evening of the 2d a man was carried over act of boiling produces so intense a cold by Edward Leavin Niagara Falls. "It is thought he was not well the disengagement of its latent heat, that the the Sea Forcial." evening of the 2d a man was carried over Niagara Falls. It is thought he was not well sequented with the current or the rapids. A correspondent of the Buffalo Advertiser says.

His dress and appearance indicated respectability, and after he got into the rapids his self possession was most extraordinary. His boat was a good one—decked, over, on the bow, and I should think would carry three or four tons. I railied a man at the toll-gate—we ran to the main bridge in time to see the boat just before it got to the first large fall, in rapids. Then I say but one man—he standing at the stern with his oar, for the severity of the cold felt on Ema, which man -he standing at the stern with his oar, for the severity of the cold felt on Eina, which changing the course of the boat down the is far greater than is, due to its elevation.

I better jump from the boat?" We could not toward the main shore, he cried, "Had I better jump from the boat?" We could not toward for either seemed, certain destruction. Within a few rods of the falls the boat struck a rock—turned over and lodged. He appeared to crawl from under it, and swam with the oar in his hand till he went over the precipice. Without the power, to render assistance, it must have been a painfully intence excitement to witness him straining every nerve to avert the inevitable and awful death which and the most sanguage expectations are enterned him.
