Akins there may be found the following reference to this famous school: The Acadian was this year—3lst July 1813—established by Walter Bromley, Esq., on the Lancaster system. It was intended chiefly for the instruction of the poor. Mr. Bromley had been paymater of the Exrd fusiliers, and having reliared from the army while that regiment was in garrison at Halifax, devoted all the energies of his philantropic mind to the amelioration of the poor. He first opened his school on the 18th of January, 1814, and provided all the energies of his philantropic mind to the amelioration of the poor. He first opened his school on the 18th of January, 1814, and Provincial Secretary, stepped into No. I at Government House where it had that if a fire occurred in the town, or any accident whatever took place a day or two before the weekly newspaper. The only exception to the rule was the shipping intelligence, and then, in a spirit of enterprise, and of loyal purpose, good care was taken that everything relating to the capture of the American Provincial Secretary, stepped into No. I at Government House where it had the following relating to the town, or any accident whatever took place a day or two before the weekly newspaper." He was an enthusiast in his pursuit, and made friends and created opposition, but his sole aim was the improvement of human beings, and he was a fine specimen of the earnestness, industry, and singleness of heart and purpose of the English race.

And then the historian Campbell, in his very interesting history of our province—written at a much later date—thus refers to the Royal Acadian:

It was not a case of a fair day's work for a fair day's pay, but rather a large expenditure of time and thought for the simple consciousness of performing a share of public duty in which the rising generations have been so vitally concerned. In view of these facts it appears tuterly inexplicable that the miserable condition of things as regards the Royal Acadian school. On Argyle street, should have been suffered to exist for so long a time. Citizens whose attention has been called to the sanitary state of the building have not hesistated to say that in no other well-conducted city would children be permitted to attend school, with the basement of the building used for school purposes, in the deplorable condition the hold bear of the Acadian presents. That New Zealand ship.

As a last resort to stir the people of the coastal provinces up against the policy of a native navy, the Torles are beginning to get jubilant over the visit to our shores of the battle cruiser paid for by New Zealand and handed over to the British Navy for "keeps." Just why the sight of this ship should stimulate feeling in favour of contributions, is not easy to understand. If any feeling is stirred at all, it will be in the form of a desire to possess, man, officer

contributions, is not easy to understand. If any feeling is stirred at all, it will be in the form of a desire to possess, man, officer and control a fleet of similar ships, not the wish to pay out Canadian money to supply ships elsewhere. Would not Canadian be more deeply moved if the splendid ship that is coming were commanded by New Zealand officers and manned by New Zealand officers and manned by New Zealand officers and manned by New Zealand bluejackets? Most emphatically would this be so.

Besides, it will be remembered by Canadians that brave little New Zealand decided upon making this contribution because brave little New Zealand decided that it could not financially afford to proceed with a native navy until her populaiton and wealth had greatly augmented.

And it will not be forgotten that the New Zealand statesmen of both parties on every occasion express their regrets that they cannot just now follow the example of Zealand statesmen of both parties on every occasion express their regrets that they cannot just now follow the example of Australia, and express their determi tion to construct and organize a Navy of their own at the very earliest opportunity. G Extras, Defence for that flourishing colony, London, in Melbourne, in Halifax, in Toronto, in Vancouver, expressed his regrets that his Government cannot as yet take up the naval unit policy. Hence the gift ship is the best, with regrets, that they can do under the circumstances, and they anxiously look forward to the day when the New Zealand fleet will guard the New Zealand coasts and thus do their full part in the general defence of the Empire. Our Tory friends might also take to heart the fact that New Zealand atesmen of both parties very emphatically express themselves against the idea that all the fighting ships of the Em-pire should be kept in the North Sea. Col. cally express themselves against the idea that all the fighting ships of the Empire should be kept in the North Sea. Col. Allen calls this "North Sea-only" policy as a lamentable confession of weakness and a lack of judgment regarding the broader needs of the Empire.

Canada's position in regard to the capabilities is very different from that of New Zealand. We have eight times her population, twenty times her wealth, and a seal of the population, twenty times her wealth, and a seal of the population of the pop

lation, twenty times her wealth, and a lation, twenty times her wealth, and a hundred times her resources, and can well afford to take up the burden of defending our own coasts and of adding to the naval bases, construction capacity and fighting powers of the Empire generally. A Tory contemporary says:

Ommundsen put of 47 at 300 yards that New Zealand by building this fine ship and making an absolute gift of her to the British Admiralty, exhibits proper faith in the Motherland, and proper apprecia-lon of the value of partnership and co-

Admiralty in treating this ship,

though given outright as still belonging morsily to New Zealand, in consulting that Dominion as to her use, and in sending her to the homeland and other British lands, exhibits a commendable regard for the rights and sentiments of the Overseas Dominions.

If the making of a ship an absolute gift to the British Admiralty "exhibits proper faith in the Motherland," why is it that the Tory press,—including that contemporary—and the Tory leaders constantly make it a matter of boast and pride that the three Dreadnoughts of the Borden policy were only to be Loaned to the same Admiralty, to be taken back whenever Canada saw fit?" If the absolute gift "exhibits proper faith in the Motherland," what must we say of Mr. Borden's condition, loan, or "Injun gift?"

But just think—Oh ineffable thought!—

But just think—Oh ineffable thought!—

Laga, who is unattached.

CIBOU II WINS BELL CUP.

The Halifax yeach Gem led the fleet over the Bell Cup, but only finished for the Bid Cup, but only finished fifth on time allowance. Light are prevailed and the smaller boats caught the breeze as the larger craft neared the line, which evabled them all to be placed shead of them on time allowance. The Gem and of them on time allowance

dition, loan, or "Injun gift?"

But just think—Oh ineffable thought! perhaps if Canada should give these ships outright, they would still be regarded as "belonging morally" to Canada, and the darling Admiralty would really allow them once in a decade or so to visit Halifax or Vancouver and grant the girls of those cities the divine privilege of dancing the "lancers" with the officers. How con-soling the thought. Should not this make it worth while for Canada to forego dockyards, shipyards, naval bases and all the pomp and circumstance of the manage-ment of a fleet, and send two score millions out of the country for investment in indirect defence? Native navies may be great,—but oh you visiting warship!

A good joke. This morning's Tory organ has the fol-

lowing:
OTTAWA, July 25.—The accountant of the House of Commons is experiencing some difficulty in closing up his sessional indemnity accounts. The trouble is due to the disincilination of a few members to draw their money. The great majority of members favored an early closing of the account and acted accordingly. All the Liberals have got their money.

There remains, however, a few Conservative members who show an indifference toward the indemnity amounting almost to dislike. One of them is a member of the government. The good joke is in italics.

THE UNIONS WILL ROW.

The Boston Globe says:

A suggestion comes from Halifax, N. S., to provide a race for inter-city octopede soulists to be rowed at the National Regatts on the Offiarles River, August 8-9. The Down East carsmen found a ready response in this city and the Union Boat Club is ready to double up its quadruple sculler crew with the Riversides and call its a Boston crew.

The plans are to have Philadelphia and New York also enter crews for the same event, making a four-cornered affair and one of the most interesting races given at the big championship meeting.

The Boston crew will include the Faulk ner brothers, Frank Davy, Henry Living stone, formerly of Yale, Raiph May, J. B. Ayer, Jr., Paul Wishington and C. Wiggin, the four last from the Union Boat Club and the first four from Riverside.

Everyone who saw the New York crew on July 4, on the Charles River, will predict that it will take a strong crew to beat it, but the doubling up of the Union and Riversides would greatly improve the Boston showing, as some of the men in the Union Boat Club boat on July 4 were not in good condition.

KEEP CHILDREN WELL DURING HOT WEATHER.

Every mother knows how fatal the hot summer months are to small children. Cholers infantum, diarrhoes, dysentry and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

TO HAVE A NEW HOME. The Halifax and Bermuda Cable Company will have increased accommodation next

month. The manager and staff of the Halifax and Bermuda Cable Company have for several weeks worked like trojans in making parations for occupancy of their future e on the ground floor of the Dennis ouilding, corner Granville and George Sts. The company is obliged to move from its sent quarters, in the Local Governme uilding (formerly Burns & Murray) in neequence of the government's decision renovate the structure, and on comto renovate the structure, and on completion of the work to occupy the entire building. The Cable management expect to be in their new home by August 1st. These quarters will be more commodious, inasmuch as they have leased half of the ground floor, and their present offices are somewhat cramped. The various offices are finished in quartered oak and throughout the partitions are fitted with frosted glass. The suites of offices and work rooms all present a handsome appearance. All the instruments are new, and the

present a handsome appearance.

All the instruments are new, and the most modern obtainable, and everything is being done to insure quick despatch in both delivery and transmitting cable grams to all the West India Islands.

The Halifax & Bernuda Cable Company first started business here in July, 1800, at 210 Hollis St. This building (which is now being renovated to connect with the J. & M. Murphy premises, corner Hollis and Duke Sts.), and the Cable Co., have almost what might be termed a historical attachment for each. The company was located there during the Spanish and American war, and shortly after hostilities had broken out all the cables in connection with the United States were cut at the Cuba end, and the only communication with both fleets, countries and armies had to be done through the Halifax and Bermuda Cable Company moved to the Burns & Murray building, which at that time was considered commodious enough.

The Halifax & Bernuda Cable Company was incorporated under the Company's Act of 1886, in London, England, with a capital of \$600,000 in 4p per cent. first mortgage debentures, and \$250,001 ordinary shares of \$25, paid in full. The company received from the Immerial Government a subsidy of \$40,000 a year for twenty years.

CANADA AT THE HAGUE. Panama Canal question to be

TORONTO, July 26.—An Ottawa despate to the Toronto Globe says:
That the question of toils exemption on the Panama Canal and the disorimination which it would involve against foreign shipping, will be admitted to the Hague for arbitration, is a matter of definite knowledge at the Capital.

It is expected that a British, a Canadian and a German comminationer will be chosen to sit with the international tribunal and it is suggested that a choice be made in readiness. It is proteine that Sir Charles Fitzpatrick, Chief Justice of the Supreme Court, who is now a member of the International Court stiting for the adjustment of financial claims between Canada and the United States, will be the Canadian member. Hon. Arthur Meighen, the new Solicitor General, will assist in the preparation of Canada's case. the Toronto Globe says: OXFORD

He expressed the belief that this morning's fire and two of the others were of incendiary origin. By visiting New Glasgow ball

> Fusion with Anglicans. Methodists turn down proposal by large

London, July 23.—Another attempt which ended disastrously was made at the Plymouth Conference to-day to bring about the fusion of Methodists and Anglicans. The Rev. Bevan Shepherd moved that before steps are taken to secure the corporate union with other Methodist or Free churches inquiry be made with a view to ascertaining if such an union could first be effected with the Mother Church of England. they must have been disappointed, for the visitors simply ran away from the home ensities; they not only batted Rawley out of the box, but they treated Isnor's twirling in one innings to a show of affection that was somewhat show of affection that was somewhat astonishing, but when the latter settled down he did some puzzling work. On the other hand, DeVinney's pitching was most remarkable in respect to the fact that the local players were only on a few occasions able to decipher his curves. The fans, however, enjoyed the game at various stages, judging by the reception accorded the heavy batting and several very fine plays. The score is given below:

CANNEL COAL.

The Cook at one of our leading Clubs, not getting satisfactory results from the various Coals supplied her, the Lady Superintendent finally gave her a sample of CANNEL COAL to try. After one day's use of this Superior Fuel, a full supply was ordered, with the most gratifying results ever since.

At this Club, meals are ordered at all times from the opening until the closing of the Cafe and must be served at once. Under such conditions not only a quick, but a reliable fire is needed, and CANNEL COAL "fills the bill." The Coal is handled carefully and intelligently, with the result that only a little more than half as much is used as of other Coals. A combination of satisfaction and economy is obtained which cannot be secured from other Fuels.

MONDAY'S BIG EVENT Will be The Pink Lady at the Academy of Music.

John C. Fisher, who presented to Hallfax The Red Rose and other operas, will give our theatre-goers the opportunity of seeing one of the most successful musical plays of recent years, "The Pink Lady," at the Academy of Music next week, commencing Monday night, with matinees on Wednesday and Saturday. "The Pink Ludy" was taken from a French farce called "La Satyre" and was made into a musica nedy by C. M. S. McLellan, who pro vided the book and lyrics, with music by the well-known English composer, Ivan Caryll. In New York it had a very sucpessful run at the New Amsterdam cessful run at the New Amsterdam Theatre, where it was given for an entire season. It was then taken to London and made a big hit in the British metropolis at the Globe Theatre, and it is quite afte to say that no musical play within a decade has been so well received by audiences on both sides of the Atlantic. There are many numbers in this musical play which have become justly famous among them being. "I'm going to be mar-There are many numbers in this muster play which have become justly famous among them being, "I'm going to be married in June", "The kiss waltz", "When loves goes straying", "The girl by the Saskatchewan", "Douny did, Donny didn't", "Hide and Seek", and of course the one number which has been heard every place, the waltz song, "Beautiful Lady," Messrs, Fisher and Stevens have provided an excellent company for "The Piok Lady," among the principals being Olga DeBaugh, Georgia Harvey, John E. Young, Elsa Von Bostel, Louise Ksy, Abhott Adams, Mortimer Meyer, Charles J. Hines, Russell Lennon, Alfred Derry, Alice Moffatt, Jack Ryan, Lucie Carter, Jack Hall. "There is a large chorus and the organization as a whole is one of the biggest that is travelling.

Trinity Garden Party. The attractions for Trinity Garden Party on July 29, 30 and 31 are all good, but the one of chief interest will be that of the big Missionary Pageant, in which 120 children will take part. The pageant will represent all the missionary work of the Canadian Church of England throughout the world, and will be one of the most interesting events of its kind ever put on in Hailfax. It will take place at 4 o'clock each day of the Garden Party. An exhibit of missionary curios and addresses by Missionaries will also be held and given.

Natural Lines in Corsets

Forty odd years ago, when MAHON BROTHERS commenced business, wasp waists and hoop skirts were in vogue. The ever restless Style leaders have wrought a wonderful evolution, and corsets have played a prominent part in giving Miladi health, grace and beauty.

Just now it is the natural figure line, which grows much more pronounced as the season advances.

The newest models show the maximum degree of flexibility produced by the use of very few steels and the employment of the softest materials.

New models show the straight back, large waists, long skirt, extremely low bust and slightly relaxed abdomen. The last named effect is produced by taking out some of the boning, by the use of elastic or tricot sections, or by slight widening of the gores.

Staple corsets do not adhere to this new line, but follow the style tendencies in regard to flexibility in a more conser-

The silhouette figure is graceful and desired by many. You can obtain it in many of our corset models. Select your favorite from the following:

Tennis has been the most talked of event of the week. On Tuesday afternoon the Wasgwoltie wasgrowded to watch the finals being played off. The match between Mrs. C. R. Another enjoyable outdoor event was the band concert at the North West Arm Boat Club on Thursday evening. 'It's only decent for a man to give his references when it's natural for them to be required. I was educated at Trinity college, Toronto. I spent a year at the Harvard law school. And I am not a beggar utterly. I own a ranch in Montana that actually pays and a thousand acres of the best wheat land in Nebraska. At the Bronx Loan and Trust company in New York I have securities to a considerable amount—I am perfectly willing that ny one who is at all interested should inquire of the trust company officers as to my standing with them. If I were asked to state my occupation, I should have to say that I am a cattle berder-what you call a cowboy. I can make my living in the practice of the business almost anywhere from New Mexico north to the Canadian line. I flatter myself that I am pretty good at it," and John Armitage smiled and took a cigarette from a box on the table and lighted it.

Dick Claiborne was greatly interested in what Armitage had said, and he struggled between an inclination to en-courage further confidence and a feeling that he should, for Shirley's sake. nake it clear to this young strange that it was of no consequence to any member of the Claiborne family who e was or what might be the extent of his lands or the unimpeachable character of his investments. Armitage saw something of all the claibornes every day in the pleasant atimacy of ship life, and Hilton Claiorne found the young man an interesting talker. Judge Claiborne is, as every one knows, the best posted American of his time in diplomatic history, and when they were together Armitage suggested topics that were

well calculated to awaken the old law Shirley and Armitage talked—as peole will on shipboard-of everything under the sun. Shirley's enthusiasms were in themselves interesting, but she was informed in the world's larger af-fairs, as became the daughter of a man who was an authority in such matters, and found it pleasant to discuss them with Armitage.
