QUEBEC AGAIN.

The article of Mr. C. A. Eaton in the last issue of the MESSENGER AND VISITOR would, we doubt not, be read with the interest which the importance of the subject and the ability of its treatment make it worthy to command.

It is interesting to note that the article was written at the same time to present a remark or two of our own, suggested by the article referred to, but lack of space compelled the holding over of our remarks to the present.

French language came to be perpetuated in the schools, the parliament, the legislative records and the courts of law, and thus were fostered and developed the power of the Roman Catholic priesthood and the spirit of French nationality which have come more and more to be the dominating forces in Quebec.

But Mr. Eaton, of course, knows very well that there is no constitutional method by which the Protestants of Canada can force their more liberal ideas and methods upon the Roman Catholic province.

These sentences might seem to indicate that the writer supposed the Protestants of Canada could in some imperative manner impose their own ideas on Quebec and compel the immediate adoption of a more enlightened educational policy.

PRAYER FOR RULERS.

Some papers have been asking whether a politician can be a Christian. The conclusion reached seemed to be that it is not possible, but very unlikely.

The Christians in apostolic days had not always the best reason to look with favor upon those in authority.

account they should be commended to the God of all grace. For they have the same need of pardon for a, of strengthening grace, and of wisdom, as other men, and whatever additional help is needed, on account of the perils to which, as rulers, they are liable.

The Dedication of Feller Institute at Grande Ligne.

When the Board sat around the table last January, planning for the enlargement and re-modelling of the old building, word came in that the roof was on fire.

The French converts and the contents of the special train from Montreal gave the building a lively appearance at eleven o'clock, on the 9th of October.

Mrs. Tyler, from New York, thought it was right for a woman to speak when the Feller Institute was dedicated.

THE YOUNG PEOPLE'S MEETING

There is a great movement going on among the young people in our land. They are coming forward to take their place in the front ranks of aggressive Christian work.

The Baptists were not able to keep a general superintendent this year. The pastors, therefore, put their heads together and resolved that as far as possible they would do this work, spy out the land, encourage the scattered faithful, decide upon points of strategic importance, and, where convenient, conduct special meetings.

Such a plan of campaign gave our bishops quite extensive sees, albeit they are not of the "apostolic succession" (smooth)!

### News Summary.

**DOMINION.**  
—The Nova Scotia government will send an exhibit of the minerals of the province to the Jamaica exhibition.  
—A faded or gray beard may be colored a beautiful and natural brown or black, at will, by using Buckingham's Dye for the Whiskers.  
—The Shelburne Budget says that some New York capitalists desire to secure a tract of land in Shelburne County for fishing and hunting purposes.  
—As an experiment two car loads of turkeys are being shipped from Montreal to Aberdeen. It is also proposed to ship cut hay in bales to England.  
—A Halifax dealer, wishing to procure a thousand barrels of winter apples of good quality, received a dispatch from Windsor on Tuesday, asking \$4 per barrel.  
—Parish lumbermen are making preparations to go into the woods, but owing to the low price of deals, it is thought the cut will not be very extensive this winter.  
—The Fredericton Boom Co. have closed their operations for the past year. They raised this season 170,000,000 of lumber, the biggest business in the company's history.  
—Last week a hundred and fifty car loads of wheat left Manitoba daily, and shortly the figures will run up to two hundred car loads. This is the largest wheat movement yet.  
—Birchall's body embalmed and placed in an air-tight coffin is said to have been given secretly to the relatives, after having been buried as a matter of form in the jail. This may be nothing more than an idle rumor.  
—Several St. John ladies connected with the S. P. C. A. entertained over one hundred new boys in Gordon Division Hall, on Friday evening last. A Band of Mercy was organized in which over eighty of the boys enrolled.  
—New Brunswick lumbermen will not operate as extensively as last year. Most of the mills on the Miramichi are closed down, but those at St. John are still running. Considerable lumber will be carried over by provincial dealers.  
—The Parrishboro police force struck for higher wages a few days ago, and in consequence besides being unprotected the town was in darkness for two or three evenings. An arrangement has been made and the force have resumed their duty.  
—We are informed that the railway bridges across Bear River and the Jozein are nearly completed, that two ballast trains are at work, and that there is every prospect of the entire "gap" being finished and the road ready for traffic by the 1st of January.  
—The work of relaying the Albert railway with steel rails has been commenced at the Hillsboro end. The bridges along the line and other structures are being repaired, and it is evident that the new owners intend putting the line in thorough condition.  
—The *Nov Scotia Gazette* contains notice of an application for a charter to incorporate the "Canadian Smelting and Refining Co. (Limited)," with headquarters at Yarmouth. The company proposes carrying on the business of general mining, paint manufacturing, etc.  
—The Nova Scotia secretary for agriculture has made his report on the crops of the province. Taking all the counties he finds hay 97 per cent, of an average crop; potatoes 98; oats 68; wheat, of which not much is grown, 35; other grains and root about an average crop.  
—Potatoes are selling at Summerside at twenty five cents per bushel for all marketable varieties, oats at forty-one cents per bushel and eggs at sixteen cents per dozen. Hay sells at \$12 to \$12.50 per ton, most that is in the market being pressed hay from the mainland.  
—According to the *St. John Globe*, the shipments of potatoes from the upper counties of New Brunswick to the American market will be fully as heavy this season, if not heavier, than in past years. The farmers are reaping a fine harvest, for the potatoes are selling at higher figures than usual.  
—On Tuesday last part of the Canadian exhibit for the Jamaica exhibition passed through Truro to Halifax. It consisted of a pyramid containing samples of every wood grown in Canada, and will give a good idea of our lumber resources. It took three cars to carry the different sections.—*Colchester Sun.*  
—It was Lord Loughton who wrote: Man's best things are nearest him, Lie close about his feet.  
—The Dominion Safety Fund Life Association, whose system has commended the admiration of insurance experts and journalists abroad, is a reliable home institution, which is particularly adapted to the needs of our people, who want reliable life insurance, but are quite capable of looking after their own banking.  
—The Minister of Agriculture is about offering a special bonus or rate to emigrant settlers on land in Manitoba, the North-west Territories and British Columbia, with the object of stimulating settlement on the land. For the head of a family it will be \$15 for each member of the family at and over the adult age; of 12 years \$7.50, with an additional bonus of \$5 to any member of the family who subsequently takes up a homestead within six months after arrival in Canada.  
—Worms don't take kindly to Peter's Liver-worm; children or others troubled with worms should try this remedy, easily administered, safe and effective. Ask your druggist for it or any dealer.

**EJAYO.**—At the residence of her son-in-law, Orbin Sproule, Esq., Digby, Esmealine, wife of Mr. Oliver Eaton, formerly of Granville. Her constitution was shattered last winter by a severe attack of La Grippe, from the results of which she suffered until death came to her relief. Several days before her death she bade her friends farewell and rejoiced in hope of the glory of God, after which she became unconscious, and thus continued to the end. She leaves a sorrowing husband and two children, viz: Mrs. Sproule and Mr. C. Rupert Eaton of Granville.  
**HALEY.**—At Yarmouth, N.S., of consumption, Gordon A. Haley, aged 23 years, son of the late Joseph Oliver and Elizabeth Haley. Our dear young brother gave his heart to Christ in the morning of his day, and was a most faithful and consistent member of Temple Baptist church of this town, until November the 8th, when he left us to join the church triumphant. Gordon had a ready, active mind, but a weak body, and soon the earthly tabernacle dissolved, but he had "a building of God, a house not made with hands, eternal in the heavens." Our brother's illness was protracted, and at times very severe, but his soul was stayed on God. He died at the house of Wm. S. Robbins, where loving hands tenderly ministered to his suffering body, while the grace of God was to his soul as oil upon the troubled waters, when he peacefully fell asleep in Jesus, and was not for God took him to a closer observation of the welfare of the denomination at home and abroad. He received his earnest attention, and his money was used freely for the support of the local church, for home and foreign missions, for Acadia college and the needs of the denomination generally, although he was by no means a wealthy man. A place in Israel has fallen and his father will be hard to fill. He died calmly, trustfully, patiently, without doubts, without fears, and it must strengthen us all ways.

**\$3000 A YEAR!**  
This is the largest sum of money ever paid to a young person of either sex, who was not a doctor, nurse, or attendant. It was the reward of a young girl, who was the only one of her kind to have been cured of a very severe case of Catarrh of the Head and Throat, by using Dr. Williams' Pink Pills for Pale People. She was cured in six weeks, and her health was so restored that she was able to work for her father, who was a farmer. She has since been married, and is the mother of a family. This is a true story, and it is a proof of the power of Dr. Williams' Pink Pills. They are sold everywhere, and are the best remedy for all kinds of Catarrh of the Head and Throat, and for all kinds of general debility and weakness. It purifies and eradicates from the Blood all poisonous humors, from a common Pimple to the worst Scrofulous Sore.

**CHILDREN'S LITERATURE.**  
**WHAT "ST. NICHOLAS" HAS DONE FOR BOYS AND GIRLS.**  
Victor Hugo calls this "the woman's century," and he might have added that it is the children's century as well, for never before in the world's history has so much thought been paid to children—their schools, their books, their pictures, and their toys. Childhood, as we understand it, is a recent discovery.  
Up to the time of the issue of the St. NICHOLAS MAGAZINE seventeen years ago literature and children's magazines were almost contradictory terms, but the new periodical started out with the idea that nothing was too good for children; the result has been a juvenile magazine genuine with conscientious purpose—the greatest writers contributing to it, with the best artists and engravers helping to beautify it, and everything being tuned to the key-note of youth.  
It has been the special aim of St. NICHOLAS to supplant unhealthy literature with stories of a living & a beautiful interest. It will not do to take fascinating but hurtful tales out of boys' hands, and give them in its place Mrs. Barbauld and Peter Parley, or the work of writers who think that any "good" talk will do for children, but they must have strong, interesting reading, with the blood and nerve of real life in it, reading that will make them to a closer observation of the best things about them.  
In the seven years of its life St. NICHOLAS has not only elevated the tone of contemporary children's literature as well. Many of its stories, like Mrs. Barbauld's "Little Lord Hautbois," have become classics. It has not only been a joy to young people, but it has also been a source of instruction and enlightenment to their parents.  
The year 1891 will prove more than ever that "no household where a boy and a girl are brought up without St. NICHOLAS." It is a true story, and it is a proof of the power of Dr. Williams' Pink Pills. They are sold everywhere, and are the best remedy for all kinds of Catarrh of the Head and Throat, and for all kinds of general debility and weakness.
