Burlington to Open New Fair Grounds

Many Features at the Fair
This Year

The directors of the Nelson and Burlington Agricultural Society have arranged an attractive program for the opening of the new fair grounds on Tuesday and Wednesday, Sept. 27th and 28th.

On opening day the exhibits will be placed in the tent. The prize list has been increased considerably this year, and the exhibit should be one of the largest in the history of the fair. Write the Secretary, Stanley Dynes, Burlington, for a prize list.

There are many features for the fair this year. There will be a five mile automobile race for \$25, three prizes being offered by Mr. J. M. McKee, agent for the Chevrolet cars. Then there will be trials of speed, for which purses amounting to \$600 are offered. There will be three classes, 2.35, 2.25 and 2.15, besides a buggy race for trotters only. There will also be a five mile bicycle race for prizes valued at \$25.

Special mention may be made of the new race course, which has been so arranged to meet all requirements. The half mile track is perhaps one of the finest courses in Canada, having been laid out by first-class civil engineers.

Then there will be the baby show, choruses by school children and a competition for drill teams. There will be the midway and the other attractions. The Burlington Fireman's Band has also been engaged.

Mountsburg

A very pleasant time was spent at Flamboro Centre Saturday afternoon at the Sunday school picnic.

The Mountsburg Anniversary Services will be held on Sunday, Oct. 2, also an entertainment on the following Monday evening.

Miss Lena Revell is spending a couple of weeks with friends in Creamore.

Mr. and Mrs. Albert Hewins spent Sunday at the home of Mr. Thomas Wingroves.

Nelson

The new large crusher is now in operation at the mountain on the Provincial Highway and about a dozen large trucks are required to handle the output of the crusher which is 1000 yards a day. The stone is delivered to the crusher by a miniature steam railway. Many visitors are daily viewing the work.

An interesting time took place at the Nelson School Fair last week. About 2000 people were present, and the exhibits were above par. In the marching No. 13 school took 1st prize, 14 schools being in the contest.

A young son has arrived at the home of Mr. Fred Hamilton.

The old Herb Featherston farm has been purchased by Mr. Almas of Stoney Creek.

Mr. Ed Vivian of Nelson has purchased the old Biddle Shirman farm from Mr. Frank Gyatt, a returned soldier.

Robert Harvey

The funeral of the late Robert Harvey took place on Saturday afternoon last from his late home on Mill street to Waterdown cemetery and was largely attended. Services at the home and grave were conducted by the Rev. Mr. Wedderburn. The pallbearers were Chas. Emery, John Duncan, Albert Hemingway, Thos. Little, Wm. Flatt and John Foster.

The late Mr. Harvey, who was in his 63rd year at the time of his death, was the eldest son of Robert Harvey and was born in Ancaster Township. He was a man widely known in these parts, having resided in this district practically all his life. A man of upright character and possessing many other noble traits, and was always held in the highest esteem by all classes of citizens who will deeply regret his death.

Deceased was married 20 years ago to Miss Isabella Hall, two sons Clarence and William, and one daughter Edith, blessing the union. Besides his wife and children, he leaves to mourn his loss, three brothers, William of Carlisle and Isaac and John of Waterdown, and four sisters Mrs. Burnett of North Dakota, Mrs. Frank Baker, Mrs. J. J. Green and Miss Margaret Harvey of this village.

Woolley-Buchan Wedding

A very pretty wedding was solemnized by Rev. H. J. Leake in Grace church on the 14th when Elsie, eldest daughter of Mr. and Mrs. Eli Buchan was married to Mr. John Woolley, late of Staffordshire, England. Mr. Woolley is a valued employe of the Massey-Harris Co., Hamilton. The young couple will reside on Fullerton Ave., Hamilton.

A red hot game of ball will be played here between Campbellville and the Harvesters Saturday afternoon at 3 o'clock. The result of the series ending has never been satisfactory to Campbellville, and this game is to convince the public that they are the better team.

The Harvest Home Anniversary Services of the Methodist church will be held on Sunday, Sept. 25th. Rev. H. B. Christie will preach. On Monday evening a splendid Harvest Home Supper and Entertainment will be provided by the Ladies' Aid. Everybody welcome.

The residents on Main street were highly honored one evening last week being serenaded by the celebrated Waterdown Silver Cornet Band, a new musical organization. A choice program was rendered consisting of waltzes, two-steps and live songs, after which they were hospitably entertained at luncheon.

Kings Daughters Concert

The annual concert of the Kings Daughters will be held in the Rink on Tuesday evening, October 4th. The Maple Leaf Quartette of Galt has been engaged and will furnish entire program. All arrangements for the entertainment have been completed, and everything points to an evening of high class talent.

Locals

Mrs. Baird spent the week end with friends in Goderich.

Mr. H. W. Park has purchased the Higginson property on Dundas St.

Mr. O. B. Griffin attended the Old Boy's Re-union at Smithville last week.

Mrs. (Dr.) Hopper arrived home last week from a lengthy visit in the Northwest.

Mr. and Mrs. George Reid entertained a number of their friends on Monday evening last.

Mrs. Canfield and daughter of Windham Centre are visiting Rev. C. L. and Mrs. Poole.

Mr. and Mrs. Joseph Tuck and Mr. and Mrs. J. Johnston visited relatives at Eden Mills on Sunday.

Miss Ruth Weaver assisted with the program as elocutionist at the Rock Chapel Harvest Home Anniversary.

Mrs. Annie Arnold of Toronto, who has been visiting her sister, Mrs. Wm. Springer, returned to her home last Tuesday.

Mr. D. Springor has purchased a lot on Dundas street just outside the village from S. Frank Smith, and will erect a dwelling on it this fall.

The Misses Higgins and Miss Edgar have returned to their home in Hamilton after a very enjoyable summer spent at the home of Mrs. D. Ribson.

Messrs. Geo Pearson & Sons won 2 firsts and 1 third on three entries of Ayrshire cattle at the Toronto Exhibition, also reserved Junior Championship.

Chicken thieves are again becoming active around Carlisle and Harpers Corners. Several farmers of that neighborhood report the loss of their fowl.

Mr. and Mrs. John R. Ramsey, of Syracuse, N. Y., Mr. and Mrs. John Moore, Dundas, and Mr. and Mrs. Yale, Toronto, were guests of Mr. and Mrs. Isaac Baker over the week end.

A business meeting of the A. Y. P. A. of Grace church will be held in the Sunday school room Saturday evening, Sept. 27, at 8 o'clock sharp. All members are requested to be present.

Mr. Geo. Weaver, who has been managing the S. R. Weaver, Ltd. store here, has been transferred to the company's store at the Delta. Mr. Sam Weaver, Sr. has taken the management of the store here.

The popular song these days in this village seems to be "The Girl I Left Behind Me." Nearly every man and boy one meets on the street is either singing or whistling this popular air. Can it be a case of sour grapes?

There are now 78 pupils attending the High School here. This is a recorded attendance, and almost daily one or more new scholars are added to this number. The Public school is also well attended. The staffs in both the High and Public schools are efficient ones and are certainly making good. Waterdown now has two schools second to none in the province, and are bound to succeed under such able management.

 Prayer Service on Thursday evening at 8 o'clock.

CARD OF THANKS

Mrs. Robert Harvey desires to sincerely thank the King's Daughters and the many friends for their kindness and sympathy during her recent sad bereavement.

Greenville

Mr. and Mrs. J. Surerus and Mr. Lorne Surerus motored to Goderich over the week end.

Master Ivan Gumbert is in the hospital suffering from blood poisoning in his arm.

Mrs. G. H. Greene and little daughter spent the week end in the village.

The School Fair held here this week was a fine success. They was a large attendance, and the exhibits were many and of first class quality, which speaks well for our school.

Thorough Preparation For Business

Fairbanks-Morse "Z" Engine with Bosch Magneto

The Greatest Combination

WHEN the full meaning of this "Z" message is realized—mighty few farmers in this community will fail to at once call on us. This example of master engine-building—must be seen. Type and pictures can but suggest this value establishing achievement. This one possible betterment—Bosch high tension, oscillating magneto—completes a rare engine service, fully maintained by us in co-operation with a nearby Bosch service station

Paying Less for Better Bulls.
A survey recently made in connection with the "Better Sires—Better Stock" campaign carried on by the United States Department of Agriculture shows a general ratio of one bull to every 18.9 cows. Experience, however, in Pennsylvania, the state which leads in the number of bull associations, shows that 93 bulls are sufficient for the 5,604 cows belonging to members of the bull associations, or an average of about one bull for every 60 cows. These figures are taken from the bull association directory recently issued by the Dairy Division, United States Department of Agriculture.

If the members of these associations owned their bulls individually, at the usual ratio of one bull for every 18.9 cows, they would need 296 bulls instead of 93. Yet the 93 bulls give the required service as effectively as 296 would do, and in fact better, because the resulting offspring are better. The association bulls are of better quality than the ordinary run of sires privately owned, and their daughters are apt to be better-producing cows.

Even this does not tell the whole story. After an individually owned sire has been used for about two years it is usually necessary to get a new one. In eight years, therefore, these Pennsylvania farmers, if they owned their bulls separately, would have to provide themselves with four times 296 bulls, or 1,184; whereas in the bull associations at the end of two years they simply move each bull to another block. The original 93 bulls, if they all live and do well, can be used for the whole eight years. There is quite a difference between the cost of 93 bulls and that of 1,184, to say nothing of the difference in their usefulness.

The members of bull associations sometimes pay less and always receive more for their money than cow owners who go it alone.

Clean Threshing Saves Wheat.
Members of the farm bureau of Kittson County, Minn., last year saved \$77,000, or about \$500 to each threshing machine, by using tight-bottom racks, canvas under the feeder, cleaning up when required and after each setting of the machine during the threshing season. A conservative estimate of the saving by clean threshing in this county was 27,500 bushels of wheat, 20,400 bushels of oats, and 10,000 bushels of barley.

To the Farmer:

The purchase of a Piano or Victrola is only purchased invariably once in a lifetime. Therefore it behoves the purchaser to get the best and make sure you have the best.

I have had 25 years experience in tuning and repairing musical instruments, therefore feel quite confident I can choose the best instruments on the market.

I shall be pleased to place any instrument in your home beside any other in fair competition and let you yourself be the judge, without you feeling under any obligations absolutely. I can also save the purchaser quite a few dollars on account of my expenses being so low. I will always give you my best personal service and devote the whole of my time to supplying the country people. A postcard or telephone call will oblige.

Yours truly,

WATERDOWN,

ONTARIO

An Indestructible Fence

(National Crop Improvement Service.)

"Two of the greatest enemies to every farm are bugs and weeds, but if you have a properly constructed fence, you can burn out the weeds along the fence lines without damage and rid yourself of both pests. Besides your fence is grounded wherever a steel post is used and danger to your live stock from lightning is greatly reduced," says Mr. R. S. Rider, president, Canadian Steel & Wire Company.

"The use of steel fence posts has become so general during recent years that there is no longer any question but what they are the solution of the fence post problem.

"While the wooden fence post still has many friends, it is usually not an economy because the labor in making that post and the comparatively short life of the post, makes it much cheaper to buy a steel post of the proper size for the work required of it.

"The steel post when properly made, is heavily galvanized inside and out with an extra heavy coat of rustless zinc below the ground line.

"There is another economy and that is that you can drive the steel posts without digging the holes, and the bottom of the post automatically spreads, making a wedge-shaped anchor to hold the post firmly in place. The man who wishes to sell his farm would be wise to replace his old ramshackle fence with a woven wire fabric on steel posts. It will enhance its value several thousand dollars and give it a look of thrift which is worth good money."

(National Crop Improvement Service.)

"The demand for gasoline is growing day by day and economists are always prophesying that the world's supply will soon become inadequate," says Mr. C. H. Chilton, editor of the County Agent and Farm Bureau.

"Science has already taught us, however, that almost every growing plant contains alcohol which can be distilled at a very low price per gallon, and which in many respects is superior in power to gasoline.

"There is enough waste on every farm to furnish its heat, light and power. The machinery is all available, and it is time that we should give this matter the most careful consideration. The principal difficulty of this plan will be to accumulate enough farm refuse to make the project profitable. Therefore it would be wise to have the outfit owned by some farmers' organization which will first encourage all farmers to supply a proportionate share in order that there may be sufficient material to make the plan successful."

August Farm Hints.

As the grains are harvested the land which is not seeded should, when practicable, be cultivated on the surface so as to germinate the scattered seeds, hold the moisture, and better fit the land for ploughing in the autumn.

Sod land calculated for winter wheat should be ploughed early in the month and harrowed every week or ten days in preparation.

When picking wild flowers do not take the whole plant. Remember leaves and roots are needed to grow again next year.

We hear much these days about planting shrubbery and flowers and establishing good fruit and vegetable gardens on the farm. They all pay in money value as well as added comfort.

Why Not Start a Family Budget?

"Keeping accounts," says a Wisconsin woman, "keeps me from buying bargains I do not need and thus saves me money."

"Just that one lecture at the bank the other day on the household budget," remarked a Duluth woman, "has helped me in a lot of ways."
