

Why and How

Can Oak Hall offer superior clothing at such low prices?

- 1st—Because we are the largest manufacturers of clothing in Canada.
2nd—Because we were the first to make ready-to-wear clothing equal to custom-made in fit, style and materials at half tailor's prices.
3rd—Because our establishment is not located in an expensive district where taxes are high and rents fabulous. Yet there is no more complete building in Toronto devoted to the selling of ready-to-wear clothing for men and boys than Oak Hall.

For Friday.

To emphasize our leadership we offer the following bargains:

- Young Men's Genuine Irish Blue Serge Suits, double breasted style, heavy weight Cheviot finish, Italian lined, latest cut, sizes 33, 34 and 35. Regular price 12.00. Bargain price 8.75.
Men's Single and Double Breasted All-wool Tweed Suits, neat dark patterns, winter weights, 36 to 44 sizes. Regular 10.00 and 12.00 suits. Special price for Friday 7.50.
Men's Trousers, in dark tweeds, serges and worsteds, correctly cut and made, all sizes. Regular 2.00 and 2.50. Special for 1.60.
Boys' Two-piece Suits, in sizes 22 to 28, made from reliable fabrics in the newest shapes and styles, well made. Regular 2.50 and 3.00 value. Special 1.75.

A cold winter has no terrors for people dressed in Oak Hall Clothing.

REARRANGING THE PENALTY

Fire and Water Committee Attend to the Overdue Water Rates.

Ten Per Cent. Added Up to End of the First Month—Twenty-five for the Third—Mr. John Milne Has His Leg Broken—Small Amount Struck Off by the Revision Court—Other News From the Ambitious City.

Hamilton, Nov. 9.—(Special.)—The members of the Fire and Water Committee this evening considered the advisability of re-arranging the penalty fixed for overdue water rates. The present plan is to charge 25 per cent. additional, when rates are not paid within fourteen days from the date on which they are due. The suggestion made to the committee was that 10 per cent. be added for unpaid rates after fourteen days had expired and up to the first day of the following month, 20 per cent. for the second month and 25 for the third. The proposal met with the committee's approval, and it will be passed on to the City Council.

Mr. Milne's Accident. Mr. John Milne of Burrow, Stewart & Milne fell on Humber-street this evening, and broke one of his legs. He was taken to his home in the ambulance. A peculiar thing in connection with the case is that Mr. Milne, a few hours before, helped to carry Mr. Hobson, who broke his leg, from the ambulance.

The Formal Opening. The Cataract Power Company has issued invitations to the formal opening of its power house at Decew Falls on Saturday next and to an inspection of the transforming station on Victoria-avenue. The party will leave the Grand Trunk station at 12.30 and go to the Cataracts, taking carriages there for Decew Falls. After the opening the party will return, arriving at the transforming station, where speeches will be delivered.

Minor Matters. The funeral of the late Mr. Samuel Woodley took place from his late residence, Jackson-street, this afternoon. The pall-bearers were: Messrs. W. J. Copp, Charles Becker, H. Budge, J. W. Forster, J. W. Bradford and F. Appleburgh. Rev. Mr. Gilmore conducted the religious exercises.

The congregation of Immanuel Church will hear candidates for their vacant pulpits during the next month or two. Rev. George Extence of Halton will preach next Sunday, and Rev. Mr. Sheppard of Toronto on the following.

The Finance Committee will meet to-morrow night. At the Salvation Army Citadel this evening the leg of Adjutant John Jordan, nation of the Rescue Home, said good by, having been appointed to the Toronto Home. Mrs. Brighter Read of Toronto conducted the service.

Robert Hobson, secretary of the Hamilton Blast Furnace Company, broke one of his legs this afternoon. He jumped from a moving car and his foot caught in the ledge.

The Court of Revision gave attention to the appeal of the Hamilton City. The Ward 7 appeal in that case was struck off, the smallest amount in any ward.

There was a fire in Stephenson's plumbing establishment this evening about 8 o'clock. Little damage was done.

Glass Cutters' Wages Up. Syracuse, N.Y., Nov. 9.—An agreement was reached in this conference in this city to-day between the Wage Committee representing the Window Glass Cutters' League of North America and window manufacturers for the northern district. A wage scale was adopted giving the laborers an advance of between 3 and 4 per cent. The advance is due to beneficial effects of the Dingley tariff.

UNCLE SAM'S CELEBRATED JOCKEY

Writes About Himself

His First Race on Lovelace at New Orleans—Peculiarities of Horses—Accidents No More Serious Than a Broken Collar Bone.

The London Weekly Dispatch printed the following under the heading "How I Ride" by Uncle Sam.

In America we have no system of apprenticeship to a particular line of stable work like you have here.

My style is the result of long study; there is nothing very extraordinary in it; it only appears so, because of the way in which it has been done.

I have a great deal of study to do in studying the movements of a horse and his rider, and the outcome of that has been the adoption of my peculiarities.

Of accidents I have had my share, as most jockeys have, but fortunately none of them have been serious.

My share of accidents is not a very large one, and I do not depend upon it for my livelihood.

As I have remarked before, it is the result of long study, and it is not a matter of chance.

My share of accidents is not a very large one, and I do not depend upon it for my livelihood.

Everything is topsy-turvy at the Government House—No Reception on His Arrival at the Capital—L. N. Champagne Seriously Ill—Water Power Privileges—Needs of Mariners—Ottawa News.

Ottawa, Nov. 9.—(Special).—Everything was topsy-turvy at the Government House this morning, confusion reigning supreme as a result of the arrival of the household staff of Lord Minto early this morning.

The main hall at Government House was filled with boxes, barrels and boxes this morning, and work of unpacking and putting things in order could be heard from adjoining apartments.

It has been decided that there will be no reception to the new Governor-General on his arrival here.

The program as Quebec has also been slightly altered. Instead of going direct from the ship to the Parliament Buildings Lord Minto will go to the Citadel, where he will meet His Excellency the Governor-General and the members of the cabinet.

Mr. W. Gorman, M.L.A., Welland; James Battle, Thorold; W. Thompson, St. Catharines; George Dawson, St. Catharines; and Joseph Battle, Thorold, composed a deputation from Welland County, stopping at the Russell Hotel.

They are in town on business with the Minister of Railways and Canals, seeking for increased water power privileges on the Welland Canal.

Mr. A. Carro, who was appointed a few days ago Preventive Officer in the Customs Department in the place of ex-Ald. McGuire, has resigned.

Mr. James A. Smart, Deputy Minister of the Interior, who is in town inspecting the work of the Immigration branch, finds that Galician settlers, who have been in the country less than a year, have already picked up sufficient knowledge of the English language to converse in it.

The report of the commission appointed to enquire into the grievances of the pilots on the St. Lawrence between Montreal and Quebec, and also to investigate other general grievances, is being presented by Lieut.-Col. Gourdeau, chairman of the commission, to the Minister of Marine and Fisheries.

The number of pilots is three times greater than required. It is not considered advisable that the pilots should be incorporated. They should be represented on the Board of Marine and Fisheries without a vote.

They also recommend that temporary landmarks should be replaced by permanent ones that additional buoys be provided, that the channel be kept free of navigation practicable at night, that the channel should be swept and inspected regularly, and also widened and deepened to 30 feet with an increased depth of two feet in the bends.

The Ottawa News Notes. The Railway Committee of the Privy Council met this morning when the application of the Ottawa Electric Street Railway for permission to cross the Canada Atlantic tracks on the east side of the city, containing their line to the Exhibition Grounds, was refused.

The Canadian Steamship Company, which yesterday contracted with the Department of Trade and Commerce for a vessel to call at Charlottetown in December, and take produce to England, will send a steamship having cold storage accommodation for 400 tons. This line, it is understood, has tendered for the two years' contract for the Atlantic mail service, which is still undecided.

The figures of the Inland Revenue Department for October will be issued in a day or two.

AN "ANGLO-AMERICAN CO." Enters the Field With Offer to Supply Toronto Electric Power.

Capitalized Stock \$5,000,000 and After Paying 10 Per Cent. Dividend Would Supply at Cost—Charge Probably One Cent Per H. P. Per Hour—Long Session of Board of Control, in Which Market Improvement, Civic Plant Tenders, Crematory and Extra Grants Are the Features.

A new syndicate for electric energy production has entered the field in the race to supply Toronto. The following letter to the Mayor yesterday explains it:

Chairman Board of the Anglo-American Electric and Supply Company, which company is represented by G. P. Magan, Dr. R.A. Fyne, M.L.A., G. S. Ransom, manufacturer, and the writer associated with English capitalists, I beg leave to submit the following offer for the supply of electric energy to the city of Toronto. It is a gold-copper in the market of the Mining Broker, 12

will to water business streets and at the speed of street cars running down Yonge street. The alderman claimed that he had gone into some of the stores and had found the floors quite "arthy" with dust. "Perhaps," said His Worship, "it was the 'Gritty' part of it that was the trouble." But Ald. Score was serious and urged some consideration for this important factor in the community, and in the elections. He said that merchants who had flushed their own fringes had not found it to injure the pavements. The Mayor thought the water had been going on since the merchants had appeared, and the Mayor engaged himself to see that it is done right away.

From \$100 to \$60, Now to \$25. Lientol Mason, on behalf of the officers of the Royal Grenadiers, appeared to ask the board to still further reduce the reduction in the price of the Pavilion for the Parks and Exhibitions Committee cut it down to \$25; but Col. Mason wanted the price to be \$25 a night, the price paid by gatherings not held for pecuniary aims. Chairman Score of the Parks Committee supported the request. Burns thought it was too high and the Mayor would bring it down to the actual cost of heating and lighting, or \$25 a night. Ald. Hubbard, on the other hand, saw the bylaw in the way, but Ald. Score pointed out that this could be overridden by a rebate. The price will be reduced to \$25 a night, but the bylaw is to be brought up to the already overruled Legislative and Reception Committee appropriation. This was another triumph for Ald. Leslie, the opponent of the mill rate.

Will Have Double Action Hinges. Architect Lennox writing, urging that the entrance doors to the new City Hall should be fitted with double-acting spring hinges, rather than with ordinary hinged doors, since the doors would never be kept closed in winter or summer. The board generally concurred in this. The double-acting hinges will be adopted. Mr. Lennox to report.

Enthusiasm Running Off With Brains. Next came representatives of the Nursing-at-Home Dispensary, who claimed a licence on the ground that they treated people which the hospitals did not touch. The board agreed to inform and the dispensary. They asked for a small grant to help heat the dispensary and provide a few desks. It was ascertained that the dispensary had never had a grant before, so the board shelved itself by a suggestion of Ald. Burns, behind a report from Dr. M. H. Cameron, City Health Officer. Ald. Hubbard meanwhile deplored the multiplicity of overlapping charities and called attention to the fact that the dispensary, some with a stone's throw of the Nursing-at-Home, had free dispensaries. Ald. Leslie regretted that ex-Ald. Hubbard died, because he had prevented the charity people's enthusiasm running away with their brains. The report will be had as above.

Government Delays Them. Here is the text of a telegram also received on the occasion yesterday being that of the opening of tenders for the supply of power: New York, Nov. 9, 1898. Hon. John Shaw, Mayor Toronto: Until the Ontario Government or High Court of Justice shall have sustained or extended the terms of our agreement with the commissioners of the Queen Victoria Niagara Falls Park, the Canadian Niagara Power Company cannot submit tenders asked for to-day. Letter follows. Canadian Niagara Power Company, Wm. B. Rankin, secretary.

while the Commissioner will consult the valuator. No Walk for Hanlan. In the reports Ald. Hanlan's proposition for an \$85,000 grant, extending from Queen's Wharf channel 600 feet south, for the benefit of a dozen Island families, was not popular since the ferry scheme involves a good deal of trouble and Street Commissioner Jones will report the item, meantime the clause, on motion of Ald. Hubbard, is referred back. \$5000 More for Sidewalks and Scavenging.

Street Commissioner Jones' request for \$2000 appropriation for sidewalks repairs, in addition to the \$35,000 granted, brought forth the comment from Ald. Lynd, a member of the Claims Commission, that the claims for damages for injuries because of bad sidewalks were assuming alarming proportions. The \$2000 was granted, the funds to be reported—not raised—at next year's estimates. Of the \$5000 asked for scavenging, in addition to the \$54,400 granted, the board granted \$3000—the Mayor's figure.

Friday Must Also Decide. The board could not agree as to whether block E should be sold or cut into by a slip, and they will try to agree to-morrow. One Furnace With Two Men. The crematory issue being reheard, Ald. Hubbard characterized the motion of Ald. McMurich, passed at the Property Committee, as concocted to help the mover out of a hole. "I don't understand it," added His Worship. Ald. Hubbard, to test the Council, moved the striking out of the Property Committee's report, to allow the East End Crematory, where considered necessary by the City Commissioner and the substitution of a resolution to have the collecting and disposal of the Pavilion for the crematories be placed under the Street Commissioner's Department, subject to the approval of the Medical Health Officer, who shall place a man in charge to see that nothing detrimental to the public health shall be done. Burns thought it was nothing along the line of Dr. Sheard's and also "The World's Idea."

Mr. Coatsworth has run this thing too extravagantly," said Ald. Hubbard, "and I don't mind telling him so." Ald. Leslie pointed out that it was run cheaper than the West End Crematory. The Mayor favored the proposal, but the running of one fire. "This is a clumsy report," added His Worship. "It means nothing." Ald. Hubbard agreed, but Ald. Leslie didn't, so the Property Committee's report is allowed to have one furnace and one man running under Mr. Coatsworth's supervision. Ald. Hubbard dissenting.

Tenders for Civic Plant. Tenders for the supply of an electric plant for street lighting purposes were also opened. They were uncomprehensive, and incomprehensible, only certain parts, such as engine equipment, boilers, compressors, dynamos and arc lamps being submitted, each of seven tenders taking a separate choice. The Engineer will report.

The Directors Elected. The election for members of the Board of Trustees for Establishing and Conducting a Citizens' Sanatorium and Hospital for Consumptives, near Toronto, took place yesterday afternoon in the Council Chamber, City Hall, nominations for which were made at the meeting of the Citizens' Committee on Wednesday of last week, and the scrutineers, His Worship the Mayor, Ald. Davies and Dr. Playter, general secretary, having been then appointed. The total number of ballots cast were 84. The following are the names of the 10 in each class who received the largest number of votes in order, according to the number of votes received, and whom His Worship the Mayor declared elected: Medical practitioners, Drs. J. E. Barrick, J. H. Cameron, A. H. Wright, William Orlight, M. P. Cayne, E. E. Beyer, J. A. Temple and A. A. Macdonald, Non-medical, Messrs. W. R. Brock, George Goodwin, J. Ross Robertson, Henry G. LIVERPOOL NOT BEAT STEADY.

Chicago Futures Were Half a Cent Higher.

Wheat market responded to yesterday's advance in the former.

More concerning Russia's Evaluative Grain Crop—Very Contradictory Advice—Local Market Prices.

Notes and Gossip.

Wednesday Evening, Nov. 9.

Liverpool wheat futures opened strong this morning, and, though easier later, maintained yesterday's good gains.

Paris wheat declined 5 to 15 cents to-day, with flour off to the same extent.

Chicago partially responded to yesterday's advance in Liverpool, holding strong, with a good cash demand.

Peas closed 1/4 lower in Liverpool.

Primary wheat receipts for two days, 3,243,000 bushels against 1,288,000 bushels for one day last year.

Receipts of wheat at Minneapolis and Duluth for two days, 2,664 cars, against 11,110 the same time last year.

December wheat puts at Chicago, 65c; cash, 66c. May corn puts, 33c; cash, 34c.

During the political excitement, No. 2 red winter wheat advanced 3/4 per quarter in Liverpool between Oct. 18 and Oct. 25.

This is equal to 9c per bushel. The advance in Chicago and New York was not quite so large as the grain harvest generally.

Argentina—The Corn Trade News reports two months of 14 to 25. Frost has done partial harm, and the weather continues too cold.

France—The Paris correspondent of The Liverpool Corn Trade News, Oct. 22, reports that, owing to favorable weather and interior markets, millers will not buy more than they actually require.

The Corn Trade News reports Canadian peas quoted in London at 60 per cent, 40c, on Oct. 23. On same day, No. 1 Northern spring wheat, 18c, at market.

Cas receipts of grain at Chicago to-day: Wheat 437, corn 868, oats 363.

Exports at New York to-day: Flour, 6,885 barrels and 19,940 sacks; wheat, 707, 452 bushels.

Bradstreet's World's Visible.

Bradstreet's returns showed last week's increase in the world's visible stock supply to have totalled 1,000,000 bushels.

Against an increase for the same week of 1897 of 1,210,000 bushels.

The world's corn visible last week decreased 1,000,000 bushels, and the oats visible 600,000 bushels.

About Russia's Crop.

In yesterday's issue was published a Brookholl cable giving the estimate of the Russian Minister of Agriculture of this year's grain crop.

With a comparison with those of 1897, attention was directed to the fact that the figures for the crop of 1898 are all in excess of those given by Brookholl, who reported last March the final estimate of the Central Statistical Committee of the grain crops of all the 71 Governments of the country.

The discrepancy between the then and present estimates for 1897 crop is very important, the following table is given in illustration of this:

Table with 2 columns: Crop, 1897, and Present Estimate. Rows include Wheat, Rye, Oats, Barley, Potatoes, and other crops.

It is difficult to reconcile the above estimate for the crop of 1898 with the frequent reports of complete failure of crops and great distress in so many districts.

The Odessa correspondent of The Liverpool Corn Trade News writes in our issue of Oct. 23, as well as that of Nikoloff, the harvest of wheat and barley was over the average; in fact, about double the yield obtained in 1897.

But growers are not all eager to sell their grain, as they hope to obtain better prices later.

Actual arrivals are relatively small, but the movement may last throughout the season.

Effects of War on Wheat Prices.

The Corn Trade News furnishes several illustrations of the effect of war on price of wheat.

In 1852-53, prior to the war with Russia, the annual average price of English wheat was 44s 7d; in 1853-54, 42s 11d; in 1854-55, 40s 1d; in 1855-56, 37s 11d; in 1856-57, 36s 1d; in 1857-58, 47s 8d.

In the Franco-Russian war, which broke out in July in 1870, prices rose about 3s per quarter in the first fortnight, from about 45s 6d to 48s 6d.

In the war between Russia and Turkey, which broke out late in April, 1877, the advance took place mostly before the war, and was about 10s per quarter in the early weeks of April, followed by a further jump of 21s.

From a level of 65s per quarter on May 1, prices fell to 55s by the middle of June, and 50s by the end of October, steadily declining, until following October, to the low point of 44s 7d.

The news points out how ephemeral are the rises occurring from wars in which Britain is not engaged.
