Forty Fishing Schooners in Danger on North Part of Province; Lives Are Lost

At Least Nine Have Been Drowned; Bodies Are Given Up By Sea

Two Driven on Shippegan and Miscou Islands in Gale on Last Friday Night—Bodies Brought to Carquet This Morning

Quebec, June 8.—About forty fishing schooners were lost with a loss of life numbering about twenty, in a disaster caused last Friday night by a severe storm that swept the coast of northern New Brunswick and Bay Chaleur.

Mostly all the wrecked boats were driven ashore on Miscou and Shippegan Islands, and these being rather remote, news of the disaster was slow in coming in. Twenty fishermen are reported drowned and of these the bodies of eight were taken to Carquet, N. B., this morning. All the recovered bodies are those of French Canadian and Canadian fishermen.

Considerable damage was caused to property along the coast and in Bay Chaleur. The reports which reached the city only this morning said that at least forty small fishing vessels had gone down in the storm which raged along the coast. Some of the crews of one or the other of the vessels were rescued by the more sturdy of the little fleet, but it was impossible, owing to their being so widely scattered, to save all.

On board each of the schooners a father and two sons went to a watery grave. Joseph Carquet was the master of one of the little vessels, and his two sons John and Arthur sailed with him. All three were drowned, and a neighbor named Dugas also. The master of the other schooner was R. S. Albert, and his two sons, Larcin and John, were members of his crew as were his father and another man, Oliver Paulin.

On the other side of the coast, the reports which reached the city this morning said that at least forty small fishing vessels had gone down in the storm which raged along the coast. Some of the crews of one or the other of the vessels were rescued by the more sturdy of the little fleet, but it was impossible, owing to their being so widely scattered, to save all.

TAKES A TOUR OF ROYAL RESIDENCE

Tipsy Pike Invades the Home of the King

London, June 8.—Harry Pike, who yesterday started authorities and public by invading Buckingham Palace, is not a suffragette, according to the attorney for the prosecution, who appeared against him at Bow Street Police court today.

The man who clambered over the roof of the palace, and who was surrounded by sharp spikes which surrounded the palace grounds and included sentries, police guards and servants, did so while under the influence of drink and not with any ulterior motive, said the lawyer.

Pike today issued a long written statement giving details of his wanderings and adventures in the palace. He mentioned that his wife was in a sanatorium and that he had been drinking ever since she left England. He is a motor fitter by profession.

London, June 8.—Public anger in connection with the militant suffragette outrages is expected daily with more vehemence throughout Great Britain and reports from the provinces show that suffragette meetings yesterday were generally well attended.

A DISGRACEFUL AFFAIR

A small sailing yacht went up to public landing yesterday and lay becalmed for several hours. A young man well known in this city then went on deck in a perfectly nude state, ran about the deck and on the wharf, and made a most disgraceful exhibition of himself.

Some ladies were sitting in front of cottages, and a group of St. John men were about to go down and invite the yachtmen to resume their voyage when the chief officer was taken below. It was unfortunately been too late to do so.

It is human nature to resent having something forced on you that you do not want. The customer who asks for a branded article by name has a right to that article. "Something just as good" naturally raises a suspicion against the storekeeper. The customer may be persuaded to take the suggested article, but it will have to be something mighty good to entirely remove all suspicion from the mind. The store that gets a reputation for chronically offering "just as good" loses in the long run.

FIRST FRUITS OF PARLIAMENT ACT

Disestablishment of the Church in Wales

FIFTY YEARS OF EFFORT

Twenty Since First Bill Was Introduced in British Commons—Effects of the Bill, Now Law, Upon Church of England

London, June 8.—By the passage of the bill to disestablish the Church of England in Wales the Liberals reaped the first fruits of the parliament act which they passed to limit the veto power of the House of Lords.

It is forty years since the non-conformists of Wales commenced the movement to have the church disestablished so far as their principality is concerned and just under twenty years since a Liberal government introduced in the House of Commons the first bill to carry out the wishes of these non-conformists.

Like many Liberal measures since, this first disestablishment bill, passed by the House of Commons by a majority of forty-four in a House of 584, was thrown out by the House of Lords.

Not until H. H. Asquith, who, as home secretary, introduced that first bill, became minister and undertook the huge task of curbing the power of the upper chamber, introduced that first bill, became law.

While home rule has attracted more attention, on account of the opposition of a portion of Ulster, the Welsh church bill has created almost as much feeling between the two political parties, and between the Church of England and the Liberals.

The Welsh Liberals—and with one or two exceptions all members of the House of Commons from the principality are Liberals—were busy early in the year urging the passage of the bill, and supporting it in their constituencies throughout the kingdom.

Mr. Asquith's labor on that occasion, as that of many of his successors in after years, was wasted, for the bill reached the Lords it was thrown out without consideration. Now the Lords have passed the bill, and it is not likely to receive much consideration from the Welsh members of the House of Commons.

It has been a long hard fight for those who desired the disestablishment of the church. In the first debate on the bill introduced by Mr. Asquith in 1888 the opposition was led by Mr. Balfour, who also spoke against the present measure, and the then home secretary had to face all the then big guns of the Conservative party.

Joseph Chamberlain, then a strong advocate of disestablishment, but now, with all his followers, an opponent of the bill, reached the Lords it was thrown out without consideration. Now the Lords have passed the bill, and it is not likely to receive much consideration from the Welsh members of the House of Commons.

It is estimated that the property of the church in Wales, which will be taken over by the commissioners, is worth more than \$1,000,000 annually. Outside this the church has an income of some \$100,000 which will not be touched by the disestablishment clauses of the act.

by the disestablishment clauses of the act and besides, provision will be made for the clergy, so that they will suffer no pecuniary loss. The bishops and clergy will continue to receive their present incomes so long as they hold their offices, and they will also be left in the enjoyment of their palaces and parsonages.

The present incumbent will moreover retain possession of the glebe and curate at any time within five years exchange their existing interests in the emoluments of office for an annuity, and thereupon retire. Churches and church buildings, including residences of the clergy, plate and furniture, all funds and endowments specially allocated to the repair, restoration, or improvement of churches or ecclesiastical residences, all closed burial grounds and private benefactions made since 1802 remain vested in the church.

What the church loses are the burial grounds and glebe and curate charges, which go to the county and borough councils, and which produce the greater part of the amount mentioned in the bill. The money will be devoted to health and educational purposes.

While strongly opposed to disestablishment, the Church party attack more subtly the disestablishment proposals, which they say will cripple the Church in Wales. In Cardiff, for example, it is estimated that the present income of \$14,000, one subscription, only \$3,000 will be left.

Lord Mersey left London on Saturday for Canada to take his place on the board to inquire into the Empress of Ireland disaster.

The schooner Kolan foundered on Friday during a heavy gale off Sambro Ledges, N. S., and the captain and crew were brought to Halifax yesterday on the schooner Romance. The Kolan was from the Magdalenes, with fish for Machias, Me.

The handsome home of Alexander Gibson at Marysville, N. B., was destroyed by fire on Saturday at a loss of about \$5,000.

Fully ten thousand people attended the funeral service held in Toronto yesterday for the seventeen Salvation Army victims of the Empress disaster, conducted by Commissioner Thos. McKie, of London, England. More than 150,000 persons lined the route of the funeral procession.

Suffragettes yesterday invaded the Catholic churches in London. In Westminster Cathedral a woman interrupted Father Bernard Vaughan in his sermon by shouting an appeal against forcible feeding. She was removed by the authorities. In the Church of the Oratory several women were removed after interrupting the mass by singing "God Save Emmeline Pankhurst."

A big banking house suspended business on Saturday, Chaplin, Milne, Grenfell & Co, going to the wall with liabilities of \$25,000,000. The head of the defunct institution was a son-in-law of Harry Grey. Speculation by one of the partners is given as the cause of the failure.

The Allan Line Corinthian, from Montreal for London, collided with the little steamer Oriole, on the Thames, England, on Saturday, and sank her.

Henry J. Matthews, of New York, was arrested in Toronto on Saturday after having tendered the clerk of a hotel a five dollar bill which was found to be one of \$278,000 stolen in 1911 from the Bank of Montreal at New Westminster, B. C. Notes of the Montreal bank amounting to \$8,000 were found in his possession.

Troubled With Weak Back and Kidneys For 10 Years.

Many people fail to understand the significance of a lame, weak, sore or aching back.

When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Doan's Kidney Pills will strengthen the weak back, and prevent any form of kidney trouble entering the system.

Mrs. Ed. Boyer, Nokomis, Sask., writes: "I have been troubled with weak back and kidneys. I had terrible dizzy headaches, and could not sleep at night. In this way I suffered for ten years until I read about Doan's Kidney Pills. I purchased two boxes, and as they helped me, I sent for two more; they put me on my feet, and I have been able to work ever since."

Doan's Kidney Pills are 50 cents a box, or 3 boxes for \$1.50, at all dealers, or mailed direct on receipt of price by The T. Milburn Co, Limited, Toronto, Ontario.

Ordering direct specify "Doan's."

likely to receive much consideration from the Welsh members of the House of Commons, their Liberal supporters, both non-conformist and churchmen, and above all the Irish Nationalists, who voted regularly for the bill, perhaps not much because they liked its principles as because of a desire to get it out of the way to give a clear road for the home rule bill.

While home rule has attracted more attention, on account of the opposition of a portion of Ulster, the Welsh church bill has created almost as much feeling between the two political parties, and between the Church of England and the Liberals.

The Welsh Liberals—and with one or two exceptions all members of the House of Commons from the principality are Liberals—were busy early in the year urging the passage of the bill, and supporting it in their constituencies throughout the kingdom.

SKIN TROUBLE ON THE SCALP

Skin Dried and Cracked and Hair Fell Out—Cured by Dr. Chase's Ointment.

Eczema is annoying and distressing at any time, but doubly so when it gets into the scalp and causes the hair to fall out. Here is a grateful letter from a lady who was cured by using Dr. Chase's Ointment.

Mrs. Hector Currie, Tobernony, Ont., writes: "I was cured of disagreeable skin disease of the scalp by using Dr. Chase's Ointment. The trouble started with itching and pain in the scalp, and the skin would get dry and crack, and at times would bleed, and the hair would fall out. I tried three doctors without benefit, and suffered for three years, heading in the almanac about Dr. Chase's Ointment. I began its use, and am now completely cured. The hair has grown again, and I am as well as I ever was. You are at liberty to use this letter, for I am glad to recommend so excellent a treatment."

Dr. Chase's Ointment has no rival as a cure for itching skin disease.

Chop one teaspoon of onion for each pint of beets, put two tablespoons of butter into pan. Add onion and cook five minutes but do not brown. Add beets, heat hot and serve.

HOUSEHOLD HELPS A good remedy for a cough is to put a lemon into boiling water. Boil it for a quarter of an hour. Then press out the pulp into a jar, removing the pips, and mix it very thoroughly with a quarter of a pound of honey. Take a teaspoon when required.

A good way to use up coal dust is to save all paper bags, fill them with the dust, and when the fire requires mending place a bag of coal on top. This plan is much cleaner than putting the dust in shovelfuls, as it cakes, and so does not tumble through the bars of the grate on to the hearth.

It cost Alfred Marceau, aged sixty-nine years, of Brooklyn, N. Y., \$75 for a new automobile ride along Highland Boulevard. He purchased the machine for \$75 and wrecked it on a steep incline on his first trip.

USE WINDSOR TABLE SALT NO OTHER SALT HAS THE QUALITY

WANT TO BANISH every wrinkle—from face, neck, hands—easily, quickly, completely? Try the famous Windsor formula. Nothing else so simply makes every requirement. Because it is composed of purest and really truly natural substances, it both tightens the skin and improves capillary circulation and nerve tone—leading to stronger, more elastic and more youthful skin. It won't burn your skin in the least. And it's so easy to use, the expensive ingredients of your druggist's, and so easy to mix them.

Makes Wrinkles Go "As If By Magic"

Just dissolve 1 oz. powdered nasoline in 1/2 pint water. Wash face with it. Wash your face in this—Immediately every wrinkle and crease are affected, even the deepest. You are perfectly unharmed and satisfied with the result. You look like you've lost years from your age!

Fly Swatting Is Useless

Our Dominion Entomologist says: "I am convinced that the practical results of the fly swatting campaigns that have been carried on by some of our newspapers are useless as fly reducers."

But the fact that one ten-cent packet of WILSON'S FLY PADS is capable of killing a bushel of flies proves them to be the best of all fly killers and recommends their continuous use to good housekeepers.

WILSON'S FLY PADS are sold by all grocers and druggists everywhere.

The Evening Times and Star

ST. JOHN, N. B., JUNE 8, 1914.

The St. John Evening Times is printed at 27 and 29 Canabury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

MR. PUGLEY'S ATTITUDE

The Times has refrained from making any comment on the Standard's attack upon Hon. William Pugsley, in relation to his remarks concerning the routing of the traffic of the Canadian Northern Railway, until the Hansard report of Dr. Pugsley's speech was received.

Dr. Pugsley pointed out that in the Pacific in 1900 it was provided that the company should carry all traffic not otherwise routed by the shipper through Canadian ports, and it bound itself by every possible means to encourage the routing of Canadian traffic through Canadian channels.

Mr. Seth Jones, poultry superintendent, makes out a good case for poultry raising as a business. He says that from \$500 to \$1,000 is sufficient to start a paying business and that hens should clear from one dollar to five dollars a year.

Col. the Hon. Sam Hughes told parliament on Saturday that the attempt to give the contracts for supplies and clothing for the volunteer forces to "good Tories" caused so much loss and failure, dissatisfaction and trouble, that he went back to the Liberal contractors.

Mr. Johnston told the shareholders of the Sardinia Company that "Your directors expect a profit for 1913 which will be satisfactory to the investors in the company's stock."

Mr. Johnston told the shareholders of the Sardinia Company that "Your directors expect a profit for 1913 which will be satisfactory to the investors in the company's stock."

The Standard this morning does not feature Mr. George W. Fowler's attack upon Col. the Hon. Sam Hughes. Mr. Fowler declared that the minister of militia was guilty of "a wild, reckless and foolish piece of extravagance" in connection with the purchase of the new military training grounds in this province.

The militant suffragettes invaded churches yesterday and created scenes of wild disorder. That the course they are pursuing is steadily decreasing the popularity of their cause is shown by the fact that at open air meetings yesterday some of their speakers were mobbed, their stands torn down, and attempts made to duck some of the women in ponds.

Mr. G. A. Day, Somerville, N.B., writes: "Last spring I had a bad attack of Eczema. I tried several patent medicines as well as the medicine of a physician, but they seemed to make the disease worse. I was advised to try Burdock Blood Bitters, and I did so with the result that in two weeks time the sores began to disappear. I continued to take it until I had taken three bottles and they worked a complete cure."

BURDOCK BLOOD BITTERS CURED A BAD ATTACK OF ECZEMA.

All skin diseases such as Eczema, Salt Rheum, Tetter, Rash, Bolls, Pimples, and Itching Skin Eruptions, are always caused from the blood being in a bad condition, and it is impossible to eradicate them from the system unless you put your blood into good shape.

It drives out all the humor from the blood, and makes it pure and rich, and not only are the unsightly diseases removed, and a bright clean complexion produced, but the entire system is renovated and invigorated at the same time.

It was announced by Acting Premier George J. Clarke after the meeting that the government would probably appoint a commission to investigate the charges made by Chief of Police Clark.

CHURCH PARADE OF FUSILIERS

Seven Ordained at St. Luke's—Sunday School Anniversaries—New Pastor at Fairville

With the regimental band at the head, stirring airs, three hundred and twelve men of the 62nd Regiment, St. John Fusiliers, marched yesterday morning from the armory to St. Paul's church, where they attended divine service.

The weather conditions were favorable for the march, and the fine appearance of the men, under command of Lieut.-Col. J. L. McAvity, much impressed the large number who witnessed it. The route taken was up Charlotte street, Coburg, Garden to the valley, the men having formed up at the armory at 10.30 a. m.

At the church a section was reserved for the soldiers, as has been customary. There was a large congregation. The offertory voluntary was played by the band with fine effect. The sermon was preached by the rector of St. Paul's, Rev. E. B. Hooper, chaplain of the regiment.

Rev. Percy B. Hayward, the new pastor of the Fairville Baptist church, occupied the pulpit for the first time yesterday, his sermon at both services were very acceptable to the congregation. Mr. Hayward is a provincial man who has held a pastorate at German town (Pa.) recently, and reports from his former charges are of a very complimentary nature.

Ordination. A very impressive service took place in St. Luke's church yesterday morning when Rev. W. T. Haig, formerly curate of the Cathedral in Fredericton, and Rev. F. H. Howell, of New Denmark parish were ordained to the priesthood, and J. H. A. Holmes, Thomas Parker, J. Robinson Belyea, Robert T. McKim and J. Vivian Robbins were ordained deacons. His Lordship Bishop Richardson was assisted in the service by Very Rev. Dean Schofield, Ven. Archdeacon Raymond, Rev. R. P. McKim, rector of the church, and Rev. W. F. Dunham of Fairville.

Portland Street S. S. The eighty-sixth anniversary of the Portland Methodist Sunday school was held yesterday afternoon when a very attractive programme was carried out under the supervision of W. H. A. Kirk, Lillian Bromfield, Lucille Bromfield, Arney Turner, Marjorie McConnell, Dorothy Friswell, C. ROB ROY LANDMARKS NOT TO BE SUBMERGED: Glasgow, June 6—The birthplace of Rob Roy, the celebrated Highland freebooter, the place where he died, and his grave have been saved by a decision of the House of Lords denying the city of Glasgow a right to draw a water supply from Loch Voil and Loch Doine. If Glasgow's request had been granted it would have been necessary, since these lakes are a part of the eastern watershed to raise the level of the lakes some fifty feet, which would have submerged the Rob Roy landmarks. These sentimental considerations were laid before the House of Lords in petition after petition, but the decision of that body, sitting in its judicial capacity was not based upon any of these points. The ancient riparian regulations read that water from an eastern watershed shall not be diverted to western use, and it was decided that Glasgow must forgo its water supply for the present reason that the city is on the wrong side of the watershed. A tourist once happened to meet the usual "robust inhabitant" of a village. In the course of conversation he asked the ancient how old he was. "I be just 100?" was the reply. "Well, I doubt if you'll see another 100 years," said the tourist, trying to make conversation. "I don't know so much about that, master," was the hopeful response. "I be stronger now than when I started on my first 100."

CAMPAIGN TO SAVE HOUR OF DAYLIGHT

Paris, June 8.—An account of the campaign in England to save day light, and the interest which other countries are taking in this subject, were presented in reports to the International Congress of Chambers of Commerce here today.

William Willett of London reported a long list of organizations in England which have passed resolutions in favor of the bill for daylight saving. "That so many as 164 hours of daylight are, to all intents and purposes, wasted every year is a defect in our civilization," he asserted.

"Standard time is so fixed that for nearly half the year the sun shines for several hours each day while we are asleep and it is rapidly nearing the horizon when we reach home after our work is over.

"By a simple expedient this may be overcome. If we will reduce the length of one Sunday in the spring by sixty minutes, of which no one would be conscious, we shall have sixty minutes more daylight after six o'clock on each succeeding day until autumn."

Dr. Von Bottinger, a member of the Prussian House of Lords, added a report on the subject, declaring that the daylight saving idea was regarded with great favor throughout Europe. Many German chambers of commerce were working in behalf of the reform.

WOMEN AND CHILDREN FIRST

When a boat dropped sideways into the water, the captain seemed to realize that the liner was lost, for he shouted: "Hurry up, there, everybody. There is not a minute to lose. Get the stewards through the corridors. If there are doors locked, break them in. Get the people out, and don't forget that the women and children must come first."
