DIFFERENT REDUCTION RATES. THOSE TOO LARGE TO BE entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

DIFFÉRENTES RÉDUCTIONS. CELLES TROP GRANDES POUR ÊTRE entièrement comprises dans une seule exposition sont filmées à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaires. Les diagrammes suivants illustrent la méthode.

This image appears to be a scan of a severely damaged document page. The page is mostly black, with vertical streaks of varying shades of gray running across it. There are numerous small white specks and larger, darker smudges scattered throughout. On the right side, there are faint, illegible horizontal lines of text that might be bleed-through from the reverse side of the page. The overall quality is very poor, suggesting damage to the original physical document.
