RAILWAY BLEEDING WEST MUST FIX UNIFORM RATES

General Interests of Canada Suffer Because of Discrimination, Declares South York Member—Parliament Should Establish Policy as Guide for Railway Commission—Cost of Operation No Greater in West.

TIME NOW FOR TWO-CENT FARE

Ottawa, Jan. 25.—(Special)—“That this house hereby declares that it is against the general interest of Canada to have any territorial variation in the application of tariff charges by the board of railway commissioners.”

In this resolution, as an amendment to the motion to go into supply, W. F. Maclean (S. York) declared belief in the competence and duty of parliament to lay down a general principle for the guidance of the railway commission.

All parts of the country should be treated equally by the railways. They were honored by the people of the whole country, but were making an unfair discrimination against the west. The contention that it cost more to build and operate in the west was an unfair assumption, which had been taken for granted by the railway commission.

Discriminatory rates hampered western settlement. The time had come for a universal 2-cent passenger rate. The C. P. R. had a \$900,000,000 surplus gained from the people of Canada, which should be devoted to reduction of rates. Parliament should control capitalization.

“We are making millionaires,” declared Mr. Maclean, “but are we getting service?”

Legal Experts for People. The premier did not think it wise to lay down such a principle as that set forth in the amendment. He informed Mr. Maclean that a staff of legal experts would be given the railway commission to uphold the rights of the people.

J. G. Tarriff (Assiniboia) who seconded the amendment, gave some illuminating statistics to show that it did not cost more to move freight in the west, but the rates were nearly double. Quite a number of members expressed themselves as favorable to the spirit of the amendment, but objected to its terms.

After a discussion lasting till 11:35 p.m., Mr. Maclean withdrew his amendment, declaring his intention to renew the question when the members had a better chance of studying it. The house then went into adjournment.

House Has Jurisdiction. “While it is sometimes urged, when matters of this kind are brought before the house, that the railways should be left to the jurisdiction of the whole railway commission of Canada, and I wish to vindicate the right of this house to discuss any matter which would result in the creation of the railway commission. We have the right in this parliament to establish principles which will guide the commission in the discharge of their duty.”

“I propose to discuss first what I mean by the territorial incidence of the railway tariffs in this country. The railway commission, acting under the railway act, has assigned rates which discriminate in favor of locality, one set of rates being made applicable to eastern territory, a second to western territory and a third to the coast or mountain section of the country. I contend that that is not just or right, and that there should be no variation in the territorial incidence of the railway tariffs in Canada, but on the contrary that there should be absolute equality of rates with respect over the whole of Canada.”

National Roads. “These roads were built for national purposes, they were incorporated by the national legislature, they were aided in many ways by grants of land and money and franchises in order to serve the people of Canada generally. Therefore, when the railway charges come to be apportioned, my contention is that there should be no variation in those charges, and what is a fair charge in the west or in the coast or mountain section, if there is to be any variation it ought to be rather in favor of the newer country where the conditions of life are more severe.”

Sir Wilfrid Laurier: “What is the law upon this point?” Mr. Maclean: “The law, as far as I can see, leaves it absolutely to the judgment of the railway commission; there is not a definition, but there is a practice, which is not yet out of date, dealt with in section 304 and the following pages of the railway act. The railway commission on assuming office found higher rates in existence in the west and on the coast, and that practice is being continued. Many complaints and protests against this practice have been made by the people of the west, and the question is to be threshed out before the railway commission at Ottawa and in western cities.”

Uniformity of Tolls. “If we can decide in this house that uniformity of tolls ought to prevail all over the country, that will save a great deal of enquiry, and the people will be sure that for the future there elected warden of Prince Edward County to-day.”

Continued on Page 9, Column 1.

Inquiring Into Freight Rates.

OTTAWA, Jan. 25.—(Special)—H. W. Whitla of Winnipeg, who has been appointed counsel to represent the public in the investigation into the charges of discrimination against the west in freight rates, has been in Ottawa for the past couple of days, conferring with the government and the railway commissioners. Mr. Whitla was closeted all day to-day with the commissioners; considerable data which has already been collected was reviewed, and plans for the coming campaign were made.

Mr. Whitla left for Montreal to-night, where he will spend a couple of more days gathering information before going west. The first sitting of the commission will be Feb. 13, in Ottawa.

Stand by Mr. Maclean

At a largely attended meeting of the East York Township Conservative Association, held at Bate's Hall, Todmorden, last night, the following resolution was carried on motion of C. J. Cary, with George H. Moses seconding:

“That the East York Township Conservative Association, in meeting assembled this 25th day of January, 1912, tender our congratulations and further hearty support to our member in the house of commons, W. F. Maclean, Esq., for the loyal and patriotic vote given by him on the Lancaster bill on Monday, Jan. 22, in the house of commons. Let his motto be: ‘No surrender.’”

SOON START BUILDING ST. ALBAN'S CATHEDRAL

Necessary Amount of Money To Proceed With New Edifice Has Been Collected.

The Bishop of Toronto announced at the annual meeting of the congregation of St. Alban's Cathedral last night that the official agreement between the church and the architects for the building of the new cathedral, would be signed in a few days, since the \$100,000 which must be obtained before the agreement could be signed had almost been raised. This means that the construction of the new edifice will start early in the spring.

About 500 people, including a large number of Anglican clergymen of the city, were present. Secretary Canon Morley's report showed that \$127,311 had been either obtained or promised. Of this amount \$41,927.31 had been signed for, cash amounting to \$20,000 had been received, and \$30,000 was in sight.

Bishop Sweeney, in his address, said that the new structure would be the finest cathedral north of the boundary. It would be a glory to God, a centre of unity for the diocese of Toronto, a memorial of the three great men who had preceded him as Bishop of Toronto, and a centre of missionary endeavor for the city. His lordship went on to say that as soon as the first stone was laid, he hoped to have the Duke of Connaught turn the first sod of the new cathedral.

MALONEY OPENS FIRE IN RENFREW CAMPAIGN

EGANVILLE, Jan. 25.—(Can. Press.)—That the bulk of the Liberal-Conservative party of South Renfrew had never fostered any agreement that Hon. G. P. Graham would be opposed in South Renfrew, that Mr. A. T. Lowry, if he said that he had, and he intended to seek the suffrage of the riding, conscious that he had never broken faith with it and independent of any agreement, were the emphatic statements made by Dr. Maloney, Conservative candidate in South Renfrew, before an audience of some 700 in Eganville town hall to-night.

He was backed by the presence on the platform and in the list of the evening's speakers of Hon. Martin Burrell, minister of agriculture, and Hon. L. P. Pelletier, postmaster-general.

It was the first shot in what promises to be one of the most warmly contested campaigns that South Renfrew has yet seen. If it was a test its result must have been highly gratifying to Dr. Maloney and his supporters, for the reception accorded the candidates and those who spoke with him was of the heartiest.

MONTREAL WOMAN MURDERED?

Police Investigating Death of Mrs. Marvel at Philadelphia.

PHILADELPHIA, Jan. 25.—Under circumstances that suggest murder, the body of Mrs. Marvel was found here to-day.

Mrs. Marvel's maiden name is said to have been Edythe Dorothy Conniff and she is said to have been a native of Montreal, Que., where her uncle is a Roman Catholic clergyman. Her father was Edward B. C. Conniff, a wealthy lumber merchant, according to evidence in the hands of the police. Marvel, her husband, was put through a severe examination by the police to-night, but it is reported that they were unable to learn anything further than what was shown at the hearing this morning. A letter, addressed to Mrs. D. R. Trimble, Pittsburg, Pa., was found in the woman's room. It is supposed to have been addressed by her, but the handwriting differs greatly from that of the two notes.

Warden of Prince Edward County to-day.

A HIGHER CRITIC

LITTLE JIMMIE: I don't see what people want to read books like this for. I'd rather play Injuns with Bill Hanna and Bobbie Pyne.

WILL MEET IN BELFAST BUT NOT IN ULSTER HALL

Churchill Beats Partial Retreat Following Snub By Harbor Commissioners But Insists on Right of Public Speech—Redmond Says Ireland's Views Are Misrepresented.

LONDON, Jan. 25.—(Can. Press.)—Winston Churchill, first lord of the admiralty, has sent a letter to Lord Londonderry, ex-viceroy of Ireland, and one of the Unionist leaders who are opposing the proposed home rule meeting, stating that he would advise the Ulster Liberal Association not to insist upon holding the meeting in Ulster Hall, Belfast, as contemplated on Feb. 8, but that he intends to deliver a speech somewhere else in Belfast on that day.

Mr. Churchill says in his letter: “It is my duty to keep my promise to the Ulster Liberal Association, and assert the right of free speech in a public meeting. But as the main objection appears to be directed against the holding of the meeting in Ulster Hall, I shall ask the Irish Liberal Association to accede to your wish. There will thus be no necessity for your friends to endure the hardships of a vigil or sustain the anxieties of a siege. Neither will it be necessary for you to break the law in an attempt to deprive us forcibly of the use of property to which we are lawfully entitled.”

Must Maintain Liberty. “It is not a point of any importance to me where I speak in Belfast. On the contrary I desire to choose whatever hall or place is least likely to cause ill feeling to the Orange party.”

Mr. Churchill's conciliatory move is calculated to lessen the chances of rioting at Belfast on Feb. 8. Matters had reached a deadlock offering nothing but the gravest consequences. The Ulster Unionists appeared ready to take any risk to prevent Mr. Churchill from speaking in the hall where his father, Lord Churchill, had delivered his famous dictum: “Ulster will fight, and Ulster will be right.”

Backed By Harbor Commissioners. The harbor commissioners of Belfast by informing Mr. Churchill that Feb. 8 would be an inconvenient day for his proposed visit of inspection, gave strong support to the Unionist position. On the other hand, the Liberals made a formal demand to be placed in possession of Ulster Hall on the morning of Feb. 8, with a view to defeating the Unionist tactics.

At this point, as a result of a conference held in London yesterday, Mr. Churchill volunteered to accept a change in the place of meeting, and the Unionists joyfully hail his decision as a retreat, largely due to the rebuff administered by the Belfast harbor commissioners, there is little doubt that they welcome the opportunity to escape from an unpleasant position, as public opinion seems to be going against them. Mr. Churchill's letter was made public too late for the Orange leaders to arrive at a decision to-night, but the general belief is that the trouble has been averted and the

PRIEST WHO LEFT CHURCH HAD NO RIGHT TO MARRY

Editor of Catholic Publication So Interprets Civil Law of Quebec in Defending Suit of Chiniquy's Daughter—Oath of Chastity Taken by Priest Cited.

MONTREAL, Jan. 25.—(Can. Press.)—The question whether a sacerdotal vow of chastity such as that taken by members of the Roman Catholic priesthood constitutes, as far as the Quebec civil law is concerned, an impediment to marriage is one which was referred for resolution before the judge of merits law as a result of a ruling handed down by Mr. Justice Beaudin in the Chiniquy-Begin case to-day.

In this case the plaintiff, the wife of Prof. Morin de McGill, and daughter of the late Charles Chiniquy, a Roman Catholic priest, who deserted the church and devoted the remainder of his life to attacks upon his former faith, is suing the editor of a local Catholic

LIBERALS NOW HOLD POWER IN GERMANY

By Uniting With Either Right or Left Party, They Can Create a Majority—Socialists Go To Reichstag With Their Strength More Than Doubled.

BERLIN, Jan. 25.—(Can. Press.)—The complexion of the new reichstag as determined by the final results of the 3 rebellions taken to-day, is shown by the general party groupings as follows: The subordinate or allied factions are included for convenience with the parties with which they generally vote:

Socialists, 110; progressive non-socialist groups, 95, including 46 National Liberals, 42 Radical people's party and 7 progressive peasant parties, clericals with Polish, Alsatian and Hanoverian particularists 120; Conservatives, allied parties, 70; Independent, 1—ex-minister of the interior, Count von Posadowsky-Wehner.

The results completely overthrew the working majority of the Conservative-Centrist, or “blue-black bloc,” in the last reichstag, which is now able to muster only 391, counting every possible vote, and places the control in the hands of the National Liberals, who will be able to form a majority by

Tyrene Power in “The Servant in the House.” James O'Donnell Bennett, critic of the Chicago Record Herald, commenting on Mr. Power's characterization of the role of the drain-man, says: “He is a very great actor. His genius is magnificent and yet the essence of it is perfect simplicity and humility.” “The Servant in the House” will be at the Princess next week.

CHILDREN “WORKED” BY MISSIONARIES AND TEMPERANCE PEOPLE

Leader in Sunday School Work Says Scholars Are Being Regardless Exploited.

Rev. E. Morris Ferguson, M.A., Philadelphia, educational superintendent of Sabbath schools of the Presbyterian Church, North U. S. A., and Rev. A. L. Phillips, D.D., Richmond, Va., general superintendent of Sabbath schools of the Presbyterian Church, South U. S. A., were the principal speakers at the sixth annual meeting of the Presbyterian Sabbath School Association of Toronto, in St. Andrew's Church last night.

The theme of Rev. E. M. Ferguson's address was “The Sabbath School as an Educational Force.” “The temperance people have sought to ‘work’ the Sunday school in behalf of their cause,” asserted Rev. Dr. Ferguson. “No matter what may happen to the aims or the purposes for which the Sunday school was founded, they cease for nothing but to bend to the service of their ends. They and others are the exploiting Assyrians of the Sunday school.”

“The high there are the missionaries who ‘work’ the Sunday school,” he continued, “and they hope to draw good contributions therefrom. They look, however, to future rather than present collections. If the child will give us his pennies, they figure, ‘when he grows up he will be educated to give us good lectures.’ So the Sunday schools of the nations are flooded with missionary literature, all of which is pervasive of the purpose for which the institution was established. Thus the Sunday school is open to attack from those who ‘work’ it on behalf of the cause they espouse.”

In his address on “The Sunday School as a Spiritual Force,” Rev. A. L. Phillips, D.D., Richmond, Va., said: “We need men with fire in their bones and new men built to fit conditions of 2000 years ago.” Officers elected for the Presbyterian Sabbath School Association were: John Lowden, president; vice-presidents, M. S. Macdonald, George Forster and H. E. Jackson; secretary, J. G. Robertson; treasurer, Theron Gibson; additional members of the executive committee, Victor Thompson, J. Moore Scheider and John McLellan.

SOCIETY

Mr. Nicholson (Montreal) was the guest of Mr. MacKelcan for the Government House dance last night.

Mr. and Mrs. Cully Robertson gave a small dinner before the dance at Government House last night, their guests including Mr. and Mrs. Goodenham, Mr. Norman MacKelcan, Mr. C. MacLean, mayor of Brockville, and Miss Wright, Detroit.

The second dance of the season at Government House last night was, if possible, even more successful than the previous one, only the number present being smaller and all the arrangements perfect in every way. Mrs. Gibson was in a becoming gown of pale green silk brocade, with folds of panne on the bodice, diamond tiara and other ornaments. Miss Gibson looking very pretty in deep blue satin and gold. Miss Legatt (Hamilton) who also received, was wearing all white. The guests were principally of the young married set and a few of those noticed were: Mr. and Mrs. R. K. Marshall, the latter in apple green velvet and white lace, with yellow satin ruffles; Mr. Mortimer Bogert and Mrs. Bogert, the latter in blue and white; Mr. and Mrs. F. S. Hammond, the latter wearing white Liberty; Mr. and Mrs. A. A. Case, Mr. and Mrs. Norman Gowicki, the latter wearing ashes of rose satin; Mr. and Mrs. Casper Mulock, Mr. and Mrs. Douglas Young, Mrs. G. Hendrie (Hamilton), in white and silver; Miss Creelman, in emerald green; Mr. and Mrs. Beverley Meene, Mr. and Mrs. R. C. T. Cassels, Mr. and Mrs. Delgmore Magee, Dr. and Mrs. Newbold Jones, the latter in pale yellow, with beauty rose; Mr. and Mrs. Clyde Caldwell, the latter very handsome in white, with crystal; Capt. and Mrs. Mowbray Bell, Mr. and Mrs. Joris Ryerson, Mr. and Mrs. Casey Wood, Miss Loan Arnold, in white; Miss Gertrude Taylor, Miss Le Mesurier, Mr. and Mrs. C. McInnes, Col. and Mrs. Chadwick, the latter in rose color and gold; Miss Plummer, Miss Sarah Linton, (Buffalo), very pretty in mauve satin and white lace; Miss Adele Boukton, Mr. and Mrs. Aylesworth, Mr. and Mrs. Jack Meredith, the latter in pale pink and rose colors respectively; Misses Gamble Geddes, Mr. and Mrs. W. P. Fraser, the latter in rose and gold; Mr. and Mrs. Gooderham Mitchell, Mr. and Mrs. Norman Seagram, the latter wearing emerald green; Mr. George Evans, Mrs. Evans in deep blue satin; Miss Davies (Vancouver), King's blue satin and gold; Miss Jessie Johnston, in a pretty frock of dark blue, with white lace; Mr. and Mrs. Gabriel Elmsley, the latter in palest yellow; Miss Elmsley, in white; Mr. and Mrs. Charles Worsley, Mr. and Mrs. Leighton McCarthy, the latter in black; Mrs. Goodenham, deep blue and gold; Mr. and Mrs. Hugh Hoyles, the latter in mauve with red flowers; Mr. and Mrs. R. C. H. Cassels, Miss Susie Cassels (Ottawa), Mr. and Mrs. Scott Wallace, the latter in rose color; Dr. C. Temple, Miss Temple, in pale blue; Mr. and Mrs. Temple Blackwood, Mr. and Mrs. Fuder, the latter in sapphire; Mrs. Lark Council (Hamilton), in a lovely gown of black and white over satin, embroidered with pearls; Mrs. Elsie Mortimer Clark, in white satin and silver; Mr. and Mrs. Assheton Smith, the latter in rose colored panne and satin; Mr. R. S. Christie, Mrs. Christie, in emerald green and silver; Mrs. Jean Alexander, in pale blue satin; Miss Lullia Carter, Mr. and Mrs. Harry Strathby, the latter in a becoming white and silver gown; Mr. John Small, Mrs. Small, in mauve satin; Miss Alice Hartley, in pale pink and white; Mr.

The Daily Hint From Paris

For the Theatre. The little lace caps for the theatre are charming, if not too large. Gold lace is the favorite material and it is used here for the entire cap, the front being of net and the trim of edging. The edging is wired and arranged to suit the face after putting on. A wired black velvet cord is the only trimming.

The collar of roses with its black velvet ends is a novelty, large pink roses being chosen, and the petal edges outlined with black chenille.

Floury, Mrs. Fleury, in mauve gown, ninon over satin; Mr. C. Robertson, Mrs. Robertson, in white satin; Mrs. Ewart Osborne, wearing pale yellow and violet; Miss Tait, in plain satin and ninon; Mr. and Mrs. Sandford Smith, the latter in pale blue with violet; Miss Wright (Detroit), in white, Dr. and Mrs. Wright, the latter in white satin; Mrs. Brouse, in rose color; Mr. Stuart Wright, Mrs. Wright, in black and gold, with American beauties; Mr. Gerard Strathby, Mrs. Strathby, in white and gold; Mrs. Flora Macdonald, Mrs. Schomberger, in rose and gold; Mrs. Berger, black satin and ninon; Miss O'Brien, palest pink; Mrs. Hurne, in blue satin with pink carnations; Mrs. Schindler, wearing mauve satin; Mrs. Montcrieff, in pale yellow; Miss Florence Smith looked very handsome wearing a lovely large opera prey to match in her hair; Miss Meredith, in black satin, with roses and embroidery; Miss Claire Denison, Miss Kirkpatrick, Miss Graser, Miss Nordheimer, Miss Nora Whitney, in pale yellow and crystal; the Misses Kingsmill.

An extra concert in connection with the Women's Musical Club of Toronto will be given in the Conservatory Music Hall, on Saturday evening, by Jan Hamboorg, Boris Hamboorg and Miss Grace Smith. Members admitted by ticket; the public 50c.

The president and members of the Toronto Hunt Polo Club have issued invitations to a ball, under the distinguished patronage of H. H. the Duke of Connaught, Governor-General, and H. R. H. the Duchess of Connaught, to be held at the King Edward Hotel, on Thursday, Feb. 1, at 8 p.m.

Mr. J. B. Neale has returned from a business trip to Germany.

At the marriage of Miss Violet Watson to Mr. Victor Law, in Hamilton, on Saturday morning, the attendants will be: Capt. Wilfred Law, R.N., best man; Mr. Aubrey Burrows, Mr. Cronyn and the Messrs. Watson, ushers; Mrs. W. J. Scutham, matron of honor, and Miss Besse Balfour and Miss Halide Crawford, bridesmaids.

Mr. and Mrs. James Clark, Georgetown, Ont., announce the engagement of their daughter, Alexandra (Lexie) to Mr. William Archibald Madden, Toronto, the wedding to take place quietly Feb. 15.

Invitations are being sent out for the science dance, to be held in the university gymnasium, on Friday evening, Feb. 3. Graduates of the school wish to subscribe and confer a favor by communicating immediately with the secretary, Mr. Allan McQueen.

HEAVY VAULT ENTRANCES

Most Massive and Intricate Ever Built in America.

The J. & J. Taylor Safe Works have standing in their factory to-day, almost ready for shipment, the two heaviest steel vault entrances ever yet built either in Canada or the United States. They weigh 52 tons each and in addition to their massiveness comprise the most modern and scientific methods known for offering protection against configurations and burglaries. The World believes that bankers and architects to whom these questions are of vital importance would find a visit to the safe works (145 Front-st. east) during the day, well worth while.

DUKE AND TAFT ENJOYED CHAT

Didn't "Talk Shop," But Spent Social Hour—A Whirlwind Visit to the Capitol.

WASHINGTON, Jan. 25.—(Can. Press).—The Duke of Connaught met the American "pacer" in his visit to the national capital to-day. Arriving late in the afternoon, he was whisked first to the British embassy, spent 40 minutes in the White House, where he was received by President and Mrs. Taft, was then taken to the National Press Club, and then, tired, but "delighted," as he expressed it, sought his private car. He left about midnight for New York. The duke, who has visited the United States in many years, spent 40 minutes in the White House and President Taft returned his call at the British embassy.

Hour With Taft.
Altogether the chief executive of the United States and the viceregal visitor were together for a little more than an hour. The duke had no official message to bear from England, and the president had none to give. Their conversation was of the most general character and the only formal welcome to his royal highness was that extended to him when he left his private car at the Union Station, by Major A. W. Butt, President Taft's personal aide.

Guests Were Few.
Mrs. James Bryce, First Assistant Secretary of State Huntington Wilson, and Second Assistant Secretary Adie were the only guests outside the cabinet. The duke's aide, Col. Lomther, who came with him from New York, and the staff of the British embassy, were presented to Mr. Taft. Following a formal reception, the duke was served in the red room of the White House by Miss Helen Taft.

The duke chatted with all the president's guests, but spent much of his time talking with Mr. Taft and Secretary of State Knox.

To-night the duke was the guest of Ambassador Bryce at a dinner at the embassy, which he left shortly before midnight to visit the National Press Club.

Addressed Newspapers.
At the Press Club the duke made the first and only public speech of his visit to the United States. On being introduced to the American newspapers, he said:

"I assure you it is a pleasure to meet you gentlemen who hold positions of such influence in this country. I hope you will always use it for the good of the world. I hope, also, that England and the United States will be always the best of friends for the good of the world."

The visitor, who was accompanied by Ambassador Bryce, had been assured that his visit to the Press Club would be informal, but he was received with an uproarious welcome, and, seeing some members smoking, turned to the nearest.

"I am glad to see that this really is

To lighten housework Use Old Dutch Cleanser

Its rapid action enables you to accomplish more work in less time and with less effort than otherwise possible. It cleans mechanically—no harmful chemicals—and will not scratch or injure the surface. Keeps cooking utensils, floors, wood-work, metal work, windows and everything about the house, barn or dairy clean and spotless. It has a germicidal action and kills all germs which soap, sponges and other cleansers will not effect.

THE TRAGEDY of Infantile Paralysis

Doctors are helpless; and drugs and medicines are useless in the treatment and cure of this saddening ailment that steals upon a child, paralyzes the limbs, and leaves it a helpless cripple.

With an OXYPATHOR in your home ready for instant use, day or night, you can arrest the disease and prevent paralysis. Continued a few days longer, the OXYPATHOR treatment brings the child safely through the trouble.

If the trouble has become chronic (the limbs having been paralyzed for a period of time) the OXYPATHOR is just as effective, but a longer time will be required to effect a complete cure.

Infantile Paralysis in its acute form is a malady that attacks the spinal marrow and affects the brain. If the fever is not promptly checked and the disease controlled, sudden and complete paralysis of various muscles takes place, causing

Deformity follows because the circulation through the affected part or parts has been partially shut off, and these shriveled parts do not get a sufficiency of vitalizing blood to nourish them.

In the midst of medical indifference and uncertainty that exists today it is a source of comfort and mental relief to the ever-anxious mother to know that she has in the OXYPATHOR a drugless, safe, reliable cure for Infantile Paralysis.

No fever can resist the curative action of the OXYPATHOR. It is its complete and supreme master!

Take for example a little child in the first stage of Infantile Paralysis with a very high fever. The child vomits, is sick at the stomach. Malnutrition is the cause—gas the result. Swiftly this gas filter into the system. It finds its way into the circulation, where it is transformed into acid. The child's extremities become cold—no circulation—while inwardly it is burning with fever. The blood lacks the oxygen it needs at this time to combat and overcome the poisons in the child's circulation, and the high fever is Nature's call for more oxygen.

This call for more oxygen can be answered in but one safe and sure way. Apply an OXYPATHOR to the child, and usually in 20 or 30 minutes a most profuse perspiration will break out. The pores of the child's skin, which before seemed to be sealed, are now open and discharging great quantities of waste and poisons. The OXYPATHOR will keep up this sweating process until the blood is entirely purged of its poisons. Furthermore, the OXYPATHOR is always ready, day or night, for instant use—no fatal delays waiting for the doctor.

The OXYPATHOR makes you independent of doctors and drugs forever—it is Nature's way of healing, therefore the safest and surest way. The diseases that are successfully treated by the OXYPATHOR are almost unlimited in number and kind. They rank from the most simple to the most severe.

Give us an opportunity to prove to your satisfaction every statement we make. Your investigation places you under no obligations. We simply desire to acquaint you with the facts—your judgment and conscience will decide in favor of the OXYPATHOR.

HAMILTON PICTURES

Sunday World readers in Hamilton will be interested in a series of views taken by a staff photographer in that city.

We begin this week with a number of pictures of the Hamilton Fire Department, including the chief and assistant chief. One fine picture of Chief TenEyck going to a fire was taken at a camera speed of one 1300th part of a second. There is another of the high auto truck which was taken while it was going at full speed. Other pictures quite as interesting will be shown in future issues of The Sunday World.

Informal," he said. "May I ask for a cigar?"

His Modest Signature.

He chatted with the members for some time and then signed the guest book. He did not use his title but jotted down "Arthur, Governor-General of Canada."

The duke reached Washington at 4:15 and the concourse at the Union Station was well filled with spectators. Three White House automobiles were waiting and the visitor and the aides and embassy attaches were taken immediately to the embassy. From the embassy to the White House and back four troops of cavalry, 400 men in all, large number, formed an escort of honor. Thousands of people crowded around the White House grounds to watch the duke as he passed in, but he rode in a closed automobile and they were disappointed. A dozen extra policemen kept the crowd outside the gates.

AN ORGAN FOR 50c A WEEK.

Following stock-taking the old firm of Heintzman & Co., Ltd., 192-195-197 Yonge-street, are clearing some forty or fifty organs that have gone into stock, taken in exchange when selling their own pianos. These are being listed at from \$15 to \$45—a fraction of manufacturer's price—and may be bought on payments of 50c a week.

HAMILTON HAPPENINGS

FATE OF CHILMAN WILL BE MADE KNOWN TO-DAY

Outcome is Awaited With Keen Interest—Wentworth Attracted to H. D. Power.

HAMILTON, Jan. 25.—(Special).—The fate of J. D. Chilman, the convicted express robber, as far as his fate lies with Justice Teetzel, will be known tomorrow morning, when his lordship's decision on the motions made by Chilman's counsel, Geo. Lynch-Staunton, K.C., last Friday, on behalf of the prisoner, will be announced from the bench, according to notice given by his lordship this morning to C. W. Bell, junior counsel for Chilman.

Speculation as to Justice Teetzel's decision in the case is keen, and the consensus of opinion seems to be that a stated case will at least be granted, while some people are inclined to think that Chilman will be discharged from custody.

Where Sausages Were Made.

The inability of Food Inspector Shain to determine to his satisfaction whether the sausage manufactured by one Paul Rupewick, 391 Sherman-ave., North, was the regulation chopped hog, the proverbial minced dog, or a modified form of chicken ricecraese in its initial stage, led him to have the sausage maker hauled before the magistrate this morning. There the inspector unfolded a tale of the conditions under which the product was prepared for human consumption. The cellar under Rupewick's butcher-shop was the place in which the sausage mill ground out its delectable product, and, according to the inspector, the room also served as a kindly shelter for a large flock of chickens, which strutted and gambled unrestrainedly over the choice bits of inanimate flesh destined for the sausage hopper, and in and over the said hopper as well. The inspector expressed a large-sized doubt as to the wholesomeness of the conditions surrounding the sausage making. Magistrate Jelfs concided in this view, and gave Rupewick 14 hours in which to clean up his premises.

Wentworth for Hydro.

Another evidence of the increasing popularity of the Beck power policy of the provincial government was afforded this morning by the action of the Wentworth County Council, which is in session here. The question of a county power scheme was discussed for several months by the farmers of the county, but no official action was taken until this morning, when a resolution was passed by the council that particulars of the operation of the government's public power scheme, an-

estimates for a plan for Wentworth County be obtained from the hydro-electric power commission. The motion was moved and seconded respectively by Reeve George Kendrick of Ancaster, both of whom are Liberals in politics. The motion, which passed unanimously, reads as follows:

"That this council have a hydro-electric engineer advise us at this session as to the possibility of a general scheme for light and power for the county."

Cooper Declines.

Altho he had not been officially notified of his appointment, Ex-Controller W. H. Cooper last night notified Wm. Armstrong, chairman of the Hamilton License Commission, that he could not accept the appointment on the commission as to the possibility of a general scheme for light and power for the county. Mr. Cooper's resignation was taken on account of the fact he was leaving the city then on an extended trip thru the States and to the Panama Canal, and will be absent from the city when the official notice reaches Hamilton. His declining a position on the license commission is generally construed as an indication that he will re-enter municipal politics next year, probably as a candidate for the board of control.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Hanrahan, proprietor. Phone 1465.

The representative of Authors & Cox of Toronto, makers of artificial limbs, trusses, deformity appliances and supports.

THE BRAIN
is the Power House of the Whole Organism

Is your brain overtaxed? Are you suffering from brain fog? If so, your whole system is affected by any and all forms of mental depression.

WILSON'S INVALIDS' PORT

(A la Quina du Pérou)

owing to its extraordinary blood-forming and blood-enriching qualities, supplies the necessary blood to the human organism—and one-fifth of the blood used by the whole body is consumed in the brain. It will not only restore your brain to normal condition but give you health, strength and vitality.

Dr. J. M. ROGERS, Ingersoll, Ont., says:

"I found 'Wilson's Invalids' Port' not only a pleasant wine to take, but a good blood builder as well. I now make it a practice when prescribing port, to specify 'Wilson's Invalids' Port' and I am satisfied that my patients will get the results for which I am looking. So far as I know there is no other wine on the market at the present time that is its equal."

BERLIN MAN'S BIG ESTATE

Frederick Snyder Leaves \$228,000—County Council Meets.

BERLIN, Ont., Jan. 24.—(Special).—The will of the late Frederick Snyder, who died on last Christmas Day, has been filed for probate. It disposes of an estate of \$228,000.

The county council at its session to-day made a grant of \$250 to the Waterloo board of agriculture, to assist the society in its educational work among the farmers of the county. The equalization committee this year will consist of nine members, composed of J. P. Jaffray, Galt; J. G. Heerst, Waterloo; W. D. Euler, Berlin; Wm. Shaw, Pelee; Alex. Robertson, Watley; and L. E. Peine, New Hamburg.

Mr. C. W. Schiedel of Waterloo was appointed to confer with the committee of the council of the Town of Berlin re separation from the county.

Messrs. Alex. Buchanan, Galt, and H. J. Bowman of Berlin, were appointed to the county board of audit. Debentures to the amount of \$12,000 were in four blocks were sold to Henry Gemmill and others of Ayr.

Alex. Arden of Cobalt was appointed to the Berlin police force, vice P. C. Wilson, who has resigned to take up a position on the Sudbury force.

EATON'S DAILY STORE NEWS

Customers' Deposit Account Office Now on the Fourth Floor.

High Class American Chesterfields, Button Through and Ulster Overcoats, Saturday \$10.00

A ten dollar bill takes coats worth in some cases two and a half times as much. This tremendous low pricing is made in pursuance of our business policy of clearing all goods in the season for which they were purchased...

Beautifully tailored and finished overcoats in snappy, distinctive patterns, but only one, two or three of a kind in smart models, including the popular single-breasted styles, with self-collared and buttoned through; the ever fashionable Chesterfield, and the double-breasted Ulster with storm convertible collar...

Men's English Worsteds Suits, Saturday \$8.90

This is a hummer for early Saturday morning. A special purchase at our own price, it was certainly too good to let pass. Men's nicely tailored single-breasted suits, in a fine range of choice patterns in English worsteds, in shades of grey, olive and brown.

Men's Trousers Price Reduced to \$2.25

A leading offer for early morning business Saturday, is this line of men's trousers in heavy winter-weight worsteds in mostly neat

stripe patterns. Perfectly cut and well tailored with trimmings of best quality. Semi-Annual Sale price 2.25

Men's Navy Serge Suits, \$12.50

The famous "Eatonia" Serge, a beautiful rich, soft fabric, perfectly fast in color and thoroughly shrunken and sponged.

Suits made in our own workrooms from the famous "Eatonia" Serge, in single-breasted, three-button sack model, with fine serge linings; sizes 36 to 44. The special price 12.50

Prices in Boys' Clothing Remarkably Low For Saturday—Boys' Bloomer Suits, \$2.95

Plain Double-Breasted Suit, belt at waist; made in a dark brown imported tweed, Italian cloth linings, bloomer pants lined, a very strong and serviceable suit; sizes 24 to 28. Semi-Annual Sale price 2.95

Boys' College Ulsters, \$3.50

A grey diagonal pattern in an imported ulster fabric, made in double-breasted college style, with convertible collar, deep centre vent and wind straps on sleeves, warm and serviceable body linings; sizes 24 to 28. Semi-Annual Sale price 3.50

Boys' Bloomer Suits \$3.95, double-breasted style, with belt at waist; in a dressy dark brown English tweed, nicely lined with Italian cloth. Bloomer trousers with straps and buckles at knee; sizes 29 to 33. Semi-Annual Sale price 3.95

—Main Floor—Queen St.

Saturday Semi-Annual Sale Specials in the Men's Fur Section

You'll Have to Come Early for This One—Men's Fur-Lined Coats, \$25.00

Demonstrating the unusual pricing in order to clear our stock of men's furs, larger than ordinarily, due to the tardy arrival of real winter weather—is this offer of men's fur-lined coats at \$25.00.

It is an English beaver cloth lined with fully furred natural muskrat skins. Collars are otter. Special price Saturday 25.00

Men's Raccoon Coats, \$75.00

For such a high-grade coat this price is remarkably low; it is made of heavily furred raccoon skins, nicely marked and well matched, with large rolling storm collar and lined with quilted Italian cloth. Special value 75.00

Baby Carriage Robes, in pocket styles; made of creamy white lambskin, felt lined. Clearing price 1.45

Men's Adjustable Fur Collars, ready to button on overcoat, and made of a nice, glossy Persian lam. Lined with quilted black satin. Special sale price 4.95

Men's and Boys' Winter Caps 50c—Stylish tweed caps in assorted patterns and heavy Melton cloth, in the golf and Brighton shapes and fitted with inside turn bands, fur-lined. Special price .50

A New Arrival in Men's Hats

Never perhaps in the history of the hat trade has a more dressy, serviceable or comfortable hat been put on the market for winter wear, than the scratch or shag soft hat for men.

It not only fits in admirably with the rough effects in the fashionable ulsters of to-day, but fits snugly and comfortably on the head and will stand a great deal of wear.

We feature a new line in this hat for Saturday; it is a pure fur-felt in scratch finish, with silk bands and real leather sweats and may be had in dark grey or brown; worn in fedora or telescope shape. Special price 1.50

—Main Floor—Queen St.

A Factory Surplus Stock of Men's Shirts to Clear Saturday, 69c

This is an event you can't well afford to miss, they are the overstock of a large factory which was specially purchased for this Saturday's clearance. They are full size, have small attached cuffs and neatly laundered neckbands; the quality is good and the patterns excellent, mostly stripe and small figure design; sizes 14 to 17 1/2. There are lots in every pattern and size, but we hint for early selection as the best. Special Saturday 69c

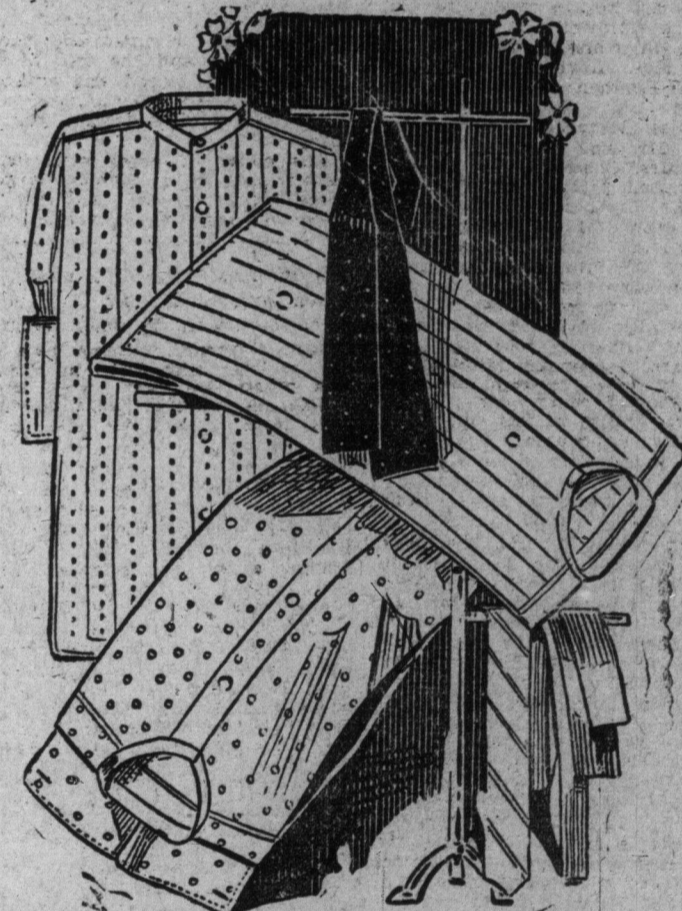

Men's Neckties, knitted four-in-hand, with extra thin neckbands, in plain shades, cross-bar and bias stripes and two tone effects. Colors include red, grey, blue, brown, wine shades and purple. Price .25

Men's Mufflers, silk oblong neck wraps, in plain shades or with neat self color figure; colors grey, blue, black and red. Saturday special price, each .79

Men's Underwear, one of our most popular lines, of wool underwear, in dark, natural shade, and with double back and front; beige facings and close-fitting cuffs and ankles, unshrinkable; sizes 34 to 46, shirts or drawers. Price, per garment 1.00

Men's Sweater Coats, six-ply wool coats in plain weave and with high storm collars fastening close to neck, by three small buttons and loops, best quality white pearl buttons, two pockets and close fitting heavy cuffs, plain grey, or with cardinal or blue trimmings; sizes 38, 40 and 42. Price, each 3.50

THE T. EATON CO. LIMITED

NEW SCHOOL FOR EAST ENLARGE KEW BEACH

District Has Outgrown Accommodation—More Inspectors Needed—Raised Teachers' Salaries.

Kew Beach district has outgrown the capacity of Kippendavie School. Chief Inspector Hughes said not only was this the case, but more action should be taken in the direction of securing a site for another large school in the district, which became necessary on the approaching dividing up of Woodbine race course for building lots.

Chairman Hiltz and the Inspector were appointed a sub-committee to report.

Trustees Shaw and Hiltz were re-appointed a sub-committee on a superannuation plan, reporting that Harbord Collegiate required 32 uniforms for a second cadet corps, he was instructed to report on the cadet requirements of all the colleges.

Miss O'Brien was appointed to Pynes School. An item of \$123 was recommended as an estimate for 48 large dictionaries and 450 small ones.

Trustee Levee's motion that all principals' assistants be paid \$50 more salary than the general schedule was adopted. Trustee Levee said he was "no suffragette" but moved that women teachers, who teach fourth book classes be paid \$50 more than the schedule.

Eight additional school nurses at a salary of \$800 were recommended. This will provide for a daily inspection. Teachers taking extended sick leave

of absence, will hereafter be required to secure a certificate of health from our chief medical inspector.

The committee was notified by the minister of education that it was necessary for the board to appoint immediately two additional inspectors, there being 385 teachers.

The appointment of two inspectors was referred to a committee composed of Trustees Hiltz, McKay and Conboy to report at the next meeting.

Joseph White Rogers was, on motion of Dr. Conboy, nominated for the fifth inspector. Trustees Lewis said Prins, Armstrong of Huron, and Ward of Church-st. were excellent men for subsequent appointments.

HYDRO FOR BRANTFORD.

BRANTFORD, Jan. 25.—(Special.)—As a result of a conference with Engineer Sothman and the citizens' committee, the city council will ask that estimates be prepared for the submission of a hydro-electric bylaw in this city.

Mr. Sothman advised that Brantford apply for 2000 horsepower, and gave an estimate that \$75,000 would be required. Estimates will be submitted to the city within a month.

BLACK HAND AT COBALT.

COBALT, Jan. 25.—(Can. Press.)—Manager A. J. Goodall, of the Imperial Bank, received a letter signed "James Brutal, secretary Black Hand, Cobalt," demanding \$2000 to be sent to a post-office address in town. The penalty for refusal would be the blowing up of the bank. A decoy letter was sent, and the police have arrested a Finlander who keeps a boarding house.

It is said that "Black Hand" has a strong following in this section.

A PIANO AT 75c A WEEK.

Music in the home is easily attained when one can buy a good square piano, guaranteed in first-class condition, for a sum ranging from \$50 to \$150, and in payments of 75c a week. This is the offer that the old firm of Helmstetter & Co., Ltd., 193-197 Yonge-street, are making at the present time, taking a surplus stock of square pianos, taken in exchange when selling their own.

Against Transferring License.

Opposition is being organized by the Riverdale ministers to the transfer of a west end liquor shop license to 896 East Queen-st.

May Not Sue Rev. C. O. Johnston.

Barrister O'Sullivan says that the controversy in relation to the Jesuits has been changed by Rev. C. O. Johnston saying he "believes" what he read was the Jesuit oath. "We can't control what he believes."

Sea-Serpent in St. Lawrence.

QUEBEC, Jan. 25.—Another man claims to have seen the "figa serpent." This time the witness is a reliable official of the marine department, Mr. Fafard, lighthouse keeper at Pointe Des Monts, in the Gulf of St. Lawrence.

Mr. Fafard informed his superiors that he saw a "sea serpent" twice this winter. The monster was a hundred feet long.

COUNSEL RUEL CANDID.

OTTAWA, Jan. 25.—"A member of parliament often goes to Sir William Mackenzie and asks for a line of railway thru his constituency," said Gerald Ruel, counsel for the Canadian Northern to-day in discussion in the railway committee of a western bill, his law department, and asks: "Have 'Sir William' he added, 'comes to me a charter there? If we have not, he asks 'Well, why in heaven's name do we try and get them?'"

This was cited as a reason for passing a C.N.R. bill in Manitoba, where the members and people are pressing for a line. The bill passed.

The Barcelona Traction, Light and Power bill, a proposal of Dr. W. F. Pearson, and associates in Toronto, want to operate in Spain, and seek to supplement the power the company has under the Companies' Act.

Change in Toronto-Montreal-Ottawa Service.

The Canadian Pacific Railway desires to notify the traveling public that train No. 24, which at present is leaving North Parkdale at 9.15 p. m., West Toronto at 9.30 p. m., will on and after Sunday, January 28, leave Parkdale at 9 p. m. and West Toronto at 9.20 p. m. There will be no change in time of leaving North Toronto.

University Saturday Lecture.

The university Saturday afternoon lecture will be delivered to-morrow by Dr. Edward Soper, ethnologist, geological survey of Canada, on "A Study of the Natives of Canada." The lecture will be in the physics building, at 3 p. m., and will be illustrated.

DR. A. W. CHASE'S 25c. GATARRH POWDER

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanent relief. Catarrh of the Throat, Hoarseness, Croup, Whooping Cough, Hay Fever, etc. A box, 25c. Blower free. Accept no substitutes. All dealers or Edmondson, Bates & Co., Limited, Toronto.

INDEPENDENT ELEVATOR COMMISSION.

BRANDON, Man., Jan. 25.—(Can. Press.)—Representatives of the Saskatchewan Grain Growers' Association and the United Farmers of Alberta presented fraternal greetings this morning to the Manitoba Grain Growers' Association.

Most of the session was taken up with an address by William McQuinn, former president of the association, and now chairman of the government elevator commission, who defended its work, pointing out that initial difficulties were now in fair way to be overcome and defects would disappear.

A resolution was then moved as follows: "After hearing Mr. McQuinn's enquiry address, this convention is more than ever convinced that the present elevator commission should be placed in an absolutely independent position."

After some opposition had developed the resolution was withdrawn and referred to the committee on resolutions. R. C. Henders will probably be elected president, with J. S. Woods, vice-president.

REVOLUTIONARIES MURDERED.

MUKDEN, Manchuria, Jan. 25.—A series of assassinations of revolutionaries occurred here on Tuesday. Chang-Yang, one of the rebel leaders, was murdered on that day, and simultaneously a mob of assassins attacked his residence, where they killed his brother and his secretary.

M.P.'S RESENT CRITICISM.

OTTAWA, Jan. 25.—(Can. Press.)—Some of the criticism of the Toronto press on the vote on the temperance question is not taken with very good grace by some of the members on both sides of the commons.

It is quite probable that this phase of the matter will be taken up on the floor of parliament on the ground that there has been misrepresentation in some of the statements.

THREE YEARS IN KINGSTON HOLD-UP MEN SENTENCED.

Charles Dismore and James Thompson, who held up an Italian at Wellington and York-street at 3 o'clock in the morning and were captured by the police after a chase of many blocks and after several shots had been fired, were sent to Kingston Penitentiary from police court yesterday morning for three years. Each had former convictions.

Ten Months for Stealing Parcels.

Charles Quackenbush, well-known to the police, was sent to the Central Prison for ten months from police court yesterday morning for theft of parcels from a Dominion Express Co. wagon at the Union Station. He is the man while serving a term of seven years in Kingston, made a sensational escape, but being recaptured, had six months added to his time.

Calm After Storm.

ROME, Jan. 25.—The Franco-Italian incident, brought about by the seizure of Turkish doctors and nurses from the French steamer Manouth by Italian warships, is practically closed. The only question now being discussed is that of finding a method by which the Turkish prisoners can be released or delivered to the French authorities.

Scotchmen at Hockey Torontos 5 Tecumsehs 3

Note and Comment

The Scotch curlers were in a happy mood when they arrived on the ice at 8 o'clock yesterday afternoon at Queen City. They were immensely pleased with the civic banquet, the night before and especially delighted over their visit and luncheon at Eaton's.

As Col. Robertson-Alkman says, the result of the games is a secondary consideration. The men are having splendid time and every fresh game you see they are decidedly the more you like them.

The Scotchmen are the more you like them. They are decidedly the more you like them. They are decidedly the more you like them.

This is Lakeview's day with the distinguished curlers from Scotland. There is a four sheet rink and consequently the game is shorter than the regular one.

As Col. Robertson-Alkman says, the result of the games is a secondary consideration. The men are having splendid time and every fresh game you see they are decidedly the more you like them.

The Scotchmen are the more you like them. They are decidedly the more you like them. They are decidedly the more you like them.

SCOTCH CURLERS PLAY CLOSE GAMES AT Q. C.

Down 14 Shots to Ontario Rinks in Afternoon and 26 Behind Queen City at Night.

The Scotchmen won three of the six games with outside clubs yesterday afternoon at Queen City, defeating Cobourg, Oshawa and Collingwood, and losing to Scarborough Maple Leafs, Richmond Hill and Barrie Thistles. They were behind on the aggregate 14 shots, due chiefly to W. A. Boyd's big margin over Col. Alkman, the visiting captain having the misfortune to break one of his rocks early in the game.

A. C. Riddell, the Glasgow skip, champion of Switzerland, scored a seven-end in the first game, but was out of luck in the second. J. Y. Keane, who plays from the cramp, beat Cobourg 2 to 11. Alex. Douma was one up on the last stone.

The game was finished at 8:30, when the players were entertained by the Queen City Club. Col. Beattie was at the head of the table and the speeches were necessarily short, as the night was with the six Queen City rinks was scheduled to start at 8 o'clock.

The visitors also had success against Queen City. J. Y. Keane beat Rev. Dr. Curran, one of Toronto's cleverest skips. He did it by a lay raise the last stone.

R. Allan won from J. C. Scott and J. McLeod scored a tie. Col. Rennie, R. B. Cohan and H. A. Haisley were the Queen City winners. Queen City was up all night and the Scotchmen were usually large, especially in the evening. The papers amused the throng before both games. The scores:

Table with 2 columns: Team, Score. Includes Scarborough M. L., Cobourg, Oshawa, Collingwood, Scarborough Maple Leafs, Richmond Hill, Barrie Thistles.

Secretary's Evening Game. The Scotchmen were in a happy mood when they arrived on the ice at 8 o'clock yesterday afternoon at Queen City.

Two famous Yankee trainers of race horses will return to Europe this week to renew their training.

Scotch Curlers Inspect Eaton's And Are Amazed

The visiting Scotch curlers were shown thru Eaton's yesterday morning. Leaving the King Edward Hotel at 11 o'clock, the motor cars provided by Mr. Eaton's drivers from across the sea were driven to the factory in connection with the big establishment.

Commencing their tour of inspection on the twelfth floor, where the laundry was in full blast, the Scotchmen journeyed from floor to floor simply amazed at the order of the concern.

From the manufacture of ladies' wear and men's clothing to harness making, fur goods, etc., down to the bookbinding and printing plant on the ground floor, the managers of the various departments were stumped with questions and enquiries—demonstrating the intense interest in the "knights of the broom" from old Scotland.

Leaving the factory the curlers were taken to the parcel chutes. Here they were amused when a package of eggs sent from the fifth floor to the basement landed in the Scotchmen's hands.

Everything is done with Canadian thoroughness in this instance, says Tom Bennett, and you can bank on it that's the best in the world.

From the basement to the fifth floor eager eyes followed the sturdy Scotchmen as they inspected the various departments. They had all the time the Scotchmen were stumped with questions and enquiries—demonstrating the intense interest in the "knights of the broom" from old Scotland.

The lunch, which was served in true Eaton style, was presided over by W. V. Eccleston, who extended further words of welcome to the Scotchmen. They were then taken to the dining room, where they were treated to a most excellent lunch.

Among the party who accompanied the Scotchmen were Col. Rennie, ex-Mayor Jos. Oliver, George Anderson, E. T. Macdonald, T. Rennie, R. J. Kearns and A. G. Gibbard.

To Investigate the Cost of Living. The proposition for an international commission to investigate the high cost of living commends itself to sober common sense. The problem in question is of vital importance. It is also worldwide.

It has been discussed, the high cost of living commends itself to sober common sense. The problem in question is of vital importance. It is also worldwide.

As Professor Fisher, with whom the proposition for an international commission to investigate the high cost of living commends itself to sober common sense. The problem in question is of vital importance. It is also worldwide.

The trouble is apparently that we have been studying a world-wide problem from a merely local viewpoint. So far as the European countries, in fact, all researchers reach a conclusion that we have lacked the proper perspective.

It is true, of course, that there are conditions peculiar to each individual nation which bear upon the question and nowhere else. Wages vary, on different sides of the boundary line. Marked differences in economic systems have different relations to the cost of both production and distribution. These are the factors which bear upon the question.

It is true, of course, that there are conditions peculiar to each individual nation which bear upon the question and nowhere else. Wages vary, on different sides of the boundary line. Marked differences in economic systems have different relations to the cost of both production and distribution. These are the factors which bear upon the question.

TECUMSEHS BEATEN BY THE TORONTOS

Lacrosse Players Meet in Hockey Game and Blue and White Do the Most Scoring.

The pro. hockey players had their turn last night at the Excelsior rink, when the Toronto Lacrosse Club defeated the Tecumsehs 5 to 3. The game was played in three periods, just like a regular game and the score at the end of the different periods was as follows: First, 3 to 2 in favor of Toronto; second, 5 to 2 in favor of Toronto; no scoring in last.

From a hockey standpoint the game was not a good exhibition, as the players lacked condition and only about four on each side were in the game. The players played six men a side and they looked a crowd as they continually bunched in the centre of the rink, thereby getting into one another's road.

As an interesting spectacle to watch it certainly was great and it is doubtful if those in attendance ever enjoyed themselves better. The players slipped, hooked and did everything known in the game to get past the man who was constantly bunched in the centre of the rink, thereby getting into one another's road.

McGregor was much the best man on the ice. He was constantly bunched in the centre of the rink, thereby getting into one another's road. He was constantly bunched in the centre of the rink, thereby getting into one another's road.

FRIDAY MORNING, JAN. 26, 1912

BENEFITS OF MUNICIPAL ENTERPRISES.

Opponents of municipal ownership and operation of public services are prone to affirm that they are conducted with less regard to popular needs than those under private management. This assertion is not borne out by British experience and is not believed by the people in the United States and Canada, who suffer from that principle of private company operation which regards first to the necessity of profit earning. Now that the imperial parliament is about to resume, many applications by cities and towns have been entered for power to make extensions and improvements in street railway systems. Among them is Sheffield, which contemplates an expenditure of over \$1,000,000 for extensions and over \$200,000 for the purpose of trying out the trackless electric car for suburban service. Belfast is anxious to proceed immediately with important street railway extensions in the city and suburbs at a total cost of \$750,000, while the stock of cars is also to be largely increased.

A further proof of the enterprise shown by municipal managers is afforded by the result of the street railway parcel delivery service, established some years ago by the Manchester City Council. During last Christmas week no less than 37,081 parcels were carried, a figure well above the previous record. When the experiment was started the department organized a system of collection and delivery by horses and vans, but in 1906, after a lawsuit, the council had to change its methods and the traffic fell away. Since 1906, however, the service has more than made up the lost ground, and from \$125 in 1907 the net profits have risen to \$12,420 in 1911. Shoppers have merely to give directions for the sending of purchases by car and the shops with the street railway department do the rest. Every car conductor is authorized to take a parcel from anybody who hands it to him, and gives a receipt in the form of a counterfoil of the ticket which he pastes on the parcel. For four cents a parcel up to seven pounds weight is delivered at its destination by messengers from the district depots and only another two cents is needed for double that weight.

UNIQUE AESTHETIC STANDARDS.

Those who are aware of The Telegram's musical limitations in the matter of "O Canada," will not place much weight on its artistic views in describing the floor-street viaduct as "a monstrosity," especially after the professional endorsement given by Mr. Tennox. The Telegram's standards of beauty are not to be modified by outsiders like Dr. Vogt or E. J. Lennox.

MARRIED WOMEN AS CITY COUNCILORS.

Mrs. Hume Ponsent, who sits in the Birmingham City Council, was the first married woman in England elected to that office. She was qualified to stand for election by the decision in October, 1909, of the revising barrister, which enabled the overseers to place duly qualified married women on the "burgers" roll without further question. It is held that as none but electors are eligible to county and town councils, the enabling act of 1907 must have been intended to remove the electoral disability previously attaching to married women. All revising barristers have not taken the same view, but there can be no doubt the precedent now set by Birmingham will be generally followed before long.

TAXING BATHS.

Some people have been laughing at Montreal for taxing the baths in the houses there. If Toronto people are laughing they are laughing at themselves. If you own a house without a bathroom and proceed to put in one, the assessor, as soon as he hears of it, will increase your assessment by the increase in value of your property arising from the new bath, and you will pay the bathroom tax accordingly. If you put on a new porch, or build a summer kitchen, the assessor will tax you for improving your property to that extent. If you have a dark, unhealthy house and you decide to put in a bay window and get plenty of light and air, as the medical health officer says you should, the assessor will tax you for doing it. If he hears of you making any improvement or doing anything to raise the standard of living in your neighborhood, even by a coat of paint on the front of the house, he will

Our "Viator" Caps

CHEAP RURAL PHONES.

It is quite evident from the report of the workings of the Municipal Telephone Act, as set forth by the hydro-electric commission in a pamphlet, describing the operations in the Township of Rochester, Essex County, that there is room in the province for a very great expansion in the adoption of its provisions. In Rochester, after two years' operation, 185 subscribers paid off one-fifth of the debenture indebtedness, and in seven years they hope to own the system free of debt. Therefore, at the end of seven years a charge of \$1 a year will cover all the cost of operation and maintain the system.

There are now fifteen municipal telephone systems in operation, the largest being at Brussels, with 600 connections. Rochester has 225 at present. When the Rochester people started their system they found they had no authority to issue telephone debentures when they wished to raise \$3000 to install their system. The power to issue debentures was given in 1908.

At a gross annual cost of about \$7, and the prospect of a future charge of only \$1, the farmers in Essex County have a service which would otherwise cost them \$20 a year or more. It is highly desirable that residents in rural communities throughout Ontario should understand their opportunities under the act, and the advantages presented as compared with either a private company or the Bell monopoly. The private companies have in many instances been opposed to the municipal systems, and members of such companies elected to municipal boards have already influenced the boards. A desirable investment in a private telephone company which there is discrimination to disturb, or the privilege of a free phone sometimes prevails over the common interest. But when phones are in sight at a dollar a year, there should be no possibility of any personal interest on the part of a councilman standing in the way of so great and cheap a convenience.

The pamphlet includes a full statement of the workings of the act and the text of the act itself. It can be had on application to the hydro-electric commission. With the prospect in view of the Ontario Government taking over the long-distance trunk lines, a decided impetus ought to be given to the establishment of municipal telephone systems. To the farmer, as well as to others, the phone is no longer a luxury, but a necessity.

BOARD OF TRADE INAUGURAL.

Toronto has reason to be proud of such an address as that made by Mr. G. T. Somers, inaugurating his presidency of the board of trade. It showed him to be thoroughly conversant with the situation in Ontario and in sympathy with those progressive policies that seek to secure public advantage. Not the least satisfactory among the signs of the times is the willingness to recognize that in the long run what makes for the benefit of all the people is the surest basis of individual success and that the diffusion of wealth, if it results in fewer multi-millionaires, means larger average prosperity. The future will be with those provinces that protect their natural resources and public services from exploitation for private profit. Mr. Somers referred to the vast water powers that would be rendered available by the enlargement of the Welland and the St. Lawrence canals. These, he truly said, might well become important sources of revenue to the government and of profit to the people of Canada. These results can only be obtained by the exercise of public control in the general interest. Canada in this matter is at the parting of the ways, and it is satisfactory that the people are now appreciating as never before the need for a genuinely public policy.

In the latter part of his admirable address Mr. Somers touched upon various of the civic questions now before the citizens. Here again he revealed himself in accord with the new ideas that are finding response all over the North American continent. His appeal for the accomplishment of many needed civic improvements and for judicious planning in advance is opportune, and not less his call for a livelier civic spirit on the part of the board of trade, and under so progressive a president the citizens may confidently anticipate that it will take its proper share in the upbuilding of Toronto.

The papers say, "God Save the King" was to be played at the White House.

At Osgoode Hall

ANNOUNCEMENTS.

Jan. 25, 1912. Judges' chambers will be held on Friday, 26th inst., at 11 a.m.

Master's Chambers.

Before Cartwright, K.C., Master. Ross v. City of Toronto—Bell (vs. Johnston). Motion by defendant for an order for the medical examination of plaintiff. Order made. Costs in the cause. Scully v. Madigan—McNaught (Ritchie & Co.) for defendant; J. F. Bolland for plaintiff. Motion by defendant for an order striking out paragraph 8 of statement of claim and clause 6 of prayer for relief. Order made with costs to defendants at any event. Time for delivery of defence to run from delivery of amended statement of claim. Metropolitan Bank v. Chambers—Wormwith (Thomson & Co.) for plaintiffs; C. M. Garvey for defendant. Motion by plaintiffs for judgment under C. E. 263. Motion on behalf of defendant v. C. E. R. Co.—A. MacMurphy, K.C., for defendant; J. H. G. G. for plaintiff. Motion by defendant for an order for particulars of statement of claim. A writ of habeas corpus granted under 26th inst. Stay of proceedings meantime.

Judges' Chambers.

Before Clute, J. Stavert v. Campbell—F. Arnold, K.C., and F. McCarthy for defendant; K. C. for plaintiff. Motion by defendant for an order setting aside a writ of fieri facias, security having been given for an appeal to the privy council and defendant contending that thereby execution in original cause is stayed. Judgment: I do not think the giving of the required security for appeal to the privy council an order setting aside the execution in the court below. Motion dismissed with costs. Ontario and Western Co-operative Fruit Co. v. C. E. R. Co.—Ontario and Western Co-operative Fruit Co. v. C. E. R. Co., for plaintiffs; A. MacMurphy, K.C., for defendant; C. P. R. Co., for defendant. Motion by plaintiffs from an order of the master in chambers of Jan. 10, inst., made on defendant's application for further examination of McCallum and Griffin, and refusing plaintiff's application for a commission. Judgment: In the present case the information asked is relevant and reasonable. The damages claimed are by reason of the loss to the plaintiff in having to sell the fruit at a less price than the fruit had in fact been sold for and rejected. To whom was it sold, and why was it rejected, and by whom? The defendant is required to furnish the basis of the plaintiff's claim, ought to be within the knowledge of the plaintiffs or their agents, and the defendant has consented to this order of the master in chambers and within the recognized practice of the court. Appeal dismissed with costs.

Single Court.

Before Clute, J. Macrae v. S. S. Martin for plaintiff; J. F. Smellie (Gottawa) for defendant; O'Brien and Robinson; A. F. May for defendant, Charles Riordan. Motion by plaintiff for an order continuing injunction. Enlarged for one week by consent. Injunction continued meantime. Pullan v. Jones—E. J. Hearn, K.C., for plaintiff; S. C. Wood for defendant. Motion by plaintiff for judgment on further directions, and costs. Enlarged before the trial judge, the chief justice of the exchequer division. Hay v. Sutherland—Motion for an order continuing the registered order. No one appearing, case struck from the list. The Joseph Shattuck Estate—W. C. Brown (Tilsonburg) for executor; A. Sinclair (Tilsonburg) for S. and W. J. Shattuck and the executors of Elmer Shattuck; W. M. Douglas, K.C., for L. and E. M. Shattuck. Motion by executor of the estate of Joseph Shattuck, late of South Norwich, for an order constituting his will under C. R. 263. Judgment: I think in this case the gift of the testator to his five sons vested upon his death is not subject to Lincoln Shattuck during his lifetime under a vested interest which passed by his will to his executors. Costs of all parties out of estate. Quants v. Gowanda Mines Producer Co.—T. H. Lennox, K.C., for plaintiff.

WARM CRITICISM OF N.T.R. MANAGEMENT

Opposition Contents Dismissed Commissioners Should Be Remunerated.

OTTAWA, Jan. 25.—(Special.)—Quite a lively debate took place when the house was in committee on Hon. Frank Cochrane's Transcontinental Railway Bill, opposition members urging that the members of the commission, whose resignations had been demanded, should be allowed three months' salary as compensation. The minister said he would consider the matter. One of the commissioners had resigned unconditionally, one had asked three months and the other six months' holidays. Arthur Meighen (Fortage is Prairie) was opposed to compensation. If the offices had been abolished it was evidently because the commissioners had not been worth what the country was paying. Sir Wilfrid Laurier defended the late commissioners. They had done splendidly. J. H. Sinclair (Guyaboro) went further and even talked of their "care in the expenditure of money," a phrase which was greeted by government groans. Lawyer's Nest Profit. Mr. Meighen retorted by quoting some instances which had occurred before the public accounts committee the session before last. A leading Liberal lawyer of Winnipeg had charged a minimum fee for passing all Toronto titles for land purchased by the commission. Not only this, but he was allowed by the commissioners to divide up sections so as to multiply his fees. The total taxation did not reach one per cent of that which had been charged. Single fees were \$50 and \$40. The average was six times the usual charge. Sir Wilfrid Laurier defended the fees charged. Dr. Clark (Red Deer) thought Mr. Meighen was trying to base a wide-sweeping charge on trivial details. He recommended the government to write in the way of the minister of trade and commerce (Foster), to whom had been given the guidance of that infant footsteps in the pathway of cabinet duty. Even he, who looked into the "cheese-parings and candle-ends" of the department and thought it great that he should be asked to do justice to the annuities lectures. Richard Blain (Peel) said that the country would not think Laurier was being unfair to the commissioners if he continued as he had begun. The minister of railways and canals had rightly thought that \$7000 each, in salaries was not necessary at the present stage of construction of the railway. These Lumsden Charges. W. S. Middlebro (N. Grey) recalled the fact that the chief engineer of the Transcontinental Railway, had resigned because in one section alone \$2,700,000 had been paid out to contractors by over-classification of loose earth and rock as solid rock. When his successor went over the road he reported disclassification, and in section F. J. D. Tremblay had voluntarily reduced the amount he had claimed by \$380,000, "and his \$283,000." Mr. Middlebro continued, "the commissioners had approved of sending the consent of their own chief engineer, Mr. Lumsden. Now, in the face of this, have any men the right to come to us and say 'give us something to which we are not legally entitled?'" E. M. MacDonald (Pictou) defended the high character and integrity of the chief engineer, Lumsden. "What about Engineer Lumsden's reliability. Hon. Frank Cochrane promised Sir Wilfrid Laurier to bring down a return showing the number of miles constructed and when the road would be completed, before the third reading of the bill. The leader of the opposition agreed to this, but Hugh Guthrie (S. Wellington) thought this would not do, and he kept the bill from being passed. He appealed for delay. Echo Answers When? Rt. Hon. R. L. Borden said that it was not so long ago that the house had been furnished with the information asked for. The road was to have been finished in September last, and it would be hard to say when its completion would take place. There was something radically wrong about the construction of the National

WARM CRITICISM OF N.T.R. MANAGEMENT

Opposition Contents Dismissed Commissioners Should Be Remunerated.

OTTAWA, Jan. 25.—(Special.)—Quite a lively debate took place when the house was in committee on Hon. Frank Cochrane's Transcontinental Railway Bill, opposition members urging that the members of the commission, whose resignations had been demanded, should be allowed three months' salary as compensation. The minister said he would consider the matter. One of the commissioners had resigned unconditionally, one had asked three months and the other six months' holidays. Arthur Meighen (Fortage is Prairie) was opposed to compensation. If the offices had been abolished it was evidently because the commissioners had not been worth what the country was paying. Sir Wilfrid Laurier defended the late commissioners. They had done splendidly. J. H. Sinclair (Guyaboro) went further and even talked of their "care in the expenditure of money," a phrase which was greeted by government groans. Lawyer's Nest Profit. Mr. Meighen retorted by quoting some instances which had occurred before the public accounts committee the session before last. A leading Liberal lawyer of Winnipeg had charged a minimum fee for passing all Toronto titles for land purchased by the commission. Not only this, but he was allowed by the commissioners to divide up sections so as to multiply his fees. The total taxation did not reach one per cent of that which had been charged. Single fees were \$50 and \$40. The average was six times the usual charge. Sir Wilfrid Laurier defended the fees charged. Dr. Clark (Red Deer) thought Mr. Meighen was trying to base a wide-sweeping charge on trivial details. He recommended the government to write in the way of the minister of trade and commerce (Foster), to whom had been given the guidance of that infant footsteps in the pathway of cabinet duty. Even he, who looked into the "cheese-parings and candle-ends" of the department and thought it great that he should be asked to do justice to the annuities lectures. Richard Blain (Peel) said that the country would not think Laurier was being unfair to the commissioners if he continued as he had begun. Cigars smoked by the particular people are purchased from the King Edward Hotel cigar department. Mr. Frank Farish, who has been connected with the cigar department of the Waldorf-Astoria (New York), is now managing this department for the King Edward Hotel Company. Theatre tickets may be had for all theatres.

Duluth Superior Earnings. Duluth Superior Traction Co.'s earnings for January were \$58,918.40, an increase of \$1,800.00 over Jan., 1911, or 3.5 per cent.

THE WEATHER

OBSERVATORY, TORONTO, Jan. 25. (8 a.m.) - The weather has been fine and decidedly cold to-day in all districts from Manitoba to the maritime provinces, while farther west it has been quite mild.

Minimum and maximum temperatures: Victoria, 46-50; Kamloops, 32-34; Calgary, 28-32; Edmonton, 19-21; Moose Jaw, 14-15; Regina, 11-13; Winnipeg, 8 below-4; Fort Arthur, 18 below-4 below; Pelly Sound, 28 below-zero; London, 7-14; Toronto, 4 below-14; Ottawa, 14 below-zero; Quebec, 10 below-zero; St. John, 8 below-6; Halifax, 2 below-12.

Probabilities: Lower Lakes and Georgian Bay - Easterly winds; a little higher temperature, with some light snowfalls. Ottawa Valley and Upper St. Lawrence - Fair to-day, with stationary or a little higher temperature; light snowfalls by Saturday. Lower St. Lawrence and Gulf - Fair and continued cold. Maritime - Moderate winds, mostly west and northwest; fair and cold. Superior - Southeasterly to northeasterly winds; some light snowfalls, but partly fair; not quite so cold.

throwing their strength with either the right or left.

Basermann to the Fore. This morning the National Liberal, Ernst Basermann, a commanding figure in the next Reichstag. He will be able to swing avowed National Liberals who, under proper inducements, would probably be prepared to cooperate with the government on most questions. The hostility of other progressive groups to the so-called "bloke" apparently is too great for any working understanding, except on questions of national defence and the increase of the army and navy. The Socialists are the strongest individual party, bringing their total 25 to 110 by winning 11 of the 21 ballots in which they participated to-day. This is more than double their strength, which was 53 at the time of the dissolution, and 29 above their previous maximum in 1903.

Clericals Lose Ten. The Reichstag centre or clerical party is the strongest individual party, with 93 seats of their own, a falling off of 10, the result of widespread resentment at their share in the unpopular financial reform of 1909 and the prevalent high cost of living.

Having accomplished what the utmost efforts of Von Buelow and the government were unable to effect in 1907, the Poles return with 19 of 20 former mandates. They had hoped to play a big role and obtain important concessions for the Polish policy as an essential factor to the new government majority, but the extent of the opposition victory dashes their expectations.

Non-jury assize court to-day; Spence v. Moore, Clarkson v. Allan, Clarkson v. Allan and Allan, Clarkson v. Francis, Clarkson v. Francis and Allan.

ENGLISH TURNED DOWN 33 ITALIANS TAKEN ON

At the conclusion of last night's session of the investigation into the charges of discrimination of workmen on civic jobs, Vice-President Brown of the British Imperial Association, declared that his association had put in all the evidence it intended to. Commissioner Starr will continue the enquiry, but that none of the members of the British Imperial Association will be present unless specially requested.

McCoomb told a story of having been refused a position on the civic car line three days before thirty Italians were taken on. Others had similar tales to relate, while two or three tried to explain the calibre of the foremen by repeating some of the language which they used in directing the workmen.

The investigation will be resumed this evening at 7:30.

EMPIRE CLUB HEARTILY SYMPATHIZES WITH SIKHS. Resolution Favoring Removing of Entrance Bars Will Be Taken Up by Executive. Dr. Sunder Singh was the guest of honor at a dinner of the Empire Club held in the St. Charles last night. About 150 members were present and at the close of Dr. Sunder Singh's address there was little doubt but that practically everyone present favored the idea of taking active steps to see that the wives and daughters of Sikhs be permitted to come and reside with their husbands in Canada. Fred B. Fetherstonhaugh, president of the club, presided. A brief, but comprehensive survey of the origin of the Sikhs was given by Dr. Sunder Singh. The speaker referred to the fact that his race have always been loyal to the British crown and in the memorable Indian mutiny the Sikhs actually fought for England. They had been granted equal rights by Queen Victoria, like all British subjects and this equality was reaffirmed by King Edward.

EMPIRE CLUB HEARTILY SYMPATHIZES WITH SIKHS. Resolution Favoring Removing of Entrance Bars Will Be Taken Up by Executive. Dr. Sunder Singh was the guest of honor at a dinner of the Empire Club held in the St. Charles last night. About 150 members were present and at the close of Dr. Sunder Singh's address there was little doubt but that practically everyone present favored the idea of taking active steps to see that the wives and daughters of Sikhs be permitted to come and reside with their husbands in Canada. Fred B. Fetherstonhaugh, president of the club, presided. A brief, but comprehensive survey of the origin of the Sikhs was given by Dr. Sunder Singh. The speaker referred to the fact that his race have always been loyal to the British crown and in the memorable Indian mutiny the Sikhs actually fought for England. They had been granted equal rights by Queen Victoria, like all British subjects and this equality was reaffirmed by King Edward. But the laws in Canada happened to be so framed that the Sikhs could not get the equal rights of other British subjects. R. S. Neville asked the president if the people and explaining the situation in which the Sikhs were placed, than by passing resolutions. Consequently Mr. Neville gave his notice of motion, and it will be discussed by the executive at their meeting next week. The members of the Empire Club were afterwards entertained to an address with lantern views, by J. B. Tyrrell, on the early explorers of the main land of Canada. Cases Not Recognized. F. C. Stephenson wanted to know if the Sikhs did not propose to introduce a caste system into Canada. "I understand," said he, "that they don't want to mingle with Canadians or even accept a glass of water from a Canadian." Dr. Sunder Singh in reply repeated his former statement that there was no caste among the Sikhs. "They are the only people in India who don't recognize caste," he said. Some Imperial Rights. Fred B. Fetherstonhaugh, the president, also contended that the introduction of a resolution in the way Mr. Neville proposed to do, was unconstitutional. "But I feel very strongly on this matter, personally," he said. "I am entirely in favor of giving these splendid people who have done so much for India and for the empire, the same rights as other British subjects have." (Applause.) But he thought more good would be accomplished by going quietly among

T. & N. O. SURVEYOR GOES TO JAMES BAY, CANADY. Mr. Sidney C. Ellis, a government geologist and surveyor, has been commissioned by the T. and N. O. Railway commission to undertake a preliminary examination and gather data for a projected route to James Bay and country thereabouts. Mr. Ellis and his party will set out as soon as winter breaks up. He expects to present his report to the government next September, and upon the information submitted, will depend the ultimate extension of the line to James Bay. Suffers Mysterious Injuries. Mark Batoch, a Polish, 161 Bathurst-street, slipped and fell in the public lavatory at Queen-street and Spadina-avenue at 6:30 o'clock last night. He was hurried to Grace Hospital in the police ambulance. The doctors have been unable to decide just what are his injuries, which they believe to be the spine and regarded as serious.

RAILWAYS BLEEDING WEST MUST FIX UNIFORM RATES

Continued From Page 1.

There is no discrimination based on territory or locality. I do not know that any house could be better occupied than in trying to settle a principle which would give equality in railway rates to the people of the west, who are trying to settle that country under great difficulties. They are hampered by a severe climate and still more by excessive railway tariffs that tax them more than the people of the east.

Mr. Maclean: "I do not accept that doctrine. I say that the railways can be built for small sums in the west. First of all there is no right of way to pay for, and many of the railways have built cheap lines, which have been very profitable, so that they should really give lower rates. The railways in the west have monopolies of the express business, the telegraph business and they had the elevator business in their hands or in the hands of their friends.

They had also the cartage and storage business, all monopolies out of which they got large profits, and they had no reason, as far as I can see, for these higher charges in the west than in the east.

Discrimination Against West. "They have enormous lands in that western country, which are increasing in value. They own the town sites, they are all well off, they are all doing large business, and we, in this house, since those unfair discriminations to continue of charging higher rates to the people of the west than are charged in the east, although these companies were chartered, were franchised, were bonded with land and money and given everything they asked for on the condition that they would serve the nation at large.

"They are not serving the nation at large, but they are making an unfair discrimination against the people of the west, and I want parliament to declare that that discrimination shall not continue, but that equality should prevail.

"But if the discrimination is great in the west, what is it in the mountains and on the coast? While it may cost more money to build in the mountains, it was not so much to serve the people who live in the mountains as it was to serve the nation and get from ocean to ocean.

Concession in British Columbia. "Will the people of British Columbia be compelled to pay a higher rate for railway service for telegraph and passenger rates and for all the other services associated with railways? I repudiate that idea, and when the matter of railway charges was brought up some years ago in this house, and when I had something to do in bringing it up, after some trouble, we got a standard passenger rate extended to the boundary of British Columbia.

"And so we have come to the conclusion in this house in regard to one thing or the railway commission has come to the conclusion, that there must be equality in regard to the passenger rates from the east to the extreme western boundary of Alberta. The arrangement should have gone to the Pacific coast, and it must go to the Pacific coast if there is to be equality in this country. British Columbia is paying her share of all the cost of that railway in so far as the cost of all the railways is assessed upon the people; Alberta is paying her share, Saskatchewan is paying her share, and so are Manitoba and the northern portion of Ontario, on to the east, and if they have all had a hand in making these roads, and if the roads are national, why, more, if they are imperial, should there be an unfair apportionment of railway rates in various portions of the country for the reason that the good cost more in one section than in another?

Issue of Equality. "Now, I propose to state the opinion of the house on this question. I am not going to propose a vote of want of confidence, but, before I conclude my speech, I shall submit to the house that I shall declare for an equality of railway rates."

Arthur Meighen (Portage la Prairie) asked Mr. Maclean to discuss the argument that such a principle would retard the extension of railways in the west, because it costs more to operate them.

Mr. Maclean: "Then I will come to the question of operation. If it costs more to operate, inasmuch as the railway is giving a national service, they should not be this discrimination. It may cost more. Then, what do you do in the treasury, and you put all your receipts in your pocket, and you pay all the expenses, those of investment, those of building—then I will refer to the telegraph—and those other things before you spend your money, and you make an equitable distribution of railway charges.

Two Remedies. "We can improve the railway situation in two ways. We can improve it by discussing it in this house and reaching principles and introducing these principles in specific statutes in the Railway Act. Another and a better way, I think would probably be for parliament from time to time to declare its belief in and its adherence to a certain principle, and it would be easier for the railway commission to accord equality in this matter if parliament expressed its opinion that the equality of rates should prevail all over the country."

In answer to the request of W. Wright (Muskegon) for concrete instances, Mr. Maclean declared that he would leave that to the western members. The Manitoba Free Press, the Winnipeg, British Columbia and other boards had given him all the showing wide diversities in eastern and western tolls.

Government Favors. Many of the United States operated in only one state, but in Canada all the railways had been bonded with cash and land grants and even their own guaranteed advanced franchises to go into the telegraph, express, hotel, land and other profitable businesses operating all over the country. Therefore they should treat all parts of the country with equality.

The railways had made the pretence that it cost more to build and operate in new countries. That was a mere assumption, but it was taken for granted by the west. There should be an allowance here or there for special cases which might be left to the railway commission to settle, but the general principle of

To the Citizens of Toronto

AT the request of many prominent citizens *Saturday Night* has undertaken to form an organization to oppose the closing of the public toboggan slides on Sundays.

IT would appear to be the general feeling of the people that the proposed by-law is thoroughly obnoxious and undesirable and comes dangerously close to cant and hypocrisy.

WHILE a quiet, respectable Sunday is desired by all good citizens, the health and wholesome pleasure of those who are confined to factory, store and office six days in the week should have consideration.

THE privilege of Sunday recreation enjoyed by all the classes with their motor cars, golf clubs, hunt clubs and similar organizations should not be denied to the general public, and to attempt to do so is hypocritical class legislation of the worst type.

IT is felt that several aldermen who have gone on record in favor of prohibiting tobogganing have done so through fear of the opposition and influence of the Lord's Day Alliance, their private conviction being in favor of allowing the people reasonable recreation.

A public expression of opinion on this issue would appear to be highly desirable, and, with this object in view, *Saturday Night* has undertaken to form a committee of representative citizens who will hold a public mass meeting in opposition to the by-law, which will be dealt with by the Council on Monday, February 5th.

It has been arranged to hold the Mass Meeting at 8 p.m., Wednesday, January 31st, in Massey Hall.

SATURDAY NIGHT

equality of rates, said Mr. Maclean. If the man in the west was hampered by distance, he ought not to be also hampered by rates because it cost a little more to operate a railway there.

"Are we to forever handicap the western country and to say to the people that we invite them to come and settle that we invite them to come to a country where there is to be a perpetual handicap, territorial and discriminatory in the application of railway rates?"

West in Rebellion. Mr. Maclean said the people of the west were practically in rebellion and were told there was to be an investigation to settle the principles first and let the commissioner apply them. Telegraph and express rates in the west were almost double those in the east. It might be that the man who sent a telegram was paying 200 per cent more than the service costs and thus was helping to pay freight and passenger rates or else giving enormous profits towards dividends or reserves. It would be a great thing if the railway commission could determine how much of the gross charges should be apportioned between the different services of the company.

Two Cent Rate. The time had come, declared Mr. Maclean, when there should be a 2-cent rate all over Canada. The C. P. R. had \$100,000,000 in lands; the G. T. P. had \$100,000,000 in lands; the N.W. had \$100,000,000 in lands. Parliament should have the right to say whether this \$300,000,000 should be used for the reduction of tolls. It did not belong to the shareholders, but to the purposes of the undertaking. It was being used to "cut meins."

Parliament should remove the disabilities of the west. There should be double tracking. The farmer should not pay excessive rates on his grain. The capitalization of the railway should be controlled by parliament.

The State of New York had a law that every dollar obtained for the sale of common stock should go into the undertaking. Had the common stock issued by Canadian roads gone this way?

A Pertinent Query. "We are making millions," declared Mr. Maclean, "but are we getting service, and is the money obtained from the sale of railway securities going to provide railway service, or a reduction of rates for the people?"

The people of the east were being treated to the peculiar "swan song" that if the C. P. R. rates were reduced it would hurt the new roads built to secure competition. The G. T. P., which was costing Canada so much, was to be made a bar to the reduction of rates. Another question was that in parts of the west there were three railways where there should be one. Some of those tracks had been moved into a new country. Absence of control regulation bred carelessness.

If parliament declared for uniform freight and passenger rates it would relieve the railway commission of many difficulties and still give the railways fair profits. In the interest of promoting settlement in the west, relief should be granted in this direction.

Parliament still retained its right, under the original agreement, to control the rates of the C.P.R. The company could not take tolls in excess of 10 per cent of what was actually spent in the construction of the railway.

Counsel for Public. The outstanding thing about the administration of the railway in the case of United States was that expert counsel was employed to secure the rights of the people. It was high time for parliament to insist that the railway commission had an expert legal department to cope with the high priced and expert lawyers of the companies.

Mr. Maclean thereupon moved in amendment: "That the said motion do not now pass, but that this house hereby declares that it is against the general interest of Canada to have any territorial variation in the application of tariff charges by the board of railway commissioners."

Premier's Assurance. Hon. R. L. Borden declared, in connection with the approaching investigation by the railway board of western rates, that the government proposed to supply counsel to protect the interests of the people.

He did not think it wise to lay down the principle involved in the amendment. Certain provinces had entered into agreements with the railways by which they got special rates. This would be rendered nugatory if the proposed principle were in operation. Moreover, in the question of long and short haul, the western farmer might be made to pay a higher price for the carriage of his grain to tide water.

J. G. Turritt, the seconder of the amendment, declared that for 15 years past the west had paid 25 to 30 per cent more than the east, while it only cost 50 to 60 per cent as much to build, and no nearly as much to operate railways in the three prairie provinces.

The statement of the C. P. R. itself was that it cost to carry 1000 tons one mile from Montreal to Chalk River 154; Chalk River to Fort William 127; Fort William to Swift Current 222; Swift Current to Field 47. From Chalk River to Calgary the rate was only two-thirds what it was from Montreal to Toronto. The railway commission had allowed

the express companies to charge \$1 for 200 miles out of Montreal, and \$1.60 for 300 miles out of Winnipeg.

In conclusion, Mr. Turritt declared that there should be a separate section of the railway commission to deal with the freight rates and nothing else. Railway Commission Impugned?

H. H. Stevens (Vancouver) raised the objection that the members were unprepared to discuss extempore a highly technical question. He thought western freight rates unfair, but was not prepared to vote for a general leveling of rates. The amendment was a motion of want of confidence in the railway commission.

Dr. Keeley (Humboldt) and James Mackay (Prince Albert) declared themselves in sympathy with the object of the motion, but not with its terms. Dr. Clark (Red Deer) did not expect the railway commission ever to give a decision lowering western rates.

G. McCraney (Saskatoon) was another member with the mover of the amendment in spirit, but not in vote. He declared himself a convert to the parcel post system.

A. C. Boyce (W. Algoma) was not in favor of limiting the railway commission by too many instructions. Hon. Frank Oliver declared that if the result meant reduction of western rates he favored it, but if it meant equalization of rates, he could not support it.

RAILROAD ENGINEERS ASK FOR TAX REDUCTIONS

With the object in view of getting an amendment to the existing Assessment Act, as far as railroad engineers are concerned, a deputation of twenty of the engineers interviewed Hon. W. J. Hanna and Hon. W. H. Hearst yesterday afternoon. The deputation, which represented all the engineers of the province, wanted some of the alleged injustices in the Assessment Act, as it relates to them, corrected by the Ontario Legislature, and they ask further that their income exemption be raised from \$1200 to \$2000.

The provincial secretary, in reply to the requests, said it had been the custom to appoint a special committee every two or three years in order that the Assessment Act could be revised, and any little injustices remedied. The time for another revision, he said, was not far away. It would not be taken up this session, but before the legislature met next year the act would be revised again. When it was under consideration the engineers could again present their views. As the exemption for engineers had been increased from \$700 to \$1200 in the past few years, there was no doubt but that their requests again would be favorably considered. He could not promise, however, that the committee would see eye to eye with them. He would promise, however, that the special committee would give their views very favorable consideration.

Church of Christ Scholars. R. M. Hopkins, international Sunday school secretary of the Church of Christ, of Cincinnati, Ohio, addressed the Toronto Sunday school teachers of that denomination at the Cecil-street Church last night.

AMUSEMENTS.

PETIT JURYMEN PETITION FOR INCREASE TO \$3 A DAY

When the county council convenes this morning it will be called on to consider a petition signed by a great majority of the petit jurymen now on cases in the city hall, asking for an increase in pay of 50 cents a day. They now receive \$2.50 a day and ask for \$3. The petition was being circulated among the jurymen at the city hall yesterday afternoon, and while some were encountered who objected to attaching their signatures thereto, the great majority did so with alacrity. A petition of the grand jurymen for the same increase to \$3 a day is also being considered by the county council. About three years ago the daily compensation of petit jurymen in York County was raised from \$1 to \$2.50 before receiving \$3 they were paid only \$1.50 a day. "Our demand for \$3 a day is only reasonable," said one of the petit jurymen. "When we receive a summons to sit on a jury we have to comply unless we take a boat for Honolulu, perjure ourselves by saying we are citizens of Buchanan, or convince the judge we are crazy, and the latter takes a doctor's certificate, which costs money. "No matter what the season of the year, whether it is time for haying or harvesting or mid-winter, when we receive the summons, we must respond."

EX-ALDERMAN SEEKS \$10,000 SOLACE.

MONTREAL, Jan. 25.—Another hot action has arisen out of the present municipal campaign, ex-Ald. Giroux, the leader of what was known as the "red" clique, because it numbered many aldermen who insisted on granting huge paving contracts to the highest bidder, and a large number whose members were discriminated by the royal commission investigating civic affairs in 1909, suing The Montreal Star for \$20,000 damages for caricatures and articles published concerning his civic record.

COST \$200,000 TO PARALLEL YONGE ST.

According to the report of the city engineer and the assessment commissioner, the extension of Toronto College to Bloor-street will cost \$200,000. It is suggested that 33.05 per cent of the expenditure be paid by the properties benefited, the balance to be paid by the city. The report recommends that the street be widened from Buchanan to College-street and extended northward with a width of 66 feet from College-street to St. Mary's-street, which involves the strengthening of St. Vincent-street and the widening of Chapel-street. The city engineer recommends that the sewer be cleaned annually for the next two or three years at least, when the use of the filtered water will render this step unnecessary, except after the lapse of many years.

York County and Suburbs

CONFERENCE OVER THE LEMONVILLE WATER PLAN

Municipalities Interested Will All Get Together - County Council Notes.

NORTH TORONTO, Jan. 25.—(Special.)—Engineer James, acting for the Town of North Toronto, today interviewed the York County Council with respect to the conference between the parties interested in the Lemonville water scheme, from which the town is well known to be anxious to obtain a portion of the supply.

The municipalities directly interested are Whitechurch and Mackham Townships and the Village of Stouffville, together, as stated, with the Town of North Toronto.

Following the visit of the Whitechurch delegation to North Toronto of a fortnight or so ago, when a strong protest was made by the northern municipalities interested in the Lemonville water scheme, from which the town is well known to be anxious to obtain a portion of the supply.

YORK COUNTY COUNCIL

Members Want Legislation to Impose a Tax.

YORK COUNTY COUNCIL CHAMBER, Jan. 25.—(Special.)—The council was an off day at the York County Council and at the rate the local legislators are moving it will keep them busy to clear up the order paper by the last of next week, the time scheduled for the prorogation proceedings.

Porcupines Move in Apathetic Way Hollinger Fluctuating

Hollinger Has Another Flurry But Reacts in Late Trading

Big Porcupine Issue Furnishes Only Interesting Feature in Mining List—Cobalts Show Firmer Undertone.

World Office, Thursday Evening, Jan. 25.

The speculative movement in the Porcupine mining stocks has dwindled away considerably from the extensive volume in evidence a few days ago, and this has resulted in a much narrower market for the general list. The immediate outcome has been, of course, that price changes have been much less erratic, and the general idea aduced from this is that temporarily the market is moving in a period of hesitation in the endeavor to catch its breath, after the strenuous motion which has been under way practically without interruption since the first of the year.

This was about all that could be deduced from the attitude of the mining exchanges to-day, there being few instances of any material activity, and the trend to values on the whole being practically on a par with what has been realized during the last two days.

The only feature of interest in the Porcupine list was again to be found in Hollinger, which underwent one of its characteristic flurries, but closed the day comparatively unchanged from the preceding session.

At the opening, Hollinger was quoted 40 points higher than last night, and the first sale was made at the opening figure, \$14. The price was run up quickly during the first hour and reached \$14.35. A good deal of trade came out, however, and from that time on, the quotations gradually sagged. The early prices were soon passed, and the last sale proved the low point for the day. Traders bid \$14 for the shares at the close, this being an advance of 5 points from the quotation yesterday.

Restricted Price Changes.

There was comparatively little doing in the cheaper gold mining issues and outside of a few small price changes, there was nothing of interest in the transactions. Dome Extension, Crown Chartered, Vipond and Res, were more or less active, but at no time did quotations get more than a shade away from yesterday's levels, and the close was at about unchanged prices.

The market throat moved in a decidedly apathetic way and trading was slow. There was a few small price changes, but nothing of interest in the transactions. Dome Extension, Crown Chartered, Vipond and Res, were more or less active, but at no time did quotations get more than a shade away from yesterday's levels, and the close was at about unchanged prices.

Timisk. Directors Wholly Exonerated

The shareholders of the Timiskaming Mining Co. will be vitally interested in the report presented by two selected representatives of the American shareholders, who were sent to Cobalt and Porcupine to investigate the affairs of the company. The representatives were Messrs. Ernest C. Whitbeck and Wallace Thayer. Their report will be found in another column of this issue, and the findings, after careful research, completely exonerate the present directors from any charge except that of acting in the interests of the Timiskaming shareholders. After careful investigation the special commission regarded the purchase of the control of the North Dome as an opportunity to acquire a splendid property at a low price, and to perpetuate the dividend paying power of the company.

OFFICIAL REPORT ON VIPOND PROPERTY

New Hundred Ton Mill Under Construction—Little Said as to Development Results.

The following statement of the Porcupine Gold Mines, Limited, generally known as the Vipond mine, forms a portion of a report on the property handed out last night. The full report abounds in verbiage, but lacks actual facts and the shareholders will require more information than is conveyed before they are satisfied as to the asset value of their holdings.

The report states that the railway is completed to within half a mile of the claims and that telephone communication can now be had with the mine. The announcement that the directors are desirous of keeping the shareholders posted should be satisfactory to stockholders.

The following report was mailed tonight to the shareholders of the Porcupine Gold Mines Co.: The cross-cut from the 200-foot level mentioned in report of Nov. 8 have intersected both Nos. 2 and 3 veins in place. Up to Jan. 15 about 100 feet of drifting has been done on No. 2 vein on the 200-foot level. The 40 horsepower hoist mentioned in report of Nov. 8, has been completed. The erection of buildings has been progressing. The mill is being constructed by the Canada Foundry Co., Limited, under a guaranteed minimum capacity of 100 tons per day of 24 hours. It is expected that tonnage will be considerably exceeded.

As your directors are desirous that every shareholder shall be kept fully advised of the conditions at your property, it has been decided to issue periodically summaries of the progress of development work.

For a Comfortable Trip to Montreal

Secure a berth in a Pullman sleeper on a Grand Trunk train. The smooth roadbed, laid with 100-pound steel rails, together with the double-track line, makes this the most comfortable train. Four Grand Trunk trains leave Toronto daily, the 9 a.m. and 10.30 p.m. trains particularly attractive, the former carrying dining car and parlor. Pullman sleepers are also available. Five or more Pullman sleepers to Montreal daily and a through Pullman sleeper to Toronto. The Grand Trunk is the only double-track route—electric lighted Pullman sleepers.

Tickets, berth reservations and full information at the Grand Trunk Ticket Office, northwest corner King and Yonge-streets. Phone Main 4208.

Report of Executive Committee OF THE American Stockholders' Association

The following report was unanimously adopted at a duly called meeting of the Executive Committee of the American Stockholders' Association of the Timiskaming Mining Company, held at Buffalo, N.Y., on the 20th day of January, 1912.

There were present at the meeting Dr. John G. Meidenbauer, Hon. Devoe P. Hodson and Attorney Charles J. Staples, Wallace Thayer and Ernest C. Whitbeck. Messrs. Hodson and Staples had been given full power by the Association to do all things necessary to investigate the management of the corporation and to obtain representation on its Board of Directors.

The Executive Committee was organized on the 20th day of January, 1912, and the Association to do all things necessary to investigate the management of the corporation and to obtain representation on its Board of Directors.

The Executive Committee passed a resolution requesting all the stockholders to vote for the Executive Committee of the Board of Directors, including the American representatives, Messrs. Whitbeck and Thayer, at the annual meeting of the stockholders to be held in Toronto on February 24th, 1912.

The report, which was approved by the Executive Committee, follows:

To the American Stockholders' Association of the Timiskaming Mining Company, Limited.

Gentlemen: We were elected a committee of two by the Executive Committee of this Association to investigate the management of the Timiskaming Mining Company, pursuant to an invitation by the Board of Directors of the company to our purchase, Mr. E. C. Whitbeck, the President of the Corporation, Mr. A. E. Fasken, its attorney and secretary, and Mr. Norman R. Fisher, the Company's General Manager and Engineer. We were afforded every facility of our investigation. We examined the books, contracts and other records and writings, and questioned such employees of the company as we considered necessary. We have seen all the books, contracts and other records and writings, and questioned such employees of the company as we considered necessary. We have seen all the books, contracts and other records and writings, and questioned such employees of the company as we considered necessary.

The immediate cause of the dissatisfaction among the American stockholders in the passing of the January dividend, the dividend was suspended because of the purchase by our Corporation of the North Dome property, and that purchase is the chief ground of criticism.

The Timiskaming Mining Company, Limited, entered into a contract with one Kirkgaard, who owned a majority of the stock of the North Dome Mining Company, for the purchase by our Corporation of 188,000 shares of the North Dome property, at a price of \$1.00 per share. We have paid in cash on the contract \$34,000, and have agreed to pay the balance remaining, \$154,000, within the year, in monthly installments, and the remaining shares, about 80,000, had been issued to various parties.

Our Board of Directors has made a contract with a responsible broker in Toronto whereby he has purchased and paid for 7500 shares of the treasury stock of the Timiskaming Mining Company, at a price of \$1.00 per share, and has agreed to pay the balance remaining, \$154,000, within the year, in monthly installments, and the remaining shares, about 80,000, had been issued to various parties.

Our Board of Directors has made a contract with a responsible broker in Toronto whereby he has purchased and paid for 7500 shares of the treasury stock of the Timiskaming Mining Company, at a price of \$1.00 per share, and has agreed to pay the balance remaining, \$154,000, within the year, in monthly installments, and the remaining shares, about 80,000, had been issued to various parties.

Until the last quarter, the outlook for our Timiskaming Mine was not as bright as it has been since. Mr. Carwright, Mr. Fasken and Mr. Fisher had an opportunity to see the North Dome property and separated therefrom a tract of 100 acres, which they have not been able to sell. The North Dome property, which is situated on the north side of the Timiskaming Mine, is a tract of 100 acres, which they have not been able to sell. The North Dome property, which is situated on the north side of the Timiskaming Mine, is a tract of 100 acres, which they have not been able to sell.

It is understood that the chief mission of the sheriff's was the old, old story—a desire for increased remuneration. The minimum salary of \$1200 or thereabouts is considered too low a figure for the responsibility of the office. Among those present were: Sheriff Magwood of Perth County, Sheriff Morley of Renfrew, Sheriff Middleton of Hamilton, and Sheriff Allen of Guelp. The government, as usual, will give the matter every consideration.

Again the Poor Censor. LONDON, Jan. 25.—(Can. Press.)—Indignation is expressed in dramatic and literary circles at the refusal of the lord chamberlain to allow the production of "The Coronation" a play by Christopher St. John and Charles Thurston.

The one-act drama represents the King on his way to the coronation ceremony, refusing to proceed until the burden of armaments is removed from the people. He takes the ground that his oath to see that the poor are not oppressed demands that he should prevent the spending of huge sums for armaments, and forces an autocratic command of three to stop expenditure. The piece will be presented privately at the Savoy Theatre next Sunday.

Car Was Derailed. MONTREAL, Jan. 25.—(Can. Press.)—A car on a mixed freight and passenger train on the Naperville Junction line, operated by the Delaware and Hudson Railway, broke an axle and jumped the track at St. Constant, near here, this morning, and about a dozen passengers were injured, mostly cut and bruised. The train was stopped at the scene of the accident. The car was derailed at the scene of the accident. The car was derailed at the scene of the accident.

Anticipating the Long Promised Hollinger Report

Approximately 110,000 tons of ore will be shown to have been blocked out, giving from \$25.00 to \$32.00 per ton, or promising nearly \$3,000,000 net profit.

Actual measurement will identify the lower grade ore bodies blocked out ready for stopping, varying from \$3.00 to \$20.00 per ton, with several hundred thousands of tons of ore in sight that will bring the grand total of the ore available in the mine from \$8,000,000 to \$13,000,000, for milling purposes alone, and showing a net profit of not less than \$6,000,000, with continuity of ore bodies, as depth and extension is attained, assuring increased values. My advice is to buy stocks now so miserably depreciated right along the line.

TRAVELING DIVORCE COURT FOR CANADA
Baptist Editor Advocates One Marriage Law For All Provinces—Endorses World's Attitude.

Rev. W. J. McKay, D.D., editor Canadian Baptist, said yesterday afternoon: "I admire the attitude of the World and Mr. W. F. Maclean on the marriage question."

Speaking of the general question, Rev. Dr. McKay said: "Canada's marriage and divorce laws are in need of improvement."

"To my mind we need one marriage law for the Dominion, and one divorce law."

"It would be an advance in the wrong direction, I think, to have provincial divorce laws."

"It would be an advance in the right direction to have one marriage law for all the provinces of Canada."

Rev. Dr. McKay said his idea was for a divorce court to be appointed to meet conditions in the same way that the Dominion Railway Board was established—a body which could go from province to province sitting perhaps for a month in each province annually.

WILL BE ABSENT FROM WRECK GORE AND BOOZE FLOW FREELY

Blood and booze were the evidences which led to the conviction in police court yesterday morning of William Dunning of being the one who had broken into Henry Smith's liquor store Saturday night and stolen several bottles and flasks filled with whisky. Dunning, a body which could go from province to province sitting perhaps for a month in each province annually.

SHERIFFS WANT MORE PAY

Hon. J. J. Poy was wailed on yesterday afternoon by a deputation of the provincial sheriffs, who are now visiting Toronto. The deputation also called on Sir James Whitney later in the afternoon.

It is understood that the chief mission of the sheriff's was the old, old story—a desire for increased remuneration. The minimum salary of \$1200 or thereabouts is considered too low a figure for the responsibility of the office. Among those present were: Sheriff Magwood of Perth County, Sheriff Morley of Renfrew, Sheriff Middleton of Hamilton, and Sheriff Allen of Guelp. The government, as usual, will give the matter every consideration.

DEALS IN MILLINERY, COAL, DRESSES AND INSURANCE

The second day's session of the jury assize court before Chief Justice Sir William Meredith, in the case of Mrs. M. J. Hoar, versus the Toronto Street Railway Company, concluded yesterday afternoon with several witnesses yet to hear and the case will go on again this morning. Mrs. M. J. Hoar, who resides at 26 Macdonell-avenue, is suing the street railway company for unstated damages for injuries received while alighting from a King car on Bathurst-street last May. She was confined to her bed from May 4 to July 1 of last year, during which time she suffered losses in her income as keeper of a boarding house. She also said she was a milliner and dressmaker, insurance and coal agent, but could not estimate her losses along these lines, although she said they would sum up to several thousand dollars a year.

Trusts to Control Canal.

WASHINGTON, Jan. 25.—(Can. Press.)—The ultimate control of all shipping thru the Panama Canal by the foreign "shipping trust" with gain benefit to big American shippers, such as the United States Steel Corporation, would result from the admission of foreign ships to the American coastwise trade, according to President George S. Dearborn of the American-Hawaii Steamship Co., who testified to-day before the house committee on intercontinental commerce.
