Mr. Mackenzie King introduced a Bill, No. 1, An Act respecting the administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy which he read to the House as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

The announcement that Their Majesties King George VI and Queen Elizabeth have graciously decided to visit Canada in the months of May and June has been received with rejoicing throughout the Dominion. The honour of welcoming their King and Queen, in person, on their own soil, is a privilege which will be shared with enthusiasm and pride by all His Majesty's Canadian subjects. The visit will be the first paid by the reigning Sovereign to any of His self-governing Dominions. It will be the first time a British King and Queen have been in North America. It is deeply gratifying that Their Majesties' tour will embrace all the provinces of Canada.

The official visit paid Canada in August last by the President of the United States was the occasion of unusually warm demonstrations of friendship and understanding upon both sides of our common border. It is particularly pleasing to the citizens of our country that the King and Queen have found it possible to accept the invitation of the President to visit the United States before the conclusion of their Canadian tour.

My ministers have found it necessary to give anxious and continuous consideration to developments in the international situation and their effects upon Canada. Our own relations with other countries continue friendly, but the aggressive policies actively pursued in other continents have inevitably had a disturbing effect upon every part of the world.

The Government shared in the general sense of relief that the appalling disaster of war, which threatened Europe during the month of September last, was averted, and in the recognition which that crisis manifested of the wide-spread will of the peoples for peace. They are hopeful that the efforts now being made to find a solution for the specific differences which are causing friction will meet with success. They recognize, nevertheless, that time is required for

these forces to work, and that the possibility of further tension in the meantime must be faced. In this situation, the Government have considered that the uncertainties of the future, and the conditions of modern warfare, make it

imperative that Canada's defences be materially strengthened.

Two years ago, the appropriations for defence were substantially increased, and a beginning made on a program of modernization to safeguard the country from the dangers of attack. The Government intend to pursue this policy vigorously, and to propose to Parliament that the program of defence should be further augmented, and that particular emphasis should be laid upon air defence.

Legislation will be introduced to establish a Defence Purchasing Board with power to purchase equipment for the defence services and to ensure that, where private manufacture is necessary, profits in connection with such are fair and

reasonable, and that the public interest is protected.

While taking the measures necessary to assure the maintenance of our national integrity against the possibility of external aggression, the Government have sought in positive ways to strengthen the mutual interests which unite

Canada in friendly relations with other countries.

You will be asked to approve the Trade Agreement with the United States of America, signed at Washington on November the 17th, 1938. This agreement fulfils the hope expressed in the Speech from the Throne, last year, for an agreement with the United States, which would confirm and enlarge the

advantages of the agreement concluded in 1935.

Simultaneously with the conclusion of the new agreement between Canada and the United States, a far-reaching agreement was effected between the United States and the United Kingdom. Taken together, the agreements constitute a constructive contribution toward a betterment of world conditions. It is deeply gratifying to the Government that in their efforts to increase, and to ensure over a longer period of time, the advantages to Canadian producers and consumers secured in earlier agreements, they were able, at the same time, to further the ends of international good-will.

The Canada-United States agreements have involved, in addition to the wider markets secured for Canadian products, a thorough-going revision of the Canadian tariff structure, and a reduction of taxes on trade much greater than that made by any previous Parliament, or by any other country in recent years.

Notice has been given, effective December 31, 1939, terminating the Canada-West Indies Agreement concluded in 1925. My ministers hope that negotiations will shortly be entered upon leading to a new agreement which will be mutually beneficial to the West Indian Colonies and to Canada. In connection therewith the Tariff Board has been directed to make a careful examination of the sugar preferences and duties.

Unemployment in Canada continues to receive the unremitting attention of local, provincial and federal authorities. Having regard to the existing division of powers and obligations under the British North America Act, responsibility for unemployment and the solution of its problems is necessarily divided. There has been an increasing assumption of obligations on the part of the Federal

Government.

Employment in war industry and the regimentation of masses of men for purposes of war have, to appearances, afforded in some countries a solution of their problem of unemployment. In Canada other methods of dealing with the

problem have been followed.

The Dominion Government have taken active measures to stimulate private employment through Home Improvement Plan, the National Housing Act, and the Municipal Improvements Assistance Act. Under these measures certain local taxes have been assumed, and loans made to individuals, organizations and municipalities. The sales tax has been eliminated on important building

materials. Special aid has been given to the mining industry by subventions, tax exemptions and improved transportation facilities. At the same time, direct employment has been increased through a substantial expansion of federal public works, and through assistance given to the provinces in the construction of highways, for land settlement, for special projects for farm employment and for forest conservation.

Provision has also been made by the Dominion Government for grants-inaid to the provinces to assist in the care of those suffering from unemployment

and agricultural distress.

The various measures adopted to stimulate employment and afford relief to those in need have operated most successfully in those provinces which have

supported them with full co-operation.

In Canada, the problem of unemployment has been aggravated in recent years by recurrent crop failures in the Western provinces, and by the serious business recession experienced in the last year in other parts of the world. The intensification of the problem has set forth in bold relief the obstacles which the existing division of constitutional authority places in the way of a solution.

The report of the Commission on Dominion-Provincial Relations will be presented to Parliament in the course of the present session. In accordance with the purpose for which the Commission was instituted, its report will provide the basis for, and the material essential to the deliberations of a National Conference, at which, among the important subjects to be dealt with, will be the problem of unemployment and social services generally. The Government have not altered their view that a national unemployment insurance scheme is essential to a permanent policy of meeting the problem of unemployment.

My ministers recognize that the plight of those who are still unemployed cannot await necessary constitutional amendments, nor the summoning of any conferences. They are prepared, therefore, notwithstanding constitutional impediments to effective action, to join with the provinces in a further determined

effort to meet the immediate situation.

To this end it is proposed further to expand the Government's long range program of public undertakings. In pursuance of the policy of the active encouragement of employment, it is also proposed to undertake, with provincial co-operation, to provide assistance to municipalities which, as an alternative to the provision of direct relief, desire to expand their normal programs of civic improvements.

As a means of providing an opportunity for useful work and national service to single unemployed men, the assistance given to forest conservation will be extended to include other work of national importance.

The beneficial results of the Youth Training program, have demonstrated the wisdom of this experiment, and a measure will be introduced to increase its

efficiency and expand its usefulness.

Notwithstanding the embarrassments and handicaps encountered in coping with the problem of unemployment, it is gratifying to be able to record that. during the past year, there has been a material reduction in the number of those receiving agricultural aid, and a reduction also in the total number of those receiving public assistance due to unemployment and agricultural distress. At the beginning of the present winter the number of those receiving such public assistance was almost forty per cent less than two years ago. Over the same period the number of persons actually in employment has largely increased.

Continuous improvement in the position of the fishing industry as a whole has been reflected in annual increases for the past few years in the aggregate amounts received by the fishermen from their work. The Department of Fisheries, have given, and will continue to give, increased attention to the problem of marketing. The Government have also assisted fishermen substantially through

direct aid.

In order to avert economic disaster to a large part of our population, my Ministers, under the terms of the Wheat Board Act, approved, for the current crop year, an initial payment for wheat as recommended by the Board.

The Prairie Farm Rehabilitation Plan will be continued, the experience of the past year having demonstrated its efficacy in improving the agricultural

areas of the West.

Bills will be introduced to regulate Grain Exchanges along the lines laid down in the Report of the Royal Commission on Grain Marketing, to revise the Canada Grain Act, and to assist further in the marketing of farm products.

The Trans-Canada Airways will shortly provide a passenger service, in addition to the air mail and air express services already in operation. Preparations for the inauguration of the Transatlantic Air Service are being actively continued in collaboration with the Governments of the United Kingdom and of Ireland.

In order to implement the recommendations of the Royal Commission to Investigate the Penal System of Canada, a Bill to appoint a commission to

administer the penitentiaries will be again introduced.

Other legislative proposals will be laid before you and proceeded with as time and opportunity offer.

Members of the House of Commons:

The estimates for the Public Service, together with the Public Accounts, will be laid before you.

Honourable Members of the Senate:

Members of the House of Commons:

In this critical time of the world's affairs, I pray that Divine Providence may guide and bless your deliberations.

On motion of Mr. Mackenzie King, it was ordered,—That the Speech of His Excellency the Governor General to both Houses of Parliament be taken into consideration on Monday next, and that this order have precedence over all other business except the introduction of Bills, until disposed of.

On motion of Mr. Mackenzie King, a Special Committee consisting of Messrs. Casselman, Gray, Mackenzie (Vancouver Centre), Power, and Woodsworth, was appointed to prepare and report, with all convenient speed, lists of members to compose the Standing Committees of this House under Standing Order 63.

Mr. Mackenzie King delivered a message from His Excellency the Governor General, which was read by Mr. Speaker, as follows:—

TWEEDSMUIR.

The Governor General transmits to the House of Commons a certified copy of an approved Minute of Council appointing the Honourable T. A. Crerar, Minister of Mines and Resources, the Right Honourable Ernest Lapointe, Minister of Justice, the Honourable Charles A. Dunning, Minister of Finance, and the Honourable W. D. Euler, Minister of Trade and Commerce, to act with the Speaker of the House of Commons as Commissioners for the purposes and under the provisions of Chapter 145 of the Revised Statutes of Canada, 1927, intituled: "An Act respecting the House of Commons."

Government House, Ottawa, 12th January, 1939

Mr. Mackenzie King, a Member of the King's Privy Council, laid before the House—Copies, in English and in French, of the Trade Agreement between Canada and the United States of America signed at Washington, November 17, 1938, together with the following related documents:—

Exchange of Notes between the Secretary of State of the United States of America and His Majesty's Minister for Canada at Washington relative to the interpretation of Article I of the Trade Agreement of November 17, 1938.

Also,—Lumber Declaration issued at Washington, November 17, 1938, on behalf of the Governments of Canada and the United States of America.

Also,—Exchange of Letters between the High Commissioner for the United Kingdom and the Secretary of State for External Affairs regarding the agreed modifications of the Canada-United Kingdom Trade Agreement of 1937. Ottawa, November 16, 1938.

Also,—Exchange of Letters between the Secretary of State for External Affairs and the Accredited Representative of the Union of South Africa regarding the agreed modifications of the Canada-South Africa Trade Agreement of 1932. Ottawa, November 16, 1938.

And also,—Exchange of Letters between the High Commissioner for the United Kingdom and the Secretary of State for External Affairs regarding the margins of preference on wrought iron and on logs of certain dimensions. Ottawa, November 16, 1938.

Mr. Speaker laid before the House the Report of the General Librarian of Parliament, which is as follows:—

To the Honourable the Speaker of the House of Commons:

The General Librarian of Parliament has the honour to submit the Report on the Library for 1938.

Work on the Supplementary Catalogue of books donated and purchased during 1938 has been steadily pushed and the Catalogue will be issued at an

earlier date than usual.

The undersigned records with regret the passing of the Honourable Martin Burrell, P.C., LL.D., Parliamentary Librarian, former Minister of Agriculture and holder of three other portfolios in the Cabinet of Sir Robert Borden. Mr. Burrell died at his residence on the 20th March last, after a short illness. He was in his eightieth year. Mr. Burrell was eminent as a statesman, a man of letters, and an eloquent and witty speaker. His death constitutes a loss to the whole Dominion, particularly to those who were in close contact with him. When he retired from political life in 1920 he became Parliamentary Librarian. Surrounded by books he loved so well, he found in that position the greatest pleasure in his life of service. He was a warm friend, a delightful companion, a most interesting conversationalist, an author of distinction, an excellent speaker, an amusing and interesting raconteur and a great music lover. Kindly and courteous, he will be long remembered by the staff of the Parliamentary Library.

On October 1 last Mr. Albert Beaudry, French Senior Library Assistant, was retired on superannuation. Mr. Beaudry had done honourable and useful service in the Library for fifty-one years. The Civil Service Commission has appointed to the vacant position Mr. E. E. Trudel who has been a Library

Assistant since 1920.

The congested state of the Library has been referred to many times during the past few years. The General Librarian, at the previous suggestions of the Joint Committee, has been taking up the matter with the Public Works Department. Temporary relief of a substantial character has been afforded by the allocation to the Library, by the Minister of Public Works, of a large room in the Records Building. By the courtesy of the Department of Public Works, this room will be fitted with 10,000 feet of shelving. During next year some 80,000 volumes of Sessional Papers will have to be transferred there and shelved. While this does not settle the question of adequate provision for the expansion of the Library in the future, it does afford some relief and will make for more convenient arrangement and disposal of the books now in the Library.

The work of indexing the Catalogue on cards has been going on for three years. A long time will elapse before that work is completed as there are

some five hundred thousand volumes to be so indexed.

An endeavour has been made to secure for the Library the most important of the new books, especially those dealing with economics, political and social science, and constitutional questions. The Library has made every effort to see that our collection of documents published by the different Provinces and by other Dominions is complete and up-to-date. We have also been successful in obtaining copies of the briefs submitted to the Royal Commission on Dominion Provincial Relations by the Provincial Governments and by various public and private bodies.

Among the valuable additions to the library in the past year may be mentioned the first complete edition of the "Greville Memoirs, 1814-1860," edited by Lytton Strachey and Roger Fulford, and of which only 630 sets have been printed; one volume of l' Encyclopédie Française" and the "Nouvelle Encyclopédie Française"

clopédie pratique de l'Electricité' by Henri Desarces.

In addition to the ordinary purchase of works dealing with Canadian or American history, we were fortunate enough to secure at a recent auction sale of a booklover's library, a few Canadian incunabula and other rare and valuable books.

Another beautiful volume of the Catalogue of Mr. Frederick J. Nettlefold's art collection has been received. This and many other interesting donations, which will be found listed in the first pages of the Supplementary Catalogue, are gratefully acknowledged.

Respectfully submitted,

FELIX DESROCHERS,

General Librarian.

Library of Parliament, Ottawa, January 12, 1939.

The House then adjourned at 4.45 o'clock, p.m., until to-morrow, at three o'clock p.m.

PIERRE F. CASGRAIN,

Speaker.

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, TUESDAY, 7TH FEBRUARY, 1939

PRAYERS.

One petition was laid on the Table.

Mr. Mackenzie (Vancouver Centre), a member of the King's Privy Council, laid before the House,—Copy of the Agreement between the Government and the John Inglis Company Limited of Toronto, for the manufacture of Bren machine guns; together with a copy of a letter dated September 3, 1938, from the John Inglis Company Limited of Toronto, to the Deputy Minister of National Defence, amending the Agreement of the 31st March, 1938.

On motion of Mr. Mackenzie King it was ordered,—That the name of Mr. Ilsley be substituted for that of Mr. Rutherford on the Standing Committee on Banking and Commerce;

And that the name of Mr. Golding be substituted for that of Mr. Rutherford on the Standing Committee on Standing Orders.

On motion of Mr. Vien it was ordered,—That the Private Bill entitled "An Act respecting Industrial Loan and Finance Corporation," filed with the Clerk of the House on January 31, 1939, based on the petition read and received by the House on February 2, be referred to the Standing Committee on Standing Orders, for report on the filing of the said Bill and for such recommendations as may be deemed advisable.

The Order being called for resuming the adjourned Debate on the proposed Motion of Mr. MacNeil, seconded by Mr. Douglas (Weyburn),—That a copy of the Agreement between the Government and the John Inglis Company, of Toronto, for the manufacture of Bren Machine Guns, the Report of the Royal Commission dealing with said Agreement, and all related documents, evidence, vouchers and exhibits, be referred to the Standing Committee on Public Accounts,

and on the proposed motion of Mr. Manion in amendment thereto: That all the words after the word "That" in the first line thereof be struck out and the following substituted therefor:—

"in view of the evidence produced before the Royal Commission the opinion of this House is that the Agreement made between His Majesty the King, represented by the Honourable the Minister of National Defence, and John Inglis Co. Limited, for the manufacture of Bren Machine Guns should be cancelled."

Mr. Speaker: Before the debate proceeds I think this would be the appropriate time for me to render my decision on the point of order raised yesterday in regard to the amendment proposed by the Leader of the Opposition (Mr. Manion).

The hon. member for Vancouver North (Mr. MacNeil) has moved to refer to the Public Accounts Committee the Bren Gun Agreement, the report of the Royal Commission dealing with said agreement, and all related documents, evidence, vouchers and exhibits.

The honourable the Leader of the Opposition has moved as an amendment that the said Agreement be cancelled.

The motion of the hon. member for Vancouver North proposes to refer the Agreement to the Public Accounts Committee. The amendment proposes to cancel it, thus defeating the purpose of the main motion.

Can the motion be amended in the manner proposed? I do not think so. In the Parliamentary Debates of the United Kingdom of Great Britain and Ireland, 4th series, volume 146, at page 990, I find that a motion was made for the appointment of a Select Committee—"to consider the Agreement of the 2nd day of February, 1905, between the Postmaster-General and the National Telephone Company, and to report whether it is desirable in the public interest that the Agreement should become binding." (Lord Stanley.)

Mr. Kearley (Devonport) proposed as an amendment that—"having regard to the public statement of the Postmaster-General, that under no circumstances can any alterations be made in the agreement with the telephone company to which he has given his assent, this House fails to see the necessity for the appointment of a Committee to consider it."

The Deputy Speaker ruled: "I may point out to the honourable gentleman that this Amendment will not be in order. It is a direct negative, but he will be at liberty to make his speech."

In the light of this decision, I believe that the amendment proposed by the honourable the Leader of the Opposition destroying the object of the main motion, when an alternative proposition is not permissible, is in the nature of an expanded negative. I must therefore rule it out of order.

From this decision Mr. Manion appealed to the House.

And the question being put by Mr. Speaker: Shall the ruling of the Chair be sustained?—it was decided in the affirmative on the following division:—

PIERRE F. CASGRAIN,

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, FRIDAY, 10TH FEBRUARY, 1939

Prayers.

Two petitions were laid on the Table.

The Clerk of the House laid upon the Table the Twelfth Report of the Clerk of Petitions stating that he had examined the following petition presented on the 9th instant, and finds that all the requirements of Standing Order 68 have been complied with in this case, namely:

Of the Canadian Pacific Railway Company and the Midland Railway Company of Manitoba, praying for the passing of an Act to ratify and confirm an agreement dated October 1, 1935, respecting the leasing of certain tracks, etc.— $Mr.\ Maybank$.

Mr. Golding, from the Standing Committee on Standing Orders, presented the First Report of the said Committe, which is as follows:—

Your Committee has had under consideration an Order of the House dated February 2, viz:—

"That the Private Bill entitled "An Act respecting Central Finance Corporation and to change its name to Household Finance Corporation of Canada," filed with the Clerk of the House on January 19, based on the petition read and received by the House on January 26, be referred to the Standing Committee on Standing Orders, for report on the filing of the said Petition and the Deposit of the said Bill and for such recommendations as may be deemed advisable."

To comply with Standing Order 93 (1), Private Bills must be deposited with the Clerk of the House "not later than the first day of each session," whereas the bill in question was filed one week after the opening day.

Representations were made before your Committee to the effect that all details relative to the introduction of this bill had been entrusted to local counsel who, during the last three sessions of Parliament, has been retained to act as Parliamentary Agent for the Company.

71494-61

Due to the illness of this counsel at the time of the opening of the present session, the bill was not filed in accordance with Standing Order 93 (1). The promoters were ignorant of the fact until January 18, when immediate steps were taken to file the bill, and to conform in all other respects to the requirements of this Standing Order.

With respect to the petition, your Committee has ascertained that all the

rules have been duly complied with.

In relation to this bill your Committee recommends:—

That that part of Standing Order 93 (1) reading "not later than the first day of each session" be suspended.

Mr. Golding, from the Standing Committee on Standing Orders, presented the Second Report of the said Committee, which is as follows:-

Your Committee has had under consideration an Order of the House dated

February 7, viz:—

"That the Private Bill entitled "An Act respecting Industrial Loan and Finance Corporation" filed with the Clerk of the House on January 31, 1939, based on the petition read and received by the House on February 2, be referred to the Standing Committee on Standing Orders for report on the filing of the said Bill and for such recommendations as may be deemed advisable."

To comply with Standing Order 93 (1), Private Bills must be deposited with the Clerk of the House "not later than the first day of each Session."

It was submitted that the absence from the country of the general manager of the company had delayed the completion of arrangements for proceeding with the application, and that subsequently, some difficulty was encountered in relation to the drafting of the bill.

In respect to this bill your Committee recommends:-

That that part of Standing Order 93 (1) reading "not later than the first day of each session" be suspended.

By leave of the House, on motion of Mr. Golding, the First and Second Reports of the Standing Committee on Standing Orders, presented this day, were concurred in.

The House resumed the adjourned Debate on the proposed Motion of Mr. MacNeil,—That a copy of the Agreement between the Government and the John Inglis Company, of Toronto, for the manufacture of Bren Machine Guns, the Report of the Royal Commission dealing with said Agreement, and all related documents, evidence, vouchers and exhibits, be referred to the Standing Committee on Public Accounts, and on the proposed Motion of Mr. Stevens in amendment thereto.

1. Ethel Jean Southam Peters.

The offence was not discovered until February 16. The petitioner was in California at that time, and thus delay ensued in the filing of the petition.

2. Adele Adfeldt Grunau.

The petition was signed in January. Immediately thereafter, however, the solicitor became ill, as attested to by a medical practitioner, resulting in delay in the filing of the petition. In the Senate, this application is being made in forma pauperis.

3. Anne Ver Trees Hart Acena.O.

The required proof was not secured until recently.

In relation to the Peters and Acena.O petitions, your Committee recommends that Standing Orders 92 and 93 (3) (c) be suspended, and that Standing Order 93 (3) (a) be suspended in its application to Standing Order 93 (3) (c). If adopted, these recommendations would involve the payment of a penalty charge of \$100 in respect of each of these petitions.

With reference to the Grunau petition, it is recommended that Standing Orders 92, 93 (3) (a) and 93 (3) (c) be suspended. No penalty charge would be incurred.

Your Committee recommends that these petitions be read and received.

The following Trade Agreement was adopted:-

TRADE AGREEMENT BETWEEN CANADA AND THE UNITED STATES OF AMERICA

His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India, in respect of Canada, and the President of the United States of America;

Desiring to facilitate and extend still further the commercial relations existing between Canada and the United States of America by granting reciprocal concessions and advantages for the promotion of trade;

Taking into account the absence of any restriction upon the settlement of commercial obligations arising out of the trade between Canada and the United States of America;

Have resolved to replace the Trade Agreement concluded between them on November 15, 1935, at Washington by a new and more comprehensive Agreement and have appointed for this purpose as their Plenipotentiaries:

His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India:

for Canada:

THE RIGHT HONOURABLE W. L. MACKENZIE KING,

Prime Minister, President of the Privy Council and Secretary of State for External Affairs of Canada; and

The President of the United States of America:

MR. CORDELL HULL,

Secretary of State of the United States of America;

Who, having communicated to each other their full powers, found in good and due form, have agreed on the following articles:

ARTICLE I

- 1. Canada and the United States of America will grant each other unconditional and unrestricted most-favoured-nation treatment in all matters concerning customs duties and subsidiary charges of every kind and in the method of levying duties, and, further, in all matters concerning the rules, formalities and charges imposed in connection with the clearing of goods through the customs, and with respect to all laws or regulations affecting the sale or use of imported goods within the country.
- 2. Accordingly, articles the growth, produce or manufacture of either country imported into the other shall in no case be subject, in regard to the matters referred to above, to any duties, taxes or charges other or higher, or to

any rules or formalities other or more burdensome, than those to which the like articles the growth, produce or manufacture of any other foreign country are or may hereafter be subject.

- 3. Similarly, articles exported from the territory of Canada or the United States of America and consigned to the territory of the other country shall in no case be subject with respect to exportation and in regard to the abovementioned matters, to any duties, taxes or charges other or higher, or to any rules or formalities other or more burdensome, than those to which the like articles when consigned to the territory of any other foreign country are or may hereafter be subject.
- 4. Any advantage, favour, privilege or immunity which has been or may hereafter be granted by Canada or the United States of America in regard to the above-mentioned matters, to any article originating in any other foreign country or consigned to the territory of any other foreign country shall be accorded immediately and without compensation to the like article originating in or consigned to the territory of the United States of America or Canada, respectively, and irrespective of the nationality of the carrier.

ARTICLE II

- 1. No prohibition or restriction shall be imposed or maintained on the importation into either country of any article, from whatever place arriving, the growth, produce or manufacture of the other country, to which the importation of the like article the growth, produce or manufacture of any other foreign country is not similarly subject.
- 2. No prohibition or restriction shall be imposed or maintained on the exportation of any article from either country to the other to which the exportation of the like article to any other foreign country is not similarly subject.

ARTICLE III

If imports of any article into either country should be regulated either as regards the total amount permitted to be imported or as regards the amount permitted to be imported at a specified rate of duty, and if shares are allocated to countries of export, the share allocated to the other country shall be based upon the proportion of the total imports of such article from all foreign countries supplied by that country in past years, account being taken in so far as practicable in appropriate cases of any special factors which may have affected or may be affecting the trade in that article. In those cases in which the other country is a relatively large supplier of any such article, the Government of the country imposing the regulation shall, whenever practicable, consult with the Government of the other country before the share to be allocated to that country is determined.

ARTICLE IV

1. If either country establishes or maintains a monopoly for the importation, production or sale of a particular commodity or grants exclusive privileges, formally or in effect, to one or more agencies to import, produce or sell a particular

commodity, the Government of the country establishing or maintaining such monopoly, or granting such monopoly privileges, agrees that in respect of the foreign purchases of such monopoly or agency the commerce of the other country shall receive fair and equitable treatment. To this end it is agreed that in making its foreign purchases of any product such monopoly or agency will be influenced solely by those considerations, such as price, quality, marketability, and terms of sale, which would ordinarily be taken into account by a private commercial enterprise interested solely in purchasing such product on the most favourable terms.

2. In awarding contracts for public works and in purchasing supplies, neither Government shall discriminate against articles the growth, produce or manufacture of the territories of the other country in favour of those of any other foreign country.

ARTICLE V

Articles the growth, produce or manufacture of Canada or the United States of America shall, after importation into the other country, be exempt from all internal taxes, fees, charges or exactions, other or higher than those payable on like articles of national origin or any other origin, except as otherwise required by laws in force on the day of the signature of this Agreement and subject to the limitations on the authority of either Government.

ARTICLE VI

- 1. Articles the growth, produce or manufacture of the United States of America, enumerated and described in Schedule I annexed to this Agreement shall, on their importation into Canada, be exempt from ordinary customs duties in excess of those set forth in the said Schedule, subject to the conditions therein set out. The said articles shall also be exempt from all other duties, taxes, fees, charges, or exactions, imposed on or in connection with importation, in excess of those imposed on the day of the signature of this Agreement or required to be imposed thereafter under laws of Canada in force on the day of the signature of this Agreement.
- 2. Schedule I shall have full force and effect as an integral part of this Agreement.

ARTICLE VII

- 1. Articles the growth, produce or manufacture of Canada enumerated and described in Schedule II annexed to this Agreement shall, on their importation into the United States of America, be exempt from ordinary customs duties in excess of those set forth and provided for in the said Schedule, subject to the conditions therein set out. The said articles shall also be exempt from all other duties, taxes, fees, charges, or exactions, imposed on or in connection with importation, in excess of those imposed on the day of the signature of this Agreement or required to be imposed thereafter under laws of the United States of America in force on the day of the signature of this Agreement.
- 2. Schedule II shall have full force and effect as an integral part of this Agreement.

ARTICLE VIII

- 1. The provisions of Articles VI and VII of this Agreement shall not prevent the Government of either country from imposing at any time on the importation of any article a charge equivalent to an internal tax imposed in respect of a like domestic article or in respect of a commodity from which the imported article has been produced or manufactured in whole or in part.
- 2. Moreover, the provisions of Articles VI and VII shall not be construed to embrace such reasonable fees, charges or exactions, imposed at any time by the Government of either country in connection with the documentation of any shipment, as are commensurate with the cost of the services performed.

ARTICLE IX

Sawed lumber and timbers, telephone, trolley, electric-light, and telegraph poles of wood, and bundles of shingles, the growth, produce or manufacture of Canada, imported into the United States of America, shall not be required to be marked to indicate their origin in any case where the imported article is of the same class or kind as articles which were imported into the United States of America in substantial quantities during the five-year period immediately preceding January 1, 1937, and were not required during such period to be marked to indicate their origin.

ARTICLE X

- 1. No prohibition, restriction or any form of quantitative regulation, whether or not operated in connection with an agency of centralized control, shall be imposed or maintained in Canada on the importation or sale of any article the growth, produce or manufacture of the United States of America enumerated and described in Schedule I, or in the United States of America on the importation or sale of any article the growth, produce or manufacture of Canada enumerated and described in Schedule II, except as otherwise expressly provided in the said Schedules.
- 2. The foregoing provision shall not apply to quantitative regulations in whatever form which may hereafter be imposed by the Government of either country on the importation or sale of any article the growth, produce or manufacture of the other, in conjunction with governmental measures or measures under governmental authority
 - (a) operating to regulate or control the production, market supply, quality or price of the like article of domestic growth, production or manufacture; or
 - (b) operating to increase the labour costs of production of the like article of domestic growth, production or manufacture;

Provided, however, that the Government proposing to impose any such quantitative regulation shall have satisfied itself, in the case of measures described in subparagraph (a) of this paragraph, that such quantitative regulation is necessary to secure the effective operation of such measures, and, in the case of measures described in subparagraph (b), that such measures are causing the domestic production of the article concerned to be injuriously affected by imports which constitute an abnormal proportion of the total consumption of such article in relation to the proportion supplied in the past by foreign countries.

3. Whenever either Government proposes to impose or to effect a substantial alteration in any quantitative regulation authorized by the preceding paragraph, that Government shall give notice in writing to that effect to the other and shall, upon request, enter into consultation regarding the matter. If agreement is not reached within thirty days after the receipt of the notice the Government giving it shall be free to impose or alter the regulation at any time, and the other Government shall be free within fifteen days after such action is taken to terminate this Agreement in its entirety on giving thirty days' notice in writing to that effect.

ARTICLE XI

In respect of articles the growth, produce or manufacture of the United States of America enumerated and described in Schedule I, imported into Canada, and of articles the growth, produce or manufacture of Canada enumerated and described in Schedule II, imported into the United States of America, on which ad valorem rates of duty, or duties based upon or regulated in any manner by value, are or may be assessed, the general principles on which dutiable value is determined in each of the importing countries on the day of the signature of this Agreement shall not be altered so as to impair the value of any of the concessions provided for in this Agreement.

ARTICLE XII

- 1. Nothing in this Agreement shall be construed to prevent the enforcement of such measures as the Government of either country may see fit to adopt
 - (a) relating to the importation or exportation of gold or silver;
 - (b) relating to the control of the import or export or sale for export of arms, ammunition, or implements of war, and in exceptional circumstances, all other military supplies;
 - (c) relating to neutrality or to public security; or
 - (d) should that country be engaged in hostilities or war.
- 2. Subject to the requirement that, under like circumstances and conditions, there shall be no arbitrary discrimination by either country against articles the growth, produce or manufacture of the other country in favour of the like articles the growth, produce or manufacture of any other foreign country, the provisions of this Agreement shall not extend to prohibitions or restrictions
 - (a) imposed on moral or humanitarian grounds;
 - (b) designed to protect human, animal or plant health or life;
 - (c) relating to prison-made goods; or
 - (d) relating to the enforcement of police or revenue laws.

ARTICLE XIII

If a wide variation should occur in the rate of exchange between the currencies of Canada and the United States of America, and if the Government of either country should consider the variation so substantial as to prejudice the industries or commerce of that country, it shall be free to propose negotiations for the modification of this Agreement; and if agreement with respect thereto

is not reached within thirty days following receipt of such proposal, the Government making such proposal shall be free to terminate this Agreement in its entirety on thirty days' written notice.

ARTICLE XIV

The Government of each country reserves the right to withdraw or to modify the concession granted on any article under this Agreement, or to impose quantitative regulations on the importation of any such article if, as the result of the extension of such concession to other foreign countries, such countries obtain the major benefit of the concession, and if in consequence imports of the article concerned increase to such an extent as to threaten serious injury to domestic producers: Provided, that before any action authorized by the foregoing reservation is taken, the Government proposing to take such action shall give notice in writing to the other Government of its intention to do so, and shall afford such other Government an opportunity within thirty days after receipt of such notice to consult with it in respect of the proposed action.

ARTICLE XV

- 1. Should any measure be adopted by the Government of either country which, while not conflicting with the terms of this Agreement, appears to the Government of the other country to have the effect of nullifying or impairing any of the objects of the Agreement, the Government which has adopted any such measure shall consider such representations and proposals as the other may make, with a view to effecting a mutually satisfactory adjustment of the matter.
- 2. The Government of each country will accord sympathetic consideration to, and when requested will afford adequate opportunity for consultation regarding, such representations as the other Government may make with respect to the operation of customs laws and regulations, quantitative restrictions on mports or the administration thereof, the observance of customs formalities, and the application of sanitary laws and regulations for the protection of human, animal or plant health or life.
- 3. In the event that the Government of either country makes representations to the Government of the other country in respect of the application of any sanitary law or regulation for the protection of human, animal or plant health or life, and if there is disagreement with respect thereto, a committee of technical experts on which each Government will be represented shall, on the request of either Government, be established to consider the matter and to submit recommendations to the two Governments.

ARTICLE XVI

The provisions of this Agreement relating to the treatment to be accorded by Canada and the United States of America, respectively, to the commerce of the other country shall apply, on the part of the United States of America, to the continental territory of the United States and such of its territories and posses-

sions as are included in its customs territory on the day of the signature of this Agreement. The provisions of this Agreement relating to most-favoured-nation treatment shall apply, however, to all territories under the sovereignty or authority of the United States of America, other than the Panama Canal Zone.

ARTICLE XVII

Except as otherwise provided in Article V of this Agreement:

- (a) Nothing in the Agreement shall entitle the United States of America to claim the benefit of any treatment, preference or privilege which may now or hereafter be accorded by Canada exclusively to territories under the sovereignty of His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India, or under His Majesty's protection or suzerainty.
- (b) Nothing in the Agreement shall entitle Canada to claim the benefit of any treatment, preference or privilege which may now or hereafter be accorded by the United States of America, its territories or possessions or the Panama Canal Zone exclusively to one another or to the Republic of Cuba. The provisions of this subparagraph shall continue to apply in respect of any benefits now or hereafter accorded by the United States of America, its territories or possessions or the Panama Canal Zone to the Philippine Islands, irrespective of any change in the political status of the Philippine Islands.

ARTICLE XVIII

- 1. The present Agreement shall be ratified by His Majesty the King of Great Britain, Ireland and the British dominions beyond the Seas, Emperor of India, in respect of Canada, and shall be proclaimed by the President of the United States of America. It shall enter definitively into force on the day of exchange of the instrument of ratification and a copy of the proclamation, which shall take place at Ottawa as soon as possible.
- 2. Pending the definitive coming into force of this Agreement, the provisions of Article IX shall be applied provisionally on and after the day following the proclamation of the Agreement by the President of the United States of America, and the provisions of Article I, Article VI and Article VII shall be applied provisionally on and after January 1, 1939, subject to the reservations and exceptions elsewhere provided for in this Agreement.
- 3. JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 19TH APRIL, 1939

PRAYERS.

A Message was received from the Senate informing this House that the Senate had passed the following Bill without any amendment:—

Bill No. 64, An Act respecting a certain Trade Agreement between Canada and the United States of America.

Mr. Golding, from the Standing Committee on Standing Orders, presented the Fourth Report of the said Committee, which is as follows:—

Seven petitions for private bills, presented in the House after the time specified in Standing Order 92, and referred to this Committee "for such recommendations as may be deemed advisable," have been given consideration.

Your Committee has heard reasons advanced for the late presentation of

six of these petitions, namely:-

1. Iris Ester Westerberg Duffy—Divorce.

The petitioner and respondent were anxious that their financial affairs in respect of a separation action instituted in the Superior Court in Montreal, be settled before this petition was filed. Subsequent illness of the petitioner, and difficulties encountered in serving the respondent were also responsible for late filing of the petition.

2. Audrey Elizabeth Logan Williams—Divorce.

Although the petitioner was diligent in commencing proceedings, including the publication of necessary notices, serious illness prevented her from giving the matter her attention. In the Senate this application is being made in forma pauperis.

3. Jack Friedman—Divorce.

Considerable difficulty was encountered in obtaining evidence, it being alleged that the offence was committed in 1924, and in another province than that where the petitioner and respondent were domiciled. Representations were also made to the effect that witnesses now available may not be available next session.

4. Eugène Belanger—Divorce.

It was only recently, namely on the 19th of March last, that the petitioner secured positive evidence in this case so that he could not definitely instruct his solicitors to proceed before that date.

5. Universal Eucozone Limited—for incorporation.

Although the petition was considered at an early date, a controversy arose as to the ownership of the patents which the proposed Company required to obtain, and it was not before March that the arrangements were made with the proper parties. It was then too late to have the petition presented in accordance with the Rules of the House.

6. Respecting The New Brunswick Railway Company.

By this petition, the Company seeks to increase its borrowing powers.

As a result of certain litigation commenced in the Courts in England, the House of Lords quite recently held that the face value of certain maturing bonds of the Company must be paid in gold equivalent. This decision handed down in December, 1938, had the effect of requiring the raising of additional funds by the Company in order to pay off the maturing bonds. The Company is incorporated by the New Brunswick Legislature, and it was thought necessary by the solicitors for the Company and the solicitors for the bank which will advance the funds, that an Act of the New Brunswick Legislature should be passed authorizing the required increase in the borrowing powers, and that subsequently, an Act of the Dominion Parliament was necessary, as the railway had already been declared a work for the general advantage of Canada. The necessary legislation was introduced in the New Brunswick Legislature without delay thereafter, which resulted in an Act assented to only on April 6th last. The Company then moved with all expedition in filing its petition to Parliament.

Having regard to the above representations, your Committee recommends:—

- (a) That Standing Order 92 be suspended in relation to these six petitions, and that they be read and received;
- (b) That, with respect to the Duffy, Friedman and Belanger petitions, Standing Order 93 (3) (c) be suspended and that Standing Order 93 (3) (a) be suspended in its application to the said Standing Order 93 (3) (c).
- (c) That, in relation to the Williams and The New Brunswick Railway Company petitions, Standing Orders 93 (3) (a) and 93 (3) (c) be suspended.

. Concurrence in these recommendations will involve payment of penalty charges as follows:—

Duffy, Friedman and Belanger—\$100 each;

Williams and The New Brunswick Railway Company—no penalty; Universal Eucozone Limited—\$300.

7. John Roy Fumerton-Divorce.

The solicitor in charge states that this petition has been dropped.

Mr. Howe, a Member of the King's Privy Council, presented,—Return to an Address to His Excellency the Governor General of March 27, 1939, for a copy of all letters, correspondence, orders in council, telegrams, resolutions and other documents exchanged between the Government of Canada or the Minister of Transport, or any officer, the Board of Transport Commissioners, and the Bell Telephone Company of Canada, regarding an inquiry into the reduction of telephone rates and tolls in Canada, showing what action has been taken and when; what hearing there has been or witnesses examined, and

including a copy of information given to the acting Minister, the Honourable Mr. Ilsley by the Department in the matter, as announced by the said Acting Minister in the House on Wednesday, March 22.

Mr. Crerar, a Member of the King's Privy Council, presented,—Return to an Order of the House of April 13, 1939, for a Return showing:—

1. Whether the following: J. P. MacMillan, F. C. Fenton, J. V. Smart, Andrew Livingstone and John Matheson, are connected with development work at the Cape Breton National Park.

2. If so, in what capacity each is employed.

3. How much each is receiving, (a) as salary; (b) living allowance; (c) travelling expenses.

4. How much each received in the years 1937 and 1938 respectively.

By leave, Mr. Rinfret, a Member of the King's Privy Council, laid on the Table,—Supplementary Reply to the following Question:—

1. Under what policy does the Department of Fisheries give aid to the

fishing industry and the fishermen of the Maritime Provinces?

2. Does the same policy apply to the three provinces, or is there a different

policy for Nova Scotia, New Brunswick and Prince Edward Island?

3. What amount of money did the Federal Government give to each of the provincial governments in the Maritimes for expenditure among the fishermen in the years 1937 and 1938?

4. What amount did the provincial governments contribute in each of

these years?

5. What check has the Federal Government on the expenditure of the

money it contributes?

6. What facilities have the Federal Government for knowing that the provincial governments put up their share of the money?

Of Eva Clara Doe Durrell, of Fulford, Que., wife of Harry William Durrell. Of Ernest James Feasey, of Westmount, Que., husband of Florence Sarah Skepper Feasey.

Of Audrey Elizabeth Logan Williams, of Montreal, Que., wife of John

Harold Williams.

Sir Eugène Fiset, from the Standing Committee on Railways and Shipping owned, operated and controlled by the Government, presented the Third and Final Report of the said Committee, which is as follows:—

In a report made to the House on April 21, 1939, your Committee indicated approval of the annual budget of the Canadian National Railways and Canadian National (West Indies) Steamships, and of the various reports and estimates referred for consideration.

The following conclusions have been reached after examination and discussion of the said budget, reports and estimates, and from evidence taken in respect thereto.

Canadian National Railways.

The decline in business activity that commenced late in 1937 and continued throughout the greater part of 1938 is reflected in decreased revenues for 1938. Gross operating revenues amounted to \$182,241,723, being \$16,154,886 or 8·14 per cent lower than in the previous year. Income from the lines of the Company in the United States was seriously affected, showing a 23 per cent drop, as contrasted with a decrease of 5 per cent in the Company's lines in Canada. The traffic trend in 1938 is indicated by the fact that in the first nine months the decrease was \$15,737,865, whereas in the last quarter it amounted to \$417,021.

Other decreases in revenue in 1938, contrasted with the returns for 1937, were: freight 9·1 per cent; passenger 4·5 per cent; express 5·7 per cent; com-

mercial telegraph 8.4 per cent; switching 17.6 per cent.

Operating expenses decreased \$4,613,546 or 2.55 per cent compared to 1937. This curtailment was effected despite an increase in wage costs due to the restoration of basic wages in Canada, and of wage increases in the United States, which increased 1938 expenses as compared to 1937 by \$6,082,000, and of increased prices of materials, which increased expenses by \$900,000. Apart from these features, there was a reduction in operating expenses of \$11,600,000 as compared with the previous year.

The net operating income from hotel operations was \$226,014, an increase

of \$25,927 over 1937.

The cash deficit for 1938 was \$54,314,196; in 1937, it was \$42,345,868.

Maintenance expenses have been kept at a minimum; and, having regard to the volume of business to be handled, the property and equipment are in

good condition.

Last year your Committee reported that the consensus of opinion was that work on the Montreal Terminal Development should receive further consideration. Construction has now been resumed, but on a substantially modified plan from that originally decided upon. A detailed statement was furnished by the National Railways giving reasons for their resumption of the work, a general outline of the present plans, and the advantages accruing from the use of the new passenger terminal. Following a wide discussion by the members, it is the opinion of your Committee that the best interests of both the Public and the National Railways will be served by construction of the new terminal, and that work should be proceeded with until the project is completed.

Evidence was taken in regard to the abandonment of branch lines operated at a loss to the railways. The ultimate decision as to whether or not public convenience and necessity can be properly looked after upon the abandonment of a railway branch line is determined not by the railways themselves but by the Board of Transport Commissioners. Thus, curtailment of the deficit by the management of the National Railways is limited only to the operating efficiency attained. Much is heard regarding the annual deficits of railways; but consideration must be given to the benefit to the territory served by a branch line, as well as to the country as a whole.

The new hotel at Vancouver will be opened on May 25, 1939, and will be under the joint management of the two railway companies. The existing Canadian Pacific Railway hotel at Vancouver will be closed on that date.

The possibility of obtaining some financial relief from the Perpetual Securities of the Canadian National Railways in the hands of the public was again discussed and your Committee is gratified to learn that some action has already been taken by the Government, following the recommendations of last year. Your Committee again urges that the Government explore all avenues of approach to this important problem.

Your Committee discussed at some length the stress that is generally placed upon the Canadian National Railways annual deficit without due consideration being given to the real position of the National Railways in the national economy. The Committee feels that this situation is of sufficient importance to be brought to the attention of the Government, and the consensus of opinion is that steps might well be taken to provide the public with more information as to the national importance of the service provided by this vast railway transportation system.

Canadian National (West Indies) Steamships Limited.

The operating revenues of the Company indicated further improvement during the year 1938. Both freight and passenger traffic showed increased revenue. It is to be noted that after payment of bond interest, but before depreciation, there was available the sum of \$276,239 to be paid the Government in reimbursement of interest on advances as compared with an amount of \$188,537 in 1937.

Trans-Canada Air Lines.

The year 1938 was a period of organization and development. Operation headquarters were located at Winnipeg and a training school was established for pilots, despatchers and mechanics. Stewardesses were employed on the Vancouver-Seattle run from July, 1938. In anticipation of regular passenger service, a traffic department was organized with officers stationed at Montreal. Winnipeg and Vancouver. Employees of the permanent staff must meet high physical and educational standards, and an effort has been made to hold the personnel down to a minimum, flexible organization. Being part of the Canadian National System, the duties relating to publication, advertising, legal and accounting activities devolve upon the railway officials, thus effecting economy.

Three million, two hundred thousand dollars has been raised by the issue of capital stock. It is expected that that amount will be increased in 1939 to \$3,750,000 which, together with \$1,250,000 reserved for participation in the projected Trans-Atlantic service will absorb the authorized capital of \$5,000,000.

After providing for all operating costs, including depreciation and interest on invested capital, the income account shows a deficit of \$818,025, which is slightly under the amount of \$830,000 appropriated by Parliament.

A mail contract providing for a rate of sixty cents per mile was executed in December, 1938, to cover the initial period from July, 1938, to December, 1939. The revenue from this contract, together with a 50 per cent load factor, will, it is estimated, cover operation costs.

A copy of the evidence taken is tabled herewith.

(For Copy of Evidence see Appendix to the Journals No. 1).

No. 74

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 27TH APRIL, 1939

PRAYERS.

The Clerk of the House laid upon the Table the Thirty-fourth Report of the Clerk of Petitions, stating that he had examined the following petition presented on the 26th instant, and finds that all the requirements of Standing Order 68 have been complied with in this case, namely:—

Of Peter F. Conife and 498 other citizens of Canada, praying that an embargo be placed upon the shipment of war material to aggressor nations.—

Mr. Young.

Mr. Fournier (Hull), from the Special Committee appointed to inquire into the operation of the Civil Service Act, presented the Second and Final Report of the said Committee, which is as follows:—

Pursuant to Order of Reference dated February 21st, 1939, your Committee has perused the evidence taken before the Special Committee on the Civil Service Act presided over by Mr. Jean-Francois Pouliot during the session of 1938; has studied most carefully the report of that Committee; has examined the Chairman and the Chief Executive Officer of the Civil Service Commission and has given consideration to numerous suggestions proposed by members of the Committee.

Your Committee recommends that legislation be enacted to implement the following proposals:—

1. Your Committee deems it expedient and in the interest of the public, the civil service and the Civil Service Commission that a Standing Committee on civil service matters be appointed at the commencement of each session of Parliament, and therefore recommends to Parliament that Standing Order 63 be amended by adding after clause (k) of said Order the following clause: (1) "on civil service matters to consist of twenty-five members, nine of whom shall constitute a quorum."

- 2. That subsection one of section 38 of the Civil Service Act be amended by adding at the end thereof the following proviso:—
- "Provided that, except on approval by the Governor in Council, such authorization shall not extend to the employment of a person who
 - (1) is not a natural born or naturalized British subject; and
 - (2) has not been a resident of Canada for at least ten years prior to such authorization."
- 3. That subsection (1) of Section 33 of the Civil Service Act be amended by substituting the word "ten" for the word "five" in the last line thereof.
- 4. That the Commission may, on the written request of the department concerned, and subject to the approval of the Treasury Board, appoint without competition any person who has already held a permanent position in the Civil Service and who has resigned, to the same or a similar position within the Department, provided however, that such written request shall state fully the reasons for such appointment, and that such person is deserving of such appointment, is not over fifty-five years of age, is of good character, and in good physical condition, and the Commission on being satisfied that such appointment is in the public interest, may appoint such person.
- 5. That section twenty-one of the Civil Service Act, dealing with vacancies in the departments, be amended by providing (in subsection two thereof), for the case of temporary appointments when there is no eligible list, that

the Commission shall forthwith hold an examination, and, if necessary, to prevent any serious interference with the public business, but not otherwise, may fill the position at once, subject to the approval of the head of the department, by making a temporary appointment as prescribed herein,

the only change in the subsection being the insertion therein of the words in italics above.

- 6. Your Committee is of the opinion that the preference granted by sections twenty-eight and twenty-nine of the Act to persons who have served overseas in the military or naval forces of His Majesty's Allies should apply only when such persons are natural born or naturalized British subjects, and also had been resident in Canada before the Great War.
- 7. Your Committee recommends that no male employee shall be retained in the Civil Service beyond the age of sixty-five years, and no female employee beyond the age of sixty years, and that such retirement be made compulsory. without any extension, except when deemed against the public interest by the Governor in Council.

Your Committee is of the opinion that this would materially increase the efficiency of the Civil Service, would facilitate promotion and create a brighter outlook for the future of the younger people in the Service or desirous of entering therein.

8. Your Committee recommends that all positions for which the maximum salary rate is \$700 or less, except the positions of office boys, or others usually subject to promotion, shall be excluded from the operation of the Civil Service Act, and that the Governor in Council be empowered to make regulations for the control and direction, organization, classification, and compensation, appointments to and general conditions of such positions.

9. Your Committee recommends that long-term temporaries on the staff of all Government Departments, who have been giving satisfactory service for a number of years, should be made permanent employees under the Civil Service Commission.

Your Committee also recommends that the Civil Service Commission make effective by regulation or otherwise, the following proposals:-

- 1. The Committee recommends that no official or employee in the Civil Service shall make any direct or indirect recommendation or reference by letter or otherwise on behalf of any relative by blood or marriage, or take any part, whether directly or indirectly in any competition, temporary or permanent assignment, promotion, classification or reclassification in which any such relative is an applicant.
- 2. Your Committee recommends that it shall be the duty of the Civil Service Commission to make their own rulings on the operation of the Act and apply the same uniformly, provided however, that any department affected by such ruling may request the Civil Service Commission to join in any submission to the Department of Justice for an opinion.
- 3. Your Committee reaffirms the eighteenth recommendation of the Civil Service Committee of 1932 which is as follows:—

18. Your Committee is of opinion that there is a great deal of overlapping in the performance of duties by the heads of different branches of the Civil Service Commission, owing to matters receiving the attention of the secretary of the Commission which are in no way related to secretarial duties.

Your Committee, therefore, recommends that the secretary of the Civil Service Commission be called upon to perform only those duties which are peculiarly those of a secretary and that the Civil Service Commission consider ways and means of eliminating duplication of correspondence and departmental memoranda which now pass through the secretary to the commissioners,

and your Committee recommends that all forms presently in use for such purposes shall be altered accordingly.

- 4. As the multiplicity of classification and the discrepancy in salary ranges tend to create dissatisfaction in the Service, your Committee suggests that the classification should be simplified to as great a degree as possible, with such reduction in the number of salary grades as is commensurate with efficiency and economy.
- 5. From the evidence it appears there is at present a considerable discrepancy in salary ranges as between departments and as between the various branches of the same department and as between the Senate and House of Commons, which militates against efficiency and co-operation. Your Committee recommends that the Organization Branch be charged with special responsibility with regard to salary levels in order to simplify ranges and also to thoroughly investigate salaries paid in comparable classes within and without the Service.
 - 6. Your Committee recommends:
 - That annual surveys of departments, units or branches shall be made in rotation by the various investigators, whether requested by the department or not, and such reviews shall be made so as to remedy overlapping, overstaffing or understaffing and any unfair discrepancies which may exist.

- (2) That if there is to be specialization, it shall be within classes rather than by attempting to cover a whole department from top to bottom, as at present.
- (3) That investigators shall mention in each report the time spent with each employee and the date and circumstances of the interviews.
- (4) That investigators shall not sit on examining boards as members thereof.
- 7. In order to give the Civil Service Commissioners a complete picture which will ensure fairness and departmental responsibility, and which will standardize the service and speed up handling of cases, your Committee recommends that the investigator's report with the comments of the Chief of the Organization Branch be forwarded to the department concerned and returned to the Civil Service Commission with any comments such department wishes to make.
- 8. Your Committee recommends that no married woman shall be employed even temporarily under her maiden name and that regulation No. 36 of the Civil Service Commission shall be strictly applied.
- 9. Your Committee recommends that standard advertisements to cover all classes and grades should be prepared and adhered to and that the practice which has often been followed in the past of writing advertisements to fit the qualifications of a single individual should be discontinued. Your Committee recommends further that any reason for varying such standard advertisements should be submitted in writing by the deputy head suggesting such variation and be reported thereon by the Organization Branch and that no such varied advertisement shall be issued or published unless previously approved by the Civil Service Commission.

10. Your Committee recommends that examination papers should not be translated for examination purposes but should be read by the examiners in the language in which they have been written, whether English or French.

- 11. Your Committee is of the opinion that wherever advisable, transfers to other branches of departments, as well as from one department to another, should be encouraged so as to facilitate merited promotions and for the purpose of helping employees to acquire a general knowledge of the work of the department or departments of the government. Your Committee considers that the effect of this recommendation will open new horizons to the younger employees by offering opportunities for advancement and promotion at the same time preventing the static condition of the service and remedying certain injustices.
- 12. Your Committee recommends that in connection with ratings on efficiency and fitness on which selections for promotion are based, the fitness ratings, whenever possible, be made by a Board of three departmental officers instead of individual departmental officers as at present, and that the efficiency ratings be made by the immediate supervisors of the applicants and reviewed by the Board of three departmental officers.

Your Committee recommends that a system of periodical ratings recording the efficiency of employees be established for use in connection with promotions, classification, salary increases, and retirements and that the employee shall be advised of the results of all his ratings and shall have the right to appeal such ratings to the Board mentioned in the following recommendation.

13. To facilitate the adjustment of complaints of a civil servant where such complaints cannot otherwise be adjusted, your Committee recommends that such complaints be adjudicated by a Board of Appeal consisting of a nominee of a

civil service organization named by the complainant, a nominee of the Chairman of the Civil Service Commission and one, who shall be the Chairman of the Board, to be named by the head of the Department; the findings of the Board to be reported to the bodies having jurisdiction over the matter, to be final respecting ratings for promotion, and to be put into effect.

- 14. Your Committee recommends that promotions shall not be confirmed until after the expiration of fourteen days so as to permit the filing of an appeal to the Board mentioned in your Committee's thirteenth recommendation, and in the event of such appeal being made that such promotion shall not be confirmed until the appeal has been disposed of.
- 15. Your Committee recommends that the practice of placing employees in vacant positions in an acting capacity instead of holding promotion competitions for them be discouraged.
- 16. Your Committee recommends that the Commission investigate the feasibility of more extensive and adequate advertising of competitions by press and radio.
- 17. Your Committee regrets that the recommendation of the Civil Service Committee of 1932 "that all papers, documents, et cetera, placed on the files of the Commission be consecutively numbered in each file, so that removals or deletions therefrom will be apparent" has not been put into operation, and recommends that it shall be strictly observed and that also each document on file shall be duly initialed and classified in each file.
 - 18. Your Committee is of the opinion that:
 - (1) a departmental division of eighty per cent permanent and twenty per cent temporary results in discrimination in certain branches where the work is entirely permanent and where twenty per cent have to wait years for any hope of permanency; and
 - (2) disapproves of any practice which will result in a branch creating work to bring in extra temporaries so as to absorb into the permanent quota those who otherwise would not be permanent.
- 19. That in order to remove all appointments from political influence, all advertisements for applicants shall contain a notice advising the applicant that he must not seek political assistance to further his application.

A copy of the minutes of proceedings and evidence taken before your Com-

mittee is tabled herewith.

(For copy of Minutes of Proceedings and Evidence see Appendix to the Journals No. 2).

Mr. Speaker informed the House,—That the Clerk had laid on the Table the Seventeenth Report of the Examiner of Petitions for Private Bills which was read as follows:—

Pursuant to Standing Order 99, Section 2, the Examiner of Petitions for Private Bills has the honour to present the following as his Seventeenth Report:—

Your Examiner has duly examined the following Petition for a Private Bill and finds that all the requirements of the 95th Standing Order have been complied with, viz:—

Of William Mossman Dubrule and others, of Prescott, Ontario, for an Act to incorporate Prescott and Ogdensburg Bridge Company.

Mr. Bothwell, from the Special Committee on Electoral Matters, presented the Third Report of the said Committee, which is as follows:—

Your Committee has considered methods whereby the disposition of sums received and expended in promoting the return of members of the House of Commons may be readily traceable and due publicity may be given thereto; also methods whereby the cost of elections to candidates may be reduced and the amounts that may be spent may be limited; and, as the result of its deliberations, herewith submits a proposed draft bill to amend the Dominion Elections Act, 1938, which draft bill it recommends to the favourable consideration of the House.

BILL No.

An Act to Amend The Dominion Elections Act, 1938

HIS MAJESTY, by and with the advice and consent of the Senate and the House of Commons of Canada, enacts as follows:—

1. Sections 62 and 63 of *The Dominion Elections Act*, 1938, are hereby repealed and the following substituted therefor:—

OFFICIAL AGENT AND ELECTION EXPENSES OF CANDIDATES

Appointment of official agent and acceptance of office.

62. (1) Every candidate shall appoint an official agent who is an elector and is in this Act termed "the official agent," who shall hold office during the pleasure of the candidate, and whose name, address and occupation shall be declared to the returning officer, in the nomination paper in Form No. 24, by or on behalf of the candidate, on or before nomination day and shall be published in the Notice of Grant of a Poll in Form No. 27. The acceptance of the appointment by such official agent shall also be declared in the said nomination paper in Form No. 24.

Procedure where official agent is superseded.

(2) If, after the Notice of Grant of a Poll has been published, the person appointed official agent for any candidate dies, is removed from office, becomes unable to act, or refuses to act, another appointment shall at once be made, and a separate written declaration of the name, address and occupation of the newly appointed official agent, together with his acceptance of the appointment (in the terms used in the nomination paper for such purpose) shall be delivered or transmitted to the returning officer. Forthwith upon receipt of such notice, the returning officer shall transmit a copy thereof to the Chief Electoral Officer. The returning officer shall also at the same time transmit a copy of such declaration to every candidate in the applicable electoral district.

Duties and responsibilities of superseded official agent.

(3) Whenever an official agent has been removed from office, is unable to act, or refuses to act, and has been superseded by another official agent, the former shall at once deliver to the candidate all money and its equivalent, and all books and papers in his possession in relation to the pending election, and shall prepare a complete return of election receipts and expenses in Form No. 57 (with the details prescribed in subsection (1) of Section sixty-three of the Act) for the time he has acted as official agent, and transmit one copy thereof to the returning officer, one copy to the candidate and one copy to the Chief Electoral Officer; and if such official agent shall neglect or refuse to so furnish such return and copies thereof, he is guilty of an illegal practice and of an offence against this Act punishable on summary conviction as in this Act provided.

Election officers ineligible as official agents. Penalty.

(4) No election officer shall be eligible to act as the official agent of any candidate in the management or conduct of his election, and if any such officer shall so act he is guilty of an illegal practice and of an offence against this Act punishable on summary conviction as in this Act provided.

Duties and liabilities of official agent during tenure of office.

(5) Until written notice of the death or removal of the official agent from such office has been transmitted by the candidate to the Chief Electoral Officer, or until his written resignation has been transmitted by the official agent himself to the Chief Electoral Officer, every such official agent shall be subject to the duties and liabilities imposed upon official agents by the provisions of this Act.

Official agent to receive all election contributions.

(6) No person or combination of persons other than the official agent of a candidate shall, in connection with and during any election, receive as a contribution towards the election expenses of such candidate any money, whether as contribution, gift, loan, advance or otherwise, except as provided by the next following subsection.

Candidates and others to remit election contributions to the official agent.

Penalty for contravention.

(7) Every person, including the candidate himself, who receives a contribution towards the election expenses of such candidate, shall, within seven days after receipt of such contribution, transmit or deliver the said contribution to the official agent of such candidate, and, in all cases in which the contribution is more than fifty dollars, give the name and address of the person making such contribution. Every person who contravenes the provision of this subsection is guilty of an illegal practice and of an offence against this Act punishable on summary conviction as in this Act provided.

No payment to be made except through official agent.

- (8) Subject to the subsequent provisions of this section, no payment and no advance or deposit shall be made before, during or after an election by a candidate or by any agent on behalf of a candidate or by any other person, in respect of any expenses incurred on account of or in respect of the conduct or management of such election, otherwise than by or through the official agent: provided that this subsection shall not be deemed to apply to payment
 - (a) by a candidate, out of his own money for his personal expenses to an aggregate amount not exceeding one thousand dollars;
 - (b) by any person, out of his own money, for any small expense legally incurred by him, if no part of the sum so paid is repaid to him.

Penalty for contravention.

- (9) Every person who pays in contravention of the next preceding subsection any money or its equivalent is guilty of an illegal practice and of an offence against this Act punishable on summary conviction as in this Act provided.
- No action against candidate unless contract made by himself or official agent. Proviso.
- (10) A contract whereby any expenses are incurred on account of or in respect of the conduct or management of an election shall not be enforceable against a candidate unless made by the candidate himself or by his official agent or by a sug-agent of the official agent thereto authorized in writing: provided that inability to enforce such contract against the candidate shall not relieve him from the consequences of any corrupt or illegal practice committed by his agent.

Bill of particulars.

(11) Every payment made by or through an official agent in respect of any expenses incurred on account of or in respect of the conduct or management of an election, shall, except where less than ten dollars, be vouched for by a bill stating the particulars and by a receipt.

Payment within fifty days. Penalty for contravention.

(15) All expenses incurred by or on behalf of a candidate on account of or in respect of the conduct or management of an election shall be paid within fifty days after the day of polling at such election, and not otherwise; and, subject to such exception as may be allowed in pursuance of this Act, an official agent who makes a payment in contravention of this provision is guilty of an illegal practice and of an offence against this Act punishable on summary conviction as in this Act provided.

(16) Notwithstanding anything in this section contained cause being at any time shown to the satisfaction of the judge, on application by the claimant, or by the candidate or his official agent, such judge may by order give leave for the payment by a candidate through his official agent of a disputed claim or of a claim for any such expenses as aforesaid, although sent in after the time in this section mentioned for sending in claims, or although sent in to the candidate and not to the official agent.

Election not void in certain cases in consequence of illegal payment.

(17) Where the judge reports that it has been proved by a candidate that any payment made by an official agent in contravention of this section was made without the sanction or connivance of such candidate the election of such candidate shall not be void nor shall he be subject to any incapacity by reason only of such payment having been made in contravention of this section.

Action for recovery in claims deemed disputed. Payment in pursuance of judgment deemed exception.

(18) If the official agent in the case of any claim sent in to him within the time limited by this Act disputes it, or refuses or fails to pay it within the period of fifty days after polling day at the applicable election, the claim shall be deemed to be a disputed claim and the claimant may bring an action to recover the same in any competent court; and any sum paid by the candidate or his agent in pursuance of the judgment or order of such court shall be deemed to be paid within the time limited by this Act, and to be an exception from the provisions of this Act requiring claims to be paid by the official agent.

A copy of the minutes of proceedings and evidence taken before the Committee together with the records and papers filed are tabled herewith.

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 10th MAY, 1939

PRAYERS.

A Message was received from the Senate informing this House that the Senate had passed the following Bill, to which the concurrence of this House was desired:—

Bill No. 138 (Letter I-2 of the Senate), intituled: "An Act to amend The Canadian National-Canadian Pacific Act, 1933."

Mr. Bothwell, from the Special Committee on Electoral Matters, presented the Fourth Report of the said Committee, which is as follows:—

Your Committee was instructed by order of reference dated March 13, 1939, to study and report on "Methods used to effect a redistribution of electoral districts in Canada and in other countries, and to make suggestions to the House in connection therewith," but regrets that it has been unable to give this order of reference the consideration it merits, owing to the number of meetings necessarily devoted to consideration of suggested amendments to the Dominion Elections Act, 1938, the last of which meetings was held on the second instant.

Your Committee gave consideration to the methods in use in Great Britain, Australia, New Zealand, The Union of South Africa and in the United States, together with suggestions made by the Counsel as to how redistribution could be effected in Canada.

Your Committee, however, concluded that there are many important questions, including that of the relation of urban to rural population, as it may be effected by the next decennial census, that should receive detailed study before a definite decision is made.

Your Committee therefore submits, without further comments, a statement of the methods employed in other countries, and the suggestions made, for the consideration of the House.

(For copy of aforesaid Statement of the methods employed in other countries, etc., accompanying said Report, see Appendix No. 4.)

Mr. Bothwell, from the Special Committee on Electoral Matters, presented the Fifth and Final Report of the said Committee, which is as follows:—

Your Committee was instructed to consider and report on methods whereby lumbermen, fishermen, seamen and miners in the Province of British Columbia may be enabled to exercise their franchise under the Dominion Elections Act, 1938, and, having considered this Order of Reference, has come to the conclusion that the Act as now drafted amply ensures the right of all electors to exercise their franchise.

Your Committee also recommends that the following amendments be made to the Dominion Elections Act, 1938:—

That Subsection (1) of Section Six be amended by deleting the words "two stenographers and three clerks" from the third line of the said subsection, and substituting the following therefor: "one Secretary to Executive and four clerks".

That Rule (3) of Schedule A to section seventeen be repealed and the following substituted therefor:—

"Candidates and political organizations may nominate to the returning officer an enumerator for each urban polling division as aforesaid. The returning officer shall, except as hereinafter provided, appoint from among the number so nominated, one enumerator to represent the political interest that at the last preceding election was elected to office, and one to represent the different and opposed political interest that received in the last preceding election the highest or the next highest number of votes, as the case may be."

That Rule 23 of Schedule A to section seventeen be amended by deleting the word "six" in the twelfth line thereof and substituting the word "two" therefor.

That Subsection (4) of section forty-five be amended by inserting the words:—

"forthwith examine it to ascertain if it is the ballot paper given by him to the elector" after the word "shall" in the fourth line thereof, and by adding the words: "It shall be an illegal offence for an elector to wilfully tear up or otherwise destroy any ballot paper supplied to him, by the deputy returning officer", after the word "elector" in the last line thereof.

By inserting the word "Cobourg" between the words "Chapleau" and "Cornwall" in the paragraph entitled "Ontario" in Schedule II.

A copy of the Minutes of Proceedings and Evidence is attached hereto.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 5.)

Mr. Beaubien, from the Special Committee on Radio Broadcasting appointed to consider the Annual Report of the Canadian Broadcasting Corporation and to review the policies of the Corporation, presented the Fourth and Final Report of the said Committee, which is as follows:—

- 1. Your Committee was impressed by the increasing scope and importance to Canada of the Corporation's work. It feels that more effective steps should be taken, through broadcasting itself and other appropriate methods of disseminating information, to familiarize the public with its varied activities.
- 2. Your Committee is satisfied that the financial policies of the Corporation are sound. The Corporation has consistently achieved a prudent surplus. Your Committee believes that increased revenue should result from improved coverage and service.

- 3. Your Committee notes with satisfaction the development of the plan of national coverage especially in the Prairie and Maritime provinces, where 50,000 watt regional transmitters are being added to the national network. In the further development of the plan, the Committee approves in particular of the Corporation's intention to proceed at an early date with much needed improvements in coverage and service in South Western Ontario and British Columbia.
- 4. In regard to programs, Canada is in the happy position of having at her disposal a wide variety of material both from outside and inside the country. The Corporation's policy and practice appear to take advantage of this situation, while giving the maximum encouragement to Canadian talent. The plans for the King's visit are noted with approval. The Committee especially endorses the Corporation's proposals for a larger number of programs for rural listeners. It is felt that broadcasting can be an important agency of practical service to farmers, fishermen and other primary producers, and of bringing the riches of music, drama and other forms of entertainment and culture into their homes. Your Committee also feels that the Corporation can do much to instil an appreciation of the value and advantages of the rural way of life.
- 5. Recognizing the necessity of planning and balance in public service broadcasting, your Committee notes with approval the Corporation's determination that the present ratio of commercial to sustaining network programs should not be increased.
- 6. The Committee of last year emphasized the importance of establishing, at as early a date as possible, a high-power short-wave broadcasting station, financed as a national undertaking, but operated and controlled by the Corporation as an integral part of its system. Such a project would facilitate the exchange of programs with other countries, would serve to advertise and interpret Canada abroad, and supplement the domestic program service.

interpret Canada abroad, and supplement the domestic program service.

Canada is the only leading trading nation without such facilities. We desire to draw the attention of the government to the imminent possibility that further delay in proceeding with the undertaking may result in Canada losing altogether the short wave channels registered in her name, and as a

consequence, being shut out of the field entirely.

Your Committee approves, as in the widest interests of the nation, the Corporation's policies regarding short-wave, television and facsimile broadcasting. The Corporation hopes shortly to occupy the field of high-power short-wave transmission. As regards television and facsimile, the policy is to alienate no part of the public domain to private interests. The Corporation intends, as soon as possible, to undertake experiments in facsimile broadcasting.

- 8. Your Committee recognizes that the responsibility of controlling and co-ordinating all broadcasting in the public interest rests upon the Corporation. In this connection your Committee wishes to express its gratification of a better understanding between private stations and the Corporation, recently attained.
- 9. Your Committee is seized of the difficulties of working out the principles of freedom of speech in relation to the peculiar characteristics inherent in the medium of broadcasting. In view of the limitations, both of time and of the number of channels available for broadcasting, as well as the exigencies of program planning, your Committee is convinced that fairness in the presentation of controversial material can best be assured by means of any system of network broadcasting on a sustaining basis.
- 10. Your Committee shares the view of the Corporation that network broadcasting of programs of opinion on current affairs should not be available for commercial sponsorship, more adequate time to be provided free for this

- purpose. The Committee believes that the Corporation's policies respecting broadcasts of opinion are designed to ensure the largest possible measure of fairness and equality of opportunity. We wish to emphasize the importance of placing before listeners the widest variety of points of view. It is desired to stress the importance of flexibility and experiment in forms of presentation.
- 11. Certain of the Corporation's policies affecting the public generally have not been sufficiently made known resulting in misunderstanding and inconvenience. Your Committee approves of the Corporation's intention to make such policies known more fully and widely in the future. While recognizing the rapidly changing and developing character of the enterprise, the Committee wishes to stress the need of duly publicizing policy decisions of this kind.
- 12. On the matter of political network broadcasting, your Committee is of the opinion that serious consideration be given to placing such broadcasting, during federal and provincial election campaigns, on a sustaining basis exclusively, with the understanding that the time so provided will be divided equitably among the political parties. Your Committee is also of the opinion that network party political broadcasting between elections should remain open to purchase, subject always to consideration of fair distribution and program planning.
- 13. Your Committee recommends that the licence fee for privately-owned broadcasting stations be revised in relation to power and population served, and that the new scale be effective for the current fiscal year.
- 14. Your Committee believes that the existing regulation which imposes on the vendor of a radio set the obligation, before making a sale, of ascertaining that the purchaser possesses a licence, should be rescinded. It recommends that the vendors of receiving sets be in future required to report monthly to the Department of Transport the names and addresses of all purchasers of sets, including the date of each sale.
- 15. Your Committee wishes to record its warm appreciation of the public-spirited manner in which the Board of Governors and the Management are discharging their duties as trustees of the national interest in broadcasting. The Corporation is developing a broadcasting system of increasing service to the people of Canada.

A copy of the minutes of proceeding and evidence is annexed hereto.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 6)

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, FRIDAY, 19TH MAY, 1939

2.30 o'clock, p.m.

PRAYERS.

A Message was received from the Senate informing this House that the Senate had passed the following Bill without any amendment:—

Bill No. 94, An Act to provide for the Training of Young People to fit them for Gainful Employment.

A Message from His Majesty the King, was delivered by Major A. R. Thompson, Gentleman Usher of the Black Rod, the House standing:—

Mr. Speaker, the King commands this Honourable House to attend His Majesty immediately in the Chamber of the Honourable the Senate.

Accordingly Mr. Speaker with the House went up to the Senate Chamber to attend His Majesty; and being returned;

Mr. Speaker reported that when the House did attend His Majesty the King, in the Senate Chamber, His Majesty was graciously pleased to give His Royal Assent to the following Bills:—

An Act respecting a certain Trade Agreement between Canada and the United States of America.

An Act to carry into effect the provisions of the Convention of the 15th September, 1938, providing for emergency regulation of the level of Rainy Lake and of the level of other boundary waters in the Rainy Lake watershed.

An Act to Encourage the Co-operative Marketing of Wheat.

An Act to Assist and Encourage Co-operative Marketing of Agricultural Products.

An Act to provide for the supervision and regulation of Trading in Grain Futures.

An Act to amend the Pension Act.

An Act to amend the Criminal Code.

An Act to provide for the Training of Young People to fit them for Gainful Employment.

And that to these Bills the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

"His Majesty the King doth assent to these Bills."

And then that he (the Speaker of the House of Commons) had addressed His Majesty the King as follows:—

"MAY IT PLEASE YOUR MAJESTY:

"The Commons of Canada have voted Supplies required to enable the Government to defray certain expenses of the Public Service.

"In the name of the Commons, I present to Your Majesty the following Bill:—

"An Act for granting to His Majesty certain sums of money for the public service of the financial years ending the 31st March, 1939, and the 31st of March, 1940, respectively.

"To this Bill I humbly request Your Majesty's Assent."

And that to this Bill the Clerk of the Senate, by command of His Majesty the King, did thereupon say:—

"His Majesty the King thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

And that after which, His Majesty was pleased to make a most gracious Speech from the Throne to both Houses of Parliament, as followeth:—

Honourable Members of the Senate:

Members of the House of Commons:

I thank you sincerely for your Addresses received on my arrival at Quebec. The Queen and I deeply appreciate your loyal and affectionate messages.

I am very happy that my visit to Canada affords me the opportunity of meeting in Parliament assembled, the members of both Houses. No ceremony could more completely symbolize the free and equal association of the nations of our Commonwealth. As my father said, on the occasion of his Silver Jubilee, the unity of the British Empire is no longer expressed by the supremacy of the time-honoured Parliament that sits at Westminster. It finds expression to-day in the free association of nations enjoying common principles of government, a common attachment to ideals of peace and freedom, and bound together by a common allegiance to the Crown.

The Queen and I have been deeply touched by the warmth of the welcome accorded us since our arrival in Canada. We are greatly looking forward to visiting each of the Provinces, and, before our return, to paying a brief visit to the United States.

It is my earnest hope that my present visit may give my Canadian people a deeper conception of their unity as a nation. I hope also that my visit to the United States will help to maintain the very friendly relations existing between that great country and the nations of the Commonwealth.

These visits, like the one recently made by the Queen and myself to the continent of Europe, will, we trust, be viewed as an expression of the spirit of our peoples which seeks ardently for closer friendship and better relations not only with our kith and kin but with the peoples of all nations and races.

Honourable Members of the Senate:

Members of the House of Commons:

May the blessing of Divine Providence rest upon your labours and upon my realm of Canada.

On motion of Mr. Lapointe (Quebec East), the House then adjourned at 3.45 o'clock p.m., until Monday next at 11 o'clock a.m.

PIERRE F. CASGRAIN,

Speaker.

No. 100

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 31st MAY, 1939

11 o'clock, a.m.

PRAYERS.

Mr. Speaker, from the Joint Committee of both Houses on the Library of Parliament, presented the First Report of the said Committee, which is as follows:—

The following recommendations were adopted by the Committee:-

(1) That the lighting condition in the Library of Parliament be improved by removing present reflectors in the main area under the dome, and replacing them by improved type installed and fitted with 500 watt lamps;

That the present wiring from panel-boards to the above-mentioned

lights be cleared of any grounds.

- (2) That the floor in the Library of Parliament be put into a satisfactory condition by removing present flooring, sub-flooring and sleepers under and covering the whole area with material for cement finish and laying thereon rubber tiling to special design, as especially recommended by the Department of Public Works, on account of its quietness to the tread and the ease with which it is kept clean and it lends itself to any special floor design required—which would be in conformity with the present design of the present floor and the general design of the woodwork of the Library.
- (3) That a thorough inspection be made of the heating system in the Library of Parliament, and that the necessary measures as recommended by the Department of Public Works be taken immediately to remedy defective conditions, in order that irreparable damage be not done to valuable books, by leakages or leaking pipes, etc.
- (4) That the old-fashioned fire apparatus presently installed in the Library of Parliament be replaced by modern fire extinguishers, in order to diminish or prevent all danger of fire and consequent irreplaceable loss.

(5) That the Chief of the Joint Parliamentary Distribution Office be instructed to supply to the Library of Parliament two copies of each

official publication received at that branch for distribution.

(6) That the members of the Committee regret the passing of the Honourable Martin Burrell, Parliamentary Librarian, whose kindly and courteous personality endeared him to those who were in close contact with him. He was a statesman, a man of Letters as well as a warm friend, a delightful companion. His death constitutes a loss to the whole Dominion, and he will especially be long remembered by the Members of Parliament and other habitués of the Library.

The Committee discussed the question of closing the Library on Sundays. It was considered more advisable to continue the practice of keeping open on

Sundays, during the sessions of Parliament, from 4 to 6 o'clock, p.m.

The General Librarian informed the Committee that space in the new Archives Building at the Experimental Farm had been secured to relieve the present congestion in the Library, and that 52,000 volumes had already been moved into the new quarters.

The General Librarian brought up the question of purchasing a Recordak Projector to be used in connection with microfilm reproduction of newspapers.

It was decided to let the matter stand for the present.

Mr. Rinfret, a Member of the King's Privy Council, presented,—Return to an Order of the House of March 1, 1939, for a Return showing:-

Resolutions to be reported.

Report to be received and Committee of Supply to sit again later this day.

By unanimous consent, the House reverted to "Routine Proceedings."

Mr. Moore, from the Standing Committee on Banking and Commerce, then presented the Seventh Report of the said Committee, which is as follows:—

Your Committee has considered Bill No. 132, An Act to incorporate the Central Mortgage Bank and has agreed to report the same with amendments. A copy of the evidence taken is attached.

(For Copy of the Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 8.)

Mr. Moore, from the Standing Committee on Banking and Commerce, also presented the Eighth Report of the said Committee which is as follows:—

By order, February 20, 1939, the House of Commons referred the Report of the Bank of Canada for the year ended December 31, 1938, to the Standing Committee on Banking and Commerce to inquire into all matters pertaining thereto.

Your Committee has held thirty sittings on this reference and has heard

considerable evidence.

Your Committee in the conduct of its inquiry has at all times had the active assistance and co-operation of Mr. Graham Ford Towers, Governor of the Bank of Canada, and wishes to express its appreciation of his valuable services. Your Committee is indebted also to Dr. W. C. Clark, Deputy Minister of Finance, for the historical background of banking and currency in Canada and glossary of monetary terms furnished by him.

Your Committee has been unable in one session of Parliament to complete its study of so wide a subject and recommends that the study of the subject

be continued during future sessions of Parliament.

Attached to this report are extracts from the evidence by way of a collection of written statements made by the Governor of the Bank of Canada and the Deputy Minister of Finance, also tables supplied by Governmental Departments, which material your Committee recommends should be printed in blue book form with this report.

A copy of the minutes of proceedings and evidence is annexed hereto.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 9.) Mr Moore moved,—That the recommendation contained in the Eighth Report of the Standing Committee on Banking and Commerce respecting the printing in blue book form of certain extracts from evidence and of tables supplied by governmental departments be concurred in, and that Standing Order 64 be suspended in relation thereto.

And the question being put on the said motion; it was agreed to.

The House resolved itself again into Committee of Supply.

The Order being read for consideration of amendments made by the Senate to Bill No. 132, An Act to incorporate the Central Mortgage Bank;

Mr. Dunning moved,— Resolved, That a Message be sent to the Senate to acquaint their Honours that this House agrees to their amendments, Nos. 7, 10, 11, 12, 13, 14, and 16 to Bill No. 132, "An Act to incorporate the Central Mortgage Bank," and disagrees to amendments Nos. 1, 2, 3, 4, 5, 6, 8, 9, 15, 17, 18, 19 and 20 for the following reasons:—

1. Because the amendments would make it impossible to accomplish several of the fundamental objectives of the Bill as passed by this House.

2. Because these amendments would deprive tens of thousands of owners of non-farm homes in all provinces of Canada of the privilege of having their mortgages adjusted in accordance with the provisions of the Bill, and particularly of having the interest rate on such mortgages reduced to a rate not in excess of five and one-half per cent.

3. Because these amendments would result in only a relatively small saving to the Dominion Treasury and the cost which the Treasury would still have to bear would be out of all proportion to the benefits obtained by the nation.

- 4. Because with these amendments the Bill would not accomplish a major objective of the Bill which relates to the permanent improvement of mortgage lending practices in this country. Companies eligible to become member companies of the proposed Central Mortgage Bank now confine most of their lending activities to mortgages on non-farm homes. Consequently, the provisions of the Bill designed to make available long term funds at low interest rates to be lent in accordance with the principles in subsection (3) of section 22 of the Bill would have little practical effect and disagrees with amendment No. 1 for the following reasons:—
 - 1. Because this amendment would deprive farmers who entered into agreements for sale during the year 1938 at a time in which there had been a good harvest, of the privilege of having their agreements for sale adjusted in accordance with the provisions of the Bill.
 - 2. Because in many cases the original cash payments made by such farmers were very small and with the decline in prices and poorer crops in the year 1938 such farmers now have little or no equity in their farms:

And that the Clerk do carry the said Message to the Senate.

After Debate thereon, the question being put on the said motion; it was agreed to, on the following division:—

After which The Right Honourable the Deputy Governor General was pleased to close the Fourth Session of the Eighteenth Parliament of the Dominion of Canada, with the following Speech:-

Honourable Members of the Senate:

Members of the House of Commons:

In bringing to a close a session in which, for the first time, The King has been present in person in the Parliament of Canada, I desire to express the gratification of my government at the universal and heartfelt rejoicing of a united people who are being honoured by the Visit of Their Sovereign.

I wish, at the same time, to thank you for the attention you have given to the many problems which Canada, like other countries, faces in these critical times.

It was a source of satisfaction to my government that His Majesty was able to give the Royal Assent in person to the Bill respecting the Canada-United States Trade Agreement. This Agreement and the other measures which have been enacted to meet exceptional conditions in the basic industries, and to improve marketing facilities will be of direct advantage to the primary producers in all parts of the Dominion, and will be reflected in increased trade and employment.

Provision has been made for the establishment of a Central Mortgage Bank with the object of easing the burden of debt upon farmers and home-owners.

I am gratified that, by the extension of the Youth Training Program, provision has been made to apply the strength and enthusiasm of youth to the conservation and development of our great forest resources.

The insecurity of the world to-day has made necessary increased provision

for national defence.

It is my hope that the desire for peace, which lies so close to the hearts of the peoples of all countries, will yet serve to avert international strife, and to restore among nations co-operation, understanding, and goodwill.

Members of the House of Commons:

I thank you for the provision you have made for the public service.

Honourable Members of the Senate:

Members of the House of Commons:

In taking leave of you at this time, I pray that the blessing of Divine Providence may rest upon your labours.

His Honour the Speaker of the Senate then said:

Honourable Members of the Senate:

Members of the House of Commons:

It is the Right Honourable the Deputy Governor General's will and pleasure that this Parliament be prorogued until Thursday, the 13th day of July, next, to be here holden, and this Parliament is accordingly prorogued until Thursday, the 13th day of July, next.

The principle to a curve a section in which for the first runs. The King has
