## MISS LENEVE IS ACQUITTED OF THE CHARGE AGAINST HER

The Jury Returns Verdict of "Not Guilty" After Being Out 14 Minutes. No Witnesses Called by Defence

### CHIEF JUSTICE'S SUMMING UP IS IN FAVOR OF PRISONER

Crown's Case Hinged Entirely on Evidence of Young Woman's Landlady Concerning Her Agitation

Canadian Associated Press.

London, Oct. 25.—The interest of the public in the Leneve case is quite as keen as in that of Dr. Crippen and standing room was not to be had today at the opening of the trial. The clothes of Belle Elmore, afterwards worn by the prisoner, were shown along the benches ready for production, and a great throng of ladies crowded the public gallery. As soon as Lord Alverstone was seated, Miss Leneve walked in unassisted, appearing quite composed and entering the dock took her position exactly as Crippen had stood.

The clerk then read the charge that, well knowing that Dr. Crippen had committed a felony, Miss Leneve did feloniously receive, comfort, harbor, assist and maintain him. In a firm tone she answered "Not guilty," and then, seating herself, with eyes almost closed and hands clasped tightly together, sat motionless, apparently oblivious of all that was going on round her. The same counsel appeared for the prosecution, while Miss Leneve is defended by E. E. Smith, M.P., one of the leading lights of the Conservative party, and Harrington Wainwright.

Mr. Muir's address. Mr. Muir said the defence could not dispute that Dr. Crippen murdered his wife. Guilty knowledge and guilty intentions were the issues of the case, the issues on which the jury rarely have direct evidence. The jury would look at the facts with a view of discovering the knowledge the prisoner had at the time the acts were done and the intention which she had at the time she committed the deed. Mr. Muir told again the story of the murder and Crippen's interview with Miss Leneve, declaring that he murdered his wife to possess himself of Miss Leneve. He pictured the misery of Miss Leneve on the fatal night. The landlady had said her illness had been of an ordinary kind, something seen in the street with a prisoner with horror. That this state was contemporaneous with the murder of Belle Elmore was undisputed. Was her state of horror due to the knowledge that Crippen had murdered his wife?

Flying From Justice. Mr. Muir referred to the fact that the prisoner had become cheerful after February 2nd and had said that Dr. Crippen had been kind to her. It is unlikely that the wife would desert her husband and leave behind her clothes and jewels. Dr. Crippen, according to the prisoner, had never said that his wife was not returning, but immediately the prisoner wore her dresses and jewels. The Crown prosecutor, after referring to the trip to Dippe, to Miss Leneve's return for the purpose of making her residence at Dr. Crippen's house, and to the fact of the police finding her in possession of them, clothes and jewels, said their flight was plain that they were flying from justice. The newspapers were full of their descriptions, and it was incredible that she had not seen the papers.

Made No Explanation. When Miss Leneve appeared on board the steamer Montrose at Father Point and was charged with being a party to the murder, she made no reply. She became faint, but made no explanation. She was given an opportunity to go into the witness box, but she had not offered any explanation or account of the elaborate preparations taken to prevent pursuit. She assisted Dr. Crippen by disguising herself. She assisted him to evade the police. She assisted by not remaining behind to tell what she knew. The only interpretation the jury can put on the facts was that she knew of Dr. Crippen's crime and assisted him to escape.

Mrs. Martinetti was ill and was unable to appear in court. Mr. Muir read the deposition which she had made at the preliminary hearing in Bow Street. The secretary of the Music Hall guild deposed that Miss Leneve called on her on February 2 and handed her a cheque book and paying book of the Guild usually kept by Belle Elmore.

Inspector Dew's Evidence. Inspector Dew's details of inquiries made for Belle Elmore after her disappearance and of the steps taken to arrest the fugitives, he then related the conversation which he had with Miss Leneve on the Montrose and her assurance that she knew nothing about the crime.

Cross-examined by Mr. Smith. Inspector Dew said he had made inquiries into the past life of the prisoner and had found that she was a convict for ten years. Her father was a canvasser in the coal business and it occurred on January 25 or February 2, 1909, that Mrs. Jackson had been unable to belong to the lower middle class. Dr. Crippen had told Inspector Dew that Miss Leneve knew nothing of prisoner came home as happy as if Belle Elmore. Dr. Pepper repeated a fortune had been left to her. She

## SECRETARY FISHER AND MANAGER HARRISON WILL TAKE EDMONTON EXHIBIT TO CHICAGO

Edmonton's exhibit of grains and grasses at the Chicago stock show which attracted so much attention last year, will be duplicated again this year at the annual show, which opens in the Windy City on November 22. Secretary Fisher, of the board of trade, and Manager Harrison, of the Edmonton Exhibition association, will be in charge of the exhibit. The stock show will last from Nov. 22 to Dec. 3. Large quantities of literature giving information concerning the Edmonton district, will be taken to Chicago for distribution, and a register of exhibitors which will be kept as last year, when many thousand names and addresses were secured.

## TRADE RETURNS FOR HALF YEAR; INCREASE OF FIFTY-SIX MILLIONS

Canada Has Shown Marked Progress—Effect of the Treaties—Business With Germany and France Growing Fast—Purchases From United States Exceeded Those From Britain by About Twenty-Five Per Cent.—Customs Revenue Increase.

Ottawa, Oct. 24.—For the first half of the present fiscal year Canada's trade increased by nearly fifty-six millions, or eighteen per cent., as compared with the corresponding six months from April to September in the inclusive last year. The half year's trade totals \$360,274,850, or over sixty-six millions more than the total annual trade of the Dominion when the first Fielding tariff came into force thirteen years ago, the monthly increase averaging more than nine millions over the record figures of last year.

Imports for the six months ending with September totalled \$223,464,221, an increase of \$50,263,009 as compared with the first half of the last fiscal year. Imports for the last month amounted to \$33,811,254, an increase over the same month last year of \$8,414,817.

Exports of domestic products for the six months totalled \$127,524,432, an increase of \$7,441,177. September exports of domestic products totalled \$24,139,308, an increase of \$226,696.

Customs Revenue. The Customs revenue for the half year totalled \$35,327,704, an increase over last year of \$7,041,177.

An additional evidence of the rapid commercial development of the country is shown by the fact that the importation of coin and bullion for the six months totalled \$4,410,272, as compared with \$1,550,987 for the corresponding period of last year.

With Other Countries. Part two of the annual report of the Trade and Commerce Department, issued today, gives some illuminative statistics with regard to the increase in Canada's trade with the four prin-

cipal countries with which the Dominion does business—Great Britain, the United States, Germany and France. With Great Britain, Canada's total trade during the last fiscal year increased by \$41,011,871; with the United States the increase was \$46,955,810; with Germany \$2,381,449; and with France \$1,696,649.

Last year Canada imported merchandise for consumption from Great Britain to the value of \$26,656,008, an increase of about twenty-five millions over the preceding twelve months. Exports totalled \$24,956,048, an increase of over sixteen mil-

lions. From the United States last year Canada bought goods to the value of \$23,071,155, or about twenty-five per cent. more than from Great Britain. The increase, as compared with the corresponding period of the various Indian States, \$119,854,173 were dutiable, and \$98,689,242 were free. Exports of the Dominion to the United States, which decreased by four millions, totalled \$110,916,326, an increase of sixteen millions. The total trade with the United States last year was \$352,231,327, as compared with a total trade of \$245,533,984 with Great Britain.

Trade with Germany amounted to \$10,405,155, the imports increasing by nearly two millions and the exports by one million. The trade with France was \$12,811,551, the imports increasing by two millions and the exports decreasing by nearly half a million. Effect of the operations of the new French and German trade treaties trade with these two countries this year is showing a very much larger increase.

had brought Mrs. Crippen's clothing and jewelry and had gone about with Dr. Crippen. She knew that the police were making inquiries after the missing person on July 8. Yet on the very next morning both she and Dr. Crippen had disappeared. From what having her hair cut. From what were they fleeing? From the accusation against Dr. Crippen that he had murdered his wife.

He left the members of the jury to apply their common sense and to determine for themselves whether Miss Leneve had any reason for cutting her hair. The charge against her, however, when first charged on board the steamer Montrose and later before the magistrate.

Defence Counsel's Address. F. E. Smith, counsel for Miss Leneve, said that the proposition to come across the most dangerous and most remarkable man of the century. Dr. Crippen was unscrupulous and dominating, leaving neither God nor man, yet he was a man who was insinuating and attractive. If immoral. She was but a school girl, yet she had lived under his influence for seven years before she had been seduced. The Crown had placed great reliance in the agitation of Miss Leneve, as witnessed by Mrs. Jackson. At that very time Mrs. Crippen was alive. Mr. Smith asked the jury not to attach any importance to Mr. Jackson's evidence. There was no other evidence to indicate that Miss Leneve was aware of the murder at or near the time of its commission. In concluding, Mr. Smith said that considering the state of the young woman's health and the horror of her life during the past six months he had not but her into the witness box, which would be necessary for her to submit to the deadly cross-examination of his learned opponent, Mr. Muir.

Judge's Summing Up. Chief Justice Alverstone, in summing up, said the jury must clear their minds of all prejudice. One point to be considered was did the prisoner know when she fled with Dr. Crippen, that he had murdered his wife. They were not sitting in a court of justice to convict on suspicion. They ought to carefully consider what was the probability of this accidental telling

## HAS NOT DISCUSSED A.G.W. WITH MCKENZIE

Premier Sifton Denies Report of Conference With President MacKenzie Regarding Construction of A. & G.W.—Calgary Council Sanctions Eight Pictures

Special to the Bulletin. Calgary, Oct. 24.—After a stormy debate on the report of the power committee, recommending that the city relinquish its application for a power site on the Elbow river, the council tonight passed a resolution that the services of an experienced hydro-electric engineer be engaged to report on the amount of power that could be developed on the proposed site, etc. City Engineer Childs reported that 6,000 h.p. could be developed at \$15 per h.p., but this did not satisfy Mayor Jamieson and an expert report will be obtained.

The council passed a resolution sanctioning the exhibition of the Johnson-Jeffries light pictures in the face of the by-law passed some time ago prohibiting such exhibitions. The pictures were shown tonight at the Empire theatre before a big crowd.

Premier Sifton denied tonight the report sent out from Edmonton that he had had several conferences with President MacKenzie regarding the construction by the C.N.R. of the A. & G.W. railway. I have had no conferences with Mr. MacKenzie on the subject and I did not know he was in Calgary until I saw it in the newspapers," said Mr. Sifton. "The story may be true, but the fact is that the C.N.R. has engineers out in that country looking over the ground."

## STRATHCONA HONORED BY EMPEROR WILLIAM

The Visit of the High Commissioner to the German Capital Resulted in a Complete Success—Spokesman for Unification.

London, Oct. 23.—Lord Strathcona and Dr. and Hon. Mrs. Harvard were among the sufferers from the French railway strike. They held return tickets from London to Berlin via Paris and Cologne, which is the most direct route to get through satisfactorily. Passengers are now being stopped at the German frontier, consequently the party was compelled to return by a roundabout route via Belgium and Ostend.

Lord Strathcona's mission to Berlin was a complete success. He was especially honored by Emperor William by reason of the fact that he was the first Canadian to be received at the residences of the British empire. German officials regard it as especially fortunate that the British university spokesman was also Canada's high commissioner. The incident marks new commercial friendliness between Canada and Germany.

The incident marks new commercial friendliness between Canada and Germany. The German chancellor expressed the hope that Lord Strathcona will be able to convince the Canadian government of the desirability of a trade treaty on the basis of a broad reciprocal treaty on the basis of Canada's intermediate tariff. Germany desires much larger trade with Canada, and the German minister Fielding's arrangement with the imperial consulate at Montreal, of February, 1910, as a mere prelude to this broader convention.

## TRYING TO CATCH SHELDON.

The Authorities of Quebec Hold a Conference and Decide to Have

Montreal, Oct. 24.—Sir Lester Gouin the attorney-general of the province, Mr. Landolt, assistant attorney-general, and Mr. C. D. Sheldon, crown prosecutor for this district, and K. P. McCaskill, chief of provincial detectives, met here today and had a conference of which the missing Mr. Sheldon formed the subject.

Warrants have been prepared and issued for the arrest of C. D. Sheldon, on charges of fraud and false pretences. These have been placed in the hands of the provincial and city forces, and instructions have been issued over a wide territory asking for the arrest of Sheldon.

her about the murder. Would Crippen have told the woman he wanted for his wife that crime. The occurrence of which the landlady spoke, when the prisoner did not know that Belle Elmore had been murdered, it wiped away the charge, altogether. Why should Dr. Crippen have told her a story different from that which he told to every one else. The judge's summing up occupied about half an hour, and the crowded court listened eagerly. Right Hon. Winston Churchill, Home Secretary, occupied a seat on the bench beside the Chief Justice. When the jury returned to the court, they were already pale and she was given a glass of water. After 14 minutes the jury returned to the court. The prisoner rose and stood with eyes cast down. In reply to the question of the clerk, the foreman of the jury said, "Not guilty."

The Chief Justice listened only one word as he discharged the prisoner. Miss Leneve resumed her seat, but did not seem to raise her position until the waitress touched her. Then she arose listlessly and followed the woman out of court.

## MEN MUST HAVE HIGHER WAGES SAYS SMITHERS

Chairman of the Grand Trunk Railway Board Tells the Shareholders of His Recent Trip Through Canada—Prosperity on All Sides.

Canadian Associated Press. London, Oct. 24.—At the half yearly meeting of the shareholders of the Grand Trunk Railway which was largely attended, Alfred Smithers, chairman of the board, gave a sketch of his recent tour through Canada. He visited every place that he visited, he said, he found satisfactory conditions. In his remarks he referred to the demand for higher wages.

"There is no use," he declared, "in attempting to sail against this demand, there is no use thinking that wages will go back to the old level. High wages have come to stay."

With reference to reports of mining in British Columbia and many conditions prevailing there, Smithers insisted that expensive machinery was required for mining operations in that district. Exaggerated reports had been published by speculators in the hope of interesting English investors. Employers of labor in Canada said foreigners did the work better than English.

Smithers warned the workmen going to Canada to adapt themselves to Canadian way of doing things. The chairman found that wherever he turned evidence showed that the wealthy and prosperous of Canada broadened from year to year. Smithers highly commended the efforts of President C. M. Hayes and his staff, and also the directors. He favored the issue of bonds. The report of the accounts were adopted.

## ASSASSIN OF EMPRESS ELIZABETH SUICIDES

Lucenti Hangs Himself in His Cell—Crime Was a Despicable One—Had Planned to Murder King Humbert and Duke of Orleans.

Geneva, October 24.—Luigi Luceni, the anarchist who assassinated the Empress Elizabeth of Austria in 1898, hanged himself in his cell here today. Luceni stabbed the Empress in the back while she was quietly walking along while on a visit to Switzerland. The Empress was a quiet woman and took little or no interest in the politics of Austria-Hungary. She was beloved of the people and her assassination was deeply deplored, and general detestation was expressed of the murderer.

There is no capital punishment in Switzerland, murderers being sentenced to solitary confinement. Luigi Luceni was an Italian anarchist. In September, 1898, he went to Geneva for the purpose, as he said later, of killing the Duke of Orleans. His plan was to return after the murder to Italy and to assassinate King Humbert. On arriving in Geneva, however, Luceni found that the Duke of Orleans had left there. At the same time he learned that the Empress Elizabeth of Austria was stopping at the Hotel Esaurange in Geneva.

He hung about the hotel until the morning of September 10, when he learned that the Empress was going on one of the lake steamers. Going to the lake before her, he hid behind a tree, concealing a pointed file up his sleeve. As the Empress came down the pier, he stabbed her with the file and then tried to escape, but was captured by the police. The press went on toward the boat, but almost immediately lost consciousness from internal hemorrhages. She died in a few minutes.

After his arrest Luceni said he knew his crime was useless, but he had committed it for the sake of example. The Geneva authorities wished to have the assassin tried in Austria, where he would have been executed, but the Swiss Legislature forbade this and he was tried and convicted in Geneva, receiving the severest penalty possible under Swiss law, solitary confinement for life. The court specified that the imprisonment should be "rigorous," but a London journalist who visited the old prison in Geneva in which Luceni was confined in July of the present year, reported that the prisoner was leading an enjoyable life in prison. His employment in prison was bookbinding.

## WHITE SLAVERS IMPRISONED.

Frank C. Williams and Anna Hull Each Get Sentence of Two Years.

Pittsburg, Pa., Oct. 25.—Frank C. Williams and Anna Hull of this city were found guilty of violating the white slave law enacted by congress on June 25th last, by a federal jury in the U.S. District Court today. Williams was sentenced to two years and six months in the Federal prison at Leavenworth, while Miss Hull will serve a like term in the Western Penitentiary here. These are among the first prosecutions under the new law. The trial of offenders have excited wide interest. Miss Hull has brought out in testimony, was proprietress of a resort to which Williams brought his victims from other states.

## FROM EDMONTON TO WILKIE OVER THE C.P.R. SHORT LINE

Through the Country Opened Up by N. W. Line From Winnipeg to Wetaskiwin by Way of Saskatoon—Thirty New Towns Spring Up All Along the Line—Hardship Experiences Great Difficulty in Providing Accommodation for People Passing Through It.

Special Staff Correspondence. Wilkie, Sask., October 22, 1910.—The old timers of Edmonton tell many interesting stories of their trips by York boats up and down the Saskatchewan and Nelson rivers to and from Hudson Bay, others of the long overland trail of the squawling carts from Fort Garry to Fort Edmonton, and still others tell how they came by steamer up the Missouri river to Fort Benton and thence north overland to Edmonton. After the completion of the C.P.R. to Calgary, the C. and E. trail was the main artery of commerce and travel. By and by the Calgary and Edmonton Railway was built to the south bank of the North Saskatchewan. But up to only a few years ago the slow-going tri-weekly mixed train had to stop still the herd of cattle would get up and walk off the track.

The Buffalo's Stamping Ground. Old-timers also tell of the buffalo and the favorite buffalo pasture on the banks of the Crees, of the North Saskatchewan, and the Blackfoot and Bloods of the south. Today the government herd of buffalo feed unmolested on the banks of the Battle river, the old stamping ground of their ancestors. In the old times there was no government save that of the Hudson Bay Company and the power of the chiefs over their own or a weaker defeated tribe.

The Ancient Battle Ground. When scarce of food the red man searched for buffalo; consequently both northerners and southerners met on the favorite buffalo pasture on the banks of the Battle river. Many are the stories told of these interviews, seldom peaceful, for often a horse or a wolf or a scalp wound would be taken home as a trophy of the battle. This part of the west was the stamping ground of the bison and hence the name of the Battle river. The various Indian tribes, who lived here long before the white men arrived.

The Battle Ground of the Railways. The Battle ground because of the pasture and the water, just as since the white settlers have flocked into this district because of the possibility of successful farming. Since the farmers have come and granaries and elevators are more plentiful than wheat, a scale would be levelling down the trails and wallows of the buffalo, there is a new epoch in the transportation system of the country. The Battle ground of the railways, there may be seen the battle ground of the railways heading for Edmonton—C.N.R., G.T.P., and two branches of the C.P.R. almost parallel each other.

The C.P.R. Short Line. As the C.P.R. short line from Edmonton to Wilkie was completed, it will be an active factor in the healthy competition for freight and passenger traffic, a representative of the Bulletin has been sent as far as Wilkie, the second divisional point east from Wetaskiwin, and the readers of the Bulletin will have an opportunity of learning something of the wonderful development along this line.

Stop to Eat and Sleep. The journey is now made by easy stages. At Carleton Place the train is unshipped to do some shunting and the passengers take tea or fill up on grub at one of the hotels or restaurants. The train is crowded, because the district between Wetaskiwin and Hardisty is well settled and there are a number of growing towns worthy of fuller mention at a later date.

Many are the stories told by the travellers of the hard time to get accommodation at Hardisty, unless you are a regular. For here at Hardisty the east and the west-bound trains meet, rest over night and return in the morning to Wetaskiwin and Wilkie. The train stops and the stamped for beds begins. It is said that some nights the crowd is so great that resort is had to the berths in the colonettes in the train standing in the yard. But the C.P.R. will soon improve their accommodation along this line and arrange a faster schedule, to keep pace in their battle for traffic in competition with their rivals. It is said that the Railway Commission will not allow fast passenger travel until the road bed has settled solidly.

Eastward Beyond Hardisty. Early in the morning the train returns to Wetaskiwin, and an hour later the east-bound leaves for Wilkie. A description of Hardisty, a growing town with splendid prospects, and beautifully situated on the bench land of the Battle river, will be reserved till another time. After crossing the valley on a long trestle, a station is passed over a few miles. At some stations there is only a platform and a siding, at other a store or perhaps a few other buildings; the terms of the bill of fare may be in a short time. The Hardisty, seek incorporation and the dignity of a mayoralty election campaign.

Into Saskatchewan. Passing Cadogan and Provost, worthy of fuller mention later, the train crossed the boundary into Saskatchewan. There are a number of towns along the line. Washburn's Guide is supposed to be up to date, but even its map can't keep pace with railway development in the west. Macklin is a junction town, though merely marked as a station on the map. From here a line is already constructed south-easterly for a considerable distance and new towns have been born since Washburn's Guide was last printed, for they are not marked therein.

This line is to be extended to connect with Outlook and Moose Jaw and Portage, and will mean much to Edmonton and to the settlers who came in via Fortin, Moose Jaw and Calgary. Now there will be a short cut direct from the Soo line, via Outlook, Moose Jaw, Hardisty, and Wetaskiwin to Edmonton. Soon Calgary will be in a far-away corner, and the railways leading north-westward to Edmonton will be as numerous as were the old cart trails leading from the Red river, in the time when that trade route held the monopoly of travel.

Moving Picture of Senlac. Looking out of the window as the train moves faster now over an improved roadbed, an interesting panorama of country stretches out on either side. There are fields of stubble, large black blotches of breaking, straw stacks, granaries, and sheds with many fine painted frame residences or an occasional home built of sods near the remains of a well-kept garden.

The train clatters over a switch, a moving picture appears at the window. A store, two lumber yards, an implement yard, a livery barn, a restaurant, a box-car palace with a lace curtained window come into view. The word Senlac is painted on the end of the box-car. Here, where the train stops while the engine waters at the tank or shunts a car to the grain-loading platform or the stock yards on one of the sidings.

Young Senlac. Three months ago Senlac was only a siding. Now fifty settlers get their mail here. More of them came in this year and are homesteaders of a sort, who intend to make their "home." Much breaking has been done and it is expected an elevator will be erected before next harvest. Senlac suggests the historical conquest of Saxon England, where the Norman Conqueror, but this Senlac, on the old battle ground of the buffalo hunters, is but an incident in the battle between the railway corporations and the conquest of the west by the army of grain growers. Leaving Senlac behind we pass the other train at Buceleub, where there is, or was at that time, only a platform and a small box to hold the shipping list. In the west the can't not tell what development a short time will bring forth in these western towns, which count their ages by months and weeks.

Cross G.T.P. Near Unity. Near Swinbourne the C.P.R. crosses the G.T.P., with its elevators and business houses, passing Adams (named after Canada, spelt backwards, but not by any means backward town) the train passed Philippen, a progressive town. The total emigration from Europe to Canada, of 94,800 persons, of which number 57,700, or 60 per cent. were destined to the older provinces of Ontario, Quebec, New Brunswick and Nova Scotia. The total emigration from Europe, the United States and other countries was 208,794 persons, of which 85,300 or 40 per cent. being destined to the eastern provinces, including Ontario and Quebec, the balance going to the western provinces. For the two months of April and May, 1,510 were destined to Ontario and 2,470 to Quebec, or 50 per cent. These two provinces alone.

Ottawa, Oct. 24.—Senator Frost of Smith's Falls is much improved today, though it will be some time before he can leave the hospital.

keep pace with railway development in the west. Macklin is a junction town, though merely marked as a station on the map. Ottawa, Oct. 24.—Senator Frost of Smith's Falls is much improved today, though it will be some time before he can leave the hospital.

Police Not Being Notified He Was a Fugitive Allowed Him to go Unmolested.

Montreal, Oct. 24.—Sheldon, the abducting broker, is all probability in Pittsburg. He was there as late as last Thursday, Washburn, with whom the Montreal broker has been identified, was met in the slumby city that day by a detective, Robert Wilson, of Scranton. The police of the United States, in common with those of the principal cities of Canada, not being notified that Sheldon is a fugitive from the laws of the Dominion, allowed him to go unmolested. Efforts are now being made to locate the fugitive.

SETTLE IN OLD PROVINCES. Montreal, Oct. 24.—The steamship and railway reports for the twelve months ending March 31st, 1910, show the total emigration from Europe to Canada of 94,800 persons, of which number 57,700, or 60 per cent. were destined to the older provinces of Ontario, Quebec, New Brunswick and Nova Scotia. The total emigration from Europe, the United States and other countries was 208,794 persons, of which 85,300 or 40 per cent. being destined to the eastern provinces, including Ontario and Quebec, the balance going to the western provinces. For the two months of April and May, 1,510 were destined to Ontario and 2,470 to Quebec, or 50 per cent. These two provinces alone.

Ottawa, Oct. 24.—Senator Frost of Smith's Falls is much improved today, though it will be some time before he can leave the hospital.

CALGARY BALL TEAM IS \$2,100 IN THE HOLE

Would-be Champions of the Western Canada League Made a Big Hole in the Finance—Subscribers to Stock Now Turning Down Drafts

(WEDNESDAY'S DAILY)

Calgary, Oct. 25.—The Calgary Athletic Club, Limited, which is the Calgary Baseball Club under its official name, finished the season of 1910 just \$2,100 to the bad, and the shareholders are beginning to ask how and why. They are also asking just when a meeting will be called and a statement presented to them. In the meantime they are turning down the drafts of ten days which are being sent out by the management in their endeavour to reduce the deficit which is at present being carried by the "Traders Bank of Canada. That the drafts will continue to be sent back until a meeting of the shareholders is called in the statement made by a number of prominent business men in the city who were interviewed on the subject Saturday. Many of them take the stand that they had subscribed stock this season on the understanding that a new ball park would be purchased, and that a meeting is held and good reasons why the ball park was not purchased given to the shareholders, they would refuse to take up the balance of the stock. In this case they will in all probability never take up the stock for at the present time they are going to be no way of finding out when, if ever, a meeting will be held.

In the circular letter sent out by the secretary to the shareholders advising them of the drafts and asking that they be taken up, it is stated that as soon as the management can secure a meeting of the league, they will be in a position to call a general meeting of the shareholders and present a detailed report of the transactions of the year. Saturday, however, Secretary Hornbrook said that a statement had been prepared already, and had been given to the directors, but the reason a meeting had not been called was because Clifford B. Reilly had been absent from the city for some time, and they were waiting on him to call a meeting of the shareholders.

Mr. Reilly has been back in Calgary over a month, and when interviewed on the subject Saturday said that he knew of no reason why a meeting of the shareholders could not have been held at some time ago, or at any time in the present.

"It is not up to me," said Mr. Reilly, "I have nothing to do with it at all. It is up to President Middleton."

But Mr. Middleton talks differently. "It is up to the secretary," he replies to a question as to when the meeting would be called. Briefly, the situation appears to be that Secretary Hornbrook thinks it is up to Mr. Reilly, Mr. Reilly thinks it is up to President Middleton, and Mr. Middleton thinks it is up to Mr. Hornbrook, so that unless these three get together and make some arrangement, the prospects of a meeting in the future are very remote.

Where Mr. Reilly enters into the matter is also causing some discussion, for as far as is known, he has to do with the club is that he acted for the company when it was being incorporated. President Middleton is an actual recipient of the club's affairs of the club. Alongside him the aphinx is a very garrulous personage.

"I know nothing about any drafts," he said sharply Saturday when queried as to why they were being sent out, and why they were being turned down. "I haven't any information at all to give out," was his reply to further questions. "This is a private matter, and I have nothing to say, and no explanations to make to anyone. This was all he would say on the matter, and he was asked to give up the farm and away or his life will be taken. Letters have been received to which the writer represents as the involuntary agent of any of Smeltzer, who will brook interference with his plans. The affairs of the family are not only but mystified. They have been that they possessed the friendly of their neighbors far and near, and are at a loss to know whom any of the threatening letters have forwarded to the attorney-general's department, two have been sent from the Smeltzer home, and one is in the possession of Mr. W. Holmes, of Selkirk.

Smeltzer has taken the mandatory very seriously. He has advertised a sale of his stock on the farm.

Five Months for Shooting. In E.C. Oct. 23—Mike Barone, an Austrian, was convicted on a charge of shooting a cottontail rabbit with intent to do grievous harm and was sentenced to five months of which two expired the trial.

For sale by all dealers.

THE ESKIMOS IN GOOD SHAPE FOR BIG GAME

Edmonton Team Will Have Strong Line-up for Monday's Game in Calgary—Special Train Expected to Carry 200 Supporters of Team from Capital.

(WEDNESDAY'S DAILY)

With two full teams out last night the Eskimos had a rattling good practice for their game next Monday in Calgary and the rate the boys are going augurs well for their trip south this year. Under the watchful eyes of Messrs. Balenger, the coach, Rev. R. Pearson and Deacon White the boys were put through a gruelling practice for one hour steady, the signals and before this the coach had them chasing down punts on the halves and chasing free kicks down the field until all were pretty well puffed. The majority of the boys are all in fine shape and although they look for a hard game next Monday, they are confident that their intention of long end of the score when the whistle sounds at the end of the play.

No officials have yet been selected and it is no easy matter to find ones willing to take the game, but no doubt at the last minute suitable men will be selected. The team will leave on the Rugby Special Saturday night at 12:00 o'clock, and there will be fourteen players, two spares, Sec. Treas. McPherson and Manager Ben. Smith along with them. Coach Balenger and Mrs. Balenger will be so accompany the boys, as say nothing of a couple of hundred fans who have announced their intention of cheering on their favorites to death or glory in the Cow Tower.

The most of the players are glad that it is the Tigers whom they are to play. No reasons are given, but they are confident that they have proven themselves gentlemen both on and off the field and it is a pleasure to play them either here or in Calgary as each team will be better than take such bumps that naturally occur in rugby in a good manner. The half line will be composed of the following players: Wilson, Grant, McCarthy and O'Donoghue, Tommy Dykes of course being at full back. The scrummen will be Battersby, Jones and Alex. Macdonald, and the wing line will be chosen from the following players: Bishop, Stark, Gibson, (capt.) Macdonald, C. Parsell, Kennedy, Conway, Coombe, Roughton, Murphy and White. The quarter-back position is still in doubt, with Crickmore, Roughton and Mervin trying for the practice.

Another practice is called for Thursday night at 5:00 sharp, and every one above is requested to be on hand sharp as the nights are closing in and it is quite dark down below the hill at six. A game has been arranged with the University of Alberta for Saturday afternoon, and although it will only be a practice on as it is too near Monday to take a chance on the boys' progress being hurt, it will give the players a good work-out for their game on Thanksgiving Day. This will be the first appearance of the boys in Edmonton and no doubt will be a game worth watching.

The special train, commonly known as the Rugby Special, will leave here Saturday night with a good bunch of rooters that are well known in Edmonton in any line of sport, and will arrive in Calgary on Sunday morning at 8:00. From the place and night at 12:00 Calgary will see nothing but blue and white ribbons floating around. The tickets will be sold by those in charge of the excursion as the club is not running the same, and may be had at the Hotel Cecil and the Hotel Windsor.

F. B. Barnes or Doc Wilson, who will, on receipt of the sum of \$3.95 return the tickets to the holder to be used on the C.P.R. ticket office at 8:00 a.m. on Thursday morning next, will be the holder to a ticket for the trip.

There will be no tickets for the excursion on sale at the C.P.R. ticket office, but only those places and persons named above and persons intending taking the trip are strongly advised to buy their transfers early so that accommodation for all may be provided.

With regard to the berths on the special the price for transfers is \$2 in Calgary and must be paid for at the time the berth is reserved at the C.P.R. offices.

BASEBALL. DAVIS LED THE BATTERS. The following are the batting averages of Philadelphia and Chicago for the five championship games. It will be seen that the Americans out-hit the Cubs at all stages of the game. Philadelphia has a team batting average of .316, while the Cubs only hit .240, as follows:

Table with columns: Philadelphia, A.B., R., H., Pct. and Chicago, A.B., R., H., Pct.

WRESTLING. ORDEMAN WINS CHAMPIONSHIP. Minneapolis, Oct. 25.—Henry Orde-man defeated Kid Cutler at the Auditorium last night, the latter being the champion of the Minneapolis area. Cutler had gained the first fall in 40 minutes and 40 seconds.

Wrestling. Orde-man won the championship by a 2-1 decision. Cutler's right knee was broken in two places by the bone-smashing grip in the second fall, and several doctors pronounced him unable to get up to his feet. Because of the broken knee Orde-man's victory was not so clean cut as many of his 1908 friends had hoped for. When it was known that Cutler could not reappear, Referee Frank Ritchie declared the match and the Orde-man championship forfeited to Philadelphia.

JACK JOHNSON WAS NO MATCH FOR OLDFIELD

Only Two Heats Were Needed to Settle the Question of Superiority as a Racing Automobile Driver—New York, Oct. 25.—The ambition of Jack Johnson to annex other honors as a racing automobile driver, received a slight here this afternoon at the hands of Barney Oldfield. Johnson showed to poor advantage in his new role and Oldfield toyed with the big fighter.

Only two heats were needed to settle the question of superiority. In the first heat Oldfield ran away from Johnson. He was quicker to get away and Johnson's car never showed ahead.

Chicago, Oct. 25.—"Battling Back" has apparently "come back," and from now on he will have plenty of opportunity to show his real worth. The hand sharp as the nights are closing in and it is quite dark down below the hill at six. A game has been arranged with the University of Alberta for Saturday afternoon, and although it will only be a practice on as it is too near Monday to take a chance on the boys' progress being hurt, it will give the players a good work-out for their game on Thanksgiving Day.

THE RING. BAT NELSON HAS "COME BACK" Chicago, Oct. 25.—"Battling Back" has apparently "come back," and from now on he will have plenty of opportunity to show his real worth. The hand sharp as the nights are closing in and it is quite dark down below the hill at six. A game has been arranged with the University of Alberta for Saturday afternoon, and although it will only be a practice on as it is too near Monday to take a chance on the boys' progress being hurt, it will give the players a good work-out for their game on Thanksgiving Day.

DEPUTY MINISTER INJURED. Was Violently Thrown From Toronto Street Car and Sustained Contusion of the Brain. Toronto, Oct. 25.—Deputy Minister Aikland, of Ottawa, was alighting from an Avenue Road Hill car on Saturday night, when the car, owing to wet rails started to slip down hill and Aikland was thrown violently, striking the back of his head. He was removed to his Brother-in-law McIntosh's residence where he lay for some time, but he was attempting to leave the wreck. Three passengers also are missing. The others of the passengers and crew were rescued.

JACK JOHNSON WAS NO MATCH FOR OLDFIELD

Only Two Heats Were Needed to Settle the Question of Superiority as a Racing Automobile Driver—New York, Oct. 25.—The ambition of Jack Johnson to annex other honors as a racing automobile driver, received a slight here this afternoon at the hands of Barney Oldfield. Johnson showed to poor advantage in his new role and Oldfield toyed with the big fighter.

Only two heats were needed to settle the question of superiority. In the first heat Oldfield ran away from Johnson. He was quicker to get away and Johnson's car never showed ahead.

Chicago, Oct. 25.—"Battling Back" has apparently "come back," and from now on he will have plenty of opportunity to show his real worth. The hand sharp as the nights are closing in and it is quite dark down below the hill at six. A game has been arranged with the University of Alberta for Saturday afternoon, and although it will only be a practice on as it is too near Monday to take a chance on the boys' progress being hurt, it will give the players a good work-out for their game on Thanksgiving Day.

THE RING. BAT NELSON HAS "COME BACK" Chicago, Oct. 25.—"Battling Back" has apparently "come back," and from now on he will have plenty of opportunity to show his real worth. The hand sharp as the nights are closing in and it is quite dark down below the hill at six. A game has been arranged with the University of Alberta for Saturday afternoon, and although it will only be a practice on as it is too near Monday to take a chance on the boys' progress being hurt, it will give the players a good work-out for their game on Thanksgiving Day.

THE WESTERN CORRESPONDENCE SCHOOL. We prepare by mail, students for matriculation, Civil Service, Teachers' Certificates, Commercial Diplomas or any college course. Write for particulars. Address 398 Victor St. Winnipeg

NOTICE. On and after thirty clear days from the date of this notice, viz. on the 21st day of October, 1910, the available quarter sections in the following townships will be open for entry: Township 27, Range 22, West of the 5th Meridian.

DEPUTY MINISTER INJURED. Was Violently Thrown From Toronto Street Car and Sustained Contusion of the Brain. Toronto, Oct. 25.—Deputy Minister Aikland, of Ottawa, was alighting from an Avenue Road Hill car on Saturday night, when the car, owing to wet rails started to slip down hill and Aikland was thrown violently, striking the back of his head. He was removed to his Brother-in-law McIntosh's residence where he lay for some time, but he was attempting to leave the wreck. Three passengers also are missing. The others of the passengers and crew were rescued.

Wrestling. Orde-man won the championship by a 2-1 decision. Cutler's right knee was broken in two places by the bone-smashing grip in the second fall, and several doctors pronounced him unable to get up to his feet. Because of the broken knee Orde-man's victory was not so clean cut as many of his 1908 friends had hoped for. When it was known that Cutler could not reappear, Referee Frank Ritchie declared the match and the Orde-man championship forfeited to Philadelphia.

EDMONTON NEWS

EXCURSION TO CALIFORNIA. A huge railway excursion from Alberta to Southern California during the coming winter is being arranged by two United States railway officials at present in the city, John M. Scott of Portland, Oregon, assistant general passenger agent of the Oregon Railroad and Navigation Company, and Southern Pacific Oregon lines, and W. R. Skey, of Spokane, travelling passenger agent of the same lines.

From points in Alberta and British Columbia a fare and one-third rate will be given to Spokane over the C. P. R. lines. From Spokane a \$99 rate will be given to Los Angeles and return, including meals and berths. The excursion will be run on lines similar to the annual excursion by the Spokane Chambers of Commerce.

FORGED CHEQUE AT WEDDING. Found guilty of forging a cheque for \$5.20 to defray the expenses of attending a Ruthenian wedding.

John Gawineczuk, an eighteen-year-old, was released on suspended sentence at a sitting of the District Court at Vegreville on Friday last week.

Peter Bahry, charged with uttering the same cheque, was acquitted.

The forged cheque was made out by the Edmonton City Dairy to a supplier of Mrs. J. E. Graham. Gawineczuk said he got the cheque in a letter from his father, who in turn, giving evidence, said that he had got it from the post office in Chipman.

Gawineczuk and Bahry were attending a Ruthenian wedding in June last, together, and wished to attend another matrimonial celebration at a house some miles distant.

Neither had money to hire a team, but Gawineczuk told Bahry that he had a cheque which he received for selling cream separators. Bahry advised him to write his name on the back of it, the same as on the front and it would be as good as cash.

Bahry, the only one of the two who speaks English, took the cheque to the proprietor of a Vegreville livery stable and hired a rig for \$3 and received \$2.20 in change. The paper went to the wedding. A few days later, when the forgery of the cheque was discovered, they were taken in charge by the Mounted Police.

In consideration of his youth the boy found guilty of forging the cheque was let go on suspended sentence. As it was not proved that Bahry knew the cheque was forged when he negotiated it for his companion, he was acquitted.

STOCK ASSOCIATIONS FORMED. An organization meeting of the Alberta Provincial Live Stock Association was held Monday afternoon in the Board of Trade rooms.

There was a representative attendance of stock men and the four associations, covering every branch of the live stock industry, formed tentatively last year under the auspices of the Edmonton Exhibition Association, were placed on a permanent basis.

The meeting was presided over by A. B. OF VALUE TO HORSEMEN. Do you turn your horses out for the winter? If so, we want to call your attention to a very important matter.

Horses which have been used steadily at work, either on a farm or in a city, have quite likely had some strains whereby lameness has been caused.

Or perhaps, new life is needed by the horse. Gombault's Caustic Balsam applied in proper directions, before turning the horse out, will be of great benefit, and this very successfully.

A great advantage in using this remedy is that after it is applied it needs no care or attention, but does its work well and at a time when the horse is having a rest.

Of course it can be used with equal success while the horse is in the stable, but many people in turning their horses out some excellent brood mares and one-year-old colts.

Athabasca Landing, Oct. 20.

Campbell, president of the Exhibition Association. Hon. Duncan Marshall, minister of agriculture, was appointed honorary president of each association, and G. Harrison was appointed secretary of the four.

Officers for the different associations were appointed as follows: Alberta Provincial Horse Breeders' Association, Limited—D. R. Stewart, president; G. H. Cresswell, vice-president; directors, D. W. Warner, J. Rye, J. B. Lubbock, Dr. J. B. Shearer, Dr. L. E. W. Irving.

Alberta Provincial Cattle Breeders' Association, Limited—President, G. H. Cresswell; vice-president, J. H. Melick; directors, Frank Smith, Wm. Golley, J. Rye, Wm. Keith and J. A. Davis.

Alberta Provincial Swine Breeders' Association, Limited—President, F. T. Shaw; vice-president, D. W. Warner; directors, G. H. Grier, H. H. Quebec, T. Weeks, J. Rye and J. A. Davis.

Alberta Provincial Sheep Breeders' Association, Limited—President, Jas. McCall; vice-president, J. Rye; directors, F. H. Herbert, Geo. R. Ball, Alex. Taylor, J. C. C. Bremner and William Keith.

The meeting named the presidents of the respective associations after consulting with their directors to be a committee to meet the representatives of the Calgary associations and the Minister of Agriculture.

INNISFAIL. Bulletin News Service. Large quantities of cattle are still being shipped by J. B. McMillan for P. Burns & Co., some 1,200 head having already gone and more to follow.

Mrs. G. W. West who has been seriously ill for the past two weeks is gradually getting better.

The Rev. J. M. Millar, M.A., B.D., of Strathcona, will preach at the Presbyterian church anniversary services on 30th inst.

There is up to now no candidate nominated for the vacancy on the town council.

On Thanksgiving day the 31st inst., the ladies of the Presbyterian Aid are putting on a grand dinner of fowls, etc., in the lecture hall of the church from 6 to 8 p.m. and a success is anticipated as usual with the aid.

The Calgary Rifle team which competed against the local team here, went on to Edmonton and were defeated by 22 points. At a banquet given by the local team, the members of the annual match next season at Innisfail for the shield at present held by Calgary.

A bad fire occurred at Bowden last week but fortunately without injury to life. The blacksmith shop owned by S. A. Whitford was destroyed.

The origin is unknown, but the ground of the townpeople, being at an entertainment at McCue's hall at the time.

Mr. Soronen lost a valuable automobile, the one which he had recently purchased and which was undergoing a thorough overhauling. Loss about \$2,000 altogether and on insurance a small loss included in large stock of carriage material.

At the masquerade ball of the Bowden Bachelors' Club, Miss Anna Hay, representing "Red Wing" was awarded first prize and Miss Bessie Brewster "Queen of Hearts" second prize.

Mr. W. Watt of Innisfail and Mr. D. Leiting of Bowden, took the prizes in the men's class, as "a clown" and "Uncle Sam" respectively. Amongst other interesting costumes were Miss Anna Frederickson "Irish Molly"; The Misses Lundy "Twin Folly"; H. Dell, "trooper"; F. Wilson, "policeman"; C. Latimer, "choy"; and J. Saunders, "clown". After supper at midnight a most enjoyable dance was held up to about 2.30 a.m.

A burglary at the Pine Lake store (Mr. Attee's) resulted in five men arrested last week by Sergeant H. Townsend. R.N.W.M.P. being tried before F. W. Bernard, J.P., at Trochu, and being sent down to Calgary for trial.

Innisfail, Oct. 22nd.

ATHABASCA LANDING. Bulletin News Service. Mr. Fred. Whitaker of Calgary was in town a few days, the past week on business.

Mrs. R. C. Farrell returned last Saturday from St. Albert, where she had been visiting relatives.

Max Pellinet is spending a couple of weeks' holidays in Edmonton. The N. T. Co. steamer Northland Call made two round trips to Mirror Landing the past week. The company have hauled their steamer Northland Sun out of the river and blocked her up for the winter.

Wm. Gordon of Fort McMurray is engaged this week in loading his snows with his winter's supply of goods for his trading post. He expects to leave for down stream the end of this week.

R. C. Farrell is this week moving into one of I. Gagnon's new residences on Cole street.

Government Engineer Z. Malhot returned Wednesday from a trip of inspection to Grand Rapids, where the government are blasting and improving the channel of the river. The gasoline launch belonging to the department of public works is being taken out of the water today. Further supplies for Grand Rapids will go down by flat boats.

The steamer Northland Call left for a trip to Pelican Rapids with a load of freight for Revillon Bros. for their Wabasca post.

Peter Perry's herd of horses, numbering over one hundred and fifty, arrived in the town on Wednesday. They were driven overland from Montana and is going to winter his horses at Baptiste Lake, and in the spring go on to Peace River.

TO TAKE THE PRINTS OF CONVICTS' THUMBS

Inspector of Dominion Police Arrives in City to Secure Means of Identification of All the Prisoners in the Edmonton Penitentiary.

For the purpose of getting the thumb prints and photographs of all the prisoners in the Alberta penitentiary, E. Foster, Inspector of Dominion Police, and J. P. Quinn, a Dominion police officer, arrived in the city this morning and are guests at the Alberta Hotel.

Just recently, according to Inspector Foster, the authorities at Ottawa have decided to establish a Canadian Criminal Identification Bureau, but as yet no officers of any kind have been opened. The prisoners have been put into the hands of Inspector Foster, and he is at present on a trip through Canada for the purpose of visiting the principal penitentiaries of the Dominion.

System Will Broaden Out. At all these institutions the fingerprints and photographs of the convicts will be taken and when this is completed, offices of the Canadian Criminal Identification Bureau, there established at Ottawa, where these photographs and finger prints will be kept.

As yet the Canadian Criminal Identification Bureau is in its infancy, and the system will only be applied to the penitentiaries in the Dominion, but it is thought by Inspector Foster that within a few years the finger prints and photographs of all the inmates of the jails, as well as the convicts in Canada, will be in the possession of the Criminal Identification Bureau of Canada.

Great Aid to Police. "The establishing of this bureau in Canada," said Inspector Foster to the Bulletin this morning, "will be a very material aid to the police. It will, in fact, be also to the police department of foreign countries, and especially in the case of the Canadian Bureau, and it, during any time of his career, the convict has served time in Canadian penitentiaries or in any other country."

"For many years," continued the Inspector, "Scotland Yard detectives have been identifying prisoners by means of finger prints, but up to a very recent date this important means of identification has not been used extensively by the police."

Fingers Differ Entirely. "It is a remarkable fact that no two men living have been found to have fingers which are the impressions exactly the same. There are always some slight differences in the impressions of a man's fingers, and it is by means of these differences that the police are able to identify a man by his fingers which may have been taken twenty years ago."

"Of course, the fingers may be mangled and deformed with age or work, but unless an accident has happened to the man which has mangled or deformed his fingers he may be identified."

Inspector Foster has been many times in the Dominion police for many years and was in the Dominion of Scotland Yard, London. While a Scotland Yard detective he paid special attention to the identification of convicts by means of finger prints and in that department is considered an expert. He will remain in the city for a couple of weeks, after which he will proceed to New Westminster.

WETASKIWIN. Bulletin News Service. Mrs. G. H. West last week for a short visit to the coast.

Mrs. Nelson C. Legge of Toleda is visiting her mother, Mrs. Bearsto, at Lethbridge, and J. Saunders, "clown". After supper at midnight a most enjoyable dance was held up to about 2.30 a.m.

A burglary at the Pine Lake store (Mr. Attee's) resulted in five men arrested last week by Sergeant H. Townsend. R.N.W.M.P. being tried before F. W. Bernard, J.P., at Trochu, and being sent down to Calgary for trial.

RODE FIVE HUNDRED MILES ON HORSEBACK

The Long Journey Successfully Accomplished by Mr. and Mrs. Cockrane, American Farmers, Who Have Located in Grande Prairie.

To ride five hundred miles on horseback is a feat which requires strength and endurance, but such a journey has just been completed by Mrs. Robert Cockrane, who, accompanied her husband, rode in from Twin Lakes, Grande Prairie, to Edmonton in sixteen days, arriving in the city last week. The journey was accomplished without mishap and although Mrs. Cockrane is somewhat shaken up and tired she is otherwise none the worse for her journey.

Almost three months ago a party of five Americans, Mr. and Mrs. Cockrane, and Mr. and Mrs. James Moore, Grand Prairie, arrived in Edmonton with the intention of settling on land in the Edmonton district. Both men intended to take up scrip and photographs as well, and in fact it was impossible to get the land in one large block in the Edmonton district, they decided to try the Grande Prairie country.

They took Klondike Trail. Early in August the party started out with four horses (a democrat and a gray) and a pack trail for some months. They took the old Klondike trail, which runs south of Lesser Slave Lake, and the trip was an arduous one. They met several parties who advised them to turn back, but they pluckily kept to the trail, had it was, and after four weeks' travel, arrived at Grande Prairie. Five rivers were forded during the journey and no less than three times were they mired in what seemed to be bottomless mud. On arriving at Twin Lakes, Grande Prairie, Mr. Cockrane took up four scrips, two in his wife's name, and two in his own. He also homesteaded, thus acquiring 1,280 acres of land for himself and wife. Mr. Moore took up the adjoining 800 acres by taking up two scrips and also homesteaded.

No attempt was made to clear the land as it was necessary that they return to Lesser Slave Lake and clear on the land as soon as possible. Otherwise some other landseeker might possibly find it before them.

Mr. and Mrs. Cockrane decided to ride on to Lesser Slave Lake and secure the land for the whole party, leaving the Calgary party to follow more slowly with the team and democrat wagon. This was accomplished satisfactorily and after remaining a day at Lesser Slave Lake, they returned to the Calgary party, and the five proceeded more leisurely to Edmonton.

Peculiar Accident. A rather peculiar accident happened to Mr. S. Cochran on the journey in White sitting before a camp fire on the Klondike trail. A small chick, a celluloid comb which she was wearing in her hair suddenly exploded and burst into flames.

Her presence of mind in thrusting her hands into the water which was standing nearby, saved her from sustaining a nasty burn. The only reason Mrs. Cochran can give to explain the occurrence is that she must have had her head too close to the flames.

In Mr. Cockrane's opinion the land near Grande Prairie is better than Grand Prairie in that the country is almost level, but otherwise the soil is almost the same. In January both families will return to Grande Prairie by the winter trail, taking with them eight oxen, four horses and a complete outfit of farming implements.

NORTHERN STEAMER SANK IN SLAVE RIVER. Northland Light Struck Rock in Lesser Slave River—Was Beached—Five Lives of Water—Mr. and Mrs. J. K. Cornwall on Board—Damage to Boat Very Slight.

Bulletin Special. Athabasca Landing, Oct. 25—J. K. Cornwall, M.P.P., for Peace River, accompanied by Mrs. Cornwall and two passengers, arrived here this morning by open boat from the north, after a very hard trip. While coming down the Little Slave river they struck a rock in Northland Strait and the steamer was beached, where she sunk in five feet of water. The steamer is now resting on a mud bottom. There were no lives lost, and the damage to the steamer was light. No freight was lost. The passengers arriving this morning continued their trip to Edmonton by stage. Mr. and Mrs. Cornwall will remain here till Friday.

REMAINS OF YOUNG GIRL FOUND. Two Men Already Charged With Abduction—Re-Arrested on Murder Charge.

The fourth mail will leave Edmonton on the first week in March for Fort McMurray, Fort Chipewyan, Smith Landing and Fort Smith.

SEARCH BEGUN FOR LOST BALLOONISTS

Two Missing Aeronauts May Have Fallen Into One of the Great Lakes—They May Have Drifted Out to the Atlantic Ocean.

Ottawa, Oct. 24.—An organized effort to locate Alan Hawley and August Post, the crew of the missing balloon America II, was inaugurated here tonight when Edmond F. Stratton of New York, a member of the Aero Club of America opened a bureau to conduct enquiries throughout Eastern Canada in some parts of which the unreported aerostats is believed to have taken ground.

In the possibility, that the missing aeronauts may have fallen into one of the great lakes, or even passed the Province of Quebec, in eastern Canada and been lost, is realized, but the strong probability tonight was held to be that they have landed in one of two immense tracts of Canadian wilderness.

One of these districts lies between Lake Huron and Hudson Bay. The other comprises a triangle in eastern Quebec, thousands of square miles in extent.

New Record for Altitude. New York, Oct. 24.—The third day of international aviation met at Belmont Park today made up for all the damp, cold and disappointment of the first two days. A new record for altitude of seven thousand, one hundred and fifty feet was set down to the credit of Jarrostron. The best previous record was six thousand one hundred and seventy-five feet made by Walter Brookings at Atlantic City, and Drexler's own best record made last summer in Great Britain was six thousand six hundred and seventy feet, at the time of the world's record. The world's altitude record is nine thousand, one hundred and eighty feet, held by Henry Wynnman, a Hollander.

Dirigible Nearly Hit Schooner. Norfolk, Conn., Oct. 24.—When an auxiliary fishing schooner, Ada Bell put in here last night the crew told of a narrow escape they had of being hit by the equilibrium of Wellington. The boys look very proud indeed of their "soldier" clothes and take a keen and renewed interest in their drill.
