Enterprise Stoves and Ranges

The new ENTERPRISE FOUNDRY, which replaces the old plant burned
in July last, is now under way, and is the best equipped and most modern
stove foundry in Canada. The new line of stoves and ranges cannot be
equalled. We mention three of the leaders:

THE ENTERPRISE MONARCH—A steel range easily the best of its
class. It has more labor saving devices and helps to good and easy cooking
than any range on the market.

THE ENTERPRISE GRAND—An entirely new and beautiful high grade
cast range. Has large oven, roomy fire-box, thermometer and latest im-
provements.

THE STERLING—This well known range hardly needs comment as there
are hundreds of users in this city. It has several new features and is better
than ever.

There are several other new and up-to-date designs, all of which can be
seen in our show-rooms.

Remember "ENTERPRISE STOVES and RANGES" have two guarantees
—that of the Enterprise Foundry Co. and our own.

FLOSSIE'S EVIDENCE DOESN'T HANG TOGETHER VERY WELL

Detectives Fall to Flod Outside
Proof of Her Queer Travel
Talk — Young Man in
Virginia Says He Can Tell
Something of Interest

HAMILTON, Ont., March 12.—Startling
revelations are expected in the
Klarade case shortly. The evidence
of Flossie does not hang together very
well and her story of her visits with
Marion Elliot of Montreal, do not
agree with outside evidence. She said
that she had gone to Goderich and
Stratford with Miss Elliot and that
at Goderich she had stayed with Miss
Elliot's sister, Mrs. Robinson. Inquiry
at these places show that there is no
record of her ever having been there
to sing and at Goderich Mrs. Robinson
is not known. In a small place a woman
who was spending largely as the
evidence showed, would be known.
Coupled with the inability of the detec-
tives to locate a Marion Elliot in Mon-
treal and the fact that in musical cir-
cles she is entirely unknown, make the
supposition popular that Flossie
invested Miss Elliot to explain her
wanderings around the country with
somebody who she is recalled to
explain these discrepancies.

A reported woman to Portsmouth, Va.,
to see Jack Burns, who had paid her
a great deal of attention. He said:
"If Miss Klarade is coming anything
I don't believe she is for the
purpose of shielding any man."
"Then why should she conceal any-
thing?"
"She might be shielding herself."
"Was she ever bothered by anyone
when she was here?"
"I'm not going to say anything about
that. If her family know it there
is no need for me to speak. If she has
not told anything and she should be
arrested or charged with the thing at
Hamilton I would speak out and say
what I know. I don't really know any-
thing for sure but there were some
things she told me and a number of
things she said about the man who
perhaps point to something."

"About her stay in Portsmouth?"
"Yes, not about Richmond or Vir-
ginia Beach. I don't remember the name
of the man who was paying her at-
tention at the time."

FAMOUS RUSSIAN EDITOR HAS AN ANNIVERSARY

Alex. Suvorin Honored by Foremost Men of
His Country—France Recognizes
His Ability.

ST. PETERSBURG, Mar. 12.—Alex
Suvorin, the publisher of the Novoye
Vremya today celebrated the fiftieth
anniversary of the beginning of his
literary activities. Several thousand
persons prominent in Russia, including
Emperor Nicholas, the members of the
cabinet, high courtiers, a large depu-
tation from the Duma and another
from the Council of the Empire and
many of the leading writing men, arti-
sts and actors of the country, united
in honoring the veteran editor, who
starting life as the son of a peasant,
has won a unique place as an author
and dramatist and a member of pub-
lic opinion. M. Suvorin, who through
the Novoye Vremya, wields a power with
which even the government is forced
to reckon, is proprietor also of one
of the leading theatre troupes, maintains a
dramatic school, and is a generous patro-
n of the arts. Emperor Nicholas has
presented the editor with a photo-
graph bearing his autograph and
France has made him an officer of the
Legion of Honor.

STEAMER RAN INTO A FIELD OF ICEBERGS

The Tamarac, Off the Grand Banks, Had a
Tightish Time Last Sunday.

PHILADELPHIA, Pa., March 12.—
Towering icebergs and a great area of
field ice caused consternation to the
officers and crew of the British steam-
ship Tamarac when the vessel was
within several hundred miles of the
Grand Banks on March 7. The Tama-
rac arrived here yesterday from Sheld-
on and the report of her officers caused
amusement in shipping circles when it
became known that more than fifty
icebergs were passed. The vessel was
200 miles northeast of Cape Race when
the lookout reported icebergs ahead.
Officers crowded the bridge deck and
with glasses swept the sea. To their
astonishment the water was literally
dotted with bergs of all sizes. The
steamship soon found herself in heavy
field ice and finally was compelled to
steam for twelve hours to the east-
ward she plied her way through fifty
icebergs some of massive proportions
and others less than twelve feet out
of the water.

PHILADELPHIA, Pa., March 12.—A
level crossing accident occurred here
at noon. Benjamin Young, of Calais,
was hauling wood to town and was
shovelling snow on the C. P. R. cross-
ing at the lower end of Prince Wm.
street, when the C. P. R. express was
coming in. The engine was whistling
and the bell ringing, but Mr. Young
paid no heed to it until the locomotive
struck him. He was thrown to one
side but very fortunately escaped
without serious injuries.

SESSION ENDED WITH PLEASANT BANQUET

Municipal Delegates Heard
Many Speeches

Subjects Ran From Suffrage to Railway
Construction—Magrs. Wanted for
Assault, Was Arrested.

MONCTON, N. B., March 12.—The
Union of New Brunswick Municipalities
concluded their two days sessions
here last night with a banquet in the
Hotel Brunswick at which there were
a number of speeches covering various
subjects ranging from the possibilities
of the suffrage movement in this
province to government ownership of
telephone systems, and railway con-
struction necessities. D. P. McLach-
lan, M. P. P., of Chatham, sounded a
harsh warning with regard to the
suffragettes, picturing strenuous times
in store for provincial legislators
should women of this province attempt
to emulate those of Great Britain.

There were a large number of speak-
ers including 22-Treasurer Robinson,
Hon. F. J. Sweeney, C. M. Legere, lo-
cal bank managers, President Ches-
ter, and Ex-President Wood of the
union. About seventy attended the
banquet and letters of regret for in-
ability to be present were read from a
large number, including premier Has-
sen, Hon. B. R. Emmerson, Senators
Mcweeney and Porter, and others.

John White, the negro, who on Wed-
nesday assaulted Station Master Lutes
at Harcourt, was last night arrested
by I. C. R. Inspector Goble between
Campbell and Bathurst, and will be
taken to Harcourt today where he will
stand trial on an assault charge which
will be preferred by Mr. Lutes.

AIRSHIP ASCENDS TO A GREAT HEIGHT

While Hoppe Breaks His Own
Billiard Record

Havana Woman Gipsy Blind to Four at
Once—Help Wanted by the
Toronto, Ont.

KANSAS CITY, Mo., March 12.—In
the annual billiard match last night
Willie Hoppe established a new world's
record for the 183 billiard game for
high run and average. He averaged
he clicked off 222. His average was
200. The former record run was
300 made by him in a match with
Schaefer in Chicago three years ago.

FREDRICHSHAFEN, March 12.—
The Zeppelin airship, which went up
from Lake Constance this morning, at-
tained an altitude of over 3,000 feet,
a record held for steerable balloons.
Varied and most difficult manoeuvres
were carried out at this height with
great success.

QUEBEC, N. S., March 12.—The
Chicago Bay Steamboat Love-
point, Capt. Clarke, belonging to the
Maryland Delaware and Virginia Rail-
road Company, was burned to the
water's edge while lying at the wharf
in Lovepoint last night. No lives were
lost.

HAVANA, March 12.—The wife of a
poor cigar maker of Havana, the
mother of a sexton and an artist, died
yesterday to quadruplets, two boys and
two girls. President Gomez sent his
congratulations to the mother as a wo-
man deserving well of the Republic.

LITTLE ROCK, Ark., Mar. 12.—The
finance committee of the Brickley,
Ark., relief association, headed by
Congressman Joseph Robinson, has is-
sued an appeal to the entire country
to aid the sufferers at Brickley. The
appeal says that since Brickley was
destroyed thirty-two bodies have been
recovered and more may be found.
That 200 injured have been treated in
the emergency hospital and scores die
where and that the property loss ex-
ceeds \$1,000,000 with only \$600,000 tor-
nado insurance.

LOS ANGELES, Mar. 12.—Mayor A.
C. Harper resigned last night and also
announced he would withdraw as a
candidate for re-election at a special
election called for March 26. Under the
recall clause of the city charter, he
had been recalled from office by a
petition signed by 10,000 voters because
of various allegations of misconduct
made against him.

Mayor Harper was elected on the
Democratic ticket for a term of three
years and he had served two years
and three months.

NARROW ESCAPE AT A LEVEL CROSSING

Benjamin Young, of Calais, Paid No
Attention to the Incoming
Train.

ST. STEPHEN, N. B., March 12.—A
level crossing accident occurred here
at noon. Benjamin Young, of Calais,
was hauling wood to town and was
shovelling snow on the C. P. R. cross-
ing at the lower end of Prince Wm.
street, when the C. P. R. express was
coming in. The engine was whistling
and the bell ringing, but Mr. Young
paid no heed to it until the locomotive
struck him. He was thrown to one
side but very fortunately escaped
without serious injuries.

THE SIX DAYS RACE

Only Ten and a Half Teams Left—Franch-
men Have Lead of Twenty One
Miles.

NEW YORK, Mar. 12.—With Cibot
and Orphe twenty-one miles ahead of
their nearest competitors, ten and a
half teams of plodders were representa-
ed in the six day 20-as-you-please
race in Madison Square Garden today.
The race has become a procession with
the great odds in favor of the race
French team who has now held the
lead for days. Nearly three-quarters of
the long journey had been accomplish-
ed and this spurred the weary men to
do their best. Davis Hartley was still
struggling along without a partner,
waiting for some one to drop out and
give him a place.

TRAIN WRECK REPORTED; SEVERAL PERSONS KILLED

ATLANTA, Ga., Mar. 12.—It is re-
ported that a western and Atlantic
train was wrecked near Kingston, Ga.,
today and that several persons were
killed. No confirmation of the report
has yet been obtained.

FUNERALS.

ALLAN BRENNER.
The funeral of Allan Brenner took
place from his late home, 35 Broad St.,
yesterday afternoon at three o'clock. Rev.
Mr. Graham conducted the services, and
interment was in Fernhill cemetery.

CHARLES S. COX.
The funeral of Charles S. Cox took
place at 2.30 o'clock this afternoon
from his late residence, Marsh Bridge,
Rev. Dr. Raymond conducted the ser-
vices, and interment was in Cedar
Hill Cemetery.

MRS. THOS. WILSON.
The funeral of Mrs. Thomas Wilson
took place at 2.30 o'clock this afternoon
from 1111 St. John street. Rev. Mr. Colton
conducted the services, and interment
was in Cedar Hill Cemetery.

MRS. ELIZABETH SHANNON.
At 2.30 o'clock this afternoon the
funeral of Mrs. Elizabeth Shannon took
place from her late home, Erin
street. Rev. Fr. Duke conducted the
services at the Cathedral, and inter-
ment was in the new Catholic cem-
tery.

SHE WAS IN TEARS

when her dearest friend
called. The cook had left
and the housemaid had
given notice. "Why,"
laughed her friend, "that
isn't serious. Let me use
your telephone." Then
she called main 25 and
dictated a small sad ad-
vertisement.

"There dear," said she
kissing her friend's tears,
away, "you'll have no
more trouble." And she
didn't.

PHILADELPHIA, Mar. 2.—The sub-
committee of the anthracite mine
workers and operators will hold another
meeting this afternoon and endeavor
to reach an agreement to go into
effect at the expiration of the present
agreement between the
men and their employers. The flat-
ness of the operators to make any
concessions has greatly depressed the
representatives of the miners. While
they expected the operators would re-
fuse to concede the principal demands
they did not expect them to make such
a clean sweep of all their propositions.
The miners will today make their an-
nouncement to the operators offering to renew
the present agreement for three years.
President Lewis of the miners' union,
has not announced what his answer
will be, but it is not improbable that
he will accept the operators' proposi-
tion if they will consent to make certain
changes in the present working
arrangements for which some of the
miners in different sections of the anth-
racite regions are clamoring.
Judging from the attitude taken by
the operators some time ago, which
attitude has not been changed by the
present negotiations, it is not likely
that the coal president will concede
the main much. If this turns out to be
the case it is declared by the men that
they will either call a convention of
the anthracite miners or call into ses-
sion the International Executive
Board of the Union to decide upon the
next step.

The full committee of anthracite
miners held an executive session this
morning in the hall of the Central La-
bor Union at which President Lewis
outlined to them his plans for the
afternoon's conference.

President Lewis was very much pro-
voked today because the operators re-
fused yesterday to receive him and his
associates as officers of the Mine
Workers Union but merely as coun-
sellors of the coal miners employed in
the mines owned by the former.

"The only agreement I will sign with
the operators will be, as T. L. Lewis,
President of the Union," hotly decla-
red, "We will not be divorced
from the organization but will insist
upon our rights as men," he con-
tinued.

Asked if he will make any other
proposition to the operators in view of
the rejection of the demands yesterday,
Mr. Lewis said: "We will not quietly
submit to our demands and we will
insist that everything we have
asked for shall be granted."
"Then you look for trouble" in case
the operators insist on their rejection
of your demands and refuse to recog-
nize the union."
"I am not predicting trouble nor
looking for it. All I have to say is that
we will insist upon our demands and
will make our attitude very clear to
the operators."
In view of the probable disagree-
ment of the conference it may be
stated positively that there will be
a convention of the three district uni-
ons of the anthracite regions in the
latter part of this month to consider
the question of continuing work after
the expiration of the present three
years agreement on March 31.

MIGHT SPOIL IT. It is well known that certain vagabonds desire nothing better, especially when the cold weather comes on, than to be arrested and locked up, in order that they may be taken care of for a while. One of this fraternity succeeded in getting himself arrested for vagrancy, and on the way to the lock-up he was so much overjoyed by the prospect of not having to sleep in the open air that he behaved somewhat boisterously.

"Keep quiet!" threatened the policeman. "If you don't, I'll let you go!"

Schooner in Port After Hard Time—Cutter in Search of Another—Mysterious Wireless Appeal for Help.

HIGHLAND LIGHT, Mass., March 11.—The tug John G. Chandler, having on board the captain and members of the crew of the steamer Horatio Hall, proceeded for Boston at 7.30 tonight, after having been held up for several hours on account of rough weather.

NEWPORT, R. I., March 11.—Short of provisions and water and minus all her fuel, the cutter Mystic, owned by the Gilbert Transportation Company of New London, Conn., put into Newport harbor today after disastrous encounters with a succession of gales on a trip north from Jacksonville.

NORFOLK, Va., March 11.—The United States revenue cutter Onondaga proceeded to sea today in search of the schooner Amy J. Traylor, reported from Norfolk to New York loaded with lumber which was reported in distress by the British steamer Cymric. The Traylor lost her masts in a gale on March 4. Her crew refused to desert the wreck when assistance was offered by Captain Cymric of the Cymric.

BOSTON, Mass., March 11.—Indefinite signals, apparently from a steamer were picked up in fragmentary form by naval wireless stations at both Charleston and Newport tonight, but on account of the many interruptions not enough of the message could be distinguished to indicate either name of the vessel or her whereabouts.

"In distress—notify life-saving stations," was the message read at Newport. Commander Marsh L. Bristol at the Newport station said that the atmospheric conditions were unfavorable for wireless messages in the early evening and that in addition the receiving apparatus was hampered by the constant interruption of other wireless instruments so that he could not pick up the remainder of the distress call.

At Charlestown it was thought possible that the message came from the stranded steamer Massachusetts in Vineyard Sound, but nothing was received to confirm the surmise.

MONCTON DEFEATED Exmouth Y. M. A. Prove Too Much for High School Boys

The Moncton High School basketball quintette succumbed to defeat before the Exmouth Y. M. A. boys in a fast match in the latter's rooms last evening. The score was 25 to 18 in favor of the locals.

The match was witnessed by a large number and was productive of some excellent playing by both teams. The Exmouth boys are jubilant over their victory.

The teams lined up as follows: Exmouth, 25. Lockhart, 18. Forward, 10. Hipwell, 8. Taylor, 5. Guards, 5. Corbett, 5. Ripley, 5. Alexander, 5. Lennox, 5. Moncton goes to Fredericton tomorrow, where they play the Provincial Normal School. On their return on Saturday evening they are to play the Exmouth Y. M. A. team here.

Immediately after the game last night the teams and other members of the association returned to the lower rooms, where lunch was served by the ladies, after which an enlarged play of Rev. S. Howard was unveiled. Mr. Howard responded in a few appropriate remarks. His Honor R. J. Ritchie and others also spoke briefly. A short programme, consisting of vocal solos, was carried out.

The meeting was brought to a close with a toast to the ladies and the singing of "God Save the King."

ON THE VIC'S ALLEYS

The Irish Literary and Benevolent Society quintette were victorious over the St. Josephs in a fast bowling match on the alleys of the Victoria Athletic Club last evening by a score of 128 to 125. Interest was at high pitch throughout the match. For the winners Griffith and Cronin were the stars. McCarthy, Britt and Sweeney did well for the St. Joseph's side.

The St. Josephs captured the first set by a margin of 22 points. The Irish Literary team turned the tables on the ground and third strings. On the last string they bowled the large score of 60.

The result of the match was as follows: I. L. B. Total, Av. Daly, 85 74 84 243 88 85 104 275 91 2-3 Cronin, 77 89 58 264 88-1 McGovern, 80 84 83 247 82 1-4 Fitzgerald, 82 87 81 250 77-2 390 422 450 1265

The Irish Literary team captured three points to their opponents' one.

COMMERCIAL LEAGUE

In the Commercial League on Black's alleys last evening the Brokers' aggregate defeated the St. Mary's and Co. The match caused much interest and some fast bowling was done. The final score was 128 to 125. The winners captured three points. Hurley and Day bowled strongly for the winners, while Sullivan and Bartsch secured the highest number of points for the losers.

The J. M. Humphrey team will meet the Grocers this evening. This will be the result of last evening's match was as follows: BROKERS, No. 4. Olive, 86 84 82 252 84 Hurley, 88 105 87 280 90-3 Bell, 81 81 78 240 80-0 Mahoney, 87 81 85 253 84-3 Day, 88 93 82 263 87 423 444 414 1286

WHEELING, W. Va., March 11.—Two indictments, one charging perjury and the other criminal conspiracy were returned against Mayor Frank Chapman of Chester, W. Va., by the Hancock county grand jury at New Cumberland today. The mayor is accused of conspiracy in planning assaults on former chief of police E. J. Bonjour, of Chester, and others, several months ago. These men were active in causing the arrest of persons engaged in illegal liquor selling and in the testimony taken following the arrest of those said to be implicated. It is alleged, the mayor made untruthful statements.

The lawn at Buckingham Palace is large enough to allow ample room for 2,000 men to manoeuvre.

MANY ENTRIES FOR TONIGHT'S EVENTS

Banner Skating Meet of Season OUTSIDERS HERE Some Records May Be Broken—Ice in Excellent Condition

With local and outside cracks entered in the Maritime championship races in the Victoria rink this evening lovers of speed skating should witness plenty of exciting contests, and no doubt a large number of spectators will be on hand.

The entry list is well filled. The number in fact is the largest yet appearing this season.

The 250, 400, 800 yards and one mile are the amateur events on the programme. All the local entries in these races have figured prominently in the racing game during the season. The outside men are acknowledged to be the fastest men on the steel blades in Nova Scotia.

Davidson, Bouche, Thompson and McDonald, the entries from the sister province, will have a try-out at the rink today.

The local men entered include Milton Belyea and Ernie Wright, who divided the honors in the recent Eastern skating championship. Walter Evans and Leonard Coleman, who made a good showing in the Charlottetown relay race, are also among the entries.

The men are expected home today to be on hand for this evening's sports.

The senior, small and junior boys' races have the usual large number of entries and some fast races should be expected. The boys' races should be interesting. Races for painters and bakers have also been arranged and the entry list as shown is a large one.

"A" three races Mayor Bullock will present the large silver cup and the gold medal to the winner of the silver cup, while Evans will receive the gold medal for second position.

The race between Ernie Wright and Milton Belyea, for first position, will probably be the first event of the night. The distance will be five laps. It is stated that Belyea intends to break the record for the half mile.

The following is a complete list of entries: Junior boys' half mile—Harold Collins, Henry Garnett, William Bell, Arthur Dean, Vincent McGrath, Percy Cunningham, Herbert Ben, James Donovan, Walker, Cosman, James Elliott, Silas Denham, William Hodd, Gordon Nuttall, Pollock, Pollock, John Kinella, Stanley Morrell, Walter Elliott, Roy Kelly.

Senior boys' 1 mile—Robert Belyea, Ernest Harrigan, Thomas Tracy, Geo. Wiley, H. McLeod, L. Garnett, O. Duncan, E. Ingraham, Chas. Campbell, Leonard Coleman, William Campbell, "Painter's" race, half mile—Alfred Handman, John Connell, Jas. McFried, Charles Hamm, Fred Deberry, Thomas Steeves.

Bakers' race, half mile—Martin Day, Sinclair McKel, S. McRath, Thos. Lagan, Fred McKel, M. Daby.

The officials of the evening will be: Referee, Colonel George West Jones; starter, Fred White; judges, Mayor Bullock, A. O. Skinner, Hudson Green, Edw. Sears, Thomas, H. Page, C. W. Bell, M. Dolan, Jas. Follen, Dr. Johnson; clerks of course, R. J. Macrae, Percy Holman, Dr. D. C. Alacorn, D. B. Donald, H. K. Claverton, George McDade, Gordon Johnson; official registrar, John Ross.

BRINTON'S PIPE DREAM
By STODDARD GOODHUE

(Continued.)
"You are an angel," he declared, "with more over than originally."
"I shall be if you break me in two with those brutal arms of yours, you great, terrible—darling. But now do behave, while I tell you something."
"Out with it."
"Well, you haven't smoked since you left New York yesterday morning."
"Good! That's no secret. I knew it before you did. But how did you find it out, you little Pinkerton?"
"If you knew how your beard used to smell you wouldn't need to ask. Uh!"—with a shrug and a grimace—"how I used to hate it! I wonder that I ever learned to like it." "Oh, Jack, dear, isn't this perfectly lovely!"
Brinton took two or three long whiffs at his pipe, and blew the smoke out in rings, partly to see if he had forgotten how and partly to steady his nerves and gain time. Then he stooped holding the pipe in his hand, and looking down into the little Madonna face with the sweet lips puckered in this most unorthodox purpose, and with tobacco smoke wreathed about the head instead of a halo; and the horror he felt at seeing this ethereal creature thus occupied gradually gave way to the reflection that it was all done for his sake, even as he had renounced smoking for her; and, following that thought, a sense of the humor of the little comedy of errors at last began to dawn on him. "Smile that was not altogether forced came to his lips, and stooping over he kissed the hair of the little figure."
"Little sweetheart, you are undoubtedly a trump," he said. "Then for the first time he looked at each other in silence, both smoking, and one of them at least supremely content."
"Do you really like this tobacco?" she inquired presently, between puffs, "honest and true, now, dearie, do you?"
"Honest and true," he replied, smiling indulgently.
"And you're a little strong for you, my sweet," he said, "but I like it immensely."
"Honest and true?" she inquired.
"Honest and true, little sweetheart," he repeated, "with belated inspiration he added, 'Honest and true, I like it better than any tobacco I have tasted for half a year.'"
"This hideous lie was concealed beneath a catch of the throat."
"Amateurish!" she beamed back at him. "I was so afraid my taste in lead you to such a amateurish!"
"Amateurish!" he repeated; "well, rather not. It's anything but that. You choose like a regular old-timer. He seated himself on the sofa, and the little cigarette-smoker nestled by his side, looking up at him with serene satisfaction. They smoked for a time in the sweet companionship of silence."
"Honest and true?" she inquired of the secret, Jack?" she queried presently.
"Most assuredly, not," he replied, with the emphasis of supreme truth.
"I thought you might have," she said, "because once when I was just beginning to learn—let me see, it was just about six months ago—I gave a little hint in one of my letters. In fact, I gave a great big hint. I spoke of your horrid pipes, and asked how you would like to see me smoking, and got some tobacco for me. I even said that I had a mind to learn. And when you said nothing about it, I began."
"Jack, dear, did remember it very clearly. A broad grin spread over his face as he burst out: 'Remember it? Well, I should rather say, then he interrupted himself, and went on hurriedly: 'Why, of course I remember it. I ever forget anything that you write? But I thought you were joking. I never for a minute dreamed that you meant it seriously.'"
"She gave him a beam of pure contentment. 'Oh, I hoped you wouldn't,' she said roguishly. 'I didn't like to do so, without telling you, but I hoped you might think it a joke, and so be really and truly surprised when you came.'"
"Well, you got your wish all right, little sweetheart," he assured her, with a gleam of mischief in his eyes, and he laughed uproariously, and she joined him in merriment. But they were not laughing at the same joke.

AMUSEMENTS.

THIS IS THE SHOW—MYRKL-HARDER CO. AT THE OPERA HOUSE ALL NEXT WEEK.

Commencing next Monday the Myrkl-Harder Stock Company will open a week's engagement at the Opera House.
The attraction is regarded as being among the strongest and most thoroughly equipped popular priced organizations on the road today. There is not a detail that has been overlooked, either as to play or players. Monday evening the Burglar and the Lady. This company is headed by Miss Emma Myrkl, a writer and dainty comedienne.
Monday evening Jas. J. Corbett's famous play, Burglar and the Lady. Tuesday and Wednesday, One Girl in a Thousand. Friday and Saturday, American Gentlemen. Seats on sale Friday.

"A WELCOME BURGLAR" AT THE STAR.

One of the best dramas turned out by the renowned Biograph Co. is The Welcome Burglar, which is to be the chief attraction at the Star in North End tonight and all day tomorrow. It is the story of a country lass who married a worthless man, and how she was rescued from him by a wandering actor and his partner. The pictures are: The Actor's Baby Carriage; The Merry Widow Hat's Doom; The Professor's Love Tonic and two other comedies and dramas. Miss Von Brander is singing Tattle Tattle Tale, a catchy wee kid-song. Special feature for Saturday matinee when Miss Von Brander will sing in childish character costume.

"DAVID AND SAUL" AT NICKEL TODAY.

The Nickel has been fortunate in securing for the latter part of the week, commencing today, the magnificent Vitaphone production of the ever beautiful Bible story of David and Saul, a portion of Holy Writ with which every child should be particularly familiar. The staging of this story has been most elaborately done, the acting and costuming historically correct. David, the shepherd boy, his anointment, his meeting of the giant Goliath, his prowess as a warrior, his being crowned king, are all faithfully portrayed and will be an innovation and source of delight and instruction to old and young alike. This picture will be an especially fine feature for the children at the Saturday matinee, which is to be a whole hour long. Today again Holmes and Buchanan will change their stinging names to "The You'll Remember Me" from the opera The Bohemian Girl. Mr. Courtnall is meeting with much success in his new picture, "The Saturday Matinee." The additional new picture are: A Mix-up in the Desert, his picture of a mix-up in a basket of fruit. Something extra special for next week; watch for it.

WILLIAMS AND ROSE IN THEIR NEW ACT MAKE A BIG HIT.

"Christmas Eve," the new comedy by Williams and Rose, is the greatest success yet. They made even a bigger hit in this act than in the first. That was possible. There are some very amusing situations in this act and the monologue by Mr. Williams was a bit. Today there is a new lot of first-class pictures and the most refined subjects obtainable. Big time for the children on Saturday. Williams and Rose will have a dandy new act for Saturday, something away out of the ordinary. Bargain matinee every day, 5c; evening, 10c.

NEW PROGRAMME DAY AT THE UNIQUE.

Owing to delay in shipping it is impossible to advertise the feature picture in this issue. We expect it will, however, be a very good one indeed. Two Pathe comedies, entitled "Topsy Turvey," and "All On Account of a Uniform," will be included in today's programme, and Mr. Killoyne will again sing "The Chink of The Miser's Gold," which made such a splendid success last evening. Have you heard Mr. Killoyne, if not come around and do so at once, as he is making good, to say the least.

ISLE OF SPICE MAKES A GREAT HIT AT THE OPERA HOUSE.

For a thirty minute hearty laugh it could be difficult to find anything better than the comedy playlet presented at the Opera House last evening, entitled "The Isle of Spice." A company of clever players, for the greater part local, making the most of the ridiculous situations. At the first performance the lack of rehearsal was quite apparent, but the deficiencies were decidedly marked in the second show, which met with such favor, that much may be expected from the second appearance of the little company tonight. Messrs. Frank Stanton, Carter Cash, Steve Huricz, and A. McClusky played the leading parts with much acceptability.

FINE PROGRAMME CARRIED OUT IN THEIR ROOMS, GERMAIN STREET, LAST NIGHT.

The members of the Royal Kennebecan Yacht Club enjoyed a smoker in their rooms, Germain street, last evening. There was a large attendance and the programme was a creditable one.
Commodore Robt. Thomson occupied the chair and made a few appropriate remarks. Refreshments were served during the evening, and cigars were passed. An orchestra composed of juveniles was heard in selections and the different members acquitted themselves admirably.
Other members of the programme included: Solo, Robert Selley; violin solo, Chester Gandy; yacht glide, chorus by the members; reading, A. E. McLean; cornet solo, H. Crestitch; instrumental quartette, Messrs. Young, Brown and Bonnell Bros.; solo, Win. Holder, Fred McKean, Edward Zonoli; violin solo, Dr. Leonard.
The members joined in the singing, "For they are jolly good fellows" to the performers. The gathering dispersed with the singing of God Save the King. Messrs. Harry Dunn and H. Allison conducted the smoker and its success is largely due to their efforts.

QUEBEC'S SURPLUS.

QUEBEC, March 11—In his budget speech in the legislature this afternoon Hon. W. A. Veir, provincial treasurer, announced the exact figures of the surplus for the last fiscal year ended June 30th last, and also gave his reasons why a similar balance for the current year would be out of the question.
There has been left at the disposal of the government for the present year a net sum of \$1,453,754, but instead of becoming exuberant over this "dazzling" figure, Hon. Mr. Veir, in his speech, strongly advised prudence, and reminded the member that for a province with under 2,000,000 people a debt of over \$2,000,000 was a serious incubus.

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (LTD.) at St. John, New Brunswick every afternoon (except Sunday) at \$3.00 a year.

ST. JOHN STAR. ST. JOHN, N. B., MARCH 12, 1909.

AND THIS IS SPORT. The promoters of the sport loving American public seem to have reached nearly the limit of fustian ingenuity when the "six days go as you please" race, which is now being run in New York, was planned.

MARCH. Darned if March don't make me tired! Reputation its accursed. Comes plumb honest, no mistake! March is generally awake.

KEEPING LENT. Ah, yes! She's keeping Lent. If that were all she's keeping I'd not care.

STRANDED CATTLEMEN. During the past few weeks there have been in St. John several scores of disreputable and wholly undesirable strangers, chiefly cattlemen who, landing here from transatlantic steamers, have been turned loose by the shipping companies to hunt their prey on a long suffering community.

WAIL OF AN ANTI. Their mere caprice can make of man a grumbler and a griever. They may have virtues, but as yet I am an unbeliever.

CARPE DIEM. We sigh and say that yesterday The reddest roses grew. The thrushes piped their clearest lay, And joy was all we knew.

A Tonic Free from Alcohol. Talk with your doctor about Ayer's non-alcoholic Sarsaparilla. Ask him if he prescribes it for pale, delicate children. Ask him if he recommends it when the blood is thin and impure, and when the nerves are weak and unsteady. Ask him if it aids nature in building up the general health.

as much as \$10.00 is given and the cattlemen receive as wages twenty-five cents. They are picked up and shipped from Montreal, and arriving at whatever British port to which the steamer may be going, they are furnished with return tickets to St. John. They have only a verbal understanding that they will be taken back to Montreal, but their ocean transportation entitles them to a \$3.00 fare from St. John to Montreal. On arriving here scarcely any of the men have the necessary \$3.00 and the result is that they are stranded. On the arrival of almost every cattle carrying ship a squad of these cattlemen find their way to the quarters. The transportation companies endeavor to avoid the responsibility by explaining that the men were engaged not by them but by an employment agent who is responsible for their return. The cattle shippers have the same excuse or explanation, and consequently in question, who, by the way, is a real nice man, is a sort of buffer between the two. There is nothing in his agreement to make him responsible for the return of the men to Montreal, but on certain occasions he graciously permits himself to be influenced by argument. Although the police and recorder have met with some success of late in compelling transportation companies to carry these stranded cattlemen back to Montreal, a considerable number are left here, imposing on the generosity of citizens and making nuisances of themselves. In the community. In order to overcome this undesirable feature of the waterport trade, there should be stationed at Sand Point, or elsewhere, a special officer whose duty it would be to see that every cattlemen arriving on these steamers is immediately placed on board one of the west bound trains, and started for Montreal. It is wholly unfair that this city should be compelled to shoulder the expense of looking after this class of people in order that contractors or others may make money.

SHOOT AT A SHADOW, HE SAYS; KILLED FIANGEE. (Clarance Robb, in Daily Chronicle, London.) America goes to college, and you will find it hard to discover in America a man in a clean-bosomed shirt who has not been to college—if he can talk American without an accent. For there are State Universities everywhere, and colleges in between. American recognizes the value of education, and hands over large sums year by year to further it. Even the millionaires, foreseeing their own departure, endow universities with funds that stir the envy of an Oxford. "When Chicago takes hold of culture, Chicago has taken hold of culture; it hums to the tune of the Rockefeller millions with a university set up at enormous cost while you wait; and Mr. Risk has gone from Glasgow on a tour of inspection through the American colleges, with an illuminative book, "America at College," as the result.

LOVER CONFESSES HE WAS RESPONSIBLE FOR SWEETHEART'S DEATH. BALTIMORE, Md., Mar. 11.—Cool, indifferent and apparently unconscious that he may pay the penalty of death for having slain his sweetheart, Jennie Reed, John Mueller this morning confessed to Detective Herman Foster that he had shot her to death in the woods near Mount Washington last night.

THE STORY he had told after the shooting of having been held up by a highwayman who shot him, after a scuffle, he admitted today to be untrue, but though put through the third degree, he maintained that the shooting was accidental. His signed confession is as follows: "I left home at 20 minutes past 7 in company with my intended wife, Jennie Reed. We boarded a gay street car and transferred to Mount Washington car at Calvert and Baltimore streets. "When we got off the car above Mount Washington we crossed the road at the station and I told Jennie to go up to the house herself. She said, 'It is too dark; I want you to go with me.' I pulled my revolver out and went with her. She was walking ahead of me; we had to walk in a path. "I then saw a shadow in the woods which frightened me. I then raised the pistol and shot right at the shadow, as I thought there was harm coming to me. I was so excited that I fired the second shot at the same place. I saw Jennie Reed fall to the ground, and when I saw her I ran away from her. "I then saw the pistol after I returned what I had done. When I returned to my home I was so nervous and excited that I did not know what I said or what I had done until I recovered my strength. "Mr. Mierman took his pistol and another man took his gun and we went where Jennie was lying and we buried her dead. I had two pistols—one which I left in my trunk, and the one I took with me, in case I should meet with any trouble, which I expected since I received the pistol as a gift. "When we were by the side of Jennie Reed, Mueller made several statements that were evidently untrue, and got all tangled up.

SAYS LAWS ENCOURAGE TRIAL MARRIAGE IDEA. Pastor Points Out Evils of Divorce in Debate at Doylestown.

DOYLESTOWN, Pa., March 11—"As the divorce laws are now administered, it is simply a case of trial marriage," said the Rev. J. E. Scott, pastor of the Methodist church, in a debate at the Doylestown Club's debate in Lenox Hall. The question was, whether or not the laws should be amended to encourage trial marriage.

THE STUDENT LIFE. But you must not suppose that democracy is quite triumphant, even at the University of Toronto. The student body is still largely made up of the sons of the rich and the sons of the middle class.

FRATERNITIES. It begins again with the Fraternities which is but another name for the clubs and colleges with which we seek to warm ourselves in friendship. All men are born equal according to the theory of the great republic. Pitch your million young men's young men into the sea, and you will see at once that, though human love must be concentrated, human love must be concentrated.

THE VALUE OF A POINTESSÉ. Willow trees are always the stiffest, but the mightiest oak, it is found, can bend. The more powerful should be by kindness. There is no policy like that of the childless, and no success where the best tongue has failed. Pointiness is most useful in making friends in the third and fourth degrees of the desiring. When I returned to my home I was so nervous and excited that I did not know what I said or what I had done until I recovered my strength. "Mr. Mierman took his pistol and another man took his gun and we went where Jennie was lying and we buried her dead. I had two pistols—one which I left in my trunk, and the one I took with me, in case I should meet with any trouble, which I expected since I received the pistol as a gift. "When we were by the side of Jennie Reed, Mueller made several statements that were evidently untrue, and got all tangled up.

SAYS LAWS ENCOURAGE TRIAL MARRIAGE IDEA. Pastor Points Out Evils of Divorce in Debate at Doylestown.

DOYLESTOWN, Pa., March 11—"As the divorce laws are now administered, it is simply a case of trial marriage," said the Rev. J. E. Scott, pastor of the Methodist church, in a debate at the Doylestown Club's debate in Lenox Hall. The question was, whether or not the laws should be amended to encourage trial marriage.

THE STUDENT LIFE. But you must not suppose that democracy is quite triumphant, even at the University of Toronto. The student body is still largely made up of the sons of the rich and the sons of the middle class.

FRATERNITIES. It begins again with the Fraternities which is but another name for the clubs and colleges with which we seek to warm ourselves in friendship. All men are born equal according to the theory of the great republic. Pitch your million young men's young men into the sea, and you will see at once that, though human love must be concentrated, human love must be concentrated.

THE VALUE OF A POINTESSÉ. Willow trees are always the stiffest, but the mightiest oak, it is found, can bend. The more powerful should be by kindness. There is no policy like that of the childless, and no success where the best tongue has failed. Pointiness is most useful in making friends in the third and fourth degrees of the desiring. FINDS THE CLUB MORE CLEARING

Charges Against a Chief Justice

British Columbia Papers Think Justice Hunter is Too Often Indisposed

OTTAWA, Ont., March 11.—In the senate today the unusual step was taken of tabling charges against a member of the Canadian judiciary, namely Chief Justice Hunter of British Columbia. Senator Bostock of British Columbia, in moving that copies of all the charges made against the chief justice be tabled in the senate said it was an unpleasant and painful thing to table a charge of this nature. However, in justification of it he read a number of press statements in British Columbia papers reflecting on the head of the provincial supreme court.

Often Indisposed On June 20, 1908, the Vancouver World contained an article which under the heading of "Clogging the Wheels of Justice" referred with regret to the frequent indispositions of Chief Justice Hunter which had often occasioned unexpected adjournments of the courts.

A dispatch to the Bellingham (Wash.) Herald on October 21, 1908, stated that the Jenkins murder trial at New Westminster was not proceeded with owing to the absence of Chief Justice Hunter, who had been detained at Vancouver on one of his periodic engagements at the club. Sixty persons were summoned as jurors and a host of witnesses were on hand.

The Vancouver World of May 20, 1908, stated that the full court, which was to have been reopened at Victoria on the 2nd inst., had to be adjourned owing to the indisposition of the chief justice. A number of lawyers who had gone to Victoria at the expense of their clients had to return without having accomplished anything. Forty appeals had to be postponed. It looked as if the administration of justice in the province had suffered a complete breakdown.

In British Columbia was on this matter. When such articles appeared in the press he thought the chief justice who had been referred to should be given an opportunity to be heard to remove any stigmas which might have attached to him as the result of these public statements.

The motion was adopted.

DECLARES RESULT WILL PLEASE ALL CONCERNED

Committee From Moral and Social League Meet Government Members.

A delegation from the Moral and Social Reform Council of New Brunswick met a committee from the provincial government last night at the rooms of the administration, Charlotte street. The delegation, an exceedingly strong one, consisted of his lordship the Bishop of Fredericton, the Rev. Messrs. A. A. Graham and W. R. Robinson, Dr. G. U. Hay, Thomas Kiekman and M. E. Agar. Mr. Frank Hatheway was also present and took part in the discussion.

The committee from the government consisted of Premier Hasen, the surveyor general, W. H. Grimmer, and Robert Maxwell. The delegates state that they were cordially received and enjoyed an exceedingly pleasant evening, but decline to give the exact nature of their proposals. The meeting took the form of an informal talk, the government promising, it is understood, to take into careful consideration the reforms suggested in following out its declared policy of amending the Liquor License Act.

Mr. Hasen declared to the newspaper men at the close of the session that the evening had been a most profitable and satisfactory one and that results acceptable to all concerned would probably follow in sequence. The delegation appeared at the meeting armed with the resolutions passed at the recent meeting of the Moral and Social Reform Council. These were exceedingly numerous, covering the entire act, but mainly directed to those clauses involving its administration.

The delegation is perhaps the strongest of its kind that has ever appeared before the provincial government. It was representative of all the denominations, Protestant and Catholic, within the province, and bore with it all the weight of their united influence in the cause of social reform. Previous to the meeting with the government the deputation was entertained at White's by M. E. Agar.

INTERESTING PAPER ON STUDENT LIFE IN PARIS

A large number of the members attended the monthly meeting of the St. John Art Club in the studio, 149 Union street, last evening. Those present heard a helpful paper and were also shown some interesting paintings by John C. Miles. All declared the few hours as being most enjoyable. The art club is meeting with considerable success, as evidenced from the interest and enthusiasm displayed last evening.

The paper for last evening was prepared by F. H. C. Miles and dealt with Student Life in Paris. It was most entertaining and greatly appreciated by those in attendance. Descriptive as it was of what Mr. Miles witnessed in his student life, the paper was of much greater interest than any account of the life issued in pamphlet or book form.

THE PANAMA CANAL IS PROTECTED BY SCREENS

Much has been said and written on the great progress made in the work of building the Panama Canal since the Americans took over the enterprise from the French. Practically every visitor returning from the canal is enthusiastic over the rapidity with which the steam shovel goes into the earth, the way the dynamite breaks up great rock formations and the speed with which the fast moving dump trains carry the loose material outside the line of the canal. Locomotives, steam shovels, miles of railroad track and other powerful agents of excavation have come to their share of consideration at the hands of traveler and investigator, but the copper screen that has kept out the deadly stegomyia from the sleeping quarters of the canal employees and their families—the screen that played such a big part in eliminating yellow fever and chiding malaria—has been apparently overlooked.

USE OF COPPER SCREEN.

The copper screen was not much in evidence when the French laborers struck by yellow fever, fell by the dozen in the big ditch on the isthmus, but it was a big factor in the experimental work of the American surgeons in Cuba in the early part of 1901, when the Americans occupied the island. Not long ago, while a party of eighteen were on their way from Christobal to Panama City a woman died of yellow fever, and the cause was traced to the screening of the sleeping quarters on every house in the Canal Zone, and remarked that the government even provided luxuries for its employees.

An army surgeon who was escorting the travellers observed politely that the screens were one of the compelling necessities for sanitation, and informed the woman that he had not been in the Canal Zone since the yellow fever extermination her life might then be in jeopardy from the dread disease as she journeyed across the isthmus. The woman was one of the compelling necessities for sanitation, and informed the woman that he had not been in the Canal Zone since the yellow fever extermination her life might then be in jeopardy from the dread disease as she journeyed across the isthmus.

The necessity of screening to isolate and eliminate yellow fever may be seen by showing briefly the way the disease is fought. Let it be assumed that a yellow fever patient is found somewhere in one of the communities in the Canal Zone, the moment he is stricken he is quarantined in a room screened so carefully that the smallest mosquito cannot get near him. The victim usually shows symptoms within five days after infection, and the fever is at its height in the first three days of the disease. If the patient is screened from the germ transmitting mosquito there is no opportunity for the fever to be carried to others through the agency of the insect. Experiments have shown conclusively that a stegomyia which has bitten a patient within the first three days of infection is not able to transmit the disease until twelve days afterward. The stegomyia as a rule is active only at night, and if persons in the community are isolated from an infected mosquito by screening, while a carefully screened room incloses the patient, the chances for the spread of yellow fever are exceedingly small. This stegomyia is the only mosquito able to transmit yellow fever, while the anopheles alone can infect one with malaria. There are many varieties, but only the two named are known thus far to science as agents of disease.

PREVENTS SPREAD OF FEVER.

Since the beginning of the canal work by the Americans, in May, 1904, a number of last year approximately \$10,000 has been spent on screening. The isthmian Canal Commission wanted no time on adjustable window screens. The work was done on a larger scale than that. The houses of the canal employees are all equipped with wide verandas, built usually around three of the four sides, and the screening extends from the ground to the roof. The windows which are not screened open out on the screened verandas, and perfect ventilation is obtained. When the weather is too warm within doors the occupants of the quarters sit on the veranda, protected absolutely from mosquitoes. This sum of over \$500,000 expended on screening includes the wood-work and painting and the labor required to put it up. The screening used by the commission has been mainly of two kinds—a bronze wire, containing from 80 to 90 per cent. copper, and a brass wire, containing from 62 to 68 per cent.

COST VERY GREAT.

The mosquitoes of the isthmus have found that there are some 664,975 square yards of forbidden surfaces through which they cannot penetrate, for this is the total area of screening used. The cost of the wire was \$285,714, averaging 33.24 cents a square yard. Of this amount 266,687 yards were of brass wire, costing \$24,545, an average of 34.90 cents a square yard. It is estimated that the cost of copper wire for screening, painting and labor, averaged \$1.06 a square yard. While the system of screening the entire house from ground to roof might seem extravagant, the estimates proved that it costs only a trifle more than the screening of individual windows, doors and other openings. An estimate made on one of the houses showed that the cost of screening openings cost only \$400, while the cost of screening the entire house from roof to ground was only \$421. It has been demonstrated that a greater protection against the mosquito is insured by the screening of openings, the latter plan taking longer and leaving more opportunity for the entrance of mosquitoes.

Flatulency or Wind On Stomach

As It Is Commonly Named, Means That Decaying Food is Making Gas

This most serious condition is very prevalent and results most distressingly and fatally oftentimes. The stomach in cases of flatulency is unable to digest the food properly. Decay sets in, gases form, extend the stomach force, their way downward into the bowels, and if not relieved it extends upward pressing against the lungs, and causing the patient to suffer from breath, belching, foul odors and many times sudden death. Foods which are not well digested, when taken into a deranged stomach cause flatulency rapidly, vegetables being especially given to this quality. Against such conditions the stomach can do little, because these foul and poisonous gases affect its glands, muscles and tissues to such a degree as to incapacitate it almost at once. These gases distend the stomach in all directions, preventing the contracting muscles from doing their regular duties, or if they do force the gas from the stomach, the action is weak, quickly reduces food to nourishment, make good rich gastric fluid, and pass the digested food to the intestine, giving the stomach its rest and the system its nourishment. Flatulency simply cannot exist where these little tablets are used. They build up the stomach fluids so that it matters not how many vegetables you eat or food containing quantities of gas, the stomach does its work well and quickly.

KIDNEY DISEASE COMES ON QUIETLY.

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some kind of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may be backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as brick dust deposits in the urine, highly colored scanty or cloudy urine, bladder pains, frequent or expressed urination, burning sensation when urinating, etc. Do not neglect any of these symptoms, for if neglected they will eventually lead to Bright's Disease, Dropsy and Diabetes.

On the first sign of anything wrong Doan's Kidney Pills should be taken. They go to the seat of trouble, strengthen the kidneys and help them to filter the blood properly and flush off all the impurities which cause kidney trouble. Miss Alberta B. Clarke, Stony Brook, Ont., writes: "I was troubled with kidney trouble for several years; my back was weak, I had such terrible headaches, and was so restless I could not sleep at night and tried everything without any benefit. Maxima's friend advised me to try Doan's Kidney Pills, so I got four boxes and they completely cured me. I now feel as well as I ever did and would advise everyone suffering from Kidney Disease to try them." Price 50 cts. per box, or 3 for \$1.50, all dealers or The T. Millum Co., Limited, Toronto, Ont. When ordering specify "Doan's."

BODY OF WOMAN FOUND ON CANAL BANK

Decomposition May Prevent Identification—Must Have Been There a Month.

DAYTON, Ohio, March 11.—Another mystery confronts the police in the discovery today of the decomposed body of an unknown white woman in the canal below the Apple Street bridge. In the opinion of the officers, it must have lain in the water about a month. The woman apparently was 30 years old and well-dressed. She was attired in black. Decomposition, it is feared, will prevent identification. The place where the body was found is distant from the nearest house, probably more than a thousand feet. The spot is approximately 80 feet south of the Apple Street bridge. The body was found lying half-out on the bank, face down. Both hands were clenched and were near the throat as if the woman had tried to protect herself.

BALTIMORE WORLD IN RECEIVER'S HANDS

BALTIMORE, Md., March 11.—The Baltimore World, an afternoon newspaper, was today placed in the hands of a receiver, one of the petitioners being H. C. Cuyler, the chief shareholder. He was made one of the receivers. Publication of the paper, it was said at the World office, would continue. Financial difficulties and differences between the management, shareholders and creditors were declared to have led to the receivership.

BOSTON, Mass., March 11.—Miss Ethel Barrymore, the actress, and Russel Griswold Colt, of Bristol, R. I., whose engagement was announced this week, will be married in New York during Holy Week (April 4-6) according to a statement made by the prospective bridegroom tonight. Mr. Colt said that Holy Week was the only time Miss Barrymore did not appear on the stage this spring and that it had been decided to have the ceremony performed then.

THE TWO GRANDMOTHERS.

A dear old lady, with soft, silvery hair, A kerchief crossed over her bonnet with care, And caught with a brooch, both antique and rare. Her voice soft and low, like some melody sweet. In the old long ago this grandmother you'd meet.

LITTLE BUT DEADLY.

Of all the deadly poisons that war Against our peace, and kill us, The worst and deadliest foe by far As proved by the researches of scientific men in Germany, France, and several towns in Michigan, who have made the matter a study, and found out by experimenting with guinea-pigs, and other cheap animals how to cure almost anything except waris and cutarrh. It is merely a bacillus.

CRUSADE AGAINST SUNDAY SELLING

Before Chief Justice Masson in Fairville yesterday afternoon Chief Inspector Vincent secured convictions in a number of cases for liquor selling on Sunday. John Martin of Spruce Lake was fined \$100 and costs or three months in jail. Not having sufficient funds to pay the fine he was promptly committed to jail, and will spend the next few months behind the bars unless he is prepared to pay the fine in the meantime.

THE BARK LAB/SMITH

BOSTON, Mar. 11.—Bark Lab/Smith, St. John for New York, which went ashore on Fishers Island yesterday, received a bad pounding in forty knot gales today. The sea was too rough for tugs to inspect her. Captain Mahoney and crew were taken off by life savers early today.

True bravery is shown by performing without witness what one might be capable of doing before all the world.—La Rochefoucauld.

JOHN KELLY TAKEN BACK

Reinstatement Dates from Jan. 26

Justice Cassels in His Finding Completely Exonerates Mr. Kelly

Inspector of Lighthouses John Kelly, who has been under suspension since the opening of the Cassels inquiry here, received word, it is understood, of his reinstatement last night. The reinstatement dates from 26th January, a few days following the report of the investigation brought down in the house in the report. Judge Cassels declined to find against Mr. Kelly and his reinstatement therefore is not accompanied with any surprise. Last night Mr. Kelly received the congratulatory of a large circle of friends. He will resume the duties of his department immediately. To The Sun last night Mr. Lagere, acting agent of the marine and fisheries here, declined either to confirm or deny Mr. Kelly's reinstatement. He was alike uncommunicative of the decision reached in the case of Mr. Harding.

STILL SOME VACANT LAND

Return Presented to Commons Gives Number of Available Acres

OTTAWA, March 11.—A return presented to the Commons today by Hon. Frank Oliver shows that in Manitoba there are still 17,825,000 acres available for homesteads; in Saskatchewan, 104,478,000 acres; and in Alberta, 117,389,000 acres. Lands already disposed of in these provinces for homesteads and pre-emptions total 6,064,910 acres in Manitoba; 20,539,250 in Saskatchewan; and 11,582,500 in Alberta. For railway grants lands disposed of are as follows: Manitoba, 3,018,267 acres; Saskatchewan, 15,192,706 acres and Alberta 15,153,197 acres.

JUDGE GIVES THIS BRUTE THE LIMIT

TOWESON, Md., March 11.—Joseph M. Janer of Brooklyn was convicted today of felonious assault upon Catherine Leech, 12 years of age, also of Brooklyn, and was sentenced to 31 years in the Maryland penitentiary, the maximum possible under the particular count of the indictment on which conviction was had. The case began yesterday before Judges Burce and Duncan and was tried without a jury. It was in evidence that Janer acted in February brought the child to Baltimore, represented her to be his daughter and during two nights, one spent in a respectable house, and the other in a boarding house, repeatedly subjected her to most brutal ill-treatment.

MR. McNUTT GETS THE APPOINTMENT

FREDERICTON, N. B., March 11.—L. C. McNutt, who recently retired from the editorial management of the Daily Herald, received official notice this afternoon from Ottawa of his appointment as collector of customs of Fredericton, succeeding Alfred F. Street, who is superseded from March 31st.

DEWAR'S "Special Liqueur"

Satisfies the Most Fastidious!

THE STAR, ST JOHN N. B. FRIDAY, MARCH 12, 1924

WHEN THE EMPEROR OF GERMANY ENTERTAINS

When the Emperor William gives a state ball... the Emperor's... the Kaiser's... the Emperor's... the Kaiser's...

Everything even to the dress worn by those who are bidden is regulated by royal order and perhaps no other Court has ever possessed such an elaborate etiquette...

PERFECT WAITERS. Dances as it is seen in the famous White Hall is the perfection of art, a triumph of trained skill...

The officials who regulate the dancing live at Court, and on the night of a gala ball it is their duty to see that the crowd of guests there shall be of space sufficient for a certain number of couples to dance comfortably...

BRILLIANT COURT SCENES. But uniforms are by no means confined to army men. Every member of the Court has, of course, the uniform which indicates his rank...

Of late, civilians have been allowed to appear in ordinary evening dress, and this privilege has been withdrawn on the present occasion...

MA MEANT WELL ANYWAY. A young woman overheard an old negro call to a pickaninny, "Come back, Exy, Exy!"

WITHOUT EXTRATANGENCE. Judging by the perfect taste and the keen old-world elegance that surrounds the Kaiser and all his Court...

PET FEARS OF SOME PEOPLE.

An eminent musical critic and something of a composer, whom we will here call Smith, had a terrible fright the other day.

Ordinarily Smith is a brave man. He writes scathing criticisms of peppery prima donnas, and afterwards drives his own motor car fearlessly. He has at times an irascible temper.

"The spider, man, the spider! It's coming this way!" Smith climbed on a chair. "Oh!" said the visitor, disgustedly, and stepped on the spider.

"FIRE!" FRIGHTENS HIM. A much respected medical officer of high, intrepid in the pursuit of his profession, is seized with a palsy of the face when he hears an unusual noise which might indicate danger.

UNIFORM ACCOUNTING. Warden Branscombe, Kings, moved the following: "As this subject has been carefully considered by a strong committee of C. M. M., I have received report of said committee."

OKLAHOMA HANGMAN HAS LITTLE TO DO

Only One Man Legally Hanged While Present State Was a Territory

Indian Territory Side, However, Had Numerous Executions in Its Territorial Years

GUTHRIE, Okla., arch 11.—The decision of the Oklahoma Legislature to retain hanging as the official mode of inflicting the death penalty in Oklahoma, turning down proposals to substitute electrocution for it and to abolish the death penalty entirely, again calls attention to the fact that there have been very few hangings in Oklahoma, at any rate in the western half of the state, although it has been the legal punishment for capital crimes since Oklahoma Territory was organized in 1890.

But one man was ever legally hanged in the Territory of Oklahoma. That was a negro named Milligan, hanged in 1901 at Okfuskee City. There were only four lynchings during the eighteen years of Territorial government, and for one of them several Oklahomans are still serving sentences in the federal prison at Leavenworth, Kan. There have been three legal executions and one lynching since Statehood.

On the Indian Territory side of the State there were numerous hangings after the United States courts were established in the Territory, and before that time when the federal court at Fort Smith, sentenced by Judge J. C. Parker, famous as a "hanging judge," George Muldoon, hangman at Fort Smith during most of Parker's regime, says he hanged eighty-seven men, the very great majority of them from Indian Territory.

HANGED THREE IN KANSAS. Three Oklahoma criminals were also hanged in Wichita, Kan., during the period when the court there had jurisdiction over Oklahoma Territory. Two of them, half-breed Indians named Tobler, were hanged by Charles Hogan, now deputy internal revenue collector for Oklahoma, and George F. Sharritt, clerk of the United States Circuit Court in Topeka, Kan., officiated at the hanging.

The three men hanged since Statehood were Frank Ford, a negro, executed at Frederick for the murder of his wife, John Hopkins, a white man, who killed his sweetheart, Lena Craig, near Miami, and Will Johnson, a negro, twice convicted of the brutal murder of Mrs. Mary Cuyper, an aged white woman at Shawnee. The one lynching was that of James Garden, a negro, who killed Albert Bates, a white lawyerman, in Henryetta, in December, 1907.

The most famous lynching of Territorial days in Oklahoma was that of two Seminoles, Indians, who were hanged at the Oklahoma State Penitentiary in 1897, leaving her body to be buried by the boys, and her little children to die of starvation. The leaders of the mob made no secret of their identity, and when they were prosecuted by the federal authorities several were sent to prison for varying terms. One of the number, Monte Ballard, was met by a brass band when he returned to his home at Muskogee.

LYNCHED THE WRONG MAN. William Campbell, a negro, was lynched at Pond Creek in 1902 for the crime of Deputy Sheriff George Smith. The leaders of the mob were never apprehended. A negro named Morris was lynched at Wilkerson about ten years ago for assaulting a white woman. It afterward developed that he was not the right man, and that the man who shot Frank Kelly, a brakeman, after he had been put off a train at Oatse Junction, it was thought Kelly was fatally wounded, but he recovered. "Mike" White, "Shorty" Green and Frank Williams, all railroad men, were arrested as leaders of the mob, and prosecuted in the United States Court, but were all acquitted.

Two lynchings took place in the Indian Territory side during the summer of 1907, just before the consummation of Statehood, one at Sterret, near Durall, where a negro charged with assaulting a white woman just across the Red River in Texas was strung to the limb of a tree and other one at Muskogee, where a negro was strung to the limb of a tree and other one at Muskogee.

As every woman loves who to take care of even her room, dust is the worst workman of all. For the housewife who keeps her floor dust is a vehicle of disease. But it has not been an easy matter heretofore to prevent dust from having its own way with floors, even with the gradual advancement of carpet and the substitution of rug and hardwood floors, for not every home can afford such floors, even if they were easy to keep clean or new-looking, as they certainly are not. Yet the solution of the dust problem is made easy by Floorglaze. With any of the ten charming shades of this easily applied and quick-drying floor finish any woman can have floors which will be as easy to keep clean and more sanitary than a painted, oiled or waxed floor.

Even to soft-wood floors Floorglaze gives a beautiful glossy surface that will show no signs of wear after years of severe service, and that can be quickly washed clean and actually against disease as well. It saves a vast amount of time, trouble and money. It is a good for outdoor use, on porch and veranda floors and steps. A little of this most useful enamel covers 500 square feet. Floorglaze is sold in tin, from a pint to a gallon in cans, by most reliable dealers in paint and oil. Limited, at Toronto, who will gladly send you a free booklet worth reading. ANGERED AT 'CENTRAL,' TEARS OUT TELEPHONE

Court, However, Does Not Consider Offense as Burglary

SAN FRANCISCO, Mar. 11.—Enraged because "central" would not give a number, Edward Hansen and Roy Hampton, two young men, tore out the telephone apparatus in a McCall street saloon and threw it bodily outside.

This resulted in a charge of burglary being preferred against them and the case came up in Judge Dunne's court to be settled. The attorney for the telephone company stated that as the young men were drunk and did not steal anything, it was asked that they be tried for burglary. Judge Dunne continued the case a month, and intimated that if at that time the damage had been made good the charge would be dropped. The district attorney agreed to this.

RUETH BRYAN DIVORCED FROM ARTIST HUSBAND

She is Given Custody of Her Children—Non-Support the Charge

LINCOLN, Neb., March 10.—A divorce was granted today to Ruth Bryan Leavitt, oldest daughter of William J. Bryan, from W. H. Leavitt, the artist, who lives abroad.

Mrs. Leavitt and her mother appeared in the court of Judge Cornish, and both alleged that Leavitt had not contributed to the support of his wife. The divorce was granted on the charge of non-support. Mrs. Leavitt obtained the custody of the two children.

Mrs. Leavitt was only 17, a self-willed girl, when Leavitt came to Lincoln to paint her father's portrait, and she fell in love with the artist, though he was much more than twice her age.

Mr. and Mrs. Bryan opposed, and Ruth wanted to wait until her eighteenth birthday, when she became her own mistress and Leavitt's bride. The pair lived in Denver for a while and then returned to Lincoln.

When Mrs. Leavitt tired of her husband's Bohemian ways, and as he failed to contribute to her support, she was forced to leave him and return home.

DEADLY ADDER DROPS ON MAN; CHARMS HIM

Snake's Head Lassoed in Time to Save Zoo Keeper's Life

NEW YORK, Mar. 11.—Opening the door of a cage in the Bronx zoological garden today, George Snyder, head keeper, was transfixed with terror as a puff adder, one of the most venomous snakes, swung from the door grating upon his arm.

The keeper stood absolutely motionless, fearing to make the slightest sound to call for aid. As he looked into the head of the adder, Snyder felt, with a new thrill of horror, that he was swiftly sinking into a hypnotic spell under the influence of the reptile's power.

Another keeper saw Snyder's peril and with a horse-hair lariat, used to snare snakes, looped the puff adder's head, swollen to three times its normal size, and in a moment had it in the cage again.

Snyder was so weakened by the terrible experience that he was relieved from duty for the day.

EVERYTHING SHE ATE SEEMED A BURDEN TO CARRY.

HAD STOMACH TROUBLE FOUR YEARS.

When your food has not been properly digested, your body has not received the nutriment it should. The exertions of the gastric juices have been confined entirely to removing the unassimilated undigested portions of food which they cannot properly digest as speedily as possible from the body, thereby only giving the blood a small percentage of nutriment with which to feed the tissues.

Burdock Blood Purifier makes pure blood, tones the stomach, and thus restores perfect health and strength to the debilitated system.

Mrs. D. A. Francisco, Rowland, D.C., writes: "I was suffering from stomach trouble of the worst kind for about four years. Everything I ate seemed a burden to carry. I always awoke in the morning with a sickening and feverish taste in my mouth and was also troubled with swellings in my hands and feet, which my physician said was due to the disordered state of my stomach. I tried everything that was procurable, and also consulted two or three physicians, but could do no relief until one of my neighbors told me of a wonderful cure by Burdock Blood Purifier. I used altogether ten bottles and am now perfectly cured. I wish to recommend Burdock Blood Purifier to anyone who may be unfortunate as I was."

By sale by all dealers.

A BRITISH WARSHIP WITHOUT FUNNELS

Expert Talks on New Power for Battleship Indefatigable.

Full Deck is Free for the Widest Range of Turret Firing—Long Experiments.

Announcements from London that the new British battleship, Indefatigable, of the Dreadnought class, would be propelled by internal combustion gas engines, and would therefore not have to carry funnels, has been given by naval officers and marine engineering authorities to mean that tests of the gas-producer engine installed on the battleship Rattler some months ago have produced satisfactory results.

While there was a tendency in some quarters to characterize the London report as more or less premature, if not exaggerated, the pronouncement of opinion indicated a belief that the British engineers had stolen a march on naval constructors of other countries in the application of at least of the gas engine as a propulsive method for large vessels.

Many considerations were involved in the decision to install gas engines on the battleship Rattler, which was driven by internal-combustion engines, but as the absence of funnels would strike the popular view, their elimination is not counted less of the advantages in such a vessel from a scientific standpoint.

Primary the absence of smokestacks to say nothing of the boiler uptakes would improve the efficiency of the ship's guns by enlarging their arc of fire. Turrets on a vessel of 18,000 tons, it was pointed out, might be in the number and without funnels might be so arranged as to admit of round fire, ten guns—two in a turret—could be discharged either broadside, in this way would be solved the problem of arrangement of all big-gun armaments so as not to interfere with machinery spaces. In addition to broadside fire, there could also be a maximum of low and steep-angle fire.

WHAT GAS-PRODUCER ENGINES ALE.

One of the foremost naval critics in this country, in discussing the Indefatigable's engine, said they would undoubtedly be of the gas-producer type, as applied on the Rattler. These engines are extremely simple and economical both as regards space and cost. They consist of a boiler-like compartment in which a gas-producer boiler above. The boiler is really nothing more than a great pot steaming with coal, burning in a basket at the interior of the boiler, or stove, air is introduced by means of a pipe leading into the bottom of the furnace. This is a small boiler attachment to the furnace, by means of which steam is produced. The air and steam working through the red hot coils gives forth a gas known as carbon monoxide. The gas is drawn into the furnace, gases forth hydrogen. This formed, the various gases are drawn into the furnace, which is a dry tank known as a washer which admits the furnace, as it is technically called the gas-producer, which then flows into a filter, where it is further relieved of tar and other elements.

Flowing next into a centrifugal pump, any remaining liquid substance is drawn from the gas, which thereupon is directed into the engine, and there converted into physical energy. The air, which has been introduced into the furnace or producer by a pipe entering the bottom, is drawn through the coil by the suction of the engine, so that gas is made only as the engine needs it.

DEFECTS OF GASOLINE ENGINES.

So far as British experiments are concerned, engines of the gas-producer type may be said to have the call on the attention of the navy, for the latter has not yet been developed by such practical tests of gas-producer engines as have been carried out on the Rattler. As regards the gasoline engine the great problem, as pointed out by a naval engineer, is not the generation of sufficient power, but the maintenance of the various parts of a low temperature. The tendency to overheating is strong, and how to combat it is a grave question. In this country, makers of gasoline engines are inclined to the belief that the best way to insure coolness of parts is the case of engines of high power in the battleships or ocean liners, is to have these parts, pistons and the like, hollow, with water passing through constantly.

A Big Lot of Fine Lawn Shirt Waists on Sale at 2 Exceptionally Special Prices, \$1.00 and \$1.25

We have just received by express about 200 Lawn Shirt Waists, all 1909 styles, which our buyer procured while in Upper Canada at about half their regular price.

They are made from fine lawn. Some have Swiss embroidered front in very dainty and neat patterns with rows of fine tucks between, some prettily trimmed with Val. insertion and Swiss embroidery, and all of them are Waists that at ordinary selling would sell at from \$1.75 to \$2.50. They all have the Gibson effect with rows of fine tucks on sleeves.

Our window display will give you a slight idea of the values, but there are so many designs that we are unable to show all the different patterns there, but on the second floor you will find a full display of these. Now that summer is near at hand and a person's supply of White Waists can never be too great, you should snatch this opportunity of securing your Spring and Summer Waists at half price.

INDIANTOWN BEGINNING

TO PREPARE FOR SPRING

Steamers Being Repaired, Repainted and Overhauled in Readiness for Starting Spring Trips.

Indiantown is beginning to show signs of activity in preparation for the coming of spring. Gangs of men are at work on all the river boats getting them in shape for the summer business, and the merchants of that end of the town are beginning to sit up and think of the business boom that strikes Indiantown when the river opens and the steamers commence to run.

The Victoria is being fitted with a new guard and is being repainted. Machinery is at work overhauling the machinery of the boats, and is ready for starting the boats to work. The river ice went out early last year, but so far there is no indication of any weakening, and it is expected that there will be several weeks before navigation commences.

FOUND TRUE BILL IN

THE DOWNIE CASE

Mr. Hazen Conducting the Prosecution

West Side Prisoners to Take Speedy Trials—Little Business Coming Before the Circuit Court.

When the circuit court resumed this morning, at 10 o'clock, standing room outside the railing, was at a premium. His honor Mr. Justice McLeod presided and presented the grand jury the case of the King vs. Herbert Downie in presenting the case His honor spoke of the recent illness of Judge Hamilton and said that he was pleased to report that His honor Judge Hamilton would be able to resume his duties before long. His honor then briefly presented the facts of the Downie case and the grand jury retired.

There are two other criminal cases on the docket but they were not presented this morning. The case against Ewing and Coles for breaking and entering Alderman Baskin's store in Carleton, will not be tried before this court, as the prisoners have selected to take the Speedy Trials.

Downie was present at the opening of the court with his counsel J. M. Price and J. MacMillan. Attorney General Hazen was present also.

D. Mullin K.C., appears for Golding who is charged with theft and E. S. Ritchie for Short, charged with assault and robbing a Chinaman.

The grand jury examined eight witnesses out of twenty-five who are to be called.

The grand jury returned to the court room at 11:50 o'clock and Foreman Wm. A. Smith announced that they found a true bill. The grand jury were discharged until Monday morning next. Downie was arraigned and pleaded not guilty.

The following jury was selected to try the case: J. M. F. Whitney, A. Wallace Emery, John P. W. Welch, John W. Hornbrook, G. F. Stephenson, Andrew McNicol, E. H. Duval, Hugh Campbell, Jas. Wilson.

James Walsh and W. O. Dunham.

In his opening address to the jury, Attorney General Hazen said it was a serious case and a peculiar one. He produced a plan of the Simms office and building and explained the situation to the jury.

He said that the person who took the money must have had an intimate knowledge of the building and the place where the money was kept. Mr. Anderson left the office at 12:35 and Wm. Grant, who entered at 12:38, saw the money in the office. At 12:40 Jeremiah McCarthy entered the building and did not see him.

At 12:42 he was not seen there by Miss Cunningham, but Herbert Yeoman saw Downie at his desk at 12:44 o'clock and later on he was found on the floor. Downie had said that Grant could have hardly got to the top of the stairs before he was choked. From 12:45 to 12:46 o'clock Downie was not seen in the office.

If Downie was strangled it must have been between 12:44 o'clock and two minutes to one.

"Did anybody choke Downie or did he steal the money himself and pretend to be unconscious?" were the words used by Premier Hazen in closing his address.

G. F. A. Anderson was the first witness called. He described the building and office and told about returning to the office shortly after one o'clock on the afternoon of the robbery. He found Downie lying on the floor. The defendant remarked that the money was all gone. He said he did not want a doctor as he was all right.

The witness told of seeing the money in envelopes and described the different sections of the office from a plan produced.

To Mr. Price, the witness said he could not remember just what kind of a day it was on the 19th of February. He had at times told the office staff where he was going when he left the office. The case was adjourned until this afternoon at 2:30 o'clock, and the judge requested the jurymen not to discuss it outside.

Game Warden Has Evidence of Three Deer Being Killed Out of Season in Kings County.

A. O. Flewelling, game warden of Kings County, arrived in the city today. Mr. Flewelling has evidence of three deer being killed in his district and as this is the close season he is taking steps to apprehend the offenders. Two of the animals were killed about ten days ago and the other at the beginning of the week. He has in his possession the heads and hides of two of the animals as evidence in the case. Shots were heard in the neighborhood and this will probably fix dates of the killing. It is expected that there will be developments in the case shortly.
