Desperate Doings in the Illinois Mining District.

Conflict Between Strikers and Sheriff's Deputies.

The Governor of the State Favors the Strikers.

A Number of Persons Killed and Wounded-Militia Sent to the Scene of Trouble.

Springfield, Ill., Oct. 13.-Telegrams to State President Hunter, of the Mine Workers of Illinois, say a battle has been fought between striking miners at Virden and negroes imported from Alabama. The men guarding the train bearing negroes fired repeated volleys into a crowd of miners at the platform of the depot as the train rolled into soon as it came into our town." the station, killing a number of men.

A DESPERATE BATTLE. shots were exchanged between the strikers on one side and Sheriff at he was shot in the stomach. Davenport and his deputies and railroad police on the other side. It is thought that at least twenty men on both sides were killed and wounded. The best information is that ten were killed, five fatally wounded and five seriously wounded. A Chicago and

Alton special policemen is among the killed. His name is D. H. Killey. When the train bearing the negroes arrived it was met by fully 1,500 armed miners, who were lined up on each side of the track. The train was stopped immediately in front of the east gates of the stockade, and the trouble began. Dozens of shots were fired from the stockades at the white men, while the strikers were half a mile away.

TROOPS CALLED OUT. The governor ordered Capt. Craig, in command of Battery B, and the Sons of Veterans' companies at Pana

to proceed at once to Virden, THE VICTIMS.

A special from Virden, Ill., says nine men on the train were killed and thirteen wounded. Ten miners were killed and sixteen wounded. The train pulled out for the north, and the cars were shot full of holes.

A REPORTER KILLED. A reporter for a Chicago paper was killed at the Chicago and Alton depot

by a stray bullet. J. F. Eyster, manager of the company, was shot and trampled on by the miners. He cannot live. It is imposible to find out how many were killed in the stockade. DETAILS.

Virden, Oct. 13.—A Chicago and Alton special train, bearing 200 negro miners from the south, arrived at 12:40 p.m. at the stockade around the Chicago-Virden Coal Company's mines, and immediately terrific fighting began. The list at 10 o'clock stood seven dead and eighteen wounded. The dead are: Ed. Welsh, Spring-

field; Frank Bilyieu, Springfield; Albert Smith, Mount Olive; Joe Kitterly, Mount Olive; Ernest Keutner, Mount Olive; A. H. Brenman, Girard; D. H. Killey, a Chicago and Alton detective. Insurance.

It is said that six men were wounded inside the stockade, but this has not been verified.

WAITING FOR THE NEW-COMERS For the past two weeks rumors have reacheed Virden daily that a train, having negroes from Alabama, would reach the city, and the Chicago and Alton depot has been surrounded day and night by vigilant miners, determinedly awaiting their arrival. At 12:40 the special train passed the sta-

south end of the train, announcing the special's arrival. THE BATTLE BEGUN.

tion. Signal shots were fired from the

Immediately shots were fired from the moving train and outside, and the battle begun. A few moments after the train had passed the switch where Killey was stationed, and while he was talking with two citizens, he threw up his hands and dropped dead, with a bullet through his brain. He was the first man killed. The train continued to the stockade, the miners firing into it all along the route, and the negro passengers returning the fire.

A CONTINUOUS VOLLEY. The moment the train reached the stockade the miners opened a desperate fire with Winchesters, revolvers, and firearms of all kinds. The negroes on the train answered with a strady fire. The miners of the train were enveloped in a cloud of smoke, and the, shooting sounded like a continuous volley. The engineer was shot in the arm, and dropped from his seat. His fireman seized the throttle, pulled it open with a jerk, and the train was under speed, carrying a load of wounded passengers to Springfield. The train stopped at the stockade but two minutes. Its departure did not cause the firing to cease. The tower of the stockade was filled with sharp-shooters, and they kept a steady fire into the union miner's ranks. Eye-witnesses say the dead miners' were killed

after the train had departed.

INSIDE THE STOCKADE. An Associated Press representative secured admittance to the stockade. He found one man, A. W. Morgan, of Chicago-dead, and seven seriously wounded. There were about 35 men stationed inside the stockade, each keeping watch through a loop-hole. Manager Lukens remained at his desk in the office inside the stockade all night, issuing orders to his men.

BLAMES THE GOVERNOR. Manager Lukens said: "The blood of every man shed here is on the governor's head. He is absolutely outside of the law, and has no justification whatever in refusing to send troops to Speaks in Regard to the Fashoda protect the men brought here by us His statement that the miner had the same right to fight for his property, which was his labor, as the mine owner did to protect his property, inspired these men to the action which they took today in firing upon the train as

SHOT DEAD. A detail of militia last night shot and killed ex-Lieutenant of Police Virden, Ill., Oct. 13 .- The arrival of Tom Preston, of Chicago, at the stockthe imported negro miners from the south at 12:30 yesterday was followed the by-standing miners the command by a desperate battle. Five hundred to halt, and Preston continued walkshots were exchanged between the ing back to the gate. The militia fired,

WOUNDED EIGHT DEPUTIES. Springfield, Ill., Oct. 13 .- The special train which brought the Alabama negroes to Virden, and which was rushed through here, had eight wounded men, all deputies, on board. these one man died last night-Wm. M. Carroll.

John M. Hunter, president of the Illinois district of the United Mine Workers, lies at the Collins House in a critical condition. Mr. Hunter got on the train which bore the colored miners to this city, and engaged in conversation with two of the negro miners. Some of the deputy sheriffs saw Hunter, and, attacking him, pushed him off the train while it was moving rapidly. A man who happened along later saw Hunter lying near the track in an unconscious condition, placed him, in his buggy and took him to the Collins House.

CAUSE OF THE TROUBLE. Chicago. Oct. 13 .- The difficulty at the Virden mines originated April 1, 1898, when the miners of the fourth district of Illinois went out on a strike instituted by the United Mine Workers. Trouble followed at Rana, but the Virden mines remained quiet through the summer. The strikers had asked for 40 cents a ton and were offered 28 cents. Actual disturbances at Virden began Sept. 25, when the Chicago-Virden Company, the principal mine owners at that point, imported a hundred negroes from Birmingham, Alabama. When the train arrived with the men on board, it was met by a large body of armed union miners, who threatened to shoot the first negro that stepped from the cars. The negroes were finally prevailed upon to return to the south and the mines were not operated. President T. C. Louck, of the Chicago-Vir-

den Company, then proceeded to make preparations to get other miners. THE GOVERNOR WARNED. Oct. 9, Sheriff Davenport notified Governor Tanner that there would certainly be trouble, and that state troops were needed to preserve the peace. The governor asked if it was the purpose of the coal company, in the event of troops being sent, to import miners from other seats to take the place of the strikers. Supt. Luckens, who was with sheriff at the time the request was made by telephone for the militia, said that the company proposed to operate its mines in its own way, and that they expected to import tabor both white and colored from the Southern

States. The governor told him that the best class of miners got employment at home, and only the criminal class would come-men who would soon quit work and get into the poorhouses, jails and penitentiaries, and become a burden on the taxpayers of the state; that he was opposed to the system; that while there was no law to keep them out of Illinois, he did not propose to use the arms of the state to give protection to the mine owners in operating their mines with this class

THE MANAGER'S STATEMENT. Lucken, according to Governor Tanner, replied that the mines would be at all hazards, that the company would employ such labor as they saw own arguments as the arguments of fit. that they would import this labor and operate the mines with it, even if they had to do it at the point of they had to do it at the point of the same of the sa the bayonet and the muzzle of the language employed by M. Hano-Winchester. No troops were sent.

The next day Mr. Louks notified the was in office, they will put the claims

governor that his mines would be operated and demanded the protection of the state. The matter had been brought before the State Board of Arbitration and that board decided

IN FAVOR OF THE MINERS. but also decided that an injustice had been done the Chicago Virden Company. From this point the trouble has been a dispute between Governor Tanner and the mine operators, carried on by telegraph and other communications. The governor steadily REFUSED TO CALL OUT THE

STATE TROOPS and charged the operators with importing ex-convicts and an undesirable

class of workmen. The operators declared that the men they desired to bring to their mines had been chosen for their ability and their capacity to become good citizens. They also say they are willing to take back the strikers at the scale of 28 cents a ton, but that they could not open their mines at the exorbitant demand of 40 cents. The mines, it is asserted, are operated in accordance with the state law.

Sheriff Davenport has been in sympathy with the governor, and offered

MINERS REINFORCED. One hundred Springfield miners reinforced the Virden strikers on Oct. 10, armed and determined to prevent the negroes from going to work. Armed men have since been practically in possession of the town. A rumor was circulated the day before yesterday that a small body of negroes had been landed from a train just outside of Virden, and under cover of darkness conveyed to the stockade. They were suposed to be making the shaft ready for the miners who were to come. This made the strikers more than ever vigi-

Manager Luckens, of the Chicago-Virden Company, swore out a writ of injunction against 34 of the leading strikers. These men had run out of town four ex-policemen who had been hired by the operators. The strikers had not displayed violence against others until thy began to suspect that more negroes were to be brought in.

EX-PREMIER

Affair.

Acknowledges Responsibility for the Present Policy, And Backs Up Every Word and

Syllable of His Former

Declaration.

London, Oct. 13 .- Lord Rosebery, the Liberal leader and former premier, presiding at an agricultural dinner at Epsom, referred to the critical situation on the Upper Nile. He said:

As I was responsible, personally and ministerially, for the declaration of Sir Edward Gray on which the present policy in regard to Fashoda is founded, and as I have no disposition to recede from a word or a of that declaration-(loud cheers)—I feel bound to say a few guarded, and, I hope, inoffensive words on a subject so vital to our interests. There are two or three considerations in connection with the question which make it of supreme gravity, the greatest being that in face of a deliberate warning that a particular act would be considered an unfriendly act; that act, in spite of great geographical difficulties: great hardships and almost insurmountable obstacles, has been

deliberately committed.

"UNFRIENDLY." The word "unfriendly," used diplomatically, is of exceptional weight and gravity, and when used to denote an act committed by one government against another, the situation is grave. On that point I will say no more. Behind the policy of the government in this matter there is the untiring and united strength of the nation. It is the policy of the nation itself, and no government that attempted to recede from it or falter therewith would last a week. I am perfectly certain that no idea has entered the heads of her majesty's present advisers. THE NATION SUPPORTS THE GOV-

ERNMENT. They have only to maintain the attitude revealed in the blue book, and the nation will maintain any sacrifice and go to any length to sustain their action. On the other side of the channel the question of the flag is an element of great gravity. We all honor that flag, and would not wish it the slightest disrespect, but, after all, a flag is portable, and I have some hope that the flag in this case is not the flag of France, but of an individual explorer, and not, therefore, carrying the full weight of the republic behind it. Among the

REASSURING FEATURES the fact that M. Delcasse, the French minister of foreign affairs, has received the representations of Great Britain in a conciliatory spirit. By denying the existence of a Marchand expedition he has deprived Major Marchand of the official character, which would give the hoisting of the flag a much more serious aspect, and, in spite of the contrary statement of Capt. Loitard and Major Marchand, I hope to find that the mission of Major Marchand, conducted far from French territory and across territory to which France has no claim, though other nations have, will prove to be of a local and not an authoritative character. But I found still greater hopes upon the fact that in urging the

SUPREMACY OF EGYPT in the territories temporarily abandoned, we are using not so much our

Tar and Tamarack.

of Egypt to these territories in a manner so authoritative that it will not be in the power of any government to

repudiate them." After mentioning the untenability of Marchand's isolated position, Lord Roseberry said: "These considerations lead me to hope that the incident

will be PRACTICALLY SETTLED. in a conciliatory manner; but France must understand that their can be no

compromise of the rights of Egypt." Referring, in concluding his speech, to the "general disposition in recent years to treat Great Britain as negligible quantity and to infringe upon her rights in various parts of the world," his Lordship said: "The present government has shown no want of conciliation-some think too muchand a conciliatory disposition that is widely misunderstood."

BRITAIN'S ANCHENT SPIRIT LIVES If the nations of the world are under the impression that the ancient spirit of Great Britain is dead, that her resources are weakened, and that her population is less determined than ever to maintain her rights and the honor of her flag, they make a mistake that can only end in disastrous conflagration. The strength of British ministers does not lie in the votes they command in parliament, but in the intrepid spirit of a united people. Let other nations remember that cordiality between nations can only rest upon mutual respect for one another's rights. Both Africa and Asia have recently furnished strange object lessons in international law and international practice. If that mutual respect be not cultivated, we shall ultimately relapse into a state of things most perilous to peace and the wel-

fare of humanity. The speech was punctuated with loud cheers.

ROSEBERY COMPLIMENTED. The London newspapers are unanimous in applauding the propriety portuneness and importance of Lord Rosebery's speech at Epsom. The Times says it would be difficult to overvalue Lord Rosebery's singularly impressive and timely observations. He reappears from virtual retirement in fense of the policy of continuity in foreign affairs. It may be hoped that his pregnant comments will open the eyes of the French to the perils in the path they are inclined to pursue and so tend

to a pacific settlement. THE FRENCH WILL QUIT The Paris correspondent of the London Daily Chronicle says: that Major Marchand's return from Fashoda by way of Cairo has already been arranged on both sides."

The Russian newspapers urge that the question the possession of Fashoda on the Nile, in dispute between Great Britain and France, may be settled by arbitration.

A DINNER PILL. - Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment, it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. FIND RENEWED STRENGTH BY USING

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE.

Its Victims Are Pale in Color, Subject to Dizziness, Palpitation of the Heart and Other Distressing Symptoms

[From the Echo, Plattsville, Ont.] Anaemia, which literally means bloodlessness, is prevalent to an alarming extent among young girls and young women of the present day, and is a fruitful source of "decline" and consumption. The symptoms of this consumption. The symptoms of this trouble are many, but among the most noticeable are pallor of the face, lips and gums, shortness of breath on least exertion, dizziness, severe headaches, weakness of the vital organs, palpitation of the heart, and dropsical swelling of the limbs. The more of these symptoms shown, the greater the necessity for prompt treatment.

Among those who have suffered from anaemia and found a cure is Miss Emily Webb, a young lady residing near Wolverton, Ont. Miss Webb says: My illness first came on when 1 was about 16 years of age. My complexion was a pale, waxy color; I was troubled with general weakness, dizziness and palpitation of the heart. I was placed under medical treatment, but the medicine prescribed by the doctor did not appear to do me the slightest good. As time went by I was slowly but surely growing worse. I was unable to do any work about the house, and my limbs would tremble to such an extent at the slightest exer-tion that I could scarcely stand upon my feet. Then my stomach became so weak that I vomited almost everything I ate; I grew despondent, and feared I would not recover. While ia this condition a friend urged me to try Dr. Williams' Pink Pilks, and I followed the advice. After I had used two boxes I noticed an improvement and my heart was gladdened with the hope of renewed health. At the end of six boxes my appetite had fully returned, and with it strength, color to my cheeks, and brightness to the eyes. I still continued taking Dr. Williams' Pink Pills until I had taken in all twelve boxes, and I can truthfully assert that I am healthier and stronger than I ever was before. I owe this to Dr. Williams' Pink Pills, and I would urge all girls who suffer as I did to give them a fair trial.

NERVOUS PROSTRATION.

Hartland, N. B., Advertiser says: "Right in our own village is reported another of the remarkable cures that made Dr. Williams' Pink Pills so popular throughout the land. The case is that of Mrs. E. W. Mill-The Advertiser interviewed her husband, who was glad to relate the circumstances for publication, that others might read and have a remedy put into their hands, as ic were. 'For five years,' said Mr. Millar, 'my wife was unable to walk without aid. One physician diagnosed her case as coming from a spinal affection. Other doctors called the malady nervous prostration. Whatever the trouble was she was weak and nervous, her limbs had no strength, and could not support her body. There also was a terrible weakness in her back. Three months ago she could not walk, but as a last resort, after trying many medicines, she began to use Dr. Williams' Pink Pills. Improvement was noted in a few days, and a few weeks has done wonders in restoring her health. Today she can walk without assistance. You can imagine her de-light as well as my own. We owe her recovery to Dr. Williams' Pink Pills, and I recommend them for any case of nervous weakness or general debility. Mr. Millar is part owner and manager of one of our lumber mills, and is well known throughout the country."

A PERMANENT CURE.

FIND RENEWED STRENGTH BY USING

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Its Victims Are Pale in Color, Subject to Dizziness, Palpitation of the Heart and Other Distressing Symptoms

[From the Echo, Plattsville, Ont.] Anaemia, which literally means bloodlessness, is prevalent to an alarming extent among young girls and young women of the present day, and is a fruitful source of "decline" and consumption. The symptoms of this trouble are many, but among the most noticeable are pallor of the face, lips palpitation of the heart, and dropsical swelling of the limbs. The more of these symptoms shown, the greater the necessity for prompt treatment. Among those who have suffered from anaemia and found a cure is Miss Emily Webb, a young lady residing near Wolverton, Ont. Miss Webb says: My illness first came on when I was about 16 years of age. My comand gums, shortness of breath on least exertion, dizziness, severe head-I was about 16 years of age. My complexion was a pale, waxy color; I was troubled with general weakness, dizziness and palpitation of the heart. I was placed under medical treatment, but the medicine prescribed by the doctor did not appear to do me the slightest good. As time went by I was slowly but surely growing worse. I was unable to do any work about the house, and my limbs would tremble to such an extent at the slightest exertion that I could scarcely stand upon my feet. Then my stomach became so weak that I vomited almost everything I ate; I grew despondent, and feared I would not recover. While ia this condition a friend urged me to try Dr. Williams' Pink Pills, and I followed the advice. After I had used two boxes I noticed an improvement and my heart was gladdened with the hope of renewed health. At the end of six boxes my appetite had fully returned, and with it strength, color to my cheeks, and brightness to the eyes. I still continued taking Dr. Williams' Pink Pills until I had taken in all twelve boxes, and I can truthfully assert that I am healthier and stronger than I ever was before. I owe this to Dr. Williams' Pink Pills, and I would urge all girls who suffer as I did to give them a fair trial.

NERVOUS PROSTRATION.

"Right in our own village is reported another of the remarkable cures that made Dr. Williams' Pink Pills so popular throughout the land. that of Mrs. E. W. Mill-The Advertiser interviewed her husband, who was glad to relate the circumstances for publication, that others might read and have a remedy put into their hands, as it were. 'For five years,' said Mr. Millar, 'my wife was unable to walk without aid. One physician diagnosed her case as coming from a spinal affection. Other doctors called the malady nervous prostration. Whatever the trouble was she was weak and nervous, her limbs had no strength, and could not support her body. There also was a terrible weakness in her back. Three months ago she could not walk, but as a last resort, after trying many medicines, she began to use Dr. Wilhiams' Pink Pills. Improvement was noted in a few days, and a few weeks has done wonders in restoring her health. Today she can walk without assistance. You can imagine her delight as well as my own. We owe her recovery to Dr. Williams' Pink Pills, and I recommend them for any case of nervous weakness or general debility. Mr. Millar is part owner and manager of one of our lumber mills, and is well known throughout the country."

A PERMANENT CURE.

A motion to amend clause 4 of the constitution was laid over for a year.

In the absence of W. J. Dougherty, of London, Mr. A. T. Cooper, of Clinton, read the report of the treasurer, which showed the finances of the union which showed the finances of the union to be in good shape.

The press editor, Rev. Dr. Dickson,

read his annual report, and Miss Lettie E. Wiggins, of Toronto, the junior superintendent, gave a very enthusias-

tic report for the junior union.
The president, Rev. Wm. Johnson,
then delivered his annual address, and then delivered his annual address, and was listened to with great interest. He reviewed the work of the past year and urged upon all Endeavorers the necessity for personal fellowship with Christ; for Bible study; for working hard in the Sunday school; for trying to secure Christian legislation in municipalities. As well as in the municipalities, as well as in the country at large. He deplored the indifference of the electorate towards Christian legislation, and pressed upon his hearers the need for men to become Christian citizens in every sense of the term. The Christian Endeavor movement the world over had army to be marching with, and its objects, whether "Christ Enthroned,"
"Cities Emancipated," "Christianity Emphasized," or "Country Evangelized," was making a grand record in the world's history of this latter part of the nineteenth century.

Mr. G. Tower Ferguson, of Toronto, delivered an excellent address on the Canadian council.

Denominational rallies were held in the Presbyterian, Methodist, Congregational, Baptist, Church of England and Disciples of Christ churches. The largest meetings were in the Congression largest meetings were in the Congregational and Presbyterian, owing to the presence of Rev. Francis E. Clarke at these meetings. Tea was served at the Congregational Church, and a very pleasant evening spent at ea b of the services.

Fully 3,000 people attended the first evening session of the convention. The hall was brilliantly illuminated, and the large audience evinced a keen interest in every item on the programme except the congregational singing. The singing of the choir was so much appreciated that the audience were satisfied to let them do it all.

HOW TO GET STRONG.

The greatest medicine in the world for building up and strengthening an enervated system is Dr. Williams' Pink Pills for Pale People.

When the summer is over thousands feel worn out, easily tired, and, to use a common expression, "miserable generally." The almost torrid heat of our Canadian summers is responsible for this. Those who are in this condition are unfitted to meet the sudden changes of autumn, and easily fall a prey to disease. In this condition Dr. Williams Pink

The Condition of France.

The life of France, and of Paris especially, is at the present time in a leverish condition, owing to a variety causes. The latest news from Paris tells of an enormous strike, which may easily develope into something worse. This, added to the wretched Dreyfus affair, must cause anxiety to all true friends of France. According to La Patrie, the English journals are constantly slandering France, and those who control the telegraph correspondence are in a conspiracy to destroy her fair name. That journal vowed that it would protect France from the lies of the telegraph, and it did so by printing the latest Esterhazy stories as "English yarns." As a matter of fact, this correspondence comes largely through American sources, and the correspondents seem to send the most sensational news from all quarters. That, however, is a common weakness of sensational journalism. So that, to talk about a conspiracy among English journalists to destroy the good name of France, is absurd. Surely we are not asked to believe that the Dreyfus business is an invention of the telegraph, and that the complicated peries of "cases," duels and suicides, is mon-existent? It is either true or not true that this extraordinary affair has eaten into the heart of French politics. La Patrie's own correspondent, anti-Dreyfusard as he is, will bear witness to this. As to Esterhazy, it is not denied that he fled to London, and as the Chronicle pointed out, if any newspaper slandered him there, his remedy lies near at hand. The English people have no particular admiration for such an unmitigated liar, and no desire to have their law courts filled with the overflowings of the French cesspool.

We have every sympathy with La Patrie's sensitiveness and jealousy for French national honor, but we think that in this case it is carried too far. On the same principle, the prominence It gave to the Hooley scandals, might be described as a conspiracy against the English honor. By all means let us have truth, and the kind of honor that is consistent with the truth, as any other kind is worthless. We do not believe that the shameful action of a few lords represents the real life of England, any more than we believe that the whole French nation is made up of liars, on account of the Dreyfus perjurers and forgers. But we believe that in all such cases the importent thing is to get at the truth, and let the evil doers suffer. Having said this, we will content ourselves with giving two out of the many reasons why all sensible English people deplore the present unrestful condition of France, and trust that it will soon give way to a more wholesome state of things.

First, because in it there lies danger of war, not because France, or England, or any other European country, desires war, but because the French army and the French people are in a condition for doing something desperate without sufficient reason. Such a war would be a disaster for Europe and for France. It would be a crime and would cast lasting disgrace upon statesmanship of Republican France. It may be that in even hinting at this possibility we may be suspected of a desire to slander France, but we know that this fear is shared by some of the most thoughful people both in England and France. The Fashoda incident derives an importance on this account that it would not possess in itself. The race for empire in Africa is not exactly a footrace, and though one may admire Marchand's bravery and perseverance, it cannot be supposed that his expedition can be allowed to stand in the way of the serious business that Britain has undertaken in Africa. England has done all that diplomatic courtesy can do, and is not prepared for further concessions. The treatment of Englishmen in Madagascar is a sufficient object lesson of what is meant by handing such territory over to the xclusive power of France. Those who ow no zeal for Roman Catholicism Paris are prepared to back it by itary force in distant territories. ce, we are told, is going to be the pion of the "open door" in Africa. re very glad to hear it, if only it inctly understood that the "open stands for freedom of comand the fullest civil and relifreedom which the conditions of e will allow. There are knotty ems, and subjects that are apt to be discussed with undue heat; but we believe that the common sense of Englishmen and Frenchmen will be equal to the occasion, if the present condition of France does not cause her representatives to rush into some rash

Another reason for real sorrow on the part of liberal British is the fact payers in any other part of the city. that the present state of things in France brings disgrace upon her republican institutions, and leads many to think that she is incapable of selfgovernment. Those who have watched with sympathy the struggle of the Republic for a quarter of a century, are beginning to despair; and those who despise all parliamentary institutions, and preach the "gospel of autocracy," point with triumphant air to what they regard as its break-down in France. Men who were friends of the Republic have cried that constitutional govern- fact, it would be better all round if

ment is dead, and that the army is master, instead of servant. All this is sad, and we trust it will soon pass away, and that France will be the purer and stronger for the terrible or-

Frenchmen as well as ourselves must learn to place the truth first. They must encourage openness and honest speech, and must be willing to admit that there is something higher than the honor of the army. We do not think that it is good for Europe or for the world, that France should be weakened and degraded, but the ostrich policy of sticking the head in the sand, and refusing to recognize unpleasant facts, will never save a man or a na-

About Centenarians.

One hears now and then of alleged centenarians in Canada-persons who have reached the age of 100 years. Often, however, there is doubt as to the facts, and the average man is apt to distrust the evidence. One hundred years is a pretty long span of life, and the general dubiety of which we have spoken is not in the least degree unnatural or unreasonable.

There are authentic instances of extreme longevity, however. We can mention one, namely, Donald Waters, father of Mr. John Waters, ex-M.P.P. for North Middlesex, and now Registrar for East Middlesex. Donald Waters was born Aug. 26, 1801, at Harland, parish of Alrig, Caithnessshire, Scotland. He is, therefore, in his 98th wear. He has lived in Canada nearly 60 years. The records are in existence, and in this case there is no doubt as to the fact that Donald Waters is nearly 100 years old.

It would be well worth the while of Dominion and Provincial statisticians to follow up, where possible, reported instances of centennial longevity. The results of the research would be as interesting as any other figures, apart from the incidental testimony as to the healthfulness of Canada

The Advertiser would like to hear of any other authentic cases of extreme longevity that nearly approach 100 years. Perhaps some of our contemporaries would kindly assist the search, by reproducing this para-

The Advertiser is not in search of suppositious centenarians, but of cases fully or reasonably authenticated.

Civic Reform in Hamilton. Alderman Hobson, of Hamilton, has

introduced a resolution calling for a reduction of the number of aldermen from 21 to 14. In speaking to his motion, Ald. Hobson said he was certain there was extravagance in the management of city affairs, and there was enough money being raised in the city to carry on the business and make good city streets without borrowing a cent. He thought the two-year term would be a good thing, the influence of individual constituents not being likely to be so strong as under the present system. One alderman would be elected for each ward for two years, and the reduction in representation would, he thought, conduce to an improvement of the personnel of the

Commenting on Ald. Hobson's resolution the Spectator says:

"The proposed reduction of the number of aldermen is a step in the right direction; but it does not go far enough to do any good. There is no practical difference between two representatives for each ward and three. Things would be no worse if there were four or five representatives for each ward. Outside its value as an admission that we have too many aldermen we cannot see that the proposal to reduce the council to fourteen would have any practical beneficial result. The ward system, with all its evils, would remain, and therein lies the bulk of the trouble. The committee system, with its ward wire-pulling and sectionalism, would remain. . . The abolition of the ward system entirely is the thing to be aimed at, and it can be accomplished as easily as any half measure.

We cordially agree with our contemporary's opinions. Ald. Hobson's proposal is only a half-hearted attempt at reform and does not strike at the root of the trouble. Let us look at the chief argument used in support of the ward system. It might chance that if aldermen were elected by the whole city, one of the districts known now as wards, might fail to be represented in the council by any of its residents. It might be that half the aldermen-elect would be residents of one ward. In such a case the people in the ward or wards represented in the council by less than their former quota of members, might fear that their interests would be neglected. This is the bogey always held up by the ward advocate. The fear is ungrounded. Such people should bear in mind that when wards no longer exist every alderman-elect will be just as responsible to them as to the rate-

The main part of city work into which ward-grabbing enters is in street improvements. It is here the wardheeling alderman gets his "pull." He grabs all he can for his own constituents, regardless of the rest. This is only natural. The electors are oftener to blame than the alderman. They would charge him with neglecting their interests if he did not grab as much as his rivals. They look on him as the medium by which they must obtain everything. As a matter of

the aldermen had nothing to do with street work. That should be left entirely to the engineer's department. Improvements would then be done where they were most needed. During Mayor Little's regime an effort was made to throw off ward influence in the Board of Works, with what splendid results everyone knows. More genuine, permanent improvements were effected in those three years than in ten years before. This year, we regret to say, there has been too much aldermanic pressure on the officials, and the money has not gone as far as

The Molsons Bank.

The management and stockholders of the Molsons Bank have every reason to be satisfied with the annual report, a synopsis of which is published elsewhere in this issue. The net profits of the year were \$259.191, earned on a capital of \$2,000,000, with a rest of \$1,500,000. The dividend paid was 8 per cent, and in addition a 1 per cent bonus of \$180,000, while the profit and loss balance was increased from \$26,829 to \$81,020. It would seem that the Molsons Bank is rapidly nearing a 10 per cent dividend. With its usual progressiveness it is reaching out to the west, and in the course of the year opened branches at Victoria, Vincouver and Revelstoke.

Messrs. Dryden and Gibson will be elected in time to share the good things at Premier Hardy's banquet.

An uprising is said to be imminent in Jamaica, but it is not thought our American cousins will interfere from philanthropic motives.

Since the United States Government was formed it has spent \$807,073,65; in fighting the Indians, and apparently the job is not finished yet.

The Municipal Council of Paris has named a new street Rue de Fashoca. They will probably rue their patriote haste before the Fashoda incident is closed.

The Klondike is going to ask for representation in Parliament. There would have to be a big grist of naturalization papers taken out before much voting could be done.

The municipal reform movement has spread from the Atlantic to the Pacific. We noted, a day or two since, a demand for improvement in Victoria, B. C. Now the Halifax Chronicle wants something new and effective in civic government.

The Parnellites are not consulting the welfare of Ireland in opposing an Anglo-American alliance. The alliance would increase American influence in Great Britain, and that influence would be friendly to Ireland. But Irish interests are not always served by Irish politicians of a certain stripe.

Mr. Aylesworth, the Liberal M. P. P. for Lenox, has resigned his seat and saved the cost of an election trial. He has no doubt found that some overzealous supporters have broken the law. Mr. Aylesworth and his friends deserve credit, not censure, for acknowledging the corn. They did not count on perjury or the spiriting away of witnesses to defeat justice in court.

Mr. White. Reuter's correspondent in the Klondike, whose dispatches hinted at corruption there, has reached Ottawa and been interviewed by the Minister of the Interior. White confesses that he knows of no official malfeasance. Miss Shaw, who has been making similar charges in the London Times, will be in Ottawa shortly, and if she can back up her accusations she will do more than anyone has yet

Our contemporary the London Free Press seems disposed to raise the race and religious issue in connection with the anti-prohibition majority in Quebec. Yet on the 24th of September our contemporary, with hands uplifted, earnestly besought its Conservative readers to avoid any attempt to introduce partisan politics into the campaign. If our contemporary now, after the contest, goes out of its way to introduce the very issues which on the 24th of September it deprecated, it will commit an error of judgment and of

Mixing Politics and Grog. [Sarnia Observer.]

The London Free Press has been rampantly anti-prohibition throughout the plebiscite campaign, mixing its Toryism with its grog liberally, denouncing the Grits for temperance leanings. This was when it appeared probable that prohibition would receive the approval of a majority of the votes cast throughout the Dominion. Now that the returns indicate the defeat of prohibition, owing to the immense anti majority polled in Quebec, the Free Press has become a howling prohibitionist, and is demanding in its shrillest and most peremptory manner whether the majority of the provinces in the Dominion "are to be overruled Quebec in morals as they are in politics?" If the result had been dif-ferent the Free Press would have been just as insistent in its demand to resist the domination of what it has all along been denouncing as the "prohibition fanatics.'

CANADA'S NEW WINTER SERVICE

From St. John to Liverpool-Canadian Ports Preferred to American.

Ottawa, Oct. 13.-The winter steamship service between St. John and Liverpool, for which a subsidy of \$20,-000 was voted at last session of parliament, will be provided jointly by the Allan and Dominion lines, the contract having been awarded to these companies. The arrangement provides that while the vessels shall start from St. John, they shall make Halifax a port of call inward and outward. It is identical with that of last year in all important respects, excepting that the service will be performed by the Allan and the Dominion lines instead of the Beaver line. The contract covers a period of six months, beginning with November and ending with April. A steamer will leave St. John every week. The Allan and the Dominion lines have for years made Portland their winter port, giving the Canadian winter ports of St. John and Halifax the go-by. It is the policy of the Liberal Government, however, to build up the Canadian maritime cities and to encourage Canadian carrying com-panies. Unexcelled facilities for the handling of freight at St. John and Halifax will be pirovided, and the Intercolonial and C. P. R. short line will afford theap and rapid transit to the Canadian seaboard.

HIS NARROW ESCAPE.

Mr. John N. Babcock's Experience With Dodd's Kidney Pills,

Snarbot Lake, Ont., Oct. 10 .- No resident of this place is better known to the thousands of tourists and sportsmen who visit us annually, than is Mr. John N. Babcock.

Mr. Babcock has had many thrilling experiences, but the narrowest escape he ever had, he tells of in these words: "After 20 years of pain, caused by Gravel and other Kidney Complaints, I am pleased to be able to state that I have been completely cured by Dodd's Kidney Pills. During these years I have spent hundreds of dollars for doctors and remedies, but only Dodd's Kidney Pills helped me."

A Virile Poem on "The Truce of the Bear."

Aimed at Russia and the Czar's Dis armament Proposal.

The following is Kipling's latest joem, "The Truce of the Bear," which has not yet been published in Canada. It is a Kiplingesque drive at the czar's peace proclamation. Russia is person- several drunken U. S. officers. ified as "the bear that looks like a man," and the world is warned to beware the brute when "he shows as seeking quarter, with paws like hands

Yearly, with tent and rifle, our careless white men go By the Pass called Muttianee, to shoot in the vale below.

Yearly by Muttianee he follows our white men in— Matun, the old blind beggar bandaged from brow to chin.

Eyeless, noseless, and lipleas-toothless, of broken speech, Seeking a dole at the doorway he mumbles his tale to each-

Over and over the story, ending as he began: "Make ye no truce with Adam-zad-

the bear that walks like a man! There was a flint in my musket-When I went hunting Adam-zad the bear that stands like a man. looked my last on the timber, I named Elkins. looked my last on the enow "When I went hunting Adam-zad fifty

"I knew his times and seasons as he knew mine that fed night in the ripened maisefield and robbed my house of bread-

knew his strength and cunning, as he knew mine that crept "At dawn to the crowded goat-pens, and plundered while I slept. "Up from his stony playground-down

from his well-digged lair-

"Out on the naked ridges ran Adamzad the bear, 'Groaning, grunting, and roaring, heavy with stolen meals, "Two long marches to northward and I was at his heele!

"Two full marches to northward, a the fall of the second night, came on my enemy Adam-zad all weary from his flight.

"There was a charge in the musketpricked and primed was the pan-"My finger crooked on the triggerwhen he reared up like a man.

"Horrible, hairy, human, with paws like hands in prayer "Making his supplication rose Adamzad the bear! "I looked at the swaying shoulders, at

the paunch's swag and swing, 'And my heart was touched with pity for the monstrous, pleading thing.

"Touched with pity and wonder, I did not fire then * * * * have looked no more on women-I have walked no more with men. "Nearer he tottered and nearer, with paws like hands that pray-"From brow to jaw the steel-shod

paw, it ripped my face away! "Sudden, silent, and savage, searing as flame the blow-Faceless I fell before his feet fifty

summers ago.

"I heard him grunt and chuckle-I heard him pass to his den. 'He left me blind to the darkling years and the little mercy of

'Now ye go down in the morning with guns of the newer style.
"That load (I have felt) in the middle and range (I have heard) a mile? "Luck to the white man's rifle, that shoots so fast and true, "But-pay, and I lift my bandage and show what the bear can do!'

(Flesh like slag in the furnace, knob-bed and withered and gray— Matun the old blind beggar, he gives good worth for his pay.) "Rouse him at noon in the bushes, follow and press him hard-"Not for his raging and roarings flineh ye from Adam-zad.

"But (pay and I put back the bandage) this is the time to fear, When he stands up like a tired man, tottering near and near; When he stands up as pleading, in monstrous, man-brute guise, When he veils the hate and cunning

of the little swinish eyes. When he shows as seeking quarter, with paws like hands in prayer,
"That is the time of peril—the time
of the Truce of the Bear!"

Eyeless, noseless, and lipless, asking a dole at the door, Matun, the old blind beggar, he tells it o'er and o'er; Fumbling and feeling the rifles, warming his hands at the flame, Hearing our careless white men talk of the morrow's game;

Over and over the story, ending as he There is no Truce with Adam-zad, the bear that looks like a man!"
—Rudyard Kipling.

Corset Fit

Intimate anatomical knowledge and the exercise of great skill are absolutely necessary, not only in the cutting, but in the boning of a pair of corsets, if durability, fit and comfort are to be attained

In the celebrated French P. D. Corsets each bone or steel has its calculated width and thickness and each its correct position, according to the special service it is called upon to perform.

Rigidity will be found where it is necessary, flexibility of greater or lesser degree, being provided in accordance with the demands of other positions, the aim being to supply with the minimum of weight a perfeet fitting, thoroughly comfortable, yet durable corset. The tailor-cut, hand-sewed, French Corset, the

GATLING GUNS MAKE PEACE

All Quiet at Virden-Large Force of Troops at the Scene of Wednesday's | Weds an Actress at the Holland House Conflict-Not a Local Miner Killed.

Virden, Ill., Oct. 13.-The town is quiet today. Two Gatling guns of the Galesburg Battery on the public square, and a blue-caped infantryman at each corner in the business district is about the only evidence of yesterday's riot outside of the O'Neill home. a story and a half cottage.

In the front yard of this home stand five black-covered coffins, on each of which there is a single plate engraved with the words "At rest." Under the lids are the remains of five of the victims of yesterday's battle at the stockade of the Chicago-Virden Coal Company's mine.

Coroner Hart has empaneled a jury and will endeavor to place the responsibility for the shooting.
Col. McKnight, of the governor's staff, acompanied by Adjutant Riese, sult is perfect health. Sold in 50c botat night visited the stockade of the Chicago-Virden Coal Company and served formal notice on Manager Luckens that the soldiers would visit the stockade today and disarm all the inmates. Col. McKnight expresses the opinion that there will be no further outbreak on the part of either

the union miners or guards at the stockade. Upon the arrival of the soldiers from Pana, two Gatling guns were taken to the public square, where they command the business section. Guards were thrown out, and the remainder of the soldiers were quartered in the

opera house.

There is a feeling among the people of the town who are not connected with the mines that the Virden miners are not responsible for yesterday's tragedy. A striking incident is the fact that in yesterday's bloody work not a single Virden miner was killed, and only one slightly injured. After a careful investigation the list of dead and wounded remains at 10

killed and 20 wounded. "ALWAYS TAKE THE G. T. R. WHEN YOU CAN. S. S. S.-SAFETY. SCENERY AND SPEED."

-The monthly meeting of the Young Ladies' Mission Circle of the First Methodist Church was held on Tuesday evening. A most interesting report of the branch meeting of the W. M. S. at Goderich was given by the delegate, Miss Emma Gurd. The newlyelected president for the year, Mrs. (Dr.) Eccles, tendered her resignation and Miss Rhoda Hobbs was unanimously elected to fill the vacancy. Arrangements were made for a song recital to be given by Mrs. H. de M. Harvey on Tuesday evening, Oct. 25.

-Mr. Ernest T. Martin, who delighted the large audience at St. Andrew's Church on Tuesday evening, will sing again in that church shortly. Mr. Martin is the possessor of a remarkably fine tenor voice, and his rendering of Sullivan's well-known "Lost Chord" and "On Carmel's Hill" (Rodney) was a rich treat. In fact, all of Mr. Martin's numbers were sung in an artistic manner, his articulation being exceptionally clear. Londoners will be glad to hear Mr. Martin again.

On the night he lost his property, Mr. Nicholls reached the station at Belle River as the train was pulling out. He just had time to throw the grip aboard and climb on himself. The trouble arose because the grip did not stay on board, and its owner did. As a result of this separation, Dame Rumor was not long in making a variety of interesting explanations.

WEDDED AT ST. PETER'S.

The wedding of Miss Mabel Annie, daughter of Daniel Moloney, of this city, to William Francis Tye, of Truro, B. C., chief engineer of construction, Canadian Pacific Railway, was solemnized at St. Peter's Cathedral yesterday morning. The contracting parties are well known in the city, and a large number of their friends witnessed the ceremony. Mr. Tye, of Haysville, brother of the groom, was groomsman, and Miss Egan, of Belleville, assisted the bride. Rev. Father Tiernan officiated.

Mashud Waziris Make a Raid, But Skedaddle Before the Troopers-Russian Barbarity.

London, Oct. 13.-Lord Salisbury has written to the parliamentary committee of the Cardiff corporation with reference to the proposal that the arms of Wales should be included in the royal standard. His lordship points out that the proposal is a novel one, and he does not feel that the present moment is opportune for introducing so important an alteration into the arms of the royal standard, which were established at the time of her majesty's coronation by order in council. He fears there would be considerable objections, both constitutional and heraldic, which would militate against her majesty's approval of the proposed change.

WAZIRIS ON THE WARPATH. A telegram from Simla, India, says: A small party of Mashud Waziris suddenly descended from their hills and raided villages near Jandola. Coming across a levy post, the Waziris opened fire, and killed one of our men and wounded two others. The noise of the firing brought a cavalry escort upon the scene, and the troopers were received with a volley, but without sustaining any harm. The raiders then bolted back towards their own country. They are now being hotly pursued by cavalry and infantry from Jandola. Gen. Egerton has summoned a great gathering of the Afridis at a great gathering of the Afridis at Peshawur on Oct. 24, at which the terms of the Indian Government in respect to the custody of the passes will be announced.

RUSSIAN BARBARITY. A shocking incident in Siberian prison life is reported from the settlement of Zherdovka, in the Lena district. An officer named Posherba, in charge of a newly-arrived gang of convicts, developed symptoms of insanity. He tortured the unfortunate prisoners, and finally refused to give them their rations. A murmur of revolt arose from the wretched gang. Calling the guard out. Posherba ordered it to fire a volley at the starving exiles, several of whom fell dead at the first discharge. Another volley was fired, and

CHIEF SAMORY CAPTURED. Paris, Oct. 13.-According to a dispatch from St. Louis, capital of French Senegambia, it is reported there that Samory is a West African chieftain. who for nearly thirteen years has been the most dangerous antagonist the Europeans have had to deal with. After ten years of guerilla warfare he was driven out of the Soudan, but he then made a swoop upon the fertile region of Kong, a dependency of the French coast. Since then Samory has been repeatedly heard from. At the time of the war between the British and Ashantis it was reported that he intended joining King Prempeh against the latter's enemies; but this he did not do. About two years ago the French, Government decided to send a punitive expedition against him, after he had surprised and routed a detachment of French troops sent to occupy territory which it is said he had offered to evacuate. Last winter the French occupied Odienne and Sambatigilla. Since then a desultory warfare has been carried on against

Their bodies were afterward mutilated by a mob. The wife of Kim Hong Niuk has been sentenced to three years' imprisonment and to receive 100 lashes.

Mme. Albani, the prima donna, will go to Balmoral on Oct. 29 to pay a brief visit to the Queen.

The number of men in Paris returning to work was greatly increased this morning, and the meeting of the strikers was poorly attended. In fact, the strike of the laborers employed by the building trades is considered ended. A typhoid epidemic is just now raging in the eastern suburbs of London. The medical men report that the development of the disease is due to the milk from dairy farms, where many cases of typhoid have recently been discovered.

The Government of Morocco has paid to the Italian legation the sum of 150,-000 francs and to the Portuguese minister 200,000 francs as indemnity for the robberies of Italian and Portuguese subjects on the Rif coast.

Advices just received from Samoa say the German warship Bussard has brought Chief Mataafa and other exiles to Apia. Mataafa, it is added, promised to be loyal to the government, and to observe the Berlin convention. The kaiser will be received on his arrival in Jerusalem by a hundred Germedicine for cholera, dysentery, etc., man maids of honor, all dressed in white and wearing white lilies.

The G. T. R. Situation-Sir Chas. Rivers Wilson's Report of His Trip to Canada.

London, Oct. 13.-At a meeting today of the shareholders of the Grand Trunk Railroad of Canada, the president, Sir Charles Rivers-Wilson, read the report and gave an account of his trip to Canada. He had found it impossible to come to an arrangement with the Canadian Pacific Railroad, pending a settlement of the rate war between the Canadian Pacific and the American lines, and he had offered to refer the matter to arbitration. Continuing President Rivers-Wilson said the matter rested there.

On the other hand, he was glad to say that all the Grand Trunk's interests in connection with the Central Vermont Railroad had been arranged by satisfactory agreement, the details of which could not yet be published, pending the completion of legal formalities. The outlook, the president said, in conclusion, was good and improving.

Vice-President Price spoke of the excellent condition in which he had found the railroad tracks. Mr. William Baker struck a discordant note by asking a number of questions, to which curt answers were given. These answers, however, satis-

The Pain in the Back Was So Bad That He Couldn't Do It Before He Took Doan's Kidney Pills.

Lame, painful, aching backs-plenty of them all over Canada.

But they're getting less and less every day since people have begun to find out that all kinds of bad backs are due to kidney derangement, and that Doan's Kidney Pills is the remedy. Mr. John Macdonald, 120 Patrick street, St. John, N. B., is one of those who never fail to speak a good word for Doan's Kidney Pills, as they cured his aching back and relieved his urinary troubles when everything else failed.

He worked at the lumber business for years, and the heavy lifting, as well as the exposure to cold and wet. brought on a serious complication of kidney troubles. He suffered greatly with pain in his back just over the kidneys, and a burning, smarting sensation in passing water, which amounted to agony.

"I hadn't finished the second box of Doan's Kidney Pills," said Mr. Mac-donald, "when the pains all left my back, and I can stoop and straighten up without the slightest difficulty. My urinary trouble disappeared, and today I am feeling stronger and in better health than I have been for years." That's the way Doan's Kidney Pills always act. They never fail to cure your kidney trouble, and—more than that—they invigorate and strengthen your entire system. Sufferers from Backache, Urinary Prouble, Bladder Weakness, Puffiness of the Feet or under the Eyes, Dizziness, Headaches, Lumbago, Soreness of the Muscles, etc., should not fail to give Doan's Kidney Pills a trial. They'll cure when all else

fails. Sold by all druggists, or sent by mail on receipt of price, 50 cents a box, or three for \$1 25. The Doan Kidney Pill Company, Toronto, Ont. Ask for DOAN'S and refuse all others.

was in the room. Not the Lucille he had looked upon last-not the heart-broken woman. There were no signs of heart-break in those bright, dancing eyes, those quivering lips and flushed cheeks. Rising, he was regarding her in amaze, when, closing the door she ran towards him.

There was a coldness in my stomach, and a weight which seemed like a rock. Everything that I ate gave me great pain; I had a bearing down sensation; was swelled across my stomach; had a ridge around my right side, and in a short time I was bloated. I was treated by three of our best physicians but got no relief. I was so weak I could not walk across the room without assistance. Then Dr. Pierce's Golden Medical Discovery was recommended to me and I got it, and commenced the use of it. I began to improve very fast after the use of a few bottles. The physicians said my disease was leading into putmonary consumption, and gave me up to die. I thank God that my cure is permanent."

Molson, Herbert Molson, Thomas Kirby and W. R. Miller.

The president having called the meeting to order, requested Mr. James Elliot, the local manager, to act as REPORT OF THE DIRECTORS.

The general manager, Mr. F. Wolfer-stan Thomas, then read the annual report of the directors, as follows: Montreal, 10th October, 1898. Gentlemen,-The directors beg to submit to the shareholders the fortythird annual report of the bank for After making full provision for bad

All branches of the bank have been inspected once or oftener during the

year. In order to avail of the expansion of trade in our Northwest, now opening up, we have since last meeting established branches in Vancouver, Victoria and Revelstoke, in British Columbia, and at Simcoe, in Ontario. The business at other points, but to afford employment for the bank's increasing resources. They have every reason to believe that their anticipations in both directions will be fully realized.

THE PRESIDENT'S ADDRESS. The president then said: You have heard the annual statement for the year, which I have no doubt is satisfactory as far as it goes. A week ago we fully expected to have been able to submit to you an even better state-ment than this, but there is nothing certain in this world, and after we had really decided on the statement, but before it got into the hands of the printers, we received from Winnipeg a telegram advising us that the treasury of the branch there had been robbed to the extent of \$62,000. This, of course, was a very distressing thing, but we are in hopes that it may not prove as serious as it appeared at first. the sum taken, \$42,000 are non-negotiable Dominion bills, many of them of large denomination, which will render it difficult, if not impossible for them get into circulation, leaving \$20,000 in the Molsons Bank bills. We are in close communication with the accountant, who was acting manager of the branch at the time, the manager being away on a vacation; we are also in close communication with the solicitors and we feel satisfied that everything was done and that no time was lost in getting to work after the robbery was discovered. Mr. Durnford, the inspect-or, started within two or three hours after our receiving the advice of the robbery, and he is now in Winnipeg. The inspection of the branch took place a very few weeks before the robbery, and everything was reported as satisfactory by our inspector. The money was at the time in the treasury. The manager, who was away for his holidays at the time of the theft, has returned to Winnipeg, and everything is being done to trace the robbers. You will all be pleased to see the general manager back among us. He was persuaded to take a holiday, which we all know he required. I will now move

the adoption of the report. The motion was seconded by Mr. S.

H. Ewing. The general manager explained that of the money stolen from the Winnipeg branch, \$25,000 consisted of five \$5,000 notes, which could only pass from one bank to another; they were absolutely non-negotiable, and if a private individual was found in possession of such a note it would render him liable to arrest, because on the face of it It showed that it was simply for pass-

ing from one bank to another.

A \$5,000 bank note similar to those stolen from the branch at Winnipeg was passed around among the shareholders, after the general manager had read the wording upon it, showing that "this note is given only to a bank to which the bank act of Canada applies, and will be redeemed only when presented by one of such banks."

"That," remarked the general manager. "I think, pretty accurately defines who is entitled to use those notes." THE DISCUSSION.

Mr. John Crawford, on behalf of the shareholders, expressed pleasure that the directors had acceded to his request, and had printed last year's statement along with the present. He considered that the step had been wisely taken, and thought that the shareholders, to a man, were exceedingly thankful for the concession. He did not see anything in the general statement to express an opinion upon. It was very similar to that of last year, and the profits of the two years' approached each other very closely. He indorsed the remarks made by the president regarding the pleasure with which they saw the general manager back among them in such good health. He spoke of the Winnipeg robbery as unfortunate occurrence, but the

like of which it was extremely difficult to guard against.

Mr. S. H. Ewing made a few remarks appreciative of Mr. Crawford's satisfaction at the publishing of last year's statement along with the present one, and also fittingly alluded to the return of the general manager, after which the motion for the adoption of the re-

port was unanimously concurred in. Mr. John Crawford then moved: That the thanks of the chareholders are due and are hereby tendered to the president, vice-president and directors of the bank, for their attention to its interests during the year

UNSETTLED AND

COOL, RAINY.

Toronto, Oct. 12-11 p.m.—The low area which was north of the St. Lawrence Valley yesterday has passed eastward from the coast, and from present indications it is probable that the low area of the South Atlantic coast will pass too far south of Nova Scotia to cause bad weather in the Maritime Provinces. A low area, which has developed since last night, is moving quickly towards the lower lakes from the westward, and is likely to cause unsettled and rainy weather in Canada. Minimum and maximum temperatures: Victoria, 48-56; Kam-lcops, 36-54; Calgary, 22-54; Qu-Appelle, 38-54; Winnipeg, 32-48; Port Arthur, 32-44; Parry Sound, 40-50; Toronto, 48-54; Ottawa, 48-52; Montreal, 54-56; Quebec, 54-60; Halifax, 52-66.

Probabilities.—Toronto, Oct. 13—1 a. m.—Lower lakes: East and north winds; cool weather, becoming unsettled and rainy.

Local temperatures-The highest and lowest readings of the thermometer at the observatory here yesterday were 56 and 43 degrees.

"Don't tell my mother I am so badly hurt,"was the appeal of Herbert Parkes when a companion was being sent to the injured boy's home at 161 Simcoe street to inform his parents that Herbert had fallen from a tree and was injured. With two neighbor-boys, he was picking walnuts yesterday afternoon from a tree on Judge Meredith's estate, South London. He fell 25 feet and his two hands hung from his arms as limp as a rag, having both been broken above the wrists by the fall. Dr. Ferguson was summoned, and conveyed the sufferer to his office, where, with the assistance of Dr. Stevenson, who administered chloroform, and a couple of students, the fractures were set. No other serious injuries were discovered. He was afterwards driven to his home, and presented a pitiable spectacle with both hands helplessly slung to his chest. It is surprising that his spine or neck were not injured. He will not have any use of his hands for six or eight weeks. He is about 14 years of age.

MUSIC AND DRAMA

A Female Drummer' Pleased the Grand's Audience Last Evening-"The Girl From Paris" Tonight-Two Performances on Saturday.

"THE GIRL FROM PARIS."

No production for many years has achieved such a tremendous success, financially and otherwise, as that which has been accorded to "The Girl From Paril' during its phenomenally long engagements in London and New York, and which appears at the Grand tonight. It is one of those attractions which might be justly termed comic opera, and practically is such, with an exquisite score by Ivan Caryll, which includes many of the most popular songs now being sung in London and New York, and a book which has produced the now universally plagiarized saying, "It is to laugh." The remark explains this greatest of Rice's productions. It is the most amusing piece of modern times. To interpret the burlesque, Mr. Rice has selected a company of some forty or fifty people, whose standing in their several branches of the theatrical profession is unquestionable.

"WHAT HAPPENED TO JONES." "What Happened to Jones," the laughable farce which has convulsed

New York and is now attracting immense audiences in London, at the Strand Theater, will be seen at the Grand, matinee and night, on Satur-It is the leading laughing success of the day, and will be presented here by a large company of comedians

come here directly from New R. It is seldom that we have the asure of witnessing such a new sucess, and the favor will doubtiess be appreciated, as all in London have heard how funny it is. The advance sale of seats is now open.

"A FEMALE DRUMMER." The rollicking comedy with which the name of Miss Johnstone Bennett is associated greatly pleased a large audience at the Grand last night. The staging was most elaborate, and the company, numbering 45 people, is as clever and well balanced as it is strong. Amusing climaxes are cleverly developed, and catchy specialties plentifully interwoven in a way that keeps the fun going from start to finish. In the title role, Miss Bennett displayed rare ability. She entered in the spirit of the amusing character with unrivaled zest, and in the requisite careless and easy manner for the part absorbed attention. Messrs. George Richards, Tony Williams and Eugene Canfield, the first two members of the firm of Smooth, Silk & Co., the latter as Buttons, also fill their respective parts with exceptional talent. Mr. Willis P. Sweatman as a negro minstrel is an accomplished artist, and the soubrette, Miss Lottie Melrose, captured the audience by her dancing. In short, the performance was highly diverting and excellent

CITY AND COUNTY **COMING CLOSE**

Another Step in the Hospital Negotiations.

Difference Between the Offer and Acceptance Now Slight-Result of an Hour's Caucus and Fifteen Minutes in Council.

As anticipated in The Advertiser yesterday, the city council, at a special meeting in the afternoon, did a great deal towards, completing negotiations with the county council in regard to a joint interest in the Victoria Hospital. The meeting was called for 4 o'clock, but a caucus on the committee room with Auditor Jewell, Treasurer Pope and Warden Elson, lasted an hour, and the business in the council chamber was settled in 15 minutes. The absentees were Ald. Carrothers, McCallum, Gerry and Dreaney.

A motion by Ald. Taylor to reconsider clause four of the proposed agree-

ment passed. A lengthy motion by Ald. Jolly in effect providing that if the capitalization be \$100,000, instead of \$75,000, as previously proposed, the charge for county patients will be on a basis of actual cost, but

if the cost after deducting the government grant be more than 75 cents, the city shall have the option of charging the net 75 cents, or of notifying the county, who may cancel the agreement on six months' notice, and if the government grant be withdrawn, the city is to have the same privilege of canceling the agreement, at the termination of which the city is to return the \$15,000. Ald. Winnett seconded. Ald. O'Meara wanted the city solici-tor's opinion as to the legality of the step, and moved that no action be ta-

Ald. McPhillips said the city solicitor had advised the committee that the contemplated action was quite legal. The amendment was lost. Ald. Jolly's motion passed, Ald. Nut-

kins, O'Meara and Douglass voting nay. Adjourned.

DR. SEXTON

Sudden Death of a Popular Preacher and Lecturer Well Known in London.

Rev. George Sexton, D.D., LL.D., who has often preached and lectured in this city, dropped dead Tuesday evenof Mr. George Turney, near St. Catharines, which he made his home. Dr. Sexton had just completed a new lecture which he had been working on for some time. Miss Turney was alone in the house with him, and he read it aloud to her while sitting. Before he was quite through reading he got up from his chair and said he felt queer. He walked about the room a little, and complained of a pain about his heart. After requesting a drink of hot peppermint, he expressed a desire to bathe his feet, and as Miss Turney was walking towards the kitchen to get some hot water, he fell dead on the floor. Miss Turney summoned the nearest neighbor, who sent for a doctor, and he pronounced death due to heart disease.

Dr. Sexton was born in 1832, and was consequently in his 67th year. He was educated and ordained for the Episcopal ministry, but becoming skeptical in his belief, he left the church, and took up the study of medicine, practicing as a consulting physician in Glasgow. Scotland. After a few years in medicine, he entered the Congregational Church and accepted a pastorate. This, however, was not congenial to him, although he was an elequent and profound preacher, and he left the ministry to accept a position as lecturer for the Society for the Suppression of Infidelity. He came to Canada in 1884, and shortly afterwards accepted the pastorate of a Presbyterian church in Dunkirk, in the presbytery of Buffalo. He was of a strong literary turn of mind, and published several books of a controversial nature. He went to St. Catharines about eleven years ago, having retired from the active work of the ministry. He made his home with Mr. George Turney and traveled about delivering lectures, and was a forcible

speaker. Deceased leaves three sons and a daughter. One son is a professor of technics in a college in Glasgow, and another is in the civil service employ in London, England. While he had not acquired any wealth, he realized sufficient from his lectures and sale of his books to meet the ordinary necessities of life.

Some 5,000 Visitors Great Show.

One Thousand Exhibits-Fine Showing CONTRACT AWARDED of Live Stock-The St

The Delaware Fall Show yesterday was no exception to the long, unbroken line of successes Delaware's fair has achieved. There is no other fair like it. No other fair comes so near to fulfilling the original ideal of the fall show. It is a purely agricultural show, and the best of the kind. It is not an advertising bureau, nor a money-making scheme. Delaware fair is free. Everything connected with it free as air. And yet it is the largest

and best township fair in Ontario, with possibly one exception. Near the center of the pretty little village of Delaware is the "village green" of the pastoral poets. But this is the genuine article, and there's a good deal of it. And here under the blue dome prettily arranged in great ing from heart disease at the residence and the green grass makes a pleasing setting of the huge red beets and mangels or the mammoth golden squash and pumpkin. The display of roots and fruits has never been surpassed. The late date of the fair gives ample time for everything to mature. And the displays were arranged with as much cars and taste as though they were to be shown for a week. There were about 5,000 visitors in Delaware yesterday. The village fairly swamped with them and their conveyances. Of course, it didn't rain. It rained the day before and the day after, but Delaware's luck was in-

There were in all over 1,000 entries. The horses were unusually fine, particularly in the heavy draft class. The exhibit of sheep was the largest and

finest ever shown in Delaware. The directors deserve great praise for their enthusiasm and energy, but to no other one cause was the success of the show so largely due as the untiring efforts of the secretary, Mr. N. Bodkin. Mr. J. C. Fox, who for years was secretary, was also on hand to help along the show, which he was so largely instrumental in building up. IN THE RING.

The horse races were two in number, a farmers' trot and a free for all. They were worked off in a satisfactory way, and proved good sport. Such ast ones as Robert H., Eric R. and White Lines were in the open trot, and over the heavy track they made the excellent time of 2:221/2. Summary: Robert H. 1 1 1

For Concrete Piers for the Butchers Building on the Market

The fire, light and market committee of the city council met last night, and opened tenders for 22 concrete piers for the butchers' stand on the market. There were six tenders submitted, and the difference in prices was striking. The highest was \$341 and the lowest \$120 50. The contract was awarded to Mr. George Lightheart at the latter fig-

The heating of the butter and eggs building will be discussed at the next

meeting. The Canadian Rubber Company advised the committee that they had shipped 50 feet of Keystone seamless, parallelograms the roots and fruits are lined, treated, fabric hose, which they displayed. The fruit is shown on tables, trusted would be accepted by the committee, and put to as severe a test as in actual use, in order to demonstrate that this brand would meet the requirements of the fire brigade. They claim that the treatment of the fabric with gum and wax makes it much more durable than the ordinary cotton rubberlined fire hose. On motion of Ald. Hunt, the hose was accepted, secretary instructed to acknowledge its

receipt. The bylaw re the regulating of plumbing, etc., was laid over.

A communication from W. Robins, Toronto, asking if any action had been taken by the city council in the matter of the correction of deficiencies in the fire appliances, as pointed out by Inspector Robert Howe, of the Cana-

dian Fire Underwriters' Association, was laid over. Health Inspector Bell informed the committee that Mr. Robert Pritchard, of the board of health, had complained of the unsanitary condition of the urinal at the rear of the fish market. The marketclerk's attention had been drawn to the matter and the place thoroughly cleaned and disinfected. The members present were: Ald.

Taylor (chairman), Jolly, Stevely, Geary, Wilkey, Hunt, Chief Roe, Inspector Bell.

Acting on this advice, I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life. UNSETTLED AND RAINY.

Toronto, Oct. 12-11 p.m.-The low area which was north of the St. Lawrence Valley yesterday has passed eastward from the coast, and from present indications it is probable that the low area of the South Atlantic coast will pass too far south of Nova Scotia to cause bad weather in the Maritime Provinces. A low area, which has developed since last night, is moving quickly towards the lower lakes from the westward, and is likely to cause unsettled and rainy weather in Canada. Minimum and maximum temperatures: Victoria, 48-56; Kam-lcops, 36-54; Calgary, 22-54; Qu-Appelle, 38-54; Winnipeg, 32-48; Port Arthur, 32-44; Parry Sound, 40-50; Toronto, 48-54; Ottawa, 48-52; Montreal, 54-56; Quebec, 54-60; Halifax, 52-66.

Probabilities .- Toronto, Oct. 13-1 a. m.-Lower lakes: East and north winds; cool weather, becoming unsettled and rainy.

Local temperatures-The highest and lowest readings of the thermometer at the observatory here yesterday were 56 and 43 degrees.

"Don't tell my mother I am so badly hurt,"was the appeal of Herbert Parkes when a companion was being sent to the injured boy's home at 161 Simcoe street to inform his parents that Herbert had fallen from a tree and was injured. With two neighbor-boys, he was picking walnuts yesterday afternoon from a tree on Judge Meredith's estate, South London. He fell 25 feet and his two hands hung from his arms as limp as a rag, having both been broken above the wrists by the fall. Dr. Ferguson was summoned, and conveyed the sufferer to his office, where, with the assistance of Dr. Stevenson, who administered chloroform, and a couple of students, the fractures were set. No other serious injuries were discovered. He was afterwards driven to his home, and presented a pitiable spectacle with both hands helplessly slung to his chest. It is surprising that his spine or neck were not injured. He will not have any use of his hands for six or eight weeks. He is about 14 years of age.

Female Drummer" Pleased the Grand's Audience Last Evening-"The Girl From Paris" Tonight-Two Performances on Saturday.

"THE GIRL FROM PARIS." No production for many years has achieved such a tremendous success, financially and otherwise, as that which has been accorded to "The Girl From Parie' during its phenomenally long engagements in London and New York, and which appears at the Grand tonight. It is one of those attractions which might be justly termed comic opera, and practically is such, with an exquisite score by Ivan Caryll, which includes many of the most popular songs now being sung in London and New York, and a book which has produced the now universally plagiarized saying, "It is to laugh." The remark explains this greatest of Rice's propiece of modern times. To interpret the burlesque, Mr. Rice has selected a company of some forty or fifty people, whose standing in their several branches of the theatrical profession

is unquestionable. "WHAT HAPPENED TO JONES." "What Happened to Jones," the laughable farce which has convulsed New York and is now attracting immense audiences in London, at the Strand Theater, will be seen at the Grand, matinee and night, on Satur-It is the leading laughing success of the day, and will be presented here by a large company of comedians

"A FEMALE DRUMMER." The rollicking comedy with which the name of Miss Johnstone Bennett is associated greatly pleased a large audience at the Grand last night. The staging was most elaborate, and the company, numbering 45 people, is as clever and well balanced as it is strong. Amusing climaxes are cleverly developed, and catchy specialties plentifully interwoven in a way that keeps the fun going from start to finish. In the title role, Miss Bennett displayed rare ability. She entered in the spirit of the amusing character with unrivaled zest, and in the requisite careless and easy manner for the part absorbed at-tention. Messrs. George Richards, Tony Williams and Eugene Canfield, the first two members of the firm of Smooth, Silk & Co., the latter as Buttone, also fill their respective parts with exceptional talent. Mr. Willis P. Sweatman as a negro minstrel is an accomplished artist, and the soubrette, Miss Lottie Melrose, captured the audience by her dancing. In short, the performance was highly diverting and excellent

CITY AND COUNTY **COMING CLOSE**

Another Step in the Hospital Negotiations.

Difference Between the Offer and Acceptance Now Slight-Result of an Hour's Caucus and Fifteen Minutes in Council.

As anticipated in The Advertiser yesterday, the city council, at a special meeting in the afternoon, did a great deal towards, completing negotiations with the county council in regard to a joint interest in the Victoria Hospital. The meeting was called for 4 o'clock, but a caucus in the committee room with Auditor Jewell, Treasurer Pope and Warden Elson, lasted an hour, and the business in the council chamber was settled in 15 minutes. The absentees were Ald. Carrothers, McCal-

lum, Gerry and Dreaney.

A motion by Ald. Taylor to reconsider clause four of the proposed agreement passed.

A lengthy motion by Ald. Jolly in effect providing that if the cap-italization be \$100,000, instead of \$75,000, as previously proposed, the charge for county patients will be on a basis of actual cost, but if the cost after deducting the government grant be more than 75 cents, the

city shall have the option of charging the net 75 cents, or of notifying the county, who may cancel the agree-ment on six months' notice, and if the government grant be withdrawn, the city is to have the same privilege of canceling the agreement, at the ter-mination of which the city is to return the \$15,000. Ald. Winnett seconded. Ald. O'Meara wanted the city solici-tor's opinion as to the legality of the step, and moved that no action be ta-Ald. McPhillips said the city solicitor

DR. SEXTON

Sudden Death of a Popular Preacher and Lecturer Well Known in London.

Rev. George Sexton, D.D., LL.D., who has often preached and lectured in this city, dropped dead Tuesday evening from heart disease at the residence of Mr. George Turney, near St. Catharines, which he made his home. Dr. Sexton had just completed a new lecture which he had been working on for some time. Miss Turney was alone in the house with him, and he read it aloud to her while sitting. Before he was quite through reading he got up from his chair and said he felt queer. He walked about the room a little, and complained of a pain about his heart. After requesting a drink of hot peppermint, he expressed a desire to bathe his feet, and as Miss Turney was walking towards the kitchen to get some hot water, he fell dead on the floor. Miss Turney summoned the nearest neighbor, who sent for a doctor, and he pronounced death due to heart disease. Dr. Sexton was born in 1832, and was consequently in his 67th year. He was educated and ordained for the Episcopal ministry, but becoming skeptical in his belief, he left the church, and took up the study of medicine, practicing as a consulting physician in Glasgow, Scotland. After a few years in medicine, he entered the Congregational Church and accepted a pastorate. This, however, was not congenial to him, although he was an elequent and pro-found preacher, and he left the ministry to accept a position as lecturer for the Society for the Suppression of Infidelity. He came to Canada in 1884, and shortly afterwards accepted the pastorate of a Presbyterian church in Dunkirk, in the presbytery of Buffalo. He was of a strong literary turn of mind, and published several books of a controversial nature. He went to St. Catharines about eleven years ago, having retired from the active work of the ministry. He made his home with Mr. George Turney and traveled about delivering lectures, and was a forcible speaker.

Deceased leaves three sons and a daughter. One son is a professor of technics in a college in Glasgow, and another is in the civil service employ in London, England. While he had not acquired any wealth, he realized sufficient from his lectures and sale of his books to meet the ordinary necessities of life.

Some 5,000 Visitors Great Show.

One Thousand Exhibits-Fine Showing CONTRACT AWARDED -A Big Success.

The Delaware Fall Show yesterday was no exception to the long, unbroken line of successes Delaware's fair has achieved. There is no other fair like it. No other fair comes so near to fulfilling the original ideal of the fall show. It is a purely agricultural show, and the best of the kind. It is is free. Everything connected with it free as air. And yet it is the largest and best township fair in Ontario,

with possibly one exception. Near the center of the pretty little village of Delaware is the "village green" of the pastoral poets. But this meeting. is the genuine article, and there's a good deal of it. And here under the blue dome prettily arranged in great parallelograms the roots and fruits displayed. The fruit is shown on tables, and the green grass makes a pleasing setting of the huge red beets and mangels or the mammoth golden squash and pumpkin. The display of roots and fruits has never been surpassed. The late date of the fair gives ample time for everything to mature. And the displays were arranged with as much care and taste as though they were to be shown for a week. There were about 5,000 visitors in Delaware yesterday. The village was fairly swamped with them and their conveyances. Of course, it didn't rain. It rained the day before and the day after, but Delaware's luck was in-

There were in all over 1,000 entries. The horses were unusually fine, particularly in the heavy draft class. The exhibit of sheep was the largest and finest ever shown in Delaware.

The directors deserve great praise for their enthusiasm and energy, but to no other one cause was the success of the show so largely due as the untiring efforts of the secretary, Mr. N. Bodkin. Mr. J. C. Fox, who for years was secretary, was also on hand to help along the show, which he was so largely instrumental in building up. IN THE RING.

The horse races were two in number, a farmers' trot and a free for all. They were worked off in a satisfactory way, and proved good sport. The Canadian Rubber Company advised the committee that they had shipped 50 feet of Keystone seamless, lined, treated, fabric hose, which they trusted would be accepted by the committee, and put to as severe a test as in actual use, in order to demonstrate that this brand would meet the requirements of the fire brigade. They claim that the treatment of the fabric with gum and wax makes it much more durable than the ordinary cotton rubberlined fire hose. On motion of Ald. Hunt, the hose was accepted, secretary instructed to acknowledge its

receipt. The bylaw re the regulating of plumbing, etc., was laid over.
A communication from W. Robins, Toronto, asking if any action had been taken by the city council in the matter of the correction of deficiencies in the fire appliances, as pointed out by

Inspector Robert Howe, of the Cana-

Health Inspector Bell informed the committee that Mr. Robert Pritchard, of the board of health, had complained of the unsanitary condition of the urinal at the rear of the fish market. The marketclerk's attention had been drawn to the matter and the place thoroughly cleaned and disinfected. The members present were: Ald.
