PREFACE.

WE had expressed the hope in our first edition of the **MANITOBA DIRECTORY**, that this work would be eminently useful, not only to the commercial community, but to the general public.

We had also promised to continue issuing our book yearly, if the public encouragement should allow us to do so. Facts have justified our expectations, and we offer to-day to our friends a new edition of a work, which is justly appreciated by all who have at heart the material progress and advancement of the Province.

The Editors have spared no pains to make their Directory as complete and perfect as possible, with regard to the general information as well as to the printing and binding. In order to avoid any possible errors, the publishers have thought proper to send to Montreal a person specially entrusted with the superintendence of the work printed by Lovell Printing and Publishing Company. The reputation of this establishment is too well known to require any particular mention.

It is with pleasure that we cordially thank our numerous friends who have contributed to the success of our publication. And we venture to hope that we will be enabled in the future to keep pace with the general development of the country.

The Press of **MANITOBA** and of the other Provinces have favorably noticed our Directory, and we take leave to present our readers with the following extract from *The Manitoba Daily Free Press* :

MANITOBA DIRECTORY.—Since speaking of this production before, we have been enabled to examine it more minutely ; and, in addition to what was then said, must express surprise at the completeness of the information which it supplies. It is an encyclopedia of the City and Province, and is almost perfectly accurate, so far as we are able to judge—it is better in this latter respect than any similar production that ever came under our notice. It contains well digested sketches of the city and settlements. Upon the whole, it is invaluable to every business man in the country ; and we are glad to notice by the preface that the publishers intend getting out something similar annually. They deserve, and will assuredly receive, kind and liberal encouragement from all.

EXPLANATION.

In order to give to our readers more facilities to understand the general distribution of matter in our Directory, we think proper to offer the following explanations.

The book is sub-divided into three principal parts, viz:—

- 1o. The Advertisers' Classified Business Directory.
- 2o. The Names of Professional and Business men and other inhabitants of the Province.
- 3o. A Miscellaneous Directory.

The Advertisers' Classified Business Directory comprises the names of all our Advertisers under the heading of their respective business.

The Names of Professional and Business men and other inhabitants of the Province are given according to the division of the Province into Electoral Divisions, to which we have added the District of Pembina Mountain and the Mennonites' Settlement, not included in any Electoral Division.

In the Miscellaneous Directory will be found a variety of general information arranged in the following order:—

The Queen and Royal Family, with the Home Government. The Governor-General, the Privy Council, the members of the Senate and of the House of Commons, with the Departmental officers. The Lieutenant Governors, the Executive Councils, the members of Legislatures, and Departmental officers for Local Legislatures in the other Provinces first, and then in the Province of MANITOBA. The Courts of Justice, the Bar, the Commissioners to take affidavits, the Justices of the Peace, the Registrars, the Coroners, the Licensed Commissioners, the Constables, the Pound Keepers, the Road Overseers, &c., in the Province. The Clergy of all denominations, Educational Institutions, Hospitals and Asylums. Religious, National, Literary, Philanthropic, Benevolent, Temperance and other Societies—Agricultural and Building Societies—Associations, Clubs, Companies, Banks, &c., &c. The Tariff of Customs, the Post Office Regulations, and much useful and practical information for all classes of the community.

The whole is accompanied with different Indexes indicating the part of the book sought for.

THE MANITOBA DIRECTORY PUBLISHING CO.

Winnipeg, July 1st, 1877.

N.B.—The names in CAPITALS are those of Advertisers, who will alone derive the advantage of appearing in the Classified Business Directory.

PROVINCE OF MANITOBA.

MANITOBA, lying between the parallels of 49° and 50½° of north latitude, and 96° and 99° of west longitude, occupies nearly the actual centre of the North American Continent. Manitoba also lies midway between the Arctic and Tropic Circles, and midway between the Atlantic and Pacific Oceans.

The present area of the Province by system of survey, and exclusive of road allowances, is 9,008,640 acres, deducting for Half-breed grant 1,400,000, Hudson's Bay Company's twentieth and school section reserves 707,680, leaving available area of 6,900,960 acres within the present boundary. Each Township consists of thirty-six sections, of one square mile each, and road allowances in all cases will be one chain and a half in width.

Manitoba (then the colony of Assiniboia), having after the troubles of 1869-70 accepted terms from the Dominion Government for its entering the Confederation, was created a Province in July, 1870. The population at the first census, taken in December, 1870, was 11,965, divided as follows:

French Half-breeds.....	5,694
English do	4,076
Whites.....	1,614
Indians.....	581

At the present time the total population is roughly estimated at thirty thousand. As yet no agricultural statistics have been obtained.

The form of Government is similar to that of the other Provinces of the Dominion, but the Legislative Council being abolished by act of the Legislature, the Legislature consists only of a Legislative Assembly of twenty-four members, representing twenty-four constituencies.

The Executive consists of the Lieutenant-Governor, a Provincial Secretary, acting also as Attorney-General, a Provincial Treasurer, Minister of Public Works, and Minister of Agriculture, who is also President of the Council.

A liberal homestead law is in force in Manitoba, which exempts from seizure the debtor's ordinary furniture, tools and farm implements in use, also "one cow, two oxen, one horse, four sheep, two pigs, and the food for the same for thirty days," and "the land cultivated by the debtor, provided the extent of the same be not more than *one hundred and sixty acres*, in which case the surplus may be sold with privileges to first mortgages. The house, stables, barns, fences on the debtor's farm, are, by this act, declared free from seizure, by virtue of all writs of execution issued by any court of this Province." No limit is placed on the value of the farm or home thus secured to the family, whatever its value may become. It may be safely asserted that this law will greatly advance immigration to this Province, and prove a blessing to thousands of worthy and honest men, women and children for every one unworthily shielded by its provisions.

The Red River rises in Minnesota, in the United States, close to the sources of the Mississippi, and enters British Territory at the Boundary line of

Manitoba, about 120 miles from its mouth, where it discharges into Lake Winnipeg.

It is not within the limits of this Directory to enter into lengthy details of the resources and advantages of Manitoba to the Emigrant and Capitalist, as also of its climate, soil and agriculture. For such information of a reliable nature, we would recommend a careful perusal of Mr. Spence's excellent and complete pamphlet on Manitoba and the North-West, copyrighted. In giving a brief historical sketch of MANITOBA, we cannot do better than quote from an able article in *LOVELL'S GAZETTEER OF BRITISH NORTH AMERICA*, with the kind permission of the Publisher of that valuable work.

"The name *Manitoba*, taken from a large lake, a part of which lies in the province, is a contraction, made by the old French Canadian *voyageurs*, of the Cree word, *Manito-waban*. *Manito* signifies *supernatural divine spirit*; and *waban* means a *strait*. As the waters of a strait in that lake are agitated in an unusual way, the Indians believed formerly there was therein something supernatural, a spirit that moved them, and so they called the lake *Manitowaban*.

The writer proceeds to say :

"This section of North America was first visited by the French. Chevalier de la Vérandrye built a fort at the mouth of the Assiniboine in 1731. The French continued to trade there alone for many years, but in 1767 the first English traders visited it, and soon several rival companies were in operation. These finally dwindled into the famous North West Company, which in its turn was absorbed by the Hudson's Bay Company, chartered by King Charles II. in 1670. The latter Company having sold a tract of land to the Hon. Thomas Douglas, Earl of Selkirk, on both sides of the Assiniboine and of the Red Rivers, his lordship planted there, in 1812, a colony known by the name of Selkirk Settlement, Red River Settlement, or also Assiniboia. In 1836 the Hudson's Bay Company repurchased from the heirs of Lord Selkirk the same tract of land ceded to his lordship in 1811, and continued to exercise authority over that portion of Rupert's Land by the appointment of the Governor and Council of Assiniboia, which, in course of time, especially after the settlers had declared independence of trade in 1849, formed a rather independent administration for the local affairs in the colony, the limits of which extended but fifty miles around Fort Garry. It is that colony that now forms the greatest part of the new province of Manitoba.

The Hudson's Bay Company never claimed any proprietary rights on the North West Territories proper. These Territories formerly included nothing but the lands east of the Rocky Mountains, watered by the rivers running towards the Arctic Sea. The Charter of the Company merely included Rupert's Land, *i. e.*, the lands watered by the tributaries of Hudson's Bay. These two immense portions of country outside of the province of Manitoba are now known by the same name of North West Territories.

In March, 1869, the Hudson's Bay Company agreed to hand to the Imperial Government their territorial rights and governing responsibilities, and on the 16th of July, 1870, England handed the whole to the Canadian Government. It was during that period that the Red River troubles took place. The transactions between England and Canada, as well as the Hudson's Bay Company, having been made without consulting and even paying any attention to the Government and people of Assiniboia, a deep feeling of uneasiness arose, and the Canadian authorities, coming into the country before the transfer, met resistance. In the meantime a provisional government was formed by the settlers to secure their rights, and come to an agreement with the Dominion of Canada; delegates were sent to Ottawa for that purpose, and treated with the proper authorities. England urged the Ottawa Government to satisfy the people of Red River. Then the Bill of Manitoba and other guarantees were agreed to, and thereby the entry of Manitoba into the Confederation was effected.

ELECTORAL DIVISION, No. 12;

OR CITY OF WINNIPEG.

CITY OF WINNIPEG.

Winnipeg, the capital and commercial centre of
Manitoba, was formerly known as Fort
Garry, and is situated at the Junction of
the Assiniboine with the Red River. It
contains a population of about 6000. Was
incorporated as a City in November, 1873,
and is divided into four wards, respectively
known as the North, South, East, and
West wards. The boundaries of the City
are as follows: "Commencing where the
northerly limit of lot 224 in the Parish of St.
John, according to the Hudson Bay
Company's Register, strikes the water's
edge of the Red River; thence North-
westerly along the said limit of said lot to
where the same intersects the eastern limit
of the main highway, from Winnipeg to the
lower parishes; thence along the said
highway southerly across the said lot 224;

thence North-westerly along the southerly
limit of the said lot to the rear thereof;
thence southerly along the rear of the lots
in the settlement belt to the westerly angle
of 249, originally bought from the Hudson
Bay Company by William Drever; thence
south-easterly along the southerly limit of
the said lot 249, to where the same would
be intersected by the extension of the
easterly limit of the street laid out by the
said Hudson's Bay Company between lot
pensioner's 54 and lot 1212, fronting on the
Assiniboine River; thence southerly, along
the east limit of the said street to the
water's edge on the said Assiniboine River;
thence along the latter, easterly to the Red
River; and thence down the westerly edge
of the same with the stream to the place
of beginning." The City is well laid out
with wide streets, Main street being the
principal, on which are already many fine
and handsome brick buildings, among which
are the dwelling of Mr. Hespeler, immigra-
tion agent, the under part being occupied
as offices, the Custom house, Dominion
Lands office, Hudson Bay Company's Land
offices, Bertrand & Prudhomme's dry goods
store, Cronn's Restaurant, the Ontario
Bank, the Merchants Bank, Hon. M. Ban-
natyne's extensive grocery establishment,
Ashdown's hardware store, Higgins,
Young & Jackson's and Higgins & Young's
extensive stores, Kew, Stobart & Co.'s
large establishment, N. Germain & Son's
hardware store, etc., etc., the General Post
Office and the new City Hall and Market.
In the course of the present year several
large buildings will be added. This fine
street will in a short time be nearly equal
to King Street of Toronto, or St. James
street of Montreal. The import entries at
the Custom House are rapidly increasing
every year. The value of lots within the
City limits range from \$50 to \$3000.
Among the educational establishments in
the City are the Central, and the North
Ward Public schools, the former attended
by pupils of an intermediate grade; the
latter is for primary pupils; the Manitoba
College, under the auspices of the Pres-
byterian Church; the Roman Catholic
Public School in the West Ward, and St.
Mary's Academy in the East Ward. There
is also in St. Boniface Parish, without the
City limits, on the East side of the Red
River, beautifully situated, St Boniface Col-
lege, under the auspices of the Roman Ca-
tholic Church, an excellent and popular
educational institution, established for
many years. St. John's College is a
similar institution, under the auspices of
the Church of England. It is also prettily
located in the parish of St. Johns, just
outside the City limits, and has been in
existence for many years.

The Press is represented in Winnipeg by the
"Free Press" (Daily Evening), published
by Messrs. Kenny & Luxton, and the
"Manitoba Free Press" (Weekly), publish-
ed by the same. The "Standard" (Weekly),
published by the Standard Printing and
Publishing Company. The Press is also

represented in St Boniface by "Le Metis" (Weekly), the French-speaking organ. There are several insurance offices doing business in Winnipeg, and the City owns two powerful Steam Fire engines, having tanks of large capacity in different parts of the City. A Hook and Ladder, and Hose and Engine Company is also well and efficiently organized. There are two steam saw mills, and two planing mills, the capacity of one being about 12,000 feet per diem, and the other 26,000 feet. The City is well supplied with Hotels, kept in first-class style. In conclusion we refer our readers to our ADVERTISERS BUSINESS CLASSIFIED DIRECTORY, for the principal Professional and Business men of the City and the whole province.

The actual population of the City is about 7000 inhabitants and the number of voters on the roll for 1876 was 1025.

The growth of the City of Winnipeg has been increasing wonderfully during the past eight (8) years, during which the population has been calculated to be as follows:—

in 1870:—	600 inhabitants
in 1871:—	800 "
in 1872:—	1500 "
in 1873:—	3000 "
in 1874:—	4000 "
in 1875:—	5000 "
in 1876:—	6000 "
in 1877:—	7000 "

The total amount of assessment since the incorporation of the city are as follows:—

In 1874:—	\$2,676,018 00
" 1875:—	2,635,805 00
" 1876:—	3,031,685 00

The assessment for 1877 is expected to reach four millions. We are informed that the assessments of 1875 and '76 were incomplete, a very large amount of property having been left unassessed. This will explain the decrease of 1875 from the former and the very small increase of 1876.

ST. JOHNS

Is situated on the north limits of the city of Winnipeg and of the Parish of St Boniface. In 1820 the Rev. J. West came out from En-

gland as chaplain to the Hudson Bay Co. One of his first works was the erection of a rude school house at St Johns, where he commenced to educate a few children. This building served also for a church. Mr. West only remained in the country for three years. He was succeeded, in 1823, by the Rev. P. Jones, as chaplain of the Company. The Rev. Archdeacon Cochrane came in 1825, and commenced his long ministerial service of 40 years in the country, in the chapel erected by Rev. Mr. West. After a time the wood building was replaced by a stone building, which was known as the Upper Church, and in 1862, this in turn was replaced by the present St John's cathedral. St Johns also possesses a very extensive college, known as St. John's College, particulars of which will be found in the miscellaneous directory. A large tract of land has been purchased for the erection of a new institution, known as the St John College Ladies School. The nearest Post Office is Winnipeg.

**ELECTORAL DIVISION No. 18,
OR ROCKWOOD.**

The Electoral Division of Rockwood, comprised of twenty-four townships, is the most extensively-peopled rural division in the Province. The population is made up almost entirely of people from Ontario who have immigrated since the creation of the Province. It possesses varied and valuable resources, being made up of rich prairie and heavily-timbered land, and contains inexhaustible quarries of gray limestone, very valuable for building purposes. The route of the Canada Pacific Railway lies across this Division. The settlements are thrifty, though the railway line reserve has been and is a considerable drawback to their growth. Population about 1200. Number of Voters 538. Comprises:

ELECTORAL DIVISION, No. 20,**OR ST. BONIFACE.**

This Division comprises the Town and the Parish of St. Boniface, the Parish of Notre Dame de Lorette and the Settlement of Prairie Grove. No. of voters 240. Population about 1000

ST. BONIFACE,

Which is now the Metropolitan See of the R.C. Ecclesiastical Province of St. Boniface, was founded, in 1818, by Rev. J. N. Provencher, who was sent from Quebec with Rev. S. J. N. Dumoulin, at the request of Lord Selkirk, to establish a mission at Red River. The first chapel was built the year after their arrival. Rev. J. N. Provencher built the first stone house in the country. It was a small one, intended for his residence, and as an experiment to know whether he could succeed afterwards, with the material and hands in the country, to build a stone church. In fact the success of the experiment induced him to erect a large stone cathedral, in 1833, which was destroyed by fire on the 14th December, 1860. The actual cathedral was erected,

in 1862, by His Grace the Most Rev. Alexander Taché, Archbishop of St. Boniface. Rev. J. N. Provencher was nominated Bishop of Juliopolis, *in partibus*, and auxiliary to the Bishop of Quebec in 1820, Vicar Apostolic of the North West in 1844, and Bishop of St. Boniface in 1849. Died 7th June, 1853. Archbishop A. Taché was elected Bishop of Arath and coadjutor to the Bishop of St. Boniface in June, 1850, consecrated 23rd November, 1851, and succeeded to Bishop Provencher in June 1853. St. Boniface is the proposed terminus of the Pembina branch of the Canadian Pacific Railway, which is to connect with the Trunk line near the point where the Main line crosses Red River. With these railway connections, the water facilities and the central position of the place, this locality will always be one of the most important places in the Province. The Town is well laid out with large and straight avenues and streets, and is growing with such rapidity as to become shortly a large and flourishing city. It possesses already a large woollen mill, three stores, well supplied, and several hotels, shops, general agencies, &c.

The Cathedral and the Archbishop's Palace are built of cut stone, from a quarry lying twelve miles below St. Boniface, on the bank of Red River. The church is richly finished, and on the 24th June, 1875, a splendid organ, the first in the Province, was presented by friends from the Province of Quebec and inaugurated on that day.

St. Boniface has also a college, a boarding school for young ladies, a large hospital, and an orphan asylum. These three last institutions are under the direction of the Sisters of Charity.

La Métis, the organ of the French population, is printed here, and it has a very good job printing office.

The Town connects with Winnipeg, by means of a steam ferry, crossing Red River every five minutes. Mail daily.

MENNONITE SETTLEMENT.

A very large settlement was started in this Province in 1874, by Mennonites coming from Russia. Eight townships on the east side of Red River having been set apart for them by the Dominion Government a large immigration came and took up the land selected for them. They are a very hard-working class of people, and will likely meet with a great success in their enterprise. They live in villages and take no interest in the political affairs of the country. M. Weins has erected a fine grist mill in the Reserve, and they are well supplied with mowing, threshing and other machines.

CHURCH OF ENGLAND.

PROVINCE OF RUPERT'S LAND.

In 1820 the Rev. J. West came out from England as chaplain to the Hudson Bay Co. One of his first works was the erection of a rude school house at St. Johns, where he commenced to educate a few children. This building served also for a church. Mr. West only remained in the country for three years. He was succeeded in 1823 by the Rev. P. Jones, as chaplain of the Company. The Rev. Archdeacon Cochrane came in 1825, and commenced his long ministerial service of 40 years in the country, in the chapel erected by Rev. Mr. West. After a time the wood building was replaced by a stone building, which was known as the Upper Church, and, in 1862, this in turn was replaced by the present St. John's Cathedral.

Primate: His Grace the Lord Archbishop of Canterbury.

Metropolitan: The Right Rev. Bishop of Rupert's Land.

Prolocutor of Lower House: The Ven. Archdeacon Cowley.

Secretary of Lower House: Rev. Canon Grisdale, B.D.

PRESBYTERIAN CHURCH.

Presbyterianism was first planted on the banks of Red River, in the years 1813-15, when a considerable number of families, members of the Church of Scotland, were brought out from Sutherlandshire under the auspices of the late Earl of Selkirk. A young Minister had been appointed to follow them, but, as there seemed for some years little prospect of the settlement taking root, he did not come, and finally accepted an appointment elsewhere. After this the poor little colony appears to have been forgotten, and it was not till 1851 that the Presby-

terian Church of Canada sent out the Rev. John Black, to minister to them, and the first congregation was organized in the December of that year. In the meantime the settlers had gladly availed themselves of the services of the Church of England. Mr. Black was joined in 1862 by the late Mr. Nisbet, and subsequently by others. The Presbytery was formed in 1870, Prince Albert Mission, in 1866, (Kanasa Mission, in 1873, and the Manitoban College opened at Kildonan in 1871, and transferred to Winnipeg in 1873.

METHODIST EPISCOPAL CHURCH.

At the General Conference of the Methodist Episcopal Church in Canada, which was held in the month of August, 1874, it was resolved to elect a Missionary Secretary to search out new mission fields, and to arrange for their cultivation. The Rev. James Gardiner was elected to this office. A meeting of the Methodist Episcopal Mission Board was held in June, 1875, when it was decided to open missionary operations in the North-West, and the Missionary Secretary was requested to visit that Territory for the purpose of surveying the field, and, if he deemed it expedient to do so, to locate a mission station in some parts of the Province of Manitoba. Mr. Gardiner spent parts of the months of July and August in Winnipeg. On his return he met the Bishop on the 8th day of September, and reported that the Church should undertake mission work in Manitoba. Upon the Missionary Secretary's recommendation, the Rev. Daniel Pomeroy was appointed to this field. Mr. Pomeroy entered promptly upon the work. He arrived at Emerson on the 26th day of September. Having organized a mission, comprising the town of Emerson and the surrounding settlements, and built a house for the minister, Mr. Pomeroy visited Winnipeg on the 11th day of November, and succeeded in establishing another mission, and in making arrangements for the building of a church in the city. On the 3rd day of December a mission was organized at Morris, and on the 13th of the same month another mission was organized at the Pembina Mountains. In the spring of 1876 Revs. James A. Campbell and Andrew W. Edwards were appointed to assist Mr. Pomeroy. Mr. Campbell was stationed at Winnipeg, under his superintendance. A Church edifice has been erected, and a charter has been obtained for a college. Mr. Edwards was in charge of Emerson, and also succeeded in building a church there. Mr. Pomeroy resides at Morris, (Scratching River), and has labored during the past year, on the Morris and Pembina Mountain missions. The Methodist Episcopal Church has, at present, in this Province, three Missionaries, four Local Preachers, over one hundred members, four hundred adherents, four missions, two churches, two parsonages, several church sites, situated in important places in the Province, and four Sunday-schools.

EDUCATIONAL INSTITUTIONS.

ST. BONIFACE COLLEGE.

A school established in 1818, and incorporated as a college in 1871.
Rev. J. N. Provencher, who was afterwards elected first Bishop of St. Boniface, opened the first regular school in the country in 1818, in

his own residence. Having hardly room enough for himself in his small house, he, nevertheless, gathered Half-breed children, and taught them reading and writing. Some of his scholars were even taught classics, and with such success that Rev. S. J. N. Dumoulin, in a letter dated March 10th, 1824, and lately re-published, could state, "that several children were already advanced in Humanities."

The present buildings have been erected by His Grace the Most Reverend Alexander Taché, D.D., Archbishop of St. Boniface.

Corporation du College de St. Boniface.—His Grace the Most Reverend Alexandre A. Taché, D.D., O.M.I., Archbishop of St. Boniface; Rev. J. Théophile Lavoie, O.M.I.; Rev. George Dugast, Rev. J. B. Baudin, O.M.I., and Rev. J. McCarthy, O.M.I.

ST. JOHN'S COLLEGE.

School established in 1820, and incorporated as a school in 1871.

A school was established at St. Johns by the Rev. I. West, when he came to the country in 1820. This was continued and extended by the Rev. Mr. James. At last the Rev. J. MacCallum, M.A., became the head of it. It now consisted both of a higher school for boys and for young ladies. Mr. MacCallum died just as the first Bishop of Rupert's Land arrived in the Province. He carried on the boys' school under the name of St. John's College for about 7 years, and for some years he also had a ladies' school. On the arrival of the present Bishop of Rupert's Land he endeavored to revive the college. He found left behind by his predecessor a small, but well chosen library, and some buildings. The college classes were resumed on Nov. 1st, 1866, the Bishop of Saskatchewan being the warden. St. John's college has since then been gradually extended. It is now incorporated, and closely connected with another incorporated body, the Dean and Canons of St. John's Cathedral. Certain endowments have been obtained, and statutes given, which can only be changed now by the joint action of the Diocesan Synod of Rupert's Land and the Bishop.

The college has received the assent of the Synod of Rupert's Land for taking advantage of the provision in the Act of Parliament founding the University of Manitoba, so, then, arrangements are being made for granting the Degrees of B.D. and D.D.

The following are the present Council and Officers of the College:—

Chancellor and Warden.—The Right Reverend R. Machray, D.D., LL.D., fellow of Sidney college, Cambridge, Bishop of Rupert's Land and Metropolitan of Rupert's Land.

The Council.—The Right Rev. J. McLean, D.D., D.C.L., Bishop of Saskatchewan; the Right Rev. J. Horden, D.D., Bishop of Moosonee; the Right Rev. W. C. Bompas, D.D., Bishop of Athabasca; the Ven. A. Cowley, Archdeacon of Cumberland; the Hon. the Chief Justice of the Province; C. Inkster, high sheriff of the Province; the Rev. Canon Grisdale, B.D.; the Rev. Canon O'Meara, M.A.;

the Hon. J. Norquay, M.P.P., and provincial minister of Public Works; the Rev. B. Young, B.A., the Rev. O. Fortin, B.A., and the Rev. W. Cyprian Pinkham.

The following students have been matriculated this term in St. John's Theological College:—

George McKay, James Flett, Robert Machray, Alfred Pinkham and Patrick Bruce.

There are over 70 boys in St. John's College school.

There are Scholarships in the College school, on the foundations of Archdeacon Cochran and the Rev. John McCallum, having been raised by friends in their memory. There is also a small Scholarship called after the Prince of Wales, from a sum raised at the time of his recovery from illness; and a prize founded by Mrs. Charles, given at present with the Prince of Wales scholarship.

The Right Reverend the Bishop of Rupert's Land has founded a prize for Mathematics.

His Excellency the Governor General gives a Silver Medal for the best in the school in Greek, Latin and English Grammar; and also, a Bronze Medal for Ancient and Modern History.

The College gives a number of valuable book prizes at the midsummer examination. The Church Missionary Society has several exhibitioners in the College.

The Scholarships are adjudged entirely by merit in the College examinations and work.

COMMERCIAL LEGAL ADVICES.

REGISTRATION OF PARTNERSHIPS.

Have you registered your partnership, or any changes which may have been made therein? Many business men neglect to attend to this important matter, and lay themselves open to a fine—one moiety of which goes to the in-

former. Everyone is liable to the fine who does not register the partnership, or changes in it, within six months. Persons withdrawing from partnerships, continue to be liable for the debts of the firm, when notice of withdrawal is not legally registered. Any one can inform.

THE LAW RELATING TO ENDORSING.

Endorsers upon Notes and Bills of Exchange must be notified on the third day of grace (no other day will do) if the Note or Bill is not paid by the maker or acceptor. Notice duly mailed to the Endorser's address, is a legal notification, and will hold the endorser responsible. In case of more than one endorser, the Bank or holder of the Note or Bill can elect to proceed against any one or all of the endorsers as they may deem best. In the case of paper known as "accommodation paper," endorsers are liable to each other share and share alike; but in other cases, endorsers are liable according to their priority. When one endorser only is notified, if he, himself, notifies the others on the day on which he receives notice of protest, their responsibility is continued. An endorser compelled to meet a Note or Bill, can proceed against the maker or any endorser who may precede himself, but not against those who signed subsequently. Unless made through a Notary, no protest is binding on an endorser. It will pay business men to keep these simple rules in mind.

TRADE OF MANITOBA.

The statistics of the trade of Canada, says the *Monetary Times*, during 1875-76 have now finally been revised, and vary very little from the figures we have already published. The total imports "entered for consumption" during the twelve months were of the value of \$94,733,218, and the exports \$80,966,435, making the total trade of 1876 to have been \$175,699,653. This is close upon \$350,000 more than was given in the approximate statement.

In referring to this province it says:—"Manitoba is the youngest province in the Dominion, but by no means the least promising. Its trade is steadily augmenting. The total value thereof in 1876 was \$2,505,615, of which \$1,735,427 were imports and \$770,188 exports. The latter, up to this time, have been chiefly furs. Its imports are largely obtained from Ontario and Quebec, and are familiar to our mercantile friends. Manitoba and the Northwest generally promise to prove, before many years, a valuable field for Canadian manufactures."

Of the Northwest Territories it says:—"No returns are given of the trade of these territories, except the statement that the revenue collected in 1875 was \$6,765, and last year \$8,243."

NAVIGATION ON RED RIVER.

In the winter and spring of 1859, Anson Northup, now a resident of Duluth, transported machinery and timbers from the mouth of Gull river, at its junction with the Crow Wing river, to a town, known at that time as Lafayette, on the Red River. The machinery and timbers were from the North Star, running on the

Upper Missouri from St. Anthony to Pokenama Falls previous to 1859. After passing a course of reconstruction, the boat was launched and called the Anson Northup, making the first trip to Abercrombie in May, 1859, and was run successfully during the seasons of 1859, 1860 and 1861, and in the spring of 1862 was sunk by the ice gorge below Lower Fort Garry, and was never raised from her watery grave.

The International was built at Georgetown in 1862, and has been navigating the river successfully since that time, and is to-day a No. 1 boat, 136 feet long and 26 feet beam. Her machinery was taken out of a boat called the Freight, which plied on the Mississippi and Minnesota rivers some years since, going at the time to the foot of Big Stone Lake, Mr. C. V. P. Lull, a well-known settler, superintending its work.

In 1871, the Selkir, stern-wheeler, was built by Hill, Griggs & Co., of St. Paul, at Fort Abercrombie, a medium sized boat.

The Dakota was built by N. W. Kittson, at Breckenridge in 1872, also a stern-wheel boat. The Alpha was built by J. W. McLane, at Breckenridge, in the spring of 1873.

The Cheyenne at Grand Forks in 1873, a side-wheeler.

The Manitoba and Minnesota were built by the Merchants International Steamboat Company in the spring of 1875, in Moorhead, and are the finest boats on the river now, but were purchased by the Red River Transportation Co. in 1876.

The amount of freight transported by these boats is immense, to say the least.

Newspapers to France and samples are sent at the above "French Book Post" rates.

A "book packet" may contain any number of separate books, publications, works of literature and art, maps or prints, photographs, daguerreotypes, when not in glass or in frame containing glass; any quantity of paper, vellum, or parchment (to the exclusion of letters), and the books, maps, papers, &c., may be either written, printed or plain, or any mixtures of the three, and may be either British, Colonial or Foreign. Book packages must be open at both ends or both sides.

Patterns.—Rates between Canada and United Kingdom and France, same as for Book Post.

Patterns or samples must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

Patterns, &c., must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck, or, provided that bags be transparent, they may be entirely closed, if they are for delivery within the United Kingdom. Bags, however, entirely closed, even though they be transparent, must not be used for the transmission of seeds to foreign parts. Patterns and samples of merchandise, not exceeding the weight of eight ounces, addressed to the United States, may be sent at the rate of ten cents for each package.

A packet of patterns or samples sent to France or Portugal must not exceed 18 inches in length, and 12 inches in width or depth; a packet to any other place abroad must not exceed 24 inches in length, or 12 inches in breadth or depth.

Parcels can only be sent by Post to places in Canada. Postages and registration fee must be pre-paid. The limit of weight to Parcels is 4 lbs.

TRANSMISSION OF PATTERNS AND SAMPLES WITHIN THE PROVINCE OF CANADA.

Patterns or samples of merchandise, and goods for sale, not exceeding twenty-four ounces in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on pre-payment by postage stamp of a rate of one cent per four ounces, under the following regulations:

I.—Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

II.—The packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended—also a trade mark and numbers, and the price of the articles enclosed; inside there must be no enclosure but the samples or patterns themselves—the particulars, however, of the trade marks, numbers and price, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

III.—Any sample or pattern packet containing a letter, or otherwise violating the conditions of the preceding rules, is to be rated and treated as a letter.

IV.—The rate of one cent per four ounces is to be pre-paid by postage stamp,—and if such rate be not fully pre-paid by the stamps affixed, the package is to be rated with the deficient postage, and a fine of five cents in addition.

V.—Packets of samples or patterns may be registered on pre-payment by postage stamp of a registration fee of five cents in addition to the postage rate,—and provided such packets be duly handed into the Post Office for registration.

A registration receipt or certificate should always be obtained for such packages when presented for registration.

VI.—No packet of samples or patterns must exceed twenty-four ounces in weight; any packet exceeding that weight is to be sent to the Postmaster-General.

Penal Clause.—The Act contains the following penal clause: To enclose a letter or letters, or any writing intended to serve the purpose of a letter, in a parcel posted for the parcel post, or to enclose a letter, or any writing, or make any written marks to serve the pur-

pose of a letter, or to enclose any other thing in a newspaper, posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers), is an offence punishable by a penalty of not less than ten and not exceeding forty dollars.

SINGLE AND COMBINED.

The Meadow Lark Mower—Iron and Steel—Light Running, Clean Cutting—
Draft only 140 Pounds—Centennial Field Trial,

Is made of the best materials. Is strong and durable. Has no cogs in drive wheel. All the gearing is enclosed. No grit or sand can get in. Has a perfect tilt. Self-oiling Pitman. Steel-faced malleable guards bolted to the bar instead of riveted. Sections made of best saw plate steel. It cannot be clogged. Is fully warranted.

THE MEADOW LARK REAPER.

Has same general characteristics as the Mower. All parts where great strain comes are made of malleable iron and steel. The only Reaper made with the Rake head. Arms, track, standard and clutch all made of malleable iron in place of cast, giving great strength.

THE DEWEY HARVESTER.

Simple, durable and efficient. Entirely new principle of elevating. No canvass, belts, chains, wires, or rollers about it. A perfect revolution and great improvement. Cannot clog, makes no difference whether grain is wet or dry, light or heavy, tangled or straight, long or short, it *must* go up. Wind does not affect it. Saves all the grain, and the lightest-running Harvester on wheels.

Send for descriptive circular of all the above machines.

RUE ST. GABRIEL,

MONTREAL, P. Q.

Le propriétaire a le plaisir d'informer sa nombreuse clientèle du Manitoba que l'Hôtel du Canada vient d'être entièrement restauré; les améliorations qui y ont été introduites en font la maison par excellence pour les voyageurs qui recherchent le confort d'un hôtel de première classe.

Fier du patronage que les voyageurs du Manitoba lui ont jusqu'à présent accordé, le Propriétaire espère que son hôtel continuera d'être le rendez-vous de la population du Nord-Ouest et tous ses efforts les plus grands tendront à mériter la continuation d'une préférence si flatteuse.
