FUTILE OPPOSITION.

The Times on Saturday evening

made a last effort to get up an

opposition to Mr. Earle. It had for

the time before acted the part of an

alarmist. It did its best to lead the

citizens to believe that the Dominion

Government proposes to repeal the

Restriction Act. It had no ground that

by any stretch of the imagination, could

be considered solid on which to base its

appeal to the fears of the citizens; but it

was foolish enough to believe that it had

only to cry wolf! Wolf! to set the

whole city in a panic and to get up a

storm of indignation against the Dominion

Government. But the organ

underestimated the intelligence and

good sense of the electors of Victoria.

Though strongly opposed to unrestricted

Chinese immigration, they were not

prepared to consent to the repeal of the

Restriction Act. They wanted some evidence of the intention

of the Dominion Government to favor

an influx of Chinese laborers before they

undertook to repeal the act. They were

not prepared to consent to the repeal of

the act in the way of offering Mr. Earle

to oppose a measure having that tendency

of getting up an opposition candidate.

It is true that Alderman Wilson

and some other citizens called a meeting

for the purpose of raising a public opinion

in favor of the repeal of the Restriction

Act. The result was that the meeting was

hardly attended. The result was that the

meeting was hardly attended. The result

CANADA'S VICEROY.

Victoria's Reception of the Governor-General.

A Loyal Welcome Accorded the Queen's Representative.

His Excellency and Lady Stanley Delighted With their Visit to the Capital of the Province.

Those who had fondly anticipated

that their weather would greet the

arrival of the Governor-General in Victoria,

were disappointed as they looked

from their windows early yesterday

morning to note that a thick blue fog

enveloped the city and the sun refused

to show his friendly face. As the

morning advanced the weather became

clearer, and by noon the day had been

a beautiful one.

A telegram was received from Van-

couver early in the morning containing

the information that H.M.S. Champion,

with the Vice-Regal party on board,

had left Vancouver at 8 a.m., and

consequently their arrival was looked for

at about 2 o'clock.

The DEBARKATIONS.

Victoria's decorations in honor of the

visit of the Governor-General were

made in former years. However, the

city had in a measure put on her

honor as the Governor-General and

Lady Stanley's most cordial and hearty

welcome was extended to them.

We had with pleasure the presence in

the city of the Governor-General and

Lady Stanley, and most graciously

received them at the Victoria Hotel.

At the close of the day the

Governor-General and Lady Stanley

departed for their residence in the

Victoria Hotel.

The Governor-General and Lady

Stanley were accompanied by the

Governor-General's secretary and

other members of the party.

The HOUSE OF STANLEY.

Better marching was never done

by the men of the headquarters

1868. It was something of a

surprise to note that a thick blue fog

A NEW DEVICE.

Electrovoicing has become almost an art in Great Britain. Considerable progress in that art has been made...

considered that they were carrying out the pledge long ago given to the Samoans...

JUSTICE IN AMERICA.

The Cronin case drags its slow length along. The manner of the Chicago court's procedure does not give us a very high idea of the effectiveness of the administration of justice in the neighboring republic.

ITALY'S POSITION. It is not often that an article in a review or other periodical makes any great stir in the world. The influence of such productions if great, is generally quiet and does not, as far as can be seen at any rate, extend over a very wide area.

CHILD EDUCATION.

There is in the October number of the Nineteenth Century an article on the mental and physical training of children by Mrs. Jessie Waller, which is a daughter of that wonderfully gifted man, Professor Huxley, which every young mother should read.

and joins hands with Germany and Austria. It is not likely that the last has been heard of this remarkable article.

THE FAST SERVICE.

It is unfortunate that the project of the Messrs. Anderson to establish a line of steamships between Canada and Great Britain has failed.

Since then about 150 miles have been completed, but work has commenced on other lines. The Railroad Gazette says that since the beginning of the present year there have been 574 miles of railway constructed in the Dominion.

A SMALL REBELLION.

The Victoria medical school, Montreal, has been for some time in a ferment. The students have been in rebellion.

Table with 2 columns: Location, Miles. Canadian Pacific railway, Ontario & Quebec, 22; Grand Trunk, 20; Cape Breton, 20; Great Northern, 20; Northwest Central, 20; Northern Pacific & Manitoba, 20; Ottawa & Gatineau Valley, 10; Toronto Valley, N. B., 10; Vancouver & Puget, 20; Victoria & Nanaimo, 20; Regina, Long Lake & Sea, 200.

Before the year closes it is calculated that five hundred miles of this road will be completed, making the total construction for the year about 875 miles.

It is unfortunate that the project of the Messrs. Anderson to establish a line of steamships between Canada and Great Britain has failed.

CHILD EDUCATION.

There is in the October number of the Nineteenth Century an article on the mental and physical training of children by Mrs. Jessie Waller, which is a daughter of that wonderfully gifted man, Professor Huxley, which every young mother should read.

ANOTHER HUDSON'S BAY ROAD.

A proposal has been made to construct a line of railway from Sault Ste. Marie to Hudson's Bay. Moore Factory, which is situated on the northern terminus of the route is said to be feasible, and the country through which it runs is reported to possess great mineral resources and some timber.

ITALY'S POSITION.

It is not often that an article in a review or other periodical makes any great stir in the world. The influence of such productions if great, is generally quiet and does not, as far as can be seen at any rate, extend over a very wide area.

THE FAST SERVICE.

A SMALL REBELLION.

The Victoria medical school, Montreal, has been for some time in a ferment. The students have been in rebellion.
