

"A GOOD PLACE TO BUY GOOD CLOTHES"

SUIT SENSE

In selecting a suit, for satisfaction's sake select one that meets your own personal ideas in style, fit, price and quality—if you can find it. Too often suit buyers find a suit that suits in style, but the price is too high. Or it does not fit perfectly. Or everything is all right but the LASTING qualities. Some one item is sufficiently "off" to mar what might be perfect satisfaction.

In our new lines of worthy Winter Suits we feel that we have enough style, a sufficient range of prices, and quality uniformly high enough, to be reasonably sure of EXACTLY suiting every man who enters our store.

Will you call on us and let us prove that we are right in your case? Stylish suits, suits for service, good values, moderate prices, perfect fit, lasting elegance—all these rolled into one make the perfect suit, the suit you want and the suit we can supply.

CHURCHILL REFUSED HEARING

(Continued on page 1.)

a free hand in the matter of general legislation; or, shall the House of Lords be allowed to reform itself and, making certain concessions, as to its composition, remain in a position to check such activities of the lower chamber as the peers may consider inconsistent with the welfare of the empire. The Unionists or Conservatives stand for the latter proposition while the Liberals or government party seek to reform the upper chamber on its own lines.

Lloyd George Breaks Down

Chancellor Lloyd George has broken down under the strain of the campaign and cancelled all his engagements today. He hopes to resume speaking next week.

Mr. Churchill was refused a hearing at Lincoln this afternoon. Custom forbids speech-making on polling days, and the opposition was so persistent that the home secretary was obliged to decline and to give pledges that he would not attempt again to speak. During the rumpus there were several free fights in the audience.

To Aid of the Irish Party

Boston, Dec. 3.—The United Irish League of Boston has called a special meeting for tomorrow evening at the American House, when measures will be taken to lend financial and moral support to Mr. Redmond and the Irish party in the electoral struggle in which they are now engaged.

More than one-half the amount pledged at the meeting addressed by Mr. Redmond in Symphony hall a few weeks ago—\$15,000—has already been contributed, and Sunday night's meeting is being held for the purpose of raising the balance of the amount then pledged.

The cry raised by the English press that "American dollars" are going to break up the British constitution, has aroused the friends of the Irish movement as they have not been aroused for years, and the response to the call of the Irish leader is likely to be proportionately satisfactory.

Already from several centers outside of Boston the national treasurer of the United Irish League of America, T. D. Fitzpatrick, has received encouraging messages and promises of financial support for the Irish party. Fitzpatrick, who is in view of meetings at the object of leading financial support.

DRUGGISTS COMPLAIN

Contention That Interests are not Being Well Safeguarded By Association

There is considerable dissatisfaction reported among the local druggists and those throughout the province, over the manner in which the claims of their interests are being neglected by the New Brunswick Pharmaceutical Society. One druggist said yesterday that if the methods were not improved upon, he would not acknowledge the request for the annual payment of registration fee which comes due on December 31, and the other was inclined to agree with him.

The druggists claim that not only their interests are being neglected but those of the public as well. They assert that there are many stores in the province in which neither the owner himself, nor any of his clerks, has a pharmaceutical certificate, and, therefore, under the statutes, is not permitted to conduct a drug business. Not only this, but they also claim that many grocers, in various parts of the province are breaking in on the drug business, and have laid down a course of action, as well as other preparations on their shelves, although this is supposed not to be the case.

To be a member of the Pharmaceutical Society it is necessary to pay a fee of \$3 annually, and the proceeds of this fee, they are supposed to be used to prosecute offenders of the law, as regards the conducting of a business, and in this way to protect the owners of drug stores where registered men are employed. It is thought likely that the matter will strongly bring to the attention of the proper authorities in the near future.

GOES TO SCOTLAND

An Old Salvation Army Friend in St. John on Way Across

Adjutant Thompson, who started the Salvation Army metropole in this city, and was stationed here for a number of years, and was later transferred to Montreal, where he has been acting as immigration agent for the last four years, arrived in the city today accompanied by his wife and daughter. He has been transferred to Glasgow, Scotland, where he will be in charge of the immigration office. He will leave on the Allan line steamer "Victoria" on Friday next.

Adjutant Thompson will be well remembered by St. John people for his efficient work in the metropole and the traveler's home. He had been wanted to spend a few days here before the steamer sailed, meeting his old friends. He has conducted the Montreal immigration office with much success and better results are anticipated from his control of affairs in Glasgow.

CONCERNING RABIES

Many persons have been skeptical regarding the existence of hydrophobia, but the United States public health report confirms the fact that there is such an ailment. The disease is incurable, but not infrequently preventable, and it is not a respecter of persons or animals, according to the report. The latter pronouncement from Surgeon Wynne's bureau admits that rabies may not be uniformly fatal, though it is most always so. Pasteurization generally prevents development and the belief that rabies is more easily transmitted in summer than in winter is called a fallacy. The explanation is that more people are moving about and become subject to attack. Nor are the rabidly localized. It is liable to occur in the Arctic or in the equatorial jungles. Dogs, wolves, coyotes and skunks seem to be especially susceptible.

CARS RUN BY GAS ENGINES

At Mount Gretna, Pa., there are street cars run with gas engines. This does away with electricity and the overhead wires. When an engine is installed on the car and is operated by gasoline. Taking advantage of the fact that the car tracks are the same gauge of the standard automobile, many owners of autos have placed light car wheels on their machines and run them on the car tracks.

The Evening Times and Star

ST. JOHN, N. B., DECEMBER 3, 1910. The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES THE DAILY TELEGRAPH New Brunswick's Independent Newspapers. These papers advocate: British Connection, Honesty in Public Life, Measures for the Material Progress and Moral Advancement of our Great Dominion, No Grant, No Deals, 'The Shamrock, Thistle, Rose entwined The Maple Leaf forever.'

THE YOUNG LIBERALS The address delivered by Hon. C. W. Robinson and Hon. F. J. Sweeney, at the meeting of Young Liberals last evening brought clearly in review before an audience of young men, which taxed the capacity of Keith's Assembly Rooms, the broken pledges of the Hasen government.

The question of the roads was dealt with very fully and fairly by Mr. Robinson, and when he asked whether the roads have been improved by the Hasen policy the very decided negative by the audience left no doubt as to their views on the subject.

GOOD ROAD SURFACE The Times prints today an interesting paper on road making that was read at a meeting of the International Association of Road Congresses. It deals especially with road surface, and what is known as waterproofing.

By Monday we shall have some indication of the probable result of the British elections. The Toronto Telegram (Conservative) says: 'The records show that even Mr. L. Borden was a good deal readier to subscribe money to Home Rule than he was to see Canada subscribe Dreadnoughts to the British Empire.'

St. John and the province generally fare well in the federal estimates. The minister of public works is familiar with the needs of the province in regard to all the departments and is always alive to the interests of his constituents.

Contracts for the construction of the Canadian naval vessels will shortly be let. They will be built in Canada. St. John should be interested in this announcement. If this port could secure a big shipbuilding plant as well as a dry dock, its growth would be enormous.

The Ottawa Free Press says: 'Any doubt which existed as to the complete alliance between the Conservative party and the Nationalists in the Province of Quebec is dispelled by events as they go on. One of the latest proofs of that alliance is to be found in a series of resolutions of the Club Flynn of Riviere de Renard, Gaspé county, in which the electors, without distinction of party color, denounce the Naval bill. But not only is the Club Flynn a Conservative organization, named after the former Conservative Premier of Quebec, but an examination of the names shows that every one of them is a simon-pure Conservative. There is not a Liberal in the whole list.'

Says the Ottawa Free Press: 'The Conservative party two years ago clamored for the creation of a Canadian naval force; today they are asserting that no naval force is necessary, but the government having set its hand to the duty assigned to it by parliament will not now withdraw it at the bidding of any set of politicians, whether from Quebec or anywhere else. The issue is now well defined, and as to the verdict there can be no doubt.'

The Victoria Colonist (Conservative) sturdily refuses to follow Mr. Borden in his change of front in the matter of the navy. The Colonist wants more navy, and declares that more vessels are needed on the Pacific coast.

The following observations made by a Conservative at the annual meeting of the Borden Club in Toronto this week should be brought to the attention of Mr. Borden and Mr. Foster. The speaker said: 'I don't believe in Nationalism. I am a Tory, but had I been down in Drummond and Arthabaska I'd have voted for the Laurier candidate. Nationalism should be nipped in the bud. I feel sore that the whip and other prominent men of the Tory party sent a telegram of congratulation to Mr. Gilbert on his election, but they had not the nerve or the grit to applaud him on his introduction into the House. I think that is weak Toryism, weak Nationalism, weak Canadianism.'

Hon. Mr. Brodeur has been savagely attacked by the Conservatives. The Montreal Witness pays him this tribute of friendly regard: 'Mr. Brodeur is, so far as revealed to outward observers of his administration, an exemplary minister. Entering upon the department, he boldly faced a public investigation of it, scorning the business which attempted to make his own frank course an argument against himself. Having thus cleared, so far as he might, the office for which he was responsible he gave his attention to public improvements, which have gone on in a way which has brought to him the warm congratulations of all engaged in the commerce of the country. The Montreal harbor management was quickly transformed from being the scorn and despair of all who cared for our material interests, to being the pride of the country and the admiration of the world. The navigable condition of the river has been rapidly improved and the commerce of the St. Lawrence route has multiplied enormously, and the trade of the continent has tended to it in a way that would have been impossible under former conditions.'

If a man is honest with himself he can be depended upon to give his neighbors a square deal. Something should be done to prevent those from laying so many cold-storage eggs.

A DEAD POET (By H. L. Spencer). Against my window pane The melancholy rain Taps all the long night through with his finger.

Art thou a wandering ghost, From some far distant coast? Art thou a brother to the plains and mountains? Or walkest thou where blow Celestial airs, and flow Celestial fountains?

The winds go moaning by; There cometh no reply; No answer to the question of the Age— We only know what is; The future holds, I wis, Unwritten pages.

Against my window pane The melancholy rain Taps all the long night through with his finger. But where'er thou art, I know that near my heart Thy spirit lingers.

IN LIGHTER VEIN HOW A TURKEY LOOKS. To an Optimist To a Pessimist: Gravy. Bones. Juice. Muscles. Brown. Tendons. Dressing. Gristle. White meat. Cartilage. Basting. Dark meat.

A LITTLE OFF Senator Aldrich said to a smoking room of the Adriatic, said to an eager tariff disputant: 'My friend, you don't quite understand your subject. Your errors are slight, but they are very ludicrous. You remind me a little of the French boy. "What is a ruminating animal?" his teacher asked the boy. "One that chews her cubs," the lad replied.'

ITS NATURE. "Fencing is a contrary sort of art." "Why so?" "Because often a strong effort is a faint try-out."—Baltimore American.

TOO MUCH TO EXPECT. Hewitt: "Does the climate agree with you wife?" Jewell: "That's more than I'd expect of any climate."—Smart Set.

PROOF. "Have you forgotten that \$5 you owe me?" "Not at all. Didn't you see me try to dodge into that doorway?"—Kansas City Journal.

HE STILL HAD AN ADVANTAGE. Two Englishmen like their country. They met with poor success, drifted apart, and finally one took a little vacation in a cheap restaurant. He had not been there long before his friend appeared at dinner time. The first thing he said was: "Why, old man, you down to a waiter, eh? Gracious, how you have fallen; and in a restaurant, too!" "Yes," replied the other, turning on his erstwhile friend sarcastically; "but I don't eat here, that's my business!"

BURGLARS. He'd always boasted what he'd do With burglars in the house. His wife is just a timid thing. And stirred their equities. But he is big and strong and brave Up to a trick or two, And if the burglars ever came He'd show you what to do!

Well, about two the other night They heard a startling noise. He waked them both from soundest sleep And stirred their equities. He pulled the bedclothes round her head. Her heart beat a tattoo— And waited for her husband brave To show her what to do.

And he? When first he heard the noise Is a fighting ship, either a Dreadnought or a large, swift armored cruiser. If we had this we would be in a position to ward off the catastrophe, which the prime minister foresees may one day threaten this rich and strategically vital part of the Empire.'

THE PLAYGROUND QUESTION (Ottawa Journal). Not the least important outcome of the ins Borden Club in Toronto has been the impetus given to similar work elsewhere. Winnipeg organized a playground association immediately after Toronto, as did also the city of Hamilton. London has an association with excellent results, and Ottawa and other cities throughout the Dominion are looking into the needs of the children in this respect. It is hoped that even the small towns and villages will realize the importance of having supervised playgrounds to relieve the monotony that often falls to the lot of the average child in small places.

Controller Davidson made a gallant effort two years ago to push through a project to establish several public playgrounds in Ottawa. It was voted down. He had got options on several properties for the purpose. Had the city bought these lands they could be sold today for double the money.

IMPROVING TONE OF VIOLIN. Violin making is an ancient art, yet new things may be learned about it. Two masters of musical instruments, one in Brussels, the other in Boston, have recently announced their belief that the material of an instrument has nothing to do with its tone. One of them made experiments only with wind instruments, but the other tried innovations in violins and violoncelles, substituting tin and aluminum for wood and bridge, with an actual improvement in tone. His belief is that distribution of mass is far more important to good tone than the material used. This theory is contrary to all previous opinions on the subject, and if true will wipe out much of the romance of the search for and treasure of old violin timber.

Fashion Hints for Times Readers

VELVET IS USED FOR TRIMMINGS OVER OTHER MATERIALS

Velvet is the fashionable fabric now and a deep russet color over a skirt of purple when the whole dress is not built of this colored fabric. The upper bodice or guipure—made of silver tulle laid over fresh-colored chiffon, and the motifs of embroidery are in mauve and orchid shades, harmonizing with the deep russet color of the body of the gown.

The Evening Chit-Chat

By RUTH CAMERON

I HEARD another chapter of a life story, which I have been reading serially for several years, yesterday, and it gave me so much food for thought that I want to tell it to you.

I'm going to call the heroine—no, I won't call her the heroine the subject of the tale, Griselda, because, by rights, that ought to be her name. Griselda has an utterly worthless husband. She also has three small children. The two usually go together, as you may have noticed.

I will relate to you a few of the things which Griselda's husband has done to ruin his title.

In the first place he has a trade at which he can get plenty of work and can earn four dollars a day, but he hasn't worked more than three or four months any year of their marriage.

They had not been married a month before he got hold of Griselda's savings and spent them. The bank described these savings as \$200. A more accurate description would have been—so many thousand hours spent over an ironing machine, so many thousand shirts washed and shirts, so many tens of thousands of collars and cuffs ironed—for Griselda was a hardworking laundry girl before he persuaded her to be the providing genius of his home.

When this money was gone, pretending to be about to go into business and settle down he borrowed four hundred dollars of Griselda's sister and mother. That has never been paid back.

Twice he has left Griselda for several months at a time. On one of these occasions he was absent when her first baby was born. Several times he has beaten Griselda when he is drunk. I have seen her arms black and blue.

Once he threw a plate at his little boy and cut his cheek so that several stitches had to be taken.

Through all this, Griselda has been absolutely faithful, devoted and forgiving. Once only did she falter and that was when he threw the plate at the boy. Then she allowed the society with the long name to enter a complaint against him, but when the case came on she refused to appear.

Maybe you don't see a great deal of food for thought in this story. Granted, but the food for thought came from a comment which I heard made on the story.

After a six months' absence, during which, freed from the drain of his presence, Griselda had successfully supported the children and was on her feet again, he returned to the house.

One of the charity workers who had helped her from time to time, tried to persuade her not to take the man back. But Griselda was obstinate. He is back again. The house is again a home of disorder and turmoil—no home at all. The children again creep around in fear. Her earnings are again spent in drink while she and the children are half fed.

And this is what the commentator said when he heard that Griselda had taken her husband back.

"What a beautiful and wonderful thing is woman's love!"

"Do you call the feeling that made Griselda sacrifice four lives to one, wonderful and beautiful?"

"I don't. I call it ugly and disgraceful—a mania and an obsession rather than an affection."

"Is it because I'm hard and unfeeling that I can't understand?"

"That's what I'm wondering about. That's my food for thought."

WEDDINGS

Beckwith-Watters.

At the home of Mr. and Mrs. John A. Watters, Lakeside, N. B., on Wednesday last their daughter Lucy Mae was united in marriage to Rev. T. J. Dent, of Centerville, by Rev. H. Pierce. The groom was accompanied by Dr. E. R. McClintock of Centerville, while the bride's sister, Miss Lena S. Watters acted as bridesmaid. Mr. and Mrs. Beckwith will reside in Centerville.

Burley-Vey.

In the Carmarthen street Methodist church on Thursday last, Rev. T. J. Dent, united in marriage Miss Kate Vey and James M. Burley. The bride was attended by Miss Jennie Urquhart and John G. Vey acted as groomsmen.

Daily Hints for the Cook

PEA SOUP.
One can peas, 1 can of water and 1 date, nuts or citron, separately in onion. Boil about 20 minutes. Add 1 can milk. Let it boil up and then thicken with a tablespoon of butter and flour. Add salt and pepper.

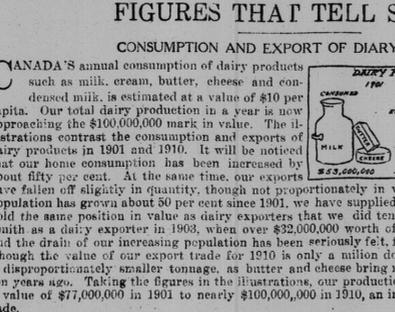

STEAMED SWEET PUDDING.
Two and a half cups of flour, 1 teaspoon soda, 12 teaspoon salt, 1 teaspoon mixed spices. Sift these together. Chop which chopped nuts or have been stirred one cup sugar and add to flour, then add 1 cup of milk and 1 of molasses, mixed together. Add to two cups of fruit well floured, raisins, currants, figs, dates, nuts or citron, separately in combination. Steam three hours in greased mold or 1 1/2 hours in smaller one.

SWEET SURPRISE.
Remove the stones from dates and prunes, taking an even number of each. Within each date place a candied cherry. Pit the date in a prune, and, having some fondant of white or different colors into which chopped nuts or have been stirred paper to dry. Any flavoring may be used with the fondant.

FIGURES THAT TELL STORIES

CONSUMPTION AND EXPORT OF DIARY PRODUCTS

CANADA'S annual consumption of dairy products such as milk, cream, butter, cheese and condensed milk, is estimated at a value of \$10 per capita. Our total dairy production in a year is now approaching the \$100,000,000 mark in value. The illustrations contrast the consumption and exports of dairy products in 1901 and 1910. It will be noticed that our home consumption has been increased by about fifty per cent. At the same time, our exports have fallen off slightly in quantity, though not proportionately in value. In other words, though our population has grown about 50 per cent since 1901, we have supplied the home demand and practically hold the same position in the dairy exports that we did ten years ago. But Canada reached her zenith as a dairy exporter in 1903, when over \$32,000,000 worth of butter and cheese left our shores, and the drain of our increasing population has been seriously felt from an export standpoint, since 1906. Though the value of our export trade for 1910 is only a million dollars less than in 1901, it represents a disproportionately smaller tonnage, as butter and cheese bring more on the English market now than ten years ago. Taking the figures in the illustrations, our production of dairy products has grown from a value of \$77,000,000 in 1901 to nearly \$100,000,000 in 1910, an increase of about 30 per cent in the decade.

MT. ALLISON FOOTBALL MEN HAVE DINNER AND MAKE PRESENTATION

Sackville, N. B., Dec. 3.—A football supper was held in the university residence last evening at 10.30. The football team, substitutes, coach, manager and trainers constituted the assembly. Among those present were the following New Brunswick men: Regular squad—Frank Smith of St. John, C. H. Cochrane (capt.) of Petercodiac, Charles G. MacDougall of Moncton, W. S. Godfrey of Chatham, John S. MacKenzie of Lunenburg, Frank Peacock of Murray Corner, and Guy Moore of Melchect; substitutes—Lawrence Bell of Moncton, Howe Grant of St. Stephen, and Manager Percy Hartley of Woodstock.

Regus Ferguson, president of the M. A. A. A. was the chairman and proposed the toast to the king. Fletcher King and C. G. Thompson ably responded. Guy Moore then toasted the medical profession and Frank Rowe replied. Our next toast was proposed by C. G. MacDougall and replied to by Louis A. Buckley, H. S. McKean, J. S. Parker and W. S. Godfrey. A card given for the coming season was discussed and then came the building of log-cabin. This was the presentation, to Frank Rowe, of a gold locket watch-fob with his initials in monogram on one side and "Presented to F. H. Rowe by the Mt. Allison Football Team, 1910," on the reverse.

Kent County News

Repton, N. B., Dec. 2.—David Debanan passed away at his home in Upper Repton on Tuesday at the advanced age of eighty-three. He leaves his wife, four sons and two daughters. The funeral, which was held yesterday afternoon, was attended by many. Services at the home and grave were conducted by Rev. A. D. Archibald and interment was in the Presbyterian cemetery. The pallbearers were Alexander McGregor, James Symies, John Dixon, James Lawson, Hugh McGraw and John A. Cameron.

At South Branch on Monday Miss Margaret Anne Chrystal died at the age of the late Ignatius Chrystal. The funeral was held at South Branch on Wednesday. Rev. Father Lajoie celebrating requiem high mass.

Robert H. Vanwart died at Brown's Yard on Tuesday after an illness of inflammation of the bowels, lasting only four days. He was seventy-one years of age. He came here about twenty-one years ago from the St. John river section, and for a time made his home with Alexander Robertson, of St. Nicholas River, after which he purchased a farm at Brown's Yard where he had since lived. Mr. Vanwart leaves two brothers living near Boston. The funeral took place yesterday afternoon in the English cemetery at Brown's Yard.

The smelt fishing season opened yesterday and some very good hauls were made up river. A large number of men will be engaged in the occupation. The buyers will be the same as last year, namely J. D. Irving, E. Patule and W. S. Loggie.

A pair of scissors is infinitely better for trimming off the rind from ham or bacon than a knife.

You can please a woman by telling her she looks like a picture. Although she knows there are some horrid pictures.

ASSOCIATED CHARITIES OF CITY AND ITS WORK

The Board of Associated Charities is sending out a circular for the purpose of inducing the active support and sympathy of citizens in general. The circular sets forth what has been, and is being accomplished, by working out of house begging, by reducing indiscriminate alms giving, and assisting those who desire to be self-supporting. The membership fee is \$1 and for life membership, \$20.

A card given the aims of the society, which are—to secure the concurrent and unanimous action of the different charities of St. John and to be a centre of communication between the various church and charitable agencies in the city. All cases are investigated and lists and records kept. Friendly visitors are provided to give counsel and advice in cases referred to the society. The society does not interfere with the administrative boards of other societies.

The secretary is Mrs. Charles H. Hall, No. 118 Charlotte street, and Miss Grace D. Robertson, is the assistant secretary. Mrs. Hall's telephone number is 1208 and she and her assistant are prepared to act without delay in cases that require investigation.

THE FREE KINDERGARTENS

The topic "Preparation for Winter," was continued in the kindergarten until the taking up of the Thanksgiving thought. The idea of the early Puritans coming to America that they might worship as they wished, the meeting with the Indians, the building of log-cabin, and the gift of the log cabin to the Indians showing them that they must not plant the wheat until the May Day was as big as a mouse's ear, the thanking of the Heavenly Father for all his goodness—these are usually emphasized and our idea of an annual Thanksgiving is easily explained.

Halloween was duly celebrated in each room and one kindergarten enjoyed a surprise from one of the others. A large pumpkin was taken down filled with fruit of different kinds and smaller baskets filled with grapes. Each child had a wooden plate covered with paper on which were signs of the festival in colors and the napkins had the typical black cat—the children are still talking about it. Halloween games were enjoyed and an one room a living squirrel made merry for every one by cracking nuts and hiding them away. The squirrel games are now delighted in more than ever.

Following the Thanksgiving thought the days of the week were taken up. The baking day introduced the baker, and when churning day came they made butter, from a pint of cream and were charmed to eat it spread on biscuits. Pastrying, clay modelling, building, etc. have kept the little hands busy with the occupation work. A bunch of milk and biscuit is being provided twice every week by the Daughters of the Empire—already in one kindergarten we see the benefit of the nourishing milk.

November has been a hard month in each room, as the attendance is too large. More volunteers are needed, especially during the Christmas thought. We will be pleased to hear from any one young lady who can spare one morning a week to help.

Mrs. W. C. Matthews leaves the mission work this week to open a private kindergarten—a pressing need at present in our city. We retain her as director over all our work. Her training class will continue as usual and Miss Lo Esty will take charge of the Portland kindergarten at present.

The ladies' association hope that nothing will interfere with tag-day, already advertised for April, as \$1.80 is needed to carry on three free kindergartens.

G. L. PICKETT, President.

CROUCHVILLE RESIDENTS PROTEST AGAINST THE POOR STATE OF ROAD

Crouchville residents at a meeting last night dealt with the bad condition of the roads and other matters. After considerable discussion it was decided to draw up a petition to be forwarded to the chief commissioner of public works calling his attention to the state of the road between Little River and Mace's Corner, suggesting that the road be thoroughly regraded and macadamized. It was decided to leave the petition in the store of R. Taylor, Crouchville, in order that all the residents of the parish might have an opportunity of signing it. Two other resolutions of considerable importance were also drawn up at the meeting. It was decided to petition the inspector of schools to call a meeting of the trustees of Simonds with the view of having a public school started in Crouchville.

These present were also desirous of having a post office opened in Crouchville. With this end in view it was decided to petition the post office department to open a post office in Crouchville, the same to be known as St. John east.

A Vision

(And your sons and your daughters shall prophesy, your art thou shall dwell in peace, your young men see visions.—Joel 2:28.)

A dream, or vision, what shall I say? I have seen the same many a day; I seemed to hear the sound of trumpets, the bugle's blast and the drum's quick feet.

The clatter of hoofs in the stony street, The cheers of heroes who come to greet, And the thousand details, to repeat, When lo, in a vision I seemed to stand In the streets, on either hand.

Far stretched the portico, dim and grand, Its columns ranged like a martial band. Or stretched specters whose command Had called to a last reviewing.

The streets of the city were white and bare, No footfall echoed across the square; But out of the misty mountain air I heard in the distance a trumpet blare; The sound of a far tattooing.

I saw a phalanx army come, With never a man, nor one shall dwell; But keeping step to a muffled drum Of wailing and lamentation; The heroes of the battle field, The men whose wasted bodies fill The patriot graves of the nation.

And then there came the unknown men, Who died with fever in swamps and fens, Or slowly starved in prison pen; And marching beside the others, Came also the dusky martyrs Who fought beside their brothers.

And so all night marched the nation's dead, With never a banner above them spread, Nor a badge nor a motto brandished; No mark—save the vaulted sky; With never a flower save those which lie On the distant grave—for love could buy No gift that was pure or true.

So all night long went the strong army; So all night long till the morning gray, I had watched for one who had passed away.

With a reverent awe and wonder, Till a cap was waved in the lengthening line, And I knew that one who was friend of mine Had come and I quaked—and, lo, that sign Awakened me from my slumber.

OBITUARY

E. A. Brennan Ernest A. Brennan, son of N. W. Brennan, passed away about noon yesterday, after a brief illness. He became ill on Monday and was operated on the same day for appendicitis. Later, peritonitis set in and proved fatal. Mr. Brennan, who was in the thirtieth year of his age, was well known in the city, and was very popular with his many acquaintances, who will miss his death with profound regret.

Besides a wife and five children—three boys and two girls—deceased leaves four brothers—William E., St. Louis, Fred B. and Herbert S., all of this city, and two sisters, Miss Wrennath, attending Pratt's College, New York, and Miss Rita, attending Mount Allison Ladies' College at Sackville. His father also resides at Sackville. His father also resides in the city of St. John.

The death occurred in this city yesterday of Mrs. Agnes Phinney, widow of William Phinney, in the fifty-eighth year of her age. She resided here in poor health for more than a week. She is survived by four sons—Howard, William and George, all of this city, and Thomas, Des Moines, Iowa. One daughter, Miss Louise, also resides in this city.

James C. Strong James C. Strong died in Apohaqui on Thursday evening after an ill of some weeks with pneumonia. He was fifty-nine years of age. Surviving are his wife and four sons and three daughters. The sons are: Robert, Haas, Isaac and Charles; and the daughters: Mrs. Harry Thompson, of St. John, Messrs. Mabel and Ethel at home. The funeral will take place on Sunday morning, and interment will be at Lower Millstream. One brother is Charles Strong, chief clerk of the C. P. R. passenger department here.

Mrs. Ella Howes Mrs. Ella Howes, eldest daughter of Mr. and Mrs. William Howes of Sussex, died in the Cottage Hospital there yesterday. She underwent an operation for appendicitis. She is survived by her parents, two sisters and five brothers. Three of the brothers, Alfred, Fred and William are of the Maritime Rug Works, St. John. The funeral will take place on Sunday.

Mrs. Mary E. Collins Mrs. Mary E. Collins, of St. James street, met death suddenly last evening, she was passing along Charlotte street with her daughter, and when near the home of Alfred Porter, became weak, and was struck with heart trouble. She was taken into the house where she died a few minutes after the arrival of a priest and Dr. Bishop. The body was taken to her late home in St. James street.

Letter from Rev. Mr. Crisp

Editor of the Times, Sir, While reading the somewhat indefinite and illusory statements in the Standard of Monday Nov. 28, under the heading, "Does not agree with Dr. Torrey," I was reminded, preacher, and great reformers have all agree with Dr. Torrey. I was reminded, and in some instances contemptuous criticism.

Having heard Dr. Torrey last Sunday of the fact that great revivalists, noted Monday and Tuesday, I would like to say "without partially" (wrangling) margin that I was most favorably impressed with all I heard and saw. Surely the preacher is a same man, a gentleman and a scholar. There was no whining, no cant, no professional playing on the emotions, no ambiguous and senseless phrases, no condemning of the past and then bringing up Socrates, as a praying example.

His words were good specimens of "clear thinking," and his sentences were free from opaqueness, his style and delivery were such that the average mind could easily understand him. He was not ambiguous even when dealing with "theology and religion," and quite clear when showing the way of salvation. He was free from obscurity when speaking on the most serious and momentous subjects. Further than that one could not but be impressed while the speaker was dealing with the exceeding sinfulness of sin and making it plain that if persistency in sin is not punished then it ought to be. The hope of the gospel was held out to every man. Rewards and punishments were made very plain and men were exhorted to fear the name of Lord and to work righteousness. I felt I would not be doing my duty if I did not, after reading the criticism referred to, say this much. I wish Dr. Torrey continued success in his work.

JAMES CRISP, Dorchester, Dec. 2nd, 1910.

His Best Quality

Well, Mrs. Stubbs, how did you like my sermon on Sunday? "O, I thought it was beautiful, sir, thank you, sir."

"And which part of it seemed to hold you most?" "Well, sir, what took hold of me most, sir, was your perseverance, sir; the way you went over the same thing again-and-again, sir."—London Sketch.

Prevent and Relieve Headache

"It gives me great pleasure to be able to refer to Dr. Miles' Anti-Pain Pills as the best remedy we have yet had in our house for the prevention and cure of headache. My wife who has been a constant sufferer for a number of years with above complaint joins me in the hope that they may fall into the hands of all sufferers."

JOHN BUSH, Waterlooville, Me. Used Them Four Years. "Dr. Miles' Anti-Pain Pills are the best I ever tried for the relief of headache. I have used them for nearly four years and they never fail to give me relief. I have tried many other remedies, but have never found any better."

JOSEPH FRANKOWICZ, 854 Frome St., Detroit, Mich. There is no remedy that will more quickly relieve any form of headache than Dr. Miles' Anti-Pain Pills. The best feature of this remarkable remedy is the fact that it does not derange the stomach or leave any disagreeable after-effects.

Price 50c at your druggist. He should have a supply of this medicine on hand for emergency use. Ask for booklet and literature. DR. MILES MEDICAL CO., TOLEDO, O.

H. L. SPENCER, THE POET

(Chatham World). Many of the older men and women of poetical tastes will remember the poet who was excelled, away back in 1888 to '90, by the appearance of a new poet in the most of our newspapers and literary circles. He was artistic, tender, and sad, voicing a deep regret and a great understanding of the heart of every sympathetic reader.

HAZEN GOVERNMENT IS RAKED AT YOUNG LIBERALS' SMOKER

Hon. C. W. Robinson and Hon. F. J. Sweeney Make Telling Points in Stirring Speeches

Misleading Policies of Local Government in Regard to Roads and Public Debt are Shown up—Pledges Made but to Be Broken—Confidence in Sir Wilfred, Hon. Mr. Pugsley, Hon. Mr. Robinson and Liberal Party

The smoker held last evening by the Young Liberals' Club of St. John in the assembly rooms of the Nickel theatre was a most interesting and successful affair from every standpoint.

Stirring speeches were delivered by Hon. C. W. Robinson, leader of the opposition in the provincial legislature, and Hon. Frank J. Sweeney, executive secretary. There was also an excellent programme of musical and literary character, and motion pictures.

Hon. Mr. Robinson was in fine form last night and he dealt in an able manner with the broken pledges of the Hazen administration, showing how the government was increasing the debt with nothing to show for it and how by misleading policy in regard to the highways, the rates had increased to a worse condition than ever before.

Hon. Mr. Sweeney also made a capital address, seeing the government's mistakes and broken promises and predicting a change when the voters had an opportunity.

Resolutions were unanimously adopted, expressing confidence in the leadership of Sir Wilfred Laurier and the members of the services of Hon. William Pugsley, minister of public works, and Hon. Mr. Robinson, leader of the provincial opposition.

The president, W. E. Foster, in calling the meeting to order said it had been decided to change the policy of the club and instead of having open rooms during the winter, they would hold a series of entertainments of which last night's gathering was the first. He regretted that Mr. Carvell had been unable to get away from Ottawa to be present, but said they would hear good speeches from Hon. Mr. Robinson and Hon. Mr. Sweeney.

M. F. Kelly's orchestra rendered a selection and Stephen Hurley gave several readings, after which the resolutions were introduced.

Hon. Mr. Robinson Mr. Foster then introduced Hon. Mr. Robinson who was received with a round of cheers and much applause. Mr. Foster said perhaps Mr. Robinson would be able to tell them how the roads were going to be fixed.

The speaker said the problem of how they were going to fix the roads was not altogether settled yet, but there was plenty of room for improvement over present conditions. He expressed his pleasure at being present and seeing such a large gathering of the young men. It argued well, he thought, for the future.

He said: "I suppose in a gathering of young Liberals like this you will expect me to talk on Liberal issues. I regret that Mr. Carvell was not able to come as he would have been so well able to tell you about the matters affecting the commonwealth. I will confine myself principally to provincial matters with which I am more familiar as you know I am a member of the fact man, and not witty like my friend Mr. Sweeney, so I will confine myself to business topics."

Referring to the resolution in which his name had been coupled with Hon. Mr. Pugsley's, he said he was glad to know that he had merited their confidence, but he felt that their praise was altogether undeserved. While he had not been able to do as much as he would like to, he had done his best and he had always felt that he had been on the right side in working with the Liberal party. (Applause.)

"We must appreciate the fact," he said, "that (Canada has gone along with great strides under the rule of Sir Wilfred Laurier, than ever before. The eyes of the world are on Canada as a growing nation. We have a country of which we may well be proud. We are making road strides now in population, in wealth and in all that goes to make up a good substantial nation."

"We should be glad that we have a premier who does not stand up for any one idea but for all that is great and wide and deep. I feel proud of the fact that I am a Liberal and I am proud of the progress made under Liberal rule. I feel that the Liberal party will be continued in power for some time to come. When we see how Canada is taking up with the different policies we feel all the more satisfied with Sir Wilfred Laurier and we hope that he will be continued in power for many years yet." (Great applause.)

Referring to the defeat of the government of which he was the head, he said that while disappointed, he bowed to the will of the people and while they might

feel that the verdict was not for the best they had to accept the verdict of the people.

Hazen's Broken Promises "When Mr. Hazen went into power in March, 1908, he laid down a certain policy which he promised to carry out. It was that at that time he had no intention of carrying out the policy he laid down at that time. He said that when the Conservatives got into power they would give over the control of the roads to the municipalities. He said the roads were broken because of mismanagement and dishonesty in the old government and if they got into power they would change all this. In the year of the election there was a good deal of wet weather, the rains had damaged the roads considerably and they were in a bad state. There was also a good deal of dishonesty in the old government with statute labor and insisting on the payment of a road tax for carrying out the work. If you go out on the country roads now I think you will admit that bad as the roads were then, they are worse now. If we take the same line of reasoning as the Hazen government we would say that it is all their fault."

"When the old government went out there was in the hands of the treasurer of the municipalities \$600,000. One would think that with the wonderfully honest administration that the new government had, we would have much better roads than before but I think those of you who have seen them will admit that they are worse than ever. (Hear, hear.)

"Why did the government not keep its promise to give the control of the roads to the municipalities? The municipalities have no more to say about the matter than any child as to how the money is to be spent or how the road work is to be done. Instead of handing it to the municipalities they give it to highway boards of which one member, the treasurer, is appointed by the government."

Thomas Hilyard, who was in the audience, arose at this point to ask the speaker if he was aware of the fact that Mr. Fleming, the provincial secretary, had received a grant from the government to repair a road in or near the Blue Bell tract of land, for carrying on lumbering operations for his own use.

Mr. Robinson said he had not heard of it before.

Mr. Hilyard stated that he had Hon. Mr. Maxwell as his authority that such a grant had been made. Mr. Hilyard also referred to some of the roads of the Hazen government regarding the management of the government lands, claiming that they showed favoritism.

Mr. Robinson said it certainly appeared odd that Mr. Fleming, a member of the government, should get a grant of this kind when other roads in the province were suffering for the need of it. He added that he was glad to learn of the matter. It appeared that the government could divide up the money as they saw fit and if they had money to spare, could give it to their favorites.

He went on to speak of the Blue Bell tract of lands that had been given away by a former Tory government, and the fact that the New Brunswick Land Co. had been taxed to much by the municipalities that they had not been paying one cent of taxes of late years.

Mr. Hilyard arose again to ask if it was not a fact that the New Brunswick Land Co. had been taxed to much by the municipalities that they had not been paying one cent of taxes of late years.

Mr. Robinson said that if such was the case the attention of the government ought to be called to it. He said the Blue Bell was a very valuable tract of land and that it ought to be used for the purpose it was purchased, to give the population the chance to expand.

The Terrible Roads Going back to the road question, he said the government had gone back on their pledges and they were not doing what they said they would do. He said that the government should do what they said they would do. He said that the government should do what they said they would do.

"What is the difference? Wouldn't it open a suspense account as to cover up in this way?" (Applause.)

Mr. Robinson went on to speak of the traffic effects made by the agents of the government in the last dominion election to try and influence the electors by a show of road work in various parts of the province, even to an attempt to build roads, just the same as on the ground.

net debt was about \$3,500,000, while it was now about \$4,500,000. Before they came into power the Hazen government had added only about a million and a half to the debt. The present government had been in power only about two years yet they spent money so lavishly that it would bring the provincial liability to something like six and a half million. The old government incurred only reasonable debts, he said, and cited the gold storage plant in St. John as an example. The old government had guaranteed the bonds of this plant and as it was being taken over by the C. P. R. they had to pay the bonds.

A Misleading Policy "Do you think there is very much candor and honesty in the present government's policy?" he asked. "We tried not to increase the debt too fast, but they are going ahead by leaps and bounds. Their income today is a million and a quarter while the old government had only about

\$600,000. There has been a very small increase in the expenditure for education and for public works and there is little they can show for this larger amount of money. In view of this, don't you think the people of the province were a little hasty in turning the old government out and putting the Hazen government in?" (Applause.)

A change is sometimes good and I don't think Mr. Sweeney and I would object if you should put us back to power." (Applause.)

Mr. Robinson then referred to the Halifax fishery award and of the interest it was to the province of New Brunswick. Mr. Pugsley had contended that New Brunswick was entitled to a share of the money paid over. The New Brunswick fisheries were about 70 per cent of the fisheries in the maritime provinces and this province should receive 20 per cent of the \$3,200,000. He believed that if the claim were pressed on the federal government, it would be obtained from them. This was a matter that should be settled and the government should see to it. They should do something else as well as looking after the interests of some of their party followers.

"St. John is to be congratulated," he said, "for that you can take such a strong man as the Hon. Mr. Pugsley at Ottawa looking after the interests of this province. It has well been said that he is an indefatigable worker. I can notice a better spirit here and can see that you are well deserved to the expansion you are now making as the metropolitan city of the province."

The Valley Railway "I feel that the Valley railway is a proper subject for earnest consideration now and I feel that Sir Wilfred Laurier ought to take it over and operate it as a part of the I. C. R. paying the province 40 per cent is the only proper scheme. It should not be entered upon unless properly guaranteed. To have such a railway built in a way that it would not place too great a responsibility on the province. So far there is no reasonable scheme proposed except that of Sir Wilfred Laurier."

"I don't know the policy of the present government, but I feel that if they went at it in a proper way the road would be built and that it would be a great benefit to an important section of the province. I feel that we can take up the scheme along the lines laid down by Sir Wilfred Laurier and carry it out. We shouldn't be so into an experiment such as an electric road. I believe that if a road was built such as suggested by the same minister, forty per cent from the I. C. R. would be sufficient to pay the bonds."

"We are all anxious to see our own province develop and grow. I don't believe the west will ever be as good a place to live in as the maritime provinces and we want to do everything possible to advance New Brunswick and bring more people here. A vigorous immigration policy would help a lot."

"There are several things I would like to refer to. Among them is the question of representation. I do not think that for instance, the county of Sarnia should have two members at Fredericton when the county of Westmorland has only four. The present government government from the rest of the county. They did the same thing in St. John county, but I did not seem to hear of it. Mr. Lovell, any, if they wanted to represent members from Charlotte county and give us one more in Westmorland? The answer is that they are willing to do any

CONFIDENCE OF CANADIANS IN SIR WILFRID

The following telegram from Hon. Wm. Pugsley was received by W. E. Foster, president of the Young Liberals Club, last evening, too late to be read at the smoker: Dec. 2, 1910. W. E. Foster, President Young Liberals Club, St. John: Every man here that my public duties made it impossible for me to be with you at the smoker this evening. The speech you made on the address in reply to the speech from the throne in which the policy of the government was the principal subject of discussion will, I feel sure, greatly strengthen the administration. Our hearts are with Sir Wilfred Laurier and never appeared to better advantage than in the two great speeches which he delivered. His eloquent appeal for the sinking of social differences and joining together in the noble work of making our country worthy to take the proper place as a nation within the British empire aroused intense enthusiasm. With such a leader whose constant efforts are being devoted to the upbuilding of our country, to the modification of the various laws comprising the people of Canada, and to strengthening the empire and world-wide connections, we are sure that success will be achieved. We need have no fear that when the next appeal to the electors is made our success will be as pronounced as it was in 1908. WILLIAM PUGSLEY.

thing to keep themselves in power, and nothing which would indicate a change in the government. I do not think that the people of New Brunswick are satisfied with the way Mr. Hazen and his government are administering the affairs of the province. These sentiments are shown by the elections and by the fact that comparatively few government has received such setbacks as have been given in Northumberland, Carleton and St. John counties. (Great applause.)

"These counties show the tendency of public opinion and indicate a change in government at the next election. (Hear, hear.) If we are returned to power we cannot promise you perfect roads and perfect government, but we can guarantee you that we will do our best to improve the record of the present government." (Prolonged applause.)

Turning to the record of the Liberal party in Canada generally, Mr. Robinson pointed out some of the great achievements of the party during the years he has been in power. He closed by pointing out to the electors present that their appreciation of such a record is the reason for returning the Liberal party to power in the province of New Brunswick. The chief of the Liberal party in the dress was marked by a series of ringing cheers.

convince you that the public debt was rolling mountains high. Mr. Robinson has shown you how little the debt increased under Liberal rule. Since our friends have been in power, however, they have increased the public debt by at least twice the proportionate rate.

"After the last election Mr. Hazen thanked the 'honest Liberals' who had helped to put him in power. There may have been Liberals who voted for him, but you can show me a single Liberal who has not been repaid by being pleased in office. I do not know of such an instance. Instead they have forced Liberals out of office to give them the control of the province. If there is one place in the province where the party should be strong it is in our largest cities. competitive one. What advantage would there be in a road which started on the C. P. R. and ended on the C. P. R. that was part steam and part electric? (Hear, hear.)

"We were condemned for spending a few thousand dollars to demonstrate the possibilities of the iron ore of Gloucester. Part of the money was spent to bore through 700 feet of iron ore to none in quality and now the present government is spending thousands upon thousands of dollars to carry out the policy of the old government for the development of this great industry. I do not condemn them for guaranteeing the bonds of the necessary railway but what else have they done? They have given the promoters grants of land and given away valuable water power rights and they reduce the royalties on the iron ore. These resources are ours; they belong to the people and no government has the right to hand them over to a monopoly. Are you in favor of monopolies? I do not think so. The policy of the old government was to conserve these resources for the people of the province and generations which will follow us."

Now to take up the lumber question. You know the vast extent of this industry and its importance to the province. Our friends have charged us with improper conduct in connection with the revenue of this industry. What are the facts? The old government refused time after time the pleas of the lumber lords of the province for a reduction in the stumpage rates. Instead, we doubled the stumpage rate and the millage rates on lumber lands which were being held idle by the lumber operators without giving employment to the men of the province. What has the present government done? It has reduced the stumpage rates to a figure that will encourage the depletion and wiping out of the forests which should be an everlasting resource for the province. If the forests are wiped out where will the revenue come from? You and I will have to go down into our pockets for taxes to replace the revenue from the lumber industry."

In referring to the prospects which New Brunswick held for new settlers and possibilities of development through an increase in the population he declared himself in favor of a policy which would produce such results. He did not think it necessary to bring in the riffraff of Europe, however. The policy he advocated was one which would encourage our young men to stay in the province and would induce the thousands who have crossed the border into an alien land to come flocking to the land of their birth.

The Finances "Taking up the subject of finances, Mr. Sweeney said: 'It is costing more by nearly a quarter of a million to govern this province than it did in the days of the old government. It must be so because our friends claim an increased revenue of that amount but yet they have no plan to make it a part of the I. C. R. There will be no relief from the high rates which prevail in that section of the province, even the St. John river closes for the winter unless the road is a

"I am one of those who are willing to assist such a railway, but what is wanted is not a rattle-trap road such as our friends have asked. What we want is a road fit to be part of a transcontinental system and which under the promise of Sir Wilfred Laurier will be made part of the I. C. R. strong on commissions. They appointed one on the Central Railway to give good jobs to some of their friends. They did not know what the farmers wanted and they appointed another costly commission at good salaries to travel around the country and try to find a public utility commission and I would like anyone to show me what good it has accomplished. The bill appointing the commission is not worth the paper it is written on. At the last session I offered an amendment to it to give the commission power to reduce telephone rates. Why? Because the telephone company is a monopoly which has no competition to keep its rates at a reasonable figure. Who are receiving the profits of this monopoly? It has been examined its records you will find that some of those who do are not far from the Hazen administration. (Applause.)

"However, the commission gave a few more good jobs. If there are any more friends unprovided for next year it will be hard to tell how many more commissions will be appointed by that time. Let us now refer to labor legislation. The present government makes a great flourish of trumpets over what it has done. Remedies are Needed

Were we perfect, which we are not, medicine would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in reconstituting our debilitated and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Flatulence, After Dinner Indigestion, the "Discovery" is a time-proven and sure remedy.

The genuine has on its outside wrapper the signature of Dr. J. C. Pierce.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Wrestling Dan McDonald, Cape Breton wrestler who has been climbing steadily to the upper branches of the ladder. Roll Off. In the weekly roll off on Spaulding's alleys last evening, H. Sullivan won first prize with a score of 88 and J. Gilbrath was second with a score of 85. The City League. The Imperials took three points from the Yankees in the City Bowling League game on Black's last night. The winners bowled a very strong game, only losing the second string by about 10 pins. Stanton led for the winners with an average of 90%, and Black for the losers with 91%. The following are the scores:

Table with columns: Name, Total, Avg. Includes Imperials, Yankees, and City League scores.

Amusements for Ourselves and Others THE OPERA HOUSE. Even greater success attended the performance of "The Pearl of Sea" at the Opera House last night than at the previous performances. At the close of last night's performance, a special program was presented to J. Wilson for having sold the greatest number of tickets.

A DOUBTING THOMAS Had His Falling Hair Stopped, and Dandruff Cured, Without Faith. H. B. Fletcher, of Mont., Oct. 20, 1899, says: "Like most other people, I have been troubled for years with dandruff. I tried many different remedies, but I was compelled to believe that I had lost my hair forever. I was told that I should try Dr. Herpel's Hair Dressing. I bought a bottle and used it as directed. I was surprised to find that my hair was growing again. I have now a full head of hair, and I am free from dandruff. I have also found that Dr. Herpel's Hair Dressing is a delightful hair dressing for regular use. Sold by leading druggists. Send for a free trial to The Herpel Hair Dressing Co., Detroit, Mich. One dollar bottles guaranteed. E. Clinton Brown, special agent. Ordinary mail papers may be cleaned with dandruff or rubbed with a soft, clean flannel dipped in fine oatmeal."

Had a Distressing, Tickling Sensation in The Throat. COULD NOT SLEEP AT NIGHT.

Dr. Wood's Norway Pine Syrup is rich in the lung-healing virtues of the Norway pine tree. It is a pleasant, non-drowsy, and effective medicine that may be confidently relied upon as a specific for Coughs, Colds, Bronchitis, Hoarseness, Sore Throat, Quinsy, and all Throat and Lung Troubles. It will stop that tickling in the throat which causes the dry cough that keeps you awake at night. Mrs. J. A. Smith, Marlville, Ont., writes: "I had a very bad cough and that distressing tickling sensation in my throat that would not let me sleep at night. I had tried many remedies but did not get any good. I bought a bottle of Dr. Wood's Norway Pine Syrup, and by the time I had used it I was completely cured. I can always recommend it to my friends." Do not be misled into buying the so-called Norway Pine Syrup but be sure and insist on "Dr. Wood's." It is put in a glass bottle with a cork stopper and the trade mark; the price 25c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Morals in the Public Schools (Kansas City Times). That the public schools should not leave to the Sunday school the teaching of morals, but should inculcate in the child the ideas of right and wrong, as well as reading, writing, and arithmetic, was the gist of a speech by Charles Hughes Weston, dean of the school of education of the University of Kansas. The most critical time in the life of a child is between the ages of 1 and 10 years, Prof. Johnston said. "It is in this period that the mind is developing, and if good ideas are installed they are likely to remain through life. Moral teaching in schools without bringing in religion, and we should not leave to the Sunday school the teaching of the children what is right and wrong." Prof. Johnston advocated teaching morals as a branch of study. This system, he said, would result in better men and women and fewer criminals.

UNIONISTS' TASK IS ONE OF MAGNITUDE

En/ a J Their Only Hope of Getting Majority in Parliament and That Looks Like Hopeless Effort (Toronto Telegram). Canadians appreciate the magnitude of the task that confronts the British Unionists under A. J. Balfour. A close study of the figures does not reduce the difficulties of the task. Mr. Balfour's problem is: "Can the Unionists secure a working majority in a house of 670 members?" "It is the only answer which the most ardent Unionist can vent from the probabilities that forebode the procedure to be followed by the electorate of Great Britain and Ireland." The Unionists go to the polls from a house of members in which they held 273 seats. They must hold their 273 seats and gain 63 seats additional in order to have a majority of one over all possible combinations in the next parliament. The Unionists would then have to gain fifteen more seats to give them a working majority. Where is the Unionist gain to come from? Not from Scotland, which divides its seventy-two seats thus: Liberals 61 Unionist 11 Not from Wales, which divides its thirty seats thus: Liberals 28 Unionist 2 Not from Ireland, which divides its 102 seats thus: Nationalists 83 Liberals 18 Unionist 1 The Unionists are restricted to the possible gains in England, the English, the English boroughs, and the English counties, now divided as follows: London 28 34 English boroughs 87 122 English counties 111 127 The Unionists held a majority of 11 on the 466 English seats in the last parliament. They have to increase their English strength to such an extent that they can overcome the following roughly calculated anti-Unionist vote: Wales 26 Scotland 50 Ireland 66 A miracle will be needed to give the Unionists a working majority in the next parliament. The present is not the age when in Britain the land of miracles.

SURGEON JUGGLES THE HEART (Continued from page 1). "One of these dogs was chloroformed two and a half months after the operation and was in perfect condition. The two dogs are still living and have suffered absolutely no ill-effects. "In another experiment, a piece of jugular vein, which had been preserved in cold storage, was used to replace a bit of the upper part of the descending aorta of a dog. The operation lasted 20 minutes, and during this time the blood kept the lower part of the aorta through a paraffined tube. "The animal remained in good health for twelve days after the operation. His death was due to a slight slip in the technique of passing the piece of jugular vein in cold storage. "In another experiment a segment of jugular vein about three centimeters in length was transplanted on the descending aorta of a small dog. The animal is in excellent health and there is no modification of the femoral pulse. "The exact method by which Dr. Carrel keeps the heart and body of a dog alive and separated from each other will be made public some day. Although the work is still in its infancy, Dr. Carrel has advanced marvelously. He has conclusively shown that positive results can be obtained in plastic operations upon the thoracic aorta. But, in order to make the experiment safe enough to test it upon a human being, the technique of the operation of the blood must be improved. "Dr. Carrel has shown, however, beyond a doubt that cardiomy (cutting into the heart), followed by suturing with large silk threads does not present any danger. The opening of the heart, the introduction of a finger into the cavity, even the removal of a part of the body, does not interfere with this treatment with the health of the animal."

CHOICE BISCUITS FREE CONTRACTS SOON NOW FOR CANADA'S NAVY VESSELS As a result of the government's majority on the naval policy it is expected that contracts for the construction of four cruisers and six torpedo boat destroyers will be awarded soon. Six British concerns are anxious to undertake the building of the ships, which must be built in this country. Harland & Wolff, one of the tenderers, if successful, will, it is understood, establish a shipyard in this city. Tickers Sons & Maxim plan a yard in Montreal. It is estimated that the completion of the present naval programme will involve an expenditure of \$10,000,000.

Where the World's New Gold Goes (New York Evening Post). During the last twelve months the world produced more than \$450,000,000 of new gold. Yet in that same period the gold holdings of the world's great banks called five times, and there were five big institutions decreased about \$40,000,000. Most of the changes from a year ago were small, but the Bank of France lost \$50,000,000, and the Imperial Bank of Russia gained \$21,000,000. The United States Treasury's balance of unpledged gold increased \$8,000,000, and the Argentine gold reserve, against the currency, by we believed, never would have \$150,000,000. Yet even this leaves the problem open, where the rest of the world's new gold has been distributed.

YOU MAY HAVE CHARMING HAIR There is a reason for the phenomenal sale of Parisian Sage in Canada and the reason is plain to all: Parisian Sage does just what it is advertised to do. It is guaranteed to cure dandruff, stop falling hair or itching scalp in two weeks, or money back. THE STRAY CHICK CROWDED OUT (From the Kansas City Star). They talked it over, and decided that it was their duty to rear some one else's baby. They found a baby three days old, and took him home. That was thirteen years ago. Then something attracted the stork. He began to visit the home at 2905 Independence avenue, where a foundling baby had been taken in because he had neglected to stop there. But after the stork had laid in Montreal, he called five times, and there were five little mouths of their own to feed, they talked it over again. And Joseph Hayes, who is a mail carrier, went to the juvenile court and asked that he and his wife be relieved of the care of the adopted baby. "You see," he said, "when we took this baby, we believed we never would have the children of our own." And so the adopted boy is going to find a new home at the McCune Farm.

NORTH MARKET STREET TROUBLE.

Ready Furlong pleaded guilty this morning in the police court on a charge of using obscene and profane language in North Market street at an early hour on Thursday morning. Furlong showed the effects of ill-health, as his face was badly cut and marked with court plaster. He was detained for a time, and the matter will probably be dealt with this afternoon.

LAST DAY OF CAMPAIGN.

Tomorrow afternoon at 8.30 Dr. Torrey will address a mass meeting of men in the Queen's Rink. There will be music by a choir of 200 voices, led by Mr. McEwan. At 4 o'clock a women's meeting will be held in Queen Square church, addressed by Mrs. Moody Parker. At 7 o'clock the night service will be held in the rink and at 9 the farewell meeting.

EVERY DAY CLUB.

Rev. Dr. Raymond will be the speaker at the Every Day Club tomorrow evening at 8.30 o'clock. The club's fine orchestra, led by Prof. Bowden, will play a programme, beginning at 8.10.

A second solo table has been placed in the Every Day Club hall, and these tables serve a great attraction for young men. The room is well filled each evening with men engaged in the games or at the reading tables.

MISS ETHELDINE MABEE DEAD.

The sad announcement that Etheldine Mabree had passed away at an early hour this morning was heard with deep regret by many friends throughout the city. She was highly esteemed, respected and loved by all with whom she came in contact and her early death cast a gloom over many.

Beside her mother, she leaves four sisters—Mrs. Fred Young of Waterville, Me.; Mrs. Ernest Handren, of this city; and Annie and Florence, at home; also one brother, Sime, and one half sister and brother, Mrs. Lois Laskey and Wm. J. Mabree, of St. John.

DEATH OF JAMES TAYLOR.

After illness, lasting since April last, James Taylor, an old and highly respected resident of the North End, passed peacefully away this morning at the home of his son, Jas. D. Taylor, of Victoria street. He was a native of Aberdeen, Scotland, and was eighty-three years of age.

About forty years ago he came to this country and lived since that time in St. John, where he enjoyed the acquaintance of a large circle of friends. He is survived by one son, J. D. Taylor, of the firm of Taylor & White. The funeral will be held from his son's residence at 3 p. m. on Monday next.

MISSING PILOT BOAT PUTS IN AND GOES OUT AGAIN

Lost Sails in the Big Storm—The J. U. Thomas in Harbor Here for Awhile Today

More than a week absent, during which time they had been neither seen nor heard from, and had been counted as lost, the pilot boat No. 5 J. U. Thomas in command of Captain Joe Smith and with Pilots Miller, Spears and Sherrard on board, arrived in port about 11.30 this morning. She had only reached the beach, however, when the pilots on board were advised that a steamer had passed Briar Island at 9 o'clock and the schooner put the pilot boat to sea.

All hands, skipper, the two men of the crew, and the three pilots were in good spirits, and bore no evidence of the experience they had undergone. The schooner, however, showed the effects of her encounter with the elements. Everything that was not spiked to the deck had been swept overboard. The big storm sails had been blown away long so much paper.

SPENCER CONCERT PREPARATIONS ARE WORKING OUT WELL

The proposal of the newspaper men of St. John to give a benefit entertainment in the Opera House for the venerable poet and journalist, H. L. Spencer, is meeting with universal approval.

The Women's Musical Club have not only changed the date of their next meeting, which was to have been held on Dec. 15, but the present, Mrs. E. A. Smith, has kindly consented to read several of Mr. Spencer's short poems at the concert.

The City Cornet Band and the Every Day Club orchestra will contribute musical numbers, and G. S. Myers and other leading vocalists will sing.

A special feature will be the singing of Mr. Spencer's song, A Hundred Years to Come, by a quartette. The music is by H. T. Crossley, the famous evangelist.

When the programme is completed, it will be one of the best rendered in this city for many years. Tickets may be obtained from the reporters on the daily papers, or at the newspaper office.

SCHOOL TEACHERS ARE ATTRACTED TO COURT

Quite an Unusual Assemblage in Judge Ritchie's Court This Morning

Quite an unusual sight was witnessed this morning in the police court, when the case of W. A. Nelson, principal of Winter street school, against Mrs. Annie Meyers, of Cranston avenue, was begun. No less than sixteen female teachers streamed into the court room, and took seats inside the railing. In addition to these a number of the school board was present, as well as some of the male teachers, and about fifteen or more boys, present in the school.

The charge is one of assault, being a charge brought by Mr. Nelson against Mrs. Meyers, who was quoted as seeking damages from him for alleged assault on her boy.

Mr. Nelson acted on his own behalf this morning, while J. A. Barry appeared for the defence. Mr. Barry made an application for adjournment presenting a certificate from Dr. E. D. Walker, to the effect that the defendant was obviously unable to attend. After argument, the application was granted and the case was adjourned until Saturday next at 10.30 a. m.

CIRCUIT COURT CASE GOES OVER TILL TUESDAY

St. John River Steamer Matter Still Before Judge Barry

In the circuit court this morning before Justice Barry, and a jury, the trial of the civil case of the St. John River S. S. Co. vs the Star Line S. S. Co., was continued. Hedley V. Upton, gave evidence for the plaintiff. Counsel for the plaintiff announced that the case was closed.

M. G. Teed, K.C., for the defendants, moved for a verdict for the defendants on the counts respecting the alleged breach of the contract contending that the contract was not proved.

D. Mullin, K.C., for the plaintiff, argued contra.

His Honor: "I will not withdraw the case from the jury, but will adjourn it until Tuesday morning, at 11 o'clock. Adjournment was made accordingly."

ANOTHER BUSINESS HOUSE OPENS HERE

Arrangements were completed yesterday whereby the Rubber Tire Wheel Co. Agency of Montreal will open an office and warehouse here for the handling of their goods. W. P. Kearney, manager of the company has been in the city for the last few days looking over the ground, and he has decided that the company should be represented here.

He has appointed Fred J. Doody as the representative for this territory and a complete line of goods handled by the company will be shipped here at once.

An office will be opened within thirty days in the premises occupied by J. J. Hart, Doody, plumber, Prince William street.

Mr. Kearney said he had found it very difficult to lease a store here and only through an arrangement with Mr. Doody had he been able to get a start for the first of the year.

The company are the Canadian agents for Kelly Springfield tires, Fisk Automobile tires and Westinghouse chain tire grips.
