

THE E. R. BIG BOMB

Mr. McCarthy Before 3500 People at the Pavilion.

CHARLTON AND SAM BLAKE SAT ON

A Strong Letter From Rev. Dr. Carmichael, General Superintendent of the Methodist Conference, Rev. Principal Cameron, and Rev. Dr. Cameron, of the Presbyterian Board, on a Political Platform. Mr. McCarthy's speech at the County Convention at Newmarket, Ontario, was a landmark event in the history of the Equal Rights Association. He addressed a gathering of 3,500 people at the pavilion, where he outlined his vision for a united Canada. His speech was met with a storm of applause, and he was hailed as a champion of the oppressed. The event was a testament to the power of the spoken word and the ability of a single man to inspire a nation.

These motions were distributed around the pavilion, with appropriate motions sandwiched in between, converted the pavilion into a handsome enclosure on the occasion of the Equal Rights meeting last evening. When the hands on the dial of the secretary's watch indicated 7 1/2 every seat in the spacious building was occupied and at 7 3/4 the sides were thronged with an impatient multitude anxious to have the proceedings commence. There must have been fully 5000 people inside, including perhaps 1000 ladies who thronged the galleries, and 500 others were unable to secure admission.

The meeting decorated the walls: Save the Queen. Abolition of Privileges. Equal Rights for All. A. F. Chamberlain, Secretary. Canada a Nation. One Language.

At 8 o'clock Mr. J. E. Macdonald took the chair, flanked on the right and left respectively by Candidates Blake and Armour. These gentlemen and ladies were on the platform. A. F. Chamberlain, Secretary. O'Brien, J. B. Perry, J. S. Lockie, Dr. Davidson, President Quebec Provincial Equal Rights Association; Rev. John Gray, Rev.

Mr. McCarthy then referred to the dual language controversy in Ontario. He pointed out that the Roman Catholic hierarchy in Ontario was a barrier to the progress of the province. He called for a united Canada, where all citizens would be treated equally under the law. He spoke of the struggles of the French-Canadian people and the need for a common language and culture. His speech was a powerful indictment of the status quo and a call for radical change.

Mr. McCarthy's speech was a landmark event in the history of the Equal Rights Association. He addressed a gathering of 3,500 people at the pavilion, where he outlined his vision for a united Canada. His speech was met with a storm of applause, and he was hailed as a champion of the oppressed. The event was a testament to the power of the spoken word and the ability of a single man to inspire a nation.

BISMARCK TO BE MUZZLED.

THE KAISER WARNS HIM THAT HE MUST STOP TALKING.

Minor German Officials Threatened With Dismissal for Aiding Son Herbert to Threaten the Emperor's Purposes—Kaiser's Special Agent in London, Count von Helldorf, Warns Bismarck That He Must Stop Talking.

London, June 2.—A Paris correspondent says a number of officials at minor German courts are threatened with dismissal for assisting Bismarck at the instance of Count Herbert Bismarck to obstruct the Emperor's policy.

A Timely Warning. London, June 2.—There is great speculation about the Kaiser's attitude towards Bismarck. It is believed that the Kaiser has decided to muzzle Bismarck's tongue. The Kaiser has warned Bismarck that he must stop talking and that he must support the Emperor's policy. Bismarck has refused to do so, and he has been threatened with dismissal.

How the Constitution Can Be Changed. Mr. McCarthy next turned to the question of the constitution. He pointed out that the constitution was a barrier to the progress of the province. He called for a new constitution, where all citizens would be treated equally under the law. He spoke of the struggles of the French-Canadian people and the need for a common language and culture.

Notes of the Campaign Around Home. To-night the Conservatives of Toronto will hold their final rally in St. Andrew's Hall. The Conservative Party will be represented by Mr. J. H. McPherson, M.P. for the riding of St. Andrew's. He will speak on the subject of the constitution and the need for a new constitution.

Bequests for Jim Hughes. The estate of James Hughes, who died last week, has been divided into three parts. One part will go to his wife, one to his children, and one to a charitable institution. The charitable institution will be used to support the education of poor children.

THE CEMETERY AND THE BELT LINE

Some Reasons Why It is Desirable to Have the Proposed Road Cross Mount Pleasant - Is It Desirable?

Editor World: I have been for about 13 years owner of a lot in Mount Pleasant Cemetery, and had the public meeting to be held on Tuesday night been called for a time when I could have attended it, I would have raised permission to state in person my reasons for wishing to see the belt line railway constructed on the site.

After making the most careful inquiries on the point, and after years of familiarity with the topographical features of the locality, I am thoroughly convinced that it is not a belt line at all. It must be allowed to leave the Don valley and reach the table land of which Mount Pleasant forms a part by way of the main selected for that purpose.

From my point of view, it has become a question of having a belt line across the cemetery property or not having a belt line at all, and when the issue presents itself in this way I have no hesitations in expressing my opinion on the railway.

My only reason for wanting such a line of railway near the cemetery are these: Toronto has become a very large city in area and it is impossible to find a large tract of vacant land on which to build a railway station.

From my point of view, it has become a question of having a belt line across the cemetery property or not having a belt line at all, and when the issue presents itself in this way I have no hesitations in expressing my opinion on the railway.

THE MILL MYSTERY.

No occurrence worth mentioning followed this interview with Dwight Pollard. I contacted the services as laid promise, but found nothing to relate concerning them.

The injured man is within," said he. "The face was entirely in shadow. 'Who are you?' I asked. 'Let me go,' he said. 'I would have returned to you for the last few days had I not been so despondent of myself that I was ready to impale myself on the most ordinary instrument of self-preservation.'

I accordingly followed the man, though with each step that I took I felt my apprehensions increase. To pierce in this manner a depth of shadow, with only the dim outline of an unknown man moving silently before me, was anything but encouraging in itself.

From the cemetery I went immediately to my house. The day was dreary one, and I felt chilled. The gray of the sky was in my spirit, and every thing seemed unreal and dark and strange. I was in a mood of depression, and I could not think of anything but the mystery of the man who had appeared to me.

At the door of my study I passed and looked hurriedly around. No signs of any disturbance met my eye. Crossing over to my desk, I surveyed the papers which I had left scattered about, and wondering more and more, I thought of the man who had appeared to me.

I was struck, too, by the immovable determination to compass her own ends at any and every risk, which was manifested by this incident, and I thought of the man who had appeared to me.

NOT IS MILLS ON THE DOLLAR.

Mayor Clark Says the Taxes Will Not Retard the Predictions of His Newspaper Editors.

Chairman Hill presided at yesterday's meeting of the Waterworks Committee. There were present: Ald. Brandon, Carlyle, (St. Andrew), Lewis, Macpherson, Giddens, Bowerman, Bailey, McMillan, Gowland, Small, There was some trouble between Ald. Carlyle and the chairman over the laying of water mains on streets where there were not enough water takers to pay the revenue.

The report of the sub-committee on rates was given considerable attention. In connection with this report, the chairman stated that the rate this year of general taxation would be 12 mills on the dollar. It was stated that the rate for water works would be 1.5 mills on the dollar.

The sub-committee's report was: 'That it is in the interest of the public that such rate should be levied as will enable the water works of the city to pay the cost of the debt and for sinking fund purposes to be paid out of the same.'

This means a general reduction of 50 per cent all round on the present rate for room and utilities, which are the prime factors in the calculation of all rates and constitutes by far the most important feature of the report.

The report was adopted and a by-law will be prepared embodying the idea.
