## Liquor Question In Death of Big Movie Producer Is Probed ZINOVIEFF LETTER IS CLAUSTRIC

### ATTORNEY STARTS INVESTIGATION OF T. H. INCE'S DEATH

Picture Magnate Said to Have Attributed Illness to Drink.

#### YACHT TRIP

Elinor Glyn and Hearst Amongst Those in Party on the Trip.

By Canadian Press.

#### LOS ANGELES, Dec. 10—

The illness and death of Thomas H. Ince, motion picture producer, subsequent to a yacht party in San Diego harbor last month, has been made the subject of an unofficial investigation by Chester C. Kempley, district attorney of San Diego county, the Los Angeles Times says. Ince died of acute indigestion inducing heart failure, according to the report of his attending physicians. The circumstances surrounding the illness, which appeared early on Nov. 17, while aboard the International Film Corporation's yacht *Onida*, are what Kempley hopes to clear up with his investigation, the Times explains.

#### Doctor Says Liquor

Among those so far interviewed by the district attorney, two, Dr. Truman A. Parker, and Miss Jessie Howard, a trained nurse, have both stated, the Times quotes Kempley as saying, that Ince connected his illness with liquor. The district attorney and his investigators have been able to learn of the yacht party and Ince's illness contained in the following account, according to the Times:

#### Notables on Yacht

The yacht *Onida* left San Pedro harbor late Saturday, Nov. 15, dropping anchor in San Diego harbor early Sunday. Aboard were William Randolph Hearst, publisher; Elinor Glyn, novelist; Marion Davies and Seena Owen, motion picture actresses; Dr. Daniel Carson Goodman, head of the Cosmopolitan Productions, and others. Ince left the yacht early Monday with Dr. Goodman and with him boarded the morning train for Los Angeles. Witnesses said the producer at that time appeared to be in distress.

#### Is Taken From Train

Twenty miles out of San Diego at Delmar, Dr. Goodman removed Ince from the train, hailed a passing automobile and took the sufferer to a hotel. Dr. Parker then was summoned and he, in turn, called for the trained nurse, Miss Howard.

When he arrived at the hotel, Dr. Parker diagnosed the case as heart trouble and prescribed remedies. He left instructions that the patient should rest.

#### Who Is Called

He planned to see the patient again the next day, but was informed in a note left with the hotel clerk by Mrs. Ince, who had been hurriedly summoned from Los Angeles, that his services would no longer be required. Mrs. Ince later called in Dr. Ida C. Glasgow of Los Angeles, who took charge of the case.

### SEEK SETTLEMENT OF DIFFICULTIES IN MEDITERRANEAN

Friendly Collaboration was Aim of Conference, Says Chamberlain.

#### WILL MEET AGAIN

Rome, London and Paris Agree That United Action is Possible.

Canadian Press Cable.

ROME, Dec. 10.—The British Foreign Secretary, Austin Chamberlain, received Italian newspaper men at the British Embassy last evening and, during the course of the conversation, it transpired that the former, in previous talks with Premier Herriot, of France, and Premier Mussolini, of Italy, had discussed not only the Moroccan problem but the whole question of the North African coast.

#### To Maintain Peace

Mr. Chamberlain said that the discussions of these subjects were inspired wholly by the desire to maintain peace, and that the basis of the British policy was to effect a collaboration between the nations interested—Great Britain, Italy, France and Spain—so as to find a friendly solution of the difficulties.

Neither in Paris nor Rome discussion it was said, was there any talk of the equilibrium of the Mediterranean as a result of friendly collaboration.

#### Will Be Continued

It was added that the conversations between the chamberlains would be continued, and that there would be no need to call a special conference for the time being. It was a remarkable step forward, said Mr. Chamberlain, that the cabinets of Rome, London and Paris had agreed to collaboration was possible and easy.

### JURISDICTION IS CHANGED TO N. B.

Incorporation at Fredericton Has to Do With McAvity Shell Making Here.

Special to The Times-Star.

FREDERICTON, N. B., Dec. 10.—Maritime Manufacturing Corporation, Limited, is incorporated in this province. It is a company incorporated under the laws of the State of Virginia, under the name of the Maritime Manufacturing Corporation, with head office at Alexandria, in that state.

The shareholders are incorporated in New Brunswick, with capital of \$1,000,000 and head office in St. John, N. B. The company is authorized to take over the business of the Maritime Manufacturing Corporation and engage in a general manufacturing business.

H. A. Porter, solicitor for the company, said this afternoon there was not any special significance in this. It was purely a re-incorporation of the subsidiary company of T. McAvity & Sons, Ltd., that had a large contract for manufacturing shells for the United States during the war. No purpose was served in having the subsidiary under United States jurisdiction, and the jurisdiction had been transferred to New Brunswick under the Joint Stock Companies Act.

### U. S. WILL ATTEND ARMS CONFERENCE

League of Nations Sets May 4 For Date of Parley.

By HENRY WOOD.

UNITED PRESS STAFF CORRESPONDENT.

GENEVA, Dec. 10.—Receipt of word from Washington that the U. S. government would accept an invitation to a conference to consider restriction of traffic in arms, today gave new impetus to deliberations of the League of Nations Council. A message from Secretary of State Hughes completely offset the general regret that it had been found necessary to Great Britain's request to agree to postponement of a proposed disarmament parley originally scheduled for next June.

To Sit On May 4.

The council set May 4, 1925, as a date for the arms traffic conference, which probably will be the most important development of next year toward establishment of permanent restrictions on the sale of arms.

It also decided to have a committee meeting February 6 next to prepare for the parley.

### Honorable—First!

Mrs. Ross, Governor-Elect of Wyoming, Began Sons to Keep Father's Name Spotless

MRS. NELLIE TAYLOR ROSS, Governor-Elect of Wyoming.

I have always told my three children that my consuming desire for them is that they be first of all honorable; after that, brilliant and successful, if possible, in any career to which their inclination might lead them.

I think that as soon as children are old enough to all up and listen, parents should begin to instill in them the principles by which they expect them to conduct their lives.

When I assume office in January, I hope to serve all the people of my state impartially. I do not think of them in groups or classes.

I certainly, though, shall never be indifferent to the welfare of women. But I think, as a usual thing, the interests of men and women are interwoven in the state, just as in family life.

They share alike the benefits of prosperity or the distress attendant upon hard times.

### B. C. Minister Will Ask For Abrogation of Canada's Part in Anglo-Jap Pact

VICTORIA, B. C., Dec. 10.—Abrogation of the Anglo-Japanese Treaty, as it affects Canada, will be asked in a resolution placed on the order paper of the provincial legislature by Hon. William Sloan, Minister of Mines. The motion will call upon the federal government to press for partial cancellation by the imperial government.

This is the most drastic of a number of anti-oriental bills introduced this session by Liberal members. It is related to the domestic servants measure which Mrs. Smith has introduced, as the complaint is made that the Smith bill will conflict with the Japanese treaty passed and will prove to that extent ultra vires.

### Porto Rico Seeks Elective Governor

SAN JUAN, Porto Rico, Dec. 10.—With the hope of having Congress pass at its short session a bill giving Porto Rico an elective Governor, Porto Rico will send a small commission to Washington not later than January to work for such a measure.

### Sir A. Smithers Left £40,000

LONDON, Dec. 10.—The estate of the late Sir Alfred Waldron Smithers, who was chairman of the Grand Trunk Railway, now merged in the Canadian National Railways, and who died August 22 last, has been probated at £40,000.

### Fatherless Lad Appeals to Santa On Behalf of Self and Little Sister

In the Times-Star Stocking Fund mail this morning came the following letter:

"Dear Santa Claus:  
"Would you please be so kind as to send me a pair of boots, size 1, and a pair of stockings and my little sister, a nice big doll and some toys, as she is only four years old next Thursday. Dear Santa, please don't forget us, as our father died a year ago and we have no one to get any toys for us."

When 50 cents or one dollar or more from many people will fulfill such wishes as this, it is sincerely hoped there will be a generous response. Many letters such as that shown above are received daily and are read sightly on life in the city. There's a considerable amount of organization work to do in order to meet these appeals by Christmas, and donors are requested to have their contributions sent in as early as possible. Every dollar received will mean happiness for one of two more kiddies, who otherwise might have a lean Christmas.

### EXPECT INCREASED MARITIME BUSINESS BY C. G. M. BOATS

Forty-three Vessels Will be Employed During the Winter Season

#### TRADE IMPROVING

Cargoes Formerly Billed Via U. S. Now Coming Direct to Canada

By Canadian Press.

MONTREAL, Dec. 10.—Some 43 vessels will be employed by the Canadian Merchant Marine, Limited, in 12 regular services from Halifax, St. John and Vancouver during the coming winter, according to new winter schedule issued by the company.

A new departure is the inauguration, in January, of separate direct monthly sailings between Halifax and New Zealand and between Halifax and Australia. The Canadian Britisher, from Halifax, January 24, and the Canadian Challenger, from Auckland, Wellington, Lyttelton and Dunedin.

#### Trade Demands Increase

In announcing this increased service to the Antipodes, the management of the C. G. M. M. says that present trade conditions and the demand by shippers for better facilities for the movement of traffic to and from Canada are the principal reasons for their decision at this time to increase their services.

It is further anticipated that the exchange of commodities between Canada and New Zealand and Australia will largely increase in volume of traffic hereafter. Vessels of 8,600 tons and 10,000 tons will be used exclusively in these trades.

#### St. John Services

The service previously operated from Eastern Canadian ports to London and Antwerp on a fortnightly basis will be continued from St. John, N. B., during the winter season as from the latter port of December, with a sailing each two weeks thereafter.

The schedule just published indicates that the regular services as previously provided by the C. G. M. M. will be maintained from St. John, N. B., to Cardiff and Swansea and from Halifax, N. S., to the West Indian colonies.

#### West Indies Sailings

The passenger service from Halifax to Bermuda, the Bahamas, Jamaica and British Honduras, will continue to be maintained by the steamers *Canada*, *Fisher* and *Canada*. Forester sailing each three weeks from Halifax and heavy tourist travel during the winter months is anticipated.

The support given the intercoastal and oriental services, inaugurated from Montreal last May, during the entire St. Lawrence season having been satisfactory, monthly sailings from Halifax during the winter season will be maintained on a regular basis, and the dependability of regular arrivals and departures will do much to assist in the development of new business by shippers and receivers in the eastern provinces.

### N. B. DOCTOR DEAD

MONCTON, N. B., Dec. 10.—Dr. Eliezer Arthur Gaudet, a former well known resident of Memramcook, died last night in Moncton. He was 44 years of age. ### Ontario Will See Sun's Total Eclipse

TORONTO, Dec. 10.—Total eclipse of the sun, a phenomenon which occurs in any particular locality perhaps only once in two or three centuries, will take place on January 24, and this part of Ontario will be in the path of the moon's shadow on the earth, giving citizens an opportunity they will never again enjoy unless they make a special trip to some other portion of the earth's surface. The belt by shadow will trail across a section of Ontario, of which Hamilton will be in the centre, across the New England states over New York to the Atlantic ocean.

### Spent Last Twenty Christmas Days In Jail; Out This One

ATLANTA, Ga., Dec. 10.—(United Press)—W. A. Wilkins, 35 years old, of Richmond, Va., has spent the last 20 Christmases in jail. This Yuletide he expects to be on the "outside looking in." The aged man was arraigned in police court here and pleaded guilty to soliciting alms on the streets.

"Judge, I have spent the last 20 Christmases in jail, and I pray you won't make me do it again," he pleaded. "I served terms for burglary and highway robbery here in Virginia, but I came to Atlanta to remake my life. I was down and out and here I am." Judge Murphy Holloway, moved by the prisoner's plea, sentenced him to the stocks until noon, December 24.

### HERRIOT IS ILL

Retires to Bed After Strenuous Activity Against Foreign Agitators.

By A. BRADFORD.

PARIS, Dec. 10.—Exhausted by his efforts in directing a nation-wide drive against Communists and foreign agitators, Premier Herriot was ordered to bed by his physicians today suffering with grippe and rheumatism. Doctors remained with the Premier constantly, although his condition was not considered serious.

#### Chamber Votes Confidence

Just before Herriot retired ill, the Chamber of Deputies gave him an overwhelming vote of confidence on his internal policy of vigorously repressing the "Reds." Appearing in the Chamber, the Premier assured the deputies he had taken drastic measures only to prevent bloodshed the members cheered and vote confidence in the government, 629 to 19, was passed.

### BALDWIN TELLS PARLIAMENT OF CABINET REPORT

Opposition to Imperial Preference and Singapore Matters Anticipated.

#### MACDONALD ILL

Former Premier Made Bad Impression in Speech Yesterday.

British United Press.

LONDON, Dec. 10.—Premier Baldwin announced in the House of Commons today that the cabinet committee investigating the source of the Zinovieff letter had unanimously concluded that the document was authentic.

Both Imperial preference and the building of the Singapore base, the two great questions to which reference was made in the King's Speech, will be met with a bitter challenge by Labor and the remnant of the Liberal party, but there is not the slightest chance of the Tory Government weakening on either project.

#### Say Challenge To Japan

On the question of Singapore the opposition is less vigorous than that on Imperial preference, but Liberals as well as Labor are already committed to opposition of the scheme and the left wings of both parties are very strong in their denunciation of the proposal as a gross waste of money as well as a challenge to Japan.

Labor as of official opposition is determined to fight most of the government's measures but MacDonald's leadership is imperilled. He is suffering from exceedingly ill health and is said to be late at the ceremony yesterday through forgetfulness, but his speech last night on the Zinovieff letter was universally laughed at today, even his own supporters saying that he would be well advised to drop the whole matter since he was one of the principals involved in it.

#### Lloyd George Real Leader

Lloyd George is looked upon as the real leader of the opposition benches. The idea of a modified form of Imperial preference to be called to settle the attitude of the Dominions on the Geneva protocol is rapidly gaining popularity, since the principle has been laid down by Premier Baldwin that it is necessary to have the fullest operation of the overseas dominions in the Empire. The form of the Government's alternative proposal, which will have to be considered by the various empire governments and this cannot be done successfully or efficiently by correspondence owing to the long delays in obtaining expressions of opinion.

### STRESSEMAN ASKS CABINET TO RETIRE

Folkes Party Unwilling to Become Part of "Great Coalition."

By CARL D. GROOT.

BERLIN, Dec. 10.—Dr. Stressemann, German Foreign Minister, proposed today that the present cabinet retire January 3, and make room for a bourgeois ministry including Nationalists, provided the latter would adhere to the government's foreign policy, especially the Dawes Plan.

Simultaneously Stressemann's party, the Folke Party, declared unwillingness to join the so-called "Great Coalition" with the Socialists and Democrats who during the election campaign designated the Folke Party among the enemies of the Republic.

Chancellor Marx was expected to take this as a deathblow to the "great coalition" idea and resign.

### R. C. Presbytery at Nelson Is Burned

NEWCASTLE, N. B., Dec. 10.—Fire which broke out about 1 o'clock yesterday morning completely destroyed the Roman Catholic presbytery at Nelson together with all its contents.

The fire, which apparently caught from the furnace, had gained such headway that nothing could be done to save it or its contents, and it was soon a heap of ashes. It was warily covered by insurance.

SHIP FROM ST. JOHN SEIZED IN NORFOLK

At an early hour yesterday morning Otty Campbell, who conducts a grocery store at the corner of Main and Albert streets, heard a crash of glass and looking from the window of his home saw a man standing near his store. The Evening Times-Star printed 23-27 Canterbury street, every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., J. D. McConn, President.

ST. JOHN, N. B. DECEMBER 10, 1924

A NEWSPAPER MAN

These died last Sunday in New York City Mr. William C. Reick, formerly owner of The Sun, and of The Evening Sun, at one time proprietor of the New York Journal of Commerce, and for many years prior to that titularly "city editor," but really managing editor, of the New York Herald, and chief lieutenant of James Gordon Bennett the younger.

It may be thought, hastily, that the death of Mr. Reick is of no possible moment here. In one sense that is quite true, but in another it is scarcely all that may be said. When men die, we attempt to measure them. Too frequently the first question is: How much money did he leave? Is it not sad that a race of men having inhabited the earth for many thousands of years—scarcely have yet determined how many, yet they are ever extending the period—should still be asking such a question when a man dies next door, or when a rich man dies in New York, or San Francisco, or London, or Melbourne, or in Zanibar? Unluckily, it appears to be true that out of every hundred human beings a very high percentage live by the gold standard.

The New York Times, of which for a time Mr. Reick was managing editor, does not tell us anything about his estate. Perhaps it is modest; perhaps it is extensive. Mr. Reick at one time commanded many millions of money. He had the unstinted backing of Mr. Clarence H. Mackay, and of many other millionaires, because he was a great maker of newspapers, a most astute judge of public opinion, and one of the best news editors which the American newspaper world has produced in the last half century.

Mr. Reick, it is to be noted, did not have to worry about money. Until he became ill a few years ago he always had at his command, or could have at his command within a very short time, all of the money which he required for any purpose he had in view, after he had examined the ground and had definitely fixed his objectives. He might be well to depart from a very common standard of measurement, and apply another sort of yardstick to Mr. Reick.

He had character, courage, faith in himself, and a deep knowledge of human nature. These are not bought or sold in the market place. Sometimes men are bought and sold there—women—but no man ever bought William C. Reick; and while the James Gordon Bennett of our time was undoubtedly, and many times a millionaire, and while Mr. Reick was his employer for a long time, the employee was ever his own man, as Mr. James Gordon Bennett had reason to know very definitely on more than one interesting occasion.

The New York Herald, when it was at its best, was a newspaper made by William C. Reick.

Mr. Reick was a newspaper man, not a Journalist. In Canada and in the United States, if a man is called a Journalist, he usually replies—no, the phrase is very hackneyed—and he says it smilingly and without the intention to offend—on this continent a Journalist is usually a newspaper man out of a job.

Mr. Reick was once in St. John, some years ago. He was leaving New York for a rest in a milder climate, and not having seen this port or indeed very much of Canada before, he came to St. John and took ship here for the West Indies. He was rather surprised to find in this part of the world a harbor open the year round—it was then winter—and transatlantic steamers of a good type, as well as a comfortable boat for the West Indian voyage. His lack of knowledge of this port was due to no want of breadth of view on his part, but merely existed because he had been too busy a man to think very much about St. John. He was always delighted to learn something, always eager to do so, always insisting upon it and adding a little to his store of knowledge; and in St. John he learned something, too.

At one time, when he had a moment of leisure, he used to entertain a few of his friends by discussing the New York newspaper world, and he used to say, smilingly, that there were so many Canadians engaged on the New York newspapers in various capacities, but chiefly as writing men, he was afraid the metropolitan press was being Canadianized.

They had gone to New York to learn their business more thoroughly, and among the number he never forgot to mention were: Mr. Thomas M. DeLauda,

formerly of the St. John Telegraph, who was for most of his active life engaged in an editorial capacity or another on the New York Evening Sun; who was on board the battleship Texas, for the Sun, during the battle of Santiago with Captain Phillip, of Schley's squadron, on that memorable morning in '98, when Spain's fleet in being was destroyed in an hour; when the Texas, along with the Brooklyn and the big Oregon, ran down the last of the fleeing ships forty miles from the rocky mouth of the harbor, and, seeing her white flag fluttering, took off her captain and crew, and called it a day; DeLauda who wrote a memorable and glorious story about the Mont Pelée disaster; who wrote the best of all newspaper stories about the San Francisco earthquake and fire; who was the best newspaper man on the job when President McKinley was assassinated; who covered many national conventions; who imbibed the very spirit of Dana's Sun; and who did not long ago to the sorrow of all who knew him; Henry O'Leary, another New Brunswicker, almost the first of those from this province who sought fortune and knowledge in New York; and who now, as he always wished to be, is a successful collector of rare books and manuscripts; but who was for long on the New York Press; Mr. James Dever, formerly of The Sun, trained under Charles A. Dana, and now holding a position of importance on the New York World; the late William McInerney, who held many positions on different New York newspapers, and who was not only one of the most brilliant newspaper men ever born in Canada, but who had a remarkable and delightful personality, and whose death caused the most sincere regret among the comparatively small circle by which he measured his friendships; the two Bodens, John Sr., and John Jr., who were long together on the old New York Press, and whose knowledge of racing was unequalled even in a day when sporting writers flourished in New York in a more striking way, perhaps, than they do even in these days, when Belmont Park is for a season the magnet for not only sporting people but for society as well; Dr. Oscar Watson, who for a great many years has been foreign editor in the head office of the Associated Press in New York; another St. John man and a graduate of the University of New Brunswick, as DeLauda was, an expert in his knowledge and in his handling of foreign cable news—There are a few, and the list need not be extended. It is not necessary to labor the point.

Odds and Ends

"You never know what you'll find among the odds and ends."—From Notes by a Wayfarer.

LOVE SONG OF HAR DYAL

(From Kipling's "Beyond the Pale.") Alone upon the housetops of the North, I turn and watch the lightning in the sky— The glimmer of thy footsteps in the North, Come back to me, Beloved, or I die! Below my feet the still barbs lie laid, Far, far below the weary camels lie— The camels and the captives of thy raid. Come back to me, Beloved, or I die!

My father's wife is old and harsh with years, And cradles of all my father's house are I. My bread is sorrow, and my drink is tears, Come back to me, Beloved, or I die!

Music With Your Meals

(Worcester Telegram.) A British organist says the café bands and the "other New Brunswickers," almost direct incentives to indigestion and far more dangerous than bad cooking." He believes that if people listen to music "they cannot give necessary attention to the food to secure the full flavor of it."

The head of one of the largest chain restaurant systems in the British Isles disputes this view. He says people "digest food better when they are cheerful, and music makes them so." There is no dispute about the value of cheerfulness as an aid to digestion. Doctors have long advised people not to eat when they are excessively tired or when they are especially disturbed or angry.

Yet there may be something to the organist's opinion. Does music always make diners more cheerful? Are they always glad to have the music start up, and are they always sorry to have it stop? Sometimes diners like to talk. They may have plenty of interesting things, and cheerful things, to discuss. If the music is loud it interrupts them. Others may not desire the music at all, but feel bound to take part in the conversation instead. It is safe to say that at least some of the diners are always displeased to have the music start up, and that they feel that it is too loud or not loud enough, that there is too much of it or not enough of it.

CHRISTMAS AND NEW YEAR

It will not be long before the silver notes of chimes and the tuneful echoes of Christmas carols will be resounding throughout the universe carrying with them a message of peace and good cheer. Christmas is considered by every Christian throughout the world as the most precious and pleasant memory that will leave sadness in their wake. Many do not go in for their own happiness, but strive to make this day one of real joy for others and thus derive pleasure.

Where Silence Was Golden

A curious story of a bar of gold and a woman's revenge was revealed recently before the tribunal in Geneva. In December, 1917, Messrs. Gay & Co., a firm of jewelers, gave orders for the transport to their factory of several gold bars, which were placed on an ordinary handcart covered with sacks, and drawn through the streets by two employes without a guard.

While going up a steep hill one of the bars fell unnoticed into the deep snow in the street, and it was found later by two workmen who carried the precious metal home and hid it in a cellar.

According to a local law, if a lost article is not claimed within a certain period it becomes the property of the finder, and therefore the two workmen would have been made much richer this month, when the legal time limit expired if their wives, who knew of the treasure, had not quarrelled over a trifle.

One of the women, in revenge, entered the nearest police station and

In that case there will still be promotion ahead for the man whom, although he had his sterner and impatient moments, the younger newspaper men who were trained under him, affectionately called "The Little Napoleon."

Canadian Leadership

(J. S. Woodsworth, M. P., in Canadian Forum.) The unsatisfactory condition of public life in Canada must be recognized by all thoughtful men. The old objectives are gone, the old ideals are inadequate, the old parties do not command the enthusiastic and loyal support of even their own adherents. We are awaiting a lead, but no leadership is evident.

C. N. R. SECTION FOREMAN IS SUPERANNUATED

Victor Fournier of Beaver Brook, Northumberland County, who has been 40 years in the C. N. R. service, has been superannuated. Mr. Fournier first entered the railway service at Bathurst as a trackman, and in June, 1883, he was transferred to Beaver Brook station as a sectionman. He was a section foreman for 20 years and was regarded a very efficient trackman. During the 40 years he was in the service he had few mishaps on his division. His many friends will wish him many years of health to enjoy his well-earned superannuation.

We Do Not Seek Control of Hydro!!

The statement that this Company is seeking control of Hydro is only propaganda to induce the public to support the Hydro policy.

Since the Federal Light & Traction Company obtained control of this Company, no attempt has been made by us to obtain control of Hydro.

Our Board of Directors, which is vitally interested in the city's welfare, would not be a party to the passing of control of Hydro from the City to this Company.

The Federal Light & Traction Company offered to make an arrangement with the City for the distribution of Hydro, under which the City would have been protected against any change which might occur in the future.

And the cost of the erection of the second distribution system, with all its disadvantages, would have been saved.

And the users of electricity would have been assured of getting the maximum benefit of the Government Musquash Development.

As customers of this Company, you cannot be assessed to pay the City's Hydro losses.

And, by giving your support to us you will be assisting in saving what remains of the benefit made possible by Hydro.

C. N. R. SECTION FOREMAN IS SUPERANNUATED

Victor Fournier of Beaver Brook, Northumberland County, who has been 40 years in the C. N. R. service, has been superannuated. Mr. Fournier first entered the railway service at Bathurst as a trackman, and in June, 1883, he was transferred to Beaver Brook station as a sectionman. He was a section foreman for 20 years and was regarded a very efficient trackman. During the 40 years he was in the service he had few mishaps on his division. His many friends will wish him many years of health to enjoy his well-earned superannuation.

We Do Not Seek Control of Hydro!!

The statement that this Company is seeking control of Hydro is only propaganda to induce the public to support the Hydro policy.

Since the Federal Light & Traction Company obtained control of this Company, no attempt has been made by us to obtain control of Hydro.

Our Board of Directors, which is vitally interested in the city's welfare, would not be a party to the passing of control of Hydro from the City to this Company.

The Federal Light & Traction Company offered to make an arrangement with the City for the distribution of Hydro, under which the City would have been protected against any change which might occur in the future.

And the cost of the erection of the second distribution system, with all its disadvantages, would have been saved.

And the users of electricity would have been assured of getting the maximum benefit of the Government Musquash Development.

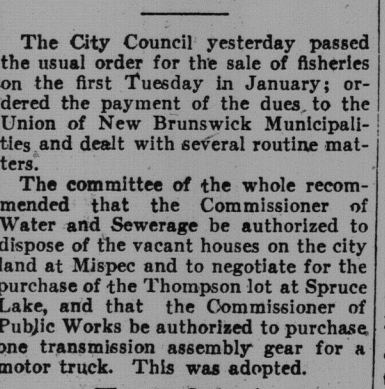

As customers of this Company, you cannot be assessed to pay the City's Hydro losses.

And, by giving your support to us you will be assisting in saving what remains of the benefit made possible by Hydro.

ADVENTURES OF THE TWINS

MISS MUFFET'S RIDDLE

It was all done up in pink and blue satin ribbon and looked wonderful. "Here's a riddle in rhyme," said the Riddle Lady. "See if you can guess it! The fairies have spun some lace so fine, 'Twould never do for a dress of mine. But 'twould be fine for an elfin fay, Who wouldn't mind if it blew away."

Banish Pimples By Using Cuticura Soap to Cleanse Ointment to Heal

Four dollars for Carnol did what hundreds of dollars failed to do.

Mr. James Kenny of Ottawa, states very clearly the advantages of Carnol taken for stomach trouble, when he says: "No man or woman can be strong who suffers from stomach trouble and its associated troubles, indigestion and impaired nutrition. When the stomach is weak there is loss of nutrition from food, and food is the source of all physical strength. When a man, woman or child doesn't feel just right, doesn't sleep well, has an uncomfortable feeling in the stomach, my advice is to take Carnol and get relief. It will do for you as it has done for me and many others, restore you to natural health and happiness."

ONLY THE MOTHER KNOWS ABOUT THE COUGHS AND COLDS OF THE CHILDREN

It is hard to keep them from taking cold; they will run out of doors not properly clad, or have on too much clothing; play too hard and get overheated, and cool off too suddenly; get their feet wet; kick off the bedclothes at night, and do a dozen things the mother can't prevent. The prompt use of

Dr. Wood's Norway Pine Syrup

will check the cough or cold before any serious lung trouble can possibly develop. Mrs. Everett E. Ketch, R.R. No. 2, Fredericton, N. B., writes: "My little boy, aged nine years, had a dreadful cold which left him with a bad cough. I tried Dr. Wood's Norway Pine Syrup, and after using three bottles he was completely relieved. I would advise all mothers to use this remedy for their children as it is an excellent medicine."

"Is it a cobweb?" observed Miss Muffet. "Really it is as easy as pie. Almost as easy as two pies. 'My finger wears a little hat, 'T's good for this but not for that. It has no feathers, or flowers, or bows, But polka-dots all set in rows.' The Maiden All-Foam guessed it at once. 'It's a thinkie,' she cried. 'And if that's the price, I need one. The Man All-Tattered-And-Torn must be mended up before our wedding day.' 'Here it is,' said the Riddle Lady handing it to her. 'I wish I could guess something,' whispered Nick to Nancy. 'What would you do with a thingie?' Nancy wanted to know. 'Any way there are lots more coming.' (To be continued.)

LEAVE IT TO COURTS. Canadian Press Despatch. HALIFAX, Dec. 9.—A meeting was held today of the Nova Scotia creditors of Leo Konecz, arrested here three weeks ago on a charge of a huge swindle perpetrated in Chicago and who is now serving a prison sentence. No statement was made of the amount of claims against the estate, but it was decided that the question of whether the assets in Nova Scotia would be handed over to the Chicago Trust Company, handling the estate in bankruptcy, would be left to the courts. **CHURCH SUPPER AT EAST ST. JOHN**

The bean supper and entertainment in the Stella Maris church hall in East St. John got away to a flying start last night and there is every indication that tonight it will have a still greater patronage. Between 150 and 175 patrons partook of the supper that was served. Rev. F. F. Walker, priest of the parish, presided. The supper was for the benefit of the St. John Infirmary. The church auditorium in the new building has been fitted up to be used as a hall during the winter and is well lighted and heated and splendidly adapted to its present use. Suppers were served from 5 to 8 o'clock last night with Mrs. M. Atkinson, general convenor, assisted by a large staff of efficient workers composed of the ladies of the parish. Those in charge of various games were as follows: Housie, Thomas Killeen, assisted by J. LeBlanc and Dorcas O'Pray; bowling alley, Vincent McNeill; bean board, F. Atkinson; card table, J. B. Evers; ice cream, Miss Gussie McGrath and Miss Clare McGrath; coin boards, Pat Enlow and Joseph Barrett, and tickets, Norbert Foley and H. G. Enlow.

**URGENT RAISING OF FULL ALLOCATIONS**

St. John Presbyterian closes Session—Rev. V. Walls Resigns at Waweig.

Presbyterian congregations of the St. John Presbytery will be asked to raise their full allocations in home and foreign work in the few remaining weeks of the year, according to a resolution adopted at the afternoon session of the Presbytery yesterday in St. Andrew's church. Rev. Hugh Miller, the moderator, presided. The resignation of Rev. Victor Walls from the charge at Waweig was accepted with much regret. Rev. Mr. Walls is to take up missionary work in Trinidad.

**Resignation Received.**

The resignation of Rev. Victor Walls from the ministry of Waweig and Tower Hill was tendered, because Mr. Walls has been appointed by the Foreign Mission Board to take up work in Trinidad. The resignation was formally accepted, to take effect on Dec. 31, 1924. Very high tributes to his work in the Presbytery were paid by many of the members of Presbytery and he was wished the greatest success in his work in the foreign land. It was said that it augured well for the success of foreign missions when such men as Mr. Walls were appointed to Pine Hill college and before being to Waweig did splendid service in Minto mission.

**Famous Old Recipe for Cough Syrup**

Thousands of housewives have found that they can save their money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it is as equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less. Get 2½ ounces of Pinex from any drugstore, pour it into a 16-oz. bottle and add plain granulated sugar syrup until makes 8 ounces. If you desire use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

**Urgent Appeal for Funds**

Milton Morris, of Tower Hill, was present to represent that congregation. The resolution of acceptance of the resignation of Mr. Walls was moved by Rev. J. S. Bonnell, and seconded by Rev. Mr. Woods, his college friend.

Mr. Walls' designation service is to take place in Halifax, the date being believed to be Jan. 14. The moderator, Rev. Hugh Miller, was appointed to represent the Presbytery at the designation service. A committee consisting of Rev. W. Fraser, St. Andrew's; Rev. J. H. MacLean, Harvey; and Rev. Wheelpley was appointed to arrange for a public service of farewell for Mr. Walls at Waweig. Mr. Wheelpley was appointed as interim moderator for Waweig.

The request of Rev. W. H. Spencer, now residing in Prince Edward Island, to have his name transferred to the Prince Edward Island Presbytery was left with the clerk to arrange if possible.

Mrs. James' resignation as deaconess at Minto has been accepted and Rev. Mr. McLeod, of Minto said he believed the W. M. S. would finance a deaconess for six months, and there was very urgent need of carrying on the deaconess work if a successor could be found.

Mr. Wheelpley was appointed interim moderator of the mission field of Baillie. The question was asked as to what arrangement had been made for hospital visitation by the Presbyterian ministers. It was explained that there was no definite arrangement, but the city ministers carried out visitation on their own initiative.

Special thanks were extended to Rev. Hugh Miller for visiting Presbyterians in hospital who came from provincial points. Dr. Sutherland spoke of the arrears

of salary still owed by the congregation of Nashvaak and Stanley to Rev. Mr. Wood. Dr. Sutherland, who is the moderator, said he would not endeavor to settle a minister there until the arrears were paid.

A adjournment was made to meet again on March 8, 1925.

**GIVES FINE TALK ON WOMAN WORKER**

Rev. James Dunlop Delivers Address to Women's Canadian Club.

The Women's Canadian Club at its meeting in the Church of England Institute last night heard with a great deal of pleasure a splendid address by Rev. James Dunlop on "Psychology and the Woman Worker." In moving a vote of thanks, which was unanimously endorsed, Miss Alice Fairweather referred to the address as being at once a message and a warning. Mrs. Allan McAvity seconded the vote of thanks.

Ms. E. Atherton Smith, president, was in the chair and before the close of the meeting extended cordial good wishes for the Christmas season to all members. During the evening delightful music was enjoyed. Mrs. H. Usher Miller, in a piano selection played Christmas carols, and Mrs. Stanley Harrison sang the solo numbers, Star of Bethlehem and an encore.

**WOMEN'S INSTITUTE TO EQUIP A BED IN THE INFIRMARY**

Money to equip one bed in the charity ward at the St. John Infirmary was voted by the Women's Institute of St. John at a special meeting held yesterday afternoon at the residence of Mrs. T. N. Vincent, president.

The members had undertaken to bring toys and gifts for the Christmas tree for the children in the Municipal Home. So generous was the response for this appeal that a great many too many toys were received and a committee was appointed to find out what the best use could be made of them and to arrange for their distribution.

A hearty vote of thanks was extended to Mrs. Vincent for her kindness in placing her home at the disposal of the institute for the tea and sale recently held. That event was highly successful and the institute was under no expense in connection with it.

FOR SPEEDY WORK

W. M. Kirkpatrick, foreign freight traffic manager of the C. P. R., and W. T. Marlow, general foreign freight agent, both of Montreal, held a conference yesterday in West St. John with local officers and heads of the department.

SOME REACHED GUNS

"With bare sabre and lance some of the Russian guns and cut down the gunners, but these must have been only a fraction. At length there appeared parties of mounted men riding in some sort of formation. They were the unscathed survivors of the dare-devil ride. The muster roll showed that two-thirds of the Light Brigade had fallen, and when we sent parties to bury the dead and aid the wounded we realized the awful nature of the carnage."

HERALDS ERA OF STEAM POWER

Says Manitoba Hydro Resources Exhausted in Few Years.

WINNIPEG, Dec. 10.—Hydro-electric power resources of Manitoba will be exhausted within 12 or 15 years, and the era of steam power production launched in the west, if the present rate of development continues, J. F. Sanger, chief engineer for the Winnipeg hydro-electric system, said in an address here.

Methods Perfected.

"The water powers of the Winnipeg river will be absorbed within very few years, and then we will have to turn to steam power production," said Mr. Sanger. "Already we are producing power this way quite successfully, and, as our methods become perfected, we can develop electrical energy from coal more cheaply."

Mr. Sanger heralded the steam power era as one of untold benefit to the country, pointing out that it would mean the economic use of western lignite coal, and guarantee a cheap supply of electric power to districts now far away from hydro-electric sites.

After the service Dr. Guthrie explained that his purpose in having such plays presented in St. Mark's was to restore drama to the Church, where it originated.

"I simply want to enrich the Church," he said, "to return to the Church the drama, which, somehow, was separated from it."

Although this was the first performance of "The Admiral" in a church, Mr. Kennedy explained, he and Miss Mathison and Miss Gage presented their earlier play, "The Christening," in many churches in England last summer with the support of the Archbishop of Canterbury and intended to give "The Admiral" in English churches next summer with a third play, "The Salvation," which Mr. Kennedy has just finished.

F. A. Dykeman Elected Last Evening—Committee to See Council.

F. A. Dykeman was re-elected president of the Exhibition Association at a meeting last evening, and George D. Ellis and E. J. Terry were re-elected vice-presidents. These three officers, with the following seven, will compose the executive for the ensuing year: W. C. Allison, C. Dickson, Garnett Wilson, R. R. Patchell, A. L. Foster, A. E. Everett and F. B. Schofield. Sterling B. Lordy, recently elected to the board of directors, took his seat at last night's meeting and was welcomed.

Manager Reports.

H. A. Porter, general manager, reported on attending the first annual meeting of the Canadian Exhibition Association on Nov. 27 and 28 last in Toronto. An important feature of the conference, he said, was the adoption of a section providing that any member knowingly permitting at his exhibition the operation of a concession in which money is used or offered as an inducement for the public to play should be immediately suspended. Representatives of fairs from Charlottetown to Vancouver were present at the meeting.

One of the outstanding features of the meeting was a resolution that each exhibition should have some definite object each year, that it would be better to concentrate on the public to play feature and force that home on the public mind rather than have a summation of minor exhibits which would have only a transitory effect. Mr. Porter felt that St. John had met this requirement.

A special committee was struck to see the Common Council and the Provincial Government with respect to a grant for the 1925 show.

RESCUER OF BOY LOCATED TODAY

He is Lorne Vincent of Millidge Ave., Nineteen Years Old Today.

The name of the young man, whose heroic efforts resulted in saving little Murray Cougle from drowning in Marble Cove last Saturday afternoon, was learned by The Times-Star today. He is Lorne Vincent, son of Mr. and Mrs. William Vincent of 97 Millidge avenue, and is today celebrating his 19th birthday.

Reluctantly Tells Story.

It was only after considerable persuasion that he consented to explain how he had rescued the little boy. His story follows:

"Last Saturday afternoon about 3:30 I was going down to Marble Cove to bail out my motor boat. When about half way down the hill I heard some boys yelling for help. I looked around and saw the head of little Murray above the ice in the cove. He was apparently holding himself up with his arms. I ran down the hill and saw the same time started to remove my coat.

"When I reached the water I leaped out as far as I could, and knowing how thick the ice was and hoping I could get near enough to get hold of the boy.

"I found the ice very thin and I broke through. By forcing my body through the ice I managed to reach out and seize him by the arm. I was then up to my neck in water, but the ice around my shoulders kept me from floating. I hauled the boy ashore and was semi-conscious and was crying for his mother. The water was bitterly cold and I worked his arms and had him move around until his blood started to circulate. I then hurried him to his home.

Asked how deep the water was where the little chap fell in, he said it must have been seven or eight feet.

ELKS PLAN FOR A BIG CHARITY BALL

The monthly meeting of St. John Lodge No. 79, B. P. O. E., was held last evening at the meeting rooms of the Order in Orange Hall, Germain St., under the chairmanship of Exalted Ruler E. Arthur Westrup, D. C.

There was a large attendance for discussion of plans relating to an Elks Charity Ball. It was felt during the February period, when the keen holiday of winter seem to have a still greater penetrating effect, many deserving poor will welcome assistance. The net proceeds of the ball will be expended entirely in relieving distress.

It is planned to make this one of the most brilliant social events of the season. Enthusiastic support was pledged by the membership.

WILL NOT HOLD BIG SKATING MEET HERE

Deemed Inadvisable to Have International in St. John This Winter.

The project of holding the International skating championships in St. John this winter has been abandoned according to an announcement given out at the termination of a meeting held by the executive of the St. John Skating Association in The Times-Star building at noon today. After the matter had been discussed the following motion was passed: That the St. John Amateur Skating Association advise the New Brunswick Amateur Skating Association that they do not think it advisable to hold the International skating meet here this winter.

Frank White, president of the New Brunswick Amateur Skating Association, who was present at the meeting, announced that the skating authorities would be notified of the action taken.

The meeting also extended an invitation to Charles Gorman, International speed skating champion, and Willie Logan, the youthful speed skater, to represent the association at the big skating meetings in Canada and the United States this winter.

PRECAUTIONS AT SPRUCE LAKE TAKEN

New Screens Being Placed at the Intake—Supply Increases.

New screens for the Spruce Lake intake are being built, it was said by Commissioner Wigmore this morning, as the former screens were destroyed by the slush which stopped the supply of water last week. He was also having protection made which he hoped would prevent a recurrence of such a shortage in the future. Posts were being driven, one in front of the intake and one on either side. From these will run 14-inch planks, buoyed up with corks so that about six inches of water will be left in the run of water, forming a triangle in front of the intake. This will fend off leaves, ice or slush and keep the wells from becoming choked.

The commissioner said that the water in Spruce Lake had risen about six inches since Sunday morning. When the lake fills in the spring this means that the height of the spillway means that there will be impounded 40 days' more supply of water than they had last summer.

WILL GIVE SOME WINTER WORK

Commissioner Wigmore said this morning that pipe was being laid in East St. John and in Princess street by men of the water and sewerage department. He had been notified of the arrival of the pipe for water extension in Bellevue avenue and this work would be started at once. As practically all the excavation was in rock this work could be carried on as well in winter as in the summer and this would provide employment for the permanent men of the department for some time. The estimated cost of the work is \$8,000.

BOYS RECAPTURED

The three boys who escaped from the Boys' Industrial Home in East St. John Monday night were captured in Hampton last night and brought back to the city today by Sergeant Detective Power. They had been notified of the arrival of the boys and had been waiting for them to enter the city. They acknowledged breaking and entering a store owned by Allick Taylor at Kane's Corner and stealing cigarettes, canned goods and fruits. No charge was preferred against them in connection with this, as it would be necessary to have their parents present before they could be tried. One of the boys resided in Shediac, another in Chatham, and the third in Seasideville. All three were sent back to the Home.

DROP CHARGE

It was said today that investigation by the provincial fire marshal's office into the burning of a barn owned by Newton Vezey about one mile from Bloomfield station late in November failed to connect A. Roberts with the charge of arson and so far as the marshal's office is concerned the charge will be dropped. Roberts is to appear before Magistrate Parice in Hampton this afternoon. In the fire three horses and eleven head of cattle were burned.

The Beacon Light Class of the Pleasant Point Sunday school met at the home of Mrs. James Spiane last evening. It was decided to hold a shower for the Children's Aid Society before Christmas. A letter was read from former member, Mrs. Burns, now residing in Portland, and enclosing a donation toward the fund. It was decided to hold a social in the near future. Yours of the Christmas spirit, SANTA CLAUS.
