Dr. Smith said the friends felt hurt at the treatment handed out by the hospital authorities.

"I will give you the facts of the case," said Dr. Smith, "and they are these: Three months ago, Dr. Sparks' wife, through an accident, had her eye injured, and later the sight was entirely destroyed. The other eye was then in danger, and this worried the doctor, and he did not take sufficient nourishment or sleep weel.

operation of cars on Railway street would be a hardship on them, and of \$299,897. would also involve a great deal of danger. The line would have to be a spur line, and unless an expensive switch was installed, cars would have to back either up or down the steep hill occurring at that point, a practice which would involve great danger. The only other solution would be the purchase of special cars having a motor in each end. Mr. Ivey, solicitor for the company, pointed out that in the event of a spur line being operated on Sundays. passengers would be discharged on the company's right-of-way at the end of the line, and then they would naturally continue down the track to Woodland Cemetery. The fact that they were discharged on the company's right-ofway would form a sort of passive compliance on the part of the Street Railway Company to their trespassing and if any were struck by cars they would have ground for legal action.

The matter was brought up at the board of control meeting this morning, and it was decided to submit : new bylaw at the next council meeting, omitting the clauses which have been the cause of contention. No objection has been made to the cause limiting the hours of employees to six days a week, and this will be included in the new bylaw.

Ordinarily the hospital heating plant Ordinarily the hospital heating plant consumes between six and sevent hundred tons of coal in the course og a season, but The Advertiser learned today that this amount would be exceeded this year by an amount ranging in the neighborhood of 100 tons, by reason of the operation of the incinerator.

Supposed To Do All Heating.

When the incinerator was purchased at a cost of \$48,704.55 it was claimed by its friends that the plant would heat the entire hospital and thus affect a large saving. But several months' trial has shown a very different state of affairs, for the incinerator today IS NOT SUPPLYING 20 PER CENT of the heat used by the iVctoria institution. This was the statement given The Advertiser today by a man who is in a position to know.

know.

Closed Twice a Month.

Furthermore the incinerator is closed down for a number of hours every two weeks in order to give the employees an opportunity of cleaning out the dust that accumulates in large quantities in various parts of the mechanical equipment. When this shut-down occurs the steam service to the hospital is, of course, discontinued, and the entire hospital heating plant is supplied from the hospital boilers. Ordinarily the incinerator furnishes heat for the nurses' home at the west end of the grounds, but with the present equipment it cannot begin the present equipment it cannot begin to heat the entire hospital plant.

And furthermore, the hospital boilerroom is charged up with all the coal used at the incinerator. When the garbage is wet and does not burn freely,

the incinerator and the result is very expensive.

The predictions of great savings in fuel operation by reason of the incinerator heating, or assisting to heat the hospital, have been completely disproved. Instead of a more economical system of heating the building actual operation shows that the city of London is being saddled with an additional and unnecessary expense of considerable magnitude.

sary expense of considerable magnitude.

Extra Boilers Required.

The Advertiser man was advised that it would be absolutely necessary to install two or three additional boilers at a cost of \$10,000 or so in the incinerating plant in order to furnish an adequate supply of heat to the hospital. When the incinerator proposition was before the ratepayers one of the strongest arguments advanced in favor of it was that it would consume all the garbage and at the same time furnish the hospital completely with heat, without extra cost.

"A White Elephant."

"The incinerator is a white elephant." said a hospital employee to The Advertiser, "I don't want to knocok it, but at the present time it can't begin to heat the hospital. It should not have been placed where it is, either, for the smell from it at times is fierce. The people it was a cost of the cost of the present time is fierce. UNSUITABILITY OF HANNA

[Special to The Advertiser.]

Toronto, Feb. 11 .- Although officially all is quiet, rumors as to the "succession" in the Conservative party in Ontario are still flying about. There is general delight in the improvement in Sir James Whitney's health, but it is still a widespread belief that he will not again be able to lead the House. The latest name mentioned for the position is that of W. F. Maclean, M. P., of the Toronto World, who, it is said, would be willing to come in as an up-holder of the hydro-electric, which, ac-cording to the Toronto Telegram and other Conservative sources, is apparently in danger from the attacks of men, Hon, Mr. Hanna among them, within the cab-

inet itself.

More and more stress is being laid on the unsuitability of Mr. Hanna for prime minister. Not only is there the effect of the Proudfoot charges, but there is the additional and powerful obstacle that Mr. Hanna is counsel for the Standard Oil interests in Ontario. Such a position does not lead to the confidence of the public. A man holding a similar office in the United States with the Standard Oil Company would scarcely be considered for any high office, directly or indirectly in the gift of the people.

The guaranteed trusts fund on December 31 amounted to \$3,821,687.62, while the estates, trust funds, etc., being administered by the company, amounted to \$6,198,496.39. The total assets were \$12,411,981.55, an increase

during the year of \$1,265,974.68. The report of the president directors, while it is short, gives some interesting matter, showing, as it does, the growth of the company for the past eight years. In 1905, the total assets amounted to \$2,870,906.16, while today they are almost \$12,500,000. In years gone by, private trustees generally performed the functions which trust companies are now doing. Today, this has been overcome. THIN PEOPLE CAN INCREASE WEIGHT

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it turns the fats,

mixing with your food, it turns the fats, sugars and starches of what you have sugars and starches of what you have eaten, into rich, ripe fat-producing nourishment for the tissues and blood—prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat-producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. THE HOLLOW OF HER HAND

By GEORGE BARR McCUTCHEON

Author of "Graustark," "Truxton King," Etc.

"I say," began Booth, dismayed.
"One's thoughts are his own," said the
ppy possessor of the sketch. He turnhappy possessor of the sketch. He turned his back on them.
Sara was contrite. "He will never give it up," she lamented. "Is he really hard hit?" asked Booth

'I wonder," mused Sara. "Of course, he's welcome to the sketch confound him." "Would you like to paint her?"

"Is this a commission?"
"Hardly. I know her, that's all. She is a very dear friend."
"My heart is set on painting some one else, Mrs. Wrandall."

"When I know you better, I'll tell you

"When I know you better, I'll tell you who she is."

"Could you make a sketch of this other one from memory?" she asked lightly.
"I think so. I'll show you one this evening. I have my trusty crayon about me always, as I said before."

Later in the afternoon Booth came face to face with Hetty. He was descending the stairs and met her coming up. The sun streamed in through the tall windows at the turn in the stairs, shining full in her uplifted face as she approached him from below. He could not repress the start of amazement. She was carrying a box of roses in her arms—red roses whose stems protruded far beyond the end of the pasteboard box and reeked of a fragrant dampness.

She gave him a shy, startled smile as she passed. He had stopped to make room for her on the turn. Somewhat dazed, he continued on his way down the steps, to suddenly remember with a twinge of dismay that he had not returned her politic smile, but had stared at her with most unblinking fervor. In no little

twinge of dismay that he had not returned her polite smile, but had stared at her with most unbilnking fervor. In no little shame and embarrassment, he sent a swift glance over his shoulder. She was walking close to the bannister rail on the floor above. As he glanced up their eyes met, for she too had turned to peer.

Leslie Wrandall was standing near the foot of the stairs. There was an eager, exalted look in his face that slowly gave way to well-assumed unconcern as his

"I say, Leslie, is—Is she staying here?"
cried Booth, lowering his voice to an excried Booth, lowering cited haif-whisper.

His mind appeared to be elsewhere.

"I wish you the best of luck, old boy."
"Thanks," said Leslie drily.

CHAPTER VIII. In Which Hetty is Weighed.

Booth and Leslie returned to the city on Tuesday. The artist left behind him on Tuesday. The artist left behind him a "memory sketch" of Sara Wrandall, done in the solitude of his room long after the rest of the house was wrapped in slumber on the first night of his stay at Southlook. It was as sketchily done as the one he had made of Hetty, and quite as wonderful in the matter of faithfulness, but utterly without the subtle something that made the other notable. The craftiness of the artist was there, but the touch of inspiration was lacking.

during the fist few moments of interest.

Booth caught the angry flash in her
eyes, preceding the flush and unaccountable pallor that followed almost immediately. He felt guilty, and at the same
time deeply annoyed with Leslie. Later
on he tried to explain, but the attempt
was a lamenthle failure. She laughed,
not unkindly, in hise face.

Laslie had refused to allow the sketch

not unkindly, in hise face.

Leslie had refused to allow the sketch to leave his hand. If she could have gained possession of it, even for an instant, the thing would have been torn to bits. But it went back into his commodious pocket-book, and she was too oud to demand it of him.

She became oddly sensitive to Booth's persistent though inoffensive scrutiny as time went on. More than once she had caught him looking at her with a fixedraught him looking at her with a fixed-ness that betrayed perplexity so plainly that she could not fail to recognize an underlying motive. He was ainly striv-ing to refresh his memory; that was clear There is no mistaking that look in a person's eyes. It cannot be dis-

was as deeply perplexed as ever when the time came for him to depart with Leslie. He asked her point blank on the last evening of his stay if they on the last evening of his she frankly enfessed to a short memory for faces. it was not unlikely, she said, that he had seen her in London or in Paris, but she had not the faintest recollection of having seen him before their meeting in the

Urged by Sara, she had reluctantly consented to sit to him for a portrait during the month of June. He put the request in such terms that it did not sound like a proposition. It was not surprising that he should want her for a subject; in fact, he put it in such a way that she could not but feel that she would be doing him a great and enduring favor. She imposed but one conditon: the picture was never to be exhibited. He met that, with bland magnanimity, by proffering the canvas to Mrs. Wrandall, as the subject's "next best friend," to "have and to hold so best friend," to "have and to hold so the subject is " fine sense of humor."

Booth didn't know whether to laugh or long as she might live,"

"with the artist's compliments," and so on and so forth, in airy good humor.

Leslie's aid had been solicited by both Sara and the painter in the final effort to overcome the girl's objections. He was rather bored about it, but added his voice to the general clamor. With half an eye one could see that he did not relish the idea of Hetty posing for days to the handsome, agreeable painter, Moreover, it meant that Booth, who could afford to gratify his own whims, would be obliged to spend a month or more in the neighborhood, so that he could devote himself almost entirely to the consummation of this particular undertaking. Moreover, it meant that Vivian's portrait was to be temporarily disregarded.

Sara "anda" was quick to recognize the first symptoms of jealousy on the part of her brother-in-law. She had known him for years. In that time she had been witness to a dozen of his encounters in the lists of love, or what he chose to designate as love, and had seen him emerge from each with an unscarred heart and a smiling visage. Never before had he shown the slightest sign of jealousy, even when the affair was at its rosiest. The excellent ego which mastered him would not permit him to forget himself's so far as to consider any one else worthy of a feeling of jealousy. But now he was flying an alien flag. He was turning against himself and his smug convictions. He was at least annoyed, if not jealous. Doubtless he was surprised at himself; perhaps he wondered what had come over him.

Fireproof Building Is Now Ready For Occupancy.

HISTORY OF THE BUSINESS

Establishment Modern in Every Detail, and Stocked With Best Money Can Buy.

Absolutely fireproof in its construction, and fitted throughout with the most up-to-date and beautiful store fixtures obtainable, the new store of Gray's, Limited, which will occupy the entire five floors of the Grand building, will be one of the finest retail emporiums in Ontario.

Back in the seventies James Gray began his mercantile career as parcel boy in the employ of R. J. Young & Co., who at that date, as now, occupled the store next to the new premises of Gray's, Limited. Wooden shutters were still in vogue in those days, and had to be taken down each morning and replaced at night. The store was heated by one great, long box stove, Mr. Gray recalls. After having years of experience with the firm of R. J. Young & Co., Mr. Gray joined the staff of J. H. Chapman & Co. There he worked with E. E. Parker, and together in 1899 they

went into business in Simcoe. They remained there only a short time, returning to London and opening the Parker store, from which Grav & cation the firm of Gray's, Limited, now moving, the 1st of March, 1900. The firm of Grav & Parker opened in the morning, and at noon closed, along with the other city stores, to celebrate the relief of Ladysmith.

Buys Out Partner, Gray Some three years ago Mr. Gray purchased the interest of his partner, Mr. Parker, and the firm name was changed to Gray's, Limited. Mr. Gray personally supervises all the departments of the big retail business he has built up, but associated with him is his son. Ronald Gray, to whom great deal of the working out of the details of the business is left.

On Thursday morning when fine new drygoods store of Gray's opens shoppers of London Limited. and Western Ontario will be struck by the beauty, utility and advantage of the mahogany fixtures. he display under glass of all goods, the salesmen extending the length of the store, the glass counters and the perfect lighting of the store from street to street.

Ladies' Fu nishings.

The first floor is devoted to ladies' furnishings. Here one finds displayed under glass in plain view of the cusas she enters, almost everything that she may wish to purchase. Here are umbrellas and parasols in simply contrived glass cabinets, ladies' and children's underwear all displayed in glass-protected shelves, and gloves and hosiery in specially built cabinets, obviating the littering and disordering of counters where such goods are shelved in their original boxes. Here is an art department, where all kinds of fancy work materials are displayed.

Could only Walk From Chair to Bed

What thousands of people are crippled by lumbago and rheumatism arising from derangement of the kidneys. Many, very many, have obtained relief and cure by using Dr. Chase's Kidney-Liver Pills. Others continue to suffer, not knowing the efficiency of this extraordinary prescription of the famous Receipt Book author.

Mr. W. H. Mosher, South Augusta, Grenville Co., Ont., writes:—"I used Dr. Chase's Kidney-Liver Pills and firmly believe there is no medicine to equal them. I was troubled for years with kidney disease and this treatment has cured me. When I began the use of these pills I had Rheumatism so had I could only walk from my had to bad I could only walk from my bed to a chair. Now I can go to the field and work like any man. I cannot speak too highly of so excellent a medicine." This statement is certified to by the Rev.

E. H. Emett, Baptist minister of Brockville,

There is proof like this in almost every town and village in this broad Dominion. There is no doubting the exceptional value of Dr. Chase's Kidney-Liver Pills as a means of regulating the action of the kidneys, liver and bowels and thereby removing from the body the poisonous impurities which cause pain, suffering and helplessness. A COMPARISON OF COST. THE outrageous expenditures of L Col. Hughes in his transatlantic faunts is something the Conservatives find difficulty in indorsing or defending, So an attempt has been made to show that his Liberal predecessor was just as bad. They were in the habit of complaining that the Liberal Minister of Militia was squandering money for his own pleasure, and they asked for a return showing the cost of his trips to England. When brought down. however, it did not give much satisfaction. Sir Frederick made three trips-in 1907, 1909 and 1911. The total cost to the Government was \$15.195. It may be said that this was a pretty large sum to spend for the purpose. But, if so, what is to be said of Col. Hughes' single trip last year which cost \$25,000? The fact is. Liberals have never been able to come up to the Conservative standard of extravagance. When men get into public office there seems to be a natural tendency to spend money. The most economical people seem to weaken, and begin to think in dollars where they used to think in cents. Grits as well as Tories, have their failings. But while Grits may be extravagant in some things, they will economize in others and so preserve a moderately fair balance. But your Tory, whether of the old-fashloned kind, or of the more modern type, always gives himself a perfectly free He seems to think it is a mark of statesmanship to spend money freely, without any qualms of con- The apostle of the strenuous life, They profess to "think imperially"-to have ideas broad and without regard to the time of year. paltry \$25,000 on a trip to England is really a very paltry matter. .And we have no doubt there is a feeling of disgust in every good Conservative breast when this mean-spirited economical outcry of the Liberals is heard. No doubt there is a little feeling of pity also for men who cannot "think imperially," But what the poor taxpayer may think not do and you are lucky if some is probably a different matter. We should not be surprised if the average man, as he contemplates his butcher's bill, might feel a little out of sympathy the postoffice and must be weighed by with this "imperial" use of the money which comes out of his pocket, and might prefer to see some better evidence of statesmanship than a fatal facility for spending money.

Line Fence Dispute

[Farmer's Advocate.]

Canadian journalism has yet to produce a paragrapher as pungent, gental and versatile as the late Archie Bremner, for many years editor of The London Advertiser. Older newspapermen can recall his ever ready-witted philosophy. For a long time his home was in one of the suburbs, and next door resided a chronically cantankerous individual never happy except when in a scrap with somebody. One day after dinner, Archie sauntered for the office with his old silk hat tilted at the regulation angle. But neighbor "Bone" was lying in wait for him leaning over his front gate.

"Mr. Bremner, are you aware that your line fence is two inches over on my lot?"

"Well, no, to tell the truth, I hadn't noticed that," was the diplomatic ans-

Cure Indigestion

Recommends to Sufferers the Best Stom-

"It is a wonder some of us have stomachs left," remarked a well-known drug clerk recently. "While all drug stores sell a score or more of stomach remedies for which there is a wide demand, most of them are just pepsin pills which digest the food that is in the stomach at the time. They have no curative or strengthening effect on the stomach at all, and, of course, do not reach or cure the cause. So the same people keep on coming here and buying and using them until they are real chronic dyspeptics. When anyone really asks my advice, I swear by and recommend ordinary bisuswear by and recommend ordinary bist-rated magnesia, which doesn't digest the food at all, but just acts as an antacid and sweetens the sour, fermenting con-tents of the stomach. That stops the pain, heart-burn, sour rising, wind, bloating, fullness, etc., in just a few min-utes, and the stomach digests its food without help or trouble, which is the proper way." proper way.

"Doctors make mistakes sometimes too," he continued. "My own aunt had all kinds of trouble with her stomach for all kinds of trouble with her subman all years. She bought and used several styles of digestive pills, but got worse right along, as naturally she would. Finally she went to a doctor, who nearly scared her to death by telling her she had cancer of the stomach. She came to me with his prescription and told me what he said. I thought it was nonsense. I sent her to another doctor whom I I sent her to another doctor whom I knew very well, and he didn't tell her anything, but just gave her this same thing, bisurated magnesia. She took it two weeks and never has had any stomach trouble since and that's three ach trouble since and that's three years ach trouble since and that's three years ago. She's my own aunt, and I knew this for a fact. Yes, a let of bisurated magnesia is sold in London. All the druggists have it, I suppose, and all you take is a teaspoonful after every meal. Bus ness a Success
Founded four years ago the bank has proved a complete success. Its business is rapidly expanding and its activities widening in many directions. It is first and last a business concern, but serves as a social organization as well, for here come women, timid, about transacting business, women ignorant of legal affairs, or of the management of an estate, and here they obtain the best advice and have their difficulties smoothed out as quickly as may be, in one of the bank's little

consulting rooms. Twelve women directors and some women employes manage the affairs of the Frauenbank which is a cooperative association, its members in-cluding women of all the classes and countries, on subscription to at least £5 a share. At the close of its third year of business the Frauenbank paid a dividend of 5 per cent and the same

As stated above its interests and activities are many, and indeed, the tidings of a banking institution in members consider the Frauenbank a istration of financial and legal affairs. In addition to the deposit department there are departments for the securing of loans, mortgages, stock exchange, trustee business and legal advice. The loan department is especially interesting in some respects, one feature being that in adition to the large amount loaned, the bank extends loans of small amounts against such guarantees as furniture etc., thus enabling its members to tide over temporary misfortune without being forced to

go to the money lender. Now the bank is going to publish a weekly financial journal for women to contain financial, economic and legal news and general review. The journal will be published weekly and will give much legal help to widows and ming of ecru lace and brown satin is here shown. FOR FRANK CHANCE

Deposed Manager of Chicago Cubs Through With Murphy.

WILL NOT PLAY FOR CUBS

Federals Have Been After Him, But It is Not Likely He Will

New York, Feb. 10 .- "I will never play for Murphy again under any circumstances," declared John J. Evers, deposed manager of the Chicago Nationals, when the news that he had been dropped as manager, to be succeeded by Henry O'Day, became known at the uptown hotel where the National League's schedule meeting was in progress.

"I have been approached by the Federals, and have held conferences with some of them, but I would rather be with the 'old boy'," he added.

This was accepted by everyone as a reference to Frank Chance, and immediately there were rumors of Evers coming over to the New York Americans, who are badly in need of a second base-man, Rollie Zeider, groomed by Chance that position, having deserted to the

'ederals.
The Chicago club's announcement of its change of management came as a startling close to a day devoted chiefly to speculation as to what the National League club owners would do in reference to the invasion of organized baseball by the Federals, and threw all the other developments of the meeting into the shadow. Before any announcement regarding the change reached the league's pitcher, and later became one of the feremost umpires, an authority on rules temporary headquarters from Chicago, the big crowd of expectant followers of the game, who thronged the corridors of the otel, was thrown into mild panic when Evers himself announced that he was through as manager of the Chicago

Nationals.

While none of the club owners as they emerged from the meeting room would talk as to what effect the supplanting of Evers by Henry O'Day as manager would have at this time, when disintegration of any kind in the makeup of teams was being avoided, the impression prevailed that they generally considered the action of President Murphy ill-timed.

happenings that led up to his deposition. He said that immediately after the city series last fall between the Chicago Americans and Nationals had been won by the former, Murphy found fault with "Why did you go around with the op-position?" asked Murphy, Evers declar-ed. "You have lost \$50,000 for me by losing the series."

"I replied by asking him how much did he think I made for him in 1908 when Merkle forgot to touch second, when he said. 'Probably \$200,000.' I said, 'Well, that's more than even up.' Just what are the terms of Evers' con-tract with the Chicago club as manager and player could not be ascertained, but Evers had a brief take with Gov. Tener and the new president of the National League told him: "Do not act hastily. I have seen your contract, but I assure you that you can depend upon justice being done you when I take up the matter."

Italians Believed Baseball Was Brutal

Rome, Feb. 10.—The unfamiliarity of the Italians with baseball was demonstrated today by the refusal of the authorities to permit an exhibition game between the New York team of the National League and the Chicagos, of the American League, without first being convinced that it is not "a brutal game." After the points of the game were explained, the authorities still insisted that a net be erected within the stadium to protect the spectators. Even when promises were given that this precaution would be taken, permission was withheld until Wednesday at noon, when a few imnings will be played for the benefit of the authorities, who desire to judge for themselves what manner of game the American national pastime is. NEW PRECEDENT FOR RALWAY BILLS

[Special to The Advertiser.]
Ottawa, Feb. 10.—The growing tendency
of the railway committee to compel railways to show some indication of commencing and completing work proposed in legislation before Parliament was evi-denced this morning, in connection with a bill of the Calgary and Edmonton Railway company, proposing to construct three branch lines to the oil fields of the foothills. R. B. Bennett, of Calgary, while approving of the project, moved for commencement to be changed from two years to one, and for completion reduced from five years to three. Despite protests on the part of the pro-moters, the amendment carried by a large majority, and a new precedent was there-

CHANGES IN RACING RULES CAUSE A DISAGREEMENT

Rules Committee of National Trotting Association Fails to Agree Over Important Alterations.

New York, Feb. 10 .- The rules committee of the National Trotting Association made little progress today towards an agreement on certain of the more important changes suggested at the joint meeting of the National and American Trotting Associations, held in Chicago two months ago, although its report on these changes must be ready for action by the bienniel congress of the association, which will go into session here tomorrow.

W. H. Gocher, secretary of the association, today intimated that discussion of them by the rules committee had not led to their definite acceptance. It is understood that the frules likely to be modified number nearly a score, the proposed modifications including some novel features.
Among the changes to be considered is

one which would give a horse the benefit of a second in case it had not reduced its or a second in case it and not reduced its record in any start during the previous year. Another would make an allowance of time of as much as four seconds in case a starter falled three times to win part of the purse. It is understood that a rule against penalizing heat winners which are non-winners of a race is much in favor, though the record of the failure in favor, though the record of the failure to win will be allowed in the breeders' Performances against time what is commonly known as "tin cup" records, will not be considered a lar to races, it is said.

It was learned today that some of the changes proposed are very revolutionary in character, and that some of them are likely to meet much oppositon.

U. S. Government Hints to Britain These Are Advisable

in Mexico.

[Canadian Press.] New York, Feb. 11-A London cable to the Herald says: It is now admitted in official circles here that Sir Lionel garden will not return to Mexico as British minister after he comes to London to report to the foreign office. Reports from Mexico City concerning Sir Lionel's interest in Mexican lands, which he shares with Lord Cowdray, have reawakened keen interest in diplomatic circles here, and Lord Cowdray's frank admission of the truth of these reports provided a

fresh sensation yesterday. It is now known that the United States government hinted to the British Foreign office that, in the present ense situation in Mexico, it might be advisable for the great powers to have

diplomatic representatives there who have no private financial interests to

RAFTERS CAUGHT FIRE IN AYLMER HOUSE

394-323

A. J. Anderson's Property Has Been Damaged Often.
[Special to The Advertiser.]

Aylmer, Feb. 11-The fire brigade was called to the residence of Freeman Wingrove about nine o'clock this morning, rafters of the house having caught fire while the occupants were thawing some pipes. The damage done to the house, which was owned by A. J. Anderson, was slight. This is the fourth time property of Mr. Anderson has suffered from fire since March

WAS TROUBLED WITH BOILS AND CARBUNCLES.

There is no more frequent source of illness than that arising from bad blood, for when the blood becomes impure, it is only natural that boils, pimples or some other indication of bad blood should

break out of the system. Boils in themselves are not a dangerous trouble, but still at the same time are very painful, and the only way to get rid of them is to cleanse the blood of the impurities. Cleanse it thoroughly by the use of Burdock Blood Bitters, that old and reliable blood medicine that has been on the market for nearly forty

Mr. James Wilds, Plaster Rock, writes:-"I was greatly troubled, a few years ago, with boils and carbuncles and the doctor told me I was in a bad condition. My appetite failed me, I began to lose strength, and was pretty well run down when one of my friends recommended Burdock Blood Bitters. After using three bottles I began to feel like another man. My troubles soon left me, and to-day I can certainly give Burdock Blood Bitters a high recommendation to my friends."

MISSISSIPPI PACKET BURNED; FIVE DROWNED

Fire on Gem Started in Cargo of Moss-All Jumped Overboard.

[Canadian Press.] New Orleans, La., Feb. 11. - Five ersons were drowned when the Mississippi River packet, Gem, was destroyed by fire last night opposite Hahnville, 40 miles from New Orleans, it was ascertained today.

The dead included E. J. Comeaux, 20 years old, son of Capt. R. J. Comeaux, and clerk of the boat; W. E. Baree, river pilot, The three other persons drowned were a negro woman passenger, the negro steward of the boat, and a negro member of the None of the bodies have been recovered

Those who succeeded in swimming ashore from the burning vessel were carried here by train. Capt. Comeaux, of the Gem, was badly burned. He was taken to his home here in a serious condition.

serious condition.

The first information of the accident came from aHhnville by long distance telephone at an early hour today, from Fred Ketchum, mate of the Gem.

According to Ketchum's message, the fire started in a quantity of moss, a part of the miscellaneous cargo in the forward portion of the vessel, and spread rapidly. The crew, directed by the officers made a desperate battle against the flames, but were finally ofrced to leave by leaping were finally ofrced to leave by leaping overboard, together with the passengers aboard, who equipped themselves with

Captain R. J. Comeaux, the master, was said to be among those who swam ashore. The exact number of persons on board could not be determined at the company's offices here early today.

Winnipeg, Feb. 10.-Fluctuations until near the close on wheat options were narrow, and trading extremely quiet. Liverpool cables were disappointing and prices on the market opened weaker in sympathy. Nearing the close there was a sharp advance, influenced by a heavy demand for wheat on Minneapolis market. Prices opened %c lower for May and July, and closed %c to %c higher.

Offerings of cash wheat are scarce, but any that come on the market are quickly any that come on the market are quickly disposed of. Exporters were buying light-

ly for future delivery.

Oats were in fair demand at steady prices, while flax was only holding its

own. Cash wheat closed ½c higher for contract grades. Cash oats closed unchanged to ½c higher. Cash flax closed ANXIOUS TIMES

Children Often Seem Pining Away and Ordinary Medicine Does Not Help Them.

The health of children between the ages of twelve and eighteen years, particularly in the case of girls, is a source of serious worry to nearly every mother. The growth and development takes so much of their strength that in many cases they actually seem to be going into a decline. The appetite is fickle, brightness gives way to depression; there are often serious headaches, fits of dizziness or occasional fainting and a complaint of weariness at the slightest exertion. Ordinary medicines will not bring relief. The blood has become thin and watery, and the child must have something that will bring the blood back to its normal condition. At this stage no other medicine can equal Dr. Williams' Pink Pills. Their whole mission is to make the blood which reaches PRIVATE AND TRUST MONEY TO every part of the body bring back loan on farm and city property; lowest rates, amount and terms to sult; no commission charge. T. W. Scandrett, solicitor, 98 Dundas street. A. Buchner, corner Talbet have interest in her school work in in those amusements of girlhood. In fact she just seemed to drag herself about complaining of always being tired; did not eat well and did not sleep well J. A. Nelles & Son at night. I took her to our doctor, who said she was anaemic and advised me She took the pills for nearly two Phone 343 months, when she was as well and lively as any girl could be, gained nicely in weight and has since enjoyed perfect health. I m quite sure that what the Pills did for my daughter they will do for other pale, weak girls. I have also used Dr. Williams' Pink Pills myself with the best re-sults and can only speak of them in terms of greatest praise." Back and Kidneys For 10 Years.

Many people fail to understand the significance of a lame, weak, sore or

When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney

Doan's Kidney Pills will strengthen the weak back, and prevent any form of kidnev trouble entering the system.

Mrs. Ed. Boyer, Nokomis, Sask., writes:-"I have been troubled with weak back and kidneys. I had terrible dizzy headaches, and could not sleep at night. In this way I suffered for ten years, until I read about Doan's Kidney Pills. I purchased two boxes, and as they helped me, I sent for two more; they put me on my feet, and I have been able to work ever since."

Doan's Kidney Pills are 50 cents a box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto,

If ordering direct specify "Doan's."

KIDNEYS BOTHER

Eat Less Meat, Also Take Glass of Salts Before Eating Breakfast.

Uric acid in meat excites the kideys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's ruinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before break-fast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending blad-

er weakness. Jad Salts is inexpensive, cannot in-ure; makes a delightful effervescent ithla-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidneys.

COMBINED CHOIRS SING THE FLAG OF ENGLAND

Centennial and St. Andrew's Musical Bodies Delight Large Audience.

Under the direction of Bert Weir, organist of Centennial Methodist Church, the combined choirs of that church and St. Andrew's Presbyterian Church rendered the patriotic cantata, "The Flag of England," by Sir Frederick Bridge, together with a fine program of choruses and solos, in the Centennial Church last

night.

Highly creditable to all concerned, and attended by an audience that taxed the seating capacity of the church to its limit, the success of the performance lends favor to a proposal already under consideration for a permanent union organization of members of several of the night.

cast end church choirs.

The soprano obligate and solo parts of the cantata were exceptionally well rendered by Mrs. Harold V. Hamilton, lyric soprano, of Hamilton, Mrs. Hamilton also delighted her audience with several sology including "March March et al. eral solos, including "Magic Month of May," a sprightly, beautiful composition by Newton; "Invictus," by Huhn, and "A World of Spring," by Krammer.

With Marked Expression.

The attack and phrasing of the choruses rendered by the choir of more from 100

endered by the choir of more than 100 voices were extremely good. One of best choruses was "The Crusaders, which the soft passages diminished almost to a whisper, and seemed to die away in the distance.

Miss Gladys Reid, who is gifted with a powerful and pleasing mezzo-soprano voice, rendered the solo, "For All Eternity," by Mascheroni. In a rich bass, Ed Webster, sang "Arm, Arm, Ye Braves," a number from Handel's "Judas Maccabeus," that met with great favor. Another favorite number was "The Curfew" Monk favorite number was "The Curfew," Moni Gould's rousing song, which was capably rendered by W. A. McCutcheon, basso. rendered by W. A. McCutcheon, basso. A duet, "Carry With Me," by Nicolal, was sung by Miss Gladys Reid and Robert Lindsay (tenor), Miss Mary Shotbottom, contralto, sang "Spring's Awakening," by Sanderson.

Pleasing Choruses. Choruses deserving of mention were:
"Poor or Rich," a sprightly number by
Berger; "O Sing to the Lord," one of C. . Wheeler's compositions, and "A Spring Song," by Pinsuti.
The cantata and choruses were ably ac-

How Is Your Weight?

While it is true that too much weight s not to be desired, yet the fact remains that many men and women are thin to the point of danger. This danger lies in their having no reserve force or nerve power to combat with deadly diseases. A little extra flesh is needed by all to feel well and look well, and this calls up the question of how best to increase the weight Physicians and chemists, by experiments have solved the problem of increasing the white and red corpuscles of the blood by the administration of grain hypo-nuclane tablets and this is usually followed by an increase of weight. Obtain in sealed packages, and take for a period of several months according to directions with the packages.

SUES MAN SHE MARRIED Toronto, Feb. 10.-Miss Maria Fisher vas awarded \$500 damages at the assizes today against Henry Jones, an Uxbridge farmer, whom she sued for \$10,000. She alleged that he had induced her by fraud and misrepresentation to marry him and live with him for one year, pretending that his former wife was dead, which was not the case. Jones was tried on a charge of bigamy at Whitby some time ago, but was acquitted, as he had not seen or heard from his first wife for seven years.

COP SKIDS ON ONE LEG

Strong Arm of Law Almost Lost Dignity Wearing Out Ice on Richmond Street.

A piece of iron on a downtown street, a few happy-feeling people and a burly policeman, started a little amusement for a number of onlookers on Richmond street last night.
The strip of ice looked tempting, and

many passers-by, from the little newsies to the dyseptic old gentleman, who carries a cane, accepted the invitation and navigated the course in safety, but a guardian of the peace, who came sauntering around the corner, looking in doorways, alleys and every conceivable place for lurking criminals, faile to notice the inlurking criminals, faile to notice the inviting strip of ice until suddenly he found himself sailing down it on one leg.

The course was made in safety, but the incident jarred the bluecoat's dignity not a little, so that when a sporty old gent who had followed him down the ice for the fun of it, said: "Nice weather we're having?" All the answer the bobby tendered was "H'm," as he turned somewhat carefully on his heel and entered a nearby store where he ordered that sand or somewhat

HARMONICAS THE BEST GRADES AT PEEL'S, Richmond St.

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Par-

made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth, Take this home, and add to it 14 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss the tonic action of the treatment. Loss of smeM and nucous dropping in the back of the throat are other symptoms that show the presence of catarrial poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head

noises, catarrhal deafness, or catarrh in any form should give this prescription a trial. There is nothing better. important.—In ordering Parmint al-ways specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, Box 1240. Montreal, P. Q., who make a specialty of it.—Advt.

The words put into the King's reputh by the cabinet ministers were, Sir Edward said, a condemnation of the home rule bill, and a confession that it had utterly failed to furnish a solution of the Irish question. There was small wonder in view of this concession that the Government shirk-

Mass also suggested that the board should adopt a resolution commending Mr. Rowell for his campaign to abolish the bar, but the political aspect of the latter matter evidently frightened the health-conservers off.

The chairman of the board, Dr. F. L. Burdon, made some very startling statements in introducing the motion. He expressed his personal gratification at Mr. Broder's idea to prohibit the manufacture, sale or consumption of cigarettes in Canada, and declared that opium in China was doing no more harm than were cigarettes in this country. He claimed that they were dwarfing the young men of Canada, and the young women also were being dwarfed in body or mind by eigarettes, and was in favor of doing everything possible to assist the Broder bill.

"It may have been all right in the days before Christ," was Dr. Burdon's days before Christ," was Dr. Burdon's reply, "but it is not now."

R. J. Hasiett, another member of the

board, was also of the opinion that the practice was brutal.

Dr. Burdon then described the Jewish method of killing a cow by slashing its throat and allowing it to slowly bleed to death, the animal conscious all the while, and suffering, he claimed, great pain.

"That's the way they get the best meat," again interrupted Mr. Spettigue.

"They bleed them so nice." bleed them so nice. "It is the height of cruelty," said Dr. T. V. Hutchinson, "but we can't stop without getting legislation."

Three Weeks. Two new eight-room schools, costing \$50,000 each, will be erected in South London. At a meeting of the building ommittee of the board of education yesterday the purchase of a plot o round fronting on Duchess and Lang-

It was decided to ask for comparative architects' plans, to be submitted within three weeks. The plan selected will also be used for the new Riverview school at Riverview avenue, and Wharncliffe Riverview avenue, and Wharncliffe road. There will be six classrooms, a domestic science room and a manual training room in each building, and provision will be made for the addition of extra rooms as they are required. Replace Grand Avenue School.

The Duchess avenue school is to take he place of the old Grand avenue school, which is guite inadequate for the ac-commodation of the district, while the Riverview school will take care of the fessionals. It must not be supposed that only the younger element of the city enjoy the privilege of skating on the city's rink. There are older people, too, and the keen, invigorating, outdoor air is ample compensation for the lack of music. While The work on both schools will be push-

ed ahead as rapidly as possible. The board decided some time ago to expropriate certain property owned by J. H. Back to accommodate the new Riverview H. H. Angus, of Toronto, was engaged
