Montreal Stock Market.

MARKET STRONG BUT DULL -- MONEY SAID TO BE ON LOAN AT 5 P.C. — PACIFIC THE LEADER TODAY.

Montreal, Jan. 30.

The market was a little better this for noon, but was very dull. There was a rumor on the Street that local money was being loaned at 5 p.c. This was stated as being true of some banks, but this rate was denied as being anything like common. In fact one in close touch with Exchange business had made trial at one bank and found that no break existed from the rate that has been prevailing for some time. The rumor had some foundation, however, and is not unlikely to be the first intimation of what seems called for by the easier rates for money prevailing generally. The gradual wearing up of stock values, noticeable to-day, is a perfectly sure sign of confidence that exists in the securities and their position surrounded as they are now with business in all departments continuously prosperous. Even cash buyers have no want of confidence. They would invest, but that the time of advance in stock prices, if limited by war news, is likely to be considerably distant. Stockholders believe the time will be short. Both therefore are confident in stock advances, differing a little only as to the time when they will come.

Canadian Pacific at 94½ was 1 point higher than yesterday's closing price. This was offered for more, but sellers held out for 94½. When it is said that 175 shares were taken and that Pacific was the most active stock this forenoon, an idea is presented of how far from lively the forenoon session was.

The streets of the three cities, Montreal, Toronto and Twin secured on small trading the same prices as yesterday, Montreal 288, Toronto 102½ and Twin 64. Montreal Street and Toronto were decidedly strong, closing.

Richelieu and Ontario, on a deal involving 25 shares which sold at 109, declined ½ point, but in closing the demand 109½,

with the bid 109½ indicated considerable support behind it.

Of three mining stocks, War Eagle at 268 gained 1 point on yesterday's closing price. The closing was weak and there is nothing in the way of news to affect the valuation one way or another.

Montreal-London at 27 and Republic at 99 are where they were previously.

On a broken lot of 10 shares Bell Telephone sold at a few points above 178, the last quotation. Dominion Cotton sold ¼ higher at 94½. With closing demand 94½ and closing bid 94½ the stock must be said to have closed steady at least.

MORNING SALES.

Can. Pac.—125, 93½, 25, 94½, 25, 94½.

 Republic—500, 102.

MARKET OPINIONS.

Robert Goodbody & Co., N. Y., say: "We would leave non-dividend payers alone just now. The stocks we have in mind as likely to be worth buying are such as St. Paul, C. B. & C., Pennsylvania and N. Y. Central. Of these we think the first two are probably the best, because they have declined much more from the top. St. Paul is paying 5 p.c. dividend, but has an enormous surplus over the sum needed for this. C., B. & Q. also has a very large surplus and has be-

side \$28,924,000 of 7 p.c. bonds maturing in 1903, from which the shareholders must get a great advantage. The directors of C., B. & Q. have always managed its finances admirably and it may be safely left to them to decide when and how the shareholders are to get the rights, but they will get them sometime in the course of a couple of years. This is no mean advantage to look forward to.

STRAWS.

Third Avenue Co. is to be financed by Messrs. Kuhn, Loeb & Co. There is no hitch in the proposed deal.

St. Paul declined fractionally on the \$168,835 decrease in net earnings. Large expenditure is being made in improving the road's physical condition.

The Ashcroft of January 20 is out with a reprint from the Colonial Gold Fields Gazette which denounces the Semlin government for its 8 hour labor law, and its alien law. It also states under date Victoria, Jan. 17, that a petition from the mine owners of the Rossland camp was presented, urging the repeal of the eight hour law as having been proven ill-advised by the test of experience.

MONTREAL MINING EXCHANGE.

BUSINESS ONLY AVERAGE — DECCA REGAINS ITS LATE LOSS — MONTREAL-LONDON QUIET BUT FIRM— DEER TRAIL INACTIVE.

Montreal, Jan. 30.

The mining business was not flourishing to-day. There was nothing unusual to awaken an interest in the different stocks. The news from the mines all tells of progress being made, but no development of an unusual kind is reported to create any special demand, and so the market remains quiet and uninteresting.

There were sales made in broken lots of North Star at 108 and 110, 250 shares changing hands in each instance. The buyers, although scarce, were bidding at the close 108 for the stock.

There was also a large block of Big Three which came upon the market at 6½ cents, 10,000 shares being the amount. The stock was freely offered at this figure, with buyers offering 6 cents.

In Montreal-London there was no new development, the stock is inclined to be strong in anticipation of some good news resulting from the meeting which is to be held shortly. It sold at 28 cents, which is ¼ a point in advance of yesterday's sales, two small lots of 100 shares selling at 29 cents.

Golden Star remains firm, 2000 shares changing hands at 18 cents, the former sales were made at 17 cents so this shows a slight improvement. The stock was offered at the same price at the close.

We recommended the purchase of Decca a few days ago. Since then it has risen from 6 cents to 9½, at which figure it sold to-day, 1500 shares changing hands, we still think it is cheap and might be bought with advantage. The closing quotations were 9½ offered with sellers asking 10 cents.

In Deer Trail Cons. 3000 shares sold at 11 cents, practically the same as obtained yesterday.

There was nothing doing in Virtus. The dividend payers were a trifle firmer, although no sales were recorded.

War Eagle was offered at 275, and both Republic and Payne at 100.

The usual monthly dividends on War Eagle and Republic have been declared.

MORNING SALES.

NEW YORK EXCHANGE.

APPREHENSION ABOUT AFRICA CHECKS LONDON MARKET—STEEL & WIRE ADVANCED TO 54, REACTING A LITTLE ON REALIZING—SUGAR, B. R. T., MANHATTAN AND M. R. VERY STRONG—GOLD EXPORTS TO LONDON TALKED OF.

New York, Jan. 30.

The London market continues stagnant, but there is no particular pressure to sell, and Americans generally show small gains.

There is no further news from Africa. In fact, there is even a dearth of rumors. The only rumor of importance being that a Boer arsenal has been blown up. This, however, lacks official confirmation, and no account should be taken of it. There is some talk that England may require more gold, as her requirements in matter of war funds will be very much larger than was expected in the first instance.

So far, however, sterling exchange rates do not admit of gold exports, and even should we lose gold to England in the near future, our position is now so strong that the losses unless exceedingly heavy, will have little or no effect on the money market.

It is announced that the directors of A.S.W. have declared a dividend of 7 p.c. on the common payable in quarterly instalments of 1 3/4 each on the second days of April, July, Oct. 1900, and Jan. 1901. After allowing for depreciation, bad debts and the full dividend on preferred stock, the company has earned something like 18.7—5 p.c. on the common. It is said that the Gates faction were opposed to the declaration of more than 6 p.c. but that they were overruled by the party headed by the Seligmans. The expectation of the Street was that the dividend would not be larger than 6 p.c. It appears that Mr. McDonald, to whom the contract for the construction of the underground railway was allotted, has, as a financial backer, August Belmont. The intention of Mr. McDonald is to form a company and so meet the objections of the trust companies to furnish him with the necessary bond.

The course of prices in yesterday's market is thought to show conclusively that our market is generally cutting loose from the influences of the South Africa war.

Attention is gradually being turned to the large volume of trade, to the satisfactory railroad earnings and to the possibility of favorable developments in Congress.

New York (noon), Jan. 30.

Although quotations from London showed moderate advances over our close, arbitrage houses did next to nothing, nor is it likely their transactions will cut any figure till there is some change in the situation in South Africa.

There is such a feeling of apprehension in London that trading there is practically at a standstill.

Our opening was strong, the greatest display of activity being in A.S.W., although there were indications of inside selling the stock advanced steadily till it reached 54. Around that figure the supply of stock seemed to be large, causing a reaction to 53 1/2, where it held steadily. It is believed that the proposition to retire \$5,000,000 meets with approval.

In Sugar there were evidences of covering supposed to be for account of Consolidated Exchange operator.

B.R.T. was especially strong. It is said that a new pool has been formed in it.

Liquidation appeared in Third Avenue on the details of the plan for taking care of the floating debt not yet having been made but the belief is that short time notes will be issued and options given on a new block of stock at par.

In spite of the announcement that Mr. McDonald is backed by Mr. August Belmont, both Manhattan and M. R. continued especially strong. The latter has been enormously benefited so far by the mildness of the winter, it having not been necessary to spend a dollar to clear away snow as yet.

The B. Q. statement created little or no comment, although it showed a decline in the surplus of \$14,734. For the first 6 months of the fiscal year the surplus has increased \$781,423.

After first hour there was a falling off in activity, although prices were pretty well maintained. There is some talk of gold exports, but as yet sterling exchange rates do not permit of any such transactions.

MINING NEWS.

FOLEY MINE OPENS.

It is a matter for congratulation that this great mine is to begin operation so soon. Everything has been arranged for. There is ample money in the Imperial Bank here to carry on the work. Mr. O. B. Robinson, the resident manager, leaves tomorrow morning and he will at once place a gang of men at work on the mine. The state of affairs is this. The Canadian Mines Development Company, Limited, has taken hold of the Foley Mine and have provided nearly a quarter of a million to place it on its feet. The money will be spent entirely on development work. If the mine turns out well it will mean that English capital will be very free to enter into the development of this country, but if not we need not look for more funds from that source. We who live in this country have no apprehension on the score of the mine turning out badly. We know that all the mine needs is sufficient development work to make the ore bodies available when it will work its own salvation. Mr. Robinson will start the compressor plant and do some sinking in No. 5 shaft which is at present 100 feet deep. The intention is to crosscut and open up the Lucky Joe and Daisy veins. It is quite a difficult matter to begin operations in the winter, and work for a time must necessarily be slow. However, the operations will be all done with a view to permanency and this will have the effect of making the mine a most valuable one. There will be no move to start the mill for some considerable time until everything is ready.

The directors of the Canadian Mines Development Co., Limited, are: The Rt. Hon. Sir Edward Thornton, G. C. B., chairman; Oscar Andreac, Esq., Sr., the Hon. Geo. E. Hill Trevor, director of the Glyn Slate Quarries, Ltd., Augustus C. E. Hill, all of London, Eng., and the Hon. Lyman Melvin Jones, Toronto, and Edmund Bristol, Toronto. Wm. M. Strong, M.E., is the consulting engineer in Canada.

The mine is now equipped with a 20-stamp mill with appliances, a 12 Canadian Rand Drill power plant with hoisting gear and plant, buildings, tramroads and general appliances for active operation.

The following from the report of Mr. Edgar P. Rathbone, late inspector of mines to the Transvaal government, will be of interest;

"The Foley has now been working for a sufficient period of time to prove it an industrial and economic success. There are

some 8 or 10 veins all of true fissure nature, striking boldly through the country rock in a well defined manner in a northerly and southerly direction, and dipping slightly to the east through the granite, which largely constitutes the geological structure of this part of the country. Only one of these veins, the Bonanza, has thus far been worked upon, but there are several parallel veins which should be developed at once. One of them in particular, the Lucky Joe, has developed remarkably rich ore; at the time of my visit I had one or two shots put in and a large portion of the quartz showed visible gold.

"The main shaft has been sunk to a vertical depth of 400 feet on the Bonanza vein, which I found varying in width from a few inches up to 8 feet; in many places, however, good stoping of 8 to 5 feet is obtainable. The vein is so well defined that if a proper system of mining is adopted, it can be broken down, whatever its width may be, quite clear from the enclosing country rock. Unfortunately up to the time of my inspection, such a system of mining had not been vigorously carried out, and as a consequence a large quantity of barren rock was frequently mixed up with the gold bearing quartz, and thus largely decreased its average milling grade. No attempt has hitherto been made to bring up the grade of the ore by sorting tables before putting it through the mill; in spite of this, however, according to the mill returns made to the government, I find that the average milling grade, exclusive of concentrates, have given the very satisfactory average of 10 dwts. of pure gold to the ton or say the value of about £2 sterling. This is quite equal to the average of Whitwatersrand gold mines, whilst the economic conditions are in many respects superior. This average return of 10 dwts is based on the actual crushings of several thousand tons in a first class 20 stamp mill fitted with vanners and very modern appliances. From the mine records the following values are obtained per U. S. A. Government mint certificates; 2,500 tons; Bonanza vein, bullion value, \$26,294.21, or at the rate of \$10.02 per ton; 150 tons No. 5 shaft, bullion value, \$2,668.37, or \$17.54 per ton; 20 tons Lucky Joe shaft, bullion value \$396, or at the rate of \$19.80 per ton.

"From my own careful sampling of the mine, which has been checked by two other well known mining engineers, I am strongly of the opinion that under fair mining conditions, both underground and on the surface, such as all good mines in the Witwatersrand are accustomed to, the average grade of the milling rock at the Foley mine should be worked so as to give between 15 and 20 dwts. of gold to the ton, i.e., a value of say from £3 to £4 sterling.

"As I have already stated, the economic conditions are satisfactory, and consequently permit of a low cost per ton of working, which varies according to the scale upon which mining and milling operations are conducted, between 15s and 25s per ton. The actual cost at the Foley with a 20-head stamp mill is about 20s per ton. From this it will be seen that under fair conditions there is a margin of profit varying according to whether the grade of ore is 10 dwts. or 20 dwts., or from £1 to £3 per ton, and I consider that an average of £2 per ton net profit may be reasonably expected."

The conclusion of the report is as follows:

"After visiting practically all the gold mining regions in the Dominion of Canada, I came to the conclusion that the Foley mine might certainly be classed among the first of the most successful, whilst it possesses the additional advantage over most of the British Columbia mines, that its gold is in a free con-

dition, and does not require any costly smelting operations, and is thus of a precisely similar nature to the celebrated mines of the Witwatersrand."—Rat Portage Miner.

NOTICE

Is hereby given that the Annual General Meeting of the

Knob Hill Gold Mining Co. of British Columbia, Limited,

will be held at the President's office, 45 Victoria Square, in the City of Montreal, on Monday, the

5th DAY OF FEBRUARY

next at 2 p.m.

A. L. WHITE, Secretary.

CABLE ADDRESS "MINING."

TEL. MAIN 770.
