CITY IS BLAMED FOR STATION DELAY

H. C. Kelley, Vice-President of Grand Trunk Railway, Says Council, Instead of Allowing the Railways to Reach an Amicable Agreement, "Gets Impatient."

The city council is responsible for the delay in the construction of the new Union Station. This was the opinion expressed by H. C. Kelley, vice-president of the Grand Trunk Railway, who passed through Toronto to Montreal from Detroit last night in his private car "Ontario." Mr. Kelley was accompanied by U. P. Gillen, superintendent of the eastern division. He stated that if the city were not so impatient the work on the new union depot would begin without much further delay.

"We are willing to start work tomorrow," said Mr. Kelley. "The C. P. R. wants some change to the plans and, instead of allowing the two companies to reach some amicable agreement in this matter, the city council gets impatient and files another application before the Dominion Railway Board."

Mr. Kelley will not attend the meeting of the board today, as there is nothing of any special importance to the Grand Trunk coming up for consideration. This company's attitude with regard to the Union Station is no longer a thin gnat, he remarked.

Sunnyside Station. In reference to the new station and bridge at Sunnyside he said that the company was anxious to complete both without any further delay. The bridge construction is now held up for the want of steel, but he expected that there would be a resumption of building operations soon. He did not think that the Dominion Railway Board would interfere with the building of the station. The company got the approval of the city as to its location, but did not get the sanction of the board. However, the city seems perfectly satisfied.

Bells and Whistles. With regard to the city's application to the commission that a law be passed prohibiting the sounding of bells and whistles within the city limits, Mr. Kelley expressed no opposition to the proposal. It would only be necessary to sound a whistle or ring a bell in the case of imminent danger of accident. If there was a possibility of damaging property or endangering human life it would then be necessary for the sounding of whistles or ringing of bells.

Mr. Kelley said that his trip through Western Ontario was of no special importance. No plans were made for construction or reconstruction of additional facilities; it was only a trip of inspection.

R. S. GOURLAY PRESIDENT OF C. M. A.

Announcement of Toronto Man's Election With C. B. Gordon, Montreal, as Vice-President Made Last Night—R. D. Fairbairn Makes Slashing Attack on Railways

OTTAWA, Sept. 25.—(Can. Press.)—Vigorously condemning the use of any but safety matches for use in the homes, and claiming that to use matches that can be lighted anywhere too often places the lives of children in the home in great danger, Franklin H. Wentworth of Boston, president of the National Fire Protective Association, delivered a forceful address before the Canadian Manufacturers' Association delegates at a smoker held in the parliamentary restaurant tonight. He said that the association of which he was the head was doing a splendid work and was doing much to encourage fire prevention, giving many examples.

R. S. Gourlay Gets Honor. The election of officers will take place tomorrow morning, and it was announced tonight that R. S. Gourlay of Toronto would be the new president, while C. B. Gordon, president of the Dominion Textile Company, Montreal, will be the new vice-president.

In his address on fire prevention, Mr. Wentworth advocated the use of steel frames for windows in steel-framed buildings, instead of wooden frames, and advised limiting the height of buildings to be under the New York standard. Too little money, he said, is being spent by everyone on fire prevention and too much on fire-extinguishing methods.

Excessive Railway Rates. The report of the railroad and transportation committee dealt with every classification of freight, baggage and transportation. Most of the material in the report of the committee has been called to the attention of the railway commission, such as freight rates, size of baggage, etc.

R. D. Fairbairn of Toronto, head of the R. D. Fairbairn Company, charged the railroads with being over-zealous to boost the rates. "The rates to the west," he said, "are based on one way only. It is a well-known fact that it costs as much to send goods to, say, Saskatoon or any other place in the west, from the east, as it does to Australia. The railroads can carry freight at a good deal less rate than at present. The sole object of railroad companies seems to be to increase their rates all along the line."

More Important Than Tariff. "I tell you, gentlemen," declared Mr. Fairbairn, with vehemence, "transportation is a much more important subject to Canada just now than the tariff question. The tariff in many cases is not a factor at all. The Dominion Government should carry the Intercolonial Railway thru to the coast. We have had a little experience in municipal and government ownership, and it has met with a good deal of success."

Mr. Fairbairn's expressions were readily endorsed in many respects by other delegates. Some of the supreme advantages manufacturers especially can derive from a system of technical education were outlined in an address by Dr. James Robertson, chairman of the technical education commission.

EVEN KING COULD DO WRONG. CRUMLIN, Ireland, Sept. 25.—(Can. Press.)—Lord Templeown, founder of the Unionist clubs of Ireland, at an anti-home rule demonstration here tonight, declared that if the king signed the home rule measure tomorrow it would be an unconstitutional act.

Captain James Craig, M.P. for Down, advised the Ulstermen to continue drilling.

AUSTRALIA STIRRED BY REPORTS CANADA WILL GIVE 3 DREADNOUGHTS

Borden's Toronto Speech Gives Impetus to the Patriotism of Australians, Who Will Follow Example of Other Dominions—Genuine Dread of Japanese Interference in the Pacific Ocean.

LONDON, Sept. 25.—(C.A.P.)—A special despatch to The Daily Mail this morning states that Borden's speech at Toronto and reports that Canada intends to offer three super-Dreadnoughts as an emergency contingent to the imperial navy, have aroused much attention of Australia and Australians realizing they must no longer lean on Great Britain, but must stand on an equal footing and shoulder with the mother country and other dominions in the defence of the whole empire. There is a genuine dread of the growth of Japanese influence in the Pacific, and the little is said on the subject the feeling is strong that Australia should prove her readiness to play her part with New Zealand and the United States in policing the Pacific.

Australians are willing to bear taxation for these purposes. The smoldering embers of patriotism which led Australians to flock to the Boer war have again recently been fanned into a fierce flame.

Defence Council Impracticable. Premier Fisher, interviewed, said the opinion was undoubtedly consolidating on the question of national defence, for which common imperial scheme it was essential that Australia must be left to develop her own defence unit.

"I cannot see the advantages of the existence of an imperial defence council of dominion representatives, who would sooner or later get out of touch with the thought of the peoples represented and become only dead channels thru which the policy of governments would imperfectly come from. I believe a better plan would be to hold biennial personal consultations with the British military and naval authorities in the same manner as was done last year. That would keep life in a common scheme of imperial defence."

"New Zealand's interests are irrevocably bound up with Australia. I believe it is now recognized by the best thinkers that New Zealand will eventually join in one Australasian unit for defence. I think it marvelous that the cadet scheme for military training of all boys has been established with so little friction. The people now regard it as a national necessity and an individual responsibility which each must shoulder."

\$5000 IN PRIZES TO WORLD READER The Great Free-for-All Pictorial Contest is Announced in This Issue.

Of all the "golden opportunities" of rich and desirable prizes, entertainment, amusement and recreation ever offered by a daily newspaper, The Toronto World's great pictorial contest, with prizes aggregating more than \$5000 in value, particulars of which are published in this edition, eclipses them all.

In this interesting, "free-for-all" competition there is an equal chance for anyone to try to win a magnificent new 1912 Olympic model five-passenger Jackson touring car, fully equipped with top, lights, and shield, speedometer, self-starter and all latest attachments. A car that is breaking all records for speed, power, durability and economy in upkeep; easy riding, roomy and comfortable, and sells for exactly \$2250.

Really, it sounds like a fairy story, almost too good to be true, but it is true, every word of it, and someone of the great army of Daily and Sunday Toronto World readers who are energetic, enterprising and persistent is going to win it absolutely free.

In fact, this magnificent grand prize automobile is equal, and in many respects far superior in desirability and value, to an aggregate list of prizes usually offered by many of the largest U.S. papers.

But the \$2250 Jackson automobile is only one of the many other "golden rewards" in this great and entertaining contest.

The second grand prize is a \$750 Blundell player-piano, a beautiful and artistic rich-toned instrument in full case.

Canada's Nickel Key to World Peace.

OTTAWA, Sept. 25.—(Can. Press.)—"It has just been discovered that Canada possesses the key to the European naval problem," says a leading article in Conservation, the bulletin of the commission of conservation of the Dominion Government. "When Schneider in 1889 introduced the use of nickel into the manufacture of steel armor plate, he little realized that he was placing in Canada's hands a great means for maintaining the peace of the world."

Battleships without nickel steel armor would be utterly helpless before modern guns. If nickel were no longer obtainable, armor construction would go back a quarter of a century. "Canada today produces about 90 per cent. of the world's supply of nickel. Practically all of the remainder comes from New Caledonia, an island in the southwestern Pacific controlled by France."

"Consequently, if Canada were to prohibit the export of nickel the nickel steel industry of Europe would fall into decay and high-grade armor plate for battleships would be an impossibility."

TAX REFORMS STOLE MOTOR CAR LOWER LAND VALUES WRECKED IT ESCAPED

Christian Guardian Makes Editorial Comment on Local Land Values, and Prophecies That Reforms Will Destroy Tendency to Hold Unimproved Lands in Urban Areas

This weeks Christian Guardian makes the following comment on the remarkable increase in Toronto land values: "In 1907 Toronto's assessment stood at \$184,000,000; in 1912 it had risen to \$342,000,000, and the assessment for 1913, which has just been completed, shows a total of \$426,000,000. This is a startling increase. Hitherto the assessment has been climbing up by \$20,000,000 or thereabouts per annum. Last year, however, it took a jump of \$37,000,000, which was looked upon as somewhat revolutionary, but this year it has vaulted still higher, reaching about \$33,000,000. Of course, part of this is due to building activity, but the greater part is owing to the rapid increase in land values. In ward three alone, the increase in assessment of land is over \$25,000,000. Some of these whose assessment has been increased are uttering vigorous denunciations of the unfairness of this increase, but it is hard to see how the assessors could do otherwise. The truth is that land values, not only in Toronto, but in practically throughout Canada, have been increasing rapidly during the past few years, and the owner who, if he sold, would expect to sell at the enhanced price, must be prepared to pay taxes upon the selling price of his property, not upon what he paid for it years ago. If the tax-reformers have their way, as seems likely in the near future, then the tax upon land values will become still heavier and unimproved land will not prove quite as profitable a speculation as it is today, which, after all, might not be a bad thing for a community."

A NEW SYSTEM AT WOODBINE

Cashiers on Pari-Mutuels Must Submit Statements at Conclusion of Each Day.

As a result of the disappearance of Jack Spencer with funds belonging to the Ontario Jockey Club, the management have devised a way whereby it will now be impossible for any cashier with crooked intentions to make an escape. A new rule went into force yesterday that all cashiers on the pari-mutuel machines must submit statements showing the amount of money they have given out or taken in during the afternoon and tickets representing the same. They are locked in the office and not one leaves until a balance is struck by the auditors. This is to avoid any further losses by the club thru the disappearance of absconding cashiers.

GIVEN 30 DAYS. Daniel Moulton, for the theft of a case of liquor from the Inland Lakes Company Tuesday, was given a thirty days sentence when he appeared in police court yesterday.

The message was sent from Prince Rupert.

Messages of condolence were also received from Hon. R. W. Scott, Hon. Chas. Murphy, Hon. Louis Jette, Hon. James Loughhead, Hon. G. P. Graham and many prominent people from all over Canada.

SCOTTISH TROOPS ORDERED TO BELFAST

Thousand Volunteers Also Enrolled to Aid in Preservation of Peace at Saturday's Demonstration—Armed Force Displayed at Portadown Rally of Orangemen.

BELFAST, Ireland, Sept. 25.—(Can. Press.)—Regiments of Highland Light Infantry and Scottish Borderers will be drafted into Belfast tomorrow morning in anticipation of trouble on Ulster Day, September 28, when the covenant in defiance of home rule is to be signed by Ulsterites. The Royal Irish Rifles already stationed here are confined to barracks in readiness for emergencies.

More than a thousand members of "Young Citizen Volunteers of Ireland" were enrolled tonight. The new organization is to assist when called upon by the civil authorities in the maintenance of peace.

The demonstration at Portadown today was one of the most remarkable of the campaign owing to the display of armed force and the enormous number of Orangemen and Unionists who assembled to greet Sir Edward Carson and other Unionist leaders. Sir Edward declared that they were performing the obsequies of home rule.

Frederick E. Smith, M.P. for Liverpool, expressed the opinion that the battle was already won. He added: "The government, even if it has the wickedness, wholly lacks the nerve to order the British army to use coercion to Ulster."

The streets of Belfast are being gaily decorated for Saturday. There has been an enormous sale of Union Jacks, Rifles and Cannon.

At the Portadown demonstration termination not to submit to home rule was expressed by 20,000 Orangemen and Unionists, residents of the County of Antrim, Ulster.

Rifles were carried by some of the battalions into which the members of the Unionist clubs were formed when they took part in a great procession this afternoon.

Two large cannon were also dragged along on gun carriages, while an ambulance in charge of sisters moved with the procession and carried a large supply of splints and bandages.

DAY WAS IDEAL FOR HARVESTING

Considerable Grain Has Yet to Be Cut All Thru the West, and Threshing is Rushed.

WINNIPEG, Sept. 25.—(Can. Press.)—While Manitoba had a heavy frost last night and ice nearly a quarter of an inch thick appeared on ponds this morning, the day was reported an ideal one for harvesting. In some parts the grain threshed is yet too green to put thru the machines and secure a good grade, but considerable threshing was done. The report of the weather conditions issued by the provincial department of agriculture today shows good weather general thru-out Manitoba, the cloudy around Winnipeg, Brandon and Emerson.

In all the west there still is considerable grain to cut and the cool dry spell will aid in saving the bigger part of the crop, as well as threshing operations. The night temperatures in Saskatchewan are low and in the Moose Jaw district are down to 34, but the weather is clear and calm.

HATS BY HENRY HEATH.

Henry Heath of London, England, is a maker of men's hats than which there is none better.

On Fifth avenue, New York, you will find his branch which distributes the output in the United States. We might mention that the Heath hat in New York, a plain stiff felt derby, sells at six to eight dollars. The Dineen Company, 149 Yonge street, is sole Canadian agent. The stiff felt derby hats sell here at four dollars and four-fifths—exactly the same as bring the big figure in New York. Henry Heath is sole maker of His Majesty the King. The Dineen Company have all the latest Heath styles now on sale.

WILL CELEBRATE CENTENARY OF BROCK

Extensive and Patriotic Program is Being Prepared by U. E. Loyalists for Saturday, Sunday and Monday, Oct. 12, 13 and 14, With School Holidays and Rejoicing.

United Empire Loyalists are preparing an extensive and patriotic program for the celebration of the Sir Isaac Brock centenary, which takes place Oct. 14 at Queenston Heights. A number of resolutions were adopted at their meeting yesterday...

Provincial ministers of education will be appealed to for permission to celebrate the anniversary in a fitting manner at the public schools throughout the Dominion, which will appeal to the intellect and imagination of the coming generation...

The federal government will be asked to proclaim a national holiday on Monday, Oct. 14, and it was also suggested that as the City of Toronto is very likely to appropriate the Knox College property, it might be well to suggest to the civic authorities that this new park be named "Brock Park"...

After considerable discussion it was decided to hold the celebrations at the shrine of the hero of 1812, and the celebrations, which will be nation-wide in scope, will therefore be held on Saturday, October 12, which will be the first actual Brock gathering since the renovation of the monument in 1854. Col. Fotheringham's proposed tendency to spend large sums upon flowers, etc., which would only be seen by about 50 people...

During the discussion, it was learned that the York Pioneers had endeavored for some years past to have a flag pole erected at Lundy's Lane, but without success. J. L. Hughes, LL.D., promised that if the minister of militia will present the missing pole, he will donate the Union Jack.

Those in charge of the celebrations are: Press committee—Messrs. Castel Hopkins, Alexander Fraser and Smith, Miss Merrill acting as secretary. Arrangements committee—Messrs. J. S. Cartwright, J. L. Hughes, J. L. D., and E. Macdonald. Col. Ryerson is president of the committee.

Pearl Lake Picks Up 14-Foot Vein

PORCUPINE, Sept. 25.—The Pearl Lake Gold Mines, while prospecting at the 400 foot level yesterday, encountered the vein which is fully 14 feet in width and contains free gold in very rich deposits.

CHARTERED ACCOUNTANTS CONVENTION IS CONCLUDED

New Officers Were Elected and Winnipeg Chosen for the Next Meeting—Interesting Papers Read and Good Reports Presented.

Yesterday saw the finish of the chartered accountants' convention in Toronto, and the meeting was considered a great success. The attendance, including guests, numbered 140, and was drawn from each of the seven provinces in the Dominion which have provincial societies.

At noon a complimentary luncheon was tendered by the Ontario Institute to the out-of-town members and their ladies. On returning business in the afternoon, there was a long discussion on "The Canadian Chartered Accountant," the official organ of the Dominion Association, considering as to whether it should be converted from a quarterly to a monthly journal.

SILVER CAMP PILING UP BIG ORE RESERVES

What McKinley-Darragh Mine is Doing—Dividends Greater Than Capitalization—Reopened Properties Are Well Backed—40,000 Ounces of Silver in Three Tons of Ore.

COBALT, Sept. 25.—(Special to The World by Staff Correspondent).—Cobalt's production, backed by its dividends makes it attractive to investors. The peak may, or may not, be reached this current year, but in treating of the camp one must bear in mind that the productivity of most of its mines resulted from the early discovery of rich silver veins.

It is the fact that English capital is now being interested in the developed Cobalt properties that makes it reasonable to assume that a genuine "mining" boom is coming. An English syndicate will be formed to spend money looking for ore bodies, and when once interested is not easily discouraged.

The McKinley-Darragh was capitalized at \$2,500,000 with a similar number of shares, of which practically two and a quarter million have been issued. The basis of capitalization was no doubt the big vision of the early promoters. The mine was looked upon as worked out on more than one occasion, and its lot the Savage regarded as incubus rather than an asset.

Monthly Statements

There is no manner of doubt that the Burroughs makes the best statement machine on the market today. It meets all the requirements of successful statement handling.

Woman Ends Life In Niagara Rapids

NIAGARA FALLS, Ont., Sept. 25.—(Special).—A middle-aged woman, dressed in black, committed suicide at 2:30 o'clock this afternoon by throwing herself into the whirlpool rapids from the platform at the foot of the inclined railway on the Canadian side of the river, just below the lower bridge.

ANOTHER SCHOOL WANTED BY FERRIER

Boys Who Cannot Be Controlled by Chester Ferrier Should Be Placed in a Separate Institution, Says He at the Industrial School Board Meeting.

That there should be a separate institution for boys who could not be controlled at the Victoria Industrial School and for others who had had influence on the schoolboys, was the suggestion made at the regular meeting of the industrial school board yesterday.

Chester Ferrier, superintendent, stated that there were often cases where young men escaped and they did not trouble to bring them back because they could do nothing with them. The reports from the Alexandra School for Girls and the Victoria Industrial School for Boys were both satisfactory to the board.

English Capital

It is the fact that English capital is now being interested in the developed Cobalt properties that makes it reasonable to assume that a genuine "mining" boom is coming. An English syndicate will be formed to spend money looking for ore bodies, and when once interested is not easily discouraged.

Early Discoveries Best

It is a remarkable feature of Cobalt that develop silver camp two lots on which the first discoveries were made have become two of the greatest producing mines. They are situated at either end of Cobalt Lake, and forever famous by reason of the early discoveries and subsequent records.

Making Mill Larger

The general manager of the company, resident in Cobalt, is Mr. T. R. Finucane. The superintendent at McKinley is Chip McCusker, who has been with the company from its inception and knows every feature of the development of the mine.

The business-getting power of proper store lighting. Today is an age of window shopping. There are more sales won and lost by your windows than by your salesmen.

If one-fourth the people who look into your windows could be coaxed through your doors you would be swamped with business. Every person interested enough to stop may, under proper conditions, be led to buy.

Proper conditions include many things, but among which no factor is more powerful than the right kind of lighting. Proper lighting means economy. It means that you get the benefit of every kilowatt of current paid for.

The kind of lighting best suited to your needs may be determined by consultation with a Toronto Electric Light Company specialist, whose advice and assistance in the solution of your lighting problems will prove invaluable, cost you nothing, and may be had at once.

Winnipeg Grain Market. WINNIPEG, Sept. 25.—The slump in the premiums on cash wheat was the feature of today's market. For some time the premium for spot has been high, owing to the demand to fill lake and ocean tonnage which was contracted for by the heavy drop in premiums is due to the fact that any of these charters which were not switched to Duluth have been probably well filled. Options opened 1-3c to 1-4c higher, but weakened later in sympathy with American markets and closed 1-3c lower for all months. Oats were in fair demand, closing 1-2c to 5-8c lower. Flax was strong for both months, October closing 1c higher and November now weak. Receipts 489 cars inspected, 200 in sight for tomorrow.

PARKS AND PUBLIC HEALTH.

There are two items the city council should clean up at the earliest opportunity. They are the Humber boulevard scheme and the Glen Stewart Park proposal.

No one seems to know quite why the proposal has been held up for a year. If the same delay had occurred in Buffalo or New York or Detroit or Cincinnati, people would have jumped to conclusions, but, fortunately, in Toronto the aldermen can be accused of nothing worse than stupidity and shortsightedness.

PEACE APOSTLES IN FIERY ANGER

Discussion of Moroccan and Tripoli Situations Stirred Patriots to Indignant Protests.

RESIDENTS ON AVENUE ROAD CLAIM THAT ADVOCATES OF RESTRICTIONS ARE NOT INTERESTED.

Residents on the west side of Avenue road, between Cottingham street and Macpherson avenue, are highly indignant at the activity of the property hoarders on the adjoining streets for protesting against their agitation to have the building-restrictions removed on their portion of the street.

A heavy list of cases confront Harry L. Drayton, K.C., the newly-appointed chairman of the Dominion Railway Commission, who presides over its sittings for the first time in Toronto today.

Yet another case is the adjourned hearing of an application for the approval of the scheme to construct a subway at Bloor street, under the other application from the city requires and under the tracks of the C. P. R. a little to the west.

Hamilton will also be interested in the hearings because its civic council has attempted to secure an order preventing the Hamilton Electric Light and Cataract Power Company, Ltd., from erecting any more poles on the streets, and to remove all existing poles, wires, cables, etc.

Questions connected with Morocco and Tripoli, occupied the attention of the congress and the criticism by Dr. Gobat, president of the International Peace Bureau, of Germany's attitude in Morocco brought the German delegates to their feet in heated protest.

This caused another uproar and the factions were unable to reconcile their differences, so the subject was referred to a committee which is to try to produce a formula which will not offend either side.

To prove this contention it is pointed out that the petition was made up as follows: Twenty-eight residents of Cottingham street, twenty-eight residents of Macpherson avenue, nine residents of Rathnally avenue and twelve on Avenue road, five of which are on the east side.

Such appetition, it is claimed, should not be taken seriously, since the residents represented are not directly affected by the outcome of whatever action the city council may take.

Upward Mining Movement Begins--Over 800,000 Shares Sold

WHEAT PRICES BREAK RECEIPTS STILL HEAVY

Opening figures held steady for but short period, when liquidation brought down prices, especially in early deliveries. Weather remains unsettled.

CHICAGO, Sept. 25.—Heavy selling of wheat today by a leading firm started general liquidation and caused a weak market. The close, too steady, was a shade to the north, oats of 1/2 to 1/4, and provisions varying from 2 1/2 to 1/2 to the advance.

Depression of wheat prices did not continue until after an early show of strength, due to unfavorable weather in the northwest. Fear, however, that threshing would be delayed and that the quality of the grain would suffer, led to bring about more than a temporary buying demand. Cash inquiry, especially for export accounts, seemed to have almost disappeared. On the other hand, Kansas City reported increased offerings from the country and primary receipts were more than double those of a year ago.

Rally in Corn. Proets in Kansas, Nebraska and South Dakota led to firmness in corn, especially in the September delivery. A weak market was lifted by the market until it was interfered. Cash grades were in fair demand. Signs of a more liberal return of receipts from the country make the outlook for the September delivery in particular. Longs took profits freely.

Northwest Receipts. Receipts at northwest points were as follows: Week Year. Duluth 210 277 625. Minneapolis 210 277 625. Winnipeg 60 200 300.

Winnipeg Market. Wheat—Open High Low. Close. Oct. 87 1/2 87 3/4 87 1/2 87 3/4. Dec. 87 1/2 87 3/4 87 1/2 87 3/4.

ST. LAWRENCE MARKET. Receipts of farm produce were 500 bushels of grain and 20 loads of hay. Wheat—Three hundred bushels sold at 46c to 47c.

Wholesale Poultry. M. P. Corn reports receipts of live poultry, chickens, 10c to 15c per lb.; hens, 11c to 12c; ducks, 11c to 12c.

FARM PRODUCE WHOLESALE. Hay, No. 1, car lots, \$12.00 to \$12.50. Straw, car lots, per ton, \$8.00 to \$8.50.

Hides and Skins. Prices revised daily by E. J. Carter & Co., 85 East Front street. Dealers in skins, Fur, Tallow, etc.

C. ZEAGMAN & SONS. LIVE STOCK COMMISSION DEALERS. All classes of live stock bought and sold. Consignments solicited.

WORLD'S MARKETS NARROW AND STEADY

Broomhall's weekly review: Quietness and narrowness have characterized the markets of the world during the past week, with the tendency steady. This has been especially true of the United Kingdom and continental markets.

I predict that the market will keep firm because the enormous shipments will be filled up, but the question is whether the level be made when shipments become still larger. It is generally favorable, would point out that Mediterranean countries will need to absorb most of the Russian shipments, and that the United States and Canadian surplus.

RECEIPTS OF WHEAT, CORN, OATS, RYE AND HAY AT PRIMARY MARKETS THIS WEEK ENDED SEPT. 25. 1,200,000 bushels of wheat, 1,400,000 bushels of corn, 1,000,000 bushels of oats, 1,000,000 bushels of rye, and 1,000,000 tons of hay.

Foreign Markets. Wheat unchanged to 1/4 higher. Corn, 1/4 lower to 1/4 higher. Paris unchanged to 1/4 lower.

MINNEAPOLIS, Sept. 25.—Wheat—Sept. 25, 87 1/2; Oct. 1, 87 1/2; Nov. 1, 87 1/2; Dec. 1, 87 1/2.

LIVERPOOL, Sept. 25.—Cotton—Futures Oct. 25, 12 1/2; Nov. 25, 12 1/2; Dec. 25, 12 1/2.

MONTREAL, Sept. 25.—At the Canadian live stock market the receipts of the straight lots, 270 sheep and lambs, 175 hogs and 200 calves, while the offerings on the market this morning for sale were 120 sheep, 100 sheep and lambs, 250 hogs.

Chicago Live Stock. CHICAGO, Sept. 25.—Cattle—Receipts, 18,000 market, steady to 1/2 lower; beefs, 14,000; calves, 4,000.

TORONTO LIVE STOCK. The railways reported on Tuesday nine cars of live stock at the Cuddy Yards, consisting of 94 cattle, 28 hogs, 28 sheep and lambs and 10 calves.

CATTLE MARKET BROKER DECLARES THAT EVEN 20 CENTS PER CWT.—Hog Market Easier.

Receipts at the Union Stock Yards were 56 cars—1848 cattle, 181 hogs, 285 sheep and lambs, 188 calves.

The above were the numbers in each class of live stock that has been entered in books of the yards at 11 a.m. yesterday, but there were very few items in Thursday's receipts.

There were no cattle bought for export, but some of export weights sold at 46.00. There was a few sheep sold at 11.00, the highest price reported for this class of cattle.

Choice butchers, 42.50 to 44.50; good, 43.50 to 45.50; medium, 42.50 to 44.50; common, 41.50 to 43.50; culls, 40.50 to 42.50.

SWASTIKA FEATURE OF STRONG DEMAND

Mining Markets on the Up Grade—Beaver Rallies Over Night and Makes Good Gain—Hollinger in Some Demand—Pearl Lake Reacts.

The public seems to have come to the offer of the right moment to enter the market. It is now the events have slowly been shaping themselves to bring about the present condition of affairs and the yesterday's upward tendency is just the start of the long incline toward bringing stocks up to their intrinsic value.

Beaver opened strong at 25, an advance of a point and a half overnight and the stock had a strong market to 37. The shorts no doubt stayed themselves and with the buying that came in from people closely connected with the property, the property rallied easily. It looks like this stock will go still higher on this advance movement.

There were no sales of Cobalt Lake, but the bids were put up to 35 without any stock coming out. Considering the advance Cobalt Lake has had this week, it would indicate that the price will be higher without much trouble.

Timiskaming sold at 89-1/2, closing around 90. This stock has a steady market and it should go ahead at anytime that buying orders of considerable quantity make their appearance.

Pearl Lake continued active, selling at 15, but easing off in the afternoon. There was a strong buying demand all day, and if the directors are successful in arranging for next funds the stock will advance further.

Hollinger sold up to 13.85, a slight advance to Tuesday's figure. This stock seems to advance smoothly without difficulty on any buying pressure, making its appearance in the market, and if the interest in it continues to move up the price the shorts will have a lively scramble.

RECORD COPPER PRICE. The United Metals Selling Company this week made a small sale of this copper at 18 1/2 cents per pound. This is a high record for the copper market, and the fact that it is still the general asking price.

SILVER PROPERTIES FOR SALE. Silver Alliance Mines, Limited, would sell with working option, or would sell to building of property in Township, close to Lake Umbagog, 300 acres, or 5 Patented Claims available, while the balance, 278,000 acres, is under the lake. The value of the property is under the lake. The value of the property is under the lake.
