Three months of operation of the London & Port Stanley Railway under public ownership give the guestifying return of faceipts over operation of between \$40,000 and \$50,000. The commissioners have this sum in the bank to their credit. Admittedly the period has been the holiday season, in which earnings are likely to be larger than at other seasons. It is to be noted, however, that if the railway were not to earn another surplus dollar for the balance of the year, it still would be deing yery much better than had it continued under the old system of renting to the highest bidder. It at least would be paying its way. The surplus now in hand is sufficient to pay the interest and sinking fund charges for the year upon the rebuilding and electrifying of the road. The city, therefore, is in the position of being able in the first year to meet in three months the year's share of the expense of providing virtually a new railway. Some \$400,000 were expended alone on new rails and ties, and the railroad bed has at the same time been very greatly improved. This was a necessary work, due to the fact that as a rented road it had been permitted to sink into a condition in which the rails were described as "two lines of rust."

McGarry said the very Balkan nations who were entering the war on the side of Germany, were a short time ago denouncing the renuciation by Germany of her treaties. What changed their attitude? Perhaps the falsehoods told in the German press, and perhaps the recent alleged successes of the Germans and Austrians in the east.

Concerning Belgium's great fight, he said it would redound to her credit thru ages that with her 200,000 men she was ready to defend herself against 2,000,000 foes. As great, he said, was the credit due England in keeping world commerce open. At the commencement of the war, Germany had 3700 ships in her merchant marine, and England 21,000. Norah to her husaid was the doll in the doll's house, it soe herself was a woman with a oman's will and a woman's outlook, horwald had the old idea of marage. A weman was a child, a lark, r a squirrel. He would do anything or her, and give unlimitedly up to his ueans. There were still many houses, aid Mr. Griggs, in which this view was taken. There were even some in which the word "obey" in the marriage ceremony is taken serious y, but usually no sensible husband expected to exact obedience from his wife. The man, however, who holds the purse takes what he wants. The woman has to get what she wants by subterfuge and has been trained to it all her life. She lies as easly and as charmingly as she twitters.

Thorwald had been ill and the doctors told Norah that unless he went south he would die. To save her husband's life she resorted to a subterfuge. Thorwald would have been very much humiliated and his respect injured, she explained to her frient, if he knew he was indebtas borrowed to save her husband is the skeleton in her cupboard, for he has a detestation of debt of any kind and she dare not tell him.

Price of Bread is Given Another Boost at Niagara Falls.

Special to The Toronto World.

Alacara Fallas, Ont. Oct. 7.—Niagara Falls bakers have boosted the price of bread again. They claim they cannot continue selling bread at five cents a loaf and make a profit. Unwrapable of the price of bread is now selling at six cents a loaf. Wrapped bread has been boosted to seven cents. It is said he bakers boosted prices because the city council did not give up the plan for a municipa bakery when they lowered the price of bread to five cents about three weeks ago.

"The bakers admit they showed poor judgment in buying flour when it was at its highest price. This goes to show hat a municipal bakery is needed here We are going to carry out the plan for a city bakery if it is possible to do so," said Mayor Clendening today.

Board of Education Discusses Book for Libraries and State of Children's Teeth.

Brevity and mirth featured last night's meeting of the board of education. The jocularity was evoked by two clauses in the report of the management committee. Trustee C. A. B. Brown suggested that the boys and girls would prefer ginger pop when the clause was before the board to grant the Ontario Safety League permission to place in each public school library a copy of a book entitled "Sure fop and the Safety Scouts." The permission was granted.

Dr. Noble deplored the lack of good teeth in the rising generation in commenting on the clause recommending that \$90 be expended for a supply of tooth brushes and tooth paste for the Boys' and Girls' Homes, Protestant Orphans' Home, the Shelter and West End Creche. He stated that of 250 pup'ls at the Aviation School only four of the entry birdmen had good teeth when medically examined. The trouble was that young people now ate too much soft stuff. The grant was concurred in.

Burglary Charged.

Fred Pollock and Raymond Robinson appeared before Magistrate Denison in the police court yesterday on charges of burglary. Pollock has three charges against his name—stealing a diamond pendant, diamond locket, and \$130 in money from the home of James A. Riordan, Spadina Gardens; jewelry and \$2.80 from the home of Lee Evans, 2 Triller avenue, and two diamond rings from the home of Mrs. Reid, Indian road. Robinson was associated with him in the first two cases. Alleged to have received some of the stolen property. William O'Reilly, thru his counsel, asked for ball until the 14th, but was refused. Poliček and Robinson pleaded not gullty and elected to be tried by a jury.

Ninety days in jail and an order for her deportation was the sentence received before Magistrate Denison and pleaded guilty to a charge of bigamy. The woman is supposed to have had at least three husbands, two of which she married in the last two years. Months ago the police received a letter from a man in England asking them to locate his wife, who had deserted him, taking his two children along. It turned out later that the prisoner was the woman referred to in the letter.

sales being at great sacrifice. In the drawing-room an exquisite old colonial mahogany sofa brought \$76, being worth considerably more. The handsome floor covering, an axminister in charming colors, sold for \$60, and the huge white bearskin which had once reposed before the cosy log fire, was passed into another life for the sum of \$66. Many of the valuable antiques and various work of art of a personal nature had been disposed of prior to the public sale, but some rare old Sevres vases and Carrara marble statuary were among the ornaments which sold with little effort.

Some Sacrifices.

Portieres and brocatelle curtains, in rich tones of blue, with braidings of silver, white and gold threads, were found new owners, while two handsome pairs of silk lace curtains, hung

with the chairs. The massive sideboard brought \$200. An exquisitely

went for \$120, and a handsome oil
painting, which graced the walls of
the drawing-room, only brought \$145.
It was a superb piece of work, by
William E. Norton, entitled "Mother
and Child," valued at \$1000. Two remarkable steel engravings, which had
hung on the dining-room walls, were
sacrificed for the pairry sums of \$8.50
and \$6.

The Grandfather Clock.

As the visitors followed the auctioneer in tall silk hat and shouting "Going, going, gone," about nothing at all, just to worry people or to keep up imaginary sagging enthusiasm—to the upper floor, no eye failed to see the dear old grandfather clock, which still ticked in a dignified monotone, reluctant in surrendering old associations. The sum of \$150 was paid for this handsome old mahogany piece. The bedroom suites were equal in choice and artistic color arrangements to the rest of the house, the handsome middle room, in mahogany and Helland blue, containing splendid pieces.

There were three sutaments.

That we had been able to accomplish these things Mr. White declared had been due to the fact that the people of Canada had loyally and intelligently cooperated with the government in saving the situation. For some years before the war Canada had been a borrowing community. Between 1909 and 1914 no less than \$1,500,000,000 had been borrowed. Even now our annual charges payable mainly in London amounted to at least \$140,000,000. These huge borrowings had been mainly represented by imports necessitated by the construction of railways and other public works so that the money borrowed had largely gone into fixed capital.

War Casts Shadow.

The coming war, Mr. White said, had cast its shadow over the world as far back as 1912, with the result that many loans maturing in 1912-13 could only be renewed for short time maturities. Therefore at the outbreak of the war and a short time thereafter many Canadian commitments had to be taken care of principally in London. These commitments had been taken care of the government, and the minister desired to pay a tribute to the public spirit and patriotism shown by the banks at that critical time.

Since he beginning of the war the peo-

## The Reason Why Of The New Department

I INTIL a short time ago we were not interested in selling phonographs, preferring to wait until the inventors and manufacturers would produce that type of an instrument that was in keeping with the aims and traditions of this house.

Today we are showing a complete line of Edison Diamond Disk Phonographs and Columbia Grafonolas and all records, and offer them for sale to our patrons, believing that these instruments have now been improved and perfected to such an extent that they afford entertainment that will be appreciated in the most fastidious musical

We were not satisfied to merely offer these instruments for sale, but felt that there was a great need for Gourlay, Winter & Leeming service in connection with the selling of this line, and as a consequence we have fitted out an entirely new department.

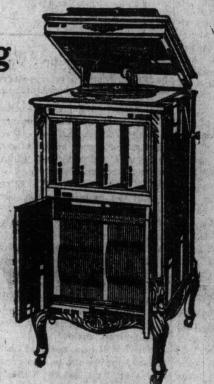

## Gourlay, Winter & Leeming Phonograph Service

THE department consists of a series of large and well ventilated sound-proof rooms, in which one may make his selection from the latest model instruments and newest records at his leisure, amid comfortable surroundings, having at all times at his disposal the advice and attention of phonograph experts and musicians.

Our entire stock of instruments are the latest creations in both the Edison and Columbia lines, and we carry a complete stock of every record in both lists.

We extend an invitation to all to visit our new department, and we know you will appreciate our courteous and thorough Phonograph service and prompt delivery.

Canada Richer Today.

'I have no hesitation in saying to you gentlemen," the minister continued, "finat Canada is a richer country today than it was a year ago. We have kept our gold reserve unimpaired, partly by the prohibition of gold payments and partly by negotiating loans in other countries. The Canadian dollar today is worth 100 cents everywhere. (Applause.) The business situation is good and the outlook is excellent." (Applause.)

The minister went on to say that production and ecenomy must be our watchwords from now on. The government at the outbreak of the war had not thought it good policy to throw men out of employment by stopping public works, but now that the unemployment problem had been fairly well solved the government would not spend a dollar that was not absolutely necessary. After the war was over there would be a period of dislocation when it might be necessary for the government to come to the relief of the people by a generous expenditure upon public works. It was the intention of the government to prepare for such a time by conserving its credit to the utmost.

We had up to date borrowed all our

we had up to date borrowed all our We had up to date borrowed all our money for military expenditures from the British Government. It was hoped, however, that after the crop had been moved Canada would be in a position to finance at least a part of her own war expenditures. That would be done by a domestic loan. There was, however, no foundation for the statement that the government was about to ask the people for \$150,000,000. In fact the government did not need any money at this time. "People sympathize with me upon the theory that the government is hard up." said the finance minister. "As a matter of fact there has never been a time when things were aboeasy for the government so far as ready money is concerned. I have a little Scotch in me," he added, amid laughter, "but not the kind you are thinking of I make it a point to keep plenty of mone in hand. I do not concern myself much about the rate of interest, but I get the

trade amounting to \$300,000,000, that balance had been cut down to \$180,000,000 in 1914. In the fiscal year ending March 31, 1915, it had been almost entirely wiped out, while for the five months ending Aug. 31, 1915, the balance of trade was in our favor to the extent of \$33,000,000.

any emergency.

Discussion Premature.

With reference to the proposed domestic war loan the minister of finance said it was premature to discuss its amount or terms, as it was not the intention to bring it on during the period of the heavy financing of Canada's crop movement, as this action would result in curtailment of credit to the farming community. At the present time there was no need to bring on such a loan as the Dominion Government had ample funds to provide for its war expenditure until the end of the year.

The reports which had obtained currency as to a \$150.000,000 loan were wholly without foundation. Such a sum had never been considered in connection with a domestic loan, nor would it be required at any one time. Any loan that would be made would be for such moderate amount as Canadian conditions would warrant at the time of issue.

"Our government," said the minister in conclusion, "has turned itself into a bank of rediscount. The banks can always make themselves liquid by coming to us, for we stand ready to rediscount their securities. Even the the banks do not avail themselves to any great extent of this privilege it stands there for their benefit and gives them courage and confidence. As a matter of fact the banks have never had greater liquid strength than at present. Never has there been a time when they were better prepared to finance the business of the country."

#### The World Do Move

Finance Minister White struck the teynote in his admirable speech to board of trade yesterday afternoon, when he declared that the government had turned itself into a bank of rediscount. He pointed out that the chartered banks need no longer hoard vast cash reserves or hesitate to finance the business of the country. They could make themselves liquid at any time by rediscounting their securities with the government. That the banks, and thru them the public, have not benefited to the extent the government stood ready to help them is not the fault of the finance minister, except in so far as he left it largely to the banks themselves to say whether they would or would not go to the aid of business by using national currency. On more than one occasion, however, the government has discounted securities directly, instead of thru the intervention of the banks. It is ready today to deal with the crop situation on its own initiative, if the circulation privileges in exchange for banks do not avail themselves of the an issue of national currency at a fortunate circumstance. But when the truth begins to move it moves quickly. The bankers in the United States fought the Federal Reserve Bank Act in 1914; today they acclaim it. From The Wall Street Journal we read:

If any nation was prepared by a divine Providence for this war, it was the United States by the enactment of its Federal Reserve Act, which places here prac-tically unlimited credit for trade and trade expansion in the United

Mr. White desires to help, not to hurt, the banks of Canada by transforming the government into what he calls "a Bank of England, a bank of rediscount." Minister of Mines Pleased With Assistance Given by Companies.

The government's nickel commission, under the direction of the expert metallurgist, E. Holloway, has completed its investigations at Sudbury, Copper Cliff, Coniston and other mining centres in the north country, and, according to Hon. G. Howard Ferguson, is right up to schedule with its work.

Copper Cliff and Coniston are where the two big nickel mining companies—the Canadian Copper Co. and Monde Nickel Co.—are located, and the commissioners spent weeks just in this vicinity looking into conditions. Their route from now on is somewhat uncertain; in the next few days they will probably look over some new mining properties and then strike further north to the Hollinger and other big mines.

Gleorge E. Boyce, the talented pupil of Prof. Michael Hambourg, appeared at Massey Hall last night in a piano recital, when he presented a long and exacting program, in which he showed himself an artist of unusual promise and ability.
That Toronto expected something worth while from its "made-in-Canada" plants was evident from the fine audience that turned out to hear him, and that the audience was not disappointed was shown by the repeated applause that followed the different numbers.

The first selection on the program, "Gavotte and Varietions," Ramane Teashetitzky, showed fine singing qualities in the production of his actes and the distinctiveness of the left-hand runs, while considerable intellectual interpretation was displayed, in Beethoven's Sonata, Opus 27, No. 1. The Tocatto and Fugue D. minor, Bach Tansig, with its imperative introductory notes, was a well presented number in the opening troit.

setting forth the great demands upon
the resources of the British Red Cross
Society and the Order of St. John,
and requesting collections and contributions to be made in aid of these
societies upon Oct. 21, being Trafalgar Day, his honor the lieutenantgovernor of the Province of Ontario
has issued a proclamation that such
day be observed for this purpose. In
this proclamation, as well as in a circular sent to all mayors and reeves
in the province, his honor appeals for
contributions that "will be worthy of
the place we occupy in our empire."

I, therefore, request that, as the
clergy are specifically included in this
proclamation, you will do your utmost

Philadelphia Weather Cloudy and Unsettled

#### PHILLIES ASK ODDS **SOX SAY EVEN MONEY**

Cloudy and Unsettled Weather, But Hope to Play First Game Today,

"Every effort will be made to play the opening game tomorrow," said President Tener, "for the delay would badly upset the plans of many spectators from out of town. If the rain ceases during the night I understand that the playing field is expected to dry out quickly with a little wind and sun to help matters."

At the Phillies' park the grounds keeper said that the infield was in fairly good condition considering the heavy rain of the afternoon. The pitcher's box and the home plate had been covered with large squares of canvas, but the diamond and the outfield were soft and slippery, and were far from being in shape for a fast contest, such as is expected when the Bostons and the Philadelphians meet for the championship of the baseball world. Notwithstanding the possibility of a delay in the starting of the series, there was no dampening of the enthusiasm of the followers of the game, many of whom had come from distant points in order to witness the opening battle.

Speculation regarding the merits of the teams and discussion regarding the probable outcome of the series was the only topic of conversation in the hotels and other gathering places of the fans.

Altho there was unlimited talk on the hundred and one phases of the series there was very little betting on the result.

there was very little betting on the result.

There was plenty of backing for the Hostons, but Philadelphia money was scarce. The Red Sox supporters offered even money on the American League champions to win the series, while the Phillies' adherents demanded 6 to 5. Boston rooters were slow to accept this bet, and as a result there was a virtual deadlock in the wagering, altho several betting commissioners held large sums of money waiting for their principals to get together.

#### Boston Royal Rooters Have Faith in Red Sox

BOSTON, Oct. 7.—With the Royal Rooters and other baseball enthusiasts on the way to Philadelphia to bring a cheering word to the Red Sox from the city, which they represent, the rest of local fando mtonight sat back and waited for the cening of the world series tomorrow. Red Sox followers have not seen their team in action for more than a week, but faith in their success in the series was generally strong in site of an uncertainty of feeling regarding the ability of the Boston men to overcome Alexander.

President Joseph J. Lannin of the Red Sox and members of his family and of his executive staff accompanied the Royal Rooters on their special train.

On the train with the rooters were a band and a number of singers well versed in the details of "Tessie," the song credited with having brought a world's championship to Boston in the Pittsburg series of 1903, because of its demoralizating effect on the Pirates, and heard in every series in which Boston has participated since.

evening when the work at Rosedale was snappier and steadler than on Wednes-day. A squad of about 40 turned out, with Sheehy and Knight on the side lines. The coaches drilled the men in every department and seemed satisfied at the close.

The following is the Argonaut line-up for the game against Hamilton Tigers

tomorrow:
Flying wing—Glad Murphy or Duke.
Backs—Jack O'Connor Dudley Garrett,
Everett Smith or O'Flaherty, Broderick
and Brophy.
Quarter back—Freddie Mills or Heintzman.
Scrimmage—Polson, Patterson, Horner or Gaie and Trow.
Inside wings—Joe Stanfield, Frank Foster or Dudley and Lobraico.
Middle wings—Bryans. Burkart or Brown.
Outside wings—MacMurray, Johnny Ryan or Gordon Murray and Prendergast.

see the champion Argonauts perform against the Hamilton Tigers.

An Ottawa despatch says: Ottawa football stock took the upward turn when coach Shaughnessy trotted Eddie Nagle, the former Ottawa College star, on the field for yesterday afternoon's practice, if it took considerable coaching on the part of Shag and the club executive to make Nagle give up his intention of going back to Dunnville, where he has been living all summer. Nagle's presence on the they never went better than they did yesterday. The great little all-round where he soon caught the rall-birds' eyes by his sensational running and catching. Nagle was just the man that Shag wanted to balance his team up, and other Big Four clubs will not have the cinch beating the red, white and black team this year that they did last. Over two teams were out today and a great old battering practice was held. A regular game was played between the Firsts and Scrubs, with the Firsts having decidedly the best of it. Twenty-three men will be taken to Montreal Saturday for the opening game of the lig feour against the winged wheel fourteen. Those that will make the trip are: Quilty, Boucher, Nagle, Abelson, Graham, Vaughan, Dewhurst, Soper, McCaffery, Geo. McCann, Gamble, Hill, Emmerson, Adams, Willis, McClelland. The first fourteen will likely start out, but if Bush receives his amateur card he will replace Hill. Geo. Boucher is laid up with blood poisoning in one of his toes, but he will be in fairly good shape for the game. The players and executive expect to beat Montreal.

Port Dalhousie ladies turned in \$302. The presentation of silver war medals instead of gold accounts for the amount credited to the grand stand receipts and entry fees, and this in effect was really a contribution to the Red Cross Fund by the competitors in the regatta. The local St. Catharines committee, for which Mr. E. F. Seixas was chairman, and the young ladies of the Garden City are deserving of the greatest amount of praise for their efforts.

Court Sustained Objection on Ground of Secrecy of

WINNIPEG, Oct. 7.—Sir James Aikins appeared in Magistrate P. A. Macdonald's court today, in answer to a subpoena which required him to produce a letter written to him by F. W. Simon, the parliament buildings architect. He was not called to the witness box, but he informed the court

witness box, but he informed the court that he could not produce the letter, and the magistrate upheld his plea of professional privilege.

The letter in question was written by Mr. Simon to Sir James when the latter was acting as the architect's solicitor, and is understood to have conveyed Mr. Simon's information to the effect that a camgaign fund was being raised thru the parliament buildings. When on the witness stand Mr. Simon stated that he had no objection to the letter being produced, and Sir James was accordingly served with the subpoena,

"It have the letter," said Sir James: "it is one of instructions, and contains certain statements from my client to me; therefore, I am prohibited by law from disclosing its contents, which would be done by producing it. The letter was marked 'private'."

Withdrew Consent.

Sir James stated that since Mr. Simon had given his consent to the production of the letter, he had given instructions that he did not consent to its production.

### NEW VIEWS OF THE WAR IN 8 PAGES

VERY EBB, every flow, of the tide of war presents a new side to the struggle. Words are incapable of giving us a vivid, realistic impression of the constant change, the everlasting newness of the war.

Pictures alone convey to the mind the war's realities, its clear-cut human angle. The Sunday World appreciates this fact, and is, therefore, glad to be able to announce that additions to mechanical equipment make possible a return to the former eight-page size Illustrated Section.

The pictures that mark the change in size, which begins with the coming Sunday World, are a particularly striking

LARGE CATTLE EXHIBIT

Would Do Credit to Any Interprovincial Show, Say Judges.

Delightful weather and a big crowd avored the opening of the Markham air yesterday, and this coupled with a rd entry list in all classes of live stock fully 30 per cent, ahead of former years, made glad the hearts of the board of directors. The applications for space from horsemen all over the province are so large that local exhibitors like T. F. Hassard remained at their own stables, allowing outsiders the privilege of the grounds.

allowing outsiders the privilege of the grounds.

The exhibit of cattle was remarkably large, Holsteins, Durhams, Ayrshires and Polied Angus being well represented, and the fact that R. J. Fleming, one of the judges of the day in dairy cattle, pronounced the exhibit of exceptional merit and one which would do credit to any interprovincial fair, is an indication of the quality of the animals.

A meeting of the Caledonia Ratepayers' Association was held last evening in Hughes' School, McRoberts avenue. President Dr. G. W. McIntosh occupied the chair. The questions of park accommodation, extra lights for Caledonia avenue and a fire chief for the city were discussed.

Regarding the matter of a park, the meeting heartily endorsed the motions of the Earlscourt Business Men's Association and the British Imperial Association, requesting the city counci, to purchase the Royce property. P. James complained of the insufficient lighting of Caledonia road from St. Clair avenue to the city limits.

It was decided to write the lighting department in this regard. W. Vince also favored the extra lights on Caledonia road.

#### FOSTER BROTHERS ARE SENT TO JAIL

Before Magistrate Brunton in Newmarket yesterday F. E. Foster and H. Foster, brothers, were charged with stealing from H. Foster, sr., while the latter, who had fired on the intrudens, was charged with shooting with intent to kill. The evidence was somewhat conflicting, but the magistrate dismissed the charge of shooting with intent against Foster, sr., while the two brothers were sentenced to two months in Jail.

Solomon Solovinski, a Gwillimbury farmer, was charged before the magistrate with exceeding the speed limit up Yonge street on Wednesday night, when the motor car he was driving came in collision with a buggy driven by Norman Baker of Eigin Mills. Mrs. Baker was thrown thru the windshield of the motor car and received severe injuries. Solovinski was remanded until next Tuesday, when the case will be heard in Toronto.

### The Story of a Canadian Business Success

In 1909, a number of the leading milk producers of Ontario met to face the problem of the distribution of their milk to the consumer. Dissatisfied with prevailing arrangements with milk dealers in Toronto, the farmers decided to co-operate, establishing their own dairy in the city. The result is The Farmers' Dairy-the most outstanding example of successful cooperative enterprise in Canada.

Always setting the very highest standard of purity, cleanliness, and richness, The Farmers' Dairy has been an unqualified success. Outgrowing the first dairy, it has been necessary to build this wonderful new building. As an institution it is a triumph for the farmers, a justification of honest business methods, and a lasting tribute to the advances made by science in the interests of human welfare.

CATTLE CLOSE STEADY

Week of Large Receipts and Values Did Not Change Much.

The receipts of live stock at the Union Stock Yards yesterday numbered 111 cars, including 324 cattle, 41 calves, 1787 hogs, 675 sheep and lambs and 1287

Butchers' cattle: Yesterday's market was a typical Thursday's, being made up of a few fresh arrivals and those left over from previous days. The closing was fairly steady considering the offerings of odds and ends. This has been a week of large receipts and values did not change much from last week. Two loads of fresh cattle of the good to choice butchers sold yesterday at \$7.45 and \$7.50. Butchers' cows and buils closed well at prices quoted Monday. Medium and common classes were established at Wednessay's easier prices.

Stockers and feeders: Good to choice yearlings (dehorned reds and roans), weighing 600 to 650 lbs., were in great demand yesterday, one dozen orders remaining unfilled. These are in a good strong market and quoted at \$6 to \$6.25. There was more activity in the closing days of this week's market, in this division, than for some time, and the tone was strong. ### **BOSTON CREEK CAMP** SHOWING UP WELL

Dominion Reduction Co. and Others Are Doing a Good Deal of Development Work.

BOSTON CREEK GOLD CAMP, Oct. 5 .- There is probably more activity around this camp than any other shipped 2 loads on order to Ohio.

Maybee Bros, bought 300 stockers and feeders in two days past from \$5.75 to \$6.75; sold 1 load of extra choice short feeders, 950 lbs., at \$7; 3 loads of common to fair stockers, 600 lbs., at \$6 to \$6.25; 1 load of yearlings, 600 lbs., at \$6.50; 2 loads of good stocker steers, 675 lbs., at \$6.50; 2 loads of good stocker steers, 675 lbs., at \$6.50; and \$6.60; 15 stock heifers at \$5.15; shipped 2 cars on order.

Fred Rowntree bought 110 cows. mostly springers: Best cows, \$80 to \$100; fair cows, \$70 to \$85; ordinary cows, \$55 to \$70; and shipped six loads to the following points: Montreal, Que, Simcoe, Brampton, Scarboro Junct.on, Elmira and Weston, Ont. down two sharts, one being down about 30 ieet and the other about 80 feet at the time of writing. The vein upon which they are sinking is about 7 feet wide, with a pay streak of 30 inches and has been stripped probably \$900 feet.

Jim Hughes of Haileybury is also located at this camp and has a high

S. Dobie of the Leyson-Doble was vis tor at the camp lately and it is runnored is negotiating for some C. S. Gzowswi. of Toronto, well known in British Columbia as a rail-road contractor and placer miner, has

also pu chased some claims, and has been at the camp f r some time.

T. Flynn of the McIntyre and Vipond has purchased some claims and is very well pleased with the camp in One of the big Cobalt mines is reporied to be endeavoring to option a group of claims near the railroad

New gold discoveries are made in the camp every day and seeing the camp is scarcely six months old the writer is not far wrong when he says it is just in its inf ney.

It is the consensus of opinion that with some more development work this camp is bound to make good.

OLD SWASTIKA MINE WILL BE DEVELOPED

New Owner Has Gang of Men Pumping Out Shaft.

Special to The Toronto World.

SWASTIKA, Ont., Oct. 7.—Frank Culren of the Beaver Consolidated Mine, who recently purchased the Swastika mine, has a gang of men pump.ng out the shaft. It is understood that development work will be started shortly. The Swastika was the first gold mine in this section, but was forced to close down about three years ago. Little development work was done by the old management, but the proving up of Kirkland Lake as a gold camp rivaling Porcupine has put a different light on Swastika's possibilities.

It is rumored that the Lucky Cross mine here will also reopen shortly. The company is said to be on a good financial basis. INTERCOLONIAL PRINCE EDWARD ISLAND RY Through Sieepers Montreal to Halifax

EASY MONEY HELPS

Railway Issues Advance Together With War Specialties.

NEW YORK, Oct. 7 .- The inference erally drawn from today's remarkrecovery of prices is that the " always an unknown quantity while," always an unknown quantity will street, is participating in the peculative mania to an extent probly unprecedented in the annals of the stock exchange. On no other pound, said dispassionate observers, it logical to explain the free and onfident absorption of securities witnessed after yesterday's violent up-

monitions from those quarters gainst marginal operations. Much of oday's buying emanated from yesterlay's most active seiling sources and was materially assisted by urgent short

Railway Stronger.

Increased strength of railways, which held more consistently than at any recent period, on a broader demand, was a wholesome feature. Representative shares in that list were 1 to almost 3 points higher. United States Steel's rise of 2 1-8 to 80 1-2 on dealings aggregating over 10 per cent of the whole, denoted influential support for that issue.

Two new records stood out in the day's dealings. Bethlehem Steel, now the content of the spring crop would be decidedly larger than a month ago had a bearish influence today on the price of wheat are not the content of the spring crop would be decidedly larger than a month ago had a bearish influence today on the price of wheat.

### INCREASED DEMAND FOR DOMESTIC STOCKS

Montreal Speculators Cause Sharp Upward Move in Cement\_Smelters Also Strong.

There was an increased demand for domestic stocks on the Toronto Exchange yesterday, but except in two stocks the change in prices was not material. Montrealers continued the buying of Cement started on Wednesday and managed to raise the price over four points. The general manager of the company has made a statement that he knows of no special reason for the buying, but the mere rumor of war orders suffices for the son for the buying, but the mere rumor of war orders suffices for the speculation. Smelters was strong and recovered all its recent loss, the high price for the day being 124. Steels were quiet at steady prices. A little flurry in steamships was attributed like Cement to Montreal orders. Barcelona was higher also, but on the Standard Exchange Brazilian was down to 46.

War Issues Recover.

Recoveries of 5 to 10 points from the minimum of that session were registered by many of the washington report would not take into consideration the damage done to the spring crop this week, and that the estimate of the vield would therefore almost certainly be more flattering than the trade might otherwise expect. A renewal of vesterday's buying that the solution of the spring crop would be decidedly larger than a month ago had a bearish. Tariff Act.

The government report showed an improved condition and indicated higher yield for corn, with higher estimates for spring and winter wheat.

Some sensational gains were made by copper convertible issues, with gentral sensations and any account of the government report was mainly or responsible for the depression of wheat, the market was also affected by assertions that foreigners and exporters were reselling, at Winnipeg.

Hog prices at the highest point in more than a year made the provision market score gains. Selling by packers afterward caused a slight setback

Sharp Rally in New York Greatly Affected Business on Stock Exchange.

MONTREAL, Oct. 7.—Some streng features developed in the local stock market today, buyers finding encouragement in the resistance displayed to the New York break on Tuesday and Wednesday, and in the sharp rally scored in that market today. Dominion Bridge, which rose 6½ to 167½, or 3½ points above the previous record for the stock, was the notable feature in the forward movement. More unexpected than the upward movement of Bridge, however, were a renewal of the demand for Cement common, and on a much increased scale, and a sharp rise in Steamships scale, and a sharp rise in Steamships preferred, on a comparatively small scale. Both stocks touched new high records for the year, Cement going to 35 against 30¼ the previous day, and the 28 minimum of a few days back, while Steamships preferred, which on Wednesday rose to 60, sold up to 63. Cement closed within ¼ of its highest and Steamships preferred at the best. About 2400 shares of Cement changed hands. Car advanced 3 points to 110½, while Iron improved 1 to 48, but Scotia lagged, selling off from 37 to 86 and closing at the low. Steel of Canada was also unchanged at 34, and Bailey 444 1000 ada was also unchanged at 34, and Carriage Factories remained around

MONTREAL GRAIN MARKET.

MONTREAL, Oct. 3.— Business over the cable today in grain was quiet, there being little demand at the higher range of prices asked. There was some demand on spot for No. 1 northern Manitoba spring wheat and a sale of 40,000 bushels was made at \$1.09½ c.i.f. Montreal and 20,000 sample oats at \$5c c.i.f. for shipment within 15 days. The spot market for oats is firm. There was a good enquiry from foreign buyers for spring wheat flour at the old prices which were 2s. \$6d to 2s per sack below what millers were asking. Demand for millfeed is good. The butter market is steady with a fair amount of business doing. Business in cheese over the cable was quiet, but the tone of the market is firm.

Advances.

The local mining market took a favorable turn yesterday, the lead coming from New York, at which place Dome rallied to 23 from Wednesday's price of 21. The small amount of new buying found the market pretty bars of stocks and advances occurred in nearly all the stocks traded in. Silver was quoted at 49 3-4c an ounce, a new high price, and this was also accepted as favorable news. The market had no special feature, the trading being much more scattered than usual. In the Cobalts, Nipissing, Beaver, Timiskaming, Crown Reserve, all made gains. Of the gold stocks, outside Dome, there was improvement in Dome Extension, Teck Hughes and Vipond. The action of the market yesterday was accepted as clear evidence that any reasonable new demand will be immediately followed by advances.

LONDON STOCK EXCHANGE.

LONDON, Oct. 7.—Increasing money supplies and the better bank return made it difficult to maintain discount rates today. A nerican exchange was more active. During the morning there were sellers at 4.70%, but buyers later caused the rate to decline to 4.70%. The stock market is still suffering from Balkan politics, but the tone was a shade steadier, and there was more business in some directions today. The war losn, Japanese bonds and colonial stocks were frequently marked, gold mines improved and copper shares strengthened with the metal.

American securities changed hands freely. Canadian Pacific, United States Steel and Chesapeake and Ohio were the most active shares. The closing was firm.
