In all those progressive movements and reforms which advance moral, social and material improvements, Your Majesty's reign surpasses every other in English history. It has been pre-eminently conspicious for social progress, material development, scientific advancement, the expansion of industrial and commercial pursuits so conducive to human happiness, the spread of education among all classes, the enlargement of people's rights, the full adoption of colonial self-government throughout the empire, and the introduction of the beneficent principle of friendly arbitration in adjusting international disputes; and in the benefits and friendships arising therefrom we have abundantly shared.

The Best Joke of the Season.

The St. John Record says:—The only journal in New Brunswick supporting the Tweedie—Emmerson so called government, springs the following—the best joke of the season. "The session of the legislative assembly of New Brunswick closed DR.

If you don't understand it, it does not signify—it is just as true backwards as forwards. It appears in a St.

There are many ways in which people may prove benefactors of the human race. There are those who of their abundance spend large sums in erecting public buildings and beautifying public parks. Any one can use

Paint that is properly prepared and use it in the right place. The difficulty is that most people do not know the difference between good paint and poor paint, nor the proper place to use even a good paint. All paints are not alike. One may be good for outdoor use, and not for indoor use, one may give a bright, glossy finish, another an oil finish that can be washed. It is knowing what to use, and where to use it, that makes painting a success.

THE SHERWIN-WILLIAMS FAMILY PAINT Our booklet "Paint Points," covers the ground. It tells what you need to know about good or bad paint. It tells what to use for a buggy, what for a bath tub, for iron bedstead, for a house, for a floor, for a bench. It is a practical book for the home. It is free to any address. Send for it to-day. JOSEPH HOWE.

The name of Joseph Howe is still a household word in Nova Scotia, and even throughout Canada, aihough he died many years ago. He was perhaps the ablest and most brilliant speaker that ever graced the legislative assemblies. Many good anecdotes are told of him. We subjain two. During a prolonged debate in the legislative assembly of Nova Scotis in which he was deeply terested, an opponent made a engthy speech in a very blustering manner with no point, who frequenty took a drink of water which was copiously supplied to him for the great occasion.
