

PRESIDENT WILSON WILL DELIVER SPECIAL MESSAGE TO CONGRESS -- MEXICAN SITUATION IS CRITICAL

WASHINGTON, Aug. 26.—Eleventh hour development in the Mexican situation postponed delivery of President Wilson's special message to Congress until Wednesday, and indicated that the Huerta government after all might withdraw or modify its rejection of the proposals of the United States.

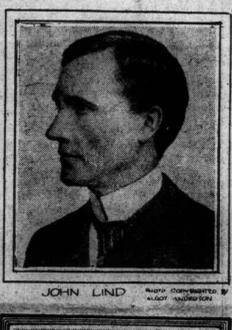

United States withdraw from the basic principles of its position paramount among which is a consistent refusal to recognize Huerta. Official announcement was made of the original proposals by the United States presented to Huerta by Mr. Lind. They were: 1. Cessation of hostilities and a definite armistice.

Preparations at the capital hurriedly made for a joint session of the House and Senate were called off. President Wilson's message, a document of about 4,000 words, was locked up in the White House vaults awaiting the next developments. It is generally understood that the message is very kind in tone towards Huerta.

THAW BATTLE WILL BE REMARKABLE ONE

Jerome Expects That it Will Be One Beautiful Fight--Not Many Developments in Famous Case Reported To-Day--Thaw is Anxious.

JEROME SICK TO DEATH OF HARRY THAW

SHERBROOKE, Que., Aug. 26.—A cold, drizzling rain fell this forenoon and crowds gathered in the hotel corridors. Jerome explained his desire not to say much about the Thaw case by emphasizing his anxiety to Thaw and everything pertaining to him.

"We hope to get him back to Matteawan where he belongs, but it looks like we are all in for a siege." Mr. Conger had nothing to say. Chief counsel for the New York forces, Samuel Jacobs, is in Montreal. He would, as a Canadian lawyer, be perhaps least gratified to speak on the so-called international phase of the case to say whether there is really probability of such developments, or whether, as one lawyer exclaimed, it is "tommy rot."

SELLS-FLOTO GETS IN THIS MORNING

Parade Was Well Worth Seeing and Evidences a Good Show.

To-day is a gala day for the small boy. He has been anxiously awaiting the arrival of the circus ever since the pictures of the bareback riders and fe-ro-cious wild untamable animals were placed on the bill boards.

Hawker, in the second attempt to win the Daily Mail prize of £2,500 for the 1600-mile circuit of Great Britain, in an all-British water-plane, within 72 hours.

SEVEN THOUSAND FARM HANDS RUSHED TO WINNIPEG WHEAT FIELDS—SUNSHINE MEANS BUMPER CROP.

WINNIPEG, Aug. 26.—Comparative calm once more reigns in the shed for the distribution and clearing of the Eastern harvest on Maple Street. The 7,000 men who came West with the great week-end influx have been sent to their destination on the farms of the three provinces, and the demand for help is not at present insistent.

At least 160 men, and that number will be augmented each day, will be placed on their preliminary hearings on charges of rioting and assault in the Nanaimo and Ladysmith courts.

GAMBOA DYKE AT PANAMA STILL THERE

It Was to Have Been Bdown Yesterday—Reasons for Delay.

PANAMA, Aug. 26.—Contrary to expectations, the blowing up of the Gamboa dyke, which would remove the last obstruction to the navigation of the Panama canal by light draught vessels was not carried out yesterday. The destruction of the dyke has now been set for September 1st.

Beautiful Row Among Foreigners Last Night

And Magistrate Livingston Had a Fine Tangle to Unravel—Another Case of Girl Chasing on Local Streets.

As a result of a free-for-all fight which took place among a party of Hungarians late last night on Main street, Jos. Kosick and Michael Biskin received blows which rendered them unconscious for some time and today they showed marks which testify in no uncertain manner to the brief but decidedly interesting struggle which for a time threw the entire district into a high state of excitement.

Two Dragoons Held Suspected of Arson

No Charge Laid, and They Have No Legal Aid, But Are "Sweated."

KINGSTON, Aug. 26.—Two R. C. D. men of Toronto, are being detained in Tete de Pont barracks here on suspicion of being implicated in the firing of the Royal Military College riding school building here several months ago. One of the two is a deserter who was caught by Toronto detectives and brought here. The other Dragoon, attached to the R.H. C., was placed under arrest the other day.

16,000 HARVESTERS HAVE GONE WEST

WINNIPEG, Aug. 26.—A more day of ideal harvesting weather has passed, and farmers in every part of the whole West are making the most of every minute of daylight. Even the latest districts are reporting a start on wheat cutting, while in many of the earlier districts cutting will be finished by the end of the week.

Nanking Has Fallen

LONDON, Aug. 26.—An Exchange Telegraph Company despatch from Shanghai, announces that Nanking has fallen, depriving the rebels of their last stronghold.

Other witnesses gave testimony regarding the scrap, and told of flying rocks, broken heads, etc. Magistrate Livingston in summing up the evidence stated that in his opinion the blame was equally divided.

**Paris News**

(From our own correspondent).

PARIS, Aug. 26.—A very sad death occurred on Friday morning in Paris when Geo. H. Brown passed away after a three-days' illness from typhoid fever. He was only thirty years of age and prior to the sudden illness which carried him away had scarcely ever been ill a day. He was married a few years ago to Miss Mary Cunningham who will receive the heartfelt sympathy of the community in the loss she has sustained. The body was taken to his father's residence, 56 Forbes street, Galt from whence the funeral was held on Sunday afternoon to Mount View cemetery.

John McDowell, the young man convicted of the theft of a horse from Mr. Roy Maus, appeared for sentence on Friday and was given one year and ten months in Central prison. An effort will be made to have his sentence served on the prison farm.

A local young man who has hitherto borne an extra good character, was given a term of twelve months for the theft of hosiery from Penman's No. 1 mill, where he was employed. A number of his friends who think the sentence severe for a first offender, will make an effort to secure a lighter term for him, more especially as he has a young wife depending on him.

The Penman company has suffered very severely from petty theft among the employees and it was thought an example should be made of the first offender who was caught and this young man chanced to be the unlucky one.

The Flower Show held Friday and Saturday by the Paris Horticultural society far surpassed their most sanguine expectations both in point of entries and in attendance. Notable among the exhibits were splendid showings of gladioli by Mr. A. G. H. McCormick and Mr. C. B. Robinson. Also glloxianias by Mrs. Willett. The prize list will appear later.

Both the International Harvester Co. and the Sacred Heart Club were victors in the town baseball league on Saturday over No. 7 Mill and the Screen works respectively. This leaves the H.I.C. and the S.H.C. a tie for the championship with five games won and one lost to the credit of each, and an extra game will be played on Saturday, Sept. 6th to decide the supremacy.

PARIS, Aug. 26.—The regular monthly meeting of the town council was held last night with all members present but Ald. Layton.

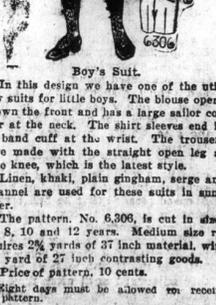

A communication was received from Miss Capron, asking that Laurier street be opened to give access to the Capron farm. Referred to streets and sidewalks committee.

A petition was received from A. W. Russell, and other residents of the South Ward, complaining of the lack of fire fighting appliances in that part of the town. They asked for a reel house and reel and two fire alarm boxes. Referred to fire committee to report at the next meeting of the council.

The much discussed drainage of Catharine St. again came up. There are twelve new houses and houses in course of erection on this street, and the residents ask that a drain be laid at a depth sufficient to drain the cellars. They agreed to pay 40 per cent. The question was discussed at length with Ald. Evans championing the Catharine street property owners, and the council finally passed the motion that they pay 60 per cent and the ratepayers 40 per cent.

A real crisis has been reached in the Mexico situation.

Coughlin, charged with stealing Prince Edward Island foxes, was released in Portland, Maine.

**Boy's Suit.**

In this design we have one of the utility suits for little boys. The blouse opens down the front and has a large sailor collar at the neck. The shirt sleeves end in a hand cuff at the wrist. The trousers are made with the straight open leg at the knee, which is the latest style.

Linon, khaki, plain gingham, serge and flannel are used for these suits in summer.

The pattern, No. 8,206, is cut in sizes 8, 8, 10 and 12 years. Medium size requires 2 1/2 yards of 37 inch material, with 1/2 yard of 27 inch contrasting goods.

Price of pattern, 10 cents.

Right tags must be allowed on receipt of pattern.

This was the cause of the purchase.

**BACK FROM THE WILD.**

The Canadian Press Women, who journeyed to the end of the track with the Grand Trunk Pacific in June last, have demonstrated the fact that women can see and feel and live to tell about it afterward. The clippings from the newspapers—represented by these pilgrims reveal flashes of real genius; for instance, "Nan Moulton writes—

"The eyes that came back to Edmonton one morning last June were full eyes, eyes full of dreams come true, eyes big with the bigness of mountains, eyes alight with the sun on waters, aware of evening spirits in the mist and a soul of opalescence that in the sweet long twilight softened and glorified the jade-green day loveliness of lake-jewels set in naked grey rings of rock.

MARKET REPORTS

CHICAGO, Aug. 25.—Influential buying in the final hour turned a weak corn market into a strong one today, prices at the close showing a net advance of 1/4c to 1/2c. Wheat finished a shade to 1/4c higher, oats unchanged to 1/4c up, and provisions irregular. Rice lower to 1/4c higher. The uplift in corn came on reports of scarcity in various sections. Buffalo said hardly a car of spot corn was for sale there. Kansas points were said to be out of corn and using wheat for feed. Tennessee farmers reported that for the first time in the state's history, except after floods, the bottom lands have failed to make a corn crop. From Nebraska came reports of an expert that in the last three weeks the crop there had gone back 24 per cent., and that no relief was in sight.

A MESSAGE FOR  
THOSE WHO SUFFER

Mrs. E. J. Talbot Tells Them to Find a Cure in Dodd's Kidney Pills. She Had Rheumatism, Lumbago and Neuralgia and Found the Remedy She Was Looking for in Dodd's Kidney Pills.

HAMILTON, Ont., Aug. 25.—Special—"I know there are a lot of people who suffer and do not know what will cure them. Dodd's Kidney Pills will."

These are the words of Mrs. E. J. Talbot who resides at 29 Wellington street north this city. And Mrs. Talbot speaks out of her own experience. "Last July I was very sick," Mrs. Talbot continues. "My heart bothered me, my limbs were heavy, and I had a dragging sensation across the loins, Rheumatism, lumbago and neuralgia added to my sufferings and the doctor I called in did not help me much."

"I finally decided to try Dodd's Kidney Pills. I have used seven boxes and I am so much stronger and better that I feel I must recommend them to others."

Mrs. Talbot's complication of troubles all came from sick kidneys. That's why Dodd's Kidney Pills cured them. For Dodd's Kidney Pills are no cure-all. They simply cure kidney disease of any kind. They never wait to do that.

Stock of New York Road Goes All to Pieces Again To-day

NEW YORK, Aug. 26.—Stock of the New York New Haven & Hartford railroad, which has experienced a decline within the last year that has made history in Wall street, broke badly again to-day. It fell over four points to 92 1/2, once more establishing a low record price. Subsequently it rallied to 94 1/2.

The stock in former years sold as high as 279, and its pronounced weakness within recent months foreshadowed the reduction which was made in the dividend rate from 8 to 6 per cent. annually. Weakness of the stock to-day was due to estimates of the earnings for the last fiscal year, based on such figures as have appeared.

These figures indicated that the New Haven failed to earn the dividends of 7 1/2 per cent paid in the last fiscal year, having operated at a deficit of more than \$4,000,000.

AS TO THE CLOSURE.

Grit papers and Grit speakers seek to make the claim that by the introduction of the closure in the Dominion House, the Borden Government sought to stifle free speech and free discussion.

Anybody aware of the facts knows that such statements are absolutely untrue. The Borden measure—as in the British House—stops wordy warfare when any matter has been thoroughly discussed.

Sir Wilfrid Laurier when speaking at St. Hyacinthe, bitterly denounced the procedure, whereas Hon. Sydney Fisher, speaking for him prior to the last election, distinctly stated that if returned, Sir Wilfrid would introduce closure and Hon. Mr. Lemieux then Postmaster General of a Liberal cabinet, when speaking at the same St. Hyacinthe during the contest prior to the 1911 fight, made this strong statement (Aug. 13th).

"In the regular order of things the present parliament should not have been dissolved until 1913. The liberty of speech is one of our most prized bequests, but the abuse of it is a vice and should be extirpated from our political life and when returned to power Sir Wilfrid Laurier will introduce a law providing for the exercise of closure in parliamentary debates."

That the Liberals actually had gone so far as to prepare a bill was shown by Hon. Robert Rogers, Minister of Public Works in addressing a big Conservative meeting at Vancouver last Saturday. Mr. Rogers produced a copy of a closure bill which had been prepared by Sir Allan Aylesworth.

The Conservative closure safeguards the right of free speech while preventing abuse of the power of obstruction. The proposed Liberal measure was a quillotine of the worst description being even more arbitrary than that now in use in the British parliament. The Laurier-Aylesworth measure required no notice of closure and gave power for any member to demand closure and if thirty-six of those present voted in favor debate would be at once strangled.

TRUE CITIZENSHIP.

Premier Borden yesterday opened the Toronto Exhibition, and in so doing he made a speech of characteristic breadth and power.

The event was, of course, entirely non-partisan, and in the address presented to him there was this paragraph, to which all Canadians, whether Liberal or Conservative, will heartily subscribe:

"To this great gathering we bid you three welcome: "Welcome as the chosen Chief of this great commonwealth of freedom. Welcome as a splendid type of our best Canadian citizenship. And welcome yet again as a man whose single aim is for the highest development of his native country as an integral part of the British Empire, and who deservedly holds the sincere regard of every true Canadian."

Mr. Borden, after expressing hearty congratulations upon the fact that from a small commencement the exhibition had reached national importance, said in part:

"It was from like small beginnings that our country has gradually attained its present position as the greatest self-governing Dominion of this vast Empire. The same courage and foresight, the like faith and confident belief in the resources and possibilities of Canada inspired those who laid our national foundations nearly half a century ago. We rejoice that their faith was justified and their exertions crowned by the realization of all and more than all that they had hoped and foretold in days when doubt sometimes overshadowed faith."

"In a country so vast as Canada, endowed so bountifully with varied natural resources and enjoying so remarkable and exceptional a development as that with which we are blessed, it is difficult to realize the progress, the extent and varied character of that development without some such object lesson as is here afforded. It is of the highest consequence that every Canadian should possess a true conception and a just appreciation of his country and its possibilities. In that respect this great Exposition performs a most valuable educational work, which is indeed of national importance."

"You have referred in very generous terms, which from the bottom of my heart I most sincerely appreciate, to my share in the public life of Canada. Many of my best years have been given to the service of my country, and while the duties and responsibilities which devolve upon those charged from time to time with the administration of public affairs are, perhaps more onerous than is generally realized, I esteem it the duty of every man to undertake that share in the representative government of his country to which he may be called by the voice of his countrymen. On an

occasion such as this, as you have so eloquently said, there is no consideration of party, of race or of creed. United by the ties of our common citizenship, justly proud of our liberties and of the institutions by which they are secured, rejoicing in the splendor of our common inheritance, and looking forward with the highest confidence to an ever more wonderful progress and development, let us not fail to realize the responsibilities imposed by the vastness of the heritage which it has pleased Providence to entrust to the Canadian people."

"In remembering these responsibilities we should ever be mindful that we are citizens not only of this great Dominion, but of a still greater Empire, and that those from whose loins we have sprung made un stinted hardships and wrought mighty deeds in the years gone by to the end that Canada might remain a part of the British Empire, and that the flag which we delight to honor might continue to float over this fair land. The memories which are thus recalled, the traditions which have thus descended to us, keep us ever mindful of our obligations, and we are called upon to consider and to estimate the duties and obligations of our citizenship."

NOTES AND COMMENTS

Pretty soon now we'll all be paying for the kind of heat we've been kicking about.

The fall fairs are near at hand, with all those thrilling episodes afforded by the rotund watermelon and the frolicsome squash.

Mrs. Pankhurst has issued an appeal to militant suffragettes, in which she asks them to take "a rest." Well, haven't they been getting enough of that already?

The proprietor of the circus which is in the city to-day owns two large papers in the United States. Perhaps that accounts for the fact that the women of the outfit presented such excellent forms.

It is estimated that the wheat cutting now in progress in the Northwest represents to the farmers there \$14,000,000 per day. That is good, providing they pay their debts and don't devote the money to land speculation.

Dominion returns show that for July Canadian trade totalled over one hundred million dollars. The billion-dollar mark of last year is evidently going to be exceeded. Nothing can stop Johnny Canuck.

The palm for the retort courtois has just been earned by a Colorado editor. He gave a recitation at a church festival, and the man at the head of a rival sheet sweetly referred to his effort as the "braying of a jackass." Then number one came back with the remark that he could say things that would embitter the whole future life of his competitor, but that he refrained. All that he wished to say was to class him as "an infernal liar, a thug and a crawling scoundrel." What this gentleman could do if he really tried would probably burn the press while the edition was being run off.

Pauline Johnson.

The Canadian Magazine publishes a reminiscence of Pauline Johnson by Isabel Eccleson Mackay, and an appreciation of the same poet's work by Chas. Mair. Interest attaches to these contributions because Mrs. Mackay and Mr. Mair are themselves well known poets. There is also a fine full-page portrait of Pauline Johnson, and the following poem of hers which is published for the first time:

BENEDICTUS.

Something so tender fills the air to-day  
What it may be or mean no voice can say,  
But all the harsh, hard things seem far away.

Something so restful lies on lake and shore,  
The world seems anchored, and life's petty war,  
Of haste and labor gone for evermore.

Something so holy lies upon the land,  
Like to a blessing from some saintly hand,  
A peace we feel, tho' cannot understand.

THE DOMINION

President W. M. McClellent, in his address at the fifth annual conference of the Association of Canadian Clubs at Hamilton, voiced a strong protest against militarism.

The Labor Department has been asked for a Board of Conciliation to adjust matters still unsettled between the Grand Trunk Railway Company and its telegraphers.

Frank W. Russell, six year old son of Clarence Russell, was fatally hurt by being thrown out of a buggy, his father's horse being frightened by an automobile near Reddsville.

PRESIDENT WILL DELIVER MESSAGE TO CONGRESS

(Continued from Page 1)

Mexico, outlines the American government's position, expresses generous friendship for the Mexican people, and defines the reasons for insisting upon elections and the elimination of Huerta. Some of the message is based upon precedent set during the administration of President Hayes.

All Hope Vanished.

WASHINGTON, Aug. 26.—All hope that the Huerta Government would accede from its refusal to recognize the suggestions of the United States for peace in Mexico had practically vanished to-day, and President Wilson prepared to appear before a joint session of both Houses of Congress, at 3 p.m., to read his special message, defining the policy of this government in the present situation.

It was the first time since George Washington's day in the White House that a President of the United States had determined to appear personally before Congress on a question of foreign policy.

So closely was the President's message guarded that no copies were given in advance to the press, as is the almost invariable rule with such documents.

Action had been taken in Congress for a joint session, and it was necessary for the House to assemble at 11 o'clock for the joint session, recess, and wait the action of the Senate.

The expression of the American policy follows a long and unusual effort to persuade the defacto authorities in Mexico City to suspend hostilities, to invoke a constitutional election, and to secure freedom of choice by eliminating the present ruler, Victoriano Huerta.

In view of the rejection of those suggestions, the United States has not felt compelled to emphasize its ideas by arms, but having obtained the moral support of the civilized world, the American Government has decided to pursue a policy of absolute non-interference. From the first it has realized that only two alternatives of policy were before it—friendly mediation or armed intervention. The one has failed, and the other, in the opinion of administration officials, is not called for by any existing emergency. The United States, therefore, will remain aloof, hoping that martial law in Mexico eventually will prevail. Arms will be denied all warring factions, Americans will be assisted to leave trouble zones, and the United States will patiently await the establishment of a secure, stable and constitutional government, before extending recognition.

President Wilson in his message—communication, which formally denies recognition to the Huerta Government, though protesting sincere friendship for the great mass of Mexican people without voice in their government—is essentially a review of the mission of John Lind and his negotiations with the Huerta Government.

The message cites an almost identical precedent for the action of the administration to-day—the difficulties between President Hayes in 1877 and Porfirio Diaz, who after overthrowing President Lerdo, sought recognition from the United States. Though foreign governments recognized Diaz, the United States waited a year, until it was satisfied that the government as set up, could guarantee the national contracts.

The reference to this precedent led to the belief that while it has hitherto been supposed that immediately following an election held by Huerta, recognition would be extended, the likelihood was that the United States would not extend the hand of friendship to the existing government, or its successor in Mexico for some time.

President Hayes in 1877 saw fit to order General Ord to the border with power to cross into Mexico with American troops to suppress marauding bands, who were plundering the property of Americans and retreating across the Rio Grande. On that occasion, the Mexican government had been lax in giving border residents protection, but as soon as troops were ordered south, the Diaz Government indignantly announced that the entrance of any American soldiers into Mexico would be regarded as an invasion and act of war.

The views of President Hayes are expressed by Secretary Seward to John Foster, American minister to Mexico and from which President Wilson takes precedent for his policy of to-day were:

"The government of the United States in its dealings with the Mexican republic has aimed to prevail merely a just, but a generous and friendly course. While earnest to guard and protect the rights of its own citizens and the safety of its own territory, it does not seek to interfere in political contests or changes of administration. It is accustomed to accept and recognize the results of a popular choice in Mexico and not to scrutinize closely the regularity or irregularity of the methods by which presidents are inaugurated. HOTELMEN IGNORE MAGISTRATE'S ORDER

Bars Kept Open During Voting and Names of Frequenters Were Taken.

PORT HOPE, Aug. 26.—The people of the town voted strongly yesterday in favor of granting a 10 year franchise to the Seymour Power and Electric Company, but a rumpus with the hotelmen following on an order by the magistrate closing the bars during the voting, is causing more excitement in the town, than the prospect of getting cheap light and power.

Acting on instructions of Police Magistrate White, Chief of Police Dummerston notified all the hotels to close their bars during the day. All obeyed the order but two and police officers were stationed in these bars to take the names of all persons entering in course of the day. It is said that a number of prominent citizens were caught taking a quencher during the day, and they will be used as witnesses against the two hotels concerned in the prosecutions that are to follow. The hotelmen, it is said, have decided to appeal if they are prosecuted and fined by the local authorities. On the other hand the hotelmen, who did obey the magistrate's order and closed up, threaten to sue the town for damages if the two offenders are not prosecuted.

The claim is set up by the two hotelmen that the magistrate had no authority to order the bars closed during voting on a by-law.

Prosecutions are launched a test case will undoubtedly go to the higher courts.

The voting on the by-law was 418 for and 14 against. There are 1200 voters in the town.

present case it waits before recognizing General Diaz as the president of Mexico until it shall be assured that his election is approved by the Mexican people and that his administration is possessed of stability to endure and of disposition to comply with the rule of international comity in the obligation of treaties.

Such recognition if afforded would imply something more than a mere formal assent. It would imply a belief that the government so recognized will faithfully execute its duties and observe the spirit of its treaties.

The recognition of a present government of Mexico, the United States has an important moral influence which, as you explained, is appreciated at the capital of that republic.

"It aids to strengthen the power and lengthen the tenure of the incumbent, and if, as you say, the example of the United States in that regard is one that other nations are disposed to follow, recognition would be not without effect—both upon the internal and external peace of the country."

YEAGER'S ARM FRACTURED.

MONTREAL, Aug. 26.—"Joe" Yeager, the veteran of the Montreal team, will play no more this year. On X-ray examination has revealed that Yeager's right arm is fractured. It is supposed that a pitched ball which struck Yeager's elbow a month ago caused the injury, the examination revealing that a small piece of bone had been broken away. Yeager played for two weeks with a broken arm, and as late as Friday last had acted in the role of pinch hitter. He could not throw a ball, however, without excruciating pain, and even the exertion of batting was exceedingly painful. It is thought that a course of massage, with possibly a surgical operation, will set the injury right and leave "Pepper Joe" ready to start next season.

GREER IS PREPARING TO ROW EDDIE DURMAN

Works Out Twice Each Day on the Charles River at Boston.

BOSTON, Aug. 26.—Frank B. Greer, the Boston professional sculler, who expects to row Eddie Durman out Toronto Bay, next month for the American championship, is practising twice daily on the Charles River. The articles of agreement for the match have been forwarded to Durman, and final acceptance is expected within a day or two.

Greer goes out every morning at 10 o'clock, and again at 4 in the afternoon. All of his work is under the direct supervision of Coach-William Hains of the Union Boat Club, who said to-day that Greer is rowing in better form than he had shown last season.

The championship race is scheduled for September 27. Greer expects to leave for Toronto about one week before the race so that he can make final preparations on Toronto Bay.

ONE HUNDRED MILES IN NINETY-TWO MINUTES

COLUMBUS, Aug. 26.—What is said to be a world's record for 100 miles on a dirt track for a motor cycle, was made yesterday afternoon by Harry Goudy of Chicago, when he rounded the local mile track 100 times in 92 minutes flat. The previous record for 100 miles on a dirt track was 95 minutes.

MRS. PANKHURST MAKES TRUCE

Advises Followers to Rest During "Lull in Political Activity."

LONDON, Aug. 26.—Rumors, which have been current of a truce between the militant suffragettes and the British Government seem to find support in a letter written yesterday by Mrs. Emmeline Pankhurst, the suffragette leader, to her followers, advising them to take a holiday for the present. She says:

"I am gathering up strength for a renewed battle when the holiday season is over. I hope that every one of you also will take advantage of the present lull in political activity to take the rest and change you have all so richly deserved."

Another indication that an agreement has been reached is the cessation by the authorities of the enforcement of the provisions of the "cat-and-mouse" act. Out of forty-three suffragettes sentenced to imprisonment for various offences, only one is now in jail. Most of the rest of them are following their ordinary avocations, and no attempt is made to re-arrest them.

It is widely believed that Mrs. Pankhurst has at last agreed to a truce in order to strengthen the hands of those members of the British cabinet who are working to make the enfranchisement of women a government measure.

M'BRIDE IN TROUBLE

CHICAGO, Aug. 26.—Chicago bunched hits off Groom yesterday and defeated Washington 5 to 2, thereby evening up the games for the year at nine each. During the eighth inning the umpire ordered Captain McBride off the field. McBride would not go and Manager Griffith also stalked about with his players at his heels until Umpire Connolly called a policeman. At sight of the patrolman the Washington men slowly began their retreat to the players' coop.

FIFTEEN HUNDRED MEN IDLE TO-DAY

[Canadian Press Despatch] SAULT STE MARIE, Ont., Aug. 26.—Following the partial destruction by fire of the big power plant of the Lake Superior Corporation after the big building had been struck by lightning last night, 1500 men are idle this morning, while the repair gangs and electricians are working under pressure to get matters into shape for another start. It is hoped that a big portion of these men will be able to resume work in a few days, but several hundred will be idle for at least two weeks.

As soon as the building was struck the operator made a dash for the switchboard in an endeavor to withdraw the switches, but was thrown back with great force from the board. The transmission lines, of which there are hundreds running along the roof, caught fire and reduced the roof to ashes. It is not yet known how much the big dynamos are damaged by water. This will not be known for several days. The damage, with the general run into many thousands of dollars while all the molten metal in the blast and other furnaces had to be drained. It was only the timely arrival of the city fire department with the big new steamer that prevented the damage from being enormous.

HORSE WAS KILLED ON GREENWICH ST.

A horse, attached to one of the garbage wagons was instantly killed this morning shortly before 9 o'clock by being struck by the engine on the Grand Trunk train coming in from Tilsonburg. The accident occurred at the Greenwich St. crossing along the canal bank, near the Western Station. Teamster S. Cole was driving eastward along Greenwich St. and according to an eye witness of the accident in the person of G. E. Wright, 33 Walnut St., the driver was not watching where he was going as he was looking across the canal bank toward Colborne St. when his horses reached the crossing. The engine of the train struck the horse in the hind quarters and knocked it to the ground and instantly killed the animal, which was a fine big bay horse.

The other horse was knocked down but was not injured. The wagon was not damaged and the driver luckily escaped without being injured. Mr. Wright stated that the engineer blew his whistle, but the driver evidently didn't hear it. Mr. Muir, the owner of the horse lost another animal about a month ago when lightning struck his barn.

Mr. Lind Bids Farewell to Mexico; Huerta Summons Old Officers to the Colors

MEXICO CITY, Aug. 26.—President Wilson's personal representative John Lind, will leave here to-day, proceeding to Vera Cruz. Mr. Lind called on Foreign Minister Gamboa yesterday to say good-bye, but there was nothing in their conversation regarding the resumption of negotiations or to indicate that Mexico would recede from her position. Rumors persist that General Treviño, who has been summoned to the capital, will become provisional president, but confirmation is lacking, and this report is offset by another that General Huerta has called in most of the retired officers and many of those on detached service to report for duty. General Felix Diaz, who is on his way to Japan as special Mexican ambassador, is also said to have received a summons to return to the capital.

Is Optimistic Sir William Whyte Says Money Will Loosen Out West.

[Canadian Press Dispatch] WINNIPEG, Man., Aug. 26.—Taking the average, the crop over the country is two weeks earlier than it was last year or the year before. Such is the opinion expressed by Sir William Whyte on his return to the city from an extended tour over the wheat belt. The crop is a good one, and many points are already well cut, he says. There is a certain variety in the advancement in the different districts. In the districts around Calgary, Lethbridge, Swift Current and all points south the crop is about 30 per cent cut, while about a week or ten days will yet be required to get the district around Regina and Moosejaw. Speaking generally of the conditions of the country and the financial situation, he stated that there are indications that there will be a general loosening in the money market all over the west.

"Speculation in real estate, is practically at an end, however," he says.

Laid at Rest

Marjorie E. McQuiggan. The funeral of the late Marjorie Evelyn McQuiggan, the 8-year-old daughter of Mr. and Mrs. H. P. McQuiggan, 10 Sir John's, St. Catharines Ave., took place Monday afternoon from the parents' residence to Mount Hope cemetery. Rev. Mr. Latimer of Trinity Church officiating.

Three years ago she was stricken with infantile paralysis, and for months suffered the intense pain peculiar to that affliction. By persistent medical treatment, both here and in Toronto, and by the untiring attention of the parents, some progress toward recovery had begun, and by the aid of a brace she was able to walk with difficulty. Through this long period her patience and cheerfulness were a source of comfort to her bereaved parents.

On Tuesday last she was attacked by cholera infantum, and on Thursday succumbed, despite the best attention that could be given.

The pallbearers were Claude White, Lloyd Croley, Harold Sage, George Kew.

The following friends and relatives of the deceased attended the funeral: Mrs. Morris, Simcoe; Mrs. Timpany, Aylmer; Miss Jean Latimer, Toronto; Mr. and Mrs. Charles McQuiggan, Pt. Burwell; Mr. Lorne Morris, Chicago.

The following floral tributes were a splendid testimony to the large place the deceased little girl held in the hearts of her friends, as well as of sympathy for the bereaved parents and brother: Pillow, "Peace," family; wreath, "Our Playmate," Vernon and David Mason; maltese cross, Mr. and Mrs. Fred Bill; wreath, Mr. and Mrs. Blanchard; basket of roses, Doris Townsend; cross of roses, Cameron Watts; Spruce, Auntie Agnes and Jean; Rev. PRESS CAMPAIGN BAD FOR HARRY

Lawyers Afraid Lest He Talks Himself Back to Matteawan.

SHERBROOKE, Aug. 26.—Harry K. Thaw's many lawyers, fearful lest he hurt his case with the erratic conduct of his self planned press campaign, shut him off from all interviewers to-day. They obtained from the Sheriff an order to the Governor of Sherbrooke jail to the effect that no one should see Thaw except in the presence of some one of his counsel.

The order serves two purposes, first, it prevents Thaw from giving out more rambling interviews, except surreptitiously, by messengers, second, it would prevent any secret attempt to obtain from him a statement in which he might inadvertently reveal something about the plot resulting in his release from Matteawan.

A cold rain kept the army of lawyers, newspapermen and others from reaching the Thaw case within in doors to-day, where foe and friend mingled freely.

Pickell's Assiliants Will Get Hearing

Joe Ginnis, the young man who fired the shots which resulted in the death of Herbert Pickell at Detroit, when Ginnis and a gang of young men entered the building where young Pickell was watchman, will likely receive a hearing next month. Ginnis having admitted doing the shooting, the law will take its course.

In the State of Michigan, the penalty for murder is not death but life imprisonment. P. C. Pickell, the father of the young man, will not be concerned further in the case.

Last night he informed the Courier that his son was 22 years of age, and not 28 years, as reported. Besides the father and mother, and widow, two sisters, Misses Grace and Laura both residents of this city, are left to mourn the loss. It was stated in error that Mrs. Pickell accompanied P. C. Pickell to Detroit, as she was at the time of the shooting visiting in Flint, Mich., in company with one of the Misses Pickells.

TORONTO, Ont., Aug. 26.—Premier Borden visited the site of the new Toronto technical school at 11 o'clock this morning and in the view of a large gathering declared the corner stone "well and truly laid," his address dealt with the practical results of an education along technical lines and he foresaw for the new Toronto institution a great field for useful activity. This afternoon and evening the first minister will devote to seeing the fairground which he started moving yesterday and he and party return this evening to Ottawa.

RED SOX DO CHARITY ACT

Dropped Yesterday's Game to London While Ottawa Lost, Thus Giving London's Pennant Hopes a Boost.

Tecumseh bats plying against Clermont's shoots yesterday afternoon at Tecumseh Park won the first game of the series here with Ottawa starting on Thursday, and the manner in which they laid on the willow show them to be daily improving for that occasion.

The game proved good batting practice for the Tecumsehs, for their series here with Ottawa starting on Thursday, and the manner in which they laid on the willow show them to be daily improving for that occasion.

Outfielders' Work Great At no time during the present season were there more sensational catches made in the outfield than was the case yesterday afternoon, as Neale, Reidy and Stewart each tore out at least one remarkable stab of ball.

Brantford could do nothing with Heck's offerings when they had men on bases, although they scored eight runs off his delivery.

Clermont on the other hand was freely for 21 bases, and coupled with two wild throws by himself and one by Lamond, London piled up 7 runs in two innings when they bunched hits.

In the absence of Linneborn, Manager Deneau played second base, while Reidy did centre field duty and led off on the offensive and his work was of the kind which will warrant his staying in the game when Linneborn returns to the fold, and that probably will be to-day.

Reidy's One-Hand Catch In the first inning Brantford went out in succession, but the third out was made by Reidy when he ran into deep right field, and a hit which would have been easily a three-bagger for Keenan, was nipped by Reidy's gloved hand while racing at top speed.

The second and third innings found two men left on bases by Brantford, and in the fifth three consecutive hits with 2 out did not result in a run for the visitors. Coose grounded out to Heck retiring the side. Only two more widely scattered hits were garnered off Heck during the remainder of the game.

Five Run Lead After going out easily in the first inning London came back in the second and got five runs. Stewart grounded out to begin with. Dunlop started by getting the first hit of the game and scored on Neale's two base hit, which Coose did not get near to Deneau singled and Neale scored when Deneau drew a throw from Lamond. Smith walked and when Heck struck out Lamond threw the ball to centre field, trying to catch Smith and Deneau scored. Smith going to third. While Reidy was given a base on balls, Smith scored on a wild pitch. Matsson singled, but Reidy had gone to second on another wild pitch. Bierbauer singled to Keenan and Reidy scored but Matsson was caught at third by Keenan's throw. The last two runs of the game came in the seventh, when Bierbauer opened with a three base hit, and with two men out Neale drove him in on a clean single and scored when Deneau tripled to Coose.

London got a hit or more in every inning but the first. The crowd was fairly large for a Monday game. The score:—

Table with columns: Brantford, Clermont, Totals. Rows: Rowe, Wagner, Keenan, Stewart, Coose, Neale, Heck, Smith, Nelson, Lamond.

Great Doings For Small Boys at the Circus To-Day

OLD MR. COAKLEY LOST HIS COMPASS

Leafs Beat the Jersey Skeeters in the Ninth Inning 5-4.

TORONTO, Aug. 26.—This morning's story begins at the end and ends at the beginning, so to speak, for the Leafs have contracted the ninth innings habit, and did not inflict on the leaderless Skeeters their eighteenth consecutive defeat until the final frame. That ninth innings is really the story of the game, which was won by the Kelleys 5 to 4.

The familiar figure of Lawrence Schafly of Beach City, Ohio, was missing from the Jersey bench, and enquiry elicited the information that Larry had been relieved of the responsibility of setting an International League record of consecutive defeats. Third baseman Billy Partell acted as manager, and made a fair start toward eclipsing the record sustained toboogganing so well begun by Schafly. Another absentee was Mike Donlin, the actor out-fielder, who recently had the temerity to sign a Jersey City contract. The suspicion arises that the release of Schafly and the signing of Donlin are the outcome of a well laid plan.

DEMMITT DROVE IN ALL THE ROYALS' RUNS. MONTREAL, Aug. 26.—Montreal won a 3 to 0 game from Providence yesterday. Demitt, with a double and a single, drove Montreal's three counts across. Providence had men on bases frequently but could not hit McGraynor when he tightened up. Montreal, Providence 0.

TIMOTHY JORDAN HAD ONE OF HIS DAYS. RUFFALO, Aug. 26.—Main had the Baltimores at his mercy at all times yesterday, and but for errors would have shut them out. Cattel was hit freely by the Bisons, Jordan and Roach each getting to him. Buffalo 5, Baltimore 2.

HUSTLERS AND SAILORS SPLIT A DOUBLE BILL. ROCHESTER, Aug. 26.—Newark and the Hustlers broke even in a double header here yesterday. Rochester winning the first game 3 to 2, and Newark the second 6 to 2.

The Courier Cup. The St. Andrews and All Scots who have been drawn to play the preliminary round for the Courier cup series on the date which will be set at the meeting of the Football Council to-morrow night. To be in the running for the cup one of them must win the preliminary round. It will be an all Scotch game with the two teams of the heather hauling for supremacy. The St. Andrews lads though young and on the whole inexperienced at the game are putting up a game, plucky fight and are very fast on their feet and may turn the trick on the older and more experienced all Scotch brethren. It will be a good game.

DETROIT, Aug. 26.—"Ty" Cobb yesterday twice spoiled a possible Boston victory and Detroit took the second game of the series by 6 to 5. In the fifth inning Cobb stole home with the tying run and in the eighth after capturing Hooper's fly he made a perfect throw to the plate and prevented Jarvin from scoring on the out. Cady went behind the bat for Boston in the sixth but stayed there only a minute. He objected to a decision by Umpire Ferguson and was benched. Carrigan caught the remainder of the game.

PLANK FANNED ELEVEN. ST. LOUIS, Aug. 26.—The Philadelphia team was able to hit Leverenz in but one inning, but this was enough, the league leaders tallying three runs on five hits and an error. Plank as usual had the home team baffled and shut the locals out, fanning eleven.

"FITZ" IS CRITICIZED BY LEE AND WHITE

Canadian League President Deprecates Rowdy Ball.

BERLIN, Aug. 26.—President F. H. Kalbfleisch of the local Canadian League team was notified yesterday of the suspension by President Fitzgerald of Manager Jack White, Outfielder Burns and Pitcher Bramble for three days as the result of their altercation with Umpire Daly in Peterboro on Saturday. In addition to being suspended, Manager White was fined \$25 for making a "burlesque" of the second game.

The action of President Fitzgerald is severely criticized locally, as it is thought here that Umpire Daly has been "riding" the Berlin team both locally and on the road. By weakening the local aggregation during the last home series President Fitzgerald has not helped the game in this city. Through the generous action of "Knotty" Lee, White and Bramble were permitted to bat out to the fielders during the preliminary practice.

Manager Lee of the Hamilton team took occasion to criticize President Fitzgerald's action in allowing Umpire Halligan to go to Buffalo to help out the International League when the most important series of the season is promised in London this week.

President Fitzgerald said yesterday that Manager White played his outfield on the infield in the second game at Peterboro and the infield on the line. The first game was forfeited by Berlin. Fitzgerald will demand decency and decorum, no matter what the cost to himself or the teams or individuals at fault. In this he will have the support of the Canadian League clubs.

ANOTHER BIG SCORE FOR ROWAN'S TEAM

White Caps Scored Twenty Runs Against the Saints - Hamilton Won.

ST. THOMAS, Aug. 26.—The "Pete" fresh from their slaughter of the Dutchmen on Saturday last, finished up their job here to-day by defeating the Saints by a score of 20 to 8. Errors disgusted Hughey to such an extent that after the fourth innings he did not try to pitch. Score: Peterboro 20, Saints 8. St. Thomas, 10041000—8 14 7.

GUELPH, Aug. 22.—Kirley, who is the property of the Toronto club, twirled great ball yesterday, allowing Shaughnessy's Senators but four hits, winning his game 5 to 3. The Leafs got to Donovan when hits meant runs, and the game was never in doubt, the Leafs outbattling the visitors and playing a fine game in the field. The score: Ottawa 5, Guelph 3. Ottawa 00000030—3 4 1. Guelph 00101120—5 10 1.

BERLIN, Aug. 26.—Hamilton outbatted Berlin's crippled aggregation here yesterday and won by a score of 3 to 2. It was the misplays by the local team, however, that gave the visitors a chance to score, and not timely hits. The score: Berlin 2, Hamilton 3. Berlin 000001010—2. Hamilton 00010100—3.

Eddie Holly, recommended as manager of the Red Sox for 1914, handled seven out of eight chances at shortstop yesterday for Toronto, also got one hit when it was needed.

Had President Fitzgerald taken action several weeks ago, when there were various rowdy occurrences on the ball field, it would have been better than his last-minute action on three Berlin players. However estimable President James may be as a fellow, it is conceded that he has not been a cheering success in his official capacity.

Rube Deneau comes out with a letter this morning in London, replying to a peevish fan. He states that London could not possibly secure other pitchers for the crucial contests against Ottawa, and produces a letter from Secretary Barnard of Cleveland to support his statement. At any rate, why should any fan in London be unsportsmanlike enough to criticize a manager, a team and a management which has put up the fight London has this year? Why should the club go out and get a high-priced pitcher when only two weeks more of the season remain, and when the Londoners looked every bit as good as the Senators? It was not weak pitching which spoiled London's chances. The departure of Linneborn meant a whole lot in that close double-header on Saturday last. What is a pennant particularly? It's the dream of the ordinary fan, but if the game is honest and defeat is the portion of a club that has made a good fight, who should worry?

Another major league veteran of many years has been sent to the minors. President Navin of the Detroit Tigers announced that Joe Lake had been released to Minneapolis, and that Roudcut, a recruit catcher, would accompany him there as part payment for Comstock, a pitcher, purchased last week.

TYRUS RAYMOND COBB BEAT CARRIGAN'S TEAM

Stole Home With the Tying Run and Also Made a Perfect Draw.

DETROIT, Aug. 26.—"Ty" Cobb yesterday twice spoiled a possible Boston victory and Detroit took the second game of the series by 6 to 5. In the fifth inning Cobb stole home with the tying run and in the eighth after capturing Hooper's fly he made a perfect throw to the plate and prevented Jarvin from scoring on the out. Cady went behind the bat for Boston in the sixth but stayed there only a minute. He objected to a decision by Umpire Ferguson and was benched. Carrigan caught the remainder of the game.

PLANK FANNED ELEVEN. ST. LOUIS, Aug. 26.—The Philadelphia team was able to hit Leverenz in but one inning, but this was enough, the league leaders tallying three runs on five hits and an error. Plank as usual had the home team baffled and shut the locals out, fanning eleven.

# CANADA'S TRADE TO PASS BILLION MARK

Record Will Be Made if the Present Rate is Maintained.

OTTAWA, Aug. 26.—Despite the report of financial stringency throughout the country, Canadian trade reached high water mark for the month of July. A statement issued by the Department of Customs today shows that for July the total Canadian trade was \$106,357,000, compared with \$94,423,000 for July, 1912. For the first four months of the present fiscal year ending July 31st last the total Canadian trade amounted to \$358,488,000, compared with \$318,635,000 for the corresponding period last year.

At the present rate of progress the trade of Canada for the present fiscal year will considerably exceed the record of \$1,000,000,000 for the last fiscal year.

**Imports and Exports**  
Imports into the Dominion of dutiable goods and free goods for July last amount to \$58,028,000, an increase of over \$2,000,000 over July, 1912. For the four months ending July 31st the imports were \$225,887,000, compared with \$200,334,000 for the corresponding four months of 1912.

The exports of Canada show a healthy increase. The grand total of exports for July last were \$13,660,000 as against \$11,042,000 for 1912, and for the four months of the present fiscal year the exports were \$17,180,000 compared with \$10,708,000 for the corresponding period last year.

## NEWS OF TRUCE NOT HEARD OF

Consequently the Suffragettes Burn Down Fine Country House.

LONDON, Aug. 26.—The news of the truce between the militant suffragettes and the British government evidently has not reached the districts outside of London, as a fine country house in the suburban town of Finchley, to the north of London, was burned down early this morning by suffragette sympathizers, who left a quantity of suffrage literature among the ruins. The place was occupied only by a caretaker, the family having gone away for the summer.

# GRANDALL'S SINGLE BEAT TINKER'S REDS

Giants Won Out in Ninth Guy Zinn's Single Counted Two Runs.

NEW YORK, Aug. 26.—A fierce ninth inning rally enabled New York to win the first game of the season's last series with Cincinnati here yesterday, the score being 2 to 1. After the Giant's disaster, pitched great ball for eight innings, but weakened in the ninth, when McGraw won a battle of wits against Tinker.

**RIKEY WAS IN FORM**  
PHILADELPHIA, Aug. 26.—Rixey was in such fine form and was given such excellent support, especially by Lohrer and Magee that St. Louis was shut out by Philadelphia here yesterday by 3 to 0. The home team scored its runs by bunting hits off Doak in two innings and off Geyer in one.

**ZINN IN THE LIMELIGHT**  
BOSTON, Aug. 26.—Boston's victory over Pittsburgh yesterday by 7 to 6 following an exciting ninth inning finish. The last inning opened with the locals three runs in the lead. Three errors, two singles and two steals gave the visitors a one run lead. With one out in the Boston half of the ninth, Robinson was driven from the box. McQuillan went in without warming up, and passed Hies and Zinn hit the first ball pitched him scoring the winning run.

**MCCARTY FOR BROOKLYN**  
BROOKLYN, Aug. 26.—After Allen and Humphries had been knocked out of the box yesterday, Yingling and Lavender engaged in a pitcher's battle, the latter winning for Chicago by 5 to 4 by scoring the winning run in the seventh on his double and Leach's single. Catcher McCarthy of Newark and Pitcher Pfeiffer of Grand Rapids reported to Brooklyn yesterday.

## Football

The regular meeting of the Football Council will be held in the Borden Club room to-morrow evening. President Speechley requests a full teams have all the chance in the world of important business to be transacted.

Can the Tigers beat the Duffs on Saturday? This is the question that is bothering the football fraternity and the supporters of each team are confident of victory. The Duffs, of course have the long end of the deal inasmuch as they have only to make the game a draw to win the championship, while on the other hand, the Tigers have to put one over on them to win. Should the Tigers be successful in Saturday's game it would mean that the regimental team would be required to play off with Cocks-hutt's for the championship. Both teams are training hard for the game which promises to be a battle royal. Both teams have all the chance in the world to get their men in shape and cannot offer any excuse for not having their men in condition.

The game will in all probability be witnessed by a very large number of spectators, considering the importance of the result. Football in Brant-

ford has never before been worked up to such an extent as it is at the present time.

A grand benefit match for H. Thomas will take place on Wednesday night. Kick off at 6.30 o'clock sharp. It will be Hohndelate vs. Y.M.C.A. Tigers will line up: Rowenick, Martin, Hart, Moorcroft, Williamson, Scanlon, Scanlon, Goodwin, Belshaw, Giles, Thomas, reserves, Heyes, Rose.

The boys are looking for a big crowd at this game. A general meeting will be held at 13 Holme street, on Thursday evening at 8 o'clock.

The Chicago National League team defeated the Rutland Tri-state League club 5 to 0. At no time did the Rutland players threaten to score. Rutland wanted to pitch Wickware, the colored twirler of the Mohawk Giants, but the Chicago players refused to play against him.

### CHAPTER II—Continued

"Jack," said Sir John as they passed on, "what have been deprived of Miss Chyne's society, come and console yourself with a glass of sherry."

The dutiful son nodded a semi-different acquiescence and disappeared. "Wonderful thing, sherry," observed Sir John Meredith for his own education.

He waited there until Jack returned, and then they set off in search of refreshment. The son seemed to know his whereabouts better than the father. "This way," he said, "through the conservatory."

"Sir John Meredith and his son stood in silence looking around them. Finally their eyes met.

"Are you in earnest with that girl?" asked Sir John abruptly.

"I am," replied Jack. He was smiling pleasantly.

"You think there is a chance of her marrying you—unless, of course, something better turns up?"

"With all due modesty, I do."

"Sir John's hand was at his mouth. He stood up his full six feet two and looked hard at his son, whose eyes were level with his own. They were ideal representatives of their school.

"And what do you propose marrying upon? She, I understand, has about eight hundred a year. I respect you too much to suggest any foolish notions of love in a cottage."

"Jack Meredith made no reply. He was entirely dependent upon his father.

"Of course," said Sir John, "when I die you will be a baronet, and there will be enough to live on like a gentleman. You had better tell Miss Chyne that. She may not know it. Girls are so innocent. But I am not dead yet, and I shall take special care to live some time."

"What is your objection?" inquired Jack Meredith after a little pause.

"I object to the girl."

"Upon what grounds?"

"I should prefer you to marry a woman of heart."

### CHAPTER III

JACK had an appointment with Millicent Chyne at half past 11 the next morning—an hour when Lady Cantourne might reasonably be expected to be absent at the weekly meeting of a society.

Jack went into the first jeweller's shop he saw and bought a plain diamond ring. Then he walked on to keep his appointment with his affianced wife.

Miss Millicent Chyne was waiting for him with that mixture of maidenly feelings of which the discreet novelist only details a selection. When Jack Meredith entered the room she was standing near the window, holding back the curtain on one hand and watching half shyly, for his advent.

Jack struck her at once was his gravity, and he must have seen the droop in her eyes, for he immediately assumed the pleasant, half reckless smile which the world of London society had learned to associate with his name.

She saw the diamond ring and looked upon it with the beautiful emotions aroused by those small stones in the female breast, but she did not seem to recognize her own finger within the golden hoop.

It was at this moment—while she dwelt in this new, unreal world—that he elected to tell her of his difference with his father, and when she walks through a maze of unrealities nothing seems to cause amiss or to cause surprise. He detailed the very words they had used, and to Millicent Chyne it did not sound like a real quarrel such as might affect two lives to their very end. It was not important; it did not come into her life, for at that moment she did not know what her life was.

"And so," said Jack Meredith, finishing his story, "we have begun badly as badly as the most romantic might desire."

"But it will be all right in a day or two, will it not? It is not serious," she said.

"I am afraid it is serious, Millicent."

He took her hand with a gravity which made matters worse.

"What is to be done, Jack?" she said, laying her two hands on his breast and looking up pleadingly.

"There are two things," he answered. "The first and the simplest," she went on in the tone of voice which she had never quite fathomed—half cynical, half amused—"is to pretend that it is right—never was."

He waited for her verdict.

"We will not do that," she replied softly, "we will take the other alternative, whatever it is."

She glanced up half shyly beneath her lashes, and he felt that no difficulty could frighten him.

"The other is generally supposed to be very difficult," he said. "It means waiting."

# "I AM SATISFIED I COULD NOT LIVE"

If It Were Not For "Fruit-a-lives," The Wonderful Fruit Medicine

FENACHTVALE, ONT., JAN. 29th, 1910  
"For thirty five years (and I am now a man over seventy) I have been a terrible sufferer from Constipation. No matter what remedy or physicians I employed, the result was always the same—impossible to get a cure. About 2 years ago, I read the testimonial of Hon. John Costigan regarding 'Fruit-a-lives' and I decided to give them a trial. I have used 'Fruit-a-lives' ever since. They are the first and only medicine that suited my case. It was not for 'Fruit-a-lives' I am satisfied, but for 'not live'!" JAMES PROUDFOOT

Mr. Proudfoot is one of the prominent farmers of Prescott County and has been Treasurer of Caledonia Township for years. "Fruit-a-lives" is sold at 50¢ a box, 6 for \$2.50—trial size, 25¢, by dealer or from Fruit-a-lives Limited, Ottawa.

"to be?" she said, with a grimace, and one of those sudden descents into shallowness which he appeared to like.

"What?"

"A politician."

"Then I shall be a politician," he answered, with a careless promptness.

"That would be very nice," she said, and the castles she at once began to build were not entirely aerial in their structure.

This was not a new idea. They had talked of politics before as a possible career for himself. They had moved in a circle where politics and politicians held a first place, a circle removed above the glamour of art and wherein bohemianism was not reckoned an attraction.

"But," he said, "it will mean waiting."

"I don't care," she answered.

"Of course," he went on, "I must go away. That is the only way to get on in politics in these days. I must go away and get a specialty. I must know more about some country than any other man, and when I come back I must keep that country ever before the eye of the intelligent British workman who reads the halfpenny evening paper. That is fame—that is politics."

"But you must not go very far," she said sweetly.

"Africa?" That does not sound interesting.

"It is interesting. Moreover, it is the coming country. I may be able to make money out there, and money is a necessity at present."

"I do not like it, Jack," she said in a foreboding voice. "When do you go?"

"At once. In fact, I came to say goodby. It is better to do these things very promptly; to disappear before the onlookers have quite understood what is happening. When they begin to understand, they begin to interfere. They cannot help it. I will write to Lady Cantourne, if you like."

"No, I will tell her."

So he bade her goodby, and those things that lovers say were duly said; but they are not for us to chronicle. (To be continued)

"What?"  
"A politician."  
"Then I shall be a politician," he answered, with love-like promptness. "That would be very nice," she said, and the castles she at once began to build were not entirely aerial in their nature.

This was not a new idea. They had had of politics before as a possible career for himself. They had moved a circle where politics and politicians had a first place, a circle removed from the glamour of art and wherein humanitarianism was not reckoned an action.

"But," he said, "it will mean waiting."  
"I don't care," she answered. "Of course," he went on, "I must go to work. That is the only way to get on in politics these days. I must go to work and get a specialty. I must know about some country than any other man, and when I come back I must keep that country ever before the eyes of the intelligent British workman so reads the halfpenny evening paper. It is fame—that is politics."  
"But you must not go very far," she said sweetly. "Africa?"  
"Africa? That does not sound interesting."

"It is interesting. Moreover, it is the thing country. I may be able to make money out there, and money is a necessity at present."  
"I do not like it, Jack," she said in a rebuffing voice. "When do you go?"  
"At once. In fact, I came to say today. It is better to do these things promptly; to disappear before the books have quite understood what is happening. When they begin to understand, they begin to interfere. They must help it. I will write to Lady Louisa. If you like."  
"So, I will tell her."  
So he bade her goodbye, and those things that lovers say were duly said; but they are not for us to chronicle.

Thaw Says the Chair Would Have Been Best Thing, All Things Considered

[Canadian Press Despatch]  
SHERBROOKE, Que., Aug. 26.—It was probably the most interesting and the most important examination in his life by Dr. Hume of this city.  
Dr. Hume was questioning him as to his apprehensions before the conclusion of the trial in New York.  
"I never at any time feared anything," said Thaw and added, "not even the electric chair, though it might have been better for myself and all concerned if years ago they had sent me there."  
The doctor says that Thaw during his confinement in Sing Sing and Matteawan appears to have made a most careful study of criminal law and insanity. He has read the best authorities on these subjects and has become an authority on both of them.  
His knowledge, Thaw's counsel argue, is probably his worst enemy just now, because he insists upon relying upon it instead of upon the advice of the authorities on Canadian criminal law provided for him.  
An interesting commentary on Thaw's attitude towards his detention is supplied by W. A. Blakely of Pittsburg, district attorney of Allegheny county, and a personal friend of the Thaw family. "He says that Thaw literally burns up his much-needed nervous energy by talking too much. He warned Thaw that unless he quits he may talk himself back into Matteawan."  
"All the counsel in the case have endeavored to impress upon Thaw the necessity for conserving his strength and have urged him to stop holding audiences with the press. So far Thaw has coolly ignored this advice and displayed an increasing desire for publicity which he thinks he can secure more satisfactorily himself now that he has a stenographer to prepare his utterances.  
He believes that if hammering away in the press at the sanity end of his case he can justify in the public mind, the freedom he hopes the Canadian or Vermont courts will ultimately give him on the grounds that he is not a lunatic."  
Time and time again his counsel throw up their hands in bewilderment at their client's action, said one of them today.  
"Imagine in Canada a prisoner with one of the finest arrays of legal talent which ever stood behind a man in this province," he added, "worrying himself and them with this press campaign which cannot effect the decision of the authorities who will handle this case, one iota."

### ROYAL MARRIAGES TO CEMENT NEW PEACE MOVEMENT IN BALKANS

An interesting bit of gossip comes from Bucharest by way of London to the effect that the future alliance in the Balkan States will be cemented by the following marriages:—Princess Elizabeth, granddaughter of the King of Roumania, to George, Crown Prince of Greece; Prince Charles, son of Crown Prince Ferdinand of Roumania, to the Grand Duchess Tatiana, second daughter of Emperor Nicholas of Russia, and Prince Alexander, the Serbian heir apparent, to the eldest daughter of Emperor Nicholas, the Grand Duchess Olga.

### LOVE OF THE GAME KEEPS MATTY GREAT

Never Loses Interest, and so Avoids Mental Staleness, Says "Scoops" Carey.

Christy Mathewson is still the wonder of the National League because of his love of the game. This is the opinion of "Scoops" Carey, of Pittsburg, contributed at a fanning beat at New York during the Pirate invasion of the metropolis. Many grow physically worn out, but many players go back because they grow tired of the game, thinks Carey. Mathewson never grows tired of base ball. It is always a wonderful study to him. He never tires of playing.

Of course Mathewson keeps physically in shape, knows the game from bottom to top, has speed and curves, and is this year, according to the players, better than he has been since 1908. But that isn't the reason for his long stand, thinks Carey.

"Mathewson has the ability and all that," says Carey, "but I believe the main factor that has held him up so long has been his love of the game. Thirteen years is a long time to be under fire. I'm no veteran myself—only a youngster at the game—but there are times when I am tired out, and would give a farm to break away for a long rest.

"But I've watched Mathewson closely, and I've never seen him pitch a ball game in which he didn't look as if he were having a lot of fun. He always looks as if he'd rather be out there pitching than doing anything else. It doesn't look to be work with him, but only pure sport—an afternoon romp, as a business man might go out to play golf or tennis.

"Many in baseball show up physically. But I believe a lot of others go back because they get stale on the game—get tired of it—get worn out and in a rut and are no longer able to go to it with any sort of relish. And when this happens it is drudgery, and no man can do good work.

"But after thirteen years baseball is still Mathewson's favorite sport. He chaffer likes it immensely or he is the greatest actor I ever saw. He never has to drag himself out to the lot and force himself to play. The game appeals to him, and he finds a lot of new things to study and work

### GASOLINE PERILS MOTOR BUSINESS

Price in United States Will be 25 Cents Per Gallon After September 1.

NEW YORK, Aug. 26.—The price of gasoline continues steadily to rise, and Frank E. Dawson, an expert, predicts that it will be 30 cents a gallon before winter.

In the garages it sells now for 23 cents, and the price is to be advanced to 25 cents September 1. Two years ago it could be bought for 12 1/2 cents. Of course, John D. Rockefeller gets the blame for the increase. But the fact, according to Mr. Dawson, is that the production of gasoline has not kept step with the increase in its use and the advance in price therefore is quite natural. We have jumped from 50,000,000 gallons in use in 1904 to nearly 600,000,000 in use now. Gasoline production as increased in the same time from about 6,500,000 barrels to 12,750,000 barrels. It has decreased slightly in the last two years.

Meanwhile stationary gasoline engines have come into use and gasoline driven farming machinery and tractors used in construction work. Then there are motor boats and motorcycles which use gasoline and their number has grown rapidly. The cost of "gas" used to be an inconsiderable factor in the use of a motor car. Today men are giving up the use of motors because of the increased cost of fuel.

Standard Oil is said to have foreseen present conditions and there is a well-defined belief in motor circles that the Standard people envisaged the makers of carburetor motors several years ago to produce a type which would use a lower grade gasoline than the one then in use. Since that time a poorer grade of gasoline has been marketed and users of motors say that if the old high-grade "gas" could be obtained, cars would run much better than they do.

Now the Standard and the makers of gasoline are going to 30 cents a gallon as Mr. Dawson predicts, many persons will stop using motors and the production of cars will be curtailed. The fighter car which uses little fuel will have a larger sale and the heavy car which has a large fuel consumption will find fewer buyers. This would not be true if only rich men used the better grade of motor cars—that is, only men who could afford them. But it is a notorious fact that the high-grade cars are in the hands of men who can't afford to drive them even at the present cost of operation.

Now it is the object of manufacturers to make cars which will use less gasoline or which will run on kerosene or some other fuel. The International Association of Automobile Clubs at Paris has offered a prize of \$100,000 for the invention of a non-petroleum substitute for gasoline, the invention to be dedicated to public use. Inventors are at work on kerosene carburetors, and one was used successfully recently in a trip from the middle west to the Pacific coast. And the Standard Oil Company itself is meeting the emergency with the announcement of a new fluid for use in commercial trucks.

### DICTIONARY HAS 450,000 WORDS

English Language Grows at the Rate of 5,000 Words a Year.

Roughly speaking, the English language may be said to grow at the rate of 5,000 words a year. At least that is the average growth by the measure of the dictionaries, says a London exchange.

Bullock's "Complete English Dictionary" in 1910, the year of Shakespeare's death, contained 5,089 words. Thomas Blount's "Glossographia" (1656) improved on this and was superseded in its turn by Edward Phillips' "New-World of English Words" (1658), a small folio containing 13,000 words; and by the time it reached its sixth edition (1766) the number had grown to 30,000 odd.

Johnson's dictionary published in April, 1755, though it improved all predecessors of the face of the earth by the perfection of its system and the soundness and breadth of its reading contained only 50,000 words, and it remained master of the field even at this modest total, until Noah Worcester's "Comprehensive Pronouncing and Explanatory English Dictionary" in 1830 with only 160,000 and 108,000 words respectively.

The latter part of the nineteenth century kept the ball rolling. The "Imperial Dictionary" contained 200,000 words, and Dr. Funk's "Standard Dictionary" (1894) entered the field with half as many again—318,000 in all. There have been half a dozen editions of this, and the new one next September reaches high water mark with a total of 450,000 words, most of which the English without question.

A talk with the editor of this undertaking, Dr. Frank H. Vizetelly, produces another batch of interesting figures in the same connection. There are something like 3,500 languages or sublanguages in use upon the globe, and of those the main European languages are spoken by the following number of persons: English is spoken by 160,000,000. German is spoken by 130,000,000. Russian is spoken by 100,000,000. French is spoken by 70,000,000. Spanish is spoken by 50,000,000. Italian is spoken by 50,000,000. Portuguese is spoken by 25,000,000.

The Best Test of Man. The keenest test of a man comes when he has attained; the struggle to attain keeps him strong, but the line of least resistance soon shows itself in success. In addition to the questions of his refinement, it is understood that Lord Strathcona will take up with the Government the question of a new Canadian building in London.

## PITCHING MAY BE THE FINAL FACTOR

And How Can the Phillies Match Up McGraw's Staff?

NEW YORK, Aug. 25.—Those Phillies hang on grimly to the heels of our twice champion Giants, yet are able to make very little impression in a lead that should be secure enough for any even-gaited aggregation at this stage of the race. The Quakers are playing a brand of ball that is without doubt the very best thing flashed in the parent major at this writing. But in spite of it the Giants are keeping as well to the front as they were before the Dooan dashes hit their mad spur: With a brand of ball a shade inferior, perhaps, to that of the contenders, McGraw has been able to hold his own because of wonderful pitching.

It is this wonderful pitching that will finally break the hearts of the challengers, if the champions do not come out of the slight slump in other departments that has held them in its grip since before the last trip West. McGraw has four sterling box men who can win the great majority of games with three or four runs per contest, and that number of tallies should come easy with the speed that McGraw can muster.

Mathewson and Marquard are both enjoying most effective seasons, while Demaree has arisen to take his place with either, one of the most remarkable phenoms of modern times. Arthur Fromme has finally hit his best pace and should give a very fine account of himself from now on. If Jeff Leary, who heretofore has been strictly a hot weather pitcher, ever gets over his inexplicable erratic tendencies, he will have to give ground to none. But that does not mean he is a poor artist. It is simply a question of getting started and he is very liable to cut loose at any time.
