Executive Mansion, Washington, D. C., March 3d, 1874.

Mr. J. G. Smith.

Dear Sir.—The Bradbury Piano, for which I sent my Square Grand Chickering in part pay and now enclose you my check for the balance, gives entire satisfaction.

Mrs. Grant wishes me to say that the Square Grand Bradbury Piano for which she exchanged in part pay for her Steinway Piano, still gives the greatest satisfaction to her and her daughter, who perform upon it in the parlor of the Executive Mansion. I have in great confidence in your celebrated Bradbury Pianos, and after having been performed upon and tested by some of the first Musicians of Washington, their opinion is unanimous approbation of the Bradbury Piano, she has therefore requested me to order another of your celebrated Bradbury Pianos, for the President's Cottage at Long Branch. I am very truly yours, J. G. SMITH, Secretary to the President, on behalf of Public Works.

MR. JOHN SIMPSON'S OPINION OF THEIR TREATS.

Ontario Bank, Bowmanville, Sept. 11th, 1876.

Messrs. R. & H. O'HARA, Gen. Agents, Bowmanville.

Dear Sirs.—The Piano purchased from you some six months ago, manufactured by Mr. F. G. Smith, New York, successors to W. B. Evans, in the same city, for whom you are general agents, is giving great satisfaction. It is, in the opinion of many competent judges, a first class instrument.

As far as the workmanship is concerned, it is equal to the best Chanting, and is, in my opinion, superior to the instruments made by this firm, in richness and fullness of tone.

Yours, J. SIMPSON.

PREFACE.

—o—

In presenting this work to the public the compiler wishes to state that the object which he trusts he has attained is to provide a work which will prove not only useful but interesting, and that every exertion in his power has been made to render it full, complete and reliable; and though, from the variety of sources from which it was necessary to obtain the required information, and the impossibility of avoiding all errors in a work of this description, inaccuracies may be found, especially in the orthography of surnames. The Publisher trusts that as few mistakes will be discovered in this work as in any other of the same character, and that it will deserve the approbation of its patrons.

The publisher deems it his duty to return his sincere thanks to those who have so liberally patronized the undertaking, not only in a pecuniary sense, but also by providing information of the greatest value, and for the universal courtesy and kindness experienced during the canvas of the County. A deep sense prompts him to particularize H. J. Macdonell, Esq., Whitby; A Horsman, Esq., Uxbridge: the Clerks of the various municipalities, and the Editors throughout the County.

DIRECTORY OF THE COUNTY OF ONTARIO

FOR 1875.

INTRODUCTION.

In laying this volume before the public it would perhaps, be too presumptuous to assert that it is wholly free from errors. The publisher contents himself with the statement that no pains or trouble have been spared on his part to secure accuracy; and he hopes that whatever errors (if any) may be discovered in the work they will be over-looked.

The County of Ontario is situated in nearly the centre of the Province. It is a long narrow strip of land only two townships wide, and is remarkable on the map for its extreme length compared with so small a frontage.

Guns, pistols, powder, &c. Horsman's, Uxbridge.

Do you want the best Organ? See advertisement on page 1.

The Mudge & Yarwood Manufacturing Company, Whitby, Ont.

It extends from Whitby Harbour, on Lake Ontario, on the South, to the Severn River, bounding the Township of Rama, on the North, a distance of about 80 miles. On its Eastern boundary it has Lake Scugog and the counties of Durham and Victoria; and on the West the rich county of York, skirting Lakes Simcoe and Couchiching. Lake Simcoe, which for its extent, may in some respects without partiality, be considered the finest and most beautiful sheet of fresh water in the world, forms, with its beautiful little outlet, Lake Couchiching and the river Severn, a source of attraction of great benefit to the Country, the Shores in many places rise to a considerable height, and are almost entirely free from swamp, and beautifully wooded with birches, poplar and evergreens of various kinds; the silvery bark of the former forming at all seasons a matchless contrast with the latter. The water is very deep, clear and transparent, and flowing over a hard bottom of sand and stones, never loses its sparkling brilliancy. Several Islands of various extent render the scene of the Eastern shore extremely picturesque, especially about "The Narrows," by which the waters of Lake Simcoe empty into Lake Couchiching, and from thence by the Severn into Lake Huron.

Lake Couchiching extends about ten miles due North from "The Narrows," and varies in width from one to four miles, and is studded with well wooded islands of all shapes and sizes, which, with its high sloping shores render it extremely rich in that quiet though picturesque scenery so peculiar to Canadian waters.

HISTORY.

To a County so recently settled as this, none of those shining recollections belong which give an undying interest to some few spots in the province, and there is but little to mention beyond such facts as for statistical purposes may be worth recording. During the war of 1812 military communication was obtained with the Upper Lakes by a route leading from Toronto (then York) by Yonge Street to Lake Simcoe and across the water to where Barrie now stands; from there by portages and down the Notawasaga River to the Georgian Bay.

The discovery and exploration of this part of Canada took place in the year 1615, Samuel de Champlain was probably the first white man who ever sailed over the deep waters of the Georgian Bay, having, between 1603 and 1607 explored the St. Lawrence as far as Three Rivers, and discovered and explored Lake Champlain in 1609, and having already founded Quebec (3rd July 1608) he bethought him of a great western exploring tour in the above mentioned year; (1615,) he ascended the Ottawa, and reached Lake Nipissing by the portage and descended the French River to its mouth. His expedition was not altogether a peaceful one. He was in league with the Algonquins, Hurons, Obigways, and Eries and virtually at war with the Iroquois and all their English and Indian allies. He had several encounters with the Iroquois. He found the Hurons in possession of the Northern and Eastern coasts and the Islands of the Lake, having been driven thither with great slaughter by the victorious Iroquois half a century before. We

have no trace of the inhabitants on the shores of the Georgian Bay anterior to the Hurons and the Peteens. The latter occupied the Saugeen Peninsula, but were driven out by the Six Nations in 1650, and fled to Missouri. The Huron tradition is that they came down from the North and spread themselves on the shores of the upper lakes before the discovery of America about 1450. From the time of Champlain the Georgian Bay was little visited except by traders and Indians. Jesuit Missionaries early established themselves on its shores. As early as the year of Champlain's first visit, a Recollet Father preached to the Indians at Matchedash Bay: in fact Champlain brought Jesuit Missionaries with him, who could either preach or fight as occasion required. More than a century ago a flourishing mission existed on the largest of the group now known as the Christian Islands, and some small stone ruins of their buildings are still visible. The Mission was ruined by the victorious and implacable Iroquois then in the height of their power, and it is said some of the converts were tortured to death whence the Hurons, and their friends the Ojibways, have ever since called the group—THE CHRISTIAN ISLANDS. Shortly before the breaking out of the American Revolution, when Sir Wm. Johnston was virtually dictator among the Indians of North America, a grand council was called; and as all the tribes were then at peace, delegates came from all quarters. Among others a deputation came down the Georgian Bay from the North shores, landed at Cape Rich, struck across to Christian Islands, ascended the Severn River, crossed Lake Simcoe, descended the Trent, crossed Lake Ontario, and ascended the Oswego River to the place of meeting among the lakes of New York. In 1817 Lieut

(afterwards admiral) Bayfield having already assisted Capt. Owen for two years in the exploration of the lakes, became an Admiralty Surveyor and was appointed to the Survey of Erie and Huron, including Georgian Bay. He spent six years in this work and the accuracy of his charts is a theme of wonder and congratulation to the present day to all navigators.

In the year 1843 the County of Ontario was set apart for Judicial and Municipal purposes.

By the Representation Act of 1853 the county was divided into two Ridings, North and South Ontario, for parliamentary purposes, and each of these comprise the following Municipalities. North Ontario embraces the township of Reach, Scugog Island, Brock, Uxbridge, Scott, Thorah, Rama and Mara, and the corporations of the villages of Uxbridge and Port Perry. South Ontario the township of Whitby, East Whitby, Pickering, and the Corporations of the town of Whitby, and village of Oshawa. Each riding is represented in the House of Commons and the Legislature of Ontario by one member each ; the present members being Messrs. Gordon, Cameron, Paxton and Brown.

MANUFACTURES.

The principal manufactures are flour and lumber and a large number of Woollen factories scattered over the County, in which a large business is carried on. The splendid Joseph Hall Foundry and Agricultural works at Oshawa, and the foundry and Agricultural works of Brown & Patterson, at Whitby, each giving employment to a large number of hands : two large Cabinet factories in Oshawa and an Organ

factory in Whitby; at Port Perry is a large foundry and agricultural
works, by Paxton, Tate & Co., and several other branches of Industry
carried on to high perfection. In Uxbridge there is a large Cabinet
and Organ Factory, whose Organs are unequalled, as well as the other
branches of their trade.

Ontario possesses a large number of Churches of various denominations, and large sums are devoted by the different municipalities to the interest of education; the county possesses some of the best grammar and common schools in the Dominion, including one large Female College in Whitby, and another in Oshawa in course of erection.

There are nine newspapers published in the county, two in the Town of Whitby, and two in each of the Villages of Oshawa, Port Perry and Uxbridge, and one at Cannington.

The County of Ontario is also remarkable for the number of thriving Villages scattered over its length and breadth.

BEAVERTON.

A Police village in the township of Thorah, 41 miles north west of Whitby, lying on the eastern shore of Lake Simcoe at the mouth of the Beaver River, was first settled by Donald Calder in 1828. The first store was opened by Mr. Kenneth Cameron in 1830. The first post office was established in 1835, Mr. James Ellis being the first post master, Mr. Donald Cameron is now the present post master. The village contains one Roman Catholic Church, a short distance out of the village, built of wood in 1855. The Scotch Presbyterians have one in the same place built of stone in 1844 within the village. One English Church, one Wesleyan Methodist Church and one Presbyterian Church at the cost of about \$1000, built in 1847.

The prominent buildings are the Orange Hall built of wood in 1865 at the cost of about \$800 and occupied by Lodge No. 798. The Town Hall also of wood built in 1846 at about the cost of \$800. A School House, a flour mill, a saw mill, a woollen factory, two tanneries and a furniture factory, also several stores and hotels and the usual number of tradesmen together with George Drake's extensive brick yard, his bricks being noted all over the Dominion. It is connected with all places south east and west by the Midland and the Toronto and Nipissing Railways. Daily Mail. Money Order Office.

OSHAWA.

A rising town in the Township of East Whitby, 33 miles from Toronto, on the Grand Trunk Railroad.

The place has made unusual progress within the last few years, owing to the great development of its manufacturing interests. The chief manufactories are the Joseph Hall Works, which has been established for some time, employing in its various departments over 400 hands; the Oshawa Cabinet Factory, employing some 225 workmen; the A. & S. Whiting Manufacturing Co., of Cedar Dale, having about 80 employes; Luke Bros. Furniture and Cabinet Factory employ about 75 hands; the Malleable Iron Works have over 70 hands; and the Oshawa Stove Foundry employ over 60 workmen. The Welland Vale are doing a large business in edge tools, and the Hat Factory buildings have been purchased by the Masson Company for the manufacture of agricultural implements. There are two large grist mills owned by the Messes. Gibbs; two tanneries, and several other important branches of manufacture springing up. There are three banks, the Dominion, Ontario and the St. Lawrence Banks, the latter of which has but recently been established.

W'LLITBY, Ont.

Not the least important building in Oshawa is the large and magnificent Female College, now in course of erection. This pleasing edifice overlooks the waters of Lake Ontario, and when completed, will be a great boon to our young ladies, it is so beautifully located, and being surrounded by 20 acres of garden and pleasure grounds, will make it a most desirable residence. The Rev. A. B. Demill is the proprietor who expects to have the College in full operation by September 1875.

Oshawa has gained celebrity abroad for the energy that has been given to the manufacturing interests, as well as the merits of the wares produced in its borders, and every effort will still be put forth to increase the growth and prosperity of the town.

Where did you get that fine Organ?

Hoitt's New Photo Gallery.

A new and beautiful style of Photograph just introduced at Hoitt's. Lettergraphs or Ferrotypes in several new styles. Vignette Cameo Pictures which the ladies call lovely. Hoitt is the only artist in the county who takes the following new styles of Pictures —The photo crayon, very fine; the improved porcelain picture, the finest picture out; the alabaster picture, very nice indeed; the opal picture, very good; and other styles, which will pay you to call and see.

Particular attention paid to copying from old pictures. Photographs finished in oil or water colors. Please call and examine specimens at Hoitt's Gallery, nearly opposite Smith & Son's store, Simcoe-street, Oshawa.

Stereoscopes and a large assortment of foreign and local stereoscopic views, albums, &c., in great variety.

PORT PERRY.

An important village in the Township of Reach, 18 miles north east of Whitby. Was first settled by Mr. Williams, about 1830, and the first store opened by Messrs. Draper & Co., in 1845. The post office was first established here in 1852, Mr. Joseph Bigelow being the first postmaster.

Port Perry is beautifully situated on the east side of the township, at the head of the Lake Scugog, with an eastern front facing the water, the ground gradually rising to the west part of the village, where it attains a considerable elevation above the level of the lake. It has a fine appearance from the opposite side of the Lake (Scugog Island) the rising ground bringing every part of the village into view.

Mudge & Yarwood use the best material they can buy in the market.

Best Goods, Lowest Prices. Horsman's.

For S. S. Libraries, &c., see page i.

There are several beautiful locations in Port Perry suitable for private residences. The lake is about 14 miles long and from three-quarters to one mile wide.

In the year 1871, the Port Whitby & Port Perry Railway was completed from Whitby, which connects regularly with steamers on the lake for Lindsay and all points north. The village has within the last few years made unusual progress. The surrounding country is of an excellent quality and the mercantile, mechanical, agricultural and general prosperity of Port Perry will compare favourably with that of any other village in the province.

The following are the chief manufacturing establishments:—Paxton, Tate & Co's foundry and agricultural works, including mill machinery, &c., woollen factory, grist mill, saw mill, planing mill and sash and door factory, stave and heading factory, three cabinet and furniture factories.

The churches are: one Presbyterian, one English, one Wesleyan Methodist, one Methodist Episcopal, and one Baptist Church.

Of other public buildings the village possesses a United Grammar and Common School, several large and handsome stores, hotels, two banks, Freemason and Oddfellow's lodge, Forester's Court, Good Templar and Sons of Temperance Halls, &c. The village also possesses an excellent brass band.

Population about 1,800.

A rising village situated on the Toronto & Nipissing Railway, 53 miles north-east of Toronto, and 12 miles from Uxbridge. Central in the Township of Brock and surrounded with a fine farming country, it has made great progress within the last five years. Three large blocks have been put up for stores and offices. There is a planing, door and sash factory, a shingle factory, five good general stores, drug store, an agricultural warehouse, two commodious hotels, two tin and stove shops, two harness shops, a rather extensive carriage shop, two blacksmith shops and other small business places.

There are three churches M. & N. C. Wesleyan, and English, the two latter brick; a very large town hall and

UXBRIDGE.

One of the smartest and most enterprising Villages in the province, is situated in the Township of Uxbridge and is surrounded by an excellent farming community, is 20 miles North of Whitby, and the principal station on the Toronto & Nipissing Railway. It was founded in the year 1870 and was incorporated in 1872.

There are several manufacturing establishments here, viz: a large Cabinet and Organ Company, where the celebrated Uxbridge Organs are manufactured. This firm employs about 60 hands in the several departments, turning out from 700 to 800 Organs annually; also a large business is done in furniture and cabinet ware. The Toronto & Nipissing car works employ a large number of hands. There are three planing mills, sash & door factories, two saw mills, three grist mills two of them owned by Joseph Gould, Esq., the other by George Wheeler, Esq.; one tannery, Mr. Patterson, proprietor; one woollen factory, I. J. Gould proprietor; one foundry and agricultural works; three carriage shops, and the

usual number of tradesman.

The village was first settled about the year 1817 by Thomas Hilborn Esq., senr., and Mr. Joseph Collins, the latter of whom shortly after built a grist mill which in those days was a great undertaking, requiring both energy and enterprise. The first store was opened by Mr. Carlton Lynde about the year 1830, and the first postmaster was Mr. Joseph Bascom, senr.

The village has within the last three years made unusual progress. The surrounding country is of an excellent quality and the mercantile, mechanical, agricultural and general prosperity of Uxbridge will compare favourably with that of any other Town in the Province. There are several beautiful locations in Uxbridge suitable for private residences.

The civil societies are represented by one Free Mason lodge, one Odd Fellows Lodge, one Ancient Order of Foresters Court, one Division Sons of Temperance, and one Good Templars. There are also a number of Churches, viz: one Church of England, built of wood in 1852, at a cost of about \$1,200; one Roman Catholic, built of brick in 1866 at a cost of about \$1,400; one Methodist Episcopal, built of wood in 1867, at a cost of about \$1,200; one Canada Methodist, also of wood, erected in 1854 and enlarged in 1867, entire cost about \$2,200; one Regular Baptist, built of wood in 1861, at a cost of almost \$1,200; one Bible Christian, built of wood in 1862, at a cost of about \$1,000; one Presbyterian built of brick in 1869 at a cost of about \$3,500, one large Town Hall, built of wood in 1868 at a cost of about \$1000; one Grammar & Common School House built of brick in 1873, at the cost of about \$12,000.

Population about 2,000.

TOWNSHIP OF PICKERING

The township of Pickering is bounded on the north by the township of Uxbridge, on the south by Lake Ontario, on the east by the township of Whitby, and on the west by the townships of Markham and Scarborough, county of York. This township being the largest, together with the richness of its soil makes it one of the most wealthy municipalities in the county. Its principal villages are Whitevale, Brougham, Claremont and Duffin's Creek. Population over 8,000.

Read the following testimonials from some of the judges of Organs.—Testimonial from John Camidge, F.R.S., F.A.S., F.Cantaur., England.

To the Manager, Dominion Organ Co.

Bowmanville, 24th Dec., 1875.

GENTLEMEN.—I like to play on your Organs the tone is so sweet and steady, & the workmanship and finish excellent, and in every particular they are equal, if not superior, to any I have ever heard. Hoping they will meet with public approbation.

JOHN CAMIDGE.

Read the following from ROSA D'ERINA:

To the Managers Dominion Organ Co.

Bowmanville, Dec. 22nd, 1873.

GENTLEMEN.—I have much pleasure in testifying to the excellent qualities of the Organ supplied by you at my Concert last Saturday evening. The tone is sweet and very powerful, and the combination of stops most admirable. I am sure your instruments will find favor in Churches, as they are singularly adapted for sacred music. Wishing you every success, and that the public may patronize native manufacture.

I remain, Gentlemen, very respectfully, ROSA D'ERINA.

Every Instrument Warranted for 5 Years.

H. O'HARA, President.
