EAGER TO HAVE HON. MR. FIELDING

Strong Bid For Him to Enter Imperial Parliament

AFRAID CAN NOT GET HIM

Next British Elections, However, Likely to Bring Into Field Good Number of Canadian Candidates For Honors at Westminster

London, April 9.—The next election will bring into the field not a few Canadian candidates for parliamentary honors at Westminster and it can be reasonably hoped that the already large number of Canadian-born members in the house will be augmented. Nowadays there are so many wealthy men from the dominions who are living here permanently that it need occasion no surprise to find them invading the political field.

It is an open secret that Hon. W. S. Fielding has more than once been invited to offer himself for election by the government whips, who believe they would have in him a source of strength on those sorely discussed questions, free trade and tariff reform. Up to the present, however, Mr. Fielding's health has not been too good and this and other reasons have prevented him from accepting the invitation, though it was couched in most cordial terms and carried the strong support of the prime minister.

When Mr. Fielding recently took up the cudgels on behalf of Canadian questions, then a subject of wide discussion, it was taken as a sign of increased interest in political matters which might ripen into practical action, but he adheres to his former decision, and after his return from Canada will spend some months in France.

Discussing the question of Canadian entering British political life a member of the house expressed the opinion that he would naturally be an increasing tendency in that direction. The recent session had illustrated how many questions had a "Canadian" side. Interdependent already to a certain extent, the politics of Great Britain and the overseas dominions might be expected to become more so in the future. There was a very general feeling that the introduction of colonial members would add greatly to the legislative strength of the house, quicken imperial interest, and was desirable particularly in view of the fact that the rapid development of those dominions would materially increase their power in the administration of the empire.

Among the Canadians who have been invited to contest seats in this country R. B. Bennett, K. C., of Calgary, but he will not accept. W. P. Bull, K. C., of Toronto, who is living in this country, is another, and it would not be a surprise to find him in the field at the next election. Harry Symonds, K. C., of Toronto, who is actively engaged and will be the Unionist candidate for Walthamstow, one of the largest constituencies in Great Britain, opposing Sir John Simon, the solicitor-general. H. A. Richardson, formerly of Halifax, who was defeated at the last election will again put up for the Stockton-Tees division as a Unionist. He is a strong tariff reformer and vice-president of the Tariff Reform League.

ENGLAND WILL BENEFIT GREATLY

Manufacturers See Golden Chance in U. S. Tariff Changes

Canadian Trade With United States Will Be Largely Increased, Says London Chamber of Commerce Man—Industries Which Will Be Helped

(Canadian Press)

New York, April 9.—A cable to the Tribune from London says:—English manufacturers and business men see in President Wilson's proposed tariff reductions a golden chance for English manufacturers. Commercial circles here are giving a great deal of attention to democratic tariff plans which they expect to be of great benefit to imperial trade and, in a less degree, to purely English trade. A well known member of the London Chamber of Commerce said:—"If the proposals are passed as they stand, they will be of great benefit to British trade. The removal of the duties on raw wool will certainly stimulate our woolen trade. The reduction of the sugar duty will greatly help the West Indies and indirectly ourselves. Canada will benefit by the reduction in the duty on iron and steel. The new tariff will greatly increase the trade between the United States and the dominions. We used to export great quantities

of cotton and linen goods to America, but the mills of Massachusetts are now so good that we had hardly hope to increase our present exports in these commodities, except in the finer grades. Cotton and steel trade will benefit from the fact that steel rails, hoop bands and iron are on the free list. Sheffield is no doubt pleased at the reduction of the duties on all kinds of cutlery and razors. That England will benefit, there can be no question."

A prominent Bradford wool manufacturer said that through the reduction of wool duty there would be competition of buying wool between Yorkshire and America, and that prices would go up as a consequence. Another would buy great quantities of Yorkshire manufactured woolen articles. H. C. Field, chairman of the tariff committee of the Birmingham Chamber of Commerce, said that lowering the duties would reduce the cost of production and that Americans would be better able to compete with England in the markets of the world. (Continued on page 3, fifth column.)

FINANCIER'S BODY TO LIE IN STATE IN NEW YORK HOME

Beauty Roses But no Set Pieces About the Bier at Morgan Obsequies

New York, April 9.—The body of J. P. Morgan will lie in state from the time of his arrival on Friday until Monday morning in the bedroom of his Avenue 61 home, where the financier met his direct and transient end. The greater part of his business in recent years.

The room is built of white stone, with red Turkish carpets and hangings. The casket will be placed on a funeral bier under the portraits of the dead banker's father and his mother.

Mr. Morgan's favorite flowers, deep red roses and American beauties will be used exclusively for the funeral. No set floral pieces will be placed there, but hundreds of roses will be scattered about the casket and the home-like simple fashion, that Mr. Morgan liked best.

A successful and enjoyable bridge party was held last evening in St. Peter's Hall in Elm street under the auspices of the St. Elizabeth Sewing Circle. It was well attended, the fifty or sixty tables provided being filled, and every one present thoroughly enjoyed the affair. The prizes, ladies prizes were won by Mrs. Daniel Deardon, first card; Mrs. John P. Doherty, second; and Mrs. J. M. McFentyre, third. The committee having charge of the bridge was composed of Mrs. Sarah Lynch, Mrs. Herbert Lyons, Mrs. Joseph Walsh, Mrs. Patrick Murray, Mrs. P. Moloney, and Miss Margaret Tierney, and they were assisted by Mrs. W. J. ladies in the general arrangement and in the serving of refreshments. The hall was nicely decorated, musical programme was rendered by the Y. M. C. A. orchestra under direction of John M. McBride.

BRIDGE ENJOYED AND WAS GREAT SUCCESS

FOR MORE WATER AND IMPROVED PARKS

Nanaimo, B. C., April 8.—This city is intensely interested in two civic movements. They are the establishment of a permanent and efficient water system, and the laying out of a public park system.

In connection with the perfecting of the water system of the city, which involves the improvement of the existing mains and their extension to a great extent to supply the city's needs with ease for many years to come, it is proposed to spend \$115,000.

A BLOCAGE AGAIN Almost every day sees stronger evidence of the growing need of providing a remedy for the congestion of several miles of street. A few days ago attention was drawn to a block of several miles in progress, and this morning about eleven o'clock there was a repetition. A lengthy train of freight cars was being shunted over the crossing while traffic piled up on either side of the gates. The freight was halted while not yet across and the gates remained down for several moments, each adding to the jam. While three street cars were brought to a stop on each side. When the shunting process was finally ended six street cars, several teams, horse and pedicabs were allowed to proceed.

REWARD FOR CAPTURE OF ACCELDIARY

Commissioners Decide To Make Offer of \$250

WORK IN THE HARBOR

Action to Ensure St. John Being Selected For The Mail Service—Contracts For Pipe—New Street Lights to Number Forty

A reward of \$250 for information leading to the arrest and conviction of person or persons causing incendiary fires was decided upon by the common council at special session on one o'clock today. Other matters were dealt with.

The commissioner of safety recommended that he be authorized to arrange in his discretion for the fitting of the butcher's stalls and racks and also the stands in the city market, for one year from the first day of May next, on such terms and conditions as he may find advisable; and that the previous resolution authorizing the installation of additional street lights be amended to provide for forty instead of thirty lights—

The commissioner of water and sewerage recommended that the tender of John Birch, & Co., to supply about 265 tons of cast iron water pipes, according to specification, be accepted, namely:—

Twelve inch at \$27.25 per ton, delivered on wharf, not piled, and shilled; 10 inch at \$27.94; 8 inch at \$28.25; 6 inch at \$29.00; 4 inch at \$30.50; duty to be paid by the city; and the man of the B. A. Armstrong property at Duck Lake be purchased for the sum of \$1,000.—arranged.

The commissioner of harbor, ferries and public lands recommended that he be authorized to ask the dominion government to complete the dredging of the "Mavy Island" bar to the extent of about 100 feet in order to improve the ferry route and harbor navigation generally.—arranged.

Mayor Prink said it was gratifying to the citizens to note that in the new mail contracts of an expert detective, if he were allowed to select either St. John or Halifax as terminus. In view of this the commissioner of harbor and ferries had suggested that it might be desirable to remove his efforts to ensure having the harbor in the best condition to facilitate the handling of the mail boats by next winter, and that the man of the B. A. Armstrong property were now on an equal footing and all that St. John had ever asked was a fair share of the business.

Mr. Schofield said the matter of securing the best possible facilities for next winter was an expert detective, if he were allowed to select either St. John or Halifax as terminus. In view of this the commissioner of harbor and ferries had suggested that it might be desirable to remove his efforts to ensure having the harbor in the best condition to facilitate the handling of the mail boats by next winter, and that the man of the B. A. Armstrong property were now on an equal footing and all that St. John had ever asked was a fair share of the business.

Commissioner McFadden said that a reward of \$250 be offered for information leading to the arrest and conviction of person or persons causing incendiary fires. He said it was the duty of the city not merely to stand by and wait for arrests but to offer some incentive to greater energy.

In seconding the motion Commissioner Agar said there was much unrest as a result of recent fires and a panic would follow if it was not stopped.

Commissioner Wigmore said a reward might be of more value than the services of plainclothes men whose names had already appeared in the papers and who were thus known to the criminal.

Mayor Prink suggested that it might be better to spend the money in securing the services of an expert detective, if he were allowed to select either St. John or Halifax as terminus. In view of this the commissioner of harbor and ferries had suggested that it might be desirable to remove his efforts to ensure having the harbor in the best condition to facilitate the handling of the mail boats by next winter, and that the man of the B. A. Armstrong property were now on an equal footing and all that St. John had ever asked was a fair share of the business.

Mr. Schofield thought it would take familiar with local conditions and thought that a reward of \$250 might be of more value than the services of plainclothes men whose names had already appeared in the papers and who were thus known to the criminal.

He believed the fire might be due to numerous gangs of young men and boys and that there were not only one or ten such gangs but at least twenty.

Commissioner Schofield thought the detection of those who were setting the fires would be clear at \$250.

The motion was adopted and the council adjourned.

FREDERICTON WEDDING

Fredericton, N. B., April 9.—Charles Albert Kitchen, eldest son of Hamilton G. Kitchen, and Miss Robena Lillian Colwell, daughter of Conductor C. H. Colwell, were married at the bride's home this afternoon by Rev. Dr. Gates in the presence of invited guests. The bride was attended by Miss Lillian Kitchen, sister of the groom while Charles Colwell was best man. After the ceremony refreshments were served. Mr. and Mrs. Kitchen received handsome presents. They will leave this evening on a trip to Boston and New York.

THE SITUATION IS LESS TENSE

England Sees European Outlook Through Brighter Glasses

London Times Thinks Borden Naval Bill is in Jeopardy—Woodrow Wilson Lauded in Old Country—The Suffragettes

(Times Special Cable)

London, Eng., April 9.—The European situation has sensibly improved. The feeling of tension which reached its height on Monday has greatly slackened. It is now believed King Nicholas will be offered substantial compensation, possibly pecuniary recompense for abandoning Scutari. Dr. Rimov, in an important and evidently inspired St. Petersburg message to the Daily Telegraph, declared that Russia vigorously supporting the proposal. The suffragist expectations that Mrs. Pankhurst would be released yesterday were disappointed. They now declare confidence in her release today. They have prepared for a demonstration meeting in Albert Hall tomorrow evening, anticipating her presence. Mrs. Pankhurst has consistently refused all food while in prison, but her five days fast has so far only produced only slight effects. The prison doctors believe she had some store of highly concentrated nourishment in her clothes. This is improbable. She will be released on license when the doctors report she is in danger of collapse through voluntary starvation. On recovery from the effects of starvation she will be liable to re-arrest.

Yesterday Olive Wharry, sentenced to eighteen months imprisonment for the Kew pavilion, was released for 29 days after thirty days starvation. She generally has maintained some trade, despite the tremendous tariff wall, and they will now soar in a trade in which England leads the world. British tailors are already contemplating enlarging their premises. A most remarkable development will probably be in the shoe trade. Twelve years ago British shoemakers, alarmed by American competition, modernized their plant methods. They swept American shoes out of the English market, and have recently exported to the states.

They believe that, owing to the high quality of British leather, this trade will now grow by leaps and bounds. The suffragist expectations that Mrs. Pankhurst would be released yesterday were disappointed. They now declare confidence in her release today. EATING EVEN THE BARK OF TREES

Fearful State of Turks After Adrianople

MANY DYING EVERY DAY

Supplies Cut Off by Action of Turkish Commander—Bulgarians Helping the Afflicted—Grim Tale Comes Out of War Centre

London, April 9.—Hundreds of Turkish soldiers who survived the siege of Adrianople are dying of exhaustion and cholera in the concentration camp outside that city, according to the correspondent of the Daily Telegraph.

"The battle having ceased," writes the correspondent, "death continues its work and is cruelly piling up corpses. The guns began and the cholera, dysentery and hunger—the rear guard of war—are prolonging the massacre." The dispatch adds:—"When the Turkish commander caused the destruction of the provisions remaining in the garrison and blew up the bridge across the Arda, thus cutting the road for supply trains, he did not think that he was condemning to death the weakest, the most helpless, the most exhausted part of his army."

The Bulgarians distributed some bread, but are unable to do more until the bridge has been repaired. A few days after the capitulation the cholera broke out among the prisoners. Healthy prisoners were sent away in swarms, doctors were summoned, but in the primitive camp it remains thousands of men who fall day by day under the invisible heel of death.

The camp presents a monstrous prospect of living, dying and dead. The soldiers belonging to Adrianople are provided with food by their families, but others, wrapped in rags and huddled in wretched dens, plaintively demand water, which, although muddy, they drink greedily.

A Mysterious Murder "This is a crowd of men who have suffered too much," who can march no more, whom nothing can save, whom death has seized while they are still living. At one end of the encampment a line of blue canvas passes and re-passes, bearing corpses from the field of horror to the other side of the bridge where the healthy prisoners are digging enormous trenches. There are tents, which should be hospitals, but the men go there to die. It is a monstrous morgue, the ground all round is covered with corpses, hundreds of human forms, in horridly disorder, dying and dead.

"A Turkish chemist, who was serving out quinine, said that the men were dying of dysentery and cholera, and that some of the bodies were being buried in the trenches. The forenoon that day 100 had died. A Bulgarian officer in charge of the burial said he had seen them die. He said that the men were dying of cholera, but others are exhausted and die of cold and hunger. Did you see the face of some of the men who have eaten the bark?"

AMBULANCE OUT IN EARLY MORN INSTEAD OF POLICE WAGON

The ambulance was called out about one o'clock this morning. The challenge was received that a man had been hurt near the site of the sugar refinery but when the vehicle arrived it was found that the man supposed to be injured had been inebriated too freely, and it seemed that the ambulance had been called to take him to his boarding house a few streets distant. This is the second instance of recent origin in which the ambulance was called for this purpose, and the caretaker says he intends not to let it drop but to make some one pay for the early morning call, which he considers unnecessary.

LIPTON'S PLANS TO CAPTURE THE CUP

London, April 9.—The luck will be all with us this time. The challenge is the four leaved Shamrock, while the New York Yacht Club will be defending the America's cup for the thirteenth time, said Sir Charles E. Nicholson, yacht designer of Gosport, England, today, who is to design the boat which will seek to win back for the British the America's cup.

This will not be Nicholson's first connection with the contest for the cup, his yards at Gosport having been used to dock the original America when she was under repairs.

"I wish to correct the unfortunate impression prevailing in the United States that I am afraid of a 90-foot yacht. I believe I could build one which would cross the Atlantic safely, but a 75-footer, which under present conditions is as large and expensive as the 90-footer of twenty years ago, is the boat which prudence and reason dictate.

"I have the greatest admiration for the genius and cleverness of American designers. These, coupled with the fact that all the conditions are in favor of the defender, make the task of designing a challenging yacht one of the keenest interest, calling for every ounce of ability I may possess."

"I hope Gardiner as well as Herreshoff will be given a chance to design the defender. If so the preliminary races will be almost as interesting as the final cup contest. I have already erected a shed at the Gosport yards for the challenger, and intend plans well under way. I expect to launch her in April, 1914.

"I hope in case the America's cup returns to British Isles that the result will be the formation of a code governing all international yacht racing."

FOUR ARE HANGED

Two Whites and Two Blacks Executed in Alabama

Montgomery, Alb., April 9.—Two white men and two negroes, convicted of murder in Montgomery county, were hanged in the jail here. The first of the condemned to mount the scaffold was C. Walter Jones, white, sentenced for the murder of Sloan Poyan in a railroad train here. The trap was sprung at 6:15 o'clock, but the rope slipped and Jones was not pronounced dead until thirty-six minutes later.

Persons who witnessed the execution said deputies were compelled to hold Jones' body away from the floor.

The trap was sprung on Arnold Gilmer, white, at 7:18 o'clock. Seven minutes later physicians pronounced him dead. Gilmer was condemned for the murder of Mrs. Lucille Tippetts on December 23, 1911.

John Adams, a negro, who killed a Montgomery patrolman, was pronounced dead fourteen minutes after the drop was sprung.

Sixteen minutes were required for the execution of Coleman Gorman, colored, who killed his wife.

THE RIVER. It is hardly expected that the steamer D. J. Purdy will go to Fredericton this week, as ice is reported from the upper section. The Majestic, which it was also thought would go to the Washademoak this week, will not go until early next week, probably on Tuesday, as repairs are not altogether completed.

WEATHER BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Stuart, director of meteorological service.

Synopsis.—The disturbance which has been hovering in the southwest states is now moving towards the Great Lakes while the pronounced high area is passing eastward. Fair weather prevails generally but the outlook is stormy for the Great Lakes.

Cool and Fair. Maritime—Fresh north to east winds, fair and cool today and on Thursday.

FOR MORE WATER AND IMPROVED PARKS

Nanaimo, B. C., April 8.—This city is intensely interested in two civic movements. They are the establishment of a permanent and efficient water system, and the laying out of a public park system.

In connection with the perfecting of the water system of the city, which involves the improvement of the existing mains and their extension to a great extent to supply the city's needs with ease for many years to come, it is proposed to spend \$115,000.

When the shunting process was finally ended six street cars, several teams, horse and pedicabs were allowed to proceed.

INSPECTION TRIP. Mr. Brady of Montreal, and J. T. Halliday of the I. C. R., were in the city this morning on a visit of inspection. In company with L. R. Ross, terminal agent, they visited the road properties, yards, piers, etc., returning home on the 12:40 express which was about half an hour late.

NEW HIGH MARK FOR TIMES

The Evening Times has a daily circulation of considerably more than 12,000 copies. The exact figures yesterday made a new record. They were: 12,506 Copies

The Evening Times practically blankets the city and suburbs every day. Is your Ad. in The Times?

FIRST BALL GOES OVER PLATE TODAY

National League Season Opened on Brooklyn Diamond—All at it Tomorrow

New York, April 9.—Under a brilliant April sun, major league baseball got its first trip of the season on Saturday, going to Grand Lake, on her regular route. The ice is not yet all out of the lake but it is broken sufficiently to allow the boat to go part of the distance to Chipman.

DEATH OF A CHILD. Mr. and Mrs. Alfred L. Bayles, of west end, will have the sympathy of many friends in the death of their youngest son, Clarence Arnold, which took place yesterday.

NAVIGATION RESUMED. The steamer Empress made her first trip yesterday on the Summerside and Point St. Charles route. Her first trip last year was on April 23.

FAIRVILLE ARREST. A woman was before Magistrate Alling today in the Fairville police court this morning, charged with drunkenness and disturbing the peace and was sent for eighteen months to the Home of the Good Shepherd.

MISAPPROPRIATION CHARGED AGAINST A CALGARY MAN. Calgary, April 9.—Hugh E. Gills, former city clerk, who was arrested on an embezzlement charge yesterday afternoon, on a warrant sworn out by J. M. Gray, charged with having misappropriated \$2,400 which came into his possession while he was acting as solicitor for Gray, furnished bonds and was released.

MAY QUEEN TO START. The steamer May Queen will make her first trip of the season on Saturday, going to Grand Lake, on her regular route. The ice is not yet all out of the lake but it is broken sufficiently to allow the boat to go part of the distance to Chipman.

HURT HIS HEAD. While employed this morning at his work as ship carpenter at Hyatt's Blocks, North End, Wilbert Thompson, of 570 Main street, was severely injured about the head when an axe which he was swinging glanced and cut a deep gash. Dr. C. M. Pratt dressed the wound and took six or seven stitches.

Why Duffy's Malt Gives Health and Strength

Duffy's Pure Malt Whiskey has been for fifty years one of the greatest restoratives known to medical science

Duffy's Pure Malt Whiskey

One of the results of this process is to obtain a whiskey of such purity and quality as compares with the test requirements of the United States Pharmacopoeia. As the pharmacopoeial standard does not require that the grain be all malted, as found in Duffy's Pure Malt Whiskey, it will be seen our process gives a whiskey superior to the requirements of the United States Standard. Another result is to secure that wonderful palatability and delicacy of flavor for which Duffy's has always been celebrated and which renders it acceptable to stomachs which will not even retain other whiskeys or the most easily digested food.

Traveling Man's Remarkable Statement

Several years ago I was troubled with Bright's Disease, which worried me a great deal as my father who had doctored a long time with the best doctors of Kendallville, Ind., without relief or cure, died of that dreadful disease. Having been around my father most of the time during his illness, I became familiar with the symptoms of Bright's Disease. When I had my first attack my face became swollen and all grew black before my eyes and I felt as though there was little hope for me. After having several of these attacks, I began taking Dr. Kilmer's Swamp-Root, which my wife recommended to me and noticing some improvement continued its use for one year, never missing one day but taking same as regular as though a physician was prescribing for me. It is now two years that I discontinued the use of Swamp-Root as I consider myself absolutely cured of any trouble, having had no use for a doctor or any other medicine and have been able to resume my position on the road. I fully believe that had my father taken Swamp-Root in time, he would have been alive today and we would have been saved many a big doctor bill. I believe that if people afflicted with any kind of kidney or bladder disease would take Swamp-Root in time and use it regularly, they would cure themselves and save much suffering as well as big doctor bills. I feel very grateful towards your medicine and never fail to tell what Swamp-Root did for me. You are at liberty to use this testimony at any time.

Yours very truly,
JOHN DUERR,
1428 Locust St., Des Moines, Iowa,
State of Iowa.
Personally appeared before me, this 23rd of July, 1909, John Duerr, who subscribed the above statement and made oath that same is true in substance and in fact.
EDWIN J. FRISK,
Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.
Prove What Swamp-Root Will Do For You
Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the St. John Evening Times. Regular 75 and \$1.25 size bottles for sale at all drug stores in Canada.

WEBSTER'S NEW ILLUSTRATED DICTIONARY

DICTIONARY COUPON

April 9, 1913

Cut out the above coupon, with five others of consecutive dates, and present them at this office, with the expense bonus amount herein set opposite any style of Dictionary selected (which covers the terms of the cost of purchase from the factory, checking, clerk hire and other necessary EXPENSE items), and receive your choice of these three books:

The \$2.00 WEBSTER'S NEW ILLUSTRATED DICTIONARY It is plain cloth binding, stamped in gold and black; has same paper, same illustrations, but all of the col-ored plates and charts are omitted. SIX consecutive Coupons and the... **48c**

Little Beauty Chats
By BLANCHE BEACON

The Way to Look Pretty in the Evening

IT TAKES a really beautiful woman to look well in broad daylight, but when the shadows lengthen and the sun sinks out of sight, even a homely woman can look pretty if she knows how to make the best of herself. I have no pity for the woman who does not look pretty by electric light, as the evening shadows may, bit by bit, steal away your beauty, until, when blackest night arrives and the rooms are flooded with freight and electric light, you look too ghastly for words. Do not rest satisfied with the knowledge that you look pretty by daylight as the evening shadows may, bit by bit, steal away your beauty, until, when blackest night arrives and the rooms are flooded with freight and electric light, you look too ghastly for words. Remember it is just as essential to know how to look well by artificial light as it is by daylight. If you expect to look pretty in the evening, every woman you must resort to artificial means. Artificial lighting calls for a heightening of the tints of the skin and hair. Do not mistake me. I do not intend you to paint your face or bleach your hair, but I do ask that you take advantage of all harmless beauty aids. Look in your mirror, before tipping down to dinner, and see if your cheeks and lips too—are pale. If such is the case, surely there would be no harm in your massaging them for a few minutes with a tiny chunk of ice. The color will be tinted them the prettiest red imaginable. If the hair be lack-luster, rub it over with a little perfumed oil as no one notices absent-mindedness. Glossy hair dressed artistically is a beauty point in itself. I wonder if the girl who allows powder in reading this same method, without a little more of it, she will be veiled when I say that only the foolish woman disdains the aid of powder when making her evening toilette. The opponents of powder may say what they will—there is no denying the fact that it covers a multitude of sins.

It's Easy to Peel Off All Your Freckles

(From American Home.)
The contrast between the freckles and the clear skin usually is so great that no bleaching can be more than partially successful in obliterating the disfigurements. Ordinary mercurized wax is far better; it literally peels off the freckles. Get an ounce of it at the nearest drug store and tonight spread on enough to completely cover your face; remove in the morning with warm water. Repeat daily until every freckle has disappeared. Rough, blotchy, pimpled skin, also common at this season, may be entirely gotten rid of by the same method, without discomfort or inconvenience. The effort is decidedly worth while, the new complexion obtained being so clear, smooth and youthful. If bothered with wrinkles, after washing off the mercurized wax, bathe the face in a lotion made by dissolving an ounce of powdered azoicite in a half pint of witch hazel. This is the most effective and quickest-acting wrinkle treatment known.

TO PREVENT THE GRIP

LAXATIVE BROMO Quinine removes the cause. There is only one "BROMO QUININE." Look for signature of E. W. GROVE. 25c.

D & A CORSET

The Corset that Enhances the Charms of Youth

Very young women need this corset. It gives the exact foundation required for the successful fashionable costume, supports the back, encloses the hips, gives to the figure a more mature appearance and is so graceful and so comfortable that wearing it is a positive pleasure. And Doctors tell us this is the model which every young woman should adopt. The price is \$1.00 to \$3.00 less than that at which any imported corset of similar quality sells.

D. & A. No. 458 of medium height and length—Lace and Ribbon trimmed. Sixty-six supporters—White coutille \$1.50 at all dealers.

There is a D. & A. and La Diva model for every figure. Our catalogue sent free on request, will help you choose the best for yours.

Furniture And Home Furnishings

Rainbow the 24 karat flour

Just as the metal refiner repeatedly skims off the dross from the molten gold, so we remove, by repeated bolting, the fibre, embryo germ and other dross of the wheat that enters into the making of Rainbow Flour.

Were Karat marks given to flour, Rainbow would win the verdict "24 Karat." And it is the only flour that would be entitled to such distinction. For in its milling, the less desirable elements are most painstakingly removed.

We utilize only the choicest portion of the wheat berry. There is not a trace of fibre in Rainbow Flour—not a trace of dirt or germ—nothing remains but the pure starch and gluten.

What bread it makes! Snow-white and flaky—a mouth-melting delight!

Test some and you'll agree it's the one 24 Karat Flour.

THREE THOUSAND SOLDIERS ON STRIKE DUTY IN BUFFALO

Buffalo, April 9.—Two thousand members of the fourth brigade of the National Guards, summoned to strike duty to put down disorders arising from the strike of the motormen and conductors of the International Railway Company, were quartered in the armories here at daylight.

At 10.30 o'clock this morning no attempt had been made to operate a car on any of the company's lines.

A special detail of mounted scouts of the 47th regiment, was fired upon at the corner of Niagara and Tonawanda streets this morning. The militiamen charged the crowd but did not capture the men who fired the shots. No one was injured.

ENGLISHMEN TO PROVINCE FARMS

Moncton, April 9.—L. T. Harrison is expecting half a dozen Englishmen who have taken up farms in New Brunswick, to arrive soon. They left England on the S. S. Canada and will probably arrive about April 14. There are large land deals pending.

At the home of Mr. and Mrs. Thomas Milton, Taylor P. Cameron, foreman at the I. C. R. roundhouse, and Miss Rosie Chamberlain, of Buctouche, were united in marriage by Rev. E. H. Cochrane, of Highfield street Baptist church. Mr. and Mrs. Cameron left today on a wedding trip through the maritime provinces.

John Bourgeois and Teddy Managage, in the police court this morning, were fined \$50 or three months in jail for violation of the C. T. A. Act.

Joseph Elliott, a local bowler, last evening rolled three strings with an average of 84.

REAL ESTATE NEWS

The property transferred and registered during the half week ending April 8, was as follows: Charlotte L. and S. B. Bustin to F. A. French, property in Cedar street; Agnesa Duncan to G. A. Black, property in Mount Pleasant avenue; Eastern Terminal Realty Co., Ltd. to Presbyterian church, property at Simonds; J. L. Lely to A. H. Lely, property at Simonds; George McArthur to R. D. Paterson, property in Prince William street; Edward O'Brien to W. J. Gravford, property at Simonds; Cornelia Regan to Ellen E. W. of Harry Cox, property in Britain street.

D. H. McNutt of Sussex has purchased from James A. Slackhouse a freehold with two story structure containing grocery store and tenement in Prince street, W. E. The price is said to be about \$2,000.

SUPREME COURT

Fredrickson, N. B., April 9.—In the supreme court this morning in quo warranto proceedings against Mayor Grosvenor, of Moncton, James Sherran, counsel for P. Gallagher, of Moncton, asked that the matter stand until the next term, so that he might have opportunity to answer affidavits of Mayor Grosvenor, served only a short time before the court opened. The request was allowed.

The King vs. the Town of Grand Falls, ex parte Grand Falls Power Co., P. J. Hughes showed cause against, and order nisi to quash an assessment. F. R. Taylor supported the rule. The court considers.

HAD TO STAY HERE

Passengers on the Boston train due here last evening at 11.20 o'clock were none too well pleased when the train rolled in about 1 o'clock this morning. They found that the late Halifax train had gone, and connections being missed they were compelled to remain in the city until early this morning.

COAL SENT UP TO \$9.50 FOR SCOTCH, \$9 FOR AMERICAN

The cost of hard coal has reached a high figure during the last week. American hard coal is selling for \$9 a ton and for the stove sizes of Scotch coal most of the dealers are asking \$9.50. Whatever reason may be given for the price of the American coal one dealer at least disputes the existence of any excess for the price of Scotch coal and he is still selling at \$8 and \$8.50 a ton. He says that he is paying the same price for the coal now that he paid last summer and he sees no reason for imposing an extra price on his customers.

The reason given by other dealers is the scarcity of Scotch coal caused by the delay of the steamer Casandra.

GUARD AGAINST FIRE ALONG THE RAILWAYS IN NEW-BRUNSWICK

Fredrickton, April 9.—Olyde Leavitt, forestry inspector for the railway commission, held a conference yesterday with Superintendent Downie of the C. P. R. and the deputy superintendent in regard to forest fire protection along the C. P. R. Mr. Downie gave assurances that the railway would heartily cooperate. It is understood that the game wardens, Arthur O'Leary, of Richibucto, and John McElbion, of St. Stephen, will have charge of the new fire patrol system.

NEW SETTLERS

James Gilchrist, provincial immigration agent, has left for Halifax to meet the Empress of Britain which is bringing a party of more than 200 new settlers for this province.

The Best Quality at a Reasonable Price Have You a Good Watch?

In these days when seconds count, it is practically impossible for a man to get along without a reliable timekeeper. If you are trying it, you know the inconvenience and the necessity for guessing, and the inevitable errors.

When watches can be bought so cheaply as now, why should you not have the right time?

For twenty-six dollars we sell a finely finished, 14K gold filled, an accurate timekeeper and thoroughly reliable.

We have watches as low as \$9 in filled cases.

DIVIDED OVER THE PROGRAMME FOR CLOSURE

Rogers Wants it at Once; Borden in a Few Days; Some Tories Say Whole Thing Wrong

(Special to Times)

Ottawa, April 9.—The closure will be moved this afternoon and the struggle will enter upon a new stage. The question of contribution or Canadian Navy will be replaced in debate by contention over free speech and closure. Premier Borden will move the closure resolution.

This morning there was a Conservative caucus and it is understood that three points of view are being put forward by the government members. The Rogers' group, which is growing, urged that the closure resolution should be put through by the force of the majority and the assistance of the chair. They contended if the speaker were instructed to ignore the opposition for five minutes the country would forget about the incident within a week and the trick would be done.

The Borden group expressed dread of such procedure and declared that the country would resent it. They favored bringing the opposition to opportunity for debate and observance of the present rules of parliament as long as they last.

There were several veterans who expressed the belief that the introduction of closure would prove a bad thing. Between these views it is understood that it was decided to allow the debate to go on for a few days at least before attempting to lay down the lid. However, it is likely to come down at any time.

The questions now interesting the lobbyists are:

"Will it be jam or debate?" "Will the opposition be able to block the closure measure off?" "What will the senate do with a naval bill forced through by closure?"

Will the British government permit the admiralty to accept a contribution obtained in this way?

The lapse of time will provide the answer.

TWO WEDDINGS OF MUCH INTEREST IN ST. JOHN TODAY

Foss-Knight

A very pretty wedding took place at 6 o'clock this morning in Trinity church when Rev. R. A. Armstrong united in marriage Miss Ruth Knight, daughter of Mrs. and Mr. J. H. Knight, and Carroll L. Foss, C.E., son of C. O. Foss, district engineer of the National Transcontinental Railway. The young people were unattended and the ceremony was performed in the presence of only their immediate relatives and friends. After the ceremony Mr. and Mrs. Foss left for a honeymoon trip to Boston, New York and the New Hampshire coast. The bride wore a pretty taupe colored travelling costume. On their return they will reside in the city.

The wedding of Miss Gwen Hilda MacDonald, daughter of Mr. and Mrs. Charles A. MacDonald, and Francis Peniston Johnston, of the staff of R. P. & W. F. Starr, will take place at 8 o'clock this evening in St. John's Stone church. The church and home of the bride are prettily decorated for the occasion.

L. C. R. OFFICIALS CONFER WITH COMMISSIONERS

Better Lighting at Gilbert's Crossing Among Matters Taken Up

F. P. Brady of the I. C. R. board of management, and B. Ross, terminal agent, were in conference with the city commissioners this morning. Mr. Brady promised to install another set of lights at Gilbert's Lane railway crossing immediately, and if this does not prove sufficient he will install another.

There was some discussion regarding the city's request for a siding from the I. C. R. tracks at the new crossing which is being prepared at Lower Cove for the city department of public works. It was suggested that the city might be able to connect with a siding for the exhibition grounds in order to save the cost of a separate track and Mr. Brady promised consideration.

The matter of encroachments by the I. C. R. on Lombard and South-west streets also was taken up. Railway blueprints were submitted showing the location of the proper lines for Lombard street and this proved acceptable to the commissioners.

There is still a dispute regarding South-west street and Mr. Brady promised to give the matter further attention.

With the managing officials was Robert Simpson of the I. C. R. Moncton. While about the depot they considered the matter of increased trackage facilities for car cleaning and other improvements about the yard and also the proposed change for the location of the ticket office in the depot.

ENGLAND WILL BENEFIT GREATLY

(Continued from page one)

Washington, April 9.—House Democrats held a caucus again today on the tariff bill after the majority of the ways and means committee had met to formulate a tariff programme for submission. The house itself had adjourned until tomorrow to give a full day for the majority to map out the lines for the work ahead. The caucus will be succeeded by others, one each day for several days and all will be secret. A fight, backed by the moral support of President Wilson for an open caucus was lost last night.

Vancouver, B. C., April 9.—Business men see a gain for British Columbia lumbermen in United States new tariff bill. It is believed that the single industry will receive a great stimulus from the proposed American schedule.

Quebec, April 9.—Professor Barnes of McGill gave a lecture on winter navigation before the Quebec Board of Trade yesterday. He said winter navigation was perfectly practicable.

BOSTON DOCTOR MAKES DISCOVERY IN FIGHT AGAINST THE CANCER

Boston, Mass., April 9.—The discovery of a chemical process which develops human cancer in healthy rabbits and guinea pigs and the resultant production of a serum by which rabbits have been rendered immune, were announced last night by Dr. Howard W. Nowell, of the Boston University school of medicine in an address at the 73rd annual meeting of the Massachusetts Homoeopathic Medical Society.

Dr. Nowell has been engaged in original research along this line for three years and his colleagues regard his discovery as an important step in the study of cancer.

While guarding against any impression that a cancer cure has been found, Dr. Nowell told of plans by which his hundred cases of human cancer are to be inoculated with the serum. It will require two years to determine whether or not the serum will immunize a human cancer victim, upon whom an operation has been performed, from a recurrence of the growth.

The Evening Times and Star

ST. JOHN, N. B., APRIL 9, 1913. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

MR. HAZEN'S DUTY. If the statement is correct that the Atlantic mail steamers are to be permitted to make their own choice of ports, it becomes the duty of Hon. J. D. Hazen, St. John's representative in the government, to see that the port of St. John is in a position to offer next winter every facility to the Canadian Pacific and Allan lines for docking their mail steamers here.

It is found in the free civic art gallery which has been established through its efforts at a cost of \$20,000, providing the nucleus of a permanent collection. The bureau conducts an art school and has also installed a museum of natural history and relics of the prairie provinces. During 1912, through the efforts of the educational committee, vocational lecture courses by business men were provided for the boys of the public schools, and provision is also made and assistance given for holding night technical lectures by men of recognized ability in their respective lines.

THEY HAD A GOOD TIME. The speakers at the meeting of the St. John Conservative Club last night are great imperialists, but have very little faith in the veracity of imperialist statements. The latter have declared over and over again that there is no emergency, and the Rt. Hon. Winston Churchill, first Lord of the Admiralty, has declared that three Dreadnoughts paid for by Canada are not necessary to maintain British naval supremacy, but these ardent St. John Tories assert that there is an emergency, and appear to hold the view that anybody who differs from them is more or less tainted with disloyalty.

There is to be an international congress on school hygiene in the city of Buffalo in August. Many Canadian delegates will be present. This reminds us that we are still without medical inspection in the schools of St. John.

There appears to be universal agreement that if the tariff measure is adopted as it stands, or even with some slight amendments, by the United States congress, it will confer a good deal of benefit upon Canada at large, and a great deal of benefit upon the maritime provinces.

Dr. Rowley tells us that Germany is fifty years ahead of Britain and the United States in the matter of right treatment of dumb animals. Germany leads, too, in town-planning and community work. That country does much more than build Dreadnoughts and vote army estimates.

Dr. Clark of Red Deer is a very sharp thorn in the side of the government at Ottawa. He brought the finance minister up with a sharp turn yesterday. Hon. Mr. White, accepting a Montreal Star cable as his authority, said that Rt. Hon. Winston Churchill had said that the Canadian Dreadnoughts were absolutely needed to maintain the required supremacy of the British navy. Dr. Clark produced the full text of Mr. Churchill's speech, and showed that he had said they were not necessary. Hon. Mr. White should be a little more careful as to his facts.

The Women's Canadian Club of St. John are to be congratulated upon giving the members and some invited guests the pleasure and the inspiration derived from the exceptionally able and well illustrated address by Dr. Rowley of Boston last evening. It would be difficult to make a stronger plea than that which Dr. Rowley made for our animal friends, and for the cultivation of the spirit of kindness to the whole animal world. Some of his remarks, such as those relating to egrets and to the slaughtering of animals for food, were decidedly pointed, and ought to leave a marked impression upon the minds of his hearers. Perhaps we in St. John will be stimulated by his address to pay a little more attention to the matters to which he has directed attention, and if so will have conferred a great benefit upon the city. Not only should the local Society for the Prevention of Cruelty to Animals receive stronger support and a wider sympathy in its work, but there should be a deeper interest in the welfare of those other animals—who are not dumb, and who are also human—the little children who are not getting a fair chance in life.

AN EXAMPLE FOR ST. JOHN. Winnipeg is a much larger city than St. John, but this city may take a leaf out of the book of Winnipeg with profit to itself. Canadian Finance in last week's issue sums up some of the things that have been accomplished by that organization of business men known as the Winnipeg Industrial Bureau, which not only deals with matters relating to industry and trade but social welfare, educational work and the encouraging of art. The bureau has no less than fourteen standing committees, composed of one hundred and twenty-five prominent business and professional men, all of them working for the good of the community. Perhaps the best illustration of the breadth of the work of the bureau

BIRTHDAYS OF NOTABILITIES

WEDNESDAY, APRIL NINE. Sir H. N. Bate, for many years chairman of the Ottawa Improvement Commission, is eighty-four years of age today. He is a native of Cornwall, England, and came to Ottawa in 1883 and engaged in the wholesale grocery business. The Right Rev. C. H. Brent, bishop of the Philippines, was born on April 9, 1862, in Newcastle, Ont. He was for some time a member of the staff of Trinity College School, Port Hope, and then took charge in Buffalo and Boston. He went to the Philippines in 1902.

LIGHTER VEIN. THE GRASPING LANDLORD. "Does he own much property?" "I should say he does. Why, at least \$100,000 to all the decorating his tenants have asked him to do so far this spring."—Detroit Free Press.

THE HUMAN HOG. Crawford—"Don't you believe that a man should be the architect of his own fortune?" Crabshaw—"That's all right; but he shouldn't build on the other fellow's lot."—Judge.

THE WAYS OF SOCIETY. "Fashionable people surely do get things mixed up." "In what way?" "What should be a horse show they make a dress parade, and a dress parade they call grand opera."

EVEN THE HORSE KNEW. The newly married pair had escaped from their demonstrative friends, and were on the way to the depot when the carriage stopped. The bridegroom looked out of the window impatiently. "What's the matter, driver?" he called. "The horse has thrown a shoe, sir," was the reply. "Great Scott!" groaned the bridegroom; "even the horse knows we're just married!"

JOHN'S REPLY. A good story is told about a West Country minister and his headle, showing the familiarity that used to exist between the minister and his man. The minister over sixteen thousand delegates in attendance. It became so hot that John was like to lose his temper. The minister naturally tried to throw oil on the troubled waters. "Man, John," he said, "it's a good thing we are not all of one mind. For example, had everybody been in my mind everybody would have been wanting my good wife Janet." "Very true," replied John, a little surly, "for if everybody had been in the same mind as me nobody would have taken her."

LANGUAGE. Dr. Ouler tells the following to illustrate the elasticity of the English language as used by the southern negro. One day there came to the clinic a negro with a broken jaw. The examining physician, interested in the exact nature and extent of the injury, asked numerous questions. To all of them the negro returned evasive answers. Finally she admitted that she was "hit by an object."

"Was it a large object or a small object?" asked the physician. "Tall by large." "Was it a hard object or a soft object?" "Tall by hard." "Was it coming rapidly or slowly?" "Tall by fast."

Then, her patience exhausted, the negro turned to the physician. "To tell the truth, doctor, I was just empty kick'd in the face by a gentleman friend."

"Silver Threads Amongst The Gold" There will be fewer threads amongst the gold when nervousness and worry are reduced to a minimum.

Peerless Hypophosphites strengthens the nerves and reduces worry, prevents the silver streak of grey from coming into your life as well as showing in your hair. Undue worry shows a loss of vitality. TAKE UP MATTER OF HOUSING HERE

Canadian Clubs to Join With Board of Trade

NOTED SPEAKERS COMING

Men's and Women's Associations Add Many to Membership Roll—Fine Address by Dr. Rowley on Animals and Treatment

The Canadian Club has two noted speakers in prospect, is growing rapidly in membership, and will join with the Board of Trade in bringing the housing question prominently before the citizens of St. John.

The executive of the club met yesterday afternoon. There were present Rev. G. A. Kurling, in the chair, Dr. T. D. Walker, James Jack, Rev. J. A. McKeak, B. Allan, G. Earle Logan, W. J. Mahoney, Fred A. Dykeman, A. M. Belding and H. A. Porter.

The next speaker before the club will be Prof. Kyle, of the University of Toronto, who on April 23 will speak on Canada East and West. He is a brilliant speaker.

The speaker to follow him will be C. E. Kahn, of Montreal, on or about May 20.

The names of several prominent speakers were referred to the secretary to communicate with them relative to addressing the club.

It was agreed that the club unite with the Board of Trade and the Women's Canadian Club to hold under their joint auspices a public meeting in Keith's assembly rooms on the evening of April 22, to discuss the housing problems in St. John.

The following new members were elected: Wellington Green, W. G. Tapley, Frank L. Harrison, J. Harold McKinney, H. Colby Smith, Fred T. McKean, P. M. O'Neill, Percy Leonard, Fred Stralby, Rowland Frith, Archibald G. Clinch, William Levi, J. K. Percy, Betram Smith, G. F. Mahoney, Stanley Stanley, W. J. Mahoney, Clive Rose, Leroi H. Sandall, Walter S. Barnes, B. C. Holder, H. R. Dunn, Walter G. Drake, L. G. Conroy, Roy and Charles A. W. Adams, R. W. Tilton, Thos. E. Simpson, L. A. Atchison, Harold A. Allison, J. Fred Emery, Albert E. Clough, W. C. Rising, H. W. Rising, Thomas E. Totten, R. H. Parsons.

A fine address on "Our Dumb Animals" was given last night in Keith's assembly rooms by Dr. Francis H. Rowley, president of the American Humane Educational Society and president of the Massachusetts S. P. C. A. The lecture was given under the auspices of the Women's Canadian Club and Mrs. E. A. Sander.

The lecturer traced the development of the movement for the protection of animals from its beginning and urged great attention to the subject, not only for humane reasons but also for its economic value. He protested, among other things, against present methods of trapping animals and slaughter house methods.

At the conclusion a vote of thanks moved by Mrs. C. J. Coster and seconded by Mrs. Lawrence, was tendered to the speaker. Mrs. Louise Conner, Mrs. F. S. White, Miss Edna Austin, Mrs. S. Z. Dickson, Mrs. Kennedy, Mrs. R. M. Thorne, Miss Helen W. Gregory, Mrs. J. Rogers, Miss Edna Tufts, Mrs. H. A. Brown, Mrs. Hazel Pidgeon, Mrs. G. Wilford Campbell, Miss Bessie Palmer, Mrs. Lauretta McLellan Hill, Mrs. T. E. Girvan, Mrs. Hazel Campbell, Mrs. R. R. Patchell, Mrs. David Willet, Mrs. Herbert McLeod, Miss J. Flood, Miss Ada Baxter, Miss Currier, Miss Amelia J. Haley, Mrs. H. V.

AN OPEN LETTER

From a Well Known Clergyman Showing How Indigestion Can Be Cured.

Rev. T. A. Drury, Bensenville, Ont., writes as follows: "For eighteen years I have been increasingly impressed with the wonderful effects for good wrought by Dr. Williams' Pink Pills. For some years I had suffered almost constantly with chronic dyspepsia of the most stubborn type, attended by different other troubles which invariably follow, or accompany it as its results, prominent among which were kidney trouble and piles. Against this complication of disease I waged a vigorous warfare for several months, using many different remedies, none of which gave permanent relief. In my discouragement I was about to discontinue treatment altogether when I was advised by a friend to try Dr. Williams' Pink Pills. The use of which, though under very unfavorable circumstances, soon revived my drooping courage. The medicine struck at the root of my weakness and the different troubles of which dyspepsia was the prime cause released, let go, and disappeared. In one month I increased fifteen pounds in weight, and received a new lease of life. Only six boxes of pills produced this wonderful change in my health, which was miraculously permanent."

"Later my sister became so reduced by anemia (though under the care of our family doctor) that she could scarcely walk. In this dangerous extremity Dr. Williams' Pink Pills were resorted to and in a brief space of time restored her to perfect health."

"Being a minister of the gospel many test cases have come under my notice, in all of which Dr. Williams' Pink Pills have fully sustained their world wide reputation. This is why I can conscientiously recommend Dr. Williams' Pink Pills as being superior to any known pills as being in the treatment of the many diseases for which they are recommended."

CHATHAM MAN, INURED IN MAINE, MAY LOSE SIGHT

Bangor Commercial:—Patterson Wilton of Chatham, N. B., who was employed by the Great Northern Paper Co., on the Cusabex drive, was brought to the Eastern Maine General Hospital suffering from serious injuries to his eyes as the result of an explosion of dynamite.

It was said at the hospital that the sight of one eye is totally destroyed, but there is hope of saving the other, although it is injured badly. His face was badly cut and bruised.

WHAT THE PLAYHOUSES OFFER

BIG PICTURE AT STAR.

One of the very latest and strongest western productions exhibited in motion pictures will be exhibited at the Star Theatre in the north end on Wednesday and Thursday. The title is "The Moonshiners' Last Stand," and is produced by the Pathe American Company at their western headquarters. The picture is in two reels and shows shrewd and clever acting throughout with a big cavalry charge on the uprising of the Indians. In addition to this big feature subject there will be two farce comedies entitled "Disappointed Mammas" and "Mixed Affairs," by the Biograph Company.

THURSDAY IS THE LAST DAY OF THE LADIES' HOME JOURNAL PATTERN DEMONSTRATION BY MISS M. E. LINDSAY OF NEW YORK. VALUABLE INFORMATION FOR EVERY WOMAN WHO DOES HOME SEWING. PATTERN DEPARTMENT, ANNEX.

Sale of Ladies', Misses' and Children's Whitewear

Manufacturers' Samples and Odd Lines at Surprising Bargain Figures For Prompt Clearance

Every woman in St. John and vicinity knows that great values are invariably the rule at our whitewear sales. In this instance manufacturers' samples, odd lines and a quantity of garments slightly nussed, which have accumulated are to be marked for clearance at prices low enough to delight the most critical of bargain seekers.

Commencing Thursday Morning

DRAWERS, embroidery and lace trimmed, also with plain tucks and hemstitching. Sale prices 20c, 25c, 35c, 50c, 70c.

CORSET COVERS, plain with narrow edge of embroidery and ribbon trimmed, some are very elaborate in appearance with lace insertion, medallions and ribbon effects. Also Corset Covers of allover embroidery with dainty shoulder straps. The variety is great enough to provide a very satisfactory range of choice. Sale prices 15c, 20c, 25c, 30c, 35c, 40c, 50c, 65c.

PRINCESS SLIPS AND CHEMISES, in a large array of dainty styles, some lace trimmed, others with embroidery and ribbon. A limited quantity only. Sale prices 50c, 75c, 95c, \$1.25, \$1.75.

LAWN APRONS, with and without bibs, plain and fancy trimmed, wide ties; also a few dainty Tea Aprons are included. Sale prices 15c, 20c, 25c, 35c, 45c.

Misses' and Children's Whitewear

NIGHT DRESSES, Sale prices 35c, 40c, 50c, 60c.
DRAWERS, Sale prices 10c, 20c, 25c, 30c, 35c.
SKIRTS, Sale prices 35c, 40c, 50c.

INFANTS' WHITE DRESSES (long) some are plain, while others are prettily trimmed with lace and insertion. Sale prices 25c, 35c, 40c, 50c, 65c, 75c to \$1.50.
INFANTS' WHITE DRESSES (short) ages one and two years, embroidery and lace trimmed, wide skirts with plain hems and tucks, also lace and insertion. Sale prices 35c, 50c, 75c, \$1.00.

These dresses are practically in perfect condition, but as there are only a few of them it was decided to include them in this sale.

Whitewear Department, second floor.

MANCHESTER ROBERTSON ALLISON, LIMITED.

ACTIVITY IN CAPE BRETON

Property Market There Reported To Be Bright

MATTER OF NEW BUILDINGS

About 300 Families on Waiting List of Iron and Steel Company For Residences—Good Outlook In Real Estate

(Sydney Record)

Property transfers in Cape Breton indicate that the real estate boom is in the ascendant in the city of Sydney.

The increase in land sales in the county for January, February and March show a total gain of 52.3 per cent over the same period for 1912. Of the sales effected in the county during the past three months those in the city of Sydney show a remarkable activity, reaching 34.3 per cent. of the total transfers.

Analysis will show that about 80 per cent of these properties are in the residential section largely in the vicinity of the biger industries, Dominion Iron and Steel, Dominion Tar and Chemical and the Cross Fertilizer Co., Works.

The reason for this is easily explained. The Dominion Iron and Steel company has about three hundred families on the waiting list for residences, and there are a hundred or so in addition to this.

The demand for workers' quarters is augmented in the more expensive residential sections. Many families are seeking homes and the demand for houses this summer promises to be the greatest in several years.

Partial relief of this situation is promised in the Ward Four and Five districts by a number of the more affluent workmen buying lots and erecting their own dwellings. Two syndicates also propose to erect upwards of forty small houses costing from \$1,500 to \$2,500. This will provide in part for a portion of those requiring quarters but will fall far short of the required number.

The property transfer in the city of Sydney for 1912, was 573, ninety per cent. of which were in large blocks that have since been laid off into building lots.

The increase in value as shown by the chief assessor, as a result of this is in the neighborhood of \$200,000, or on an actual basis of twenty-five per cent valuation by the enormous sum of \$1,200,000 profit yielded to the investors.

Already many people are taking advantage of the splendid opportunities offered for dividend in Sydney real estate and are expending small sums either as speculative or permanent investment.

which has been already laid off with an additional area which will provide for an equal number when the necessity demands. Already this spring fifty lots on the Westmount side have been secured by Sydney people, the majority of whom intend to build on their properties, either in bungalow or residential style at prices ranging from \$700 to \$2,000.

Though there is a general slackness of building in Sydney this spring there is every indication of a big boom in Ward Five. So far there has been eighteen dwelling houses, one warehouse, a business block and a hall commenced, and the work is already well under way. A prominent merchant on Victoria Road is contemplating the erection of two new business blocks each one to be three stories in height constructed of brick and cement and to contain stores on the ground floor and offices and living rooms on the upper floors. The Polish people, who number about 500, will begin work on their new chapel about the first week in May or as soon as the plans are drawn up. The new structure, which will be built in Wesley street, will be large and capable of seating about 800 people. The estimated cost runs well into the thousands.

Many new streets opened up last year will be built up this season with fine new structures. On the whole the building boom promises to exceed all previous years.

A HAPPY, LAUGHING CHILD IN FEW HOURS

If Cross, Irritable, Feverish, Tongue Coated and Sick, Give Delicious "Syrup of Figs"

Your child isn't naturally cross, irritable and peevish. Mother! Examine the tongue; if coated, it means the little one's stomach is disordered, liver inactive and its thirty feet of bowels clogged with foul decaying waste.

Every mother realizes after giving delicious "Syrup of Figs" that this is the ideal laxative and physic for children. Nothing else regulates the little one's tender stomach, liver and bowels so effectually, besides they dearly love its delightful fig taste.

For constipated bowels, sluggish liver, biliousness, or sour, disordered stomach, feverishness, diarrhoea, sore throat, bad breath or to break a cold, give once-half to a tea-spoonful of "Syrup of Figs," and in a few hours all the clogged up waste, sour bile, undigested food and constipated matter will gently move on and out of the system without gripping or nausea, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drug-ging your children, being composed entirely of delicious figs, aenna and aromatics it cannot be harmful.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

NORTH SHORE INQUEST

The inquest into the death of Albert Bateman and Joseph Hickey, killed on Saturday night at Balmuccie, in an I. C. R. freight train collision, was commenced last evening by Coroner R. G. Duncan. George Gilbert appeared for the government. R. A. Lawlor, K. C., for the Bateman family, and H. A. Landry, K. C., for the Hickey family. Evidence was given by Dr.

Ladies' New Hand Bags and Purses

The most striking of the season's novelties are included in this varied and beautiful array of hand bags and purses which represents the best values we have ever shown. Milady will find here the very thing to go with the new costume but early selection is advised while the assortments are complete. The following will give some idea of the offerings.

Leather Bags with gun metal, gilt and nickel frames, silk or leather lined; envelope and other shapes, in black and all popular shades. Each 75c. to \$12.75.

Velvet and Silk Bags, black and colors, cord handles. Each \$2.00 to \$12.00.

Beaded Bags, various designs and colors, suede and moire linings, chain and cord handles. Each \$2.50 to \$16.50.

Mesh Bags, silver, gilt and gun metal. Each \$2.75 to \$16.00.

Children's Bags, various styles in leather and mesh. Each 25c. to \$2.00.

Purses in leather with strap on back, black and gold. Each 75c. to \$6.00.

Mesh Purses with chains. Each 50c. to \$4.00.

TERRIBLE RESULT OF BLOOD POISON

After Three Operations Zam-Buk Was Tried and Proved Successful

If people would only use Zam-Buk for chronic sores, blood-poison, etc., before permitting an operation, scores of limbs would be saved.

Mr. Robt. Patterson of North Pelham, Welland Co., Ont., writes: "My daughter, Annie, had blood-poison in her fingers. The doctor operated twice on the fingers but did not obtain the desired result, and a third operation was considered necessary."

"Three doctors were present at this operation, but after it had been performed the wound did not heal. Try as we would we could not get anything to close the wound."

"We at last tried Zam-Buk, and it was really wonderful to watch how this balm healed the wound. Each day there was a marked improvement. First the wound in the palm of the hand closed, and then the finger which had been bad so long began to heal. The diseased tissue began to rise out of the wound and then drop off, and new healthy flesh formed from below, pushing off the diseased tissue. In a short time the wound was completely healed. Had we applied Zam-Buk at first we might have saved the finger."

"We had another proof of Zam-Buk's power in the case of my son. When two years old he had his hand badly mangled. One finger had to be amputated and it left a running sore for some months. This wound, also, was finally healed by Zam-Buk."

For chronic sores, blood-poison, ulcers, abscesses, scaly sores, piles, eruptions, insect bites, eczema, cuts, lacerations, burns, and all skin injuries and diseases Zam-Buk is without equal. 50c. box all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. Have you tried Zam-Buk Soap? 25c. tablet.

Windsor Girls Have Tiny Auto

Motor Age.—Miniature automobiles for children have ceased to be particularly rare in that the number of them is steadily growing but the machine used by Eza and Gladys Raife, of Windsor, N. S., is of considerable interest because it is part of the family caravan. The parents of the children ride in one of the smallest types of automobiles made for grown-ups, and this little "grow-up" car running along a country road with the children's car leading the way never fails to arouse admiration. The children's car, which is complete in every detail as the larger car, is operated by the elder of the children. Its power is derived from a 2 1/2 h. p. motorcycle engine, and is sufficient to negotiate any hill in the vicinity.

C. M. R. A. NOTES

Grand Deputy R. J. Walsh will pay an official visit to Branch 184 in Fairville tomorrow evening. He will be accompanied by the officers of the city branch and an exemplification of the initiating ceremonies will be given by the degree team of Branch 184.

At a meeting of Branch 134 last evening it was decided to celebrate the 23rd anniversary of the formation of the branch on May 21, with a smoker and concert. An efficient committee have the matter in hand.

Investment News

St. John, April 9, 1913

Eastern Car Company's rapid construction

Such rapid progress has been made in the construction of the Eastern Car Company's big plant at Trenton that the management are now prepared to undertake contracts for steel underframe railway cars, delivery to commence in July of this year.

The company is now occupying its new offices. Erection of the power house is finished—boilers and power equipment are being installed—power will be supplied at the end of this month. The steel framework of the main building is completed, and the cranes are all in position, base unloading the heavy machinery arriving daily.

February first saw the appointment of the new general manager, Mr. H. B. Douglas, formerly manager of the Standard Steel Car Company of Hammond, Indiana, and he is now on the ground getting his organization together.

We offer a limited lot of 6 per cent. Cumulative Preferred Stock of this company (value \$100, at \$90 a share). At this price the investment yields 6.66 per cent.—and a very desirable investment it is.

Call or write for further details.

SPORTS NEWS OF A DAY, HOME AND ABROAD

BASKETBALL

Score 8 to 4.

In a fast game of basketball last night the St. Andrew's girls defeated the St. Stephen's girls by a score of 8 to 4.

BOWLING

In Fredericton.

John A. Reid won the weekly roll off at the Queen Hotel alleys. His three string average was 80.

Fifteen qualified in the Arctic alleys, including A. Bradley, 119; F. P. Hatt, 114; John Seales, 109; Blaine Page, 106; A. Duffy, 105; Jack McFarlane, 103; James Palmer, 102; Jack Spool, 101.

TENNIS

Tennis Club Officers.

Fredericton, April 8.—At the annual meeting of the Fredericton Tennis Club last evening the election of officers resulted as follows:—Patron, Doctor T. Carlston Allen; president, Professor John Stephens; vice-president, H. R. Babbitt; secretary and treasurer, C. F. Randolph; executive, R. B. Babbitt, Hayden Barbour and H. G. Chestnut.

Australian Team Sails

Sydney, N. S. W., April 8.—The Australian lawn tennis team, which is to meet the American team in one of the preliminary rounds of the Dwight F. Davis international lawn tennis challenge cup, left for San Francisco on board the steamship Vestara this evening. The team is made up of Horace Rice, S. M. Douthett, and A. D. Jones. The steamship is expected to reach San Francisco about April 24.

BASEBALL

St. Andrew's Club Smoker.

At the closing meeting of St. Andrew's Curling Club last evening, the president, E. A. Smith, reviewed the activities of the season and the secretary, C. H. Ferguson, presented a report on the club's work. The club has been very successful in its work, and the president expressed his confidence in the future of the club.

THOUSANDS TO HEAR BIG CONCERTS ON MONDAY AND TUESDAY NEXT

The reserved seat sale for ticket holders will begin Friday morning at nine o'clock and, judging from the numbers in which the tickets are selling, Leamy's Music Store and through the medium of the Choral Society members, the theatre will be too small to accommodate all who will want to attend Monday and Tuesday evenings. The fine chorus and orchestra, under Mr. Peacock, have reached a high state of efficiency, and those, together with the four imported soloists, will provide concertists that will rank with any ever heard here. Great interest is felt in the performance of the "Messiah," Monday evening.

It has been made public that Captain Scott was of Scottish descent, coming from no less a distinguished family than the Scotts of Harden, forebears of the great Sir Walter.

Constipation and Headache CURED BY Burdock Blood Bitters.

Various kinds of headache exist; for example, nervous, bilious, congestive, and sick headache, headache from constipation or dyspepsia, periodical headache, etc.

In all cases of headache the treatment should be directed to remove the cause, and with the cause removed the headache vanishes for all time.

It is impossible to find a better remedy for headache of every description than is Burdock Blood Bitters, acting as it does on every organ of the body to purify, strengthen and regulate the whole system.

Miss May Bourdage, New Richmond, N. B., writes:—For years I was troubled with sick headache, and dizziness, and was also constipated. I was advised to take Burdock Blood Bitters, and I only took three bottles when I felt like a new person. I can recommend it to anyone who suffers the same as I did.

Burdock Blood Bitters has been on the market for over thirty-five years, and is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

RECENT DEATHS

The death occurred at New York yesterday of Charles J. Kello Kerr, a native of Dundee, Scotland, and son of the late Colonel James Kerr, First Fusiliers, Madras Army.

The deceased who was at one time a resident of this city and connected with the Bank of Montreal and the Bank of Nova Scotia, is survived by his wife, formerly Miss Edith Kaye, daughter of the late James J. Kaye, Q. C., of St. John, and by three daughters, Mrs. E. J. Dinsmore, of Montreal; Mrs. Miss Mignon Dinsmore, of New York; and Miss Mignon and Miss Frances Kerr, who have been spending the winter with their uncles and aunts in St. John.

Mrs. Grace E. McPherson, of Eastport, who had been here for some time on a visit and who was residing with Mrs. Mitchell of Main street, died suddenly last night. Besides her husband, she had preparations to return to her home this morning but soon after supper last night became seriously ill and died almost immediately. She was twenty-one years of age and is survived by her husband. The body was taken to Eastport this morning for burial.

Ralph W. Hubbles, post master of Westport, Brier Island, died on Monday of pneumonia. He is survived by six brothers and one sister.

Mrs. Alfred D. LeBlanc, of Moncton, has received news of the death of her sister, Miss Jennie Ford, in Hampton, N. H. She formerly belonged to Bathurst, N. B. She leaves two sisters, Mrs. Allen Boyle, of Bathurst Village, and Mrs. Alfred D. LeBlanc, and three brothers, John T. and Charles E. Ford, of Merrill, Wis., and William, of Bathurst, N. B.

Mrs. Lorne Gale died in Kansas, B. C., on March 22. Her baby girl had died a few months before. Mrs. Gale was the youngest daughter of Isaac Snowdon, of Young's Cove. Besides her husband and father, she leaves two sisters, Mrs. Joseph Kennedy, of Young's Cove, and Mrs. William Fowler, of Moncton; and one brother, Bruce, at home.

James Howell, a well-known resident of Bathurst, died on April 4, aged about fifty-two years. He was a well-known contractor. He was the builder of the court house, the Catholic presbytery, convent school, there, besides stone churches in Gloucester and other counties. Mr. Howell left his wife and nine children. He was a C. M. B. A. member.

WALL STREET NOTES

New York, April 8.—Americans in London firm, 3-3 to 3-4 higher. London cable says financial situation there is cheerful and early reduction in bank rate probable.

Consols 7 1/2 up 1/8. Contango on Americans 4 3/4, light bear account was shown.

Both Steel pld. d. down 1/2.

National Biscuit's business is gaining at rate of about 6 p. c., earning about 11 p. c. on the common stock after paying the 4 p. dividend.

The Union Pacific plan as figured today is to ask the common stock for 100,000,000 Southern Pacific stock.

U. S. Steel tonnage report tomorrow at noon.

The action of the market yesterday showed support and an inclination to advance prices. The tone was good. No stock came out on the drives and short interest increased. Market still production, but has the appearance of better things. Reading, Lehigh, American Can and Copper will sell higher.

SERIALS, HALLMILL & CO.

QUICKLY STOPS THE WORST BACKACHE

Makes Kidney Troubles, Bladder Disorders, and Rheumatic Pain Vanish.

If you suffer with backaching kidney trouble, have disagreeable bladder and urinary disorders, or are tortured with rheumatism, stiff joints, and its heart-wrenching pains, you will quickly and surely relieve all such troubles.

Crozone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It acts on the principle of cleaning out the system and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys sit out and filter away all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy, and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Crozone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back, and sides, or have any signs of kidney, bladder trouble, or rheumatism, such as puffy swellings under the eye or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Crozone will quickly relieve you of your misery. An original package of Crozone costs but a trifle, and all druggists are authorized to return the purchase price if it fails in a single case.

AT ONCE! CLOGGED NOSTRILS OPEN, HEAD COLDS AND CATARRH VANISH

Breathe Freely! Clears Stuffed-up, Inflamed Noses and Heads and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it. Apply a little to the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the ache, catarrh, cold-head or catarrhal sore throat will be gone.

Get such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves

by the heat of the nostrils; penetrates and inflames the inflamed membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

BLOOD IS WATERY IN THE SPRING

It is lacking the essential, life-giving principle, which is best obtained by the use of DR. CHASE'S NERVE FOOD—This great Food Cure brings new hope, new vigor, new energy and new health to overcome tired, languid and depressed feelings which come with Spring and are the outward indications of the weakened condition of the blood and the low state of vitality.

Everybody Needs a Spring Restorative

WHEN the blood gets thin and watery the waste of the human body is more rapid than the process of reconstruction. Gradually the action of the heart grows weaker and weaker, the lungs do not work to their full capacity, the stomach and other digestive organs fail to perform their duties, and the result is all sorts of bodily derangements. Aching head, dizzy spells, indigestion, feelings of weakness and despondency, lack of energy to perform the duties of the day, loss of appetite, failing memory and power of concentration of the mind, irritability, nervousness and sleeplessness are among the symptoms which distress you, and all can be avoided by the use of Dr. Chase's Nerve Food. There is no preparation to be compared to Dr. Chase's Nerve Food as a spring restorative. It does not stimulate and so whip the organs of the body to overexertion, but by enriching the blood instils new vigor into the system. By noting your increase in weight while using this great food cure you can prove that new, firm flesh and tissue are being added.

Mrs. J. Donnelly, 105 Portland Street, Toronto, and formerly of Hamilton, Ont., writes: "I can highly recommend Dr. Chase's Nerve Food. My little girl's nerves were so bad that she would wake up nights in hysterics, and we could not get her quieted for a long time. Since taking a treatment of Dr. Chase's Nerve Food she is greatly improved in health and her nerves are steady."

Mrs. J. B. Berryman, 35 Bay Street, North Hamilton, states: "I was so very nervous that frequently I could not sleep at all, and would be so uneasy that I could not remain in bed, but would have to get up during the night in order to quiet my nerves. I also suffered considerably from faintness and dizzy spells, and though I had doctored for some years I never seemed to get anything that did me any real good until I began the use of Dr. Chase's Nerve Food. It worked a great change in my condition almost immediately, and after a regular use of this preparation I believe that it has effected a permanent cure."

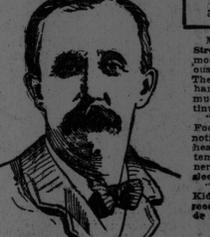

Mrs. Thomas Feacock, 22 Hiawatha Street, St. Thomas, Ont., and whose husband is conductor on the Wabash Railway, states: "I was quite run down in health, was very nervous, did not sleep well and had frequent dizzy spells. Believing this to be the result of an exhausted nervous system, I began using Dr. Chase's Nerve Food, and can say that this medicine did me a world of good. It entirely freed me of the symptoms stated above, built up my health generally, so that to-day I feel that I am quite well again."

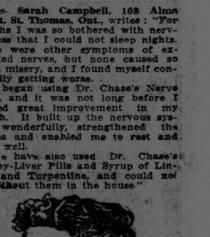

Mr. Henry Black, 61 Ste. Catherine Street East, Montreal, Que., writes:—"The wonderful results I obtained from the use of Dr. Chase's Nerve Food constrains me to write this letter in order that others who suffer from nervous exhaustion and weakness may use this medicine with equal, if not better, results. As the result of overwork I became completely exhausted, and was unable to work for fourteen months. As I am the father of a family, these were sad days for me, but after I had used six boxes of Dr. Chase's Nerve Food I had improved greatly that I continued the treatment until I was completely restored to health and strength. I now work twelve to fifteen hours a day and keep in excellent health."

Mrs. John Walfield, La Have Islands, Lunenburg Co., N.S., writes:—"Two years ago my system became greatly run down, and I was awfully nervous. It was very difficult for me to do my housework, and I felt very miserable. I doctored, but did not receive any benefit until I began the use of Dr. Chase's Nerve Food. This medicine proved of wonderful benefit to me, building up the system and restoring health and strength. I always feel now that if I do get run down I can depend on Dr. Chase's Nerve Food to make me strong and well."

Mr. J. Harbert, 28 James Street, Brantford, Ont., writes: "I was very much run down in health, and as a consequence my nervous system was very much exhausted. Close confinement at my work, I think, brought on the trouble. I started using Dr. Chase's Nerve Food, and by the time I had used up one box I felt a great improvement. The continued use of this preparation has thoroughly restored my system, so that I feel strong and vigorous and fit for any amount of work. I have also used Dr. Chase's Kidney-Liver Pills and Ointment with splendid satisfaction, and recommend them at every opportunity."

Mrs. Sarah Campbell, 108 Alma Street, St. Thomas, Ont., writes: "For months I was so bothered with nervousness that I could not sleep nights. There were other symptoms of exhausted nerves, but none caused so much misery, and I found myself continually getting worse. I began using Dr. Chase's Nerve Food, and it was not long before I noticed great improvement in my health. It built up the nervous system, wonderfully strengthened the nerves and enabled me to rest and sleep well. "We have also used Dr. Chase's Kidney-Liver Pills and Syrup of Linseed and Turpentine, and could not do without them in the house."

The Body Feeds on Rich, Red Blood.

The blood is the medium by which nourishment is supplied to the various parts and organs of the body. When the blood fails to derive proper nourishment from the food, or is depleted by overwork, worry or disease, a general breakdown of the system is sure to follow. Because of the readiness with which it is taken into the blood stream, and because of its exceptional vitalizing powers, Dr. Chase's Nerve Food is the greatest blood-builder and enricher which it is possible to obtain. Such ailments as anaemia, chlorosis or green sickness, general debility and physical exhaustion are overcome by this food cure.

Dr. Chase's Nerve Food

Gradually but certainly Dr. Chase's Nerve Food increases the quantity and improves the quality of the blood, nourishes the nerves back to health and vigor, and through the blood and nerves carries new vitality to every part of the body. This great food cure brings health to the broken-down, energy to the worn-out, strength to the weak, sleep to the sleepless, and health and happiness to the sick and despondent. Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous Receipt Book author, are on every box of his medicines.

WILL HELP YOU GAIN SUCCESS

Ignorance is a Handicap.

Seventy-five per cent. of the big business men of St. John declare that the child educational need of their employes is a better knowledge of English, including spelling, grammar and punctuation and the use of words in general. Stenographers crowd to answer an advertisement announcing a position paying \$4 a week, because they are not qualified to demand higher wages. Thousands of stenographers and typewriters trained in the art of making "pot-books" and tapping the typed keys are being out of an existence on meager wages. These statements have a direct bearing upon the proposition that The Telegraph and Times is offering you a Webster's New Illustrated Dictionary free of charge, and give the reason for the popularity of the distribution. Why? Because the perusal of the dictionary is acknowledged by educators to be the best, the quickest and the only sure way of acquiring that knowledge which a canvass

A DRUGGIST IN WINNIPEG

Cured Himself With GIN PILLS

No greater compliment could be paid GIN PILLS than to have a druggist use them. Mr. Rogers being in the business tried all the ordinary remedies, but it was not until he used GIN PILLS that he was cured of a severe pain in the back. Winnipeg, May 19th, 1912. "In the autumn of 1911, I suffered with a continual pain in the back. As a druggist, I tried various remedies without any apparent result. Having sold GIN PILLS for a number of years, I thought there must be good in them otherwise the sales would not increase so fast. I gave them a fair trial and the result I found to be good." GEO. E. ROGERS. GIN PILLS must cure you or your money will be refunded. 50c a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto.

Would You Like to Be A Real Man Again?

Here is a new method by which you (like thousands of men all over the world are doing today) may secretly treat yourself without drugs or medicines with a view to quickly restoring your feelings of youth that you may get back your complete, vigorous vital health and strength. Everything is explained in my illustrated booklet for men, which I will gladly send to you, free, sealed, by mail, just as soon as you write for it. Please use the free coupon below. As to your own present physical condition, let me say from a close personal observation of hundreds of thousands of cases of lost vitality in young, middle-aged and elderly men, covering an experience of over 30 years, I honestly believe that "Lost Vitality," as we term it, is actually no real disease in itself at all, and that under certain favorable circumstances, any man anywhere, can easily and permanently restore his own full strength and nerve force if he but make an honest, conscientious effort along certain common sense lines, which I am able to suggest, and which include absolutely no medicines or drugs of any kind. You simply use a little vitalizing appliance of my invention called the Sanden Health Belt, which you wear comfortably around your waist during sleep for 60 to 90 days. That is absolutely all there is to the whole treatment, excepting, of course, you are expected to lead a decent, manly life, free from debilitating excesses and dissipations. This Health Belt in itself is a marvel of power, and sends a great, soft, even flow of vitality into your blood, organs and nerves. Wearers the world over say it takes all pain and weakness out of the back, often from any application, soon find yourself answering: "Never felt better in my life" to your friends' greetings; while they secretly marvel at the great change for the better which has come over you. With special attachments the Health Belt is also a wonderful treatment for rheumatism, kidney, liver, stomach, bladder disorders, etc.

Weak Men Do You Want To Be Strong?

To feel as vigorous as you were before you lost your strength? To enjoy life again? To get up in the morning refreshed by sleep, and not more tired than when you went to bed? To have no weakness in the back or "come and go" pains? No indigestion or constipation? To know that your strength is not slipping away. To once more have bright eyes, healthy color in your cheeks, and be confident that what others can do is not impossible to you? In short, do you want to be healthy, strong and vigorous? I can make you all this because I have done it for others.

DR. McLAUGHLIN'S ELECTRIC BELT

has restored health and strength to thousands of weak people. If you use it as I direct it is a positive cure, and cannot fail. It gives the vitalizing power of electricity, without burning or blistering, to every weakened part, developing the full vigor of manhood. It removes all the effects of dissipation forever. I want every weak person who is not what they should be to wear one of my Belts, and, when cured, tell their friends of its wonderful effects.

Get This Book FREE By Mail

I have compiled (and will send to you free) a little 80-page illustrated book (pocket size) which is meant as a complete private guide for men, young or elderly, single or married. You can size yourself up exactly from a careful reading of this book. It reveals certain truths and gives up a clear, wholesome idea of those great vital subjects which should be familiar to every man. It fully describes by Health Belt and tells you how and where you may secure one to wear for the restoration of your own strength. As soon as I hear from you I will forward the book by mail in plain sealed envelope. There is absolutely no obligation involved in accepting this free book, as over a million have been sent all over the world. If in or near this city it will pay you to call and test the Health Belt. Hours 9 to 6, Sundays 10 to 1.

MAGNATES SUE THEIR "DUMMY"

Stenographer Who Was Figure-head in \$2,000,000 Deal Kept \$100,000 for His Services and Employers Want It Returned.

New York, April 8.—A twenty-five dollar a week stenographer, who acted as a "dummy," it is alleged, for Anthony N. Brady and the late Alden M. Young, in financing a \$2,000,000 rehabilitation of the Dayton, Ohio, Power & Lighting Company, is defendant in a suit brought today by Brady and Thomas F. Wood, Jr., as assignees of Young, to get possession of securities worth \$100,000 that remained after the deal was concluded.

The stenographer, Joseph F. Kelley, figured that his employers stood to make a million dollars in the transaction and decided that his services were worth more than \$25 a week. Brady and Young thought otherwise, and Kelley quit his job, taking the securities with him. The plaintiffs allege that he already has hypothecated bonds worth \$25,000 and asks for accounting and an injunction to tie up the remaining securities.

Kelley declares that he was the actual contractor in the deal and Brady and Young have no documentary evidence to prove he was a dummy.

Mother Superior of Maritime Provinces.

Montreal, April 8.—The mothers superior of the Notre Dame congregation throughout Canada were elected at a meeting held here this morning, presided over by Archbishop Duchesne of Montreal.

Her Mother St. John the Baptist De Roset was chosen as superior for the maritime provinces.

For Women Who Work
Abbey's Liver Salt
Is the best tonic. It prevents headaches and biliousness by stimulating the liver and digestive organs to natural action.

Rosy Cheeks
Follow its daily use—because this pleasant, soothing drink is mildly laxative in its action and clears the blood of impurities.
Take a Bottle Twice a Day.

Comfort Your Stomach
We pay for this treatment if it fails to promptly relieve indigestion and Dyspepsia.

Resall Dyspepsia Tablets remedy stomach troubles because they contain the proper proportion of Pepsin and Bismuth and the necessary carminatives that help nature to supply the elements the absence of which in the gastric juice causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Resall Dyspepsia Tablets in your vest pocket or keep them in your room. Take one after each heavy meal and give our assurance that they will relieve indigestion from bothering you.

We know what Resall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia, or to refund your money, if they fail to do so. Doesn't it stand to reason that we wouldn't assume this money risk were we not certain Resall Dyspepsia Tablets will satisfy you? Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Resall Dyspepsia Tablets in this community only at our store:

Wasson's 3 Royal Drug Stores
King St., Main St. and Burnside St.

There is a Resall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Resall Store for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended.

The Resall Stores are America's Greatest Drug Stores.

WILSON'S INVALIDS PORT WINE

"Nothing more excellent than the juice of the grape was ever granted by God to man."
—Plato.

Sickness is Costly
Your purse suffers—but infinitely more your body suffers—loses vitality that can never be regained. Think of it! And the prevention is so simple.

To forestall that possible drain on body and mind and purse, to "keep fit," try taking Wilson's Invalids' Port Wine, a wine-glassful before or between meals—three glasses a day for your health's sake! It is a powerful, nutritive restorative of the disease-resisting forces of the blood and a remarkably efficient febrifuge. Doctors know!

"SALADA"
Tea abounds in stimulating goodness.
A most wholesome and pleasing beverage.
IN LEAD PACKETS ONLY.
Black, Green and Mixed.

DETROIT WINDOW SMASHER RELEASED FROM BRITISH JAIL

Girl Smuggled Away by Her Mother Much to the Disgust of Suffragettes

London, April 8.—Miss Zelle Emerson, a suffragette of Jackson (Mich.), was released from Holloway jail at 9 o'clock. She was taken by her mother to a nursing home, where she will be given medical treatment. Mrs. Emerson feels grave anxiety for her daughter's condition, and will not permit her to see anyone.

Certain of the more militant friends of Miss Emerson, including a number of Americans, who were displeased at Mrs. Emerson's abandoning the campaign to force the intervention of the American embassy, planned to take away the daughter without her mother's knowledge, in an automobile, so that they might get an interview with the militants placed a relay of pickets to watch Miss Emerson's release, but they were forestalled by her unexpectedly early release, the home secretary having announced that she would be set at liberty tomorrow.

Mrs. Emerson had been informed of the date of her daughter's release by the American embassy, and was on hand at the appointed time. She took her daughter immediately to a hospital, where physicians isolated her.

James M. Barrie has finished a play called "The Legend of Loonopa." Maude Adams will appear in it at the Lyceum Theatre in New York after her next Christmas season in "Peter Pan."

IMPROVE WORKERS' CONDITIONS
Norwegian Premier Outlines Extensive Programme of Activities

Christiana, Norway, April 9.—Premier Knudsen, in his ministerial statement in the Storting, declared that it was the intention of the cabinet to follow a national and democratic policy, in accordance with the programme which carried the Left to victory in the recent election. Special attention would be devoted, he said, to the economic progress of the nation. The foreign service would be reorganized to make more intimate the co-operation between the consular and diplomatic representatives.

A new government department to deal with social reform was to be created, and a special department for trade and industry. The government desired to stem by legislation the

You Beer Drinkers

Don't Drink Beer from Light Glass Bottles

Read the following opinion of a scientist, an authority who has experimented and therefore knows that "light starts decay even in pure beer."

"We have tested beers repeatedly, placing the bottles in the direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are, therefore, recommendable."

—Wahl-Henius Institute of Fermentology.

The Schlitz Brown Bottle is only another step for absolute purity in Schlitz beer.

We have adopted every invention, every innovation, every idea that could make for purity.

Schlitz was first brewed in a hut. Today our agencies dot the earth. Our output exceeds a million barrels a year.

WARM FIGHT IN HALIFAX OVER STREET RAILWAY

City Council is Strong For Government Ownership

INTERESTING DISCUSSION

Struggle is Carried Into Legislature—Montreal Capitalists Want to Continue in Control of the System

(Halifax Chronicle, Friday.)

By a vote of eight to five, the Halifax city council yesterday afternoon rejected E. A. Roberts' offer of increased civic contribution from the Tram Company and reduction of light and power charges for a renewal of the company's exclusive franchise, and reaffirmed their position in favor of municipal ownership.

The municipal council of Halifax and Canada all agreed that municipal ownership was desirable. This was not so much a question of municipal ownership as it was a question of municipal control.

They talked of the failure of municipal ownership—of the fact that there were no failures in privately conducted enterprises as it should be given a chance to decide.

Mayor Bligh said he doubted if this bill would have been passed so quickly had it not been for the fact that the ownership of the tramways changed hands.

BORDEN IN ROLE OF A DESPOT

Canada's Parliament Would Rank With Russian Duma

LIBERALS FIGHT FOR PEOPLE

Tory Closure Bill Would Make Government All Powerful and Stifle Criticism—Liberal Chief-tain's Praise of Dr. Pugsley

Ottawa, April 8.—The closure resolution which Premier Borden will introduce in the commons tomorrow is more drastic, more arbitrary and more autocratic in principle of free government by the people than any similar enactment in any part of the world, with the possible exception of the Russian Duma.

If it should be forced through any opposition, it would be a more autocratic principle of government. All criticism of public measures can be stifled at any time by the government and free discussion in parliament, which is now the safeguard of the people's interests, will be practically taken away with whatever the majority decides.

The issue thus raised is of far more importance to responsible government in Canada than is the naval issue. Liberals will fight this latest attempt at tyrannical rule even more strenuously than it has fought, successfully thus far, the retrogressive policy of the rule from Downing street.

Both fights can be successfully maintained until the two issues with all their far-reaching consequences are decided by the final appeal to the people, in the opinion of the militant and determined parliamentarians on the left of the speaker.

Under the new rules, for instance, the proposed amendment and amendment would be put through in a few hours. The steel would be rolled out and the bill would be passed, despite anything the minority could do or say.

Ritchie and Nolan Favor 135 Pounds For International Weight

By TOM ANDREWS

"To my way of thinking 135 pounds or 133 at 3 o'clock the day of the contest is the correct weight for international scale," remarked Billy Nolan, manager of Willie Ritchie, the champion, while discussing the matter with the writer while in Milwaukee.

"There never has been an international scale of weights," continued Nolan, "although it would be a good thing for the game if such were established. Of course the American weight has been set at 133 ringside, for a good many years, but now that there are so many different countries coming into the field of boxing, they are entitled to some consideration, especially Australia and England, where boxing abounds; in fact, England is the home of all boxing. It seems that 135 pounds, weigh in at 2 or 3 o'clock, is the recognized weight in most of the countries, except Australia, where the light weight limit is 140 at ringside. However, I think the best weight for light weights is 135 ringside or 133 at 3 o'clock, which is considerably above the feather weight class of 122 pounds, and the next to the 133 pounders. I don't want to act as a dictator or anything of the kind when it comes to arranging a scale of weights for the light weights, but I honestly believe that this is about the best that can be agreed on. Other countries should be willing to compromise with us on the matter."

"As to Puckey McFarland meeting Ritchie for the title, there seems to be no chance. Jimmy Thiry, manager for McFarland, has admitted that Puckey cannot make 135 ringside, let alone 133. He offered to let him scale 133 ringside, which is two pounds above the limit, but he wanted 133 at 3 or 4 o'clock, which would let him enter the ring at about 138 to 140. He has admitted that he is no longer a light weight. So why should he bother Ritchie about a match? It is unfortunate that McFarland is between the two classes—light weight and welter—but that does not force us to take him on at any weight he demands. You know the champion dictates such matters, but we are not out to impose unreasonable terms as regards weight. There are plenty of good boys for Ritchie to meet, legitimate light weights, so why should we go out of the class to give Puckey a match? McFarland is a great fighter, but he is out of the light weight class for the simple reason that he cannot make the weight. There is only one way for him to get a match with Ritchie and that is to make 135 pounds ringside or 133 at 3 o'clock."

Recent developments showed that the relations of Germany and England were most cordial. In the Balkan dispute they had joined to keep the peace of Europe. These two countries, which were party purposes being proclaimed as the great enemies of Europe, were really the greatest benefactors of the world.

Under the new rules, for instance, the proposed amendment and amendment would be put through in a few hours. The steel would be rolled out and the bill would be passed, despite anything the minority could do or say.

ALL THE TIRED NERVOUS WOMEN CAN FIND A CURE IN DODD'S KIDNEY PILLS

Madame Perreault Tells How She Cured Her Kidneys With Dodd's Kidney Pills, and Found Health and Contentment

Vernon, Ont., April 8.—(Special)—"I am very content. Dodd's Kidney Pills have made me well." Those are the words of Madame Eugene Perreault, a highly respected lady of this place, and mother of a large family. For twenty years she was a sufferer. But, let her tell her own story.

"I felt heavy and sleepy after meals. My limbs were heavy, and I had a dragging sensation across my loins. My skin itched and burned at night. I had a bitter taste in my mouth, especially in the morning. In twenty years I hardly knew what it was to have a well moment. Then I commenced to use Dodd's Kidney Pills. Six boxes cured me."

Madame Perreault's symptoms were those of kidney disease. They are the symptoms of nine out of ten of the nervous, run-down, pain-racked women of Canada. Madame Perreault found a speedy and complete cure in Dodd's Kidney Pills. They simply cured her kidneys.

In the higher Andes of Argentina and Chile there are some of the most beautiful slopes which seem to be kneeling white-robed figures. Each of these is a block of snow or ice formed in the likeness to a human figure, and the South Americans have for them a poetic name, "las nieves de las penitencias," or "the snows of the penitents." How nature forms the figures, which are found only in low latitudes, has never been satisfactorily explained.

A HOME-FORMULA That Stops Dandruff

Pay Rum 6 oz. Lavona de Compostee 2 oz. Menthol Crystals 1/4 dr. These are all staple standard and inexpensive pharmaceutical products that you can buy from any good druggist. You can mix them yourself at home or the druggist will do it for you. Allow to stand one-half hour before using. Apply night and morning, rubbing briskly into the scalp with finger tips or a medium stiff brush. The one 8-oz. bottle should, in most cases, be sufficient to completely clear the head of dandruff and kill the germ, thereby preventing its return. This treatment is also excellent for making the hair grow and to keep the hair from falling out and to restore natural color to gray, streaked or faded hair in from 12 to 20 days simply by its action on the hair roots. Be careful not to apply where hair is not desired.

MORNING LOCALS.

About nine o'clock last evening the C. P. R. line was cleared of the wreckage caused by the derailment of seven freight cars at South Bay. The Pacific express due to leave at 5.55 last evening did not get away until 7 o'clock and then there was nearly a two-hour delay at Miramichi.

W. F. Burdett yesterday admitted to the city commissioners a draft of regulations for the town planning commission covering the laying out of additions to the city. His plans included new streets and roads and an industrial district, for factories and regulations to prevent the encroachment of factories on residential districts.

Another fire, believed to be of incendiary origin, broke out last night in a barn in Main street owned by Policeman Garnett and rented by Policeman McFarlane. The blaze was started in some hay near which a coil, owned by Policeman Jones, was tied but was noticed in time to be extinguished before any serious damage was done.

Charles Bone, boatman of the C. P. R. tug, Cruiser, will leave on the S. S. Victoria on Friday for London where he will be a principal in a happy event to take place there soon. He will return to Canada later.

The saw mill deal pile of the city met last night in the Sowerman's hall, Long Wharf, to consider forming a local union. Those present considered the matter very favorably and it will come up again on Tuesday evening.

The St. John Conservative Club met last evening and, after a short business meeting, speeches were made by Hon. John E. Wilson, Premier Fleming, J. B. M. Baxter, M. P. P. R. B. Emerson, L. P. Tilly, M. P. P. P. Manning, W. Dehority, and Thomas Nickham. Solos were sung by John Tongue.

DISFIGURED WITH ERUPTIONS ON FACE

Body Covered With Running Sores. Could Not Sleep from Itching and Pain. Cross and Fretful. Tried Fifty Remedies Without Result. Cured in Nine Days by Cuticura Soap and Ointment.

30 Champagne St., Montreal, Quebec.—"I have a five-year-old boy who was suffering from what the doctor said was 'a grapple.' His body was all covered with running sores. The trouble started with pimples and opened up into sores. Of course scratching made it worse. The eruptions appeared on his face and disfigured him awfully. The boy could not sleep at night from the itching and pain, and I did not know what to do with him. It made him cross and fretful. If I have tried one, I have tried fifty remedies without result. At last I got samples of Cuticura Soap and Ointment, and after using them two days I noticed a change. I then bought a full-sized case of Cuticura Soap and one box of Cuticura Ointment and I used to give the boy a hot bath daily using Cuticura Soap freely, and then applied the Cuticura Ointment. He had suffered three months with the horrible disease before I started to use the Cuticura Soap and Ointment, and nine days after the boy was cured and has not been troubled since."

(Signed) E. Cloutier, Dec. 12, 1911. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. A single set is often sufficient. Liberal sample of each mailed free, with 23-p. skin Book. Address post card Potter Drug & Chem. Corp., Dept. 222, Boston, U. S. A.

YOUR MONEY BACK IF

The "if" is big because few want it. But this frank, fair offer shows your dealers faith that the rare richness of this tea's flavor will delight you.

35c., 40c., and 50c., per lb.

SAY THEY CAN CURE THE DRUG AND DRINK HABIT IN 24 HOURS

Philadelphia, April 8.—A "twenty-four-hour cure" for the drug and alcohol habit has been announced by Doctors William F. Baker and Frank R. Fleming of the neurological ward of the Hahnemann Hospital.

The inspiration, according to Doctor Baker, was found in a medical magazine several months ago. He and Doctor Fleming read the suggestion and started to work.

"We have tried the cure on thirty patients," declared Doctor Baker. "They were typical cases—cocaine sniffers, morphine injectors, opium smokers and whiskey imbibers. Twenty-nine of the cases responded, and observation shows that they are cured."

"The cure, while violent, is declared to be safe, and, best of all, permanent. 'The treatment is simple enough,' said Doctor Baker. 'We ascertain just how much of the drug or alcohol the patient has taken. We put him to bed and give him five grains of blue mass. Then we administer a compound cathartic and a pill containing one grain of belladonna, one grain of atropin and one grain of scopolamin. At the end of the twelfth hour five grains more of blue mass is given and the drug administration is out down to one-quarter the usual dose. 'At the end of twenty-four hours we administer one ounce of castor oil. The patient is weak, naturally, but we find that he has lost all desire for drugs and alcohol.'"

SOME HOT SHOT IN HEARING ON BANKING

"Trafficking in Real Estate," By Bankers, Condemned

McLEOD'S TESTIMONY

Thinks Interest Rate Isn't Too High—Wouldn't do For One Bank to Guarantee Another's Deposits, He Says

Ottawa, April 4.—H. C. McLeod finished his testimony, and suggestions as to the Canadian banking system, at yesterday afternoon's sitting of the Banking and Commerce Committee. The latter part of his evidence was largely in elaboration of the general principles he had previously given his views upon...

The evening sitting was devoted to evidence of a more radical character, Gordon Waldron, of the Farmers' Sun, advocating small local banks and an absolute system of government inspection...

Another witness from a farmer's standpoint, was Peter McArthur, who gave a case of the banks coercing newspapers to reject articles criticizing their privileges and penalizing one that did publish them...

Another serious charge he made, concerned the exaction of a quantity of stock as a make-off for a loan...

At the afternoon session, David Henderson asked Mr. McLeod if he had been properly reported as having said that the net earnings of the banks upon money at their disposal was only 2-8-10 per cent. above all expenses...

The witness reaffirmed that statement, whereupon Mr. Henderson confessed he was fabricating that statement...

"I do not believe in regulating banks too much by act of parliament," remarked Mr. McLeod...

Banking Loans to Speculators. "What about banks having money to lend speculators?" asked K. MacLean. "It is not good banking; I think banks pretty generally discourage that class of loans as bad."

To Major Sharpe the witness said he favored loans to officers of banks with certain restrictions. The latter would be the same restrictions as those on the individual...

"The most vital and essential point in Canadian banking," he added, "is a proper system of audit."

"How would it be?" asked H. B. Ames, that the banks are putting up so many large buildings, which they do not occupy only in part?

Mr. McLeod—"It is done in this way. The bank puts up a building primarily for itself, with a number of stories to rent. I think it is bad banking and bad policy."

"Is it not a contravention of the act?" "It is of the intention of the act."

"They might form subsidiary companies to put up buildings," suggested Mr. McCurdy. "That should be prevented."

"Why do you say it is bad banking?" Mr. Thornton asked. "Any trafficking in real estate is bad banking."

Mr. McLeod admitted that central locations are desirable, and that if the site is very costly, it would be hard to carry out a revenue-producing building were erected on it. He reiterated, however, that banks should not be allowed to dabble in real estate...

Joseph Armstrong wanted an opinion on interlocking directorates bank directors, who were in the same line of business, and trust company directors being one and the same...

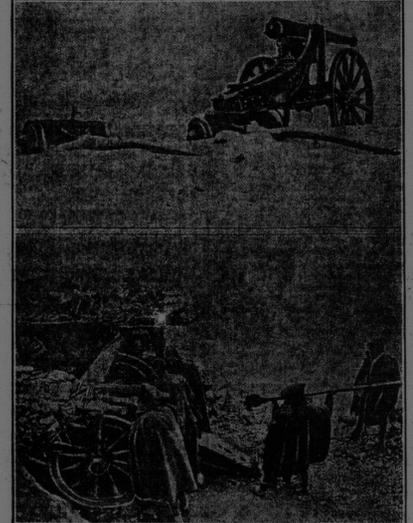

"I have not followed it in Canada but I take it for granted that this system would be as disastrous here as in Australia," Mr. McLeod said.

Mr. McCurdy submitted figures showing that when the total capital was sixty million, bank premises were worth \$4,187,000, when it was sixty-seven millions it was \$6,369,000, and when the capital was a hundred and fourteen million the value raised was \$7,000,000.

Replying to Mr. Turfiff, Mr. White said that the objection was the lifting up of so much capital. He did not believe banks deliberately went into real estate speculation. Mr. McLeod agreed with this latter statement.

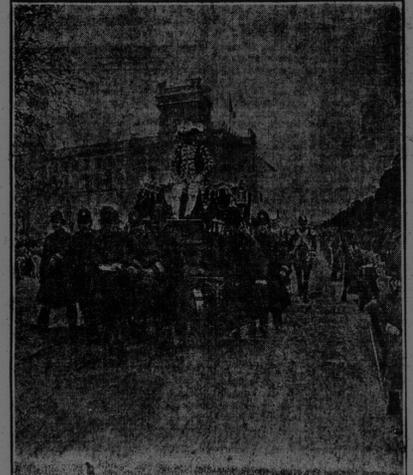

"But is not that the actual result when 33 per cent. is in a prohibited business," asked Mr. Turfiff.

MONTENEGRINS BESIEGING SCUTARI IN MIDWINTER

Despatches indicate that the Montenegrins have captured the main defences of Scutari from the Turks by determined assaults including a bomb throwing expedition, entailing the sacrifice of the lives of 200 men. The pictures indicate the Montenegrin siege guns in the depth of winter. The upper picture shows a siege gun during the armistice; the lower gives some conception of the work during the fighting.

BRITISH "BOBBIES" RESCUE GERMAN AMBASSADOR

This shows British constables to the rescue of the German ambassador to England; policemen drawing His Excellency's coach to the House of Lords after the horses had become frightened, plunged and broken the pole of the coach. Police ran to the horses' heads, unharmed the animals and led them away.

to operate a bank in the west than in the east, therefore they were justified in charging more out there.

"Would not an increase of one-sixth for the west be sufficient?" asked Mr. Turfiff. The witness maintained that for the reason stated the interest rate in the west must necessarily be considerably higher than what obtains in the east. He reiterated that undue limitation of interest rates must inevitably result in closing up many branches. It was reasonable to expect a higher interest charge in new as compared with old communities.

"It is not pernicious to create an interest rate and when so doing admit that it is unworkable from a bank standpoint?" asked Mr. Nicke. Mr. McLeod answered that the borrower did not have to pay more than seven per cent. unless he agreed to it.

"And," interjected Mr. Nesbitt, "a man is a common ordinary skunk who won't live up to his agreement."

Amalgamations were next dealt with. "I think these mergers should be ratified only by act of parliament," observed the witness, whose remark evoked numerous expressions of approval. He added that if a bank were in extremes and amalgamation only would save it, the other banks would help it out till parliament was in session.

Mr. McLeod saw no objection to the principle of unclaimed balances reverting to the government in trust, after six years, but they would be no safer there than with the banks. The witness held that it would be "undesirable" to make limitation of competition a penalty trust.

"Is there a money trust?" asked Mr. White. "I would give the inspector power to compel a bank to hold up, curtail, or withdraw an account?" asked Mr. Nicke. "Yes."

"Then you would give the casual inspector more authority than the head manager of the board?" Mr. Nicke asked. "That is the system in the United States. It involves no hardship. A man would not indiscriminately order accounts to be closed out."

Mr. Rhodes quoted Pierpont Morgan as saying the character of the borrower was the basis of credit. He asked what about that? Mr. Morgan was remaining. He was evading questions," said the witness.

Evading Law as to Realty Holdings. Mr. Waldron said he had spent eleven years in Central America and what he learned there was that for Canadian banks to open branches there would involve exceeding dangers. He expressed surprise as to the extent to which banks were evading the law as to realty holdings. The more they did that, the more their banking utility was affected. The witness was strong against the unrestricted lien whereby banks could seize all the assets of a debtor to the exclusion of everyone else. Not only was the act itself invoked but a whole system of extra grasping devices had been invented.

The witness characterized as "utterly illusory" the increased borrowing powers of the farmers under the new act secured by secret liens. Dealing with mergers, Mr. Waldron feared greatly the growth of a money trust and he would take special means to prevent it. Another danger was political influence of bankers.

"Take the last election. Bankers controlling three thousand branches were formed in Glenora, but little could be done because of the centralization of capital in the large places. We concluded that about all we could do was to look after the neglected orchards," he said. "Why don't you go into canneries?" said Mr. Nesbitt. "Because of the prohibitive agreement between grocers and the Dominion Canners," said the witness. "There are eighty-five independent can-

"So far as I know, no," replied the witness.

"If there is," asked Mr. Nesbitt, "how can we get into it?"

The proposal to hold responsible officers who "negligently" sign a bank return, Mr. McLeod said would make no difference. It might discourage good men becoming directors.

"I know a case," said Major Sharpe, "where a bank was guilty of a hundred violations of the act, and the then minister would not give a fiat for actions to penalize it."

"Evidently the minister thought it would not be in the public interest to take action," said Mr. McLeod, who thought the penalties generally should be materially reduced. He was opposed to joint guarantee of deposits. "Many banks," he said, "would go out of business rather than guarantee the deposits of other banks."

To Major Sharpe Mr. McLeod said that an efficient system of external inspection would protect the depositors. The time might come when segregation of deposits would be very desirable.

Duncan Ross wanted to know what were the specific objections for a joint fund guaranteeing all deposits.

"It would limit conservatism. It would encourage banks to be very reckless knowing that the others would guarantee them, and it would be ruinous," was the witness' reply.

This concluded Mr. McLeod's evidence and Hon. Mr. White thanked him for the valuable opinions had been given and also for his having broken a holiday in Europe, specially to give evidence before the committee.

Mr. White moved a formal vote of thanks which A. K. MacLean seconded and the committee adopted it heartily.

In reply, Mr. McLeod expressed his great gratification at being called upon for the new act was all right, considering its improvement over the old one, but he had decided to come back and give evidence before the committee what benefit might attach to his views. He noted with pleasure the committee's disposition to banking reform, adding that when he had retired three years ago it had been intimated that it was the intention to call him back. Anything he could now do in that way was a labor of love.

To Relax Rules for New Banks

Gordon Waldron, barrister and one of the owners of the Farmers' Sun, Toronto, gave his views on banking at the night session. He said he had become convinced of the necessity of relaxing the rules for forming new banks and permitting banks with capital as small as \$100,000. The latter might not be allowed to have branches.

Experienced managers, he believed, could be found for them, for banking, after all, was not necessarily confined to experts.

"Why do you favor smaller banks?" asked Mr. Ames. "There is the general impression that the small remote communities are at a disadvantage under the present system. Men go where the capital is found most readily. The private banks we used to have are largely out of business because they have not the advantage of circulation, and other privileges of the larger banks."

Mr. Waldron cited a private bank in Clinton which operated successfully and might be turned into a useful local bank. He made a general argument in favor of small banks assuming there was government inspection. He believed such banks would serve the small communities better than the local branches.

Dealing with annual statements of the banks, Mr. Waldron advocated a complete disclosure of the real estate holdings of the banks. He would go further and call for details of dealings with so called realty companies. As to audit, the system proposed in the bill was better than what there was before but he was steadily in favor of a government audit. This was that the public might know what was going on. The act should specify a cash reserve up to a certain limit. Fifteen per cent. he regarded as insufficient.

Loans to officers and directors should be specifically limited. Mr. Waldron thought the system today established the need of inspection. Mr. Waldron expressed the view that the banks are loaning too freely to commercial enterprises. Many of such assets could not be regarded as liquid.

It is generally understood," said Hon. Mr. White, "that the liquid assets of the banks are 30 to 40 per cent."

Mr. Wilkie, of the Imperial Bank, the witness answered, Mr. White said: "There is a wholly improper impression that call loans in New York are too large. I think such call loans are excellent reserves."

By whom would you have inspectors appointed?" asked E. Armstrong. "Under such conditions as are laid down by a special act of parliament. It is the people's affair. I do not see why there should not be a deputy minister under the finance minister and controlling Mr. McLeod has suggested what he proposed. I do not approve of what the inspectors do."

"Would you have the inspectors exercise control over the business policy of individual banks?" queried Mr. White. "I would give the inspector power to say to bankers, 'You are loaning too much on terms, and you must get rid of such and such accounts.'"

"Would you give the inspector power to compel a bank to hold up, curtail, or withdraw an account?" asked Mr. Nicke. "Yes."

"Then you would give the casual inspector more authority than the head manager of the board?" Mr. Nicke asked. "That is the system in the United States. It involves no hardship. A man would not indiscriminately order accounts to be closed out."

Mr. Rhodes quoted Pierpont Morgan as saying the character of the borrower was the basis of credit. He asked what about that? Mr. Morgan was remaining. He was evading questions," said the witness.

Evading Law as to Realty Holdings. Mr. Waldron said he had spent eleven years in Central America and what he learned there was that for Canadian banks to open branches there would involve exceeding dangers. He expressed surprise as to the extent to which banks were evading the law as to realty holdings. The more they did that, the more their banking utility was affected. The witness was strong against the unrestricted lien whereby banks could seize all the assets of a debtor to the exclusion of everyone else. Not only was the act itself invoked but a whole system of extra grasping devices had been invented.

The witness characterized as "utterly illusory" the increased borrowing powers of the farmers under the new act secured by secret liens. THE YARMOUTH BOOSTERS A VISIT FROM 17 WHALES

Yarmouth Light.—The total membership of the Booster Club is now up to 110 and growing rapidly. It is in touch with a number of enterprises with two practically assured. A representative is now in St. John consulting with one of the factories in that city, and a representative will be sent to Toronto. Booklets will soon be issued to interested manufacturers, and the tourist end will be looked after to induce outsiders to locate in the county. The Agricultural Society will be asked to meet with the Boosters on agricultural matters. Flax and ginseng raising are being talked up. H. W. Corning, M. L. A., has written that as much of his farm as is needed may be used by the experimental farm for making experiments in flax raising. A "Booster" Employment Agency and Information Bureau was also organized.

Vancouver, B. C., April 8.—Seventeen whales were reported passing in the First Narrows by the lighthouse-keeper at the Prospect Point light. The arrival of the leviathans in the harbor caused much surprise in marine circles. The mammals were first sighted out in English Bay as they appeared and disappeared, blowing for air and smashing the water with their flukes. It is thought that a shoal of small fish coaxed the whales in so close and on reaching the mouth of the narrows they continued on into the harbor, which they evidently mistook for one of the channels leading up the coast. After poking around in the waters of the harbor for a short time the whales finally headed for the gulf. The visit of the leviathans so close in at this season indicates that they will be plentiful this year.

SLEW COMRADE AND ATE HIM

Horrible Tale of Cannibalism by Starving Escaped Convicts in French Guiana

Paris, April 9.—Mail advices from French Guiana give details of a horrible story of cannibalism. Four inmates of the penitentiary of the colony, named Moulillard, Bacheeran, Fossey and Machevel made their escape. Three of the men were recaptured in a boat at the mouth of the Mana river.

According to their story, they wandered in the forest for eight days. Their scanty provisions were soon finished. Machevel dropped from exhaustion and the others decided to kill and eat him. Machevel made a feeble effort to run, but was struck down and eaten by his companions. The struggle on as far as the river, where they found a boat. They intended to make for the open sea but were driven ashore.

LOCAL NEWS

THE CAVALRY CAMP. An announcement appears in the Canada Gazette to the effect that the 25th New Brunswick Dragoons' period in camp this year will be twelve days.

FREDERICTON WEDDING. Miss Robena Colwell, daughter of Mr. and Mrs. Herbert Colwell, and Albert Kitchen, son of Mr. and Mrs. H. G. Kitchen, are to be married in Fredericton this afternoon, at the residence of the bride's parents.

BYE-LAW MATTERS. P. Mooney, reported for encumbering Prince William street with sand and also with mixing concrete on the pavement was fined \$5. Thomas Paris, reported by Sergeant Baxter for allowing ashes to fall from his wagon in Prince street last month, was also fined \$2.

NOVELTY SHOWER. Friends of Miss Helen Dunham gathered at her home last evening and tendered her a surprise in the form of a novelty shower. Miss Dunham received many handsome and useful gifts, which will be of use to her after a happy event to take place at the end of this month.

ST. JOHN PEOPLE IN LONDON. Mrs. Nellie MacLeod, Mr. and Mrs. J. A. Paddon, Miss Florence Brown, and Andrew Dean of St. John, Mr. and Mrs. J. T. Wilson and the Misses Wilson, Mr. and Mrs. F. W. Bissett of Halifax; Miss Ida Cameron of St. Peter's, N. S., were among Canadians registered at the Canadian High Commissioner's office in England recently.

DEATH OF YOUNG MAN. The death of Thomas Noble Clark occurred at the home of his grandfather, Thomas N. Sargent, 55 Moore street, this morning after a lingering illness. He was the son of Mr. and Mrs. David Clark of this city, and was seventeen years of age. The funeral will be held on Friday, the 11th inst., at 2:30 o'clock, from 55 Moore street.

BARNETT TO BOSTON. Tom Barnett, a local boxer who has made such a good showing in boxing exhibitions here is planning on going to Boston to take part in the amateur boxing championships there during the first week in May. Barnett has shown skill with the gloves and it is expected that he will make a good showing. J. J. Power will accompany Barnett as his manager and trainer and several followers of the sport have expressed their intention of going to see the matches.

FIFTEEN ON POLICE COURT BENCH TODAY

The prisoners' bench in the police court was filled this morning, there being less than fifteen prisoners gathered in yesterday, thirteen of them charged with drunkenness. Seven of the men charged with drunkenness were remanded, four were fined \$8 or two months in jail and one, a sailor, was allowed to go to his ship on his captain paying a fine of \$4. A woman, who is a deaf mute, was arrested last night in Beaufort street, and some difficulty was experienced in explaining the charge to her. Magistrate Ritchie remanded her in order that some arrangements might be made for having her disposed of.

William Guthrie, charged with vagrancy and having no visible means of support, pleaded not guilty. Policeman Rose said that he had seen Guthrie in company with another man last night about twelve o'clock on Market square and questioned him as to what he was doing out so late but could get no satisfactory reply. He was remanded.

Two men who were remanded yesterday for drunkenness were fined \$4 each this morning.

Frank Kennedy, colored, charged with assaulting his wife in his house in Brunsell street, said that he did not remember the assault. His wife said that prisoner had been drinking and struck her on the side of the head with his fist.

TOO MUCH LOAD FOR HORSE, S.P.C.A. CHARGE

George Strayhorn, reported by Police Sergeant Kilpatrick for overloading and beating his horse in Main street, pleaded not guilty. The prosecution was conducted by the S. P. C. A., J. King Kelley appearing for the association. S. M. Westmore, secretary of the S. P. C. A., also was in court. Sergeant Kilpatrick testified that he saw the defendant trying to make his horse put a load of scrap iron up Main street and that the horse was not able to do the work alone. He ascertained from the rolling mill that the load weighed 2,710 pounds. The defendant explained that the load had been put on by another man and he did not think it was too much for his horse. The case was postponed until tomorrow afternoon when further witnesses, including H. J. Garman, for whom the load was being hauled, and the man who weighed the load at the rolling mill, will be heard.

REAR THEIR LITTLE FAMILY AMIDST A BUSY SCENE

On an ordinary window sill, of a bare brick building overlooking a busy alley, in full view from the room in which the pigeon sits upon her nest. One does not think of a bare, unadorned window sill as a desirable location for a bird's nest, but there it is, and there the female pigeon sits upon her nest. The little family drama is being acted there as serenely as if the nest were set amid a vast scenery, and lulled by vagrant airs, instead of upon a cheery window sill, within sight and sound of street traffic, the noises of machinery and the strident voices of commerce. One wonders how the little pigeon, with only this narrow window sill as the stage of their first experiences of life, will escape the many dangers (chiefly "slut" human) that lie in wait for them. But the parent birds have unbending faith in Him who notes the sparrow's fall, and so they mate, and build their nest, and endeavor to rear their young, as countless generations have done before them, and as countless other generations will do after them. The winds may blow upon them and the storms beat down, but the instinct of life will lead its way, and the parent birds, who know so many dream their dream, even as do the ambitious humans who find in this little domestic drama the inspiring theme of a paragraph in the day's news.

NEW INDUSTRY FOR ST. JOHN

City Men in Company to Take Over Myers Plant, Build New Factory and Make Oil and Other Engines

Dr. E. J. Broderick of St. John, and M. L. G. Vincent, M. E., who has been lately connected with Drummond, McCall & Co., as their manager for the maritime provinces, have succeeded in floating a company, with a capitalization of \$100,000, for the manufacture of oil engines and other internal combustion engines. They have interested considerable local and outside capital, and lately J. W. Myers, of Myers machine shop, submitted a proposal to take over his plant. At a meeting of the subscribers of the company it has been decided to take over this repair plant and to buy the necessary modern machinery with a view to manufacturing oil engines along with the repair work. Mr. Myers has agreed to assist the new company and to keep a financial interest in the concern in order that they may continue the plant on the same basis, but with young men at the head and with fresh energy. At a meeting it was decided to name the new company the Oil Motor and Manufacturing Company, Limited. The provincial directors elected were Dr. E. J. Broderick, M. L. G. Vincent, Richard Sullivan, A. E. Massie and T. J. Terry. W. J. Mahoney is one of the subscribers of the company, was requested to apply for a charter.

The company have obtained an option on a central site and have decided to put up an up-to-date factory building. The location has so far not been made public. At a meeting of the subscribers and the board of directors, Dr. E. J. Broderick was appointed president and A. E. Massie treasurer.

The Myers machine shop will be continued by the new company without interruption in the same building in Waterloo street, until their new factory has been completed.

The Oil Motor and Manufacturing Co. are looking forward to a brilliant future, as the Myers machine shop has always been a very well paying concern, and the manufacture of oil engines in itself is a very good proposition. The company have already sold two crude oil engines of 20 h. p. each, one to John White & Sons, to be installed in their new vacuum cleaner factory in Rosetown avenue, and the other to The D. F. Brown Paper Box Co. to drive the machinery in their factory on Canterbury street. The fact of the matter is that these two concerns were looking for cheap power and as Mr. Vincent was well known as an expert in this type of engine, they took the matter up with Dr. Broderick and Mr. Tisel, who is a Swede by birth and has introduced several of his Swedish and other European specialties, they decided to obtain two engines from a famous Swedish manufacturer of such engines, and these engines have since arrived, the one for Messrs. Brown is expected to be in operation this week, while the one for Messrs. White cannot be installed before the new factory building is completed.

The new company have also made arrangements with one of the best concerns in the world to manufacture for Canada a gasoline engine which will find a great sale among those who have at the present time gasoline engines and for one reason or another do not want to take their present gasoline engine out and prefer to attach such an adapter in order that kerosene may be used advantageously in the engine. It is encouraging to know that crude oil can now be obtained from the oil shale in Albert County at a fairly reasonable price, but it is expected that when further tests with the oil shales prove successful that oil for fuel in engines will be obtainable at very low prices.

MAKING GOOD START

Miss Murray's First Class of Employed Girls—Other Classes

Miss Murray had her first class of employed girls in the assembly room of the High School last evening. It was a small class, but the members were greatly interested and pleased, and there will be a much larger class on Thursday evening. These classes for employed girls, in which they will learn folk games and other exercises, will be held on Monday and Thursday evenings hereafter. In addition Miss Murray will devote one evening to camp fire work, with Miss Pitt's class of employed girls, and one to similar work with girls from the higher grades in the schools. The special classes for playground teachers are held on three afternoons each week, and on two afternoons they will be present when Miss Murray will give play ground exercises to a class of small school children. Sixteen ladies are taking the course for playground teachers, with Miss Macleod as pianist. Miss Murray is much pleased with the work here, and by next week it is hoped to have a complete programme in full working order for the period of her stay in the city.

TWO MATTERS IN PROBATE

In the probate court today the matter of the estate of Mrs. Mary A. Buchanan, widow, was taken up. She died intestate. She formerly was of the Parish of Westfield, Kings county, but more latterly of Shell Lake, Wisconsin. She left a son, George O. Buchanan of Amherst, Mass., railway employe and a grand-daughter, Ella Lucile, an infant, daughter of the late A. Buchanan of Lake, a son of the deceased who predeceased her. The petition of the son and grand-daughter, joined in by the mother of the infant, was presented showing that administration was issued in Wisconsin of a limited and special nature only and asking for administration here in favor of Cyrus F. Inches, barrister-at-law. He was accordingly sworn in as administrator. The real estate consisted of a very small triangular piece of land at Westfield valued at \$80. The personal estate amounts to \$2,800 and consists mostly of money in the Dominion Government Savings Bank and in another bank here, besides a sum in the Lumberman's Bank at Shell Lake. Inches & Hazen are protectors. In the matter of Donald Alexander George, Francis and Alexander Kenneth MacRae, infant children of the late Alexander MacRae, barrister, on the petition of the infants joined in by their mother, Clara George Turner MacRae, the mother was appointed guardian of the persons and estates of the infants, MacRae, Sinclair & MacRae, protectors.
