WOLFVILLE, KING'S CO., N. S., FRIDAY, JULY 31, 1891.

No. 49.

CASTORIA

for Infants and Children.

Castoria is so well adapted to children that it is known to be superior to any prescription known to man. H. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

The Acadian.

Published on FRIDAY at the office WOLFVILLE, KING'S CO., N. S.

TERMS: \$1.00 Per Annum.

(IN ADVANCE.)

CLUBS of five in advance \$4.00.

Local advertising at ten cents per line for every insertion, unless by special arrangement for standing notices.

Notices for standing advertisements will be made known on application to the office, and payment on transient advertising must be guaranteed by some responsible party prior to its insertion.

The Acadian Job Department is constantly receiving new type and material, and will continue to guarantee satisfaction on all work turned out.

Newspaper communications from all parts of the county, or articles upon the topics of the day are cordially solicited.

The name of the party writing for the Acadian must invariably accompany the communication, although the same may be written over a fictitious signature.

Address all communications to DAVISON BROS., Editors & Proprietors, Wolfville, N. S.

Legal Decisions

1. Any person who takes a paper regularly from the Post Office—whether directed to his name or another's or whether he has subscribed or not—is responsible for the payment.

2. If a person orders his paper discontinued, he must pay up all arrearages, or the publisher may continue to send it until payment is made, and collect the whole amount, whether the paper is taken from the office or not.

3. The courts have decided that refusing to take newspapers and periodicals from the Post Office, or removing and leaving them uncollected for a prima facie evidence of intentional fraud.

POST OFFICE, WOLFVILLE

Express boxes, 8 a. m. to 8.30 p. m. Mails are made up as follows:

POETRY.

The Old Hymn.

The windows and the doors were open;

The splendid church was full of light;

And all along the moonlit street

A stream of music thrilled last night.

A homeless tramp beneath the trees

Stood still to hear the river roll,

And falling on his helpless knees,

Heard Jesus, lover of my soul.

It's thirty years since last he heard

The cadence of that anthem sweet,

And all his startled soul was stirred

Alone upon that lonely street.

They sang the splendid hymn with grace,

Even children's voices swelled the song,

And down his dragged and stricken face

The scalding tear-drops coursed along

Jeans, lover of my soul,

Let me to thy bosom fly,

Let me the final sentence roll,

Then wandered onward with a sigh,

The music waked the better man,

For, from the past so sad and dim,

A girl, with face all wet and wan,

Came slowly forth and haunted him.

—By the Khan.

GILEAD.

CONTINUED NEXT WEEK.

"Go 'way Mather, an' no be kneelin' here by me. Your love an' trust an' goodness is killin' me, 'cause I ain't with it. I'm goin' to marry Gilead this fall, an' go with him to New York."

Mather, I love him, love him as nobody ever was loved afore,—an' I can't help it. I fought the feelin' hard for your sake an' mine, but Gilead loves me, an' I don't mind if nobody else should love me to all eternity. I've tried an' tried, Mather, you don't know how I've tried, but I can't care for you as I once did. I'm heart-sick of this life,—druggery, an' dreariness an' loneliness. I want to go where folks be. You've got to know something, an' I'd rather tell you now than wait till fall, as Gilead said. Oh, Mather, I'm heart-sorry, an' the preacher's o'ry's been killin' me. But you'd never want a wife with never a bit of love in her heart."

"The Lord knows how I felt,—I'd loved her so long an' so true, it seemed to me then that if I were God as made everything, so still an' sweet smelin' all round us, that they surely never would have sent such forsakenness an' agony into any soul, an' such hopelessness, that's seemed as if all he could do now was just to take life away an' not leave anythin' human sufferin' no. Once in a while, years an' years after, the same chill sort o' feelin' would creep over me when I'd git a whiff o' the pine trees, smelin' as they did that night.

"Jest at fust I didn't seem to sense nothin', till Naomi bent over an' touched me kind o' frightened-like, her face white as death, an' teary round the eyes.

"Mather," says she, "why don't you tell me how bitter you despise me? You can say if you want to jest what you think o' me."

"I was sore and stiff when I rose, an' it didn't sound like my voice as I said: 'There ain't nothin' to say, Naomi; let's go home.'

"She walked along by me a good mile or so, an' never a word was spoken; then I left her standin' by the gate, with a short good-bye, but never a handshake,—for I couldn't bring myself to look in her pale face or touch the hand she held out to me in such an appealin' sort o' fashion. T'was after I'd left her, an' wandered away out through the country all white with moonshine, an' as sweet as 't can be in June,—'twas then that all the strong passions which evil can rouse in a man's heart broke loose in me. I prayed wild, distracted sort o' prayers. I cursed Gilead—an' her an' myself an' the wide world; for't seemed to me as if God were dead. My heart was full o' heavy, dumb anguish, as I tramped on for miles an' miles, hardly knowin' I was afoot, never sensin' that I was tired; only feelin' the awful horror an' misery an' my own o'avin' Naomi taken away by my own brother; for it most seemed as if she were truly my wife; I'd waited, an' longed, an' worked for her so many years.

"At last, about midnight, I wandered home. When I reached the yard, I saw Gilead on the back stoop, his head leaned up agin the clusterin' grapevine, an' his thoughts so far off that he never seen me till I was most up to him. As I came through the woodshed I half stumbled over the axe

THE ACADIAN

WOLFVILLE, N. S., JULY 31, 1891.

Railway Improvement.

With the completion and opening of the long talked of line of railway connecting Digby and Annapolis a new era in railroading in the western counties is entered upon.

Ordination.

A council of delegates from neighboring churches was called on Wednesday by the Wolfville Baptist church, to ordain Mr Howard Barsa to the Christian ministry.

At eight o'clock the public ordination service was carried out in the following order:— ORGAN PRELUDE. ANTHEM: "Oh Praise the Lord in the Highest."

THE SERVICE was well conducted, the sermon and other addresses carefully prepared and delivered, and the music better than usual.

Mr Howard Barsa is a son of J. W. Barsa, Esp., of Wolfville, and a graduate of Acadia College and of New- ton Theological Institution.

Dr Allison has accepted the presidency of Mt Allison and tendered his resignation as superintendent of education in Nova Scotia, to take effect Oct. 31st.

We would again impress upon the rate-payers of this county the importance of having their names properly registered upon the voters' list.

The calendar of Dalhousie College for 1891-2 has just been issued, giving full information regarding the course of study and the regulations and progress of the university.

Resources of Nova Scotia.

Nova Scotia is marvellously rich in natural resources. Within its limits there are more valuable minerals by far than are known in any other territory of equal size—coal, gold, iron, manganese, antimony, marble, gypsum, limestone and sandstone being found in great abundance.

To Boom Nova Scotia.

On Tuesday, Aug. 4th, a party of about thirty American newspaper men, guests of the Yarmouth Steamship Co., and the Western Counties, Windsor & Annapolis, Nova Scotia Central and the Cornwallis Valley Railways, will leave Boston on the steamer Yarmouth, for a week's trip through this Province, and an inspection of the new railway connection between Digby and Annapolis.

On Tuesday, Aug. 4, 1891, leave Boston, WEDNESDAY. Drive through Yarmouth, inspect industries, etc.; leave at 1 p. m. by special train for Digby, drive through town; stop over night.

THURSDAY. Special train to Annapolis, drive through town (dinner); leave Annapolis by regular train for Kentville (lunch at station); take Cornwallis Valley train for Kingsport, return by special to Kentville; stop over night.

FRIDAY. Drive through Kentville, special to Wolfville; visit Colleges, etc. (dinner); proceed by special to Grand Pre, the home of Evangeline; thence by special to Windsor, drive through town, visit Kings College and Clifton the late residence of Judge Halliburton (Sam Slick); take 4.55 p. m. for Halifax.

SATURDAY. At Halifax, drive in forenoon, visit Public Gardens, etc., in afternoon.

SUNDAY. Rest and go to church.

MONDAY. Leave Halifax 8.30 a. m. for Middleton, then to Bridgewater; stop over night.

TUESDAY. Leave Bridgewater 7 a. m. homeward bound.

Kentville News.

Hon. J. W. Longley was in Kentville last week.

The leading men in both political parties have been quite diligent in hunting up new names to put on the voters' lists.

The Kentville boys are quite jubilant since their recent victory over the Berwick baseball club. The score of 30 to 6 shows that the Berwick boys were badly rattled.

Mr H. S. Dodge opened up a large assortment of goods last week. He is always ahead of the times and has one of the best stores in town.

B. Webster, Esq., Q. C., was in Halifax on Monday attending Chambers before Judge Townsend.

On Tuesday night a colored man from the Pine Woods drove into Kentville, and was either intoxicated when he arrived or approached that state soon afterwards.

The King's County Election Case.

An application was made yesterday by Mr Justice Ritchie, the judge to whom has been allocated the trial of the King's county controverted election, by Mr Boak on behalf of the petitioner, for an order fixing the time and place for the trial of the petition. It was urged by Mr Roscoe, on behalf of the respondent that as an appeal was outstanding, and as the presence of the respondent would be necessary at the trial, the application should be allowed to stand and come up at a later date.

From India.

BY LEE

I suppose that there are few readers of the ACADIAN who have not read or heard of the Indian jugglers. I hoped in coming to this country to be able to investigate this subject to some extent; but thus far have only had one opportunity of seeing the peculiar performances of this peculiar class of people.

One rather unsatisfactory result of this affair was the attempt on the part of our two youngsters, to imitate what they had been watching with supreme interest, at the risk of cracked necks and broken limbs.

It is some time since the voice from Sheffield Mills has reached your paper; perhaps a few words this week would not be amiss.

The farmers are very busy in the hay-field, enjoying the good weather. The crop in this part of the county is considered very good indeed.

The Paris green and plaster have been used plentifully, else it would have been impossible to save the crop.

Our school has closed for the summer vacation, and the teacher, Miss Sutherland, has gone home to Queens Co. for a visit to her mother.

The Sabbath-school is prospering. Mrs Elizabeth Elk, of Cambridgeport, and family are visiting friends in Cornwallis.

New appliances for the safety and convenience of the public are being introduced on the W. & A. R. Last week an electric semaphore was put in on the line of the W. & A. R. near the "Missing Link" junction at Annapolis.

Another semaphore will be erected a short distance from the other one, but on the Digby and Annapolis line.—Waters Chronicle.

Summer Clearance Sale of Stamped Linen Goods, Tray and Carving Cloths, Lunch Cloths, Doilies, Toilet Sets, and cheap for cash. Ladies' and Misses Hygienic Waists, White Wear, Corsets, Dress Shields—warranted.

M. A. Woodworth, Webster St., Kentville, N. S. Agent for McCall's Bazar Patterns

Notice. Sehr Harold Borden now at wharf discharging Hard Coal, Nut and Furnace sizes. Warranted best qualities at lowest prices.

W. J. HIGGINS. Wolfville, June 10th, 1891.

United States News.

Mr Secretary Blaine is still at Bar Harbor. The reports regarding the Secretary's health are conflicting.

A portrait of Mr Phil Armour leading a pig by a string appeared recently in the New York papers. According to recent published statistics the Armour farms are far ahead of all others as buyers of beef.

The wife of a well-to-do farmer in Indiana has broken the record by giving birth to ten children within twenty-nine months. The mother and all the children are reported as doing nicely—two triplets and two sets of twins.

KANSAS CITY.—Summer complaints are prevalent, quite a number of children have succumbed to cholera infantum. Where a doctor is not at once available it is recommended to place a flannel bander steeped in whiskey round the sufferer's abdomen, and to administer whites of egg beaten up with brandy and cinnamon.

According to a London letter, in a recent portrait of the Prince of Wales, a gold bracelet on the left hand is made quite a prominent feature.

Mr W. H. Gladstone, son of the ex-premier, whose death took place in London during the first week in this month sank under an operation for the removal of a tumor in the brain. He had been a great sufferer for three years and was partially paralyzed on the right side.

Buttermilk cocktail is the fashionable beverage in New York this summer, and all the leading hotels buttermilk is kept.

News from Sheffield Mills.

It is some time since the voice from Sheffield Mills has reached your paper; perhaps a few words this week would not be amiss.

ROCKWELL & CO.

Building Lots.

Parties wishing to secure desirable building lots in Wolfville cannot fail being visited in the block of land adjoining the Presbyterian church, which has recently been laid out into good sized lots and will be sold at reasonable rates.

B. O. DAVISON, AGENT, WOLFVILLE, N. S.

TRY OUR CELEBRATED

NEW BRAND OF INCA FLOUR

A first-class grade of family flour, Winter patent, ground from choice Northern wheat, full test weight and of the very best quality. Superior to all other wheats ever produced. It contains the most health-giving and nourishing properties. Clean, sweet and warranted to give satisfaction.

Dealers supplied by J. A. CHIPMAN & CO., Halifax, N. S., or direct from the Mills of HILLMAN & FELLOE, Peterborough, Ont.

"RULER HUGO."

This favorite stallion will make the season of 1891 at the stable of his owner, at Greenwich. His weight is about 1500 pounds, and he has colts that at three years old have been refused \$200 for. This will be a grand opportunity for farmers to get thoroughly reliable stock that will command high prices.

Store closed at 6 o'clock P. M. Monday, Wednesday and Friday.

THE ACADIAN

WOLFVILLE, N. S., JULY 31, 1891.

Local and Provincial.

Sooty, aren't you boys?

We invite our readers to contribute social, personal and other news matter which may come under their notice.

The store next this office, belonging to Mr. S. R. Sleep, has been newly painted this week, and considerably improved in appearance.

It is said that next year will be the last one in which persons may apply for license to teach without going through the Normal School.

The schooner Resolution, Barkhouse master, arrived on Friday from New York with a cargo of authentic coals for Messrs J. W. & W. Y. Fullerton.

There were twenty-nine applicants for license to teach from the Berwick school this year. We doubt if any other school in the province has such a record to boast of.

Mr. C. A. Patriquin received his diploma for harness exhibited at the Jamaica exhibition on Wednesday. He expects to have the medal for inspection in a few days.

The work on the building for the first company is progressing favorably, and it will probably be ready for occupancy in time for the next monthly meeting of the company.

Anyone wishing to purchase a new mowing machine, hay-rake or other agricultural implement will find it to their advantage to communicate with C. F. A. Patterson, at Horton Landing.

Mr. Burgess' new ship "Carnado" left Kingsport on Tuesday morning for St. John, in tow of the tug "Storm King," of the latter port. The ship will finish rigging and load deals at St. John for Cardiff.

Mr. Melbourne Sleep left the first of the week for a trip around the Province on the wharf. He went first to Yarmouth and from there will follow the shore around to Halifax. During the trip he will visit Guysborough and other places and be gone a week or two.

Our genial barber, Mr. J. M. Shaw, has put us in his debt to the extent of a bottle of "Tonic Capillare," the finest hair dressing in the market. This article Mr. Shaw has fully tested and recommends it to be strictly first class; and from our own trial of its merits we feel safe in substantiating his recommendation.

Our attention has been called to the very dangerous condition of a bridge on Chapel street. A horse came near getting his leg broken in it a few days ago. We hear more complaints about bad bridges than there should be room for so soon after the performance of labor upon them. The commissioners would do well to make an examination into their condition.

On Sunday next, August 23, the Rev. Canon Brock, D. D., rector of Horton, will take the services in St. John's church. These services will be as follows: 8 a. m., the holy communion, 11 a. m., morning prayer, sermon on "Christ, the Bread of Life," and the holy communion; 7 p. m., evening prayer, and sermon on "The Unity in Diversity of the Holy Scriptures." The seats in St. John's church are free, and all are cordially invited.

Ice Cream Freezers, Lawn Mowers and other reasonable household hardware at Brown's.

The people of Wolfville will have a grand opportunity of advertising their town next Friday, when the American Press men are to pay us a visit. We hope that every effort will be put forth to make their stay here pleasant, and to allow of their seeing our town to the best advantage. We would suggest that teams be provided to meet them on the arrival of their train and drive them to all points of interest possible in the short time which will be allowed to them here.

It is declared to be an established fact that tin exists in considerable quantities in Lunenburg county, about 26 miles from Bridgewater and near Cherryville station on the N. S. Central railway. Specimens of the ore have been sent to England and the returns show an average of five per cent. of tin, which is considered a very good result. An expert from England is shortly to examine the property, and if the hopes which have been entertained as to the extent and richness of the deposits shall be confirmed, the discovery is likely to prove of greatest importance to the Province.

The millmen's strike at St. John is over and the workmen have gained a victory. At a meeting of the Millmen's union a proposition was received on behalf of the Murray and Barnhill mills for the men to return to work on the nine hours per day and the old rate of wages. Further, that if any reduction in wages is necessary the same shall be settled by the employees and employers, and shall not exceed six per cent. nor more than ten cents per day, no matter what the wages may be. The proposition was unanimously accepted and work was resumed on Wednesday.

Local and Provincial.

The pulpit of the Baptist church was occupied last Sunday morning by Rev. Howard Bars.

Rev. Mr. Turnbull, of Stellarton, has been in town this week, the guest of Mr. T. A. Munro.

Conductor Edwards has returned from his American trip and was in charge of his train as usual on Monday last.

Everybody should use the "Pearl" Water Filter at this season. For sale at Sleep's. Call and see them.

Miss Lizzie J. Reade, of St. John, N. B., who has been visiting friends at Grand Pre, returned home last Tuesday.

Ladies clean your Kid Gloves with Mather's Glove Cleaner, for sale only by O. D. Harris. Also a full line of Ladies' and Gent's Kid Gloves in all the most desirable shades, Glasgow House, Wolfville. July 10 1 mo.

The contractors for the Antigonish water works have completed their work, which gives good satisfaction. The pipes are laid between 6 and 7 miles into the town and there is a pressure of 130 lbs to the square inch.

We learn that the Windsor & Annapolis Railway Co. are about letting a contract for the construction of a bridge over the river at Kentville. The bridge will be of steel or iron, with stone abutments, and there will be a clear span.

Green Wire, Cloth Windows and Doors ready to put on, for sale low. WALTER BROWN.

Mr. C. F. A. Patterson, of Horton Landing, has recently procured an excellent bred Jersey bull. He is sired from the Hartz stock at Baddeck, C. B., the services of which cost \$100. Anyone wishing the services of this fine animal should communicate with Mr. Patterson.

The frame for the new engine shed at Annapolis, for which Mr. E. Spencer was awarded the contract, has been made ready here and shipped forward by train. Quite a number of carpenters from Wolfville went down the first of the week to work on it.

Our thanks are tendered to Mr. Wm. Regan, of this town, for a box of delicious honey. Mr. Regan, in company with Mr. C. A. Patriquin, has embarked quite extensively in the bee business this season, and we are glad to learn that they are meeting with abundant success.

S. P. Clute, of South Berwick, has probably the finest small-fruit farm in this Province. During the present season Mr. Clute has shipped 10,000 boxes of strawberries; he will also gather 10,000 boxes of raspberries, and has besides twenty acres of orchard and six acres and a half of gooseberries, currants and blackberries.

W. J. Higgins, Esq., of Wolfville, has a filly sired by "General Gordon" which weighed at two months and twenty-four days old 440 pounds. It is a beautiful rich bay in color and is pronounced a perfect beauty by all who have seen it. This filly has had no extra chance as her dam has been worked and had nothing but grass. Gordon is getting good ones all over the country.

At an adjourned meeting of the shareholders of the Canadian Voice, last week in Amherst, the committee previously appointed to investigate certain matters and to ascertain whether the publication of the paper should be continued, reported progress. It was decided to receive their final report a week hence. It is understood that the paper will be sold out if a purchaser can be got.

A trip to Nova Scotia, with short stops at Yarmouth, Digby, Annapolis and Halifax has just been concluded by Messrs Alexander J. McDonald and John J. Toomey, of City Point. They speak in glowing terms of the beautiful scenery and many interesting points of interest to be seen. Both gentlemen are earnest in their expressions of pleasure at the sociability of the people of the province, and mention particularly the attentiveness and courtesy of the officers of the steamer Yarmouth, of the Yarmouth Steamship Co.—South Boston Inquirer.

The millmen's strike at St. John is over and the workmen have gained a victory. At a meeting of the Millmen's union a proposition was received on behalf of the Murray and Barnhill mills for the men to return to work on the nine hours per day and the old rate of wages. Further, that if any reduction in wages is necessary the same shall be settled by the employees and employers, and shall not exceed six per cent. nor more than ten cents per day, no matter what the wages may be. The proposition was unanimously accepted and work was resumed on Wednesday.

A London cable says: The cyclists made several great records last week. The greatest achievement belongs to F. J. Osmond, who rode a pneumatic safety one mile in 2.15, breaking all previous records by 43.5 seconds. The half mile was made in 1.07 1/2, as against 1.08 1/2, the previous record. Three quarters was made in 1.42.

PRAT & COLLINS.

Wolfville, July 22d, 1891.

Acacia Villa.

The above well known commercial, classical and scientific school, situated at Horton Landing, was founded by J. R. Hea, D. C. L., in 1850, and by him sold to the present proprietor and principal, Mr. A. McN. Patterson, in 1860, by whom it has been managed ever since. Mr. Patterson, on taking the school over thirty years ago, determined to make it second to none in the Maritime Provinces, and has been so successful that he has always had more applications for pupils than he has been able to accommodate. Last year he had over seventy in attendance and his average was over fifty. For some years Mr. Patterson has contemplated enlarging his premises and has just completed a three-story building, 50x32 feet. The first story is used for ordinary school purposes and contains two large rooms connected by folding doors to enable the teacher in charge at study hours to have the entire school under his immediate supervision. The second floor is occupied by a number of spacious, well-ventilated dormitories and the third contains a hall the full size of the building, intended for elocution and music classes, lectures, &c. In addition to the new building he is making extensive alterations in his homestead by enlarging his dining-room and adding new sleeping apartments. Also a room especially intended as a hospital, which can easily be isolated from the rest of the building. The play ground will consist of two acres of land and during play hours a member of the teaching staff will be always with the pupils. The regular staff during the coming year will consist of the principal, who will take charge of the commercial department; C. F. Hall, A. B., Teacher of Natural Science, French and German; W. A. Bennett, A. B., Teacher of Classics and History, and Mr. J. F. S. Bault and Miss Ida Jones, specialists in music.

The superior educational advantages of this institution are well known to most of our readers, and we trust Mr. Patterson will receive the encouragement from the public that his enterprise deserves.

The Dominion Illustrated.

A page of the last issue of the Dominion Illustrated presents a complete group of portraits of the Canadian Biscay team of 1891, with a brief sketch of the shooting record of each in past years. It is timely and interesting. The visit of the Prince and Princess of Wales to the Canadian exhibit at the Royal Agricultural Fair, Doncaster, Eng., is also made prominent in a page of illustrations. From the Maritime Provinces there is a view of Windsor, N. S., in 1840, one of the Study Quoit Club, Halifax, and a portrait and biographical sketch of H. Blake Crofton, the well known Nova Scotia litterateur. There is a portrait and interesting biographical sketch of the late J. Beaufort Hurbert, LL. D., widely remembered in connection with the Anti-Jesuit agitation; St. George's Cathedral, Kingston; Interior of Fort Henry, Kingston; Scenes at Tadoussac Bay and Cacouas; The famous Cathedral at Rheims, France, perhaps the finest specimen of Gothic architecture in existence, are among other subjects of illustration in this charming number. The literary contents are not less interesting.

A London cable says: The cyclists made several great records last week. The greatest achievement belongs to F. J. Osmond, who rode a pneumatic safety one mile in 2.15, breaking all previous records by 43.5 seconds. The half mile was made in 1.07 1/2, as against 1.08 1/2, the previous record. Three quarters was made in 1.42.

HOW CHILDREN ARE TAUGHT TO BECOME COWARDS AND LIARS.

"Tommy, you have disobeyed me, and I am going to punish you, so walk right into this dark closet."

The voice was cold and stern, and the manner was equally unyielding. Tommy crying and struggling with all his might, was pushed and dragged into the closet, which was certainly dark enough for all practical purposes, and the key was turned in the lock.

"Mamma, it's so dark! I'm afraid. Please let me out," pleaded the subject Tommy. But he was not yet subdued. The mother stealing noiselessly up to the door, groaned in a horrible manner and rattled a piece of chain.

"Oh, mamma," shrieked the frightened child, "please let me out. I'll never be had any more."

Then the door was opened and the little prisoner came out, white faced and wild eyed.

This was Tommy's first lesson.

"Here, Tommy, dear, take this nice medicine the doctor left for you. Come now, open your mouth and take your good medicine."

"I thought you said it was good," shrieked Tommy, when he had gulped down the nauseous mixture.

"So it is, dear—good for sick boys," was the calm reply, as the mother put away the spoon and bottle.

That was Tommy's second lesson.

Tommy had been standing at the gate for more than an hour watching for his mother. The day was cold and the wind blew upon him incessantly, but still he waited, his eager little face pressed against the bars of the gate.

At last he saw her coming, away down the street, and then he went rushing down to meet her, his cheeks glowing and his eyes shining.

"Give to me, mamma! Oh, give it to me!" he cried, holding up both his hands.

"Give you what, Tommy?" asked the mother, pushing past him.

"Why, my candy, mamma! The candy you promised to get me."

"I forgot it, Tommy. You'll have to do without this evening."

"But, mamma, you promised it," cried Tommy, in the midst of copious tears, as though that reason were enough.

"But didn't you hear me say I forgot it?" said the mother as though that, also, was reason enough. And then Tommy was sent to bed supperless because he cried.

There were several lessons for Tommy in this—I really cannot tell how many.

"Mary," said Tommy's father one day in a pained voice, "how does it come that Tommy is growing to be such a coward? I wanted to send him upstairs after my slippers last night, and nothing could induce him to go because it was dark. The idea of a boy being afraid of the dark! He's going to be a perfect milk-and-water!"

And then the mother said she couldn't account for it in any way in the world. She was sure there had never been any cowardice in her family. They had never dreamed of such a thing as being afraid in the dark when she was a child, and it was a mystery to her how Tommy got such notions into his head.

"Mary," said Tommy's father again, a few days later, "twice lately I have caught Tommy in a deliberate lie, and have suspected him of lying half a dozen times in as many days. Now, lying is one thing I positively cannot stand. I have tried so hard to teach the boy to be perfectly frank and honest and to tell the truth at whatever risk."

And Tommy's mother said that she really couldn't understand it, that Tommy's training had been of the most careful kind, but that Tommy must have learned to tell falsehoods from that last servant girl. As for herself, she had never told a lie in her life.

Whereupon Tommy was called up and lectured and talked to and talked at until his brain was in a whirl. He did not say anything in his own defence. He might have said a great deal, but he was no orator, and besides he did not understand the whole situation himself. Even if he did understand it all it would not have been very politic, would it, for Tommy to say that his first lessons in cowardice, and meanness, and selfishness, and deceit were taught him by his mother?

He'd advertise them.

Talk of advertisements! Can anyone beat this, which an exchange vouchers for as literally true:

A merchant in a western town and a prominent member of a church who in the absence of the minister sometimes fills the pulpit, after returning from New York where he had been selecting a stock of new goods, he found that the minister had been suddenly called away. Here was a good chance. Rushing into the pulpit after the congregation had assembled and throwing his hat behind him, he exclaimed, panting for breath: "Brethren, you must excuse me for being late, but I have just returned from New York where I have purchased one of the handsomest and best assorted stocks ever exhibited in this city, and which will be duly advertised in the papers. Let us pray."

Ayer's Cathartic Pills are recommended by the physicians, because they are free from chemical and other injurious drugs, being composed of purely vegetable ingredients. While thorough in their action, they stimulate and strengthen the bowels and secretory organs.

A bald headed woman is unusual before she is 40, but gray hair is common from childhood, and baldness and grayness may be prevented by using Hall's Hair Renewer.

What it Was.

A gentleman who traveled in the rural districts of the west some years ago says that to this day he has a "creeping sensation" when he recalls his experience in spending the night at a farm house. It was late in the summer, and the farmers were doing their threshing, while their wives were emptying their ticks and refilling them with clean straw.

Just before dark the traveler reached a comfortable looking house, where a hearty welcome was accorded him when he asked if he might stay all night. While eating his supper he heard the farmer's wife say to her husband and son:

"The straw tick from the spare room bed will have to be filled. I emptied it to-day and forgot all about it till this minute."

When the tired guest was shown to his room he undressed hastily and climbed into bed. Every movement of his body caused the straw to rustle under him, and pretty soon he discovered that it rustled even when he was lying perfectly still. He was of a nervous temper, and the strange noise disturbed him.

It was only occasional. He would lie still for a moment, and then the straw would rustle loudly. He fancied that he felt something moving under him. The rustling grew more frequent, and he wondered what caused it. It might be a rat!

He sat up in bed. At once the rustling became more violent than ever, and he distinctly felt movements under him. He jumped from his bed, lit his candle and looked at the straw tick. All was still now.

"I guess it's nothing but grass-hoppers or crickets," he said. "I'm not going to be cheated out of my rest by some harmless insect."

It was only occasional. He would lie still for a moment, and then the straw would rustle loudly. He fancied that he felt something moving under him. The rustling grew more frequent, and he wondered what caused it. It might be a rat!

He sat up in bed. At once the rustling became more violent than ever, and he distinctly felt movements under him. He jumped from his bed, lit his candle and looked at the straw tick. All was still now.

"I guess it's nothing but grass-hoppers or crickets," he said. "I'm not going to be cheated out of my rest by some harmless insect."

He got back into bed, but passed a restless, wearisome night hearing the rustling sounds frequently. The next morning he said to his host:

"I beg your pardon, but I think that a mouse or some small animal was in the straw you put into the tick on my bed last night. I heard and felt something rustling around constantly."

"We must see about it," said the man.

"Henry, you pitch the tick out on the grass and empty out the straw. Like a rat, not some of them plaguey field mice got into it. It was so dark we couldn't have seen it if it had been a ground hog."

A few minutes later Henry appeared at an open window with a black snake fully four feet long dangling from the end of a stick.

"There you air," he said, logically. "That's all it was. He was terrible mad, and come at me the minute I let him out. But I tamped the life out of him no time."

"And I slept all night with that thing in my bed!" gasped the stranger, shuddering from head to foot.

"Shucks!" said the farmer; "he wouldn't have hurt you none if he had bit you. Them kind of snakes ain't no poison."

Patriotism under Difficulties.

A long, lonesome man, who was most all nose and thin duster, and who had no doubt been inspired by that fluid which bleeds like a serpent, called a crowd around him at the foot of Woodland avenue yesterday, (says the Detroit Free Press), and began:

"Fellow patriots—Tomorrow is the glorious Fourth of July. Let our banners wave! Let the walking ring with your shouts of victory! The haughty British Government attempted to—"

"Hold on, there!" shouted one of the crowd. "Don't say a word again the English, or off goes your head!"

"Well, then, a certain European government put its foot—"

"Name your gov.," shouted a second man. "Don't throw no slurs on France."

"I don't see he means Sherman I can lick him," added a third.

"Right, well, let us slip that. This government declared its independence, and on a hundred battlefields shed its precious blood!"

There weren't fifty fights in the whole revolutionary war," shouted a man.

"All right, reduce my figures, then. At Bunker Hill the proud tyrant was hurled to the dust amid the victorious cheers of the colonists."

"Not much!" called a voice. "We fought 'em at Bunker Hill," but lost the day."

"Well, nebbs we did," continued the orator, "but turn to the picture of Washington at Valley Forge. In 1793, poorly armed, freezing in the wintry blasts, our gallant army met and defeated four times their number."

"What a whopper!" shouted half a dozen men in chorus. "There was no battle at all at Valley Forge."

"There wasn't!"

"No, sir."

"Very well. I cease. I quit. I subscribe. It is evident that oratory is an unknown quantity in this town, and that patriotism is dead. Who'll treat to the lemonade?"

We and our neighbors think there is nothing that will build up a person as quick after a severe attack of La Grippe as Dr. Norton's Dred Blood Purifier, which we believe saved very many of our lives in this place this spring and returned us to health soon.

Mrs. DAVID BEVARY, River Philip.

The phenomenal success of Ayer's Sassaaparilla started into existence a host of competitors. This, of course, was to be expected; but the fact has been to demonstrate the superior merits of Dr. Ayer's preparation by a constantly increasing demand for it.

Driving the Boy off the Farm.

In driving along a certain highway in one of our counties not long since, we observed a lad of tender years with a spade in hand in a great ten-acre field latching with thistles, which were numerous enough to keep ten boys many days. Our thoughts went back to the days of long ago when, upon another farm we were sent to cut thistles with a butcher knife, where they grew from two to six to the square foot. The task then appeared overwhelming, and became overwhelming it was irksome. The very hopelessness of getting over it bred discontent, and many a time we wished the thistles far away and the writer, too. We pitied the boy and deplored the lack of judgement which put him alone at a task which, like the story of the king and the locust, was literally without any end. If there is anything calculated to break the spirit of a boy more than another, it is toiling in loneliness at a task which has no hope of completing. If our farmers desire to drive the boys from the farm, this method of doing it will prove very effective. The thought of victory always stimulates; and when a lad is given a task, let it be of a nature which holds out the hope of some termination, and, if at all possible, associated with help. We have great faith in the efficacy of the spud as a means of exterminating weed life; but whenever its use is made the means of exterminating forever in the youthful breast the love of rural labor and rural life, it furnishes, in large measure, the elements of regret.—Canadian Live Stock Journal.

The brusque and fussy impulse of these days of false impression would rate down all as worthless because one is unworthy. As if there were no notes in an embryo! O, comes among stars! Or catarrhs in peaceful virgins! But one remedy professes to do what it never was adapted to do, are all other remedies worthless? Because one doctor lets his patients die, are all humbugs? It requires a fine eye and a finer brain to discriminate—to draw the differential line.

"They say" that Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription have cured thousands.

"They say" for a weak system there's nothing better than the "Discovery," and that the "Favorite Prescription" is the hope of debilitated, feeble women who need a restorative tonic and bracing service. And here's the proof—

Try one of both. If they don't help, call the World's Dispensary Medical Association, of Buffalo, N. Y., and you get your money back again.

Correct.

There is a charming young widow in South Minneapolis who retains a 6-year-old girl as the only pledge of her dear departed. The little one has just begun to learn her alphabet. A gentleman called upon the widow the other evening. Of course the fond mother wanted to show off her child. Taking up a newspaper and pointing to the big letters in an advertisement, the mother said:

"What letter is that?"

"A," responded the child.

"What comes after A?"

"B,"

"And what comes next?"

"C," replied the little one.

The inquiry was pursued still further, and along toward the end of the alphabet the little girl lost her bearings and never answered a question.

Finally the gentleman thought he would put a few questions. He began with this one: "What comes after T?"

The child looked him straight in the eyes as she answered: "A gentleman to see Mamma."
