THIRTY LIVES LOST IN WHARF CASUALTY

That is Outlook In Fatality Near Buffalo MEN SEE WIVES DIE

One, Clinging to Pile With Baby, Sees Wife and Son Swept to Death—Collapse Shows That Timbers of Dock Were Rotten

(Canadian Press)

Buffalo, June 24—Five bodies and a list of eighteen missing persons were brought here today by the medical examiner from the scene of last night's disaster at Eagle Park, on the west shore of Grand Island, about ten miles below Buffalo, where more than 100 people were thrown into the Niagara river by the collapse of an excursion dock.

The identified dead are: Mrs. Arthur Meyer, Mrs. John Hayes, Mrs. Lillian Kellogg, Mrs. John Kelly, nine years old; Mrs. Agnes S. Gallagher. Missing and believed to have been drowned: Mrs. August L. Helstrom and five-year-old daughter, Mrs. Geo. McKee and infant son, Mrs. Geo. Richmeyer, Norma Richmeyer, ten years old; Miss Christine Wachter, twenty years old; Mrs. Irene Viola Renf, Mrs. Irene Thomas, Mrs. Edward Westphal, Mrs. Grace C. Heide, Mrs. Chas. Zimmerman, Nora Mayer, four-year-old daughter of Mrs. Arthur Meyer; Alice Griffith, sixteen years old; Anthony Meyer, Miss Kate Wald.

In the terror and confusion of the accident families became separated and there is a faint hope that some of these listed as missing may be found today. There is little doubt, however, that the list of dead will at least reach twenty.

George Richmeyer, who lost his wife and ten-year-old son, saw them swept clear of the wreckage by the current that sweeps past the dock at the rate of ten miles an hour, and carried away in a pile, holding his infant son in his arms, and could do nothing to save them.

George McKee, who also lost his wife and infant son, saw them go down in the arms of struggling people. They did not resist. The section of dock which gave way, precipitating the crowd of men, women and children into the river, was about fifty feet in length and twenty feet in width. The medical examiner, who examined the wreckage at dawn, found that many of the jagged ends of the broken planks were rotten, and that directly beneath the collapsed portion of the structure there were no supporting piles. The platform of two inch planks rested on cedar beams, laid across the full width of the dock, and many of these showed signs of decay.

Boats were sent down the river from Eagle Park early today to recover bodies. A mile below the landing there is a reef running several hundred feet into the river and with a shore aving of the current, forms a natural basin and into this the bodies would be carried.

There is some difference of the stories of eye witnesses, as to whether the boats contributed to the collapse of the dock by striking it, when they came within the people standing on it. Skipper Felix said today that there was no perceptible jar when he warped in. He had lines over two of the snubbing posts, but the pressure was not great, as the boats were moving slowly against the current, which was also aiding in the swinging toward the shore.

In addition to the medical examiner's and the police investigation, a rigid inquiry into the cause of the accident will be instituted by the district attorney.

SHAKE-UP OF STANDARDS

Finnamore to Be Captain and Duval Likely for Houlton

(Special to Times)

Halifax, N. S., June 24—The Standards are due for a big shake-up. Finnamore, who had a big offer from Houlton, stays as captain, "Buckie" Lynch has signed as first baseman and will join the team in Moncton today. Travers, the star batsman of the Standards last year, is likely to sign today, and two or three others are being communicated with.

This all comes as a result of Saturday's 13 to 1 lasso. "Big Bill" Duval, the management think, is too high a priced man to be kept for nothing else than pitching the required number of balls to the batters, and he will likely go to Houlton. As a pitcher with airtight support, he is triple X, but as a utility man, he is found wanting.

REV. ROBERT WILSON DEAD

Venerable Methodist Minister Passed Away Early This Morning—Had Filled Many Pastorate

(Canadian Press)

Rev. Doctor Robert Wilson died this morning at his home in Rockland road and the news of his death will cause widespread regret not only in St. John but throughout the maritime provinces and in many other parts of Canada. He had been enjoying fairly good health although inconvenienced by an attack of asthma. Last night he was not so well and a doctor was called. It was thought to be but a temporary attack of stomach trouble, but about three o'clock this morning he passed away.

Rev. Doctor Wilson was born in England eighty years ago. He came to this country in early manhood and through all the years that intervened he has been foremost in the work of the Methodist church in these provinces. He has held pastorates including Albert, Canada, Port of Spain, Marysville, Prince Edward Island and in the Queen Square and Zion churches here.

In addition to church work he was a facile writer and had written many articles for the newspapers. He was a man of kind manner, one who numbered very many friends, and one whose death will be sincerely mourned. Mrs. Wilson died several years ago and there are surviving one son, Albert, of the post office department here and four daughters—Florence, Alma, Victoria and Mrs. Arthur C. Powers all of this city.

MRS. DARROW TO TESTIFY

Los Angeles, Cal., June 24—Not only Clarence E. S. Darrow take the stand in his trial for alleged jury bribery, but Mrs. Darrow also will be a witness for the defence. Although no statement was made by District Attorney Fredericks as to the time he would take to complete the state's case, attorneys for the defence announced they would be ready to begin the presentation of their side of the case at the latter part of the week. They expect the prosecution to start in Friday. Between fifty and 100 witnesses will be called for by the defence, but as most of the evidence will be in the nature of impeachment of Bert H. Franklin and John R. Garring of Garrington, the two principal witnesses for the state, only about two weeks may be required to complete the defence.

WHO IS BROWN AND WHAT OF HIS STORY?

Says He Has Just Completed Tour Across Continent From St. John and Back

(Special to Times)

Boston, June 24—The Globe today prints the following:—Having walked from St. John, N. B. to Los Angeles and back again as far as Brookline, on a bet, all that stands between William Brown of the former city and the chance of losing \$10,000 is a dog. Should the dog die before Brown gets back to St. John the \$10,000 is not his, and the weary journey from coast to coast which thus far has taken five years, will have been for nothing.

Brown struck Brookline a few days ago, coming in from Framingham on his return trip. He was practically penniless and was now waiting to earn enough money to pay his passage back on the boat to St. John, for, according to the terms of the bet, he may use any boat between Boston and that point going and coming. The weary journey is now employed cleaning bricks in a building that is being erected near Brookline.

Brown started on his journey across the continent in December, 1906. At that time he says a bet was made between members of the First National Sporting Club and the International Sporting Club of St. John.

The various states will hold caucuses to choose their representative to the convention committee and those where unit rule prevails and where the delegates have not already been instructed by the primaries, will consider what candidates they will support for the presidential nomination.

The struggle over the temporary chairmanship of the convention is that Clark and Wilson were "the leading candidates."

SERIOUS EFFECT ON THE CROP OF APPLES

Tent Caterpillars Are Causing Serious Condition in Quebec

Montreal, June 24—It is said that the plague of tent caterpillars, which has recently attracted so much attention throughout this province, is likely to have a serious effect upon the apple crops, not only of this but of next year.

Wherever modern spraying methods have not been practiced, the orchards have suffered severely, while many of them have been completely denuded of leaves as though a fire had gone through them.

This, it is said by experts, while it may not cause permanent damage to the trees, will almost certainly greatly reduce the crop, while the upsetting of ordinary bearing conditions and the extra demands on the trees to turn out a fresh supply of leaves after the caterpillars have finished their work, will probably seriously affect next season's crop.

DEFENDER OF LADYSMITH DEAD

Sir George Stuart White, An Irishman, One of The Most Distinguished Soldiers in British Army

London, June 24—Field Marshal Sir George Stuart White, governor of Chelsea Hospital, London's home for aged soldiers, and one of the most distinguished soldiers in the British army, died today in his seventy-seventh year. He passed through a strenuous life as a soldier, fighting Britain's battles in all parts of the world. He went through the terrible hardships of the Indian mutiny in 1857 as a young officer, taking part in many engagements with the Sepoys.

It was, however, during the Afghan war in 1879-80 that he had his fame and won the distinction of the Victoria Cross, "for valor." At the battle of Charasiah he led two companies of his regiment, the Gordon Highlanders, up a steep mountain, to attack the strongly posted Afghan garrison. When his men halted exhausted, he seized a rifle, advanced alone and shot the garrison commander and shot the Afghan general dead.

He accompanied Lord Roberts on his march to Kandahar, and he afterwards participated in the Soudan expedition in 1885 for the relief of General Gordon, and the same year in the Burmah war.

In 1897, when he was commander in chief in Natal, he defended Ladysmith against the Boer besiegers for 119 days. After the Boer war he was appointed Governor of the Fortress of Gibraltar.

AWAKENING OF WOMEN OF RUSSIA

Feminism in Czar's Country Is Sweeping Over The Land

OVERCOMING OPPOSITION

The Women Doctors Now Number 2,317 and Dentists Are Nearly 4,000—Girl of 19 Chief Medical Inspector of Elementary Schools

(Times' Special Correspondence)
St. Petersburg, June 23.—St. Petersburg has its woman chauffeur, its woman professor of anatomy and its first Duma bill allowing women to become lawyers. Russian feminism is winning all along the line. Other parts of Russia are proclaiming women merchants and a Black Sea port has produced a woman ship-designer who has produced an order to design a Caspian sea steamer for the "Kavkaz" and "Mercury" lines. Six enthusiastic male feminists recently held a dinner in Cuba's restaurant to celebrate these triumphs and across their table was a sugar model of the new Ochia-St. Petersburg bridge on which three women engineers were lately at work.

The Woman Chauffeur

It is one of the Ochia engineers, Mlle. Elena H. Schumppert, who has become a professional chauffeur. She is a pretty, intelligent girl, twenty-three years old, a kinswoman of a councillor of state, Admiral Dubasoff, the notorious "miserogovernor" of Moscow in 1905-6. Mlle. Schumppert abandoned engineering for her new vocation in order to start feminist among the working classes. Several competent women had tried to get chauffeur's certificates and failed. Mlle. Schumppert fought their claims in the senate and won a decision that if she passed the examination she could drive a car. Attired in a dark blue dress and a neat but courtly hat, she pilots a hired automobile about the capital.

Mlle. A. M. Smolnoff is now first woman professor of anatomy and professor of the St. Petersburg Medical-Veterinary Institute for Women. Only women study here but the professors so far have all been men. Mlle. Smolnoff is daughter of a Don Cossack. She has the degree of doctor, which is rarely granted to women by Russian universities and she has studied under Professor Volkoff, the best Russian specialist for internal diseases. The study of forensic medicine by women here is a new thing. It gives them the right to make examinations and give expert evidence in cases of murder and suspicious deaths.

Russia now has 2,317 women doctors of medicine and nearly 4,000 women dentists. In many provinces the women dentists are the best and completely out of the men. Most of them are Jewish. Last autumn a woman was appointed chief medical inspector of one of the Moscow districts. The "Zemstvo," which is the local governing organ, has since named Doctor Alexandra Dvorflof, a girl of nineteen, chief medical inspector of the elementary schools. The governor, who is a black reactionary, refused to confirm the appointment on the ground that it is illegal. The question is now before the courts.

Everywhere reactionary officials are opposing the women doctor movement. Lack of money makes it difficult to contest their prohibitions in court. Madame Kostochina, one of the best and most successful of Russian actresses, and a keen feminist, lately started a fund to defend feminist interests. She collected enough money to fight several important cases in the senate, which is the highest authority on questions of law. Only a few were won.

The senate is under the influence of Zinaster of Justice Schegolev, a strong reactionary in all affairs. Prime Minister Kokotoff is more sympathetic; he defends the medicine movement and lately promised to start a girls' commercial school. However, his is against admitting women to all professions.

Women Lawyers

Feminism is just now intensely excited over the question of women lawyers. Heated debates are going on in the duma, and between duma and ministers. The feminists have won the first round of the fight because they have secured the admission of women to special law courses, and in some cases to the law faculties of the universities. In St. Petersburg fourteen women have completed the same law course as men, and passed the examination. In Moscow eleven and in Odessa twenty-eight girls are in the university law faculty. All the twenty-eight are Jews.

When the studies are completed trouble begins. Russian law does not forbid these women to give advice and take fees for it, but it refuses them the rank of advocate and forbids them to plead in court. The law does not specifically say this; it ignores the subject altogether, but when last year the senate was asked to rule on the subject, it decreed that the sense of the law was against women lawyers.

The duma decided to intervene. It has a majority in favor of feminism. In the majority are Count Uvaroff, M. Schumppert, and the whole of the duma left. According to the constitution the duma, when it wants a new law, has first to invite ministers to draft it and only if ministers refuse can duma members draft it themselves. When the government was appealed to it refused.

Again it was Ministers of Justice Schegolev, who sent his assistant, Verevitch, to oppose. The courts, said Verevitch, daily try matters which women could not touch without losing all instincts of shame. Count Uvaroff retorted that this was what was said when women first asked to be allowed to study medicine. On the government refusing the duma voted for a bill of its own. This bill is being drafted by a commission. Probably it will be rejected by the council of the

LA MARQUISE DE FONTENOY

Sir George Holford to Marry Rich Widow—The New Commander of English Naval Forces in Mediterranean (Copyright, 1912, by the Brentwood Company)

Sir George Holford, esq., to King George, is to marry a fairly rich widow, but she does not bring him sufficient wealth to make him wish to resume possession of Dorchester House, which he has rented on most advantageous terms to Whiteley Reid for the duration of his mission as American ambassador in London. Of the great London mansions it is one of the most expensive to keep up, and for that reason remained "let" from the date of Mrs. Holford's death until the present American envoy's occupancy. I must not, however, forget that on the occasion of Queen Victoria's golden jubilee Sir George placed it at the crown's disposal for the accommodation of the royal guests and delegates to the celebration. The government made the mistake of leaving the house until the date of Mrs. Holford's death until the present American envoy's occupancy.

Again Mrs. R. is always telling anyone who will listen how foolish it is for the S's to keep a maid when it is evident by the simplicity of their clothes and their general manner of living that they cannot afford to do so. As it happens, the S's are not the kind of people who are fretted when they see other folks finding happiness in some direction other than their own, and so they do not return the criticism, but there ARE people who frequently declare that they cannot see how the S's can be happy in such a cramped up apartment, even if it is in the most fashionable part of the city.

Love affairs always bring forth a perfect storm of criticism. We cannot understand what she sees in him; or if he happens to suit us, we cannot make out how he should be satisfied with him. And so it goes—we cannot be content to want what we want and try to get it; we feel inclined to criticize your or her's way of being happy, and try to be content with choosing your own happiness.

share of good looks, and taste in dress, but is no longer particularly young, as she is well past thirty, and she is very nice. At Trinity College which caused so great a sensation somewhat more than twenty years ago.

Through her first marriage she became connected with some American families, but her second marriage was to a British Guardsman, Jack Menzies' brother, who is married to Miss Hetty Davenport, daughter of the late John Davenport, of New York, and a granddaughter of Governor Morris.

Admiral Sir Archibald Berkeley Milne, who has just been appointed commander-in-chief of the English naval forces in the Mediterranean, was a particular favorite of King Edward VII, and his consort. He was for a long time in command of the royal yacht. He is, however, no longer in the service, but has a good deal of money, and which has remained in his possession ever since, as their principal seat. It is there that Sir George Holford will take his bride.

The family in past days owed much of their wealth to the West India trade. Sir George Holford was a captain in the First Life Guards when he became one of the equeries of the late Duke of Clarence. On the Duke's death he joined the Household of Edward VII, then Prince of Wales, in a similar capacity, and has been continued in office by the present king. His mother was one of the Lindseys of Balcarres, and one of his sisters is Lady Grey, wife of a former governor general of Canada. He is a very good looking man of fifty-two, with snow-white hair and moustache. He is an art connoisseur, as he has many valuable art treasures he has estimated at more than \$10,000,000. Indeed, the fact that so much of his property is tied up in these totally unproductive collections, has rendered him far less rich than his predecessors.

He is rather reved in manner, and shares with Joseph Chamberlain a fondness for orchids. His bride, Mrs. Jack Menzies, who is not to be confused with Lord Salton's septuagenarian sister of the same name, is a daughter of Mr. and Mrs. Arthur Wilson of Trinity College; a sister, therefore, of Miss Muriel Wilson. On her marriage to the late Jack Menzies she received from her father an allowance of £20,000 a year, and it is unlikely that this will be to any extent increased, judging from the way that her uncle, the late Lord Numburnholm, dealt with his daughters. Like all the Wilson girls, she has her fair share of money.

VIRTUE'S REWARD

To what extent British people are now embracing in business projects, in order to make up for Lloyd George's heavy drain upon their resources—heretofore derived mainly from land—is shown by the will of the late Marquis of Waterford, probate of which has just been granted to the executor, his uncle, Lord Charles Beresford. From this document it appears that Lord Waterford, who was head of the Beresford family and who was drowned at his country seat, Carraghmore, having fallen into a deep stream from a rustic bridge, then she will awake with a yawn which will be like an earthquake.

Criticising Other People's Happiness

By RUTH CAMERON
ONE man's meat is another man's poison" does not sound like a very important proverb if it does not mean that more of us could get the gist of it into our attitude towards life. For there are a great many people in the world who continually disturb themselves because other people will not find happiness in just the way they do. Apparently such people would rather see their friends poisoned by that which is meat to themselves, than fed by that which happens to be their poison.

One woman in my acquaintance never fails to introduce into every talk I have with her a petulant criticism of the way in which one of her girlhood friends finds happiness. "I really don't see how Janet can be happy out in the country out of touch with everything," is the burden of her plaint; "I think it is outrageous for her to bury herself like that."

Now Janet is fond of country life and is undoubtedly very happy, and yet I do not doubt that if her critic had the correct things she would force her to live in an apartment, as meat to herself, upon her friend, to whom it would probably be poison. One girl cannot understand how another girl is willing to wear cheap and unattractive clothes and go without the little luxuries of life for the sake of taking some expenses out of the way. It is a matter of actual fact, but she cannot see how the S's can be happy in such a cramped up apartment, even if it is in the most fashionable part of the city.

Love affairs always bring forth a perfect storm of criticism. We cannot understand what she sees in him; or if he happens to suit us, we cannot make out how he should be satisfied with him. And so it goes—we cannot be content to want what we want and try to get it; we feel inclined to criticize your or her's way of being happy, and try to be content with choosing your own happiness.

facturing business at Kilmathona, a mineral water business at Dungan, and a brewer's and malter's trade at Dublin, each of which concerns is exceedingly profitable and yielded him a very handsome revenue. This is admitted by the property on which death duties have been collected by the treasury amounts to considerably more than £50,000.

Finally the admiral is executor of the fortune, amounting to several millions of dollars, left by his brother, the late Lord DeLaval Beresford, who spent the last twenty-five years of his life on a ranch in New Mexico, where he managed to make a fortune of about \$1,000,000. The admiral had some difficulty in discharging a claim to the property made by a quidron woman, who insisted that she was Lady DeLaval Beresford, but she was unable to establish her status in the eye of the law.

POTAIO PERSILLADE.

A decorative way of cooking potatoes is as follows: Peel large potatoes and wash a potato scrub out on balls about the size of an olive. Cook slowly in boiling salt water about ten minutes until they can be pierced without breaking. Drain and shake carefully dry. Pour over them a tablespoonful of melted butter when well coated roll in minced parsley and sprinkle with salt and pepper.

PICAY Cakes.

The ingredients required are one and a half cups of sugar, six whole eggs and two extra yolks, one cupful of pecans, chopped fine, half cupful of citron, chopped, half pound of grated chocolate, one cupful of molasses, three cupfuls of flour, one teaspoonful each of baking powder, cloves, and spices. Beat the yolks until light, adding sugar gradually. Stir in the molasses, then the flour sifted with the baking powder. Add the other ingredients, a little at a time, and lastly the stiffly whipped whites. This makes a stiff batter. Do not add anything to make thinner. Bake in a biscuit pan. Turn out when done, frost the top with an icing made of the extra egg whites and two cupfuls confectioner's sugar. When almost cold, cut into small squares. These are delicate and will keep for weeks.

WEDDINGS

Bowes-Smith.

Trinity church was the scene of a pretty wedding this morning when Rev. J. Walsh united in marriage Miss Alice Smith, of Paradise Row, and Louis Bowes, son of Thomas Bowes, of St. David street. The bride was attired in cream serge with pencil stripe and a large black picture hat and she carried a large bouquet of cream roses. Miss Lauretta Smith, sister of the bride, was bridesmaid and wore a pretty pink silk dress with cream trimmings and cream hat. She carried a bouquet of pink carnations. The groom wore a dark suit. After the ceremony a dainty wedding breakfast was served at the home of the bride's mother, Mr. and Mrs. Bowes left on a trip through the eastern provinces. They received many handsome and costly presents, among them being a motor chair from the Clipper Club, of which the groom is a member; a costly remembrance from Emerson & Fisher, whom the groom is employed; and a handsome reception chair from Dowling Bros. in whose employ the bride has been for some time. On their return from their wedding trip Mr. and Mrs. Bowes will reside at 536 Main street.

Fudge-Calvis.

The marriage of Lemuel Fudge and Miss Bertha Calvis took place in their new home, Metcalf street, Saturday night at 8 o'clock. Rev. B. H. Nobles, of the Victoria street Baptist church, officiating. IN OPPOSITION TO WOMAN SUFFRAGE IN GERMANY

Berlin, June 22.—Germany is a very unpropitious field for the advance of female suffrage. The "German Federation for Combating the Emancipation of Women," has been formed, and is not entirely male in its composition. The watchword of the society is to be "true manliness for men; true womanliness for women." India produces twelve million tons of coal per annum.

NOVA SCOTIA METHODISTS

A Busy Day in The Conference

—Membership Roll Shows 8,641
Amherst, June 23.—Saturday was a busy day with the Nova Scotia conference of the Methodist church here. The first meeting was called to order at 9 o'clock with President Asbury in the chair and from that hour until in the afternoon conference was almost steadily in session. That the Methodist body in Nova Scotia is strongly in favor of church union was shown by the report of the committee submitted to the conference during the morning session. They showed that out of 1,280 officials, 90 had cast their ballots in favor of union and only 215 against. A large number of those not voting were absent at the time the ballots were taken in the church—over eighteen years of age—6,346 had voted yes and 1,690 nay. The total enrollment of membership in all the churches in Nova Scotia is 8,641, 80 is in excess from the figures above that the majority of Methodists are strongly in favor of a closer union with the other evangelical denominations.

The Sunday school report from a financial standpoint was very satisfactory. The total amount raised during the year was \$127,774 an increase of \$1,475 over the previous year. This total was divided into a number of classes. For Sunday school purposes in Nova Scotia \$8,202 was raised. This is an increase of \$1,377 over the previous year. For the general Sunday school mission, the conference, the Sunday schools in connection with the conference, had raised \$1,708, which is also an advance over the previous year.

The committee on the sustentation fund recommended an appropriation of \$2,017 for the coming year. This amount to be distributed among the twenty-one circuits, which would mean an increase in this fund and bring the stipend paid to the ministers and students for mission circuits up to \$720 a year.

Rev. J. W. McConnell, of Sydney, closed the session on Saturday morning by an exceedingly able address on ministers and ministers. A discussion of the superintendency was taken up in the afternoon and five veteran ministers of the denomination were placed on the superintendency list. All of these men have given years of active and faithful service to the ministry and have stayed aside now an account of the fact that their physical strength will not permit them to carry on further labor. Their names are as follows: Rev. E. E. England, Rev. David Hickey, Rev. G. F. Johnson, Rev. J. S. Coffin and Rev. William Ainley.

Vincent Zeppiro, a young Italian was accepted by the conference and placed on the probation list and gives a three years' standing. He is to work among his fellow country men at Sydney and will be ordained in that town at a date in the near future.

W. Martin, was also allowed three years on his probation course and was placed on circuit work with the understanding that he would take one additional year in college before his full admission to the ministry.

Peter Pallett was accepted as a candidate and will be ordained for special reasons. All the local evangelical pulpits in Amherst were filled by members of the Methodist conference today and many of the pulpits in the outlying district were also filled by the delegates to this gathering. A conference love feast was conducted.

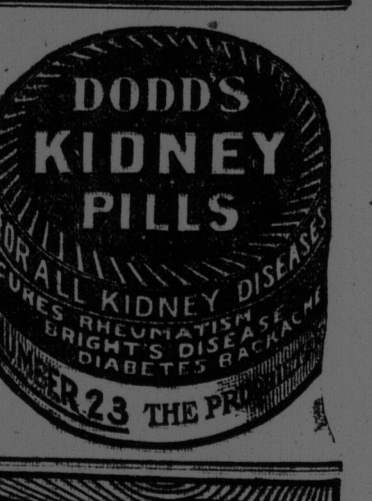

FUSILIERS AT CHURCH

The 62nd Regiment had its regular church parade yesterday at St. Paul's (Valley) church, where the members heard an able sermon from their chaplain, Rev. E. B. Hooper. The regiment with its two bands, brass and drum, and bugle corps, numbered about 300 strong. It marched from the drill shed by way of Broad, Charlotte, Colburn, Garden and Wall streets to the church.

DRUG MEN HERE.

The party of absentees and branch managers of the National Drug & Chemical Co., Ltd., who have been touring the maritime provinces, were in St. John on Saturday and were greatly impressed with the possibilities of this city. Those in the party were Chas. McD. Hay and wife, of Toronto; James Matthews and wife, Montreal; E. C. Mitchell and wife, London; A. C. Gorden, wife and daughter, Hamilton (Ont.); M. MacPherson and wife, Ottawa; and W. B. Gerow and wife, of Regina. The men of the party were put up at the Union Club by Fred W. Fraser, secretary of the local branch.

REAL ECONOMY—The cynic, once said a famous preacher, "seems to me as foolish and wrong-headed as the school boy who refused to play during the lunch interval." As this boy sat, with a discontented look, on a hard, stiff bench a comrade said—"Why aren't you playing, Jack?" Jack frowned contemptuously. "Catch me playing," he said. "If I played the time would go too fast."

"People, now-a-days, said the old housecat, "Don't know how to raise children. They let the youngsters have their own way too much." "That's right," replied the old brood hen. "Now, look at these chicks of mine. They wouldn't have amounted to anything if they hadn't been set upon."

NO HELL, SAYS PREACHER

Mr. Pedley of Toronto Gives His Views on The Subject

Toronto, June 24.—"I reject the doctrine of unearned, unrepentable and endless torment, because it is a libel on my God. The word 'Hell' has no right to be in the new testament. Such was the outspoken assertion of Rev. Jas. W. Pedley, in a sermon on 'Heaven and Hell' last evening.

Rev. Mr. Pedley did not know what would become of the man who scorned God and gave himself to evil, but he knew there would be certain retribution, but he laughed at the idea of the cooking stove and the flames and the other things some had imagined. He said there was no such thing. The doctrine of eternal torment was absolutely untrue and unscriptural.

THE REPUBLICAN POLITICS

Chicago, June 24.—Another climax in the victory of President Taft in the Republican convention was expected to come today with the meeting of the national committee. It was given out as practically certain that Charles D. Hillis, personal secretary to the president, would be selected as chairman of the committee. Members of the committee who are allied with Colonel Roosevelt would, it is believed, resign.

Mr. Hillis, forecasting that this would be the result, busied himself by consideration of men of political power in their homes to fill the places of Roosevelt men. It was said from Roosevelt quarters that the representatives of the six-president would probably attend this session and force the Taft men to take action. The plan discussed by the Roosevelt men was to present and enter a "silent protest" of the same variety as that presented at the convention.

She—"I did not think much of the close of the sermon." He—"Probably you were thinking more of the clothes of the congregation."

When you lose your temper you lose your judgment. There's no precision in an angry disposition.

NEW BRUNSWICK MOST NOW VERY MACH AHEAD

London Financier Has Encouraging Words on Awakening In This Province

THE BOOM IN ST. JOHN

Speaks of Great Works in Progress or to Come Here and Comments on the Agricultural and Mining Outlook

(The Financier, London, England.)

Whatever may be said of the other maritime provinces of Canada, New Brunswick is, at the present juncture, very conspicuously wide awake, prosperous, eager and progressive. In the resources which usually attract emigrants the province has never been conspicuously in the front. It has an ample area of agricultural and grazing land, far beyond its domestic requirements for many years to come, but it lacks the open expanses of territory where good virgin soil can be had for the asking which irresistibly draws the homeseeker to the great West.

Yet, unmistakably, New Brunswick not only has prodigious possibilities, but her people are thoroughly alive. There has been of late, at St. John, and all through the province, an awakening such as has never occurred in the memory of the oldest inhabitant—and some of the New Brunswickers live to a remarkable age.

Never before have so many big industrial and commercial projects been taken up. One of the most important factors—the most important—in this unaccustomed activity is the immediate prospect of St. John becoming an entrepot and a great port of call. There is a surplus of capital and a far greater population than in the case now. Its geographical position in relation to transatlantic shipping and the Canadian railway system, of a commanding character.

In St. John

In the city itself there appears to be a vigorous movement and a determination to make the most of the great opportunities which are looming up. It is alleged that the outlook in real estate is brighter in St. John than in any other city in Canada. It is confidently expected that the city will become a great summer port, as well as a winter one. Certain things of first-class importance are happening which give support to such anticipations. Contracts are already made, or about to be made, which, exclusive of any further developments, appear to mean the expenditure of large sums of money in the city and the demand for more labor on a considerable scale. Among others, the following projects are being undertaken:

- 1—Canadian Pacific Railway new freight warehouses and harbor front development; large development having the appearance of a new port.
- 2—West side expenditure—new wharf, \$1,000,000; work commencing spring, 1912.
- 3—Contract for Valley Railway signed; cost of construction of permanent bridges in connection therewith guaranteed by Dominion government, expenditure about \$5,000,000; work commencing spring, 1912.
- 4—Preliminary expenditure, Courtenay Bay improvements, \$800,000; work commencing spring, 1912.
- 5—St. John terminus for five railways, three of them transcontinental.
- 6—New post office, work to commence spring, 1912.
- 7—Completion of drill shed, 1912.
- 8—New factories, etc.: \$1,000,000; 1912; new factory, T. S. Simms & Co.; large addition, Trinidad Pulp Mill; Ganong Bros., new factory; Greenland Cement Company's new works; enlargement of Union Foundry Company's works; Keith's new theatre.
- 9—Outside capital coming into the city and province for investment.

There are, however, other contracts pending, namely, the \$500,000 bridge on which the provincial government has promised to begin construction work this year; the several small factories, which are practically assured; and the expenditure by the Grand Trunk Pacific on the site of its terminal.

The boards of trade (corresponding to British Chambers of Commerce) are showing great activity all over the province. Recently, at St. John, there was a meeting of the representatives of St. John and Fredericton, and a resolution was adopted to invite the cooperation of all other boards in holding a great international congress, to which also were invited members of town councils, farmers' associations, and trade unions. The proposition seems to have prevailed. The provincial government was asked to make a larger appropriation for publicity, and to spend this year \$25,000 for immigration. A central bureau of information was advocated, with a staff, including members qualified to visit settlers in new districts, to advise them, and to assist in carrying out a policy for providing state loans to farmers, which would guarantee absolute security to the province. This would enable young men to engage in agricultural pursuits, and so increase the farming population of New Brunswick.

The New Brunswick Legislature have recently had submitted to them some interesting reports giving particulars of the resources of the province. One of these shows that the territorial revenue of the province last year derived from timber lands owned by the province, and from mining leases and royalty, fishing leases, game licenses, and some minor sources, amounted to \$2,348,000, of which more than \$1,500,000 was derived from the timber lands, chiefly for stumpage dues on over 38,000,000 feet of log cut on crown lands. The territorial revenue of the province has increased \$285,500 in five years. The lumbermen only need a good logging season to provide the mills with a good supply for the year's sawing. The construction of the St. John Valley Railway is expected to give an impetus to the manufacture of hardwood lumber, as the line will open up some good hardwood timber lands.

Mining

During last year one of the most important developments in mining in the province was in connection with the Canada Iron Corporation, which mined in Gloucester county about 85,000 tons of ore, of which 20,000 were exported. Some 20 new dwellings have been erected at the mines, several hundreds of men are already employed, and this year large additions to the number are expected to be made.

SPECIAL MESSAGE FROM STRICKEN HEAD OF SALVATION ARMY

"In the Light or in the Dark, You May Count Upon Your General to Trust in God and go Forward!"

Under date of June 4, General William Both of the Salvation Army has issued the following special message—

MY DEAR COMRADES—If the unexpected blow regarding the loss of my eyesight has not actually fallen, as the newspapers have stated, it is hovering dangerously near. Instead of the restoration of sight for which I had hoped, and for which I know you have earnestly prayed, the doctors tell me I am on the very eve of entire darkness.

In a few brief hours my comrades will be under the painful compulsion of announcing that the general is hopelessly blind. In that event, what an indescribably painful loss will be mine, never again to see the light of day, or behold the countenance of my friends, or look into the sympathetic eyes of my comrades, never again to witness that which for over sixty years has been to me the right of sight—men and women kneeling at the mercy seat.

Then, too, I have lost the hope of being able with any facility to write, while it

FARM WOMEN'S CLUBS IN THE UNITED STATES

Though much attention has in recent years been given to political and social problems as they affect women, yet the rural element was generally somewhat neglected until the rural exodus began to take place. This has occurred in the United States especially, where many women have left the country districts, and it has therefore been necessary to make energetic efforts to improve the conditions of those who remain. An article in the April number of the "Bulletin of Economic and Social Intelligence, published by the International Institute of Agriculture, Rome, deals with this subject and describes more especially the work of the Farmwomen's Clubs in this direction.

In fact, besides the educative efforts made on behalf of the rural female element of the States in schools, colleges and agricultural universities, supplemented by the Women Farmers' Institutes, and the work of great associations, especially of that of the Grange, in which men and women have equal rights and duties, the apparently humble work of the Farmwomen's Clubs are very important. These unions form a remedy derived directly from the needs felt by the women of the country districts, and can therefore reach where neither the work of the government nor that of the great associations can penetrate.

The farmwomen's clubs have assumed various forms in the United States, but their efforts are especially directed to three principal objects, viz.: (a) the artificial creation among the women of rural districts of those social relations which, whether owing to recent immigration or to the long distance between the farmhouses, could not otherwise arise among them; (b) the variation of the monotony of domestic occupations by some kind of recreation, the want of which leads many country women to prefer city life; (c) the enrichment of the minds of the women by reciprocal exchange of useful information and knowledge.

This threefold work is carried on in the most varied ways among the women's clubs in the United States, which are often admirable for the ingenuity, simplicity and utility of their methods. Many of them are described in the above-mentioned article, to which we refer our readers, because their example might well be followed by the farm women of other countries.

PIANO RECITAL

On Friday evening a very successful recital was given by Miss Emma Rubin's pupils at her home, 534 Main street. G. H. Craigie acted as chairman. A lengthy programme was carried out. The following list of performers: Misses Agnes Pearson, Gladys Thus, Mildred Morrison, Lois Frisars, Pearl Seave, Jean Hoyt, Jean Knight, Gladys Moore, Nina and Eva P. M. Winnington Ingram of Gravesend (Ont.). The third brother is Admiral Ingram, the fourth is the Bishop of London, the fifth is a country rector and the youngest is an Indian administrator.

London, June 23—The Imperial Trade Commission has decided that it is precluded from touching that tariff question, and it has adjourned its sessions till 1913, when the tariff question is to be considered. The tariff question is to be considered by a sub-committee.

Before taking the fire morning and night fill the ash pot or bottom of furnace or stove with water. The ashes and cinders fall into the water, thus preventing dust, and the slight steam that rises seems to keep the coal soft, and thus preserves the grate by preventing clinkers.

Oil Shales

Much attention is being given to the oil shales in Alberta county, but we have no new facts before us of any great importance, though evidently there is a local impression that great things are to be accomplished. It appears to be generally supposed that it is only necessary to bring a sufficient amount of capital to bear to create an enormous industry in connection with this shale. The people of the district are beginning to look forward to the production of the oil in such quantities, and so cheaply, that New Brunswick will become the greatest power centre in Canada. Certainly, if shale oil, even of the lowest grade, can be produced cheaply and in large quantities, it would be the spot for conversion into power and current, the only alternative which might cause the way of developing industries of all descriptions throughout the province are better calculated to be undertaken. It is yet to be proved that the oil in quantities is there.

Fisheries, Fruit, and Transport

It appears that the sardine-herring catch during the winter has been unusually large, and a new sardine factory is being erected near St. Andrews, and another in view, which will be probably commenced in August. Naturally, the success of the fisheries will help the impetus of improving trade along the coast. For generations, the apples of New Brunswick have been famous, but the quantity produced has not been overwhelming, and though there has been an export trade, it has been of very modest proportions.

It is now considered the time has arrived when orchards should be planted and improved in accordance with up-to-date ideas, and there appears every probability of the industry being extended very considerably. Needless to say, if this takes place the simultaneous growth of St. John as a summer port, and the development of the city business generally, will tend to create an excellent market for all the fruit which can be produced. Then there is the question of internal transport. In any case the Grand Trunk Railway extension will open up some very good country, and stimulate extended settlement, but in addition to that there is a strong feeling in the province that several local lines should be built as quickly as possible in order that the marketing of local produce can be made easier and more profitable.

Belisle Fire

Hampton, June 23—Two barns belonging to Ira Earle, of Belisle, were struck by lightning in the storm of Friday and totally destroyed by fire.

In rescuing the animals from the burning buildings Mr. and Mrs. Earle and their men were badly burned about the hands and face.

The annual meeting of the sixth district of United Baptists closed its sessions on Saturday. Rev. Dr. McLure delivered an inspiring address on evangelistic work.

Resolutions of thanks were unanimously adopted for the hearty welcome and hospitality extended to the delegates by the Hampton Village church and people, to the organist and choir for helpful music, and to the railway authorities for reduced fares.

Morning News Over the Wires

A mission is being conducted in St. Gertrude's church, Woodstock, by two Redemptorist priests, Rev. Father Connolly of Boston, and Rev. Father Hogan of Brooklyn. Rev. Father McMurray, the pastor, is assisting.

The eight-year-old son of I. C. R. Inspector Colburn of Halifax, was killed yesterday near Oxford Junction by a train. He had been picking berries.

John Heney & Son, an Ottawa concern, has submitted an unusually low tender for coal for use in the government buildings. The price offered is \$6.99 for 9,500 tons. Last year the contract price for anthracite, which Heney & Son will supply, was \$7.70. This low tender has caused talk of a combine bust, as householders are paying \$7.75 a ton for the same coal.

London, June 23—The Bishop of London has met his five brothers together for the first time in forty years. The interesting gathering took place in Fulham Palace. The oldest member of the family is the English Archbishop Ingram, the second is P. M. Winnington Ingram of Gravesend (Ont.). The third brother is Admiral Ingram, the fourth is the Bishop of London, the fifth is a country rector and the youngest is an Indian administrator.

London, June 23—The Imperial Trade Commission has decided that it is precluded from touching that tariff question, and it has adjourned its sessions till 1913, when the tariff question is to be considered. The tariff question is to be considered by a sub-committee.

TAFT NOMINATED AND ROOSEVELT WILL HEAD AN INDEPENDENT PARTY

Sherman Choice for Vice-President—Colonel Holds Convention After The Regular Republican One

This picture of a slice of the great crowd at the Republican convention in Chicago, was taken as Governor Hadley, of Missouri, was speaking on behalf of the Roosevelt delegates.

Chicago, June 23.—With nearly 350 of the Roosevelt delegates declining to vote and hastening away at adjournment time to tender to Col. Theodore Roosevelt the nomination of a new party, the fifteenth Republican national convention at the end of a long and tumultuous session tonight re-nominated William H. Taft, of Ohio, for president, and James Schurz, of New York, for vice-president.

CONVERTING UNIONISTS TO HOME RULE

Sir Morgan O'Connell the Latest Recruit in Its Favor

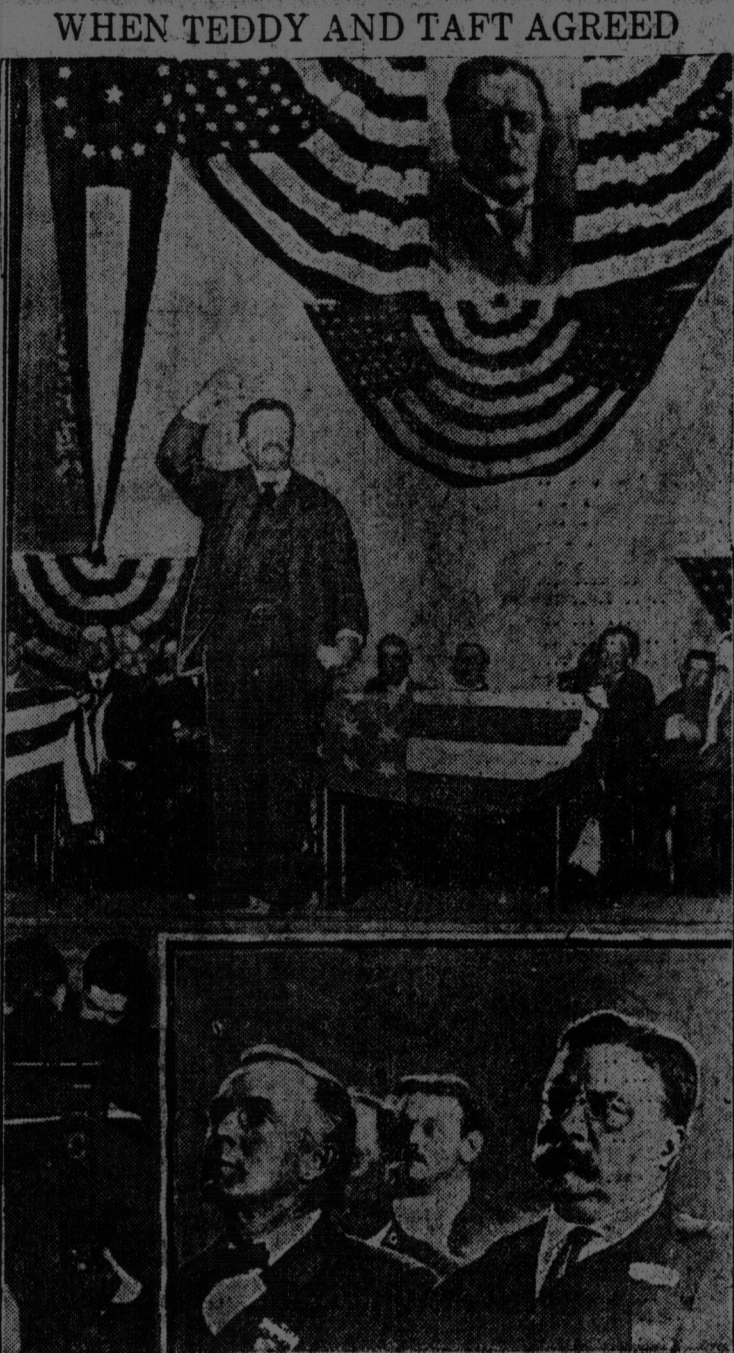

NO IDEA OF SEPARATION

Much Importance Attached to Proposed Visit of Hon. Mr. Asquith—Another Fine Gift to Dublin University

(Times Special Correspondence)

Dublin, June 13.—The present home rule bill is converting Unionists to home rule. The most recent recruit is Sir Morgan O'Connell, who says that the bill does not mean separation, but is the only possible policy and that the Unionists have no alternative. Sir Morgan says that for forty years the Irish Nationalist party have, in season and out of season, demanded and agitated for home rule. "This party have been able to be present at Westminster only by the financial support received by them from the English-speaking countries the world over. Much of this financial support has come from extremists and to obtain it extreme views have been given utterance to, and in Ireland, unfortunately, extreme of agitation resorted to. No one can possibly condemn many of the speeches and much of the agitation more than I do. So much for the past.

KING CHARLES MUST FIND NEW RESTING PLACE

Statue That Wins Hearts of Girl Visitors To London

ITS HISTORY INTERESTING

Hidden By Wily Brazier Until After Restoration, and he Made a Pretty Penny Out of it—Probably Finest in Empire Metropolitan

(Times Special Correspondence)

London, June 14.—Every girl traveler who comes to London loses her heart. The thief is a king, a handsome king, with flowing locks and pointed beard, who sits, attitude of a restive steed, looking down Whitehall, probably at the place there where his royal head was chopped off nearly 200 years ago. He has been sitting there ever since the restoration, but now he has to "move on," being in the way of improvements which are to be made in Charing Cross, where he and his steed surround a pedestal.

Qual Won A Great Race.
Toronto, June 23—Billy Quail, the Yankee champion, won the five-mile professional championship race at the old stadium Saturday night, with Ted Wood second and Tom Longboat third. They were the only starters. Shurba's ankle, injured two weeks ago, having failed to heal, while Al Raines broke down in training last week and Swabbers, the Svedis, withdrew.

Wood led for the first mile, which was run in 4:49. Quail set the pace for the second mile, time 9:33, and kept up the terrific grind until the third mile. Time, 14:40. Wood and Longboat were right at his heels, and Wood took the lead for the fourth, but his fierce spurt failed to shake off the others. The four miles were run in 19:22. The last mile was slower, as the racers were watching each other.

In the last lap Longboat found the pace too hot and stopped in the back stretch. Quail caught Wood at the head of the stretch, but twenty yards from the tape he was seized with a cramp and faltered, but staved off Wood and won in 24:30 2/5, the fastest ever run in America.
Quail was carried off exhausted. Wood could barely stagger, while Longboat was overcome by nausea.
The ten-mile team race was won easily by the Indian team, Red Hawk and Allan Hawk. The Irish-Canadian team, Meadows and O'Brien, narrowly beat out the Toronto team, Sellen and Roe, for second.

Olympic Games Entries a Record Breaker.
Stockholm, June 23—The number of entries for the Olympic games is greater than on any previous occasion. Seventeen heats and two qualifying rounds will be necessary to reduce the field of ninety-five entered for the 100 metre dash to the six men entitled to compete in the final.
One hundred men are entered for the 200 metre dash; 25 will contest in the 400 metre event, and 72 in the 800 metres.
The classic Marathon will bring together 200 contestants. Nine nations will be represented in the 5,000 metres team race, while teams representing the United States, Russia, Italy, Hungary, England, Canada, Germany, France, Austria and Sweden, will match speed and staying powers in the 4,800 metres relay. The relay dash of 400 metres will have teams competing from the United States, Hungary, Austria, Germany, Bohemia, England, Russia, Norway, Canada, France, Italy and Sweden.

makes us enthusiastic over this stock. Not a customer that we cannot suit in size, price and style. Prices from \$2.98 to \$15.00. These dresses are tucked and trimmed with time taking ideas that would make you think the dresses ought to be priced double what they are.

For instance, one dress at \$5.25 has a very wide Swiss dounce with 6 inch row of insertion above to match, with the waist of the same fine embroidery as flounce. Above that is the tucking for yoke and sleeves making one of the most effective and dainty dresses that it is possible to design.

Then the Allover Dresses made entirely from allover embroidery down to the knee and from that tucked and insertion set flounce at \$6.39, makes a dress equal to lots you will find priced \$10 in other stores.

The Misses' Dresses for young ladies from 12 to 20 are a lot that we purchased from New York at a special price. They are from \$3.00 to \$5.90 and are from \$1.00 to \$2.00 each less than the regular price.

JOE TARBELL FOR THE MAJOR LEAGUE RACE

Report Says Cleveland Has Marathon Pitcher—Wood is Released

The Marathon baseball team left for Fredericton this morning and will play the Fredericton team there this afternoon. Winter will probably do the pitching for the Greeks and Dinamors for the Fredericton nine. A good game is expected. Wood, one of the Marathon pitchers, who has been doing fairly good work here this season, was given his release on Saturday by the management. It is believed that the management of the Fredericton team are anxious to secure his services, and may sign with that team.

According to a Boston despatch, Joe Tarbell has been signed by the Cleveland American team. It is understood, however, that, although Seybold, a Cleveland scout who was here a few days ago, had a conversation with Tarbell in regard to the matter, he was not definitely settled, and Tarbell will remain with the Marathons for the remainder of the season. It is altogether likely that he will go with the Cleveland team next season, and if he does, there is little doubt but that he will be successful. It will be good news to the fans, however, to learn that the wily Joe will be seen in action here for some time yet.

Chic Fraser and Winkler, the new pitcher, will arrive here on Friday and will figure in Saturday's game. When these two men arrive, the Marathon management will have, without exception, the best team in the league, and the other teams will have to go some to score a win from them.

TODAY'S POLICE COURT

In the police court this morning two prisoners charged with drunkenness were dealt with. One was fined \$8 or two months in jail and the other was remanded.

Frank Finamore appeared to answer the charge of interfering with the police in the discharge of their duty. He pleaded not guilty. Policeman Covay gave evidence that while he was trying to secure the name of a teamster who was obstructing the sidewalk with a double wagon in Main street, Finamore told the driver to go on and never mind what witness said. Finamore said that he did not think that he had committed any offence. The magistrate told him he was liable to a fine of \$10.

Two prisoners on remand, both on the charge of drunkenness, were brought in. One was fined \$8 or fifty days in jail and the other, who gave his age as nineteen years, was remanded to jail, until it could be found out where he procured the liquor.
