Long-Standing Blood Diseases are cured by the persevering use of Ayer's

Sarsaparilla. This medicine is an Alterative, and causes a radical change in the system. The process, in some cases, may not be quite so rapid as in others; but, with

quite so rapid as in others; but, with persistence, the result is certain. Read these testimonials:—

"For two years I suffered from a severe pain in my right side, and had other troubles caused by a torpid liver and dyspepsia. After giving several medicines a fair trial without a cure, I began to take Ayer's Sarsaparilla. I was greatly benefited by the first bottle, and after taking five bottles I was completely cured."—John W. Benson, 70 Lawrence st., Lowell, Mass.

Last May a large carbuncle broke out on my arm. The usual remedies had no effect and I was confined to my bed for eight weeks. A friend induced me to try Ayer's Sarsaparilla. Less than three bottles healed the sore. In all my experience with medicine, I never saw more

Wonderful Results.

Another marked effect of the use of this medicine was the strengthening of my sight."—Mrs. Carrie Adams, Holly Springs, Texas.

"I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted, I presume the malady is hereditary. Last winter, Dr. Tyron, 40f Fernandina, Fla.,) recommended me to take Ayer's Sarsaparilla, and continue it for a year. For five months I took it daily. I have not had a blemish upon my body for the last three months."—T. E. Wiley, 146 Chambers st., New York City.

"Last fall and winter I was troubled with a dull, heavy pain in my side. I did not notice it much at first, but it gradually grew worse until it became almost unbearable. During the latter part of this time, disorders of the stomach and liver increased my troubles. I began taking Ayer's Sarsaparilla, and, after faithfully continuing the use of this medicine for some months, the pain disappeared and I was completely cured."—Mrs. Augusta A. Furbush, Haverhill, Mass.

his name, for I have seldom seen so dry side of which a range of hills shut in refreshed, and strolled out to view my and yellow looking a man. On present. the view.

ing my note, Mr. Parchment surveyed me in silence a few minutes. So you are the nephew of the late presume ?

Being furnished with the necessary credentials, and agreeable to the terms of the will, I set out for Sussex. Upon inquiry, I found that Hernmere Place was some five or six miles from the nearest railway station; so, having my effects packed in a knapsack, I thought I might as well walk that distance. The way lay along a beautiful bend of the South Downs. The season was spring, and the cool breeze that came sweeping over the information about my uncle. hills was most exhilarating and laden with perfume. After climbing a long

gradual ascent that wound round a spur gradual ascent that wound round a spur of the Downs, I reached the summit.—
The view that opened was wild and splendid. Long clopes of flower-spangled

The left the old place exactly as it was reception at the hands of Mr. Saxon, of the wall, and ending in a small downs. flock of sheep, the tinkling of whose bells do say as some of the old Oldcastles walks his arms. After dinner our time was discovered in a crushed condition, and sounded quite musical. In the far dis-

wants his direction in view, I soon came to the rusty gates of Hernmere Place. The end what you do eat distresses you. You are low spirited and lanquid. You are nervous, and at nights roll and tosson your bed and cannot steep. This is all caused by wall extended on both sides of the gate evening before turning in for the night. Correspondence. To the Editor of the Advocate : On the 2nd inst, a large and influential eputation from Ontario and Quebec waited upon the Governor General and

esented petitions signed by about 59,000 persons qualified to exercise the Dominion franchise; and certainly His Excellency has not crowned himself with glory in his reply. Few persons expected that he would have disallowed the oboxious act, but fewer still thought that he would have adopted the course that he has. Why did he not have the speech of the Minister of Justice printed in pamphlet form and present it to the de-putation with the observation. "These are my sentiments?" This course would have saved the trouble of rehashing the nonsense and absurdities of that speech. He told the deputation that he did "not find any evidence that in this tury, the Jesuits have been less law-abiding or less loval than others." It would be interesting to know what his views of loyalty are. Has he ever read the hisory of the Jesuits? Has he ever read "The secret instructions of the Jesuits ?" Does he know that one of their declar principles is that they never cha Is he aware of the fact that when in the year 1773 Pope Clement XIV abolished the order "as a sect no longer to le endured by men," he was poisoned by the Jesuits? And does he for the Jesuits have been banished from every Roman Catholic and from almost every Protestant country in the world Any person who has read the hi that order and who now studies this celebrated Jesuits Act, and then says that he cannot see that they are no as law-abiding and as loyal as others must be oblivious to facts. What more onvincing proof that they are plotting against Protestant rights and British

At the General Assembly of the Pre byterian Church in Toronto a few weeks azo, Rev. Principal King of Winnipeg said that during recent years he has had co siderable intercourse in one way and another with Jesuit priests, and tha the

and with the language of a gentleman! His Excellency said :- The introduct plans for enlarging the House of Comtion of the name of the Pope may be mons abode. As it is it is deveid of unusual, and very likely appalatable to light or air. It is proposed to extend THE BOWELS. Purely Vegetable and pleasant to take. Sold by Fealers. Price 25 some as Protestants; but as it appears in the west wall of the Chamber some 25 ft. course of a recital of facts which had make new entrances and other improvepreviously occurred (and which, of ments. The new Press room will be on course, legislation could not obliterate or a level with the Gallery and thus obviate annul,) and there being, moreover as I the necessity of crawling up a dark narhave before stated, no such reference in the best of the Act, I did not consider stairs. A private entrance to the Chamthat her Majesty's authority was in any degree weakened or assailed, nor that I Lo one seems to be in any hurry about the cotton fields some miles east of the city, was compelled in the exercise of my duty alterations. They only statesman who and are destroying the bolls. as her representative to disallow the Act appears to thrive on the noxious air of the House is the Premier.

Now let us see. In a letter of Cardinal Then A. D. Turgeon, S. J. Procurator of than apologize. of the J. suits Fathers, acting under authority from Rome, writes to Mr. Mercier

one way of commemorating in the politi- Ottawa in about ten days and shortly it was realy ambergris, and the result cal history of the Country, that glorious after start on the British Columbia trip concordat, the effecting whereof would passing through the Nothwest. ILL HEALTH AFFECTS THE MILK.

Sercral questions have been asked lately relative to the health of cows as whether or not a cow having a cer tain disease affects the quality of he milk. These facts bave been notic ed; that whenever cows drink impure water, or eat a considerable quantil of certain odorous foods, the milk wil he tainted more or less, according to he character of the food or crink.

Again, when a herd of cattle haeen driven rapidly or chased by log just before milking, the milk wil not remain sweet so-ling as it othe. vise would. Fur hermo e, it ha been noticed by many, no doubt hat a cow which has had a sudder change in her feed, or an overdose of some very nutritions food, it offer affects her calf seriou ly, especially

Certain diseases are known t have been transmitted to the cal', and even to man, through mile from iseased animals, tuberculosis, for example. Cows kept in fil hy statil's To overcome the marks of age, all have caused serious sickness to perwind the have gray beards should use Buckingham's Dye for the Whiskers, the est and cleanest dye mide for coloring brown or black.

Analyse. Cows kept in they stables to perhaps the habit of walking. Sometimes boys get in the habit of walking with their heads lown, and stooped shoulders is the estated down as a rule that whalever the coloring brown or black.

The great danger of Canadian The growth of the British mercantile marine is one of the marvels of the present age, and illustrates beyond doubt that "there is life in the old land yet."

J. H. PHINNEY.

Now, 1811 Sept. 29, 1836.

The growth of the British mercantile marine is one of the marvels of the present age, and illustrates beyond doubt that "there is life in the old land yet."

England stands supreme as a commercial and maritime power. She owns over one half of the entire ocean tonuage of the maritime power. She owns over one half of the entire ocean tonuage of the world, the exact figures being 51.4 per thought would have an instantaneous thousand the more the better.

The growth of the British mercantile was gently requested to precede, fertilizers. The cheapest and by far the best fertilizers. The cheapest and b

The average boy's life on a farm s not al ogether an enjoyable one He rices early, works hard all day. inds himself too tired at night to erjoy reading or other intellectual pas'ime, goes to bed, rises early egain, and drudges on in the same routine, usually with no pecuniary aterest in the enterprise. Set apart a few acres for fruit growing and give the boy so'e charge of it with al' or a share of the profits. It his does not brighten the boy and ie him to the farm try him on poultry or fancy cattle. Every boy has leaning towards some pursuit, and t is the father's duty to give him an, opportenity to develop his peculiar

faculties. The mulen werd, so often a nuisnce in our pastures, is cultivated in England in private garders, and very much admired, under the name of

Best of All

Cough medicines, Ayer's Cherry Pec-toral is in greater demand than ever. No preparation for Throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known as this. It is the family medi-cine in thousands of households. "I have suffered for years from a bronchial trouble that, whenever I take cold or am exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried a great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in returns of my old complaint."— Ernest A. Hepler, Inspector of Public Roads, Parish Terre Bonne, La.

"I consider Ayer's Cherry Pectoral a

"I consider Ayer's Cherry Pectoral a most important remedy For Home Use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults."—Mrs. E. G. Edgerly, Council Bluffs, Iowa.

whether in children or adults."—Mrs.

E. G. Edgerly, Council Bluffs, Iowa.

"Twenty years ago I was troubled with a disease of the lungs. Doctors afforded me no relief and considered my case hopeless. I then began to use Ayer's Cherry Pectoral, and, before I had finished one bottle, found relief. I continued to take this medicine until a cure was effected. I believe that Ayer's Cherry Pectoral saved my life."—Samuel Griggs, Waukegan, Ill.

"Six years ago I contracted a severe cold which settled on my lungs and soon developed all the alarming symptoms of Consumption. I had a cough, night sweats, bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectora!. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever."—Bodney Johnson, Springfield, Ill. " Ayer's Cherry Pectoral,
