### Father Morrissey's Liniment Relieves Pain

Aches and pains yield quickly to Father Morrissey's Liniment. It is absorbed quickly by the skin, and penetrates deep into the tissues, making it splendid for sore muscles, stiff joints, rheumatic pains, backache, sore throat or lungs, or any deep-seated pain.

It eases at once and heals surface hurts, such as cuts, bruises, burns, scalds and frost-bites.

For tooth-ache and ear-ache it is an excellent remedy.

Father Morrissey's Liniment is exceptionally good as a "rub" for athletes. It takes out stiffness and soreness after severe exercise, and never blisters the skin.

Keep a bottle handy, for

"There's ease in every drop".

25c. a bottle—at your dealer's.

## Mobs Wreck And Rob Lisbon Churches

Outrages Against the Clergy Reported and Many Arrests are Being Made

Lisbon, Oct. 10.—The revolutionary leaders having overthrown the monarchy are now confronted with the scarcely less serious task of putting an end to the excesses on the part of the rougher element of their own followers, who, having had a taste of mob rule, are prone to continue lawlessness.

The decree of summary banishment for the religious orders gave excuse for brutal outrages against the clergy.

The provisional government has now recognized the seriousness of the situation, and today the police took severe measures to prevent the population sacking the religious establishments and to check the demonstrations against the religionists pending their expulsion.

Reports that the clerics were carrying on a guerrilla warfare from the windows of their establishments inflamed the public resentment against the religionists, many of whom were chased from their churches and convents. The mob which battered down the doors of the convent in the Rue Do Quelhas was led by fanatics and a gang of ruffians who, seized the occasion to destroy everything in sight.

Images and statues were wrenched from the niches in the chapels, altars were wrecked, furniture broken and the vestments were carried off by the rioters. Later the police recovered the greater part of the vestments. The district in which are located Santos Church and the French legation was startled by the crack of rifles and at once a report was started that the religionists were firing from the windows of their church. The crowd flocked to the scene, but the military arrived in time to protect the church and the legation from possible violence.

### MANY ARRESTED

Arrests of disguised and fleeing religionists continued today. The discovery of secret underground subterranean tunnels set afloat the story that many monks were hiding underground waiting a favorable opportunity to emerge and fight against the new regime. To satisfy the crown the military started subterranean search and in one instance went so far as to dig a trench to locate the suspected tunnel. As was the case at the Barcelona riots the popular feeling seems to be restricted to the monks and nuns and does not manifest itself toward the secular clergy.

With doubtful expediency the bodies of Prof. Bombarda and Admiral Reis, the revolutionaries remain exposed at the city hall. The republican flag hangs from the eaves between which a bust typifying the republic is draped in black. Throughout Sunday the city was in festival garb. Thousands came in from the country districts and visited the scenes of the recent fighting. They wore medals in the form of republican emblems and carried improvised republican flags. The bands played the republican hymn and the members of the ministry and other leaders of the revolutionary committee, who drove from place to place amid the cheers of the populace.

Lisbon, Oct. 10.—The transformation of the country into a republic manifests itself on every hand. The word royal in connection with public buildings, theatres and other establishments, has been entirely suppressed. Official documents begin "in the name of the republic" and end with "greeting and fraternity." The privileges of nobility have been abolished, and

the equality of religious sects proclaimed.

The British cruiser Venus and the United States cruiser Des Moines are here again today.

Rio Janeiro, Oct. 10.—The government of Brazil has authorized its minister at Lisbon to enter into relations with the provisional government on current business and the protection of Brazilians in Portugal, but has declared verbally that this does not mean the recognition of the establishment of the new regime in Portugal. This recognition cannot be accorded until Brazil is certain that the new regime has the support of the majority of the Portuguese people.

### SPAIN THREATENED

Barcelona, Spain, Oct. 10.—A state of increasing excitement reigns in Barcelona. The success of the revolution in Portugal appears to have fanned the fire of rebellion that has smouldered since the furious outbreak of a year ago. There was the greatest animation in the streets today. The people pretend not to notice the patrols and civil guard which are being strengthened gradually in preparation for eventualities on October 13, the anniversary of the execution of Prof. Francisco Ferrer, the director of the modern school of Barcelona, who was convicted of having incited last year's revolutionary movement.

General Weyler, captain general of Catalonia, admits that the strike of miners here is taking on a revolutionary character, he says that his orders are to suppress any active disloyalty with a firm hand. Ten thousand stern faced miners marched to the cemetery in the suburbs yesterday and placed wreaths upon the tombs of Ferrer and the revolutionist Mara, who were executed in consequence of what has become known as "bloody week."

Violent speeches were made by leaders of the miners, who flayed the clerics, charging them with responsibility for the execution. The military and police forced the manifestants to return to Barcelona in small groups.

### TO GO TO ENGLAND

Gibraltar, Oct. 10.—King Manuel of Portugal and Queen Mother Amelia, decided today to proceed to England. They will leave probably within a few days, but are undetermined whether they will travel by land or sea.

The Italian warship Regina Elena arrived here today to take on board the Dowager Queen Maria Pia, who will go to Italy.

### LIQUID CURES ECZEMA

WHERE SALVES FAIL.

In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

### WASH THE GERMS OUT.

A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

A trial bottle will start the cure, and give you instant relief. Write for it today to the D. D. D. Laboratories, Dept. C, D., 40 Colborne St., Toronto. For sale by all druggists.

## BAD ACCIDENT TO DRIVER SMALLWOOD

Had Hip Dislocated and  
Back Injured While Work-  
ing Around his Engine.

I. C. R. Driver Smallwood met with a serious and painful accident at the I. C. R. station about 2.30 o'clock Tuesday afternoon in Moncton.

Driver Smallwood was to have taken out the Montreal half of the Ocean Limited, and while kneeling on the driving rod of his engine the shunting engine ran against the other end of the train, moving it ahead about three feet.

In his position, kneeling on the driving rod and leaning over doing the oiling, the rod raised with the revolution of the wheels, catching the unfortunate man and doubling him up against the upper part of the engine.

His leg below the knee was severely cut, his back was injured, and he received several minor injuries about the lower limbs and body.

Dr. Bourque was immediately summoned, and he arrived on the scene of the accident with despatch. He made a hasty examination of Mr. Smallwood's injuries, but at the time was unable to determine whether serious or internal injuries had been received or not.

Mr. Smallwood was removed to his home on Highfield street.

On examination of Dr. Price later, it was found that Mr. Smallwood had his left hip dislocated, which was put back into place and also a deep gash was inflicted in his left leg below the knee, which was dressed.

Mr. Smallwood's many friends will be very glad to learn that his injuries are not dangerous, as was at first feared, although he will be laid up some weeks.

Mr. Smallwood is a brother of Cameron Smallwood, Newcastle.

### OCTOBER MAGAZINES

One of the breeziest descriptive articles of the season appears in THE CANADIAN MAGAZINE for October under the title "Calgary: A Study in Optimism." The author is Miss Jane Pratt, a writer whose name is not as yet very generally known. This article is well worth reading. While it gives some impression of Calgary in a commercial way, its chief charm is in the naive manner in which an insight is given into the daily life and spirit of the people of this city of the foothills. A more serious article is contributed by Stuart Jenkins, and entitled "Is the Old Roman Race Still Dominant?" in which the author claims for the people of Great Britain a perpetuation of the Roman type that once dominated the whole world. "Damascus the Tremper" is the title of a fine travel article by A. R. Carman, and "The Continuity of Municipal Policy" is a well thought out consideration of local government. Frank H. Newton gives a good account of the new domain in Northern Ontario, in which he predicts an important future for that part of the Province. The last act of Arthur Stringers fascinating drama The Blot appears in this number as well as several other good articles and a number of absorbing short stories and sketches.

## Tickling in the Throat

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—a regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about this. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

CAMPBELLTON, N. B., OCTOBER 14th, 1910.

### THE HARBOR OF REFUGE

The exiled King of Portugal is going to England, and the exiled monks and nuns may go there also. England gives the hand of welcome and the shield of protection to the proscribed of all nations. Those who, in prosperity, denounce her, ridicule her, and condemn her religion as soulless, run to her when they are driven by persecutors from their own country. England cares not whether they are Christians or Pagans, Republicans or Monarchists: she received them all the same. The Jesuits expelled from France, the King driven out of Portugal, and the anarchist who has escaped from Russia—all are accorded a refuge, where they may enjoy life and liberty, and where they would be protected, if necessary, by all the power of the Empire.—World.

### COLD WINTER COMING

Those skilled in reading nature's weather forecasts are unanimous in the opinion that we have a long cold winter ahead of us with plenty of snow. Visitors from the districts farther back, where the wild animals can be observed, say that the fur-bearing animals are all growing heavier coats than usual and that the bears are making their dens in the most protected places they can find. These signs are regarded as unfailing and they are backed up by the actions of the muskrats, who are building their houses larger and higher than they do in mild winters, and the squirrels and chipmunks who are laying in a double stock of provisions for the winter. Even around the city signs are to be found which the wise say point in the same direction. Among the most commonly observed is the fact that the rowan tree berries are more plentiful and larger than usual, providing a good food supply for the birds.—Globe. Here on the north shore there were very few rowan berries and hardly a hazel nut.

### This Oven Bakes Perfectly

because it is evenly heated—because it is thoroughly heated, always. The heat-flues, broad and deep, encircle the entire oven so that it bakes as well at the top as at the bottom, and in the corners as well as the centre. The bottom is doubly stiffened so it can't warp and tilt. The inner body of the Kootenay is thoroughly protected with asbestos—the oven walls can't burn through. Besides, the Kootenay oven is thoroughly ventilated. No food can be tainted by fumes or steam. You get perfect baking results. KENDALL'S SPAVIN CURE

To Bring Him Back to the "High Stepping" Class

THE REMEDY USED ALL OVER THE WORLD

For Spavin, Curb, Splint, Ringbone, Soft Bunches, All Lameness

Horse dealers have made thousands of dollars by buying lame, Spavined

Horses, curing them with Kendall's Spavin Cure, and then selling the sound animals at a handsome profit.

You can do the same with your own horses. Here is one man who saved his horse and his money by using Kendall's.

Oak Bay Mills, Que., Dec. 15th, 1909

"I wish to inform you that I have used Kendall's Spavin Cure with good success on my horse. I found that it cures quickly and well!" Yours truly, ROY HARPER.

It is a bottle—4 for \$1. A copy of our book—"A Treatise On The Horse"—free at dealers or from us.

## Keeping Faith With The Buying Public

One reason why "PROGRESS BRAND" Clothing keeps its hold on the public, is because it keeps its faith with the public.

When a man sees the "PROGRESS BRAND" label in Suit or Overcoat, he knows that he is going to get honest value for his money.

The "PROGRESS BRAND" label has always stood for satisfaction. And it means more to-day than ever before.

It is a guarantee of satisfaction. It is the guide to good clothes. It means fair play prices.

Make this a maxim—look for the "PROGRESS BRAND" trademark in every suit and overcoat you buy.

When you find it, you will find honest clothes, honestly made, at honest prices.

## Royal Household Flour

The best for Bread and the best for Pastry

### "The Little Brother of The Rich"

NOW, this is not a talk about money. It isn't a contrast between the rich and the poor, for in some things we are all equally rich and there are no poor brothers.

The poorest woman in the land can have just as good bread as the richest. The children who walk can have just as delicious pies and cakes and "goodies" as the children who ride in carriages.

All the money in the world cannot buy better flour than "ROYAL HOUSEHOLD", for there isn't any better. And the woman who does her own baking can have just as good bread as is served to the Royal Household of England, and that is made from ROYAL HOUSEHOLD FLOUR sent to England from Canada.

And then, a barrel of

"ROYAL HOUSEHOLD" produces many more loaves than a barrel of ordinary flour. The bread is better—sweeter, nicer to eat—and more wholesome—has more health and strength in it—makes more delicious pies, cakes, biscuits and doughnuts. Children, whose mothers use "ROYAL HOUSEHOLD" at home, can have just as good baked things as the Princes and Princesses of England.

Although "ROYAL HOUSEHOLD" costs a little more per barrel than ordinary flour it contains so much more nourishment and makes so much more bread of superior quality it is in reality the most economical of all flours.

"Royal's Book for a Cook" comprises 125 pages of splendid Recipes which have been tested and tried. Every woman who is interested in good things to eat should send and get it.

BREAKING THE WORLD'S TIPPING RECORD  
Canadians usually associate the custom of lavish tipping with Ameri- can millionaires, believing that the latter hold the record for the munificence of their gratuities. But, as a writer in October, Busy Man's points out, the record does not belong to an American but to a Canadian. An ex-cabinet minister of the Dominion, recently returned from a tour of the European continent left behind him an astonished and gasping procession of servants. He had presented tips to an amount that amazed these people, accustomed as they were to huge tips. And he was ably seconded it seems, by a fellow-millionaire, a young multi-millionaire. Much more inter- esting information about tipping is to be found in the same article.

ALEXANDER F. MONTGOMERY  
Unusually sad was the recent death of Mr. Alexander Fraser Montgomery of New Richmond Centre, P. Q., which occurred on Monday, Sept. 29th at Campbellton Hospital, from ty- phoid fever. He was 21 years of age. He leaves to mourn their loss a mother and father, six brothers and sisters. The sisters are, Mrs. John Amnison, Broadbent; Mrs. Jos. Amnison, Campbellton; Mrs. Leon St. Martin, Quebec; Florence, Elsie and Winni- fred of New Richmond Centre. The brothers are Albert, Leslie, Harold, Edgar, Bruce and Kenneth, at home. His remains were taken to his home from whence the burial took place. Deceased spent over a year in Camp- bellton, where he made many friends.

THE BIGGEST ELEVATORS IN THE WORLD  
It is really astonishing to read about the way the wheat crop of Western Canada is poured each fall through the elevators of the Twin Cities on Lake Superior—Fort William and Port Arthur. Last year 43,000,000 bushels out of a crop of 125,000,000 bushels, went through the big terminal elevators in eighty days. The real significance of this is made clear by T. M. Ralston in the course of a remarkable article in October Busy Man's entitled "Pouring Grain through the Big Funnel." He points out that during the past year eighty-nine million bushels were handled by the Twin City elevators, that it re- quired eighty-nine thousand cars to hold this quantity and that this in- volved the despatching from Winnipeg of thirteen thousand trains of seventy cars each. The manner of handling the grain is described in interesting fashion and a description of the mammoth elevators—the largest in the world—is given.

New Laundry

I beg leave to inform the people of Campbellton that I have opened a new laundry at the foot of the Relief Committee building, near the old bank. I am equipped with the latest machinery and cleaned. Patron- ize home industry. Give us a call.

## WORLD'S DEBT TO CANADA

### A Wonderful Achievement

Discovery of "Fruit-a-tives" meant health for all

Canada's fame does not rest solely on her furs and wheat fields. Her rise in the esteem of the world is not due to her Cobalt mines. It is the work of her great men that has made her great.

A graduate of McGill University has won lasting renown for his original researches in the realm of Physics.

Everyone knows that fruit is wholesome, when eaten judiciously.

Physicians generally recognize the fact that fruit juices have a beneficial effect on the various organs of the body.

It remained for a Canadian physician to discover a process whereby the medicinal action of fruit could be so increased as to make the intensified

juices a wonderful cure.

"Fruit-a-tives" is this combination of fruit juices and tonics. Since its introduction to the public, "Fruit-a-tives" has met with a success accorded to other medicine in the world.

The reason is plain. "Fruit-a-tives" is the one remedy that is actually made of fruit, and is the only remedy that

naturally cures Constipation, Bileousness, Indigestion, Headaches, Rheumatism, Neuralgia, Backache, Kidney and Skin Troubles. At all dealers at 50c a box, 6 for \$2.50, or trial size, 25c., or from Fruit-a-tives Limited, Ottawa.

### ESCUINAC NOTES

Mr. Walter Edwards is spending a few weeks at his home here.

We welcome back again Mr. H. H. Brown who was called away on business to Quebec some months ago.

Mrs. John McKenzie is resuming congratulations on the arrival of twins at their home a boy and girl.

Miss Mary McDonald is spending a few days at her home here.

Miss Minnie Lavie is visiting Mrs. Robert Dickie this week.

Mrs. J. D. Sowerby visited Mrs. John McKenzie of Aboyné this week.

The boys are gone to the woods and everything looks very dull around here.

Goose shooting is the order of the day.

Everybody is busy potato digging and thrashing their grain.

### EACH GOT A MOOSE

Mr. F. H. Bailey, of Chippenham, England, before being seized with appendicitis in the Miramichi woods, shot a moose with antlers spreading fifty-six inches.

Dr. C. P. Holden, who went into the woods to attend Mr. Bailey, also shot a moose. He returned on Tuesday with his patient, who is at the Victoria Hospital.

## TUMOR OF YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"Eleven years ago I went to the Victoria Hospital, Montreal, suffering with a growth in the uterus. The doctors said it was a tumor, and could not be removed, as it would cause instant death. They found that other organs were affected and said I could not live more than six months in the condition I was in. After I came home I saw your advertisement in the paper and commenced taking Lydia E. Pinkham's Vegetable Compound. I took it constantly for two years, and still take it at times, and both my husband and myself claim that it was the means of saving my life. I highly recommend it to suffering women."

Mrs. ORILLA BRADLEY, 284 Johnson Ave., Winnipeg, Manitoba.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills.

## Shakeup Promised In Police Circles

Temperance Alliance Gets After the Town Officials and Improvement is Promised

### ENFORCE LOCAL OPTION

A warm meeting of the Temperance Alliance was held after the regular service in the Opera House Sunday evening. The attendance was not large, but those present made up in earnestness for the lack of numbers.

The various town officials responsible for the enforcement of the license law, from His Worship Mayor Murray who was present on invitation to the

police officers were severely criticised and His Worship promised that he would bring the matter up at once and have the law properly administered.

The Graphic learns that an effort is being made to procure a thoroughly capable man for the police force, and it is likely the matter will be dealt with at today's meeting of the town council.

## LARGEST MOOSE HEAD REPORTED

The largest moose head seen here in recent years was brought to town last week by Alfred Harquail, foreman for the Dalhousie Lumber Co. Its spread is 64 3-4 inches.

Mr. Harquail and a crew of men were engaged in swamping a main logging road for a new operation at White's brook on the International when he killed the moose. He was blazing the road when he unexpectedly came upon the monarch of the forest, and with a well directed shot brought him down.

The head, although very large is not a pretty one. It has eleven points on one side and thirteen on the other.

### JACQUET RIVER

It is some time since anything has been said of this busy little village. Everybody seems too busy to send in correspondence.

Things are rather dull now as most of the boys have gone to the woods. The hay crop was unusually good here, as in other parts of the province. Grain crops, too, were very good and the weather was favorable until lately. The potato crop, however, is a failure. Very few farmers will have any to ship away this fall.

The heavy wind of last Sunday, the 2nd, did disastrous work for the Parish of Belledune. Fire broke out in the new and spacious presbytery of Father Van De Mortel, which had been erected a year ago at a cost of about \$7000 and fanned by the heavy gale, soon got beyond control. The large store owned by Paul J. Devereaux, was directly in the path of the wind and it and the church were saved with great difficulty. Much sympathy is felt for the parishioners, as two years ago they had a similar fire, from the effects of which they were just recovering.

W. R. McMillan's new store is coming along slowly but surely. It will be a magnificent building when completed. Laboring men are hard to procure.

Miss Alice Firlotte has recommended her tall trade in millinery and has some very pretty hats on exhibition. We hope the Jacquet River ladies will avoid the extra large hats. Miss Firlotte has copied some very stylish models from the St. John openings.

Ed. Savoy, shoemaker, is kept pretty busy of late. We hear that another shoemaking shop is to be opened in Archibald's Settlement.

The barbers have more spare time now and after the mills shut down will have a good rest.

Mrs. Paul Doyle has gone on a visit to friends in Roston.

Mrs. P. Regan, after spending the summer with her mother, Mrs. Paul Firlotte, has returned to her home in Boston.

The moving picture show here this week attracted large crowds, who could not be comfortably seated. Some enterprising citizen of Jacquet River should erect a more commodious building for such purposes.

The small pox scare is now a thing of the past. At first it was made light of, but after a vigorous method of quarantine was adopted, its progress was soon checked. All the afflicted families in the surrounding districts have had their quarantine lifted some time ago.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.

### MONCTON

Moncton is still without natural gas and a street railway, but by this time next year we believe both these institutions will have worn off the novelty.

Mrs. Connolly, who was committed for trial for obtaining money under false pretences, is plying her business as usual and her little lime light episode is only advertising her business. She positively avers she had no intention of "doing anybody."

Not many people are seen drunk on the streets these days. If they get boozed (and there are a few places where they can), Chief Rideout sees they are taken care of behind the bars before they have made much of an example of themselves.

The Thomas Connolly trial did not take very long this time. The first trial the jury stood 7 for conviction and 5 for acquittal. This trial there was 10 for conviction and 2 for acquittal. The prisoner is let go on his own recognizances. Why not another trial? Collins had three.

Mr. Gideon D. Reid of Albert Co., is now in the tools for having thrown a stone through a window, but it did not strike anyone. The question which is being asked now is, "Would it have helped Mr. Reid to get clear if the stone had struck a man and killed him?"

Yesterday an old familiar figure was carried to his last resting place. Mr. Alexander MacAulay, who for over thirty years has stood at Main Street Crossing to warn people of the danger of trains, was followed to his grave on Sunday, Oct. 9th. Many a tear was seen to fall and many a sigh was heard for poor old Sandy, for whom everybody had a good word, and who was the soul of honesty and candour. Sandy was as cheerful as could be expected under the circumstances, for when a young man he had the misfortune to have both his arms cut off near the shoulders, and that is why he occupied the place at the crossing. With his artificial arms he was always ready and willing to do his duty as well as he could and many lives have been saved by his timely warning. Many people wondered why Sandy was not sent home and allowed to draw his pay, rather than endure the living death which was his until one day last week when the welcome end came. He was taken to the hospital for an operation, but was not strong enough to stand it. His funeral was conducted by Rev. D. McDermid, pastor of the Presbyterian church here, of which the deceased was a consistent and much loved member.

### For Falling Hairs

You Run no Risk When You Use This

Remedy.

We promise you that, if your hair is falling out, and you have not let it go too far, you can repair the damage already done by using Rexall "33" Hair Tonic, with persistence and regularity, for a reasonable length of time. It is a scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water and is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "33" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Thos. Wran.

ST. THOMAS COLLEGE

This institution opened Wednesday with 73 pupils, of whom 60 are from the Chatham public schools. It takes boys who have passed the 6th grade. The fee is \$20 a year. The idea is to provide a denominational school for the sons of Catholic parents. The promoters and teachers claim that this is for the purpose chiefly, of guarding the morals of the lads. They think that the pupils of a religious school are more likely to grow up moral men than those of public schools. The college building has been fitted up in good style, and will have four or five teachers.
