# Please The Children

by making bread that appeals to their taste as well as giving nourishment to their system. Ask the average child which it prefers, bread or cake, and it will invariably answer, "Cake".

That is because the bread is not as tasty as it might be. It lacks that delicate, sweet, appealing flavor that children relish so heartily, and that is just as easy to provide as the nourishing properties.

## "Beaver" Flour

is the stand-by of every thinking mother and housewife. You need not be a brilliant cook in order to get good results with this carefully balanced blend of Manitoba Spring wheat and Ontario Fall wheat. You don't have to bother about one kind of flour for bread, and another for pastry. "BEAVER FLOUR" provides the ideal qualities for both—the gluten, or nourishment, of the Manitoba wheat, and the lighter properties of the Ontario wheat that go to make bread white and sweet and pastry crisp and flaky.

to the barrel than any other. It gives the best results in bread, pies and cakes because it adds appearance and flavor to the merit of nourishment.

Don't take anybody's word for it. Try "BEAVER FLOUR" yourself and convince yourself that good baking is easier than you thought it was.

# Tale of Mystery

## CHAPTER XX. DAPHNE AGAIN.

"Yes, my husband's nephew. He told me enough about you to enable me to recognise you; and because of that I am here."

"For what purpose?" "To warn Mrs. Markham what manner of man you are."

"That is profoundly kind of you. But I fear you will not have to take that trouble. I do not propose that my future wife should make the acquaintance of a lady who was once—my mistress." He paused to give this emphasis.

"You scoundrel," cried Mrs. Davenant, her cheeks flaming. "You dare to say that!"

"I am a martyr to the truth, when it suits my purpose. But does your nephew know of that interesting little episode in your career? If so, I am surprised he should think any acquaintance between you and my wife possible. I know young men have loose notions nowadays, but really I thought better of Cheriton. I suppose he thinks his own respectability makes the difference."

"You will not irritate me again," replied Mrs. Davenant. "I have a purpose to gain, and I am here to gain it. You have come between my nephew, Mr. Cheriton, and Miss Merrion. You have bound her by some means to keep silent, and have so frightened her, that she scarcely knows what she is doing. She is almost beside herself with terror of you. What is the cause? Will you tell me—or shall I force it from you?"

"It is very charming of you to attribute to me so much influence over Miss Merrion," he answered, with his mocking smile. "But really I don't possess it. As for keeping those two faithful, loving, devoted hearts apart, I am not so cruel. So far as I am concerned, they may marry tomorrow; and as I understand that the young lady has no parents, I shall be only too happy to give her away to Mr. Cheriton."

"You have separated her from her friend here."

The sneering insolence of his taunts was indescribably offensive, but Mrs. Davenant put a strong curb on her anger. She knew that he spoke with an object, that insolence with him was as easy as courtesy, and that his mood was intended only as a means to secure some end he had in view.

"You shall answer for these sneers," she said sharply; "but they will not help you to deceive me now. I understand you too well to be either irritated or pleased by any mood you choose to assume. You can tell as well as I what my present object is."

"I hope you don't want to renew the old relations. Even if your husband is dead, I cannot marry you."

"You are an infamous coward," cried Mrs. Davenant, hotly, whom the fresh insult stung like a whip lash. "But there, I will not let anything you say anger me," she added in a calmer tone.

"You are still charming in your tempers," he said again, smiling. "Only in the old days your husband was the cause and object of them, not—your lovers."

"You will not irritate me again," replied Mrs. Davenant. "I have a purpose to gain, and I am here to gain it. You have come between my nephew, Mr. Cheriton, and Miss Merrion. You have bound her by some means to keep silent, and have so frightened her, that she scarcely knows what she is doing. She is almost beside herself with terror of you. What is the cause? Will you tell me—or shall I force it from you?"

"It is very charming of you to attribute to me so much influence over Miss Merrion," he answered, with his mocking smile. "But really I don't possess it. As for keeping those two faithful, loving, devoted hearts apart, I am not so cruel. So far as I am concerned, they may marry tomorrow; and as I understand that the young lady has no parents, I shall be only too happy to give her away to Mr. Cheriton."

"You have separated her from her friend here."

"On the contrary, she separated herself. But I am bound to add I should have done so. I do not consider her a fit companion for my wife."

"This is rather a compliment. You class her with me?" "Not exactly with you," he answered, steadily. "You are only a woman who would—she is one who did."

"What do you mean?" cried Mrs. Davenant, hot with anger again. "Do you dare—?"

"Ask Sir Edmund Landale," he interposed, curtly. "You will then know why I class her where I do."

"Do you insinuate—?" "I insinuate nothing. I only tell you that Sir Edmund Landale is the man this Miss Dessie Merrion, as she calls herself, did not marry. As him the rest—or her? Why do you suppose she makes all this mystery? If there is no disgraceful secret? As for marrying your Mr. Cheriton, if he cares to marry her—when he knows what there is to know—it is nothing to me."

It was a dastardly blow, but it struck home, and Mrs. Davenant sat silent and dismayed. She was all unwillingness to believe any harm of Dessie, and her whole instinct revolted against the idea of accepting for a moment any slander he might utter. But the sheer audacity of the accusation impressed her in spite of herself, and the reference to the fact of

the mystery impressed her in spite of her faith.

"I do not believe a word you say. Not a word," she said, after a pause. "You have some diabolical motive and for this reason you make this abominable charge."

"As you please. It is nothing to me," he returned, lightly, with a shrug of the shoulders and a gesture of indifference. "You can easily prove it."

"Who is this Sir Edmund Landale?" "Ask Miss—Merrion. She can tell you—if she likes"—this with a sneer. "Ask her, or go and see him. Any directory will give you his address. I will go with you if you wish. You quite mistake me. I am interested in this poor girl's—"

"Bah! I know the interest you would take in such a case. Your own."

He raised his hands and eyebrows to express his protest.

"Is there anything more you wish to say or do? If not"—he left the sentence unfinished, but his meaning was clear enough.

"Before I leave this house, I mean to see Mrs. Markham."

"You will do no good—to your young friend."

"Nor to you," she retorted, sharply. "But I mean what I say."

"Then I'll go and fetch her." He bowed gravely and went to the door and before he opened it turned and said: "If I succeed in inducing Mrs. Markham to see you for once do not blame me if you find yourself treated with very scant courtesy."

And with that bow again to her, a smile twitching the corners of his mouth as he left the room.

As Mrs. Davenant waited, a crowd of perplexing thoughts pressed upon her and after sitting some time, she began to grow impatient. This feeling developed quickly as the minutes passed. A quarter of an hour went, and when this had lengthened into nearly half an hour, she rang the bell.

"Does Mrs. Markham know that I am waiting to see her on very important business? Please to tell her," she said to the servant.

"Mrs. Markham, mum?" answered the man, in some astonishment. "She is gone out, mum, with the Count—nearly half an hour ago."

"Gone out?" cried Mrs. Davenant, in astonishment. "Why, I have been waiting here to see her."

"They must have made some mistake, I think, mum, and thought you had gone. The Count gave me a let-

ter to give to you—Mrs. Davenant, I think—if you should call again."

"Bring it to me please. There must have been some mistake."

The man went away and returned with a letter. Mrs. Davenant opened it hurriedly.

"Dear Constance,"

Inadvertently you see I have dropped into the old style. I have tried to persuade my Doris to see you, but she will not. I am sorry to have to leave you in the house, but my Doris's health is not strong enough to warrant her facing such a scene as one between an old love of one kind and a new one of another. We had already planned a little trip into the country, and time is too short to allow of my seeing you personally to tell you this. G. de M."

As she read this she nearly bit her lip through with vexation at the manner in which the man had outwitted her; and telling the servant she would call again, she left the house.

She understood the meaning of the trick well enough. He was determined that she should not see Mrs. Markham before the wedding if possible, and had hurried her away from London.

She went next to Tom Cheriton's chambers, where any message from him was to be sent to her; and she found there a telegram recalling her home in hot haste, as Mr. Davenant had had a serious relapse, and was in danger. She wrote a few hurried lines to Dessie, just a message of hope and comfort, and a word of explanation for her departure, and drove to the station.

Meanwhile, Dessie herself had been coming to a new resolution as to her own plans.

Mrs. Davenant's visit had troubled her greatly. It was clear to the girl that even those who were nearest and dearest to her did not mean to let her go her own way in peace, and that despite all she might do and say, they would interfere and hurry on the ruin and exposure which she was trying might and main to avoid.

All the best intentions in the world and the most affectionate motives and desires could not alter the facts of the case. She and Tom were parted beyond the possibility of reunion, and any interposition by him or by Mrs. Davenant could do no good, and must do harm. She came to the conclusion that she must therefore manage to convince them both of the uselessness of any action in her behalf; and there was only one way in which she could do this.

Flight.

She had to cut herself absolutely adrift from her former life, and she must do it again. The comparative success of her first attempt made her ready to attempt it again, and she soon had a plan formed.

She would give up the jewels to the man, de Montal, and then quietly disappear from London, take another name, and begin again in some other big town. She was much better qualified to make a good fight of it now than she had been before, and though she would have to begin all over again in her literary work in a fresh name, she had her experience to guide her and confidence in her ability to make the new start successfully.

The idea was favorably received and an effort will be made to interest other organizations in the matter.

**THE BANKING VOYAGE.**—By the Portia we learn that with rough weather prevailing the taking of fish, which is also reported scarce, and the loss of two of the fleet, this season's catch will likely be short. The schooners seen by the Portia when at Sydney last week were poorly fished, and Baker's banker of Marytown was leaking and came to port for repairs. The Campanula had 200 qtls. and reported fish scarce.

The Evening Chit-Chat

By RUTH CAMERON

It was unnatural, unphilosophical, unpractical and anti-Christian—in short, all the epithets in the dictionary that begin with "un" and "anti" were hurled at it. So Mary Lyons, the founder of Mt. Holyoke, one of the first two women's colleges in this country describes the opposition to higher education for women, which she had to meet.

Her description forcibly reminds me of some of the tirades one hears against woman suffrage.

And to-day—70 years later—the higher education of women is a commonplace, accepted and approved by the most conservative.

In 1870 occurred the first strike in economic history. The strikers were bookbinders—they were working fourteen hours a day and struck for thirteen. Their action was stigmatized as ridiculous and unheard of and sure to come to no good.

And to-day the ten-hour day is a commonplace, and the eight-hour day has even been obtained in some professions.

Fifty years ago in the meetings of the National Educational Association women were graciously allowed to write papers, but a man must read

them, as it would not be proper for a woman to appear upon the platform.

Last year a woman—Ella Flagg Young—was elected president of this whole association.

Eighteen or twenty years ago, when electric wires were first run through the town in which I then lived, one of the foremost men of the community, a very fine doctor, prophesied in all seriousness that trolley cars would never become common because horses would never be able to get used to them.

To-day—well if either is disappearing from the landscape it certainly is not the trolley car. And as for equine ability to get along with electric wires, why it is only in the remote country districts that horses have any objection even to the vast numbers of automobiles, to say nothing of comparatively staid trolley cars.

A few days ago I heard an anti-suffragist announce with great aplomb that equal suffrage would never be established because, forsooth, it never had been.

No, this is not simply an argument for women's suffrage. It is not meant for an argument at all, merely a suggestion, a "thought stimulant," a reminder for that kind of person who is in the habit of thinking that woman suffrage or any other great change or reform will not come to pass merely because "it never has been."

Pat Cameron

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a faint fighter.

A sound stomach makes for good citizenship as well as for health and happiness. Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY. It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address: World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Fads and Fashions.

Cabochons in wooden, crystal and china beads worked on straw are smart and often give just the required note of color.

Collars of the Trouville type are cut in square outline in front and are embellished with hand embroidery in white or colors.

Coats are short but there is no definite length. One can have a bolero, an Eton, a jacket to the hips or one six inches below.

From the hat to the boots, including all types of dresses and their accessories, the fact that stripes are paramount is indisputable.

Beard work is now occurring in attractive striped patterns, and embroidery shows alternating patches of color arranged to give stripes.

Very new are the flat rosette effects shaped like flower petals overlapping each other. In this style are shown suede and kid rosettes.

The unparalleled variety in silks is bewildering, so many are the weaves, old friends and new, temptingly displayed on shop counters.

It is said that this is to be a great lace season, not only trimming, but the whole frocks and coats of lace promising to have a great vogue.

Chuny lace is smart on volles, either cotton or wool, the fabric matching the tint of the lace and all worn over a colored silk or satin slip.

The bow at the back has come to us again in renewed beauty and gratifying variety. Of silk, ribbon, chiffon, velvet or white linen the bow is formed.

Striped effects are now noticeable in straw. Indeed, the stripes are perhaps the most persistent of the features that characterize our fashions this season.

Dots, stripes, checks are rampant, and as a rule in contrasting color to the material. These decorations are effectively combined with borders of plain color.

Funeral of Bro. Byrne.

The funeral of the late Rev. Bro. J. C. Byrne took place at 10 a.m. today. Requiem High Mass was chanted in the R. C. Cathedral at 10 a.m., the celebrant being Rev. Monsignor Roche, assisted by Revs. Fr. Sheehan and O'Callaghan as deacon and sub-deacon respectively, with Rev. Dr. Greene as Master of Ceremonies. His Grace Archbishop Howley occupied the Throne, attended by Rev. Chancellor St. John and Rev. J. Kelly. There were several other clergymen assisting in the sanctuary. The funeral procession was a very large one and was attended by all the Christian Brothers of St. Bonaventure's College, Holy Cross, Mount Cashel and St. Patrick's Hall, with hundreds of the pupils from the respective schools. Mr. J. T. Martin acted as undertaker and the remains were enclosed in a handsome casket. Rev. D. O'Callaghan pronounced the final absolution at the graveside. Interment was in the new cemetery for deceased members of the community in the grounds of Mount St. Francis.

Doctor's Close Call.

Doctor Plewes, of Hant's Harbor, had a narrow escape from being drowned at the R. N. Co. pier at Charleville last Monday night. He had his two year old boy in his arms when he fell over the wharf. He told the child to hold on to his neck. The doctor was a long time in the water before the crew of the Ethie heard his cries. They came to his rescue and pulled him out. He was almost exhausted and would not be able to keep up half a minute longer. Dr. Plewes was accompanying his wife and family a part of the way on their journey to Canada. The accident was attributable to there being no light on the wharf. The doctor was chilled to the bone when rescued. The child was all right when taken out. Dr. Plewes returned to Hant's Harbor next day.

SALMON AT BLACKHEAD.—About 50 salmon were taken out of 39 nets set at Blackhead this morning.

THIS FAREWELL SERMON.—Rev. J. K. Curtis will preach his farewell sermon on Sunday night at Wesley Church. He will shortly leave for Canada.

Co. dock yesterday, where she was painted, repaired, cleaned up and put in first class condition. She will connect at Kelligrews Sunday evening with the excursion train.

ASSAULT AT HOPEWALK.—A man named Murphy, working at the Rosewalk, was assaulted by a fellow workman there yesterday afternoon. The assailant threw a stone at him and injured him in the head severely. He came to a drug store in town and had the wound dressed. There will likely be law work over it.

Indigestion & Dyspepsia

In all its Forms can be Cured. It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden."

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription. A sure cure for persons afflicted with stomach troubles. It can be obtained at

DR. F. STAFFORD & SON, Duckworth Street and Theatre Hill. Small size, 25 cents; postage, 8c. extra; large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance—only 25c. in advance.

AGONY ON OPERATING TABLE

Did Not Remove Stone in Bladder GIN PILLS Passed It.

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the Bladder. He decided on an operation and was assisted by another doctor. They said the calculus was larger than a bean and too hard to crush and they could not take it out.

I returned home suffering greatly and did not know what to do but was recommended by a friend to try GIN PILLS. I bought a box and found relief from the pain at once. I took a second and a third box of GIN PILLS, after which I went back to the specialist. He told me the calculus was reduced in size, still he could not relieve me of it although he tried for two and a half hours.

I returned home again and continued to take GIN PILLS as they reduced the pain very much, but I did not expect that they would relieve me of the stone but to my great joy, I passed the stone on October 3rd, and am now a well man and very happy.

If you are suffering with what a great work GIN PILLS did for me. GIN PILLS are the best medicine in the world and because they did so much for me, I will recommend them all the rest of my life."

What glorious news to those who are almost going insane from the pain of Stone in the Bladder! Here is ease and comfort! Here is relief! Here is a certain means of getting rid of the stone without being cut to pieces by the knives of a surgeon. GIN PILLS dissolve Stone or Gravel in Kidneys or Bladder because GIN PILLS are the greatest solvent for uric acid the world has ever known.

If your trouble is like Mr. Lessard's, follow his example and take GIN PILLS. Money refunded if they fail to give relief, 50c. a box—6 for \$2.50. Sample box free if you write us, mentioning this paper.

National Drug and Chemical Co., Dept. N. Toronto. If the bowels are constipated and liver torpid, take National Lazy Liver Pills, 25c. a box.

### May Kill the Bill.

Additional light is thrown upon Senator Root's amendment to the Reciprocity Bill by the more extended messages to the Montreal newspapers than those we were able to peruse when we made our comments on Tuesday last. This information adds emphasis to the remarks we have already made. American pulp and paper makers are handicapped by a growing scarcity of pulpwood in their own country. They are disturbed by the enormous increase in the import of pulp and paper from Canada. Newspaper owners want cheaper paper and they entered into the agitation for reciprocity in the hopes of obtaining cheaper paper, preferably from American mills, but in any case cheaper paper. Balked by the newspaper interests, President Taft has given his net scheme a good run. But the Provinces of Canada have made no move to remove the restriction in the export of pulpwood, and the paper manufacturers put up Senator Root to fight for them. Senator Lodge is also out in the interest of Gloucester with an amendment that fish is not to be admitted duty free, as long as Canada gives a bounty to its fishermen. Here is how the message runs:—

Senator Root, it was admitted, was acting frankly in behalf of a number of paper manufacturers in New York. Had he been an avowed enemy of reciprocity he could not have made a better stroke for killing the treaty.

It is the present temper of the Committee on Finance, a majority of which is unalterably opposed to reciprocity, to add the amendment to the bill. John Norris, secretary of the American Newspaper Publishers' Association, said if the amendment were adopted it would be absolutely fatal to the bill. Senator Smoot, of Utah, added that the amendment would be tacked to the bill by the committee, and if it were not, reciprocity would not be reported to the Senate, but would be pigeonholed.

Inasmuch as President Taft has been depending on the newspapers of the country to create public sentiment in favor of reciprocity the amendment, if adopted, will eliminate all support and will leave the backers of the measure high and dry. Only three of the Republican members of the Finance Committee, which is considering the bill, are in favor of reciprocity. They are Senator Penrose,

the chairman, and Senator Collum and Lodge. All three are supporting the bill merely to please President Taft, and there support is lukewarm. Senator Penrose is a high protectionist, and his natural instinct would be to oppose such a measure as this one, because of its free trade tendency. Senator Lodge of Massachusetts, is anxious to amend the bill to protect the fish interests of Gloucester, and he would not be at all disturbed if the whole measure were defeated. Senator Collum, likewise, is a high protectionist, and while he will vote for the bill, it is known that he would be rather glad to see it shelved. Senator Root's amendment, eliminating free paper, at least for the time being, seems to all members an easy way out of the whole difficulty. With such an amendment tacked to the bill, many Democrats, wishing to please the newspapers, will vote against the whole treaty. Agitation by the newspapers for the passage of the bill will cease. It will then be a question whether the members naturally opposed to reciprocity will vote for it simply to please President Taft.

### Serious Skin Eruptions

Are Ended by Zam-Buk.

Mr. William Purser, of 1385 Eighth Avenue, Weston, Winnipeg, says: "As a cure for skin diseases there is nothing to equal Zam-Buk. Some pimples and sores broke out all over my face and defied various remedies, which, from time to time, I applied to them. Not only were these sores unsightly but they were very painful. For over two months I was afflicted in this way until I was advised to try Zam-Buk. I found this balm was entirely different to the ordinary remedies. It reduced the irritation and the smarting pain. The sores from first being anointed with the balm, grew less and less angry, and then began to dry off. In a short time they all disappeared."

Finest known remedy for eczema, ulcers, abscess, scalp sores, ringworm, children's rashes, chafings, cuts, burns, scalds, insect stings, sore feet, etc. Also cures piles. 50c. box, at all drug stores, or post free from Zam-Buk Co., St. John's, Nfld., for price. Zam-Buk soap, 25c. tablet is splendid for delicate skin and for baby's bath.

### Schooner Missing.

A Musgrave Harbor schooner that left there for St. John's last Monday morning is missing. A schooner that left the same day arrived here Wednesday. The friends of the crew here in town are very anxious, especially in view of the fact that a boat was seen off Cape St. Francis on Wednesday last, as exclusively reported by the Telegram. The crew of the schooner thought that it might be the Minerva's boat.

EUPHRATES SAILING.—The s.s. Euphrates is leaving to-night with a load of freight for Bell Island, sent by Mr. F. McNamara and others.

### Aurora's Destination.

On Monday, May 25th, Sir Ernest Shackleton made an appeal for funds for an Antarctic expedition under Dr. Mawson, a former comrade of Sir Ernest. He asked for £12,000 towards the expedition, which is to do geographical work in the Antarctic regions, and which will cost from £40,000 to £50,000. Sir Ernest pointed out that both the Scott and the Shackleton expeditions had been liberally supported by Australians, and the Daily Mail termed the moral obligation thus incurred a debt of honor. Two days after the appeal had appeared, the Daily Mail was able to announce that between £3,000 and £9,000 had been received at the office, and that sufficient money was raised to provide the ship itself. Within three days, we understand, the appeal had met with entire success. It will be remembered that last week we announced that the s.s. Aurora had been sold by Bowring Bros. Ltd. It was understood to be sold for Antarctic work, but the purchasers and particulars were unknown. It will be remembered that Sir Ernest Shackleton used the s.s. Aurora as a sealer Nimrod, and that Capt. Scott was the sealer Terra Nova. All these facts concur in the idea that the s.s. Aurora has been bought for Dr. Mawson's expedition.

### The King's Birthday.

Saturday week is the King's birthday and has been gazetted as a Government holiday. Some citizens are asking why it should not be a general commercial holiday. His Majesty has expressed the wish that his natal anniversary be celebrated on the day on which it occurs, instead of being deferred to another occasion. This being so, many think that this day should be a whole holiday for all.

### Here and There.

ON CHRONICLE STAFF.—Mr. W. O'Neill, late tobacconist of Water St. West, has taken a position on the Chronicle reportorial staff.

PRICE OF SALMON.—The price of salmon dropped to 15 cents per pound to-day. In a few instances it was sold for ten cents. If plentiful to-morrow this is the price likely to be prevailing.

FISHERY NEWS.—The fishermen of Tor's Cove and Witless Bay had a good sign of fish every day, getting from 50 to 60 on jiggers. At Witless Bay two dorries loaded on Wednesday last.

ARRESTED FOR THEFT.—At 4.30 p.m. yesterday two boys, aged 10 and 12 years, were arrested by the police for stealing coal from an outhouse owned by Mrs. J. Phelan on Tuesday last. It is believed they have stolen from other places also and they will come before the court this afternoon.

STILL MORE DIPHTHERIA.—To-day a patient in the General Hospital, a boy 10 years old, was struck with diphtheria and was removed to the fever hospital. Yesterday also a third boy was taken from Mount Cashel Orphanage to hospital for observation for diphtheria.

### SCHR. MARY JANE O.K.

Mr. J. Butler received a telegram from St. John's last Monday that the schr. Mary Jane which put in their Wednesday leaving, is now all right, and left this morning for St. Lawrence. She is taking a load of salt there for C. F. Bennett & Co., and sprung a leak rounding Cape Race in last Tuesday night's storm.

A man who attempted suicide was remanded.

### Another Man Injured.

Mr. Hutchings, Deputy Minister of Justice, had a wire last night from Dr. Freebairn telling him of the accidental death of Robert Walsh at 1 p.m. yesterday by the premature discharge of a canon at Fermuse. A man named Frank Johnson of Renewes was also injured by the explosion of the gun and his eyes were terribly hurt. Dr. Freebairn will hold an investigation into the affair.

## A Horrible Death.

Robert Walsh, Fermeuse, Killed by Powder Explosion.

Yesterday at Fermeuse Robert Walsh was killed by the explosion of an old cannon. Yesterday being the Feast of the Ascension, and Rev. John Walsh, Parish Priest, being about to visit the place, the fishermen proposed to have an impromptu celebration, to hoist their flags and fire off guns. Poor Walsh had filled up an old cannon that had been lying there for years with powder, having put in about two pounds. In ramming home the wad the powder exploded and burst the cannon and Walsh's head was blown off and carried to a distance of several yards. His body was horribly mutilated by pieces of the cannon. The remains were gathered up and confined. Rev. Father Walsh broke the news to the mother of the deceased. He was her only support, and was a fine type of a fisherman. He had been one of Capt. Kean's sealing crew the past fourteen springs. Messrs. M. P. Cashin and P. F. Moore received the news early in the afternoon and at once wired messages of condolence to the relatives of the deceased. The Telegram joins in expression of sympathy.

**Uncle Walt**  
THE POET PHILOSOPHER.

The poets have sung in a harrowing strain of the moneyless man and his sorrow and pain. He gets the ice pitcher wherever he goes—no welcome for him, no relief for his woes! He is kicked from hotels by the janitors' feet, policemen begrudge him the use of the street, he's chased from the alleys as though but a dog, and turned from the doors of the swell synagogues; he must drag out his days in the best way he can—the world has no use for the moneyless man. Supposing it's true, why should cuss words be hurled like bricks at the poor old-long suffering world? In ninety-nine cases or more out of ten, the blame should be placed on the moneyless men; the lazy, the shiftless, when busted and wrecked, how many from the world are they due to expect? And why should industrious citizens give to loafers infesting the towns where they live? When better misfortune comes down on a guy who's shown that he's honest and willing to try, the world looms up in a praiseworthy way, and does what it can for that suffering jay. But most of the hollow-eyed moneyless men have bunked this planet again and again. I don't blame the world that it's likely to pan, on the chestnutty spiel of the moneyless man.

## Newfoundlander Killed at Sydney Mines.

North Sydney, May 20.—Henry Thomas Farrell, a coal cutter, employed at the Mackay mine, was almost instantly killed while at work in the colliery yesterday afternoon. The accident followed the firing of a shot, and was due to a fall of stone which struck him on the head and crushed him to the earth. Fred Fennell, his room mate, had just left Farrell, who was in the act of pulling some loose shale from the roof, when the big stone came down and ended his life. Fennell succeeded in removing the stone from Farrell's body with the assistance of some fellow workmen, and had the body removed from the pit. The remains were taken to Dooley's undertaking rooms and an inquest was held last evening by Coroner A. R. Forbes and a jury. The verdict of the jury was that death was accidental and that no blame attaches to the company.

After the inquest Farrell's body was prepared for burial and taken to his residence on Brook Street, whence the funeral will be held to Lake Side Cemetery at 2.30 Sunday afternoon. Farrell was 32 years of age and leaves a wife and six children. He came to Cape Breton about ten years ago from Clarke's Beach, Conception Bay, Nfld., and has been employed at the Mackay mine for about twenty months.

**SIGN OF FISH.**—Those who went outside the Narrows last evening to have a "try" for a fish, caught from ten to twenty medium sized ones with the jigger.

## Reply From Mr. Hibbs.

Dear Sir,—I have before me in your issue of yesterday a letter entitled "Our Agricultural Society," in which a writer styling himself "Peggy" and addressed from Lower Gullies, attempts to belittle the Agricultural Society here in a very unmanly way by making some very uncomplimentary references to certain gentlemen connected with this branch.

I wish to say on behalf of Lower Gullies that I can positively assure that the letter in question was never written by or emanated from any person living here, and I would advise this individual that when he feels disposed to again insult people through the press, and has not courage enough to write over his own signature, to at least be man enough to address his communications from his own settlement, and not attempt to convey the impression that such drivelling nonsense was written by a person entirely innocent of the like.

In conclusion I wish to remind him that when the people of this settlement start in to criticize the management of the Society it will be in a more honorable manner, or at its meetings in the hope of improving it and not by a jeering offensive hash-up in which most matters are misrepresented, and the odium of blame cast on a person who I hope will never become coward enough to apply insulting nicknames to neighbors in public. Thanking you for space, Mr. Editor. Yours etc. R. HIBBS.

## Nerves Are Exhausted

And nervous prostration or paralysis is creeping steadily upon you. You hear of people suddenly falling victims of nervous prostration or some form of paralysis. But when you get all the facts of the case you find that they have had months or years of warning. They haven't slept well. There has been frequent attacks of nervous headache. Digestion has failed. They have been irritable, easily worried and excited and have found memory and concentration failing. Had they but known that these symptoms tell of exhausted nerves or had they realized their danger they would have restored the feeble, wasted nerves by use of such treatment as Dr. Chase's Nerve Food. This great restorative treatment cures by forming new, rich blood and by rebuilding the wasted nerve cells. No medicine is more certain to prove of lasting benefit to the system. 50 cents a box, 6 boxes for \$2.50; at all dealers or Edmanston, Bates & Co., Toronto.

**Police Were Disgusted.**

A few nights ago officers Whalen and Blunden were called to George's Street by a messenger sent forward by an old woman residing there. The officers believing that a row was in progress, and seeing a crowd about the place, hurried there to find that the woman, who was somewhat under the influence, was engaged in a heated argument with a boy who resides with the old party. He had refused to take a pan of dandelion to a neighbor's house, some distance away, and she wanted the policemen to compel him to do so. To say that the men were disgusted was to put it mildly, and they warned the old woman if she again created a disturbance they would arrest her.

**Loyal People These.**

Last week Skipper Ben Carter, of Wesleyville "threw down" his schooner Emily for repairs in a cove near that place and during the night a N. E. wind sprung up causing a heavy sea, as a result the vessel strained a great deal, the tackle smashed the mainmast head and spring that spar also and the vessel filled with water. Next day fully 200 men of the place came to Skipper's Carter's assistance, got the water out of the vessel, a select gang made repairs and put her in good trim for the fishery in a few days. But for the assistance of these kind folk the man might have had to abandon the Labrador voyage.

**Compound Fracture.**

Mr. John King, of Bonaventure, T.B., arrived here Tuesday in his schooner the Bendigo, and is just recovering from a painful accident received 4 months ago. He was going to his stage one night when he slipped and fell on the ice, breaking his right leg above the ankle in two places. He was laid up for four months, was attended by Dr. White, and can only walk now with the aid of a stout stick.

**They Released Him.**

Last evening a young man who had taken too much drink fell on the sidewalk on Water Street, and the police took him in custody. When bringing him to the station they discovered that the man was the skipper of a vessel which was to sail for the Straits fishery to-day, and they surrendered him to friends who took him on board and looked after him.

**More New Jobs.**

We understand that not long ago Capt. Cave, who has been a tidewater in the Customs service a couple of years, was given a job as gauger, which adds considerably to his salary. Now we have no opposition to offer to Capt. Cave or any other man taking such a job when offered to him, but we see no reason why the position should be created for him. In the first place gaugers and Customs men are as thick as flies round the molasses and rum punchons in to which they thrust their rods, and why more should be created we are at a loss to know, unless it is that the Government wish to show that they have a superabundance of the people's hard-earned money on hand and cannot get clear of it in a better way than by giving new jobs and other kinds of patronage to party supporters, despite the fact that Sir Edward and his Picnic Party howled themselves hoarse election time telling of Liberal extravagance and how they, if elected, would conserve, and judiciously expend the public monies. Some injustice also enters into this appointment of Capt. Cave, for there are men in the service, who have grown grey at their work, and if more gaugers were required, then one of these should have been put at the work. Tommy Kelly, one of the Morris "spell binders," has also been rewarded for his work, and he also is given a position on the railway to Trepassy as mail carrier at a salary we learn of \$600. And so job making goes merrily on, and the "60 cent Government," who were mean enough to sell splits in competition with poor men and women, imagine that their extravagance is not noticed by the taxpayers. They will soon, however, have a rude awakening, for on all sides there is nothing but disgust expressed, even amongst their own supporters. The "Picnic Party" is nearly "all in," and the sooner the people out them "out of pain" the better it will be for the country.

**Police Leaving Force.**

A few days ago Const. Hartigan of the Eastern Station tendered his resignation from the police force, and others, it is likely, will soon take the same course. These men are not long loing duty and claim that the wages are too small to permit them to live as they should. The man who is leaving and those who think of doing so are good workmen and can command good money now at Sydney, Bell Island and other places.

**Celebrated STANDARD FLOUR,**

What is STANDARD BREAD? STANDARD BREAD is the old farm-house loaf, made by milling good, sound, sweet, dry wheat, and taking out of the Flour the coarser bran.

STANDARD BREAD is not a patent food, or a patent bread. It is just good sound BREAD, and it is called "STANDARD" by everyone, because it agrees with a standard fixed by eight eminent medical men in a Manifesto, published first by the "Daily Mail" on January 26th, 1911, and since widely republished by the newspapers of the world.

Since the doctors first published their Manifesto, STANDARD BREAD has been welcomed everywhere. For years it has been supplied to the King and Queen at Windsor Castle and at Buckingham Palace. It is eaten by rich and poor, by young and old, by healthy people and sick people.

STANDARD BREAD has been used for years at many of the great hospitals for Consumption.

STANDARD BREAD made from STANDARD FLOUR has been completely summed up by a Harley Street Surgeon in this statement:—

"The short stature, the pale face, the weak chest, and the general degeneracy of the present generation, are greatly due to WHITE bread diet."

STANDARD BREAD made from STANDARD FLOUR is all right.

Doctors and learned scientists have declared with no uncertain voice for the plain unadorned product of the WHEAT BERRY.

The trouble started when a man commenced to "Paint the Lily" to improve on nature.

STANDARD FLOUR contains 80 per cent. of the WHOLE WHEAT, including the germ and semolina.

### M-L PURE PAINT Best You Can Buy

also leaves the smoothest, glossiest surface—and takes the least paint to do a good job. Wears longest, too. Any surface it covers will not need re-painting for the longest possible time. LONDON, May 25.

The third of such brilliant Courtis as are marking the present London season was held at Buckingham Palace last night. The Colonial delegates to the Imperial Conference were well represented, while most of the members of the foreign embassies and a host of officials were present. Another court will be held to-morrow evening.

It is stated to-day by one of the leading men of the Seamen and Firemen's Union that the "longshoremen of America have agreed to come out and help the International Seamen's strike. The date of the strike is not yet announced, but it is understood that it will occur during the Coronation week.

EDINBURGH, May 25.

Applause welcomed a message from President Taft on the subject of Anglo-American Arbitration, when read before the General Assembly of the Church of Scotland to-day. Taft's message voiced his well-known enthusiasm for a practically unlimited arbitration treaty, and he added, "Say to the Assembly it is my sincere desire that Canada shall continue to prosper, flying the British flag and sharing with us the responsibility for North American civilization." A motion hailing the proposed Arbitration Treaty was adopted.

The Duke of Connaught spoke on Colonial affairs at an Empire Day banquet in the Royal Colonial Institute last night. Sir Wilfrid Laurier, who was among the Premiers present, spoke of Canada's revenge on the States for having in previous years drawn away Canada's population. There are now in Canada, he said, more than a million loyal subjects of the King, who a few years ago were American citizens. We have turned the tables upon the American Republic, he exclaimed. The nineteenth century was the day of the States, the twentieth will be the day of Canada.

LONDON, May 25.

The Imperial Conference to-day turned down a proposal of Premier Ward of New Zealand favouring the constitution of an Imperial Council of State, with representatives of all self-governing British Dominions, to act in an advisory capacity to the Imperial Government. The proposal met with no support and was withdrawn after two days' debate. The first step in the direction of the federation of the British Empire is thus postponed.

## Western Notes.

(Western Star.)

The schr. E. Morrissey sailed Sunday week with a cargo of herring for Gloucester.

It would take about 300 lobstersters of the size sold at ten cents each on Saturday to fill a case.

A party of New York capitalists have received an option on some timber limits at Corner Brook.

The Pew-Gorton Co. of Gloucester will install a 25 h.p. gasoline motor in the schr. Verbera. This craft will be used by the company for towing schooners and boats about the Bay and as a pay boat in their prosecution of the herring fishery.

Lobster packers will send their catch to Halifax, St. John's, or elsewhere, spend their time in packing, shipping, etc., pay for cases, cans, solder, freight, insurance, commission, etc., and sell at from \$15 to \$17 per case. But to sell them in the local market without any expense, such as cases, cans, freight, insurance, commission, etc., they charge at the rate of about \$30.00 per case.

Unless we get a big fall of rain, Mr. C. Fisher is likely to be considerably hampered in the operation of his saw mill this season. Of his winter's cut of about 7,000 pieces he has only about 2,000 pieces to the mill; the balance of the cut being hung up about a half mile up the river. Eight or ten hours of heavy rain, however, would likely raise the river sufficiently to liberate the logs.

## Labor Day Parade.

The Trades and Labour Council had a special meeting last night in the British Hall to arrange for the Labour Day parade and festivities. Mr. M. Colbert, President of the Council, presided, and representatives were present from the Coopers, Longshoremen's, Carpenters, Bricklayers and Mesons, Tinsmiths, Bakers and Tailors' Unions. It was decided to hold the parade and sports on Wednesday, July 5th, and an elaborate programme will be later outlined.

OTTAWA, May 25.

The Government will call for tenders in a few days for the extension of the harbour works of St. John, N.B., totalling a cost of \$4,000,000 or \$5,000,000. A first class dry dock will be built, with an extensive ship-repairing plant in connection. Several companies, backed by British capital, are ready to tender for the whole of the proposed works.

LOBSTER FISHERY.—The lobster fishery in Placentia and Fortune Bays is now in full swing. The fish are of a fairly large size, and the men engaged in this occupation expect to do well.

## Coronation Festivities.

Editor Evening Telegram.

Dear Sir.—We have been reminded that on the occasion of the Diamond Jubilee in 1897, a most successful Children's Festival was held, and the feeling is growing that in the approaching Coronation ceremonies the children of the city should find themselves remembered. I think it only right that the public should know that His Majesty the King's representative in this Colony has for some time been engaged in an effort to have the children included in the public functions of the Coronation. Some three weeks ago His Excellency invited the Superintendents of Education to meet him to whom he expressed a wish that something should be done for the children, and of whom he sought advice.

After several proposals had been considered, it was thought that His Excellency's desire would be best served if something could be done to touch the children of the Colony as a whole. A happy idea then came to His Excellency, namely that he should send a message to all the children of the Colony, and that it should be read with due ceremony in every school at the closing of the session on the evening of Wednesday, the 21st of June, a holiday of two days being proclaimed. The proposal commended itself very strongly to the Superintendents, and His Excellency's message is now in course of preparation.

It is probable that in every settlement some arrangement will be made for the purpose of impressing upon the young the significance of the Coronation, and of affording them some suitable means of rejoicing. Here in the Capital, it becomes us to take the lead. Time is passing; it is a busy season of the year, and we are all much engrossed in our daily duties; we have not paused sufficiently, perhaps, to think of the preparation that must be made if, during the Coronation season, we are to join the world-wide circle of rejoicing hearts. The spirit of patriotism must not be allowed to slumber idle or heedless. If we value our glorious heritage and we must see to it that we plant it strong and active, deep in the bosoms of our children.

## Wedding Bells at Badger Brook.

The wedding of Miss Janet Noseworthy, daughter of George Noseworthy, Esq., superintendent of the pulp operations of the Nfld. Pine and pulp Co., and Mr. A. E. Barnes, of forester's Harbor, was solemnized at Badger Brook, at the parental residence. The ceremony was performed by Rev. Mr. Duggan. The bride was attended by Miss Katie Cousins, whilst the groom was ably supported by H. S. Crowe, Esq. The happy couple were the recipients of many handsome presents.

## In Sinking Condition.

The Mary Jane left here last Tuesday for St. Lawrence with a cargo of salt for C. F. Bennett & Co. Before rounding Cape Race the N. E. gale had buffeted the ship so badly that she sprung a leak. The crew manned the pumps and worked without stopping all day Wednesday in order to prevent the water from gaining on them. It was an uneasy time for all as it was feared that the salt might choke the pumps. The captain decided to run for Trepassay which he did safely, the crew being tired out from continuous work at the pumps. The salt cargo is now being taken out and the leak will be stopped there if possible. If not the schooner will return to St. John's to be docked.

## Man Frozen to Death.

Letters received yesterday from Rigolette state that on New Year's Eve a man named Thos. Pallcier, a native, was found frozen to death in a camp which he used. He generally travelled over the country for the Hudson Bay Co. agent, but succumbed to the severe weather prevailing. The winter in that section was a very severe one with many storms. For three months the glass recorded with little intermission from 15 to 30 degrees below zero. The agent of the Hudson Bay Co. suffered severely in his travels over the coast in the interest of the company, at times being barely able to keep himself from freezing to death. The health of the people was fairly good, except on the other side of Sandwich Bay, where scarlet fever was epidemic for a while.

## Minard's Liniment Co., Limited, Yarmouth, N.S.

Gentlemen.—In January last, Francis Leclaire, one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained for his recovery, his hips being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him freely to ease the pain and with the use of three bottles he was completely cured and able to return to his work.

## Another Banker Lost.

By the Fortia we learn that a man named Isaacs, of Burin, was lost on the Bank from Capt. T. Sheaves' sloop one day last week. The man with his mate was returning to the vessel with their dory heavily laden with rough water, when it capsized and both were thrown into the water. Isaacs who was heavily clad sank quickly, but the other man clung to the upturned dory until assistance came from his vessel. The banking season has opened disastrously this season.

## Had Loaded Revolver.

Last night while a meeting was being conducted in the No. 1 S. A. Baracks, Springdale Street, a man present was suddenly seized with a fit and for a considerable time was unconscious. While those who were rendering aid were opening his neckwear a loaded revolver was found in the pocket of his coat. This is certainly a dangerous weapon for such a person to have, and no doubt the police will look into the matter.

The enthusiasm that prevailed at last night's meeting is an indication of a busy season in football and other sports on the part of the C. E. I. A. A.

## Some People Destitute.

A number of the people who reside at Rigolette and neighbourhood the past couple of months ran almost completely short of food and some were very badly off. Mr. E. Swaffield, the Hudson Bay Co's. agent, was authorized by the Government, as usual, to supply them if they ran short of provisions.
