali's own statement, are as follows: The men demanded their money and he had none for them. They then got into their heads some Shelburne gentlemen were interested in the company, and argued that (Morali) would get them to pay more money.

The Italian would not believe this and he refused to do so and they then threatened him with his life. It was then decided that Mr. Morali should be held in the jail until the next morning.

What Constitutes a Good Advertisement? This question was asked the other day of a man who has a national reputation as a writer of bright, effective and trade creating advertisements. He replied: "There is a wide divergence of opinion among advertisers as to what the ingredients of a good advertisement are, and each is entitled to his own opinion. In my opinion it is of prime importance that an advertisement should be truthful, and that the plain unvarnished truth should be set forth in a simple and direct manner. No deviation from this principle is permissible, for if the advertiser is not to be taken seriously and when buyers cannot find the article in the store at the price quoted in the advertisement, they will be sure to stop at the store and see the goods.
