STOCKS REACT—CANADIAN PACIFIC WEAK—TORONTO RAILS DECLINE ON DISAPPOINTMENT OF DIVIDEND—MARKET CLOSES DULL.

The week opened this morning with irregular markets, with few exceptions stocks were generally weak. This irregularity and difference of sentiment was not confined to our local securities alone. The London cables were irregular and the New York market was likewise erratic. Monday's trading is often peculiar in this respect, and we have an instance in the case before us to-day.

The London cables for Canadian Pacific were decidedly weak. The closing cables were quoted at a loss of 3/4 a point for the day. It is not to be wondered at that in our local market the stock should suffer in consequence. Nearly 1,700 shares were dealt in, and considering the amount of liquidation and pressure to sell the stock held up remarkably well. The changes were only fractional, and it closes to-day with a loss of 1/4 of a point from Saturday's closing figure.

Royal Electric was under considerable pressure but was on the whole firmly held. There seemed to be plenty of buying orders on the decline. It closes, however, with a loss of two points from Saturday's close, at 185, with sellers asking 186.

Montreal Gas came into prominence again during this morning's transactions, and was the firm feature in a declining market. Sales of 1300 shares were transacted and it recorded at one time a gain of two clear points from Saturday's close. It closes with a fraction of the best at 118 1/2. In all probability this specialty would have worked higher, if the general sentiment of the Room had not been so bearish to-day. There is plenty of Room talk for higher prices, and those who are in a position to know how matters stand recommend the purchase.

Toronto Rails suffered considerably. There seems to be a certain amount of disappointment over the action of the directors in not increasing the dividend, but as far as we are concerned we cannot see why

there should be. Those who are best informed have never expected either an increase or a bonus to be given at this time of the year, and we commend the conservative policy pursued by the management. We should advise all intending purchasers to take advantage of any further reaction to get on board.

In other respects the market was quiet. Mining stocks were shelved for the time being. Twin City remains practically unchanged, and quotations in other respects remain unaltered.

AFTERNOON BOARD.

Stocks were very quiet during the second half of to-day's trading.

Canadian Pacific was the weak element during the day's transactions, and it closes to-night at the lowest of the day at 86. During the session it was heavily dealt in, 3,000 shares changing hands during this afternoon.

Royal Electric held its own extremely well, considering its late advance; it closes at 184 1/2, with sellers asking 185.

Toronto Rails was firm on the decline and should be one of the first to rally when the present sentiment changes. Sellers were asking 116 at the close.

Payne Mine sold at 400.
Other stocks were quiet.

CHICAGO MARKET.

CABLES LOWER—DAMAGE TO INDIAN CROP OFFSET BY INCREASE IN VISIBLE—CORN AND OATS INCREASE.

Chicago, March 13.

Room-talk continues very bearish, even after the heavy decline of the last few days. Traders can see nothing in the position of wheat to warrant higher prices. The bear element seem to gain courage and aggressiveness, and now predict that May wheat would not sell again in Chicago for 75c.

The trade has it firmly fixed in mind that the wheat price is about 10 cents a bushel too high, and sells at the first sign of weakness.

Beerbohm in examining the European statistical situation, slightly lowers the estimate of requirements to 6,400,000 bushels weekly. These bearish advices adding their influence, make a discouraging prospect for an advance at present.

Exports, however, have been liberal, foreign buying has been resumed on the recessions, and if we accept the extraordinary season of 1898, stocks are unusually small. So that sooner or later we look for better prices, even if the market ultimately reaches a lower level. The future course of the market depends largely upon the reports from the wheat belt.

Wheat and flour on passage to U. K., 3,090,000 qrs.; maize on passage to U. K.; 710,000 qrs.; wheat and flour on passage to Continent, 1,480,000 qrs.; maize on passage to Continent, 840,000 qrs.

Indian shipments of wheat to United Kingdom, 8,000 qrs.; Indian shipments of wheat to Continent, none.

Russian shipments of wheat to Continent, 52,000 qrs.; Russian shipments of maize to Continent, 91,000 qrs.

BRADSTREETS' SHIPMENTS.

Wheat, including flour shipments, for week, aggregate 4,398,821 bush., against 5,815,585 bushels last week. Since July 1st this season the exports of wheat aggregate 173,111,755 bushels, against 168,941,514 bushels last year.

Corn exports for the week aggregate 3,786,586 bushels, against 5,794,863 bushels last week. Since July 1st this season corn exports aggregate 117,242,627 bushels, against 122,595,795 bushels during the same period a year ago.

NEW YORK EXCHANGE.

NEW YORK STOCK MARKET.—March 13, 1899.

TOBACCO ADVANCES OVER 10 POINTS—STEEL STOCKS SHOWS STRENGTH—M. O. P. GAINS TWO POINTS—GRANGERS QUIET.

New York, March 13.

Market for Americans in London is quiet with prices about equal to our closing of Saturday, the only feature being that there is some pressure to sell Union Pacific by stockholders who are dissatisfied with the rate of dividend declared last week. Writers on financial topics in yesterday's and to-day's papers, are fairly unanimous in predicting that no very marked movement is likely to take place in prices during the coming month.

The satisfactory nature of trade conditions generally, is recognized. It is pointed out that there may be little flurry in the money market as a result of the various trade combinations which are taken place, and also on account of the payment for the Chicago & Alton.

Uncertainty in regard to wheat prospects are also likely to militate against any decided advance; in Grangers Commission Houses as a rule are disposed to advise taking profits on any material advances.

Discrimination against the newly listed industrials is likely to continue. Earnings are being compared now with very large earnings last year and the bad weather of last month will possibly result in disappointment over the net earnings of the month of February.

Bull tips are current on Peoples Gas. Flower interests supposed have taken 10,000 to 15,000 shares last week. There is a possibility that some news of a bullish character will come out with regard to Brooklyn Rapid Transit. The short interest in the market continues to be insignificant as compared with the enormous long interest being carried by Commission Houses. Consequently, on any break prices will lack the support which they received in an ordinary market from the short interest.

Louisville earnings, 1st week in March, increase \$6,425.

The strongest features were the Reading shares, A. S. W., and American Tobacco. The latter stock had an exceedingly sharp advance due on the early approach of the declaration of the 100 p.c. scrip div.

The Grangers and Pacific stocks continue heavy features which, considering their intrinsic merits, is a rather singular feature of current speculation.

According to the Room talk, the Flower party have made up a new bull pool in Federal Steel, and the preferred stock which sold ex div. this morning has been particularly strong.

M. R. is heavy with the belief that legislation will be forced to pass a bill excluding the four trucks in Amsterdam Avenue.

London market showed irregularity and very little was done for foreign account. Banking houses report that the return of American securities is still going on, although it does not appear in stock exchange operations.
