Hawthornthwaite and Shepherd Meet With Hon. R. McBride.

Those who have watched the present and the revolutionists through the ef- being made by the Conservative-Social ist party in Nanaimo riding to defeat Ralph Smith, M. P., the popular member. Ever since the days when J. H. Hawthornthwaite, the Socialist leader, occupied the unique position of "dictator" to the government of Premier Mc-Bride the relations between the premier and the Socialist head have been most cordial. When the present government was returned with a majority sufficient to bid defiance to Mr. Hawthornthwaite the dictation on the part of the Socialist leader in the matter of government business did not cease. Now there can be no question that the Conservative party and the Socialist cader are working together in Nanaimo district to defeat Mr. Smith.

If any doubt could have existed as to this combination it was dissipated on Tuesday afternoon when Premier Mc-Bride met J. H. Hawthornthwaite, the Socialist candidate, in the Nanaimo riding, and Frank Shepherd, the Conservative nominee, in his office in the parliament buildings.

That the Conservative machine Vancouver last night received its hardest joil for many a day in the nomination of George H. Cowan is a fair summing up of the really surprising result of the Conservative convention in the Terminal City. Nominally the distinctively McBride Conservatives of Vancouver were trying to keep out of the nomination fight and the Hon. Mr. Bowser was careful to say beforehand that he would take no part in the selection of a candidate. But Mr. Cowan cannot be regarded as other than an anti-Bowser man and it is feared that the men who were at one in supporting the present provincial administra-tion in the last elections, were fighting vassing for their rival nominees.

for Needs.

The value of Victoria as an educacional centre has been once more made clear with the opening of the school in onnection with St. Ann's convent. Last year an immense Catholic school was erected in Seattle, and it was thought by the management of the convent here that it would take away from Victoria the patronage they had usually received from the other side of the boundary line. This has, however, proved not to be the case, for the attendance at the school during the first week has been larger than ever before in the history of the institution. Keeper of Restricted House is Fined \$50—Hotel Changes Hands.

(Special Correspondence). Ladysmith, Sept. 9.—There are quite a number of colored people resident in Ladysmith, and a big proportion of the male section seem to be able to get along without work. The police have suspected some of them of running gambling and restricted houses, and on Sunday night Constables O'Connell and Cellander made a raid and an arrest. The cases came before Magistrates Nicholson and Mattheson last night,

The story of the police was that in house on Fourth avenue, occupied by a Mr. and Mrs. Watson, they saw a

of three months hard labor. The fine was paid. Grace Adams then pleaded guilty to

being an inmate of a bawdy house. John Stewart, the city clerk, put in a strong plea for leniency. The girl was only nineteen years of age and had been brought away from her home in Seattle by false representations and led astray. She had enough money to take her home and she had promised to so back to her mother. He believed would, and he suggested to the bench that she be allowed to go on suspended sentence. Miss Grace was allowed to go, and was taken to an actel by Officer O'Connell. However, hotel by Officer O'Connell. Labor Day Labor Day was to some extent spoild by the very threatening way in which the morning broke. The most of the holiday-makers travelled up to Nanaime to see the sports arranged by the Athletic Club. Those who saw the races express the greatest admiration for Brook Vaio's sprinting. He had not very much to spare, but his style is pretty, and on Monday, he was perhaps handicapped more than any of the others by the strong wind blowing against them. In fact, the final was run against a perfect gale of wind and run against a perfect gale of wind, and the time given 111/2 seconds, was, under circumstances, exceptionally good. Vaio also had the 100 yards hurdle, but gave the race to McEwan. In the 220 yards, however, he could never reach McEwan. Great regret was expressed that Bayliss did not turn up for the Marathon. Even if the course was only 4 7-11 miles, it is heavy enough, and 27 tes, 10 seconds, is good time. BUTTER SCARCITY

STILL A COMPLAINT

High Prices Prevail for Product of Creameries.

Butter is very dear for this time of year. The bush fires have destroyed much of the pasture so that dairymen have had to feed their cattle to keep up the milk supply. When that has not been done there has been a very noticeable falling off in the quantity and a consequent scarcity. The price for butter now is higher than it has been for years. The product of the best creameries is now fetching fifty cents a pound retail, while others realize forty-five cents.

Speaking generally, the market in firm. There are no changes in feed or any of the staples in food produce.

Fruit of District Has Displaced Imported Product.

The local apples are now fairly on the market, having replaced the early California fruit which preceded it. This local fruit is of splendid quality. and the city merchants are well stocked with some of the best of it. The Wealthy and the Alexandria are the two varieties which are ready, and there are also a few Gravensteins In pears the Bartletts are just in their prime. They are not too ripe, which is always a virtue in pears. These are selling lower than w

pected, the price varying from a dollar to a dollar and a half a box. Prunes, the most pepular fruit of the day, are just right for preserving. Those who have eaten nothing but the dried fruit know nothing of the prune When preserved either in the jam form or canned or bottled they are one of the most luscious of all stone fruit.

Just a few blackberries remain, the

last of the season. They are rather dear, going just now at fifteen cents a The first cranberries of the season are in town. These have been sent over from the Fraser valley. They are rather green yet, but the price is low-

er than usual, the berries retailing at fifteen cents a pound. Peaches are still fairly plentiful and olling well at \$1,25 a crate. A feature of the peach market this year has been the fact that a carload was brough down from the Okanagan to supply the ocal market. These were of excell quality, and seem to promise that in future years they will almost monopo-lize the Victoria market.

The holiday has been pronounced a successful one and keen sport has been obtained.

ATLANTIC CITY "DRY."

Atlantic City, N. J., Sept. 8.-A real blue Sunday came to Atlantic City the day before yesterday. Many persons familiar with the history of this far-famed resort have been inclined to doubt the possibility of such a thing, but yesterday everyone of the 220 saloons and hotel bars were closed. They were closed alike to bona fide guests as well as to strangers. It was said that this was the fourth time in the fifty-four years of its existence that a dividence day had been experienced in which the dock has been engaged. His bild amounted to something over \$24,- headquarters stated; "Saloons all closed. No troops in town.'

In taking the chair Mr. Jardine said that he was not prepared to make a speech. There was a sentiment among organized labor that politics should not be discussed in connection with labor problems except under exceptional circumstances. He thought, however, that where politics and labor were closely related in the accomplishment, or the effort to accomplish, labor reforms, that all questions should be faced and discussed by the people and their repre-sentatives. The reform of labor conditions was only brought about by the workingman taking possession of those potentialities which were his by right. there would be solid foundation for the reforming of all evil conditions in the world of labor. (From Wednesday's Daily.) News of the wreck, off the mouth of the Nushagak river, of the big American ship Lucile on August 20th, is conveyed in a brief special dispatch to the Times from San Francisco to which port it was brought by a vessel ar-riving from Alaska to-day.

The Lucile, a wooden vessel of 1,402 ons register, went north some time ago to load at the Alaska canneries for San Francisco. She took on a large cargo of 39,300 cases of canned salmon and 12,000 barrels of salt salnon and was anchored off the mouth of the Nushagak river, near Bristol bay, preparatory to sailing south, when she parted her mooring chains during a gale and went on a sand spit. The crew of 168 men escaped to the

shore safely but the ship with all her cargo soon became a total wreck. The Lucile was under charter to carry lumber to Australia, returning with coal from Newcastle, N. S. W., upon her return from the north.

G. T. P. BUYING WATER FRONT

VALUABLE PROPERTY ON HARBOR PURCHASED

Transcontinental Company Expending Large Sum in Victoria.

It is reported that the G, T. P. has made arrangements for the purchase of most valuable water front property in the city of Victoria. This is the portion of waterfront extending from the Do- Privy Council Made Reference minion government wharf to that erected by the Alaska Steamship Company, and is owned by Clifford W. Brown, who will give no confirmation of the report. The extent of the front-age is 400 feet and the price paid is aid to have been about \$150,000.

This purchase by the G. T. P. of a portion of water front which posesses of trade confirms the view long held that the G. T. P. has in view making Victoria an important point in connection with their system. The given by the Privy Council on the sub-water front is a most valuable one and ject of the divorce laws of British will give splendid facilities for ship-

USED JUDGMENT OF MR. JUSTICE MARTIN

to it in Divorce Case.

(From Thursday's Daily), Deputy Attorney-General McLean, who has just returned from London, speaks in high terms of the judgment handed down by Mr. Justice Martin in formed the basis for the judgment Columbia. Mr. Justice Martin went into the subject of the power of the province to pass divorce laws very fully in that case, following the judgment given by Mr. Justice Clement in Watts vs. Watts, which formed the basis of the appeal to the Privy Council. The province incorporated the judgment in its brief in support of the

appeal taken.

The decision of the highest court of appeal reversed that given by Mr. Justice Clement, it will, be remembered, Lord Collins, in giving their Lord-

ships' decision, said since the decision of the present case by Mr. Justice Clement, Mr. Justice Martin in the case of Shepherd vs. Shepherd, decided April 1st, 1908, has refused to follow it, and has given his reasons at length in a very able and elaborate judgment tracing the evolution of divorce jurisdiction
