BLERIOT FLES OVER CHANNEL WINS PRIZE AND OUTWITS HIS RIVALS

Flight from Calais to Dover Consumes Less Than Half an Hour, and Landing is Attended By No Serious Result—Will Be Feted by Council of English City.

DOVER, July 25.—This sleepy old resort town experienced the event known in a generation when a white-winged, bird-like machine with loudly humming motor swept out from the base of the cliff at Calais (the distant French coast, and, circling twice above the high chalk cliffs of Dover, alighted on English soil.

Crossed in Thirty Minutes. Blériot left Les Baraques, three miles from Calais, about 4.30 a.m. On one of the smallest monoplane ever used he crossed the channel in a little less than half an hour, twice as swiftly as the fastest mail boat.

The wind was blowing about twenty miles an hour and the sea was choppy. The aviator was swathed in a single garment of drilling, impervious to the wind, only his face showing. He wore a cork life belt.

By his achievement to-day Blériot won the prize of \$500 offered by the London Daily Mail for the first flight across the English Channel and stole a march on his rivals, Hubert Latham and Count de Lambert, both of whom had hoped to make the attempt to-day.

Blériot, who speaks little English, described his successful flight very modestly. "I rose at 3 o'clock," he said, "and went to the aeroplane shed. Finding everything in order on the trial spin, I decided to make the flight. The French torpedo boat destroyer, which was in attendance, was signalled and it put out about four miles. Then I rose in the air and pointed directly to Dover. After ten minutes I was out of sight of the land and had left the watchship well behind. For a few minutes I could not see either coast nor any boat. I tried to keep at an average height of 200 feet. I might easily have flown higher, but it would have served no purpose. This was about the right height, I thought, to clear the Dover cliffs safely.

Blériot dipped toward the water several times. I put on more petrol once. I estimate that the travellers were going from 1200 to 1400 revolutions a minute. The first object I saw were ships off the English coast; then I observed Deal and I discovered that the wind, which was southwest, was shifting to the west. I turned to the southwest to Dover Castle, and then saw friends flourishing a flag in a valley suitable for landing. I made two circles and then dived down to the speed, and then dived down, but I came in contact with the ground sooner than I expected. Both the machine and myself were badly shaken. I was thrown about, but I was not hurt. I was helped out, as my injured foot was painful. I am exceedingly glad to be here."

"For the Peace of the World"

CALAIS, France, July 25.—At 3 o'clock Blériot proceeded to the shed at Sangatte. To the handful of people who had gathered there the spectacle of this man, hobbling on crutches, dreaming of a flight to England, had something awe-inspiring in it. Blériot was the coolest of all. He cast aside his crutches and took his place in the monoplane. Smiling and ready to give the signal, he said: "If I can't walk I will show the world that I can fly."

AVIATORS AT PETAWAWA WILL FLY LATE IN WEEK

Silver Dart Will Be Used For First Experiments By McCurdy and Baldwin and New Baddeck No. 1 Will Then Be Tested—Military Men to Watch Flights.

PETAUAWA, July 25.—(Special.)—Messrs. McCurdy, Baldwin and Lieut. Perrin and Williams, MacDonald are putting the aeroplane, Silver Dart, together and will rush the work on it during the next four or five days. No ascent is likely before the end of the week.

The fifth and last aeroplane of the young inventors have just made will be tried out at the Petawawa camp, but is not here yet. The intention is to experiment with the Silver Dart and later on with the new flying machine, which they have christened the Baddeck No. 1.

Later on some military officers from Ottawa may visit here, but none has arrived yet, and the time during which the balance of the week will be taken up getting the machine together. Some new equipment is to be placed in it and if found to work well may be used later on in the Baddeck No. 1.

The regular forces are a few detachments of the engineers, a medical corps, a service and ordnance only, while the militia is represented only by two or three batteries of artillery present each week to do their annual firing for the trophies of the Canadian Artillery Association. The camp staff is Lieut. Col. E. E. English, camp commandant, and Major R. C. Leaverty, D.A.A.

TRAFALGAR VICTORY PRELAYS

Free Hides, Free Oil, Nominal Duty on Iron Ore; Some of the Concessions Resulting From White House Conferences.

WASHINGTON, D.C., July 25.—President Taft and the conferees of the senate and house have agreed finally upon a tariff bill which they expect congress to approve and Mr. Taft to sign.

What work remains to be done by the conferees is of a minor character, such as the accurate transcription of their numerous decisions and the application of pressure to recalcitrant senators and congressmen.

The policy of conciliation was a natural one to observe, but at the same time there never has been any doubt but that Senator Aldrich and other leaders in the upper house have been bent upon a course originally determined upon, which contemplated backing up the president in order to have the country realize he was not only the titular head of the party, as he himself said, but its real leader, and president of the whole people.

Free hides. Free oil. Nominal duty on iron ore. Duty of 40 cents a ton on coal, with out reciprocity, which is 20 and 27 cents below the senate and house bills, respectively.

Reduced rates on boots and shoes, saddlery and harness, and other products of leather.

Reduced rates on lumber. Numerous reductions in rates on the manufactured products of iron and steel.

In spite of the fact that the committee has got down to the point of reducing its report to writing, the duties of the conferees have been especially upon free hides.

It hopes to be able to strengthen the combination originally formed by the conferees to obtain a duty of at least 1-2 per cent.

King Edward Likely to Stop Wedding of Portuguese Ruler To Princess Alexandra of Fife

Bride Would Have to Enter Roman Catholic Church, and Being of Unblemished Royal Blood, That is an Insurmountable Obstacle.

LONDON, July 25.—A story that became public about a prospective betrothal between Princess Alexandra of Fife and King Manuel of Portugal was something more than mere rumor.

But the idea was very severely discountenanced in court circles. The main difficulty was that the princess would have to enter the Roman Catholic Church, and for all English princesses who are what dynamic jurists have called evenburgit—otherwise of unblemished royal blood—that is an insurmountable obstacle.

King Edward is known to attach great importance to this consideration. The precedent of Queen Victoria of Spain seems at first sight to tell against the argument, but, as far as the fact, the Battenbergs are not held to the evenburgit in a strict sense, owing to the morganatic origin of their father. It is the same with the Tucka. Whether, strictly speaking, Princess Alexandra of Fife is evenburgit may be open to question, for her father does not enjoy that privilege here.

However, the view of the King prevails over the subtleties of jurists. Princess Alexandra is his eldest granddaughter, and that suffices for him.

WINGS ATTACK KING ALFONSO FORTY BUSHELS TO ACRE LIKELY

Revolutionary Activity Has Assumed Astonishing Proportion in Spain, Especially Madrid. Western Saskatchewan Yield Will Be Heavy—Average 12 Per Cent. Above Last Year.

MADRID, July 25 (via Bayonne).—Owing to the grave situation here, especially the revolutionary propaganda among the troops, a strict censorship has been established over all telegrams. It is impossible to send anything direct from Madrid. The revolutionary activity has assumed astonishing proportions, characterized by fierce attacks upon King Alfonso for being subject to foreign—that is, English influences. He has therefore cancelled his projected visit to Cowes, greatly to the disappointment of Queen Ena, who had been building on it for some time.

The king's action in punishing his cousin, Don Alfonso Bourbon, for his romantic marriage with Princess Beatrice of Cobourg is actually, also, made a ground of attack. He is denounced as being merely a tool of the clericals, and his hostile measures against his cousin, which he took entirely out of deference to Spanish feeling, is attributed to foreign influence.

Princess Beatrice is held up to admiration for refusing to change her religion and is favorably contrasted with Queen Ena, as no longer being a tool of the clericals, and the sincerity of her acceptance of the Catholic faith. The papers publishing these attacks are no longer confiscated.

DROWNED AT ST. CATHARINES WATER WINGS SLIPPED AND GAMBELL'S HEAD WENT UNDER WATER.

ST. CATHARINES, July 25.—(Special.)—Ralph Gambell, an Englishman about 30 years old, employed on Capt. James Delaney's farm, lost his life while bathing in the waste weir at lock 7, new canal, this morning. Gambell was unable to swim, but had secured a pair of water wings. The wings slipped from beneath his body, becoming entangled in his arms, his head under water as he was found in this way about ten minutes later by Mr. McFarland, lock tender at lock 7. McFarland endeavored to float the unfortunate man, but the inflated water wings and Gambell sank, but was soon taken out.

PARTY AT COBALT TO VISIT THE WILDWIND

Big Discovery Has Had Stimulating Effect on Whole Camp, and Is the Talk of the Town.

COBALT, July 25.—(Special.)—Under the energetic direction of Chas. A. O'Connell, who is one of the best engineers in Cobalt, the staff of 125 men on the Waldman Mine are literally making the dirt fly.

Mr. Waldman, the well-known Montreal manufacturer of ladies' cloaks and suits, and owner of the mine, could not have secured a more suitable engineer to carry out his plans of development. Mr. Waldman is a dynamo of energy himself, as those who know the splendid business he built up in Montreal are well aware, and Mr. O'Connell is just the man to carry out the extension work that has been mapped out.

The Waldman to-day is the talk of Cobalt, for it looks as though another Lawson and La Rose has been disclosed. The discovery has naturally added tremendously to the prestige of the government mine, in which the people of Ontario are interested as a whole and on all the other parcels owned by the government by tender. It also means an immense increase in the worth of portions which the government has withheld. The public will not have much chance to share in the worth of this property. It is practically a close corporation, and the only issue will be limited to some treasury stock for development.

Mr. Waldman and a party of twelve well-known business men arrive to-day from Toronto to look over the mine. The World representative congratulated Mr. Waldman and asked: "Is it your intention to discontinue your big business in Montreal, now that you have found a mine?" "My dear sir," said Mr. Waldman, "my business is a very good old friend. I shall not discontinue it, but on the contrary I shall make it larger than ever."

SHEEP TRAILLED BY COUNTY CONSTABLES

In Broad Daylight, Thomas Hopkins Shoots Animals Pasturing in Field.

GRIMSBY, July 25.—With a charge of sheep stealing hanging over him, Tom Hopkins, 21 years old, of Grimsby, Corners is in custody at St. Catharines, and will come up for trial at Grimsby on Wednesday.

The robbers were elected in broad daylight, and for daring were as remarkable as any ever perpetrated in this part of the country. Hopkins gave in a buggy to the farm of Thomas Trembley, about two miles east of this place, at 2 o'clock on Saturday afternoon and shot two of Trembley's sheep near the head of the creek. He then cut their throats and started to dress them, when he was scared away by Mr. Trembley's son, who was attracted to the place by the shot. Hopkins got into the rig and quickly drove away.

Word was immediately sent to Constables Book and Swaze, who were quickly on the scene and followed Hopkins for over six miles to the farm of Herbert Theal, where Mr. D'Arcy Merritt had some sheep pasturing, and there it was found that Hopkins had shot and killed a thoroughbred Dorset horn lamb worth \$20, and had taken it away. The constables took up the scent again and followed him for another five miles to his own home at Grimsby. When they arrived there Hopkins was just driving out to the gate to go to Stony Creek to take Merritt lamb, which he had dressed and which was in the back of his buggy. He had also stolen some sheets from Joseph Powell, in which to wrap the dressed mutton. The constables arrested their prisoner at Grimsby and Magistrate Kidd committed him to St. Catharines Jail pending Wednesday, when he will come up for trial at Grimsby. Hopkins comes of a notorious family. He has three brothers older than himself, who have been in the Central Prison at different times.

REYES ORDERED OUT

Diaz Tells Him to Withdraw From Contest For Vice-President.

MEXICO CITY, July 25.—President Diaz has notified Gen. Bernardo Reyes that he must withdraw from the contest for nomination for vice-president of Mexico. The penalty for the loss of this position as the governor of the State of Nuevo Leon, Diaz is the dictator of Mexico and can do about as he pleases. It is probable he will encourage the ambition of Reyes because he believes Reyes wants to succeed him as president. When the time comes Diaz will undoubtedly name his own successor.

MASSSES UPHOLD LORD GEORGE BUDGET

Remarkable Demonstration in Hyde Park Shows People Are Ready To Wage Campaign Against House of Lords.

NEW YORK, July 25.—I. N. Ford cables The Tribune from London: The first decisive test of public feeling respecting the budget was yesterday's great demonstration at Hyde Park.

The labor party and the land reformers united in organizing it and the Women's Liberal Federation completed the movement.

Early in the afternoon delegations of working people started from every section of greater London for the Embankment where they were massed in heavy columns behind bands and under banners. A series of processions gradually formed, and the thousands of men, women and boys were conducted thru Pall Mall, St. James' and Piccadilly to Hyde Park, where twelve stands were surrounded with swarming crowds. There were flying contingents of cyclists, and large bodies of women marched breathlessly from the sheer love of excitement, but the main support came from the trades unions, which carried out the orders of the labor party. Stirring music like the "Marseillaise" and "When Will Thou Save Thy People" were played by seventy bands, and banners with mottoes aimed against the landed gentry and the titled chamber were unfurled.

The speaking began about 6 o'clock, and resolutions were adopted at every platform in favor of a democratic budget and the proposed taxation of land. The speakers were mainly labor leaders and women, and there was no lack of earnestness in the appeals for popular support of the government.

This well organized demonstration proves that the masses are prepared to respond to the call for a campaign against the lords. Evidence of their interest in the budget has been lacking at the elections, altho the result of a contest in a weak district has been more favorable to the government than the wisps expected. There will be similar mass meetings in provincial centers, and the mechanism will be set in motion for systematic campaign work against the lords.

The jailed chancellor of the exchequer and his exhausted lieutenants have been allowed a fortnight to recover their breath and health. They had not prepared themselves for the struggle in the commons, as Sir William Harcourt and the present lord chancellor had done when the first radical budget was proposed, and they have been demoralized by Mr. Balfour's clever tactics and by strenuous obstruction. More rapid progress will be made when the closure is tightened and the discussion is concentrated on important amendments, but there is no expectation that the finance bill can be sent to the lords before October.

TRAIN GOES INTO RIVER

Six Persons Killed in Wreck on Wabash Railway.

KANSAS CITY, Mo., July 25.—Six lives were lost, three persons were probably fatally injured and some 50 were hurt in the wreck of a train on the Wabash railway, near the Missouri River 30 miles east of Kansas City last night.

Of the eight cars in the train five coaches and the locomotive are now in the river with the water covering all of them. The train was derailed by a chair car and two Pullmans remained unharmed.

For days flood waters have undermined the roadbed.

Train Hit Auto.

ESCANABA, Mich., July 25.—(Special.)—Ole Erickson, his wife and his niece, Miss Erickson, were killed and a man instantly killed at Birch Creek this noon, when their automobile was struck by a Chicago and Northwestern passenger train.

DIAMOND THIEVES TELL LOCATION OF 94 RINGS

Accompany Ottawa Police to Refresh Where Loot Is Found in Bath Tub.

OTTAWA, July 25.—Hidden in the bathroom of the Ottawa House in Renfrew, Detectives Quiver and McLean of the local police department Saturday afternoon discovered the missing McMillan diamonds.

The rings, ninety-four in number, were hidden in the woodwork of an old fashioned boxed-in bath. The thieves had strung the rings on a fine wire, and planned the tape on the underside of the wooden strip running around the edge of the bath.

REV. J. C. SYCAMORE LEAVES GETS CALL TO CALGARY

Suffers a Financial Loss, But Field is Larger—Boy Badly Scalded.

HAMILTON, July 25.—(Special.)—Rev. J. C. Sycamore, pastor of James-street Baptist Church, announced this morning that he had decided to accept the pastorate of First Baptist Church, Calgary, Mr. Sycamore stated that in accepting the call, which had been extended to him some time ago, he was suffering a financial loss, but the field of work was large there and he thought the move would further the Baptist cause in the west. During Mr. Sycamore's pastorate the church has enjoyed unusual prosperity. He will enter on his new duties Oct. 1.

The formal opening of the playgrounds at the Hess-street school will take place to-morrow afternoon. Lieutenant Governor Gibson will officiate, and speeches will be given by Mayor McLaren and other prominent citizens interested in the issues of the Hamilton Playgrounds Association.

Caroline Victoria Coates, only daughter of Harry and Mrs. Coates, 117 West King-street, died to-day at her parents' home, aged 13 years.

John Silver, a young lad, whose parents reside at 70 South Wellington-street, was taken to the City Hospital to-day with his neck and chest badly burned as a result of a kettle of boiling water he pulled off a stove, falling over him.

H. C. Newman, who was arrested in London Saturday on a charge of securing money under false pretences from the Grand Trunk, was brought back to-day.

Tom Connors was gathered in Saturday afternoon charged with aggravated assault on Martin Lynch. The assault occurred during a row on the market. Lynch was taken down and had his head badly cut. He was taken to the hospital and later arrested on a charge of being drunk.

Teacher in Charge of W. M. Elliott, a school teacher of Smithville, has issued a writ against R. H. Cowley, Inspector of Schools, for the schools, and J. G. Wetherill, Inspector of high schools, claiming \$10,000 damages. The two inspectors are in the employ of the provincial government, and they were assigned to report on Elliott's work. As a result of the reports they turned into the government Elliott was dismissed. He now claims that the inspectors' reports were false and malicious, and is seeking redress thru the courts.

TO EMPLOY 1500 HANDS

T. Eaton Company Secures Factory Site in Montreal.

MONTREAL, July 25.—A deal has been consummated by which the T. Eaton Company, Limited, Toronto, will occupy the entire three top floors of the new J. A. Jacoby building at the corner of St. Catherine and St. Alexander-streets, and adjoining the Princess Theatre. The space there will be divided into 40,000 square feet with a frontage of 235 feet, and a depth of 125 feet. There are windows on all four sides.

The Eaton Company will employ 1500 hands, when it is estimated that this will be doubled within a short time. The three flats will be used for manufacturing goods for retail stores in different parts of Canada.

The Eaton Company opened a branch manufactory in Montreal about two months ago, but found it necessary to secure larger premises owing to the call for an increased output.

Frederick Allward, who had charge of one of the departments for some years, has been sent to Montreal to take charge there.

The company has no intention of opening a retail store in Montreal.

Mrs. Clark is Dead.

Mrs. Anne Elizabeth Clark, aged 50, of 192 Carlton-street, died in the General Hospital late Saturday. She was picked up in an unconscious condition at the corner of Carlton and Sherbourne-streets at noon on July 19 and taken to the hospital. She did not recover consciousness. Mrs. Clark was suffering from brain trouble and apoplexy.

Zingari Wind Up Beaten at Manheim By 184 Runs to 71

PHILADELPHIA, July 24.—(Special.)—Germantown defeated the Toronto Zingari at Manheim to-day by the margin of 118 runs. The match was scheduled for two days' game, but the rain of Friday prevented a ball being bowled, and it was decided that the bowled should be determined on the score of the first innings. The initial innings of the Zingari were little despondent. The only man to do himself justice was A. H. Gibson, who, going in first, was out eighth, and had 25 runs. At first he played most patiently, but, finding that no one could stay with him, and that wickets were falling rapidly, he hit out lustily during the latter part of his innings, and was finally caught by Austin off the bowling of Clark. D. W. Saunders was unable to play owing to an injured hand, and as both sides had decided to play twelve men, F. A. Greene of the home club took his place through.

The tourists fared better in their second attempt and put together 81 for the loss of five wickets. A. H. Gibson again batted well for 20, and G. H. Southern and S. E. Saunders also playing well for 17 and 14, respectively. Score:—

Rain Stopped League Game.

What promised to be a interesting game on Saturday was spoiled by rain. St. Albans were playing a league game with Parkdale at 10 o'clock, but the rain abandoned at 10:30, and the game was postponed. At the time of closing St. Albans had 100 runs, and Parkdale had 100 runs. The game was postponed to which total C. Edwards, Thorne and Robinson were the chief contributors, all of them scoring freely all round the wicket. Rosedale were without Wooley and Reid were somewhat at a disadvantage in having to bat a ball that was always slippery. Baines took all the six wickets that fell for 40 runs. Score:—

THE NIAGARA POWER LEGISLATION.

What is the head and front of Sir James Whitney's offending over the Niagara power legislation. Simply that he has prevented vexatious and oppressive appeals to the courts intended to delay or subvert a policy that received the approval of an overwhelming majority of the people of the Province of Ontario.

Not once, but repeatedly the people of the municipalities concerned in Niagara power declared themselves in favor of the Whitney-Beck policy. They did so knowing exactly that the hydro-electric commission was constituted to act, not independently of them, but as trustee for them.

It is significant that the parties who denounce the hydro-electric policy never challenge or protest against the methods of public service corporations in dealing with the franchisees entrusted to them. The lawyers who hold the government up to execration consider it legitimate and allowable to devise schemes for circumventing onerous contracts and for evading legal obligations.

THIRTEEN GOVERNMENTS TO PROTECT THEIR GIRLS

Canada Enters Agreement to Deal With Serious and Growing Class of Crimes.

OTTAWA, July 24.—(Special.)—The Canada Gazette to-day announces the terms of an international agreement for the controlling of the white slave traffic.

The agreement is for the purpose of providing for women of age, deceived or under restraint, as also for women and girls under age, an adequate protection against the criminal traffic known as the white slave traffic. Thirteen governments have signed the agreement, each naming a plenipotentiary to see to its enforcement.

There are several clauses to the agreement, the most important of which are: Each of the contracting governments undertakes to appoint or designate an authority, whose duty will be to gather all information concerning the hiring of women and girls for immoral purposes in foreign places; this authority to have power to communicate directly with all plenipotentiaries established in each of the contracting states.

Will Keep Close Watch. Each of the governments undertakes to have a strict watch kept for the purpose of seeking, especially at the railway stations, ports of departure and during voyage, the conductors of women and girls intended for debauchery. Instructions will be sent to the officers and all other competent persons to obtain within legal limits all the information leading to a criminal traffic.

The arrival of persons likely to be the authors, the accessories or the victims of the white slave traffic will be signalled, if necessary, either to the authorities at the place of landing, or to the diplomatic or consular agents competent to all other competent authorities. The governments undertake to provisionally place the victims of the traffic in institutions, and, as far as possible, send back to their own countries those who ask repatriation.

Countries in Agreement. The contracting governments undertake to exercise as far as possible a watch over such agencies employing women and girls in foreign countries. The list of countries, British colonies and protectorates, which have decided to adhere to the white slave traffic agreement are: Austria-Hungary, Belgium, Brazil, Denmark, Argentina, France, Germany, Great Britain, Italy, Norway, Sweden, Portugal, Russia, Spain, Switzerland, Bahamas, Barbados, British Guiana, Canada, Ceylon, Commonwealth of Australia, Cambodia, Gold Coast, Malta, Newfoundland, Northern Nigeria, Southern Rhodesia, Trinidad, Windward Islands.

Wall St. Continues Bullish Local Market Closes Dull

Trading By Professionals is Important Factor on New York Exchange—Some Record Prices Made.

World Office, Saturday Evening, July 24. Bullish speculation is still being maintained in the New York Stock Market. Business on Wall-street during the past week has been on a rather moderate scale, but with public dealing of a large character. Trading by professional operators, as during the preceding week, was an important factor in the market, but there was a fair response from the public to the favorable developments of the week, and the increased trading was accompanied by an advance, which in some cases carried prices to a point not previously reached since before the panic days of 1907.

The rails in particular have been well before the public eye, operations in these issues having been somewhat halting. Some of the leaders up to new high prices for the present movement, while some of the industrials have not been lacking in strength. Such stocks as Car and Foundry, American Locomotive, the coppers and some others of like interests have displayed a good undertone throughout, and in some cases undergone material advances. Pressed Steel Car shares have in no way been impaired by the doubling of the strike situation at the company's plant and sold up to a new high record during the week. Columbia Fuel and Iron was the centre of a bullish movement, founded on a rumor that the Rockefeller-Gould interests were increasing their already extensive holdings, and the shares sold up to the highest price since the recent panic. In the rails the Harrimans, Hills and some of the other interests have been strong, and especially was this the case in Union Pacific, which sold up to 19 1/2, a new high price for this issue. New York Central, Rock Island, preferred, Atchison and some others also established new records, but all these issues weakened to a moderate degree later.

The steels have been more reactionary the last few days, but this was only to be expected. Setbacks are always in order in the case of these issues. A tentative profit-taking came as no surprise to professional traders, though the advance in the case of the Harrimans had an effect on the market and there is a good improvement reported in the demand for the metal, while reports concerning the advance in the case of the Harrimans are most encouraging. Mr. Morgan speaks favorably of financial conditions abroad. Harrimans' bills continue good, and while prices for many of the accumulations are now at the top-notch issues still maintain point out that they are still making a headway on the upward movement prior to the panic some years ago. The senate committee has as yet not reached any agreement regarding the tariff, but it is expected that the report will be presented to congress not later than Monday of next week, and interesting market developments are looked for at this time.

A steady upward movement in some sections of the list has been witnessed at the Canadian exchanges during the past week. This was due in part to the bullish feeling emanating from Wall-street and also to the fact that the purchasing power of the market exceeds that of the preceding week, but it has taken time to get the public sufficiently interested in the domestic stocks to bring about the buying which was necessary to give any decided trend to the market.

Outside conditions have been favorable. Crop news from both the American and Canadian west has been of a good nature and commercial reports have shown things to be in good shape. The recent Canadian bank statement indicates a notable increase in current loans and a good advance in deposits, both time and demand, while circulation has also been materially increased. The specially strong issues of the market have been General Electric, the Steels, Coal, C. P. R. and Twin City, while Montreal, some of the other issues at the local market were also strong and higher.

Dominion Coal continues strong from day to day, and sold up some four points during the week. It is remarkable to note that these shares are being disposed of at higher figures since the strike on the property was ordered, than for some time previous, this fact being generally taken as an indication of the shareholders' opinion of the probable outcome of the labor trouble. Dominion Steel has been generally firm and the preferred stocks strong.

General Electric was the centre of a bull movement late in the week, making a new record price for the year at 123. No reason was assigned for the advance by traders, save an accumulation of buying orders and a scarcity of the stock in the market. Twin City was in good demand with the bullish feeling due to increased earnings and prospects of a higher dividend rate; C. P. R. was strong on all markets; the South Americans remained about steady, any apparent weakness being offset by advances later.

The investment end of the market has been more inactive, the lines blocks of the bank shares occasionally

ON WALL STREET.

Beats & Glasco say at the close:	As we predicted this morning, the stock market was regular and it was indeed quietness, with few issues outside of noteworthy strength in U. P. and R. I. Southern Pacific was heavy, in contrast to U. P., with rumors that the dividend will not be increased for the Oct. 1 payment.

Irregularity the Feature of Exchange for the Week

Crown Reserve Remains the Leader in the Market—Prices Are With Few Exceptions Easier.

World Office, Saturday Evening, July 24. Irregularity has been the one dominating feature of the local mining exchanges during the past week. During the first few days business was conducted on a large scale and with some weakness developed, and declines took the place of previous advances. The market closed with the run of prices, with few exceptions, slightly lower than last Saturday, and with sentiment in the main inclined to lower levels.

News from the camp has been very encouraging. Some eleven new strikes have been made, but limitation of much in evidence at an advance of consequence, and checked any material betterment in prices.

The most outstanding feature of the week was the passing of the Coniagas' dividend on Wednesday, and the consequent slump in the stock. An announcement was handed out by the directors that it had been deemed advantageous to apply the funds in the treasury, available for dividend purposes, to the better equipment of the plant, and that in particular the concentrating and reduction mills would be enlarged and electric power installed. While there is no doubt that these improvements will ultimately mean increased dividends, there was considerable liquidation on the part of holders of the shares, and the price dropped sharply from 6.25 to 5.25. This company is practically a close corporation, the stock being almost entirely in the hands of Milton Hersey and his associates, who control about 92 per cent. of the shares.

As was only to be expected, the decline in Coniagas had a decided effect on some other of the Cobalt issues, and during the latter half of the week, the market on the whole has exhibited a downward tendency, though no material declines, other than the above, have occurred. The lower-priced issues, particularly reflected the downward trend and fractional price changes in this direction were generally in evidence.

The most active stock for the week was Nova Scotia, which issue has also displayed considerable strength. The highest price reached was 7 1/2, and the shares closed to-day some five points lower. Reports from Cobalt are very optimistic regarding the recent discoveries on this property, and a further advance would come as no surprise to market followers.

Temiskaming opened the week with a decided upward tendency, and stands to-day about two points above the opening quotations. A wire from the mine management early in the week announced a new find of good pay ore and an upward movement in the shares resulted, the highest price reached being 2 1/2. The stock was thrown on the market in large quantities around this figure and a reaction took place. Beaver has remained about steady during the week, despite considerable profit-taking by those who had bought at lower levels. The stock was in demand from to-day, selling up some seven points above last Saturday's quotations, but weakening later in the general downward movement in the market.

The other low-priced issues in the main show small declines. Otisse is some five points lower, but no general weakness throughout the week.

PRICE OF SILVER.

Bar silver in New York, 23 1/2 c.

list is assigned for the movement in the shares, Rochester, after advancing four points on reports of a rich strike, declined to its former level. Cobalt Lake and Little Nipissing are slightly lower than last week, while others in the list are about unchanged or fractionally weaker.

The redeeming feature of the last few days has been the strength displayed by the higher-priced issues. Crown Reserve has advanced some 25 points, making a new record price at the high figure reached. Considerable of the buying of these shares comes from former holders, who disposed of their stock during the recent lawsuit, and who are now buying in again, having great faith in the future of the company.

La Rose has remained about steady at the highest price yet reached, while Kerr Lake shows a small gain over last week. Nipissing made a new high price during the week, and closed only slightly lower than the best figures reached.

On the whole, the market has been disappointing after the recent buoyancy displayed. Brokers report no material increase in public interest and lament the general lack of buying orders. Given a freedom from adverse and discouraging rumors, and with more outside interest in evidence, there is nothing in sight but a steadier and stronger market, but until present conditions are changed no betterment of consequence is looked for.

ITALIAN WAS FIRST

Nearly a Century Before Landing of Henry Hudson.

NEW YORK, July 24.—On the strength of their claim that Giovanni Verrazano sailed through the Narrows and landed a boatload of men on

Manhattan Island in 1484, Italian and French citizens of the United States have secured the incorporation of a Franco-Italian celebration in the Hudson-Fulton proceedings here next September.

Verrazano was an Italian navigator in the employ of the French Government, and inasmuch as Hudson admittedly did not enter the river which now bears his name until 1609, the Latin-Americans who are pushing Verrazano's claims convinced the Hud-

We Close the Club Register on Saturday 1 p.m., July 31

THE last day of the July Housefurnishing Club comes on Saturday, the last day of July. It might be well to consider the question of this Housefurnishing Club with serious concentrated attention now while one week remains during which Club Members may purchase Housefurnishing Goods on club account.

That is what the Housefurnishing Club means. It means that we will extend charge accounts to house owners for Carpets Furniture Silverware Curtains Pictures Stoves and Wall Papers, too, if you desire it.

We charge nothing extra for the privilege. July is a quiet month ordinarily, and we are repaid by the extra business. Prices to club customers are precisely the same as to cash customers.
