News From The Parliament Buildings

CLARKE CONDONES EVANTUREL ACTION
Member for Northumberland Thinks He Has a Right to His Convictions.

ROWELL SAINTLINESS Greater Than That of His Critics - An Afternoon of Repartee.

The budget debate has arrived at the stage where participants indulge in personalities. This happened frequently yesterday afternoon when T. W. McGarry of Refrere, took the occasion for the government and Sam Clarke of Northumberland replied. For the bigger half of the address of the Liberal member repartee was in order.

The interruptions began when Mr. McGarry referred to Mr. Rowell in his address as having been glad to share in the glory of the majority. Mr. Rowell, who, but not that of Sir George Ross. The speaker maintained that the mantle of the old Liberal chiefs had been dragged thru the mire of corruption and was tattered enough to destroy its usefulness even for a modern society.

This brought a vigorous reply from Sam Clarke in the nature of a challenge to the province to compare the records both in public and private life of the leader of the opposition and the member even went so far as to point out how lacking government members were in the alignments with which they credited Mr. Rowell.

Mr. Clarke was the first man in the house to condone the action of Mr. Rowell to any extent. He stated that as far as his share on the bar question was concerned he was quite satisfied, and had a right to his convictions. There were ten men in the Liberal party who stood up and said to Mr. Rowell that they could not follow him in that policy they would be with him in their right minds.

Mr. McGarry pointed out the improvement in the handling of finances since the present administration had taken office. He stated that the present administration had disposed of under the old regime for \$200,000 a block of six acres had recently placed \$300,000 in the provincial coffers. This was merely illustrative of the general work being done in agriculture, crown lands and other departments. The activity in the house was very lively as the opposition with regard to the lack of revenue.

Building a Burden. The attack of Sam Clarke centered about government house. He would have an immense burden, he said, at an immense cost. "No one thinks that Sir John Gibbon wants to live in such a house," he declared. "He could not live in the back kitchen if it had to pay the whole bill."

He also took a drive at the policy of feeding prisoners in the Gauleigh farm on "quail on top" and domiciling them in quarters with hardwood floors and the luxuries. He then touched on the enquiry into the public accounts of last year, and claimed that when the investigation was going on the door had been slammed in their faces. Messrs. Hugh Munro of Glengarry and J. W. Johnson of Hastings followed with short addresses.

SIR GEORGE ROSS. Sir George Ross showed no improvement yesterday, and according to the standing specialists grows weaker every day. Although he is so weak he cannot even recognize members of his own family Dr. Goeldie believes he may linger some days.

GABINET SILENT ON INDEMNITY QUESTION
There is some interesting speculation concerning the indemnity to which the member for Prescott is entitled. He has already sent in an application to the government for the payment of it up to date.

It was stated yesterday by a government official that Mr. Evanturel's sessional allowance would stop from the day that the original statement was read in the house. This, however, is questioned by others. The rate usually allowed is twenty dollars per day up to the end of thirty days. For more than thirty days the indemnity is \$1400 in a lump.

Later in the evening the government was asked the question to say whether he would be out of it in any respect or not.

BANK TAX WOULD INCREASE REVENUE
Conservative Member for Hastings Has Plan to Tax Bank Capital.

ALMOST HALF MILLION Would Accrue to Province Annually - Divert Portion of Huge Profits.

Mr. Evanturel, member for Hastings, proposed that a tax of one-quarter of one per cent. be levied on the paid-up capital of all banks in the province. He stated that the banks today were enjoying an era of great business and expansion. In eight representative institutions he found that the paid-up capital was \$55,000,000 and that the deposits exceeded \$75,000,000. On the bulk of the deposits no interest was paid. In some cases 20 per cent. profit was realized yearly on the paid-up capital; the average was 17 per cent. His suggestion was that the banks should have back a small proportion of the large profits which the people's money alone had allowed them to create. It was only the people's patronage which allowed them to carry on their business. The tax, Mr. Johnston averred, would mean an injustice to no one.

BEAVERTON CITIZEN PASSES SUDDENLY
BEAVERTON, March 5.—Parquhar McRae died suddenly here today. He was stricken ill a few days ago, but latest reports before his death led to a belief in his recovery. He was a native of Throth Township, but had lived most of his life in Beaverton. For 25 years he was engaged as a merchant. He also served as a town official. He was a Presbyterian in religion and in politics a Conservative. He is survived by a widow and two daughters. The funeral will be held on Sunday afternoon from the late residence to St. Andrew's Church Cemetery.

TWO MURDERERS REPRIEVED. OTTAWA, March 5.—Clark and Davis, the two murderers who were to have been hanged at Vancouver tomorrow have been granted a reprieve by the minister of justice for fifteen days in order to enable them to present their case for revision by the supreme court of the province.

ADVISES MEMBER TO RESIGN SEAT
Better for Evanturel to Get Out at Once, Says Desk-Mate.

ISSUE NOT CLOUDED
Zotipe Mageau Issues Statement Regarding Nature of Evanturel Incident.

Blind ties apparently are not to figure in the consideration with which Gustave Evanturel will be held in the Ontario Legislature. Zotipe Mageau, Liberal member for Sturgeon Falls, issued last evening a statement advising his immediate retirement and protesting against the clouding of the issue by any mention of the bilingual differences.

The statement is as follows: "As a French-Canadian representing the constituency of Sturgeon Falls, I wish to protest against certain attempts to confuse the real issue in regard to Mr. Evanturel, member for Prescott. "As a matter of fact, the whole question is one of public morals and it is on the grounds of having made an improper proposal as a member of the legislature that Mr. Evanturel has laid himself open to censure. "The Evanturel incident has nothing whatever to do with the bilingual school issue, although it is reported that efforts are being made to arouse sympathy for Mr. Evanturel among French-Canadians in Ontario by the allegation that he has been persecuted because he is a French-Canadian. Such a line of argument is to be deplored; bilingual schools do not figure in any way in the matter. I feel the member for Prescott resigns his seat the better it will be for himself."

PRESIDENT GAVE GRAVE WARNING
United States Must Not Violate Obligations Under Hay-Pauncefote Treaty.

ers that while he had never received any formal communications on the subject, he had understood that European nations generally took the same view as did Great Britain, that the Hay-Pauncefote treaty was violated by that in dealing with foreign nations which believed the United States did not keep up promise on so important a treaty as the Hay-Pauncefote convention, would not be likely to be sincere on other delicate questions. Sailing Close to Wind. Word had come to the president of a general impression in Europe that the United States was "sailing as close to the wind as possible" in interpreting promises made in its treaties. No pressure had been brought to bear by any nation to emphasize their view in this connection, but the president felt confident that foreign governments had this feeling on the subject. Senator Shively, acting chairman of the foreign relations committee, commenting last night, he was assured President Wilson's reference to "other matters" meant all foreign matters confronting the government. "The administration had inherited many foreign problems," he said, "and it is necessary that our foreign relations be readjusted."

Representative Palmer of Pennsylvania announced that a poll of the house conclusively demonstrated that there are more than enough votes in the house to sustain the president's appeal.

MISCHA ELMAN SYMPHONY ORCHESTRA

Frank Weisman has never had a finer all-round performance since the Toronto Symphony Orchestra has been in existence. The last night's concert in Massey Hall, when the orchestra produced two new numbers and Mischa Elman was the solo violinist. Mr. Elman played the solo part in the Tschalkowsky concert for violin and orchestra. The seductive and subtly sensuous quality of his tone seems particularly appropriate to the themes of the concerto. At the same time Elman played with singular purity of intonation, and of course there is little to be said except of the marvel of his execution, while he is a magician in harmonics. In the "Humoreske" encore this was specially notable. It must be conceded that Elman has temperament beyond measure of the violinists in the front rank, and this naturally wins him great popular favor. After the first movement of "Ave Maria," Wilhelm's arrangement, and his rendering was full-toned and picturesque. Sarasate's "Zigeunerweisen" followed, a triumph of technical skill. An encore brought the delicately melodious minuet by Martini; a second encore, Paganini's "Caprice," another technical marvel, and the third encore number was Dvorak's "Humoreske." Percy Kirk was excellently tasteful as accompanist. The concert opened with Gherardini's splendid overture "Anacorete," which opens with dignity and sweetness, and as a sample of old classical writing need not fear comparison with its later schools. The string climaxes were finely worked up, and the stately and melodious themes were delightfully and delicately set out. The orchestra is giving distinction to the feature of graceful and delicate interpretation, and this was fully apparent in the Grieg music for "Peer Gynt." The concert closed with Dvorak's "Carnaval" overture, now played for the first time by the Symphony Orchestra. It was given a splendid and interesting rendering. The support given Mr. Elman in the concerto was notably good. The difficult lead in the second movement was taken with ease and precision.

HARRISTON LOSES LEADING CITIZEN
James M. McKay Carried Off - Former Mayor and Prominent Oil Man.

HARRISTON, March 5.—The oil trade of Canada loses one of its best known and respected representatives in the death of James M. McKay, which occurred here yesterday. He had been associated with the firm of McCol Bros. & Co., Toronto, for the past 25 years, first in the capacity of traveler in western Ontario, and later in charge of the company's branch in Harriston, where he was amongst the most prominent progressive citizens, taking an active interest in municipal matters and reform movements, and his death removes a man who will be much missed. He had occupied many positions in the gift of his townpeople and was a former mayor of Harriston. He was a supporter of the Presbyterian Church and an active Liberal in politics. The late Mr. McKay is survived by his widow and two sons, who were summoned to the deathbed from New York State and Saskatchewan, as well as his brother, John S. McKay of Montreal. He was in his 60th year, and was born in Aldboro Township, Elgin County, on a farm neighboring that on which the McColls were born. His father, who was a former Hudson Bay

LACK OF WORK IN CANADA ADVERTISED

Statement Made in British Parliament in Reply to Queries.

LONDON, March 5.—Unemployment in Canadian cities provoked questions in the house of commons from Kyril Hardie, the Labor-Socialist leader, today. He asked the board of trade president whether his attention had been drawn to the fact that there is much unemployment in Canada, and whether his department would follow the precedent set by the war office, and use the press of this country to warn intending emigrants to be on their guard against official and shipping agents' statements.

HUSBAND CLAIMS HIS WIFE WAS UNLAWFULLY INFLUENCED

Mrs. Lamphier Ignored Him in Making Her Final Testament. Before Chancellor Boyd, at Osgoode Hall, the will of the late Mrs. Lamphier, who died Sept. 30, 1913, is being contested by her husband, Joseph Lamphier. Mrs. Lamphier left two wills, in the latter of which she leaves her entire estate of approximately \$25,000 to her six sons and three daughters. Her husband is ignored. He alleges undue influence and the lack of mental capacity on the part of his wife when she executed her second will.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Ginger Bread Boys

"BEGIN" to eat him at his toes, Polly, so's he will last longer, shrieked Phrosie, when she thought Polly was about to decapitate her beloved ginger-bread boy at one bite. Five Little Peppers. Cuddling ginger-bread figures are dear to the hearts of grown-ups, as well as little folks, and it is not harder to shape them than to make any other kind of cookie.

No. 1.—One cup lightest brown sugar, one half cup of melted shortening, one pint of dark molasses, one third of a cup of sweet milk, two teaspoons of ginger, one of cinnamon, one level teaspoon of soda and enough flour to make a stiff dough. Bake well. No. 2.—One egg, one cup of sugar, one half cup of butter, one cup of sour milk or buttermilk, one teaspoon soda, two each of ginger and cinnamon, one cup molasses, three and a half cups flour. Roll, cut and bake. This requires slow, steady baking.

The old-fashioned suet pudding, so well liked with hard sauce, is a very simple affair. One cup of suet is chopped with a knife and all the strings and fibres removed; it will not cling to the chopping knife if it is kept cold and a sprinkle of flour dredged in once in a while. Put the chopped suet in a deep bowl and add one cup of molasses, one half cup of chopped fruit, one teaspoon of cinnamon and a half a teaspoon each of cloves, allspice, ginger and grated nutmeg. Mix a level teaspoon of soda into a cup of sour milk, and add it and one cup light brown sugar and three cups of flour to the contents of the bowl. Beat briskly and bake in greased molds or steam two hours.

This suet pudding will keep an indefinite length of time and be as fine as ever when reheated. Nuts may be added with the fruit. Steamed brown bread may be made at the same time the pudding is cooked, at a saving of fuel. Two cups of Graham flour, two cups corn meal, the teaspoon of soda, one of salt, two cups of sour milk, one cup of molasses. This must steam three hours or bake forty minutes.

If a very soft, moist loaf of steamed brown bread is liked the process is somewhat different. A pint of corn meal should be scalded so it is wet thoroughly and covered over for ten minutes. Then add enough water to make a batter and stir in the rest of the ingredients mentioned above. This is steamed, but about twenty minutes before it is done, place it in a hot oven, so a crisp crust will form on the outer side and some of the moisture evaporate.

THE HUNGRY BABY. If he isn't hungry something is wrong. But there are different kinds of hunger. It awakens before his feeding time his first hunger is to eat. If he awakens at night he wants to be fed. When he is sick and fretful he will in his early days if you let him. In his good time, and he proposes to enjoy himself as much as possible. It is good for baby the feeding time and we must regulate his feeding time and the quality and quantity of his food, so that his appetite remains good and his health kind. If a baby is allowed to eat whenever he cries, he will eat until he is sick. But the too hungry baby is not getting the right kind of food; it is insufficient in quantity or strength, or is causing indigestion. Many a poor baby has suffered because his mother thought he was hungry when he really had colic. Older children should be hungry when it is time to eat. If they are not, candy, apples and pieces between meals are the most frequent causes of their lack of appetite. Children with very poor appetites should be denied candy altogether, and eating between meals should be absolutely prohibited with the exception of fruits (except bananas). Like the baby, the older child may have a poor appetite because his food is wrong. A healthy child, whose mother has first the matter of feeding children, should eat whatever is put before him and be glad to. A certain amount of firmness on the mother's part is all that is necessary. If a well child refuses food that he should eat, he should go hungry until the next meal. Cruelty. Nothing of the sort. Why should not a child be taught to appreciate proper food? And who is to be abstracted and thought I was talking to an older person. I asked the 3-year-old if he would like an egg or meat for his dinner. He made a slow choice, and when the egg was read for him he asked for meat. I've had no peace since. Invariably when I was to probe in the surrogate given egg he wants chicken, even for breakfast he has asked that his porridge be exchanged for soup. The choice of food is too important a mat-

WANT NEW SCHOOL IN EAST TORONTO

Deputation Tells Board of Education Growth of Population Demands It.

Chairman McTaggart told the board of education last night that the report of the special committee on the judgment of Judge Winchester would be ready for the next board meeting. A deputation from school section No. 26, East Toronto, near Woodbine Avenue, asked for co-operation in the building of a new school, which is required through the rapid growth of population. The present school accommodates three hundred school children and 15 teachers.

MANY REFORMS ARE DEMANDED

Social Service Congress Asks Dominion Government to Appoint Commissions.

Other resolutions submitted were: Free employment bureaus—"That the Dominion Government be asked to establish a system of free employment bureaus. Further, that they ask the trades union councils, the civic authorities and the boards of trade to nominate each a report to form a commission for the administration of each employment bureau."

British Columbia Indian problem—"While not expressing an opinion on the Indian question in British Columbia, the congress expresses the hope that a satisfactory settlement will be reached by submitting the question to the privy council."

Against armaments—"The congress strongly favors the settlement of international disputes by arbitration, and without resorting to arms, and that efforts be directed to stop the commercialization of armament manufacture."

To protect children—"That the congress recommend that the better care and protection of children is vital to the progress and development of our national life, would recommend to the premier of Canada the desirability of creating a Canadian department of children's welfare."

The following resolution prompted considerable discussion: "The congress recommends that civil servants be given full political rights."

GOOPS

Melissa Mirrowax, alas, is always looking in the glass. She's vain because she thinks she's pretty. And shows it—which is such a pity! She is good looking, I don't doubt it. But she's a Goop to think about it. Don't Be A Goop!

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D. WHAT ARE "PERENNIALS"? After explaining the nature of annuals yesterday it follows quite naturally that a second very commonly used term name, perennials, will be better for a word or two of explanation.

Perennials are those plants that will live year after year, the roots increasing so that root division is necessary almost every second year, at least. Some of these perennials may be obtained in the first place, by seed-sowing or by the obtaining of the small roots. As a rule when the nurserymen speak of perennials they have in mind only herbaceous perennials, but, strictly speaking, trees and shrubs are perennials.

Under the name herbaceous perennial come many well-known plants that few gardeners will fail to recognize. Our various irises are perennials. The peonies are true herbaceous perennials. Lilies of the valley, the giant phlox, the English harkness, tradescantia virginiana, spider lily, bleeding heart, and many others too numerous to mention came under the heading perennials.

By many the old Sweet William, the foxglove and the Canterbury bell are considered and classified as perennials, but this is not true. These are strict biennials, the nature of which comes up for explanation tomorrow.

Perennials are all so very easy to cultivate that there really seems no reason why every gardener should not have a few good old relatives to fill up the odd corners and to use as fence-hiders.

The important thing is to choose such perennials as will be entirely suitable to your own special bit of ground. If you have but a limited ground space, it will be hardly possible for you to have more than one small clump of peony, for instance, since this herbaceous perennial requires a large space both for roots and for the large bush which grows so rapidly. These roots, too, must not be disturbed more than every three or four years.

This plant is mentioned just as an instance of the nature of certain perennials. All do not need the same large space. But in any event, you must choose such perennials as is suited to your limited space.

NO BLACK TRUCK TIE-UP

The Grand Trunk Railway has issued a denial of the rumor that there is any freight tie-up in Ontario. An official of the company said regarding the matter yesterday: "We had a total of 439 cars at Black Rock terminal today, compared with 1829 cars the same day last year. We have lots of motive power and in good shape to handle everything. There is no congestion whatever, and general conditions will never be better at this season."

PANSHINE. It's just as good for painted work and woodwork—for pots, pans, linoleums and bathroom fixtures. Panshine is a pure, white and clean powder without any disagreeable smell and does not harm the hands. Large Sifter 10c. At all Grocers.

Satisfy That Longing For Music

Come out of the ranks of the listeners and be a performer of music. Whether you have had a musical training or not, the marvelous Gourlay-Angelus affords a means of expression to everyone who loves music.

The charm of this player lies in the perfect control over every note. The performer controls absolutely by a Phrasing Lever, every shading of musical expression, thus imparting to the selection one's own personality and temperament. Such wonderful phrasing possibilities of the

GOURLAY ANGELUS

are clearly manifested in accompaniments. The art of accompanying a soloist is attained to the highest degree of excellence on a Gourlay-Angelus. Clever exclusive devices allow the melody to predominate, a chord to be emphasized, or any liberties in tempo to be taken by the soloist.

TESTED ENDURANCE

The Gourlay-Angelus, with its wonderful mechanism and possibilities, lays claim to the interest of every lover of music. Call and investigate its merits. The Diaphragm Pneumatics alone have established incomparable records of tests for endurance. There's not the slightest evidence of wear after the most strenuous experiments. Hence, the life of a Gourlay-Angelus is immeasurable.

Let the powerful influence of a Gourlay-Angelus enter your life. It provides the rarest kind of musical instrument.

GOURLAY WINTER LEEMING

HYDRO COMMISSION PROTESTS BILL

Opposes Power Development of Surplus Waters in Welland District by Company.

OTTAWA, March 5.—A protest has been lodged by the Hydro-Electric Power Commission of Ontario against the bill of the Niagara Welland Power Co. This is an extension of a charter for developing power which was first granted in 1899, which has already had three renewals and which is now before parliament for another renewal of five years. When it came before the private bills committee of the house the chairman, Major Sam Sharpe, said that as it appeared to him to be getting too close to the border of provincial rights, he would have it submitted to Hon. Adam Beck before it went further. Copies of the bill were sent to Mr. Beck and to the commission, and a prompt protest had followed.

The ground taken by the commission is that there should be no more rights granted to any private concern for the use of surplus waters of the Welland district for commercial purposes, as the surplus is now required for public use and should be used under the control of the province so that it can be used for these public purposes and prevent the waste which is being made of it by private bills committee. This particular company expected to benefit by work that is going on in connection with the deepening of the Welland Canal. Dr. Stole of South Perth and other members of the committee said that if there were any benefits in the way of power coming from the Welland Canal work it should be the people of Ontario and not the private company that should profit.

LARGER TERRITORY FOR HALTON RIFLES

GEORGETOWN, March 5.—Major Noble and Capt. Balantine announce that it has been arranged that the 20th Regiment, Halton Rifles, will be recruited for camp this year in its old area, the County of Halton, but as soon as arrangements can be completed the southern portion of Peel County will be added to the County of Halton as a new regimental district for the Halton Rifles. The headquarters of the regiment will be Brampton instead of Milton. The command of the 20th will be given to Major Noble, with Capt. Balantine second in command.

It is not expected that the 20th Regiment will be numerically strong this camp, but after the new order takes effect it is expected that the difficulty of recruiting hitherto experienced will be eliminated by the acquisition of the new territory.

METAL PRODUCTS COMPANY TO MANUFACTURE IN GUELPH.

Hundred Thousand Capitalization is Behind New Project.

GUELPH, March 5.—The Canadian Products Ltd., purchased the plant of the Standard Fitting and Valve Co. on the York road, which has been lying idle for several years. The president of the new company is W. B. Hinman of Cleveland, Ohio, and he is associated with a number of business men of that city. The new company has been incorporated at a capitalization of \$100,000. It will manufacture high carbon steel structural tubing, for which there is a great demand at the present time. A lot of new machinery has been ordered.

HAD NARROW ESCAPE.

SUDBURY, March 5.—In attempting to thaw out a pile of ice containing dynamite, Nicholas Sobosky, a Russian laborer, was nearly blown to pieces. He was brought to St. Joseph's Hospital, where he was attended by Dr. Dixon, and is expected to recover. The victim was employed on the construction of a five-mile spur from the C.P.R. main line into the Big Levee mine, which is to be opened up this spring by the Mond Nickel Co. He placed the pile on a fire. It exploded, bruising and tearing the flesh from the legs and arms and cutting the face. A large piece of tin buried itself in the right leg near the ankle. Other injuries more or less severe were sustained.

QUESTION MAYOR'S VOTES.

THOROLD, March 5.—Something new to many in parliamentary procedure was introduced by Mayor Battle at the council meeting here. The subject under consideration was the N.S.T.R. extension to South Thorold. Councillor McGill called for a vote. The amendment was declared lost by Mayor Battle on a tie vote, he himself voting when the original motion was voted upon. In this another tie vote resulted, the mayor again making it so, but Mayor Battle declared the motion carried. Councillor Grenville, who took exception to the mayor voting twice, named a committee to interview the town solicitor as to the legality of such a vote.

HORSE DEALER ROBBED.

MARKDALE, March 5.—Crozier Coultter, of Coultter Bros. horse buyers, Toronto, was the victim of a robbery while staying at the Markdale House. Mr. Coultter and his brother James retired early to their room, holding the door. When Crozier awoke in the morning he noticed the door was slightly open, and becoming suspicious he made an examination of his trousers pockets, when he found that \$125 had been filched therefrom during the night. A roll of bills in the pocket of his brother was untouched.

INCREASE LIMIT IN PARCEL POST

Weight Allowance to Be Raised From Six to Eleven Pounds.

OTTAWA, March 5.—Hon. L. P. Pelletier, postmaster-general, announced this morning that it had been decided to extend the weight limit on parcel post from six pounds to eleven, starting at once. The original intention was to allow three months to elapse before the weight of parcels was increased to eleven pounds. However, the system is already working so smoothly and so satisfactorily that it has been decided that the department will be prepared to cope with the increased business.

CARRIED REVOLVER AND THREATENED YOUNG WOMAN.

Sudbury Youth Caused Trouble in Skating Rink—Was Ejected.

SUDBURY, March 5.—The appearance of a youth at the wicket of the Palace Skating Rink with a revolver in his hand caused some excitement when Miss Flora Glenest, the ticket seller, fainted, and Mr. James, the caretaker, backed the "desperado" out of the building as he was "covered" with the revolver.

The youth entered the rink early in the evening and after skating for a while on leaving the rink demanded his admission refunded.

Miss Glenest refused his request, and the "desperado" thrust his hand and revolver into the wicket.

The police are looking into the case.

TO INSTAL HYDRO PLANT.

STRATHROY, March 5.—At a meeting of the town council a bylaw authorizing the borrowing of \$25,000 by the sale of debentures to provide for the cost of a plant to distribute electric light and power supplied by the hydro-electric power commission was passed.

A bylaw to provide for the supplying of water and electric light free of charge to, and the fixing of the assessment of, the Canadian Handle Manufacturing Company was passed.

HYDRO POWER IN BRUCE.

KINCARDINE, March 5.—Mayor Mitchell and Reeve Hunter saw the Hydro-Electric Commission with reference to power for this section of Bruce County. The chief engineer promised that a price per horsepower would be given some time in June. The scheme is to hook up the Sauguen and Eugenia Falls with Niagara power. The mayor said that what Bruce County towns want is electric power to place them upon an equal footing with other manufacturing centres.

TO VOTE ON BOND GUARANTEE.

ATLIMER, March 5.—At a meeting to consider guaranteeing the bonds of the London and Lake Erie Traction Line extensions to Aylmer and Sparta, an agreement was reached that the matter be referred to the people and a vote taken on it. Aylmer's total was reduced from \$40,000 to \$30,000, and the sum made up by the amount to vote is \$20,000. St. Thomas and Yarmouth will have the balance to make up.

DRUNKEN INDIANS IN RIOT.

WARTON, March 5.—Word has just reached town of a grand debauch of the Indians of Cape Croker Reserve on Shrove Tuesday. Many red men got some fire water, and with two squaws they got drunk and started a small riot. When the Cape constable tried to quiet them they took his baton from him and pounded him unmercifully. The rioting was stopped by the constable and the whole affair will come before Magistrate Miller.

TO TEACH DOMESTIC SCIENCE.

CHATHAM, March 5.—A special committee of the board of education visited schools in Walkerville and Detroit and secured information of value in considering the installing of domestic science and manual training in the Chatham Public Schools. A committee also visited schools in London and other parts of the province for the same purpose. The committee has recommended that these studies be installed.

INSPECTOR OF IMMIGRATION PROSECUTED AGENTS.

SUDBURY, March 5.—D. H. Reynolds, chief Dominion immigration inspector, arrived in town, and as a result certain employment officials will be prosecuted under the Immigration Act for hiring men, collecting fees and sending them to the different camps where there was no work. The charges will be tried before Magistrate Brodie. Inspector Reynolds says that the department has been active tracing and prosecuting employment agents who have been guilty of this offence.

FORESTERS' ANNIVERSARY.

GALT, March 5.—At Court Galt of the Canadian Order of Foresters, Wm. Brock, G. M. Stanley and W. G. Strong, representing the high court of the province, were present from Brantford tonight, it being past chief rangers' night, marking the 25th anniversary of the court. Two hundred Foresters were present.

BANK PROMOTIONS.

GALT, March 5.—W. Walker of the Yonge street, Toronto, branch, is appointed accountant of the Galt branch of the Bank of Toronto, to succeed George Hay, who has been transferred to Petrolia to become manager there.

NEW COW TESTING CENTRE.

CORNWALL, March 5.—The application of the Cornwall Cheese Board for the establishment of a dairy record centre for cow testing has been granted and the work has been commenced under A. L. Andreas of the department of agriculture, Ottawa. Mr. Andreas is getting in touch with the individual farms and by attending residents.

OLD GUELPH RESIDENT DEAD

GUELPH, March 5.—Another of Guelph's oldest residents and merchants died this afternoon in the person of Benjamin Savage, in his 78th year. He was engaged in the jewelry business in this city for many years. He leaves a widow and three children.

REV. JAMES HARRIS BURIED

GUELPH, March 5.—The funeral of the late Rev. James Harris, who died Sunday last, took place this morning. A private service for the members of the family was held at his late residence, conducted by Rev. G. W. Barker of Dublin Street Methodist Church, assisted by Rev. J. D. Fitzpatrick of Norfolk Street Church. The remains were then conveyed to Dublin Street Church, where a public service was held, which was attended by a large number of people.

DOING CHORES, DROPPED DEAD

KINGSTON, March 5.—Harry Tall, aged 23, recently out from the old county, dropped dead while doing chores at the home of Rev. J. D. Boyd. He was unmarried and had no relatives in this city.

MARKET GOVERNED BY STEEL ACTION

Passing of Dividend Has Bad Effect on Local Sentiment.

BRAZILS AGAIN WEAK

Good Day for the Bears on the Toronto Stock Exchange.

The passing of the next quarterly dividend on Steel Corporation shares created a bad feeling on the Canadian exchanges yesterday. Although the announcement had been anticipated there was the usual hope extant and the cold fact caused a feeling of uneasiness which took time to efface. Traders had parlayed the way for the fall down in dividend, but had by no means completely discounted the event as yesterday's prices showed.

LONDON MARKET WAS IRREGULAR

LONDON, March 5.—Money and discounts easy. The stock market was sluggish and irregular. The failure of the Canadian Government loan weakened Britishers, but console recovered later on reports of a sharp decline in Brazilian securities.

BANK OF ENGLAND

LONDON, March 5.—The weekly statement of the Bank of England shows the following changes in the balance sheet: Total reserve, dec. 21,296,000.

HARGRAVE HAS MONEY IN BANK

Production During Last Year Did Not Quite Equal the Expenditures.

Cash in the treasury amounting to \$26,000 is shown in the annual report of the Hargrave Silver Mines, Limited.

During the past year our production has not nearly equalled our expenditures, so that your directors, after consulting with several engineers, have decided to close down the mine and await further development.

The gross value of production was \$16,322.78 and the net value of the shipments \$16,315.38 for 1913.

The annual meeting will be held in the Prince George Hotel on March 11.

DEPRESSION RULED NEW YORK STOCKS

Chesapeake Broke Nearly Six Points on Announcement of Note Issue.

DOUBT IS GROWING

Uncertain Outlook for Increase in Freight Rates Causes Uneasiness.

NEW YORK, March 5.—Closing quotations today showed general losses, which were largest among the railroad stocks. The market made a small advance in the early trading under the stimulus of active speculative buying.

DECLINE IN IRON ON HEAVY SELLING

Severe Liquidation Forced Stock Down Rapidly in Montreal Trading.

MONTREAL, March 5.—A four-point break in iron on the passing of the dividend and a break in reports as to disturbed conditions in South America, effected a depressing influence on the local stock market today.

EUROPEAN BOURSES

PARIS, March 5.—Prices were firm on the bourse today. Three per cent. rent, 88 francs 47 1/2 centimes for the account.

BANK CLEARINGS

WINNIPEG, March 5.—Bank clearings for the week ended today were \$21,686,772.
