The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▶ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plié et en terminent soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plié, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "À SUIVRE", le symbole ▶ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différentes. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PROSPECTUS  
OF THE  
**Melrose Black Fox Company**  
LIMITED

**STATEMENT OF THE BUSINESS**

Without controversy, the greatest and most lucrative business that has ever developed in this Province is the raising, in captivity, of Black Foxes. A few years ago this industry was unknown, and the very suggestion that Black Foxes, of infinitely greater value than the wild ones, could be bred in ranches, was not entertained by anyone. Today this business is an accomplished fact. It is estimated that over \$7,000,000.00 are invested in this lucrative industry in this Province, and it is the opinion of good, calculating business men that it is only in its infancy. Fortunes have been made in the past, are now being made, and shall continue to be made for many years to come.

## PROSPECTUS OF THE MELROSE BLACK FOX COMPANY, LIMITED

Our American Consul, Mr. Wesley Frost, in an exhaustive report to his Government respecting the breeding of Black Foxes, points out that not only is our climate peculiarly adapted to this business, but our soil, being of the Triassic formation, contains neither lime nor alkali. The fox loves to burrow and the presence of lime renders the pelt harsh in texture and dull in color. Hence, the pelt of our wild fox, as well as that of the domesticated animal, especially the latter, is known and prized in the London market. Prince Edward Island has, therefore, become world-wide in its fame as being the home of the Black Fox of superior quality; and it is to this Province the civilized nations are looking for Black Foxes for breeding purposes as well as for the most beautiful and valuable pelts.

have secured five (5) pairs of the BEST BRED ISLAND STOCK, including the Dalton, Oulton, Gordon and Tuplin strains. The parents of some of our stock have been selected by an EXPERT FURRIER of fifteen years' experience. When the time arrives for "A FUR BASIS OF VALUE," the Melrose Black Fox Co. will take its place with the best, or in advance of the best.

It is proposed to form a Joint Stock Company with a capital of \$150,000.00. At present it is proposed to issue stock amounting to \$85,000.00 divided

into 850 shares of \$100.00 each, being a sum sufficient to complete the purchase of five pairs of Foxes and pay all necessary organization expenses.

## **THE RANCH**

has been located at Marshfield, six miles from Charlottetown on the farm of Peter McN. Robertson. It is built in an ideal grove of fir and birch, sheltered in winter, cool in summer. is built within a stone's throw from Mr. Robertson's dwelling, who is the care-taker, and who has had a most successful experience in caring for foxes both young and old. This ranch is one mile from the public highway, thus securing the greatest possible freedom from noise or other distractions so injurious to a fox ranch. Its immutability from forest or other fires enhances its value.

## **COST OF RANCHING**

The owners of the ranch will supply the pens, food, keeper, night watchman, attendance of a veterinary surgeon, and everything necessary for the health, comfort and safety of the animals, the ranch retaining to itself 15% of the offspring.

## **THIS IS YOUR OPPORTUNITY**

The cost of foxes is advancing year by year. The sooner you get into the business the sooner your wealth begins to accumulate. If the litters average

three per pair the shareholders can rely upon receiving about 100% the first year and still retain their original interest in the old foxes, which, after the first year frequently have five and six in a litter. The percentages then soar.
