USE OF DEPARTMENTAL TELEPHONES

LONG DISTANCE CALLS

GOVERNMENT SERVICES

Direct - dial facilities are available to the major Canadian cities as well as New York and Washington.

A list of the direct - dial access codes are printed on the back cover page of the Departmental Directory.

A detailed list of government services is provided on the introductory pages of the Government Directory.

Government Operators can complete calls to most other centres where direct - dial facilities do not exist. For calls to points

in	Canada	-	dial	151
	U.S.A.	-	dial	182 + 0

Special Facilities

Directors General and Directors are issued special access cards for use when on travel status to make official calls via the Government Inter-city Service. The cards list the principal cities in Canada, and New York and Washington, from which calls can be made to Ottawa and other centres on Government lines. Each card has an authorization code which must be given to the operator when making a call. Directors General and Directors are requested to provide the necessary information to employees required to travel on official business who may have need to make calls to Ottawa on official business. The numbers can also be obtained from ACPT (6-4808) if for any reason they are not available from the card holder.

When official long distance calls must be made in Ottawa after normal working hours from other than a government telephone local, the call may be made on the Government inter-city service by dialling 996-5432 and quoting the departmental authorization code shown on the special card. The Government operator will then provide connections to any dialable telephone in Canada, New York or Washington.

Commercial long distance via Bell Canada's DDD system or the operators, for calls in Canada or the U.S.A., shall be used only when government facilities are not available.

KEEP THIS PAGE HANDY FOR FUTURE REFERENCE

Overseas Calls (including Mexico) are completed by Bell Canada operators. Simply dial 9 + 0 and give the name of the country you are calling.

For calls via Bell Canada's facilities, form 33a "Record of Long Distance Telephone Call" must be completed, approved by the Director of the Division or appropriate senior officer and forwarded immediately to ACPT (Telephone Accounts).

Before you use the commercial long distance facilities, jot down your talking points. Every minute costs money.

Remember that station-to-station calls are cheaper if you dial them yourself but person-to-person calls can be more economical in the long run if you are not sure the party at the other end is available to answer the call.

Remember also that Bell Canada will cancel the charge on a direct-dial call via the commercial DDD system if you reach a wrong number and you report it to an operator (9 + 0) immediately.

Collect Calls should be refused.

Personal Calls which are made from a departmental telephone must be charged to the residence telephone. The operator will transfer the charges on request.

Employees must not use departmental telephone numbers in newspaper advertisements inserted for private business purposes such as the leasing of premises or the purchase and sale of articles.

Employees are reminded that the government inter-city telephone services are for official business use only.

DIRECTORY ASSISTANCE

Directory Assistance for numbers listed in the local Directory cost 30¢ for every call placed from a government telephone. An Ottawa-Hull directory is provided for every telephone in the Department and all employees are expected to use it. Additional directories are available from the Headquarters Telephone Services Section (ACPT 6-4808).

Bell Canada do not charge for Directory assistance calls if the number is not listed in the local directory. For Directory assistance in other cities, users are expected to make use of the free service 9 + 1 + the area code + 555-1212.

INTRODUCTORY NOTE

The format of this Directory reflects as closely as possible, the organization of the Department. The Bureaux are arranged alphabetically with the Divisions listed under the Bureaux to which they report.

Organizational Units related to the Office of the Under-Secretary are listed on page 4.

Offices of other Departments and Agencies in the Lester B Pearson Building and personnel on duty outside the Department are shown on the final pages of the Directory.

This monthly directory is published in English and French on alternate months.

LONG DISTANCE CALLS

GOVERNMENT SERVICES

Direct - dial facilities are available to the major Canadian cities as well as New York and Washington.

A list of the direct - dial access codes are printed on the back cover page of the Departmental Directory.

A detailed list of government services is provided on the introductory pages of the Government Directory.

Government Operators can complete calls to most other centres where direct - dial facilities do not exist. For calls to points

in	Canada	-	dial	151
	U.S.A.	-	dial	182 + 0

Special Facilities

Heads of Bureaux and Divisions are issued with booklets listing the special numbers for access to the government inter-city services from principal cities in Canada and in New York and Washington. The information contained in the booklet and the "authorization code" is intended for departmental personnel who may have need to make official calls to Ottawa or elsewhere on the government network while on travel status. Additional information regarding the booklet or authorization code is available from ACPT (6-4808).

When official long distance calls must be made in Ottawa after normal working hours from other than a government telephone local, the call may be made on the Government inter-city service by dialling 996-5432 and quoting the "authorization code". The Government operator will then provide connections to any dialable telephone in Canada, New York or Washington.

Commercial long distance via Bell Canada's DDD system or the operators, for calls in Canada or the U.S.A., shall be used only when government facilities are not available.

KEEP THIS PAGE HANDY FOR FUTURE REFERENCE

Overseas Calls (including Mexico) are completed by Bell Canada operators. Simply dial 9 + 0 and give the name of the country you are calling.

For calls via Bell Canada's facilities, form 33A "Record of Long Distance Telephone Call" must be completed, approved by the Director of the Division or appropriate senior officer and forwarded immediately to ACPT (Telephone Accounts).

Before you use the commercial long distance facilities, jot down your talking points. Every minute costs money.

Remember that station-to-station calls are cheaper if you dial them yourself but person-to-person calls can be more economical in the long run if you are not sure the party at the other end is available to answer the call.

Remember also that Bell Canada will cancel the charge on a direct - dial call via the commercial DDD system if you reach a wrong number and you report it to an operator (9 + 0) immediately.

Collect Calls should be refused.

Personal Calls which are made from a departmental telephone must be charged to the residence telephone. The operator will transfer the charges on request.

Employees must not use departmental telephone numbers in newspaper advertisements inserted for private business purposes such as the leasing of premises or the purchase and sale of articles.

Employees are reminded that the government inter-city telephone services are for official business use only.

DIRECTORY ASSISTANCE

Directory Assistance for numbers listed in the local Directory cost 40¢ for every call placed from a government telephone. An Ottawa-Hull directory is provided for every telephone in the Department and all employees are expected to use it. Additional directories are available from the Headquarters Telephone Services Section (ACPT 6-4808).

Bell Canada do not charge for Directory assistance calls if the number is not listed in the local directory. For Directory assistance in other cities, users are expected to make use of the free service 9 + 1 + the area code + 555-1212.
