HALTON REFORM CONVENTION.—The Reformers of Halton are to meet in Convention at Milton, at one o'clock, p. m., on Wednesday, March 27th, to select a candidate for the House of Commons. Hon. A. Mackenzie and others are expected to address the Convention.

An unfortunate double accident occurred on the London and Port Stanley Railway yesterday. Both engines were demolished.

YESTERDAY, the last Sunday in Lent, is called Palm Sunday, so named from the ceremony of carrying in procession blessed branches of Palm in remembrance of the action of the Jewish people, when Jesus Christ, six days before his Passion, made his entry into Jerusalem, riding on the colt of an ass, and was received with the joyful acclamations of the multitude.

SPRINGS GOODS.—Mr. James Cormack announces through our columns that he has opened out a portion of his spring stock of goods, consisting of a splendid assortment of English, Scotch and Canadian cloths, of the best quality, and in all the fashionable colours and patterns. Mr. Cormack guarantees to all customers a good article, an excellent fit and good workmanship. What more can any one want?

The *Grother Signal* says:—On Sunday last, gathered an odd sight was to be seen on the ice a short distance above the town. It was that of a dog frozen to death while standing upright. The dog appears to have been sick, and while standing on the ice, no doubt feeling very miserable, its feet appear to have become fast, and the animal froze to death while standing in an erect and perfectly natural position.

The *Berlin Telegraph* says that a young lad aged about 12 years, son of Mr. Anthony Eckenscheller, who is an employee in Perrine's flax mill, Doon, was engaged in cleaning the "Picker" on Wednesday, while it was in motion, when his left arm got caught and drawn in between the rollers, and before he could be rescued the hand, wrist and forearm were literally ground off. The roller had then, it seems, allowed the elbow to pass through uninjured, but again caught the arm higher up and mangled it and the shoulder in a frightful manner.

THIS MORNING'S DESPATCHES

Destructive Fire in Bangor.

President Grant on Manifest Destiny.

Bangor, Me., March 25.—A fire broke out in Berry's block, in Rockland, on Saturday night, destroying that and an adjoining brick block, including Lime Rock Bank, the Express Office, Western Union Telegraph Office, and several other offices and stores.

New York, March 25.—The *Herald's* Washington special says that President Grant is known to take a deep interest in all Mexican questions. His service in that country during the war made a favorable impression upon his mind as to the resources of the country, and its capacities for good government, and what might come of the country under firm and resolute authority. He thinks that there could be no greater blessing to the Mexican people than the establishment of a protectorate by the United States. He feels that this would be a triumph of the administration, and would go far towards carrying out those theories of manifest destiny which are so dear to the American people. An argument is that in the event of the occupation of Mexico by a foreign army we should be obliged in going to war under the Monroe doctrine, which he regards as an argument in favor of protectorate. Now it would be much cheaper and easier to prevent the landing of a foreign force, or the intervention of a foreign power, than to drive them out after intervention had begun. But if there is to be any movement looking towards annexation it must come from Congress, as the President will, it is stated, leave the settling of the annexation to the courts.

THE UNIVERSITY BOAT RACE. CAMBRIDGE WINS BY A LENGTH AND A HALF. LONDON, March 23, 2 p.m.

The great annual University boat race was rowed this afternoon on the River Thames. Snow fell heavily during the race. The Cambridge crew came in the winners by a boat length and a half, amid immense enthusiasm.

The Printers' Strike in Toronto. In accordance with the threat held out by the Toronto Typographical Society, the members of that Society, employed in the different offices struck on Saturday. The *Globe* of to-day says:—The Typographical Society held a general meeting on Saturday evening, and in their usual magnificent fashion "closed" the printing-offices of all the Master Printers who dared to resist their dictation and signed the declaration of independence published in another column. The *Globe* office is consequently "closed." The effect of this is that all the members of the Society are forbidden to work in the *Globe* office, under the penalty of being expelled from the Union and published in the Society's black-list, for the guidance of Union offices elsewhere.

We very much regret this, for the sake of a number of excellent men, who, strongly against their will and at the sacrifice of the interests of their families, are forced to leave comfortable situations at high rates of wages, which they have held for years.

So far as the *Globe* office is concerned, we need hardly say, the "closing" is only metaphorical. A large number of hands have already gone, and others will no doubt follow to-day—but the *Globe* will nevertheless appear with its accustomed regularity.

The Toronto correspondent of the *London Advertiser*, writing on Saturday says:—Beaty, of the *Leader*, gave in to the nine hour movement in order to propitiate the workmen at the next election for the Commons, when he is determined to be a candidate. There was a very strong feeling against the strike but the tyranny of the Union is also strong. In any case a sufficient number of newspaper hands will stick to their employers to get the newspapers out, though at first it will be with some difficulty.

The premature action of the printers has precipitated a decision with regard to the nine hour movement, and has destroyed all prospects of the adoption of that system by the employers, or of any friendly negotiations. Henceforth it will be war to the knife. All the employers of labor in the city see that their own interests are bound up in the success of the master printers in this strike, and they will render them all the assistance in their power.

The ultimate success of the master printer is beyond doubt. They are prepared for the movement, while the Typographical Union have only \$190 in their treasury. It is the printers who are in a strike, the upshot will be that all the offices, except the *Leader* office, will be declared non-union.

The strikers have issued a sheet to-day, called the *Porcupine*, which they distribute gratuitously. It speaks of the wealth of Hon. George Brown and argues from that that he should yield to all the demands of the working men. This is a sample of claptrap of which it is full.

A western editor says women are so scarce in his section that a good-looking girl is a rare of half-a-dozen suitors in the house each night, and two or three on the fence outside. In Galt, says the *Reformer*, where women were said to be scarce it is not unusual to see seven or eight champions on the fence in the locality of even moderately homely girls. "Roosting on the fence" may have been practiced in Galt by moon struck gents, but we rather think the felicitous indulgence must have been stopped during the recent cold snap.

THE KEITH HABES CORPUS CASE.

The hearing of this case came on again on Saturday, having been adjourned since Tuesday last. Mr. Thos. Moss, Q. C., appeared for Mrs. Keith and read her own affidavit. Mrs. Keith gave the dates of the births of her several children, and stated that the two first born were baptized by Roman Catholic priests without any objection on the part of her husband. As to those born subsequently, her affidavit alleged that the same were not taken from the custody of her husband by Roman Catholic priests and Presbyterian ministers. She admits that the children mentioned in the writ of habeas corpus are in her custody, and alleges her willingness to restore them to her husband, provided he gives his word that she shall not be separated from them. She further states that the children were not taken from the custody of her husband by the advice of either Archbishop Lynch or Father Jamot. She declined to give up her children unless on the above conditions. Mr. John O'Donoghue appeared for Archbishop Lynch and Father Jamot, and read the return of the Archbishop to the habeas corpus addressed to him. The return and affidavit declare that none of the children were ever detained by him in his custody, nor had he power or control over them, nor did he counsel the removal of said children from their father's house.

On the return being read Mr. McLennan for Mr. Keith urged that it was insufficient in law, and that the Archbishop, instead of replying in distinct terms to the affidavit of Mr. Keith, endeavored to shield himself by a vague and general denial.

His Lordship, Mr. Justice Galt, held that the return was sufficient in law. Mr. McLennan then applied for an order for the cross-examination of the Archbishop and Father Jamot. As to this His Lordship expressed a doubt as to whether he could make such an order, but said he would consult the Chief Justice and then grant the order if he had power, the only thing he could now do was to grant a warrant to commit Mrs. Keith. This, however, Mr. McLennan, on behalf of Mr. Keith, refused to accept, and the case awaits a decision as to the order to examine.

PASTORAL CONDUCT.—On the night of the 20th inst., some parties unknown broke into the Wesleyan Methodist Church at Forest, and destroyed the organ. This is the second time the church has been broken into for that purpose. A reward of two hundred dollars will be offered for the detection and conviction of the guilty parties.

TERRIBLE ACCIDENT AT KINCARDINE.—Robert Thomson, a farmer in the township of Kincardine, while felling timber in the woods on Thursday last, was struck on the head by a falling limb, fracturing his skull so badly that three pieces have since been removed. But little hopes are entertained of his recovery.

BUILDING IN MANITOBA.—The *Liberal* of the 8th inst. says:—Preparations are being made on a large scale for building operations in Winnipeg during the coming season. Almost every one is talking of building as soon as navigation opens. A large number of mechanics will find steady employment at high wages during the summer. Wages will range from \$3 to \$4 a day.

AN UNFORTUNATE MAN.—A young bachelor of USborne, being about to get married, last week went to warm up the house on a farm he had lately bought in Hibbert, and got his forehead scalded with the steam of a kettle. Next day he went to see the minister and got his nose frozen. The day following, although both scalded and frozen, he was united in the bonds of matrimony.

INSANITY IN MURDER TRIALS.—In Illinois a law is proposed which, if passed, would go far to put an end to the universal plea of insanity in murder trials. This proposed law provides that in case such a plea is interposed the case shall be tried just as if no such plea had been made. If the accused is found guilty, sentence shall be suspended, and a commission shall issue to investigate and determine the sanity of the prisoner as in other cases where the sanity of any person is involved in doubt. If found insane the prisoner is to be sent to the insane asylum. But if, at any future time, he shall be discharged as sane, he shall be sent to the State prison for the remainder of the term for which he was originally sentenced.

FAMOUS BRIDGES.—The bridge now in process of erection across the Mississippi at St. Louis is a tubular, cast steel, arch bridge, supported by three abutments and two piers; the latter are 515 feet apart, and 490 feet from its nearest abutment, making these spans of about 500 feet each. Its greatest span is the same as that of the Killenberg bridge over the Leek, an arm of the Rhine, in Holland. Telford's suspension bridge across the Menai Straits has a span of 570 feet. The Victoria tubular iron bridge of Montreal exceeds this greatly in length, being 5,500 feet (1 1/2 miles.) but it rests upon 24 piers, and its spans are mainly only 275 feet. The Roebling Suspension Bridge at Niagara spans 821 feet, and is 245 feet above the water. The East River Bridge, between New York and Brooklyn (Roebing suspension) will, when completed, span 1,600 feet, at a height midway, of 130 feet.

ASTONISHING DESERTIONS.—The *Hamilton Times* hits off the Tory press in the following scathing style:—The Reform party in Ontario may be considered as annihilated. So we judge from the very loud talk of the Tory press. They have made two great discoveries. First, that Dr. Billington, Middlesex, a Reformer, is now an opponent of Mr. Blake. Second, that a Reformer in Kent, name unknown, has written an anonymous letter to the *Chatham Planet*, in which he expresses himself dissatisfied with Mr. Blake. Over these two perversions the *Planet* and the *London Free Press* and the *Ottawa Times*, and kindred journals, are raving with insane joy. Two whole men gone over to Torydom in three months. This is equal to eight per year, or thirty-two in all by next election time. It is to be wondered at that Moderate-Tory-Conservatism is nearly crazed at such enormous and unusual accessions to its ranks? Can the Reform party endure depletion at such a rate—a rate that, if continued, will reduce their strength at the next general election by nearly half a vote in every constituency in the Province? We call on Mr. Blake, on Mr. Mackenzie, on Mr. Brown, on everybody, to do something somehow immediately, or the Reform party will be crushed out by the *Chatham Planet* and the *London Free Press*.

MONDAY EVENING, MARCH 25, 1872

SOUTH WESTWORTH—MR RYMAL NOMINATED.

A meeting of the prominent Reformers of South Westworth was held in Hamilton on Saturday, for the purpose of nominating a candidate to represent that constituency at the next election for the House of Commons.

That this meeting having full confidence in the ability and integrity of Joseph Rymal, Esq., M. P., of Barton, as a true and reliable Reformer, and believing that the interests of this Riding are perfectly safe in his hands: be it therefore resolved—That we hereby pledge ourselves to use all lawful means in our power, in order to secure his return to the Dominion House of Commons, at the ensuing elections.

Mr Rymal was present and spoke for a short time. He said he was growing older, and the principles to which he had always stood were still his, and it was not to-day that he was going to change. In the past elections the party had become predominant, and had done away with McDonald-less.

With respect to the Government at Ottawa, it had the worst possible record, and it was very likely that the people would show their disapprobation of this by leaving many of the wounded and dead upon the next election field, who were now holding seats at Ottawa.

In placing himself again before the electors, in answer to their wishes, he would only say that he had served them to the best of his ability, and would always do so. This they could always expect and be sure of. He had served them for fourteen years, and was mindful of the honors they had placed upon him.

Should the standing of the Government depend on his vote, they could be sure of the manner in which he would act. The local members Messrs. Sexton, Christie and Mr Williams, congratulated the meeting on the unanimity manifested, and spoke in the highest terms of praise of Mr Rymal, who had throughout been honest, fearless and consistent in expressing and standing by his political principles.

EDITORIAL NEWS.

The Imperial Parliament has adjourned over the Easter holidays till the 8th April.

Mr Patterson has accepted the nomination in the Reform interest for South Point.

The Canadian Pacific surveying party report that the line between Lake of the Woods and Fort Garry is favourable, and that almost inexhaustible supplies of tamarack, suitable for ties, can be had along the route.

The Chicago Relief Bill has at last been passed by a majority of 29 to 17. Several amendments were proposed, but they were all voted down, and the measure, as brought in by the Finance Committee, was adopted.

We learn from Ottawa that Mr. Miall, of the Inland Revenue Department, has been appointed to the Assistant Commissioner's position, which, since Mr Brunel's appointment as Commissioner, has been vacant. Mr Miall is a son of the English M. P., famous for his hostility to the Established Church, and is said to be an able and energetic official.

With regard to the trouble between the Toronto printers and their employers, the Toronto correspondent of the Kingston News says that in case of a strike, all the newspaper offices in the city (excepting the Leader, which has consented to the terms demanded) have entered into an agreement to unite to bring out their papers. They will contain the same matter, and no editorial work is to be done at the Globe office. We suppose that if the Globe has no editorials, the Telegraph will not either.

The late despatches from Mexico give some insight into the way rebellious Mexicans obtain the money with which to carry on the disturbance in that country. A levy is made upon any place which happens to fall into their power, and if a person should be imprudent enough to refuse to pay his proportion of it his property is seized and sold to make it up. Subsistence obtained in this manner must be of the most precarious nature, and will scarcely support a rebellion for any length of time.

English Church Reform.

It is remarkable that Lord Shaftesbury has promised to take the chair at a meeting to promote the reform of the Church of England, to be held at St. James' Hall next Thursday week (February 15th) at 8 p.m., of which it is to be one of the principles that the creed called the Athanasian is no longer to be publicly used in our church services. Dr. Barry, the principal of King's College; Dr. Miller, of Greenwich, and, it is hoped, even Mr. Byle, will support the programme which is chiefly this: (1) Reform, not dis-establishment; (2) the increased liberty in the use of the Prayer-book proposed by the Archbishop of Canterbury; (3) the disappearance of the Athanasian Creed, so far as regards the public Church services; (4) increased influence to the laity through representative Parochial Councils; (5) a reform of the system of patronage and of convocation. The association of such men as Lord Shaftesbury, Dr. Miller and Dr. Barry to the proposals of Mr. Gosper Temple and his friends, is an important and interesting circumstance to the prospects of the liberal Churchmen's movement.

PANIC IN A CHURCH.—A panic occurred in the French Cathedral on Sunday night which was nearly attended with serious consequences. During the service one of the gas chandeliers suddenly flickered and went out. A number of women at once began to scream and rush toward the doors, fearing an explosion. The panic grew general notwithstanding the efforts of the clergy to allay it, and men and women precipitated themselves over the pews and benches in frantic endeavours to get out. One individual succeeded and immediately rang the nearest fire-alarm, which brought the fire-brigade to the spot. By this time, however, the clergy and a few calmer members of the congregation had succeeded in restoring quiet. One woman was found to have her arm broken, another had been badly trampled by the crowd, and a good many more were more or less bruised.

WE beg to call attention to Mr Horsman's advertisement about Ploughs. The Plough referred to is having a large demand, so great has it become that three car loads have been forwarded to Mr. Horsman to supply the farmers in this neighborhood this Spring. All pronounce them the best general purpose Plough made; a guarantee of this we need only say that they are manufactured at the celebrated Agricultural Works of F. W. Glen, Oshawa. The price it will be observed will be kept at \$13, the old figure, until the 1st of April, when it will be raised to \$15 in consequence of the advance in Iron and Steel. We should therefore recommend our farmer friends to lose no time in procuring one at Mr. John Horsman's, Hardware Merchant of this town.

OR LOVE AND HONOUR.

A TALE OF THE CLYDE. CHAPTER XXIII.

ANXIOUS DAYS AT ARDENHAM—EDWIN AND RITCHIE IN LONDON.

What a change from the quietude of Ardenham to the bustling roar of the London streets...

After securing lodgings in a hotel, and discussing a comfortable breakfast, they sallied forth to pay a visit to Mr. Weggate...

Mr. Weggate was a ruddy-faced, pleasant, elderly man, with thin curly hair, which was turning to grey...

Without a word Mr. Weggate folded the parchment he had been examining, laid it on the pile, tied the whole together with a string...

"Now, sir," he said, quite heartily, "pray sit down. I am entirely at your service. Shall your servant wait in the outer room?"

"Ah, so you, in your artless simplicity, suppose, but Mr. Weggate will judge for himself when he knows all the circumstances now to be related to him...

"Yes, my uncle Edwin—whose name I bear—and of the unfortunate matter which took place twenty years ago."

"Returned!" he ejaculated, "after being absent and all trace of him lost for twenty years?"

"Perfectly certain of it; there is not the possibility of a doubt. How can you imagine such a thing as imposture?"

"It would, indeed," returned Weggate, drily, "especially as he fully admitted it."

crime, and was the victim of a foul conspiracy. Weggate smiled incredulously, and shook his head with the wise superiority of legal self-possession.

USE THE BEST.
HALL'S
VEGETABLE SICILIAN
HAIR
RENEWER
Nine years before the public, and no preparation for the hair has ever been produced equal to Hall's "Vegetable Sicilian Hair Renewer," and every honest dealer will say it gives the best satisfaction. It restores GRAY HAIR to its original color, eradicating and preventing dandruff, curing BALDNESS and promoting the growth of the hair. The gray and brassy by a few applications is changed to black and silky locks, and wayward hair will assume any shape the wearer desires. It is the cheapest HAIRDRESSING in the world and its effects last longer, as it excites the glands to furnish the nutritive principle so necessary to the life of hair. It gives the hair that splendid appearance so much admired by all. By its tonic and stimulating properties it prevents the hair from falling out, and none need be without Nature's ornament—a good head of hair. It is the first real perfected remedy ever discovered for curing diseases of the hair, and it has never been equalled, and we assure the thousands who have used it, it is kept up to its original high standard. Our Treatise on the Hair mailed free; send for it.
