### GEN. SERRAIL AT ATHENS TO CONFER WITH CONSTANTINE

Believed Meeting Will Have Important Effect on Relations Between Greece and the Entente Powers—Russian Airmen Drop Bombs on Austrian Headquarters.

London, Feb. 20.—According to a despatch to Reuters Telegram Company, Gen. Serrail, the French commander-in-chief in the east, has gone to Athens, where an audience with King Constantine has been arranged. The greatest importance is attached to the visit, which it is believed will mark important developments in the relations between Greece and the Entente Allies.

### RECORD FOUNDRY AT MONCTON GUTTED BY FIRE YESTERDAY

Main Building Destroyed With Contents Valued at Nearly \$100,000—Portion where Munitions Being Made Untouched by Flames.

Moncton, N. B., Feb. 20.—Fire which broke out about six o'clock this evening destroyed the main Record Foundry and Machine Company building situated on Foundry street, but did not reach the munition factory or buildings being fitted up for barracks for the 145th Battalion situated on the R. F. and M. Co. premises. The fire is believed to have started in the men's wash room and it spread very rapidly in all directions. In the building destroyed were the offices, sales and shipping rooms, fitting and nickle finishing departments. The contents of the buildings, including plant, stock, patterns, etc., were valued at about \$100,000 and the damage is placed at nearly \$100,000. There were forty hands employed in the destroyed building but owing to the company having duplicate plant these employees will go to work as usual tomorrow. All finished goods in warehouses were saved which means that the company will be enabled to continue business and supply trade as usual.

The loss on building and plant which will be between fifty and a hundred thousand dollars is covered by insurance.

Rumors that the fire was of incendiary origin are discredited by the management, but just how the blaze originated is not known.

### ESCAPED SPY ARRESTED ON BROADWAY, N.Y.

Lincoln, Believed to Have Sailed for Europe, Rounded up in New York.

### U. S. WILL TURN HIM OVER TO BRITISH GOVT.

No Charge Against Him in U. S. and Authorities Not Keen for His Presence.

New York, Feb. 19.—Ignatius T. Lincoln, former member of the British parliament and self-confessed German spy, who escaped on Jan. 15 from the custody of a deputy United States marshal, was re-arrested last night in front of a Broadway restaurant. He was taken to the Raymond street jail in Brooklyn, where he had formerly been a prisoner.

Will be Handed Over to British Govt. Washington, Feb. 20.—Department of Justice officials said tonight that Ignatius T. Lincoln probably would be turned over, as soon as possible, to British agents for removal to England to face charges pending against him there. No charges are pending against him in this country and none are contemplated, but officials have not concealed their concern that he be removed from the country.

An evidence of the deep interest in the case held by officials here was seen in the fact that his escape a month ago resulted in the removal from office of Deputy Marshal Johnson who had him in charge.

### ONTARIO GOVT HOSPITAL NOT FOR CANADIAN WOUNDED ONLY

London, Feb. 20.—(Montreal Gazette Cable).—The Ontario government military hospital, which was opened by Bonar Law yesterday at Orpington, Kent, will receive all wounded soldiers, and will be of a Canadian character only as regards administration and staffing.

This point was stressed by both Hon. Dr. Fyfe, minister of education, representing the Ontario government, and Surgeon-General Jones.

The Colonial Secretary, whose reputation as a statesman has been greatly enhanced since he joined the coalition cabinet, was given a warm reception, and accompanied by Sir Geo. Perley, he was played up the carriage drive by the boy's brass band. In a short speech he referred to Germany's mistaken calculation as to the relations of the overseas dominions to Britain and the loyalty of Canada to

Czar's Forces Aim Thrust at Diarbekr and Open Road to Syria—Thirty-Fourth Division of Tenth Corps Captured and Main Turkish Army Threatened With Same Fate—Greeks Drive Back Bulgars Who Crossed Frontier—French Drive Huns Across Yser.

### GERMANS GAIN 350 METRES OF TRENCHES FROM THE BRITISH

The Germans have been operating vigorously against the British and French along the Yser Canal in Belgium, to the north of Ypres. From the British 530 metres of a position was captured and held, despite hand grenade attacks to recapture it. After a heavy bombardment the Germans attempted to cross the canal and occupy French positions, and several groups of them did succeed in making their way to a French line trench. The French, however, immediately drove them back. The British, to the south of Loos, in a lively engagement, succeeded in making an advance to the edge of a mine crater held by the Germans.

### WHOLE DIVISION OF TURKS FALL INTO RUSSIAN TRAP

Petrograd, Feb. 20, via London, Feb. 21.—The Russians are pressing the advantage gained at Erzerum on both flanks. On the right, along the Black Sea coast, by the co-operation of the sea and land forces, they are driving the Turks from one position after another to the east of Trebizond, and it is expected that active operations against that important seaport will not be long deferred.

In the last two days the Russians have occupied Widje and pressed forward ten or twelve miles westward. The Turks have retreated in succession, several sharp assaults which might have been of assistance to the Turks, and by keeping well in advance of the land forces and by destroying bridges over several streams in the path of the retreating Turks have rendered their retreat more difficult. The fleet has been working so close to the shore that the warships have been reached by rifle fire from the Turkish troops. On the other hand the ships have spread confusion in the ranks of the Turks by dropping shells among them.

On the left flank after the occupation of Koph, the Russians pushed on to Arush and Achlat, the latter on the north shore of Lake Van. From Koph to Mush, sixty miles over mountain roads, they fought several battles, and occupied Mush by storm.

### BULGARS CROSS FRONTIER AND CLASH WITH GREEK TROOPS

London, Feb. 20.—Patrols of Greeks and Bulgarians fought a sharp engagement near Doiran Thursday, after the Bulgarian patrol crossed the frontier, according to a Saloniki despatch to Reuters Telegram Company. The Bulgarians were forced to retire, leaving two men killed. One Greek soldier was wounded.

### AIR RAIDERS AGAIN VISIT COAST TOWNS OF ENGLAND

Two Men and a Boy Killed, One Marine Wounded—Damage Small—Windows of Church Shattered as Congregation Was Singing the "Te Deum."

London, Feb. 20, 8.35 p. m.—Four German seaplanes today made a raid over the east and southeast coasts of England, according to an official announcement made this evening. The total casualties are given as two men and one boy killed, and one marine wounded. Considerable material damage was done.

The official communication says: "Four German seaplanes made a raid over the east and southeast coast at noon today.

"The first raiders, two biplanes, appeared over Lowestoft at 10.55 a. m. and circled over the south side of the town for five minutes and dropped bombs. In about five minutes they rose to a great height and seemingly vanished. At 11.10 a. m. the two seaplanes were again over the town and then vanished eastward again.

In about five minutes they rose to a great height and seemingly vanished. At 11.10 a. m. the two seaplanes were again over the town and then vanished eastward again.

"Two of our aeroplanes which went up from Dover pursued the raiders, but apparently could not overtake him."

Damage Slight at Lowestoft. Lowestoft, Eng., Feb. 20.—The damage done here by the air raiders was not very serious. One bomb demolished the roof of a saw mill; another unroofed a private house; a third smashed the windows of a hotel, while a fourth smashed the windows of a church without injuring any of the worshippers.

Another bomb fell into a bedroom of a workman's house, but injured nobody. Several bombs fell into gardens and vacant lots.

Newbie a Victim. Walmer, Eng., Feb. 21, 3.25 a. m.—The raid was not over the town more than a minute. There was a momentary stoppage of the service in a church near which bombs fell. Many members of the congregation left the building, but the service was resumed and carried through.

One of the victims was a paper boy on his rounds with the Sunday's news. He was instantly killed. Another victim was a man of 29, who has not yet been identified.

Some of the bombs fell in the roadway making large holes. The whole affair was over so quickly that most of the people hardly realized what had happened. Some of the people in the church say that the building was rocked with the concussion. The explosion of the bombs was heard all over Walmer. Deal and the surrounding district but there was no panic.

A dramatic story of the narrow escape of a boat which had just taken a pilot aboard at Walmer was told by the occupants of the boat. Three bombs fell into the sea directly in the wake of the boat, causing a tremendous upheaval of the water.

### AMERICAN RED CROSS DRIVEN FROM SERBIA BY GERMANS

London, Feb. 21.—A despatch to the Havas Agency from Bucharest dated Thursday says: "The German authorities are expelling the American Red Cross mission from Serbia.

Bulgarian Ammunition Store Wrecked. London, Feb. 21.—Three Bulgarian officers and forty soldiers have been killed or wounded by the explosion of the chief ammunition store at Nish, says an Odessa despatch to the Daily Mail. Fifty Serbians, residents of the town, have been arrested charged with complicity in the affair.

### THE KEY TO SYRIA

The Turks fled southwest towards Diarbekr, the next objective of the Russian army. Once in possession of Diarbekr, it is only a day's march to Bagdad railway, the last remaining communication into Syria.

The rapid Russian offensive, beyond Erzerum, it is believed here makes it probable that the retreat of the Turkish corps operating along the Black Sea coast, and of those troops which were active in the Mush district, before the Russian occupation, will be entirely cut off and that the main Turkish army will be surrounded. This fate has already overtaken the Thirty-Fourth Division of the Tenth Corps, which was ordered from Olt to Erzerum before the fall of the fortress.

As telephonic communication between this group of Turkish forces and the garrison at Erzerum had been entirely destroyed by the Russians the Thirty-Fourth Division marched serenely into Erzerum without suspicion that the fortress was then on the point of surrender. These troops reached Erzerum from the northwest at the very moment that the Dove-Holna line of forts fell into Russian hands, and the army which they had come to assist was in full retreat. The road over which they had passed was occupied by Russian cavalry and as they were completely surrounded there was no alternative but to surrender with arms, equipment and artillery.

It is regarded as almost inevitable that the Turkish corps retiring along the Black Sea coast under the destructive fire of the Russian armies will be caught in the same sort of trap, as the Turkish right flank where the Ninth Corps is operating, the Turks find themselves in the same precarious position, since all the roads of retreat to the north are gradually falling under Russian control. The retreat of the Turkish armies everywhere is impeded by deep snow. They are without food and lack war supplies, and there seems to be little possibility of their offering even temporary resistance of any strength to the Russian advance.

### ALLIES OCCUPY ORTHONI

Athens, Feb. 17, via London, Feb. 19 (Delavay).—The ministry of the interior announces that a detachment of allied forces has occupied Orthoni, a village near Corfu. The reason for the occupation is unknown.

### AUSTRIAN "SUB" SINKS FRENCH STEAMSHIP

E. Asiatic Company Boat Captured by Germans in the Cattegat on Way to Siam from Copenhagen.

Paris, Feb. 20.—The French steamship Memphis has been sunk by an Austrian submarine off Durazzo, according to a Vienna despatch.

The French steamer Memphis was a vessel of 2,382 tons gross, built at Dundee in 1901, and owned by the Messageries Maritimes of Paris. Her port of register was Marseilles.

A German War Prize. London, Feb. 21.—A despatch to Reuters' Telegram Company from Copenhagen states that the East Asiatic Company's motor steamer Bandon, which left Copenhagen yesterday morning, was seen returning in the afternoon passing Elsinore with a German flag hoisted and escorted by a German trawler. A despatch to the Exchange Telegraph Company from Copenhagen says the Bandon was bound for Siam, with pier goods when captured in the Cattegat by a German cruiser and was taken to Swinemunde.

The steamer Bergenhus, bound from Copenhagen for Liverpool, has been taken into Stettin by an armed trawler.

Shipping records show the Bandon to be a motor vessel of 3,481 tons. She was built in Glasgow in 1909, and is of Danish registry.

The steamer Bergenhus is a small Danish vessel of 1,017 tons.

ject Monday in the House of Commons he will also make reference to the issue of a new loan which is doubtless in prospect.

It is generally thought that the rumored addition of £800,000,000 to the national debt will not cause much disturbance of the money market. Financiers and statesmen recognize that the payment of the interest, now amounting to approximately £150,000,000 annually, will involve a great strain on the national resources for the next thirty years, even if nothing is later added to the burden.

Discussing the prospects of the coming loan, the Statist asserts that the consensus of opinion among bankers is that it should either be free of the income tax altogether, or that a maximum figure for the tax should be laid down in the terms offered.

Among the general public the view prevails that the nation will unite in making a success of the government's efforts to pay its way and this feeling is strengthened by the apparent national prosperity disclosed by the estimated national revenue returns which amount for the year to about £340,000,000 pounds, or £35,000,000 more than originally expected.

Cambridge, Eng., Feb. 20.—In a speech here last night, the Right Hon. Edwin S. Montague, financial secretary to the treasury, declared that after the war the conditions under which the nation will then have to live might necessitate a complete change in its fiscal system, and a large measure of state ownership or state control of industries. These questions, the speaker said, are bound to assume tremendous importance, and both Liberals and Conservatives should preserve an open mind concerning them.

THE APPAM SEIZED BY A COURT ORDER

Washington, Feb. 20.—Attorneys for the British owners of the liner Appam, in Hampton Roads, as a prize of a German cruiser, have brought an Admiralty proceeding under the prize laws to regain possession of the ship. The British embassy had contended the ship should be returned to her owners under a provision of The Hague Convention.

OFFICERS OF THE 140TH HOLD CONFERENCE

Battalion Will Enter Field of Sports and Also Entertain Public. The officers of the 140th Battalion were entertained at lunch at Bond's yesterday by Lieut. Col. H. Boer, the officer commanding. After lunch a conference was held and matters pertaining to the welfare of the battalion discussed. The battalion is now assembling from Canada, with this idea in mind it was decided that the battalion should enter the field of sports and it will be heard from in the future in this respect as there is some excellent material. It is only necessary to say that Capt. D. C. Malcolm, medical officer, was appointed chairman of the sports committee, to ensure success. It was also decided that, in view of the kindness shown to the boys by St. John the Battalion should reciprocate in some way. A committee of which Capt. Bell is chairman was selected and it was decided to give a series of concerts to which the public will be welcomed and all they would be expected to do would be to have a good time.

BRONCHITIS COMES FROM A NEGLECTED COLD.

Bronchitis starts with a short, painful, dry cough, accompanied with rapid wheezing, and a feeling of oppression or tightness through the chest. At first the expectoration is a light color but as the trouble progresses the phlegm arising from the bronchial tubes becomes of a yellowish or greenish color, and is very often of a stringy nature. Bronchitis is usually at its worst in the morning on account of the phlegm being lodged in the bronchial tubes during the night, and it very often takes some time coughing and spitting before you can get the throat clear of the phlegm. When this happens you may be sure that if the bronchitis is not attended to immediately it will sooner or later develop into pneumonia, or some other more serious lung trouble.

The best remedy for cure the cold is DR. WOOD'S NORWAY PINE SYRUP. Mrs. Roy Conner, Greenwood, Ont., writes: "I must tell you what Dr. Wood's Norway Pine Syrup did for me. Whenever I got a cold I would be troubled with bronchitis, and sometimes I would almost choke to death. After taking two bottles of Dr. Wood's Norway Pine Syrup I was cured."

### MR. HEIDMANN'S CASE.

The case of Mr. Gustave Heidmann, private secretary to Hon. J. D. Hazen, Minister of Marine and Fisheries, is one which has excited more than a little sympathy.

The Toronto Star was the first Canadian paper to take the matter up, and it approached it in a manner characteristic of most Liberal newspapers.

In the first place it is claimed that he was born in Germany. That is true. It is also true that he came to Canada when an infant in arms, that his acquaintance with the German language is confined to a few words, and that he cannot read or write it.

The second claim is that, as secretary to the Minister of Marine and Fisheries, he has access to private and confidential papers containing information of great value to the Empire's enemies.

The Standard recognizes that if conditions were reversed, and a man of English or Canadian birth were in the service of the German government, his position would speedily be forfeited.

It has been said that a man is master of himself in all but two matters, namely, the place and circumstance of his birth.

### ANOTHER CARVELL BUBBLE.

Another of the "serious charges" made by Mr. F. B. Carvell, of Carleton county, in connection with Canadian war purchases has been exploded.

It will be remembered that Mr. Carvell was one of the most persistent clamorers of "scandal" in connection with the boots supplied to the Canadian contingents.

Mr. Carvell also had a hand in the Garland charges, and yet the evidence showed that the price paid for some of the articles supplied by Garland was less than that secured for the same article during the South African war.

### For Captains

Yes, this is the law for captains. Whichever their ships may go, To brave to the last each terror And fend to the last each blow, When the ice-beaks break through the water.

Yes, this is the law for captains. God keep them high of heart, When the cry rings out on the midnight And the straining timbers start. He made them lords of their fellows, He gave them joy of their power, Not to live in the rear and present.

Through the wind-spume and the night? While out of the heavens the thunder is rolled like drums of doom, Who would not steer to the open With all the sea for room?

**PUT STOMACH IN FINE CONDITION**  
Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore to continue this for a week.

**JOHN MARCH PASSED AWAY ON SATURDAY**

Well-Known Educational and Newspaper Correspondent Died at His Home in Hampton.

John March, veteran educationalist and journalist, died Saturday morning at his home in Hampton after a few days' illness. The news, heard with sincere regret throughout the village, will be heard with equal regret by all who knew Mr. March, and he was known to hundreds. A native of Kent, England, Mr. March came to St. John more than half a century ago, when about 22 years of age. Two other brothers came to America. One, Stephen, was a well known Baptist minister in Nova Scotia. A brother who remained in England continued in the family faith and was a prominent Episcopal divine. A third brother went to the Southern States. John March was the youngest member and last survivor of the family. After coming to St. John he was for a time employed as a teacher in the old Grammar School. Later he became identified with the press of St. John, and was for some years a writer on the News. He was a brilliant reporter, a clear and forcible writer, and retaining to the last his interest in the newspaper profession contributed to the St. John press in later years many interesting articles and reports. When the St. John school board was organized Mr. March became the first secretary, and in 1883 his duties were enlarged and he became both secretary of the board and superintendent of the schools. Later it was found advisable in view of the amount of work involved to divide the offices and the late Edward Manning became secretary, Mr. March continuing as superintendent until 1896, when he retired. For upwards of twenty-five years he served the city faithfully and won the respect and admiration of teachers and scholars. Since his retirement from active work Mr. March has made his home in Hampton, acting as local correspondent of the St. John press, a duty he discharged most conscientiously, and taking an active interest in the community life. A man of great talent, of splendid education, of fine feelings, Mr. March will ever be held in kindly remembrance by those who knew him, and particularly by those who in his official capacity came under his influence. Mr. March married Miss Elizabeth Buchanan of Penfield, who died about four years ago. Of five sons two only survive, Messrs. Ralph and Cecil, who went overseas with the 6th Mounted Rifles and are now in France as are two grandsons, sons of the late Dr. J. Edgar March and brothers of Mrs. Gordon Dickie of this city. Dr. March and his brother Ernest died a few years ago. The other son died in his infancy. Two sons survive, Messrs. Ralph and Cecil.

**HON. J. D. HAZEN'S STATEMENT CONCERNING HIS SECRETARY**

**Gustave Heidmann Came to Canada When an Infant in Arms and Has Been Loyal Canadian and Faithful Public Servant Ever Since—Has Brother Fighting With Canadian Forces in Flanders.**

The following statement by Hon. J. D. Hazen is taken from Hansard's report for February 10th, and is self-explanatory:

**PRIVATE SECRETARY GUSTAV HEIDMANN**

On the orders of the day:

Hon. J. D. Hazen (Minister of Marine and Fisheries): Mr. Speaker, I desire to refer to a subject that, I think, is of sufficient importance to justify me in asking the indulgence of the house for a few minutes. My attention has been called to an article appearing in the Ottawa Evening Journal of February 9, headed: "Germans Have Access to Confidential Papers in Ottawa," and reprinting an article contained in the Toronto Star of the same date which, among other things, says this:

"Probably the most conspicuous case on record is that of Gustav Heidmann, secretary of the Minister of Marine and Naval Service, Hon. J. D. Hazen. Mr. Heidmann was born in Germany, and no doubt has relatives fighting there. He has been a long time in Canada, and is reputed as an able and efficient secretary. His name appears on the most recent list issued from the Secretary of State's Department as having received full naturalization. He is a native of the province of Ontario, and his correspondence connected with Canadian coast defence, wireless, harbor patrol, and marine matters which come to the office of the Minister of Marine and Naval Service, it is not conceivable that Admiral von Tirpitz would be so trustful, in connection with the administration of his department."

I think it desirable that I should state the facts to the house. My secretary, Mr. Heidmann, who has been my secretary since November, 1911, was born in Germany, and, when an infant in arms, only a few weeks old, came to Canada with his parents who were dissatisfied with conditions in Germany and sought Canada with a view to making their home here and becoming citizens of this country. The father settled in Toronto, and, soon after taking up his residence there, applied to an alderman of that city for naturalization as a British subject, and received a certificate which he believed conferred upon him the rights of a British subject, but about which there may be some question as the preliminary steps were not entirely complied with. However, for over thirty-two years Mr. Heidmann's father has engaged in manufacturing business in Toronto, has voted at elections from time to time, and has taken such part in the affairs of the city as a good citizen ought to take. Mr. Heidmann, my secretary, was brought up in Toronto, educated in the common schools there, and, after having received his education, was appointed as private secretary to Mr. H. S. Strath, General Manager of the Traders' Bank of Canada, which bank, I believe, has since been amalgamated with the Bank of Canada. In 1904 Mr. Heidmann came to Ottawa as a member of the Civil Service, and was continued in the Service until 1911, being at that time assistant to the secretary of the National Transcontinental Railway Commission. In 1911, I selected Mr. Heidmann as my secretary out of a number of applicants, because I thought him eminently fit for the position. Before making that selection, I made inquiries regarding Mr. Heidmann's character and standing, from persons in the city of Toronto, who know him and his family well, in whom I had every confidence, and in

**WILLIAM D. BASKIN DIED ON SATURDAY**

Prominent West End Resident Succumbed to Paralysis—Former Member of Council.

The death of William D. Baskin, one of the most prominent citizens of West St. John, occurred Saturday morning at his residence, corner King and Ludlow streets. Mr. Baskin was in his usual good health until last Monday, when he was stricken with paralysis. He had been improving when stricken with a second attack, which resulted in his death. He is survived by three daughters, Mrs. Charles Bruce of West St. John, Miss Meida and Miss Lydia, at home, and two sons, William C., an engineer in Penticton, B. C., and Roy C., in the employ of the I.C.R. here.

Mr. Baskin was born in Sussex, Kings county, seventy-three years ago. In his earlier years he was a school teacher and, after coming to Carleton Place, resided, thirty-five years ago, was principal of the Masonic school for several years. He then entered the grocery business and built up a large trade, which he had successfully maintained ever since.

A public-spirited citizen, Mr. Baskin always took a deep interest in matters of importance to the welfare of the community, and for several years served in the common council as the alderman from Guy's ward. He served continuously from 1883 to 1892 and again in 1908 and 1909.

In religion he was a devout Methodist and during his lifetime in West St. John was an active member of the Carleton Methodist Church, at various times holding nearly all the important offices in the church and also acting as superintendent of the Sunday-school for many years.

Mr. Baskin was a keen curler and had been one of the mainstays of the Carleton Curling Club. He was also an enthusiastic golfer. He had been a member of the Masonic fraternity for many years and took a prominent part in the affairs of his lodge.

By all who knew him he was highly respected and greatly esteemed. In his death St. John loses a citizen of a fine type.

The funeral will be held today (Monday) at 2.30 from the Carleton Methodist church.

**And Her Wonderful Career.**

After her retirement from her successful appearance in opera in Vienna, Clara Louise Kellogg confined herself to concert engagements. Her debut was made as Gilda in "Rigoletto" in New York city, but her greatest success was as Marguerite in Gounod's "Faust." Clara Kellogg never grew weary of singing the old familiar songs and ballads for encores, and when she sang Gounod's "When to Thy Vision," she transported her hearers to the master's music rendered in telling the story of "two fond flow'rets on one stem united."

"When to Thy Vision" is to be found on page 475 of "Heart Songs"—that unique volume of songs and music now being almost given free to its readers by this paper. We endorse the book by our distribution, and ask our readers to look for the coupon elsewhere in today's paper.

But not content with the framing of her aphorism, she proceeded at once to build the bridge of Needwork. This was in 1883, at Nerlure, in Dorsetshire county, England, and since that time, many of these structures have united waste and want, with great and inspiring results. Lady Wolverton showed market genius in organizing her society, by making its machinery of such beautiful simplicity that it appeals to all.

We might amend this saying of Lady Wolverton by writing it, "If only a little bridge could be thrown from the island of Waste to the island of Want." Though most of the bridges in St. John these days are held for charitable purposes.

A sample of an advertisement taken from an English paper, in war time, wanted—Women (young and strong) as van porters, good wages.

A very interesting book on "Girls Work" has been published by the National Board of the Young Women's Christian Association of the United States. The book is by Gertrude E. Griffith, and gives plans and ideas for work among girls, also a list of good books for girls to read. It is only a pamphlet, but full of very good ideas.

Will we come to this?

**Fashions in Hoop Skirts.**  
(Tribune, November 6, 1856.)

The following classification of the different styles of hoops worn by our fashionable ladies, we find in one of our exchanges. It appears there are four classes, viz: Hoop-direct hoop-collusive, hoop-by-implication and hoop-oblique, in war time, no mistaking; it looks out bold and decided in all its vast circumference. The second is illustrated by a brace of wearers of the first promulgating the pavement side by side, as though colluding to crowd all other pedestrians over the curb stone into the carriage way. The third is represented by the corset skirt which, although not hoops, in the significance of the term, amount to the same thing as far as the sticking out is concerned. The fourth is a whole bone, yielding conform to a get askew in a crowd and give their wearer a lopsided look like a balloon.

**City Lovers.**  
Never the time and the place  
And the loved one all together,  
Never at the golden summer weather.  
And the golden summer weather.  
True: yet this elect-ruined street—  
Could a garden be more fair?  
Why, fool, where the loved one is  
The time and the place are there!

An Indian Babu's letter of excuse—  
"Sir—As my wife's temper is not well since last night, on account of that I am unable to attend office today kindly excuse my absence and grant me one day's casual leave."—Punch.

**Fashion Notes.**  
A new girle is made of wide ribbon or silk folded in soft plait. The lower edge has loops of narrow ribbon about an inch and a half long put on for a finish.

Still another waist finish is to have the dress skirted in a girle shape, the shirtings outlined by narrow ribbon.

Ribbon is much used and is pretty on summer dresses. Twillings and rouchings finish skirts and edge V-shaped yokes.

Birds are fashionable both in embroidery patterns and as ornaments. The blue bird cut probably started the present request for them. China birds are seen in various designs and one firm actually shows cages with artificial birds in them. We'll be back to wax flowers under glass cases next. The birds for garden-sticks are charming.

Bells and pockets are almost inevitable on all coats.

Skirts are made with four long flounces, one above the other.

Many dresses are trimmed with satin bands, sometimes graduated in size, running round the skirt.

The cape dresses are fashionable and make useful one-piece costumes for street wear.

A hip yoke of satin bands is rather new. The ribbon or satin is placed about an inch apart. These bands run round the skirt which is founced below them, ending in a wide band of the satin.

A perfectly square pocket with a diagonal flap half way to the centre, is a new touch for a shirt waist.

Slot seams with a contrasting color inserted make a good trimming for a suit.

A pretty style is the short full coat.

These short jackets will make nice coats made of plain material to be worn with a striped or plaid coat.

Punnet collars are seen on the spring suits in the Fashion books, but they are not practical for those who want a thoroughly useful suit. They will look so hot when the weather gets warmer.

Coats are to be long; coats are to be short; coats are to be loose; coats are to be tight fitting. You can take your choice. All these statements are true if we are to believe what we read.

All coats are to be made with fullness somewhere.

The new cuirass blouse is one of the military styles to be adopted. It is usually of plaid or figured material over an underblouse of plain silk. The sides of the cuirass are laced together at the hips.

The hair is worn done softly on top of the head or in a loose knot at the back. It is waved in all the pictures and jeweled combs and hairpins are in vogue.

Upon the Tableland.  
Life upon the tableland of age I thoroughly enjoy. The upland air is invigorating. Life should become more and more interesting as we grow older. Love your work and never let yourself grow listless.—Marion Marland, on her eighty-fifth birthday.

"Habit and custom have much to do with the food question. Women and girls favor salads more than does the adult man; but the schoolboy and the college youth rarely refuse them; causing us to think that not sex, but the things that mother served are responsible for our opinions."

"Men are not prone to experiment along lines of diet; not so much so as women," writes an Oregon subscriber. "They are exceedingly conservative what they eat—rather lacking in the pioneer spirit."

**Two Good Recipes for Mayonnaise**  
(By Request.)  
1-2 cup sugar, 2 teaspoonful mustard, level teaspoonful salt, pinch of red pepper, 2 heaping spoonful of flour, 3 eggs, 2 cups milk, piece of butter size of a walnut, 1 cup vinegar. Put butter on to melt in double boiler. Mix the dry things, beat eggs, mix with dry ingredients, add milk. Put in double boiler and when hot add very slowly the vinegar. If it curdles take off stove and beat briskly with egg-beater. Cook till quite thick.

**TODAY'S LITTLE JOKE.**  
Teacher (to class in arithmetic): "John goes to the store, and he buys two pounds of sugar at eight cents per pound, two dozen of eggs at forty-two cents per dozen, one pound and a quarter of flour at five cents per pound, and one and a half pounds of raisins at ten cents per pound. What does it all make?"  
Greedy boy (hugging himself with joy): "Cakes."

**Winifred Kingston, who can be seen today at the Lyric in "The Seventh Noon," was born in London and educated in Edinburgh and Falmouth, England. In her stage career in England she was with Frohman, Beerholm and played in "The Servant in the House," in America. She has reddish hair and a fair complexion. In the motion picture she played in "Brewster's Millions," "Cameo Kirby" and "The Virginian." "The Seventh Noon" is a Mutual film starring Ernest Glendinning.**

**"Poor Little Peppina" will mark Mary Pickford's first appearance on the screen since becoming a partner in the newly formed Famous Players-Lasky Company in the production of which she retains a half interest.**  
In the course of events she is forced to dress as a boy, spending many months in the heavy corset and flannel shirt of the typical Italian boy, appearing in the roles of messenger boy and bootblack.

**It is in this picture that two of Miss Pickford's long golden curls are cut off. But they were procured at the hair-dressers and carefully "planted" especially for this scene.**  
It would have made a wonderful press agent story to have related how Miss Pickford, her Italian friend, clumsily seized the wrong strands of hair and cut a real curl off by mistake and how the broken hearted Miss Pickford wept and wailed so loudly over the loss that Miss Pickford was too busy to think of that day. A real imaginative press agent would have gone on to paint the picture of the other members of the company demanding that the beautiful curls be cut and divided among them as souvenirs of the first seven-reel production in which their idol has ever appeared.

## Letters Received From His Boys and Girls

**TODAY'S LITTLE JOKE.**  
Teacher (to class in arithmetic): "John goes to the store, and he buys two pounds of sugar at eight cents per pound, two dozen of eggs at forty-two cents per dozen, one pound and a quarter of flour at five cents per pound, and one and a half pounds of raisins at ten cents per pound. What does it all make?"  
Greedy boy (hugging himself with joy): "Cakes."

**EXTRACTS FROM THE MAIL BAG.**  
Write Again Soon, Nelson.  
Dear Uncle Dick,  
This is my first letter to you. I am sending you a teapot drawing. I hope you will like it. From one of my nine year old kiddies.

**NELSON KAYE.**  
A Boy Scout's Letter.  
Dear Uncle Dick,  
I have been an interested reader of the "Children's Corner" for about a year. I would like to join the "Corner" if there is room. I am sending in my answer to the sum contest. I am a Boy Scout and would like to correspond to other scouts.

**Go On Writing, Ida.**  
Anagnone, N. B.  
Dear Uncle Dick,  
I thought I would write you a letter as this is about the last time I can write as I shall be sixteen the twenty-fifth of this month, but I shall read your page and enjoy it just the same. With best wishes to you and to all my cousins.  
I remain,  
Your loving niece,  
IDA BERNICE GODARD.

**Tried Hard in Contest.**  
Newcastle, N. B.  
Dear Uncle Dick,  
I am sending you an answer to the sum contest in The Standard today. I hope it is correct and that I may get a prize.  
Your niece,  
MARJORY LINDON.

**Enjoy's Corner.**  
Evandale.  
Dear Uncle Dick,  
I have been reading The Standard for some time and enjoyed the "Children's Corner" very much, so I thought I would join.  
Your niece,  
ALMA PRICE.

**Another Member.**  
Middle Sackville.  
Dear Uncle Dick,  
Can I come into the Corner once more, I did not enter the other contests as most of them were map drawing and writing and as I cannot do either very good thought it was no use trying. Mother has been sick a long time and is just getting better. I am doing the division question contest. I think I will close now.  
Goodbye.  
From your nephew,  
DONALD.

**Glad to Have New Member.**  
61 Clarendon St., St. John, N. B.  
Dear Uncle Dick—  
Just a few lines to let you know, I find the Children's Corner very interesting. And I am going to ask you for permission to become a member of the corner, and wishing the corner every success.  
From your loving friend,  
MARY WALSH.

## Who's Who and What's What in the Picture Game and on the Stage --- Film Favorites and What They Say and Do.

Winifred Kingston, who can be seen today at the Lyric in "The Seventh Noon," was born in London and educated in Edinburgh and Falmouth, England. In her stage career in England she was with Frohman, Beerholm and played in "The Servant in the House," in America. She has reddish hair and a fair complexion. In the motion picture she played in "Brewster's Millions," "Cameo Kirby" and "The Virginian." "The Seventh Noon" is a Mutual film starring Ernest Glendinning.

**"Poor Little Peppina" will mark Mary Pickford's first appearance on the screen since becoming a partner in the newly formed Famous Players-Lasky Company in the production of which she retains a half interest.**  
In the course of events she is forced to dress as a boy, spending many months in the heavy corset and flannel shirt of the typical Italian boy, appearing in the roles of messenger boy and bootblack.

**It is in this picture that two of Miss Pickford's long golden curls are cut off. But they were procured at the hair-dressers and carefully "planted" especially for this scene.**  
It would have made a wonderful press agent story to have related how Miss Pickford, her Italian friend, clumsily seized the wrong strands of hair and cut a real curl off by mistake and how the broken hearted Miss Pickford wept and wailed so loudly over the loss that Miss Pickford was too busy to think of that day. A real imaginative press agent would have gone on to paint the picture of the other members of the company demanding that the beautiful curls be cut and divided among them as souvenirs of the first seven-reel production in which their idol has ever appeared.

**But nothing of the sort occurred.** Miss Pickford was far too careful for that. She knows that her remarkable mass of hair is one of the things which have brought her fame and fortune. As a matter of fact the Pickford curls were very carefully enumerated and identified for the edification of the young man who wielded the scissors to make sure that he did not err.

**Despite these precautions, the careful observer will see just a suggestion of terror fit across the expressive features of the little star as she hears do their work. Is it acting, or is it real fear? No one but Miss Pickford will ever know.**

**Beverly Bayne, the gifted Metro star, who has been voted the most popular motion picture actress in America in numerous contests, has again been honored in a state-wide contest conducted by the Minneapolis Journal, one of the foremost dailies of the Northwest. Miss Bayne led her nearest competitor in the contest by an enormous plurality.**

**The Young-Adams Company repeated their success in "The Girl Raffles," on Saturday in two performances. At the matinee a children's contest took place after the evening show and an old-fashioned grocery store was held. It was a very amusing affair, those who held coupons drawing some most unexpected gifts. For the farewell week of this company four plays are promised.**

**Alexander Guden became a member of the Gaumont (Mutual) company of Mutual Master-pictures. De Luxe Edition, players after a long and tried career on the legitimate, stock and in motion picture. He had played over 500 parts in the best plays produced in this country. His first appearance in Mutual Master-pictures was in "A Woman Sows," which was followed by "The Drifter," with Lucille LaVerne.**

**Alice John, who plays "Norah" in the company of "Twin Beds," which will be in St. John later, has been called by one of the Philadelphia critics a heroine of forty victories—a generous tribute to her versatility, to say nothing of her patience.**

**"When you tell the story of Universal City, you tell pretty much everything about the motion pictures." Thus Julian Hawthorne, son of Nathaniel Hawthorne, the famous novelist and himself a noted author who has given to the world more than thirty novels, remarked after a day of sight-seeing at the picture city. "There's a curious analogy about this and the world in general," Hawthorne went on, "everything is concentrated and you see life in every possible form. You see the materials prepared for the productions, so many of which are in progress at one time, and you see men of ability directing and expert cinematographers filming these productions. By the time you get through with your day the complete story of the motion picture has been told."**

**Mae Murray, who appears in Lasky films was formerly a Famous "Polles" principal and the original "Neil Brinkley" of the country. His first appearance in a picture was in "The Girl in the Red Velvet Gown," which was followed by "The Drifter," with Lucille LaVerne.**

**Lionel Barrymore, the Columbia-Metro star, weighed 260 pounds when he first went into motion pictures, two years ago. Now he tips the beam at 140. Asked how he lost so much weight, he replied with a laugh: "Getting up early mornings." He is star-**

red in "A Yellow Streak," a five-part Metro feature.

While playing in the role of bareback rider in William C. Dowlan's production of "Lavinia Comes Home," Marcia Moore, one of the best known ingenues at Universal City last week was thrown from horse and narrowly escaped serious injuries.

**In a thousand word wire sent from the Oliver Morosco studios to their publicity agents is given some idea as to the royalties Mr. George Broadhurst received from his plays and the tremendous figure which this company paid for the right to all of Mr. Broadhurst's plays. The wire reads in part: "As illustrating the importance of this acquisition, we would inform you that Mr. Broadhurst's royalties amount to more than \$150,000 per year and that several other leading companies were bidding very high for his association with them. The check which passed to Mr. Broadhurst today was undoubtedly the largest check ever passed to any author for his services."**

**Florence Reed, seen here in "Her Own Way," at the Imperial, was married to Malcolm Williams following a friendship lasting since 1905. Miss Reed was last seen on the stage in "The Yellow Ticket," and "Kick In." Mr. Williams supported Leo Ditrichstein in "The Phantom Rival."**

**A Lesson in Obedience.**  
Teacher—Willie, if you found ten cents, and your sister was with you, what would be the proper thing to do?  
Willie—Take her to the movies!

**Director Herbert Brenon marshalled ten thousand persons in the slave market and Moorish city scenes for the new Annette Kellerman picture now under production for William Fox in Jamaica.**

**These scenes are included in the million dollar spectacle, upon which work has been proceeding since the middle of last August, and which is now more than half completed.**

**The production to date is said to have cost over \$700,000, and the total cost is expected to reach about \$1,100,000, according to the Fox office.**

**The Moorish city set, built at a cost of \$200,000, will show the slave market and bazaars with thousands of men and women attired in elaborate Oriental costumes. Several thousands of these are of Indian negroes, others were Hindus, and still others native Jamaicans totally unused to being "shot" by motion picture cameras.**

**In the direction of these scenes, Brenon would be an horseback one moment, afoot in the midst of the mob the next, or the next moment would give his orders from a balcony or perched on the shoulders of native blacks.**

**The completed picture will be ready for release some time in June.**

**William Russell, who appeared as the star in the Mutual Master-pictures, De Luxe Edition, entitled "The Thoroughbred," insists that the horse "Babe," which he rides, has the "camera temperament."**

**The other day Russell finished a dash of about fifty feet and pulled "Babe" up in front of the camera. The watchers noted that "Babe" was heaving and glistening as much as if she had really traveled the distance she was supposed to go in the story. Russell declares that the horse never acts like that unless the camera crank is being turned.**

**players have been promised. James K. Hackett and Miss Viola Allen have already opened at the Criterion, New York, in a lavish production of Macbeth. Sir Johnston Forbes-Robertson will give American audiences another opportunity to enjoy his Hamlet, Miss Margaret Anglin and William Faversham have taken steps to present Shakespeare together for a limited period. In March Sir Herbert Tree will begin an engagement at the New Amsterdam in a series of Shakespearean characters not usually included in the average repertoire.**

**Everyone who ever cared for a minstrel performance will remember "Happy Cal" Wagner. For years he was a minstrel show in himself. His jokes, his songs and his mimicry will ever be remembered. The veteran died in Syracuse on Jan. 27, having reached the age of 78. He was one of the charter members of the Chicago Lodge of Elks and a thirty-second degree Mason. He served with Primrose and West, Primrose and Dockstead, the Billy Emerson Minstrels and the Cleveland Minstrels.**

**Twenty-five of the colored societies, representing about eight thousand members, have announced that they will join in the celebration of the Shakespeare Tercentenary. The music at one performance will be a chorus of two hundred mixed voices singing Shakespeare songs and an orchestra will play the incidental music for Othello, written for Beerholm Tree's London production of the play by Coleridge-Taylor, the colored composer.**

**A queer little sidlight from the war is the fact that the burnt cork used by minstrel shows was supplied by Germany and this carbon burnt cork is not available just now. It was used to the profession as being easily put on and off while the old fashioned burnt cork, soaked in kerosene and charred to a powder by a flame takes time to both put on and remove.**

**CURTAIN FLASHES.**  
Sessue Hayakawa, the world's most noted Japanese photoplay actor, has named his dog after the Japanese god of destruction. If his pup is anything like ours, he lives up to his name.

**Madame Calve is playing an engagement in Pittsburgh this week at the Davis Theatre.**

**Elsie Janis is going to entertain the national legislators in Washington. She is the headliner at Keith's Theatre.**

**Heien Ware is another star who left Keith vaudeville temporarily, who will return in the very near future.**

**Mrs. Langtry, who is making her farewell tour, occupies first place on the bill at Keith's this week in Philadelphia.**

**William Farnum is fond of an outdoor life and besides his handsome, town house on Riverside Drive, has a beautiful country estate at Star Harbor, Long Island. Near Bucksport, Maine, Mr. Farnum owns a hunting lodge which is decorated with trophies of his skill with the rifle.**

**Out in the West Dustin Farnum has acquired a new title. He is known as the Gibraltar of matinee idols. The name was not assigned to him by a press agent, but by a female writer of the society columns of a "Frisco" paper.**

**Sir Johnston Forbes-Robertson came to America for the first time with Mary Anderson, appearing at the State Theatre, New York, October 1885, at Orlando.**

**Following her triumphant screen days in "The Tongues of Men," the Oliver Morosco photo-play recently released on the Paramount programme, Constance Collier has commenced work on her second production for this company, "The Code of Marcia Gray," especially written for her by Frank Lloyd, the well-known Morosco director.**

**Alice Brady has written "The Woman Rebel." It is a anti-feminist picture. Help!**

**Jolly May Irwin occupies the Shubert Theatre, St. Louis.**

**The Actors' Fund realized over \$20,000 net from its benefit at the Forty-fourth Street Theatre, New York, last Friday. All the leading stars twinkled and the motion picture actors were there in full force.**

## TRADING ON SMALL SCALE AND WHOLLY PROFESSIONAL IN CHARACTER

### Public Interest Lacking Owing to Approaching Holiday and International Situation—Sterling Exchange Shows Sudden Strength.

New York, Feb. 19.—The market was irregular again today on a diminishing scale of operations. Trading was wholly professional, next week's holiday and the complex international situation causing a complete elimination of public interest. Metal shares continued to dominate the list, American Smelting leading with an extreme gain with three points, while Utah and China scored the highest quotations in their history. There was further activity in American Zinc and Butte and Superior, while tobacco, fertilizers, Mercantile Marine preferred and some of the war issues were higher by one to three points.

A few special shares, including American Coal Products, and Pittsburgh Coal common and preferred, rose three to four points, and Bethlehem Steel responded to the company's policy of expansion by an advance of 10 3/4 to 47 1/2. Rails and motors were under moderate restraint, but other leaders, notably United States Steel, held around the previous day's final figure.

Some of the early gains underwent moderate reductions in the later dealing, when active selling of copper and Crucible Steel caused recessions elsewhere. Total sales amounted to 252,000 shares.

Sudden strength of sterling exchange was attributed to the recent purchase of \$23,000,000 of United States Steel bonds, which probably called for the purchase of bills on London to that amount. France also hardened, but Italian exchange weakened.

Mercantile agencies reported "unparalleled conditions" in various lines of commerce here, and at other centers of business distribution advances in fabricated steel continue, and various articles of apparel are quoted at higher prices. Railway traffic is steadily increasing, with complaints of car shortages.

The bank statement reflected some of the new financing and underwriting of the week, the actual cash loss aggregating about \$17,250,000, with a contraction of almost as much in reserves.

Bonds rule steady in today's market. Total sales, par value, aggregated 1,645,000.

United States coupons 2's advanced one-quarter, the coupon 4's one-half and Panama 2's and 3's a point on call during the week. United States registered 3's declined one-eighth and coupon 4's one-quarter.

## ITALIAN FORT HIGH UP ON CADORE FRONT

THE PICTURE SHOWS ITALIAN ARTILLERYMEN TAKING A REST "SOMEWHERE IN CADORE." STICKS AND BOUGHS OF TREES ARE SCATTERED OVER THIS FORT TO BREAK THE STRETCH OF GRAY WHITE, SO THAT IN THE DISTANCE IT MAY BE MISTAKEN FOR THE DOLOMITE ROCK, SUCH AS IS SEEN IN THE BACKGROUND OF THE PICTURE, WHERE THE WOOD HAS BEEN CLEARED TO MAKE A ROAD ABOVE THE GUNS.

Special to The Standard  
Fredericton, Feb. 20.—After a week's illness Mrs. Emily Gertrude Weaver, wife of Dr. W. J. Weaver, passed away at her home on Queen street, about ten o'clock on Saturday evening from pneumonia, complicated with heart trouble.

## CLOSING LETTER OF N. Y. MARKET BY E. & C. RANDOLPH

(McDOUGALL & COWANS.)

New York, Feb. 19.—Strength and activity in the Copper shares was the feature of today's short session. Mercantile Pfd. certificates and Mexican Petroleum stock also showed good gains. Crucible Steel sold up but lost good part of advance before the close. Edward Steinhilber, the Morgan partner, who has charge of the New York business placed by the firm for the British government sailed for England at noon today. This will likely be taken by the market as an indication that there is to be a resumption of placing war orders in this country. Earnings of the Central Leather Co., showing more than 10 per cent for the past year, and earnings at rate of over 21 per cent on the common stock in the last quarter of the year, furnished another example of the cumulative improvement in business that took place last year, and holds out excellent prospects for the current year. The market is still a professional affair, and little trading is done outside of the specialties. There is good basis in the present price of copper, and the prospects for increased dividends, for a movement in copper stocks.

It is yet to be seen, however, whether the public will respond to the operations which have recently been undertaken in these shares and make it possible to create activity in general market. The foreign situation is a restraining influence and irregularity in the market is likely to be seen for a time yet.

Some profit-taking, particularly in Am. Zinc, was in evidence in the market today. Sales 264,428. Bonds \$1,646,000.

## WILLARD IN BED, BOUT WITH MORAN MAY BE FURTHER POSTPONED

Chicago, Feb. 20.—Joe Willard was ordered to bed by his physicians today, and according to information given out later he may not be able to fight Frank Moran at Madison Square Garden in New York on March 5, to which date their meeting was postponed on account of the condition of the heavyweight champion.

Willard suffered a relapse on Saturday, it was said, and while physicians do not consider his illness serious they believe it were wise for him to remain in bed until he is well enough to resume light training. How long that may be the medical attendants do not say.

## WOMEN SHOOTERS ARE PROFICIENT AT TARGET

MISS M. HYLAND. MISS JESSIE THORPE. MRS. F. RODGERS. MISS M. L. BOLES.  
Following the organization of the De Nemours Gun Club, of Wilmington, Del., the first of the women's gun clubs, two years ago, it was predicted that within a few years every club worth while would be called upon to provide for women shooters, and the prediction has come true. Few gun clubs are complete now unless there are quarters for the fair Dianas. In some places the women form their own clubs and conduct them separately, but in many places they are conducted in conjunction with the men's trapping club. There are several women's gun clubs in the 350 organizations in Canada, and the women of Wilmington, Chicago, New York, Youngstown and Minneapolis have organizations that do credit to those cities. In Spokane, Wash., the fair shooters have formed a women's auxiliary to the Spokane Gun Club. Some of the fair Dianas who have performed creditably at the traps during the last year are Miss Jessie Thorpe, of Mount Vernon, N. Y., and Mrs. F. F. Rodgers, Miss M. Hyland and Miss M. L. Boles, of the White Plains (N. Y.) Gun Club.

### French Report

Paris, Feb. 20, via London.—The following official communication was issued by the war office tonight:  
"In Belgium, after a violent bombardment of our positions, the Germans attempted to cross the Yser Canal at Steenstraete. Several enemy groups were able to make their way as far as our first line trench, from which they were immediately driven back.  
"In Champagne our artillery shelled the enemy organizations to the north of Talmure and to the east of Navarin.  
"In the Artois we exploded, at Vanquols, two mines which shattered the enemy works. Between the Meuse and the Moselle our batteries bombarded the enemy establishments in the direction of Etain and St. Hilaire, causing several fires and a very violent explosion.  
"To the south of St. Mihiel a destructive fire was carried out against the German works to the west of the forest of Apremont.  
"A hostile aeroplane dropped several bombs on Dunkirk without causing damage. Another German machine last night dropped two projectiles which fell in a meadow to the south of Luneville."

**Around the City**

**Officers On Leave**  
Word was received in the city last night by cable that Major Jack McKenzie, Capt. Alexander McWilliam and Capt. George Kneffe were in England spending a few days' leave.

**Soldiers Being Returned.**  
Four members of the 6th, who were said by Col. Daneserou to have "taken a few holidays," were held up by St. John Agent H. B. Woods of Walsford yesterday. They claimed to be trying to get back to Saint John. Mr. Woods notified the military authorities here and arrangements are being made to bring them to the city.

**Injured at Sand Point.**  
W. Gordon, of Protection street, West side, met with a bad accident last night about 10:30 when he had his left leg broken below the knee while at work on one of the steamers in port. He was taken to the emergency hospital where the leg was set by Dr. Kenney, after which he was conveyed to his home.

**Attempted Suicide**  
Frank Holt was taken into custody on Friday evening, charged with an attempt at doing away with himself by cutting the back of his hands with a razor. The young man is somewhat demented at times and from what can be learned it was while in this condition that the attempt was made. He was found in bed when arrested. He was remanded.

**Soldiers Plan Athletic Show**  
The boys of the Siege Battery are planning on a big military athletic night in the near future in one of the local amusement houses. There will be two big wrestling matches, a tug of war between picked teams from the Siege Battery and the 11th Battalion, also boxing by several clever lads in line, and a bout between Guinness O'Leary of the Siege Battery and Harry Harley of the north end. The net proceeds will go to the fund for returned soldiers.

**ACTIVITIES OF LOCAL POLICE**

**Six Arrests Saturday and Yesterday — Disorderly House Raided — A Horse's Close Call.**

Six arrests was the result of the police activities yesterday and Saturday.

On Saturday night, about nine o'clock, a horse belonging to Adam Shand ran away on Prince William street. It ran out on the treatise work at the foot of the street about 150 feet before it was brought back. Detectives Barrett and Briggs and Officer Armstrong procured blanks and ropes and after considerable trouble got the animal back on the street again, not much the worse for the experience it had gone through. As far as could be ascertained a few scratches was the only damage received. The wonder is that the animal got so far out on the treatise before going through and the slight damage resulting.

Detective Barrett and Officer Hopkins made a call at 64 Waterloo street Saturday and took to the central police station four women and three soldiers whom they found there. It is understood some of the women are married. They also found in the house four children, ranging in age from four to thirteen. A charge of keeping a disorderly house has been lodged against Head Thompson, the occupant of the house.

Victoria "Wet Wash" Laundry is the best—they clean the clothes thoroughly. 5 to 10 Pitt street. Phone 890.

**120 YOUNG MEN SIGNED TOTAL ABSTINENCE PLEDGE AT TENNYSON SMITH'S MEETING**

**Remarkable Temperance Address in the Imperial.**

**Speaker Paid Particular Attention to Men Who Sell or Procure Liquor for Soldiers.**

There was a large audience in the Imperial Theatre, yesterday afternoon, to hear E. Tennyson Smith, of Birmingham, England, deliver a temperance address under the auspices of the anti-temperance campaign committee.

That the world-renowned opponent of the liquor traffic, who visited St. John about ten years ago, has retained his natural gifts as an earnest speaker was fully evident yesterday, and one result of his address was the taking of the pledge of total abstinence by no less than 120 soldiers, besides a good number of civilians. A musical program formed part of the proceedings, Mrs. Tennyson Smith taking solo parts. Magistrate Ritchie presided and gave an interesting address towards the close, during the course of which he read a letter from Lord, Governor Wood expressing regret that he could not be present and stating that he was heartily in favor of the objects of the meeting.

The speaker possesses a remarkable facility for thrilling an audience and moving them to laughter or tears as he graphically relates stirring incidents or tells, in his inimitable way, some humorous story. Throughout his address, yesterday, a notable feature was his advocacy of the power of the gospel as a remedy for the drunkard. His dramatic methods have formed the subject for much criticism in times past, but there is an earnestness of purpose that can admit of no doubts regarding the power of the speaker to exercise a lasting influence for good on his hearers.

Mr. Smith began his address by apologizing to the liquor sellers for the strong language he used against them when he last visited the city. "This is my apology," he said, "I apologize to you for the reason that I did not make it hotter for you then." After referring to the general indifference shown in many instances respecting the drink traffic and its effects the speaker gave several examples of the great evil of intemperance and spoke of receiving scores of letters which he had preserved, all bearing witness to the havoc that had been wrought by the use of alcoholic beverages. At times humorous, then pathetic, then intensely dramatic, the speaker moved his audience as few men could do.

"Oh the depravity of this traffic," he remarked, "it demoralizes the soldier. The man who will do anything to make the soldier drunk is the meanest, most contemptible creeping thing that could exist. It is this liquor business that has caused all misery and crime; it has ever been a hindrance to all good work. It is a deplorable, damnable business, and is getting worse and worse. Some will say: 'But what will the poor saloon keeper do if his place is shut up?' Let him go and work, I say."

Mr. Smith spoke of the comedy of the drunkard's methods. "I have been compelled to laugh at some of the incidents associated with the drunkard's sad life. But behind this comedy you will always find tragedy, such tragedy as makes one's heart bleed. See the wrecked homes, the misery and grief induced by the drink evil. Some of you may say, 'Oh, I can give up drink at any moment I like.' You can, and there are thousands of people who would give their right hand if they could recede the one false step when they fall for drink, fall after entertaining the idea that they could remain at moderate drinkers. Every drunkard has started out with the notion of being a moderate drinker."

Appealing to the soldiers present the speaker said: "You have made great sacrifices, and whenever I see a man in khaki I feel as though I would like to take off my hat to him. Those of you who have not already done so, I ask to give up the use of alcoholic liquor. For your own sake and that of your country, give up drink. Stand not so shyly and unselfishly I ask you to sign the pledge which I hold in my hand. You will never regret it and may God bless you."

The proceedings ended by the singing of the National Anthem.

**HELD ANNUAL SERVICE FOR K. P. LODGES**

**Pythians and Their Friends Attended Devine Worship in Main Street Church.**

The large auditorium of the Main street Baptist church was filled with members of the K. P. Lodges and their friends, yesterday afternoon, when they held their 62nd anniversary service. The service was conducted by the Rev. David Hutchinson, assisted by the Rev. D. J. MacParson.

About three hundred members of the order were present and the offering, which amounted to over two hundred dollars, was for the Protestant Orphan Home. The order of service was as follows: Organ prelude, National Anthem, invocation, hymn, "O'ward Christian Soldiers," scripture reading, Rev. D. J. MacParson; duet, "Hail to the Lord's Anointed," Ernest Bowman and Walter Pigeon; prayer, Rev. D. J. MacParson; hymn, "Praise the Lord," offertory; anthem, "The Radiant Morn'g," the choir; sermon, Rev. David Hutchinson; hymn, "Blest Be the Tie that Binds"; benediction, organ postlude.

The speaker, Rev. Dr. Hutchinson, based his remarks on Matthew 7:3: "And by their fruits ye shall know them." His subject was "The Infalible Test." This test could be applied to many things. Christ was not a moral fruit was the man producing. As it was impossible for a tree to be misjudged by the fruit it bore so it was with a man's life. His thoughts, actions, habits were the fruit of the life he lived. What was the good judged. So with secret societies and organizations of all kinds. Among certain people there existed a strong prejudice against secret societies and without taking the trouble to find out anything about their aims or the work they were doing, condemned them. Before saying that they should be put out of existence it was only fair to ask what are their aims, what are they seeking to do, what is their object in life, what is their object in the community? This order is today celebrating its 62nd anniversary, in that time what fruit has it brought forth? Has it practiced love, charity, friendship, has it visited the sick, cared for the dying, lovingly cherished the memory of the departed, taken care of the widow and orphans of deceased brothers? There is no question but what it has borne this kind of fruit and therefore judged by the test, it is a good tree. He closed with an exhortation to the brothers to be true to the order, to support it, to hold up the hands of the officers, and to attend the meetings as regularly as possible.

There until every single young man in the city had enlisted. It would take 17 years at the present rate of enlistment to raise the men promised by Canada. He wished the government would put conscription in force. He referred to the men who are supplying soldiers with liquor and said he would like to get hold of some of them. He wanted St. John to be a good tree. He closed with a record and hoped the people would wake up.

**Tennyson Smith.**  
Tennyson Smith was the next speaker. He said this was a serious business. He had always been an advocate of temperance and abstinence but he believed that this was a war to end all wars. He believed that there would be a concord of nations to police the world and any nation misbehaving would be used the same as offenders against the civil law. Great Britain had the evidence to show that she did not seek this war, it was forced upon her. He had nothing to say against Germans as individuals but as a nation he wished the government would put conscription in force. He referred to the men who are supplying soldiers with liquor and said he would like to get hold of some of them. He wanted St. John to be a good tree. He closed with a record and hoped the people would wake up.

**Sergt. Knight.**  
Sergt. Knight was the next speaker. He said he supposed that if some of the young men had known he was going to speak they would have stayed away and told of some rooms on Thursday night and asking if Sergt. Knight was there. On being told that he was out of town they said they would come in. He had something to say that was not very nice but it was true, therefore he was going to say it. "St. John is quitting," Tuesday 14, Wednesday 6, Thursday 3 and Friday and Saturday not a man had been signed. The week before Westmorland had four times as many recruits as St. John. Was that a record to be proud of? He had been in Moncton and every soldier who brought in a recruit got a day off. Why not try something like that here? He believed that nothing could take the place of the personal touch. He had been working now for some time and had had some funny experiences. There was a class of young men in St. John who were not doing their duty, it was the "so-called better class." He had called on one another last week at the request of her two boys. This mother had lost her husband when the boys were small and she had worked hard to bring them up and he could understand a woman in that position wanting to hold on to her boys, but the answer he got from her after telling of the need for men was "take them." There were mothers in this city holding on to their boys. He told of one woman who said she was praying for the success of the Allies and he answered that prayer was all very well, but what was she giving. They were the boys of these sons and none of them had as yet offered themselves. He referred to one man who came to the recruiting room, a father of nine children, and offered to go if the government would advance to his family \$12 per week. The question was what he was earning. The answer told the man to go home and stay central.
