Effort Today To Break Deadlock

Minister Hopeful Of Early Settlement

SIX ALIENS ARRESTED

The Winnipeg Situation—Eleventh Hour Attempt to Avert Strike of Street Railway Employees in Toronto

Winnipeg, June 21.—Hon. G. D. Robertson, minister of labor, expressed himself last night as being hopeful of an early settlement of the strike. The negotiations so far as the metal trades are concerned, he said, were making satisfactory progress.

A special effort will be made today to break the deadlock over the interpretation of the employers' definition of collective bargaining, and the minister of labor is hopeful of being successful.

Six additional arrests of aliens charged with seditious conspiracy were made last evening. The authorities say that they are only minor characters.

Calgary, June 20.—Received draft from metal employers this morning of collective bargaining, acceptable to strike committee. Negotiating regarding general recognition by employers, reinstatement of all employees not yet decided on.

This telegram from Winnipeg, which was posted on a bulletin board outside the Labor Temple on Friday was the cause of marked optimism amongst local strikers.

Toronto, June 21.—An eleventh hour attempt to avert a strike on the street railway in Toronto will be made at noon today when delegates of the street railway men's union will meet a board of conciliation appointed by the government at the city hall and discuss the situation.

The employees will meet in a mass meeting tonight to decide upon strike action. Most citizens are expecting a strike early next week.

Montreal, June 21.—Favorable developments in the hitherto and electrical workers' strike were the only features in the local labor situation yesterday. The strikers signed an agreement with the Harris Abitibi Company and negotiations are under way with the Williams River Company.

The electricians report favorable progress, several agreements with contractors having been signed and the workers being notified to report for work this morning.

Another party of soldiers returned to the city this morning, having landed from the S.S. Aquitania at Halifax yesterday. The names of those returning were published in yesterday's Times. They were met at the station by representatives of the Knights of Columbus and the C.I.M. Jack and Miss Skinner, R. E. Armstrong and S. H. Mayes.

The men marched to the armory, where they had breakfast and then had their papers put through for dispersal.

Among those coming home today were Capt. E. J. Ryan, M.D., who went across in 1914; Lieut. J. A. White of North Bay, who went with the 16th French Canadian and served with the 1st Machine Gun Battalion in France; Major F. S. Porter, who left as chaplain with the 10th Battalion, and on going to France went with the 1st Divisional Artillery, No. 2 stations at hospital and other units, and Capt. D. B. Weldon of Moncton, who crossed with the 11th, went to the 4th, won the M. C. and served for some time on brigade and corps headquarters.

ST. JOHN REPRESENTED AT Y.M.C.A. STUDENT CONFERENCE

The annual student conference of the Y. M. C. A. is now in progress at Lake Knowlton, Quebec, some seventy miles east of Montreal, and is being well attended. Among those present are two local young men, Paul B. Cross and George Estabrook. The conference is open to all college boys who are connected with Y. M. C. A. work and from all parts of Canada members of the "Y" are attending.

A postcard received yesterday by W. C. Cross from his son said that they were having a fine time and though so far from civilized haunts were living in fine comfort, the camp being well fitted and suitable. The camp will close next week.

The summer conference for Y. M. C. A. workers and secretaries will open on July 31 at Lake Couchiching, Ontario, and will be attended by representatives from all the provinces. Some twenty-five delegates are expected to attend from the maritime provinces. Among those from St. John will be Y. D. Robertson, boys' work secretary, and A. M. Gregg, associate maritime boys' work secretary.

PROFIT AT EXPENSE OF SOLDIERS

Bought Farm for \$3,700 and Asked Returned Man \$5,500

ANOTHER SAMPLE CASE

Soldiers' Settlement Board Will Buy No More Farms Through Real Estate Operators in New Brunswick

Ottawa, June 21.—Owing to the fact that real estate dealers in some parts of the province of New Brunswick have been endeavoring to exploit returned soldiers by securing options on farms, and afterwards attempting to sell at advances out of proportion to value, the chairman of the Soldiers' Settlement Board, Ottawa, has issued instructions to the St. John office that hereafter no land will be purchased by the board through the medium of real estate operators.

It is the determination of the board to protect the fullest extent possible the interests of returned men. Prices will not be paid for lands beyond their actual value for farming purposes.

Interviewed by the Times-Star relative to the above, Major Ashton, one of the members of the Soldiers' Settlement Board, now in St. John, said that this action followed information received by himself since he came to the province. He mentioned a specific case, W. W. Parkinson, a returned soldier, of Fredericton, was asked \$8,500 for a farm by a prominent real estate dealer. Mr. Parkinson later met the former owner of the farm who told him he had sold it to the real estate man, spring for \$3,700. The latter wanted the soldier to give him a profit of \$1,800 on the transaction.

In another case a farmer told the inspector for the local board he wanted \$5,500 for his farm. Later he and a real estate dealer appeared before the board and the price had gone to \$8,500. The farmer explained that the \$800 was to go to the real estate man with whom he had listed the farm.

Major Ashton said these were simple instances. He pointed out that, as farmers have had several good years, land values have stiffened, and the more so because \$300,000 has been allotted to purchase farms in this province for soldiers. Moreover, real estate men have been listing farms for the purpose of making profit for themselves on the sale of soldiers.

Contrary to the spirit of the act governing such purchases, and grossly unfair to the members of the Soldiers' Settlement Board must protect the soldier, and one way to do it is to have the farmer deal directly with the board. Hereafter that must be done.

FAIRVILLE BOY SERIOUSLY HURT

Clifford Godfrey, of Fairville, aged fourteen, was seriously injured last evening, when he was knocked off his bicycle. He was taken to the General Public Hospital unconscious and was found that his skull was fractured and shoulder badly injured. It was reported that the lad was unconscious and in a very serious condition. Hope for his recovery is still held out.

FEARFUL DEATH OF BOY AT MONTREAL

Montreal, June 21.—The shrillest body of Armand Despins, sixteen years of age, was taken to the morgue yesterday afternoon from the shops of the Dominion Glass Company, Wellington street, Point St. Charles, where it was found after lying two days in a pit at the end of an air shaft which is used to carry off blast fumes from the furnaces.

The youth had been missing since early Wednesday morning, and it is thought that he was trying to slip away from work when he fell into the pit.

ALL FRENCH MINERS RETURN TO WORK

Jaris, June 21.—The striking coal miners returned to work everywhere in France this morning, owing to the adoption by parliament of a bill applying the eight-hour day to the coal mining industry.

FOR ORPHANS HOME

A public meeting was held last evening at Gardner's Creek, under the auspices of the Band of Hope. Rev. Mr. Follette gave an interesting address, illustrated by lantern slides. David Hipwell of this city addressed the meeting at length on the subject of the proposed provincial home for Protestant orphans and a collection which was taken for this object yielded a gratifying amount. The ladies of Gardner's Creek are planning a picnic social in aid of the same fund.

DEATH OF SOLDIER

The death of Gordon Sherrill took place at the County Hospital Thursday afternoon after a lingering illness. He was 19 years of age. He was a member of the 8th Grenadier Guards of Montreal and spent seven months in the trenches. He returned to Canada last April and was ill at the time. He is survived by his father and mother, Mr. and Mrs. Melvin Sherrill, of Campbellton, and six brothers, also two sisters, Mrs. Philip Adams, of 60 City roads, and Irene, in Campbellton.

Suspected Bolshevick Agents Found Disguised as Canadian Soldiers

Victoria, B. C., June 21.—Disguised as Canadian soldiers, eight Russian stormtroops who were in possession of the transport Montague at Vladivostok are believed to be Bolshevick emissaries sent out to this country with the object of spreading Bolshevick propaganda.

Upon the arrival of the Montague here the stormtroops, who said they were Russian Jews, will be kept under strict surveillance and will be deported by the lines on their next outward voyage to the Far East. How they managed to secure the uniforms is a mystery.

WORTHLAND OF EASTERN S.S. CO. FLEE ASHORE

New Bedford, Mass., June 21.—The steamer Worthland, bound from New York to Boston with 300 passengers and a large cargo of freight, ran ashore on West Island, about ten miles from the Buzzards Bay entrance to the Cape Cod Canal, this morning. The vessel's bottom was badly damaged.

Boston, June 21.—A message to the office of the Eastern Steamship Company says all the passengers on the Worthland had been taken to safety and carried to New Bedford.

TRY TO CUT OFF STANLEY WARD FROM THE CITY

Statement of Resident Who is Dissatisfied About the Road Conditions

"If there is any way we can work it, we are going to see if we cannot have Stanley ward transferred from the city to the county," was the statement of a well-known resident of that district, which is included within the city limits. When asked for the reason of this insurance move, the resident spoke bitterly of the condition of the roads and compared them, to their disadvantage, with the roads outside the city which are under the jurisdiction of the provincial government.

"We would not expect anything of the kind on the main roads that are under the jurisdiction of the provincial government," he said. "We would not expect anything of the kind on the main roads that are under the jurisdiction of the provincial government."

When this matter was referred to Commissioner Fisher by The Times, he said that it is not a matter of complaint from the residents of Stanley ward nor anything of a movement to cut off the ward from the city. He said that the roads in Stanley ward would compare favorably with roads throughout the province which are only the same amount of traffic, although he readily admitted that they were not so good as he would like them to be.

With regard to the Sandy Point road, Mr. Fisher said that the section near the city was kept in good condition, but the road to the North End and at the outer end of the road back gravel was used with good effect. There was a complaint that the road was in bad condition, as it was too far from either source of supply to make it feasible to haul road material. Repairs were being made now to the section from the city out to the seashore.

LYDGE GEORGE ILL

Paris, June 21.—By the Associated Press—Premier Lloyd George is confined to his room with a most severe sore throat. His indisposition prevented his attendance at the meeting of the supreme Allied council yesterday. His place at the conference was taken by Arthur J. Balfour, British foreign secretary.

CONFIRMATION IN CATHEDRAL

His Lordship Bishop LeBlanc, who was celebrated at 7 o'clock mass in the cathedral this morning, administered the Sacrament of Confirmation to 381 children and adults. There were eighty-two girls, sixty-eight boys and fifteen boys and fifteen girls from Holy Trinity; fifteen boys and seventeen girls from St. John the Baptist church, and five boys and six girls from St. Mary's.

POLICE COURT

In the police court this morning, two men were charged with drunkenness, and Hugh Mason, was charged with drunkenness and begging on the streets. He said he drank lemon extract and strawberry beer, mixed. The police said he was reported for begging from two women and also for snatching a pipe out of a man's mouth. The man, John Lyons, gave evidence to the effect that Mason snatched the pipe out of his mouth. The three prisoners were remanded.

NEW SPUR LINE

Work will be commenced next week on a new railway spur of standard gauge from the G. N. B. line near the McAvity plant to the St. John Dry Dock & Shipbuilding Company's works at East St. John. The spur will cross the Lech Leonard road near Kane's Corner and will run parallel to the Red Head road and about 200 feet west of it until it reaches what was the old Dun property.

Here a cutting will be made on the eastern side of this hill and after reaching the land surrounding the municipal house the line will be laid over the fore-shore to the works.

DEVERY, FORMER CHIEF OF NEW YORK POLICE, FALLS DEAD IN STORM

New York, June 21.—William S. Devery, sixty-five years old, former chief of police, died in a hospital here today after a long illness.

Mr. Devery was a member of the New York Police Department since 1898. His success in unravelling the most intricate and picturesque character made him known internationally.

Major Ashton said these were simple instances. He pointed out that, as farmers have had several good years, land values have stiffened, and the more so because \$300,000 has been allotted to purchase farms in this province for soldiers.

Contrary to the spirit of the act governing such purchases, and grossly unfair to the members of the Soldiers' Settlement Board must protect the soldier, and one way to do it is to have the farmer deal directly with the board. Hereafter that must be done.

SMOKE MACDONALD'S INDEX

To the Editor of the Times-Star:
Sir—There has been considerable controversy started by a recent letter in the Times in re the music rendered at our band concerts—quite homesick to sentiment.

I think D. Arnold Fox has very clearly explained the condition. Many of the works of the great composers are not adaptable to the instrumentation of the brass band, and at the best the effect is more novel than beautiful, and here, may I state, that as we have no symphonic organization for concert purposes, our large scale and true-loving musical souls must be developed through the lesser recital and mostly organ recitals, which are given during certain seasons in our churches. I do not consider any of the great master works too profane for rendition in the church and I would like to see Mr. Smith's recitals in Fredericton, with the winter setting sun at the solemn vesper hour peering through the beautiful windows, the little Gothic cathedral resounded to the strains of

MILBURN'S LAXA-LIVER PILLS

Act as a stimulant to the sluggish liver, clean the furred tongue, sweeten the foul, obnoxious breath, and clear away all the poisonous accumulations from the system by causing the bowels to move regularly and naturally every day, thus preventing as well as curing constipation, sick headaches, bilious headaches, water besh, heartburn, and all diseases arising from a lax, slow or torpid liver.

They are purely vegetable, small and easy to take, and there is nothing of the gripping, weakening and sickening effects of the old-fashioned purgatives.

Mrs. John Kadey, Chipman, N. B., writes: "I have been using Milburn's Laxa-Liver Pills for some time and can recommend them to anyone suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers, as I think they are a valuable remedy."

When you go to your dealer and ask for Laxa-Liver Pills, see that you get the genuine "Milburn's." Price 25c a vial at all dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

Donnesetti's "Sextette from Lucia." No one could feel it a sacrifice.

Examples of all the different modern schools—the English, French, Italian, Russian and Scandinavian could be arranged in programmes according to nationality, or they could be contrasted, interspersed with programmes of the older classics. Oh, the store is so rich, I'm afraid one could arrange programmes indefinitely. Again this may have the same drawback to which one of the controversial letters alluded, that the musician being insufficiently rewarded, cannot devote all of his time to the preparation of recitals, then there is but one remedy, the public must pay or do without their musical education.
Band concerts given in the open air on a week day should be purely amusing—the one-step-two-step, all the popular melodies that the boys are whistling on the street—to lift the hearts of the masses; and if we only could have our younger folk dancing on our sidewalks all the better in France when they were blending their heart out together and dancing. That is what I claim kept up her wonderful morale. They can dance with their eyes in Paris, and the French spirit is unquenchable.
I was in remoted Greece they gather on the greens on Sunday afternoons and dance and dance, as Goldsmith said, to fire each other down. They are not content the maiden does not even clasp the hands of the youth but twists her Sunday handkerchief and he accepts a handkerchief of that. The loud laugh went round and I asked the old Greek padre who told me there was a youthful betrothed pair in the circle (for they dance round and round in a circle all performing signy steps following the leader) and they had insisted on separating together. This time they had gotten separated and the dancing had been ceased out of his place. The old fiddler, who plays upon a three stringed instrument that has a striking appearance of being homemade, was making up his song about them much to the amusement of all. Even the old people and the young were in this fun. They were a merry crowd.
Yes, we in Canada do not sing and dance enough. So give them plenty of songs. Perhaps little groups may sing, and plenty dance music, not too much of the American, but some English, and especially the French merry twirls. "On with the dance, let joy be unconfined." "Thanking you and trusting not to have imposed too much upon your space, I remain,
Sincerely,
EWMY BRUCE MACKINNON.

"JOHN BARLEYCORN'S BOURNEERS" ORGANIZE

(Boston Globe)
On the night of June 28, if President Wilson does not come to the rescue there will gather in a downtown hotel, not far from City Hall, the latest club to be organized. If the present plans go through the club will cease to exist some time on the morning of July 1.
While no official designation has been given it may be christened "John Barleycorn's Mourners."
Initial assessment is \$50 to be paid in advance. It is understood assessments may be levied later, but one can't become a member without payment of the fee. It is planned to have the obsequies last from about 8 o'clock on Saturday night until such time as "good night" is officially sounded for "John Barleycorn's Mourners."
Just what route the club members are to follow is more or less of a mystery.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freestone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!
A tiny bubble of Freestone coats but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the cause of all soreness or irritation.
Freestone is the sensational discovery of a Cincinnati genius. It is wonderful.

THE PUBLIC SPIRIT

Editor Times-Star:
Sir—If ever there was a city in this country notable in the lack of public spirit it surely is St. John. The conditions are simply rotten. Not a drinking fountain of any description for the public, not a public convenience of any kind, and the lavatory in the market place is a disgrace to the city. Tourists coming here would find much to applaud, but when they go home and tell what a lovely city this is and if they do not blame it on them that have charge of civic affairs, and no one else, I and other taxpayers will see that the conditions will change when the time comes at the next election.

COLD STORAGE ABUSES.

"Cold storage is a legitimate business, and within bounds is desirable, but it ought not to be used for speculative purposes, nor made the medium for raising prices beyond the point of fair and reasonable profit."

This is the concluding sentence of a striking article in the Montreal Gazette dealing with abuse of the cold storage privilege. The article was based on the following statement:

"A local court judgment in a cold storage case, rendered on Monday last, serves to point a moral and to illuminate, if not advise, a tale. The matter can be thus concisely stated. On November 23rd, 1916, a quantity of dead poultry was placed in a Montreal cold storage warehouse, and when, fourteen months later, the goods were examined, they were found to have been 'damaged and eaten by vermin.'"

Of course this is not an isolated case. St. John has not been without its instances of the destruction of food products that spoiled in cold storage. The Montreal Gazette well says:

"The story suffices to arouse indignation that in a period of high prices and limited supply, poultry should be carried in cold storage awaiting, since we can imagine no other reason, a favorable turn in the market. This is the sort of thing that has excited hostility to cold storage as a means of manipulating prices, causing perishable food stuffs to be dearer in the season of relative scarcity. Cold storage has its usefulness and can be made beneficial to the people if the opportunity for speculation is withdrawn. Merchants who place perishable products in cold storage in order to equalize supply over a lengthy period are entitled to a reasonable profit on the business, after allowance for rent, insurance, interest on money investment, and, perhaps, depreciation. But they are not entitled to exorbitant profits at the expense of the consumer, fleeced by 'cornering' the market. We have already urged that there be government inspection and regulation of this business. It should be made impossible to carry foodstuffs in cold storage upwards of a year. The utmost limit it should be from one season of production to another; and there should be such inspection of the goods as will prevent their retention until decay has made them unfit for consumption."

One of the matters the government should deal with, and without delay, is the iniquitous speculation made possible by cold storage facilities. It is a crime against the consumers in the cities and towns of Canada. A rigid system of inspection would prevent such use of cold storage facilities. So long as there are sharks to take advantage of public need there must be measures to deal with them and protect the public.

Today the interesting announcement is made that Sir Robert Borden is a stockholder in a cold storage plant in Manitoba which made fifty per cent profit last year, and which is now holding large quantities of foodstuffs for export. Sir Robert will not be blamed for having an investment in a cold storage plant and he has been quite too busy with national and imperial affairs to give it any of his personal attention. Now, however, that it is found that the Manitoba plant has been getting too much profit and hoarding foodstuffs for that purpose, the prime minister cannot ignore the situation.

When the International Kindergarten Union met recently in Baltimore the following inspiring message was received from Cardinal Gibbons:

"May I not remind those present how precious is that portion of the Lord's vineyard which they have undertaken to cultivate? What more noble than the task of directing the plant and susceptible minds of children. What more lofty than the task of planting in the tender hearts of children the seeds of heavenly knowledge. In the name of your country that requires you to rear up not scourges of society, but law-abiding members, in the name of God, whose representatives you are, I exhort each and all present to give of their very best to the Kindergarten Union. And may the children for whose welfare you are assembled be the joy and the comfort of our common country, the inheritors of your virtues, and in eternity 'rise up and call you blessed.'"

The president of Johns Hopkins University told the Union that the foundation of all education, no matter how high or advanced, must be laid in the period of childhood belonging to the kindergarten, which filled a most important need in popular education. The president of the Baltimore board of school commissioners said that though a mother's love is as strong as bands of steel, too many times her mind is untrained and she knows not how to care for them in their threefold nature—body, mind and soul. Right here, suggested the speaker, is the kindergarten's opportunity. With trained teachers who have the habit of looking at early education in a serious manner it can lead, guide and direct little children, training them to live together, which is no mean thing. In closing his words of welcome to the visiting kindergartners, he said: "Some say war was brought on by people not knowing how to live together. Take my care of the temples committed to your keeping."

were really wonderful, and their singing and circle games gave great pleasure to those who heard them. It is to be regretted that the business men of St. John are so absorbed in other matters that only two or three of them thought it worth while to be present. These little ones receive training that will be of benefit to them when they enter school. They are accustomed to mingling freely with other children under a supervision which calls out what is best in their natures, and their eyes and hands and voices receive valuable training. If all the citizens really knew what the kindergarten is doing they would insist that it be placed where it belongs, in the public school buildings, and paid for by other schools are paid for by the citizens at large.

In the Women's Institute rooms, Union street, yesterday afternoon the closing of the five united kindergartens, Beulah street, Union street, North End, Mabel Peters and South End branches took place with a pleasing programme. There was also a fine display of the work done by the pupils, consisting of baskets, paper ornaments, etc.

A presentation was made by A. M. Belding, of a brass tablet inscribed "Mabel Peters Kindergarten," to Miss McKim, supervisor of the Mabel Peters branch in behalf of friends of the Playground Association.

Chryses were given by the children, in addition to which there were solos by Dolly Leslie and Willie Tremaine. A book was presented to the youngsters from each school having the highest attendance, as follows:

Take my care of the temples committed to your keeping."

The president of Johns Hopkins University told the Union that the foundation of all education, no matter how high or advanced, must be laid in the period of childhood belonging to the kindergarten, which filled a most important need in popular education. The president of the Baltimore board of school commissioners said that though a mother's love is as strong as bands of steel, too many times her mind is untrained and she knows not how to care for them in their threefold nature—body, mind and soul. Right here, suggested the speaker, is the kindergarten's opportunity. With trained teachers who have the habit of looking at early education in a serious manner it can lead, guide and direct little children, training them to live together, which is no mean thing. In closing his words of welcome to the visiting kindergartners, he said: "Some say war was brought on by people not knowing how to live together. Take my care of the temples committed to your keeping."

HEATING SATISFACTION

WHEN a Hecla Furnace is installed in your home, you know once and for all time complete heating satisfaction. The Hecla Furnace anticipates all the features of your ideal furnace. It is the result of many years of experience and careful study of the heating problems confronting Canadian householders.

No Dust or Gas Your home will be entirely free from dust and gas with a Hecla Furnace. The patented Fused Joints make it absolutely leak-proof for the life of the furnace.

Saves Coal The Hecla Furnace has a patented Steel Ribbed Firepot which gives the furnace three times the radiating surface of ordinary furnaces.

Thus you obtain the same amount of heat and save one day's coal every week. By actual test Hecla Furnaces save one ton in seven. Hecla Furnaces burn coal, wood or natural gas with the same efficiency.

Abundant Moisture The Hecla Circular Waterpan is a wonderful improvement over old-style waterpans. It runs completely around the furnace, assuring sufficient of the moisture so necessary to good health and plant life. It assures even evaporation—every room getting the same amount of moisture.

LT. COL. POWELL WAS IN COMMAND OF TROOPS ON RETURN FROM SIBERIA

Vancouver, B. C., June 21—After swinging anchor for the night in the harbor, the C. P. O. S. troopship Montague, carrying 747 returned Canadian soldiers of the Siberian expeditionary forces, docked here early yesterday morning. A distinguished passenger was Major General Einsley, who commanded the Canadian Siberian forces. There were sixty-eight officers in the party. The men report a very pleasant voyage. There is one more contingent of Canadians in Siberia. This party will be brought across on one of the Empress boats now in the Orient. Lieut.-Colonel A. H. Powell was in command of the troops.

It is planned to hold a social congress in this city in October. One of the visiting speakers will be Raymond Robbins of Chicago.

PERIOD CABINETS Worthy of Their Contents

HAVE you seen the new period cabinet in which The New Edison is now encased? You may not know a Sheraton from a Jacobean but if you've an eye for beauty you'll enthuse over every one of them.

All New Edison instruments, at whatever price, with but two exceptions, are now encased in period cabinets of classic purity.

See the display in our store identical with the exhibit of Sheraton, Heppelwhite, William & Mary, Chippendale, Jacobean and Eighteenth Century English models shown this month at the Hotel Commodore, New York.

THE EPSOM TROUBLE

General Turner Investigating; Some 400 Canadian Military Police Now on Duty

London, June 21—(Canadian Associated Press)—General Turner spent most of yesterday at Epsom interviewing amongst others several prominent townsmen, including H. B. Longley, chairman of the local governing body, to whom the general expressed the deepest regret at the recent occurrence.

The Epsom townsmen are not disposed to accept a suggestion put forward by Canadian headquarters that the beginning of the dispute was between civilians and Canadian soldiers. The police insist that the trouble started through a couple of Canadians becoming unruly in a public house. It is admitted, however, that Canadians at Woodcote have been well behaved until quite recently when, it is asserted, a certain new element has

been introduced. It is said that this element has received very lenient treatment from the local police, although Canadians for their part, have already asserted un-

officially that they have been irritated unduly by the police.

Inspector Parley, who appeared at the inquest into the death of Sergt. Green, with his head bandaged, will be the principal witness at the inquest on Wednesday. Yesterday's proceedings were merely formal, except for a letter from Winston Churchill's private secretary, who wrote to Sir Rowland Blades, M. P. for Epsom, as follows:—

"With reference to your call here today, Mr. Churchill asked me to thank you for the information you submitted to him as to local conditions at Epsom. The whole matter will be subjected to a searching investigation. In the meantime prompt and adequate steps have been taken by the Canadian authorities to prevent any further disorder. Mr. Churchill desires to express his greatest sympathy with the relatives of Sergt. Green who has died as a result of his injuries."

The Canadian Associated Press learns that 400 Canadian military police are now posted around Epsom.

London, June 20—(Reuters)—Eight Canadian soldiers were today charged at Bow street with manslaughter of Police Sergeant Green at Epsom. The names of seven of the soldiers follow:—Allen Mykster, Red Reserve; Frank Harold Wilkie, 102nd Battalion; Herbert Paul, 11th Battalion; David Yerex, Forestry Corps; James Conroy, Canadian Highlanders; Gervais Barriere and Alphonse Masse, of the Canadian Army Medical Corps. The name of the eighth has not yet been received. On the application of the chief constable, the magistrates of Epsom have applied for a reversion of the order closing the public houses, issued in consequence of Tuesday's outbreak. Armed Canadians are picketing the streets of Epsom and five hundred troops have been drafted into the town. The war office, in reply to a communication from the chairman of the Urban Council states that the matter is in the hands of the field marshal commanding the forces in Great Britain.

The New Twenty-year Capital Return Policy

(Issued by The Canada Life)

A Young Man and His Future

He takes his first step in business affairs, is examined by the doctor, and creates an estate of \$5,000.

He improves the shining hour and impresses upon an important person, that he is in possession of an "estate."

His tendency to save and invest is noted by his employers.

He finds his savings of great assistance in buying a home.

And as time goes on he is enabled to enjoy many of the good things of life.

Absolutely guarantees the return at the end of twenty years of all annual deposits, with accumulated profits, after giving you insurance protection for twenty years.

Easily Understood:

- 1st. Deposits are made yearly. This is what you are saving, and at the end of 20 years the Canada Life guarantees the return of every dollar paid in.
- 2nd. Your life is insured from the day you make the first deposit,—for \$5,000, or whatever amount you decide.
- 3rd. Profits are paid at stated intervals in addition to the return of all deposits at the end of 20 years.
- 4th. These profits may be used to reduce the amount of your yearly deposits, or be allowed to accumulate at interest for 20 years.
- 5th. The cash value of Policy and Profits represents a valuable asset, useful in business, and your "estate" is protected by the insurance.
- 6th. At the end of Twenty Years you can draw out all you have paid in, along with the profits—

—OR—

you can draw a Special Cash Guarantee, together with the Accumulated Profits, making a substantial sum, and leave the \$5,000 Policy fully paid for and continuing to earn Dividends as long as you live.

And in addition—

suppose some day before you reach age 60 you should become totally and permanently disabled through accident or illness. Immediately, all your future payments would cease and soon after you would receive a cheque for \$50 each month as long as you lived and the \$5,000 would be paid in full at your death without any deduction on account of the monthly income paid you. (This valuable feature is added for a small extra payment yearly, which is not returned along with the regular deposit).

Every Ford Car is Champion Equipped

The fact that since 1911 Ford Cars have left the factory equipped with Champion "X" Spark Plugs is the best possible reason why every plug replaced in your Ford should be a Champion "X".

The Ford instruction book says—"The make of plugs with which Ford engines are equipped when they leave the factory are best adapted to the requirements of our motor."

No indorsement can be stronger than that of the Ford engineers for

Champion

Dependable Spark Plugs

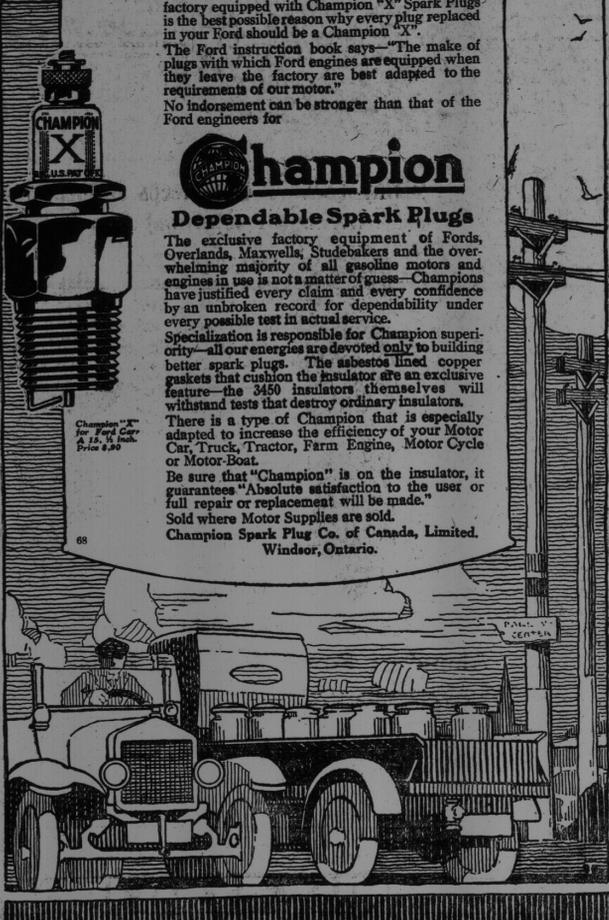

The exclusive factory equipment of Fords, Overlands, Maxwells, Studebakers and the overwhelming majority of all gasoline motors and engines in use is not a matter of guess—Champions have justified every claim and every confidence by an unbroken record for dependability under every possible test in actual service.

Specialization is responsible for Champion superiority—all our energies are devoted only to building better spark plugs. The asbestos lined copper gaskets that cushion the insulator are an exclusive feature—the 3450 insulators themselves will withstand tests that destroy ordinary insulators.

There is a type of Champion that is especially adapted to increase the efficiency of your Motor Car, Truck, Tractor, Farm Engine, Motor Cycle or Motor-Boat.

Be sure that "Champion" is on the insulator, it guarantees "Absolute satisfaction to the user or full repair or replacement will be made."

One Billion Dollars; What It Means

(Boston Globe.)
Not long ago almost all figuring was done in hundreds and in thousands; the word "million" rarely occurred, and a man could pretty well visualize the amounts which he symbolized with numerals. But now to most people figures have lost all meaning in their representation

of quantity. This is becoming increasingly true of money figures. The papers daily publish advertisements of issues of corporate stocks or bonds which run into the tens of millions.

Recently we moved still one step further and, in counting the cost of the war to ourselves or to the other belligerents, or in raising Liberty Loans we have progressed into the realm of billions.

The war is said to have cost us, up to April 30 last, \$21,000,000,000. Germany is to pay an indemnity estimated at \$20,000,000,000.

The Victory Loan was a surprise, as it was smaller than expected; only \$4,000,000,000 was asked.

Congress is asked to appropriate \$1,200,000,000 for the railroads.

How many of the people who speak of millions as of a bushel of potatoes and glibly talk about billions, have even a faint perception of what a billion is? A person thirty-two years and nine months old has only lived a billion seconds.

A billion minutes have not quite elapsed since Christ was born. If a man had spent \$1 every minute of every hour, day and year since Jan. 1 A. D. 1, until today, he would not yet have spent a billion dollars. Consequently, the \$1,000,000,000 spent by this country in the war is equivalent to an expenditure of

A NICE TRIP

Mrs. Charles S. Tippett of Fairville returned home yesterday after a three month's trip to the Pacific coast. Mrs. Tippett visited friends in Washington, Oregon and California. She was joined by her husband, Lieut. "Bud" S. Tippett in Seattle, and on the return trip Mr. and Mrs. Tippett visited all the principal Canadian cities, and spent several weeks in Montreal, where Lieut. Tippett is connected with the clearing service.

GEORGE HECTOR

The death of George Hector occurred at an early hour this morning at his home, 51 Spar Cove road, after a lingering illness. Mr. Hector, who was forty-three years of age, is survived by his wife, two daughters, Mrs. Frank Pina, of New Bedford, Mass., and Mrs. Roosevelt Joseph of Frederick street, St. John, two brothers, Arthur and Frederick Hector, and two sisters, Mrs. Charles Nichol and Mrs. Sarah Hogan, all of this city. The funeral will be held on Monday afternoon.

DRURY COVE CLUB

At the annual meeting of the Drury Cove Outing and Athletic Association, officers for the year were elected as follows: President, Walter G. Drake; vice-president, T. E. Simpson; secretary, E. J. Thomas; treasurer, James G. Barrett; additional members of executive, George Deibert, T. E. Drummond and B. Byrnes. The sports committee is T. E. Simpson, A. Harding, T. F. Drummond and LeRoy Sandall. Great interest was taken in the meeting and an active summer is in prospect. During the war period the club did away with all tournaments, but this summer they will be ready to take on all comers, and some interesting matches are anticipated.

BISHOP RICHARDSON TO NOVA SCOTIA FOR THE SUMMER

Chief Forester Going to Quebec For Important Convention

Fredericton, N. B., June 21—His Lordship Bishop Richardson, accompanied by his family, left last night for his summer residence at Smith's Cove, N. S. They will occupy the summer home until autumn.

Repairs of the flooring of the Fredericton-Devon highway bridge have been begun. The removal of the flooring which should have been done under the previous provincial administration was neglected with the result that an extra burden has been thrown upon the department now headed by Hon. Mr. Veniot.

G. H. Prince, chief forester of New Brunswick, will leave early next week for Montreal having been invited by the Canadian Pulp & Paper Association to attend the summer convention of the Woodlands branch of that association at Grand Mere and Berthier, Quebec. The provincial nurseries at Berthier and Fredericton will be inspected and a demonstration of the working and efficiency of the new forest service hydroplanes in detecting forest fires will be given. Tractors and slash burning also will be demonstrated. It is expected that pulp companies of New Brunswick will be represented.

FIRST GRADUATE OF THE ROTHESAY CONSOLIDATED SCHOOL

The teachers and pupils of the Rothesay Consolidated school gave a pleasant entertainment last evening in the assembly hall in honor of Miss Grace Harrison, who is the first graduate. The school was opened three years ago when three or four of the schools in the parish were united.

The pupils were to have an outing and picnic on Long Island, but as the weather man intervened, the programme was changed to an entertainment of musical numbers, speeches and an indoor track meet. The events in the meet were named after the outdoor events, but as there was not any too much room, they had to take a humorous turn, which was something new and was enjoyed by all.

After the programme, A. W. McMackin, secretary of the school trustees, made a few appropriate remarks, congratulating Miss Harrison on her success. C. T. Wetmore, the principal of the school, and Rev. Canon A. W. Daniel, each made a short address. The entertainment closed with the singing of the National anthem.

MILITARY MATTERS

Men Signing on for Permanent Force — Army Contracts Open to Civilians — Depot Battalion Non-Existent Next Week

Enlistment for the permanent force of Canada seems to be fairly popular in St. John. Names are now being taken locally for service therein and during the last few days some twenty have been taken while many others have displayed an interest, seeking information and facts relating to the terms of enlistment. These are much the same as with the expeditionary force, except that the clause "for duration of the war" is not applicable, and the rate of pay and allowances are similar to those prevailing for war service. Some fifteen men who are in uniform with the 7th Canadian Garrison Regiment here have signed for the permanent force already, while others have not yet been sworn. The period of enlistment is for two years. All who have signed thus far have done so for the infantry.

CIVILIAN CONTRACTS

Authority has been received at headquarters for awarding to civilian contractors any army work to be done in this district in future. Heretofore the engineers have been attending to the bulk of construction and repair work but they are sadly diminishing in strength until at present they constitute only about six all ranks. These will probably be out of the service within a short time.

Depot Battalion No. More.

The first of the week it is expected that the Depot Battalion will become non-existent. At present there are but one officer and two other ranks attached to it. This unit was created to embrace the men who were enrolled when the military service act came into force and quite a number have passed through its ranks. Any deficiencies to be attended to under this act are now being looked after by the district depot, which is also attending to casualties and all men from hospital.

LESS OF KHAKI

Each week now sees fewer men in khaki about the city as with the return of so many from overseas the work of the local militia is decreasing. At present there are in the vicinity of 250 men in uniform, more or less, on duty here and in Fredericton. There are divided among a wide variety of branches. The military police force numbers seventy-two, the army service corps forty-eight, the 7th C. G. B. thirty-nine, the ordnance about fifteen, and so on, each unit having a small number of men on hand, just sufficient for the performance of the duties devolving upon it. "Fatigues" are, of course, still necessary and men must be kept to do the several odd little jobs classed under this heading. In the military hospital in West St. John there are some forty-six soldiers, including patients.

The work at the dispersal station is still going on and will continue until all the men are home. The staff here is almost entirely clerical. There are some men employed about headquarters and with the A. D. M. S. and the A. D. D. S. but the number is not large.
