

I knew Thou wert coming, O Lord divine; I felt in the sunlight a softened shine, And a murmur of welcome I thought I heard, In the ripple of brook and the chirp of bird; And the bursting buds and the springing grass Seemed to be waiting to see Thee pass; And the sky and the sea, and the throbbing sod, Pulsed and thrilled to the touch of God. I knew thou wert coming, O Love divine, To gather the world's heart up to Thine; I knew the bonds of the rock-hewn grave Were riven, that living, Thy life might save. But blind and wayward, I could not see, Thou wert coming to dwell with me, e'en me, And my heart o'erburdened with care and sin, Had no fair chamber to take Thee in.

Now let me come nearer, O Christ divine, Make in my soul for Thyself a shrine; Cleanse, till the desolate place shall be Fit for a dwelling, dear Lord, for Thee. Rear, if thou wilt, a throne in my breast, Reign, I will worship and serve my guest. While thou art in me, and in Thee I abide, What end can there be to the Eastertide.

THE **ORIGIN OF EASTER.**

JANE A. STEWART.

LILIES FOR GOD.

THEY were tending sweet lilies for Easter morn,

There were creamy lilies with gold in their hearts,

And white lilies that clustered upon their stems,

Who were gazing upon their sweet gifts for God,

"Oh, I'd love to give God some sweet lilies like these

But a thought like an ocean of grief welled up,

"Easter lilies they cost even rich folks so much,

And a child stood and looked through the gate at them,

And vale-lilies that bent toward the sod.

At these children of wealth and glee,

And were prattling so merrily;

That was, Oh! so sad to see.

And a wistful look crept into his eyes

On to-morrow, His Easter Day ;"

And it swept all his joys away ;

And I haven't one penny to pay."

For the shrine of the Risen God;

Each surmounting a royal rod;

To the student of the world's history here is great interest and food for reflection in the facts concerning the origin of the religious observance of Easter. Strange though it may seem, this popular church festival dates back to a heathen custom. Our twentieththere is great interest and food for reflection in the facts concerning the origin of the religious observance of Easter. Strange though it may seem, this popular church festival dates back to a heathen custom. Our twentieth-century celebration is the modern evocentury celebration is the modern evo-lution of heathen ideals and the trans-formation by Christian usage and en-vironment of a great popular pagan festival of olden time—that of the goddess Ostara. In the Anglo-Saxon language this festival was termed "Eastre," and the name was applied to a celebration which the Saxons of old were wont to observe about the same were wont to observe about the same season at which the Christian festival of Easter takes place.

The goddess Ostara seems to have been regarded as the personification of the morning, or of the east, and also of the opening year, or the beginning of spring. Apropos of this heathen representative of the east, it is to be noted that from very early times the east has been held in certain distinction east has been held in certain distinction above the other points of the compass and enveloped with a sort of sacred halo. The ancient worshippers of the sun used to place their altars in the eastern part of their temples facing the rising orb of the day. That the east had a certain sacred character is avidenced in the Scriptures which conevidenced in the Scriptures, which conevidenced in the Scriptures, which con-tain several noteworthy references: "The glory of the God of Israel came from the way of the east" (Ezekiel xliii, 2); "There came wise men from the east to Jerusalem" (Matthew ii, 1); "And, lo, the star, which they saw in the east. went before them" (Matthew ii, 9). A high regard for the east was mani-A high regard for the east was mani-fested by the early Christians, who perpetuated the idea handed down from their ancestors. Looking toward the sun in the east, in praying or repeating the creed, was thought to put wor-shippers in remembrance that Christ is the sun of righteousness, and such was the attitude in olden times during devotion-a custom now obsolete.

It was from Northern Germany in the very early days that the worship of Ostara, the goddess of the east, was brought to our ancestors in Great Britain. It is well-known that the Anglo-Saxon name of April was Estermonath, and in Germany this month is still known as Ostermonath. Many of the popular observances of Easter, even to this day, clearly indi-cate its heathen origin. The heathen bonfires were perpetuated in the pas-chal tapers with which the churches were once lighted on Easter eve. The brilliant illuminations of the churches, and parts of some of the cities, in Russia at Easter are also reminders of the early heathen festivals. the early heathen festivals. Easter, it is said, is the modern English form for the Saxon word "oster" or "osten," meaning "rising." The German word is "ostern," the Hebrew-Greek form is "pascha," the French "paques," the Scotch "pasch," the Dutch "paschen," the Swedish "pask," and the Danish "paaske." The common name in the East was the "paschal feast," because kept at the same time as the paschen, or Jewish same time as the paschen, or Jewish Passover, and in some measure suc-ceeding it. In the sixth of the An-cyran canons it is called "The Great Day." The proper time for the celebration of Factor was the source of great disof Easter was the source of great dis-cord among the early Christians. It has been aptly pointed out that though there has never been any difference of opinion as to why Easter is kept, there has been a good deal of disagreement as to when it ought to be kept. The paschal controversy, which for a time divided Christendom, grew out of a diversity of custom, the errors of an imperfect calendar, and the process of amalgamation of a new order upon the old. The great mass of the Eastern Churches in Asia Minor, among whom were many Judaizing Christians, kept Easter on the 14th of Nisan, the Jewish month corresponding to our March or April, considering it to be equivalent to the Jewish Passover. But the Western churches heat the feast on Western churches kept the feast on

The difference, borne at first with mutual forbearance and charity, as-sumed regrettable bitterness and ran-cor during the third century. The East was unhappily severed from the West, and all who, after the manner of the Asiatics, kept Easter on the 14th, whether that day were Sunday or not, were styled "quartadecimans" by those who adopted the Roman practice. A primary source of the divergence was the imperfection of the Jewish calendar. This was so defective that

It was through the happy initiative of the Emperor Constantine, in the early part of the fourth century, that the which, though not immediately ac-cepted, finally prevailed and obtains at the present time. The Emperor so influenced the great Ecumenical Coun-cil at Nice, of 325 A.D., that a canon was passed which favored the practice of the Western churches by declaring that everywhere the great feast of Easter should be observed more and Easter should be observed upon one and the same day, and that not the day of the Jewish Passover, but the Sunday after. As a result, the rules were laid down which we find in the Book of Common Parses of the true Book of Common Prayer of the twen-

3

Book of Common Prayer of the twen-tieth century. "That the 21st day of March shall be accounted the vernal equinox. That the full moon happening upon or next after the 21st of March shall be taken for the full moon of Nisan. That the Lord's day next following that full moon be Easter day. But if the full moon happen upon a Sunday Easter day shall be the Sunday after." On Easter day depend all the mov-able feasts and fasts throughout the years. It was debated, at the time of the introduction of the Gregorian cal-endar, whether Easter should continue to be movable or a fixed Sunday. Deference to ancient custom, it is said, led the ecclesiastical authorities to ad-here to the method of determination by the moon. It is an interesting fact and worthy of by the moon. It is an interesting fact and worthy of remembrance that the date of Easter was fixed by what is known as the "calendar moon," which, it appears, always follows the real moon by two or three days. The object in arranging a calendar moon, it is said, was to prevent the occurrence of Easter on the same day as the Lawich Brase was to prevent the occurrence of Easter on the same day as the Jewish Pass-over. The precaution, however, has been a failure, for the two festivals it transpires, have fallen on the same day in 1805 and 1825. The year 1908 was marked by the same unique coin-cidence, both Easter and the Jewish Passover occurring on the same day, April 12th. This unusual event will happen again in 1923, 1927 and 1981. Many like to think that, instead of owing its derivation to the heathen goddess "Eastre," the word comes from the Teutonic "oster," which signifies "ris-ing." If the latter supposition were correct, Easter would be in name, as well as in reality, the feast of the Resurrection.

The apostle Paul calls Christ "our Pasch." It was he who wrote the in-spired words which are embalmed in church liturgies, and hallowed in the hearts of men because of their beauty, truth and power: "If in this life only

Came a thought full of comforting power, (Such thoughts are white lilies that Angels bear Unto earth from Heaven's own bower.)

He was poor, Oh, so poor, but he never had begged,

"Yet," he mused, " I could ask for a flower,"

But before he had uttered a pleading word

"On to-morrow these lilies will all be God's; Other lilies as sweet as they Will be gathered but, may be, not given to him, So I'll just thank God to-day, That if I cannot give a sweet lily to Him Other children can. And I'll pray

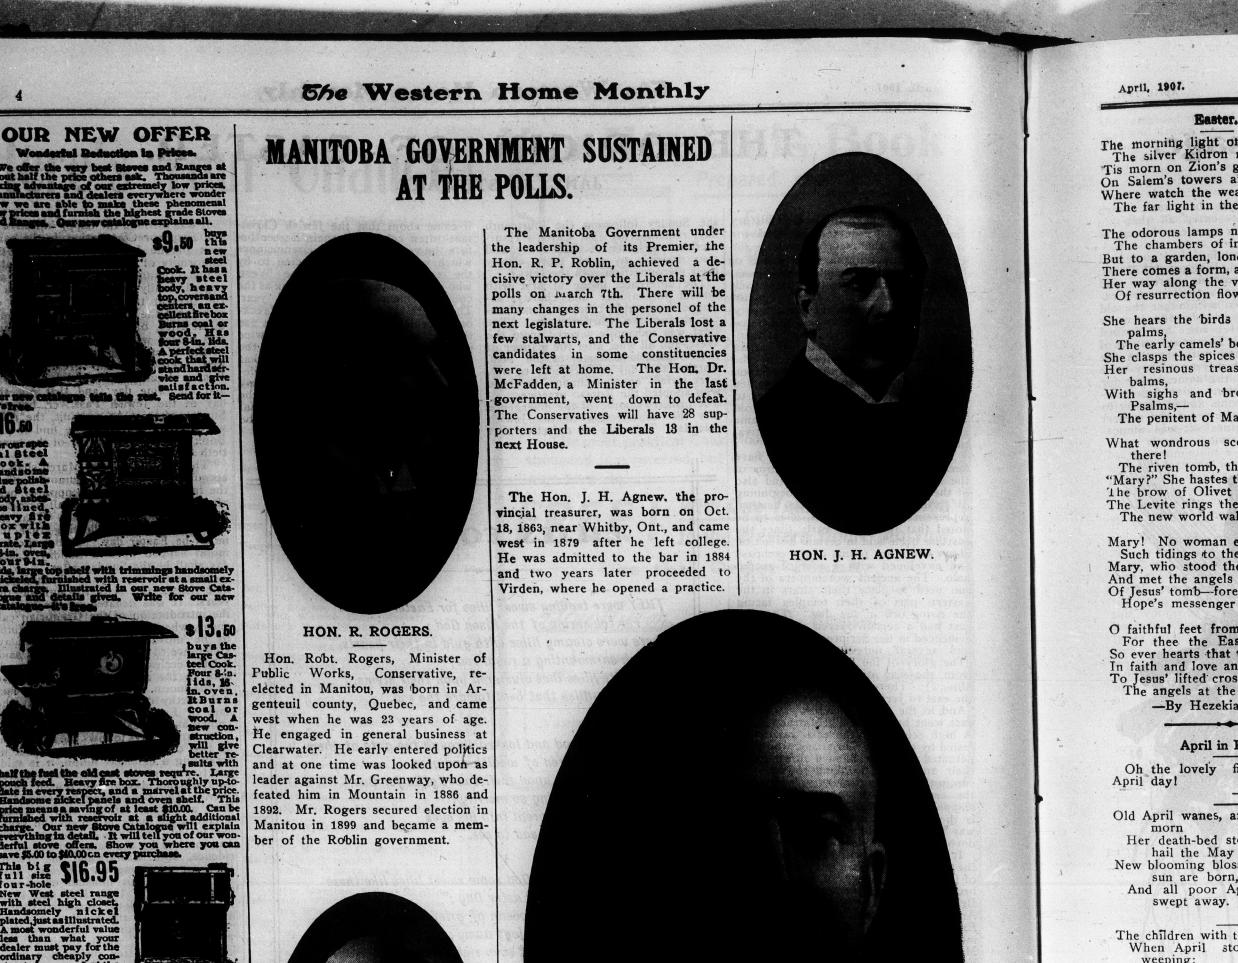

"That all the sweet lilies God made to grow, May to-morrow be given to Him." And the thought made bright and happy the world That had seemed so sad and dim, While the heart of the boy with wistful eyes Was filled with joy to the brim.

-MARGARET E. JORDAN.

truth and power: "If in this life only we have hope in Christ, we are of all men most miserable. But now 18 Christ risen from the dead, and become the first fruits of them that slept. For since by man came death, by man came also the resurrection of the dead." The blessed argument is that Christ's resurrection is the proof of the fulfill-ment of the promise of the resurrection of His faithful followers. Orthodox Christianity hinges on the reality of that event, which is the real origin of the spirit of the Easter festival. It is perhaps to be regretted that the It is perhaps to be regretted that the inauguration of the holy celebration of Easter should have been connected with a heathen festival; that from pag-

an sources comes the word which commemorates the most blessed fact in the Christian faith. But it is well to remember, as has been appropriately pointed out, that we must take it as it is found and fill it with the noble, high, and divine meaning for which it now stands. The names of the days of the week and the months of the year are also heathen in origin and in their earlier associations; but we must accept them, as we cannot unwrite his-tory and unmake language.

Easter in its modern sense has no taint of heathen idolatry. It means a living, pulsating Christianity born of the life of God, which is illustrated in the life, death, and resurrection of Christ—in the soul of man.

245 Notre Dame Ave., WINNIPEG

HON. C. H. CAMPBELL.

Hon. Colin Campbell, K. C., Conservative, re-elected in Morris, was born in Ontario in 1859. He studied law and came west in 1882 to practice with the firm of Campbell, Pitblado, Hoskin & Grundy. He was an alderman of Winnipeg in 1889-90. He was defeated in Winnipeg at the Dominion elections of 1893. He was elected to the legislature and entered the Macdonald cabinet in 1900, becoming attorney-general, an office which he still holds.

HON. R. P. ROBLIN.

Hon. R. P. Roblin, M.P.P., Premier of Manitoba, Conservative memberelect for Dufferin, was born in Prince Edward county, Ont., of Dutch descent, in 1853. He came out west to engage in the grain and general business. He entered municipal affairs and became warden of Dufferin, but was defeated for the legislature twice before being elected in 1888, as a Liberal. Turning against Mr. Greenway, he became leader of the opposition and premier in 1900.

Easter.

The morning light on Jordan falls, The silver Kidron rippling lies; 'Tis morn on Zion's golden halls, On Salem's towers and olden walls, Where watch the weary sentinels The far light in the skies.

The odorous lamps no longer thrill The chambers of imperial towers, But to a garden, lone and still, There comes a form, and perfumes fill Her way along the voiceless hill Of resurrection flowers.

She hears the birds sing 'mid the palms,

The early camels' bell afar; She clasps the spices in her arms, Her resinous treasures, gifts and balms,

With sighs and broken chords of Psalms,-

The penitent of Magdala!

What wondrous scenes await her there!

The riven tomb, the angels white! "Mary?" She hastes the word to bear: The brow of Olivet is fair, The Levite rings the bells of prayer, The new world wakes to light.

Mary! No woman ever bore

Such tidings to the world as thine; Mary, who stood the cross before. And met the angels at the door Of Jesus' tomb—forevermore Hope's messenger divine!

O faithful feet from Galilee, For thee the Easter lilies bloom. So ever hearts that truest be In faith and love and sympathy. To Jesus' lifted cross shall see The angels at the open tomb. -By Hezekiah Butterworth.

April in Poetry.

Oh the lovely fickleness of an April day! -W. H. Gibson.

Old April wanes, and her last dewy morn

Her death-bed steeps in tears; to hail the May New blooming blossoms 'neath the

sun are born, And all poor April's charms are swept away.

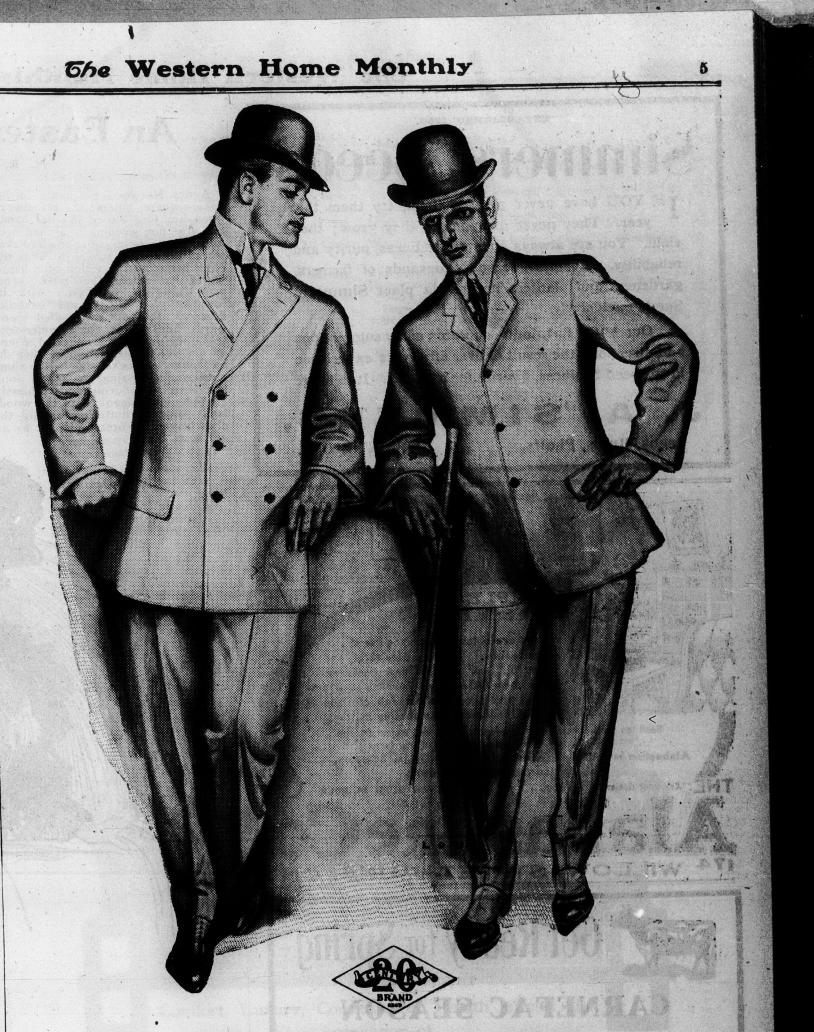

-Clare.

The children with the streamlets sing, When April stops at last her weeping; And every happy growing thing

Laughs like a babe just roused from sleeping.

-Lucy Larcom.

There is no glory in star or blossom Till looked upon by a loving eye; There is no fragance in April breezes

Till breathed with joy as they wander by. -Bryant. Again the blackbirds sing; the streams Wake, laughing, from their winter dreams, And tremble in the April showers The tassels of the maple flowers. —Whittier. When April winds Grew soft, the maple burst into a flush Of scarlet flowers. The tulip tree, high up, Opened in aifs of June her multitude Of golden chalices to humming birds And silken-wing'd insects of the sky. -Bryant. Sweet April! many a thought Is wedded unto thee, as hearts are wed; Nor shall they fail, till, to its autumn brought, Life's golden fruit is shed. -Longfellow. Every tear is answered by a blossom, Every sigh with songs and laughter blent, Apple-blooms upon the breezes toss them, Less to April knows her own, and is content. -Susan Coolidge.

arrow, tune its little throat to melody? No more could she sing with a heart that throbbed only to pain. A ray of spring sunshine crept in between the folds of the window curtain. She arose and drew the shade. Agnes Norwood had once been a part of that world of brightness and beauty to which she seemed to belong; but her Gethsemane had come at the supreme hour of her life-at a time when she was radiantly happyand its dark shadows had wrapped themselves so closely about her that she had not since been able to penetrate their gloom. It was in May that she had promised to be Arthur Cameron's wife. Before the June roses were gone death had claimed him. There had been a short illness, a sudden alarm, and then the end. The

brilliant young life had gone out. When Agnes strove to recall what had taken place in those awful day; of darkness and hopelessness, she had a confused sense of the solemn hush, the sorrowful faces, and a kind voice that had tried to point her to the "stars shining through the cypress trees." The only reality was the great wave of desolation that had

When the church bells rang on Easter morning there was no music in the chimes to the heavy-hearted girl. Their notes jarred upon her sorrow. The perfume of the Easter lilies in the sunny bay window of the breakfast-room oppressed her. When a robin, one of the earliest of the season, alighted in a tree by the open casement and poured forth his little soul in a burst of melody, Agnes involuntarily put her hands to her ears. At last she impulsively donned her wraps and fled from the house. The home of the Norwoods was

well out on the outskirts of the little city. Only a mile away was the beautiful Woodvale Cemetery. Spring had come early. The snow was nearly gone and in places the ground was already quite dry. This Easter morning a south wind blew softly and the warm sun lingered lovingly on the low mounds in the sacred city of the dead. It shone with particular brightness on one marked by a slender granite shaft.

that had tried to point her to the "stars shining through the cypress trees." she remained motionless, with closed eyes and drawn brows. What though the south wind caressed so lightly the silent home of the sleepers? It would pass on to riot among scenes of gaiety. The sunshine, too, would desert them for some less lonely spot. Darkness would come, as the darkness that had settled over her life. How could there be light hearts and songs and gladness in this sad, sad world? Life was so pitifully brief, and death was over all. Yes, life itself was death. They had tried to tell her that she would meet her dearest again, but did they know? No, no, they could not. And she was young yet. How could she endure the long life that stretched before her, the years that must pass before she could interpret the mystery of death? Oh, if she might only receive some message, some least token that Ar-thur still lived!

She lifted her eyes for a moment to the blue sky and then brought them wearily back to earth. Close by the monument a little pale flower. one of spring's first hepaticas, nad pushed its frail petals above the ground and was lifting its tiny head to the sunlight. Agnes bent over it and tenderly drew away the grass. How came it there? By human hand? No, it had risen from the dead. "Risen from the dead," she repeated softly to herself. Yes, it had died with the summer; but only to await earth's resurrection day, when from the germ of its old dead self sprang this wondrous new life, this pure and beautiful thing. She touched tender-ly its petal with a strange feeling of awe. It seemed to breathe out a message of hope and trust, a token of God's own love. It told her of the new life that begins with the decay of the old, of immortality beyond death, of an eternity when time shall end. It whispered of a faith that is stronger than sight, and of a God of love.

Long Agnes knelt over the little blossom that spoke comfort to her soul, until she had come to learn that life is not death, but death is life; that love lies beyond the grave, for it is eternal. Her heart was softened at last. Then came tears like rain-the first that had wet her lashes since that terrible day. When, after a long time, the passion of her sobs had worn away, she arose and left the cemetery, taking with her the little flower that had brought her a mes-sage from him who, through the doorway of death, had passed into life.

The morning service in First Church was not yet concluded when a little figure clad in black entered softly and stole into the first vacant The beautiful Easter lilies at pew. the altar had a message for at least one soul in the congregation that morning. From the pulpit came the closing words of the sermon: "'Be-cause I live, ye shall live also.' They are the words of the Son of God himself, who has tasted death for every man. In the face of this divine attestation to the immortality of the soul, we cannot but cry, 'Oh Death, where is thy sting? O Grave, where is thy victory?'" "He is risen!" was the message of the angel at the And ye who tread the by-ways that are paved with shame and sin,

HE IS RISEN!

din;

By Emmett A. McGrath.

emerged from gloom. The Son of God personified,

He, who on the cross had died,

He is risen and His mercy weaveth tendrils on life's loom.

Oh, that message ! how it echoes down thro' all the passing years,

From the realms of love supernal, to this mundane vale of tears;

With its promise for all time,

With its wealth of peace sublime,

To restore our ancient birthright and dispel all doubts and fears.

Oh ye who toil and struggle in the meshes of the strife-

All ye who bow beneath the heavy burdens of your life,

Look ye to Him above,

Whose mercy, and whose love

Is ever constant, ever watchful, ever eager, ever rife. And ye who toiling onward at the closing of the day,

To pause foot-sore and weary by the roadside on the way,

Look up to Him who died,

That ye might be glorified, He will flood with heavenly comfort weary souls who He is risen! He the Saviour! flows salvation from ask and pray.

On that glorious Easter Morning when the world . Ye, too, can hear the message clear, above the awful There's a radiant, fair to-morrow

Just ahead, oh child of sorrow,

Where the sinners cease from sinning ; oh, take heart, and enter in!

And ye who dwell in luxury, forgetful of your care— Forgetful of the bounties God gave to you to share—

Don't you hear the message calling From your hearts, in soft tones falling : "He is risen !" He who suffered for the wrongs which

you forbear. And ye who dwell in harmony, secure from doubt or

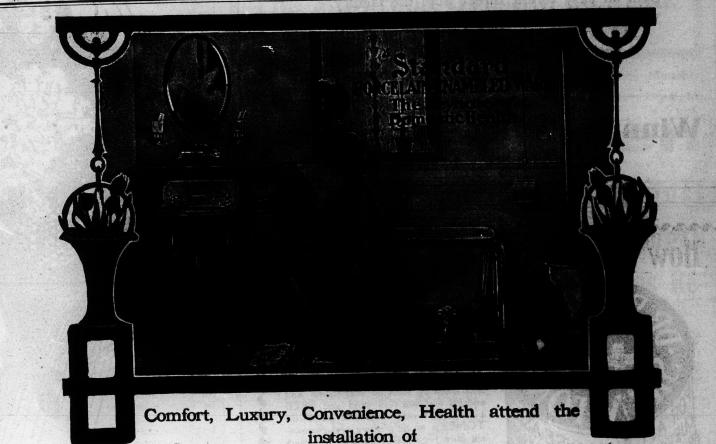

fear In the knowledge and the wisdom that is given to you here,

Pray, never cease to tell,

While the glad notes rise and swell, He is risen! He the Crucified! His spirit's always near.

He is risen ! oh, proclaim ye loud and long the message grand !
Let it ring thro'out the cities, mount and plain of every land;
Let it ring from dome and steeple,
Bringing toy to all God's people :

Winnipeg, March 11, 1907. His hand.

Upon the hush that followed the minister's words came the strains of the great organ, which swelled and throbbed with its glad message. The congregation arose and sang, "Christ, the Lord, is risen to-day."

With the last stanza, a voice of wonderful power and pathos arose above the others, and the people turned to see a fair, sweet face, upon which shone the light of a faith triumphant, as Agnes Norwood sang the words, as she had never sung before:

"Made like Him, like Him we rise, Ours the cross, the grave, the skies."

Its Power Grows with Age .- How many medicines loudly blazoned as panaceas for all human ills have come and gone since Dr. Thomas' Eclectric Oil was first put upon the market? Yet it remains, doing more good to humanity than many a preparation more highly vaunted and extending its virtues wider and wider and in a larger circle every year. It is the medicine of the masses.

"Standard" Porcelain Enameled Ware

in the home. For the sanitary equipment of the bathroom, bedroom, kitchen, laundry "Standard" Ware is a constant guarantee of satisfaction, and its life-long service distinctly increases the property value of your home, while the china-like purity of its white enameled surface is a constant source of pleasure and delight in usage.

Our Book, "MODERN BATHROOMS," tells you how to plan, buy and arrange your bathroom, and illustrates many beautiful and inexpensive as well as luxurious rooms, showing the cost of each fixture in detail, together with many hints on decoration, tiling, etc. It is the most complete and beautiful booklet ever issued on the subject, and contains 100 pages. FREZ for six cents post-age and the name of your plumber and architect (if selected). The ABOVE FIXTURES, Design P-38, can be purchased from any plumber at a cost approxi-mating \$70.00—not counting freight, labor or piping—and are described in detail among the others.

CAUTION : Every piece of "Sesterd" Ware bears our "Sesterd" "GREEN and GOLD" guarantee label, and has our trade-mark "Sesterd" cast on the outside. Unless the label and trade-mark are on the fixture it is not "Sesterd" Ware. Refuse substitutes—they are all inferior and will cost you more in the end. The word "Sesterd" is stamped on all our nickeled brass fittings; specify them and see that you get the genuine trimmings with your bath and lavatory, etc.

"Yes, I think so," Alice said, bending over the flowers lovingly. "Surely, lilies are the most suggestive flowers that can be used in church decorathat can be used in church decora-tions, particularly for a font. They are as pure and sweet as the infants that are brought there to be christen-

Alice walked leisurely towards the church, knowing that she had ample time for the work which lay before her. She paused to admire the landscape a moment, when her arm was gently touched. Turning hastily, she saw a little girl about twelve, with a thin, sallow face, but wonderful black eyes that were fixed hungrily on the lilies in her gasket.

"Please, ma'am," the child said in quick, excited tones, "aren't those beautiful flowers lilies?" "Why, yes," she said, kindly hold-

come from, my child, that you have never seen a lily?" "No, I never saw one before." drawing in her breath in a kind of ecstatic sigh. "Mother has told me so much about them I knew them as soon as I saw them. Oh, aren't they. beautiful, and don't they smell sweet?'

She clasped her hands, and her splendid eyes. full of delight and wonder, were riveted on the flowers. But suddenly the expression changed to one of profound grief. "Oh, if mother could see the lilies

once more! Poor mother!"

The tears ran down her cheeks as she spoke, and she wiped them away with her checked apron.

"Where is your mother?" Alice

asked. "You are a stranger here." "Yes'm; we come all the way from Kansas in a wagon. Papa, he's from Alabama, and mother, too. She was taken ill after she was caught out in a big blizzard that blew down our house. She longed to get back to her old home so papa sold out, and we've been travelling, oh! I don't know how many weeks. Mother became worse yesterday, and we stopped outside of town, and papa got a doctor. He says she's very low," with a choked sob, "but I reckon if she could see these lilles it would do her some good. She was always wanting them in Kansas, but we lived away from everybody. and we were too poor to buy flowers.'

"Sick, poor and a stranger at your gates." Alice, as she remembered those words, forgot the christening font, her waiting friend and her duties for Easter.

"Take me to your mother," she said. "What is your name, my child?" "Christine-Christine Bruce. Oh!

I am so glad mother will see the lilies," clapping her hands, and laugh-

ing with delight. "Yes, she shall have as many as she wants."

As they walked towards the out-

ohl" her eyes shining, "she's got the beautifullest lilies in that basket, and she's going to give some to mother.' The man rose from his seat, and with a courteous movement took off his hat.

"You are very kind, Miss," he said, "I'm afraid my poor wife has gone too far to notice flowers. If she could have seen them a month ago!" His voice choked. "She had a sick longing for some of the lilies from her old home, but I could as soon have got her the moon as lilies in the part of the country where we lived." "How is your wife now?" asked Alice, kindly.

"The doctor has just left here; he says she can't last many hours. O my God!" throwing up his arms, "how can I bear to give my Milly up? Go up there, Miss; I can't look at her yet, ing the basket that the child might examine them; "but where have you afraid to die ! Oh, that's the worst of all. She wanders in her mind a good deal of the time, and it breaks

my heart to hear her talk.', Alice climbed into the wagon. A mattress was spread on the floor, and on it lay a woman with a white, emaciated face, looking like a corpse. Her eyes were closed, but as Alice bent over her they opened sud-denly, and the girl shrunk back. There was something appalling in the brilliant eyes, so like Christine's, set in that thin face. Eyes, in which seemed concentrated all the life of the

body already dead or dying. Alice answered the unspoken question she saw in that look-inquiring, startled.

"Your little daughter met me, and told me how ill you were, and how much you liked lilies. See, I've brought you some," holding the fra-grant blossoms to the sick woman's

face. "Lilies!" she cried hoarsely, clutch-ing them with her hot hand. Oh! I've dreamed of them so often, so often, but I never expected to see one until I went up to His garden-the Master's garden, you know, where there will be no sickness nor sorrow. But will they let me in, do you think?" Her eyes grew wild with terror. "Oh! I'm so scared." Her voice sank into a murmur, and she pressed the flowers to her lips convulsively. "Mother," she whispered, "I will wear lilies tomorrow with my bridal dress, they are so white and pure, and see, they have golden crowns like the saints in the pictures. 'Consider the lilies, they toil not neither do they spin.' But I have toiled," her voice rising, "I have spun, and what has it come to?"

She lay silent for a few minutes, holding the flowers to her bosom, and when she spoke again it was in a changed voice, and she seemed, by an effort, to regain a consciousness of

her surroundings. "I'm very ill," she murmured, "and skirts of the town the child told her simple, pitiful tale. Her father had brought me those lilies, I know," to brought me those lilies, I know Alice. "Thank you for them. Will you hang them where I can look at them all the time? My hands are too weak to hold them, and they are so sweet and precious to me. "David," as her husband and child brought the tea to her, "you see His messenger has come to me-the lilies, I mean. I am not afraid any longer to cross the river. Somehow the message came to me in the flowers I love best. I'm not strong enough to tell you all they say, only that I'm not to be afraid. Put one in my hand that I may hold it as a sign. Safe, safe, thank God!"

simple, pitiful tale. Her father had once been in good circumstances. and her mother, from Christine's account, was an educated woman, whose family in Alabama had been wealthy. Misfortune came to the settlers, and poverty and sickness followed.

"There's the wagon, and there's pa," Christine cried, suddenly, papa, pointing to a canvas-covered emigrant wagon, and a man sitting on the tongue, with his face buried in his hands.

"And oh! I forgot to buy the bread he sent me for, and he hasn't a mouthful for breakfast. Oh, papa!" running to him, "I forgot your bread. but I'll run back for it. I was so taken up with some lilies that lady has brought for mother!"

'Is that you, Christine?" the man said, raising his head. His face was thin and worn, and his eyes had the vacant look of one whose thoughts. were leagues away; but Alice noticed that neither face nor voice were those of a common laborer. His clothes, as well as those of his daughter, were of coarse homespun, but they were

Never mind about the bread, child, a mouthful would choke me; but your mother wants her tea, and you'd better make it immediately." "Yes, papa, right off. Papa, here's a good lady come to see mother, and

140 Yonge Street, Torento, Ont.

told her friend the outlines of the sad sad tale.

She was touched to the heart. and the sight of the emaciated body, laid out decently, and covered with lilies from head to foot, almost overcame her.

"I put them all about her," the man said to Alice. "She was the best woman in the world, and pious, too. But she was awfully afraid to die, and no one dared tell her how near the end was. Somehow, those flowers seemed to bring her a message from the other world. I don't understand it, Miss, and I suppose you don't; but when you brought those flowers, you did the kindest act one human being could do to another. God for-ever bless you. You came like the Easter angel we read about to me and mine.

"It was better than decorating the font," Clara said, as the two girls returned from the funeral that evening. "Ah me! and I was so furious with your duty, and I have learned a lesson."

Moistened soap, rubbed over the edges of obstinate bureau drawers, will work wonders.

HON. J. H. HOWDEN, The New Minister.

James H. Howden, M.P.P. for Beautiful Plains, Manitoba, was sworn in as Minister of Railways, Telephones and Telegraphs in the Roblin Government. The Hon. R. P. Roblin resigned the Portfolio as Minister of present owing to a bad child." Railways so as to allow Mr. Howden to be sworn in.

The nomination in Beautiful Plains as the result of J. H. Howden entering the Roblin Cabinet, will occur March 26th. The election, if any, will take place later.

able to shoot himself." The writer of another paragraph was certainly lacking in gallantry, no matter how clever he may have been from a journalistic point of view. The item ran as follows: "Yesterday the new battle-ship 'Terrible' was christened by the Countess of ———. Her dimensions were 720 feet long and 350 feet broad." Surely an exaggeration! Occasionally it is the printer's devil who is the cause of the mischief by inadvertently substituting one letter for another. A couple of good in-stances of this are shown in the report of a charity entertainment, which appeared recently in a local paper. It oppears that a lady gymnast had been engaged to perform on the trapeze. and referring to that the report said, "owing to Miss Jones great feet, the performance was held in the larger Hall," while towards the end of the report it stated that "Mrs. Robinson was unavoidably prevented from being

Even an editor is not infallible, and surely he could have expressed him-self a little better in the following in-stance: "In our issue of yesterday," he explained, "we erroneously stated Mr. Brown to be dead. We much regret that this statement is untrue." But perhaps the most ambiguous items in newspapers come from the walking up the avenue.

Yet if we ponder over such as these, we cannot help wondering whether the words are to be taken literally. Even funnier still are the wording of the "want" column. "Two sisters want washing" is a very favorite type of advertisement, and the writer remembers having seen in a weekly not long ago "Piano required by a clergy-man with carved legs." In the bar-gain column we find "DOG for sale, very affectionate, will eat anything, especially fond of children"; and in the "female help" we read "Nurse wanted for baby not under 35 years of age." It was probably an animal trainer who inserted "Wanted, a gent.'s or lady's free-wheel bicycle for a pure bred collie"; but the acme of candor was achieved by the tailor who advertised :--

The Western Home Monthly

Brad Merrell, Guardian.

By MAY BELLEVILLE BROWN.

There was vituperation loud and deep on Turkey Creek. The owner of the ranch, himself temporarily brought low by a refractory caviase if not philosopher and friend. Brad was the steadiest man on the

ranch. This fact was enough for his employer. He was also the worst woman-hater. This fact made it too

woman-hater. This fact made it too much for Brad. "Why couldn't it hev been Paper-Collar Joer" he demanded collect-ively and fiercely of the men, as they loitered outside the bunk-house. "He'd hev been like a high-stepper with a new harness on. He'd sooner talk soft to a woman than rope the talk soft to a woman than rope the with a new harness on. He'd sooner talk soft to a woman than rope the liveliest steer that ever bellered. But me! I won't hev nothin' to do with her U'll take my time in the

Mason, affection by known as Old Soft Soap, by reason of his peace-making proclivities—" now, Brad, jest stop an' think. Ye've yer own nice little place up on Turkey Creek, where ye kin look after it handy, an' all plans made fer the summer. Whut would ye do with the rest of the season of ye take yer time now? Yer would ye do with the rest of the season ef ye take yer time now? Yer place is rented, it's too late to get taken on anywhere else, an' ye'd only lope eround an' spend yer wad. This tenderfoot gal 'll only stay a few weeks, an' it'll be a rest fer ye—" "Rest!" bellowed Brad. "Rest! Rest!" bellowed Brad. Rest! It'll wreck every nerve in my carcass. She'll be one of two kinds; she'll either squeal every time she sees a lizard, an' be afraid of her own shadow, or she'll carry a blamed tin box fer bugs an' things. She'll either gush eround about me bein' 'so pic-turescue.' or she'll be shocked at my of a picture."

gush eround about me bein' 'so pic-turesque,' or she'll be shocked at my language an' my pipe, an' try to reform me. Rest! A woman'll let a man rest only when she's been buried an' has a granite moniment over her!" Old Soft Soap prevailed, however, in the end. Next morning Brad started for the railroad, as a lamb begins its journey to the shambles, yet with a most un-lamb-like mien and accoutrement for his pistol-belt begins its journey to the shambles, yet with a most un-lamb-like mien and accoutrement for his pistol-belt and dirk, his leathern "chaps" and rakish sombrero, proclaimed him a "bad man," indeed. The Overland Limited was late, and the engine seemed to puff and whithe its discust at heing stonned

and the engine seemed to puff and whistle its disgust at being stopped at the little station that raised itself above the surrounding sea of grass. With much complaining and creaking it halted for a moment, and then its rattling links climbed slowly up the rice rise Brad looked for a mass of furbelows and a Saratoga trunk, but the platform was vacant except for an

DEAR SIRS,-

Oak Lake, Jan. 30th, 1907.

3

I must say that I am more than pleased with the Creamery system-so much pleased that if I had to make butter and sell it in the stores I would go out of business. I am a living advertisement for you whenever I speak with any of my Dairy Farmer friends, at home or on the street. I received a letter from the ______ Creamery and they want cream, but I will stick to "The Old Reliable" as long as I receive the satisfaction I have had in the past.

Wishing you every success, I remain, Your hearty patron, E. R. RONBERG.

The above unsolicited letter is one of many on file in our office. What further proof do you want? Don't you think it would pay you to send us your cream at once? We have no favorites. All are used alike. Write to Dept. A.

The Brandon Greamery and Supply Go., Ltd. BRANDON, MAN.

took the lines. Then we couldn't go off and leave the man layin' there, maybe to die, so we went back, and I bandaged him up, and we brought him along. You can do what you want to with him. I don't reckon he feels very spruce, seein' that he beyond them Jukes reeled heavily from the saddle. With an effort the got a bullet in his arm, and has bled was shot through the lung, an' that

wound."

clamations and glances of amazement; and then, as Miss Gordon, bearing Jeremy Taylor, clambered to the ground, Paper-Collar Joe, the Chesterfield of the ranch, gracefully advanced.

Miss Gordon's face flushed a deeper red as she bridled and exclaimed: "Ellow me to ersist ye moddam: consid'able, though it's only a flesh he began sweetly, but the visitor waved him back.

Turkey Creek, to my place, an' live with me—the future Mrs. Merrill, gents!" Polly craned his head around the back of the seat and ejaculated fiercely: "You be blamed!" while

woman brought the team to a standstill.

Gordon held the reins tightly and ducked her head. Brad fired re-

"I'm glad I fastened Polly's cage on good and tight!" was her first exclamation. Then, noticing a broken check-rein: "I'll get a piece of twine out of my pocket to tie up that strap. Why, your sleeve's all bloody, I do

Why, your sleeves all bloody, I do believe that nasty wretch hit you!" "Jest my arm, I guess, Miss Gor-don." replied the man, a little un-certainly; "but I hope—that is, I'm afeerd I've done fer Jukes!" They looked back. The outlaw lay

motionless by the trail, his bridle-rein still over his nerveless arm.

II.

As the rays of the setting sun slanted level across the prairie, a strange procession stopped at Turkey Creek Ranch: Miss Gordon still drove, superintended by Jeremy Taylor, who thrust his head through a hole in the lid of his basket and glared balefully at the universe in general. Beside her sat Brad, pale under his tan, with his right arm swung from his neck. At the tail of their chariot. so to speak, was tied the horse of Bill Jukes, and fastened in the saddle, plentifully bandaged and besmeared with blood, was the man himself. His manner was drooping in the extreme, while from an opening in the cage-cover Polly bestowed an "Oh, pshaw! Ain't you ashamed of yourself, Brad?"

helped ily, with good a mproved come up an' live Merrill,

> I am here and where art thou? Art thou far away from me Over mountain, over sea? Dost remember how we played In the pear tree's pleasant shade? Dost recall the perfect bliss Of our stolen pristine kiss. And remember how we said That we'd run away and wed? Need I put in public print That of which I only hint? Sweetheart, dost remember how Deep we loved?—Where art thou now Long ago-and still I care More and more for thee. Ah, where, Where-if art at all-art thou? Answer, sweetheart, answer now

Comes a voice: "Why, I'm out here In the kitchen, cooking, dear."

Time plays many a trick, I trow Sweetheart of the long ago.

The near approach of spring does not in the slightest degree appear to have any effect on the number of letters ad-

dressed to these pages. Of late, in fact, the correspondence has been on the increase. We had a letter this month from a young lady at South Qu'Appelle. stating that she would be married in a few days to a farmer whose acquaintance she through the medium of these col-We wish her life-long happiness. ease don't write us asking for the and address of any contributor, cannot give it to you without per-

I intend becoming a regular subscriper in the very near future. I should like to express my opinions regarding matrimony. On the whole, I think the Canadians a hard-working, sober lot of men-though, of course, there are some exceptions.

If the young lady from Saskatoon would take a trip to London, she would be horrified at the number of saloons there are, and would appreciate Canadians when she returned home.

I think nothing looks so companionable as to see men smoking whilst at work, while the man who takes a drink occasionally has more control over himself than the one who is teetotal. I should like a housekeeper's place on a farm or ranch, as I can cook and look after children. I am an English woman, twenty-six years of age. "London Jennie."

Widow Wants a Hubby.

Pense, Sask., Jan. 1, 1907. Editor.—Please forward the enclosed to "Billy." I am glad to see from the letters in your correspondence columns, that there are some who want com-panions and not servants. It is not often the case. If every man would bear this in mind and want a wife as a companion, there would not be so much unhappiness afterwards.

I am a widow, no children, and would like to correspond with some of the bachelors. I think "Billy No. 4" the right sort." "Lilly."

but I greatly admire a fellow who does not drink or swear. I will not take up any more space in your paper but sign myself.

"Blue Bell."

Thinks We are Doing a Good Work. Prince Albert, Sask., Jan. 17, 1907. Elitor.—I have been greatly interest-ed in the correspondence which is going on between Western maids and bachelors, and think you are doing a very good work in bringing them more closely together. For my own part I do not believe that women are as scarce

as is generally supposed. There are some men who value a good woman who would make things comfortable for them, as it is very hard to have to tidy and clean up for them-selves in the evening after a hard day's work. It seems that bachelors are afraid to marry because they think it will be too expensive, but a woman can economize and save when a man would not think of it. I think the letter from "Farmer No. 6" in your August number very sensible and I should be glad to hear from him or any others of about my own age (35).

"Housekeeper Nan."

Not Handsome but Very Strong.

Minto, Man., Jan. 14, 1907. Editor .- I have been a reader of your excellent magazine for a long time and should like to correspond with "Jolly Bachelor." of Napinka, Man. I am a lass of eighteen and do not

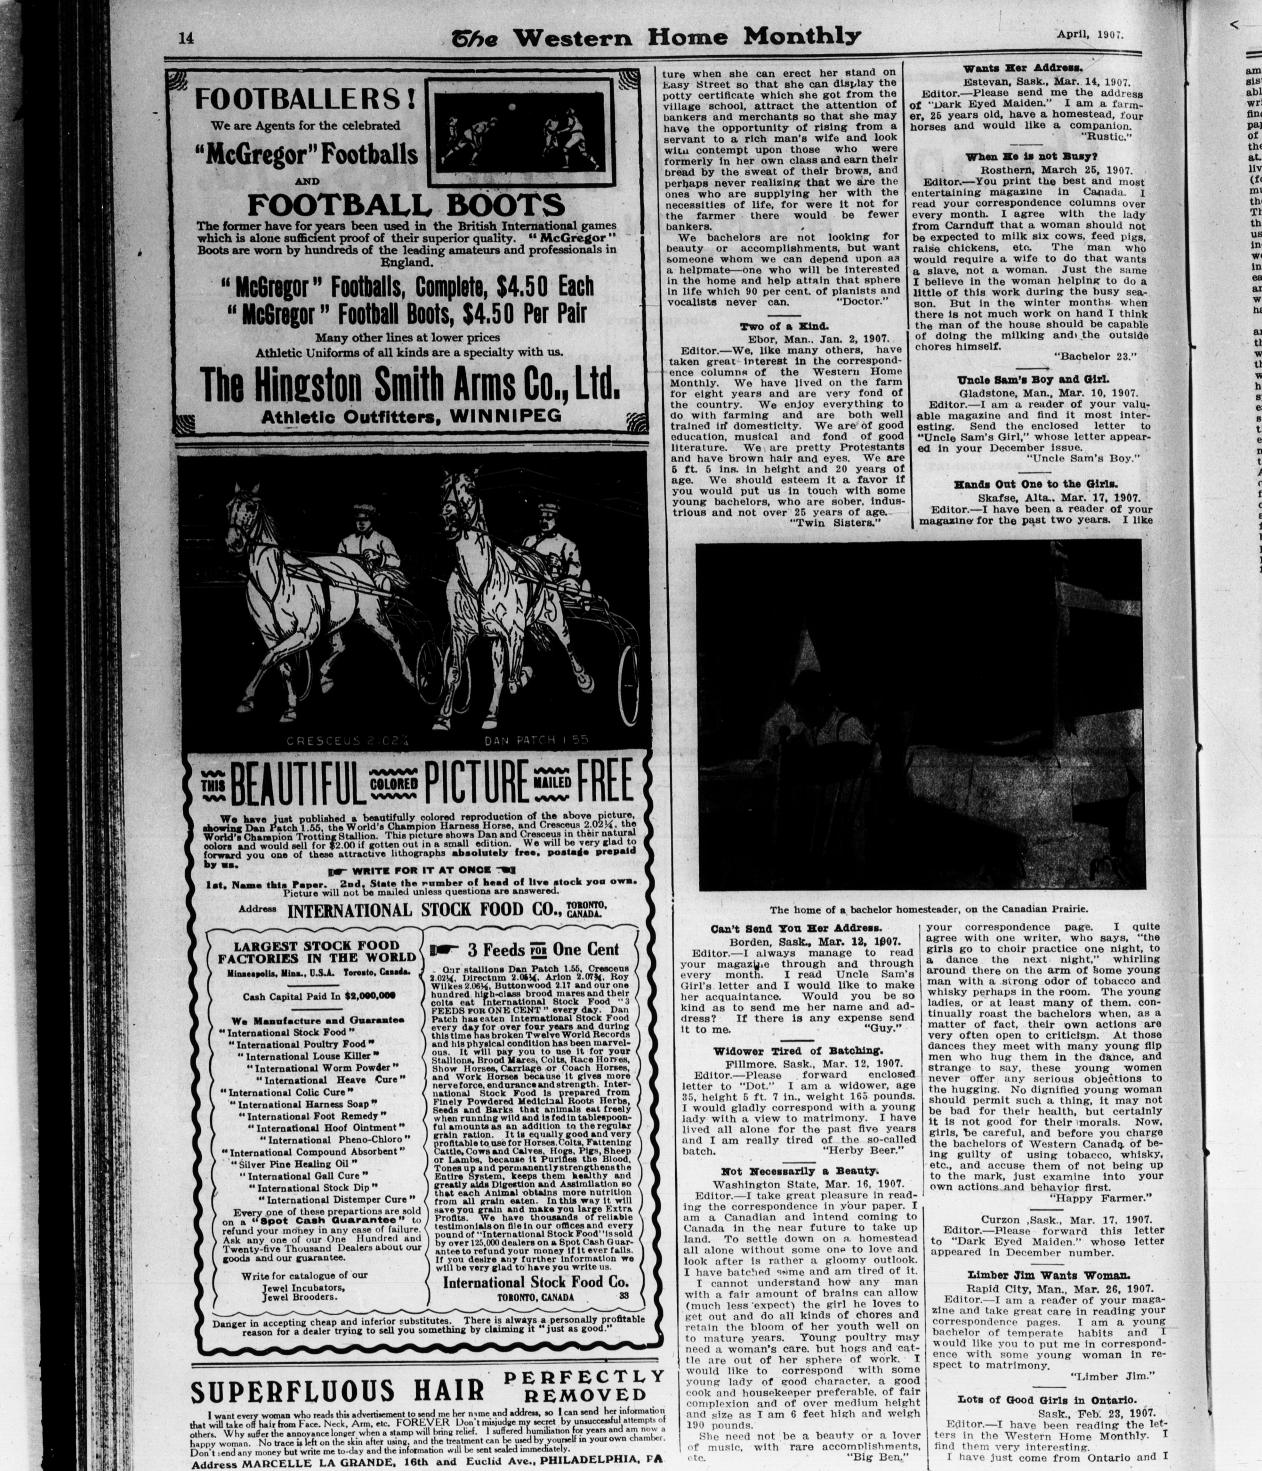

Drinkwater, Sask., Jan. 17, 1907. Editor.—I am an interested reader of your magazine and greatly enjoy read-ing the correspondence columns. I am a bachelor and came from Iowa a year a bachelor and came from lows a year ago. I own a section of good land and have no bad habits. I would like to correspond with some good respectable, loving young lady and would be willing to exchange photos with anyone. "Sunny Jim" "Sunny Jim."

Fifty, But Hearty and Vigorous.

Editor.—I consider that your matri-monial department is deserving of the highest praise, bearing in mind the ex-treme condition under which we Westerners live. I want a good wife and am well able to take care of one, as I am nearly 50 years of age, healthy and vigorous. The woman who becomes my wife will bless the day she saw this. "Moss Back."

Doctor Hands Out One. Hicksburg, Alta.

Editor.—As an enthusiastic reader of your valuable magazine I take very great interest in the correspondence colgreat interest in the correspondence col-umns and greatly enjoyed some of the letters printed there, particularly those of "Susan Jane" and "Young Woman No. 6." "Youthful Manitoban's" letter amused me. No doubt she is on the shelf and is now trying to censure all mankind and inferring that we would conscientiously tell on untruth in order conscientiously tell an untruth in order to obtain a woman's confidence. She seems to look forward to the near fu-

The Western Home Monthly

Would Exchange Love.

Radisson, Sask., Feb. 12, 1907. Editor.-I am a bachelor farmer and am tired of "baching" and would like to get my name on your list. I am looking for one who will love me little and love me long or love me when I am old and in the way. I will do the same towards my better half when I get one. I am a Canadian first and last, and would like to correspond with some of Please adthe fair ones in your list. dress letter enclosed to "Sister Sue." "Starlight No. 1."

One for Bessie B.

DeWinton, Alta., Feb. 23, 1907. Editor.-Although not a subscriber to your very interesting and valuable magazine, I have been a reader for nearly three years now and would not miss a month for the world. I have taken particular notice of your correspondence column and find it both amusing and interesting, would like to congratulate you on the good work you are doing for the Canadian West. I en-close you a letter to "Bessie B," of Portage la Prairie, to whom I wish you to forward it and oblige.

"Green Englishman."

Wants Ontario Girls West. Calgary, Feb. 21, 1907.

Editor.—I am certainly an interested reader of your valuable magazine. It is undoubtedly fine pastime to come in after a hard day's work and look over the correspondence pages. My occupa-tion is farming, a few miles from Calgary, an unmarried man of 24, but still not batching it. I batched for six months and at the end of that time I came to the conclusion that housework was no place for me. I think there is plenty of the gentler sex to fill that position if they can just be found. There seems to be lots of Eastern writers in your paper. I would certainly advise them to come West where we have good times, plenty of money to be made and a good place to spend it. "Ambitious Hal."

Glass-eyed Bill a Testotaller. Wheatywn, Feb. 24, 1907.

Editor.—In looking over your maga-zine I noticed Maiden Fair wants a home. Please send me her address. I am an active member of the Presbyterian church and a teetotaller and in good health.

A Broncho Buster Girl.

Editor.-As a regular reader of your splendid magazine I take a great in-terest in your correspondence columns. I like the style of "Easy Pleased's" letter and should like to correspond with him. I am 25 years of age, a good housekeeper, can turn my hand to al-most anything from clerking in a store to broncho busting. Would like to hear from "Easy Pleased" at his earliest convenience.

"Western Cow Girl."

Evelyn Gets Busy. Regina, Feb. 4th, 1907.

Editor .- Please forward the enclosed better to take the remittance man as he may improve upon acquaintance and turn out well, though there is an equal chance of his wife having to earn the money while he drinks and goes to the dors up of ten the Canstairs," in December, another to Winni-In nine cases out of ten the Canpeg in December also. The signa-tures of the letters referred to were "Handsome Harry," "All Alone," "Easy Pleased," "Enterprise," Do please adian prefers a girl of his nationality, so it is useless to court him (though he generally has the making of a very good generally has the making of a very good husband) as among the English girl's possible chances. As it is very easy for sensible and steady young people of both sexes to make money in this counforward those letters and oblige. "Evelyn."

"Fully Matured" Seeds Have Strongest Vitality

YOUR ORDER WILL BE FILLED with the same highclass seeds that produced over 100 prize-winners in 42 classes of Vegetables at Canada's Greatest Exhibition - that make the splendid gardens of the C.P.R. at Regina, Moose aw, Calgary and other stations - that receive Mr. Lacombe's (Manitoba's great gardener and lecturer on the Sarden) words of praise: "The purest and best I have ever en or grown."

15

About 1 000,000 planters in Canada will speak for them.

WAGE EARNERS

age.

Every prudent man has an earnest desire to provide a competence for old age, when he is no longer able to work. And every man wishes to provide fer those dependent upon him should he unfortunately die before reaching old

How can these aims be realized when only one's savings are to be depended upon?

In a pamphlet addressed "To Wage Earners", The Great-West Life gives a convincing answer to this question. It is shown how, at small cost, a contract may be secured that gives both protection for ore's family and provision for one's own future.

Ask for a copy-stating age next birth-

am just now on a visit to my married

sister who is a subscriber to your valu-able paper. I thought I would like to write a few lines, hoping you will please find space for them in your excellent paper. They might brighten the heart of some lonely bachelors, for some of them are more to be pitied than laughed them are more to be pitted than laughed at. It seems too bad to hear of many living the best part of their life alone (for it must be lonely), but I think it must be their own fault with most of them that they have not got a helpmate. They think that girls ought to seek them up, but it is not so with most of us, for we can make a good, respectable, independent living for ourselves, unless we get a good upright, temperance man we get a good upright, temperance man in comfortable circumstances, to share each other's joys and sorrows. There are lots of fine girls in Ontario that would make good wives if they only had the courage to come out here.

I noticed how many tell about land I noticed how many tern about hand and prosperity they have, tell about their good looks, and so on, but not a word about their disposition, which is word about their disposition, which is the most important part. By seeming gay we grow to what we seem by the spirit of hopefulness and contentmen. A cheerful spirit is a continual feast which we spirit is a continual feast which we each may have by going to its true source within personal magnetism on the art of pleasing each other, stuaying each other's ways and means. How much more happiness there would be in the homes. Life is just as we make it. Any respectable Protestant bachelor, over 30 years, who is fond of music and over 30 years, who is fond of music and flowers, desiring to write to me is wel-come to do so. They can get my right address from the editor. I will cheer-fully answer them. Hoping this will be sufficienty interesting and please print it in your magazine as I don't ex-pect to be here long, and thanking you for doing so. "Blue Bell from Ontario."

A Philosophical Writer. Alberta, Feb. 19, 1907.

Editor .--- I have read with interest and amusement the correspondence on matrimony carried on in your valuable paper. May I say a few words for the sake of the young women whose chances of marrying suitably seem to me slender in this country?

Since the old custom of parents arranging the marriages of their daughranging the marriages of their daugh-ters has gone out, there seem to be an ever increasing number of unhappy marriages and divorces and of lonely unmarried women. Early marriages, the salvation of the race, and happiness are almost obsolete. The English girl of the upper and middle classes, if not dowered receives an education which dowered, receives an education which enables her to earn her own living and makes her just fastidious in her choice of a husband. Out here in most places she has to choose between the remit-tance man, who is often desirous to marry a clever wife, and may or may not support her and his children. Or she may often get the chance of marrying some man who wants a cook and chore boy, who may have money but whose personal habits are a nightmare to the girl who has been born and bred among people who observe the proper functions of knife and fork and regard cleanliness and refinement as necessaries of life. Of two evils, it is certainly

try and as plain living and high think-

ing are best for happiness, I personally

should never make money the only c'n-

sideration, though, of course, 't has to

be considered before people should marry. But I am still wondering whether

a still young woman who is only pass-

ably good looking, has nothing but what she earns, and is simply well born and well educated, stands any

chance of marrying a man whom she

can be proud to introduce to her peo-ple as "my husband." I think that in

the great upper middle class in the

British Isles you find the real cream of

society, because there is always the stimulus of ambition to rise in the

commercial or professional life, a stimu-

lus which does not appeal to the aris-

tocracy who can have all by right of birth. It is in that class that I hope to

remain if fate, which is very unpropitious, ever deigns to let me marry the

THE GROWTH OF CULTURE

The day is past when culture and true social enjoyment were confined to the few—to the privi-leged classes. We live in a day of enlightenment and democracy. Equal educational advantages, equal opportunities for culture and enjoyment of those things in life that are best worth while.

The luxuries of yesterday are the necessitles of to-day, and in the musical world nothing is more noticeable than the demand of all classes for the highest possible grade of piano. The piano manu-facturer who meets this demand is never slack for want of orders.

THE New Scale Williams PIANO

is Canada's greatest piano. Its improvements and latest features have gone far toward creating a better appreciation of good music all over Canada. It more nearly approaches the ideal piano than any other.

Its tone, quality, construction and architectural beauty are unexcelled. For good music, for accompanying the solo voice or chorus of song, great artists all over the world are loud in its praises. And yet it is a Canadian instrument—perhaps the highest exponent of Canadian industry.

If you will

Should Have Fun in Her. Glen Ewen. Feb. 27, 1907. Editor.—I have been an interested reader of your magazine for some time. I think some of the girls are a little hard on the bachelors. The bachelors are not all drunkards; speaking for my-self, I do not use whisky or tobacco and I can point to any number of my acquaintances, bachelor friends, who are like me in that respect. I think the house is the place for the woman. Feeding pigs and milking cows is a

man's work. Now, I will give you my idea of a nice girl. She ought to be fairly good looking, be able to play the organ, be a good housekeeper, and above all be neat and tidy, also a good figure and have a little fun in her.

I do not see why a farmer's wife should not have a good time if she has the right kind of a husband.

"Hay Seed."

Thinks He's O. K. Ponoka, Alta., Mar. 26, 1907.

Editor.—Please forward letter to "Vinca," Cottonwood, Sask. She is the gal for me. I read her letter with interest, also letter of Bankhead, Alta., by "Married Man."

I think a woman is a woman and not machine, and she should be treated as . woman. If many of the young men would leave whisky alone and act de-cent there would not be so many bachelors. I know of some men who go to town and get drunk around town till late at night and then come home and abuse their better half. What a shame! I am a bachelor, sober and steady, 160 acres, and would correspond with young lady.

"Ready Bachelor."

Wants to Correspond.

Rapid City, Man., Mar. 14, 1907. Editor.—I am a subscriber to your magazine and would like if you would print the following in your columns. I am a young bachelor and farmer. own 320 acres of good land and good outfit to run it with. I would like to correspond with a good respectable young woman used to farm work. "Young Bachelor No. 10."

Got the Necessary Qualifications.

Burnbank, Man., Feb. 14, 1907. Editor .- I have read with great interest the discussions going on between the ladies and bacnelors of the West. Some people do not like what they call "getting married by mail," and I cannot say that I approve of it myself, but at the same time I would far rather see a fellow married to a Western girl (were it by mail or even at a street corner) than see him go across the sea to Great Britain and get a wife who does not know a binder from a wagon and is a poor housekeeper. When she arrives here she won't like the country and will lose heart in everything. I keep house for my two little brothers and I know that they like a well-cooked meal and always on time. I have heard folks say that the way to a man's heart is by means of his stomach, and I certainly believe that there is quite a bit of truth in it. I don't care very much for young men who drink. but most of them do, and those that do not do something worse. If you ask a bachelor why he smokes, he says, "It's so lonely in the evenings, I have to do something." I April, 1907.

Constipation

Baked sweet apples, with some peo-ple, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Na-ture undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, com-bined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest power to correct constipation. A toothsome Candy Tablet, called Laxets, is now made at the Dr. Shoop Lab-oratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying. No griping, no unpleasant after ef-

fects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box. For something new, nice. economical and effective, try a box of

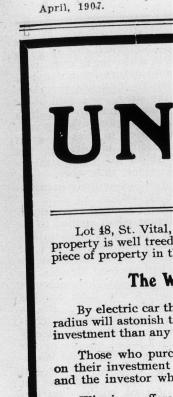

LAX-ETS A Yearly Income and a Beautiful 26-Piece 12Dwt. Wm. Rogers Table Silverware for \$10.00

kind to me-Really! Quite a flatterer!'

And so Lieutenant Cayley-Clavering continued to pay her insidious visitsand it was not for the love of the cakes alone, either, as Miss Priscilla, who had been browsing amongst her novels more than ever lately, persist-ently assured herself.

And by and by there came a letter— an epistle which sent her into the seventh heaven of delighted excitement.

"DEAR MISS CRESSWELL"—the let-ter ran—"If I come this afternoon at four o'clock, do you think you could see me? I have something very im-portant to say to you.-Yours very sincerely,

"R. CAYLEY-CLAVERING. "P.S.—I wrote this because I am so very anxious that you should be in." Could she see him! Miss Priscilla kissed the letter, and folded it away in a private drawer in her escritoire-a drawer which was already sacred to a faded bunch of violets that had drop-ped one day from the button-hole of his coat in her drawing-room, and a midget photograph of himself as a boy at Eton, that he had given her. She had had one taken of herself in a new silk dress, bought on purpose, to give to him in return.

Could she see him! She sat down at once at her writing-table and dashed off a note, in her little prim, oldfashioned handwriting.

not vain, poor dear-no one in the world less so-but when one is going to keep a tryst with one's lover, well, to keep a tryst with one's lovel, wen, it is only human nature for a daughter of Eve to wish to look her very best. "Priscilla, my dear," she said aloud —she often talked aloud to herself; a habit frequently acquired by people who are accustomed to lives of great habit frequently and to herself.

April, 1907.

loneliness-"Priscilla, my dear, it has become the fashion for men to marry women years older than themselves, and I believe you are actually going to be fashionable at last!" Fashionable! It seemed an incon-

gruous appellation when applied to the quaint, almost ridiculously prim little figure reflected in the mirror; and the figure reflected in the mirror; all the smart, tailor-made young ladies at the Rectory, who had sneered for so many years at Miss Priscilla, for being a "dowdy frump," would have laughed aloud had they heard it. . . But to Miss Priscilla herself, gazing com-placently at the mild blue eyes, meekly parted hair and faded cheeks of her parted hair, and faded cheeks of her counterpart, there was nothing laughable about it. . . . It is, perhaps, just as well, after all, that God has not given us the gift of seeing ourselves as others see us.

"And, now, what alterations can I make in my dress?" She tripped about the room, picking up first one thing, then another. "There is my new silk blouse—no, that is too bright a pink, and I know he does not care for pink. Ah, this pale blue chiffon

Stump of Tree used for dwelling in British Columbia,

"DEAR MR. CAYLEY-CLAVERING,- | scarf; he always liked blue, he told me Please call this afternoon at four o'clock. I shall be delighted to see you.—Yours very sincerely, "PRISCILLA CRESSWELL."

once that it matched my eyes!" She laughed at the recollection of the compliment, and, pausing again before the glass, arranged the bit of finery about

April, 1907.

Busy! She laughed-alth laugh was a sad one-at the gestion. What occupation be stupid little household duties to fill her empty days?

"No," she answered, a lit ulously; "No, I—I am not bu He sighed, and leaned across the back of the sofa b A thrill ran through her as the contact of his arm. Ho

She scribbled the words, Priscilla her neck. right now."

Cayley-Clavering" across her blotting-paper, just for fun, and to see how it looked-then blushed furiously, and threw the botting-paper into the waste-paper basket. How unmaidenly! How disgraceful

of her! Really, how could she have done it!

But she was smiling all the time, and once, a little later, took the blotting-paper out again, just to have another look at it.

And so, when, at four o'clock precisely, the neat little maid-of-all-work with a visiting-card bearing the name found her mistress in a perfect flutter of tremulous excitement.

"Tell the young gentleman to wait in the drawing-room; I will be down i na minute," said the little lady, endeavoring to speak with an airy unconcern, which, however, she was far from feeling-an endeavor which, it is almost needless to add, was a complete failure, for Miss Priscilla was not skilled in the modern accomplishment ot

"Yes, miss," and the maid withdrew.

Immediately that she was alone again, Miss Priscilla turned, womanlike, to her looking-glass. She was hope?" he continued.

"There, I think I look all

She gave one more glance over her shoulder, and then, smiling to herself, tenderly, opened the door, and tripped downstairs.

-0-0-0-

Lieutenant Cayley-Clavering rose rom the drawing-room sofa as Miss Priscilla entered. He was tall and fair, and boyish-looking, with strikingly handsome features, and rather a weak mouth. The type of a man who, a person with discernment would have came up to Miss Priscilla's bedroom seen at a glance, would always be afraid to act upon his own initiative, of Lieutenant Cayley-Clavering, she and who infinitely preferred to have some arm other than his own to lean upon. But Miss Priscilla was not discerning, and she thought him clever and strong and wonderful.

He came forward to meet her with outstretched hands. Her heart beat a little faster as she saw the eagerness in his eyes.

"Dear Miss Cresswell," he said, boyishly, "I am so glad you were able to see me." He seized both her concealing the emotions—"tell him little, trembling hands in his big mas-I will be down in a minute." terful ones—how she loved the masterfulness of them !--- and dragged her down on to the sofa, where he sat beside her. "I am not interrupting you; you are not busy this afternoon, I

stupid little household duties had she to fill her empty days? "No," she answered, a little trem-ulously; "No, I—I am not busy." He sighed, and leaned his arm across the back of the sofa behind her. A thrill ran through her as she felt the contact of his arm. How hig he A thrill ran through her as she felt the contact of his arm. How big he was, this gay young soldier, how beautiful, and manly, and strong! And to think he should have fallen in love with her—her, the insignificant little spinster, whom those horrid, fast girls at the Rectory called a "dowdy frump!" But then, stranger things even than that sometimes happened in the novels.

"You've always been good to me," he said, gently. "Ever since we first met I-I've been fond of you. You remember our first meeting, don't

you?" "Yes." Of course she remembered it. It was not likely that she should forget the Rectory garden-party; it was the only social function, barring an occasional school-treat, that she was ever invited to. Insignificant old maids were not much sought after in Mudminster society. "Yes," she re-peated, softly, "I—I remember."

He sighed again, and bent forward in his seat, with his eyes fixed rather moodily on the ground. Miss Pris-cilla thought he seemed depressed and worried; but, then, men always were depressed on these occasions-at least, so it said in the novels.

"We've-we've been good friends ever since, haven't we?" he continued. ever since, haven't wer' he continued. Suddenly he put out his hand with an eager, boyish gesture, and laid it in her lap. Miss Priscilla stroked it gently with her own. "Yes," she said, smiling, "we've— we've atways been good friends."

"And I've always confided in you, haven't I? Told you all my troubles and my joys?"

"Yes, you've always told me everything.'

She remembered the day when he had almost broken down in telling how he missed his dead father and mother, and how her heart-for she was an orphan herself-had sympathised with his loneliness. Poor boy! He was young to be an orphan; and he missed his mother dreadfully-she had always been his confidante in everything.

His eyes scanned her face anxiously. "And if I tell you something now, you won't laugh at me, will you? Or

Laugh at him! She looked at him

with shining, tender eyes. "I won't laugh," she answered gently.

"Or-or call me a fool, will you?" his ringing, boyish voice was full of a wistful anxiety.

Call him a fool! Was it foolish to be in love? She placed her hand on his arm.

"You can trust me," she said simply. He gave her hand an affectionate squeeze. "Forgive me for doubting

you, my best friend," he answered, re-

she knew beforehand what he was going to tell her soon. She must be bashful; she must be coy. That is what they always were in the novels. "You must be more explicit," she said, with a faint, sweetly wisful smile. The boy drew a deep breath. He

came a little closer to her side. "It-it begins with a 'P,'" he said, in an awestruck whisper, as if men-tioning something sacred, something to be spoken of with abated breath, "a 'P.'"

A 'P'! Miss Priscilla's cheeks were burning with such a vivid crimson now that they harmonized but sadly with the pale blue chiffon round her neck. But, good gracious! what a long time the boy was in coming to the point! Dear me, then it is sure to be something nice. Lots of pretty names be-gin with a 'P,' you know." He looked delighted.

"I'm glad to hear you say that. I think it's a pretty name myself, the prettiest in the world, though some people are stupid enough to think it is old-fashioned."

Yes, Priscilla" was rather old-fashioned, now she came to think of it; but, oh, dear! what did that matter as long as he liked it, and he thought it

"Where did you meet her first?" she

Where did you meet her hrst?" she ventured again, shyly, knowing per-fectly well, little hypocrite, and yet longing for him to say the words. "At the Rectory garden-party two months ago. I—I loved her the first moment I saw her. There is such a thing as love at first sight, although I know I used to laugh at it." Yes there was such a thing: she

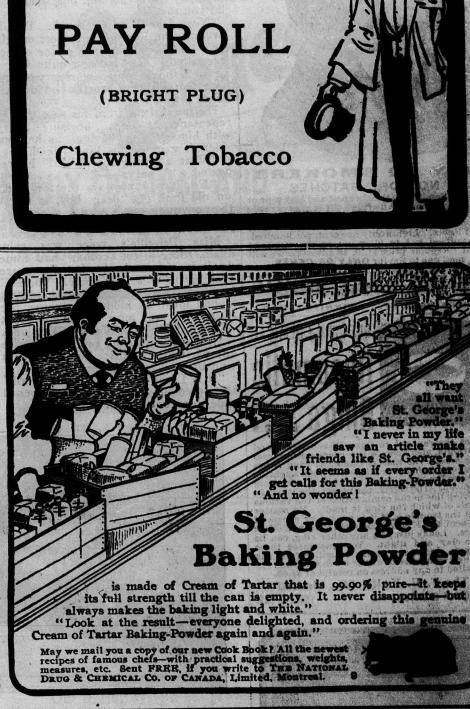

Yes, there was such a thing; she knew it herself, for had she not fallen a willing victim to Lieutenant Cayley-Clavering's charms the very first time that she had seen him? And to think that he had loved her at first sight, too

But what a long time the dear fellow was in still coming to the point! It was absurd to shilly-shally like this any longer; the moment had come for her to help him out with his confession at last.

"I was at the Rectory garden-party." she said, bravely. It was a bold stroke, and she was ready to sink into the ground with maidenly modesty and confusion the moment she had made it. But the bait had been taken; he drew nearer to her on the sofa-he

spoke. "Ah, yes, I remember now, of Then you

clasp. "Phyllis!" her voice sounded strangely quavering and old. "Phyllis, did you say?

"Yes, dear Miss Cresswell. Phyllis Aveling, the Rector's youngest daugh-ter. Oh!"-noticing the pallor of her will have me?" He looked at her with a hungry love-light in his eyes—a love-light which was not for her, but for pretty, golden-haired Phyllis Aveling! Phyl-lis, who, brave in her own Bond Street finery, had so often laughed at the poor shabby little spinster, and called her "an old maid." Miss Priscilla felt as if she could have screamed aloud in face, "you are looking quite ill! I knew I should only worry you and bore you with my beastly confidences. What a fool I am!"

He jumped up from his seat, full of repentance at once, boyishly angry with himself for having, as he con-sidered, worried his kind friend.

"What a young fool I am!" he re-peated. "What a—" "No, it is I who am the fool; and an old fool, my dear boy, is worse than a young one."

Miss Priscilla's voice was calm again, some of the colour had come back into her cheeks, her lips were even parted in a faint smile. You see, her heart was broken, but the death wound must be hidden somehow, the disgraceful scar must be put away out of sight. She was not a soldier or a person of distinction, or gifted with any particular brains; but she was a woman-and women are brave.

"It is I who am a fool, an old fool," she repeated. The boy's eyes opened wide in astonishment.

promptly.

Grader at work on the C.P.R. near Lacombe, Alta.

"Why are you a fool," Miss Cresswell?'

She laughed quite carelessly-she was able to manage even that nowand put her hand to her head. "A touch of the sun, I think. I was

"But now," he went on again, 'everything seems to look pretty plain sailing . You've cheered me up such a lot! Since you have told me so, I think, somehow, that she will accept me!"

"I am sure she will," repeated that

Grand Trunk Townsite.

A few years ago, when farseeing, shrewd business men commenced investing in Winnipeg real estate some old timers shook their heads and remarked that a new crop of suckers would be harvested in the near future. A few of those pessimistic mortals have been making prophecies since then, that dire calamities would befall Winnipeg real estate. But property keeps on enhancing in value, month after month, and the city is enjoying a good healthy growth without any evidence whatcver of a boom.

Within the past three years upwards of 30 million dollars' worth of new buildings has been erected and the building permits for this year up to the present time, is in excess of what they were for a corresponding period last year. Every new building is occupied as soon as it is erected, which is another evidence that there is no boom and that the expansion is justified.

onto,

Fortunes are being made in Winnipeg real estate every year, and that fortunes will continue to be made is the expectation of many clever business men. With the advent of the Grand Trunk Pacific and Great Northern systems, there is sure to follow in their wake another active demand for building property. The Grand Trunk Pacific, it is alleged, have bought a site east of Winnipcg. Immediately around those new shops, a new town will be built to accommodate the thousands of skilled mechanics with their families, the employees in the works. Property in the vicinity of the new shops are now being offered at very cheap prices.

offered at very cheap prices. Messrs. Birkett & Heim, real estate agents, 477 Main St., Winnipeg, are selling out a new subdivision adjacent to the new shops on very advantageous terms to purchasers.

A full page advertisement of Birkett & Heim appears an another page in this issue. The ad. contains a map of the property, showing the location of the proposed new shops, etc. It will repay readers to drop this firm a line, for full and complete information regarding this property. New Catalogue of Summer Sporting Goods.

The well-known sporting goods dealers, The Hingston-Smith Arms Co., Ltd., of Winnipeg, have just issued their spring and summer catalogue for 1907. It has a handsome lithographed cover and is profusely illustrated throughout. It describes and illustrates everything that can possibly come under the heading of summer sporting goods, and the assortment of styles and range of prices on each line is so great that all tastes and pockets may be suited. The firm mails copies of this catalogue free on request.

The National Creamery and Produce Co.

LIMITED

is the largest Creamery in Western Canada, has two Branch Creameries, and employs the most skilled Buttermakers in the West.

The Head Buttermaker in Winnipeg has secured the following awards for his Butter :--

Diploma from the Government Dairy School in 1897.

Special Gold Medal, donated by the Hon Thomas Greenway, for Butter scoring the highest of any exhibited at the Winnipeg Industrial Exhibition in 1896.

Gold Medal and Diploma at the Winnipeg Industrial Exhibition, in 1900.

Gold Medal and Diploma at the Winnipeg Industrial Exhibition, in 1901.

In dealing with us, you are dealing with a Company which has the reputation of paying promptly on the 3rd and 18th of each month, and manufactures the highest grade Butter on the market.

We pay by Express Money Orders which can be cashed any place in Canada, and insure the patron against loss or inconvenience in cashing, as is the case when cheques are used.

Our testing system has proven itself infallible.

Ship us a few Cans of Cream on Trial, and we are satisfied that you will be so pleased with our methods of doing business that you will become our permanent customer.

Uneeda Park Lots.

James Robinson Co., 771 McIntyre Block, Winnipeg, are offering choice lots in Uneeda Park at \$100 a lot, on easy terms. There is considerable activity in real estate in this locality. The business announcement of James Robinson Co. appears on page 17 of this issue and a careful reading of their advertisement will give readers considerable information regarding it.

ALCOHOL AND CONSUMPTION.

The contention that alcohol is beneficial in the treatment of tuberculosis was declared to be fallacious by Dr. T. D. Crothers, superintendent of Walnut Lodge hospital, Hartford, Conn., in an address before the international congress on tuberculosis here today. He declared that on the contrary alcohol is really more dangerous than the disease it is given to correct.

streets.

remember that the newspaper is not a

faithful index of the moral and social conditions of our nation, but only holds up a distorted picture of what

is going on. People are kind and are growing kinder. People are good and are committing less and less crime. People are virtuous aud are not so

ept to break the rules of propriety as ever before in the history of the

If the daily paper can be read with this thought in mind, and the noise

and the clatter of startling events does

not shut out the undertone of real fraternity and human goodness which

ought to be there if the picture were

In a recent issue of "Suggestion" appears an article entitled "Disastrous Newspaper Suggestions." The article (by Dr. H. A. Parkyn, Editor of Suggestion), goes on to describe the damaging suggestions made every day by the daily newspaper. It gives a list of articles that appeared on the first page of a newspaper picked up at random. This editorial is a good one and ought to be read by every one who is re-sponsible for the rearing of children. We have always held that the daily newspaper is, at least, a very poor edu-cator. We are of the opinion that

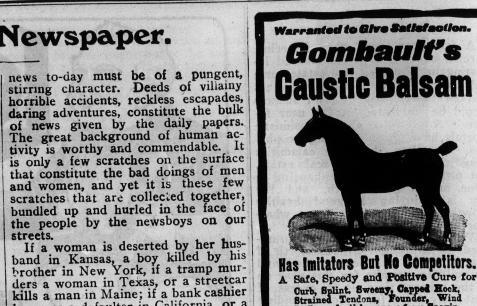

those people who are deprived of the privilege of reading the daily news-paper and confine their reading principally to magazines and other mon-thly periodicals are the gainers. Not that we would hide from people the facts of society. We believe that a newspaper ought to reflect exactly what is grained on the world. We what is going on in the world. We do not believe that anything would be gained by trying to cover the crimes committed, or keep in the dark the unwholesome occurrences that dis-courage and embarrass civilization.

But the daily newspaper is not a fair index of what actually occurs in society. The newspaper man is seek-ing for sensational stuff. He wants unusual events and occurrences. He searches copy for crime, for misde-meanor, for all sorts of domestic and fraternal irregularities. These consti-tute news. The shortcomines the tute news. The shortcomings, the ill-nature, and the moral lapse of frail humanity are gathered from all quar-ters of the earth and held up to the public gaze of each locality. This is done in order to cater to the public. All of the beautiful things that hap-pen in the world pass unnoticed. The millions and millions of homes in which no irregularities occurs not

which no irregularities occur are not mentioned in these papers. Acts of loyalty, the constancy of true love, the self-sacrifice, the heroism that a million times outnumber acts of cruelty and greed and barbarity find no place in the daily newspaper. Ought to be there in the pleture were done. But the no harm would be done. But the careless reader is apt to judge that the world is going to

the bow-wows when he sees nothing in Of course, the editors do not purposely do this in order to debauch their the daily newspaper but the accounts readers. Such news does not even of those things which men and women please the editor himself, perhaps, but | ought not to have done.

'As in ancient times countries self. flourished or were stagnant according to the patriotism of the people, so it to the patriotism of the people, so it is in Germany nowadays. It is true that during the nineteenth century there was an increase of individual patriotism noticeable in many coun-tries, especialy in those of which the native language became much more widespread, but in none was the change so remarkable as in Germany. If we now turn to the question as to how this particular result has been

achieved we have the explanation given in one word-education. The thoroughness of German education, which, as we understand it now, originated in the twenties of the last century, has been gradually bettered and may at the present time be regarded as almost perfect in many respects. It has al-ways been conducted with the object of inculcating in the minds of the pupils the duty which they owe to themselves and to the state, and the part which they should endeavour to take in advancing the welfare of the community as a whole. This training explains in a large measure the wonderful effi-

a large measure the wonderful em-ciency of the German army, the rapid development of the navy, and the enormous scientific, industrial, and commercial progress which has been

made. Speaking generally, one of the most striking features of this quarter of a striking leatures of this quarter of a century of progress which we have under consideration is the social re-form which has been effected. We may leave out of consideration the disouted point as to whether this remay leave out of consideration the disputed point as to whether this re-form would have been anything like so great had it not been for the poli-tical presence in the country of a great and powerful social demo-cratic party. We need only consider the fact that enormous improvements of a permanent and highly beneficial character have been made in the housing of the working classes, that a housing of the working classes, that a system of old age pensions has been successfully introduced, and that, amongst many other things too numerous to mention, the great problem of workmen's insurance has been satisfactorily solved, to realize how great the progress in social reform has been. Indeed, the whole world acknowledges the advance Germany has made in this

respect. That the nation at large is likewise flourishing under these conditions will also admit of no doubt, for whilst the upper classes and capitalists have invested enormous sums of money in foreign loans and stocks the working

Don't Be Too Good to Your Husband.

By Helen Oldfield.

be carried to excess, whereupon the quality, however admirable in itself. becomes by reason of such exaggeration objectionable, it may be even vicious. Neither is unselfishness, with all its beauty, an exception to this rule: pushed to the point of utter self-abnegation it is good neither for oneself nor for others. It is not every one who possesses a correct sense of perspective, spiritually or bodily, and thus many fail to realize that along the road which leads to such excess there are many way stations. Unselfishness and self-abnegation are by no means and self-abnegation are by no means synonymous, excepting in so far as one is the positive, the other the super-lative degree of the same principle. And while self-seeking is the canker at the root of love selfishness, exacting and jealous as to tithes and offerings, incompatible with sincere affection. incompatible with sincere affection; the spirit of conscious self-sacrifice is

There are few virtues which may not e carried to excess, whereupon the ood quality, however admirable in asked why he had never married, replied: "Because I never have found any woman whom I loved better than any woman whom I loved better than myself," had gauged the breath and depth of the whole question. In mar-riage, moreover, it is not enough to love one's neighbor as oneself; that closest neighbor of all, the husband or wife, must be dearer and nearer than the Ego, and therefore necessary to the Ego, and therefore necessary to one's happiness.

Nevertheless, utter self-surrender rarely is wise. No woman, especially, ought to love her lover too well, or if such self-control is beyond her, the laws of self-protection demand that she shall never, under any circumstances, allow him to understand that she does so. Most men-the exceptions are as scarce as hen's teeth-resemble one's shadow in that if one pursues them they flee, if one flees they follow close upon one's heels. Men object upon principle to the woto the full as alien to genuine perman-ent love. Love loves for his own sake, even while he loves another better than they follow close upon one's heels. Men object upon principle to the wo-man who yields too much. No man

himself. Which, indeed, is no small | appreciates dog-like devotion from the part of the mystery of love; that which is greatest is also a servant: That love reigns a king

Where storms cannot reach him. And words cannot sting.' And simultaneously:

That love is a slave Who dreads thought of freedom As joy dreads the grave."

woman whom he woos, even though he may accept it more or less graciously, and the wife who abdicates too much is apt to find herself bankrupt with no tangible return for her lavish outlay.

Later on, when the lovers are married, the wife will do well to remember that although it is her duty, and ought to be her pleasure, to do all that she can to add to her husband's comfort, she owes it to him, as well as to herself, never to degenerate into a domestic drudge. The woman who abases herself to black her husband's boots, literally or figuratively, has no cause to complain if he treats her as a slave rather than as an equal, and accepts her humble devotion as his natural right, possibly without the bare formula of thanks. Mutual respect is the one and only secure basis for married happiness, a fact which cannot be too strongly impressed upon the mind. Such respect cannot exist unless it is founded upon self-respect. It is part of the same proposition that the foolish husband who treats his wife as a spoilt child, a pet. and a plaything. has no right to feel injured if, when an emergency arises in which he needs the companionship of an intelligent woman, she persists in the role to which he has accustomed her and can afford him neither aid nor comfort. In order to be a good wife one must not be too good. It is all well, so far as it goes, for a newly married wife to listen and believe her husband when he assures her that he is happier than ever before, and that his home is dearer to him than any club on earth, but it is far from well if she looks

is one of the things none may plain to any other, but which every one feels unmistakeably when the hour and the man or woman arrive. True love is, and always must be, unselfish, but it is because the greater absorbs the less. Self is eliminated only as it is swallowed up into a nearer and dearer self. Under these conditions it becomes the lover's greatest happi-ness to make another happy, and this desire being mutual, the twain shall be one flesh, sympathetic, harmonious, and devoted, each to each. It often is claimed that the love of a woman is more unselfish than that of a man, in that it is given to make her lover happy; a man's love on the other hand, is of and for himself, and his chief idea in wooing is to make himself happy, the woman whom he woos being a second consideration. Which, even when it fits the case, is a sophism. It cannot be too often reiterated, nor too strenuously insisted upon, that no cne, whether man or woman, has the right to marry for the sake of any but oneself. Self-sacrifice is admirable and beautiful, but in such a case it is as though one were to offer a stately marble statue of inestimable worth to him who was famishing for bread. Unless one marries for one's own sake and because that way happiness lies for oneself one had not better marry at all. The true inwardness of the matter is that by so doing one finds one's truest joy in giving joy to "just to see what the fellows are

The Manitoba And Co., Limited, 90 Prin nipeg, are making a for economy, bea strength and durabili beat. The Anchor wires immovable, and fences are weak at th ing, or tying one v other crystallizes it so and breaks, the A strongest at the in cross wires, with th steel band.

Another good fea Anchor fence is that stock, nor stock in fence. The compan a handsome illustrat ing all the kinds of facture as well as of other valuable in they will mail to a copy. Write for catalogue "H."

about." This is not a wisely chosen method to convince him of the superior attractions of his own home and fireside. There is a certain fascination in club life to most men. For some its fascination contains an element of danger, for some not. When a man tires of it and wants a home it is. usually because there is a worthy longusually because there is a worthy long-ing in his nature for something better and more satisfactory. But no man can be expected to give up his old friends and all of his old associations because he marries. The fact that he wants a frolic with "the boys" now and then is not an indication that he is tired of his home, and to resent it as such is a fatal mistake.

As Amie says: "There is in man an instinct of revolt, an enemy of all law, a rebel which will stoop to no yoke, not even that of reason, duty, and wisdom." When the tether by which a man, any man, is held becomes too tight he is apt to break away. The rope must be long and it must be strong. The single strand of love is often sufficient of itself. Common sense and tact must be two strands of the rope to make it strong enough to serve as a cable for the domestic ship. The too affectionate wife trusts entirely to one strand and the ship breaks anchor.

Of Interest to Butter Makers.

The De Laval Cream Separator Co., Winnipeg, has just issued a handsome booklet, a copy of which should be in the hands of every butter maker in this country. A post card will bring you a copy by return mail. When writing mention the Western Home Monthly.

Seed Catalogue Free.

Wm. Ewing & Co., Montreal, have sent us a copy of their new 1907 catalogue for seeds, plants and bulbs, which is both comprehensive and well arranged. Readers of the Western Home Monthly can secure a copy for the asking. Just drop a line to Wm. Ewing & Co., 142-146 McGill St., Montreal, and a catalogue will be mailed you upon receipt of your letter.

Banwell Hoxie Wire Fences.

The Banwell Hoxie Wire Fence Co., of Hamilton, has opened an office in Winnipeg. Mr. Alexander, their representative now in charge of the Winnipeg office, is well and favor-ably known in Western Canada. This firm has one of the most modern plans in Canada for turning out their product. The leading members of the company are men who have devoted many years to the fence business and to say that they are experts would be putting it mildly. The Banwell Hoxie wire fence is recognized by experts to be one of the best in the market. The company has just issued a new "folder" on "Erecting Fences," which gives very complete instructions as to how to erect a good fence, and those who will follow out

the instructions laid down in it will certainly have a good job. No farmer, fence man or any one interested in fence construction should fail to write for a copy. Address Banwell Hoxie Wire Fence Co., Winnipeg, and ask them to send you "folder" H.

The Manitoba Anchor Wire Fence.

The Manitoba Anchor Wire Fence Co., Limited, 90 Princess Street, Winnipeg, are making a line of fence that for economy, beauty, simplicity, strength and durability is hard to beat. The Anchor Clamp holds the wires immovable, and while all woven fences are weak at the point of crossing, or tying one wire around another crystallizes it so that it corrodes and breaks, the Anchor fence is strongest at the intersection of the cross wires, with the addition of the steel band.

Another good feature about the Anchor fence is that it will not injure stock, nor stock injure the Anchor fence. The company has just issued a handsome illustrated booklet, showing all the kinds of fence they manufacture as well as furnishing a fund of other valuable information, which hey will mail to anyone desiring a copy. Write for their illustrated catalogue "H."

The Western Home Monthly

Married Life Can be Made Happy.

By MARY A. LIVERMORE.

A happy marriage does not depend upon good health and good habits alone. Unless on both sides there are well grounded respect and love, The husband will appeal to his wife well grounded respect and love, uniting the twain in oneness of sympathy and purpose, the marital union will lack the completeness and bless-edness of which it is capable. Soredness of which it is capable. Sor-rows and trials are sufe to be ex-perienced. Infirmities of temper, common to all, will manifest them-to it. This will come without any selves in an unpleasant manner. Ill-ness, disappointments, poverty, with annoyances and irritations from un-Timothy Dwight, ex-president

for advice or suggestion in matters where he has learned that her judg-ment is superior to his; and she will debate or discussion as to the leaderot

him bear his failures. But, as a rule, the one thing of which a Canadian wife is ignorant is her husband's business. The husband chooses to have it so. "Women know nothing about business." "I do not want to bother her with my affairs." "If she will run the house, I will find the money." These and like statements are the reasons he gives for his preference. So he buries himself in his office or counting room, and plunges into com-mercialism, ignoring all other pursuits.

The wife, left to herself, becomes the patron of local philanthropies, joins clubs, and pursues courses of Joins clubs, and pursues courses of reading and study, opens her house to lectures and musicals, and cultivates society. Her husband sees her less frequently as he becomes engrossed more and more in money making, and his children grow from babyhood

might be taken from them. Although he was a stern, cold man, feared and disliked more than he was loved, his marriage was almost ideal. His wife was neither intellectual nor brilliant, but she loved her husband devotedly, and he found in her "a place for his heart."

Before all forms of government, all types of civilization, all social institutions, and all advance in educa-tion, the relations of the husband and tion, the relations of the husband and the wife make the everlasting founda-tion on which the social structure of the whole world rests. Just so fast and just so far as these relations be-come what they ought to be, just so fast and just so far will society be up-lifted—but no faster and no farther. It is the family and the home that lay the foundation of country, and these the foundation of country, and these depend on the relations of husband and wife.

and wife. The greatness of a nation is not made by its extensive territorial do-main, nor by its vast wealth, nor yet by its impregnable fortifications, its battleships, and its trained soldiers. It may possess all these insignia of greatness and yet be weak, and, like Rome, fall a prey to barbarian hordes. The greatness of a nation is made by its true men and women, who have been well born in good homes, where they have been carefully fashioned into a lofty type of manhood and womanhood. This is the large intent of marriage, which is not alone the crown as well, and should be the symbol of a marriage that shall be immortal. mmortal.

THE MAGAZINE FARMER.

I used to like the old place But now it ain't no use; It's laid out inartistic, And it's tacky as the deuce; You see I've been a-reading, Till envy makes me green, Of artistic agriculture In a farming magazine. In a farming magazine.

It tells you how your pig pen Should be on aesthetic lines; And your Locey Fourteen henhouse Should be draped in ivy vines; I'm goin' to sell the old place---It's architecture's bum, And I'll buy one of them dream-joints In that magazine, by gum!

Fore I meet the sheriff man, But I'm goin' to be a farmer On the magazinist plan!

Threshing with Gasoline Engine on the Farm of J. & C. Burgess, Sask.

from the start cultivate that habit of looking at the bright side of things, which Dr. Johnson has pronounced "worth a thousand pounds a year."

It is not possible to overstate the value of cheerfulness in a home. One can hide the sun from his vision by holding a dime persistently between it and his eyes. We can so magnify the little ills of life by morbid contemplation of them as to obscure our pleasant surroundings from ourselves and to breed moroseness and gloom in the family circle. The most cheerful people usually are not those who are the least bur d with care, suffering, want, and work. Nor do those deserve the reputation of cheerful people who are gay and hilarious when all goes well with them and their tastes and wishes are gratified but who drop into bad temper and "fits of the blues' the moment they are thwarted. Cheerfulness is a habit to be cultivated, a moral quality to be acquired, which drapes one's personality everywhere with sunshine as with a garment. It will glorify the humblest home, even when it lacks the decorations that money can buy, and will soothe and invigorate the most rasped and weary toilers in the struggle for existence. Who shall be the head of the house-hold? Shall it not be the husband? Yes, he shall be if he will The true wife desires nothing more than that her husband shall be king in his own right, and by his own act, for then she shall be queen. But when, instead of wearing the royal purple of an in-comparable manhood, he clothes himself in the rags of a dissolute life, she too, fails of the throne, and the sceptre drops from her hands. This question never obtrudes itself upon a well mated pair. In happy marriages the husband and wife alternately are subsect and ruler, neither dreaming that such an arrangement exists. As they live in such congenial partnership, sharing the responsibilities of their

looked for sources, enter into the lives of married people, even when they are guarded against most care-fully. All the resources of love and sympathy will be needed to bear them—patience, forbearance, faith in each other, good nature, politeness, and kindness. Married people should from the start cultivate that habit of looking at the bright side of things. day over his pockets; for the manage-ment of one's money is in much the management of one's self." Not in-frequently the five angels of the pocket seem to reside in the wife, whose wise economy fills the house with comfort, sends sons and daughters to college, whose wise the manage-intertion, as in all the courts of this pleasant to turn away from this picture of married life, originals of which may be found in all our cities, to another, which has just been unveiled to the reading public. "I sends sons and daughters to college, clears the mortgage from the home-stead, and all from the moderate in-come of the husband. When there is a lack of this homely virtue in the wife and when, from ignorance or recklessness the rushes into extrave.

23

a lack of this homely virtue in the wife and when, from ignorance or recklessness, she rushes into extrava-gance which the income does not warrant, there is hindrance for the children, embarrassment for the hus-band, and poverty for the household. In some countries the wife is gener-ally the partner of the husband, is interested in his business or pro-fession, knows what income it yields, rejoices in his successes, and helps

John Fiske, the historian, pos-THE LAWS sessed a remarkable body. His OF HEALTH. physical proportions were gen-erous. He looked like a man

who would live to be ninety. He never seemed to have an ache or pain. He was a great worker. He could work all the day and write half the night. Beside his writing he did a great deal of lecturing during the summer and winter. When asked how he could do so much work he answer-ed, "I never take any exercise. I eat all kinds of food. I sit up late and rise early," and to this he might have added, "I am an incessant smoker," for he seemed always to have a cigar in his hand. In fact, Fiske ignored all the known laws of health—and passed away, suddenly, in the prime of his manhood—just when he should have been at his best with twenty years to spare.

There is an aristocracy THE ARISTOCRACY OF. CHARACTER. of wealth, an aristoc-racy of culture, an aris-

tocracy of brains, an aristocracy of labor and an aristocracy of character. The aristocracy of character is the aris-tocracy of heaven. It is carved out of the vital forces and built on the fundamental. It is the only thing which endures; character is the most powerful thing in the world. John Wesley was carried to his grave by six poor men. He left carried to his grave by six poor men. He left behind him two silver spoons—and the Methodist church! O! what an illustration of power and influence. According to the will of Martin Luther, he left behind him (if we may use his own words), "No ready money, no coin, no treasure of any sort." And yet what a treasure of influence is wrapped up in that name—Martin Luther. Character is success. Character is im-Luther. Character is success. Character is im-mortal. Character is everlasting. He who has it belongs to the aristocracy of the skies.

OF.CHARACTER.

When pleasure becomes the business of life, then AMUSEMENTS AND CIVILIZATION. the end of a civilization is drawing near. In na-

tional life luxury, dissipation and extravagance are unfailing signs of decline and decay. During are untaining signs of decinie and decay. During the last days of the Roman Empire the aristoc-racy banqueted at tables of gold and silver. The highest salaries were paid to dancers, cooks, acrobats and low actors. Scholars, poets and philosophers were laughed at. These were the days of thest are abarieta scholars. philosophers were laughed at. These were the days of theatres, chariots, races, gladiatorial shows. The circus and the sports of the amphitheatre held full sway. The poor were neglected and the sick left to die. One Roman emperor offered a reward to anybody who would invent a new pleasure. Nero set Rome on fire for the mere pleasure of a new form of dimension. Rome stood pleasure of a new form of diversion. Rome stood against her enemies when her only occupation was war-when her politicians were corruptwhen her public men were selfish-when half her people were slaves, but she could not stand extravagance, luxury and dissipation.

appropriate and chosen part. Happy moment for a fond mother! What possible dreams of the future must have passed through her mind. Little did she know what destiny and fate had in store for her. Edwin Booth became the most famous actor of his age. Junius Booth sank into obscurity, while John Wilkes Booth became the assassin and murderer of the honored and sainted Abraham Lincoln. Men talk much about hereditary influences, but in this uncertain world every man needs spiritual guidance and divine direction.

When success comes quickly it may depart all too soon. Rapidity in promotion and per-"GETTING THERE" TOO RAPIDLY.

sonal advancement is often followed by a sudden fall and a quick decline. Napoleon at 24 was poor and unknown. When twenty- six years of age his first touch of fame came to him and he was made a general. At twenty-seven he was a general of generals—commander-in-chief of the armies of France. At thirty-three years of age he was supreme among his own people; the idol of his countrymen. At thirty-nine he was supreme on the continent of Europe, having conquered all except England and Russia. At forty six he met the crisis of his life on the battlefield of Waterloo. At fifty-two years of age he died broken hearted, an exile and an outcast. Had his success come more slowly, it might have lasted longer.

James Anthony Froude was a great historian. His "His-tory of England" is a monu-HOW HISTORY IS WRITTEN.

ment to his memory. A great historian needs no other testimonial to his character and industry than the volumes which he leaves behind him. What wealth of color and vivid portrayal do we find in the unique para-graphs of Macaulay! What care in the exact record of details do we find in Geen's History of record of details do we find in Geen's History of The English People! And what a monument to patient industry do we find in the works of James Anthony Froude! He informs us in certain of the documents which he left behind him that in the production of his History he consulted no less than 400,000 references. (Think of it!) Nine-tenths of the authorities consulted were in Nine-tenths of the authorities consulted were in manuscript form. He found his materials in five different languages. In all he consulted 900 different volumes. What an illustration of the familiar proverb, "Genius is capacity for hard

TO THOSE IN lived in a time of uglines. It TROUBLE. uss a time of ugly religion, ugly laws, ugly relations be-tween the rich and the poor, ugly clothes and ugly furniture. And yet he found something beautiful in ugly times and left a marvelous literary legacy for all coming generations. Great are the conquests of a heroic spirit. "There is no station so low, no occupation so humble, no neighborhood so bad, no temptation so severe that the heroic soul may not ride over all victorious. Most of the great men of the world have been graduate of five well known institutions: The School of Difficulty—The Academy of Con-flict—The College of Trouble—and The University of Affliction.

ENOUGH IS ENOUGH. "Enough is enough," so thought that old hero of the American Civil War when his friends urged him to become a candidate for the presidency of the United States. The old hero asked, "Why should I? I owe no man a cent. I have no expensive habits. I owe no man a cent. I have no expensive habits. I envy no man his place or position. I have no social obligations, and I am sixty-five years of age. Why should I burden myself with new am-bitions?" Wise man. He knew when the time had come to rest. At sixty-five he could walk the streets of Washington without fear of assas-sination. Why should he enter a new sphere? Enough is enough, and the wise man knows it.

Gladstone was pure PURITY AND POWER. as a youth at eigh-teen years of age.

He was powerful as a statesman at eighty years of age Purity and power are linked together in the highest form of achievement. Marriage is a fail-ure when manhood is a failure. When manhood ure when manhood is a failure. When manhood is a success marriage is a supreme success. The highest form of civilization must rest on the purity of the individual character and a profound respect for the home life in the hearts of all. The home is the corner stone of a Christian civi-lization. Home-write that word in characters of gold. "It glitters like a shield, it leaps like a fountain, it thrills like a song, it twinkles like a star, it flashes like a flame, it glows like the sun-set, it sings like an angel." Be it ever so humble, there is no place like home. Be true to the home life.

DO SOMETHING-QUICK. Every great general has been able to do three things. First, To think accurately. Second, 'Io think quickly. Third, To act promptly. Gough said that there were certain people who had three hands—a right hand, a left hand, and always "a little behind hand." Napoleon said that the greatest effort of his life was to find men of deeds rather than men of words. Lincoln said con-cerning Grant, "Wherever Grant goes things move." If things did not move, Grant moved them. There are always men who captain why they did not do certain things. The man who "explain" may be divided into four classes. First, The man who can explain 'how it ought to be done. Second, The man who can explain how it ought not to be done. Third, The man who can explain how the other fellow did is. Fourth, The man who can explain why it ought never to have been done at all. Explainers are as thick as leaves in autumn. Men who do something are scarce. scarce.

FATAL FORCE OF WORDS.

en-

What a man says is a true indication of what a man is. Conversation 1s a true index of a man's character. Out

of the abundance of the heart a man speaketh. The man who can "hold his tongue" is not only a strong man, he is a remarkable man. It is said of Von Moltke that he could hold his tongue in seven different languages. The man who is careful concerning what he says may be truly classi-fied as a "careful" man. George IV said with reference to the Duke of Cumberland that "there never was a father happy with his son; or a hus-band, happy with wife; or a lover, happy with his sweetheart, or a friend, happy with his friend. that the Duke of Cumberland did not try to make mischief between them." The gossip is the social anarchist who thrusts dynamite beneath the repu-tation of his friend and neighbor and rejoices over the wreck and ruin wrought.

A REMARKABLE FAMILY RECORD.

Edwin Booth, the actor, belonged to a remarkable family. There were three boys—Junius Booth, John On November 25th,

Booth and Edwin Booth. 1864, the mother of these three boys sat in a box in a splendid theatre in New York City and with glowing pleasure and satisfaction watched her three sons as they acted on the stage, each his

be found in the pathway of his advance. According to the records in the British war office, the following estimate was made with reference to the app-oaching Boer War: First, Strength of the enemy-60,000 Boers. Second, Number of Brit-ish soldiers needed-20,000 drilled men. Third, robable cost of the war—Ten million pounds sterling. Fourth, Probable duration of the war— three months. The actual expenditure of time and strength was as follows: First, Soldiers sent into the field-450,000 trained British soldiers. Second, Cost of the war-250,000,000 pounds. Third, Period of duration-the war lasted three years. Moral: Count the cost. Never be ignorant of the strength of the enemy.

A strong memory is the natural foundation for a WILL-POWER AND CHARACTER. strong mind. A strong

will is the natural foun-dation for a strong character. Most men who have failed in life might trace their failure to a weakness in the matter of will-power. Life's success does not pivot on brilliancy but on stability. Lord Melbourne once said concerning Henry VIII, "He was the greatest monarch who ever lived because he always had his own way." We are not sure that to have your own way is always a sign of greatness, but the suggestion of Lord Melbourne points toward an important ele-ment in the character of the King. Macaulay said concerning Henry VIII, "He was a good Catholic, who preferred to be his own pope." Will-power is the foundation of character.

The mind is the senate cham-THE HOUSE ber of the soul. Here all the rep-OF LORDS. resentatives of the human faculties sit in session. Each fac-ulty has a vote on every great question of life which comes up for decision. Here sits Reason, the philosopher of the soul, Conscience, the judge of the soul, Memory, the scribe of the soul, Im-agination, the artist of the soul. The Will, the executive of the soul, Hope, the port of the soul, Faith, the prophet of the soul, Doubt, the detec-tive of the soul, and Love, the queen of the soul.

On every great question, let every voice be heard. The Spirit, the speaker of the house, will soon call for a decision.

A young man who ended his THE WILL OF A DRUNKARD. A young man who ended his life by an act of self descruc-tion, left the following locu-ment on the bureau of his

room in a New York hotel. It was headed, "My Last Will And Testament."

"I leave to society a ruined character.

"I leave to my parents as much misery as they can bear.

"I leave to my brothers and sisters the memory of a mis-spent life.

leave to my wife a broken heart.

"I leave to my children the memory of a drunkard's name."

That poor fellow's "Last will and testament" ought to be written on the memory of every youth who is prone to say to himself, "I can drink and 1 can let it alone."

The Surprises of Inventions.

April, 1907.

6x20

16x20

16x20

 16×20

Nothing is more striking in the history of modern inventions than the unexpected quarters from which important novelties are constantly derived. The founder of the cotton manufacture was a barber; the inventor of the power-loom was a clergyman. A farmer devised the first application of the screw-propeller. A fancy-goods shopkceper is one of the most enterprising exshopkceper is one of the most enterprising ex-perimentalists in agriculture. The most remark-able architectural design of our day has been finished by a gardener. The first person who supplied London with water was a goldsmith. The first extensive maker of English roads was a blind man bred to no trade. The father of Eng-ish indeed neuroscience water and his engine lish inland navigation was a duke, and his engin-eer was a millwright. The first great builder of iron bridges was a stonemason, and the greatest railway engineer commenced life as a colliery engineman.—W. S. Hern.

Hope for the Canteen.

Experience having quite thoroughly established the fact that the abolition of the canteen in the army has not only failed to accomplish the very worthy object in view, but has had a reactionary effect toward the other extreme, there is a chance for restoration. Drunkenness and desertion are writing a rotten record for the army, and persistent facts are slowly winning over many of the original and vigorous opponents of the canteen. Professional opinion in the army has always favored the canteen with its beer and light wine sold under restraint, and now the tide has turn-ed on the outside The President himself may head the movement for restoration. Here is an evil that evidently cannot be destroyed—if it can be mitigated, let's make the attempt.—Ridgeways.

Causes of Earthquakes.

During the last few months there have been several earthquakes which, owing to the fact that they have destroyed cities, have been greatly talked about; but, actually, no more large earth-quakes have occurred than usual. It just happens that large towns have been within their area. In the majority of cases they occur where they do comparatively little damage, and in consequence are hardly mentioned in the papers. Constant changes are always going on in the earth, but there is no reason to anticipate that these changes will in future be more or less rapid than they have been in the past. They are due to the constant changes going on in the earth. We have a large crust seeking support upon a nucleus which is gradually contracting by loss of heat. In consequence fractures are made in rocks and faults occur. In other cases former faults are ac-centuated. That is to say, strata of rocks which have slipped out of place, causing an earthquake at the time, slip further and cause another. Tnen gravity also plays a part in the making of earthquakes. For instance, when the bottom of the sea, within a seismic area, becomes loaded with sediment, a sudden yielding of the ocean bed may result in shocks. High plateaux and mountain ranges may, by the loss of sediment carried down by streams and rivers, be gradually rising, and whenever this becomes spasmodic instead of gradual we have earthquake shocks .-- John Milne. F. R. S.

after them, and when we get a chance we buy them for cash and a daughter. Sometimes we get a good man and worth the price, but we are ready to take him anyway, whether he be ripe or rotten, whether he be clean and decent, or merely a basket of noble and sacred and long-descended offal. And when we get him the whole nation publicly chaffs and scoffs—and privately envies; and also is proud of the honor which has been conferred upon us. We run over our list of titled purchases every now and then, in the newspapers, and discuss them and caress them, and are thank-ful and happy.—Mark Twain.

Disinherit the Unborn!

This principle is, that the unborn can have, and should have, no special property rights; in other words, that the present generation shall not con-tinue to be plundered and robbed in order that certain unborn individuals shall be born rich shall be born with such legal claims upon their fellow-men that, while supplied with all the neces-saries, comforts, and luxuries of life they need do no useful work in return. It is not denied that the present generation may properly do work and expend wealth for the benefit of future generations; that is only a proper in for the many and great benefits we have received from those who have gone before us. What this principle says is, that it is absolutely unjust for our rulers (be they a majority or minority) to compel us to pay, to work, to suffer, in order that certain in-dividuals yet unborn shall be endowed—often to their own physical and moral injury-with wealth supplied by the labor of their fellow-men.-Alfred Russel Wallace.

Christendom Arming China.

The Chinese have the best food in the world, rice; the best drink, tea; and the best clothing, cotton, silk, and fur; and, possessing these staples and their innumerable native adjuncts, they do not need to buy a cent's worth elsewhere, while their Empire is in itself so great and they them-selves so numerous, that sales to each other make an enormous and sufficient trade, and ex-

port to foreign countries is unnecessary. Let those who still preach the gospel of force hear what John Chinaman says, and which, in the opinion of this writer, is soon to be realized :-

"Yes, it is we who do not accept it that prac-tice the Gospel of Peace; it is you who accept it that trample it under foot, and—irony of ironies! -it is the nations of Christendom who have come to us to teach us by sword and fire that the Right in this world is powerless unless it is supported by Might. Oh, do not doubt that we shall learn the lesson. And woe to Europe when we have You are arming a nation of four acquired it. hundred millions—a nation which, until you came, had no better wish than to live at peace with itself and all the world. In the name of Christ you have sounded the call to arms; in the name of Confucius we respond."—M. Barakatullah.

will tempt the caustic humor of the motor-phobe. The Spanish chauffeur will receive sufficient training in surgical dressing to enable him to render first aid to an injuried person.—Boston Globe.

Paderewski on Piano-Playing.

The first requisite to becoming a really good pianist is talent. I will say this, however, that, given good tuition, any one with the ability to given good tuition, any one with the ability to work, and application to it, can learn to play; but it will not be artistic. Nearly every one has talent for something, and the great point is to discover that talent, to give it a fair trial in culti-vation, and to stick to its development. If your talent is not for music, then find out in what branch it lies. Money—and time, which is still more precious, as it can never be regained—will be saved, the whole life turned into another channel and its usefulness will be increased. But lack of energy or inclination for hard work must lack of energy or inclination for hard work must lack of energy or inclination for hard work must not be confounded with lack of talent. There are many with talent who are too lazy to work; such would not make success in any art, no matter how great their aptitude. For this there is no ex-cuse; any one can develop energy. The first quality for the plano student is a natural musical gift, and then for its cultivation the energy for hard work, and the important requirement of a good, thorough teacher. In this last the re-sponsibility of a choice rests with parents, whose indifference or lack of insight may wreck the best prospects. The length of time devoted daily to higher dexterity depends upon what stage of technical development the student is in. For those who have the fingers already prepared, no-turally less time is required, and more may be given to the study of pleces. But no matter what stage of progress the student has reached, one hour daily of this branch of technique is in the slowly, very legato, and with a deep touch, giving particular attention in the scales. They them slowly, very legato, and with a deep touch, giving particular attention in the scales to the passing of the thumb under the hand, and of the hand over the thumb. The real secret of play-ing rapid, brilliant scales is this quick, quiet pass-ing of thumb and hand, and by it many difficul-ties may be avoided.—Ladies' Home Journal. not be confounded with lack of talent. There are

Corsets, Frills and Fudges.

What need was there for the easy-back chair for the quiet-minded, noble-hearted, bros backed women of our trontiers, the mothers an army of warriors? Pink kimonos, in which to lounge and re novels in the morning hours, were alien to the lives

Steel corsets and high-heeled slippers are Steel corsets and high-heeled slippers are n new, but I am sure they were not much in er dence in the homes of those mothers of hero Neither frills, fraternity dances, nor fudges we considered necssary to the welfare of soul body of those women of an earlier day. A what has been the result? Their sons and daug ters, figuratively, founded a nation in a day, a the great West has become the leader in t world in progress and arts.—Dr. S. V. Baldersto

Winston Churchill, M. P.

No one who has been throng? this Sessi-will, I think, deny his extraordinary talents, quickness, his power of eloquent phrasing, energy and tenacity and courage. There are, deed, obvious deficiencies. He has not convinc the House of Commons that he knows very mu-about England, and especially the new England which is coming to make its demands know which is coming to make its demands known and his speeches show a certain hardness in their glitter and cleverness, which causes many to be-lieve that he cares very little for politics but as a splendid game. I believe that in this elert and receptive mind, exceedingly curious about the new spirit of the time, and especially the demand for social betterment, the first of these deficien-cies will be very rapidly removed. I believe the second to be in-part unjust. It would be foolian to deny his ambition; it would, I think, be false to brand that ambition as fixed entirely on personal aims.—Mr. Mosterman, M. P. aims .- Mr. Mosterman, M. P.

The United States a Monarchy?

Human nature being what it is. I suppose we must expect to drift into monarchy by-and-by. It is a saddening thought, but we cannot change our nature: we are all alike, we human beings, and in our blood and bone, and ineradicable. we carry the seeds out of which monarchies and aristocracies have grown: worship of gauds, titles, distinctions, power. We have to worship these things and their possessors, we are all born so. and we cannot h lp it. We have to be despised by somebody whom we regard as above us, or we are not happy; we have to have somebody to worhip and envy, or we cannot be content. In America we manifest this in all the ancient and customary ways. In public we scoff at titles and hereditary privilege, but privately we hanker

King Alfonso Progressive.

Spain, is not, perhaps, the land to which one would look for a lead in the spirit of modern progress, but in the field of automobilism at least the young enthusiasm of King Alfonso seems to have struck out in a direction where other countries may follow. His majesty has come to the conclusion that technical instruction among Spanish chauffeurs is summary, not to say frag-mentary-defects which may not be exclusively peculiar to Spain—and he has devised a bold remedy. At his instance there is to be founded in the Madrid school of of arts and crafts a chair of automobilism, by means of which Spanish chauffeurs may receive a training which, it is hoped will be complete. It is certainly to be varied. Resides mere familiarity with the mechanism of the machine, they will have to ac-quire some new acquaintance with the legislation governing the use of motor cars and a strong grasp upon the system of main roads in the country. As this is not of the most complicated, the difficulty will be so much less in mastering them. One feature of the course of instruction

The Discharged Prisoner.

The world is more stern and unrelenting in its judgment than the law, and there is prejudice against the man that often brings up before him his past and makes him pay over and over again for the crimes which he has, in the eyes if the law, explated in prison. Only those who have welcomed these men on their coming from prison and who have tried to make for them a way of escape from the old life can realize how hard is their road and how cruel and unjust their fate often proves. I am not exaggerating when I say that hundreds of men have come from prison thoroughly determined to do right, seeking only the chance of honest work, however humble to find themselves forced back into a life of crime because wherever they worked the discovery of their past imprisonment meant immediate discharge .- Maud Ballington Booth.

MCKENZIE'S THEY MUST BE GOOD FROM COME

THE MCKENZIE BEETS THAT GAN'T BE BEAT.

BEETS ALL

How FODDER, CITRONS (sits round) as (b)LEEK and MELON-choly as a KOHL RABBI, when he should LETTUCE SQUASH this SEED proposition while there is THYME and before (Cu)CUMBER-ed with other things.

We have BEAN working on our Catalogue with CELERY-ty and have taken MUSHROOM (much room) to PEPPER you with SEED knowledge. You'd better CABBAGE one quick, for it is worth more to you than the best 18 CARROT TURNIP you ever had.

If you will accept the suggestion to BUY MCKENZIE'S SEEDS you will soon have CORN-ed enough to put you in CLOVER for the rest of your life, then you can walk thru the TIMOTHY and sing coming through the RYE to your heart's content.

With your bins full of WHEAT, to make CAULIFLOWER (all the flour)-essential to this (s)PARSLEY settled country-your OA(T)sis is reached.

Taking it for granted that you are married (for in u(0)NION there is strength) it will give you leisure to POP CORN, eat GUMBO and turn the MANGEL to ap-PEAS(e) your wife, who in turn will C(a)RESS and love you, feed you on POTATOES, TOMATOES, RADISHES, PUMPKIN, RHUBARB and CHICORY.

You will eat so much of these nice vegetables grown from Gold Standard Seeds that she will say you ARTICHOKE if you don't buy MCKENZIE'S SEEDS all the rest of your life.

For the supremacy of McKenzie's Gold Standard Seeds is abundantly borne out in the unanimous testimony of the some odd 70,000 orders received this past season, from Manitoba, Saskatchewan and Alberta, certainly a worthy indorsement-the actual verdict of the purchasing West.

Through the constant improvement in our methods of growing, selecting, cleaning and experience, our products improve continually. For the same good reason Gold Standard have been able to maintain their premier position for purity and quality, so, whether it is a packet or a car-load, you have our reputation as a guarantee that you will receive the best in the world.

To change the spirits entering there

That they forget. No matter how dark life may seem, while the living Christ appears the cry of the watchmen in the towers of the world, the peal of the bells across the hill and down the glen tells that all is well.

In the excitement and passion of our times, principles are in danger of confusion and ethical judgments liable to perversion. Hardly anything is a more hopeful sign than the deep sympathy which has been excited in behalf of the laboring classes. This is just, but we

INJUSTICE TO CAPITALISTS deserving poor and the fraud, between the hopeful and the

hopeless paupers, and between the honorable toiler and the miserable shirk. No less is there danger of perversion of judgment respecting capital. It has become popular to attack the m-solence, the tyranny and the brutality of capitalsolence, the tyranny and the brutanty of capital-ism, and wherever these exist they ought to be scourged to death. The danger consists, how-ever, in the temptation to regard all capital as if it had this character, whereas much of it is most beneficial and most merciful. When the attack on capitalism becomes an attack on capitalists as on capitalism becomes an attack on capitalists as a class, as is often the case, many innocent ones are condemned with the guilty. There is no sphere in which the most careful discrimination is more urgently in demand. The laborer who de-posite a hundred dollars in the savings bank is a posits a hundred dollars in the savings bank is a capitalist; is he therefore insolent and brutal? Is the toiler who thus accumulates capital degraded below the man who spends his last penny in the saloon? Many thousands of widows and or-phans depend on the capital which is the result of honort tail. of honest toil, of wise saving and sacrifice. All capitalists are not tyrants. Some of them, most of them, are the hardest of workers and are just to

ing us and they may be assured of a hearty welcome and every endeavor on our part to make them feel at home here."

Dowie's meteoric career has closed. Meteoric careers do close in a meteoric manner. The death of Dowie gives food for reflection. He was the type of men who direct great movements and who, by the aid of a powerful hypnotic personality and impressive rituals impressive rituals, THE DEATH OF DOWIE AND DOWIEISM. a large emotional element complete-

ly under their control. Dowie was influentially dead long before he physically gave up the ghost. Men of his type die early. Their in-fluence resembles the "grass which to-day is and to-morrow is cast into the oven." But what of the church he formed? It will die too. It is a pathetic though pleasing fact that man-made religious systems and churches either die or be-come very much modified. Dowie and the crucifixion idea were removed the distance of the poles. Pomp, luxury and pageant were the necessary adjuncts, the vital breath of the ruler of Zion City. A man may indulge these appetities in other callings, but they disqualify him as a re-ligious leader. One wonders what will become of Christian Christian and the participal of Mrs Christian Science when the personality of Mrs. Eddy has been extracted, or what the fate of the Salvation Army, with the passing of General Booth.

The advocates of the theory which claims the world is getting better, must point with pardon-able pride to the interest taken the world over able pride to the microthe criminal. Time was in the confinement of the criminal. Time was when the cell was the synonym for filthiness and fever. The rat and

THE POLICE COURT the roach were the CELLS OF WINNIPEG. boon companions of the hapless mortal

who was unfortunate enough to be imprisoned. All who was unfortunate enough to be imprisoned. All this has been changed by the spread of the hu-manitarian spirit. The demand now is for a fumi-gated, ratless, roachless cell. We are credibly informed that the prison court cells of Winnipeg are mediaeval rather than modern. The deputation which recently inspected them report a state of affairs which comes as a shock to one's moral of affairs which comes as a shock to one's moral sensibilities. "A young girl of fifteen herded with an old woman of the streets," "obscene jesting," "the blasphemy of the intoxicated screamed out loud." Things have been so bad that Rev. C. W. Gordon, Magistrate Daly, Mar-garet Scott and others waited upon the City Council for the purpose of laying before the elderman an appeal for better accommodation and aldermen an appeal for better accommodation and treatment of prisoners detained in the police cells. The Rev. Mr. Gordon spoke at considerable length, outlining a scheme that appealed to them as a remedy for many existing evils. The accommodation of the city police cells was wretched, he said, and necessitated the herding together of criminals in a manner that was most objectionable. He detailed the circumstances of a recent visit he had made to the court, and said he was shocked beyond measure at the sights he had witnessed. There were cases where mere boys were herded together with criminals of the most hardened character.

towns are suffering from inflated real estate towns are suffering from inflated real estate values. In this connection the wise words of Mr. T. A. Cushing, ex-president of the Edmon-ton Board of Trade, are full of portent, "There may be some justification on business grounds for high valuations in the business section, but generally speaking, residential property is much too high. In regard to much of the so-called sub-urban property, it will be agreed that it is worth but a small fraction of the prices asked and paid. These prices would scarcely be justified in the These prices would scarcely be justified in the suburbs of a city with ten times the population of suburbs of a city with ten times the population of Edmonton. A number of wage-earners are cer-tain to lose their savings when the inevitable drop in prices comes. Business of all kinds will be seriously affected and the general result will be detrimental to the interests of the community in every respect." Edmonton is no worse than other progressive cities. Mr. Cushing might have substituted Winnipeg for Edmonton and his remarks would have been just as near the truth.

29

The political attitude of several leading clergymen during the recent election campaign in Manimen during the recent election campaign in Mani-toba has been a matter of widespread and inter-esting discussion. It has been provoked particu-larly by the utterances of Revs. Bland, C. W. Gordon and McMillan. THE CLERGY AND The subject, however, PARTY POLITICS, has more than a particu-tor.

THE CLERGY AND The subject, however, PARTY POLITICS. has more than a particu-lar and passing interest. It is far-reaching in its application. It may be laid down as a fundamental principle that the clergy have no command from Bible or Bishop to preach party politics; and those who allow partisan bias to determine their language, are un-true to their calling and unfair to their congrega-tions. Fed clergymen abuse the privileges of their pulpits. In the campaign mentioned, the temperance question was a paramount issue, and in almost every instance the ministers who took part in it confined their remarks to that phase of politics. When the liquor traffic is the evil it is, the ministry may be pardoned for erring on the right side. Strictly speaking, no clergyman should preach on politics. He is seldom a good politic-ian. Let him preach the gospel in the large ap-plication of that term and he will then be dealing with the principles which underlie every depart-ment of state-craft. If he confines himself to preaching and expounding the gospel he will have a wider constituency than party politics can give him—he will reach the universal heart of mankind. mankind.

The spring season is upon us. Already the sporting columns of the newspapers teem with news of athletics of the summer variety. It is well that Canadians are enthusiastic, and that the middle-aged, as well as the young men, delight in the feats of the field. As SPORTS AND we flock to the cities in such rapidly increasing numbers, we are more and more in danger of becomin~ what President Koosevelt has called "Molly coddle." With ele-vators and moving stairways, with telephones and street cars and swarms of vehicles to tempt us of luxuries until the superfluities of yeaterday are in peril of falling into bodily sloth. From this very present danger, all the ball games in the country cannot save us. Ball games offer no more to most of us than a chance to exercise was won on the potato patches of Wexford." The Japanese are life-long athletes. Their daily was won on the potato patches of Wextord." The Japanese are life-long athletes. Their daily calisthenics and bathing make their little bodies wonders of endurance. Unless our city young men exercise effeminacy will develop, and as great an authority as President Eliot. of Harvard University, has said, "Brutality is better, on the whole, than effeminacy."

those whom they employ. They frequently have more worry and have more hours of toil than the day laborer.

The invasion of Canada by Americans has ceased to be an accident. It has crystalized into a habit. This year thousands more are on trek from Western States to this land of desire. The American comes no longer as a pirate, he comes to stay. He invests his money with us because he thinks he will get the largest return from it. He is a

first-class financial barometer, and his coming is the pledge of his belief in the prosperity of Western Canada. It is estimated that about \$200,000,-000 of American money has been invested in this country during the past ten years. The Regina Leader commenting on the American as a citizen

says: "They have brought with them the adaptability and resourceful energy characteristic of their race, and, content to live in harmony with the laws and customs of their adopted country, are reckoned today as being by no means the least estimable of our citizens. Everything points to the peaceful invasion from the South assuming during 1907 greater proportions than in any previous year and that this may be the case all who have the good of our western country at heart will fervently hope. We cannot have too many settlers of the type that the United States is send-

The deputation were prepared to recommend that council take steps to provide either an industrial home or penal farm within reasonable distance of the city where these offenders could be detained under conditions more conducive to a reclamation of character.

From almost every district in Western Can-ada comes the news of prosperity. This news is not new. We are accustomed to it and have every legitimate reason to expect it. For many years to come the West will grow. A bad harvest or two cannot any longer seriously affect THE BANE OF

THE BOOMSTER. our general advencement. There are other interests

and enterprises upon which we may now count. We are on the eve of a manufacturing era, new railroads are contemplated, and altogether the outlook is rosy. But there is one grave danger which cannot be over-estimated—that is the boomster. He is a real enemy to the best in-terests of the country. Already many smaller Something of the vastness of the Canadian West may be imagined when it is stated on the best of authority that six thousand miles of rail way between the Great Lakes and the Rockies are under contract. The C. N. R. will build 1,500 miles of road, the C. A GREAT RAILWAY P. R. 1,400; the G. N. R.

1,000, and the G. T. P YEAR FOR WEST. 1,900. The amount of

labor to construct these contracts will be enormous. Thousands of men are already employed, thousands more are needed. It is estimated, too, that at least one hundred new towns will be or-ganized between Winnipeg and Edmonton. All ganized between Winnipeg and Edmonton. All this indicates a momentous year for this Western country. Track-laying will begin with the open-ing of spring, and will proceed at the rate of from nine to twelve miles a day. The G. T. P. hope to get connection between Edmonton and Fort Wil-liam this year. With all the labor to be perform-ed nobody need be out of work. Wages are to be from \$2 to \$3 per day and board \$4 per week week.

PROVING BY ACTUAL EXPERIMENT.

30

This experiment will always interest the children ad will provoke a good deal of thinking. The explan-ion, of course is, that the lighted piece of paper which inserted into the inverted glass drives out most of the r, so that when the mouth of the glass is quickly put wa into the water there is very little air and conse-ently very little pressure above the water within the ass. Hence, the weight or pressure of the air on the ner outside the glass drives the water up into the glass occupy the space from whence the air was driven by e burning paper. burning paper.

A practical demonstration of this kind is always more convincing than any mere statement. This is par-ticularly true of medical remedies

he effects of the anti-toxin treatments for Diphtheria is noticeable within a few hours, so ryone must believe in its virtue. In a similar way, the treatment known as ORANGE ives a practical proof of the progress it is making in curing women's disorders, and that, thin a tew days after commencing its use.

All suthorities agree that in every case of women's disorders there exists a congested con-don of the womanly organs. The circulation in these parts is sluggish or stazmant, and the sult is that the broken-down tissue or waste matter which should be carried off if the bloodwas culating freely, remains in these parts, causing inflammation, irritation, oppression of the reves, etc. ORANGELLIX is not taken internally, but is applied direct to the suffering organs. is absorbed into the circulation, and its antiseptic properties at once act on the waste matter ferred to above. The consequence is that this waste matter, which is causing the inflammation, cres, nervous trouble, etc., begins to be discharged and it continues to be discharged until all e foreign matter is removed from the circulation. At the same time the blood vessels and reves are toned and strengthened, the nervous trouble disappears, the circulation is restored. d good health follows.

Toronto, Out., June 2nd, 1904. Dear Mrs. Currah: I wish to tell you that ORANGE LILY is doing me a great deal of good. Those ulcers come away one or two every week, and I have less pain and fewer headaches. I feel sure I will be perfectly cured in a little longer time.—Mrs. D. S. T.

The explanation of the wonderful cures performed by ORANGE LILY is very simple. It is a scientific remedy, based on the discoveries of Pasteur and Lister. The conditions existing in all female troubles are alike in character, differing in degree and development only, so that a positive remedy as ORANGE LILY is, acts with all the certainty of a chemical experiment. In order to convince every suffering woman that ORANGE LILY will cure her, I make the following

FREE TRIAL OFFER

I will send without charge, to every reader of this notice who suffers in any way from any of the troubles peculiar to women, if she will send me her address, enough of the ORANGE LILY treatment to last her ten days. In many cases this trial treatment is all that is necessary to effect a complete cure, and in every instance it will give very noticeable relief. If you are a sufferer you owe it to yourself, to your family and to your friends to take advantage of this offer and get cured in the privacy of your home, without doctor's bills or expense of any kind.

Should any lady desire medical advice or information on any special feature of her case, I will be happy to refer her letter to the eminent specialist in women's diseases, Dr. D. M. Coon-ley, President of the Coonley Medical Institute, Detroit, Mich., and he will answer her direct. Dr. Coonley is the discoverer of ORANGE LILY and has had over 30 years experience in the treat-ment of these diseases. No charge will be made for this medical advice. Address, inclosing 3-cent stamps. MRS. FRANCES Q. CURRAH, Windsor, Ont.

Pilgrims, whom seek ye at His tomb to-day? This sepulcher no longer is a prison; He is not here, the stone is rolled away And Christ, our Lord, is risen!

-Eugene C. Dolson.

Easter. When this column reaches my readers I trust that

there will be more suggestion of the year's resurrection than at the time I write; the snow is still piled deep and wide in our beloved West and it is hard to realize that elsewhere the llowers are blooming and the birds singing. Some of my readers may, for this reason, think my choice of Mar-garet Sangster's beautiful "Easter Morning" hardly appropriate and so let me say that it is put in for the special pleasure of sisters from across the sea, to whom, I trust, it will come as a breath from their old homes, not to make them sad and homesick, but to help them to thank God and take courage, for though climates may change, the spirit of Easter is the spirit of the lines at the top of this page.

"Oh, rare as the splendor of lilies, And sweet as the violet's breath,

Comes the jubilant morning of Easter, A triumph of life over death;

For fresh from earth's quickened bosom,

Full baskets of flowers we bring, And scatter their satin, soft petals To carpet a path for our King.

We have groped through the twilight

of sorrow, Have tasted the Marah of tears; But, lo! in the gray of the dawning Breaks the hope of our long, silent

vears. And the loved and the lost we thought perished,

Who vanished afar in the night, Will return in the beauty of springtime

To beam on our rapturous sight.

Sweet Eastertide pledges their com-

Serene beyond trouble and toil, As the lily upsprings in its freshness From the warm, throbbing heart of

the soil;

By EC.H. winter have been, I trust that to every reader of the "Quiet Hour" will be vouchsafed the true Easter spirit—the awakening to new life and hope.

April, 1907.

A Woman's The Young Women's Edition. Christian Association building fund is grow-

ng slowly but steadily and it is hoped to begin upon it this coming summer. Just now a number of prominent women are busy getting out a woman's supplement of thirty pages to raise money to furnish the home when it is built. This edition will come out on May first and will give a complete resume of the work of the Young Women's Christian Association and of the various lines of philanthropic work undertaken by women in Winnipeg and the West. There will be a page devoted to women in education, to women in art, in music, and in business, and a number of special articles by well-known women writers, so that altogether it promises to be a most interesting paper. The revenue will be derived from the advertising matter, and already the advertising committee is meeting with a ready re-sponse from the wholesale and retail merchants, bankers and business men

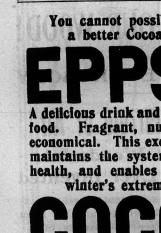

of Winnipeg generally. Your editor has charge of the page, Women in Business," and if any reader of the column knows of any woman who has made a special success of book-keeping, poultry raising, flower culture, or any line a little out of the ordinary, won't you kindly send me her name, and the facts and figures? Write as soon as you receive this paper, as all the material has to be in the hands of the printer by April 15th, and that does not give too much time.

Mrs. Colin The woman who will Campbell. act as editor-in-chief of the Woman's Edition is a most interesting personality, and some day I hope to be able to run a picture of her in my column. As wife of the Attorney-General, she has ligured much in society columns, but years before her husband attained official position she was well and widely known, by her practical phil-anthropy. She has always believed in helping people who help them-selves, and that is one reason why the cause of the Young Women's Christian Association appeals so strongly to her. When the Young Men's Christian Association was crecting their new building, she undertook the raising of a furnishing fund, and organized a cooking school through which \$2,000 was raised. Mrs. Campbell has great executive ability and the power to attract to her assistance others, who, though excellent workers, lack perhaps in initiative. She is a daughter of Dr. Buck, of Palermo, Ontario, and to people from Eastern Canada that alone would be a great recommenda-tion, for Dr. Buck is one of the staunchest temperance advocates Canada has ever had. Not only is Mrs. Campbell a practical philanthropist, but she is a devoted mother and an excellent housewife. Indeed, for quiet elegance her home has few equals and no superiors in Winnipeg.

of 101. She had con studies and was to ma with Theodore Thomas' Chicago, when an unfo rendered her voice usel disappointment she tu study of languages for Under her father she ma Latin and Hebrew. The Letter I regret to say that up Circle. to date not a line has reached me in regard to L. S.'s suggestion in the March I hope it has not been overlooked by my readers

Horticultural This week a copy of Report. the 1906 report of

the Horticultural Society reached me. It is a very neat bulletin and from cover to cover is full of the most useful and helpful information. Anyone desiring a copy can get it by dropping a card to Prof. Broderick, Agricultural College, Win-nipeg. Dr. Speechly's paper on ge-dening on a town lot is specially valuable.

Kitchen The kitchen garden has Gardens. been somewhere designated as an adjunct of the kitchen itself, and belonging to

the domain of the housewife. It should not necessarily follow that she is to do all the labor in the garden, but merely do the planning and exercise intelligent management over it. The head of the house is quite apt to appreciate the value of a garden and to insist that it does not pay, because it seems such pottering work in the busy season of the year; but well-cared-for gardens do pay in pleasure, and, if the effort is made,

will pay handsomely in money. Being related to the kitchen, the garden should be located near that part of the house. It should be part of the house. It should be fenced about to keep out the chickens; for few things will so humble one's pride as to find half-dozen biddies wallowing in the middle of one of the vegetable beds which has been worked fine and lined into perfect shape. The soil should be fed with an abundance soil should be fed with an abundance of fertilizer.

The Woman and I am delighted Franchise. to have the fol-lowing on "Wo-men and the Franchise" from Sandy Grant, a valued member of the Canadian Women's Press Club. "A great deal of adverse criticism

has appeaed in the Press of those women of England who dared invade the House of Commons to ask for their rights. In looking over history. was any reform ever won without sacrifice, and often imprisonment and loss of life? How time changes the aspect of questions.

Take Canada in 1837, a great many looked on William Lyon Mackenzie as a rebel and to-day, when we enjoy the rights he fought for, some of us look on him as a hero and a patriot—and in the years to come those women who are now fighting for the "God given gift," as some call it, (I would call it man given) will be those whose nemory we delight to honor.

page.'

the reasons given why women should not have the franchise is that she has not the knowledge to vote intelligently. Now don't you think that if woman had the franchise her life would be broadened, as she would take up questions that in our present state of things she does not need to know. It is immaterial to her who is Premier of Canada as she has no voice in putting him there, nor in the making of the laws that govern our land, but she has to obey them just the same. If she buys property in any city or town she has to meet the requirements the same as a man; in homestead duties she has to fulfil them as if she belonged to the lords of creation, and why should she not want a voice in the making of the laws she has to keep. Give woman the franchise and some of our evils would be lessened. Take, for instance, the liquor question. She would not be giving it her "earnest consideration" about election time but would deal with it at close range, and it would not long exist in its present state as she is the one who suffers most from it. It does not speak well for Canada when the only classes that cannot cast a vote are Indians, idiots and women. I hope some others of your readers will give their views on this subject in your

Ladies and Gentlemen

A word to the ladies first : Have you thin, shaggy hair, that's hard to dress neatly? We have overcome this difficulty for hundreds of Western ladies by the aid of a Bouey Hair Creation. Write for booklet telling all about the care of the hair.

The Western Home Monthly

Concerning I said a good deal last Hats. month about millinery

Hats. month about mininely in general, but fancy the subject is hardly exhausted and this month it is possible to speak a little more in detail and give descriptions of some individual hats that may be helpful and suggestive to the girl who makes her own. Turbans, as we have known them for the past three seasons, are not in vogue, but a little flowered turban is among the most popular of the new hats. It is per-iectly round, has a brim not more than two inches deep and is worn back on the head, with the full, fluffy pompadour showing in front. It looks best with the back hair dressed low

A Popular French Model.

or with it waved and turned up very fluffy. If the shapes for these turbans cannot be bought at your local stores, a fair substitute will be the crown of an ordinary sailor hat, cut low enough to suit the purpose. The wire shapes are the best, however, and any place having millinery should carry them in stock. Supposing the wire shape bought, cover it carefully with thin white silk or any shade to match the flowers to be used. The crown may be covered flat with rose

houses this week were as follows: No. 1, crown of rose leaves laid on flat; brim of tiny pink roses, with stiff knot and loops of pink roses, with still kilde No. 2, entire hat of scarlet geraniums, with aigrette of the flowers and foli-age at the side. No. 3, crown of green foliage and brim of wallflowers, with side aigrette of burnt orange velvet.

Several other "ower turbans at the same show-rooms showed a combination of several varieties of flowers. This is an excellent way to use leftovers from previous seasons, but care should be taken to see that the flowers harmonize in size as well as color.

Poke There is a return of the sonnets. small poke bonnet with Bonnets. streamers and strings, and

I have secured a cut of one of the prettiest of the French models; it is of black crin braid, and is decorated with banana maline, clusters of buttercups and daisies and strings and streamers of black velvet ribbon. The other French model is on the order of the poke but has all the decorations on top with full streamers of maline, falling over the hair at the back.

Very many of the mushroom Lace effects are developed on hand-Hats. made lace, Irish crochet, baby

Irish, and Maltese are combined with the lighter Valenciennes, chantilly and cluny, and a popular fancy is to have the crown of a small mushroom hat covered with motifs of Irish crochet, all radiating from the centre of the crown and trimmed round the scalloped edges with ruffles of Valen-ciennes. These lace crowns are usually undecorated save for a cluster of roses, lilacs, daisies or wistaria at one side; but underneath the brim right down to where the high bandeau is filled in with a profusion of flowers. The bandeaux of this style of hat are usually covered with soft folds of maline or ribbon.

Miss Winnipeg has now what she Fuller, has long wanted, and that is

a custom milliner, one who ony makes hats to order and who re-

LIVER COMPLAINT.

The liver is the largest gland in the body; its office is to take from the blood the properties which form bile. When the liver is torpid and inflamed it cannot furnish bile to the bowels, causing them to become bound and costive. The symptons are a feeling of fulness or weight in the right side, and shooting pains in the same region, pains between the shoulders, yellowness of the skin and eyes, bowels irregular. coated tongue, bad taste in the morning, etc.

MILBURN'S LAXA-LIVER PILLS

are pleasant and easy to take, do not gripe, weaken or sicken, never fail in their effects, and are by far the safest and quickest remedy for all diseases or disorders of the liver.

Price 25 cents, or 5 bottles for \$1.00. all dealers or mailed direct on wereipt of price by The T. Milburn Co., Simited, Toronto, Ont.

SAVE YOUR COAL! SAVE YOUR WOOD! FUEL for EVERYBODY Burns Barrels of Air The Most Wonderful

Blouses which do service every day wear out so quickly that one needs to constantly replenish this part of one's wardrobe. A pretty waist in dotted cloth has both wide and narrow tucks in very pleasing effect. The style of the waist is so simple that any one could make it without the least difficulty and be assured of a successful result. A seam in the centre of the front provides for the cutting of the material on the bias if desired. The sleeves are the practical puff in long or three-quarter length. A waist of this kind is suit-able to any of the light cloths, pongee, silk, linen or other lingerie fabrics. A collar of the same may finish the neck or a linen one with the of silk as shown. For the medium size 3 % yards of 27inch material are needed.

6828-6 sizes. 32 to 42 inches bust The price of this pattern is measure. 15 cents

Special Offer-This pattern, with any one other pattern in this issue, together with one year's subscription to The Western Home Monthly—all three for 50 cents.

4173-A Pretty Guimpe Dress.

A pretty style for the tub frock has the dress portion laid in side plaits and belted loosely in long-waisted manner. The waist and skirt are all in one and finished with a bertha, yoke and sleeve caps all in one. The dress is to be worn with a separate guimpe of some thin tub material and it may be elaborated as much as desired. The model has a smart style which many of these frocks lack and is recommended as exceedingly attractive for the small girl. The dress calls for 2½ yards of 36-inch material in the medium size and 1 yard of 18inch goods for the guimpe. 4173-7 sizes, 3 to 9 years.

WINNIPEG,

The new gowns for street wear are most fetching and have an air of modishness which even their forerunners could not boast. The costume consists of a waist showing pleats extending over the shoulder which lend becoming lines and a fanciful yoke effect. This provides another opportunity for a sheer fabric next the fact, while a charming 1 020 thiy-all t

When writing advertisers, please mention The Western Home Monthly.

The prairie rises in one lingering slope, Caressed by clouds that sweep the evening sky. The wall of Nature's home is standing there, Far to the north, but who may tell how far?

And drinking of the landscape's soothing spell.

North.

East. Vast flights of geese, in dark triangles, come From distant wheatfields of advancing Man. E'en these return, ere yet the day is o'er, To Nature's bosom, and to Nature's care. South.

The prairie rolls. The grasses bow and wave, Nor fear the trampling of the cattle's hoofs. Far out toward the remote Montana line Lie creeks and sloughs, like mirrors of content. West.

The sun, that warmed the bosom of the plain, Retires in golden glory to his rest. The foothills rise in silent reverence, The prairie wind sings low its evening hymn.

This is to live! The great Canadian West But serves to spread the halo and the theme. The silence of a solitude, so vast It needs must reach to other earths than ours; The cause of things, we cannot comprehend; The end of things, we dare not deign to know; All, all but breathe a tale of hope and trust In One who knows and feels and comprehends; Whose offspring Nature is, and Nature's home, And He, Himself, the very Cause of Things.

And methinks I hear some vandal dare Proclaim before mankind, "There is no God!"

IN THE BUSINESS WORLD.

A Handsome Seed Catalogue. A copy of a handsome catalogue issued by John A. Bruce Co., the pioneer seedsmen of Canada, came to our desk one day this week. It is a copy of their 1907 new catalogue and is nicely print-ted, profusely illustrated. containing a fund of information appertaining to the seed business. Our readers can secure a copy by writing to John A. Bruce Co., Seedsmen, Hamilton, Ont. Say you saw this in the Western Home Monthly.

An A 1 Breakfast Food.

The thousands of families now using Meat of Wheat tetsify to its merits as a delicious creamy-white pure food. Made from the white heart of the best Manitoba No. 1 hard wheat, it follows that it contains most nutritious qualities. It is cheap, a most economical breakfast food, a 15 cent package making 12 full pounds. Connoiseurs pronounce it the best in the market, leading physicians recommend it. Every leading grocer in Canada now keeps it in stock. If your grocer or dealer cannot supply you, make known the fact to the Western Cereal Co., Winnipeg, and they will see that you get Meat of Wheat. Just mention this magazine when writing them.

Are You Going to Build?

Gordon-Van Tine Co., Davenport, lowa, who operate a mammoth plant there for the manufacture of window sash, doors, blinds, interior finish, mouldings, hardwood flooring blocks, frames, gable ornaments. porch work, stair work; in fact anything and everything in lumber finish appertaining to the building lines, have instituted an up-to-date selling plan for their out-put. They have just issued a comprehensive illustrated catalogue of their goods, with price list, which enable buyers living hundreds or thousands of miles away to make selection and buy from them with as much satisfaction as if the customer were at their factory. They will ship goods to any point in the Canadian West. Write them for illus-trated catalogue and prices. Just mention the Western Home Monthly, and you will receive catalogue by next mail.

" Absorbine."

"Just a few weeks more, and the busy, prosperous horse-buyers will be searching the country again And these buyers will know a good horse when they see one, be sure of that. So it will be a wise move on your part, Mr. Farmer, to take the chances offered by the present slack time, and see if there are any blemished horses in your stalls. If there are, get busy at once-now's your time to clean and cure them upready for the buyer's keen examination. By doing so, you're likely to save yourself a lot of money. Forty or fifty dollars, even, have more than once been lost to farmers, because of a blemish or disease on animals they've tried to

Going to Buy a Gasoline Engine? The new catalog, G 4, of the Gilson hfg. Co., of Port Washington, Wis., il-iustrating and describing their full line of widely known Gilson engines, gasoline-gas-alcohol, is now ready for distribution.

April, 1907

This catalog gives a complete description with many fine illustrations of the famous Goes-Like-Sixty line of Gilson engines, air, water and oil cooled. It also describes their latest and greatest production. the 51/2 h. p. double

opposed, air cooled engine. The Canadian factory of the Gilson Mfg. Co. is now being built at Guelph, Ontario. Here within a few weeks will be built the complete line of engines p- 'uced by this progressive and upto-date concern.

We recommend that all who are interested in gasoline engines secure a copy of the new catalog. It is an artistic production, and will be sent post writing please mention the Western Home Monthly. IMPORTANT TO HORSE OWNERS.

Highly Valued by the Ranchers. High River, Alta., Can., May 30, 1904. The Lawrence-Williams Co., Cleveland, O.

We find that Gombault's Caustic Balsam is highly valued by the ranchers of this district.—Eversfield Pharmacy. Took Spavin off and will Cure Fistula. Redwing, Ont., Aug. 30, 1904. The Lawrence-Williams Co.,

Cleveland, O.

I have had a horse with fistula on withers for two years. Will Gombault's Caustic Balsam cure it? (Yes .-- L.-W. Co.) I took a bone spavin as large as a hen's egg off the same horse with your Balsam some years ago; no blemish nor lameness since. Peter Dobson.

Can Safely Recommend Caustic Balsam. Millarville, Alta., Can., Jan 27, 1904. The Lawrence-Williams Co.,

Cleveland, O. I have been using your Gombault's Caustic Balsam and find it very successful. I have also been recommending it to my friends with success. Charles H. Kerr.

A Term Coined by Seed Vendors. GOVERNMENT STANDARD SEEDS."

Purchasers of red clover, alsike and timothy seeds who want a good clean article, should see to it that the seeds they buy are clearly represented by a reliable person or firm to be of first quality, by being marked "No. 1," "Prime," "Fancy," "XXX," or such other designation for which a special standard of purity is fixed in Section 4 of the Seed Control Act.

"Government Standard" is the term coined by seed vendors and may be misleading unless clearly understood. Section 4 of the Act fixes a standard of quality in respect to weed seeds, below which timothy, alsike and red clover seeds are not allowed to be sold for seeding, either by farmers or seed mer-

sell. Many of the most successful horse breeders use nothing but "Absorbine"relying on it to remove all blemishes."

"Horticulture in the North."

The first book ever published on horticulture in the Prairie Provinces of Canada.

A complete guide to the cultivation of all fruit that can be grown in these provinces. In addition to 12 chapters on the cultivation of fruits, there are chapters on the following subjects.— "Our Native Fruits," suggesting possibility of improving them, "Propagating Fruits from Seed," explaining how to originate new varieties of fruits. Chapter on "Budding and Grafting." Complete instructions for "Handling and Planting" all kinds of trees and plants. "Laying out the Home Garden." Windbreaks, etc. "Plant Diseases;" How to detect and prevent. Destruc-tion of Plant Insects. List of trees, shrubs, flowers, etc., for cultivation in the West. Instructions for spraying and preparing spray mixtures. This is the only book devoted to horticultural methods adapted to the Canadian prairie region. It should be in the hands of everyone interested in fruits, trees, shrubs and flowers, or any form of gardening. Price in paper, 60 cents; cloth \$1.00. Send post free on receipt of price, by the publisher, D. W. Buchan-an, St. Charles, Man. The work is now in press and will be ready for distribution shortly.

chants. This standard allows of th weed seeds named in the Act about 90 in one ounce of red clover, 200 in one ounce of alsike, or 400 in one ounce of timothy seed. It is to seeds that will pass this lower standard, but are not sufficiently clean to grade "No. 1," that the term "Government Standard" was attached last season.

Some seed vendors have advertised seeds under "Government Seal." No Government seal is used on any seeds offered for sale in the trade. Some re-liable seed houses sell grass and clover seeds sealed by them and for which they alone are held responsible so long as the seal remains intact, but not after it is broken.

To avoid the provisions of Section 3 of the Act, which applies mainly to seed grain, some seed vendors represent to farmers that, on account of the Seed Control Act, they are offering their grain for sale for milling and feeding pur-poses. If offered for sale for seeding, such seed vendors are required to make clear to intending purchasers that the seed contains wild oats, wild mustard, cockle and such other noxious weed seeds when they are in the seed. The object of the Act is to protect farmers. who want to protect themselves against such weeds. It provides the means for farmers to buy seed intelligently. Farmers who deliberately buy feed grain and use it for seed can scarcely hope for legislation that will protect them from loss on account of noxious weeds. Signed, G. H. Clark, Seed Commissioner and Official Seed Analyst.

EVERY HUMAN BEING AN ELEC-TRIC BATTERY.

The Death Knell of Drug Treatments has been Sounded.

Toronto, March — "Every human being is a live electric battery. and the action of the organ of the body is maintained by electrical forces."

This is the belief of Albert T. Sanden, a man who has made a life study of the building up of physical wrecks by means of electricity, and judging by the widespread attention he has attracted in the success he has achieved along the lines of his belief, his method is likely to revolutionize entirely the treatment of a large number of chronic complaints, the cure of which has hitherto been slow, tedious and uncertain.

He believes that disease and weakness cannot exist where the body is filled with electricity, and he is the inventor of a wonderful device for accomplishing this result. It consists of a series of compound electric cells, combined on a girdle to be worn about the body at night, pouring its gentle invigorating warmth into every weak part while the patient is sleeping, and restoring new life and energy without the slightest discomfort or inconvenience. He has published a most interesting book dealing with the subject. It is highly and artistically illustrated and

highly and artistically illustrated and anyone can get it from him for the asking by simply addressing a postal to his offices at 140 Yonge St., Toronto, where he, with a large staff of assistants, carries on his work.

The National Creamery & Produce Co. Dairving is now an interesting sub-

ject among the most progressive farmers in Western Canada. How to get the best results and make most money out of a herd of milkers is of paramount importance to our farmer readers. The National Creamery and Produce Co., Limited, Winnipeg, provides a ready cash market for the products of the milch cows. This firm started in business some five years ago, installing the most modern plant that money could Their business has grown by leaps buy. and bounds until now they have abusiness connection firmly established in the best farming districts in the Province of Manitoba. We will call attention to a few features which will commend their up-to-date business methods to farmers in general. In the first place, they test every can of cream separately, thereby giving the farmer what is com-ing to him in every case.

They pay all their accounts on the lst and 15th of every month, payment being made in express money order, which may be cashed at par and without any discount anywhere. Their celebrated brand of choice creamery butter known as "Hazeldean," commands the highest price and is most eagerly sought after by connisseurs everywhere.

appearance, durability and safety. The line carried by this firm is most comprehensive and includes goods made to meet the needs of the people of Western Canada. If any of our readers are interested in building or contemplate the erection of a dwelling, stable, barn, factory, or mill, they should write Clare & Brochest, Winnipeg, and ask them to send you a copy of their illustrated catalogue, in which is shown the various lines of goods carried by them in stock. When writing please mention the Western Home Monthly.

• The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison-marks on Dr. Shoop's labels—and none in the medicin'e, else it must by law be on the label. And it's not only safe, but it is said to be by those who know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by druggists.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 314

In the Woorld of Music.

opera is, in the ears of the entire Ensomething altogether wholesome, graceful, witty, and of a supreme elegance of form. Mr. Gilbert found burlesque with its lamp burning dim and low, associated with much that was degrading, little that could lay claim to brilliancy; indecency and suggestiveness were not even allied with wit. It has never been sufficiently recognized how much his purifying influence has done to elevate the stage, as much morally as intellectually, for throughout the captivating series of operas there is no dress worn an honest woman would blush to wear, no word spoken she need blush to hear.

The tour of the Russian players in America last season, though financially disastrous for the company itself, brought a permanent acquisition to the English-speaking stage in the person of Mme. Alla Nazimova, an artiste of unquestioned genius. Her elevation to the position of a star, playing Ibsen roles in English, has met with the success, both financial and artistic, denied her while her medium remained the Russian tongue. This is a matter for congratulation. With but seven years' experience, the young artiste exhibits a marvelous technique, as well as great sincerity, intellect and soul. It is little wonder that her matinees have become a fad with the intelligent and the discriminating.

The musical world has been given a startling sensation in the premier performance of the Wilde-Strauss opera of "Salome." While muscially remarkable, created by mad genius in the height of power, sung by the Conried Metropolitan Opera Company with consummate skill, and proclaimed the most important production since Wagner, neverthe-less its abrupt discontinuance as a menace to the morals of the public has met with an answering note of gratitude and relief by most right-minded people. There is no place in the great artistic world, even with the seductive influence of powerful music, for downright bestiality. Impresario Conried threatens to test the mental caliber of western audiences with this same. "Salome." We hope he will be taught the same lesson given him by the directors of the Manhattan Opera House.

Enrico Caruso, the far-famed tenor of section of Canada. Ar. Conried's operatic family of stars. or; but Mr. Stutchbery's fine baritone recently decided to ask for more pay. Next year, the last year under his pres-"made him a source of no little ent contract with Mr. Conried, he will strenth, his recitative numbers being particularly good." Special mention is be getting, it is reported, \$1,500 per night. He wanted that raised to \$3,000, also made of Miss Beatrice Crawford's with a guaranty of at least fifty aporgan accompaniments. The chorus pearances each season. "It is double numbered fifty voices. The church was or quit," as one paper put it. And in crowded to the doors, the promotors view of the war between the managers having the satisfaction of a snug balance on the right side after all exof the rival opera-houses in New Work it looked as though either Mr. Conried penses were paid.

To speak of Gilbert and Sullivan | or Mr. Hammerstein would have to come up to his figures. It was reported glish-speaking world, to alfude to finally, however, that the singer had compromised with Mr. Conried, agreeing to appear under the new contract for \$2,300 a night.

April, 1907.

From London comes the welcome news of the great vocal successes achieved by our Manitoba contralto at two concerts, one on Feb. 14th, in the Royal Albert Hall, the other in Queen's Hall, on Feb. 15th.

Three sources supply the following information:

Daily Telegraph. Last night "Dream of Gerontius" performance was particularly interesting in more ways than one, for two of the solo singers-Miss Edith Miller, the Canadian, and Mr. Gervase Elwes, whose Gerontius we all know and admired, were new to these concerts, the former, if we are not in error, even in oratorio. But there is nothing new in the performance of either-new, that is, in the sense of lack of experience, for Miss Miller sang uncommonly well as the "Angel."

"Now and then, perhaps, she seemed to over accentuate the consonants of certain words, but the fault is on the right side, and her sense of rhythm and of style stood her in excellent stead. Miss Miller is, by the way. to appear at the next of these concerts in Elger's latest work, "The Kingdom," so that a further opportunity will soon be offered of judging her capabilities in oratorio; her voice is of beautiful quality."

Haydn's "Creation" was sung at Edmonton in McDougal church last month under the direction of Mr. Jackson Hanby, formerly of Winnipeg. The Edmonton Saturday News of March 2, says:

The five months of careful training bore the most excellent results, and leader and choir are alike to be congratulated. It is a matter for regret that Mrs. Bennett, who had the soprano role, is leaving the city to take up her home at the coast. Her departure is a distinct loss. She was never heard to better advantage than on Tuesday night, particularly in the immortal "With Verdure Clad." Mr. Hanby says that Mrs. Bennett is

as good a singer as any in Winnipeg, and in oratorio has no superior in this

The Month's Bright Sayings.

climates and open-air life of many colonies, and the fact that most colonial girls have to take a turn in domestic work of one kind or another, often militate against their spending very much of their leisure over books. A young colony has rarely a literary atmosphere, though everyone well acquainted with colonial life must have noticed how surprisingly wellread many colonials are, notwithstanding.

Premier Roblin: I want to say at this time, in view of the fact that this is the last session of the parliament, that we meet this assembly with a degree of pride that possibly is not excelled by any administration; at all events in Canada. The year that has passed and gone, the four, seven and eight years that we have been in office, have been one continued series of success and prosperity and advancement. In so far as Manitoba is concerned, every year has exceeded the previous one in growth and development.

The Daily Mail: Women are imbued with an innate distrust of one another which it will take centuries to eradicate. Up to the present day, in spite of advanced education and the freedom and emancipation of modern women their progress to-wards a code of honor and fair play among themselves has been in a backward condition, and until this is altered women will never be capable of acting as useful and efficient citizens, members of governing bodies, or in any other responsible positions to which their ambitions may be directed.

Passenger Traffic Manager Kerr: It may be asked why such a man should be sent to Winnipeg. Our answer is that it is the call of the West; our response to the requirements of the West which we all watch with such anxiety and care. We in the East know that more and more each year we depend upon the success of the West, and that success can only be ensured when we continue to send to it the best men we have in the East to assist in its development. The West is calling for many Usshers, and we would be derelict in our duty if we did not send him. We all hope he will meet with success there, that in years to come he will return as a multi-millionaire,

as others who have gone before him. C. R. Raymond: Be optimistic. This is the best era the world has ever known, and we should be the most hopeful people in it. God smiled when He made Canada, and the blindeyed world used to think it had been a frown. But the world is finding out its mistake. From the gold-bound Pacific-kissed shores in the far, far west, to the mineral-set, Atlantictossed lands in the east, we are the possessors of a country that will hold much of the future history of the world. Be optimistic. It isn't how long you live to-day, but how much. Fire Commissioner Lindbach: The theatres and playhouses of the city have also been inspected, and although they are evidently all made as secure as possible, it seems to me the city council should enact a bylaw providing for the attendance of a practical fireman during every performance, whose duties it should be not only to see that every apparatus is in ship-shape condition, and the water turned on in the standpipes ready for use, but who would take charge the moment a fire should start.

Constance Barnicoat: The bright | danger of organizing early education in such a way that its sole aim is seen to be success in the strife for sustenance, is that it conveys the impression that this is the only object worthy of achievement, and the impression grows that conduct in the struggle is only to be regulated by the restraints imposed by law.

> Lieut.-Gov. Bulyea: It is a fact that own coal lards in Alberta, or at least it is true that I own stock in a company which does own coal lands, and I guess title to some of these lands was taken out in my name, although I did not personally make application and was not aware that my name was being used at the time that application was being made; not saying, nevertheless, that there is any reason why I should not have this right, along with any other citizen, as long as I comply with the regulations.

Attorney-General Campbell: Why, sir, just to think of a member of this House speaking of the expense of perhaps \$3 or \$5 a year in the matter of keeping the flag in repair as a burden to a loyal school board. And, sir, it was most amusing to hear an hon. gentleman opposite talk about the great havoc and loss likely to arise because the flag may be torn and tattered by wind. Yes, Mr. Speaker, the flag may be torn and tattered. It has often been torn and tattered on our battle-fields, not only torn and tattered, but blood-sprinkled and bullet-riddled.

Hon. J. W. Longley:-I don't care how many Americans come to Canada. I am not afraid of the Americanization of Canada. The Ameri-cans are coming here to be Cana-dians and to help in building up the country. In 40 or 50 years ahead Canada will have a population of thirty or forty millions. Saskatchewan and Alberta will be greater than Ontario in pop lation, and Winnipeg will have surpassed Toronto and Montreal.

Sir Wm. Mulock: This Canada of ours is the only country in the world worth living in the only country that is not burdened with great military debts handed down by previous genera-tions. Keep it on those lines. Watch carefully every tendency toward mili-tarism, for we know that preparation for war leads to war. Remember this is the last spot of refuge on God's green earth where men can come and not pay for the sins of their ancestors.

Pres. Roosevelt:_Canada ought to be represented by an attache at the British embassy. If I want to communicate with your prime minister I have to do

The F. E. KARN CO., Limited COR. QUEEN & VICTORIA STS. TORONTO, CANADA

F. Carrel: It must at length be recognized that since in the child mind is contained the potential of the human intellect, it is imperative that that mind should be trained in the principles of conduct which experience has shown to be the most favorable to the welfare of society. The

so through the British ambassador and then the communication passes succes sively through the foreign office and the colonial office in London to the governorgeneral of Canada, who lays it before the Canadian minister. It is a slow and very tedious process. Why cannot you be directly represented here?

Sir Theodore Martin, K. C. B.: The highest and most important of all hu-man duties is to be thorough. To es-tablish a high ideal, and to strive to-wards it; to set on one side, to as great an extent as may be, the mere sordid delive to make money, to acquire wealth to cultimate ant for acting sola wealth, to cultivate art for art's sake, bearing in mind the fact that the highest and the greatest achievement is not incomparable with the lowlest social environment, even as Burns, following the plough, sang words that stir the hearts of his fellow-countrymen as only the utterances of genius can ever stir the heart of man.

President Boosevelt: No piled-up wealth, no splendour of material growth, no brilliance of artistic development, will permanently avail any people unless its home life is healthy unless the average man possesses whiless the average man possesses honesty, courage, commonsense and de-cency; unless he works hard and is willing at need to fight hard, and un-less the average woman is a good wife, a good mother, able and willing to per-form the first and greatest duty of womanhood, able and willing to bear and to bring up as they should be brought up, healthy children, sound in body, find and character, and numer-ous enough so that the race shall in-crease and not decrease.

It is sometimes hard to regulate the amount of one's purchases, as oftentimes one cannot buy a small portion as advantageously as a larger one; as, for instance, a small roast of beef is never as juicy and tender as a larger one, but an eight-pound roast set be-fore two people looks appalling; and, if economy is practiced in the family, this same roast must appear at so rest, making of the one two entirely many meals before the last remnants different cakes, and both kinds will be are finally disposed of, that one's ap- eaten up; whereas, if only one kind had

There is a sense of coziness in sitting down to one's dinner with a single companion, and that one one's dearest jelly will be too hard and lose its delicacy, if too little is put in the jelly "will not jell," as one of Miss Alcitt's Little Women said. So I have found it a good plan to make up a whole box of gelatine into lemon jelly, take a portion of this jelly and make it into snow pudding, on the second day another part can be used for a fruit jelly by partially melting it and putting into it oranges cut up fine, raisins (seeded), bananas in small pieces, and white grapes with the seeds removed, these can be mixed into the partially melted elly, which should then be poured in-

to a mold and set on the ice to harden. Blanc mange may be made to mas-querade in several different forms, part of the quantity being used white, part made into Italian cream by the addition of the yellow of egg and served with whipped cream, and part of it may be flavored and colored with

chocolate; though in very warm weather it would be uncertain whether blanc mange would keep sweet until the third day.

One full measure of white cake may be made, and just before it is ready to put into the pan it may be divided into two portions, citron added to one portion, and spice and raisins added to the

sion is that it is unwise to buy a roast of beef for so small a family. On the other hand, some di

petite for it vanishes long before the been made some of it would have been roast has disappeared; so the conclu- left to dry up and become wasted. Disposing of the left-over portions of food is more of a problem in a small family than in a large one, but more easily provided for a small family where economy must be continuously practiced, the use of all food left over from one meal must be carefully utilized before it spoils. "Soup meat," that is, meat that has been boiled with the bone for soup stock, may be made into an excellent salad. For this purpose it should be allowed to become perfectly cold, and then be cut into small square pieces and mixed with finely cut celery and salad dressing; a spoonful of this mixture is placed on a lettuce leaf and makes a very acceptable salad. Soup meat may also be made into croquettes, and in either of these ways it is equally as good as meat which has been bought for the purpose.

Queen of Tube. The character of the TUB adds to the pleasures of the Bath. PRINCESS is always smooth, pure and glossy. It is practically a self cleanser. It is one of the specialties manufactured by

PRINCESS *

39

The Standard Ideal Co. Limited.

STANDARD IDEAL porcelain enameled ware is finished by a process which virtually makes the enamel a part of the iron. It is smooth and has a rich, pure snowy opaque appearance. The PRINCESS bath has this finish and this coupled with its fine design will embellish any room. Note the 2½-inch roll rim and the artistic base. The fittings of the PRINCESS are arranged after a new and approved plan, ensuring its sanitary perfection. Why not put one of them in your bath room 2

than for one of greater numbers. It is difficult, if not impossible, to get at one time sweetbreads enough for a large family, and here is one place where the small family has the advantage; one large pair or two small pair of sweetbreads will be all that two people can eat at one meal, and nothing is more delicious when rightly prepared. Calf's liver is cheap everywhere, and is a very popular dish; a good-sized piece may be purchased, part of it served with bacon, and the rest of it made into potted liver, which is nice for tea on Sunday night, especially as it is at its best the second

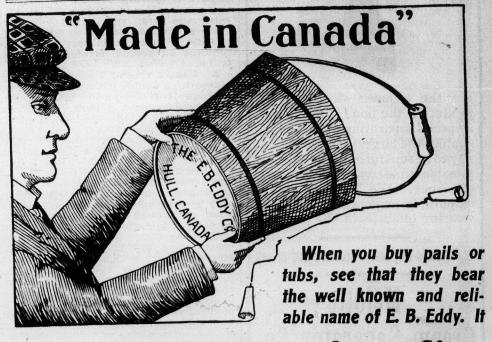

day after being prepared. People do not relish the same articles of food if served repeatedly on successive days, therefore it is well not to provide too lavishly of any one article, no matter how tempting it may look or taste at the first serving; and here comes in a difficulty when cater-ing to a small family; many recipes are proportioned to meet the needs of a large family, and it is not always easy to divide the portions of each ingredient with enough exactness to be sure of the result.

This is true of gelatine deserts; a whole box of gelatine makes such a quantity of jelly, and yet in trying to divide a box into several different portions one is apt to get too little or

Better Than Spanking.

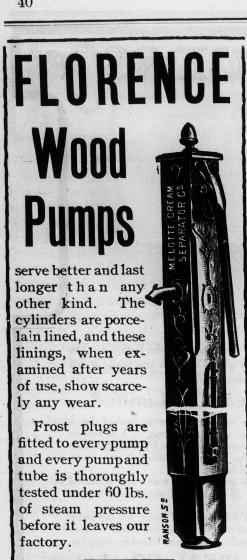

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 86. Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write to her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled

with urine difficulties by day or night.

Work for Busy Fingers.

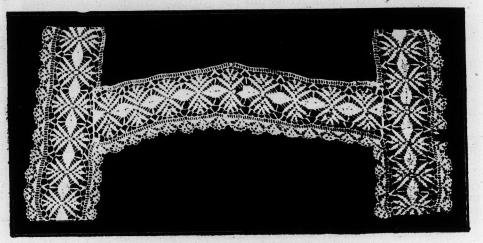

HANDSOME CENTREPIECE IN TAT-TING.

Beginning with the star-shaped wheel in the centre, make a ring of 18 picots, ¹/₄ inch long, each with 1 double knot between; close and tie. Make 2½ double knots, 1 picot, 2½ double knots, join to picot of centre ring, 2½ double knots, 1 picot, 2½ double knots, close; leave 1/3 inch space, make a large ring of 6 double knots, 1 picot, 2 double knots, 1 picot, (1 double knot, 1 picot) 4 times, 2 double knots, 1 picot, 6 double knots, close; turn, make another small ring like 1st, joining to preceding ring by 1st picot and to centre ring by next picot to 1st joining; make anotehr large picot to 1st joining; make another large picot; repeat until you have 18 small and 18 large rings alternating, and have used all the picots of centre ring. Now make three double knots, join to middle picot of a large ring, 5 double knots, 1 picot, 8 double knots, close; with 2 shuttles * make a chain of 9 double knots, 1 picot, 9 double knots; make a ring of 8 double knots, join to 2d picot of preceding ring, 8 double knots, close; repeat from *, then make a chain, then double 8 knots, join to picot where the 3 preceding rings are joined, 5 double knots, join to middle picot of next large ring in centre wheel 3 double knots, close and tie. Miss 1 ring of centre wheel, and repeat, joining picot of 1st chain to picot of last chain in preceding figure. Continue until you have 6 figures around the wheel. This completes the centre, which in itself is a very pretty wheel for a tidy, medallion, for dress garniture, or whatever one wishes to use it for. 2. Make a ring of 2½ double knots,

1 picot, 2½ double knots, join to picot of 2d chain in centre, 2½ double knots, 1 picot, 2½ double knots, close Leave inch thread, make a ring of (4 double knots, 1 picot) 3 times, 4 double knots, close; leave ½ inch, make another small ring, joining to preceding small ring by 1st picot at side, turn; leave 1/8 inch, make a large ring, joining by 1st picot preceding, and continue, alternating small and large rings until you have made 8 of each; join next small ring to picot of 2d chain in next figure, and continue all around, joining last rings to 1st. Make a ring of 7 picots, each sep-3. arated by 2 double knots; close and tie. Starting from 1st picot, make a ring of 3 double knots, 1 picot, 2 double knots, 1 picot, (1 double knot, 1 picot) 4 times. 2 double knots, 1 picot, 3 double knots, close, join to next picot of centre ring, and repeat from * 6 times, joining rings' by 1st picot at side; join last to 1st, and fasten off. This forms the 1st small wheel of border section. The 2d wheel starts in the centre with a ring of 9 picots, each separated by 1 double knot, and around this are 9 rings, made as described in outer row of 1st wheel, with 1-16 inch thread left between centre picot and ring. The 3d wheel starts in centre with a ring of 12 picots, each separated by 1 double knot, the picots being about ½ inch in length; close and fasten off. * Make 2 double knots, 1 picot. 2 double knots, join to picot of centre, 2 double knots, 1 picot, 2 double knots, close; leave 1-16 inch thread, make a ring of 5 double knots, 1 picot, 2 double knots, 1 picot, (1 double knot, 1 picot) 4 times, 2 double knots, 1 picot, 5 double knots, close; repeat from , joining the small rings to centre picots and to each other by 1st side picot, the large ones also together at the side. The 4th or largest wheel is made in the same manner, the centre picots being about 1/4 inch long, and with 15 instead of 12 picots and a like number of rings. Make twelve of these wheel sections, joining at middle picot

of 1st ring in smallest wheel to middle picot of ring in 2d row; miss 3 rings and join to next section, etc. Join 2d wheel to 1st between 4th and 5th rings of latter when making 1st ring, be 2d picot of side of each, and 3d and 4th wheels by middle picots of 2 consecutive rings.

4. Join the wheel section as follows: Make 2 double knots, miss 1 ring of 2d row, join to middle picot of next, 2 double knots, 1 picot, 4 double knots, close; chain 5 double knots, join to shuttles, join to middle picot of 2d

Crocheted Yoke, for Corset-Cover or Chemise.

ring of small wheel, 5 double knots; 4 | double knots, join to last picot of pre-ceding ring, 4 double knots, close; 4 3, 3 trebles in 2d of 3 chain, chain 3, 3 trebles in 3 trebles, 15 doubles in 15 double knots, 1 picot, 4 double knots, colse; chain 5 double knots, join to middle picot of 3d ring in small wheel, doubles, missing 1st and last 2, repeat from * across, ending with 7 doubles. 4. Chain 1, 5 doubles in 5 doubles, * 5 double knots; 4 double knots, join to picot of last ring, 4 double knots, close; 4 double knots, 1 picot, 4 double knots; chain 3, 3 trebles in 3 trebles, chain 3, 3 trebles in 1st of 3 trebles following, chain 3, 3 trebles in last treble of same chain of 6 double knots, 1 picot, 6 double knots; ring of 5 double knots, join to picot of last ring, 5 double knots; group, chain 3, 3 trebles in **3** trebles, chain 3, 11 doubles over 15 doubles, missing 1st and last 2; repeat across, ring of 5 double knots, 1 picot, 3 double ending with 5 doubles. knots; ring of 7 double knots, join to middle of 3d ring or 2d wheel, 6 double 5. Chain 1, 3 doubles in 3 doubles, * (chain 3, 3 trebles in 3 trebles) twice, chain 3, 3 trebles in 2d stitch of next knots; ring of 5 double knots, join to picot of last ring, 5 double knots; chain of 7 double knots, 1 picot, 7 double 3 chain, (chain 3, 3 trebles in 3 trebles) knots; ring of 6 double knots, jin to twice, chain 3, 7 doubles over 11 doubles, missing 1st and last 2; repeat across, picot of last ring, 6 double knots; ring of 6 double knots, 1 picot, 6 double knots; ring of 6 double knots, 1 picot, ending with 3 doubles. 6. Chain 5, a triple-treble in 1st double, * (3 double-trebles in 3 trebles, 6 double knots; chain of 8 double knots, keeping top loop of each on the needle join to middle picot of 4th ring of 3d wheel, 8 double knots; ring of 6 double and working all off at once, chain 4) twice, 3 double-trebles in 1st of 3 trebles, chain 3, 3 double-trebles in last knots, join to picot of last ring, 6 double knots,; ring of 7 double knots, 1 picot, 7 double knots; chain of 9 double knots, of trebles in next group of 3 trebles) twice, remembering to work off each group as 1 picot, 9 double knots, ring like the last, joining to picot; ring of 8 double knots, 1 picot, 8 double knots; chain of 10 double knots, 1 picot, 10 double directed for 1st, chain 2, 2 triple-trebles in 4th row of 7 doubles, chain 2, repeat from * across, ending, with 2 tripleknots; ring like last, joining as before; trebles in last double of row. chain of 20 double knots; then make a 7. Chain 5, a triple-treble in same stitch, 2 triple-trebles under next 4 ring like last joining to picot with 2 working back down the side of section, chain, keeping top loop of each stitch following directions given, and joining on hook and working off together,

to 2d wheel section. Made of No. 50 linen thread this is a beautiful piece of WOIK. Pasadena, Cal.

April, 1907.

CROCHETED YOKE FOR CORSET COVER OR CHEMISE. (By Request.)

Make a chain as long as required for the width of yoke, according to size. It is well to allot an inch or so extra in length of chain, as it takes up in work-

ing. 1. Make 11 doubles in 11 stitches, * chain 3, miss 3, 3 trebles in next stitch, chain 3, miss 3, 23 doubles in next 23 stitches; repeat from * across, ending with 11 doubles, turn.

2. Chain 1, 9 doubles in 9 doubles, miss 2 doubles, chain 3, 3 trebles in last of 3 trebles, chain 3, 3 trebles in last of same 3 trebles, chain 3, 19 doubles over 23 doubles, missing 1st 2, repeat from across, ending with 9 doubles.

3. Chain 1, 7 doubles in 7 doubles,

trebles under next 4 chain and 2 under next, keeping top loops of all on hook and working off togetner; repeat from * across, ending with 2 triple-trebles.

8. A double-treble in a stitch, * chain 1, miss 1, a double-treble in next; repeat.

10. Make 11 doubles in 11 stitches, chain 3, mlss 3, 3 trebles in next, chain 3, mlss 3; repeat.

11. Make 7 doubles over 11 doubles, missing 1st and last 2, chain 3, 3 trebles in 1st of 3 trebles, chain 3, 3 trebles in last of 3 trebles, chain 3; repeat.

12. Make 3 doubles over 3 doubles, chain 3, 3 trebles in 3 trebles, chain 3, 3 trebles in 2d of next 3 chain, chain 3, 3 trebles over 3 trebles, chain 3; repeat.

13. Slip-stitch in 2d of 3 chain, * chain 7, fasten back in 5th stitch to form a picot, chain 1, a treble in 2d of 3 trebles, chain 6, picot, chain 1, treble in 3d of same group, chain 6, picot, chain 1, a treble in 2d of next group, chain 6, picot, chain 1, a double in 2d of 3d chain following, a double in 2d of next 3 chain; repeat from *.

On the other side of the foundation chain work from 1st to 8th rows, in-clusive. It is better to leave the 8th to 13th rows until you have put the yoke together, then work around front, back and over shoulders continuously, the 8th row on the lower edge in the same way.

Make a strip for the back, and for each sleeve crochet them neatly to-gether, and finish as described. Any pretty insertion may be used in the same way; but this is an especial pat-tern and has been greatly admired. If a drop or point is wanted under the arms, it is only necessary to widen a little at that place.

CORNER IN DRAWNWORK. This is one of the simplest, yet daintiest, patterns in a very large collection which contains many original designs. Take a square of fine lawn of the

Corner in Drawnwork.

for a half-line hem and draw 4 to 6 threads, then leave $\frac{1}{2}$ inch and draw $\frac{1}{2}$ inch, to the edge. Turn hem and hemstitch neatly, then knot the space 3 times, at equal distances, thus: ginning at the edge, knot 2 strands together, then 1, throughout, having first, of course, hemstitched both edges of the drawn space, taking 4 threads at a time, the same on each side. The nex knotting threads takes first 1 strand, w then 2, and the 3d is like 1st. In the corners over the foundation threads and 2 extra, diagonally, weave a tiny cross. Knot all the threads together in the center, weave back and forth over threads for 1/4 inch, or a little less, then drop a thread each side and weave over 3 for 1-16 inch; push the needle back between the woven threads to center. then repeat. Also a charming dsign for collar and cuff set, yokes, etc.

PINK POND LILY DOILY.

This cake doily, or fancy mat, is 11 x 11 inches, with a pink pond lily at each corner. Between each lily is a large lily leaf. One who is clever at drawing can draw their own design. Each flower is 4×4 inches in size, the leaves 3×3 inches at top, the edge being a little narrower. Work with a floss heavier than filo, with long and short stitch. Use two shades of pink for the flowers, with yellow for the centres. Two leaves are dark green, the other two light green.

"Preventics" will promptly check a cold or the Grippe when taken early or at the "sneeze stage". Preventics cures seated colds as well. Preventics are little candy cold cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The- samples prove their merit. Check early Colds with Preventics and stop. Pneumonia. Sold in 5c. and 25c, boxes by druggists.

Electricity is an external application. By the infusion of a current through the suspensory into the weakened parts, every nerve and tissue is affected by it. They are immediately strengthened with the new life; they expand and develop with each application until complete vigor and strength are restored. Every day we have evidence that the weakling has no place in the busy, bustling life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter, and this the weakling lacks. Look about you and see the successful man of to-day; it matters not whether he be a

weaking lacks. Look about you and see the successful man of to-day; it matters not whether he be a Merchant, Lawyer or Laborer, with head erect, eye clear, strength in his every movement, he is ready to tackle any problem with that enthusiasm which insures success. I can make just such men of weakings. I care not how long they have been so, nor what has failed to cure them. Let them wear my Dr. McLaughlin's Belt every night as I direct, and in place of the weak-nerved, debilitated being, I will show you a strong man-full of vigorous life, with nerves like steel and ready to look any man in the face and feel that he is the equal of the best of them and can do what they (can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for twenty thousand weak men, and every one of them had spent from \$50 to \$500 on drugs before he came to me as a last resort.

Now, what does this mean to you, dear reader? It simply proves what I have been telling the public for the past twenty years, the only way to restore strength is by electricity. Drugs will not.

READ WHAT SOME OF THEM SAY :

Dear Sir, - I have worn your Belt for one month and am verv much pleased with it. The varicocele is reducing and I have no losses at stool as I had before. I always feel fine when I get up in the morning. I am much stronger physically, and stand up much straighter than I did. Yours truly, Alex. T. Galt, 354 Donald Street, Winnipeg. Dear Sir, -In reply to your letter of the 22nd inst., I might say that your Belt has helped me wonderfully. It has strengthened my kidneys, and I do not have that numb feeling in my arms. Yours truly, John Shillabeer, Buissevain, Manitoba. Dear Sir, -I am fully satisfied with my Belt; it is a good cure. I am stronger in every way and thank you very much for your Belt. It is well worth the money that I paid for it. Yours truly, William J. Pearson, Fleming, Saskatchewan.

If you are skeptical, all I ask is reasonable security for the price of the Belt, and

IF WOMEN **ONLY KNEW**

Thousands of women suffer untold miseries every day with aching backs that really have no business to ache. A woman's back wasn't made so ache. Under ordinary conditions is ought to be strong and ready to help her bear the burdens of life.

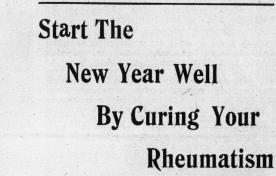

It is hard to do housework with an aching back. Hours of misery at leisure or at work. If women only knew the cause. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause in the world.

But they can't help it. If more work is put on them than they can stand it's not to be wondered that they get out of order Backache is simply their cry for help.

DOAN'S KIDNEY PILLS

will help you. They're helping sick, over-worked kidneys—all over the world— making them strong, healthy and vigorous. Mrs. P. Ryan, Douglas, Ont., writes: "For over five months I was troubled with lame back and was unable to move without help. I tried all kinds of plasters and liniments but they were no use. At last I heard tell of Doan's Kidney Pills and after I had used three-q arters of the box my back was as strong and well as ever."

Price 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

At this season of the year we are offering \$1.00 bottle of our valuable remedy.

TEMPERANCE TALK.

Alcoholism in France.

Alcoholism, that curse of civilized societies, of which Gladstone said that it caused more ravages than the three historical scourges, famine, plague and war, tends to make more and more our beautiful country of France a violent nation, blinded by passion and de-livered over to all brutality of instinct. -M. Meline, in Paris Petit Journal.

Dangers of Drink.

Sixty per cent of drinkers are "social drinkers," who will not take a drink, when alone, once a month, but on account of their surroundings and friends have developed a habit of taking two or more drinks a day. Forty per cent drink because they like it, and are on a straight down-hill road for delirium tremens with all its fatal com-plications. If the "social drinkers" could see some of the hundreds of autopsies hel_ on persons who have died of alcoholism-see the congested brain, inflamed, bleeding stomach of gastric catarrh, the heart liver, kidsoft and flabby, and the secondary the connective tissue of an organ), which replaces the vital cells necessary for their proper functions the charges for their proper functions, the changes in the walls of the arteries, and of the nerves of the spinal cord-they would be satisfied with pure water the rest of

A Child Drunkard.

their lives.

Professor Marsh, professor of surgery at Cambridge, at a conference in the lecture hall of the London Chamber of Commerce, recently expressed the opinion that children should be brought up as teetotalers, adding that in thousands of cases children, instead of being given proper food, were given all kinds of things-even gin. He instanced what he said was a very pathetic case which came under his notice some years ago. A child of two years was under treatment in the children's hospital with which he was connected, and it was suspected that, although so young, it had a gin drinker's liver.

A test was made. Some hot gin and a churchwarden pipe were brought irto the ward and the child eagerly went for both. It was afterward found that it really had a gin drinker's liver.

Dangers of Drink. Dr. George A. Lung, a surgeon of the United States navy, has recently made a most notable contribution to

the discussion of the effects of alcoholic drinking in a paper read by him before the Association of Military Surgeons. Doctor Lung comments on the general growth of excessive drinking and on the influences exerted to counteract such tendencies. He does not, says Leslie's Weekly, admit any necessity for the use of alcohol. On this point he says: "The evils that arise from alcohol are from its abuse, not its use. But who is to be the authority to set But who is to be the authority to set the limit and say where safety ends and danger begins? As a beverage or even as a medicine I am almost convinced that the world could be deprived of alcohol and not suffer. I am almost convinced that the world would be better for its absence." The nations most addicted to drunkenness to-day, the author finds, are the United States, Great Britain, Germany, Russia, and France. The opening wedge is usually the insidious argument that "a little drinking will do no harm," but soon this develops the universal craving which sooner or later gives license for an indulgence making an evil end probable.

Whatever may be said about the im-perfections in the methods employed by temperance advocates and the apparent lack at times of definine results, Dr. Lung asserts his conviction that "the intention at least is a most commendable one and worthy of support." The boast of the average young drinker that he has sufficient will power to break off his habits of indulgence when he so desires, is not over-looked by Doctor Lung. He declares that "no young man or even an old one who may be classed as an occasional drinker can foretell to a certainty that he will not degrade as he advances in years, first to the state of a drunkard and then to that of an inebriate." He thinks that one who has followed the platonic injunction of drinking in moderation only after 30, and making his porting indulgences and making his sporting indulgences only after 40 may feel reasonably con-fident that he will not descend into the other undesirable stages. "But, though he may be satisfied as to him-self," runs the further comment, "he has not escaped the responsibility that his example and influence on others have been."

The contention advanced in conse-quence of these observations is that drunkenness has come to be recog-nized as a disease which only un-balances the normal physical life of the individual, but makes him a dis-turbing factor in every walk of life

THE CALL OF THE SPRING.

Come, choose your road and away, my lad,

Come, choose your foad, and away! We'll out of the town by the road's

bright crown As it dips to the dazzling day. It's a long white road for the weary;

But it rolls through the heart of the May.

Over the sweet-smelling mountainpasses

The clouds lie brightly curled; The wild-flowers cling to the crags and

swing With cataract-dews impearled; And the way, the way that you choose

this day Is the way to the end of the world.

Come, choose your road and away, away

We'll follow the gypsy sun; For it's soon, too soon to the end of the

day, And the day is well begun;

And the road rolls on through the heart of the May. And there's never a May but one.

THE START WITH THE VEGE-TABLES.

April is a most important month so far as success or failure in the vegetable garden is concerned. A selection of the best varieties should be carefully made and the seeds planted early. A hot-bed, or even a cold frame, will be of great help in getting things started, but, in the absence of these, much may

Seeds to Sow Indoors.

Cabbage—Cabbage plants are easily started inside, the chief trouble being a tendency to become spindling where there is not an abundance of light and air. Transplant into small pots, or the paper pots now offered, or into shallow boxes. Improved Early Jersey Wakefield is a good variety.

Celery-If a hot-bed is available it is worth while to start some celery plants Giant Standard is a standard early. sort.

Egg Plant-With a hot-bed these can be successfully started. New York Im-proved Large Purple is an excellent variety.

Lettuce—Time may be gained by starting lettuce inside and transplanting when the ground can be worked. Grand Rapids is a good sort.

Okra-This excellent vegetable when started out-doors does not become available until rather late in the season. Try starting a few seeds in pots and transplant in the garden later.

Parsley—It is especially desirable that this slow-growing plant should be started inside early.

yield plants for this purpose.

good varieties.

give good results.

"Why is it that my lilacs do not bloom every year?" Yours are the old sorts and they start so early they are often nipped in the bud. If you would take the precaution to throw a blanket over them when in danger of a late frost it would help—an old horse blanket or quilt or piece of burlap would

answer. We might divide the lilac family into three groups. One called the Vul-garis, to which our common kinds belong, the Persian and Siberian and the Rouen which are the small leaved ones and the broad leaved.

VILLOSA.

Among the last we name the Villosa, Dr. Bretschneider, the Emodi and the Josikaea.

Ine Villosa is from Japan and we would naturally think it would not be hardy in the north, but I saw it growing vigorously in Manitoba. All of the broad-leaved ones are june bloomers, which brings them down out of the reach of the late frosts. For the first few years you may not be impressed with the Villosa, as it seems to have only ordinary purple flowers. But some summer you will be astonished to see the whole bush from the ground up, turn into one grand bouquet of loveliness This grows to be quite a bush or half tree. In one of the Chicago nurseries 1 noticed they were making a specialty of this, and were charging \$5.00 a bush for them. Right here I want to give our readers a point. Get one of these Villosa. It will cost you about fifty cents. Pull down a lower limb, put it in a little trench you dig for it, cover it with fine outh Don't lot the weads it with fine earth. Don't let the weeds grow around it and the next spring you will have a fine well rooted plant. Cut it from the parent stem and plant it out. Then you can pull down another limb and get another. I sometimes get a dozen from one bush in this way. You can treat the Dr. Bretschneider in the same way. But though the Josikaea looks much like these, and is a June bloomer, too, it absolutely refuses to propagate itself by this mode, and you have to bud or graft it. Dr. Bret-schneider is a remarkable bush. It is of fine form and has leaves as large as your hand, and if it had no flowers it would delight you with its form and foliage alone. This is a great bloomer, being covered with mass of great purple flowers. The bloom is not quite as fine, but you will be tempted to cut

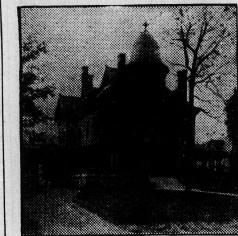

them for your table. Hold on! I wouldn't do it. Let me tell you something. These four late bloomers, with the Japan and Chinese tree lilacs have flowers at the same time and the bees find it out and they carry the pollen from one to the other. So leave the blossoms and when the seeds are ripe gather them and early in the spring plant them out, put on half an inch of earth, and don't let them dry while sprouting, and you will be dry while sprouting, and you will be surprised at the fine lot of seedling lilacs you are getting. That is not all. It may turn out that you are a sort of Radish-Radishes bear transplanting Burbank, and that you-a quiet little well and are generally improved by the woman-have become a creator. When process. Seed sown about two weeks your little plants are two years old you before the ground outside is ready will can plant them out in a row, perhaps you will make a hedge of them to protect your flowers. Fut them about two Tomatoes-It is essential that tofeet apart and then watch their bloom matoes get an early start. Earliana, Dwarf Champion, Stone and Beauty are ing. In that lot I will warrant you will have some of superior beauty, then. with what joy you can show your Onions-If you have space try startfriends what you have produced. This is quite simple if you know how and we ing a box of onion seedlings to get seedlings for transplanting. It will be will try and make it plain. an interesting experiment and should You see where you are then. Per-haps you are working hard, and your kitchen is small and hot. You can get but a few moments for garden work, but you can look out of the door and see the offsprings of your thought and care, doing their best to please you. We want to bring the glorious art of floriculture down to your reach. It will not only honor you, but you can honor it by the creation of new, rare and beautiful things. Really you are a queen in a realm of your own. In the sweet unknown which closes in all around you are hundreds of forms rare and lovely no eye has yet seen, which are waiting for the magic touch to come forth in such robes as princess never wore. Now, don't think you can plant the seed of common lilacs and get desirable results. "Like begets like" and you get the same thing right over. The seeds would grow, of course, but what would you gain? If you want more of them, They seem to have ot them alone. tudied the multiplication table, and in art of propagation they could give ints even to the Canada thistle.

Mrs. Cora B. Miller Makes a Fortune Started

ted a[®] Few Years Ago with no Capital, and Now Employs Nearly One Hundred Clerks and Stenographers

Until a few years ago Mrs. Cora B. Miller lived in a manner similar to that of thousands of other very poor women of the average small town and village. She now resides in her own palatial brown-stone residence, and is con-sidered one of the most successful business women in the United States.

Mrs. Miller's New Residence Earned in Less than One Year.

than One Year. Several years ago Mrs. Miller learned of a mild and simple preparation that cured herself and several friends of female weakness and piles. She was besieged by so many women needing treatment that she decided to furnish it to those who might call for it. She started with only a few dollars' capital. and the remedy, possessing true and onderful merit, producing many cures when doctors and other remedies failed, the demand grew so rapidly she was several times compelled to seek larger quarters. She now occupies one of the city's largest office buildings, which she owns, and almost one hundred clerks and stenographers are required to assist in this great business. **Million Women Use It.**

Million Women Use It.

assist in this great business. **Million Women Use ft.** More than a million women have used Mrs. Miller's remedy, and no matter where you live, she can refer you to ladies in your own locality who can and will tell any sufferer that this marvel-ous remedy really cures women. Des-pite the fact that Mrs. Miller's business is very extensive, she is always willing to give aid and advice to every suffering woman who writes to her. She is a generous, good woman and has decided to give away to women who have never used her medicine \$10,000.00 worth absolutely FREE. Every woman suffering with pains in the head, back and bowels, bearing-down feelings, nervousness, creeping sensa-tions up the spine, melancholy, desire to cry. hot flashes, weariness, or piles from any cause, should sit right down and receive by mail (free of charge in plain wrapper) a 50-cent box of her marvelous medicine; also her valuable book, which every woman should have. Remember this offer will not last long, for thousands and thousands of women who are suffering will take advantage of this generous means of getting cured. So if you are ailing, do

dealers.

SMITH

Suggestions. Gingerbread made from oatmeal sifted instead of wheat flour is a good aperient for children.

The Home

A lump of sugar saturated in vinegar will often stop hiccoughing when drinking water will not.

Sulphur-Powdered sulphur will not hurt plants, but only the experienced should use sulphur fumes.

For stings or bites from any kind of insect apply dampened salt, bound tightly over the spot. It will relieve and usually cure very quickly.

Children should be taught to gargle their throats. It is easier to teach them this difficult and awkward accom-

No one should go to bed hungry, but food taken near bedtime ought to be of the simplest kind-a cracker, a piece of bread and butter or a glass of milk.

Bath for Rheumatic Sufferers .- Persons who are rheumatic will be benefited by hot baths, to which oil of turpentine is added. A good mixture to add to a hot bath is made of fifty grammes of green soap and thirty grammes of oil of turpentine. These ingredients should be mixed together and shaken well.

A very simple method of inducing sleep in cases of persistent insomnia, and one that has succeeded where many

To change the sheets of an invalid's bed when the invalid is too ill to be moved is not always easy. Of course, the upper sheet can be taken off in the usual way. The chief difficulty, lies with the lower one. Begin to

Doctor.

roll the under sheet lengthwise over to where the patient lies. Then put on the near sheet, which should also be rolled or folded lengthwise. As you unroll the new sheet tuck it in securely at all sides. When the two rolls of sheeting are side by side rolls of sheeting are side by side-next to the patient-lift the patient over on to the clean side, if she cannot turn over without aid. The old sheet is then removed and the new one spread out evenly as it should be.

Felons.

A felon is often caused by a blow upon the end of the finger or any tight pressure, which stops circulation, and injures the bone. Numerous remedies have been suggested, none of which will prove effective unless they are applied promptly upon the first indication of the throbbing pain and swelling which are prominent symptoms of this

painful disorder. One of the most satisfactory "first aids" to the injured finger or thumb is a strip of cantharides plaster or blistering ointment put on as near to the knuckle joint as possible, and left on until it blisters; this will check the development of the felon

Dipping the finger into hot lye made of wood ashes repeatedly for a day or two is a successful method of aborting Price 25 Cents.

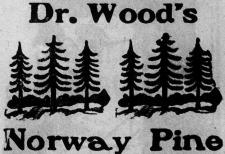

Tobacco Habit.

Dr. McTaggart's Tobacco Remedy removes all desire for he weed in a few days. A vegetable medicine, and only equires touching the tongue with it occasionally. Price \$2.

Liquor Habit.

Marvellous results from taking his remedy for the Liquor Habit, Safe and inexpensive home treatment; no hypo-dermic injections, no publicity, no loss of time from business,

and a rure certain. Address or consult Dr. McTaggart, 75 Yonge Street Toronto, Canada.

Syrup

Cures Coughs, Colds, Bronchitis, Hoarseness, Group, Asthma, Pain or Tightness in the Chest, Etc.

It stops that tickling in the threat, is pleasant to take and soothing and heaf-ing to the lungs. Mr. E. Bishop Brand, the well-known Galt gardener, writes:----I had a very severe attack of sore throat and tightness in the chest. Some times when I wanted to cough and could not I would almost choke to death. My wife got me a bottle of DR. WOOD'S NORWAY PINE SYRUP, and to my surprise I found speedy relief. I would not be without it if it cost \$1.00 a bottle, and I can recommend it to everyond

Hints for the Housewife.

To Renew Old Mattings.

It is very poor economy to buy the very cheap mattings, though they are very pretty and serviceable to a certain extent but good, firmly woven matting will last as long as a good carpet, if carefully used, it is far more easily kept clean than any other floor covering, and then it is more nealthful, less work, and cheaper.

Housecleaning usually reveals the fact that some of the mattings are too worn for further use, but sometimes an old matting can be made to do duty for another season, by changing the widths from the center to the sides, allowing the sides to come to the centre where there is more wear. When an old matting is to be put down again, it can easily be freshened if not very much soiled, by wiping the surface with warm water containing a handful of salt to a pailful of water. If there are any grease spots found on good matting. Cover them with a thin paste made with fuller's earth and cold water, and allow it to remain for two or three days before sweeping off. A matting that had been in use for

four years, but was still good, was swept thoroughly on the right side, then the tacks were removed, each width rolled up and taken out doors which rolled up and taken out doors and laid on the ground right side down and swept until no more loose dust would sweep off, then it was tack-ed to a clean, dry floor and given a thorough scrubbing with a strong lather of Ivory soap and warm soft water and as a small portion was water, and as a small portion was cleaned it was rinsed with clear water and rubbed as dry as possible with clean, soft cloths. When the matting was perfectly dry it was fresh and clean looking and it is kept clean. by brushing every day with a soft broom, and once a week the rugs are taken out and hung over the line and beaten. with limber switches, then the matting is swept clean and wiped off with a damp, not wet, cloth the rugs replaced and the room is as fresh as possible.

To Freshen a Girl's Gown.

If a girl happens to have an evening frock which has served her well all summer, but is now in need of freshening up a bit, let her try trimming the gown with graduated roses. white silk gauze gown, for example, the top. ately, and should be arranged in the same graduated style as the artificial flowers.

ing, and will have a lustre like new ribbon. Another way is to roll it tightly around a large rolling pin and leave it until dry. Ironing silk is apt to make it too stiff, which destroys its beauty, causing it to wrinkle easily.

April, 1907.

COOKING RECIPES.

Celery, onions and lettuce are very good foods for those who are nervous. They are said to promote sleep, as they quiet and soothe the .erves.

The market contains a variety of dried and fresh fruits the year around which can be utilized either in their fresh state, or added to other ingredients to form a boiled or baked tidbit.

One of the little-known fruits which a housewife would do well to become acquainted with is the "pulled" or "bag" fig. This fruit, instead of being pressed and packed in layers is dried just as it is pulled from the tree. It can be found in all cities and nearly all of the larger towns, and is more reasonable in price than the pressed fig.

Dutch Apple Cake .- Two cupfuls Dutch Apple Cake.—Two cupfuls of flour, one egg, one scant cupful of sweet milk, one-half teaspoonful of salt, three teaspoonfuls of baking powder, one-fourth of a cupful of butter, two tablespoonfuls of sugar, one-fourth of a teaspoonful of cin-namon, and four sour apples. Mix and sift the dry ingredients, put in the butter, add milk and well-beaten egg Have the dough soft enough egg. Have the dough soft enough to spread easily on a shallow baking pan, making it one-half an inch thick. Cut some apples into eighths, removing skins and cores, and press the sections into the dough in parallel rows. Mix spices with sugar and sprinkle over the rows of apples. Bake in a moderately hot oven for about thirty minutes.

Commencement Pudding - Soak one-half package of gelatine in a gill of water for three hours, then pour over it one-half pint of boiling water. Add one and one-half cupfuls of sugar and allow both sugar and gelatine to become thoroughly diswhite silk gauze gown, for example, which was originally trimmed with narrow rows of pink ribbon velvet, can have its effect transformed very quickly by ripping off the pink velvet bands and trimming the frock with pale yellow. An original way of using the unbeaten whites of eight eggs, the roses on the skirt is to arrange the place the bowl in ice water and beat lower portion with the small roses at until thick. Pour into moulds to To carry out the rose idea, harden and serve with a custard made a few of the flowers should adorn the. as follows: Two-thirds of a cupful corsage. If one does not care to use of sugar in one-half cupful of milk artificial flowers, hand-embroidered silk roses may be substituted. These can be bought by the yard or separ-ately, and should be arranged in the ding, add to them one-third of a cupful of milk. Pour this into the hot milk, beat and boil five minutes in the double boiler.

April, 1907.

SPECKLE'S EGG

A warm egg lies in Speckle's nest, "O cut-cut-cut-cur-darking O!" Deep down into the sweet hay pressed, "O cut-cut-cut-darking!"

Never an egg like this was seen. "O cut-cut-cut-cur-darking O!"

Let meaner pullets split with spleen. "O cut-cut-cut-darking!"

The red cock blows an empty blast. "O cut-cut-cur-darking O!

But Speckle can cackle ten times as fast As he, "O cut-cur-darking!"

Come Muffle, and Creeper, and Crumple Crown,

"O cut-cut-cur-darking O!" And on this wonderful egg look down, "O cut-cut-cut-cur-darking!"

Poor silly Speckle; the housemaid heard Her "Cut-cut-cut-darking O!" And into a pudding the egg was stirred,

"O cut-cut-cut-darking!" -Anna Boynton.

EXPERIMENTS FOR EASTERTIDE.

Anything that has to do with eggs is suited to the Easter time and the following experiments may be interesting to boys and girls.

Take two eggs of the same size, one raw, the other boiled hard. Place around each of them, lengthwise, a stout rubber band so that it firmly grasps the Fasten a piece of string to each egg. egg by means of the rubber band and suspend both eggs from the chandelier by the strings. Twist both strings to the same degree

and then let them go. The eggs will spin around as the string untwines, but suddenly one of the eggs will stop turning, while the other twirls and twirls, still untwining the string. The uncooked egg stops because its con-tents are liquid, and are not fastened to the shell, and it is only the shell of that egg that is set in motion by the untwining string. The friction of the moving mass inside soon stops it.

In the next experiment the same two eggs are to be used. Put two plates before you, and on each one set an egg spinning on its side. The hard-boiled egg will spin easily and stop easily; but the raw egg will be harder to spin, and when it has been set in motion it will not so readily stop. Even if you stop it for a moment, by placing the palm of your hand on it, it will start spinning again when you remove your hand. The reason of this is just the reverse

of the conditions in the first experiment, for the liquid part of the egg is set to spinning, and when you stop the egg, it is only the shell that you stop, the contents continuing to move; and when you let the egg go, the revolving mass inside starts the shell going round again, even if stopped for several seconds.

If you will make a strong brine of salt and water you will find that a fresh egg will float in it. Now try it in pure water, and the egg will sink. Leave the egg at the bottom of the vessel con-

of the shell so that it made a flattened surface. But if he had known this trick, he could have accomplished the feat without cracking the shell, as you may do. to the surprise, perhaps, of all who see you.

The yolk of an egg, you know, is enclosed in a thin membrane that keeps it separate from the white. Now, if you give the egg a sharp shake, and break this membrane, the yolk, which is heavy, will fall to the end when you try to make the egg stand up, and its weight will be sufficient to keep it in that position without any outside aid.

A PARTY PASTIME.

Here is a very funny diversion which will serve to fill in an odd half hour during that party you may be planning to give.

It is founded on an optical illusion and the fact that very few people are aware of anything like the actual height of the crown of an ordinary high hat. So the first thing you do is to ask each person to put his or her index finger on the wall above a table to mark the height that he or she supposes the high hat to be. A long piece of wrapping paper should

e pinned on the wall above the table, thus you will be able to record each person's guess by marking the spot where the finger touches and writing the guesser's name underneath.

You'll find a great diversity in the guesses, as nearly every one will guess from several inches to a foot above the actual height of the crown, which proves the optical illusion concerning the hat; it is invariably overestimated in its height.

THE PUNNY HOBBLE-HOOP BACE.

From the spectator's point of view at least, a hobble-hoop race is one of the funniest sports imaginable.

A regular hoop or a barrel hoop is all that is necessary to be furnished each competitor. The hoop must first be laid flat on the ground and then the racers are invited to step inside it, after which the hoop is lifted to ankle height, and then strapped or tied securely to both ankles which are on the inside.

Now have the racers squat down and place their hands, palm downward, on the ground, but inside the hoop. They should be at the starting point of the course when they are prepared for the race, and the course should be about fifty feet in length.

The idea is that each boy works him self along the ground as best he can, his feet being restricted by the hoop, and his hands, too, as he is not allowed to touch the ground with his hands unless they are within the circumference of the hoop.

The progress of such a race is rather slow, but this drawback is more than compensated for by the funny antics of the bow-legged racers.

797 NOTRE DAME AVENUE, WINNIPEG, MANITOBA.

taining the pure water and get a glass funnel that will reach to the same bottom. Pour the brine through the fun-nel and the pure water and the egg will rise together, floating on the brine. When the vessel is full you will find the egg suspended in the middle, half in brine, half in the upper layer of pure water.

The next trick is with a hard-boiled egg. Shell the egg and have ready a wide-mouthed water bottle, with its neck a little smaller than the egg. Into the bottle throw a piece of burning paper, and after a moment place the egg end down, in the mouth of the bottle. The air in the bottle becomes so rarified that the pressure of the out-

side air on the egg forces it into the bottle.

And now we offer a pretty little trick that needs some "luck" to make it successful. Take two egg cups such as are used to put an egg in when it is eaten from the shell. Place one cup on the table directly in front of you and put the egg in it. The other cup you place just beyond the first.

Now, if you will blow suddenly and sharply on the egg, just where it touch the cup directly in front of you, with luck, as we have said, and the aid of the air under the egg, your breath will lift it over into the other cup.

trick that has puzzled wise men for generations. You have heard how Columbus puzzled his men by saying that

A somewhat varied experience of men has led me, the longer I live, to set the less value on mere cleverness; to attach more and more importance to industry and physical endurance. Indeed, 1 am much disposed to think that endurance is the most valuable quality of all; for industry, as the desire to work hard, does not come to much if a feeble

frame is unable to respond to the desire.

None are so poor as those who do not love people.

Living for one's land is greater, far than dying for it.

Even the hour of adversity only contains sixty seconds.

A poor man does not need to be a poor sort of man.

Change is called loose because it gets away so easily. Faith is a bad thing to lose if you

Woman and the Bome.

Pure Air for Babies.

We noticed not long ago a news item in a paper, concerning a woman who was in the habit of taking the baby out in the yard every day in its baby car-It seems that on even the riage. coldest days she would wrap her baby up, put it in the carriage and suspend the carriage from a tree while she hung out her clothes, or did other work that required her to be out in Some of the neighbors saw this

joing on from day to day, and not nowing that cold air was good for babies, as well as grown people, they took alarm and commenced to stir up matters for fear that the baby would be frozen to death.

After a while a delegation went to see the mother concerning it. The mother very pointedly informed them that the baby was hers and she knew enough to take care of it. The com-mittee retired rather crestfallen.

The next thing they did was to in-form the chief of police. A policeman was detailed to look into the matter. The officer found that the child was dressed warm enough for weather ten degrees below zero, and also found that the baby was a fine, healthy speci-men, bigger and healthier than any of his own. So the officer came back believing that hanging a baby out under

a tree in cold weather is good for it. Poor, deluded humanity! When will they ever get over the fear of fresh air. This mother knows enough to wrap her baby up in the coldest weather and take it out every day. If she kept it indoors all the time, as many mothers do, instead of having a plump, bright, healthy baby, she would have a puny, little, sickly thing to brood over by day and walk the floor with by night.

The fresh outdoor air was made for babies, and we certainly congratulate this mother on having sense enough to take her baby out, even in zero weather.

Watch These Sideslips.

Never use the word "liable" when you mean "likely." Do not say, for instance, that "he is liable to come in at any moment." "Liable" implies misfortune, and means "ex-posed to," "subject to," "in danger

Why do most of us speak of "unravelling a mystery"? Any good dictionary shows that "ravel" dictionary shows that "ravel" means to "unweave." You "ravel" a mystery, therefore, when you solve In "Hamlet," Shakespeare says:

Some people talk as though brains always were given as compensation for an ugly face.

April, 1907.

Wrinkles in the face are not necessarily a sign of deep thoughts in the head. Wrinkles are often only frowns perpetuated. Much beauty is not even skin deep.

Cheerfulness, cheerfulness, cheerfullness, is the only true and permanent beautifier in the world.

A true smile is something born deep down in the heart, which beams from the eyes and the mouth and the whole being by the force of its warmth. It is a breaking forth of inward light. In order to have a beautiful smile, teach the heart; the lips will learn of themselves.

To be beautiful in the eyes of those at home-this is to be beautiful indeed! No woman is a heroine to her mirror.

The Training of Boys.

It has come to this, then, that the home must be the centre in which we are to gather material for a re-invasion of public life with those sweeter courtesies which are so much better than the dancing school elegancies— the courtesies of the heart, which I would like to call manners, if manners were not so commonly without them.

The courtesies of the heart, or heart manners are to a great extent cultivable. They grow up best in the home under the mother's eye. They are not much helped by book training. The rules of etiquette have little to do with them, beyond giving them historical treatment—summing them up with more or less accuracy. They find their soil and finest nourishment in a certain tenderness of heart, which ought to belong to every child born. Like the violet, they will grow best in a dewy glebe, and are watered by tears. Among the dowly and uneducated you find heart manners quite as often as in courts. They feed on the distresses incident to poverty and sickness. Self-helpfulness associating itself readily with helpfulness of others, is their clear and open manifestation

Out of the circumstances of a worn mother, or a father who has been thrown down hard in the struggle of life, of a lame brother or sad-eyed invalid sister, are born the sweetest graces of the home-graces which learn to show themselves in the face, the eye, and every movement of the body. This other self-helpfulness need not pass into absolute altruism, for which the world is hardly yet ripe, but it may with safety pass into a gentle "Make you to ravel all this matter unconscious and guildless habit of selfabnegation, such as makes the face take a share in another's happiness. All grace of external manners may be acquired when these heart manners are established, and no "superior" polish will wear well without them. When George William Curtis, one midnight, going home from a great dinner, put his arm in mine, saying: I am going your way: may I go with you?" I was sure that his manners did not come from Chesterfield. They had the neutral grace of the man who had carried the heart lessons of childhood high on the public ways all his life. those essentials, the courtesy of Emerson was beyond that of any king. He had acquired it in the school of adversity, when he and his brother had but one overcoat between them to help bear the asperities of a Boston winter. With the enxious, hard-working moth-er behind them, it was easy to face HOUSEF SUPERVISED BY

out." If you and your friend Smith know a man called Jones, do not speak to Smith of "our mutual friend "—meaning Jones. Jones is your common friend. If you are friendly to Smith, and Smith is friendly to you, you and Smith are "mutual friends"; but that is the only sense in which the term may rightly be used.

In Front of the Mirror.

It is marvellous how many plain people turn away from their mirrors sclf satisfied. It's a poor sort of woman who is ugly and does not know it.

A woman looks into her own mirror with her own eyes. It reflects her as she sees herself. But the eyes of men reflect her as she is.

To tell a plain woman that beauty counts for nothing is like explaining to a starving family that the lives of the rich are wretched.

She who is beautiful within, is never altogether ugly without.

It may be easier for a plain woman to be good than for a pretty one; but you will not find the plain woman who will believe it.

If a woman proves that she has brains in her head, people soon forget to look for a dimple in her check.

HOUSEHOLD SUGGESTIONS SUPERVISED BY THE CHEF OF THE MARRIAGGI, WINNIPEG

One-half of a pound of figs, cut fine; one-quarter of a pound of stoned dates, four oranges, cut into small slices; one cupful of canned straw-berries, one cupful of canned pine-apple, the juice of one lemon, three or four tablespoonfuls of sugar, and one cupful of sherry.

Orange Pie.

Beat one tablespoonful of butter and Beat one tablespoonful of butter and one cupful of sugar to a neat cream. Then to four eggs well beaten add the butter and sugar, three tablespoonfuls of grated rind and the juice of two oranges. If sweet oranges are used, add two tablespoonfuls of lemon juice; now half a pint of whipped cream. Bake it either with one crust (in a medium-heated oven), and add a mer-ingue and brown very lightly, or make two crusts.

Seed Buns.

Seed Buns. Two pounds of flour, eight ounces of dripping, six ounces of sugar, one ounce of caraway seeds, a teaspoonful and a half of yeast. As these should rise quickly, mix as for other yeast cakes. When risen, roll out very light-ly on a well floured board, cut with a tumbler, and bake in a quick oven. When rather stale, these buns are nice split in half, toasted and buttered, children being especially fond of them.

Scalloped Oysters.

Scalloped Oysters. Roll fine one pound of common crack-ers. Butter a dish and put in a layer of crumbs. Pour off the liquor from the oysters and add to it one and one-half pints of milk. Wet the crumbs with this and put in a layer of oysters and small pieces of butter, a little salt and pepper. Alternate the layers, the top one being crumbs, with more pieces of butter. Beat two eggs and add to them a cupful of milk; pour over the top. Bake, covered with a tin, half an hour in a quick oven. Remove the cover and let them remain until brown-ed.

Hickory Wut Macaroons. One pound of powdered sugar, one pound of chopped hickory nuts, the whites of five unbeaten eggs, half a cupful of flour, one teaspoonful of baking powder. Drop on buttered paper and ry in the oven. These are delic-ious.

International of a pound of diss, or be-quarter of a pound of diss, or exercised solution between the adviced by dyspepties.
Onion Scallop.—Peel the onions and cook in salted water, changing the water two or three times; when tender, drain the water two or three times; when tender, drain the water troow there the same about the same way.
In the same of soda, 4 oz.; cream of thoroughy mix. It should be kept in well-corked bottles, to prevent damp- about three teaspoons to each quart of hour being baked; mix with milk, if you have it—if not, wet up with cold water to half an hour.
Orster Bisque.—Chop a quart of there a hard bottles, is four oranges, so is four oranges, or a pound of diss, envery is the dist of a pound of diss, envery is one cuptul ries, one cuptul

Oyster Bisque.—Chop a quart of oysters fine and put them over the fire with the liquor which has been strained from them, and boil just two minutes after a hard boil is reached; have ready a cupful of rich milk thickened with a tablespoonful of butter rubbed to a paste with a heaping teaspoonful of flour and stir the oysters slowly into this; season to taste and pour gradually, beating steadily, upon the whipped yolks of two eggs. Return to the saucepan for half a minute and serve.

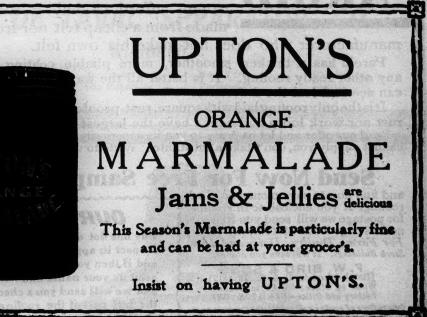

Dutch Pie.—Use two eggs, half a cupful of sugar, a tablespoonful of melted butter, a fourth of a cupful of chopped almonds, the grated rind and juice of half a lemon, an eighth of a teaspoonful of cinnamon, a pint of Dutch or cottage cheese and half a cupful of milk or cream; rub the cheese through a sieve adding to it the cream cuprul of milk or cream; rub the cheese through a sieve, adding to it the cream or milk; beat the eggs and sugar until light, add the melted butter, almonds, lemon. cinnamon and cheese in succes-sion, then cook in a double boiler until thick, stirring constantly; fill into a baked pastry shell.

Pork Cake.—Without milk, butter or eggs. Chop one pound of raw pork very fine, add a half-pint of boiling water, one pound of seeded raisins, one-fourth pound of shredded citron, two cupfuls of sugar and one cupful of molasses, one teaspoonful of soda, dis-solved in a little water; mix these in-gredients together, then add a table-spoonful each of cinnamon, cloves and nutmeg; stir in sifted flour to the con-sistency of common cake mixtures; bake slowly for one hour and forty minutes; test it with a broom splint, and if nothing adheres it is done.

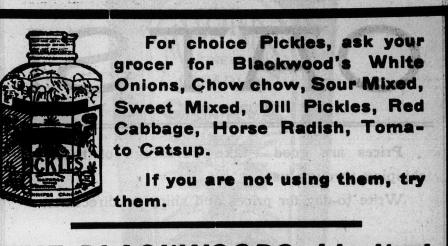

Macaroni and Sausage.—Drain the boiled macaroni and place in an earth-enware baking-dish that can be sent to table, pour over it a cupful of boil-ed milk and set it on the back of the stove; fry fresh sausages, and when they are well browned take them out and arrange them around the edge of the dish over the macaroni, and lay some slices of apple in the fat; when they are fried, take them out and cover the macaroni with them, letting them lap over each other in the mid-dle of the ring of sausages. Eat hot. This makes an excellent dish for the mid-day meal in cold weather.

Boston Baked Beans

Pick one quart of beans free from stones and dirt. Wash and soak in cold water over night. In the morn-ing pour off the water, cover with hot the water over hight. In the hot water, put two pounds of corned beef, with them, and boil until they begin to split open (the time depends upon the age of the beans, but it will be from thirty to sixty minutes). Turn them into the colander, and pour over them two or three quarts of cold water. Put about half of the beans in a deep earth-en pot, tthen put in the beef, and fin-ally the/remainder of the beans. Mix one teaspoonful of mustard and one tablespoonful of molasses with a little water. Pour this over the beans, and then add boiling water to just cover. Bake slowly ten hours. Add a little water occasionally.

Macaroni Croquettes. — Take six ounces of macaroni and boil for twenty-five minutes in salted water, then put into the colander and drain, then into cold water, drain again, cut into one-half inch pieces; put half a pint of milk on to boil, rub two tea-spoonfuls butter into two tablespoon-fuls flour until smooth. stir into the milk until it thickens, add two teaspoon-fuls grated cheese, the macaroni, salt, pepper and yolks of three eggs; cook for a minute longer and turn out on a dish to cool; when cold, form into comb-shaped croquettes, roll in beaten egg, then bread crumbs, and fry in olive oil or butter. The oil costs a little more than butter and less is required in cooking. Serve with cream sauce and tomato salad.

then add boiling water to just cover. Bake slowly ten hours. Add a little water occasionally. **Tankee Brown Bread** For each good-sized loaf being made, take 1½pts. corn meal and pour boiling water upon it, to scald it properly; let stand until only blood warm; then put about 1 qt. of rye flour upon the meal, and pour in a good bowl of emptyings, with a little saleratus dissolved in a sill of water, kneading in more flour to make the consistence of common bread. If, you raise it with yeast, put a little salt in the meal, but if you raise it with salt-risings, or emptyings, which I prefer, no more salt is needed. Form into loaves, and let them set an hour and a half or until light—in a cool place, in summer, and on the hearth or under the stover in winter; then bake about two hours. Make the dough fully as stiff as for white bread, or a little harder; for if made too soft, it does not rise good. The old style was to use oily one-third rye flour, but it does not

Get Ready for Spring KO

When you build, you want the roofing that will give you the best service-that will last so long that its cost per year is less than any other.

Paroid has proved in actual use on farm and dairy buildings, on factory and railway buildings, on government buildings at home and abroad, to cost less per year than any other roofing.

There are good reasons for it:

It is better made and is made of better materials. Its basis is a better, tougher, more durable felt-

About the Farm.

Farm Memories.

One morning I was awakened with a strange new joy in my mind. It came to me at that moment with indescribable poignancy, the thought of walking bare-foot in cool fresh plow furrows, as I had once done when a boy. So vividly the mem-ory came to me—the high, airy world, as it was at that moment, and the boy I was, walking free in the fur-rows—that the weak tears filled my eyes, the first that I had shed in many years. Then I thought of sitting in quiet thickets in old fence corners, the wood behind me rising still, cool, mysterious, and the fields in front stretching away in illimitable pleas-antness. I thought of the good smell of cows at milking. You do not know if you do not know! I thought of the sights and sounds, the heat and the sweat of the hay-fields. I thought of a certain brook I knew when a boy that flowed among alders and wild parsnips, where I waled with a three-foot rod for trout. I thought of all these things as a man thinks of his first love. Oh, I craved the soil! I hungered and thirsted for the earth. I was greedy for growing things .- The City Man.

Poultry Pointers.

If your hens do not want to sit early, you will find an incubator almost a necessity. A good machine is not difficult to operate successfully. Milk is an excellent food and may be fed whole or skim, sweet or sour. It will not, however, take the place of water as drink and the latter must be furnished also.

To produce plenty of eggs a hen must have food which contains con-siderable protein. This is easily furnished by feeding beef scraps, which can be purchased from any dealer in poultry keepers' supplies for a reason-able price. This may make up ten per cent. of the mash, or may be fed in hoppers constantly before the fowls.

As the cold weather continues, there is more and more need of compelling the birds to exercise vigor-ously, of furnishing plenty of fresh air to breathe and of feeding the right kinds of food. A fowl is naturally active and to confine it in a hen house with but little chance to exercise is not only hard on the fowl, but cuts down its productiveness and in that way spoils the profits for its owner.

To give a hen more eggs than she should cover in winter is to invite poor hatches. One breeder refuses

unless you knew she was paying for her board. There is just one way to find out and that is by testing it with the Babcock test. Then you abso-lutely know. It is only guess work to go by the color or the quantity of the cream.

April, 1907.

It is the little things we forget to do that cause us worlds of inconvenience. Instead of sitting on a rickety old box or crouching down until your limbs ache, why not take the time to build a simple milk stool?

Then have a place where it can be hung up when not in use. Ask your husband if he doesn't think it would pay to feed the cow some grain. He never hesitates to give the horses their full 'ation, whether they are working or not. He sometimes can't see the profit in sometimes can't see the proof in giving the cow her share, although she is working hard all the time in turning her food supply no milk. If the cows are failing in milk sup-, 7, buy a little bran or a few roots. Such feed will help out wonderfully in maintaining the milk flow and the

in maintaining the milk flow and the cow that goes dry at this time of the year will not make up for the deficiency until grass comes and probably not even then. Try to make the cow give a little more each day rather than a little less.

Winter dairying is the profitable kind of dairying. There is a vast difference between selling butter for 30c. a pound in the winter and selling the same butter for 10c. a pound in the summer. By paying a little at-tention to supplying the proper kind of winter foods and arranging to have the cows freshen in the fall, it is just as easy to sell butter for the high price as it is to sell it for the low price

Do not feed hay or fodder which is likely to be dusty either before or during the time of milking. It causes too much dust in the barn, which in turn causes unsanitary milk, to say nothing of the dirt. Each speck of dust is usually made the dwelling place for some kind of a germ. If you have gotten the cows into the habit of eating during the milking time to make them more gentle and contented, feed corn or oats and then feed your hay either at night and during the time when the cows are

Dairy Business Not Overdone.

more at leisure.

The profits of the dairy business are inducing more and more people every year to go into this occupation. is also increasing amount. The question often arises as to whether the profits of the business will be minimized in years to come. There are several reasons why the dairy business will always continue to be a profitable business. In the first place, education has enabled the butter-makers of the country to make a very superior grade of butter, and it is a well known fact that when we increase the quality of butter, we also increase consumption. If the farmer's wife does not believe this let her try the experiment of putting rank butter on the table, noting the time it will last, and then following the same program with sweet, clean butter. One drawback in making good bread and good butter is that it doesn't last long. It is certainly true that when we increase the quality of our butter we also increase a greater demand for In the second place, the dairy business is not likely to be overdone for the reason that city people are finding out that good milk and cream are really cheap to buy for table use. If there is one thing more than another that makes the city woman long for the privilege of living in the country, it is that she might have all the milk and cream she desires. Therefore,

April, 1907.

The third and princip the dairy business wil done is because people milk cows and will n longer than necessary the history in all new when mortgages were times are hard, the chi the steady income of the ally placed upon the When the mortgages a the farmer gets in a independent he conclu too short to milk cow and accordingly he b cattle, sheep and hogs a easiest way possible. these facts, we therefo clude that the dairy b

to sell more than ten eggs for a sitting. He says his customers hatch more from ten eggs in winter than they would hatch from fifteen eggs equally fertile. With ten or eleven eggs a large hen is reasonably sure of covering them all; with fifteen eggs one or more is usually out cooling. The result is that all are chilled more or less and the hatch spoiled.

Dairy Notes.

Use a damp cloth to wipe off the udder of the cow before milking if you don't want dirt and dust in the milk

Give away the dog that pesters and drives the cows. He may be a nice pet, but he costs in decreased milk supply.

One of the best times to observe the golden rule is when you are preparing butter to send to town or milk to send to the creamery. Do not send stuff which you would not care to put on your own table.

The cow is more or less of a factory for the production of milk, and she will make returns approximately as she has food material to work on, that is, the right kind of a milk cow a cow to keep for dairy purposes. The city housewife is getting into the habit of buying more and more cream, milk and butter all the time. will do this and that is the only kind

one.

The third and principal reason why the dairy business will not be overdone is because people do not like to milk cows and will not do so any longer than necessary. It has been the history in all new countries that when mortgages were abundant and times are hard, the chief reliance for the steady income of the farm is usually placed upon the dairy cow. When the mortgages are paid off and the farmer gets in a position to be independent he concludes that life is too short to milk cows for a living and accordingly he begins to feed cattle, sheep and hogs and lives in the easiest way possible. Considering all these facts, we therefore cannot conclude that the dairy business will be overdone.

One of the best maxims that was ever given is that which tells us "If we want to make dairying a success, treat the cow as we would treat a lady.

Gentle, contented cows are the ones that give profitable returns of milk.

Agricultural College Education.

There is a future for the boy who is being educated at an agricultural college. More and more the need of scientific farming is becoming felthow to get the most from the soil. and how to best utilize the soil's products, are all-important questions that are being answered by the experiments and work now being conducted at the experimental stations and agricultural schools.

Graduates from the various departments of the agricultural colleges now in existence are needed as instructors in the new stations and schools which are being established so rapidly that the demand is far greater than the supply.

Let the boy follow his bent for studying horticulture, formation of soils and crop growing, animal industry, breeding and feeding, dairying, forestry, veterinary science, etc., etc. A place will be awaiting him when he has finished a thorough training along any line.

The Dominion and Provincial de-partments want dairy and food inspectors, chemists, entomologists, state and district veterinarians, beside the demand for instructors in the agricultural schools and experiment stations.

And to the boy who loves out-ofdoor life there can be no more fascinating occupation than to work hand in hand with nature and learn ways, times of growth and the creative forces and how to help forward her work.

The field may not be equally as wide for girls, but capable instructors in sewing and cooking find situations everywhere, not only in the agricul-tural schools, but in private and

contest.

and at which it made its initial reputation, says a writer in the Technical World. Steam engines had proven too heavy for the soft land being plowed and here the agriculturist expected to mire the internal combustion motor, but he signally failed. For a plowing test among horses, steam power and the gasoline motor, two and three-quarter acres of heavy clay soil were selected. It was a condition that the furrows were to be nine inches wide and six inches deep. In doing the work, nine horses, three to a plow, with three drivers and three boys, did the work at a total cost of \$8.25, or at the rate of \$3.68 an acre. By steam power the total cost of plowing the same area cost totalled \$4.44, or at \$1.97 an For plowing purposes a threeacre. furrowed plow is invariably used ex-cept in heavy clay soils where a couple of furrows prove sufficient.

How to Prune Trees.

We must prune young fruit trees before they are planted, cutting the top severely to produce a balance between the top and the root, the latter having been greatly reduced in digng the tree from the nursery, says Suburban Life. We must cut out at this time any branches not needed for the formation of the head, and we may pare the ends of the roots smoothly that were roughly cut with a spade in digging. We must watch the young tree during the growing season and stop the growth of any shoots out-growing their neighbors and rub off any shoots not desired as soon as they are discovered. We must prune out here and there, as the tree grows older, such shoots as are being smothered by branches above them or that are being injured by others rubbing against them and aim to give the tree a symmetrical low-headed form. When the lower branches become weak we must increase their vigor by cutting out branches from the top, thus forcing growth into them, and never, if it can Good-by to Dobbin, the faithful be avoided, cut a large branch from and sturdy old farm horse. No longthe main trunk. er will "the plowman homeward plod his weary way." Instead he will simply turn on the second speed of

public schools also, and horticulture and other lines of agriculture for which they may have a taste will furnish them as suitable an employment or situations as instructors as their brothers.

If possible, help the boys and girls to a year in the nearest state agricultural school, and if they are at all ambitious and sufficiently energetic to make a success of anything they will work for the means necessary to go on and fit themselves either for instructors or scientific, up-to-date farmers, than which there is no more enjoyable occupation, when pursued from the love of it.

took leave, "The Lord be with you." "And with thy spirit," is reported to have been the rejoinder.

On one occasion the Dean of Wells in introducing A. E. Freeman, whom he could abide neither as man nor historian, said: "I rise with great pleasure to propose the health of our eminent neighbor, Mr. Freeman, the historian, a man who-in his own personal characteristics-has so often depicted for us the savage character of our first forefathers."

A London newsboy, who is accus-tomed to shout "Extras" every evening, recently had a very bad cold and became hoarse. Feeling himself at a disadvantage, he carried a large card in front of him, on which he had roughly written: "Hush! Noise is a nuisance! I can't shout my extras, but I have them all the same!" It did not take the boy long to sell out his stock of papers to the grateful passers-by.

While a temporary sojourner in the United States, Wong Kai Kah was asked a question regarding the anti-quity of his family. "Oh," he said, with naive modesty and yet with a merry twinkle in his eye. "my family is new in China; indeed, we have nothing to boast of as to long establishment in that country, for we have been there only 2,500 years, having come from a place to the south and cast of the Caspian Sea."

"In South America," said the returned traveller, "there is a peculiar species of fish which is provided with a set of embryo limbs on which it is at times able to hop across the fields and even to climb trees. I believe that this is the only instance known of fishes that can travel overland." "Oh, I don't know," commented the other "Right here in the United man. States I have known fish that travelled thousands of miles overland." "You don't say! May I ask what sort of fish they are?" "Canned salmon."

"Once, in Banbury," said a wellkuown American oyster grower, I dined with an English farmer. We had ham for dinner, a very delicious ham, baked. The farmer's son soon finished his portion and passed his plate again. 'More 'am, father,' he said. The father frowned. 'Don't say 'am, son,' he said, 'say 'am!' 'I did say 'am,' the lad protested, in an injured tone. 'You said 'am!' cried the father fiercely. 'Am's what it should be. 'Am, not 'am!' In the midst of the squabble the farmer's wife turned to me, with a little deprecatory laugh and said, 'They both think they're saying 'am!'

"Why Tommy, you didn't pass in your spelling test.'

I will guarantee it for TEN years and give you THREE years to pay for the "PEERLESS" INCUBATOR

Page 13 of my FREE Book tells why the air is always clean inside this one incubator--and why that matters to you

Ask me how

Guaranteed

for ten years.

Most Incubator-men talk loud about steady Heat and little about Clean Air. I can afford to talk both, and Because:more besides.

The Peerless is the incubator that hatches with clean air,-the incubator that has real ventilation. Now the quality of air an incubator-chicken gets before it's hatched is far more important than the quantity of food it gets after it hatches.

And many a poultry-for-profit venture has gone to smash by the carbon-dioxide route-bad incubator-air. Carbon-dioxide is a deadly gas every egg gives off asithatches.

Open the ordinary incubators' door and sniff,--that sulfurous, musty choking smell is carbondioxide; and it is poison to animal life.

There is no smell in a Peerless-the poison is continually flushed out of the Peerless hatching chamber. Remember that for almost 500 hours the chick breathes what air seeps through the porous shell. If that air is

poison loaded, as it is in badly-ventilated ordinary incubators; that chick is stunted, its vitality impaired, its vigor weakened.

It never can thrive as Peerless-hatched chicks, that breathe pure, clean air, do thrive.

Remember, too, that this is only one of fifteen plain reasons why the Peerless incubator not only hatches every chick that can be hatched, but gives those chicks the right start.

Every one of the fifteen reasons means the difference between money made and money lost in poultry-raising.

Send for my Offer-Get the Free Book-Do it Now

an expert. Sending for the book doesn't commit you to buying the incubator. All we ask you to do is read the book. I won't importune you nor bother you.

Suppose you send me your address-use a postcard if you like-and let me send you the free

book that tells some things you need to know,

whether you are a beginner in poultry-raising or

Just send for the book and read it-that's all. If you will do that right now, I will tell you, also, how you can make the Peerless earn its whole cost long before you pay one cent for it.

Whether you have ever thought about raising poultry or not,-whether

you know all about in-Get this without paying a cent cubators or you don't, I will show you why it will pay you,—pay you, per-sonally,—to know what the Peerless is and what it could do for you if you wanted it to. Simply your name and address fetches what will

tell you that,—and no obligation on your part. The obligation will be mine to you, if you'll just write now.

In this Free Book I show you how to start in the poultry business without spending a cent for the important part of your outfit. I will make you a partnership proposition that puts the risk mostly on me and leaves the profit wholly for you.

I will tell you how to get the incubators and brooders you need without paying for them till they have paid for themselves twice over. I will show you why that beats all the free trial offers you ever heard, and why my way is the only sensible way for you to start raising poultry for profit.

To save time and freight Western Orders will be shipped from our Winnipeg Warehouse; but all letters ought to be sent to The LEE-HODGINS COMPANY, Limited

"Why not, will you tell me?" "Well, you see, pa, I hesitated between the new and the old style because I couldn't make up my mind whether to side with Congress or to stick to the President. Then I got confused and mixed up both styles."

When it was proposed at one time, to allow a man to qualify for his doctor's degree, at Oxford, by merely writing two essays, Mansel, the celebrated metaphysician, scribbled down and handed to his fellow councillors this doggerel:

"The degree of D.D. 'Tis proposed to convey To an A double S By a double S. A. (essay.)"

What ship has two mates and no captain? Courtship.

Time tries all things, and as/ Bickle's Anti-Consumptive Syrup has stood the test of years, it now ranks as a deading specific in the treatment of all ailments of the throat and lungs. It will soften and subdue the most stubborn cough by relieving the irritation, and restore the affected organs to healthy conditions. Use will show its value. Try it and be convinced of its efficacy.

the stream to meet the six fishing boats, thankful that there was no moon to spoil sport. After waiting for some time in the shadow of a cliff, while the boatmen beguiled the time by smoking their funny little doll's pipes (kiseru), we saw lights in the far distance, and soon the boats were abreast of us, and we dr.fted down the river with them to watch this strange method of catching fish, which has existed for some twelve

April, 1907.

hundred years or longer. Each cor-m nt (u-kai) wears at the base of its neck a metal ring, left loose enough to enable the bird to make its supper of the small unsaleable fish that it swallows, but too tight to al-low the larger fish to pass below. A blazing torch is projected from the forepart of the boat to attract the fish, and then the master boatman lowers his team of twelve trained birds into the water, holding each bird separately by a string. The un-gainly birds immediately set to work con amore, darting hither and thither excitedly in search of prey, and on this occasion they caught so many fish that we feared some of them would choke outright! But when the master boatman saw that one was gorged, he skillfully shortened that particular line of string, lifted the bird on board, squeezed out the fish, and before we realized what he had done, the bird was again at work in

Strange Gods Still Worshipped.

the water.

Nearly every man and woman of today read, years ago, in the school books, of the Hindoo mother who committed her child to the bosom of the Ganges river, hoping, should it sur-vive a journey on the holy waters; that it would be purified for the career to come. That was a true story. The Hindoo mother is doing the same to-

With these superstitious people such a practice means sacrifice, for the river is infested with crocodiles, and the chances of an infant escaping their hideous jaws are slim.

For centuries the Ganges has played an important part in Hindoo mythology and religion. In the religion of all classes of Hin-

doos-the classes in that land are almost as the sands of the seashore for number-the Ganges is held in particular veneration as the cleanser of sins and, finally, the gateway to Paradise. When death reaches one upon its banks burial is made there.

Almost from the source of the Ganges to its mouth temples and shrines line the banks; the junctions of the river's various affluents are especially sanctified spots. That of the Jumna, at Allahabad, is

Making Precious Stones.

While the artificial diamonds so far produced have been very expensive, and are too small to have any commercial value, the manufacture of rubies seems to be developing into a considerable industry. The process of making these "Geneva rubies," as they are called, has been supposed to be a secret one, but it is understood that the apparatus used by a Parisian chemist includes a blowpipe like that used by glassworkers and a heating pipe. In the latter a pointed sugar loaf is built up in strata by alternately sifting in finely pulverized alumina and chromium oxide. This makes possible gradual heating, the molten mass takes a spherical form, and on slow and careful cooling the oxide of aluminium forms regular and perfectly clear crystals. Great care is necessary to avoid bubbles. In this simple way it is possible to make three or four stones at a time, often a quarter of an inch across and weighing thirteen to sixteen carats, and as they are genuine rubies only experts can distinguish them from the natural.

Queer Things Made from Milk.

It is probably not generally known that from a substance called galalith, made of milk, there are manufactured many articles that are commonly sup⁴ posed to be of ivory.

Milk stone, or galalith, or petrified milk, is milk subjected to a chemical process, by means of which the casein is converted into a yellowish brown powder.

This powder is mixed with formaline and a horn-like product is formed, called milk stone.

By mixing with various other substances there are made substitutes for many other useful materials--ivory, celluloid, hard rubber and even amber. There is no limit to the number of useful articles which can be made from this wonderful substance called galalith, and they include almost everything, from cigarette holders to mantelpieces. Piano keys are now seldom made of real ivory, except in the case of the more expensive instruments. This is rather remarkable when one remembers that from a single elephant's tusk, no fewer than ninety-six sets of keys have been cut. However, galalith is now the best substitute for ivory that we have, for it is smooth to the touch, retains an excellent color, and, unlike celluloid, is proof against fire.

Coals to Newcastle.

A benevolent old gentleman brimful of information, saw a plainly dressed looking man leaning against a fence gazing earnestly at the telegraph wires. Going up to the countryman, he said: wating to see a message go long eh?" The man grinned and said "Ay." The benevolent old gentleman devoted the next quarter of an hour to an attempt to dispel his ignorance. "Now," he said at last, "as you know something about the matter, I hope you will spread the knowledge among your mates on the farm." "But I don't work on a farm," replied the rural citizen. "Where, then, may I ask?" "Me and my mates are telegraph linesmen, and we are testing a new wire."-Exchange.
