A case which is probably quite unique here to-day before Mr. Justice Galt. It was an action brought by Mr. Richard

Her friend says I did not butory neglect on his part, by certain of think it possible for her to live many defendants' members or officers taking months she was reduced to a mere skelepart in such initiation, and duly author ton. Her cure is hardly less than a mir-

suffering, besides certain minor injuries. The plaintiff has sustained loss and dam age in consequence of such injuries, in support his family, and in nursing, payent of money for medical advice and treatment, and is advised and believes that the effect of the injuries sustained by him may last for several years." IN ANSWER TO THIS the defendants said that their constitution

and bye laws required candidates for initiation to be in sound health, which the to show signs of life. It is now looked plaintiff knew, yet knowing he was not upon as a great curiosity, as the ice was in a healthy condition, he, by fraudulent gathered last winter and the turtle is apmisrepresentations and concealment in parently none the worse for its eight regard thereto, procured his initiatiou. They denied that the plaintiff was, during ing place. his initiation, violently thrown by any of the defendants' officers or members duly authorized, in such a manner as to cause the injuries complained of, and asserted that any injuries that may have been ult. convicted of poaching on land belongsustained by him during his initiation ing to Mrs. Bisset, of Bagborough, and were not caused by the defendants, or by killing a partridge and a bare. He was any one acting under their authority. The plaintiff appeared in Court with of little use in enabling him to move about, owing, as he himself stated, and s his medical witness also deposed, to According to the plaintiff's story and

He was then LIFTED UP OFF THE FLOOR and (with the chain still on) led about this, here and there for a time. The cap and hain were then taken off him, and the Noble Grand came to the plaintiff (accord. quary, is dead. ing to the latter's statement) and said "I am afraid we hurt you." Some of the medical testimony was to the effect that | feat at Tamsui. the plaintiff had probably received peranent injury-probably paralysis or imbecility would result, there might, however, be a very tardy recovery. Other physicians called by the defendants ex pressed the opinion that he would entirely recover, and some of them intimated a suspicion on their part that he was shamming a good deal.

For the defence it was sought to be established that the injuries sustained by the plaintiff were the result of a lark indulged in by some members of the lodge before the authorized ceremonial of initiation commenced. It was admitted that the placing of a cap over the head

of the candidate and the USE OF A CHAIN OR ROPE in the manner described were a part of the ceremony, but it was attempted to be shown that the chain had not been placed around the plaintiff at the time he received the shove.

Readers of the Commercial can not well force that a large space has for years been taken up by Kendall's advertisements—especially of a certain Spavin Cure. We have had dealings with Dr. Kendall for many years, and we know of some large business houses in cities near by who have also dealt with him for many years, and the truth is fully and faithfully proven, not only that he is a good honest man, and that his celebrated Spavin Cure is not only all that it is recommended to be, but that the English Language is not capable of recommended ing it too highly.

Kendall's Spavin Cure will cure spavins There are hundreds of cases in which that has been proven to cur certain knowledge, but, after all, if any person confines the usefulness of this celebrated medicine to curing spavins alone, they make a big mistake. It is the best medicine known as an outward application for rheumatism in the human family. It is good for pains and aches, swellings, lameness, and is just as safely applied to men, women and children as it is to horses. We know that there are other good liniments, but we do believe this spavin cure to be far better than any ever invented.
