In Brilliant Fighting French Gain Trenches

Also Capture Fortified Quarry — Heavy Losses Inflicted on the Enemy — British Airmen in Successful Raids on German Territory — Extend Gains North of Pozieres

London, Aug. 12.—In brilliant fighting near Maurepas, the French gained additional German trenches last night and also captured a fortified quarry north of the Hem Wood. Heavy losses were inflicted on the enemy, and 180 prisoners were taken.

A large number of military establishments, such as Zeppelin and aeroplane hangars, railroad stations, munition depots and factories have been bombarded by British airmen in the last few days. Altogether sixty-eight machines were engaged in the raids, and of these only five failed to return. Severe damage was inflicted on each occasion.

During yesterday's fighting the British extended their gains at Bazentin-le-Petit and north of Pozieres, and considerable losses were caused the enemy by numerous raids on the enemy trenches.

No Change in Policy

London, Aug. 12.—"Personally I cannot see any way by which we can force our undoubted right to prevent our subjects from providing resources for trade to our enemies," said Lord Robert Cecil, minister of trade, in discussing with American newspaper correspondents the latest developments in Great Britain's economic warfare. "There is not likely to be any change in the policy of the allies as a result of neutral protests."

Capture Danish Craft
Copenhagen, via London, Aug. 12.—The Danish steamer *Alex Eriksen*, bound for Copenhagen with a load of coal for the Danish navy, has been seized off Eslövare by a German warship and taken to Swinemünde, local newspapers report.

Russia and Sweden

Stockholm, via London, Aug. 12.—The commanders of the Russian submarines which torpedoed the German steamer *Ida* in Swedish waters and attempted to torpedo the German steamer *Ida* in the same region, have been removed from their posts, according to an announcement made by the Russian government in reply to Sweden's protests. The Russian note says the commanders of the submarines were mistaken in thinking the boats were outside Swedish territorial waters. It expresses regret over the incidents and assures Sweden that Russia is anxious to avoid any act which might violate the neutrality of Sweden.

In Syria

London, Aug. 12.—A correspondent of the Times recently returned from Syria writes as follows concerning conditions there: "The state of the people of Syria is past all belief. It is estimated that from 60,000 to 80,000 have died from starvation in Northern Syria. The Turks are proceeding with great thoroughness in removing large sections of the population and in some villages there are no Arabic speaking Christians. The epidemic of typhus is gaining everywhere and a great many Turkish army doctors have succumbed to the disease. Many civilian prisoners, mostly British, also have contracted typhus. One great difficulty in a systematic light in removing the epidemic is the great scarcity of drugs and antiseptics. The Germans have taken very careful precautions but the disease is gaining."

Man In The Street

And everybody is going to Sister Sue's picnic. . . .

"Some Fight"
The young man looked up from the newspaper in which he had been reading the story of one of the recent battles. "Some fight!" he remarked to the clerk who was sitting opposite.

"Yes, and some don't," replied the soldier, with a glance at the others at the war front.

They were Wilder
They thought we were not going to tell this one, but it is too good to pass, even if it is a week old now.

The true well-known citizens who figure in the story were having a pleasant afternoon at Millidgeville and, while rowing about there, they saw a wild duck floating placidly on the water and they headed for it. It flattered away as they approached, and they pursued. As they drew near, they saw a royal commission might have difficulty in getting in.

And here is the star chamber, safe from prying eyes, for there are no windows in the walls through which the public could get a glimpse of the inner workings of a meeting of the government. Through the plate glass windows the passer-by may see what is going on inside, but only if he does not want to see too far in.

To get to the real inside is another matter. That can be approached only by a narrow passage, which doubtless will be as carefully guarded as other government affairs. At least, that is what the public glass windows are put up for.

And here is the star chamber, safe from prying eyes, for there are no windows in the walls through which the public could get a glimpse of the inner workings of a meeting of the government. Through the plate glass windows the passer-by may see what is going on inside, but only if he does not want to see too far in.

To get to the real inside is another matter. That can be approached only by a narrow passage, which doubtless will be as carefully guarded as other government affairs. At least, that is what the public glass windows are put up for.

FORESTRY TRAINING FOR THE BOY SCOUTS

Ottawa, Aug. 12.—Boy Scouts in Canada are to be given additional training in forestry. To meet Canadian conditions the Dominion council of the Boy Scouts Association has authorized a forestry badge in lieu of the woodland badge. The conditions under which this badge may be secured by the boys are very comprehensive and will do much to interest Canadian boys in the Canadian forests and the wild life therein. Before receiving this badge the scout must pass a number of tests. For instance he must identify the principal native tree species in his own locality, and explain their principle distinguishing characteristics. He must identify five kinds of shrubs; he must describe the principal uses of ten species of Canadian woods. He must explain the aim of forestry and compare it with agriculture and unregulated lumbering. Another important requirement is that the scout must describe the general features of a lumbering or pulpwood operation, how the cutting is done in the woods, the method of transportation to the mill and of manufacture there; he also has to describe how the forest lands are protected and administered in his own province.

RECKLESS DRIVING

Residents of Douglas avenue are complaining about reckless driving of chauffeurs and automobile owners. They say it is not safe to cross the street and they fear that unless something is done to prohibit speeding someone will be killed.

IS THE GERMAN FLEET PUT AGAIN?

Copenhagen via London, Aug. 12.—A large German fleet of dreadnoughts, cruisers, destroyers and submarines came out of the Kiel Canal Thursday, according to local newspapers. The fleet was sighted off Tranderup, steaming with great speed through the narrow waters of the Little Belt, which is between the Baltic Sea and the Cattegat.

1,000-MILE RIDE ON DESERT FATAL

Amazing Story of Tragic Deaths of Territorial Soldiers
RASH JOURNEY TO INDIA
Hopeless Hospital on Train and No Protection From The Heat

London, Aug. 12.—An amazing story of the tragic death of British Territorial soldiers landed in India was revealed in this week's issue of Truth. It appears that the men were despatched on a journey of more than 1,000 miles through the desert without proper medical attendance and with nothing to protect them against the terrible heat.

The story which, in Truth, is entitled "A Troop Train Tragedy," is as follows:—

"The military administration has not covered these men with proper clothing, but none of its blunders have been more inexcusable and more shocking than the recent tragic journey of a troop train from Karachi to Peshawar. Not all the facts have yet been divulged, even in India, indeed, so far as I have seen, the newspapers there have only published short and colorless reports emanating from official sources.

"But the numerous letters that I have received, many of them from army officers, testify to the horror the affair has detailed among all acquainted with the facts, and but for the preoccupation with the war the story would assuredly raise a storm of indignation here at home.

"Through Baking Desert
"In the month of June the railway journey from Karachi to Peshawar, a distance of over 1,000 miles, is one of the hottest in the world. For some hundreds of miles the line goes through the baking Sand desert, where the shade temperature is anything up to 120. Mail trains perform the journey in twenty-four hours. Troop trains take from two and a half to five days for the same journey because—the health and comfort of soldiers being of the least importance—they are drawn by the slowest train and have to give place to an other passenger train.

"(Continued on page 51 third column)

ALIEN ENEMIES PASSIVE IN CANADA

This Country Has Enjoyed Remarkable Immunity From Outrages—Many Not Intended

Ottawa, Aug. 12.—That Canada has enjoyed a remarkable immunity from alien attack by alien enemies within her borders since the war began was the statement made by Hon. C. H. Doherty today, in reviewing the activities of the justice department during that period.

Contrasting strongly with the experience of the United States, which, though a neutral country, has had bomb outrages and explosions one after the other proved to be the work of Germans and Austrians, some of whom were her citizens, Canada has had only a few isolated attempts at such acts of violence, and in no case has any serious damage been done. There was, of course, the attempt of Werner Vanhorn, the ex-German army officer from the United States to blow up the International Bridge at the Vancouver, Maine, end. Extrajudicial proceedings were instituted by the justice department, but they will have to await the termination of the proceedings taken by the United States authorities.

The Aust-fan in Canada has proved to be a thoroughly inoffensive citizen," said the minister of justice. "We have released large numbers of them from internment camps. As for the Germans we have not had much trouble with them, though their sympathies are, as a rule, more strongly with their homeland than with the Austrians. Of course we have taken preventive measures."

MISSIONARY MONEY IS SEIZED BY TURKS

British Government Will Hereafter Hold up All American Remittances

London, Aug. 12.—The British government has decided to hold up any further remittances from Turkish emigrants in America to American missionaries in Turkey, to whom remittances have been sent hitherto for the purpose of distribution. Until recently these remittances were allowed to be sent through the mails without hindrance, but a letter came into the hands of the French government from a Lebanon agent explaining that the money was deposited in the Imperial Ottoman Bank in the name of the payee by order of the Turkish government.

The bank thereafter received orders from the Turkish authorities to pay out after a lapse of one year. Thus, money received in August, 1915, would not be distributed until August, 1916. Even then payment will be made only in paper currency at the rate of slightly less than a pound sterling, instead of at the ordinary exchange of 186 piastres.

WATER EXTENSIONS

Commissioner Wignmore expects to have the extension of the ten inch water main from Market square to Ward street completed today. He placed a large crew of men on the job so as to finish it this week. At present eleven trenches are engaged in the work. The water pipes from a C. P. R. siding off Main street to Lake Latimer. Each length weighs three tons, and as the distance is more than seven miles, the teams make only one trip each day.

Rumor of Disaster To Bremen Gain Strength

London, Aug. 12.—A rumor that Bremen had been sunk by a British submarine last night of the 11th inst. has been denied by the British Admiralty. The rumor was first reported in a German newspaper, and was repeated in several other papers. The Admiralty stated that it had no knowledge of any such disaster, and that the rumor was entirely unfounded.

WONDERFUL FLIGHT OF FRENCH AIRMAN

Crossed German Black Forest and Bombed Town on Neckar—Flew a Mile a Minute

Paris, Aug. 12.—Flying in the darkness at the rate of nearly a mile a minute, a French aviator crossed the Vosges Mountains and the Black Forest of Germany and bombed the German town of Rotheln on the Neckar River, it was officially announced today.

The aviator, who is named as being a member of the 14th Aviation Squadron, was seen to cross the Vosges Mountains and the Black Forest, and to drop bombs on the town of Rotheln. He was seen to fly over the town at a height of about 1,000 feet, and to drop bombs on the town at intervals of about 100 yards. The town was bombed for about 10 minutes, and the aviator was seen to fly away in the direction of the Vosges Mountains.

CENTRAL SPAN IN PLACE NEXT MONTH

Quebec Bridge Near Completion; Middle Span is 640 Feet, the Longest in the World

Quebec, Aug. 12.—The central span of the Quebec bridge will be placed in position some time in September. This span weighs 5,000 tons, and is 640 feet long—the longest in the world. It will be supported by two massive concrete piers, and will be the longest single span in the world.

ONTARIO BEHIND IN MUNITIONS SUPPLIES

Toronto, Aug. 12.—That deliveries of munitions from Ontario are running far behind the quantities promised and that very important munitions board is seriously apprehensive if existing conditions cannot be improved is the substance of a communication from J. W. Flavell, chairman of the board, received by the Ontario provincial organization of resources committee. The committee issued a statement today to the effect that the shortage is due to an inadequate supply of skilled labor.

MAY BE ANOTHER VICTIM OF BISHOP'S BANQUET

Mackinac Island, Mich., Aug. 12.—Dr. John B. Murphy of Chicago, one of the world's most renowned surgeons died today suddenly at a hotel while on a summer outing. An attack of heart disease was the immediate cause of death. Dr. Murphy had been in poor health for several months, and some had ascribed his condition to the poisoned soup, partaken of at the banquet given by Archbishop Mullen at the University Club, Chicago, last winter. His wife was with him at the time of death. The famous surgeon recently was knighted by Pope Benedict for his researches in surgery. He was only 58 years of age.

WEATHER REPORT

Unsettled
Unsettled with local showers.

132nd Battalion Spends First Night in Trenches

Training at Valcartier Gives Realistic Reproduction of Conditions at the Front; Presentation of Colors; Duke of Connaught to Inspect Camp

(Correspondent of Times).
Valcartier Camp, Aug. 10.—The 132nd Battalion, C. E. F., have spent their first night in the trenches under conditions the same as those which prevail at the front, except that there were no shells or bullets to disturb their rest. The trenches were issued yesterday morning that the battalion would occupy the trenches, which are situated on the outskirts of the camp area and which cover a square mile of ground and consist of fire trenches, observation trenches, supply trenches and communication trenches, with machine gun emplacements, wire entanglements and all the accessories that accompany a well constructed line of defence.

At eight o'clock last night the battalion moved off quietly from their parade ground and proceeded through the camp and on to the woods which lie in rear of the trenches, no lights, smoking or talking was allowed.

As the battalion arrived at the woods where the entrance to the communication trench line they formed single file and crept quietly through the woods and down the three communication trenches.

"A" Company, under Major McKay, and "B" Company, under Major Sterling, occupied the firing line trenches. "C" Company, under Major Howe, occupied the support trenches and "D" Company, under Captain McEwen, formed a reserve and bivouaced in the woods.

The machine guns were placed in emplacements, constructed like dug-outs in the parapet in the front line trench. The battalion headquarters and the regimental dressing station were situated in the woods.

The signallers laid telephone lines from the dug-out of each company to the battalion headquarters and a constant stream of messages passed over the wires all night.

On arriving at the trenches, sentries were posted in pairs, the remainder of the troops were allowed to rest in the dug-outs.

Arrangements had been made by the staff for flares, mines, etc., and shortly after the line was occupied, a huge star-shell shot into the air and burst above the trench and illuminated the whole area.

One sentry evidently thought he had landed in France and as the star-shell burst overhead, he let out a yell and flung himself flat in the trench, and it took considerable coaxing to get him to resume his position looking over the parapet.

Considerable excitement was caused in the trenches about midnight when a small party of German scouts in the command of Major Stethem, of the brigade staff, succeeded in crossing "No Man's Land" and managed to pass under the wire entanglements and reach the 132nd Battalion parapet before the sentries were aware of the fact.

At ten a.m. the two companies in support relieved those in the front line. The battalion remained in the trenches till 6.30 this morning, when they returned to their lines and were allowed to rest till noon.

Colors Presented
This afternoon the 132nd Battalion were presented with their regimental and King's colors, by the Daughters of the Empire of Canada, N. B.

At 4.30 p.m. the 1st (New Brunswick) Brigade paraded on the plateau. The 132nd battalion formed a three sided square while the remainder of the brigade faced the open side of the square. The colors were placed on the regimental drums in the centre of the square and were consecrated by Archbishop Forth of Chatham, after which they were handed over to Lieut-Colonel G. W. Meserve by Mrs. McNaughton of Chatham.

The battalion then formed column and marched past the saluting post where the salute was taken by Colonel Rogers, the G. O. of the camp. The battalion then advanced in review order and presented arms after which they returned to their lines with their colors flying proudly in the centre of the column.

General Camp Notes
Colonel H. H. McLean is on a few days leave and is visiting Ottawa and Montreal. Major Stethem is in command of the brigade during his absence.

Lieutenant Correll, orderly officer to Colonel McLean, is on leave for a few days.

Duke to Inspect
Word has been received that His Royal Highness, the Duke of Connaught, will inspect the troops at Valcartier Camp on Wednesday next. The review will be held at nine a.m., and it is expected that it will be the largest that has been held this year.

Private S. Brown, of the 14th Battalion, shot himself in the foot last evening while cleaning his rifle, and it is feared that he will lose one or more toes as a result of the accident. It is not known how the accident happened as no one else was in the tent at the time but it is thought that in some way another cartridge had been left in the rifle and when he closed the bolt and pulled the trigger the accident resulted. He is in the camp hospital.

FEDERAL SUPERVISION OF SUBSCRIPTIONS FOR WAR PURPOSES—SOME ARE FRAUDULENT

Ottawa, Aug. 12.—The Military Hospitals Commission is planning government control and supervision of the collection of money and supplies for war purposes. The idea is to control the irresponsible and aimless, sometimes fraudulent collection now going on.

The amount contributed by the people of Canada in one form or another for patriotic purposes is very large, but owing to lack of central direction much of it has been spent unwisely. For instance, large amounts have been collected for blinded Canadian soldiers where as a matter of fact not a half dozen have suffered this disability all told. Collections have also been made for the purchase of artificial limbs and various other supplies, which are being furnished either by the Military Hospitals Commission or the military authorities themselves. There is also a certain amount of fraudulent collection. Under the plan of the Hospitals Commission authorities this method, now aimless, will be organized and directed so as to divert the patriotic impulses of the Canadian people into the channels where they are needed.

The Military Hospitals Commission is also to carry on a publicity campaign, part of which will be the taking of moving pictures of the work being done in the hospitals and homes in treating wounded soldiers and giving them vocational training.

DISTINGUISHED CANADIANS SAIL FROM GREAT BRITAIN

London, Aug. 12.—(Montreal Gazette cable)—Sir George E. Foster, minister of trade and commerce, sailed for Canada yesterday on the steamer Missanabic. Previous to going on board Sir George delivered an address before the members of the Liverpool Chamber of Commerce. Senator Belcourt, Senator Landry and the Hon. J. A. Clift of Newfoundland, also sailed on the Missanabic.

DUKE OF WESTMINSTER III

London, Aug. 12.—It has been learned that the Duke of Westminster has been invalided home from Egypt, and that he is now in a Paris hospital suffering from fever.

MOTION PICTURE WORKERS ARE MEETING TONIGHT

The motion picture workers of the city and quite a large body of representatives from Halifax, Charlottetown, Summerside, Moncton, Amherst, Truro, Sussex, Fredericton and other points, will hold a meeting in Imperial Theatre after 10 o'clock this evening to hear F. H. Richardson, of New York, give his intensely practical and interesting talk on motion picture projection, which is the chief item of technique in the conduct of a movie show. It is expected local officials having to do with cinematograph exhibitions will be present and that a happy round of welcoming addresses and interchange of ideas will be indulged in as well. Refreshments will be served after the meeting. Tomorrow in the forenoon the visitors and local exhibitors, with their ladies, will take the Lord Kitchener for a river trip, during which lunch will be served each individual worker will readily present himself or herself for identification with the movement.

PERSONALS

Mrs. F. A. Belyes and little daughter returned yesterday from a pleasant trip to Ottawa and Montreal. They were accompanied by Mrs. George Gibbon and child. Mr. and Mrs. William Crosby, of 273 Main street, North End, will leave this evening for a short visit to Fredericton, where they will be the guests of Mrs. Percy Edgcombe. Master Richard Edgcombe will accompany them on their return to St. John.

Mrs. W. G. Burrill and little daughter, Estelle, who have been visiting Mrs. Burrill's parents, Mr. and Mrs. J. McCafferty, King street east, left last night for their home in Bangor, Me. Miss Gladys M. Bailey and Miss Florence Gulliver, both of Gibson, N.B., are visiting Mrs. W. A. Curtis, Waterloo street.

Lieutenant H. G. Ashford of the 140th battalion who has been in the city visiting relatives, will leave tonight for Valcartier to join his unit. Dr. George F. Matthew is quietly celebrating his 79th birthday anniversary today at his summer home at Goudville Point. There will be an informal reception for relatives and friends at the house both in afternoon and evening. Dr. Matthew has a large circle of friends, and will undoubtedly be the recipient of many felicitations during the course of the day.

Mr. and Mrs. Charles F. Brown announce the engagement of their daughter, Bertha Emily, to Leonard J. Heas, the marriage to take place at an early date. Mrs. Geoghegan after a few weeks spent with her father, Mr. Charles Scamell, Orange street, left for England this week with her mother, Mrs. J. Heas, her husband, Major Geoghegan. All her friends wish her a safe and pleasant journey.

Mrs. Malcolm Mackay left on Thursday evening for New York and expects to arrive in Philadelphia on the 14th inst. Mr. Mackay, who is now in England with his battalion, the 104th, Mrs. Mackay, who spent the winter in St. John, met Mrs. Mackay at McAdam Junction and will also sail on the Philadelphia for other side.

Mr. and Mrs. Frank McClellan, Mrs. Courtney and Mrs. Hargreaves arrived by automobile from Boston this week. Mr. and Mrs. McClellan are the guests of Mr. McClellan's parents on Douglas avenue.

Mrs. J. W. McKean left on Thursday for Halifax, where she will be the guest of Mr. and Mrs. Joseph Rainnie. Dr. Bliss C. Hamilton, of Philadelphia is expected to arrive in St. John today, and while here will be the guest of Mr. and Mrs. E. Hamilton, Union street.

Mrs. Homer Forbes is in Ottawa at present visiting sister, and is expected in St. John some time in the near future. Mr. and Mrs. L. G. Crosby left St. John yesterday morning for Nova Scotia by automobile. All dignify they expect to meet their daughter and her husband, Mr. and Mrs. Kelly, and with them they will make an automobile tour through parts of Nova Scotia.

Miss Ethel Gerow, of Lynchburg, Virginia, is the guest of Mr. and Mrs. A. Atchison Morrison. Miss Robertson, secretary of the Associated Charities, leaves today to visit her sister, Mrs. Clauson, in Philadelphia. Miss Margaret Pugsley, of Toronto, is the guest of Mrs. G. L. Tapley, Douglas avenue.

Lieut. Charles D. Knowlton has returned after a month's leave, and is expected in St. John some time in the near future. Mrs. W. Downie, sister of Mrs. G. A. Kuhnig, arrived in St. John on Wednesday. Mrs. Downie's numerous St. John friends are pleased to welcome her return to this city if only for a short visit. Frederick Gleason—Miss Catherine Fitzpatrick, who has been visiting Miss May Doolan, returned to her home in St. John this morning. Miss Nellie Power, of Nelson, who has been the guest of Mrs. F. J. Brody, returned to her home last evening. Miss Dyleman, who has been the guest of Mrs. Capt. Clarkson, Cross Creek, is in town today and will leave with her father, Deputy Grand Master Dyleman, by boat for St. John. Miss Grady, of Boston, is visiting Mrs. Beatrice Crockett at Salamanna. J. D. Merrithew and wife from Boston arrived in the city last night and left today for Keswick to visit Mr. Merrithew's former home. Moncton Transcript—Mrs. A. E. Killean, Mrs. Lecky and Miss Lecky, of Chicago, leave tomorrow morning for Halifax to spend the week-end. Miss Mildred Matthews, of Gibson, who has been visiting her cousin, Miss Ada West, returned to her home on Wednesday, and was accompanied by Mrs. West who will spend a couple weeks in Gibson and St. John.

HARVESTERS' EXCURSION Several hundred men arrived in the city this morning from various places throughout the maritime provinces and will leave this evening on the harvesters' excursion. Whether or not two trains will be required to accommodate the men will not be known until later in the day, after all trains from outside points have arrived. The first train-load is expected to leave Union station after the Boston pulls out, and will go to Winnipeg. If sufficient numbers arrive to warrant a second train, it will be made up and will leave shortly after the first.

NUGGET CONTEST!

Owing to so many answers having been received to our last week's contest it will be impossible for us to announce the winner until next Saturday's Times. C. A. MUNRO

PATRIOTIC CAUSES

The conservation committee of the Red Cross have arranged to collect waste paper and old rubber. Those who have saved these articles for this committee are requested to place the collection in bags provided by the society or in neat parcels on their door-steps on Tuesday, Aug. 16, when the first collection will be made. Hereafter the collection will be weekly. Clean waste paper of all kinds is desired. Kindly place rubber in separate bags. Bags can be obtained at the local Red Cross rooms. 46807-8-15.

At South Bay A patriotic fair is to be held on the grounds of E. P. Baker, South Bay, next Saturday afternoon, under the auspices of members of the Soldiers' Comforts Association.

The conservation committee of the local Red Cross have made it possible for every one to help the sick and wounded. All that is necessary is to save all clean waste paper and old rubber. Put it in a bag or in a neat parcel and leave it on your doorstep on Tuesday, August 16, and the committee will collect it. Hereafter the collections will be made weekly. Kindly place rubber in separate parcel. This waste is later disposed of for the benefit of the Red Cross. Boys may be obtained at the local Red Cross.

Blueberry Patriotism Arrangements have been made to hold the annual blueberry picnic at Welsford, Saturday, Aug. 19. The City Cornet Band will be in attendance. Ladies of the Soldiers' Comforts Circle will provide the refreshments. Special excursion trains will be run from St. John. Proceeds will be divided among the various patriotic funds.

SOLDIERS' WIVES LEAGUE A meeting of the Soldiers' Wives League will be held at the residence of Mrs. Walter W. White, 71 Sydney street, on Tuesday, August 15, at 8.30 p. m. Business. To consider plans for Labor Day.

Every seat in the trolley was occupied when a group of women got in. Going through the car to collect fares, the conductor noticed a man who he thought was asleep. "Wake up!" shouted the conductor. "I wasn't asleep," said the passenger. "Not asleep?" snapped the conductor. "Then what did you have your eyes closed for?" "It was because of the crowded condition of the car," explained the passenger. "I hate to see women standing."

On Wednesday afternoon at Christ-church Cathedral, Fredericton, Miss Alice Campbell, of that city, and Edward Morgan, of Gibson, were united in marriage by Rev. J. Patstone.

THE DEATH OF WILFRED R. GOULD, for many years a prominent citizen of Chatham, occurred on Wednesday. He was fifty-nine years of age and is survived by his wife and four children—Edward, of Vancouver; Dennis, of the 29th Battalion in Belgium; Mrs. W. Stuart Loggie and Mrs. Hazen F. Marr, of Chatham.

I Am Free—You Can Be Free

My catarrh was filthy and loathsome. It made me ill. It dulled my mind. It undermined my health and was weakening my will. The hawking, coughing, spitting made me obnoxious to all, and my foul breath and disgusting habits made even my loved ones avoid me secretly. My delight in life was dulled and my faculties impaired I knew that in time it would bring me to an untimely grave, because every moment of the day and night it was slowly yet surely sapping my vitality.

But I found a cure and I am ready to tell you about it FREE. Write me promptly.

RISK JUST ONE CENT

Send no money just your name and address on a postal card. Say "Dear Sam Katz: Please tell me how you cured your catarrh and how I can cure mine." That's all you need to say. I will understand and I will write to you with complete information FREE at once. Do not delay. Send postal card or write me a letter today. Don't think of turning this page until you have asked for this wonderful treatment that can do for you what it has done for me.

Peel Off Your Freckles

To remove freckles, blotches or any complexion difficulty, the best thing to do is to remove the skin. This is easily and harmlessly done by the application of ordinary soap. The wax used in the ordinary soap is the cause of the skin's outer skin. A little each day, gradually bringing the second layer of skin to view. The new skin is beautifully soft, clear, white and young looking. Just presents an ounce of parabolized wax at any drug store and use like cold cream.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says: "After trying it, I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully, now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Rose-Opto tablets. Drop one Rose-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, bathe to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Post: Another prominent Physician to whom the above remedy was recommended, writes: "I have recommended this remedy and widely prescribed by me. The number of persons cured is beyond counting. It can be obtained from any drug store and is one of the best eye prescriptions I have ever used. It is one of the best eye prescriptions I have ever used. It is one of the best eye prescriptions I have ever used."—Pharm. Trans. Co. 2424 St.

THIS IS A BED

WHEN CLOSED OPENED

This Table Bed forms a harmonious part of the furnishings of any room, and can be used where other forms of concealed beds would not be appropriate.

It will completely disguise a bedroom, will take care of the unexpected guest, give you an extra bed in case of sickness and provide you with the advantages of a den. It will also transform an office into sleeping quarters.

NINETY-FIVE DAYS

This is the ninety-fifth day since Hon. P. G. Mahoney was appointed Minister of Public Works. He is still Minister of Public Works—the big spending department—though rejected by the people. How much longer will Lieut.-Gov. Wood permit this gross violation of the principles of responsible government to continue?

BRITISH PREPAREDNESS

A correspondent of the Associated Press writes of the amazing thoroughness of the British preparation for the recent drive on the Somme. Every contingency was foreseen and provided for. Whether it was the care of the wounded or of prisoners, or providing supplies of every kind, or locating the new positions for guns within the area to be won from the enemy's grasp—all was arranged in advance. It was a magnificent illustration of preparedness, and marks the distance the British have travelled in that direction since the dreadful days when a "thin blue line" held by sheer valor the lines against the thoroughly equipped and prepared mass of Germans on the road to Paris.

AFTER THE WAR PREPAREDNESS

In an appeal for civic preparedness in Canada the Canadian Municipal Journal says: "When this war is over, Canada will be face to face with the greatest opportunity of her national life, now made possible by the extreme sacrifice of so many of her sons and daughters, and which she has not only the right to but must grasp if those great sacrifices have not been made in vain. How, she will be able to take advantage of the opportune moment depends absolutely on the preparations being made now by the citizens through their public bodies, whether they be federal, provincial or municipal, but especially municipal, for the principal reason that owing to the exigencies of their office civic representatives are in daily touch with the people—hence their greater responsibility in rising to that standard of preparedness so magnificently set by our men and women who are today representing us on the fields of Flanders."

lating to the war, but has not told the people what he would have done had he been president. The people are still in the dark as to whether he would have taken action when Belgium was violated, the Lusitania sunk, or other German crimes against humanity were committed. Since he is afraid of the byphen there is very little choice between him and Wilson.

DOES CATARRH BOTHER YOU?

Why not give up that snuff and stop itching your stomach? The one sure treatment is "Catarrhosone," sure to cure because it goes where the disease really is. Certain to cure in your case because it has restored tens of thousands worse than you are. Catarrhosone is a really cured, use only Catarrhosone and beware of dangerous substitutes meant to deceive you for genuine Catarrhosone, which is sold every where, large size containing two months' treatment, costs \$1.00; small size, 50c; same size, 25c.

a talking machine and mere mechanical reproduction or Edison's new invention and actual Re-Creation? Come to Us and Hear examples of Edison's New Art. Yes, new art—Music's Re-Creation is a new and wonderful art.

The NEW EDISON

Arthur Middleton of the Metropolitan, has a voice of bass quality, yet running very high into the baritone, almost to the tenor register. He is one of the many artists who have demonstrated by actual comparison that Edison's Re-Creation of an artist's work cannot be distinguished from the original.

MARKET SQUARE - W. H. THORNE & CO., Ltd. - KING STREET

FUND FOR CANADA'S BLINDED SOLDIERS

In May of this year an appeal was sent out on behalf of Canadian soldiers, blinded in the war. This appeal was authorized by Sir Arthur Pearson, of St. Dunstan's Hostel, London, England, for it is in this hospital that our soldiers who have given "the light of their eyes," are cared for, and trained for their life, which now, of sad necessity, must be lived under new and strange conditions.

1,000-MILE RIDE ON DESERT FATAL

(Continued from page 1)

"On this journey a severe ordeal even for acclimated white men, the military lockasses in authority at Karachi despatched about a thousand British soldiers just disembarked from the transport which had conveyed them from England. The men were sent out in drafts for various different units in India, territorial and regular. As usual the troop train was made up of old third-class carriages which, with the exception of the wooden seats, are little better than goods trucks. Into these vehicles the soldiers were packed like sardines.

"One correspondent says they were still wearing English clothing. There were no pinks or fans. Ice was supplied. Kerosene was available for the water for drinking. For the water carried in the men's water bottles, and that there was neither water nor any accommodation for the men. For the purposes there was simply a filthy makeshift arrangement, which aggravated inordinately the foulness of the atmosphere in the overcrowded carriages.

"Three doctors traveled with the train, but, like the men, they were new to India, and so, devotedly though they worked, they were hopelessly handicapped by their lack of experience as well as their own sufferings from the intense heat. Two second-class carriages, each with lying-down accommodation for two patients, had been set apart for use as a hospital.

"The train pulled up at Rohri, 220 miles from Karachi, twenty-three hours after it started. By that time a number of men were sick, dying or already dead from heat strokes. Seven corpses were removed from the train at Rohri and thirty-two patients in a critical condition were taken across the River Indus to the Civil Hospital at Sukkur, where in spite of everything that could be done for them five more died. During the night at Rohri a meal was served in the station shed, where the troops were shielded from the rays of the sun by the iron roof. When the journey was resumed more heat strokes occurred and a carriage had to be turned into a mortuary.

"As the result of urgent telegraphic messages a further but inadequate supply of ice was obtained en route, and at Lahore the train was met by a staff of medical officers, nurses and orderlies. Sixty-seven patients were transferred to the cantonment hospital at Lahore. For the rest of the journey a medical man with Indian experience accompanied the train and an extra engine was provided to expedite it.

"At Rawalpindi thirty-seven more patients were taken from the train to the hospital. This made the total number of hospital cases 186. A semi-official statement issued from Simla gave fifteen as the total number of deaths, including those at Rohri, but no corresponding assertion that there were at least twenty-five.

"The way in which troops travel by railway in India is always scandalous, but ordinarily moves are made in the cool weather and, in great haste, is done. The exigencies of the war have inevitably upset the usual seasonal plans both for sending men to the front and for their return about the country. That fact does not, however, in the least degree mitigate the responsibility of the officials who despatched this troop train from Karachi.

"A number of junior officers from regiments in the Punjab went down to Karachi to meet the drafts for their units and returned with the train. I am told that they unanimously pointed out the danger that would arise from the overcrowding, the heat and the slowness of the journey and the precaution of obtaining for themselves an extra store of ice, which they handed over for the use of the sick. A great bargain it has been, lessened, if not removed altogether, by giving the men ample accommodation (there is no shortage of rolling stock) such means of alleviating the heat as other travelers get and a faster train or train. But the effrontery of the staff was imperious to reason or warning, and these unfortunate soldiers were ordered forth on a journey whose horrors can only be feebly imagined.

"It is said that instructions have not been issued from army headquarters, Simla, forbidding any further movements of troops by rail in the present country during the hot weather. Clearly,

RID YOURSELF OF BODILY WEAKNESS

A DISTRACTING CONDITION THAT IS PERMANENTLY CURED BY FERROZONE—A PLEASANT REMEDY IN TABLET FORM TO BE TAKEN AFTER EACH MEAL.

All fagged out ideas come as slow as molasses in January. You think of things just a minute or so too late. Sleep is gone and the buoyancy and strength that makes life a pleasure, that's gone, too.

The doctor would say that you are run down, and you don't eat or digest enough. Your stomach requires some aid, and probably your digestion needs a bracer. The blood should have phosphorus and iron to strengthen and purify it.

Now Ferrozone is a wonderful blood maker and nerve stimulant. It is really a food for the brain, nerves and spinal cord, and will improve your run-down condition in a very short time.

Ferrozone will make you strong and energetic, and will improve your work without fatigue. It is a marvelous remedy and does marvelous things as a bracer for a mother's household duties. I was excited and nervous, and trifling things bothered me very much.

"After my baby was born I was left in a weak, sickly condition, for weeks. I was unable to do my household duties. I took malt extracts and tonics all the time. A lady friend recommended Ferrozone, which I used with splendid results. The first box helped quite a little, and when I had taken six boxes my former health, vitality, cheerfulness and good spirits, were fully restored.

You can't spend 30c. for a better advantage than on a box of Ferrozone, and the sooner you get Ferrozone, the sooner you will get well. Don't accept a substitute, but insist on your druggist supplying the genuine Ferrozone which sells for 50c. a box, or three boxes for \$1.50.

However, there will have to be a searching investigation into the conduct of the officers responsible for what has happened and as it is not unlikely that efforts will be made to look-up the matter in India, I trust that the House of Commons will insist upon the prompt publication of the full report, for which Mr. Chamberlain has already asked the government of India.

A Storm of Protest—The publication of this story has brought forth a storm of protest in the British press and the following official statement was issued by the Indian Chamberlain, secretary for Indian Affairs:

"On June 15 the Viceroy telegraphed as follows:—'We regret to report fifty cases, with three deaths, from heat stroke occurred among drafts on hired transport Ballarat on the railway journey between Karachi and Lahore. Troop train left Karachi June 8 with thirteen officers and 1,018 men. On reaching Rohri thirty-two men were removed to civil hospital Sukkur. Of these, five died, and of whom twelve died, and eighteen more cases occurred before train reached Lahore.'

"Train carried three medical officers, had two second-class carriages fitted as hospital, and was provided with coffee shop and good supply of ice. No over-crowding, thirty men normal carrying capacity for troops is thirty-six and seventy-two respectively. Arrangements have been made to send to hill depots all men who have been suffering from the railway. Orders have been issued stopping all further movement of troops by rail from Karachi to northern India. A complete report of the occurrence will be furnished at an early date.

"A further telegram on June 19 added that the total number of heat stroke cases was 186, with fifteen deaths. All sick reported doing well.

"On July 15, in reply to further inquiry, Mr. Chamberlain received the following telegram:

"In reply to your enquiry dated July 11, Karachi was selected the port of disembarkation as the majority of the drafts on board the Ballarat were for units in the Fourth, First, and Second divisions—namely, Quetta, Peshawar and Rawal Pindi. Drafts for the Lucknow and the Khiv divisions disembarked at a later date.

"Yesterday Mr. Chamberlain received a further telegram as follows:

"With reference to the enquiries in your telegram dated July 14, the case is being investigated by a senior officer from army headquarters and a specially selected medical officer. They left for Karachi on the 7th inst., with instructions to visit all stations along the line where fatalities occurred, collecting evidence and submitting a full report as soon as possible after their return to Simla about the 28th inst."

Chronic Skin Disorders Now Overcome Quickly

There is no hope of getting rid of disfiguring skin blemishes until the blood is purged of every trace of impurities. Wonderful results follow the use of Dr. Hamilton's Pills which provide the blood with the elements it needs to become rich and red.

Quickly indeed the blood is brought to normal strength, is filled with nutritious elements given power to drive out of the system the humors that cause rashes, pimples, pesty complexion and kindred ills. Get Hamilton's Pills today; they go to work at once and give prompt results. Mild, efficient, safe for men, women and children. Get a 50c. box today from any dealer.

Morning War Cables

Paris, Aug. 11—An attack by Anglo-French forces on the Bulgarians at Dobruja, forty miles northwest of Salonika, is reported in a Havas despatch from Salonika. The Allies occupied the Dobruja railway station and a neighboring hill.

London, Aug. 11—A further series of surprising successes by the armies of Generals Sakharoff and Letichizky were announced today by the Russians. The most important of these successes are the capture of the important railway junction and town of Stanislau; the definite occupation of Monasterzyska, and the seizure of important positions on the Zlota Lipa line. Coupled with these victories was the capture of many thousands of prisoners, especially on the right bank of the Sereth, where the prisoners taken number 5,000.

The Germans appeared to regard the Kovel-Lemberg sector as the most critical on the eastern front, and the appointment of Field Marshal Von Hindenburg to the chief command undoubtedly had the effect of temporarily stemming the Russian advance on the northern section of the line. But Field Marshal Von Hindenburg does not hold the controlling command over the troops guarding the southern approaches to Lemberg, where General Letichizky, having taken Stanislau and being in striking distance of Halicz, is rapidly completing his encirclement of the army of General Count Von Bothmer. The latter's forces have held obstinately to their positions since last winter, and have kept them virtually intact. However, it cannot be long before the fate of Lemberg is sealed, military observers believe.

The possession of Stanislau and Kolomea makes secure the Russian possession of Bukovina, and gives them a base for an invasion of Hungary. The fall of Halicz, which also is regarded as imminent, would interfere seriously with General Von Bothmer's communications, and would compel him to retire his army along the left bank of the Dniester toward Lemberg, and between the Russian forces advancing from the direction of Tarnopol and Brody.

The German official statement today admitted a regrouping of the Teutonic forces was taking place in order to meet the new positions of the Russian armies. It is reported that in their perplexity over the situation on the Italian and Galician fronts, the Austrians again have brought troops from Galicia to the Isonzo front in a desperate effort to save the situation there, Turkish troops have been sent to the Gallician front to replace the Austrians.

Nothing sensational is happening on the western front, where the Entente Allies maintain a steady pressure. Although the British forces have shown little activity, the French report the capture of additional German trenches near Maurepas and a fortified quarry north of the Hem Wood.

Despite the small gains on the western front, the Entente Allies have had another week of striking successes, with the great Italian and Russian victories and the repulse of the Turkish attack in Egypt.

London, Aug. 11—Fighting between the British and Turkish forces in Egypt east of the Suez Canal continued on August 9 and 10, with no important success for either side, according to an official statement issued this evening. Turkish counter-attacks caused British cavalry to fall back, but the Turks later retired to their entrenchments, the statement said.

Now an Under Secretary. Ottawa, Aug. 10—It is understood here that R. B. Bennett has been appointed under secretary for external and foreign affairs. The new office will be ratified by parliament at its next session.

Pittsfield has had three successive bachelor city solicitors and at present the city clerk and postmaster are both single men.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a well known specialist who has studied widely both in this country and Europe, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is overweighed with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some dizzy and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fagging vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-

grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were ailing all the time double and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron like lactate of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial. NOTE—The manufacturers of Nuxated Iron have published a booklet containing all the facts that they authorize the announcement that they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed by all druggists.

THE REAL FRIEND IN A LARGE BOTTLE

The greatest friend to sick people is the one that helps them toward health. But nearly every human friend had here suggested a different means of regaining lost health due to nervousness, overwork, debility and worry. Now there are dozens of friends right here in your own town who will agree that the best friend to their health is Zoetic—the health tonic. This already famous remedy for "nerves" and their consequent ailments is a combination of glycerophosphates—the actual elements of the human body—with God Liver Oil and delicious tonic wine. A short two weeks of faithful trial will put you fair and square upon the path of bounding health. We know this so absolutely that if you cannot report real progress at the end of that time we will refund the purchase price. You who suffer and suffer and suffer should not delay beyond today. E. Clinton Brown, Sole Distributing Agent.

WORK INSTEAD OF HOLIDAYS

Boys of Plymouth, England, Juvenile Trade School are gladly sacrificing all holidays in order to increase the output of munitions. Their chief work is the making of shell cases. Note the clean cut steel shavings coming out with the huge drill. It is as interesting as play for these boys and much more patriotic and profitable.

KINGS COUNTY'S MILITARY RECORD

About 1,500 Men Have Gone From the County to the Front; Whole Communities Swept

While authentic records of enlistments from Kings county are not available previous to September, 1915, it is safe to say that at least 1,500 men have gone from this county to fight for their king and country. That splendid record was easily verified by consulting the honor roll which has appeared regularly in this paper for the past year.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours he may be beyond cure. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly cure these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine so good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

AUSTRIA'S WAR BILL

The war sacrifice of Austria is no small one. She is bearing the whole of the cost of her military efforts. The nature of this burden may be judged by the fact that the Australian soldier is the highest paid in the world, and probably the best equipped. A private draws \$10.40 per week, a corporal \$17.50, a sergeant \$20.00, and a lieutenant \$25.00. Very liberal provision is also made for dependents of fallen soldiers, and for soldiers incapacitated. The pension to a widow or other dependents is half the rate of pay the soldier was drawing, with extra for each child under sixteen. The scale of pensions for permanently disabled soldiers is being increased 50 per cent, and will in some cases be \$10 per week for a private, but generally \$7.10.

RUSHING WORK AT HALIFAX TERMINALS

Three Berths Are Expected to be Ready in November

Halifax, Aug. 10.—The Herald says: The contractors are rushing work on the Halifax ocean terminals and there is no doubt they will have three berths ready by November. The permanent work will be the laying of piers to connect the new line of the I. C. R. with the piers being rapidly put in condition for the rails so that truck-laying will commence early in the fall. In a few days the full connection will be made on the new grade with I. C. R. at Fairview temporary wooden abutments will be erected on the new piers to be replaced by concrete structures in due time.

THE LABOR PROGRAMME

London, Aug. 11.—With a view to meeting the problem of reconstruction after the war sweeping resolutions will be submitted to the trades union congress next month, says the Pall Mall Gazette. The resolutions will call for a compulsory trade union membership, a compulsory 48 hour week for all trades, a minimum wage of 80 shillings for all adult workers, and a state unemployment wage system for everyone. To meet the cost of the war the following proposals are advanced:

Has He Resigned?

It was reported in political circles yesterday, apparently on good authority that Hon. P. G. Mahoney had resigned as minister of public works. Whether this means that the government has decided upon a successor and has selected a constituency for a by-election is not clear. It is understood that Lieutenant-Governor Wood has been increasingly uneasy over the retention of Mr. Mahoney as a minister of the crown in spite of the fact that he was rejected by the people of Westmorland in that capacity three months ago. Announcement of Mr. Mahoney's resignation from the cabinet may be expected at any time in the government press.

Excellent for the Kidneys too

ABBEY'S EFFERVESCENT SALT IS A RELIABLE SOLVENT FOR URIC ACID

If you are taking Abbey's Effervescent Salt for Constipation, Indigestion, Sick Stomach, Bilious Headaches, you will find that it is doing your Kidneys a world of good too. Doctors say that Abbey's Effervescent Salt is a valuable agent in treating Stone in the Kidneys or Bladder—in irritation of the Bladder due to an excess of Uric Acid—and that it is almost a specific in acidity of the stomach and in certain forms of Dyspepsia. Take it in warm water every day.

Among the Local Men In Khaki

140th Rear Guard and Colored Recruits Honored by Demonstration on Departure—Fifteen Recruits Yesterday

The rear guard of the 140th Battalion left last night for Valcartier to join the regiment there. The sixteen colored recruits for No. 2 Construction Corps also departed a few hours later for the mobilization centre of the unit at Picton. Both events attracted a large crowd to the station. As planned, however, the departure of the rear guard was effected with little demonstration, but the colored folk of the city turned out patriotically to say their tribute to the men in khaki. The rear guards of the 140th Battalion, recently relieved from guard duty at the west side docks by the 62nd detachment, left about six o'clock, under Lieut. Courtenay. The men crossed the ferry on the 6.18 trip and took the shortest route to the station, attracting not a great deal of attention. At the station, however, a greater crowd had gathered than was anticipated. Many were on hand to bid their soldier friends farewell, and the send-off they received was indeed a touching one. Major Perley, who was in charge of the detachment here, did not leave, but will remain in the city until the first of the week to complete all business matters.

COMFORT

It is often surprising what an immense degree of comfort may be realized from our correctly fitted glasses. Our Optometrists use every scientific method of value in testing your eyes.

RECENT DEATHS

William Black. St. Martins, N. B., Aug. 9.—The death of William Black, a highly respected citizen of Fair View, occurred at his home Sunday, the 8th inst., after an illness of several months. He was born in Ireland in 1835, and came to this country with his parents when only four years of age. He spent his life principally in the lumbering business with Messrs. Bourke and Bortwick, and was a man of unusual vitality, which served him fairly up to the time of his last illness, which he bore with great patience. He was a member of the Orange Lodge since a boy of seventeen, and also of the Methodist church. He leaves to mourn, his wife, formerly Miss Jane Brown, Fair View, and nine children, seven of whom survive him. Herbert Black, Mrs. Byron Hope and Mrs. A. W. Nickerson, of Seattle (Wash.); Mrs. Ralph Brown, of Boston; Simon Black and Mrs. John Hope, of Great Salmon River, and Albert, at Fair View, with whom he resided, and Mrs. Alfred Brown, of Boston, the immediate survivors. James and John of this village. He also leaves fourteen grandchildren and four great grandchildren. His funeral services were conducted at the church by Rev. M. Linton. The hymns sung were Peace, Perfect Peace, It is Well With My Soul; and Will the Circle be Unbroken.

THE COMING OF THE EVENING STAR

(Collier's Weekly) No matter whether the summer sun has disappeared behind the next brick block or the mighty ranges of the Sierra Nevada, or has gone in glory beyond the surging sky line that marks the Pacific or the prairie's verge, there is the same eternal mystery in that hushing hour of twilight and coolness. After the day's glare the earth itself has become for us that great rock in a weary land which to the prophet Isaiah was the symbol of his king to be. In its shadow we will rest. Now, as of old, that kindly run of twilight has come to us in our increasing mission across the face of our world, a little blessing made near and visible to those who will see, and above it shines the evening star. Before this presence our thoughts, at last, turn home and the familiar things of life are both dear and strange. Flowers close drowsily; birds are stirring to their rest or waking to renewed life according to their kind; and every tree down the street or hillside is rustling its countless leaves in that vesper music of the little breezes which a man's heart ought to be wise enough to understand. Supper smoke is abroad on those same breezes and the children are somewhat quieter. And that hour the everlasting wonder is renewed; what have we done to deserve a world so fair, what goodness has made it possible for us? Despite all that in which we confuse ourselves and the wrongs that blot us, now comes with its healing peace and will come throughout the years. Surely it is for us to have some of our so lived that they will be worthy of the evening star, peaceful in the shadows that follow it, and confident of the morning beyond.

RELICS OF RAIDERS' FIGHT IN NORTH SEA

Picture shows a damaged boat from H.M.S. Alcantara being examined by officers of a British patrol boat. The Alcantara was torpedoed by the German raider Grief, which she later sunk by gunfire.

THE TALE OF CANADA'S MILITARY ACHIEVEMENTS

(From "Canada's Two Years of War and Their Meaning," by P. T. McLaughlin, in the American Review of Reviews for August, 1916)

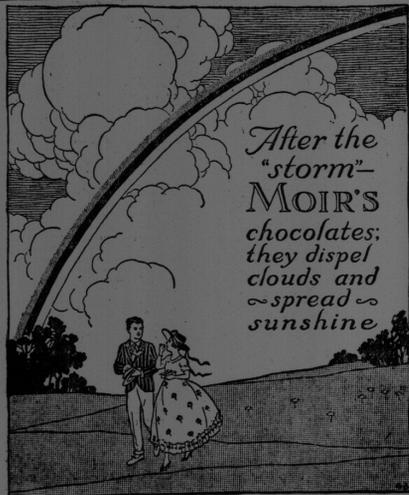

The tale of Canada's military achievements in two years can best be told by a few illuminating comparisons. Her first contingent of 80,000 men, sent across the Atlantic in October, 1914, in thirty ships, was the largest individual force ever conveyed across a waste of waters in modern times, and its transport was doubly significant in being effected with the second largest navy in the world impotently bottled up in the Kiel Canal, unable to make any effort to prevent it. By the spring of 1915 Canada had increased the force sent across the Atlantic to 60,000, or equal to the British army landed in France in the first month of the war. In slightly over a year it had grown to 80,000, somewhat more than the force (87,114) which England sent to the Crimea during the two years of that historic conflict. By the end of 1915 Canada's total overseas was 120,000, or twice the American force actually engaged in the Spanish war during the four months it lasted. At the end of last April the Canadian enlistment exceeded 310,000—30,000 eli-

minated by casualties, 65,000 "at the front," 70,000 in England, 185,000 training in Canada (and most of them ready to send across as the Admiralty's dispositions admitted of transport), and 10,000 retained there for garrison and outpost duties; while enlistments continued at the rate of 5,000 a week. This was a larger force than the British had in South Africa during the four years of the Boer war, or than the whole British army when the present struggle began, and to bring it into existence called for the creation of a larger administrative machinery than the entire British "War Office" in time of peace. Canada's Great Advance
Two years of war have seen Canada effecting achievements on behalf of the British Empire which not even the most far-sighted contemplated when the present world struggle began. In August, 1914, she has raised an army now within measurable distance of 300,000 men. She has increased her grain acreage so as to gain the third place among the wheat-producing countries of the

Guard Baby's Health Especially During Summer Months

The health, growth and even the life of the bottle-fed baby depend on his food. If it cannot actually be mother's milk, it should duplicate it in composition and in germ-free purity. Cow's milk, particularly in hot weather, is seldom free from dirt and harmful germs and so is usually dangerous to baby's delicate constitution.

In happy contrast, the Allenburys' Foods provide a progressive dietary that is absolutely safe. The Milk Foods, Nos. 1 and 2, are prepared from clean, fresh cow's milk, modified to the composition of mother's milk, and entirely free from germs. The Allenburys' Malted Food No. 3, is equally pure and safe, and suited to babies from 6 months old upward. With

the juices of oranges and grapes, and fresh meat juice so beneficial to baby, can be given with good results. "Infant Feeding and Management" is the title of a valuable sixty-page Booklet which we will be glad to send you free.

THE ALLENBURYS CO. LIMITED TORONTO

History of The Juvenile Court in Ontario

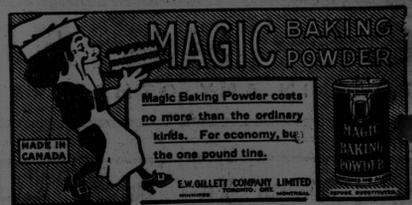

In the year 1888, at the request of a group of Ontario citizens, an "Act for the Protection and Reformation of Children" was passed by the Ontario legislature, and in it was a section as follows: "The Lieutenant-Governor may, upon the request of any municipal council, appoint a commissioner or commissioners, each with the powers of a police magistrate, to hear and determine complaints against juvenile offenders, and to make reports thereon to the Lieutenant-Governor. This was the first step toward the present world-wide Juvenile Court Movement. It was taken up by Devereux Jones on the suggestion of J. J. Keles, then a member of the "Globe" in the two years following some progress was made toward a separate system of dealing with youthful offenders. In 1892 when the Children's Protection Act was introduced in the legislature still further provision was made for separate trial and confinement of children: Sec. 20. (1) "In cities and towns with a population of more than ten thousand, children under the age of 16 years, who are charged with offences against the laws of this province, or who are

brought before a judge for examination under any of the provisions of this act, shall not, before trial or examination, be confined in the lockups or police cells used for ordinary criminals or persons charged with crime, nor save as hereinafter mentioned, shall such children be tried or have their cases disposed of, in the police court rooms ordinarily used as such. It shall be the duty of such municipalities to make separate provision for the custody and detention of such children prior to their trial or examination, whether by arrangement with some member of the police force or other persons who may be willing to undertake the responsibility on such terms as may be agreed upon, or by providing suitable premises, distinct and separate from the ordinary lockups or police cells; and it shall be the duty of the judge to try all such children or examine into their cases and dispose thereof, where practicable, in premises other than the ordinary police court premises, or, where this is not practicable, in the private office of the judge, if he have one, or in some other room in the municipal buildings; or if this be not practicable, then in the ordinary police court room, but only in such last mentioned case when an interval of two hours shall have elapsed after the trial or examinations for the day have been disposed of. (2) "Where any Children's Aid Society possesses premises affording the necessary facilities and accommodation, children, apparently under the age of twelve years, may, after apprehension under the provisions of this act, be tem-

porarily taken charge of by such society until their cases are disposed of; and the judge may hold the examination into the case of such children in the premises of the said society." In compliance with this legislation a court for juvenile offenders was opened in Toronto early in 1894, but entirely under police auspices and with the regular police magistrate in charge. Other cities in Ontario followed the principle laid down, and in many cases the agents of the Children's Aid branch did valuable service as probation officers.

The legislation being provincial, and not reaching cases brought under the Dominion Criminal Code, was but partial in its effect and it was necessary to conduct a long agitation for Dominion-wide powers. In 1906, with the valuable assistance of W. L. Scott, who drafted the bill, and Hon. G. W. Allan, who was its sponsor in the senate, a Dominion law was passed recognizing and extending the provincial legislation. It then became necessary to have further Ontario legislation, and in 1910 an act was passed by the legislature declaring all police magistrates to be Juvenile Court Judges, all shelters to be detention homes and all agents of Children's Aid Societies to be probation officers. This was not effective and to overcome various difficulties a further provincial act was introduced in the legislature of 1916 by the attorney-general, Hon. I. B. Lucas, and in April was proclaimed law. This now brings the movement up to the point where both provincial and Dominion parliaments have unambiguously endorsed the principle that all youthful offenders against the law and order should be considered as merely guilty of delinquencies and should be dealt with through benevolent and educational agencies instead of by those of officials whose duty it is to administer the criminal law as it affects adults.

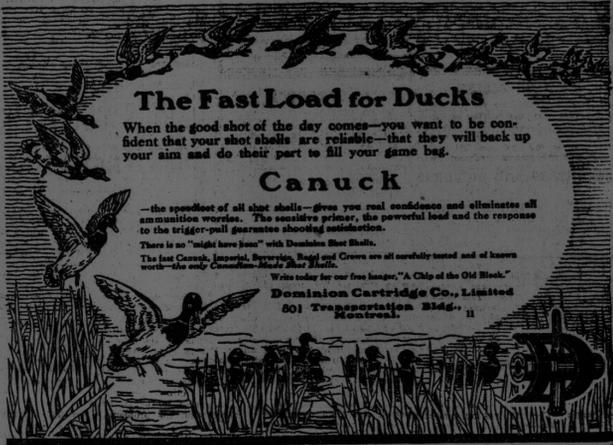

One day recently traffic officer Edward Barry of Burlington, Vt., saw three automobiles bearing West Virginia license numbers pass his post in succession.

Daylight Saving In Cleveland

That a proposal is not without honor, save in his own country, is being exemplified to the residents of Cleveland, Ohio, this summer, as they read in many forms, accounts of the efforts being made by the peoples of European countries to utilize an extra hour of daylight on account of the exigencies of the European war. Cleveland, "no mean city," as the government census records has been rejoicing in the benefits arising from arbitrarily turning the hands of her clocks one hour ahead since the morning of May 1, 1916, and no one of her three-fourths of a million people would think, for a moment, of turning them back again. This simple device, which Charles Fitzhugh Talman designated in the June issue of the Review of Reviews as "bristling with difficulties," was made effective at midnight between two days and no one knew the difference. It was a bright

May morning and everything was apparently going on as usual. Since the adoption of the eastern time two thousand or more Clevelanders have been daily playing baseball in the parks during the summer season, and one thousand others have been playing tennis for that hour of daylight which they have secured by earlier rising. It may be said that Cleveland, being in the "central zone" of railway time, of course has its railway trains entering and leaving on their own arbitrarily determined time. The traveler may find some annoyance in adjusting his watch to eastern standard time on his arrival in Cleveland. It is easy to remember the difference, however, and Clevelanders impose no greater inconvenience upon their visitors than they impose upon themselves, for they must also bear the change of time in mind when they make their arrangements to travel. But the new scheme is working out splendidly. The workman goes home to his family by daylight and reads his evening paper by the light of the sun. The economic saving in electric light or gas bills is marked.—From "Cleveland Under Eastern Time," by W. S. Lloyd in "Daylight Saving in America," in the American Review of Reviews for August, 1916.

Dominion Cartridge Co., Limited 801 Transportation Bldg., Montreal.

world, exceeded only by the United States and Russia. Financially she has transformed her situation entirely, becoming a creditor instead of a debtor nation and raising a domestic loan for the first time in her history, as an earnest of her whole-hearted spirit. Industrially, she has expanded enormously and gained a position not easily described in figures, and she has evolved an entirely new pursuit, that of munition-making, which daily grows in magnitude and importance. Economically all these factors have contributed to create a flood of prosperity similar to that enjoyed by the United States and the effect of which is to stimulate every class and element throughout the Dominion to ever-increasing efforts in behalf of the cause to which she herself, believing, as she does, that not only victory, but safety rests with big battalions and adequate preparedness. All these developments have been of the most benefit to the mother country, but surpassing them even has been the moral advantage accruing to Great Britain in the struggle through the whole-hearted support which Canada, Australia, and the other self-governing dominions are according her, and which, there is reason to believe, will result in a rearrangement of the relations of the motherland and the overseas possessions of the British empire after the war is over.

Canada's Immense War Business
The war has compelled Canada to make great manufacturing progress. Granted that for the time being war orders represent a large proportion of the manufacturing increase, it is inevitable that permanent manufacturing industries will be the outcome, because the factories now devoted to making munitions will at the close of hostilities be converted into works where various forms of requisites for the pursuit of peaceful vocations will be produced in great quantity. It is estimated that the munitions industry will employ 800,000,000 worth of work, about half the production of Canadian factories today, is represented by war orders—not alone for shells and similar materials, but also for the host of other things which the effective conduct of a war entails, and this implies, first, that there has been a substantial transfer of manufacturing enterprises from other forms of work to the satisfying of war orders since these began to be placed in Canada; second, that there has been a great increase in the number of Canadians engaged in manufacturing; and third, that there has been an enormous investment of Canadian capital employed for these purposes. War orders have embraced many industries, such as leatherware, auto-cars, iron and steel products, lumber, milling and canning industries, and the like, and one writer has said that Canada has been making for war purposes everything from buttons to submarines, from boots to aeroplanes. Not alone has Britain been served in these respects, but her Allies as well and Nova Scotia has been producing box cars for the Siberian railways to be shipped via Vladivostok, while from Alberta have come vast supplies of flour and grain and canary products for the use of the French armies. This will continue, of course, until the war ends, and even for some time afterwards there will be demands for such of Canada's products as will meet the needs of peace time.

TRUST the children to know what is good to eat. Kellogg's is a warm favorite with them because they like the delicious crispness of the delicately toasted flakes. Mother knows that Kellogg's Toasted Corn Flakes are good by the way the youngsters thrive on them. They contain much of the nourishment that little bodies need, and their extreme digestibility makes them kind to little "tummies."

The only product made in Canada by The Battle Creek Toasted Corn Flakes Co., Limited London, Ont.

KITCHENER'S MILITARY SECRETARY LAID TO REST

Photo taken at the funeral service to the late Lieut.-Col. Oswald Arthur Gerald Fitzgerald, C. M. G., military secretary to late Lord Kitchener. Picture shows Lord Derby with friends leaving service.

The Holy City A Twentieth Century "Vision"

It was in Montreal. Throughout the evening I had been thinking and writing about the needs and possibilities of the city. Weary of "statutes" and "provisions" and tired of sitting, I laid down my pen, put on my coat and hat and went out into the streets. Almost instinctively I took my way toward the mountain. The drives were now deserted and quiet. In the midst of the night, I began to climb the long dark steps. Up and up—there is an exhilaration simply in climbing and one is always rewarded at the top.

At last the great city lay below me. Its myriads of lights stretched away into the indistinctness of the enveloping night. The clouds had obscured the stars above me, but below was an inverted sky. In the street lights shone through the slightly illuminated mist, like the brighter stars in the midst of the milky way. To make the illusion complete, the light of an occasional motor car flashing past a street corner appeared as a falling star.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER. Buckingham, Que., May 8th, 1916. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston, but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives". I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-tives", and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach, I say take "Fruit-a-tives", and you will get well.

ALBERT VARNER. 50c. a box, 6 boxes for \$2.50, trial size, 10c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

HUNS ELIMINATED FROM THE EAST

Japanese Ambassador on International Politics

His Tribute To Canada

'Great Britain and Japan Working For Same Ideal' - Relations With U. S. Entirely Friendly

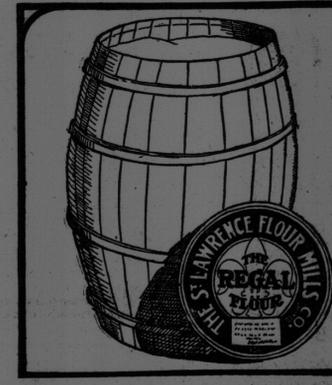

"I just want to say that in regard to the present war I am delighted to see the spirit of determination that animates the Allied Powers," said the Marquis Inouye, until recently Japanese Ambassador to the Court of St. James, to The Toronto Telegram. "That spirit prevails in the hearts and minds of those who are fighting for the same ideals and who have the same objective in view. The hearts of the Japanese people are with the Anglo-Saxon race and their allies in their determination to win for the civilized states of the world that freedom of action which refuses to be dominated by any military autocracy. The same object is aimed at by the peoples of the British dominions, and that homogeneity of spirit is bound to result in a speedy and successful conclusion to the war. Especially in Canada I recognized the martial ardor of the people. Here everything is subordinated to the great aim and object we have in view. Like our allies, the Japanese people are one in determining that this terrible war must be brought to an honorable and glorious termination.

Sacrifices Worth While. "In men in munitions and money, the Dominion of Canada has given of her best and given freely. Out of the abundance of her stores she has poured her strength into the battle arena, and her able glory. When I think of your heroes I recall the days and epochs when Japan emerged from her comparative obscurity and took her place by force of arms in the comity of nations. The military spirit which has made her a great nation has been maintained, but who shall say that they are not worth while? No sacrifice is too great for the preservation of liberty, and the right to work out for their logical ends the aims of free peoples.

At this stage the Marquis said smilingly, "Great Britain and Japan are working for the same ideal. East and west have joined hands in an indissoluble bond of unity. We may have different trade interests, we may be rivals in many spheres of activity, but at heart we are animated by the same spirit. Today, when I am enjoying the hospitality of your glorious country, I think with deepest respect of the sacrifice which has been made, and recognize the heroism of your soldiers. I appreciate their gallantry, their unselfish spirit, and their devotion to duty. It is their first contingent went to the fields of Flanders.

Germany Plans Felled. "What about Kian Chau?" asked the Telegram reporter. "With regard to naval bases," said his Excellency, "we anticipated that the Germans were seeking to make their stronghold for the further domination of the east, and a point from which to strengthen their power in the far east. This is borne out by the fact that they had strengthened the port and made it difficult for the Japanese fleet to take it. Recognizing that it was their last stronghold in the east, the Germans defended the place to the last, and now in our hands, and Germany must view with disquietude the loss of the last link of her power in eastern waters.

China was Victimized. "What will you do with Kian Chau?" asked the Telegram reporter. "Our desire is to return it to China," said his Excellency. "The port belongs to China, and it is our duty to see that it is returned to her. We are not in a position to consider the pretext of the Serbian incident and the rash step Austria-Hungary at the evident instigation of Germany, and the efforts of Russia and Great Britain to stay the frenzy at Berlin, and when we recall the violent dash through Belgium and Luxembourg in spite of treaty obligations with the undisputed intent of striking Paris before the French forces could be effectively mobilized, and the reluctance with which Great Britain was forced into the conflict by a similar obligation—in view of all these things it is simply amazing that such a pretence should be made as that the English brought on the war to destroy Germany and the most peaceful and peace-loving people in the world.

When there is no head to the top of the Flour barrel, what do you know about the contents? Nothing!

But when you see that the top bears the "REGAL" label, you are sure you are getting good flour, which carries a money-back-guarantee of satisfaction that insures you against baking failures.

THE ST. LAWRENCE FLOUR MILLS CO., LIMITED MONTREAL

to them. They were victimized by the Germans, and advantage was taken of them when they were ill prepared to resist aggression. It must be remembered that after the war the Germans may attempt to regain their influence in the east, and an effort must be made to see that they do not succeed in their aims. The port will not be surrendered to any power which has territorial aspirations in this quarter of the world.

Trade Routes Open. "We are keeping an eye on a German cruiser interned at Honolulu, and it may be regarded as certain that there it will stay. The seas are free from German commerce raiders, and their submarine enterprise may be regarded as negligible as far as real results are concerned. Do not take me as undervaluing the power and resources of the enemy. They will strive as only a highly organized state can to make up for past defeats, and it is the task of the allies to hold and conserve what has been gained at the cost of so much precious blood and treasure.

Do Not Covet China. "Is it true, as has been stated, that Japan has territorial aims in China?" asked the Telegram reporter. "Nothing could be further from the truth," said the Marquis. "We have no territorial ambitions in that country. Unlike Germany, we are in favor of the policy of the 'open door'; we believe in equality of opportunity for every country. Let brains and enterprise tell their own story. We ask nothing that we increase. I shall this with joy and unqualified satisfaction. This is, I trust, only the beginning of what should be a great expansion to both countries."

Growth of Japan's Navy. "Our fleet is stronger than ever. You will remember the Kongo?" "She was first, last and all the time to be on terms of the greatest friendliness with the people of the great republic. At least we have the same ideals, the same aspirations, and anything that would keep us apart would be greatly deplored by every lover of progress and national advancement.

Catarrahal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. HALL'S CATARRH CURE acts through the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. F. J. CHENEY & CO., Toledo, O.

The Best Rubber Heel Made Costs You No More Than Other Brands CAT'S PAW RUBBER HEELS Make your step lighter and your walking easier and safer than you have ever experienced. Cat's Paw Heels give enough sound to every step to keep you out of the "Quin Shoes" class. The hard surface of the Canvas Friction Plug does away with this rubber heel weakness. Cat's Paw Rubber Heels for both men and women. All sizes and shapes to fit any shoe. First class dealers carry them at standard prices—30c each. Remember, don't ask merely for rubber heels! Ask for "Cat's Paw" and be sure you get them. Look for the black cat on the box and the Canvas Friction Plug in the heel. The Walpole Rubber Co., of Canada, Limited Montreal

IS THE KAISER ENTIRELY SANE?

From the New York Journal of Commerce and Commercial Bulletin

Some of the recent utterances of the Kaiser of the German empire raise the question whether his mind is not seriously unbalanced. That there is in the past few developments of insanity in his present state of mind is a well-known historical fact. If the inherent tendency has been brought out in his case, under the tremendous strain to which he has been subjected in the last two years, so as to produce a disordered intellect and an unbalanced judgment, it would be nothing unprecedented or strange. It would not be inconsistent with a vigorous intellect and clear vision within the range of his mental activity in what immediately surrounds him. He might appear entirely sane to those who come casually in contact with him. There are many such examples in less conspicuous positions.

Considering the medieval descent of the Hohenzollern dynasty, the traditions that accompany it and the influence under which each generation of the Prussian royal family has been nurtured, there may be nothing strange in the Kaiser's claim of divine authority and divine guidance. Two or three lines in reported addresses recently he has expressed assurance that the Almighty was directing the destiny of his empire and would not permit its enemies to prevail. God was on his side and he was leading a Christian crusade against wicked governments which were seeking the destruction of the holy Christian religion which his empire represents. This is only carrying to an extreme the old theory of the divine right of kings which still prevailed in Great Britain and France only a century or two ago and has not been given up yet in Russia, or in a different phase in Turkey. It is somewhat strange that it should have kept its hold so long in such an enlightened nation as Germany, and there are many evidences that faith in it there is confined to the royal family of Prussia, which has come to rule the German empire, and its official and military entourage, with which it may be a matter of policy as a means of retaining control over the minds of the people. With the Kaiser it appears to be a matter of devout earnestness.

This in itself may not indicate a serious mental aberration; but, if the reports are authentic, which they are, that he is a hopelessly unbalanced mind, it is hardly possible. Take the report from Berné by way of Pontarlier, France, of what he has been saying about the visit to the Somme front, which is spoken of as "being discussed in Berlin" as an example, assuming it to be genuine. He is reported as addressing the soldiers before whom he appeared as "commander" and saying to them: "It is your special privilege to fight against the English, which means that you are fighting against a nation which has sworn to destroy Germany. The English built up during the years before the war the

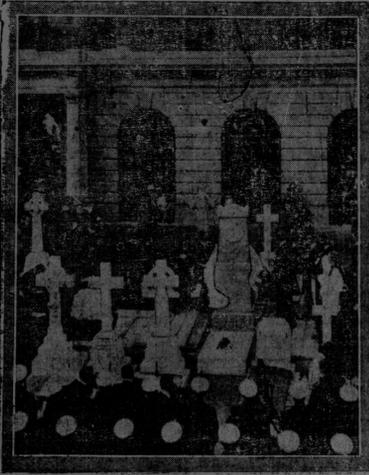

Summer Complaint Was So Bad He Could Not Work

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY Cured Him

Mr. Stephen H. Shaw, Fairmount, Sask., writes: "I have used Dr. Fowler's Extract of Wild Strawberry, and must say it is a fine medicine for Summer complaint. We have so much alkali water here in the west that I suffered from it for some time, and it was so bad that I could not work. I was advised to try 'Dr. Fowler's,' so got a bottle, and in a few days I was as well as ever."

"Dr. Fowler's is the original 'Wild Strawberry.' It has been on the market for the past seventy years. There are a number of preparations on the market today, bearing the same curative powers, called similar names, and trying to trade on the reputation of this wonderful bowel medicine. There is nothing can take the place of 'DR. FOWLER'S.' There is nothing 'Just as Good.' Insist on getting it when you ask for it. The price at all dealers is 85c per bottle. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

MEMORIAL FOR FAMOUS BRITISH AIRMAN

Lord Derby is seen unveiling a memorial erected in Brompton cemetery, England, to the memory of Lieut. R. A. J. Warneford, V.C., whose name was prominent following his destruction of a German Zeppelin near Ghent.

MARKING GRAVES OF THE SOLDIERS

Army Takes Over Work From Red Cross

Many Thousands Marked

Soldiers Aid in Work and Take Amazing Trouble to Provide Fitting Graves—A Labor of Love

One important phase of Red Cross work which has now passed to the control of the army, and which has attracted to little attention, is that of marking the graves of the soldiers who fell in battle. Only those who have lost dear ones can fully understand the keen desire that the exact resting spot of the dead soldier should be known, and that some permanent memorial should be raised, even if it were a metal cross, so that the grave might be identified in the future. In respect for this universal and passionate desire the British Red Cross, and it may be assumed the Red Cross organizations of the other belligerents, has done its utmost to mark the graves of the fallen British soldiers, and an enormous amount of time and labor has been devoted to the task. Of course, there are many thousands whose last resting-place will never be more specifically identified than "somewhere in France," but, thanks to the labors of the Red Cross, many other thousands of graves will be marked and may be visited when the war ends by mourning friends and kinsmen.

Burning the Dead There will be a solemn satisfaction denied in great measure to the friends of slain German soldiers. They have no graves; they have pyres. The German practice is to burn the bodies of all the dead in or near their lines and for this purpose some of the huge furnaces of Northern France have been used. Friend and foe are alike incinerated. The Germans say that this method is the more sanitary, and probably they are right. Bodies buried in a hurry are rarely buried deeply, and when the tide of battle ebbs and flows, and the shells plow up the ground it often happens that undisturbed exhumations occur, and the health of the living is menaced by the imperfectly-buried dead. The Germans solve the problem by burning the bodies of the fallen. The British and French burn only the bodies of the German dead, which it is their duty to dispose of. When it is at all possible they bury their own. Sometimes a dozen, a score or even a hundred are interred in a huge

pit. When it is possible the names of those under the sod are preserved.

A Labor of Love Ian Malcolm, one of the leaders in British Red Cross work, says that it is amazing the trouble that soldiers will take to give their fallen comrades decent sepulchres. In the breathing-spaces after a charge or the repulse of the enemy, when they are awaiting every moment the signal to renew the attack or to beat back another onslaught, the men will throw down their rifles, and taking pick and shovel will make a grave for their fallen comrades. In every case they will try to leave some sign beyond the heaped-up earth that a British soldier lies below. Almost invariably a cross of some kind will be erected. Sometimes it is an improvisation of twigs, sometimes of boards, occasionally of metal, and the name is preserved, often in a mere lead pencil scrawl. It has been one of the duties of the Red Cross to follow the army, search out these little graves, replace the fading pencilled words with chisel or paint brush, and erect a permanent cross or stone. Henry Lavedan, a French writer, says on this point:

A French Description "Remember that soldiers are for the most part buried in their uniforms; there is not in France oak or pine wood sufficient to shroud the victims of war, nor are there carpenters enough remaining living to make coffins for them. They are buried where they fall upon the battlefield, their comrades having just sufficient time to heave their rugged graves with a few stout strokes from a pickaxe or pickaxe, while the enemy per-

Teething During the period of teething when the infant is assailed by an army of distressing complaints—Croup, Gripes, Acidity, Flatulency, etc.—anxious mothers should remember that relief to the little sufferer can always be assured by the use of a perfectly safe and sure remedy, containing no preparation of Morphine, Opium or other harmful drug, and having behind it a long record of medical approval. Doctors and nurses recommend WOODWARD'S GRIPE WATER as a safe and valuable remedy for infantile Disorders. It quickly relieves pain and distress caused by numerous familiar ailments of childhood. AT ALL DRUGGISTS. Canadian Agents: H. F. RICHMOND & Co., Ltd., Toronto, Ont.

Protection Plus "Do you know of any good investment I can make on the installment plan, Dad? I am earning more than I am spending and I would like to place the surplus where it will grow." "How much life insurance are you carrying, Son?" "Oh, I've lots of insurance. If I die Dorothy will get \$2000, besides there's our home and my other real estate." "I didn't mean insurance as protection. Though even at that \$2000 won't yield Dorothy a very big income, if safely invested, out of which you know she will have to pay interest on the mortgage, etc."

URGES UNITY IN THE REICHSTAG

German Chancellor Replies To His Critics

Decries Republicanism

"Be Thankful We Have a Monarchy" He Tells the Socialists in Fervent Speech

Not content with having orally belabored his political and personal enemies in his Reichstag speech on June 5 about peace negotiations and the circulation of pamphlets attacking the German government's alleged weakness during the war, Dr. von Bethmann-Hollweg, the German Imperial Chancellor, followed up this address with another of the same character the next day. The speech, which was in the nature of a rebuttal to assertions by Deputies von Payer and Bassermann to the effect that the Chancellor had given undue publicity to the existence of the anti-Bethmann-Hollweg leaflets, seems not to have been printed in this country. According to Berlin newspapers just received here, it is as follows: "Both the previous speakers, Deputy von Payer and Deputy Bassermann have expressed their regret at the alleged fact, through my speech, of your publicity to these pamphlets. I merely wished upon a few pamphlets out of a bundle of similar publications that as the people house no doubt is aware, have been in circulation for months in Germany, both in the interior and in the trenches. Because I recognized the fact that this agitation not only poisons the sentiment of the people of the interior, but is also capable of finally reacting upon the spirit of those out there. Consequently I consider it my duty not to take refuge in publicity, but to lay these machinations before the public. "The previous speaker has raised objections to the remarks made by me re-

garding the leaflet made by General-landeschaftsdirektor Kapp. Deputy Count Westarp has opined that the reproach of traitorous conduct, which I based upon the Kapp pamphlet and which I repeat today, was not justified by its contents. I would like to direct the attention of this honorable house to the fact that the introduction to this questionable passage reads: 'In the face of this, the Imperial Chancellor falls back upon the unconditional necessary unity of the people that at such a time must back him up with great confidence.' "And then comes the paragraph in which the words appealing for unity are compared with Jesus. I did not see how I was to draw any other conclusion from this than that which I did. If that was not the intention of General-landeschaftsdirektor Kapp, he can, no doubt, explain the matter. Besides, I limited myself to the presentation of this one citation from the pamphlet. It is filled with the sharpest kind of attacks upon me.

Regarding Mediation "In this leaflet I am constantly subjected to the reproach of abandoning the honor of the nation. (Hear, hear" from the left.) This charge is repeated in innumerable places. I do not believe that any one can take it amiss if I make the sharpest kind of a protest against this sort of attack. (Lively signs of approval from the left.) "Deputy Count Westarp has, in the manifesto of his political friends, re-

ferred to Wilson's peace mediation. All I can say is that I have read in the newspapers that President Wilson intends to mediate. I have also read today in the papers that the English press has taken a decided stand against any peace mediation on the part of Wilson. Officially, I have never heard a word to the effect that President Wilson wanted to mediate. Therefore this entire question is absolutely of no importance at present. I do not believe that you will ask me to make a categorical declaration that I would not consent to any sort of peace negotiations that would rob us of the fruits of our victories through pressure that might be put upon us. "Now I should like to make a few remarks about the assertions made by Deputy Count Westarp regarding my remarks of yesterday concerning internal policies and the position to be assumed toward the Social Democracy. I have said before and I repeat it now: 'Accuse me of optimism—I cannot live during this great war without optimism.' (Very good" from the left.) Accuse me of optimism—I cannot live during this war we shall arrive at a condition in which the opposition between nationalists and anti-nationalists, that certainly does not give joy to any of us, will be no more. I am living in this hope, and this hope gives me a great part of the strength that I am obliged to develop in this time of war. Deputy Count Westarp has spoken of the difference between me and the Social Democrats, even after the war. Of course these differences will separate his friends and the other parties from the Social Democrats, even after the war. Of course these differences will separate his friends and the other parties from the Social Democrats, even after the war. Of course these differences will separate his friends and the other parties from the Social Democrats, even after the war.

Republicanism Denounced "Deputy Westarp has said that the Social Democrats have not abandoned their old dogma that you ought to throw

on the junk heap. Throw the dogma of Republicanism to the junk pile, too. It is good for nothing. Be thankful that we have a monarchy. Be thankful for it and do not long for conditions such as we—(shouts of "France" from the Right)—well I shall merely say, as they have in republican countries. "And, finally, I see—I shall repeat it in a little different form—that at present, with but few and almost vanished exceptions, the whole people is united in the will to triumph over our enemies, and that is enough to satisfy me. I would not mar this unity by harking back to party programmes and party doctrines. But, Messrs. Social Democrats, you take care, too, not to disturb this unity; do not use expressions such as I have heard here again today implying that the iron and steel industry was the one that wished to see the war continued because of financial reasons. Do not make such charges that are the most injurious to other people that it is possible to bring up. You should all recognize what thanks we owe to our industries for having adapted themselves in all their branches to the needs of the war. Recognize that in so doing they have performed a remarkable feat, and that if not for the work done by our industries we should have lost the war long ago. "It is an entirely inexcusable wrong when, from this tribune, you hurl into the face of a branch of these industries the reproach that, for lust of gold, it seeks to prolong the war, this war that costs us the lives of thousands of the best and bravest of our sons. Drop that, gentlemen, for yourselves certainly wish to some degree at least, to see the disappearance of the opposing factors that formerly have poisoned our life. But then you must co-operate to that end; you cannot ask others to do everything.

Concerning U-Boat War "I do not dare to go into details of what Deputies Westarp and Bassermann have again brought up here regarding the U-boat war. In case I wished to speak of it in more detail, I would get entangled in statements the injury of which to the whole country we have all recognized. I have never expressed the opin-

ion that the Conservatives have been changed in their views in any way through our negotiations in the committee. Yesterday I categorically admitted that our discussions had only been made endurable by the feeling of honorable convictions. If the differences that have arisen in this matter are not used to make one side suspicious of the other, it would be only to the profit of the Fatherland. Count Westarp approached me with not understanding how to make use of the great national strength in the parties that are fighting against me. We might as well speak openly about this. Of course, I may have made many a mistake, but the gentlemen have not made things easy for me. (Cries of "Very true" from the left.) "When a man is proceeded against as was done in the Kapp pamphlet, it is very hard to have or to find the contact that I seek and that I consider necessary for the good of the Fatherland. Where, then, am I now to find any opposition to those circles, all the members of which, in the bottom of their hearts, do not wish anything else but that we shall emerge from this war victorious? And if we, here in this honorable house, are all united on this single point—and I believe today's proceedings have shown this to be the case—then we should take pains not to keep up the differences that exist among us and not to set them against each other, but we should emphasize the thing that united us, and that is the will that our Fatherland will emerge from this war triumphant and great."

Comparison with the complete text of the Chancellor's speech of June 8, as printed in the Berliner Tageblatt, with the English version sent out from the office of the Kriegspropaganda, a German weekly having good official connections, shows that the report cabled to this country and printed in the American press the next day, while not complete in all details, was substantially correct.

Until recently 70 per cent or more of the waste molasses from Hawaiian sugar factories was thrown away. Furnaces are now being installed to burn this molasses and use the heat for making steam.

The Simple Songs of Long Ago HOW beautifully the sympathetic tonal sweetness of Columbia Records brings out the sentiment, the heart-appeal, and touching simplicity of the fine old ballads! All the romance of the Springtime of Love, of the age "when all the world was young," is expressed with tender, poetic charm in these Columbia Records: ROBIN ADAIR, Columbia Stellar Quartette. JUST A WEARTIN' FOR YOU. Columbia Stellar Quartette. IN THE GLOAMING, Metropolitan Mixed Trio. COME WHERE MY LOVE LIES DREAMING, Columbia Male Quartette. ANNIE LAURIE, Alice Nielsen. KATHLEEN MA'VOURNEEN, Alice Nielsen. DOUGLASS' TENDER AND TRUE, Sung by Mrs. A. Stewart Holt. THE LAND OF THE LEAL, Sung by Mrs. A. Stewart Holt. The quaint tenderness of these records makes an appealing addition to the musical program of a "Columbia Evening." By all means hear them at your dealer's, then select those you would like to hear on quiet evenings at home. And if you have other favorites among the ballads of long ago, you will find them all, sung by favorite artists, in the Columbia Record Catalogue. New Columbia Records on sale the 20th of every month. Columbia Graphophone Company, Toronto. Sold in St. John By THE J. A. MACDONALD PIANO AND MUSIC CO. Market Square

Many Changes During Week In Both Major Organizations Browns Trim Cleveland

Yankees Are Now in Sixth Place; St. Louis Browns Are Beginning to Attract Attention; Brooklyn Gains in National League

During the last week there have been many changes in the major leagues. In the American, Chicago was ousted from first place by the Red Sox; Washington was forced into seventh place by the St. Louis Browns, and the Yankees were sent into the second division by a number of defeats.

The most notable feature of the American league is the sensational drive of the St. Louis Browns. Little is heard of their wonderful playing, owing to the fact that they were so far behind that they were not feared. Now, however, managers are beginning to realize that Fielder Jones has a team which may not win the pennant, but is very apt to interfere with some other club clinching it.

The Yankees at one time were at home down in the cellar, but this year they look out of place, as they keep sliding down the second division.

After handling Washington like a hush league aggregation, St. Louis comes along and starts in by taking a double header from the Cleveland Indians. It is time they were putting on their war paint if they hope to win the pennant.

In the National league, Brooklyn gained on their nearest competitors, the Braves, by half a game. One of the most important series of the season will begin today in Brooklyn when the Braves start out looking for the Dodgers' scalps. If Robbie's men can down the visitors, they should get a lead which will carry them through until the pennant is won.

The Giants keep winning, but they are not looked upon as a championship team. The season has many a surprise still in store for the fans, and who knows but McGraw might be back there looking for another world's championship.

In the International league, Markle, the Yankees' cast off, is not making much of a showing. Yesterday Richmond found him for 11 runs and 14 hits.

THE FOOD QUESTION

IN OCCUPIED BELGIUM

The National Committee of relief and alimentation, managed by Belgians, with the assistance of American delegates, see their task becoming harder from day to day. A new complication has just arisen. The Brussels German administration has forbidden the transmission of orders for alimentary products to Holland. Hereafter, they must go through Berlin. The motive for such a decision is unexplained, but if it is maintained, it cannot certainly make the committee's work any easier.

From all points of occupied Belgium, whence reports go abroad, complaints arise as to the alimentations. At Farnes, for instance, a large borough of the Hainaut, thousands of inhabitants had to be fed for six days, with the remains of three cows, five calves, two hogs and one horse, slaughtered between May 11th and May 10th. Even at that, if most were sold at a reasonable price. But the live stock price-current show that it is impossible for the best-minded butchers to satisfy ordinary customers; the laboring class is out of the question, for these people have long since given up all kinds of flesh-colored alimentations. Here are some suggestive quotations: Cows, 1,500 to 1,700 francs; fat pork, 200 fr.; smoking eases, 170 fr.; one rabbit, weighing 2 kilos, 10 fr.

At Liege's Trade Exchange, the prices of victuals are in the same proportions. Cacao-nut is sold 12 to 14 fr., vegetable fat 17 fr., and soft soap, 4 fr. 50. As to potatoes, the popular food par excellence, none come at all to Liege, so that the housewives' anxiety is becoming more and more general.

At last, the menace of a coal increase in price still further aggravates anxiety among the people and the middle classes.

A more serious fact is that the public are not perfectly satisfied as to the regular bread distribution. The German authorities have, in fact, decided upon selling all the corn products throughout the country and its grinding by a few large mills, to the exclusion of all others, but the question is raised whether, through a well known last minute trick, the Belgian crop shall find its way towards Germany, as it happened in the case of the potatoes.

The consequences of such a situation are the most deplorable that they threaten the whole race in their vital sources. In a letter received from Antwerp, there are stirring passages such as the following: "We are short of everything. The returns of the physicians engaged in the schools, houses of refuge and hospitalities, are terrible. It is even rumored that they are considering urgent measures to prevent the complete distinction of the race. In all the schools the pupils must be weighed and measured every fortnight. A second meal is served to weakly children and, should those who are unable at home reach the school house in the morning, for a very large number of them come in on an empty stomach. Others, for weeks past, live on stale bread only. Isn't it frightful?"

A woodman coming into the city of Yverville, H. G. walked into a restaurant and inspected the bill of fare. A smile passed over his face. After a slight pause he said, "Bring me some fish specks."

"Sir," said the waiter haughtily, "Have you got fish specks?"

"No, sir," returned the waiter, still more haughtily, "I have never heard of them."

"They," quoth the woodman, "take them off the bill of fare."

Expressive Lou won the Matron Stake of \$5,000 at the Grand Circuit meet in Pittsburg yesterday in straight heats. Best time 2:11.

Thomas Earl won the 214 class pace in straight heats; best time, 2:08 1/4.

Worthy Prince captured the 212 class trot, taking two out of three heats; best time, 2:08 1/4.

The Constock stake, valued at \$3,000, was won by Box R in straight heats; best time, 2:05 1/4.

Directum I paced a mile in an effort to lower his own record of 1:58 3/4. His time was 1:59 3/4.

Chappelle Leading Hitter

Chicago, Aug. 12.—Larry Chappelle of Columbus, former White Sox outfielder, holds the lead among the American Association hitters with an average of .388. Jim Thomey of Milwaukee leads in stolen bases with 38.

MISCELLANEOUS "Muggs" McGraw says: "Connie Mack is the Deutschland of the American League, because he is further down the list of the German submarine and will ever get."

The Hundred Million-Dollar Athletic Club, which is staging the Welsh-White championship contest at Colorado Springs on Labor Day, has offered \$100,000 to box Charles Weinert for the heavyweight championship.

Johnny Evers, it now appears, has cut out of the game for about a week.

The Boston Globe says: The American League should vote Joe Lamin all the thanks there is. If the Red Sox had Speaker and that batting average of .301 added to what they already have, there wouldn't be enough raw left in the American League to clog the eye of a needle. When Lamin made that deal, he landed \$50,000 for himself and \$250,000 for the rest of the league.

New Rules Adopted at National League Conference - Veterans Umpire Will Be Remembered

New York, Aug. 11.—At a four hours' conference at league headquarters here the club owners of the National League adopted several new rules and upheld at every point the umpiring corps against charges brought of favoritism and inefficiency brought against it. A protest signed by several hundred Boston fans charging discrimination against the Braves was not even considered. The following new rules were adopted:

Hereafter coaching from the players' bench will be restricted. The players will be allowed to address remarks only to members of their own teams. No word shall be spoken either to or about an umpire, rival player or spectator.

The official scorer hereafter must be notified not less than five minutes before a game of the line-up of the teams.

It was decided, as a token of appreciation to Robert Eganle, that on next Saturday, the 29th anniversary of his appointment as an umpire in the National League, a fitting testimonial shall be given him between the games of a double-header at Ebbets' Field, Brooklyn.

The following magnates were present at the meeting, which was presided over by President John T. Tener: Percy D. Haughton, Boston; Charles H. Ebbets, Brooklyn; Charles Weightman, Chicago; Harry N. Hempstead, New York; Schuyler P. Britton, St. Louis; Wm. F. Baker, Philadelphia.

The only absentees were Barney Dreyfuss of Pittsburg, and Garry Herrmann of Cincinnati.

Recall of Players A HARD BLOW TO INT. LEAGUE CLUBS

Toronto Daily News.—The International League will be hard hit if all the big league clubs recall the players scattered through the organization on optional agreements. Nearly every team will be affected, and Montreal more than the others, as the Royals' three best pitchers, Cadore, Colwell and Good-bro are Brooklyn farm-hands. The League has already suffered by the loss of Shocker, and the chances are that "Jimmy Smith" will also go. The little

Valcartier Camp Is Making History by Fitting Men to Fight the Empire's Battles Overseas. NOW that the great Allied offensive is under way, gaining momentum with every stride, Canadians in training here and Overseas grow keener and more impatient to "get into the thick of it." Valcartier, already historical, is doing wonders in fitting men of Eastern Canada to uphold the standard of our gallant lads who have already played the game so bravely and effectively in Flanders. As they "pal" together at Valcartier, comparing notes and equipment, those who are without cannot help envying those who have Gillette Safety Razors. If there's a lad there whose comfort interests you, send him a Gillette, or a good supply of blades.

LOCAL NEWS

FURNISH LINES AT HALIFAX
The business liner Tabasco arrived safely in Halifax last night at 9.30 o'clock from Liverpool.

BIRTHS AND MARRIAGES
The birth of eleven infants, five males and six females and thirteen marriages were reported to Registrar John B. Jones during the week.

TO WINDSOR FOR BURIAL
The death of Benjamin J. Barnes was taken to Windsor, N.S., for burial. Services were conducted at his late residence, 48 Exmouth street, last evening by Rev. J. A. MacKeigan.

HERBERT W. WINCHESTER
The death of Herbert Wellington Winchester, aged ten years, occurred this morning. He is the eldest son of Mr. and Mrs. Robert Winchester of 247 Waterloo street. Besides his parents he is survived by three brothers, Kenneth, Walter and William.

IS A ST. JOHN MAN
Rev. Charles O'Hara, C.S.S.R., of St. Patrick's church, Toronto, who made a ten days' retreat at St. Peter's church, returned home last evening. Rev. Father O'Hara is a son of Mr. and Mrs. Charles H. O'Hara, Douglas avenue.

FATHER AND TWO SONS
John McMaisters of Fairville left last evening for a volunteer camp to join the 140th battalion. He was accompanied by his two sons, Fred and Oscar who have been home on a short furlough. Father and two sons are all in the life and drum band and it is understood Mr. McMaisters is to be made band captain, a position he should well fill as he is long experienced in band music.

CHINA SET PRESENTED
On Wednesday evening about two hundred guests assembled at the home of Miss Mary Brown, Public Landing, and presented to her a beautiful set of Hingoes china in honor of a happy event in which she is to be one of the principals in the near future. The presentation was made by Maurice J. Delaney. The remainder of the evening was spent in games, dancing and card playing.

LANCASTER MEN GO WEST
The call of the west for harvesters to husband the bumper crop of wheat has been heard in Lancaster and it is said more men will respond this year than usual, no less than twelve from the pulp mill employ alone being expected to leave. Among the number who are to go on tonight's train are Herman Beveridge, Harry Stevens, Albert Burns, Edward Cunningham, all of Fairville, and Arthur Coleman of the ferry.

NINETEEN DEATHS
Nineteen deaths have been reported to the Board of Health during the week. There were three from senility, two each from cholera infantum and carcinoma, and one each from the following: Pneumonia, appendicitis, cancer of stomach, cancer of kidney, cancer of uterus, sarcoma of humerus, bright's disease, intestinal obstruction, mitral regurgitation, gangrene of foot and arteria sclerosis.

RIVER TRAFFIC
River steamers, which arrived at Inlandtown yesterday afternoon, brought a large quantity of potatoes and green goods to the city, in addition to crates of raspberries and blueberries. Potatoes sold for 6c, and a bushel of raspberries and blueberries for nine to twelve cents, and seven cents a box, respectively. The steamers which left for up-river this morning took large freights and several passengers.

FUNERALS
The funeral of Mrs. Emily Simpson will take place this afternoon from her late residence, Prince Street, West end. Services will be conducted by Rev. J. H. Jenner with the interment in Cedar Hill cemetery.

The funeral of Miss Daisy Marguerite Berteaux will take place this afternoon from her late residence, 17 Camden street. Services will be conducted by Rev. Neil McLaughlin and interment will be made in the Cedar Hill cemetery.

The funeral of Mrs. Mary Sullivan, who died in Moncton on August 11 and whose body was brought here for burial, took place this morning. Services were conducted in Moncton by the Rev. Edward S. age. Interment was made in the old Catholic burying ground this morning.

The funeral of Charles Dunn took place this morning from his late residence, 444 Main street, to St. Peter's church where high mass of requiem was celebrated by Rev. J. McDougald, Rev. Joseph McLaughlin, Deacon and Rev. P. McPhail, sub-deacon. Interment was made in the new Catholic cemetery.

REAL ESTATE NEWS

Transfers of real estate property have been recorded as follows:

St. John County
Coldbrook Realty and Dev. Co., Ltd., to Myrtle and D. A. Sherwood, property in Simonds.
Henry Dunlap to J. H. Dunlap, property in St. Martin's.
Hiram Nice to Alice Spicer, property in Charlotte street.
T. L. O'Brien to Michael Kelly, property in Simonds.

Kings County
Samuel Appt to Daniel Appt, property in Westfield.
D. T. Doyle to G. F. Seely, property in Greenwich.
Geo. Ellison to Florence A. Ellison, property in Sussex.
David Given to David F. Given, property in Norton.
Lalash Gray to David Given, property in Norton.
J. W. Jones to L. M. Jones, property in Kar.
G. L. Maynes to H. R. Weatherhead, property in Rothsay.

TO CATHEDRAL STAFF

Rev. Francis Walker, who was raised to the priesthood by His Lordship Bishop LeBlanc on June 29, has been added to the Cathedral staff and arrived in the city yesterday to take up his new duties. Father Walker is a graduate of St. Dunstan's College and is a native of Moncton.

It is rumored in clerical circles that some important appointments are to be made in the near future.

The fact that Coeque, a very large and important parish of this diocese, is now without a resident priest, will necessitate an appointment very soon. It is not known yet who will be sent there, but it will undoubtedly be a French priest, as the district calls for a French-speaking clergyman.

MARITIME MEN IN CASUALTY LIST

Ottawa, Aug. 12.—Midnight casualties:

Infantry
Wounded—Geo. Thomas, Milton, N. S.; Patrick John Wall, 8 Balsam street, St. John's, Nfld.; Alex. Langford, Yarmouth, N. S.

Mounted Rifles
Wounded—Charles MacPherson, Moncton, N.B.

Artillery
Wounded—Gunner John N. Cunroy, 60 George street, Charlottetown, P. E. I.

Sussex Man III
Ottawa, Aug. 12.—Morning casualties:

Infantry
Seriously ill—Charles F. Armstrong, Sussex, N.B.

Wounded—Pioneer Austin Twist, Caledonia Mines, Glace Bay, C.B.

FAIRVILLE NEWS

Friends will be glad to learn that the condition of the young lad, Weldon Dunlap, son of Captain and Mrs. Dunlap, Lancaster Heights, has somewhat improved the past two days. The boy fell from a hay mow in the Annex Hospital a week ago and has been seriously ill since.

Mr. and Mrs. John Baxter and son Reggie of Sclerston, N.S., who have been visiting Mrs. James Wood, Manawagonish road, Fairville, leave today for Upper, Kings county, to spend a few days with Mr. Baxter's parents.

Stephen Doyle of Prospect street, who met with an accident in Randolph & Dalley's mill this week, is resting comfortably in the infirmary. It was found necessary to amputate the small and third fingers on Mr. Doyle's right hand. The new concrete sidewalk is gradually being extended out the Manawagonish road, having reached W. A. Nelson's residence last night.

WORK OF C. P. R. FARMS

The C. P. R. is self-contained in a remarkable degree. The company produces its own eggs, milk, cream, butter, vegetables and so forth. It even makes its own soap. Of course it bakes its own bread in the series of big bakeries it has established all over the system. It has half a dozen farms, such as that at Fredericton Junction, which were created specially to supply the service with the very best dairy and garden products. That is why the C. P. R. has such a reputation—it has one quality the year round, because it has its own facilities for continuous production. The farms are an object lesson as well, and a valuable one, for many farmers all over the country have taken pattern from the demonstration farms and by doing so have put much good money in their pockets—but the quality of the foodstuffs was primarily in the mind of those officials who supervise the dining car service. The farms, however, in addition to supplying the company with the things of quality, have taught many useful things to the new-comers in the country, many of whom brought with them related notions of farming from European countries. The result has been to greatly raise the standard of production, which has been of benefit to all concerned.

HOLIDAY ATTRACTIONS

The feature attraction for the half holiday is the mammoth fair which is to be held at Westfield. The fact that the affair is so worthy an object is perhaps the incentive which will draw many to the scene, while again others will avail themselves of an opportunity to spend the half day at this attractive summer resort. Trains, automobiles and motor boats will carry people to the grounds and thousands are expected to be in attendance.

At Seaside park a picnic will be held and will be featured by children's games and races. An orchestra will furnish music in the evening. This event will undoubtedly attract many people who enjoy a few hours at the beach.

Rockwood park with its natural beauties and attractions is always a popular place to spend the half holiday. While there are not special attractions at the Power Boat Club or the Royal Kennebecasis Yacht Club, many of the members will undoubtedly spend the day on the river.

News of Maritime Men In The War

Up to noon Friday, sixteen recruits had enlisted in Fredericton during the past week. Two arrived from Edmonton, one of them being a native of Australia, Jack Barry. He is a sailor and has been in practically every country in the world. Other recruits were: Joseph McNeil, 24, of Souris, P.E.I.; P. M. Renaud, 21, of Cape St. George, N.B.; and L. J. Rutherford, 46, of Fredericton. The colored men, six in number, who have enlisted with No. 2 Construction Corps, are: Manser Eastman, James Hector, Charles O'Ree, Frank Clayborn, George H. Clayborn and Wesley Eastman.

Sprained His Ankle
Sergt. Christopher McKay, of St. Stephen, who was taking a course in a military school in France, stepped into a hole and badly sprained his ankle, and is now in a hospital in England.

Have Joined the 65th
E. Healey, C. Wall, R. Dunbar and Robert Sands, four well known Moncton boys, have signed on with the 65th Battery and leave at the beginning of the week for Woodstock to join the unit.

Shot in the Lung
Mrs. W. B. McKenzie of Moncton received word a few days since from her son, Major Brouard McKenzie, stating that the shot perforation in his left lung had been healed and that he hoped to start for Canada in two months or so. He will probably be granted six months' leave to absence to recover. He is, however, still in the hospital in France.

A NEW TEACHER
Miss Ada Ayeen, who has for so many years conducted the violin classes and orchestra of the Mount Allison Conservatory of Music, has asked for a year's rest and leave of absence. Professor Gunnar Ekman, a violinist of marked ability, has been appointed to fill the vacancy. Mr. Ekman is a Swede by birth and comes highly recommended.
