Dangerous, Says Premier To Amend Constitution For Benefit of P. E. I.

Desire of Island Province to Have
Restored the Representation in
Parliament Accorded at Con-
ference in Met With Cold
Legal Argument — Members
Urge that it Would Do no Harm
to Be Generous.

Ottawa, Jan. 28.—(Special.)—Section
of the British North America Act,
1871, provides that after the census
of 1871 and after each subsequent
decennial census, the representation
of the four provinces (Ontario, Quebec,
New Brunswick and Nova Scotia),
shall be readjusted by parliament sub-
ject to the following rules: (1) Quebec
shall have the fixed number of sixty-
six members; (2) Dividing the popu-
lation of Quebec by sixty-five, gives
the quotient by which the unit of rep-
resentation is to be arrived at; (3)
On any readjustment the number of
members for any one province is to
be reduced "unless the proportion
which the number of population of
the province bears to the number of
the aggregate population of Canada is
diminished by one-twentieth part or
upwards" since the last preceding
census.

Hence the animated debate upon
the representation to be accorded the
Maritime Provinces, which arose on a
resolution by Mr. Hughes (Liberal, P.
E. I.) proposing an amendment to the
B.N.A. Act providing that the Mar-
time Provinces of the Dominion, com-
prising the Provinces of New Brun-
swick, Nova Scotia and Prince Edward
Island, shall not at any time have
fewer representatives in the house of
commons than the number that was
assigned to each when it entered the
confederation.

Mr. Hughes put forward the familiar
argument. Prince Edward had de-
manded six members and refused to
enter confederation because that
number was not conceded. A few
years later the island province opened
communications with the Dominion.
They were weeks of negotiation, and
this point was yielded. Subsequently
the representation of Prince Edward
Island was reduced from six to four
members upon a basis which it pushed
to its logical conclusion might and
will in time reduce that province to
one member or perhaps to none at all.

Messrs. Hughes and Martin of
Prince Edward Island and Messrs.
Stewart and Daniels of St. John, N.B.,
contended that the B.N.A. Act as in-
terpreted by the courts was working
a great injustice.

The legal argument is this:
1. The original B.N.A. Act con-
templated Quebec as the unit of rep-
resentation. But what is Quebec?
Since confederation that province has
increased in area by 115,000
square miles.

2. The loss in representation of the
Maritime Provinces is due to the
proportionate loss of more than five
per cent, as compared to Canada, but
what is meant by Canada? The B.N.A.
Act apparently dealt with the Cana-
da of that day with the four original
provinces. They complained that the
courts have taken away the Cana-
da of to-day which extends from
ocean to ocean.

Mr. Aikensworth made a very cold-
blooded speech. He had been the at-
torney for Prince Edward Island and
as far as that province was concerned,
he rather favored her contention. But
it appeared that Nova Scotia and
New Brunswick wanted their rep-
resentation restored. Why were they
not content with the terms of the
constitution on its head? He sub-
mitted that it was better to follow
the terms of the constitution and re-
ly upon the decision of the supreme
court and of the privy council.

E. M. MacDonald (Liberal, Nova
Scotia) urged the claims of the Mar-
time Provinces. British Columbia and
Manitoba had come into confederation
with an irreducible minimum. Brit-
ish Columbia's census had less than
six members in the house, nor can
Manitoba have less than four.

A Moral Claim.
The New Brunswick members, in-
cluding Mr. Crockett (Conservative,
New Brunswick), did not so strongly
insist upon any legal right for Prince
Edward Island as they did upon the
moral claim and the historical rights
of the provinces by the sea. Passing
this resolution would restore to On-
tario the members which she had lost
after the census of 1901. Mr. Crockett
termed "Canada" as used in the B.N.A.
Act was not intended by the fathers
of confederation to bear the meaning
imported into it by the decision of
the privy council. It was evident that
the resolution would restore the priv-
ilege of imperial legislation passed
subsequent to the passage of the
original act of 1871.

Dr. Faubert (Conservative, New
Brunswick), pointed out the prosper-
ous and autonomous conditions of the
Maritime Provinces before confeder-
ation. They had scrutinized the terms
closely and endeavored to make a
union which should protect them.
One thing that they had insisted upon
was an irreducible representation. It
was never have its representation reduced. True,
they had not insisted upon the legal
right, but in view of the manifest
intention of the B.N.A. Act there
should be legislation to carry out
that intention.

Should Be Generous.
W. F. Maclean (South York) said
that legal argument, but should be
based on the strict letter of the law.
We are not on a question like this,
but on a humane standpoint, and,

HUNDREDS DIE IN COAL MINE

Explosion From Fire Damp in a
German Colliery is Attended
With a Terrible Loss
of Life.

ALMOST DUPLICATED IN FRANCE

Over 800 Miners Escape, While
3 Are Killed—Heartrending
Scenes Witnessed at the
Pit Entrances.

Saarbrücken, Jan. 28.—A fire-damp
explosion occurred this morning in the
Bilstock shaft of the Reden Mine at
Saint Johann-on-Saar, opposite here.
This afternoon the bodies of 77 min-
ers had been found, 50 men danger-
ously injured had been rescued, of whom
25 will die, and more than a hundred
miners were missing. The number of
dead is estimated at 200.

There were about 600 men working
in the shaft when the explosion occur-
ed, but half of them were not in the
galleries which were wrecked.
The rescue work was working desper-
ately to reach the entrapped men,
when the party was driven out by an
outbreak of fire. Forty men probably
are still in the pit.

The scenes at the pit-mouth, where
the families of the miners gathered,
were most distressing.
The disaster occurred 2000 feet under
ground and is one and one-quarter miles
from the shaft. It is the greatest
mine catastrophe ever known in the
Saar region.

At a late hour to-night it was still
uncertain how many workmen still
were in the mine, the report being that
the entrance to the gallery
underground is blocked with dead
bodies.

Heart-rending scenes are witnessed
among the thousands of persons,
mostly members of the families of the
miners, who are gathered about the
mouth of the shaft. Most of the bodies
brought to the surface are mangled be-
yond recognition.

The mine inspectors this evening
ordered the rescuers to return to their
homes, but to hold themselves in readi-
ness for further orders.
Emperor William has ordered that a
full report of the disaster be sent to
him.

Experts calculate that the rescue
work will take one week.

THREE DEAD IN THIS ONE.
Fire Damp in French Mine—300
Escaped.

Lez, France, Jan. 28.—An explosion
occurred in a coal mine in the
Coursieres district, due to an explo-
sion of fire-damp in one of the pits.
It is believed that the only victims
were the chief engineer and his two
assistants.

A panic followed the explosion and
most of the population of the town
rushed to the mouths of the pits, pre-
venting the work of the rescue until
the gendarmes restored order.

Of the 312 miners who descended into
the pits 312 had been rescued at 11
p.m. and the rest were ascertained to
be safe. A declaration to this effect
has been posted. The report, however,
continues to show excitement and
when this poster was read there were
cries of "They said the same thing at
Courieres."

Official Report of Investigators In-
to Standard Oil Business
Condemns the Methods
Employed.

Washington, Jan. 28.—The Interstate
commerce commission to-day sent to
congress a report of the investigations
made by it under the Tillman-Gillespie
resolution, approved March 7 last, con-
cerning the relation of common car-
riers by rail to the production and dis-
tribution of oil.

The report covers the distribution of
petroleum and its products east of the
Mississippi River, and, incidentally,
the Kansas and Texas fields. The re-
port points out generally the methods by
which the Standard Oil Co. has built
up and perpetuated its monopoly and
the relations of transportation
agencies to that monopoly.

It is asserted that "the ruin of its
competitors has been a distinct part
of the policy of the Standard Oil Co.
In the past, systematically, and per-
sistently pursued." Considerable of
the grounds covered has been given
into fully in the report on oil and its
distribution, made public by the bu-
reau of corporations.

"No instance," the report says, "is
found where any railway company has
been interested in oil lands or in pe-
troleum production, and only one in-
stance is shown where officials of a
railway company were interested in
the production and sale of oil. This
refers to certain officials of the
Baltimore and Ohio Southwestern Rail-
road having owned stock of the Ar-
gand Refining Co., which was on their
reconstruction afterwards sold to
the Standard Oil Co., and the lubri-
cating contract which the road trans-
ferred to the Galena Oil Co., a Stan-
dard Oil Co. company."

The Standard Oil Co. largely mon-
opolized the oil business.

COSTLY ELECTIONEERING.

Dr. Borden Says It Took \$50,000 to
Elect Emmerson.

Moncton, N. B., Jan. 28.—(Special.)—
Lecturing yesterday before the Men's
League, Rev. Dr. Borden, principal of
Mount Allison Ladies' College, made
the assertion that he believed for last
election in this province it took \$100,000
to elect a member of parliament, and
that \$200,000 had been spent in
Westmoreland County, where the
minister of railways was elected over
H. A. Powell, K.C.

The subject of Dr. Borden's lecture
was "Dangers of Government by De-
mocracy."

THREE FIREMEN BENEATH RUINS

Fatal Conflagration at Buffalo—
Building Collapses, Carrying
20 Men With It—Others
Rescued.

Buffalo, Jan. 28.—Buried under tons
of ice-coated debris of the eight-story
Seneca Building, at 101-109 Seneca-
street, destroyed by fire to-day, three
firemen are to-night probably dead, or
so badly injured that they will die be-
fore all can reach them.

About twenty firemen, including the
three missing men, were on the roof of
the Heywood Building, the first struc-
ture to the east of the Seneca-street
building, fighting against a spread of
the flames when two thick brick walls
of the Seneca building collapsed. Tons
of debris from the crumbling walls
crashed down upon the roof of the
lower Heywood building, going thru the
roof and carrying floor after floor into
the basement. Not one of the twenty
men escaped without some injury, and
five of them were unable to fight their
way out and to give aid to their less
fortunate comrades.

Gangs of men were at once put to
work clearing away the wreckage and
rescuing the imprisoned firemen. By
noon all but three of their number had
been released and hurried to hospitals.
All of them were painfully injured, and
were covered with a thick coating of
ice. None of the injured will die.

As night fell electric light wires were
strung into the ruins, and to-night by
the light of arc lamps and reflectors
the work of rescue was kept up without
a moment's pause.

The heaviest losses are: The Jewett
estate, owners of the Seneca building
and the Heywood Building, \$125,000;
Durt & Siedel, candy manufacturers,
\$75,000; Walsh Bros. & Wakefield, furni-
ture, \$75,000; Stroetman Shoe Company,
\$10,000; Standard Mirror Company, \$10,
000; The Phelps Company, candy manu-
facturers, \$20,000; Blackhall Manu-
facturing Company, printers, \$20,000;
Hart Manufacturing Company, shirt-
waists, \$15,000; C. B. Russell Company,
printers, \$5,000; C. A. Heine Com-
pany, bookbinders, \$10,000.

The remainder of the loss fell upon
small firms in the Seneca and adjoining
buildings, bringing the total up to \$500,
000.

JAIL OR WEDDING HIS ALTERNATIVE

Belleville Farmer Weds Brother's
Widow Rather Than Go
Down for Working
Her Ruin.

Port Huron, Mich., Jan. 28.—(Special.)—
Given the alternative of marrying the
widow of his brother, or of
serving ninety days in the Detroit
House of Correction, Fred Rushnell, a
farmer residing near Belleville, Ont.,
chose the former course this afternoon.

Sheriff Davidson was informed of the
situation by the woman, who wished to
know if a man could be forced to marry
a girl whom he had ruined. She told
the sheriff a pitiful story of a wrecked
life, in which she implicated her bro-
ther-in-law. Altho only 21 years old,
the woman is the mother of a three-
year-old child. Shortly after the death
of her husband, she began going with
her brother-in-law. The girl was afraid
to return to her parents.

When Rushnell, who had been enticed
to this city by the woman, was con-
fronted with the situation, he broke
down and wept like a child. When
asked whether he would marry the girl
or go to prison, he replied: "Yes, I'll
marry her."

The couple were taken over to the
parsonage of Rev. Abner Bowling,
where the ceremony was performed.
They returned to Belleville this after-
noon.

THAW'S DEFENCE TO BE INSANITY

But of a Temporary Character—
No Appeal to Jury on a
Plea of "Unwritten
Law."

WHITE NOT TO BE ATTACKED

Purely Legal Tactics Contemplated
—Protest Against State Using
Mrs. Evelyn Thaw as
a Witness.

New York, Jan. 28.—The jury which
is to try Harry K. Thaw for the kill-
ing of Stanford White is rapidly near-
ing completion. When court adjourned
this evening there were nine men
in the jury box, one having been
added during the morning session and a
second must before the hour of ad-
journment, 5 o'clock. It is thought
that the taking of testimony may be
begun Wednesday afternoon.

Fifty talemen were examined to-
day. So rapidly were the remaining
members of the special panel disposed
of at the morning session, that at the
noon recess orders were hurried from
the court that an additional 100 men
be summoned to report before Justice
Fitzgerald to-morrow morning. This
will make a total of 200 men thus far
summoned. Of the original panel there
remains to-night but thirty-five. It
was not considered this number would
be sufficient for the selection of the
three jurors necessary to make up the
trial complement of the twelve.

Of the fifty men examined to-day,
forty-three were excused upon doctors'
certificates; upon the ground that they
had formed opinions too strong to be
shaken by the forthcoming testimony;
because they knew Stanford White,
or some important witness in the case,
were for various other reasons. Five
talemen were challenged peremptorily,
the state leading in the exercise
of this privilege with three chal-
lenges. The defence exercised the
right in two instances.

Thaw's counsel issued the following
authoritative statement last night:
"Harry K. Thaw will be freed on the
strict application of the laws on the
statute books of the State of New
York. There will be no intervention of
any 'unwritten or higher law,' as has
been asserted. We do not need to go
beyond the statute books to secure the
jury that he should be acquitted.

Temporary Insanity.
"It will be shown to the jury that at
the time Stanford White was shot and
killed in Madison-square Roof Garden,
Thaw was laboring under a spell of
temporary insanity, did not appreciate
the difference between right and
wrong, and is therefore irresponsible

WINTER SPORTING GOSSIP.

McFadden Saved His Money Regarding Championship Stories.

Billy Roche, the referee, tells a story about George (Elbow) McFadden, the ex-lightweight champion, which shows McFadden's integrity. Roche referred the fight between McFadden and McFadden for the championship. McFadden won easily, and the crowd gave him a grand ovation. Roche said that McFadden had received \$500 as his share of the purse.

"Of course," says Roche, "I expected to see McFadden swelling around somewhere on the Great White Way the next day, and as I was anxious to consult with him about his next fight, which I was trying to arrange, I looked for him in all of the places usually frequented by the sporting element. I could not find a trace of McFadden anywhere."

"At last I determined to visit the address that Mac had given me. I found it to be a big apartment house. I started in a lift almost ran into a much-bearded man in overalls trundling a wheelbarrow of ashes thru the entry. 'What was that?' I asked."

"Don't talk with me here," said he before I had a chance to open my mouth. 'I will go up the street with you. I'm janitor here, and if the boss thought I was in the fighting game he'd fire me. Mac is still a janitor, but he owns the apartment house that he is taking care of.'

There is the usual mid-winter talk going on among the sports about reviving the rules in some way or other, says the Detroit News. The players want the scoring rules changed. They always find the time of year when the players get after the official averages out, and argue that, because their average is lower than they had anticipated, the scoring rules are unfair. They want a new set of scoring rules.

Some players say there is gross favoritism shown against the Detroit third baseman, who they claim is the best player in the league. They say that when he played in St. Louis his average was .300, but that as soon as he went on the road, where outsiders handled him, his average slumped; that those not interested in him did not give him a hit every time he got to first.

This trick is only from some players. Those men of the game who are in so to win seldom worry about averages.

Kid Elberfeld pays no attention to them, and Bill Conklin, the Detroit third baseman, is a better player than ball players would play a better game as happy as a clown on an official standing.

"When a man stops to think of his average," says Bill, "he's sure going to do some speedy one he thinks he can't get. I would rather never lead the league in my position, because I'd keep thinking that the fans would say I was letting myself on by rather than risk having an error in fielding put up against me."

Along this line they tell a story of Pete Browning, when he was playing with St. Paul. Pete was seen around a club one night after a hard game as happy as a clown at high tide.

"How was the game, to-day?" someone asked him.

"Great," said the slinger. "I got four." "What was the score?" persisted the enquirer.

"I dunno what the score was, but I got four hits—besides."

Shating News This Week.

Owing to the unusual activity among the speed skaters, caused, no doubt, by the big A. A. U. championships held in the city on Saturday and Sunday, the skating committee of the Amateur Athletic Union is considering the possibility of a handicap event in several distances. It is planned to so arrange the handicaps that many will be encouraged to start who would otherwise be frightened away by the crack cranks.

MARLBORUS EASY FOR MIDLAND
THE I.A.A. SURPRISE PARKDALECanadian Soo Trim Pittsburg—
Many Games Played—George
McKay With St. Georges.Two fast junior games were played at
Midland last night, St. Georges
beating Marlboros 5-3, while I. A. A.
surprised Parkdale by a 3-0 victory.By Parkdale losing last night, St. Georges
and Parkdale are now tied for the dis-
tinction, with one postponed game to play.
This will be played Friday, and a great
contest should result.St. Georges won on their merits in the first
game, after Marlboros came up a stubborn
fight in the last period, with the score 3-0
in their favor at half-time.The second game was the best of the
night. The Islanders fairly carried the
boys off their feet in their eagerness to
win, and at half-time the score stood 4-1.I. A. A. came strong in the last period,
not only scoring 3-0, much to the discom-
fort of the Parkdale supporters, who were
not so easily won over.The count array, as the unexpected
happened, for I. A. A. boys have been
beating good hockey, but lacked practice.
They certainly put up one of the best
games last night, and the fact that
St. Georges lost, at a time when the
game was at a crisis, was a great
disappointment.The game was a great one, and the

RAILWAYS AFTER
MUSKOKA RAILC.P.R. and G.T.R.—Making Active
Preparations for Bitter Com-
petition for Holding Travel
This Summer.The Canadian Pacific and the Grand
Trunk railways are preparing to fight
each other to the bitter finish for
supremacy in Muskoka. The Canadian
Northern Ontario Railway will
figure in this struggle, but it is con-
sidered by railroad men that they will
have to content themselves with cut-
ting their rates, for their line cannot
put on the main service of the other
two roads. A compromise between the
Grand Trunk and the C. P. R. is out
of the question; there has been too
much bad blood of late for this to be
considered.This war between the roads may
mean that intending tourists will be
whipped to Muskoka in about one and
a half hours, and that they will get
a return ticket for something like 50
cents.The consideration of each road has done
in preparation for this fight is as-
tounding. In the first place, the C.
P. R. have spent money on the whole
portion of their Suburban line be-
tween Bolton and Bala, and on any
other place of importance in the ter-
ritory. They have spent thousands of
dollars alone in getting a three-tenths
grade, which is practically a level
grade, only varying two feet to the
mile. This is the only piece of rail-
road in the world that has such a low
grade, and it is one of the very finest
pieces of construction work ever built.The Grand Trunk were the first to
realize that the C. P. R. were not
making any bluff, and they straight-
away set about reducing the grade on
their line to the Highlands of On-
tario. They have spent about two
hundred thousand dollars in doing so,
and the work is still going on.With the approach of summer, the
fight will begin. The C. P. R. have
their line completed to Bala, and they
will not operate it until June. In
the meantime, they are adding im-
provements to the roadbed, filling in
the ballast and otherwise strengthen-
ing the line. They are also adding
trains to their line at the rate of 70
miles an hour. They will take two
trains a day from Bolton to Bala, and
a half. At the present time the
Canadian Northern are taking over
seven hours to get to Bala, and the
Grand Trunk is taking over two hours
to get to Bala. It is even longer.When the C. P. R. announced three
years ago that they were going to
build a line from Bolton to Bala, the

Northwestern, and the Grand Trunk
route it is even longer.The Grand Trunk are building

COBALT---Sales of Stocks Not Owned is Not a Success in Abitibi---COBALT

MINING SHARES EASIER
WITH OTHER MARKETS

Abitibi Strong Against the General
Tendency—Other Stocks Offered
in Small Quantities.

World Office,
Monday Evening, Jan. 28.

The local mining market to-day was more strongly affected by the general stock market than any time hitherto. Transactions were few and far between, and where a sale was forced, prices followed as a natural sequence. The only stock which developed buoyancy was Abitibi, which opened up in a sale on an unusual demand, and held the share until the close of the market. A shortage of stock was clearly apparent in this case and many of the purchases represented the covering of sales made at a lower level. There were very little doing in the other issues and sales met only a poor response. The only influence in the market was the state of other securities and the buying was naturally timid under the stress of the financial strain. The market was closed on the whole weak, but without any significant offerings to further depress prices or any ordinary buying movement.

Values North of Cobalt.

Information just received from Cobalt confirms the optimism of many mining engineers that the mineral area is very large, and extends thru many townships north of the present camp. This section is very rich, and the system of exploration adopted by the Cobalt Union Mining Company in new districts should enhance the value of that company's shares many times within the next few months.

Taking in Real Money.

President Newhouse and others interested in the Nipissing Mines, left Toronto yesterday for Cobalt. The new president, in an interview, gave no new light on the varieties of the stock, which yesterday was again in the decline class. Locally it is now regarded that no mystery surrounds the price of the Nipissing shares, which even at today's price (\$13.50, \$13.00, \$12.50) for a claim which cost the original purchasers \$250,000. "I think the promoters of the property are and have been taking real money for the shares, and that this is the only reason for the decline in the stock from \$35 a share. This is the position out in a rational way and as if you think I am not right," said a broker yesterday. "This talk about Guggenheims is all so much by-play for market purposes."

Fall in Beaver Prices.

The plunge in Beaver came as a sudden halt yesterday. The stock sold on Friday as high as 70c, but the best bid yesterday was 40c. Traders who thought the stock had discovered a necessity for the stock ran into the market on Friday and took all the shares offered. They were very depressed when they found that they were the only bidders for the shares. Several thousand shares were bought at the high prices and to get even with the market it is expected that some big loss will be sustained. Those who put out the story of a change in the ownership of the Beaver claim are thought to be desirous of selling some of the stock at high prices.

Selling to Buy "Wild Cats."

"It is a strange thing," remarked a Toronto mining broker yesterday, "that clients are selling their good stock to get into what I believe are the wild-cats. You can't put these things against doing this. They believe they are getting in on the ground floor of many of the newer propositions. They will get in and will stay on the ground floor. I am sure they will. Fancy selling such shares as Foster, Tremblay, Silver Queen and Green-Meehan to buy 'wild-cats.' But this is what they are doing and you can't persuade them otherwise. They will see their folly perhaps when it is too late."

Not So.

J. H. Jewell of J. H. Jewell & Company, a director of the Beaver Mining Company, said that the rumor to the effect that a controlling interest in the company would be sold was untrue and that there had been no change in the officers of the company.

"New Eve" an Investor.

Windsor, Jan. 28.—The head of the Flying Roller Order, whose headquarters are here, and who declares himself the "New Eve" of the new business of local, is among the additions to the Cobalt contingent.

It is announced that he has not only invested a considerable sum of his own money in the mining district, but that he has also arranged for the investment of funds by New York and European associates in the Cobalt-Nipigon Syndicate.

Buying for Investment.

James A. McIlwain, the mining broker of Victoria, B.C., in an interview with the "World" yesterday, said: "I had a constant demand from all parts of the United States and Canada for the shares of the Nipigon Syndicate. Active fluctuations in the cheaper stocks are being looked for in the next 30 days, owing to tight money. New discoveries are still being made. The market is still buying large blocks of stocks for much higher prices later on. There is a fair supply of stocks in the market, but a good steady demand. Some of the older and better established stocks are being bought and there is no doubt that they will go on in the future. However, for the new organizations, higher prices and encouragement for discoveries and reports with regard to the Cobalt and the district in general, concluded Mr. McIlwain.

Requires Assistance for Smelter.

A letter has been received by Premier Whitney from a gentleman representing mining financial interests, asking what the government would be prepared to do to assist the construction of a smelter in the Cobalt district. The gentleman stated that the government had written the gentleman to this effect: "The government is not prepared to assist the construction of a smelter in the Cobalt district, but it is a matter which is being considered by the government."

Iron at Port Arthur.

Port Arthur, Jan. 28.—Another rich find of iron ore has been made at the K. Lake group, which were recently purchased by a United States syndicate. The charge of the exploration work was purchased by the syndicate under the territory of iron ore and the syndicate has been the most extensive and highest grade iron ore in that section. Samples of the red ore will assay to 60 per cent iron.

Why Take Business Home?

Are Your Nerves Constantly Strained With Grogginess Worries?

The cause of this tense condition is in your stomach. Your food does not digest properly. Nine-tenths of all dyspepsia and indigestion is of nervous type and the only certain cure is to right the cause. Tonics, brain foods, bitumens, etc., are temporary stimulants. Your stomach and small intestines have become deranged. Only perfect selections of foods, improved mastication and irregularity both as to time and amount of eating.

CAN'T THROW OFF HIS CARES.

The mucous coating of the stomach and intestines has lost its power of secreting the gastric juice (an important factor in digestion), the muscles of the middle cavity are correspondingly lifeless in grinding up the food, and as a result the food lies in your stomach fermenting, poisoning the blood, irritating the nerves and breaking down the system.

Something must be done to arouse the digestive organs to action. Stuart's Dyspepsia Tablets alone have been found capable of digesting the food for the unhealthy stomach. They contain diastase, pepsin and other digestive agents which the stomach itself possesses when in health. These agents give the stomach a chance to rest and regain its normal powers.

Stuart's Dyspepsia Tablets are not a patent medicine, the formula for their preparation having been made public and known to 40,000 physicians in the United States and Great Britain. By government tests, Stuart's Dyspepsia Tablets have been shown not only to contain no harmful ingredients, but to possess digestive power equal to that of the manufacturers at 50 cents per box.

If preferred a free trial package will be sent you immediately upon receipt of name and address. F. A. Stuart Co., 73 Stuart Bldg., Marshall, Mich.

MRS. MILLER ON TRIAL

BRIDANT AS A WITNESS

Verdict To-Day—London Bribery Cases Go Over—The McGill Case.

Mrs. Lillian Miller was placed on trial yesterday before Justice Clute and a jury in the same case. She is charged with furnishing the drugs and instruments which caused the death of Mrs. Agnes Bridant. The evidence for the prosecution is all in with the exception of that of Dr. Rose, who will be called this morning. The verdict will be reached to-night.

A similar charge against Edward Bridant, the husband of the deceased, was withdrawn, and he was used as a witness for the crown. Mr. Godfrey is defending Mrs. Miller, and Mr. Lynch-Staunton is prosecuting.

Mrs. Bridant took ill on the morning of the trial, and her husband occupied a seat beside her.

The London election trials have been transferred to the May session. E. F. B. Johnston, K.C., for the defendants, and Mr. Lynch-Staunton, K.C., for the crown, are expected to appear in the trial.

The action of J. W. Hackett against the Toronto Railway Co. was adjourned to the next court owing to the death of the plaintiff.

NORTH WIND SAVES TOWN.

Caron, Sask., Jan. 28.—A disastrous fire broke out in Stewart and Brown's general store last night. This building and contents, The Enterprise Printing Co., and the building of the Caron Drug and Stationery Co., Limited, and Bradford Street, were burned to the ground. The loss exceeds \$20,000.

A north wind saved the town.

FOR A FAMOUS BREEDER.

(Canadian Associated Press Cable.) London, Jan. 28.—William Duthie, the well-known Scottish Short-horn breeder, who recently visited Canada, is to be presented with a portrait of himself. Canadians are to be asked to subscribe.

Estates of the Dead.

Mrs. Frances Bell of Toronto left an estate of \$778, which she divided among her nephews, nieces and friends. A caveat against the will has been filed by Mrs. Claire A. Perry, who alleges that she was a co-heiress of the estate because of an agreement.

The estate of Charles Richardson, a roofer, who died on Jan. 2, is valued at \$574. He did not leave a will. The estate will be divided among his two sons and two grand-daughters.

James Traill, accountant, left his wife his total estate of \$2715.

MRS. MILLER ON TRIAL

BRIDANT AS A WITNESS

Verdict To-Day—London Bribery Cases Go Over—The McGill Case.

Mrs. Lillian Miller was placed on trial yesterday before Justice Clute and a jury in the same case. She is charged with furnishing the drugs and instruments which caused the death of Mrs. Agnes Bridant. The evidence for the prosecution is all in with the exception of that of Dr. Rose, who will be called this morning. The verdict will be reached to-night.

A similar charge against Edward Bridant, the husband of the deceased, was withdrawn, and he was used as a witness for the crown. Mr. Godfrey is defending Mrs. Miller, and Mr. Lynch-Staunton is prosecuting.

Mrs. Bridant took ill on the morning of the trial, and her husband occupied a seat beside her.

The London election trials have been transferred to the May session. E. F. B. Johnston, K.C., for the defendants, and Mr. Lynch-Staunton, K.C., for the crown, are expected to appear in the trial.

The action of J. W. Hackett against the Toronto Railway Co. was adjourned to the next court owing to the death of the plaintiff.

NORTH WIND SAVES TOWN.

Caron, Sask., Jan. 28.—A disastrous fire broke out in Stewart and Brown's general store last night. This building and contents, The Enterprise Printing Co., and the building of the Caron Drug and Stationery Co., Limited, and Bradford Street, were burned to the ground. The loss exceeds \$20,000.

A north wind saved the town.

FOR A FAMOUS BREEDER.

(Canadian Associated Press Cable.) London, Jan. 28.—William Duthie, the well-known Scottish Short-horn breeder, who recently visited Canada, is to be presented with a portrait of himself. Canadians are to be asked to subscribe.

Estates of the Dead.

Mrs. Frances Bell of Toronto left an estate of \$778, which she divided among her nephews, nieces and friends. A caveat against the will has been filed by Mrs. Claire A. Perry, who alleges that she was a co-heiress of the estate because of an agreement.

The estate of Charles Richardson, a roofer, who died on Jan. 2, is valued at \$574. He did not leave a will. The estate will be divided among his two sons and two grand-daughters.

James Traill, accountant, left his wife his total estate of \$2715.
