THIRTY-SIXTH ANNUAL REPORT  
OF THE  
INDUSTRIAL REFUGE  
AND  
AGED WOMAN'S HOME.

---

As the year rolls on, the time comes when we, as Managers of the "Industrial Refuge and Aged Woman's Home," must be prepared to give an account to our friends and the public, of the work done in these Institutions. As usual, they will find it an unvarnished and truthful one, though we fear many may be disappointed with the record, telling, as it will of diminished numbers, yet of these though fewer, much that is satisfactory. And we would gratefully acknowledge the goodness of our Heavenly Father, who, notwithstanding our many failures to lead back,—those seeking the protection of the Refuge—to honest, industrious, Christian lives, still permits us to carry on the work, under circumstances of comparative freedom from pecuniary difficulties, which sadly hamper the work of many other charities, and that too without the public being heavily burdened, and we are also satisfied

that the plan we have hitherto pursued with regard to this class of women, is one we need not hesitate to defend, as that best calculated to result in a real and lasting reformation.

Though the number admitted during the year, added to the twenty remaining on the 30th September, 1888, makes the total only forty-eight, by far the smallest number ever taken care of in the Refuge, yet the average all the year round, is almost the same as last year when the total reached sixty-four. This means that those who did avail themselves of the protection of the Refuge, remained for a longer period, and, as the result of work done by them shows, they must have been both faithful and industrious. The sum realized from their work being rather more than last year, \$1,576.38 as against \$1,558.53. This, we think, shows most conclusively, that those who do remain in the Refuge, are truly grateful that such a home is provided for them and prove it in this tangible manner, doing what they can to help meet the expenses of the Institution. But it is certainly discouraging to us to have a home capable of comfortably accommodating fifty women all the year round and to find only twenty-two availing themselves of it.

Of those leaving the Refuge during the year nine went to service, four to their friends, one died, one to the General Hospital and eighteen insisted on going out before the time of probation had expired, in some cases being only a few weeks in the Refuge.

9 The diminished numbers can, we think, be accounted for in this way, *not*, we are sorry to say, because there are

fewer  
increas

fewer needing the restraints of such a home, but from the increased and increasing number of such refuges provided for that class in Toronto, and the system now generally pursued for their reformation, entailing a considerable amount of entertainment for them and consequent freedom; and at the sametime an absence of any lengthened period of probation, previous to finding places for them, as servants. This system we are decidedly averse to enter on and the consequence is, that few come to the Refuge, and as can easily be understood, that is particularly the case with the younger portion of that class.

Mrs. Spence assisted by her daughter, is still our much valued Matron; they like ourselves, regret the small number taking advantage of the Refuge, but they are unremitting in their attention to the comfort and care of the inmates and exert a very beneficial influence over those who remain any length of time.

We desire to very heartily thank Dr. Britton and Dr. Moore, for their valuable medical services. And we feel very grateful to many clergymen and to the students of Wycliffe and Knox Colleges, as well as to many ladies who have devoted much time and kind attention to the religious services in these homes and for reading to and teaching the inmates on the Sabbath, and also for a very pleasant entertainment given by them, during the Christmas holidays.

We also thank Dudley and Burns for printing our Annual Report at a greatly reduced rate.

The other department of our work, the "Aged Woman's

Home," has taken care of twenty women during the year. Not quite so many as last year, but there have been fewer changes and only one death, therefore the average is about the same.

Of these, five were over eighty-three years of age and thirteen over seventy-three. The one who passed away in her eighty-sixth year, was a truly Christian widow; another was transferred to the "Home for Incurables," and two were removed by their friends.

We have found the addition we made to the Home last year is a great improvement as it has prevented undue crowding, and enabled us to remove any seriously ill, from too close proximity to the others. We are contemplating further changes, for we are particularly anxious to make these old and feeble women as comfortable and happy as is possible, where there are so many different dispositions and temperaments to contend with, some being naturally bright, happy and contented, while others are easily depressed, are sensitive, and inclined to look on the dark side.

Miss Lee is still the Matron, and is very faithful to what she considers the best interests of the inmates and the Home, being particularly careful that everything in it is clean and orderly.

Our thanks are again due and are heartily given, to Dr. Clapp, our kind medical attendant. We would also acknowledge the very kind services of the young ladies of the "Flower Mission," not only in bringing flowers regularly to

both homes, but by many kind words and Christmas cards, besides reading to and singing for the inmates. They and all others who thus bear on their hearts the aged and infirm, the weak and erring, have the great comfort of knowing that all is open to the eye of Him who never forgets His followers and who will return into their own bosoms a hundred fold, the comfort and sympathy so lovingly bestowed on others.

E. S. EWART, *Secretary*
