Three base hits, Burns, Young. Two base hits, Burns, R. Meusel, Young, E. Meusel. Sacrifice hit, Pipp. Sacrifice fly, Bancroft. Stolen bases, E. Meusel, Frisch, Burns. Double plays, Ward to Pipp, Quinn, Peck to Pipp. Bases on balls of Shawkey 4, off Toney 2, off Barnes 2, off Quinn 3, off Collins 1. Struck out by Toney 1, by Barnes 7, by Quinn 2, by Rogers 1. Hit by pitched ball, McNally, (Barnes). Left on bases, Yankees 5, Giants 10. Wild pitch 2. Umpire, Quigley behind the plate, Chill at first, Rigler at second and Moriarty at third.

Special to The Standard. (By Daniel). New York, Oct. 7.—Giants they truly were today—Giants in the devastating, unmercenary spirit, determination and gameness, colossal in the defensive quality which came with the retirement of Fred Toney and the entry of Jess Burman in the third inning. It was the inevitable that tidal wave of hits and tallies which carried the Giants to an eight-run lead in the seventh round, and crushed the Yankees for the day. It was the inevitable, after two days of pent-up fury and disappointment, and the Yankees faced the raging flood of defeat like the stalwart, stout-hearted boat which they are.

Shawkey Hammered. Two days of undeveloped potentialities, two days of unguessed, self-renewal and utter helplessness and then, breaking in like fire, it was with Berserker madness that the McGraw combination sent Bob Shawkey into retreat in their glorious comeback in the third inning, drove both Jack Quinn and Rip Collins from the mound in that scabbing record-breaking seventh, and piled hit upon hit against Tom Rogers in the eighth. It was a hit-crazy, run-thirsty, rip-roaring, rumpusous lot of Giants who gathered around the Giants today and the lead in scoring by a margin of two over the twice triumphant American leaguers. The veterans, George Burns, Frank Snyder, Ed. Meusel, Young, Frisch, even Barnes himself, with Johnny Rawlings, all took a part in the slaughter of Yankee pitcher.

New Hit Record. Never before had a team gathered so many hits drives in a battle for the world title. That was one record by a margin of something like five hits. Never before had a club made eight runs in one inning in the baseball classic. Never before had a player performed the feat of Ross Young, who cracked out a double and triple in one round. And only once before had a team collected thirteen runs. That mark was set in the series of 1911 and, strangely enough, against the very club which tied it yesterday. It was 8 to 3 when the Athletics defeated the Giants in the final game in Philadelphia and took the title by four games to two and after the Giants had won the opening contest. Thirteen runs of the Giants today and the lead in scoring by a margin of two over the twice triumphant American leaguers. The veterans, George Burns, Frank Snyder, Ed. Meusel, Young, Frisch, even Barnes himself, with Johnny Rawlings, all took a part in the slaughter of Yankee pitcher.

Burns The Hero. To Burns, who had been in many another fight for the world title, went the leading honors with the champions, a triple in the fourth inning, then two singles, and finally a double-four hits for seven bases and a steal of second thrown in, made a grand showing of the great center fielder. His was a glory well deserved and widely acclaimed for when the popularity of ball players is appreciated none will find greater favor than this quiet, gentlemanly, efficient master of grace on defense and drive attack. Snyder was an invincible who failed to hit only once. Four times he drove the ball out of reach of the Yankees and four times his hits were singles. Then there was Meusel with two singles and a double, Rawlings and Barnes with two hits each, and last but not least the overcasted Frisch who had a perfect day with the bat. The fourthman slash got two singles and three passes. The Yankee pitchers did seem to be inclined to pitch to the hitting hero of the Giants. He (See also page 7)

### LIBERAL LEADER UNABLE TO FIND CANDIDATES

Meeting With Difficulty in Securing Men to Enter Field in His Cause. CRERAR HAS FEW OUTSIDE OF WEST Perceptible Swing to Gov't Most Discouraging to Leader of Opposition. Special to The Standard. Ottawa, Ont., Oct. 7.—Polling day has been announced for Tuesday, December 6th, with nominations on November 22nd. This is in line with the government's desire for a campaign as lengthy as possible, its feeling being that under a campaign of education its policies will steadily gain in public support. Already it is believed there has been a perceptible swing toward the government throughout all of the provinces. Even in Quebec, which many ministerialists believed to be a forlorn hope, predictions are now being made that the government will carry twenty seats.

Oppositions Lost. A significant feature of the contest thus far is the slowness of both oppositions in getting candidates. While the government has ninety per cent. of the candidates already in the field, the Liberal Party has only a few candidates outside of the West, and the rural ratings in Ontario. Thus far, he has not a single standard bearer in British Columbia, none in Quebec, no more than one or two in the Maritime Provinces and not one representative in a single city in the whole Dominion. His appeal, so far as candidates are concerned, is thus far to the farmers alone.

Mr. King, strangely enough, is not much better off. Not expecting an election, although clamoring for one, this announcement of a contest caught him utterly unprepared and the indications are that he is having the utmost difficulty in getting men into the field. This is particularly true of Ontario, where the declamatory ranks of his party find themselves without leadership and are endeavoring to bargain with the farmers as to which party should contest this riding and that.

Mr. King, however, according to all reports, intends concentrating his campaign in the Maritime Provinces and in Quebec. His attempt to abandon his low tariff platform in the East has practically made it impossible for him to face the West and as he cannot get to British Columbia without passing through the Prairies and does not hope for more than half a dozen seats in Ontario, he will likely confine his fight to east of the Ottawa river.

NOTICE TO PUBLIC The unavoidable delay in the transfer and re-organization of The Standard has made it impossible to issue a newspaper of the quality the new owners have in mind. The Standard asks the indulgence of its patrons until such time as the re-organization is completed and news service re-established, when it is expected to have a new sheet second to none in the maritime provinces.

### PREMIER MEIGHEN GETS INTO PERSONAL TOUCH WITH THE MINERS AND THEIR WORK

#### DEMONSTRATION AWAITS IRISH NEGOTIATORS

At Least 30,000 London People on Hand Today to Welcome Dublin Delegation. TAKE NO CHANCES ON LONDON FOOD Peace Emissaries Bringing Their Own Cuisine, Cooks, Waiters and Such Like.

London, Oct. 7.—British delegates to the Irish Peace Conference, it is authoritatively stated, will be the Premier, Austen Chamberlain, Lord Birkhead, Sir Hamar Greenwood and Worthington-Evans. Most elaborate preparations have been made for the reception of Sinn Fein delegates who are expected to arrive at six o'clock Saturday evening. Irish organizations will combine in the demonstration in which at least 30,000 people will take part.

Assessing of Non-Residents. At a largely attended meeting held in the Glen Falls school house last evening at which Councilor Jeremiah Donovan presided, a bill was passed for its object the assessing non-residents working in the parish of Simonds, was drawn up and adopted and will be presented at the next session of the house for legislation. The bill is modelled on similar legislation now in force in the city of St. John.

Island Has All of Candidates. Special to The Standard. Charlottetown, P. E. I., Oct. 7.—J. J. Hughes was nominated for Kings at the Liberal convention today in Georgetown. The Liberals and Conservatives have now all their candidates in the field for the Island.

Notice to Public. The cabinet again discussed conference in its Friday session. It is reliably stated that, although the British Government will suggest no alterations in agenda, the impression is growing that the issues outside of the programme, such as mandates and possibly war debts will eventually be considered. Some irritation has been caused by the expression of Premier Hughes, of Australia, regarding separate representation for Australia in which he was quoted as saying that America "slammed the door." It is believed here that President Harding purposely rejected issuing a direct invitation to the colonies because of the fear of the cry "six seats to one" which might have been raised. Despatches from Melbourne indicate that Pearce accompanied by three officials, will leave for Washington next week.

#### After His View of Actual Conditions at the Sydney Mines He Addressed 4,000 Electors—Spoke in Defence of Shipbuilding Programme—By Solving the Tariff Problem He Asserted Could the Unemployment Problem be Solved.

(Special to The Standard) Sydney, C. B., Oct. 7.—Right Hon. Arthur Meighen spent today in Glace Bay and Sydney, the very stronghold of the coal, iron and steel industry of Nova Scotia, where organized labor is strong and includes in its ranks a most radical element, but where the sentiment in favor of protection is a powerful factor and Government supporters are confidently hoping to elect their candidates to the House of Commons. The Prime Minister arrived in Sydney this morning, visited the local headquarters of his party, inspected the Dominion Iron and Steel Company's plant and inspected the harbor. Later in the day he visited Glace Bay, in area the largest town in Canada, a seaport, and the centre of a district in which are situated some 25 coal mines.

Visits Mine. The Premier motored to Sydney and there again he addressed an audience of fully four thousand persons. While he was in Glace Bay, seven miles away, his colleague, Hon. B. M. Baxter, spoke to the Sydney electors. Col. Harrington, formerly deputy minister of the overseas military forces, also gave a practical talk. Col. Harrington, who is now a resident of Sydney, quoted a statement of John Lewis, president of the United Mine Workers of America, that there were 24,000 men working out of employment in the United States. Mr. Lewis had written both Houses of Congress urging the passage of the tariff bill that protective features might stimulate the coal and steel industries. Col. Harrington insisted that, without protection, the Canadian Steel and Coal industries would fall before United States competition. Under free trade, American steel rails could be sold in Sydney more cheaply than they could be produced in that town. Col. Harrington was not impressed by Mr. King's professions of friendship for labor. Col. Harrington asserted that in 1909 when Minister of Labor Mr. King had sent troops to Sydney with out any excuse to overawe the striking miners. The opposition leader's friendship with labor, Mr. Harrington concluded, was only skin deep.

Addresses Large Meeting. After his view of actual conditions in the mining region, the Prime Minister spoke to an audience of fully 4,000 electors at Glace Bay and was able to adduce arguments in favor of his policy of protection which were of peculiar interest to his hearers. At the outset the Premier spoke in defence of the shipbuilding programme of the Government which the Liberal opposition first supported and lately decided to criticize. The Canadian Government, he declared, was an honor to the country, necessary as an adjunct to the National System of Railways and of use for the extension of Canada's trade into new markets abroad. Then the Premier came to the tariff problem by solving of which he asserted, the Dominion would do its best to solve the unemployment problem.

Unemployment Problem. "What," he asked, "is the cause of unemployment here?" "American coal coming into this country, interposed men in the audience." To this Mr. Meighen responded. He asserted that the policy of the Farmers Party included a demand for free importation of coal. The Liberal tariff resolution, perhaps because of the intervention of Hon. S. Fielding, did not call specifically for free coal. It did, however, call for the free importation of implements of production and the materials entering into the manufacture of the same. Among the materials entering into the manufacture of implements were coal and steel. "We have got to relieve the situation in Canada so that there will be light instead of darkness and despair, so that the employers will know that they are safe in laying down programmes of production," said Mr. Meighen.

Need to Argue. "I scarcely need to argue what would be the effect of the Crerar-Wood platform. The Wood-Crerar and the King Platforms are both no protection policies. Don't you see that the King Platform means making steel free? Don't you see that that means the abandonment of hope of reviving the steel industry? If you cut out the production of one ton of steel you cut out the production of 4 1/2 tons of coal and throw out of employment the men who produce the coal. Put into effect the policy of Mackenzie King and you will darken the major industry, close the smaller ones and sow despair through the industrial life of the country. I want candidates nominated, and I promise you they will be nominated, to stand on the policy of moderate protection on every platform in the Dominion."

Prime Minister's View. The Prime Minister caused much amusement by pointing out that Mr. King was advocating free goods, not free trade, and fishermen's equipment for the benefit of the fishermen, quite forgetting that those commodities had been on the free list of the tariff for many years.

#### Premier At St. Stephen Oct. 12

Necessary to Change Appointment at Border City from Friday, October 14.

St. Stephen, Oct. 7.—At the request of Premier Meighen it has been necessary to change his speaking appointment at St. Stephen from Friday evening, October 14th, as widely advertised, to Wednesday evening, October 12th. The change was made imperative in order that the Premier might be able to keep later appointments. On the occasion of the Premier's visit to the Border city the electors will also have the pleasure of hearing Hon. Dr. J. E. H. Baxter and Hon. F. B. McQuay discuss the political issues of the campaign. Remember the date—Wednesday, October 12th.

U. S. BUSINESS MEN FEAR WHAT TARIFF MAY DO

Manufacturers Do Not Take Kindly to the Fordney Bill.

New York, Oct. 7.—The two day session of the twelfth annual convention of the American Manufacturers' Export Association that opened at the Waldorf today is being devoted almost solely to a discussion of how to return and increase United States export trade.

Before getting down to an exchange of ideas, Myron W. Robinson, president of the Cretz Carpet Company, of New York, was chosen to succeed William C. Redford, former Secretary of Commerce, as president. Tomorrow night the convention will conclude with a dinner at which Herbert C. Hoover, Secretary of Commerce, will speak.

Committee reports and eight speakers virtually all agreed that the greatest need of foreign trade is a realization that capital as well as goods must be placed abroad if the United States is to continue and increase her present volume of export trade. Mr. Redford, in his address as retiring president, said:

"It is a misfortune that we seem to have lost vigor in our export trade at the time when our competitors are, under similar conditions, exerting themselves to secure it. But it is not necessary to break our heads against the stone wall of Germany or England competition by doing things just their way. There is often a hole in the wall or an end to it where American firms will find a way in the future as they have in the past. If we are to acquire the strength in other lands which our competitors possess and which they deliberately seek to enlarge, we must export something else than merchandise, that is to say, our capital."

As another speaker, W. S. Kies, chairman of the board of the First Federal Foreign Banking Association, saw it, capital in this country has about reached the saturation point of far as the further construction of railroads, factories, and office buildings is concerned, and a sizable portion of it can be employed abroad more profitably than at home.

Of preparations and indemnities, W. F. H. Koelsch, president of the New Netherlands Bank of New York, said: "If compliance with the Allies' terms actually means that Germany is obliged to inflate her currency further to stimulate exports at all costs, the effect must be injurious to all countries, but especially to America and Britain."

"The need for refunding of Europe's huge debt to us seems so important that it is strange how few people seem to stress this point. Instead we see high tariff as a cure-all remedy for our economic ills. There never was a time when American business needed a greater scope and a freer hand, and the erection of a high tariff wall will not find a market for our surplus products."

Many of the speakers expressed their fears of a protective tariff. One of the most outspoken was Allen Walker, of the Guaranty Trust Company, who charged that the Republican party regards the tariff politically and not economically.

Notable Change in Fiscal Position of Detroit Railway

Issue of \$4,000,000 Two Year Notes Practically Disposed of.

Montreal, Oct. 7.—During the past few weeks there have been some notable changes made in the fiscal position of the Detroit Municipal Railway. An issue of \$4,000,000 of two year notes has practically been disposed of which replaces a number of short-term maturities which were shown in the last balance sheet of the company under the heading "Notes Payable." Arrangements have also been made recently whereby two maturing bond issues, one for \$1,400,000 and the other for \$855,000, making \$2,255,000 in all have been extended to mature on January 1, 1923 when the Detroit United Consolidated mortgage 4 1/2's fall due, thus enabling the company to handle all of the maturities at the one time, and also relieving the present cash position. This operation brings the nearest maturity in the funded debt to February 1, 1922, which will be for only \$500,000 with one or two other small maturities falling due a little later. It is expected that these small maturities will be financed for in a similar manner to that described above. It is stated that these operations, together with the conservation of the road's cash through the payment of quarterly dividends in script, has been fruitful of material improvement in the main position, and the sale recently of the 29 miles of trackage and contingent equipment to the Detroit Municipal Railway will bring the company's current liabilities to a moderate figure and the hope among insiders is that this will justify an early return to a cash dividend basis at the rate of 8 per cent. per annum.

In some quarters of the street it is now thought that the road will resume its cash dividend payments at the next day session although other people maintain that another application for script payment may be made before the definite resumption.

Died

STEELE—At Bathurst, October 1st, John Steele, aged 67 years, leaving two sons to survive.

Valuable Address On Tuberculosis

Miss Marshall of National Anti-Tuberculosis Assn. Addressed Local Assn.

Inspiration and assistance was given in a very large degree by Miss Marshall, of the National Anti-Tuberculosis Association who spoke to the board of the St. John Society for the Prevention of Tuberculosis yesterday afternoon.

Miss Marshall has been looking over the field and endeavoring to find out how better work may be accomplished here. She has a fine personality and has given the board members many valuable hints and suggestions along different lines.

It was pointed out that street cleaning, the collection of garbage and the prevention of expectoration will have a most beneficial effect on the work. It is very desirable that all health organizations cooperate. It is probable that in time the board of health will have a department for the prevention of tuberculosis.

Among children fifty per cent. get tuberculosis under six years of age, therefore open air schools are very desirable. A cheap way to start such schools is to take all the windows out of certain rooms in the present buildings.

The work of Dr. Mabel Hanington, a medical inspector of schools was highly praised by this visitor who said that the results of Dr. Hanington's inspection were excellent, and that in her we have a very fine officer. She also stated that Dr. Hanington should have more help than at present, for it is not possible with the present staff to weigh and measure the children, which is a very important feature of child welfare.

Speaking of the St. John County Hospital, Miss Marshall stated that she had seen more pretentious buildings but seldom one better planned or better equipped. The atmosphere is exceptionally cheerful and hopeful. Patients seem contented to stay until their cure is complete. There is a good relation between doctors, nurses and patients. The children need more porch room.

Judging by statistics, Miss Marshall thought that there are in this district 600 actual cases and 1,000 quiescent ones to be cared for. She suggested an active campaign to induce patients to apply at clinics for treatment. The city could be divided into districts with a clinic in each section.

Gunner Drowned From His Float

Topsham, Maine, Oct. 6.—Frank Knight, 25, of Bath, married three months ago, was drowned in Merry Meeting Bay late this afternoon, when his gunning float overturned.

Weddings

West-Duffy. A wedding of much local interest took place at the home of Mr. and Mrs. Bliss Duffy, Hillsboro, N. B., when their eldest daughter, Eva Elizabeth, was united in marriage to Lloyd Evans West, of Hillsboro.

The bride entered the room with her father to the strains of Mendelssohn's wedding march, played by Mrs. B. W. Gavey, and the ceremony was performed at 1:30, under a green and white arch of cedar and sweet alyssum in the presence of about 60 guests. Rev. A. S. Bishop, of the First Baptist church officiating. The bride was unattended and was attired in a becoming suit of nigger brown broadcloth with hat to match of Duvestyne and velvet with circular veil, and wore a Pina choker; her bouquet was of bridal roses and lilies. Following the ceremony a sumptuous luncheon was served. The house decorations were of autumn leaves and maiden hair fern. In the dining room the color scheme was pink; in the living room red geraniums. The bride's table was very attractive with rose place cards, favors and crocheted baskets of candy, and in the centre was a beautiful bride's cake.

The bride's party included the Moncton that evening on a trip to Boston, having the best wishes from a host of friends for a happy wedded life. On their return they will reside at Hillsboro.

Obituary

Charles T. Harrison. The death of Charles T. Harrison occurred yesterday morning at Cox's Point, Kings County. He is survived by his wife, two brothers, D. J. Hamilton of the City Market, and Oliver in Alberta, and two sisters, Mrs. Murray of Apohaqui, and Mrs. Lister of Fairville. The funeral will be held at half-past two on Saturday afternoon from his late residence, 104 El-Hot Row.

Mrs. Margaret Durham. The death of Mrs. Margaret Durham, widow of Thomas Durham, occurred at the Mater Misericordiae Home on October 5. She is survived by two sons, Charles and John MacEwaine, both of this city.

The death of Christina March McNeil occurred at Chipman, Queens Co., on October 4. Besides her parents, she is survived by four sisters and two brothers. The funeral was held on October 5, from the Presbyterian Church at Chipman.

Thomas Hamilton. Percy Long of the Y. M. C. A., Montreal, arrived in the city yesterday morning, summoned here by the death of his uncle, Thomas Hamilton, a well known resident of the city, who had been employed with W. H. Cole, Ltd., for many years until failing health had compelled his retirement. Mr.

MONEY FOR THE CITY ORPHANAGES

Good crowds continue to attend the Carleton Currier's Fair in aid of the St. John Orphanages. This fair will be continued for a part of next week at least. Tonight the Martello Band will be present and provide music.

Thousands of unemployed former ex-service men of the British army have been given work building highways in England. The construction is to cost \$4,000,000.

A six-pound electric iron is best for laundry work, as it holds heat longer. A pinch of salt in the whites of eggs will make them beat stiff more quickly. Add a half package of dates cut in small pieces to a caramel pudding mixture.

MEATS, MEATS, AT Magee's, Main Street

Fresh Killed Chicken, a pound ..... 40c. Fresh Killed Fowl, a pound ..... 35c. Roast Lamb, Hinds, a pound ..... 20c. Roast Lamb, Fore, a pound ..... 14c. Roast Lamb, leg or loin, a pound ..... 25c. All kinds of Vegetables at very low prices.

EVERY WOMAN IN POOR HEALTH

That an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her own desire is for more strength and better health. What sickly worn out women need is a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine clears out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and fine all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly. See at all dealers or The Catarthone Co., Montreal.

CASTORIA For Infants and Children In Use For Over 30 Years

Always been the Signature of Chas. H. Tutcher.

A SURE RELIEF FOR WOMEN'S DISORDERS 10 Days' Treatment Free

Orange Lily is a certain relief for all disorders of women. It is applied locally, and is absorbed into the suffering tissues. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood purifies and nerves are soothed and strengthened; and the circulation is restored normal. As this treatment is based on strictly scientific principles, and acts on the actual location of the disease, it cannot help but be good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price, \$3.00 per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for 25 days, worth 75c, will be sent free to any suffering woman who will send me her address.

FINE FURS

Owing to the admitted shortage of furs, both raw and manufactured, we are advising our customers to make their selections NOW. Our stock is complete NOW—later on replacement prices will be higher—latest market reports show advances of 10 per cent. to 50 per cent. with a great shortage. Fur Coat prices this year start at \$75.00.

May we have the pleasure of showing you the finest display of Fur Garments ever seen in our Fur Parlors—a visit will convince you that real values are to be had—and after all, VALUE, NOT PRICE, should be the standard of comparison.

H. Mont Jones, Limited

St. John's Only Exclusive Fur House 92 KING STREET

Why It Costs You Too Much To Live

The trend of living costs, as the Baltimore Sun observes, "is the most important issue in the average household of America today." When, therefore, this trend is upward, especially in foodstuffs, as during the past few weeks, father and mother naturally wonder a bit anxiously if this upward trend indicates the end of price reductions in many lines and the beginning of a new era of increasing costs. If prosperity is waiting for prices to come down where people can buy, then the reverse movement has a meaning to every one—banker, merchant, or toiler—and if the toiler happens to be among the millions of unemployed, his interest in this subject is apt to be especially acute. Reasons for the recent advance, from profiteers to short crops, come from all sides. The 70-per cent. increase in the price of cotton, thus giving Southern Farmers more money to spend, is also advanced as a reason by Wallace's Farmer (Des Moines). "Labor costs, coal costs, high interest rates, and high freight rates"—each has contributed to the rise in food costs, maintains the Memphis Commercial Appeal, which further declares that "war profiteers are seizing upon a natural demand to advance prices."

A careful examination of the editorial pages of newspapers in all parts of the United States has been made by The Literary Digest, with a view toward seeking the causes of high living costs, the tendencies for a rise or drop in them, and the remedies suggested for the relief of the public.

In the leading article of The Literary Digest this week, October 8th, the result of this examination is presented, and it makes enlightening reading, indeed.

Other articles that are particularly timely and of undoubted interest to the general public in this number of The Digest are:

Playgrounds Assn. Were In Session

Boys' Club Will Open First of Next Month—Committees Appointed.

A meeting of the Playgrounds Association was held last evening in the Y. M. C. A. with W. K. Haley, the president, in the chair. Some minor business arising from the minutes of the September meeting was discussed and disposed of. In the absence of the treasurer, Mrs. Dihar, her statement was read by Miss Heffer. A report was read by Mr. Bolding, as convener of a special committee to report on the needs of the Boys' Club. The following recommendations were made: The club to be opened on November 1st, a committee of three to supervise cleaning and "reconditioning" the hall, a committee of three to act with Miss Heffer and local large room and near the Boys' Club to be used for the struggling classes in English, Dramatics, Boy Scout work and other educational work; that all members take an active personal interest in an entertainment to be given at the Imperial Theatre shortly by the Playgrounds children; that Peter Murray's services as physical instructor be retained for the coming season; that Miss Heffer then give some general remarks with regard to the dramatic performance that the children on the playground plan to stage shortly at the Imperial. All the lady members of the association to be a committee with Miss Heffer as chairwoman with regard to proposed imperial show.

Edward P. O'Brien Again Arrested

Charge is: Acting With Thos. Spellman and Robbing With Force and Violence.

Edward P. O'Brien was arrested by the city detectives yesterday on a warrant which he was charged with acting jointly with Thomas J. Spellman, and robbing with force and violence Albert Norris of a bottle of whiskey.

The warrant was sworn out on the suggestion of Dr. W. B. Wallace, K. C., who was the crown prosecutor in both the case against O'Brien, and that against Spellman, when both were charged with acting together and joint in murdering Albert Norris. O'Brien was acquitted, and Spellman found guilty of manslaughter.

SQUIRRELS IN LARGE NUMBERS

Persons residing in the vicinity of the city of Montreal have noticed a very large number of squirrels about their homes. It is said that since the widely spread forest fire of the summer these animals have been driven towards the city in large numbers. They have entered several houses and made havoc with provisions wherever they could find them. They show a great fondness for sweet things, eating preserves which have been temporarily covered with wax or paper. They are almost as destructive as mice if allowed an entry into houses, and will destroy furniture, eating the stuffing of chairs and couches.

Paris, Oct. 6.—Declaring that France's supplies of munitions are already larger than necessary and that the continued manufacture of war materials for Poland and Little Entente has been a waste of money, the French government has announced that it will eventually discontinue the manufacture of munitions against Russia and is contrary to the world's interests. 600 employees of the Petit Vicard Works at St. Omer refused to go to work this morning. Labor agitators have been carrying on a campaign in the armament factories in France for several weeks and are preparing to call a general strike in munitions plants all over France unless the owners of these works agree to convert them to the manufacture of articles for peaceful purposes.

Blood-Cleansing Strength-Giving

As the Effects You Natural Want from Your Spring Medicine And Hood's Sarsaparilla satisfied these needs as nothing else can. This marvelous restorative tonic and blood purifier has been recommended for nearly fifty years as the best spring medicine for restoring the blood and circulation to the natural richness and vigor which Hood's Sarsaparilla is made the Hood's Sarsaparilla.

MEN'S DISORDERS

Orange Lax is a certain relief for all disorders of women. It is applied locally, and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood and nerves are cooled and strengthened; and the circulation is restored normal. As this treatment is based on strictly scientific principles, and sets on the actual location in all forms of female troubles, hemorrhages, falling of the womb, etc., it will be sent free to address.

NEW YORK

Playgrounds Assn. Were In Session

Boys' Club Will Open First of Next Month—Committee Appointed.

A meeting of the Playgrounds Association was held last evening in the Y. M. C. A. with W. K. Haley, the president, in the chair.

Some minor business arising from the minutes of the September meeting was discussed and disposed of. In the absence of the treasurer, Mrs. Disher, her statement was read by Miss Heffer. A report was read by Mr. Bolding, as convener of a special committee to report on the needs of the Boys' Club. The following recommendations were made: The club to be opened on November 1st, a committee of three to supervise cleaning and "conditioning" the hall, a committee of three to act with Miss Heffer and locate large room and near the Boys' Club to be used for the evening classes in English, Dramatics, Boy Scout work and other educational work; that all members take an active personal interest in an entertainment to be given at the Imperial Theatre shortly by the Playgrounds children; that Peter Murray's services as physical instructor be retained for the coming season.

Miss Heffer then gave some general remarks with regard to the dramatic performance that the children on the playgrounds plan to stage shortly at the Imperial. All the lady members of the association to be committee with Miss Heffer as chairwoman with regard to proposed Imperial show.

Edward P. O'Brien Again Arrested

Charge is: Acting With Thos. Spellman and Robbing With Force and Violence.

Edward P. O'Brien was arrested by the city detectives yesterday on a warrant which he was charged with acting jointly with Thomas J. Spellman, and robbing with force and violence Albert Norris of a bottle of whiskey.

The warrant was sworn out on the suggestion of Dr. W. B. Wallace, K. C., who was the crown prosecutor in both the case against O'Brien, and that against Spellman, when both were charged with acting together and jointly murdering Albert Norris. O'Brien was acquitted, and Spellman found guilty of manslaughter.

O'Brien's arrest on the robbery charge, adds one more omission to the number that have evolved about the Norris murder. The maximum sentence for robbery, according to the police manual, is life imprisonment with whipping, the minimum is not given.

When asked last night if he would defend O'Brien on the new charge, W. H. Ryan, who defended him on the murder charge stated he did not know. Dr. Wallace stated he would appear for the prosecution if requested to do so by the police magistrate, but it is possible that the detectives will conduct the prosecution at the preliminary hearing, and that the big clash between the legal lights will not come until the case is brought before the superior courts, should the charge be sustained.

O'Brien will probably be charged before the police magistrate this morning.

SQUIRRELS IN LARGE NUMBERS

Persons residing in the vicinity of Mount Pleasant Road have noticed a very large number of squirrels about their homes. It is stated that since the widely spread forest fires of the summer these animals have been driven towards town for food. They have entered several houses and made havoc with provisions wherever they could find them. They show a great fondness for sweet things eating preserves which have been temporarily covered with wax or paper. They are almost as destructive as mice if allowed an entry into houses and will destroy furniture, eating the stuffing of chairs and couches.

Paris, Oct. 6.—Declaring that France's supplies of munitions are already larger than necessary and that the continued manufacture of war material for Poland and Little Entente States is with a view to their use eventually against Russia and is contrary to the world's interests, 600 employees of the Petit Wicard Works at St. Omer refused to go to work this morning.

Labor agitators have been carrying on a campaign in the armament factories in France for several weeks and are preparing to call a general strike in munitions plants all over France unless the owners of these works agree to convert them to the manufacture of articles for peaceful purposes.

Metallurgical union leaders are said to have unreserved support of such a strike movement, and there is, therefore, a possibility that 100,000 of these workers will be out of work before the end of the month.

Out flowers last longer if set in a pail of water up to their necks over night.

Blood-Cleansing, Appetite-Making Strength-Giving

Are the Effects You Naturally Want from Your Spring Medicine And Hood's Sarsaparilla satisfies these needs as nothing else can. This marvelous restorative tonic and blood purifier has been recognized for nearly fifty years as the best spring medicine for restoring the blood and circulation to their natural richness and vitality. Hood's Sarsaparilla is more than

Food, because it creates an appetite and promotes assimilation of all food taken, thus securing 100 per cent. of nourishment. Thus it contributes to make rich red blood, which carries vitality to all parts of the body and gives the strength and nerve force that nature demands day by day. Take Hood's Sarsaparilla small doses after each meal, and you will soon note how much refreshed you are, how good your food tastes, and how cheerfully you do your work. Hood's Pills relieve headache, biliousness, constipation,

Hood's Sarsaparilla

PURIFIES, VITALIZES AND ENRICHES THE BLOOD

CRIPPLED WITH RHEUMATISM

Then She Took "FRUIT-A-TIVES" And Has Been Well Ever Since

MADAM SIDAY  
Perth Junction, N. B., Jan. 22nd, 1920  
"For many years I was a great sufferer from indigestion, Constipation and Rheumatism. My stomach was weak and gave me constant distress, while Rheumatism in my joints made me almost a cripple, was treated by two different doctors but their medicine did me no good. Then I tried "Fruit-a-tives" and at once that fruit medicine helped me. Soon the Constipation and Indigestion were relieved, and the Rheumatism began to go away, and in a few months entirely disappeared. For twelve years now, my health has been first class, and I attribute it to the use of "Fruit-a-tives" which I take regularly."

Mrs. CLARA SLOAT,  
56c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

KING'S DAUGHTERS' REGULAR MEETING

Satisfactory reports were received at yesterday's regular meeting of the King's Daughters, held at the Guild, Prince William street, Mrs. Edith Stevens, first vice-president, presided in the absence of Mrs. Charles Clark. Mrs. Stevens led the devotional service which opened the meeting. Conveners of the house, hospital and spiritual committees told of their work, stating that everything was going along very well.

Plans to raise funds were discussed, a rummage sale in the near future being decided upon. Reports were given of the share which the organization is taking in the Fair to be held for the Protestant Orphan. In this the King's Daughters are co-operating with the Young Women's Christian Association in the Novelty Booth.

Scrofula Most Progressive Now. Sudden changes of weather are especially trying, and probably to none more than to the scrofulous and consumptive.

The progress of scrofula during a normal autumn is commonly great. It is probable that few people ever think of scrofula—its bunches, eruptions, and wasting of the body—without thinking of the benefit many sufferers from it have derived from Hood's Sarsaparilla, whose success in the treatment of this one disease alone would be enough to make it what it is, one of the most famous medicines in the world.

There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative, consumption.

Hood's Pills, the cathartic to take with Hood's Sarsaparilla, in cases where one is necessary, are gentle in action and thorough in effect.

Famous Old Recipe for Cough Syrup

Readily and cheaply made at home. But it beats them all for results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any drugist, pour it into a 16-oz. bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey or corn syrup instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—soothes and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your drugist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Major Mary Booth Here Next Week

Second Daughter of General Bramwell Booth of England Will Attend Congress.

In connection with the Salvation Army Congress for the Maritime Provinces, to be held in St. John city from October 15th to 19th inclusive, Major Mary Booth, second daughter of General Bramwell and Mrs. Booth of London, England, will give a very stirring and interesting lecture, entitled "Work Among the Troops."

Major Booth is widely known among the Soldier Boys, among whom she was very active indeed and for her excellent services rendered to the British Empire she was on two occasions decorated by our Sovereign the King, being made a Commander of the British Empire. Miss Booth will deliver her lecture in the Imperial Theatre Sunday afternoon October 16th, Honorable Mr. Pugsley, Lieutenant Governor, presiding.

REAL ESTATE TRANSFERS.

The following property transfers have been recorded recently in St. John county: C. O. D. Bostwick to Anna B. Bostwick, property corner Charlotte street and King square.

W. E. Fenton to Hattie E. Lewis, property at Lancaster. Trustees of W. Livingstone and others to Mary A. Gofman and others, property in Duke street.

Newslands Improvement Company to H. M. the King, property in Elms.

SHIPMENTS WERE LESS. The lumber shipments to the United States show quite a falling off for the three months ending September 30 this year, as compared with 1920. Following are the figures, compiled by H. C. Culver, U. S. Consul here:

Table with 2 columns: Item, Value. Laths: \$75,171.97; Lumber: \$84,061.67; Pine boards: \$23,897.23; Pulp wood: \$75,470.00; Shingles: \$2,535.45; Wood pulp: \$192,355.59. Total: \$763,492.16.

The total for corresponding three months in 1920, \$1,371,756.

RED ROSE TEA is good tea. Keeps Fresh and Fragrant in the Sealed Package.

Good Programme At The Y. W. C. A.

First Rally of the Season Largely Attended—Programme Enjoyed.

In a wonderfully graphic way members of the Y. W. C. A. demonstrated the various activities of the Association at a Rally the first of the season held last evening in the Recreational Centre, King Street East. The large number of interested spectators present were delighted both with the clever performance and with the fine work accomplished by the "Y."

St. Mary's Band were present and added greatly to the pleasure of the audience. In her address Mrs. John A. McAvity the president told of the ambition of the Association to provide recreation and instruction for the girls of St. John and how the work of the society is hampered by lack of funds. The demand is great for such work but it must fall unless supported.

After a selection by the Band, a well carried out program was given illustrating the different departments of the Y. W. C. A. These included a cafeteria scene, a traveller's Aid picture, a view of the financial secretary at her desk, endeavoring to pay bills without any cash, and a home scene at the King Street Residence with a welcome extended to a new inmate. All these were cleverly done and illustrated by amusing incidents.

A song by the Boosters followed and a Campfire scene with choruses given by the Indoor-Outdoor Club. The Carona Club were seen in a bright little play. After this a part of the room was cleared and the programme concluded with the gymnastic exercises by several of Miss Littlefield's classes. These showed fine training and good team work.

The affair was in charge of Miss MacKenzie, General secretary, Miss Littlefield, Physical Director and members of the Board of Directors. All members of the various Clubs worked splendidly to make it the fine entertainment it was.

The oven should be hotter for layer cakes than for loaf cakes.

MOTHER!

Your Child's Bowels Need "California Fig Syrup."

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary. Ask your drugist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

MEN'S WOMEN'S and CHILDREN'S New Fall SUITS - - and - - COATS at Prices That Will Surprise You

Never before have we sold as much clothing as we have this season. This is not hot air, but facts, and the only thing that we can account for doing so is that we have been selling new stock at prices from 25 to 50 per cent. less than last season, and selling goods as advertised at an honest profit, believing in the old proverb, "Live and let live," with small profits and quick sales.

Call and see for yourself. It costs you nothing to look and we are always ready to serve you.

Men's Department (First Floor) Ladies' Department (Second Floor)

ST. JOHN, N. B., SATURDAY, OCTOBER 6, 1921.

MR. MEIGHEN'S GRIED.

"More than any other country, Canada needs a protective system. She is a young country mostly undeveloped. She lies alongside a great big country tremendously developed."

THE COMING CAMPAIGN.

The Times apparently disapproves of the Union Jack appearing upon our front page and suggests some very ulterior motives for the presence there. We may tell our contemporary that the same reason that prompts the Telegraph to adorn its front page with the Maple Leaf induces us to use the Union Jack.

THE JANUS LIKE MR. KING.

The Hon. Mackenzie King's mind should be at rest now that the date of polling has been announced. Tuesday, 4th December is the date chosen, and Mr. King will be in a position to tell his friends that they can go ahead and make their candidacies and arrange other details of their business with confidence now.

his party. It is taking him all his time to find candidates in the various constituencies. Outside of the Maritime Provinces, where he appears to be making his busiest campaign, he has as yet few candidates in the field, and even in these provinces he will find himself without representatives in many constituencies.

LAWYERS IN PARLIAMENT.

In the reorganized Meighen Cabinet of twenty members just half of the twenty belong to the legal profession. Lawyers are always very numerous in the House of Commons—a good deal more numerous, proportionately, than they are in the British House of Commons.

The Journal of Commerce reminds us that since Confederation there has been only three Premiers who did not belong to the profession of the law. They were Hon. Alexander Mackenzie, a builder and contractor; Sir Mackenzie Bowell, a journalist; and Sir Charles Tupper, a physician.

ing his connection with this part of the country, was just a slight expression of the esteem and regard in which he is held by his fellow-men, among whom he has spent so many years of his life. Few men have more richly deserved the honor that has fallen to them than he, for his reputation as a scientist is as wide in most countries in Europe as it is in his native country.

WILLING TO TAX OTHERS.

The platform of the Farmers' Party, as drafted by the Canadian Council of Agriculture, calls for an increased income tax and for a graduated income tax on the profits of corporations. In view of this it is of importance to note that the \$46,831,000 of income taxes collected by the Dominion Government during the fiscal year 1920-21 the farmers contributed only \$11,000.

I see The Globe is very worried as to why evidence that did a good deal to convince Spellman was withheld from O'Brien's trial. On the ground that, like the lady in the play, "it was of no importance." There was probably a reason.

Everybody is beginning to talk politics now. At our club last night I got into an argument with a fellow who wanted to make out that a few years in Opposition would be a good thing for Mr. Meighen.

The fellow who told me that the whipper of a pretty girl could be heard further than the loudest yell of duty, hasn't had any yelling to do with anybody to answer the phone.

WHAT OTHERS SAY

The Admirable Leader. "The predominance of Party in 'democracies has made us, when we talk of a militant function of the 'general who directs a political campaign and bears, like the champions in ancient warfare, the brunt of the 'kind of leader has a duty to the 'whole people as well as to his party. 'If he is in power he must first think 'of the national welfare.'"

DR. GEO. F. MATHEW.

New Brunswick has produced a good many notable men, who have made great names for themselves all over the continent and some whose fame has extended even to the Old World, but of them all it may be doubted if any have attained the international prominence that Dr. George F. Mathew has.

Benny's Note Book

Ma was sewing on the sewing machine and I was playing with the pin tray full of pins pretending it was a army transport and the pins was all soldiers from pinsylvania, as saying, Now Benny for the 6th and last time put those pins down before you spill them.

THE LAUGH LINE

Few people are content with their lot in life unless it is a corner lot on Easy Street. Don't expect engraved testimonials to your loyalty if you go back on old friends to gratify strangers.

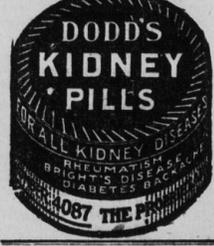

Imperceptible. With the boundless enthusiasm of his kind, the good faddist harangued the mob on the marvellous results to be obtained from chewing soap and eating nut butter.

IN THE EDITOR'S MAIL. St. John, N. B., Oct. 7, 1921. To the Editor of The Standard, Sir—I read an article in this morning's Telegraph regarding the Currie Construction Company.

## Complete List of Polling Places

Thirteen Wards in the City and 73 Places Where Citizens Can Vote Next Monday.

- The following is the list of the polling places and returning officers in the city wards for the referendum election on Monday, October 10th:—
- 1—Kings Ward, A B C D, Kenneth G. Bailey, 63 Union St.
- 2—Kings Ward, E to K, J. W. Taylor, 21 Dock Street.
- 3—Kings Ward, L to F, Joseph Taylor, 21 Dock Street.
- 4—Kings Ward, G to Z, Albert Hogg, 17 Union Street.
- 5—Wellington Ward, A and B, J. E. McGowan, 123 Prince Edward St.
- 6—Wellington Ward, C to F, J. W. E. Gale, 133 Prince Edward St.
- 7—Wellington Ward, G and H, H. P. Copey, 133 Prince Edward St.
- 8—Wellington Ward, I to Z, E. N. Jones, 21 Prince Edward St.
- 9—Wellington Ward, L to M, E. T. Worden, 131 Prince Edward St.
- 10—Wellington Ward, N, Frank Crowley, 97 1/2 Prince Edward St.
- 11—Wellington Ward, O to Q, E. M. Barlow, 78 Prince Edward St.
- 12—Wellington Ward, R and S, A. I. Prince Edward St.
- 13—Wellington Ward, T to Z, E. N. Jones, 21 Prince Edward St.
- 14—Princes Ward, A and B, Harold McLaughlin, 270 Union St.
- 15—Princes Ward, C and D, E. J. Todd, 270 Union St.
- 16—Princes Ward, E G and H, L. McGowan, 234 Union St.
- 17—Princes Ward, I J K and L, Emery Gibbs, 22 Sydney St.
- 18—Princes Ward, M and N, A. W. Cover, 18 Sydney St.
- 19—Princes Ward, O P and Q, D. Arnold Fox, 31 Sydney St.
- 20—Princes Ward, R and S, Edward Owens, 57 King Square.
- 21—Princes Ward, T to Z, E. P. Watson, 69 King Square.
- 22—Queens Ward, A and B, T. O'Neil Gilbert, Court House.
- 23—Queens Ward, C and D, J. N. Ashton, Jr., Court House.
- 24—Queens Ward, E F and G, Wm. A. Kinnon, Court House.
- 25—Queens Ward, H to L, Steven W. Palmer, Court House.
- 26—Queens Ward, M and N, L. A. Belvue, Court House.
- 27—Queens Ward, O to Q, Thomas Hill, Court House.
- 28—Queens Ward, R and S, H. J. Keys, Court House.
- 29—Queens Ward, T to Z, William Cameron, Court House.
- 30—Dukes Ward, A and B, G. George W. Currie, 1 St. James St.
- 31—Dukes Ward, C to G, Walter W. Chase, 296 Prince William St.
- 32—Dukes Ward, H to L, J. Westworth Lewis, 296 Prince Wm. St.
- 33—Dukes Ward, M to Q, Miles Thorne, 278 Prince Wm. St.
- 34—Dukes Ward, R to S, S. Stubbs 378 Prince Wm. St.
- 35—Dukes Ward, T and U to Z, W. C. McGee, 244 Prince William St.
- 36—Sydney Ward, A to D, John Bennett, 395 Charlotte St.
- 37—Sydney Ward, E to L, W. H. Sault, 115 Britain St.
- 38—Sydney Ward, M to P, George W. Shaw, 115 Britain St.
- 39—Sydney Ward, Q to Z, L. S. Hanelbacher, 115 Britain St.
- 40—Guys Ward, A and B, John Allingham, Temperance Hall, Charlton.
- 41—Guys Ward, C to E, E. Clyde Parsons, Temperance Hall, Charlton.
- 42—Guys Ward, F to H, Ernest P. Bassett, Temperance Hall, Charlton.
- 43—Guys Ward, I, Mc and M, Samuel M. Sewell, Temperance Hall, Charlton.
- 44—Guys Ward, N to R, J. A. Klindred, Temperance Hall, Charlton.
- 45—Guys Ward, S to Z, Frank H. Gardner, Temperance Hall, Charlton.
- 46—Brooks Ward, A to E, G. Fred Clark, 24 St. John St.
- 47—Brooks Ward, F to L, Wm. Watson, 24 St. John St.
- 48—Brooks Ward, M to P, 23 St. John St.
- 49—Brooks Ward, Q to Z, A. R. Ebert, 42 St. John St.
- 50—Lorne Ward, A and B, John Miller, 238 Main St.
- 51—Lorne Ward, C and D, 231 Main St.
- 52—Lorne Ward, E F and G, James A. Golding, 227 Main St.
- 53—Lorne Ward, H to K, F. C. Stubbs, 227 Main St.
- 54—Lorne Ward, L to M, Michael Coff, 231 Main St.
- 55—Lorne Ward, N to O, George W. Mullin, 175 Main St.
- 56—Lorne Ward, P to S, Wm. Williamson, 163 Main St.
- 57—Lorne Ward, T to Z, E. E. Sibson, 108 Main St.
- 58—Landsdowne Ward, A, B, E and F, 111 Main St.
- 59—Landsdowne Ward, C and G, John Lupton, 509 Main St.
- 60—Landsdowne Ward, D and H, W. I. McKenzie, 509 Main St.
- 61—Landsdowne Ward, K and Mc, Percy Leonard, 470 Main St.
- 62—Landsdowne Ward, J, L and M, Robert J. Adams, 539 Main St.
- 63—Landsdowne Ward, N, O, P, Q and R, M. Reicher, 435 Main St.
- 64—Landsdowne Ward, S and U to Z, James A. Little, 435 Main St.
- 65—Dufferin Ward, A, B, and D, Thomas A. Graham, 122 Mill St.
- 66—Dufferin Ward, C, B and F, T. W. Troit, 142 Mill St.
- 67—Dufferin Ward, G to J, R. A. C. Brown, 142 Mill St.
- 68—Dufferin Ward, K to M, C. I. Keith, Main St.
- 69—Dufferin Ward, N to P, W. A. Stepper, 168 Mill St.
- 70—Dufferin Ward, Q, R and S, John H. Hamilton, 612 Main St.
- 71—Dufferin Ward, T to Z, John White 21 Paradise Row.
- 72—Victoria Ward, B and C, J. Fred Fitzpatrick, Victoria Rink.
- 73—Victoria Ward, A, D to G, D. Morrow, Victoria Rink.
- 74—Victoria Ward, H, I, J and K, George K. Beaton, Victoria Rink.
- 75—Victoria Ward, L, M and N, Cecil Harding, Victoria Rink.
- 76—Victoria Ward, O to S, W. S. Clawson, Victoria Rink.
- 77—Victoria Ward, T to Z, Wm. B. Smith, Victoria Rink.
- 78—Stanley Ward, G to J, Francis Kerr, 201 Millidge Ave.
- 79—Stanley Ward, K to Z, M. D. Sweeney, 201 Millidge Ave.

## "Dope" Gets Jockey, His \$500,000 Gone

"Joe" Fuller, Now Bowery Derelict, Begg Magistrate to Send Him Away.

New York, Oct. 7.—"Joe" Fuller, in his day one of the best jockeys on the American turf, walked into the office of the Chief City Magistrate yesterday a broken old man. He confessed that drugs had got the better of him, and begged to be sent away for the cure. After Ted Sloan Fuller's earnings in the middle were probably the largest of any jockey. He made more than \$500,000.

Detective John Purlog of the Chief Magistrate's office, an old friend of Fuller, ran across him yesterday morning in Chinatown, round the corner from the Bowery Lodging House, where Fuller had been living.

"I'm down and out, John," said the jockey. "The dope got me. Can you help me?"

Purlog took him to see Magistrate John E. McGeehan at Fuller's request he was sent away to the Workhouse Hospital for three months. As he went out Magistrate McGeehan handed him a bill and said: "A little tobacco money, Joe."

Thirty-five years ago "Joe" Fuller, whose real name is James Irving, rode for "Lucky" Baldwin in California at \$25,000 a year. He is 74 now, and did not quit the saddle until he was 50.

Fuller rode in the Suburban, the Futurity, the Saratoga—all the big stakes. He was jockey for Phil and Mike Dwyer at the old Gravesend track. He rode for John E. Madden and for a time was head jockey in the stable of Hugh McLaughlin, Brooklyn political boss.

Fuller told Magistrate McGeehan he became a drug addict by accident.

"In 1906," he said, "I was riding in California in a steeplechase. My horse was the horse. She fell with me and another horse stepped on me and something happened to my spine. They took me to a hospital and it was six months before I got out. They gave me morphine and when I left the hospital I couldn't shake off the dope."

"I had made all of \$500,000 riding on the track. After that fall I couldn't ride any more, and I took the dope hard. I lost what money I'd saved. I lost my friends. Now I'm in a Bowery lodging house."

## Her Muscles Drew Up In Great Knots

New Brunswick Woman Suffered Terribly for Ten Years Before Finding Relief.

"It's wonderful the change Tambs made in me and I'm convinced it's the best and grandest medicine in the world," said Mrs. Fred Smith, Powers' Coast, Clear Falls, St. John, N. B.

"My troubles started ten years ago with a disordered stomach and I became a confirmed dyspeptic. I suffered terribly from rheumatism, too, and the muscles of my knees would knot up in great lumps, causing me intense agony. I was in bed for two months last winter and was so helpless my daughter stayed at my bedside to wait on me."

"Tambs has done more for me than I ever dreamed was possible. My rheumatism has left me entirely and I'm so well and strong now that I think nothing of taking a two mile walk. Everything I eat agrees with me too."

"Tambs is sold in St. John by the Ross Drug Co., Ltd., and P. W. Burns and by leading druggists everywhere."

Under the change of timetable of festive Sunday, October 2nd, 1921, the Canadian National Sunday train 49 and 50 between Saint John and Moncton are discontinued.

## Well Satisfied With Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that the Tablets are the very best medicine she can give her baby. They are a gentle laxative; mild but thorough in action and never lead to harmful constipation, colic, colds or any other of the many minor ailments of childhood. Concerning them Mrs. J. De Charret, St. Leon, Que., writes—

"My baby cried continually and nothing seemed to help her till I began using Baby's Own Tablets. These Tablets soon set her right and now I would not be without them."

The Tablets are sold by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville Ont.

## Signed Protocol On White Slavery

Canada One of Fourteen Signatories Desirous of Suppressing Traffic.

London, Oct. 7.—Canada is one of the fourteen states which have signed the protocol of the League of Nations convention regarding the white slave traffic. South America and France, which opposed the convention, have abstained from signing. M. Haastanz, the French delegate, insisting on the necessity for delay over a matter of pure form. Col. Obed Smith, the Canadian delegate to the last conference on this matter, told your correspondent that he was surprised at the lack of unanimity over such a grave question, where there should be but one opinion. Few of the other members of the conference, he said, realized how intractably this traffic was bound up with emigration. Col. Smith was also surprised that the women delegates, who might have been supposed to be deeply concerned in suppressing the white slave traffic at any cost, had no constructive plan for its extinction, and seemed more disturbed over the alleged indignity of curtailment of women's liberty, even in their own interests.

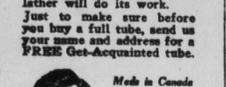

## ADVENTURES OF SWIMMER.

Adventure followed Miss Milla Gaudin, 22-year-old Danish swimming champion, on her 146-mile swim from Albany to New York City. Often dozens of boats followed along shouting encouragement. Once she was struck in the face by a big fish she thinks was a sturgeon. Farmers along the way brought her food. She swam with the tide in seven-hour sprints, sleeping between times on a motor boat.

Premet has shown a new sea green that may take the place with her and possibly with others of the various greens that we have called jade.

## WILLIAMS' SHAVING CREAM

Every Man Likes the Perfume. You don't have to follow exacting directions with Williams' Shaving Cream. Use this cream in any reasonable way. The wonderful lather will do its work. Just to make sure before you buy a full tube, send us your name and address for a FREE Get-Acquainted Tube.

THE J. R. WILLIAMS COMPANY 633 District St. Montreal

## CORNS

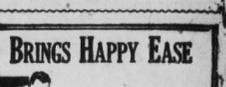

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

## Imperative "May" Replaces "Should" In Harvard Code

Unchaperoned Visits to Students' Rooms Calls Comment from "Crimson."

Cambridge, Mass., Oct. 7.—The difference between "should" and "will" has often been pointed out by polite gentlemen, but it remains for the Harvard authorities to demonstrate the difference between "should" and "may."

It has come about in this way: For years there has been a rule which said no young woman, unattended by an older woman, should be received in a student's room. Whether this rule failed to work cannot be learned, but the college silent have made a change this year, making the regulation "no young woman, unattended by an older woman as chaperone, may be received in a student's room."

"Why this change?" asks the *Crimson*, editorially. "Can it be that the deans have lost their faith in the ability of Harvard students to take a hint? Is it possible that they no longer consider the required reading of college life sufficient to keep the reader in the straight and narrow path for four years?"

"As with nations, so it is with colleges. When they are young and vigorous, high ideals find expression in the progress of the community and the virtues of the individual. These two factors lead to a period of great prosperity, as in Rome 2,000 years ago, or at Harvard today. Prosperity, in turn, by a rule never known to fail, leads to a moral slackening, slight at first, later accelerated—will ultimately result in the downfall of the society. The first symptom of this period of decadence is seen when the authorities find it necessary to make the laws more strict. In Rome the liberal republic gave way to a tyrannical monarchy at Harvard, the gentle 'should' is changed to the imperious 'may'."

"Men Harvard, despair no more! The fatal symptom cannot be mistaken. The oldest college in America has reached the apex of its glory. We can now only pray that its period of decadence be as long drawn out as was Rome's."

## Great Boon For Small Car Owners

Dunlop Rubber Company's New Straight Wall, 31x4 Cord Tire.

Users of cars taking 30x3 1-2 rims have now available a Dunlop Wall type rim, which allows the use of a 31x4 Straight Wall Cord Tire, recently developed by the Dunlop Tire and Rubber Goods Co., Limited.

The 31x4 Cord Tire, as previously stated, is made to fit the new Straight Wall rim in 30x3 1-2 size, and its introduction at this date is particularly interesting because the 31x4 Straight Wall Cord Tire represents an extension of the Straight Wall principle in tire-building to the smaller car tire. This makes it possible for owners of "Brisco," "Chevrolet," "Ford," "Gray-Dock," "Maxwell" or "Overland" cars to use the new Straight Wall Tire—if they so wish—by converting their present Clincher Rims into Straight Wall Rims.

Rim makers are now supplying 30x3 1-2 Straight Wall Rims to interchange with 30x3 1-2 Clincher Demountable Rims or Solid type 30x3 1-2 Clincher Rims.

The new 30x3 1-2 Straight Wall rim is exactly the same as the 31x4 1-2 Straight Wall rim except that it is twenty-four inches in diameter instead of twenty-five.

"31x4 Straight Wall" introduces a new size in Cord Tires, one that undoubtedly will be very popular because of the records it will set for tremendous mileage.

One Car Maker has already adopted the new Dunlop Cord Tire for equipment purposes, and the prospect is that others will follow the example immediately.

31x4 Straight Wall Cord is supplied in both "Ribbed" and the well-known "Treadless" designs.

## Upset Stomach, Gas, Indigestion

"Pape's Diapepsin" gives Relief in Five Minutes

Stomach acidity causes indigestion! Food souring, gas, distress! Wonder what's upset your stomach? Well, don't bother! The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful! Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a sixty-cent case of Pape's Diapepsin now! Don't stay miserable. Regulate your stomach so you can eat favorite foods without causing regret.

## What to Take for SICK HEADACHE

Take good doses of Carter's Little Liver Pills. They restore the organs to their proper functions and the cause of it pass away. THEY REGULATE THE BOWELS AND PROMOTE CONSCIENTIOUS

**CARTER'S LITTLE LIVER PILLS**

# VOTERS

The day New Brunswick decides to have liquors imported for beverage purposes, that day the province begins to drift toward anarchy.

Men and Women Beware! Be Warned!

The lawless, the rum-runner, the boot-legger, the liquor men, the booze-hound, the slanderer are all conspiring together against you for their own purposes and for their own enrichment. Don't be deceived by them, they have an axe of their own to grind.

The passing of the new law means safety for you and your family, but leaves him without his customers.

Remember, that on MONDAY next, OCTOBER 10th, you have the opportunity of your whole life-time to

GIVE PROHIBITION A CHANCE VOTE "YES"

and help eliminate the boot-legger, the thief, the murderer.

VOTE "YES" and prohibit the importation of liquors and give New Brunswick a chance to clean house.

Mark your ballot with an X opposite the word "YES" like this ballot.

Make no other mark.

Shall the importation or bringing of intoxicating liquors into the Province be forbidden? NO

Shall the importation or bringing of intoxicating liquors into the Province be forbidden? YES X

Issued by New Brunswick Temperance Alliance

# FOR WOMEN

## Why Do Opposites Attract Each Other?

A Law of Nature to Keep a Normal Level—Makes Life Interesting.

Why do short women prefer to marry tall men? This question is debated solemnly and in long scientific words at the second international congress of eugenics, meeting in New York.

The answer is: Because nature is constantly trying to even things up—maintain an average or normal balance.

Thus in a big gathering, folk instinctively pair off like this: Little women with big men, little men with big women, fat folks with thin, brunettes with blondes, hot-tempered people with those of gentle disposition.

Usually we are not conscious of our shortcomings until we see them in some one else.

Our subconscious minds, however, are not so easily fooled as our conscious minds. The subconscious recognizes faults, admits them and admires those who lack the faults.

And what if you haven't any faults? Then you unconsciously are drawn, like iron to the magnet, to those who have.

Fame men love to read about Jesse James and Napoleon.

Women who toe the mark strictly in life are thrilled by the vampires and villains of the movies.

Very Dull To Be Alive.

If we were all alike, this would be a dull and monotonous world. Like living with big men, little men with big women, fat folks with thin, brunettes with blondes, hot-tempered people with those of gentle disposition.

So dull civilization of bricks, paint, steel and tin cans is made interesting by our shrewd boss, Mother Nature.

If tall men, married tall women and fat men married fat women, as a pronounced human tendency, the world would soon become peopled with giants and monstrosities.

So dull disposition married only married dispositions, and vile temper married only vile tempers, the earth soon would have two distinct types—saints and devils. There'd soon be war.

Nature, desiring to keep a certain normal level, makes us attracted to our opposites, particularly in that oldest human institution, marriage.

Men, who think slower than women, have to ponder this and reason it out by the process called psychological analysis.

Women, with lightning brains, brains that work so rapidly their processes can't be followed and analyzed, know it by instinct, which is possibly nothing more than subconscious lightning thought.

Haven't you heard an old granny comment: "Oh, they'll be so happy! Such a well-matched couple! He so stark, she so fair!"

## FROM HERE AND THERE.

Training Him for Tarzan.

An Albert street, Ottawa, resident returned home the other evening to find himself locked out. He managed a cellar window entrance and found a note in his wife's writing on the table. "Have gone to see 'Tarzan of the Apes,'" it read. "The key is hanging up on the veranda post."

The Hawaiian village of Hialepa witnessed an August wedding in which the groom, D. Kalapana, was 181 years of age and his bride a widowed widow of sixty.

Marriage Proves Man's Man.

Man Afraid of Nothing. A Butte, Mont., brave, married a white woman on August 18th, and is now applying to have his name changed.

Searching Out Secrets.

Suspected of having swallowed two stolen rings, a woman prisoner at Rochester, N. Y., was subjected to X-ray examination, the rings being located and subsequently recovered.

Mrs. Patrick Campbell, who is appearing in the provinces in a one-act play, "The Terror," by Miss Gernance Dane, is devoting a large part of her spare time to writing her memoirs for which, it is understood, the title must likely be chosen is "Me."

The collecting of "maecors" to guard against any and every form of bad luck, is spreading in popularity.

## Reflections of a Bachelor Girl

By HELEN ROWLAND  
Ice Cream with Hot Chocolate Poured Over It Seems to Symbolize Man's Idea of An "Emotionally Interesting" Woman.

Man's first growl was uttered up because a woman gave him something to eat that disagreed with him—and he has been registering right on that key ever since.

The modern girl's perfect candor has taken the sin out of sincerity—and most of the sweetest social out of the flower of sentiment. Ah Duke! Without the Serpent, the Garden of Eden seems a dull old place to most men!

To be attractive makes a woman talked about—as far as women are concerned; but to be talked about makes her attractive—as far as men are concerned.

A wise woman will never let a man know that she loves him; she will concentrate all her energy and finesse on letting him know that he loves her—otherwise, he'd never find it out.

When a married man's eyes lights up at the sight of every pretty girl, it is not always a sign that he wants to flirt. It's just a sign that he enjoys the stimulating sensation of feeling that he could, if he would.

With all the women in the world trying to break the speed-record and most of the men obstinately blocking the traffic, no wonder poor old Progress doesn't know whether she's coming or going!

A woman's pity for a man who loves her against her will may be akin to love; but a man's pity for a woman who loves him without his permission is a twin-brother to boredom.

A cynic has said that man may believe the impossible, but never the improbable. Still, many a man believes himself, when he tells a girl that he will love her for ever and ever, and ever.

Ice-cream with hot chocolate poured over it seems to symbolize a man's idea of an "emotionally interesting" woman.

## Appeal To Women

To the women of Canada I make special appeal. The Government now in office, supported by the party which I have the honor to lead, extended to you three years ago the Federal franchise. Your rights of suffrage are now in every respect the same as the suffrage rights of men. This was done voluntarily, as an act of justice. The services of women in the war had been such that in the judgment of the Government and the party that supported it, their qualifications for franchise had been demonstrated and their right of franchise had been earned. Nevertheless there were those opposed to us who resented the Government's action in this regard and who still insist that such action was wrong. My appeal to women is not, however, on any ground peculiar to themselves, but my appeal to them is earnestly and thoroughly to study the great issue that now confronts our country and conscientiously to seek a conclusion on that issue from the standpoint of country-loving Canadians to refuse steadfastly to be moved by reckless and unsupported clamor of public men, or by the cry of prejudice or by class appeal. Through the long struggle of the war the women of our country proved themselves equal with men in stern unflinching patriotism and forward devotion to duty. I confidently hope that in the execution of the trust reposed in them now they will show forth an example of public conduct dictated by love of country alone and will thus vindicate to all the world their right to share with men the responsibility for public affairs.

(Signed) ARTHUR MEIGHEN.

## DISTRESS IN THE THROAT CAUSED GREAT ANXIETY

Not an uncommon experience is that of Mrs. H. S. Wilmet of Shulce, N. S.: "Many remedies failed, still splendid results were found in 'Catarrhoxone.' I have been a most distressed sufferer from Bronchial trouble and Catarrh. On damp days, I would hawk and suffer great distress in my throat. I used all kinds of medicines but did not get permanent relief until I used Catarrhoxone. It strengthened my throat; stopped my cough, and made me well." Try Catarrhoxone yourself—see what wonders it works on a bad throat, or croup, catarrh, bronchitis. Different from the old way, because you breathe Catarrhoxone. Get the dollar outfit which includes the inhaler and lasts two months. Small size 50¢. Dealers, The Catarrhoxone Co., Montreal.

## THE HOUSE OF TREES.

One your doors and take me in. Spirit of the wood; wash me clean of dust and dirt. Clothe me with your mood. Take me from the noisy light To the sunless peace. Where at midday standeth Night Signaling Toil's release.

All your dusky twilight stores To my senses give; Take me in and low the doors, Show me how to live.

Lift your leafy roof for me. Part your yielding walls; Let me wander hither and yonder Through your scented halls.

One your doors and take me in. Spirit of the wood; Take me—make me next of kin. To your leafy brood.

—Agnus Withersall.

Nothing seems utterly to sidetrack henna and copper tones, the lighter copper tones being especially liked, while among rose tints there is the new fleur de Bengale, and old-rose is a favorite of Jenny, who also makes use of bois de rose, or rosewood.

## Dandurine

Grows Thick, Heavy Hair  
35-cent Bottle Ends All Dandruff, Stops Hair Coming Out

Ten minutes after using Dandurine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp. Dandurine is to the hair what fresh showers of rain and sunshine are to vegetables and flowers, and it goes right to the roots, invigorates and strengthens them, helping the hair to grow long, strong and luxuriant. One application of Dandurine makes thin, lifeless, colorless hair look youthful, bright, lustreous, and just twice as abundant.

Its needs, so high will the snow come next winter.

If you kill a spider you bring down the wrath of the whole race of witches and they will make you rue it.

A spider running down the wall indicates a stranger is coming.

A spider seen at noon is the sign of joy.

In Japan spiders are considered evil beings. A spider seen anywhere at night should be killed, for all spiders that show themselves after dark are goblins. While people are awake and watchful they make themselves small, but when everybody is fast asleep they assume their true goblin shape.

STYLE NOTES.

Crepes, marocain, satin and velvet are favored for Paris afternoon frocks and the vogue for black or tulle de negre continues.

Many of the new coats show the one side fastenings in draped rather than straight Russian style.

Several of the Paris houses are showing a color that has been called honey; ochre has been revived and there is a reddish copper that is a favorite.

One of the famous Paris dressmakers stresses green and light copper for daytime clothes for the debutante with evening frocks of white or pink marbre, and it is said before long we will see a return to the sentiment that black is an unsuitable selection for the debutante, especially for evening.

## Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness.

He tells his own story in this letter.

Mr. Ralph A. Roberts, Loverna, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39.

"Then I read about people being restored by Dr. Chase's Medicine and after three months' use of Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

Dr. Chase's Nerve Food, 50c a box; Dr. Chase's Kidney-Liver Pills, 25c a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

## THE

Irregular Trade

Featured Activities On Montreal Market

Detroit Ry. and Mon Power Were in Line—Paper Stocks Erratic

Special to The Standard

Montreal, Oct. 7.—Detroit Ry. and Montreal Power were featured in an irregular market today, former on anticipation of receipt of cash dividends, on the other of which a local broker has with \$500 raising 2 points to 64, and ending 84 1/2 bid. Power rose 84 7/8 in the forenoon on speculation buying and closed the day at 84 3/4. Dominion Textile recovered 1 1/2 to 81 1/2. Other weaker side were Dominion Common, which reacted to 24 7/8 closed at 25, with a net loss point. Lyall which, despite the fact that it is likely to get the 000,000 Welland Canal contract, 2 points to 43. British Empire second preferred, which, it is expected, will not share in dividends considerable time and which was down 3/4 to 23 1/4, while the other was unchanged at 23.

The Papers were erratic. Bro 1 1/4 point to 29 1/2 and Bro 1 1/2 point to 30 1/2. Laurentide in 1-2 to 71 1/2 and Spanish preferred 46. Other stocks which figure in the trading in board lots were price 52 1/2 down 1-3; Car preferred 52 1/2; Canadian General 52 1/2 unchanged; Canadian 52 1/2 changed and Atlantic Sugar 52 1/2 changed.

Tram Power sprang into prominence in the trading in the afternoon. It has been generally expected that a better trading market in the shares would arise about the time of the Montreal Tramways issue, which now appears to be prospecting the stage of consolidation interest developed in the past company for the tram and power interests and it is considered that it should share in whatever interest developed in the past.

—Southern Canada Power maintained quiet but firm at 30.

# THE STANDARD'S FINANCIAL SECTION

## Irregular Trade Featured Activities On Montreal Market

Detroit Ry. and Montreal Power Were in Limelight—Paper Stocks Erratic.

Special to The Standard . . . . . Montreal, Oct. 7.—Detroit Railway and Montreal Power were twin features of an irregular market today, the former on anticipation of resumption of cash dividends, on the certainty of which a local broker has wagered \$500 raising 2 points to 64, and closing 84 1/8 bid. Power rose 3/8 to 84 7/8 in the forenoon on steady investment buying and closed the afternoon 84 3/4. Dominion Textile also showed marked strength with an advance of 3/4 to 136 3/4. Dominion Bridge, admitted by contract rumors, regained a point to 75. Ontario Steel recovered 1 1/2 to 51 1/2. On the weaker side were Dominion Steel, Common, which reacted to 24 7/8 and closed at 25, with a net loss of a point. Loyal which, despite persistence that it is likely to get the \$150,000,000 Welland Canal contract, broke 2 points to 63. British Empire Steel, second preferred, which, it is rumored, will not share in dividends for a considerable time and which sold down 3/4 to 23 1/2, while the common was unchanged at 9. The Papers were erratic. Abitibi lost 1/4 point to 29 1/2 and Brockton 1/2 point to 30 1/2. Laurentide improved 1/2 to 71 1/2 and Spanish preferred ex dividend 1 3/4 per cent, was up 3/4 to 66. Other stocks which figured in the trading in board lots were Breweries 5 1/2 down 1/8; Car preferred 1/2 unchanged; Quebec 24 1/8 up 1/8; Maple Leaf preferred 95 3/4; Cement preferred 85 to 1; Smelters 15, unchanged; Canadian General Electric 93 unchanged, B. C. Fishing 21 unchanged and Atlantic Sugar 30, unchanged. Train Power sprang into prominence in the trading in the unlisted section of the exchange today, advancing from 10 to 11 1/2 in a fairly active market. It has been generally assumed that a better trading market for the shares would arise around the time of the Montreal Tramways financing, which now appears to be approaching the stage of considerable interest. Train Power is the holding company for the tram and power interests and it is considered natural that it should share in whatever market interest developed in the proceedings. Southern Canada Power remained quiet but firm at 30.

## Dominion Textile Advance Prices On Yarns And Prints

Braxton Traction, Light and Power Makes New High Record in Earnings.

Special to The Standard . . . . . Montreal, Oct. 7.—Dominion Textile this week advanced their prices of all yarns, prints and staples which is an indication of the improved demand in the industry reflecting conditions throughout the Dominion. Although Dominion textiles mills are working to capacity, they cannot cope with the orders on hand. It is the story of buyers holding back when prices are low and now rushing in to buy when raw materials are advancing in order to be ready to participate in a further rise in prices. Dominion Bridge Company is reported to have secured the contract for the structural steel work on the Chateaufort extension which will be seventeen stories and will use up two thousand tons of structural steel. It was rumored today that Bridge is associated with Fraser Bros and Co. in the Manitoba ten million dollar contract but this neither firm would either confirm or deny. Bridge officials held a conference today with some New York interests in the head office here, the meeting being used as a warrant for the assertion that the company has secured another large foreign order. Another new high record in earnings with advances all round is shown by the statement of the Brazilian Traction Light and Power Company for August. Gross earnings reached 15,744,000 milreis, net earnings reached 9,439,000 an increase in net compared with the same month last year 3,287,000. This excellent showing is accompanied by some improvement in Brazilian Exchange, during recent weeks, which improvement however, has not been fully held. Aggregate gross earnings of Brazilian from January 76 to the end of August were 111,420,000 milreis, an increase of 26,798,000 while aggregate net earnings for the same period were 59,136,000 an increase of 13,809,000.

## Quotations At River Steamers

Large Amount of Game Received from Hunters up River.

At the boats arriving at Indiantown yesterday afternoon it was reported that quite a large amount of private game was coming down river, the woods evidently being well patronized by the hunters this fall. The river boatmen say the passenger lists are not large at the present time but that quite large amounts of freight are being moved and the following prices prevail at the boats: Potatoes are quoted at \$2.25 per barrel with the shipment. Butter is quite scarce and is bringing 42 per cent. Eggs are not very plentiful and are bringing 46 to 48 per dozen. Carrots and beets \$3.00 per barrel. Pork is being sold for 10 and 12 cents by the carcass. Hay is more plentiful than was predicted this summer and is quoted at \$25.00 per ton on up-river wharves.

## Directors' Meeting of Canadian S.S. Lines Held At Montreal

Considering the Question of New Bond Issues—Nothing Given Out to Public.

Special to The Standard . . . . . Montreal, Que., Oct. 7.—The Board of Directors of the Canadian Steamship Lines Limited, met at the head office here this morning. The session lasted nearly an hour and a half and was then adjourned for the lunch hour, reconvening at 3 o'clock. Besides routine business the meeting took up the matter of the new bond issue and considered various details not yet settled among them the price at which the issue would be made. Following the morning session J. W. Norcross, president of the company, who has returned from England, stated that he had nothing to say in connection with the issue the moment he said that he could not make a definite statement. While this would probably be settled this afternoon he did not think that there would be anything to announce until next week. Mr. Norcross stated that he could add little to what had already been said regarding conditions overseas. He admitted that conditions there were not of the best, he would say nothing else of his visit.

## Wall Street Looks For Greater Action During Next Week

The Uncertainties in Political Circles Hinder Business—Rails Featured.

New York, Oct. 7.—It's said in well-informed banking circles that political situation in Washington will clarify this week to a considerable extent and it's now evident that some favorable development is anticipated. The delay in the recognition of Mexico by Washington is believed to be due to dissatisfaction with terms of the Mexican Oil agreement. Easier call money rates are reviving investment inquiries. Lower figures will stimulate new buying, according to reports which are very optimistic for the future. Coppers appear to be more in demand than other stocks at the moment. Companies with silver and gold content in ores are subject to outside inquiry. In the early afternoon the market turned strong with Mo. Pac. Pfd. again a strong feature amongst the rails. Advances were made through the list but they did not get very far and seemed to be caused more by a general short covering movement than by any outside buying. Call money open at 4 1/2 advanced to 5 per cent and late to 5 1/2 per cent. This seemed to put a damper on the bullish sentiment for the time being, and the market eased off in the late trading. There was no particular significance to the late selling and trading remains on the whole dull and professional, net gains predominating at the end. Sales—553,600.

## Professional Trade

New York, Oct. 7.—The absence of public participation in the market in most marked and in the last few days the trading has become more than ever professional. The traders, seeing no buying, have switched, and have succeeded in getting stocks down. No liquidation has resulted and a rally is about due. Stocks should be bought on the dips.

## Chemical Products Met In Toronto

Expect to be in Profitable Operating Business When Conditions Mend.

Special to The Standard . . . . . Toronto, Ont., Oct. 7.—A statement of the financial position of Chemical Products Limited, prepared for submission to the shareholders at the annual meeting at Toronto, Ontario today, shows the possession of large plant and equipment which the company expects to put into profitable operation when business conditions have mended. There is no statement of profit and loss, but the balance sheet of June 30 last shows total assets of \$3,630,592 of which capital assets comprise \$3,031,197. Mostly made up of buildings, plant and equipment, entered at \$2,675,665. There are inventories of \$173,459; mortgage and capital stock subscription due from Ontario and Quebec finance corporation (from which the property was purchased) amounting to \$383,897, and with cash and accounts receivable, making total current assets of \$599,385, against current liabilities of \$308,723. Sales made between date of purchase and June 30 last amounted to \$45,572. Included in the statement of assets are three plants which the company does not intend to operate at the present time and entered at the following values: Smokeless powder plant, \$316,163; nitric acid plant, \$341,911; pyro-cotton plant, \$47,497. It is stated that the smokeless powder is practically fully equipped, but that the nitric acid and pyro-cotton plants are only in a partly finished condition.

## Spring Wheat Flour Takes Another Drop

This is Third Fall in Week With Lower Drop Looked For.

Montreal, Oct. 7.—There has been third lowering of price of spring

## Wheat Flour by the local millers. The drop being 20 cents a barrel. This is the third this week, or a lowering of 60 cents a barrel since Monday. First patents are now selling at \$8.10 a barrel; second patents at \$7.50 and strong bakers' at \$7.40. With the present downward tendency of wheat the bottom has not likely been reached yet. There has been no immediate reduction in winter wheat flour, but under present conditions, a drop may be looked for any day. The market is weak.

Quality maintains economy. You may pay less "per gallon" for other lubricating oils, but you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

## CUTS OPERATING COSTS-

THE economy of using Imperial Polarine Motor Oils extends over practically every item of motor operation.

The lubrication afforded at every friction point and the gas-tight piston-to-cylinder seal means a big saving in fuel bills and a noticeable increase of power.

Through perfect protection of all motor parts, undue repair bills are avoided and depreciation is greatly reduced. By using Imperial Polarine Motor Oils you can save dollars in maintenance alone. Besides, you realize more profit and greater usefulness from your car.

Always use the grade of Imperial Polarine recommended on our Charts for your type of motor. See Charts at your dealer's or write to 56 Church Street, Toronto, for a copy of our interesting booklet, "Automatic Lubrication," which contains the complete Chart of Recommendations.

BRANCHES IN ALL CITIES  
For a Clean, Efficient Motor

WE GIVE  
**IMPERIAL**  
**Polarine**  
MOTOR OILS  
**CRANK-CASE SERVICE**

Dealers displaying this sign will thoroughly clean the old oil and the grit and the dirt out of your crank-case; will flush your motor crank-case with Imperial Flushing Oil and refill it with fresh lubricating oil. Your crank-case should be cleaned every 1,000 miles or less. It means more economy and more satisfaction to employ Imperial Polarine Crank-Case Cleaning Service.

### RETIRE FROM ARMY AFTER 36 YEARS' SERVICE

Major General Wood Sworn in as Governor General of Philippines.

Washington, Oct. 7.—Major General Leonard Wood retired today from active service in the army to accept appointment as governor-general of the Philippine Islands, thus terminating his military career after 36 years of distinguished military life. His retirement was caused by insistence of administration officials that he accept the new post and the refusal of Congress to permit him to do so while continuing his active army status.

In announcing the general's retirement, Secretary Weeks said he soon would select a vice governor for the islands and expected immediately to commission General Wood to duty as governor-general. He announced also that nominations would be forwarded to Congress without delay promoting Big Gen. Charles J. Bailey, commanding the second coast artillery district, to fill the vacancy caused by General Wood's retirement.

General Wood began his army career as a contract surgeon in June, 1885, immediately entering service in the Apache campaign in Arizona and northern Mexico. As commander of an infantry detachment in that campaign he was commended "for gallant and heroic service, courage and energy" and later was awarded the Congressional Medal of Honor.

When the Indians were pacified he dropped his fighting weapons temporarily and again returned to the practice of medicine and surgery at Army headquarters in Arizona.

When the Spanish-American war was declared in 1898 he re-entered combat ranks organized and commanded the first United States volunteer "Rough Riders" and later was transferred to the Second Brigade, Cavalry division of the Cuban Campaign in which capacity he entered the fight at Las Guasimas and San Juan, Santiago.

When the Spanish forces surrendered the general was appointed military governor of Santiago, governor of the department of Santiago and civil governor of the island of Cuba. He turned the government of the island over to Thomas B. Palma, first president of the Republic of Cuba, in 1902, and returned to the United States.

Later he was ordered to proceed to the Philippines as commander of the department of Mindanao. He also served as civil governor of the Moro provinces and in other administrative work until 1908. Later he was a member of the special commission sent by the President to investigate conditions in the Philippines.

His record in the World War began with his assignment to select sites for the great majority of the training camps for national guard and national army troops in the southeastern department which he then commanded. Later he was assigned to Camp Funston, Kas., to organize the 89th division. With other divisional officers he went on a preparatory trip to France where the American army was in the making and he was injured there by the bursting of a French gun.

On his return to the United States General Wood completed the training of the 89th for battle but got no chance to serve with it abroad as he was relieved of duty by the evacuation, precipitating a controversy that raged in the press for months, even during General Wood's campaign for the Republican nomination for the presidency.

### \$37,500 In Liquor Is Seized On Pier

New York Oct. 7.—E. C. Yellowley, associate director of prohibition, containing his war on wholesale drug dealers whose business in liquor is not to the taste of prohibition authorities, yesterday ordered the seizure of another large shipment of whiskey. Five hundred cases, with a bootleg value of \$37,500, lying at Pier 21, East River, a Baltimore and Ohio freight station, will be taken away by enforcement agents this morning.

The liquor was consigned to the New Milford Chemical Company of 225 Sullivan street, and was shipped by the Rugby Distilling Company of Louisville, Ky. Inspectors on Mr. Yellowley's staff were not satisfied with the New Milford Chemical Company's right to receive this liquor, and the use is to be revoked.

John Cronan, acting chief enforcement agent in the absence of Ernest Langley, announced yesterday that enforcement headquarters is sending daily to the Custom House reports on from fifteen to twenty saloon keepers who have violated the Volstead Act, and are therefore liable to taxes collectable by the Department of Internal Revenue. For a single infraction of the liquor laws, these taxes, which have recently doubled, amount to \$3,000. There was a \$500 penalty, now \$1,000, provided for in the Volstead act itself, and a special tax under the internal revenue act of 1918 for violations in "dry territory" by which \$2,000 is collected for each violation.

**Catarhial Deafness May Be Overcome**  
If you have Catarhial Deafness or head and ear noises or are growing hard of hearing go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarhial Deafness or head noises should give this prescription a trial.

### Ship Board \$10,000 Seized By 3 Bandits

Paymaster Held up by Men in Automobile on His Way to Hog Island.

Philadelphia, Oct. 7.—A. D. Detweiler, Shipping Board paymaster, was robbed of \$10,000 which he was taking to Hog Island this afternoon. The money was the weekly payroll for men guarding the ships tied up at the Philadelphia wharves.

The bandits, in a blue touring car, got the money at 2:30 o'clock in black's road, near Fort Mifflin, just inside the city line. They escaped. Detweiler, with the money in a brief case beside him, was driving an automobile. He was going at a good pace when a large car loomed up, rousing rapidly toward him from the direction of Hog Island.

The paymaster got nothing unusual in the conduct of the three men in the car until it was only a short distance away. Then it began to slow down. Detweiler slowed his own car and drove carefully to avoid a collision. As he turned to one side to pass the big car rushed directly at him, crowding him across car tracks and into a ditch. Detweiler reversed his engine and began to back away when the three men, who had donned handkerchief masks, jumped out and snatched the money. The car sped away. Detweiler and the third lifted the hood of the paymaster's car and smashed the spark plugs of the motor.

Before the startled paymaster could resist one of the men snatched the bag containing the money, threw it into the car and the three bandits jumped in and drove away. Detweiler tried to get the license number of the car but the tags had been removed.

The Administration realizes, however, that if the British delegates insist upon bringing the allied debt into the discussion the United States will be forced to agree with Great Britain. The influence of the United States will be exercised as far as possible to prevent the United States from being kept out of the negotiations. The President does not want the conference to become involved in a maze of subjects. He wants it to concentrate on the business in hand.

### Girl Killed in Leap From Car To Plane

Madeleine Davis, in First Attempt at Stunt, Loses Grip on Rope Ladder.

New York, Oct. 7.—Miss Madeleine Davis of Fort Pierce, Fla., 23 years old, and for the last three years an exhibition aviator, was mortally hurt yesterday afternoon near Long Beach, N. J., when she tried to climb a rope ladder into an airplane from an automobile running thirty miles an hour. She clutched the ladder as she stood in the back seat of the car. Her grip broke and she was hurled to the roadway, where her skull was fractured. She died last night at 8 o'clock in a Long Beach hospital.

The automobile was driven by Miss Ruth Law, who reported the accident to the Long Beach Police Department and will appear in Police Court this morning. Miss Law said that she met Miss Davis by appointment at Shady Park avenue in the day and motored with her to Long Beach, where they met Vernon Treat, formerly a lieutenant in the Air Service, who has been flying one of Miss Davis's machines for some time.

Miss Davis had never performed the stunt of climbing the ladder into the airplane from a moving automobile, although she had done other feats that are considered as dangerous. She and Miss Law drove their automobile out into Ocean avenue near the Iron Pier until they reached a lone by stretch of the road, where Miss Davis's attempt at the stunt would not be interfered with by crowds or by other automobiles.

Treat drove directly over the road with his airplane, to which a twelve foot rope ladder was attached, and when at about thirty miles an hour he dived straight for the car, but straightened out and sailed above the machine so that the rope ladder swung through the air about three feet above the top of the back seat of the automobile, on which Miss Davis was standing. The girl clutched the ladder and was dragged from the automobile.

She dangled in the air for a moment, trying to climb the ladder, but when she let go with one hand to reach an other rung her strength was not sufficient and she dropped. She was unconscious when picked up and Miss Law took her at once to a hospital.

### Swiss Asked To Come To Decision

Berne, Oct. 7.—The Swiss Parliament, now in extraordinary session, must decide whether Switzerland shall insist on early payment of Austria's debt of 26,000,000 francs for foodstuffs.

The League of Nations commission dealing with the possibility of helping Austria to recuperate, wants Switzerland to waive payment until June 1, 1941, and the Swiss Government states its readiness to comply with the request if Austria's other creditors will do likewise. The United States and several small countries, however, have not agreed to allow Austria to postpone payments of their claims, and the Swiss opposition wants to know why a small and relatively poor country like Switzerland should do what a great and wealthy power like the United States refuses to do?

The Swiss Government remarks that whether Austria collapses or not is not a matter of indifference to Switzerland because she is Austria's neighbor, whereas the United States can hardly be much affected by such considerations.

### HARDING WILL OPPOSE DEBT TOPIC AT PARLEY

American Delegation to Use Influence to Prevent the Extraneous Slant.

Washington, D. C., Oct. 7.—It was made known officially at the White House today that the United States will oppose the suggestion of British statesmen that an adjustment of international loans be undertaken at the armament conference.

President Harding wants to open negotiations with the Allies for the refunding of the \$11,000,000 debt to the United States as soon as Congress grants authority to him to do so, but the American delegates will be instructed to use their influence against bringing this or similar extraneous questions before the arms parley.

The Harding Administration is prepared to deal with the question of foreign loans in a liberal and just manner but it does not propose to sacrifice any of the interests of the United States. The President and Secretary Hughes believe that addition of this question at the arms conference would not be beneficial. They intend to hold the conference so far as they can to the subjects which it has been called to consider—limitation of armaments and far Eastern problems.

Concentration Wanted. Much significance was attached to an official statement at the White House today that the United States as the sponsor for the arms parley will not hesitate to make known its opinion on all proper occasions as to its scope. The President does not want the conference to become involved in a maze of subjects. He wants it to concentrate on the business in hand.

The Administration realizes, however, that if the British delegates insist upon bringing the allied debt into the discussion the United States will be forced to agree with Great Britain. The influence of the United States will be exercised as far as possible to prevent the United States from being kept out of the negotiations. The President does not want the conference to become involved in a maze of subjects. He wants it to concentrate on the business in hand.

### Not Much Freight For South Africa

The freight which is offering the new steamer Calvary, which has been especially built for the South African service of the Elder-Dempster Company between Montreal, or St. John, and Capetown, Algoa Bay and Durban, is not encouraging for its maiden voyage.

The steamer today will only be about one-third full as to cargo. Included in the cargo will be three locomotives and three boilers built for the Montreal Locomotive works. "South African merchants," it was stated by one of the Elder-Dempster officials yesterday, "do not look for any improvement until well on in 1922 in trade between Canada and their own country. The explanation as to the slump is that merchants there, as elsewhere are overstocked with goods that they bought at high prices, and until they get rid of these stocks, they will not be buying in any large quantities."

The steamer Calvary, which is now lying at the sheds of the Elder-Dempster Company in Montreal harbor, is, as stated, a new vessel which was built early this year by J. Brown & Company, Clyde Bank, Scotland. Her tonnage is 11,000 d.w., 7,200 gross, 4,488 net tons, and her dimensions are 440 feet, 1 inch length, 59.2 feet beam, 31.1 feet depth. She has gearless turbines and is built especially for a trade route that crosses the equator, with refrigerator machinery, and in addition, the Calvary has accommodation of a first-class order for a dozen passengers of all which is fully booked for this voyage. AROUND THE CITY

BUSINESS AND PLEASURE
J. D. Alford, harbor master, is taking his usual two weeks' vacation.

WAS ACQUITTED
Joseph Fine was acquitted by Magistrate Altinghouse at St. John yesterday on the charge of stealing a coat.

OLD COUNTRY CLUB
The Old Country Club held a social and dance at their rooms in Orange Hall last evening.

COMMENDABLE SPIRIT
Through the courtesy of the Conservative Committee of Beausfield, the Liberals have been provided a place to which to hold their primaries.

MAKING ROAD INSPECTION
B. M. Hill, provincial road engineer, left yesterday morning on a tour of inspection of the road between the city and Sussex.

UNFOUNDED RUMOR
The rumor floating about the city yesterday that Spelman, recently found guilty of manslaughter in causing the death of Albert Norris, had made a confession is entirely without foundation.

RACE FOR SPEED BOATS
The racing committee of the Saint John Power Boat Club have completed arrangements for a speed boat race this afternoon.

PROBATE COURT
In the probate court, in the matter of the estate of Charles F. Brown, personal administrator, the will of the deceased was read.

Trades And Labor Council Meeting
At the regular meeting of the Trades and Labor Council held at their rooms last evening, F. A. Campbell, president, in the chair, there was a large and enthusiastic attendance.

Bridging The Gap Across The Falls
At two o'clock yesterday afternoon the centre bottom chord section of the new railway bridge was placed in position joining the eastern and western cantilever arms thus bridging the gap across the falls.

Members of Germain St. Baptist Y. M. A. Motored to Loch Lomond Last Evening
On Sunday last officers of the Germain Street Baptist Church Y. M. A. were elected, and yesterday they took off on a delightful motor trip to Loch Lomond and the president of the year closing, H. E. Hunt, presided at the dinner.

Mr. and Mrs. B. Atherton Smith spent Thursday in St. John returning yesterday to St. Andrew's N. B.

Visitors Were Well Received

St. John Home Visitation Yesterday Proved An Unqualified Success.

An unqualified success is the conclusion of those responsible for the religious census taken of St. John yesterday under the leadership of J. Shure Durbin.

At a shop where Mr. Durbin telephoned, the proprietor would not allow him to pay for the telephone and wished to supply refreshments for the ladies.

Moose Dinner Much Enjoyed

Members of Germain St. Baptist Y. M. A. Motored to Loch Lomond Last Evening

On Sunday last officers of the Germain Street Baptist Church Y. M. A. were elected, and yesterday they took off on a delightful motor trip to Loch Lomond and the president of the year closing, H. E. Hunt, presided at the dinner.

At the regular meeting of the Trades and Labor Council held at their rooms last evening, F. A. Campbell, president, in the chair, there was a large and enthusiastic attendance.

Bridging The Gap Across The Falls

At two o'clock yesterday afternoon the centre bottom chord section of the new railway bridge was placed in position joining the eastern and western cantilever arms thus bridging the gap across the falls.

Mr. and Mrs. B. Atherton Smith spent Thursday in St. John returning yesterday to St. Andrew's N. B.

Farewell Dinner To Dr. G. F. Matthew

Was Guest of Natural History Society at Union Club - Addresses Delivered.

A well deserved tribute to the worth of one who has brought honor to his native city and province was the farewell dinner given last night by the Natural History Society to Dr. George F. Matthew, who is leaving in the near future to take up his residence with his son in New York.

DR. G. F. MATTHEW.

In the chair, and had on his right the guest of the evening, and Hon. W. E. Foster, premier of the province, and on his left, Lieut.-Governor Pugsley and Mayor Schofield.

Following the toast to the 'King, the chairman read messages of regret at their inability to be present from Sir Douglas Hasen, T. H. Estabrook, Senator Thorne, Dr. J. Roy Campbell, R. C. W. S. Fisher and C. C. Jones and them called on W. F. Hatheway and Dr. L. W. Bailey to propose the toast to the guest of the evening.

Dr. L. W. Bailey said it gave him great pleasure and he esteemed it a high honor to be asked to propose the toast to Dr. Matthew, a man who had made large contributions to the scientific knowledge of the times, and had made the name of the city of St. John and province of New Brunswick known all over the world.

Dr. L. W. Bailey said it gave him unusual pleasure to be present and do honor to his friend and fellow laborer in the scientific work.

Natural History

Lieut.-Gov. Pugsley was called on to propose the toast to the Natural History Society, and Dr. William McIntosh to respond.

Hon. W. E. Foster was called on to propose the toast to the educational system and institutions of the province.

Government And Returned Men

Deputy Minister of D.S.C.R. Says There is a Better Understanding by Men.

E. H. Scammell, deputy minister of the D. S. C. R., who was recently in the city, in discussing the work of the department among the returned soldiers said he believed there was today a better understanding among the men as to just what had been done by the Dominion government in caring for the men who had been overseas during the war, and he pointed out some of the things which had been done and how they compared with other countries.

Defendant Says Things To Judge

W. A. Wetmore's Address in Police Court Interrupted by Being Fined.

A clash between Magistrate Ritchie and W. A. Wetmore, enlivened the proceedings in the police court yesterday while a number of traffic cases were being tried.

Mr. Wetmore was reported for exceeding the speed limit by Policeman Dykeman. The officer said Mr. Wetmore was going over 15 miles an hour and was quite sure he was going over twelve.

ON DOUGLAS AVENUE.

As a result of a number of complaints lodged at police headquarters regarding speeding on Douglas Ave., and of suspicious characters haunting the neighborhood, Chief of Police Smith, has stationed a plainclothesman in that section of the town.

An Open Letter

To the Citizens of New Brunswick: Our advertising throughout the campaign just closing, has contained absolute facts. We have, as we always do, given you the truth, and it was our wish to quote the Holy Bible in support of our cause, believing, as we do, that importation is purely an economic question and not a religious one.

BEAUTIFYING QUEEN SQUARE. Commissioner Frink yesterday announced the following plan for beautifying Queen Square next year.

YALE Means Security in the Highest Degree
The house, store, or other building equipped with Yale Locks has the advantage of the highest security possible in locks and fastenings.
